FISH PRICES

SAITAMA
(Location)

April 1950
(Date)

Type of Fish	Retail Price per 100 monme					
Tuna	¥150	¥200	¥200	¥150	¥150	¥150
Sardine	¥30	¥20	¥35-40	¥20-25	¥20	20
Cuttle-fish	¥20	¥30	¥40	¥21-25	¥20	20
Cod	¥70	250	—	¥35	¥20	15
Flat fish		80	80	—	¥50	60
Yellowtail		100	¥80	—	¥50	75
Herring		—	—	—	—	
Mackerel	¥20	250	¥30	¥25	¥30	¥25

1) Frozen

2) Cost prices have increased an estimated 30% + supply less than before de-control principally due to bad weather

3) Results of de-control — (a) Fish can be purchased at wholesale more easily than before (b) Controllers don't try as much former controllers pick low to price increases + merely showing a

Urawa says no difference in supply after de control — Some lowering of price after short period of higher.

3) Yesterday was ¥75

Commerce
and Industry

No. 6

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Our office was under the jurisdiction of Tokyo International Trade and Industry Bureau, but from Oct. 1, 1949, we are under the jurisdiction of the Governor of Saitama Prefecture and are doing the busines of allotment and distibution of the commerce and industry materials to enterprisers in Saitama-ken as before. Now we are using the same office as before, but soon we shall remove our office to the prefectural building in Kitaurawa. The phone number of the new office is not known yet, but we shall let you know as soon as we have the number.

TO : Chief, Economics Section,
Kanto Civil Affairs Region.

On Dec. 8, 1950, under the auspices of Federation of Shizuoka Fishermen's Cooperatives and Federation of Shizuoka Fishermen's Credit Cooperatives, General Meeting of Fishermen's Cooperatives in this prefecture was held and discussed about 34 agenda. Among them was Petition for the "Adjustment of the distribution and prices of oil and cotton yarn". The purport of this petition is as below-mentioned.

This bill was adopted at this meeting not for a problem of Sagara District only, but for Shizuoka Pref. and decision was made to call on the Central Government for the petition, and nine executive committeemen were appointed.

"The allocation quota of oil and cotton yarn fall short against the demand of fishermen. The Letter of Aug. 1, prohibiting the advance delivery of oil, utterly disregards the actual status of the fisheries. Since then zeal for fishing noticeably lessened. Distribution of cotton yarn is also very short against demand. Some types of fisheries, therefore, are on the brink of down-fall.

Cotton yarn prices soared since the subsidiaries were removed. Recently public prices of oil were raised. The soaring of the prices of these fishing materials is menaces to the poor fishermen."

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Trip Dec 4—7

Dec. 8/50

Subject: Effect of Curtailment of Advance Distribution of Petroleum to Fishermen

1) Kanagawa Prefecture (Misaki)

a) Mackerel fishing boat owners stated that advanced distribution is curtailed. However since the oil dealers and the boat owners are friends, advance distribution can be obtained. Owners of Oil ~~Co.~~ allocation certificates can receive oil only ~~at the~~ from the retailers in port at their registered ports. But if prearranged with the dealers may receive his allocation in other prefectures. Amount of catch has not decreased but the ~~true~~ desire of fishermen is to ~~fill up~~ have the tanks of the boats filled 100% before going out.

b) Deep sea fishing (Kanagawa Pref. Bonito & Tuna Fisheries Cooperative Assn.)

~~No advance distribution was received~~ due to.

—1—

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

No boats were docked on account of oil shortage, however the number of operating days (at sea) was decreased by 25%. No advance distribution was obtained since July. This cooperative has received a special allocation of 2,107 Kl. for two tuna fishing expeditions made. These expeditions are made by a group of 10 to 20 fishing boats accompanied by a tender or a mother boat. Amount of oil remaining as of 30 Nov. is 97 Kl. and 48 boats are ~~them~~ scheduled to ~~go out~~ operate in Dec. Required amount is 1,087 Kl. Consequently it is necessary to obtain additional distribution of about 1,500 Kl.

If none can be obtained officially, ~~the~~ they will go to the oil~~er~~ dealers for advance distribution ~~there might be~~ They may have to pay extra charges.

Regional EIA and other govt officials have told the cooperative that ~~2,000 Kl of~~ additional allocation of 2,000 Kl for Deep Sea Fishing will be made. None received yet.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

2. Shizuoka Prefecture

a) Shizunura Daiichi Fishing Coop. Assn.

3rd quarter allocation of 3,720 liters has been obtained. There is no shortage at present because fish is not running. Advance distribution can still be obtained from the dealers but coupon must be turned in given to the dealer later. There is no blackmarket oil and no extra charge is asked by the dealers for advance distribution. A large conference is to be held on 8 Dec. in Shizuoka-shi by fishermen to discuss the oil situation.

b) Shimizu Kinchaku-ami Fisheries Cooperative Assn. 3rd quarter allocation of 22,923 lit received. No advance allocation obtained; however had to curtail number of operating days from 15 to 20 days per month to about 10 days per month. Present allocation is 40 to 45% of actual need.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

If boats have to go to fishing grounds which are further away additional oil must be obtained from unofficial sources.

c) Petroleum Distributing office of Sake Fed. of Fisheries Cooperative Assn.

In Shimizu there is actually a shortage of oil at the dealers. This may be due to ~~cutter~~ stopping of giving credit to retailers and wholesalers by the producers. All sales are on cash basis now.

d) Idemitsu Oil Distributing Co.

This company states that there is a little shortage due to ~~the~~ delivery from producers being late about ½ to 1 month behind schedule. ~~Producer~~

The company is expecting to receive many requests for advance distribution in January and Feb. 1951. Advance distribution has decreased about 65% due to cautiousness of the dealers. No extra is charged at present for advance distribution, but dealers might in Jan. & Feb.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

It is easier for small fishing boats to get loan of oil because the amount ~~req~~ asked for is usually small. ~~The~~ Tuna boats (~~fishing~~ are given allocations of oil when they are ready to go out by the new allocation system (Shukko Wariaté). Therefore are guaranteed for at least one trip per quarter. Allocations for Intermediate sized boats are based on HP of the engine on the boats ~~For medium sized~~ ~~Larger~~ These boats will have difficulty in obtaining the required amount of oil whenever the fish is running or change of fishing ground is made.

(e) Yaizu Fishing Coop Assn (Mackerel, Bonito & Tuna)
3rd quarter allocation for Mackerel (offshore fishing) was 306.1 kl
Advanced distribution was received but decreased in amount because ~~the~~ if poor catch (fish not running) No decrease in operation because of ~~X~~ shortage of oil.

As for Tuna boats, the new system ~~was~~ of allocation used by the prof. govt has given them

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

not sufficient but just enough to make one trip.
If the tanks are 100% filled the boats are able
to stay out about 60 days but with the new
allocation system, the boats can only stay
out about 45 days which will result in
decrease in catch.

Amt of oil allocated for Tuna boats by the
new system is as follows:

160 HP —— 12 Kl.
170 HP —— 13 Kl
210 HP —— 19 Kl
250 HP —— 25 Kl (boats under 100 tons)
28 Kl (boats over 100 tons)
300 HP —— 33 Kl.
320 HP —— 35 Kl.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3). Conference at EIA with concerned govt and cooperative officials (Shimizu Branch of Tokai Maritime Bureau, Material section of Com & Ind. Dept. Prefectural Gov't, A+F Material section of Pref. Gov't, Shiz. Branch of and/or Petroleum Assn, Shiz. Road Transportation Office, Shizuoka Sales Federation of Fisheries Cooperative Assn.)

a) Fishing Industry.

This new system of allocation to ~~the~~ Tuna Boats was proposed by and adopted only in ~~by~~ Shizuoka Prefecture. Central govt's allocation to Shizuoka Pref. for 3rd Quarter was 4,181 Kl. 2734 Kl of which were ~~given to tuna fishing boats and~~ allocated to Tuna Boats that actual went out to fish. At present all of this has been used up.

From 1 Aug. to 31 Oct, 343 Kl. in coupons were collected for the oil which had been distributed in advance up to July 31.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Material Section of Comm & Industry Dept has received notice from MITI Bureau that all coupons for the "advance distribution" oil must be called in and that instructions on the method of collection will be fowarded later. No instruction has been received to date.

The unusual situation of ~~oil dealer not~~ oil running low in Shimizu may be ~~caused by various~~ due to some of the following causes:

1. Producers have tightened up on their credit to wholesalers, which means that ~~practically no oil can~~ all sales are on cash basis now.

2. Head offices of the retailers in Tokyo distribute oil to their retail stores located all over Japan. It is certain that more oil have been sent to ports located in Kanto and Tohoku, (Shizuok included in Tokai) due to big catch.

3. Since price of oil is going to be raised on 8 December, the oil dealers

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

might be unwilling to sell now.

b) Land Transportation (Bus & Truck)

Official allocation for 3rd quarter was 192 Kl for gasoline and 236 Kl for deisel oil. Additional allocation ~~was~~ of 26 Kl. of gas and 13 Kl. of deisel oil was received. Allocation of deisel of is 40~60% of required amount. There was no curtailment in bus service. The ~~Dep~~ Govt Official stated that shortage in fuel (gasoline) was made up by using busses run by charcoal, natural gas, fire wood, etc. Some bus companies might still be obtaining advance distribution. The Official ~~does not~~ states that he can not make definite statement on this because he has no evidence that companies are receiving advance distribution. Private oil retailer states that he has given out advance distribution to bus operators.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Number of mileages covered by buses (charcoal, firewood, etc) in June & October is 646,400 km and 747,741 km. respectively. There is an increase of 63,000 miles.

3) Industrial use:

10% of oil applied for is allocated. Advance allocation is obtained by 8 factories. No factory was closed because of shortage of oil.

Gov't official thinks that amount of oil requested in individual applications are much more than the actual need.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Fisheries Cooperative Associations in Kanagawa & Shizuoka Prefectures (Several visits) were visited in order to obtain information concerning the effects of cancellation of advance petroleum ~~allocation~~, distribution to fishing boats.

1. Kanagawa-ken Bonito & Tuna Fisheries Cooperative Association (Deep Sea Fishing).

Two members (boat owners) of this association were interviewed. All members are really worried about this termination of advance distribution system. However, up to present time, operation has not been effected due to using of oil which they had in stock. Allocation is only 30% of requirement

2. Misaki Inshore Fisheries Cooperative Associations (coast).

290 Kl. of oil (per month) are required by the members of this fishing association. Allocation for July, Aug. & Sept. was 190 Kl. i.e. 63⅓ Kl. per month. By means of advance distribution by and using some which they had in stock, the members of this association had been able to go out 6 times/month. However from Oct. it is anticipated that the operation will be reduced to 1/3. Petitions have already been submitted to the Material Adjustment Section of Prefectural Gov't for continuance of advance

-1-

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

distribution or increase in allocation.

It has been decided by the members that if ~~nothing more than~~ advance allocation was really cut off, the association will pool the members allocations and distribute oil to only those who are ready to sail and when all the oil is used up there is nothing to do but ~~to~~ cease operation ~~for going out~~ until next allocation is obtained.

3) Shizuura Fisheries Cooperative Assn. (Off Shore Fishing)

This association consists of 675 members, with boats totalling 254 tons in tonnage and 2,325 HP.

Amount of oil allocated to the members is 18% of requirement. Members stated that there was sufficient oil when ~~the~~ link system was in effect. There are no more black market oil from former military supplies.

If, in future, no oil can be borrowed and fishermen depended only on Official allocation it is impossible to go out whenever fish are running. Petitions have been submitted for increased allocation. It is the opinion of this association that if oil is decontrolled and can be purchased anytime and anywhere, ~~there will be no shortage, if the requirements will be purchased~~

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

fishermen will purchase only the required amount consequently the total amount of oil used will not be more than that used at present

4). Shimizu Fisheries Cooperative Association (Off Shore & Kinchaku net.)

1076 members. 231 boats, 4098 HP.

15 to 20 days are required for bonito fishing and 40 to 50 days for tuna. Up to end of September no effect was observed from cancellation of advance petroleum allocation.

If no oil can be borrowed or none purchased in blackmarket, ~~[illegible]~~ boats can be operated only 7 days per month.

5). Shiz-ken Federation of Fish Corp Associations Shimizu Branch

This ~~[illegible]~~ is a designated dealer of petroleum products. Information received is as follows:

Allocation and amount distributed in advance is about the same.

as of 1 Aug '50 900 Kl are loaned out from this ~~[illegible]~~ dealer.

Total in Shiz Pref is 18,961 Kl.

Estimated decrease in fishing operation is 40% if advanced distribution is cancelled.

Oil dealers can purchase any amount from producer (Standard, Cal-Tex, Shell etc.) but is permitted to sell only in exchange for ticket.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3). Yaizu Fisheries Corporative Assn (Deep Sea)

Number of members — 1,704
" " boats — 86
Tonnage — 6,062

Oil which they had in stock is used up and members are waiting for 3rd quarter allocation. Advanced distribution of oil obtained was about 60% of amount need. ~~Up to end of~~ Up to end of Sept. with oil which they had in stock ~~together with~~ 2nd quarter's allocation, they were able to ~~work~~ work out any decrease in operations. If no more oil can be borrowed the number of days out fishing must be shortened, operations would be reduced to half. and it would be impossible to go out at once whenever report that fish are running is received.

Bonito fishing grounds are located south of Yaizu between 135° and 150° East Longitude while tuna fishing grounds lie between 155° to 180° East longitude. Consequently, whenever change from bonito fishing to tuna is made additional oil is necessary. Extra allocation given for this change over has been ~~did~~ discontinued when link system ~~was~~ was changed into allocation of oil on horse power basis. Without this extra oil, it is very difficult to go out to tuna fishing ground and stay 40 to 50 days.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

~~Plan is to~~ have to

Association might reduce the number of operating fleet by 50% if no oil could be borrowed, [redacted] and it would also mean that no oil could be purchased in any prefecture except in the one where the boat is registered.

If oil is decontrolled, it is the opinion of [redacted] officials that more oil will be used than now especially in deep sea fishing.

7) Shizuoka Local FIA, Tokai Maritime Bureau, Land Transportation Office, NRP; Material Adj. Section, Fish Coop. Assn, & Fisheries Section of prefectural govt.

Allocation of petroleum to fishing industry is 480,000 tons and consumption is 720,000 tons. (all Japan)

~~There are more~~ The number of boats in Shizuoka Pref. engaged in deep sea fishing is more than any other prefecture.

Allocations for 2nd quarter and 3rd quarter were 4,150 and 4,181 Tons respectively.

2nd quarter allocations was distributed in Aug. & Sept and 3rd quarters Allocation will be distributed as soon as possible. When this is used up, which will be sometime around

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The end of October, ~~shortage~~ real shortage of oil will be felt. Application has been submitted for extra allocation to take care of seasonal change over and increase in regular allocations. Reply received from Fisheries Ministry is that no change in allocations will be made unless Govt increases oil quota for fishing industry.

It is said that if accurate data ~~of catch~~ of the amount of catch was submitted to Govt, increase might be approved. However it would cost about ¥20 million to obtain this data. Besides fishermen will not give true figures because of tax angle.

Maritime Bureau and Land Transportation Office stated that in some places people depend on boats and busses for travel and since allocation is 40 to 60% of requirements and if ~~allocation~~ no oil can be borrowed in future it will be a big problem.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SUBJECT: Curtailment of Advance Distribution of Petroleum to Fishermen

TO: Chief
Civil Affairs Section
General Headquarters
Supreme Commander for the Allied Powers
APO 500

1. An investigation was conducted following the appearance of an article in the 8 August issue of the Shizuoka Shimbun that approximately 100,000 local fishermen are in an uproar due to a recent MITI announcement banning future advance distribution of petroleum products. Since the abolishment of the fuel link system, petroleum dealers continued to advance oil and recently reached amounts equal to monthly allocations. This alarmed the Central Government and on 1 August the MITI, MAF and the Transportation Ministry issued a joint letter instructing the Shizuoka Prefectural Government to stop this advance distribution. On 19 August, the Prefectural Government notified all the local petroleum dealers and warned that disobedience will result in complete curtailment of allocation. Upon hearing this announcement, the local fishermen demanded an alternative, an increase in allocation which at present fulfills only 1/3 of requirement, (2/3 with the advance ration) otherwise the operation of approximately 2,700 fishing crafts as well as the livelihood of approximately 50,000 fishermen are gravely affected. Especially affected are the tuna and bonito fleets comprised of 158 craft which must reduce their two to three trips per month to only one due to the necessity of seeking fishing grounds far away from the mainland. This will also mean a reduction in canning which at present handles 70% and 30% of tuna and bonito catches and will also affect the shipment of fresh marine products to consuming prefectures. Although petroleum allocation for the 2nd quarter is 4,150 kl an increase of 357 kl over the 1st quarter, an amount double this allocation is required otherwise a 50% reduction in fish catch is expected after September. The following table gives figures of monthly fish catches since May 1950:

Month	Production	Bonito	Tuna
May	2,042,754 kan	375,640 kan	110,850 kan
June	3,367,090	1,169,926	1,148,196
July	2,056,292	795,262	640,507

Anticipated catch for August is 2,200,000 kan.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7 SEP 1950

KEDI 678, subj: Curtailment of Advance Distribution of Petroleum to Fishermen

2. The local Economic Bureau anticipates an increase in blackmarket activities and has alerted other enforcement agencies to take action. Records of the Shizuoka Economic Bureau discloses over 227,000 litres of illegal petroleum transactions uncovered within the past year. This oil was sold chiefly to fishermen in Shizuoka.

3. This headquarters will continue to follow up this situation. Meanwhile, if official allocations of petroleum are not increased, a heavy increase in blackmarket petroleum may be expected since the industry must operate its boats to gain a livelihood.
