Wikimedia CEE Meeting 2014 (#WMCEE) is the third annual meeting of Wikimedians from Central and Eastern Europe. Our goal is to develop CEE community, share experience and receive new skills. We want to fortify interstate and international collaboration between various Wikimedia chapters, thematic organisations, user groups and other communities in Central and East Europe and its regions. After two successful editions in 2012 and 2013 we want to improve international cooperation and develop links with CEE countries that are still in process of developing local communities.
