COLLEGE.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class must sustain an examination in the Greek Grammar, Greek Reader or two books of the Anabasis, Latin Grammar, three books of Cæsar, three books of Virgil, Orthography, Etymology and Syntax of the English Language, together with the pronunciation and defining of words, History of the United States, Ancient and Modern Geography, Arithmetic, Elementary Algebra, and Geometry to circles.

It is desirable that the applicant for admission should have some acquaintance with the grammatical forms of the German Language.

A candidate for an advanced standing, in addition to the above requirements, must sustain a satisfactory examination in the various branches to which the class he proposes to enter has attended.

An accurate and thorough acquaintance with the studies required for admission is indispensable in order to receive full advantage of the College course. A very important year in an education is the one preceding admission to College, and upon the fidelity of tutor and student then will largely depend the success of the latter, in attaining to a scholarship that shall be exact and comprehensive.

No student will be received whose moral character is not known or attested to be good, and those coming from other institutions must bring certificates of regular and honorable dismissal.

Geology.—Le Conte.

DEPARTMENT OF NATURAL AND APPLIED SCIENCES.

The work of this department commences with the lower classes, and is so arranged as to prepare the student for a thorough understanding and appreciation of the studies of the Junior and Senior years. The subjects are illustrated as fully as our present means will permit. The physical apparatus, although not very extensive, suffices to demonstrate the subjects of Light and Electricity. Donations to this department are very much desired.

A cabinet of over three hundred minerals allows of a very fair course upon the subject of Mineralogy. The class-room work is supplemented with a complete course in Blow-pipe Mineralogy, and field work is prosecuted during those periods of the year favorable to it.

The course in Crystallography consists in the close study of a complete set of models and natural minerals

The course in General Chemistry is fully illustrated by experiments, which are made a prominent feature. Organic Chemistry and Chemical Technology are taught by means of illustrated lectures and excursions to works of applied Chemistry, etc., in the vicinity of our institution.

Geology is taught with a text book and by the study of a very good geological collection. Our collection of fossils, although small, yet illustrates the course in a satisfactory manner. Excursions are also a feature of this department.

COURSE IN CHEMISTRY.

The laboratory is in the basement of the College building, is supplied with water and gas and so equipped that a complete course in Analytical Chemistry can be carried out by any of the regular students, or by such as desire to limit their course to this branch. At present nine students are engaged here. Recitations on the various branches are held here independently of the regu-

lar College work. Every opportunity is given applicants to fit themselves for any branch of chemical work. Two years at least are required for the completion of the entire course. An idea of the work performed by each student may be obtained from the following :

FIRST YEAR.

Qualitative Analysis, with recitations. Inorganic Chemistry, with recitations. Organic Chemistry, with recitations. Theoretical Chemistry, with recitations. Crystallography.

SECOND YEAR.

Quantitative Chemistry, with recitations. Chemical Technology, with recitations. History of Chemistry, Lectures. Assaying. Mineralogy.

TEXT-BOOKS : Thorpe's Chemistry of Metals and Non-Metals. Woehler's Organic Chemistry. Qualitative Analysis, Douglass & Prescott, Galloway & Fresenius. Theoretical Chemistry (Remsen). Crystallography (Lectures & Kopp). Quantitative Analysis (Classen, Fresenius). Chemical Technology (Wagner, Post). History of Chemistry (Lectures). Assaying (Ricketts). Mineralogy (Dana). Watt's Chemical Dictionary.

Students have access to the library of the Professor of the department. The following Chemical Journals are also on file :

ACADEMIC DEPARTMENT.

This department has been re-organized by the Board of Trustees, so as to furnish a three years' course of study, affording for those who desire it, thorough preparation for College, and for those who do not design to enter the College Department, a good education, fitting them for teaching, or for business pursuits. The Department is under the immediate supervision of the Principal and his Assistant and is regularly graded. Students on entering the Institution will be admitted to that grade for which they are qualified by previous study.

STUDIES.

The following includes the list of studies for each grade :

FIRST YEAR.

| | |
|----------------------------|-------------------------------------|
| Reading (Lippincott). | Latin (Chase and Stuart). |
| Orthography (Buckwalter). | Composition and Declamation. |
| Penmanship. | English Grammar (Reed and Kellogg). |
| Modern Geography (Warren). | |
| Arithmetic (Brooks). | |

SECOND YEAR.

FIRST TERM.

| | |
|---|------------------------------|
| Latin Grammar and Exercises in Translation (Allen and Greenough). | Reading (Lippincott). |
| English Grammar (Reed and Kellogg). | Orthography (Buckwalter). |
| Arithmetic (Brooks). | History of U. S. (Barnes). |
| Physical Geography (Warren). | Declamation and Composition. |
| | Penmanship. |

SECOND TERM.

| | |
|---|-----------------------------------|
| Latin (Allen and Greenough). | Orthography (Buckwalter). |
| Greek Grammar and Exercises in Translation (White and Goodwin). | History of U. S. (Barnes). |
| Arithmetic (Brooks). | Declamation and Composi- tion. |
| Reading (Lippincott). | Penmanship. |

THIRD TERM.

| | |
|---|-----------------------------------|
| Cæsar (Allen and Greenough). | Arithmetic (Brooks). |
| Latin Grammar (Allen and Greenough). | Reading (Lippincott). |
| Greek Grammar and Exercises in Translation (White and Goodwin). | Orthography (Buckwalter). |
| History of England or Rome (Pennell). | Declamation and Composi- tion. |
| | Penmanship. |

THIRD YEAR.

FIRST TERM.

| | |
|---|-----------------------------------|
| Cæsar (Allen and Greenough). | Mythology (Keightley). |
| Latin Grammar (Allen and Greenough). | Rhetoric (Kellogg). |
| Anabasis (Goodwin). | Algebra (Robinson). |
| Greek Grammar (Goodwin). | German (Otto). |
| History of Greece (Pennell). | Composition and Declama- tion. |

SECOND TERM.

EXPENSES.

COLLEGE CHARGES FOR THE SCHOLASTIC YEAR:

| | | |
|---|-----------|----------|
| Tuition, | - - - - - | \$50 00 |
| Room rent, | - - - - - | 10 00 |
| Fuel, | - - - - - | 8 00 |
| Contingent fee, | - - - - - | 3 75 |
| | | <hr/> |
| Board, washing and light, about \$3 per week, | | 120 00 |
| | | <hr/> |
| Total, | - - - - - | \$191 75 |

As the scholastic year of forty weeks is divided into three terms of sixteen, fourteen and ten weeks, the above charges will be divided accordingly.

In the Academic Department the tuition is \$10 less per year ; the other charges are the same. Day students pay the same tuition as those from abroad, in either department, and \$1 per term as contingent fee.

The College charges of each term must be paid in advance, or satisfactory arrangements made with the Treasurer to secure payment.

The members of the Senior Class, at the beginning of the Third Term, pay an extra fee of five dollars to the Treasurer, which will be refunded in case of failure to obtain the degree of Bachelor of Arts.

All students will furnish their own rooms.

Academic students are required to board in the Institution ; those in College may board in town, but only at *private* boarding houses approved of by the Executive Committee and the Faculty.

No deduction will be made for the absence or premature withdrawal of a student from the Institution, unless occasioned by protracted sickness.

ORIGIN OF THE INSTITUTION.

This Institution was founded in 1867 by a number of gentlemen, chiefly members of the Evangelical Lutheran Church. Animated by the desire to establish a College for the higher education of young men, under auspices that should secure their religious and moral, as well as intellectual culture, they formed themselves into a joint stock company and secured a charter for a College. They resolved to call it Muhlenberg College, after the honored patriarch of the Lutheran faith in this country. Subsequently the Institution, by surrender of its stock and with a charter amended by the proper Court, was put under the direct control of the Evangelical Lutheran Ministerium of Pennsylvania and adjacent States. Its trustees are elected by this body.

LOCATION.

Allentown is beautifully located upon high ground, a short distance above the confluence of the Jordan creek and the Lehigh river, fifty-nine miles north of Philadelphia. Few locations combine in a more eminent degree the advantages of accessibility, healthfulness, beautiful surroundings and quietness for the purpose of study.

The city has frequent and direct communication with New York, Philadelphia, Harrisburg and the West, and, by the local railroads intersecting here, ready access to all parts of the surrounding country.

THE BUILDINGS.

The buildings of the institution are situated in the southeastern part of the city, surrounded by about five acres of ground devoted to its exclusive use. In front there is a fine lawn adorned with shade-trees, and in the rear a large campus supplied with a gymnasium. The accommodations for lodging the students are of the most approved character, each room being intended for two per-

sons, having alcoves for single beds. The rooms are well ventilated, abundantly furnished with light, and command beautiful prospects on every side, whilst the arrangements for cleanliness are ample.

The Chapel, Library, Recitation and Reading-rooms are within the College building.

GOVERNMENT.

The government is firmly but kindly administered, and is intended to be parental in its character. No unnecessary or arbitrary regulations will be introduced, but good order, obedience and a general propriety of deportment will be strenuously insisted upon, and no one persistently disobedient, or pernicious in his influence, will be retained upon any condition.

An entrance into the Institution is considered an agreement, in good faith, to abide by its rules and regulations, and expulsion necessitated by disobedience or immorality, a forfeiture of its advantages. It will, however, be the object of the officers and instructors, by their frequent presence and friendly relations with the pupils, to avoid, if possible, the severer forms of discipline.

MORAL TRAINING.

The moral and religious training of youth is regarded as a most important part of their education, and nothing can atone for its neglect. For this purpose the Scriptures are daily read at morning prayers in the Chapel, and especial pains are taken to awaken an interest in their sacred pages, to mould character by their hallowed influence, and to imbue every heart with noble, generous and christian principles. Regular instruction in Religion is included in the course of studies for the several classes. On the Lord's day attendance upon public worship is required. The sanctity of the Lord's day, attendance upon religious duties, and correctness of deportment and politeness of demeanor will be strictly insisted upon.

 SCHOLARSHIPS.

Any individual or congregation contributing \$1000 to the College, will receive a permanent scholarship, which secures to the contributor, his assigns, etc., the perpetual right of educating one student in all the departments of the Institution, free of expense for tuition. About thirty individuals have thus far purchased scholarships.

The churches holding one or more are : St. John's of Allentown ; Emmanuel's of Pottstown ; St. James' of Reading ; Trinity of Reading.

St. John's English Reformed Church of Allentown owns the FRANK ERDMAN COOPER scholarship, given to it by C. W. Cooper, Esq., in memory of his son, who, at the time of his death, was a student of the Institution.

The HENRY MELCHIOR MUHLENBERG scholarship was endowed by Mrs. Mary A. Rogers and Mrs. Baily and her son, of New York, in honor of their ancestor, the Patriarch of the Lutheran Church in this country.

The Allentown High School scholarship, resulting from the sale of the "Old Academy" Property and vested in the Public School Board of Control of Allentown, is open annually to competition on the part of graduates of the High School, preference being given to members of the class most recently graduating. The choice is made by an especial competitive examination conducted by the Board of Control.

It is hoped that others will follow these examples, and take individual, memorial or congregational scholarships, as thereby apart from educating one's own family, worthy and talented, but poor young men may be aided in securing an education that may fit them for eminent usefulness, and the churches may have in perpetual training their sons chosen for the work of the Gospel ministry.

 THE DEGREE OF A. M.

The degree of Master of Arts may be conferred in course, on the *written* application of graduates of the College, of three years' standing, of good moral character, who have pursued liberal, professional or scientific studies since graduation. When such stu-

dies have not been the regular occupation during those years, satisfactory evidence shall be given of diligence in literary pursuits, and a written or printed thesis submitted for examination by the Faculty. This degree is conferred upon the nomination of the Faculty.

COLLEGE SOCIETIES.

There are two Literary Societies connected with the Institution, the Euterpean and Sophronian, each of which possesses a well selected library, and affords opportunity for improvement in Composition, Declamation and Debate. Students are expected to join these, but are cautioned against secret fraternities as mere voluntary organizations of questionable utility.

GENERAL REMARKS.

All the classes are examined at the close of each term, and a report is sent to the parents or guardians, not only of scholarship, but of general attendance and deportment during the term. They are respectfully requested to give these reports a careful examination. Their cordial co-operation in sustaining the rules of the Institution, in stimulating the industry and securing the cheerful and respectful obedience of their sons or wards, will greatly contribute to their improvement and permanent benefit.

A prompt attendance at the commencement of each term, is of the utmost importance to the student. A want of punctuality seriously affects his standing in the Institution.

Absence from the Institution, during the term time, is discouraged and is permitted only upon the written request of parent or guardian, with the consent of the President.

ENDOWMENTS, BEQUESTS AND DEVISES.

The Institution is yet in its comparative infancy, and is far from being adequately endowed and fully equipped. It needs a larger corps of Professors, as well as an increased library and cab-

inet, and chemical and philosophical appliances, to conduct physical experimentation on a larger scale. This want has been partly met by endowments of various amounts secured in the past, and by the liberal gift of thirty thousand dollars by the late Hon. Asa Packer, which, by resolution of the Board of Trustees, is devoted to the endowment of the chair of Natural and Applied Science. Further relief was afforded by the generosity of Messrs. Mosser & Keck, who endowed the Professorship of the Greek Language and Literature. The Institution earnestly appeals to the patriotism and Christian benevolence of the public for other benefactions, until all its chairs are fully endowed, and its indebtedness is removed. Abundant experience has proved that education is most valuable, when it includes the moral training of the student. The patriot and the Christian alike have an interest in Institutions that are fostering such an education. It is equally certain that Colleges can prosper only when lifted above the contingencies of adverse times and commercial panics. Competent and effective faculties of instruction cannot be gathered and scattered as the business of the country prospers or declines. Permanent efficiency requires permanent endowment. It is hoped, therefore, that the friends of the church and of education will from time to time, come to our relief with their liberal gifts. But there are those whose income is needed by themselves during life, but who, without injustice to any person or interest, could by their bequests advance the prosperity and widen the usefulness of the College. It is important that testamentary papers should be carefully drawn and regularly executed, and to give our corporation name accurately, we append the following forms, respectively for personal property and real estate, and indicating whether the bequest is for endowment, or the general purposes of the College.

I give and bequeath to "The Trustees of Muhlenberg College, in Allentown, Pennsylvania, and to their successors and assigns forever, the sum of Dollars, to be safely invested by said corporation in good real estate security, and the interest accruing therefrom to be applied to the support of the Professors in said College."

I give and bequeath a certain lot, situated (here described) to "The Trustees of Muhlenberg College," in Allentown, Pennsylvania, and to their successors and assigns forever, for the uses and purposes of said College, according to the provisions of its charter.
