## 序

同治壬申。容蕤父先生率學生三十人。渡太平洋。吾國游學之潮流。濫觴於是。容先生先後甄錄者。達百二十人。惜不久而中途被輟。厥後二十年。留學幾於無聞。而神州亦多故矣。甲午痛王師之殲。庚子乞城下之盟。至甲辰乙巳之交。俄大創於日。國人劇目怵心。憬然知國力之不競。由學術之未新。舉凡政治社會之設施與改革。無一不資世界最後出之學識與智能。於是游學之風復勁。負笈海外者亦漸多。而扶桑三島。一葦可杭。尤爲終南捷徑。迨光緒末葉。美政府以庚子賠款之餘數還我。我政府感友邦睦誼之殷。而念國內需才之急也。定逐年遴派留美學生。以促進游學之風。至其自携資斧。而求高深之學術於歐美者。每歲亦不乏其人。回溯容先生風雨鷄鳴之日。已將五十年。而統計莫備。人數不詳。其中自以留日爲最多。其次則留美。而留英留法比德諸國者。數又次焉。至其歸而所以靖獻於國。與服務於社會者。亦未有僉載。無以考覽。大抵創始爲難。而繼武較易。故留學前輩。篳路藍縷之功爲多。至學術思想之灌輸。國計民生之改建。則後起之責也。今者。吾國已脫耑制之軛。而進於共和之塗。易守舊之規。而趨於開明之域。茲非留學之成績。爛然可睹者歟。久欲纂錄同學姓氏里居。與其進業職務。勒爲一編以供參考。民國四年。吾校有留美學生通訊處之設。趙君月潭旣主其事。即議刊行同學錄。且躬與於編訂之役。梁君福初者。通訊處治文書。手事鉛槧。至文字鞣譯。則由吳君雨僧分任其勞。而是編所以克底於成者。尤賴四方同學通信之勒。不可沒也。雖然。此不過游美之同學錄耳。吾留學界中。儻有同茲宏願。踵是編而爲游歐游日等同學之調查者乎。則他日留學界之統計完成。而全史獲就。胥以此爲嚆矢。此又趙君與詒春。所深爲欣企者矣。

民國六年三月

休寧周詒春

## PREFACE.

---

The movement of educating our students in western lands began with the late Dr. Yung Wing in 1872 when he took over to the United States a band of thirty young boys under the auspices of our Government. Including those sent over later, he had under his charge altogether some one hundred and twenty youths. They were recalled before they finished their college career. In the eighties and nineties, the movement came almost to a standstill. Fortunately, political events were moving fast in the Orient. In 1894, Japan defeated us; in 1900, we were overpowered by the Allied nations; and in 1904, Russia received a crushing blow at the hands of Japan. These telling events, showing beyond a shadow of doubt the larger values of the new learning over the old and the greater efficiency of modern organizations over the effete systems of mediaeval times in the political, economic as well as scientific world, resuscitated the movement of seeking the New Learning abroad. While small numbers of students continued to go to Europe and America, the great majority of them repaired to Japan. Meanwhile, in 1908, the United States of America generously returned the unexpended portion of the Boxer Indemnity to China, and out of appreciation and goodwill, our Government is annually sending out a large number of young men to the American Universities and technical schools for higher education—thus adding a new impetus to our educational movement in western lands. Along with the Government students, a large number of private students are going annually to America for higher education.

Since the inception of this educational movement, it is nearly half a century. It is impossible to estimate how many students have been abroad altogether or to which particular country, as there has never been any statistics kept. However, it may safely be said that after Japan, the United States of America has turned out the next largest number of returned students with Great Britain as a third, leading the countries of Europe like France, Belgium and Germany.

Likewise, it does not seem possible to give an adequate estimate of what the students as a whole have done for their country. But probably it is within the bounds of safety as well as propriety to say that it has been entirely due to their efforts and influence that the country is being modernized. To be specific, the early returned students from America, and a few from Great Britain, toiled hard to clear the ground, break the soil, and sow the seed. Those coming after them, though in larger numbers, had naturally a much easier task to perform. To them as a class must be credited, in spite of the very decided and far-reaching contributions by other parties, the introduction of western ideas and ideals, the institution of fundamental

reforms and the gradual transformation of the social and political order of the country along modern lines. More than anything else that will stand out as a monument to their achievement and influence is the change of the country from a monarchy to a republic, from an absolute despotism to a popular democracy, from an antiquated conservatism to a modern liberalism.

Such being the direct outcome of this movement, time and again, it has been felt that some systematic effort should be made whereby the number of returned students from each country and their work should be recorded. In connection with the Returned Students' Information Bureau established in this College in 1915, the idea occurred to my colleague, Mr. G. T. Chao that, as an experiment, an endeavor might be made to publish a volume of Who's Who of American Returned Students for the information of the public. As the originator of the idea, he was requested to undertake the work, and with the assistance of Mr. F. T. Liang, the Secretary of the Bureau, and Mr. M. Wu, a graduate of this College, this volume is finally edited. Without the hearty co-operation of the American returned student body in this country, it must be mentioned, the appearance of this book would have been impossible.

In conclusion, it is hoped that similar volumes may be edited by returned student bodies from other countries to the end that the Chinese educational movement to foreign countries may have a complete history.

Y. T. Tsur.

## 例 言

(一)游美回國同學錄之刊。其用意有二。一則圖游美回國學生間情誼之聯絡。一則緣國中百度改革。需材孔亟。而患於見聞未週。新學俊彥。無從羅致。至每年回國之游學生。懷才欲試者。又苦於一時無地自見。此冊可爲互相介識。期於爲人擇事。爲事擇人。均能有裨。編者始終未敢失此宗旨。既成取觀。亦尙足資參考。備甄擇。故逕付手民云。

(一)此冊用中文英文合刊。期使中外人士。均得觀覽。而尤望美國各方。知中國留美歸來學生。當此維新建設。千鈞一髮之會。如何致力。以報宗國也。

(一)冊中遇有游美回國學生住址及通信處。其地名僅詳中文。而未譯成英文。緣其無裨實是。且多窒礙難譯之處。至此冊出版之遲。則由填寄履歷表。往返寄到。甚需時日。又各人照片。因不能悉得。未便遺漏參差。故概不附入。

(一)辱蒙游美回國諸君。及各地留學生團體。職司文牘之人。時寄音書。指示匡勗。此冊之成。深賴其力。用誌片言。以表謝忱。

## FOREWORD.

---

The Who's Who of American Returned Students is published with two objects in view: First, that it may promote a better understanding among the returned students, and secondly, that it may serve as a work of reference to the public, who may, now and in the near future, stand in need of the services of western-educated students. In the course of compiling this booklet, these two objects were constantly kept in view, and it is gratifying to note that the results obtained are both informative and useful.

This booklet is printed in both Chinese and English so that it may be useful not only to our people but to our foreign friends also, especially the American public who may wish to know what part the students, educated in their country, have been doing in this critical period of China's history.

The addresses of the returned students are found in the Chinese sketch, but have not been translated into English partly because it is not deemed necessary and partly because it is impossible to translate them in many cases. The late appearance of this booklet is due to the unavoidable slowness with which the statistics blanks were returned. The photographs are omitted, because it has not been possible to obtain a complete set.

In editing this volume, the editors wish to acknowledge their deep sense of obligation to the American returned students and also to their club secretaries for their sympathetic co-operation and unceasing encouragement.

# Classification of Returned Students According to Professions and Occupations for the Year 1916.

---

## I. Education:

### A. Administrators:—

1. At Boone University . . . . .	2
2. At Fu Tan College . . . . .	2
3. In Girls' Schools . . . . .	3
4. In Government Medical Colleges . . . . .	2
5. In Government Teachers' Colleges . . . . .	2
6. At Government University . . . . .	3
7. At Tsing Hua College . . . . .	6
8. In Other Institutions . . . . .	<u>18</u>
Total . . . . .	<u>38</u>

### B. Teachers:—

1. At Canton Christian College . . . . .	5
2. In Girls' Schools . . . . .	5
3. In Government Agricultural Colleges . . . . .	4
4. In Government Law Colleges . . . . .	3
5. In Government Teachers' Colleges . . . . .	14
6. At Government University . . . . .	10
7. At Nanyang College . . . . .	5
8. In Provincial Technical Colleges . . . . .	7
9. At Tangshan Railway and Engineering College . . . . .	5
10. At Tsing Hua College . . . . .	5
11. At University of Nanking . . . . .	2
12. At William Nast College . . . . .	2
13. At Waterways Engineering College . . . . .	4
14. At Yale College in China . . . . .	2
15. In Other Institutions . . . . .	<u>24</u>
Total . . . . .	<u>97</u>

## II. Government:

### A. Executive Officers:—

1. At President's Office . . . . .	7
2. In Office of the Cabinet . . . . .	3
3. In Board of Audit . . . . .	3

4.	In Ministry of Foreign Affairs (Including Diplomatic Service) . . . . .	15
5.	In Ministry of Finance . . . . .	8
6.	In Ministry of Communications (Including Railways) . . . . .	27
7.	In Ministry of Agriculture & Commerce . . . . .	11
8.	In Ministry of Interior . . . . .	1
9.	In Ministry of Education . . . . .	2
10.	In Ministry of Navy . . . . .	1
11.	In Arsenal Administration . . . . .	1
12.	In Customs Service . . . . .	3
13.	In Salt Administration . . . . .	10
14.	In National Conservancy Board . . . . .	1
15.	In National Oil Administration . . . . .	2
16.	In the Provinces . . . . .	8
	Total . . . . .	<u>103</u>

B. Legislators:—

1.	In Senate . . . . .	3
	Total . . . . .	<u>3</u>

C. Judicial Officers:—

1.	In Supreme Court . . . . .	2
2.	In Other Courts . . . . .	2
	Total . . . . .	<u>4</u>

### III. Technical and Professional Work:—

A.	Architects:— . . . . .	2
	Total . . . . .	<u>2</u>

B. Engineers:—

1.	In Conservancy Boards. . . . .	3
2.	In Telephone, Telegraph and Lighting Companies . . . . .	7
3.	In Mining Works:—	
	a. Chiu Tung Antimony Company . . . . .	2
	b. Pinghsiang Colliery. . . . .	3
	c. Tayeh Iron and Coal Mines . . . . .	3
	d. Wah Chang Mining Company . . . . .	2
	e. Other Mines . . . . .	2
4.	In Hanyang Iron and Steel Works. . . . .	8
5.	In Standard Oil Company. . . . .	4
6.	In Sanitation Work. . . . .	2

7. On Railways :—	
a. Canton-Hankow Railway . . . . .	5
b. Nanking-Hunan Railway . . . . .	4
c. Szechuen-Hankow Railway. . . . .	4
d. Peking-Suiyuan Railway . . . . .	2
e. Shanghai-Hangchow-Ningpo Railway. . . . .	2
f. Tientsin-Pukow Railway. . . . .	2
g. Peking-Mukden Railway . . . . .	1
8. In Other Concerns . . . . .	6
	<u>62</u>
C. Legal Practitioners :—	
1. In Shanghai . . . . .	3
2. In Hankow. . . . .	1
	<u>4</u>
D. Medical Doctors :—	
1. Physicians :—	
a. On Railways . . . . .	3
b. In Schools . . . . .	1
c. Private Practice . . . . .	*6
d. In Hospitals . . . . .	9
2. Dentists . . . . .	2
	<u>22</u>

#### IV. Miscellaneous Vocations:—

A. Directors and Employees in Banks :—	
1. In Foreign Banks . . . . .	2
2. In Government Banks . . . . .	3
3. In Commercial Banks . . . . .	3
	<u>8</u>
B. Managers and Employees in Manufacturing and Commercial Houses:—	
1. In Kailan Mining Administration . . . . .	2
2. In Venus Assurance Company . . . . .	2
3. In Commercial Press . . . . .	1
4. In Chung Hua Book Company . . . . .	2
5. Unclassified . . . . .	14
	<u>21</u>
C. Editors and Correspondents . . . . .	2
	<u>2</u>

## D. Social and Religious Workers :—

1. In Y. M. C. A. . . . .	6
2. In Y. W. C. A. . . . .	2
3. In Churches . . . . .	3
Total . . . . .	<u>11</u>

**Grand Total . . . . . 377**

**N. B.**—There are 27 persons who hold 2 positions and 5 who hold 3.

Deducting 37 from 377, the actual number of employed returned students is 340.

*SHANGHAI, CHINA.*

## OPTOMETRY & OPTOMETRIST

Optometry is a new science and its sphere is to measure the refractive as well as the muscular conditions of the eyeball, without the aid of drops but by means of ophthalmic instruments and trial lens. One who is well acquainted with the principles of the new science and practices the same as his profession, is called an Optometrist. An examination of human vision will not be considered to be efficient and reliable unless it includes Ophthalmometry, Skiametry, Phorometry, and Trial Lenses. Besides the full equipment of instruments and grinding plant, we have long years of experience in refraction work.

Eyestrain and ocular troubles are merely symptoms of refractive errors of eyeball and while medicine fails to give remedy, glasses will render unexpected boon to such people as complains of easy fatigue and other ocular asthenopia. In the interests of those with impaired vision either natural or caused by disease we express that every pair of eyes coming to us for glasses will be carefully tested in various scientific methods and as a result be fitted with very best lenses.

Frames of either 14K solid gold or rolled gold, and also of nickle are at your disposal. Different tinted lense of many shades are selected for certain purpose in particular cases; and also the famous Sir William Crookes' Glass which is the latest discovery of the great scientist. This new glass has the property to absorb actinic or ultraviolet, and infrared or heat rays. Physicists find that these two kinds of rays are invisible beyond spectrum (artificial rainhow); and therefore useless to eyesight. They are harmful to vision and are real cause of cataract and opacity of refractive media of eyeball.

The spectacle-wearing public are cordially invited to consult our expert opticians or optometrist whenever they needs optometric service in any way: from a screw tightening up to the finish of a most expensive scientifically ground lens. Our motto is for the preservation of human eyesight.

# KAHN SYSTEM OF FIRE PROOF CONSTRUCTION.

With two outstanding features of excellence:—

1. *Prompt and intelligent service by capable engineers in every part of the world.*
2. *The best products obtainable, developed by men who know, to suit modern requirements every where, a special product for every special need.*

Here are some well known products:—

*Rib Bars, Kahn Bars, Rib Metal for reinforced concrete structures.*

*Hy-Rib, Rib Lath, Corner Beads, Clips for light weight fire-proof walls, partitions and ceilings.*

*"Floretyle" for strong permanent concrete-saving floors.*

*Pressed Steel Beams, Joists and Studs for low priced permanent and sanitary cement plastered dwellings, schools, hospitals and stores.*

*Steel Sash for factories, godowns and commercial buildings.*

*Casement steel sush for dwellings, office buildings and yamens.*

*Portable Pressed Steel buildings for garages, factories, godowns, hospitals, etc., to be knocked down, re-erected and expanded to suit.*

*Industrial paints for concrete and steel, one paint for every purpose and every difficulty.*

*Floor Hardeners and Enamels for concrete floors.*

*Reinforcement for road construction and farm buildings, specially made and with complete tried out designs.*

We invite consultation and co-operation with owners, architects and engineers every where. Consultation free. Specialized engineering service will reduce construction cost. Write for "Kahn Building Products" and other literature covering subjects in which you are interested
