General indexes to the first 42 vols.

Herbert, W. - An Appendix. (Amaryllidaceae)

General index to vols. 43 - 48.

Engraved by F. Sanfey.

William Curtis,
Author of the

FLORA LONDINENSIS, BOTANICAL MAGAZINE &c.

GENERAL INDEXES

TO THE

PLANTS

CONTAINED IN

THE FIRST FORTY-TWO VOLUMES

OF THE

Quarterly

BOTANICAL MAGAZINE,

IN TWO PARTS.

CONTAINING

PART I.

1. An Alphabetical **LATIN** INDEX of the Genera, Species, and Synonyms.

2. An Alphabetical **ENGLISH** INDEX of such Plants as have English Names different from the Latin or Botanical ones.

PART II.

1. A **SYSTEMATICAL INDEX.**

2. A **LIST** of such **PLANTS** as occur under different Names in the Hortus Kewensis, from those under which they were published in the **BOTANICAL MAGAZINE.**

3. An **ENUMERATION**, in the Order and Time of Publication.

L O N D O N :

Printed by **STEPHEN COUCHMAN**, Throgmorton-Street.

Published by **SHERWOOD, NEELY, & JONES**, 20, *Paternoster-Row*;

And Sold by the principal Booksellers in Great-Britain and Ireland.

1817.

Mo. Bot. Garden,
1899.

ADVERTISEMENT.

PURCHASERS of the BOTANICAL MAGAZINE who have an opportunity of choosing the mode of arranging the articles, will do well to consider, before they send them to the book-binders, which mode will be most advantageous to them.

There are three ways of arranging the Work.

1. *In the order in which they were published*; which being the way in which the Work must necessarily be quoted, has the advantage of a ready reference to the article quoted.

2. *In the systematic order, as pointed out in the Systematical Index.* This mode will be found best suited to the scientific Botanist, or to such as wish to become so; the former will readily find what he wants without the necessity of looking into the Index, and the Student will find the greatest advantage in having all the genera disposed in their proper classes and orders, and the species of each genus brought together. In both these modes, the letter-press and plates may be bound together, or separately, as may best suit the taste of the owner.

3. *The plates may be bound according to the systematic arrangement, and the letter-press according to the order of publication.* This mode will, in some measure, combine the advantages of the other two, and will be found most convenient; provided the trouble is taken to add the name to each figure, and the number, as prefixed in the Systematical Index, both to the figure and to the letter-press belonging to it.

N. B. The letter-press, bound separately, will make seven good-sized volumes,—six volumes in each.

1816,

P R E F A C E.

IN submitting the following INDEXES to our Readers, we thankfully acknowledge the assistance we have received from Mr. HARROP, of *Manchester*, who kindly transmitted to us a copious index, compiled for his own use, containing not only the names of the plants, as given in the *Botanical Magazine*, but of their synonyms also. By the aid of this index we have been enabled to render this part of our labours more complete than it would have otherwise been. We have, however, thought it would add more to bulk than to usefulness, to insert the synonyms of the older authors, prior to Linnæus's happy invention of trivial names.

It was from Mr. HARROP's suggestion, that we have been induced to add the adopted names to the synonyms; which will not only save the trouble of referring to the work itself to find its approved appellation, but even to those who do not possess the *Botanical Magazine*, may be found useful, especially to purchasers of plants, by preventing their giving orders for the same under different names, an inconvenience, which we have been assured frequently occurs, more especially in the country.

That we might increase the bulk of the index as little as possible, we have placed the adopted name under the synonym, prefixing the word *est*, instead of inserting it in a different column. By so doing, however, we suspect that at first sight, our index will appear somewhat confused, but the difficulty will be easily got over by observing, that the line will always lead the eye to the true alphabetical arrangement of the species, the intervening names having no line prefixed. The synonyms are printed in *Italics*; and where the approved name is different from the one under which the plant was published in the *Magazine*, the latter name is inserted beneath, between brackets. In the same manner, when the name adopted

in the Hortus Kewensis is different from the one in the Magazine, the former is inserted within brackets, with the letters H.K. under the latter.

We have preferred making our Indexes include forty-two, rather than only forty volumes, because those who choose to bind up the plates and letter-press separately will find, that six volumes of the latter will make one of a convenient size, and the whole will be comprehended in seven equal volumes. We rather recommend the binding the plates according to the systematic arrangement, and the letter-press numerically, as published. It will be useful, to students particularly, to have all the species of the same genus arranged together, and the figures on the plates will refer readily to the letter-press.

The second part is in great forwardness, and will be published with as little delay as possible, containing 1st, the systematic arrangement; 2d, a list of the plants which have different names in the last edition of the Hortus Kewensis from those under which they are published in the Botanical Magazine; and 3d, an enumeration of the whole in numerical order with corrections.

EXPLANATION

OF THE

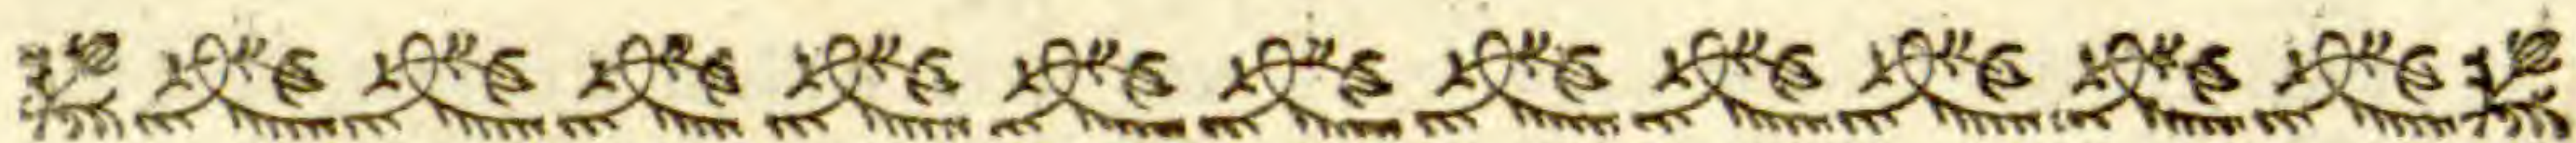

Abridgments used in the LATIN INDEX.

-
- Ad. **A**DANSON, Familles des Plantes.
- Aubl. Aublet, Histoire des Plantes de la Guiane.
- Berg. Bergius Descriptiones Plantarum Capitis Bonæ Spei.
- Bieb. Marschal a Bieberstein, Flora Taurico-Caucasica.
- B.M. Botanical Magazine.
- B.R. Botanist's Repository.
- Br. Brown, Prodrromus Floræ Novæ Hollandiæ.
- Brot. Brotero, Flora Lusitanica.
- Burm. Burmannus, Flora Zeylanica-Africana, &c.
- Cav. Cavanilles, Icones Plantarum.
- Cyr. Cyrilli (Cirillo) Plantæ Rariores Regni Neapolitani.
- Dec. De Candolle, Plantes Grasses, and other Works.
- Desf. Desfontaines, Flora Atlantica, &c.
- Donn Donn, Hortus Cantabrigiensis.
- Doug. Douglas, Description of the Guernsey Lily.
- Ehr. Ehrart, a celebrated German Botanist.
- Ex.Bot. Exotic Botany, by Dr. (now) Sir James Edward Smith.
- Fl.P. Flora Peruviana, by Ruez and Pavon.
- Forsk. Forskähl, Flora Ægyptiaca, &c.

- G. Gawler, now John Bellenden Ker, Esq.
- Gært. Gærtner, *De Fructibus et Seminibus Plantarum*.
- Habl. Hablitz, a Russian Botanist.

ENGLISH INDEX*.

- A**DAM's-needle, *see* Yucca.
 Alkanet, *see* Anchusa.
 Allspice, *see* Calycanthus.
 Almond, *see* Amygdalus.
 Althæa-frutex, *see* Hibiscus.
 Apple-berry, *see* Billardiera.
 Apple-tree, *see* Pyrus.
 Archangel, *see* Lamium.
 Arrow-grass, *see* Triglochin.
 Arrow-head, *see* Sagittaria.
 Asphodel, *see* Asphodelus.
 Atamasco-Lily, *see* Amaryllis.
 Balm, *see* Melissa.
 Balsam, *see* Impatiens.
 Banana, *see* Musa.
 Barbadoes-Cherry, *see* Malpighia.
 Bastard-Fox-glove, *see* Maurandia.
 Bastard-Cinnamon, *see* Laurus.
 Bastard-Vervain, *see* Stachytarpheta.
 Basil, *see* Ocimum.
 Bay, *see* Laurus.
 Bead-tree, *see* Melia.
 Bean-caper, *see* Zygophyllum.
 Bear's-ear, Chinese, *see* Saxifraga.
 Bear's-ear, *see* Primula.
 Bear's-ear-sanicle, *see* Cortusa.
 Bell-flower, *see* Campanula.
 Betony, *see* Betonica.
 Bind-weed, *see* Convolvulus.
 Bird's-foot-trefoil, *see* Lotus.
 Birth-wort, *see* Aristolochia.
 Bitter-vetch, *see* Orobus.
 Bladder-senna, *see* Colutea.
 Blood-flower, *see* Hæmanthus.
 Blue-bottle, *see* Centaurea.
 Bow-string-Hemp, *see* Sansevieria.
 Box-thorn, *see* Lycium.
 Bramble, *see* Rubus.
 Broom, *see* Spartium.
 Brunswick-Lily, *see* Brunsvigia.
 Buck-bean, *see* Menyanthes.
 Buckwheat-tree, *see* Mylocarium.
 Bug-wort, *see* Cimicifuga.
 Button-weed, *see* Spermacocce.
 Calathian-Violet, *see* Gentiana.
 Champion, *see* Cucubalus.
 Champion, *see* Silene.
 Candy-tuft, *see* Iberis.
 Cape-Aster, *see* Cineraria.
 Cape-Bryony, *see* Tamus.
 Cape-Coast-Lily, *see* Amaryllis.
 Cape-Gooseberry, *see* Physalis.
 Caper-shrub, *see* Capparis.
 Carnation, *see* Dianthus.
 Casmunar, *see* Zingiber.
 Cassia, *see* Laurus.
 Catchfly, *see* Silene.
 Catmint, *see* Nepeta.
 Centaury, *see* Centaurea.
 Chandelier-flower, *see* Brunsvigia.
 Chaste-tree, *see* Vitex.
 Chinese Guelder-Rose, *see* Hydrangea.
 Chives, *see* Allium.
 Cinque-foil, *see* Potentilla.
 Clover, *see* Trifolium.
 Cockle, *see* Agrostemma.
 Coffee-tree, *see* Coffea.
 Colts-foot, *see* Tussilago.
 Columbine, *see* Aquilegia.
 Comfrey, *see* Symphytum.
 Coral-tree, *see* Erythrina.
 Cornel, *see* Cornus.
 Cornflag, *see* Gladiolus.

* The almost universal use of the Latin botanical names, renders it unnecessary to do more than to give a list of such as have English appellations different from the Latin generic names.

- Cranesbill, *see* Pelargonium.
 Crow-foot, *see* Ranunculus.
 Crown-Imperial, *see* Fritillaria.
 Cuckow-flower, *see* Cardamine.
 Cucumber Indian, *see* Medeola.
 Cudweed, *see* Gnaphalium.
 Cumberland-tree, *see* Clerodendrum.
 Currant, *see* Ribes.
 Daffodil, *see* Narcissus.
 Daisy, *see* Bellis.
 Day-lily, *see* Hemerocallis.
 Devil in a Bush, *see* Nigella.
 Dittany of Crete, *see* Origanum.
 Dogs-bane, *see* Apocynum.
 Dogs-tooth-Violet, *see* Erythrinum.
 Dragons-head, *see* Dracocephalum.
 Elephant's-foot, *see* Tamus.
 Evening flower, *see* Hesperantha.
 Evening Primrose, *see* Oenothera.
 Everlasting, *see* Gnaphalium.
 Fairmaids of France, *see* Ranunculus.
 Fennel-flower, *see* Nigella.
 Feverfew, *see* Pyrethrum.
 Fig-Marigold, *see* Mesembryanthem-
 Flag, *see* Iris. [um.
 Flat-pea, *see* Platylobium.
 Flax, *see* Linum.
 Flax-tree, *see* Linum.
 Flower-de-Luce, *see* Iris.
 Flower-sence, *see* Poinciana.
 Fly-Honeysuckle, African, *see* Halle-
 Fly-trap, *see* Dionæa. [ria.
 Fox-Glove, *see* Digitalis.
 French Marigold, *see* Tagetes.
 Fritillary, *see* Fritillaria.
 Fumitory, *see* Fumaria.
 Garland-flower, *see* Hedychium.
 Garlic, *see* Allium.
 Gentian, *see* Gentiana.
 Germander, *see* Teucrium.
 Ginger, *see* Zingiber.
 Ginseng, *see* Panax.
 Globe-flower, *see* Trollius.
 Globe-Thistle, *see* Echinops.
 Grape-Hyacinth, *see* Muscari.
 Grass of Parnassus, *see* Parnassia.
 Ground-Batan, *see* Rhaps.
 Gromwell, *see* Lithospermum.
 Guernsey-Lily, *see* Amaryllis.
 Halberd-Weed, *see* Calea.
 Harebell, *see* Scilla.
 Hawthorn, *see* Cratægus.
 Heath, *see* Erica.
 Heart's-ease, *see* Viola.
 Heart-seed, *see* Cardiospermum.
 Hellebore, *see* Helleborus.
 Henbane, *see* Hyoscyamus.
 Hepatica, *see* Anemone.
 Heron's-bill, *see* Erodium.
 Hollyhock, *see* Althæa.
 Honeysuckle, *see* Lonicera.
 Honeywort, *see* Cerinthe.
 Horseshoe-Vetch, *see* Hippocrepis.
 Houseleek, *see* Sempervivum.
 Hyacinth, *see* Hyacinthus.
 Jacobea-Lily, *see* Amaryllis.
 Jalap, *see* Convolvulus.
 Japan-Rose, *see* Camellia.
 Jasmine, *see* Jasminum.
 Indian-Cress, *see* Tropæolum.
 Indian-Fig, *see* Cactus.
 Indian-Reed, *see* Canna.
 Indian-Shot, *see* Canna.
 Indigo, *see* Indigofera.
 Jonquil, *see* Narcissus.
 Judas-tree, *see* Cercis.
 Kidney-Vetch, *see* Anthyllis.
 Kingspear, *see* Asphodelus.
 Laburnum, *see* Cytisus.
 Ladies-finger, *see* Anthyllis.
 Lady's-slipper, *see* Cypripedium.
 Ladies-smock, *see* Cardamine.
 Larkspur, *see* Delphinium.
 Laurus-tinus, *see* Viburnum.
 Lavender, *see* Lavendula.
 Leadwort, *see* Plumbago.
 Leopards-bane, *see* Arnica.
 Lilac, *see* Syringa.
 Lily, *see* Liliun.
 Lily-Pink, *see* Aphyllanthes.
 Loblolly-Bay, *see* Gordonia.
 Loosestrife, *see* Lysimachia.
 Lung-wort, *see* Pulmonaria.
 Lupin, *see* Lupinus.
 Malabar-Nut, *see* Justicia.
 Martagon, *see* Liliun.
 Marvel of Peru, *see* Mirabilis.
 Masterwort, *see* Aстранtia.
 Meadow-Saffron, *see* Colchicum.
 Mezereon, *see* Daphne.
 Mignonette, *see* Reseda.
 Milfoil, *see* Achillea.
 Milk-wort, *see* Polygala.
 Milk-Vetch, *see* Astragalus.
 Mock-Orange, *see* Philadelphus.
 Monkey-flower, *see* Mimulus.
 Mountain-Ebony, *see* Bauhinia.
 Moutan, *see* Pæonia.
 Mullein, *see* Verbascum.
 Musk-Hyacinth, *see* Muscari.
 Myrtle, *see* Myrtus.
 Navel-wort, *see* Cotyledon.

- Navel-wort, *see* *Cynoglossum*.
 Nightshade, *see* *Solanum*.
 New-Jersey Tea, *see* *Ceanothus*.
 Oily-grain, *see* *Sesamum*.
 Olive, *see* *Olea*.
 Onion, *see* *Allium*.
 Onion-tree, *see* *Allium*.
 Opera-girls, *see* *Mantisia*.
 Orpine, *see* *Sedum*.
 Palmetto, *see* *Sabal*.
 Passion-flower, *see* *Passiflora*.

GENERAL INDEXES

TO THE

PLANTS

CONTAINED IN

THE FIRST FORTY-TWO VOLUMES

OF THE

BOTANICAL MAGAZINE.

PART II.

CONTAINING

1. A SYSTEMATICAL INDEX.
 2. A LIST of such PLANTS as occur under different Names in the Hortus Kewensis, from those under which they were published in the BOTANICAL MAGAZINE.
 3. An ENUMERATION, in the Order and Time of Publication.
-
-

L O N D O N :

Printed by STEPHEN COUCHMAN, Throgmorton-Street.

Published by SHERWOOD, NEELY, & JONES, 20, *Paternoster-Row* ;

And Sold by the principal Booksellers in Great-Britain and Ireland.

ADVERTISEMENT.

PURCHASERS of the BOTANICAL MAGAZINE who have an opportunity of choosing the mode of arranging the articles, will do well to consider, before they send them to the bookbinders, which mode will be most advantageous to them.

There are three ways of arranging the Work.

1. *In the order in which they were published*; which being the way in which the Work must necessarily be quoted, has the advantage of a ready reference to the article quoted.

2. *In the systematic order, as pointed out in the Systematical Index.* This mode will be found best suited to the scientific Botanist, or to such as wish to become so; the former will readily find what he wants without the necessity of looking into the Index, and the Student will find the greatest advantage in having all the genera disposed in their proper classes and orders, and the species of each genus brought together. In both these modes, the letter-press and plates may be bound together, or separately, as may best suit the taste of the owner.

3. *The plates may be bound according to the systematic arrangement, and the letter-press according to the order of publication.* This mode will, in some measure, combine the advantages of the other two, and will be found most convenient; provided the trouble is taken to add the name to each figure, and the number, as prefixed in the Systematical Index, both to the figure and to the letter-press belonging to it.

N. B. The letter-press, bound separately, will make seven good-sized volumes,—six volumes in each.

ADVERTISING

PUBLISHERS of the BOTANICAL MAGAZINE who have an opportunity of choosing the mode of arranging the articles will do well to consider, before they send them to the bookseller, what mode will be most advantageous to them.

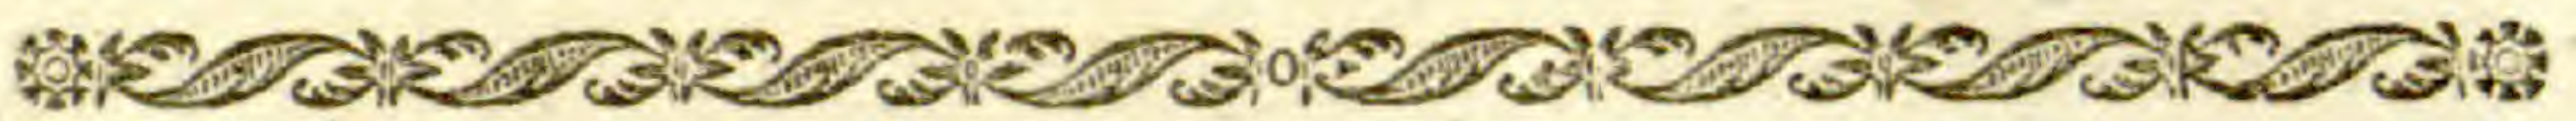

There are three ways of arranging the *Work*.

1. In the order in which they were published, which being the way in which the *Work* was necessarily published, has the advantage of a ready reference to the article quoted.

2. In the systematic order, as pointed out in the *Systematic Index*. This mode will be found best suited to the purpose, and is the most convenient for the purpose of reference. It will greatly facilitate the search for any particular article, and the Editor will find it a great advantage in having all the names of plants in their proper systematic order, and the names of each genus brought together. In both these modes, the *Index* must be placed at the end of the *Work*, as otherwise, we are obliged to the Editor of the *Work*.

3. The *Index* may be placed according to the systematic arrangement, and the *Index* may be arranged in the order of publication. This mode will be found most convenient for the purpose of reference, and will be found that the Editor will find it a great advantage in having all the names of plants in their proper systematic order, and the names of each genus brought together. In both these modes, the *Index* must be placed at the end of the *Work*, as otherwise, we are obliged to the Editor of the *Work*.

4. The *Index* may be placed according to the systematic arrangement, and the *Index* may be arranged in the order of publication. This mode will be found most convenient for the purpose of reference, and will be found that the Editor will find it a great advantage in having all the names of plants in their proper systematic order, and the names of each genus brought together. In both these modes, the *Index* must be placed at the end of the *Work*, as otherwise, we are obliged to the Editor of the *Work*.

SYSTEMATICAL INDEX,

IN WHICH

The Plants contained in the First Forty-Two Volumes of the **BOTANICAL MAGAZINE** are arranged systematically.

N. B. In the following Index, the Plants are, in general, arranged according to the System of LINNÆUS, and in the order adopted in the Hortus Kewensis; but it has been thought right to make some few changes, by which the unnecessary separation of Plants of the same natural family has been sometimes prevented. Thus the genera *Patersonia*, *Sisyrinchium*, *Ferraria*, *Tigridia*, and *Galaxia*, which in the Hortus Kewensis are placed in Monadelphia Triandria, are in our arrangement combined with the Class TRIANDRIA; by which means the Plants of the natural order of *ENSATÆ*, so successfully laboured by our able coadjutor in these volumes, JOHN BELLENDEN KER, Esq. are kept together. Similar changes are made in some other instances, which will be found to be noticed as they occur.

As, in the progress of science, many of the names have been altered since the publication of the figures, those of the Hortus Kewensis, a work considered of the first authority, generally stand first, and the names under which the Plants were published in the Magazine are inserted below within brackets. But it may be observed, that many of these changes were first made in the Magazine, by Mr. KER (formerly GAWLER, whence the signature G.) and afterwards adopted in the Hortus Kewensis, as has been generally the case in the natural orders of *ensatæ* and *liliaceæ*. In the few cases where the name adopted in the Hortus Kewensis is placed within the brackets and printed in italics, it is designed to mark a preference of the name above it. And where both the first name and

that within the brackets are printed in roman letters, it is meant not to determine which is to be preferred, as it may be doubted whether some of the new genera, adopted in the Hortus Kewensis, will be acknowledged by Botanists in general.

* *Thea* and *Camellia* are so nearly allied, that they can hardly be separated into distinct genera; and as we find the filaments in *Thea* to be united at the base, and to fall with the corolla, we see the same reason for placing it in *Monadelphina* as for *Camellia* being there.

A

L I S T

Of such PLANTS as occur under different Names in the
HORTUS KEWENSIS, from those under which they were
published in the BOTANICAL MAGAZINE.

—*—

HORTUS KEWENSIS.

BOTANICAL MAGAZINE.

A CACIA myrtifolia	<i>Mimosa</i> myrtifolia.
Acacia pubescens	<i>Mimosa</i> pubescens.
Acacia stricta	<i>Mimosa</i> stricta.
Acacia verticillata	<i>Mimosa</i> verticillata.
Allium inodorum	Allium gracile, G.
Allium nigrum	Allium magicum.
Allium sibiricum	Allium Schœnoprasum, β.
*Allium subhirsutum	Allium <i>ciliatum</i> .
Aloe glauca	Aloe rhodacantha.
Aloe reticulata	Aloe arachnoides, γ. reticulata.
Alyssum maritimum	Alyssum halimifolium.
Amaryllis crispa	Strumaria crispa.
Amaryllis falcata	Brunsvigia falcata.
*Amaryllis gigantea	Amaryllis <i>ornata</i> , β.
*Anomatheca juncea	Phalangium Liliago.
Anthericum Liliago	<i>Lapeyrousia juncea</i> .
Anthericum exuviatum	Albuca exuviata.
Anthericum Liliastrum	Phalangium Liliastrum.
Anthericum ramosum	Phalangium ramosum.
Aquilegia vulgaris, δ. speciosa	Acquilegia hybrida.
*Aristea spiralis	Morœa spiralis.
Astrantia helleborifolia	Astrantia maxima.
*Babiana rubro-cyanea	<i>Ixia</i> rubro-cyanea.
Baptisia alba	Podalyria alba.
Baptisia australis	<i>Sophora</i> australis (Podalyria.)
Baptisia tinctoria	Podalyria tinctoria.
Bauera rubiæfolia	Bauera rubioides.
Begonia discolor	Begonia Evansiana.

* The asterisk placed before the name, denotes that it had been changed in some later Number of the Botanical Magazine, prior to the publication of the last edition of the Hortus Kewensis.

Bignonia australis	Bignonia Pandoræ.
Bletia hyacinthina	Cymbidium hyacinthinum.
Bletia vericunda	Limodorum altum.
Bossiaea heterophylla	Bossiaea lanceolata.
Brassavola cucullata	Epidendrum cucullatum.
Caladium bicolor	Arum bicolor.
Calendula viscosa	Arctotis glutinosa.
Callopagon pulchellus	Limodorum tuberosum.
Campanula alliarifolia	Campanula macrophylla.
Campanula rotundifolia, β	Campanula pumila.
Canna coccinea	Canna indica.
Chrysanthemum carinatum	Chrysanthemum tricolor.
Cotyledon pinnata	Bryophyllum calycinum.
Cyclopia genistoides	Ibbetsonia genistoides.
Cymbidium aloifolium	Epidendrum aloifolium.
Cymbidium ensifolium	Epidendrum ensifolium.
Cymbidium sinense	Epidendrum sinense.
Cypripedium humile	Cypripedium acaule.
Dahlia frustranea	Dahlia coccinea.
Draba ciliaris	Draba aizoides.
Dracæna borealis	Smilacina borealis.
Dracæna marginata	Phyloma aloiflorum.
Edwardsia grandiflora	<i>Sophora tetraptera.</i>
Elichrysum canescens	Xeranthemum canescens.
Elichrysum fasciculatum, α	Xeranthemum sesamoides, γ .
Elichrysum fulgidum	Xeranthemum fulgidum.
Elichrysum sesamoides	Xeranthemum sesamoides.
Epacris purpurascens	Epacris pungens, errore.
Erica Aitoniana	Erica Aitonia.
Erica carnea	Erica herbacea.
Erica fastigiata, β	Erica primuloides.
Erica hirtiflora, β	Erica pubescens.
Erica vestita, β	Erica longifolia.
Erodium chamædryoides	<i>Geranium Reichardi.</i>
Eutaxia myrtifolia	Dillwynia obovata.
Euthales trinervis	Goodenia tenella.
Farsetia deltoidea	Alyssum deltoideum.
Fritillaria persica, γ	Fritillaria obliqua.
Fritillaria pyrenaica	Fritillaria racemosa.
Fumaria bulbosa	Fumaria cava.
Fumaria sempervirens	Fumaria glauca.
Galax cordifolia	Galax aphylla.
Gaura mutabilis	Oenothera anomala.
*Geissorhiza excisa	<i>Ixia excisa.</i>
*Geissorhiza rochensis	<i>Ixia rochensis.</i>
*Geissorhiza secunda	<i>Ixia secunda.</i>
*Gladiolus Cunonia	<i>Antholyza Cunonia.</i>
Globba radicalis, <i>addenda</i>	Mantisia saltatoria.
Grevillea sericea	Embothrium sericeum.
Heliophila pilosa, β . incisa	Heliophila arabioides.
*Hesperantha falcata	<i>Ixia falcata.</i>
*Hesperantha radiata	<i>Ixia radiata.</i>
Hibiscus Patersonii	Lagunæa Patersonia.
Hoya carnosa	<i>Asclepias carnosæ,</i>

Hyacinthus botryoides	Muscari (<i>Hyacinthus</i>) botryoides.
Hyacinthus corymbosus	Scilla (<i>Massonia</i>) corymbosa.
Hyacinthus Muscari	Muscari moschatum.
Hyacinthus racemosus	Muscari (<i>Hyacinthus</i>) racemosum.
Hyacinthus romanus	Scilla romana.
Jasminum gracile	Jasminum simplicifolium?
*Iris fimbriata	Iris chinensis.
*Iris halophila	Iris spuria, δ . halophila.
*Iris sambucina, β	Iris <i>squalens</i> .
*Iris spuria, α . major	Iris halophila.
*Iris spuria, β . minor	Iris spuria.
Isopogon anemonifolius	<i>Protea anemonifolia</i> .
Justicia furcata	Justicia <i>peruviana</i> .
Ixia aulica	Ixia capillaris, γ . aulica.
Ixia linearis	Ixia capillaris, α . gracillima.
Ixia retusa	Ixia polystachya.
Kennedia monophylla	Glycine bimaculata.
Kennedia prostrata	Glycine coccinea.
Kennedia rubicunda	Glycine rubicunda.
Lachenalia pendula, β	Lachenalia quadricolor.
Lachenalia serotina	Scilla serotina.
Leucadendron concolor	<i>Protea globosa</i> .
Lilium bulbiferum, γ	Lilium pensylvanicum.
Linaria alpina	Antirrhinum alpinum.
Linaria purpurea	Antirrhinum purpureum.
Linaria spartea	Antirrhinum sparteum.
Linaria triornithophora	Antirrhinum triornithophorum.
Linaria triphylla	Antirrhinum triphyllum.
Linaria tristis	Antirrhinum triste.
Linaria viscosa	Antirrhinum viscosum.
Lysimachia stricta	Lysimachia <i>bulbifera</i> .
Magnolia obovata	Magnolia purpurea.
Malcomia maritima	Cheiranthus maritimus.
*Marica Martinicensis	<i>Iris martinicensis</i> .
Massonia scabra	Massonia pustulata.
Mathiola tristis	<i>Cheiranthus tristis</i> .
Menziesia globularis	Menziesia ferruginea, β .
Mesembryanthemum coccineum	Mesembryanthemum bicolorum.
Metrosideros lanceolata	Metrosideros <i>citrina</i> .
*Moræa tristis	<i>Iris tristis</i> .
*Moræa viscaria	<i>Iris viscaria</i> .
*Narcissus bicolor, β	Narcissus major.
Narcissus lætus	Narcissus odorus.
Narcissus nutans	Narcissus trilobus.
Narcissus odorus	Narcissus calathinus.
Narcissus Tazetta, β	Narcissus papyraceus.
Narcissus Tazetta, γ	Narcissus italicus.
Nepeta Mussini	Nepeta <i>longiflora</i> .
Oncidium carthagenense	<i>Epidendrum undulatum</i> .
Ornithidium coccineum	Cymbidium coccineum.
Ornithogalum altissimum	Drimia altissima.
Ornithogalum luteum	Gagea lutea.
Ornithoglossum viride	Melanthium viride.
Othonna perfoliata	Othonna amplexicaulis.

Panax trifolium	Panax pusilla.
Pancratium speciosum	Pancratium caribæum.
*Pardanthus chinensis	<i>Ixia</i> chinensis.
Pavonia præmorsa	Hibiscus præmorsus.
Pelargonium cordatum	Pelargonium cordifolium.
*Pelargonium glaucum	<i>Geranium lanceolatum</i> .
*Pelargonium peltatum	<i>Geranium peltatum</i> .
*Pelargonium Radula	<i>Geranium Radula</i> .
Petrophila pulchella	Protea pulchella.
Physalis peruviana	Physalis edulis.
Podolepis acuminata	Scalia jaceoides.
Podophyllum diphyllum	Jeffersonia diphylla.
Ponthieva glandulosa	Neottia glandulosa.
*Protea cordata	Protea <i>cordifolia</i> , errore.
Protea melaleuca	Protea Lepidocarpon.
Rafnia triflora	Crotalaria triflora.
Rhapis acaulis	Sabal Adansonii.
Robinia viscosa	Robinia glutinosa.
Rosa lutea, β	Rosa bicolor.
Rosa semperflorens, β	Rosa semperflorens.
Sansevieria carnea	Sansevieria sessiliflora.
Scævola microcarpa	Goodenia lævigata.
Scilla maritima	Ornithogalum Squilla.
Scilla sibirica	Scilla amœna, β . sibirica.
Scilla unifolia	Ornithogalum unifolium.
Serissa fœtida	Lycium japonicum.
Silene stellata	Cucubalus stellatus.
Sisyrinchium anceps	Sisyrinchium gramineum.
Sisyrinchium Bermudiana	Sisyrinchium iridioides.
Sisyrinchium californicum	Marica californica.
Sisyrinchium latifolium	Marica plicata.
Sonchus tingitanus	Scorzonera tingitana.
*Sparaxis bicolor	<i>Ixia</i> bicolor.
*Sparaxis bulbifera	<i>Ixia</i> bulbifera.
*Sparaxis grandiflora, α	<i>Ixia</i> grandiflora.
*Sparaxis tricolor	<i>Ixia</i> tricolor.
Spartium linifolium	Genista linifolia.
Strelitzia ovata	Strelitzia Reginæ.
Sutherlandia frutescens	Colutea frutescens.
*Swainsona galegifolia	<i>Colutea galegifolia</i> .
Talinum arachnoides	Anacampseros arachnoides.
Talinum filamentosum	Anacampseros filamentosa.
Teucrium fruticans	Teucrium latifolium.
Thea Bohea, α . laxa	Thea chinensis, β .
Thermopsis lanceolata	Podalyria lupinoides.
Tolpis barbata	Crepis barbata.
*Trichonema Bulbocodium	<i>Ixia</i> Bulbocodium.
Trillium grandiflorum	Trillium erythrocarpum.
Trillium pendulum	Trillium erectum, β .
Tristania nereifolia	<i>Melaleuca nereifolia</i> .
*Tritonia crocata	<i>Ixia</i> crocata.
*Tritonia lineata	<i>Gladiolus lineatus</i> .
*Tritonia longiflora	<i>Ixia</i> longiflora.
*Tritonia rosea	Tritonia capensis.

- **Tritonia securigera*.....*Gladiolus securiger.*
- Veratrum virginicum*.....*Helonias virginica.*
- Veratrum viride*.....*Helonias viridis.*
- Veltheimia viridifolia*.....*Veltheimia (Alettris) capensis.*
- Vitex incisa*.....*Vitex Negundo.*
- **Watsonia aletroides, α.*.....*Antholyza Merianella.*
- Wurmbea campanulata*.....*Melanthium monopetalum.*
- Wurmbea purpurea*.....*Melanthium spicatum.*
- Zygophyllum foetidum*.....*Zygophyllum insuave.*

[Faint, illegible text, likely bleed-through from the reverse side of the page.]

An ENUMERATION of the PLANTS figured in the first Forty-
Two Volumes of the BOTANICAL MAGAZINE*.

Volume	Fasci- culust	Num- ber	
I. Feb. 1787.	1	1	I RIS persica Persian Iris, or Flag.
		2	Rudbeckia purpurea Purple Rudbeckia.
		3	Helleborus hyemalis Winter Hellebore, or Aconite.
March	2	4	Cyclamen Coum Round-leaved Cyclamen.
		5	Erythronium Dens Canis Dogs-tooth, or Dogs-tooth Violet.
April	3	6	Narcissus minor Least Daffodil.
		7	Cynoglossum Omphalodes Blue Navel-wort.
		8	Helleborus niger Black Hellebore, or Christ- mas Rose,
May	4	9	Iris pumila Dwarf Flag.
		10	Anemone Hepatica Hepatica, or Noble Liver- wort. [Hepatica triloba. <i>Decand. fl. franc.</i>]
June	5	11	Erica herbacea Herbaceous Heath.
		12	Dodecatheon Meadia Mead's Dodecatheon, or American Cowslip.
		13	Coronilla glauca Sea-green, or Day-smelling Coronilla.
		14	Primula villosa Mountain Primrose.
		15	Narcissus Jonquilla Common Jonquil.
July	6	16	Iris variegata Variegated Flag.
		17	Cactus flagelliformis Creeping Cereus.
		18	Erodium <i>Chamaedryoides</i> Dwarf Crane's-bill. [<i>Geranium Reichardi</i> .]
Aug.	7	19	Hemerocallis flava Yellow Day Lily.
		20	Pelargonium peltatum Ivy-leaved Crane's-bill. [<i>Geranium peltatum</i> .]
Sept.	8	21	Iris versicolor Particoloured Flag.
		22	Nigella damascena Garden Fennel-flower, or Love in a Mist.

Omit the synonym of Parkinson, which belongs to
Nigella hispanica, and insert *Mill. Icon. 187. f. 2.*

* A Numeral Index, denoting the order and Time of publication, is far from being useless, even to such as choose to bind up their volumes in the same order; but must be indispensable to those who prefer any other arrangement; because, when the regular order is once disturbed, all reference to numbers becomes unavailable.

† To avoid confusion, we use the word *Fasciculus*, to denote the quantity published at one time; and when *Number* is referred to, it always means the number of the plate or the text accompanying it.

Vol.	Fasc.	No.	
I. Sept.	8	23	<i>Tropæolum majus</i> Greater Indian Cress, or Nasturtium.
		24	<i>Agrostemma Coronaria</i> Common red Rose Campion or Cockle.
Oct.	9	25	<i>Dianthus chinensis</i> Chinese or Indian Pink.
		26	<i>Stapelia variegata</i> Variegated Stapelia.
		27	<i>Convolvulus tricolor</i> Trailing Bindweed, or <i>Convolvulus minor</i> .
Nov.	10	28	<i>Passiflora cærulea</i> Common Passion-flower.
		29	<i>Reseda odorata</i> Sweet-scented Reseda, or Mignonette.
Dec.	11	30	<i>Lilium chalcedonicum</i> Scarlet Martagon Lily.
		31	<i>Jasminum officinale</i> Common white Jasmine.
		32	<i>Mesembryanthemum do-</i> <i>labritorme</i> } Hatchet-leaved Fig-Mari- gold.
		33*	<i>Aster tenellus</i> } Bristly-leaved, or dwarf Star-wort.
Jan. 1788.	12	34*	<i>Browallia elata</i> Tall Browallia.
		35	<i>Crepis barbata</i> Bearded Crepis, or Purple- [<i>Tolpis barbata</i> , НК.] eyed Succory-Hawkweed.
II. Feb.	13	36	<i>Lilium bulbiferum</i> Orange Lily.
		37	<i>Chironia frutescens</i> Shrubby Chironia.
		38	<i>Viburnum Tinus</i> Common Laurustinus.
March	14	39	<i>Dianthus caryophyllus</i> , } Franklin's Tartar Carna- <i>v. flore pleno</i> } tion.
		40	<i>Trillium sessile</i> Sessile-flowered Trillium.
		41	<i>Calceolaria pinnata</i> Pinnated Slipper-wort.
		42	<i>Camellia japonica</i> Rose Camellia.
April	15	43	<i>Cistus incanus</i> Hoary, or Rose Cistus.
		44	<i>Cyclamen persicum</i> Persian Cyclamen.
May	16	45	<i>Crocus masiacus</i> Common yellow Crocus. [<i>Crocus vernus</i> .] Consult No. 938 and No. 1111.
		46	<i>Leucojum vernum</i> Spring Snow-flake.
		47	<i>Amaryllis formosissima</i> Jacobea Lily. Consult No. 1450, note.
		48	<i>Narcissus triandrus</i> Reflexed, or Rush-leaved Daffodil.
June	17	49	<i>Soldanella alpina</i> Alpine Soldanella.
		50	<i>Iris sibirica</i> Siberian Flag.
		51	<i>Narcissus bicolor</i> Great Daffodil. [<i>N. major</i> .]
July	18	52	<i>Gentiana acaulis</i> Large-flowered Gentian, or Gentianella.
		53	<i>Cineraria lanata</i> Woolly Cineraria.
		54	<i>Anemone sylvestris</i> Large white-flowered Wood Anemone.
Aug.	19	55	<i>Geranium striatum</i> Streaked Crane's-bill, or Lady's Needle-work.
		56	<i>Pelargonium glaucum</i> Spear-leaved Crane's-bill. [<i>Geranium lanceolatum</i> .]
Sept.	20	57	<i>Papaver orientale</i> Eastern Poppy.
		58	<i>Iris spuria</i> , <i>β. minor</i> Small Spurious Flag. [<i>Iris spuria</i> .]

* 33 and 34, in some copies, are wrong; in the letter-press 34 should be 33, and vice versa.

Vol.	Fasc.	No.	
II. Sept.	20	59	Mesembryanthemum bi- colorum } Two-coloured Fig-Mari- gold.
		60	Lathyrus odoratus } Purple Sweet-pea, or Vetchling.
Oct.	21	61	Iris spuria, <i>γ. ochroleuca</i> . . . Tall Flag: [Iris ochroleuca.] <i>Vide No. 1131 et 1514.</i>
		62	Centaurea glastifolia Woad-leaved Centaury.
		63	Fragaria monophylla One-leaved Strawberry, or Strawberry of Versailles.
Nov.	22	64	Hemerocallis fulva Tawny Day-Lily.
		65	Clematis integrifolia Entire-leaved Virgin's- Bower.
		66	Passiflora alata Winged-stalked Passion- flower.
Dec.	23	67	Mesembryanthemum pin- natifidum } Pinnated Fig-Marigold.
		68	Sempervivum arachnoideum Cobweb House-leek.
		69	Rosa muscosa Moss Rose.
Jan. 1789.	24	70	Mesembryanthemum bar- batum } Bearded Fig-Marigold.
		71	Statice pinnata Scollop-leaved Thrift.
III. Feb.	25	72	Helleborus lividus Great three-leaved black Hellebore.
		73	Monsonia speciosa Large-flowered Monsonia.
		74	Antirrhinum triste Melancholy, or black- flowered Toad-Flax.
March	26	75	Potentilla grandiflora Great-flowered Cinque-foil.
		76	Epilobium angustissimum. Narrowest-leaved Willow- herb.
		77	Centaurea montana Mountain Centaury, or greater Blue-bottle.
April	27	78	Narcissus odorus Sweet-scented, or great Jonquil.
		79	Lotus jacobæus Dark-flowered Bird's-foot- Trefoil.
		80	Spigelia marilandica Maryland Spigelia, or Worm-Grass.
May	28	81	Colutea arborescens Common Bladder senna.
		82	Lachenalia tricolor Three-coloured Lachenalia
		83	Hibiscus syriacus Syrian Hibiscus, or Althæa Frutex.
June	29	84	Tussilago alpina Alpine Coltsfoot.
		85	Spartium Junceum Spanish Broom.
		86	Gladiolus Communis Common Corn-flag. <i>Consult No. 719.</i>
July	30	87	Hyoscyamus aureus Golden-flowered Hen-bane
		88	Narcissus Bulbocodium . . Hoop-Petticoat Daffodil.
		89	Viola pedata Cut-leaved Violet.
		90	The whole order of Syngenesia Monogamia is now generally abolished and the genera removed to other classes, by which alteration Viola is added to Pen- tandria Monogynia, unluckily the largest order in the system; but it, by these means, associates with plants with which it has a nearer natural affinity. Gorteria rigens Rigid-leaved Gorteria.

Vol.	Fasc.	No.	
III.	31	91	<i>Iris susiana</i> , Chalcedonian Flag.
Aug.		92	<i>Saxifraga sarmentosa</i> China Saxifrage.
		93	<i>Sempervivum monanthes</i> Clustered House-leek.
Sept.	32	94	<i>Sisyrinchium Bermudiana</i> , Broad-leaved <i>Sisyrinchium</i> . [<i>Sisyrinchium iridioides</i> .] Consult No. 464, and <i>Annals of Botany</i> , v. 1. p. 216.
		95	<i>Pelargonium Radula</i> Rasp-leaved Crane's-bill. [<i>Geranium Radula</i> .]
		96	<i>Lantana aculeata</i> Prickly Lantana.
Oct.	33	97	<i>Fuchsia coccinea</i> Scarlet Fuchsia.
		98	<i>Tropæolum minus</i> Small Indian Cress, or Nasturtium.
		99	<i>Antirrhinum purpureum</i> Purple Toad-flax.
Nov.	34	100	<i>Lathyrus tingitanus</i> Tangier Pea.
		101	<i>Alyssum maritimum</i> Sweet Alyssum. [<i>Alyssum halimifolium</i> .]
		102	<i>Campanula Speculum</i> Venus's Looking-glass.
Dec.	35	103	<i>Pelargonium acetosum</i> Sorrel Crane's-bill.
		104	<i>Lysimachia stricta</i> Upright, or Bulb-bearing [<i>L. bulbifera</i> .] Loose-strife.
		105	<i>Tradescantia virginica</i> Virginian Spider-wort.
Jan.	36	106	<i>Iberis umbellata</i> Purple Candy-tuft.
1790.		107	<i>Cassia Chamæcrista</i> Dwarf Cassia.
IV.		108	<i>Anthyllis tetraphylla</i> Four-leaved Kidney-Vetch.
Feb.	37	109	<i>Lavatera trimestris</i> Annual Lavatera.
		110	<i>Acacia verticillata</i> Whorl-leaved Mimosa. [<i>Mimosa verticillata</i> .]
		111	<i>Lathyrus tuberosus</i> Tuberos Lathyrus.
March	38	112	<i>Cistus ladaniferus</i> Gum Cistus.
		113	<i>Convolvulus purpureus</i> Purple Bindweed, or <i>Con-</i> <i>volvulus major</i> .
		114	<i>Silene pendula</i> Pendulous Catch-fly.
April	39	115	<i>Lathyrus sativus</i> Blue-flowered Lathyrus, or Chickling-Vetch.
		116	<i>Calopogon tuberosum</i> , HK. Tuberos-rooted <i>Calopo-</i> [<i>Limodorum Tuberosum</i> .] gon.
		117	<i>Campanula carpatica</i> Carpatian, or heart-leaved Bell-flower.
May	40	118	<i>Sedum Anacampseros</i> Evergreen Orpine.
		119	} <i>Strelitzia Reginae</i> Canna-leaved <i>Strelitzia</i> . [<i>Strelitzia ovata</i> , HK.]
		120	
June	41	121	<i>Narcissus incomparabilis</i> . Peerless Daffodil.
		122	<i>Muscari racemosum</i> Starch-scented Grape Hya- [<i>Hyacinthus racemosus</i> .] cinth.
		123	<i>Anemone hortensis</i> Star Anemone.
July	42	124	<i>Iberis gibraltarica</i> Gibraltar Candy-tuft.
		125	<i>Alstrœmeria Ligtu</i> Striped-flowered <i>Alstrœ-</i> meria.
		126	<i>Alyssum deltoideum</i> Purple Alyssum.
Aug.	43	127	<i>Scilla campanulata</i> Spanish Squil. In some copies the letter-press is numbered by mistake 128.
		128	<i>Ixia hybrida</i> Hybrid <i>Ixia</i> , [<i>I. flexuosa</i> .]

Vol.	Fasc.	No.	
			The real <i>Ixia flexuosa</i> is figured No. 624, which see. The letter-press in some copies is, by mistake, numbered 127.
IV.			
Aug.	43	129	<i>Amaryllis vittata</i>Superb <i>Amaryllis</i> .
Sept.	44	130	<i>Alyssum utriculatum</i>Bladder-podded <i>Alyssum</i> , or Mad-wort.
		131	<i>Catesbæa spinosa</i>Thorny <i>Catesbæa</i> , or Lily- Thorn.
		132	<i>Rubus arcticus</i>Dwarf Bramble.
Oct.	45	133	<i>Muscari comosum</i>Tassel-flowered Grape- [<i>Hyacinthus comosus</i> .] Vide No. 734. Hyacinth.
		134	<i>Adonis vernalis</i>Perennial, or Spring- <i>Adonis</i>
		135	<i>Gladiolus cardinalis</i>Superb Corn-flag.
Nov.	46	136	<i>Pelargonium tetragonum</i> ..Square-Stalked Crane's-bill
		137	<i>Hypericum balearicum</i> ...Warty St. John's-wort.
		138	<i>Kalmia hirsuta</i>Hairy <i>Kalmia</i> .
Dec.	47	139	<i>Alstrœmeria Pelegrina</i>Spotted-flowered <i>Pelegrina</i>
		140	<i>Lupinus luteus</i>Common yellow <i>Lupin</i> .
		141	<i>Heliotropium peruvianum</i> . Peruvian Turnsole.
Jan.	48	142	<i>Scorzonera tingitana</i>Poppy-leaved Viper's-grass
1791.		143	<i>Pelargonium glutinosum</i> ..Clammy Crane's-bill.
		144	<i>Ferraria undulata</i>Curled-flowered <i>Ferraria</i> . Consult No. 751.
V.			
Feb.	49	145	<i>Monarda fistulosa</i> , <i>v. coccinea</i> , Crimson <i>Monarda</i> .
		146	<i>Hypericum calycinum</i>Great-flowered St. John's- wort, or Tutsan.
		147	<i>Dais cotinifolia</i> <i>Cotinus</i> -leaved <i>Dais</i> .
March	50	148	<i>Pelargonium betulinum</i> ...Birch-leaved Crane's-bill.
		149	<i>Zinnia multiflora</i>Many-flowered <i>Zinnia</i> .
		150	<i>Tagetes patula</i>French Marigold.
April	51	151	<i>Lotus tetragonolobus</i>Winged <i>Lotus</i> .
		152	<i>Epidendrum fragrans</i>Sweet-scented <i>Epidendrum</i> [<i>Epid. cochleatum</i> .] Vide 1669. The true <i>E. cochleatum</i> is figured at No. 572, which consult.
		153	<i>Bulbocodium vernal</i>Vernal <i>Bulbocodium</i> .
May	52	154	<i>Saponaria ocymoides</i>Basil Soap-wort.
		155	<i>Oxalis versicolor</i>Striped-flowered Wood- sorrel.
		156	<i>Coreopsis verticillata</i>Whorled <i>Coreopsis</i> .
June	53	157	<i>Muscari botryoides</i>Sky-coloured Grape Hya- [<i>Hyacinthus botryoides</i> .] Vide No. 734. cinth.
		158	<i>Hibiscus Rosa sinensis</i> ...China-Rose <i>Hibiscus</i> .
		159	<i>Alyssum saxatile</i>Yellow <i>Alyssum</i> .
July	54	160	<i>Pulmonaria virginica</i>Virginian Lung-wort.
		161	<i>Amygdalus nana</i>Dwarf Almond.
		162	<i>Sanguinaria canadensis</i> ...Canadian <i>Sanguinaria</i> , or Puceon.
Aug.	55	163	<i>Phlox divaricata</i>Early-flowering <i>Lychnidea</i> .
		164	<i>Ranunculus gramineus</i> ...Grass-leaved Crow-foot.
		165	<i>Pelargonium cordifolium</i> ..Heart-leaved Crane's-bill.
Sept.	56	166	<i>Malcomia maritima</i> , НК....Dwarf Annual Stock. [<i>Cheiranthus maritimus</i> .]
		167	<i>Sophora tetraptera</i>Winged-podded <i>Sophora</i> . [<i>Edwardsia grandiflora</i> , НК.]

Vol.	Fasc.	No.	
V.		168	<i>Moræa tricuspis</i> , var. β . . . Azure-eyed <i>Moræa</i> . [<i>Iris Pavonia</i> .] Consult No. 696, and <i>Annals of Botany</i> , v. 1. p. 238.
Oct.	57	169	<i>Ixora coccinea</i> Scarlet <i>Ixora</i> .
		170	<i>Draba aizoides</i> Sengreen Whitlow-grass.
		171	<i>Pardanthus chinensis</i> Chinese <i>Pardanthus</i> . [<i>Ixia chinensis</i> .] Vide <i>Annals of Botany</i> , v. 1. p. 416.
Nov.	58	172	<i>Lamium Orvala</i> Balm-leaved Archangel.
		173	<i>Aitonia capensis</i> Cape <i>Aitonia</i> .
		174	<i>Buddlea globosa</i> Round-headed <i>Buddlea</i> .
Dec.	59	175	<i>Kalmia latifolia</i> Broad-leaved <i>Kalmia</i> .
		176	<i>Cytisus Laburnum</i> Common <i>Laburnum</i> .
		177	<i>Kalmia glauca</i> Glaucous <i>Kalmia</i> .
Jan. 1792.	60	178	<i>Hypericum Coris</i> Heath-leaved <i>St. John's</i> - wort.
		179	<i>Fumaria glauca</i> Glaucous <i>Fumitory</i> .
VI.		180	<i>Azalea nudiflora</i> , v. <i>coccinea</i> , Scarlet <i>Azalea</i> .
Feb.	61	181	<i>Sutherlandia frutescens</i> , НК. Scarlet <i>Bladder-senna</i> . [<i>Colutea frutescens</i> .]
		182	<i>Salvia aurea</i> Golden <i>Sage</i> .
		183	<i>Syringa vulgaris</i> Common <i>Lilac</i> . [<i>Syringa vulgaris</i> , β . <i>violacea</i> , НК.] The quotation from Gerard, referring to the smell, belongs to <i>Philadelphus coronarius</i> , No. 391.
March	62	184	<i>Tritonia crocata</i> Saffron-coloured <i>Tritonia</i> . [<i>Ixia crocata</i> .] Vide No. 581 and 609.
		185	<i>Coronilla valentina</i> Rue-leaved <i>Coronilla</i> .
		186	<i>Selago ovata</i> Oval-headed <i>Selago</i> .
April	63	187	<i>Iris sambucina</i> Elder-scented <i>Flag</i> . Vide No. 685.
		188	<i>Convolvulus Nil.</i> Azure <i>Convolvulus</i> .
		189	<i>Erica grandiflora</i> Great-flowered <i>Heath</i> .
May	64	190	<i>Ornithogalum aureum</i> Golden <i>Star of Bethlehem</i> . Willdenow, who has adopted our name, makes three other varieties, viz. the <i>miniatum</i> , <i>flavescens</i> , and <i>fla-</i> <i>vissimum</i> , of <i>Jacquin</i> .
		191	<i>Primula marginata</i> Silver-edged <i>Primula</i> .
		192	<i>Cypripedium humile</i> , НК. Two-leaved <i>Lady's-slipper</i> . [<i>Cypripedium acaule</i> .]
June	65	193	<i>Narcissus angustifolius</i> Narrow-leaved <i>Narcissus</i> .
		194	<i>Fritillaria imperialis</i> Crown- <i>Imperial</i> .
		195	<i>Cheiranthus mutabilis</i> Changeable <i>Wall-flower</i> , or Broad-leaved shrubby stock.
July	66	196	<i>Saxifraga crassifolia</i> Oval-leaved <i>Saxifrage</i> .
		197	<i>Narcissus biflorus</i> Two-flowered <i>Narcissus</i> .
		198	<i>Indigofera candicans</i> White-leaved <i>Indigo</i> .
Aug.	67	199	<i>Aster alpinus</i> Alpine <i>Star-wort</i> .
		200	<i>Antirrhinum sparteum</i> Branching <i>Toad-flax</i> . [<i>Linaria sparteae</i> , НК.]
		201	<i>Pelargonium bicolor</i> Two-coloured <i>Crane's-bill</i> .
Sept.	68	202	<i>Lupinus perennis</i> Perennial <i>lupine</i> .
		203	<i>Geranium angulatum</i> Angular-stalked <i>Crane's-</i> <i>bill</i> .
		204	<i>Ranunculus aconitifolius</i> , } Mountain <i>Crow-foot</i> , or var. <i>flore pleno</i> } Fair <i>Maids of France</i> .

<i>Vol.</i>	<i>Fasc.</i>	<i>No.</i>	
VI.	69	205	<i>Dianthus barbatus</i> Sweet-William.
Oct.		206	<i>Geranium anemonifolium</i> . Anemone-leaved Crane's-bill.
		207	<i>Antirrhinum alpinum</i> Alpine Toad-flax. [<i>Linaria alpina</i> , НК.]
Nov.	70	208	<i>Melissa grandiflora</i> Great-flowered balm.
		209	<i>Hibiscus Trionum</i> Bladder Hibiscus, or Venice Mallow.
		210	<i>Alonsoa linearis</i> , НК. Linear-leaved Alonsoa. [<i>Celsia linearis</i> .] Add the following synonym: <i>Hemimeris coccinea</i> . Willd.
Dec.	71	211	<i>Sedum populifolium</i> Poplar-leaved Stone-crop.
		212	<i>Tanacetum flabelliforme</i> . . Fan-leaved Tansy.
		213	<i>Polygonum orientale</i> Tall Persicaria.
Jan. 1793.	72	214	<i>Dracocephalum denticu- latum</i> } Toothed Dragon's-head.
		215	<i>Ranunculus acris</i> , <i>v. fl. pl.</i> Double upright Crow-foot.
		216	<i>Cypripedium spectabile</i> , НК. White-petaled Ladies-slipper. [<i>Cypripedium album</i> .]
VII. Feb.	73	217	<i>Buchnera viscosa</i> Clammy Buchnera.
		218	<i>Disandra prostrata</i> Trailing Disandra.
		219	<i>Michauxia campanuloides</i> . Rough-leaved Michauxia.
March	74	220	<i>Erica cerinthoides</i> Honeywort-flowered Heath
		221	<i>Ipomœa coccinea</i> Scarlet Ipomœa.
		222	<i>Struthiola juniperina</i> , НК. . . Smooth Struthiola. [<i>Struthiola erecta</i> .]
April	75	223	<i>Lychnis coronata</i> Chinese Lychnis.
		224	<i>Phylica ericoides</i> Heath-leaved Phylica.
		225	<i>Lobelia surinamensis</i> Shrubby Lobelia.
May	76	226	<i>Arabis alpina</i> Alpine Wall-Cress.
		227	<i>Helianthus multiflorus</i> Perennial Sun-flower.
		228	<i>Bellis perennis</i> , <i>var. fl. pl.</i> Great double Daisy.
June	77	229	<i>Primula acaulis</i> , <i>var. flore pleno carneo</i> } Double Lilac Primrose.
		230	<i>Plumbago rosea</i> Rose-coloured Lead-wort.
		231	<i>Fumaria solida</i> Solid-rooted Fumitory. <i>Class and Order.</i> DIADELPHIA HEXANDRIA. [Misprinted PENTANDRIA.]
July	78	232	<i>Fumaria cava</i> Hollow-rooted Fumitory. [<i>Fumaria bulbosa</i> , НК.]
		233	<i>Chironia baccifera</i> Berry-bearing Chironia.
		234	<i>Linum arboreum</i> Tree-Flax.
Aug.	79	235	<i>Trollius asiaticus</i> Asiatic Globe-Flower.
		236	<i>Verbascum Myconi</i> Borage-leaved Mullein.
		237	<i>Oxalis cernua</i> Nodding-flowered Wood-sorrel. [<i>Oxalis caprina</i> .]
Sept.	80	238	<i>Senecio elegans</i> , <i>var. fl. pl.</i> Double purple Groundsel.
		239	<i>Amaryllis Atamasco</i> Atamasco Lily.
		240	<i>Pelargonium tricolor</i> Three-coloured Crane's-bill.
Oct.	81	241	<i>Fagonia cretica</i> Cretan Fagonia.
		242	<i>Veronica decussata</i> Cross-leaved Speedwell.
		243	<i>Argemone mexicana</i> Mexican Prickly-Poppy.
Nov.	82	244	<i>Ipomœa Quamoclit</i> Winged-leaved Ipomœa.

Vol.	Fasc.	No.	
VII.		245	<i>Teucrium latifolium</i> Broad-leaved shrubby Germander.
		246	<i>Aquilegia canadensis</i> Canadian Columbine.
Dec.	83	247	<i>Scabiosa atropurpurea</i> Sweet Scabious.
		248	<i>Vinca rosea</i> Madagascar Periwinkle.
		249	<i>Cineraria Amelloides</i> Blue Cineraria, or Cape-Aster.
Jan.	84	250	<i>Myrtus tomentosa</i> Woolly-leaved Myrtle.
1794.		251	<i>Allium descendens</i> Purple-headed Garlic.
		252	<i>Campanula grandiflora</i> Great-flowered Bell-flower.
VIII.	85	253	<i>Lathyrus articulatus</i> Jointed-podded Lathyrus.
Feb.		254	<i>Lopezia racemosa</i> Mexican Lopezia.
		255	<i>Cytisus sessilifolius</i> Common Cytisus.
March	86	256	<i>Tritonia longiflora</i> Long-tubed Tritonia. [<i>Ixia longiflora</i> .] Vide Nos. 581 and 609; also, Annals of Botany, vol. 1. p. 208.
