How we came up with the idea

- Wikimedia Conferences, in the past, did not seem to reflect any progress
- one-shot instead of being an episode in a series
- Expensive in terms of money and time

How we came up with the idea

- WMDE & WMF jointly agreed to host WMCON for 3 years in Berlin
- Our goals
 - Productivity & Outcome Orientation
 - Sustainability & Continuous Engagement

Program and Engagement Coordinator

- Support for the WMCON Program Team, building the schedule, coordinating the speakers and program
- Publication of the documentation of the Conference

Program and Engagement Coordinator

- Identifying main topics of the conference and “ambassadors” (responsibles)
- Discussed next steps and follow-up with the “ambassadors”
- How can we build up next conference’ program on the outcomes reached between the conferences?

What are the main topics?

“Building bridges”

A photograph of the Golden Gate Bridge in San Francisco, California, viewed from the water level. The bridge's iconic red-orange towers and suspension cables are prominent against a clear blue sky. The bridge spans across the water, with a rocky shoreline and waves visible in the foreground. The bridge's structure is a mix of suspension and cantilever design.

- important part: “building bridges” to other events, like today or WMCEE meeting
