

Package

Transfer of patients and transport of medical personnel and teams

EUR 9 million

Total operations: ~94

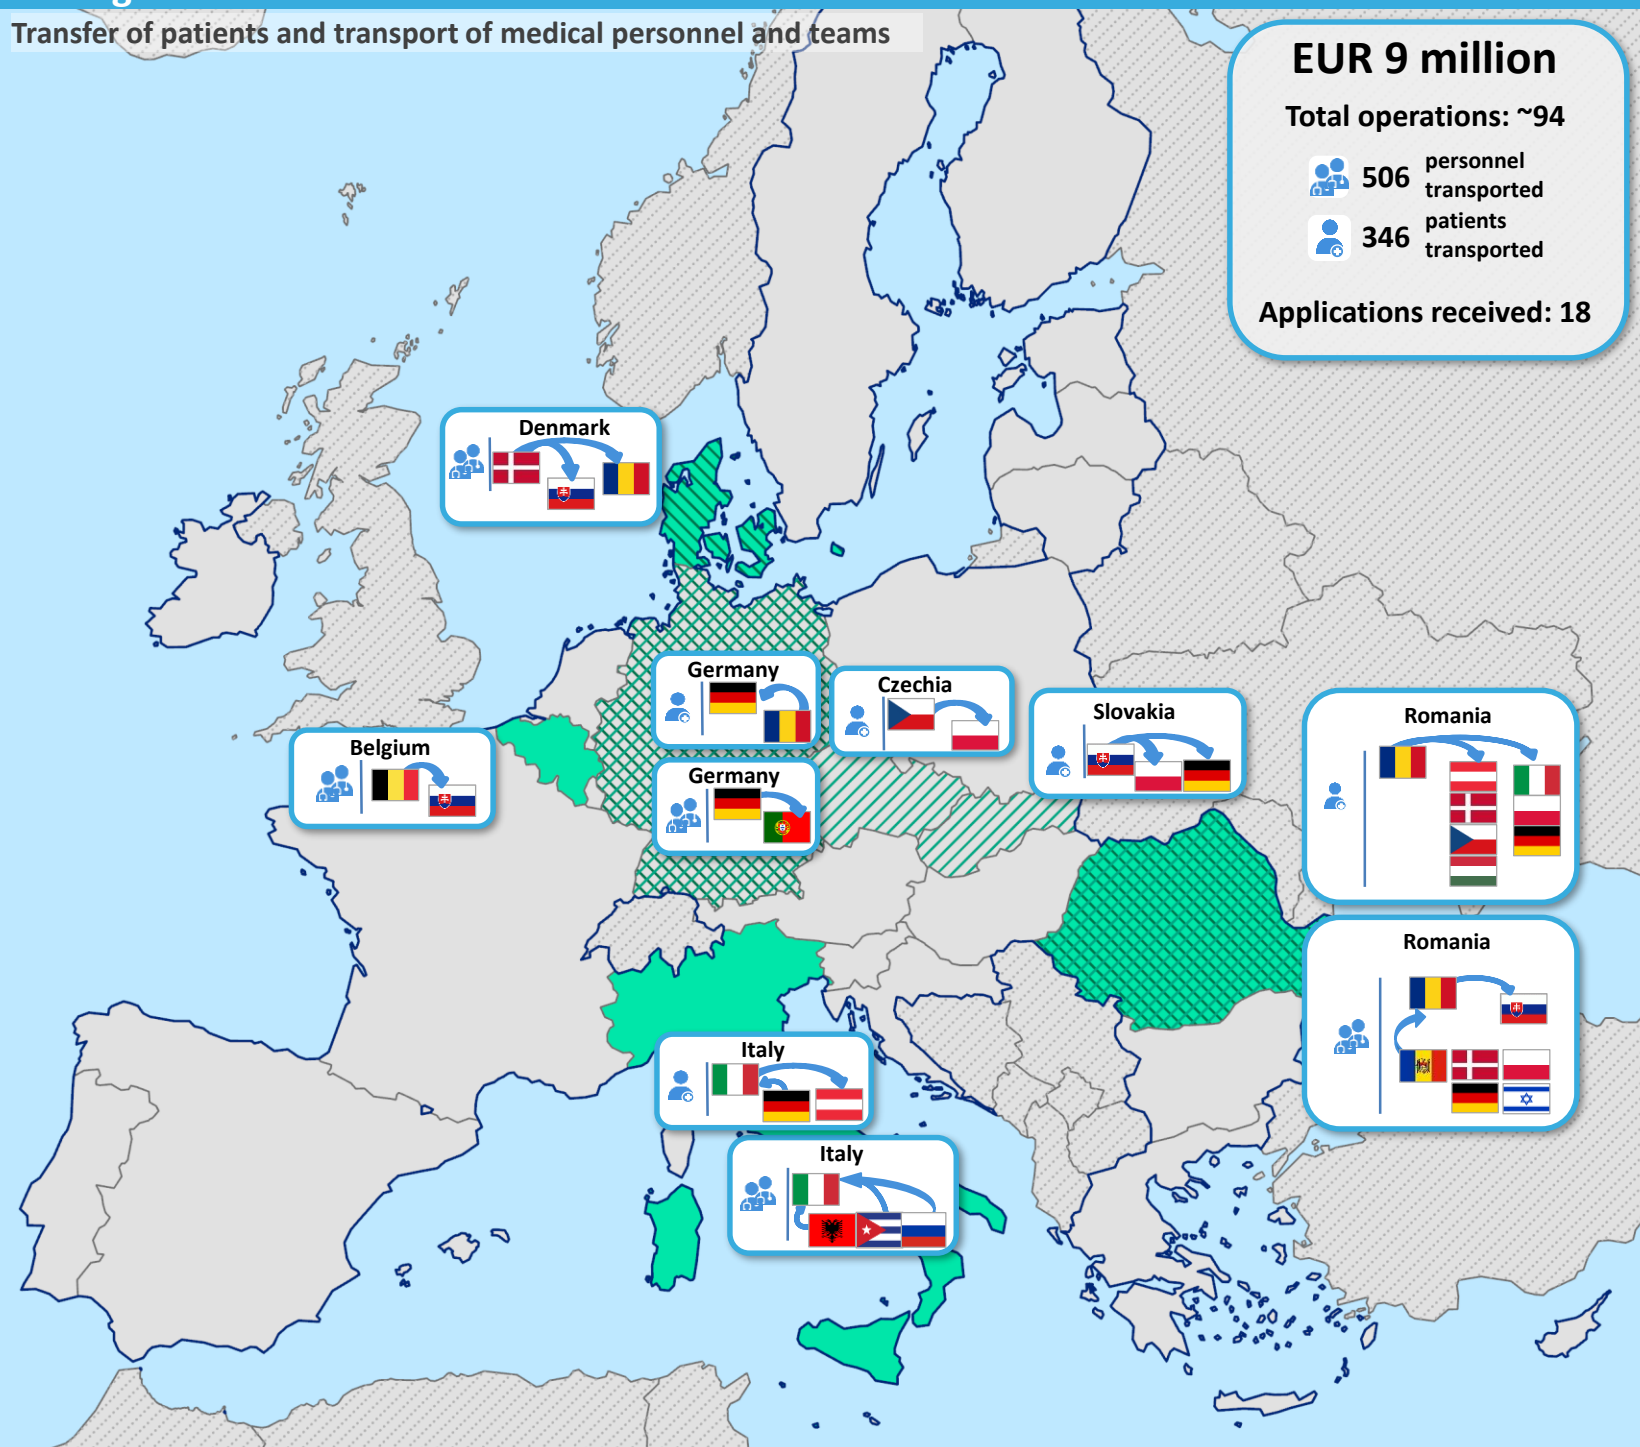

- 506** personnel transported
- 346** patients transported

Applications received: 18

The **Emergency Support Instrument (ESI)** was activated in 2020 to respond to the COVID-19 pandemic. DG ECHO was entrusted with the implementation of the 'Mobility Package' (ESI-MP), a comprehensive package of measures related primarily to transport, including cargo transport, transfer of patients and transport of medical personnel and teams.

With regard to **patients and medical staff operations**, support refers to the **transfer of patients** in relation to the Covid-19 pandemic within the EU and from the EU to third countries via grants and **transport of medical personnel and teams**, within the EU and to the EU from third countries via the use of both grants and the Commission's (DG ECHO) transport broker.

Overall, operations to transport approximately **515 health workers** and **135 patients** have been supported with **EUR 9 million**.

- Transport of medical personnel and teams
- Transfer of patients
- European Union
- Non-EU
- EU countries recipient of transport of medical personnel and patients on call 1
- EU countries recipient of transport of medical personnel and patients on call 2
- EU countries recipient of transport of medical personnel and patients on call 3
