SEEDSMEN TO THE AMERICAN PEOPLE

IOWA SEED CO.

DES MOINES, IOWA, U.S.A.

1865

1922

Fifty seven years Successful Business!

Des Moines, Iowa, January, 1922 Greeting to Our Customers

The lower value levels of merchandise generally, has in our opinion reached the bottom so far as farm and garden products are concerned. We are fully confident that better prices will be realized by the farmer and producer this coming year. We do not believe it advisable to curtail your planting operations, but rather to strive for greater returns from the land. This you can do by using our Choice Iowa Seeds, and giving the crops the care and attention worthy of good seed. By this means you can increase production to a profit. We expect by supplying seeds of the best quality to help raise both production and profit, and to strengthen our position as

"SEEDSMEN TO THE AMERICAN PEOPLE"

OUR GUARANTEE

In trading by mail you have to buy seeds without seeing them. We protect you in this, however, because if any seeds from us are not satisfactory upon arrival and inspection, return them to us and we will refund the money you paid for them. With this agreement you can purchase your seeds of us in every confidence and just as well as though you traded over our counters. You are sole judge; all we require is that they shall be sent back to us within fifteen days from date of receipt by you. This applies to garden, farm and flower seeds. We cannot guarantee a crop, but we can and do guarantee to take seeds back that you yourself are not pleased with. The fifteen days will give you ample time to test them in any way you want. It will give you time to send samples for inspection, analysis or test to the State Seed Inspector or to the Agricultural Experiment Station. Our stocks will stand the closest scrutiny and we are ready to be judged accordingly. You will readily see that we could not make this offer unless our stocks were first class and give satisfaction to the buyer.

TO OUR NEW FRIENDS

Each year this catalogue goes to prospective buyers who have never traded with us and are not acquainted with our stocks or methods. To such just a few words of solicitation. This book is compiled with great care that it may be a help to you in your gardening and farming operations. Both text and illustrations are truthful in detail, and it will be found a real guide to better farms and better gardens. Read it carefully, weigh all the statements and send us a trial order. We will gladly leave in your hands the question of future and continued patronage. Each year our friends increase in number, and this is because those who give us trial orders become firm friends and continuous patrons. We sell the best possible stocks at the lowest prices consistent with profitable merchandizing. Price, however, must be second to quality. You do not want poor seeds at any price. We affirm without qualification that our prices are as low as quality supplied will justify. We want your trade and will give value received in quality seeds for money sent us.

RETAIL STORE AND OFFICE
209-211 WALNUT STREET

Iowa Seed Company, 209-211 Walnut St. Des Moines, Iowa

M. Kurtzweil, Pres.; E. T. Peirce, Vice-Pres.; J. N. Albright, Treas.; Geo. L. Kurtzweil, Sec'y; C. W. Davison, Director.

SUGGESTIONS TO CUSTOMERS

Our constant aim is to make the highest quality the first consideration, and next to put our prices as low as good seed can be sold

Order Early: The best time to order is just as soon as you receive this catalogue, as we can always give your orders more of our personal attention if they come in before the rush of the spring trade. Please use the order sheet, as it makes it more convenient for us in filling orders. You will note there are two order sheets enclosed; one for seeds, tools and miscellaneous goods, and the other for plants, bulbs and nursery stock. If you will use them as intended, it will greatly facilitate the execution of your orders. Terms are invariably cash with order, as we keep no book accounts in our mail order department, and the expense of sending goods C. O. D. is quite large. Postage stamps received the same as cash.

Shipping: There are three interurban companies and fifteen railroad lines at Des Moines, so that quick shipments can be made to any town in the United States.

Charges Prepaid: All Vegetable and Flower Seeds, Bulbs and Plants, except those noted, are sent prepaid by mail or express by the quickest and most direct routes, unless ordered otherwise, and we guarantee the safe arrival. Seeds sold by the peck or bushel, Field Seeds, Potatoes, Implements and other heavy goods are sent by freight or express, customers paying charges. Remember seeds go at special rates by express.

Seeds by Mail: Seeds, plants and bulbs may be sent by Parcel Post required on quantities over 1 pound. Miscellaneous merchandise may go by Parcel Post, and mailing weight is given on items of this kind.

Delivery: The point of delivery of all goods is on cars at Des Moines. When we quote a delivery price it means simply that we prepay the freight, express charges or postage.

Many of our farmer customers live at railroad stations where there are no agents. In such cases we must request them to send sufficient money to prepay freight charges on heavy shipments; also in cases where perishable or other goods are ordered to be sent by freight or express to such great distances that cost of transportation will nearly or quite equal the value of the goods.

Discounts: We have this year made the prices in this catalogue as low as our high grade seeds can be sold, and we can give no discounts. In ordering seeds in bulk you may deduct ten cents per pound on vegetable seeds, such as are listed prepaid, if you are willing to have them sent by express or freight at your expense.

Premiums: Each year we put up thousands of packets of new or particularly desirable varieties of seeds for free distribution to our customers. We will send these out with the seeds ordered by you and will treat you liberally in this respect. We shall also try to please our plant customers by adding something to their order when shipping it.

Our Responsibility: As this book will probably go into the hands of some who are unacquainted with us, this question will naturally arise, and in answer to same we refer you, by permission, to the Commercial Savings Bank of this city, the postmaster or to any express company.

What We Guarantee: That all money sent to us for seed shall reach us if sent us by registered letter, postoffice or express money order, or bank draft, made payable to our order. That your order will be filled promptly and well. That goods ordered will reach you safely. Keep a copy of your order. Sometimes persons think they have ordered articles which they have omitted, and blame us for not sending them.

About Warranting: We thoroughly test all our seeds and nothing is sent out which we do not believe to be good in every respect. When it is considered how many are the contingencies on which the success of any crop depends, such as sowing too deep or too shallow, too wet or dry soil, unfavorable weather, insects, etc., our customers will readily see that it would be sheer folly for anyone to warrant seeds to produce a perfect crop, and we want it plainly understood that while we exercise great care to have all seeds pure and reliable, and also true to name, we do not give any warranty express or implied as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the seeds on these terms and conditions, they are to be returned at once, and the money that has been paid for same will be refunded. No officer, agent or employe of this company is authorized to make any warranty whatsoever. However, we have so much confidence in our seeds that we hereby agree to refill any retail order for vegetable or flower seeds free of charge should they prove otherwise than as we represent them. We know of no responsible seed firm in the world which guarantees seeds any further than this. Compare with other seed catalogues and you will see that we are right.

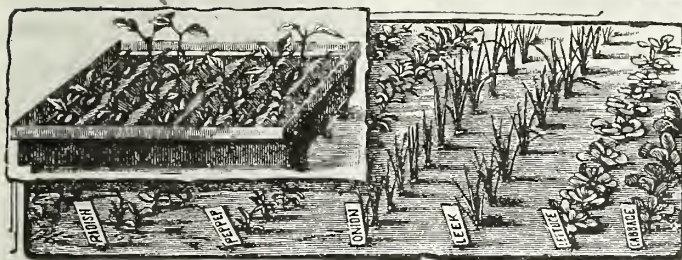

Market Gardeners and others who buy vegetable seeds in bulk to the amount of \$5.00 or more are requested to send their list of seeds wanted to us and let us make special quotations.

Plant Orders: Orders for plants will be filled as early in the spring as we consider it safe to send them. If ordered for immediate shipment in severe weather they will be sent at purchaser's risk.

Small Orders: We take pains to fill orders promptly and correctly, no matter if only for but one packet of seeds, but we request that plant orders amount to at least 25 cents, and nursery stock to at least 50 cents, as otherwise they are filled at a loss to us.

IF YOU ONCE PURCHASE VEGETABLE SEEDS OF US YOU WILL CONTINUE A PATRON. THE QUALITY INVITES CONFIDENCE.

VEGETABLE SEEDS

SEED TESTING AND TRIALS

Our stock of vegetable seeds we are sure cannot be excelled either in quality or selection by any firm in the country, as we watch our growing crops with great care, taking pains to isolate and keep pure and true to name. Every variety listed is desirable and has our recommendation. Our packets are, we believe, as well filled as any reliable seed dealer's in the United States, and, in fact, a comparison has shown that they contain more seed, on the average, than those of any other firm whose packets we have secured. We pay the postage on vegetable seeds at these prices, except on Beans, Peas and Corn at the 3 lb. and larger quantities.

We make it a rule to carefully test all seeds. We carry on extensive trials by which we are enabled to offer only those strains of seeds which come up to the standard of purity and excellence, and are of the highest vitality, and our **Choice Iowa Seeds** are sure to

please. The vegetable seed department is under the personal supervision of the president of our company. He places the contracts, inspects the growing crops, superintends the farm operations in summer and during the busy months in spring he gives personal oversight to the order filling department. We give you high quality in our **Choice Iowa Seeds**.

SEEDS BY PARCEL POST

Customers are urged to use the Parcel Post. We return Excess Postage.

BE SURE AND ADD ONE POUND ADDITIONAL TO COVER WEIGHT OF PACKING

Many of our friends will prefer to have their seeds come by parcel post rather than by express. There is not much difference in the cost of transportation by these two methods, but if you want the seeds to come by mail you must send postage, because it must be prepaid. We submit herewith a table showing the postage per pound to each state. This is figured in the way to be most easily understood by our friends. The only thing to remember is to add one pound over the actual amount of seeds you order to cover the weight of packing. For example, you live in Alabama and you order three pounds of Gradus peas by parcel post. You will add 24 cents to the price quoted in the catalogue. If you live in Illinois and want 15 lbs. of peas by parcel post, add 64 cents to the price in the catalogue.

If the postage you send is more than is necessary the surplus will be returned to you inclosed in a small envelope within the package. If you do not send postage we will take it for granted you want the goods forwarded by express or freight.

Remember that we pay the postage on garden seeds ordered by the packet, ounce, quarter pound or pound, no matter what the cost, but on larger quantities postage must be added if we are to send them by mail.

OUR POSTAGE RATE FROM DES MOINES TO ALL IOWA POINTS IS ONE CENT PER POUND.

STATE	Postage Per Lb.	STATE	Postage Per Lb.
Alabama	6 cents	Missouri	4 cents
Alaska	12 cents	Montana	8 cents
Arizona	8 cents	Nebraska	4 cents
Arkansas	4 cents	Nevada	8 cents
California	10 cents	New Hampshire	8 cents

Mississippi	6 cents	Wyoming	6 cents

ASPARAGUS

(One ounce will sow forty feet of drill)

Asparagus is so easily grown every garden should contain a bed. A bed ten feet square requiring 50 plants, will give abundant supply for an ordinary family. Sow early in spring in rows a foot apart; keep clean by frequent weeding and hoeing. Circular on How to Make an Asparagus Bed, free.

BONVALLET'S GIANT.—Entirely distinct variety, that produces shoots which are white as long as they are fit for use. Robust and vigorous in habit, and throws up large shoots. Pkt. 5c; oz. 10; ¼ lb. 20c; lb. \$1.00.

PALMETTO.—Stalks frequently measure 2 inches in diameter, and even when of extra length are perfectly tender when cooked. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

CONOVER'S COLOSSAL.—The standard variety. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

ASPARAGUS ROOTS

Our roots are strong and healthy. We recommend the 1-year-old roots.

CONOVER'S COLOSSAL.—One year plants.—Per doz. 30c, 100 for \$1.50, postpaid. By express or freight, not prepaid, 100 for \$1.35, 1,000 for \$10.

Two year plants.—Per doz. 50c, 100 for \$2.50, postpaid. By express or freight, not prepaid, 100 for \$2.00, 1,000 for \$15.00.

PALMETTO.—One year plants.—Per doz. 30c, 100 for \$1.00, postpaid. By express or freight, not prepaid, 100 for 75c, 1,000 for \$6.00.

Two year plants.—Per doz. 50c, 100 for \$2.00, postpaid. By express or freight, not prepaid, 100 for \$1.00, 1,000 for \$7.50.

BONVALLET'S GIANT.—Same as Palmetto above.

BONVALLET'S GIANT

ARTICHOKE

A great delicacy. A perennial producing the large flower heads, which are the part eaten, the second season and every year thereafter. Sow seed and when weather becomes settled transplant in rows 4 feet apart and 2 feet in the row.

LARGE GREEN GLOBE.—The best variety for general use; buds large; scales green; very thick, fleshy. Pkt. 10c; oz. 35c; ¼ lb. \$1.00.

BROCCOLI

(One ounce will produce about 3,000 plants.)

Growth and habit like cauliflower, except more hardy, and heads are not so compact; not desirable for warm or dry countries.

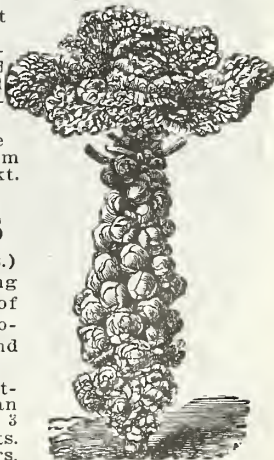

EARLY LARGE WHITE.—The most popular sort. Has medium sized, creamy white heads. Pkt. 10c; oz. 40c.

BRUSSELS SPROUTS

(One ounce for about 3,000 plants.)

Of the cabbage family, producing numerous heads on the stem, of most delicious quality, with cabbage-like head at top. Use and cultivate like winter cabbage.

AMERICAN MAMMOTH.—Greatly superior variety of American growth, which forms heads about 3 weeks earlier than other sorts. Profitable for market gardeners. Pkt. 10c, oz. 35c, ¼ lb. \$1.00.

BRUSSELS SPROUTS

BEANS

DWARF BUSH VARIETIES

(One pound will sow 50 ft. of drill.)

Dwarf or bush beans require no support and may be planted in drills or hills. They do best if not crowded. Beans are tender annuals and cannot be planted until danger of frost is past. Do not plant more than two inches deep. Never cultivate when the plants are wet.

WAX POD SORTS

BRITTLE WAX.—Claimed to be earlier than Golden Wax. Plant is a strong grower with large foliage and very productive. Pods are nearly straight, rather broad, solid and four to six inches long. Pods stringless, quality excellent. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

IMPROVED GOLDEN WAX.—The most popular variety and this popularity is due largely to the fact that the strain we have is a great improvement on the old Golden Wax, having larger pods and being more prolific. It is one of the handsomest beans we have ever seen, the pods a rich golden yellow, of perfect shape and rust proof. Best for family or market garden. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

CHALLENGE BLACK WAX.—This strain of Black Wax is in our opinion superior to that generally offered. Pods tender, round, fleshy and stringless. Pkt. 10c, ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

SURECROP STRINGLESS WAX.—A valuable variety of dwarf wax beans. It is very productive, bearing large handsome, golden yellow pods in great abundance and being hardy, may be planted early. Pkt. 10c; ¼ lb. 15c; lb. 45c, postpaid. Not prepaid, any quantity at 30 cents per pound.

WARDWELL'S KIDNEY WAX.—A very popular variety of wax bean bearing long, flat pods of delicate, waxy, yellow color, stringless and brittle. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 25 cents per pound.

POLE BEANS

Require support for best results. Frequently planted among the corn and good returns are secured, but if you can furnish poles for support they will produce wonderfully. The extra care given will be fully repaid.

OLD HOMESTEAD.—Is also known as Improved Kentucky Wonder. Enormously productive, pods hanging in great clusters from top to bottom of the pole. Entirely stringless, pods of silvery green color. Can be grown with corn to good advantage. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

LAZY WIFE.—Very popular. Pods produced in great abundance, measure from 4½ to 6 inches in length. Retain their rich, tender and stringless qualities until nearly ripe. The white beans are large, round, plump, and make excellent winter shell beans. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

SPECKLED CUT SHORT.—The old-fashioned cornfield bean so popular. Good quality and a good yielder. Pkt. 10c; ¼ lb. 15c; lb. 40, postpaid. Not prepaid, any quantity at 30 cents per pound.

GOLDEN CLUSTER WAX.—Considered the best wax pole bean. It bears profusely long, golden yellow pods in clusters of 3 to 6. Continues in bearing from mid-July until vines are cut by frost. Pods are 7 to 8 inches long, quite flat but fleshy, absolutely stringless, brittle and delicious. Pkt. 10c; ¼ lb. 20c; lb. 50c, postpaid. Not prepaid, any quantity at 40c per pound.

KING OF THE GARDEN LIMA.—An improvement on the large White Lima. Pods are of enormous size. Pkt. 10c; ¼ lb. 15c; lb. 60c, postpaid. Not prepaid, any quantity at 40c per pound.

YARD LONG.—A great curiosity and an excellent variety. Pods fully three feet long. Splendid in the green state as pods are tender and of fine flavor. Pkt. 15c; ¼ lb. 50c; lb. \$1.75, postpaid.

SCARLET RUNNER.—Valuable for table use or as an ornamental vine. Pkt. 10c; ¼ lb. 20c; lb. 50c, postpaid. Not prepaid, any quantity 40 cents per pound.

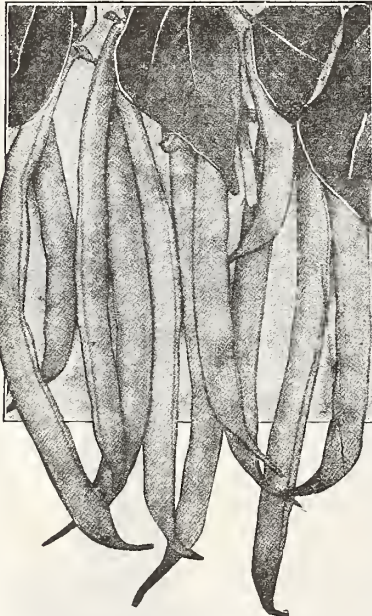

GOLDEN WAX

GREEN POD SORTS

STRINGLESS GREEN POD.—A stringless green pod bush bean. Surpasses all others in crisp, tender flavor. Finely shaped, long green pods, absolutely stringless; ready to market two weeks earlier than the Valentines. Of immense value to market gardeners and amateurs who seek an early bean. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

IMPROVED EARLY VALENTINE.—Standard green pod variety. Produces the thin, round curved pods abundantly. Unexcelled in quality and uniformity of ripening; nearly the whole crop can be taken at one picking, usually within 35 days after planting. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 25 cents per pound.

LAZY WIFE

SURECROP STRINGLESS WAX

BUSH LIMAS

BURPEE'S BUSH LIMA.—A dwarf or bush form of the true large Lima which is of great value. They grow from 18 to 20 inches high, of stout, erect growth, yet branching and vigorous; an immense yielder. Does not always mature this far north, but makes excellent green shelled beans. Pkt. 10c; ¼ lb. 15c; lb. 45c, postpaid. Not prepaid, any quantity at 35 cents per pound.

HENDERSON'S BUSH LIMA.—A true bush Lima, and sure to ripen its enormous crop. Beans grow to good size and are excellent either green, shelled or dry. Produces a continuous crop from the middle of July until frost. Enormously productive. Pkt. 10c; ¼ lb. 15c; lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

HENDERSON'S DWARF LIMA

IT ONLY TAKES A LITTLE EXTRA WORK FOR POLE BEANS. THEY YIELD MUCH HEAVIER THAN THE DWARF KINDS

TABLE BEETS

(One ounce sows 50 feet of drill; 4 to 6 lbs. for one acre.)
For early, sow as soon as ground can be worked, and from the middle of May for general crop, in drills 15 inches apart and 1½ inches deep. As the plants grow, thin to 6 inches in drills. Young plants make excellent greens. The soil should be a deep, rich loam. Hoe often, taking care not to bruise the roots.

CROSBY'S IMPROVED EGYPTIAN.—We believe this to be the earliest variety. Great improvement on the old Egyptian, being thicker, handsomer and more regular in shape, smooth with small tops and small tap root. Popular with our market gardeners for this purpose. Being a rapid grower it may be sown outside as late as the first of August. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.00.

EARLY CRIMSON GLOBE.—Very early, of spherical form. Skin very smooth and it is as handsome a beet as you can imagine. It is a rich, deep red color, shading to purple. Its flavor cannot be surpassed. When cooked it is of even, dark color throughout, and is attractive on the table. Uniform shape and size. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.00.

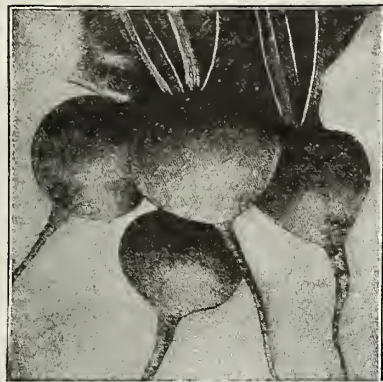

MARKET GARDENERS.—Undoubtedly one of the best ever introduced. As will be noted by engraving, it is very symmetrical, with small tap root. Unusually small tops. Grows to a large size and makes a good beet for the winter. One sowing will produce early beets for the market and main crop for winter use, color deep blood red, fine grained. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.00.

DETROIT DARK RED.—One of the best varieties grown for main crop. Its roots are round, very smooth, of good marketable size, and for table use is unexcelled. The skin is deep blood red; flesh is also dark red and is sweet and tender. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.00.

LONG DARK BLOOD.—A well known sort. Grows a long, tapering root. Will produce much greater crops than the flat shaped sorts. Quality is excellent and it will keep nicely all winter in a cool place. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 80c.

KLIEN-WANZLEBEN SUGAR BEET.—Cultivated for beet sugar factories; yields 15 to 20 per cent of sugar. Roots straight, tapering evenly and somewhat screw shape. Our seed is from beets which were tested as to per cent of sugar before setting out. The sugar makes it of great value for feeding. Per oz. 10c; ¼ lb. 25c; lb. 90c. Not prepaid, 5 lbs. or more at 75c lb.

LANE'S IMPERIAL SUGAR BEET.—Largest sugar beet and the one usually grown for stock feeding. Yields heavy tonnage of beets with high percentage of sugar. Per oz. 10c; ¼ lb. 25c; lb. 90c. Not prepaid, 5 lbs. or more at 75c per lb.

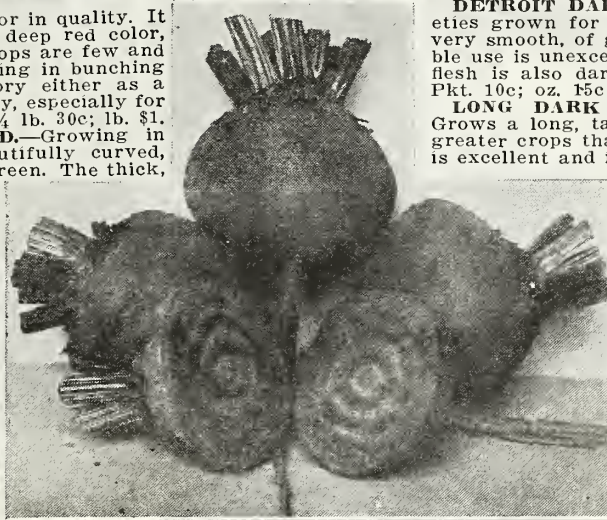

FIREBALL

FIREBALL.—Has no superior in quality. It is a first early, globe-shape, deep red color, flesh solid and very sweet. Tops are few and small and this is a great saving in bunching for market. Very satisfactory either as a market or home garden variety, especially for early use. Pkt. 10c, oz. 15c; ¼ lb. 30c; lb. \$1.

GIANT LUCULLUS CHARD.—Growing in popularity. Leaves are beautifully curved, and of a soft clean shade of green. The thick, broad stalks are as large as rhubarb. Prepared the same as asparagus, or leaves and stalks used for "greens." Pkt. 10c; oz. 15c; ¼ lb. 35c; lb. \$1.00.

SWISS CHARD.—The ordinary form of chard beet with green leaves. Sometimes known as "Spinach Beet." Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 80c.

CRIMSON GLOBE

MANGEL BEETS FOR STOCK

MAMMOTH GOLDEN GIANT.—The largest of yellow flesh mangels. Grows more than half above ground and of a more grayish or rather russet yellow. Remarkably even in shape; of vigorous growth; has a fine neck and very smooth skin; flesh firm and sweet. It is a most excellent keeper; yields 40 to 60 tons per acre. Oz. 10c; ¼ lb. 25c; lb. 60c, postpaid. Not prepaid, 5 lbs. for \$2.50.

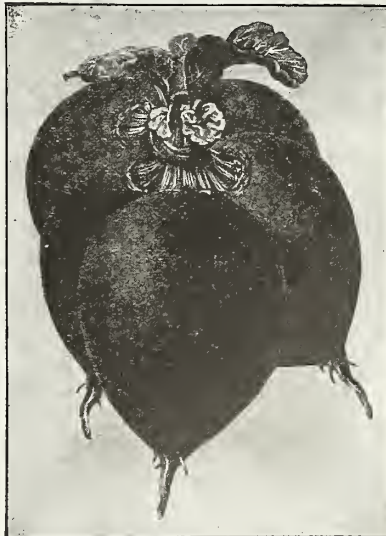

CHAMPION YELLOW GLOBE.—The finest type yellow globe in cultivation. Roots immense size, fine shape, small tap root, neat top. Flesh being very firm and fine grained renders it an excellent keeping variety. We recommend this variety as the best adapted to shallow soils. Per oz. 10c; ¼ lb. 25c; lb. 60c. Not prepaid, 5 lbs. or more at 50c per lb.

GIANT SLUDSTROP.—A variety of exceptionally even growth. Color is reddish yellow, excellent in shape, which resembles Golden Tankard, and is superior to that popular sort in every way. Contains more sugar, grows larger, more above ground and is easy to harvest. It is the best of all mangels for feeding purposes. Per oz. 10c; ¼ lb. 25c; lb. 60c. Not prepaid, 5 lbs. or more at 50c per lb.

DIGNITY LONG RED.—Improvement on the Mammoth Long Red. Unexcelled for yielding and feeding qualities. Grows to a very large size, weighing from 20 to 50 lbs., and will yield 50 tons per acre. Very uniform, smooth and of good shape. Should be grown on deep, loose soil. Per oz. 10c; ¼ lb. 25c; lb. 55c. Not prepaid, 5 lbs. at 45c per lb.

GIANT HALF SUGAR MANGEL.—A hybrid or cross between the Mammoth Long Red and Sugar Beet, and for our own feeding we have found it superior to either. Being sweeter, both cattle and hogs relish them greatly. As heavy a yielder as the mangels and equally as smooth. Per oz. 10c; ¼ lb. 25c; lb. 60c. Not prepaid, 5 lbs. or more at 50c per lb.

GOLDEN TANKARD.—Cows and sheep thrive on it. Other mangels cut white, circled with yellow, but this is of a rich, deep yellow throughout. Early, hardy, a heavy cropper, and on account of shape the roots can grow close in rows. Oz. 10c; ¼ lb. 25c; lb. 70c. Not prepaid, 5 lbs. or more at 55c per lb.

MARKET GARDENERS

GIANT SLUDSTROP MANGEL

GROW MANGELS, CARROTS, RUTA BAGAS AND OTHER ROOTS FOR YOUR LIVE STOCK. THEY MAKE EXCELLENT FEED.

CABBAGE

(One ounce will produce about 3,000 plants. Set 8,000 to 10,000 plants per acre, of early sorts, and 6,000 of large, late kinds.)

No vegetable is of greater importance than cabbage, and compared with the cost of seed, there is more money in growing cabbage than other crop. It does not pay, therefore, to take any risk in buying seed. We have had our cabbage seed grown by the same growers for about twenty years past, and it has proven of uniformly excellent quality, so that we pride ourselves on having the purest and highest grade of cabbage seed that is offered, or at least it is surpassed by none. The cabbage requires a deep, rich soil and thorough working to insure good, solid, full-sized heads. Sow early sorts in hotbeds about six weeks before time to set out the plants in the field or garden. Transplant to rows three feet apart. Our packets contain about 800 seeds. Slug Shot and tobacco dust are used to kill insects and worms.

EXTRA EARLY EXPRESS

EARLY VARIETIES

EXTRA EARLY EXPRESS.—The earliest variety in existence and produces rather small heads long before the Jersey Wakefield or other varieties have begun to head up. Heads solid, have few outside leaves, and can therefore be planted very close and yield a large crop. It is a most important variety for gardeners. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. \$2.50.

BURPEE'S ALL-HEAD EARLY.—This is the earliest of the flat-headed cabbages, of larger size than early varieties generally, of perfect shape and it makes exceptionally solid heads. It was originated by the late C. L. Allen, of Long Island, N. Y., but named by Mr. Burpee, who purchased the first crop and gave it his name. Our seed is grown from the original stock so that we have as good stock as can be purchased. Pkt. 10c, oz. 30c, ¼ lb. 90c, lb. \$3.00.

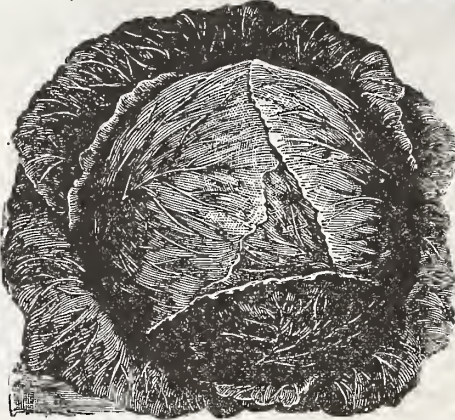

EARLY JERSEY WAKEFIELD.—Considered by many gardeners the very best first early variety. Of large size for so early a kind and is certainly deserving of its great popularity. Heads hard and solid, and have few outside leaves. Our seed is highest quality, American grown. Pkt. 10c, oz. 30c, ¼ lb. 90c, lb. \$3.00.

NEW WASHINGTON WAKEFIELD.—A grand variety, a trifle later than Jersey Wakefield; produces much larger heads, of perfect pyramidal shape, very solid, with few outside leaves. It grows remarkably uniform, heads are of even size and shape. Unequaled for market or family garden. Pkt. 10c, oz. 30c, ¼ lb. 90c, lb. \$3.00.

ALL HEAD EARLY

COPENHAGEN MARKET

COPENHAGEN MARKET.—A splendid new early flat head cabbage. Matures as early as Jersey Wakefield, has few leaves and is remarkably hard and solid. Grows compact, takes but little room and matures with a short stem. We tested it and proved it on our own farms before offering it. A variety from Denmark. Both type and quality are thoroughly fixed. Pkt. 10c, oz. 35c, ¼ lb. \$1.15, lb. \$3.50.

IOWA SEED CO.'S SHORT-STEM DRUMHEAD.—Our improved and selected strain which has greatly pleased thousands of our customers in the past. For sureness in heading, regularity of growth and even, large, solid heads, it far surpasses any other strain of late cabbage, ripening evenly, with very short stem or stalk, and large, thick heads silky fine quality. Pkt. 10c; oz. 30c; ¼ lb. 90c; lb. \$2.70.

FROST PROOF CABBAGE PLANTS

Grown from fall planted seed, off the coast of South Carolina. Produced in open fields, in winter so that they grow slowly and become hardened to cold and slight frost. Can be set out in spring much earlier than hot bed or greenhouse plants and you can really have cabbage two weeks ahead of ordinary plants by the use of the frost proof stocks. These will be mailed direct from the growers to you. Will reach you at proper time for planting and cost is very low.

Early Jersey Wakefield, per 100, 50 cents; 500 for \$2.00, postpaid.

Washington Wakefield, per 100, 50 cents; 500 for \$2.00, postpaid.

Henderson's Succession, per 100, 50 cents; 500 for \$2.00, postpaid.

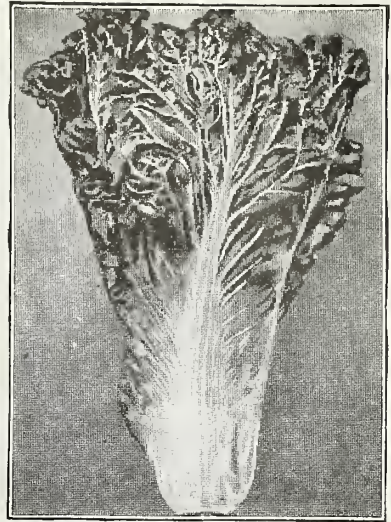

SHORT STEM DRUMHEAD

YOU ARE CERTAIN TO HAVE GOOD CROPS OF FINE CABBAGE IF YOU PLANT OUR SEED. WE SELL NONE BUT THE BEST.

CABBAGE

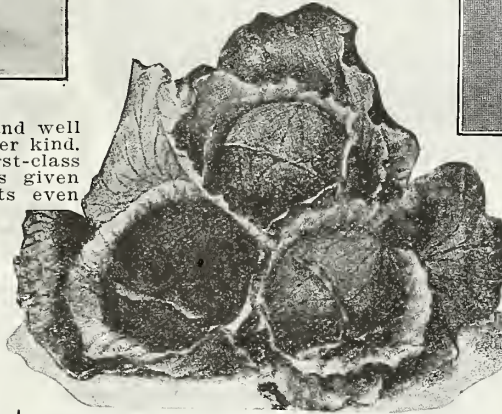

CHINESE CABBAGE

PE TSAI.—Produces a long top or head 12 to 15 in long, and 4 to 5 in. in diameter, which blanches to a beautiful clear white. Sow in hot beds for early or treat as late cabbage for winter use. This was originally imported from China. It resembles in growth Romaine or Cos Lettuce. The leaves are large, have broad ribs and are exceedingly tender. Has only become known in the last few years, but its excellence has created for it a large demand. The immense heads frequently weigh as much as six pounds. Pkt. 10c, oz. 50c, $\frac{1}{4}$ lb. \$1.75.

CHINESE CABBAGE

IMPROVED DANISH BALL-HEAD, or Hollander.—This variety has been selected and perfected for more than fifty years by the Danish gardeners. They grow it almost exclusively for winter cabbage. Heads round, good sized, solid and very fine grained. Has but few outer leaves. A good keeper, tender and crisp, with little waste heart. We import our seed of this sort from Denmark. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$2.70.

DANISH BALL HEAD

PERFECTION DRUMHEAD SAVOY.—Has curled and crumpled leaves and is of finer flavor than ordinary cabbage. Planted and grown as ordinary late or autumn cabbage. Our strain is sure header and is the best variety of this type. Heads are large and solid and will make a good crop. For salads and kraut the Savoy will give a richer flavor than common kinds. Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

MAMMOTH RED ROCK.—Is the largest of the red cabbages, solid, heavy, and a good keeper. Color is rich, dark red so desirable for pickling uses. Heads are solid and weigh 10 to 12 lbs. Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

PERFECTION DRUMHEAD SAVOY

CAULIFLOWER

(One ounce will produce about 3,000 plants.) One of the most delicious of vegetables. Requires similar treatment to cabbage. Does not head well during the hottest weather in summer. Sow the seed early for an early crop and again in June or July for late heads. Our Cauliflower seed is grown in Denmark and is the best produced anywhere.

HENDERSON'S EARLY SNOWBALL.—Considered the earliest and more certain to make a head than any other sort. Its dwarf habit and short outer leaves allow it to be planted as close as 18 to 20 inches apart each way, thus making it especially valuable to market gardeners. Our stock is extra choice, and cannot be excelled. We believe it to be the best in the world. Pkt. 20c, $\frac{1}{4}$ oz. 75c, oz. \$2.50.

DANISH GIANT, or Dry Weather Cauliflower.—A strong competitor for first place. Heads extra large, pure white and very solid. Has large leaves which protect the head. About 10 days later than Snowball, but has proven more desirable for growing in open ground and does well in dry seasons when other varieties show failure, keeping plump and fresh during the hottest, driest weather. Pkt. 20c, $\frac{1}{4}$ oz. 75c, oz. \$2.50.

EXTRA EARLY DWARF ERFURT.—Is valuable for forcing. A very popular variety. First quality. Pkt. 20c, $\frac{1}{4}$ oz. 75c, oz. \$2.50.

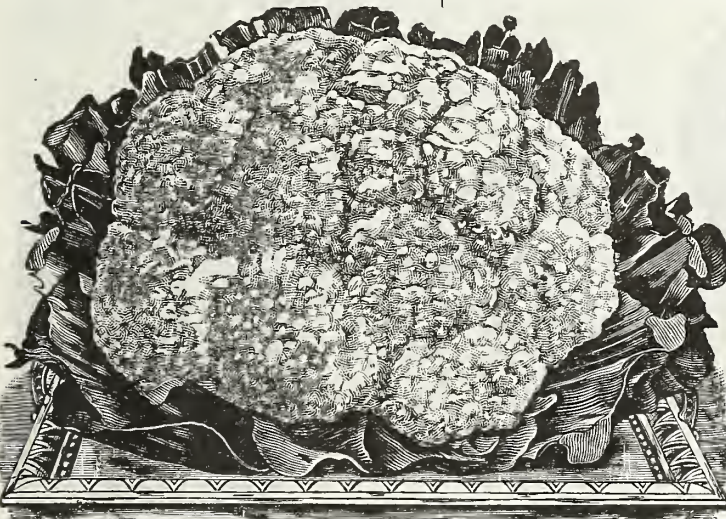

PREMIUM FLAT DUTCH

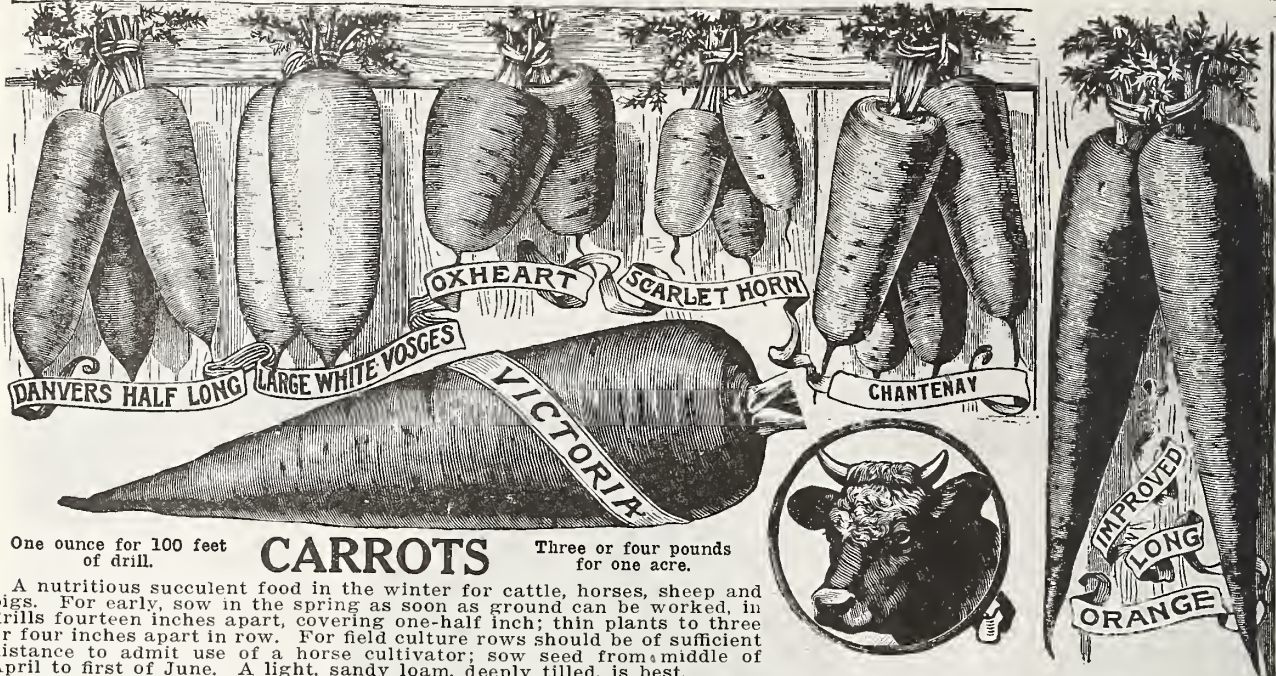

PREMIUM FLAT DUTCH.—This old and well known variety is still the standard winter kind. Heads are large, solid and it is a first-class keeper. Our strain of this cabbage is given extra care in selection to maintain its even type and sure heading quality. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

SUREHEAD.—This popular cabbage is rightly named Surehead and never fails to make a remarkable fine, solid, large head with few outer leaves. Strong, vigorous grower; ripens late. First-class main crop sort. Is of the Flat Dutch type but heads are somewhat rounded in form. Equal to that well known sort in keeping qualities. Specimens have been grown to weigh over 30 lbs, but under ordinary conditions weigh 12 to 18 lbs. Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

ALL SEASONS.—(Vandergaw.)—A medium early variety, but quite hardy and may be planted in mid-summer for late cabbage, hence its name. If used as a summer cabbage handle like any early sort and matures with succession. It grows to large size quickly, reaching 15 lbs. in weight. As fall cabbage, however, it gives best results. Plants set in fields July 15th mature very large, solid heads in September, and may be used any time thereafter. Will keep for winter use if left standing in the fields until after frost. Heads are compact, solid and of fine texture, an excellent sort for kraut. Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

HENDERSON'S SNOWBALL CAULIFLOWER.

One ounce for 100 feet
of drill.

CARROTS

Three or four pounds
for one acre.

A nutritious succulent food in the winter for cattle, horses, sheep and pigs. For early, sow in the spring as soon as ground can be worked, in drills fourteen inches apart, covering one-half inch; thin plants to three or four inches apart in row. For field culture rows should be of sufficient distance to admit use of a horse cultivator; sow seed from middle of April to first of June. A light, sandy loam, deeply tilled, is best.

EARLY SCARLET HORN.—Favorite extra early variety. Very early. Orange-scarlet, fine grained, and agreeable flavor. Top small, short, stump-shaped root; grows well in shallow soil. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 50c, lb. \$1.25.

OXHEART, or Guerande.—Most valuable variety in existence. Intermediate between Half-Long and Horn sorts; diameter 3 to 4 inches at neck; beautiful shape; rich orange color. Easily pulled, early as any, best quality all season. Has yielded 1,200 bushels per acre. Cut tops with scythe; pull with potato hooks. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

DANVERS.—Is in form about midway between the Long Orange and Shorthorn class, growing generally with a stump root. Rich, dark orange color, large size, smooth and flesh of very close texture with little core. A first-class carrot for all soils. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

CHANTENAY.—Most desirable early variety for bunching and, although a trifle later than the first earlies, will yield so much handsomer roots and larger crop that everyone is

pleased with it. Splendid variety for market or feeding purposes. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 50c, lb. \$1.25.

IMPROVED LONG ORANGE.—Desirable for garden or field. Grows to large size, averaging 12 inches in length and 3 inches in diameter at the top. This is the standard long variety, preferred to Victoria by some because of its deeper orange color. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

VICTORIA.—Largest carrot grown, heaviest cropping and most nutritious; roots remarkably fine, light orange, symmetrical, excellent quality, of high feeding properties; good keeper; grows half as much weight again per acre as other sorts; grows well out of ground; easily harvested. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 80c.

LARGE WHITE VOSGES, or Improved Short White.—A stock variety which is enormously productive and easy to harvest. Color light green above ground, white below; flesh rich, white, solid and crisp; heavy yielding. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 45c, lb. 80c.

WINTER QUEEN

CELERY

One ounce will produce
about 6,000 plants.

For first crop sow early in hotbeds, or in boxes in the house, in rich, moist soil, covering seed very lightly. For main crop sow in open ground in April. If the weather is hot and dry protect with light covering of hay or straw. Stir soil when plants are well up; thin out and transplant For main crop set out between June 15th and July 15th, in rows 3 feet apart and 6 inches apart in the row. Firm the earth well when setting and they will root better. Keep clear of weeds.

WHITE PLUME.—Stalks, portions of the inner leaves and heart naturally white, and become fit for use by simply tying up closely with twine. More used than any. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.00.

GOLDEN SELF-BLANCHING.—By far the most popular sort; of medium earliness and dwarf, compact habit, with thick, solid, heavily ribbed stalks which blanch easily to a clear, waxen yellow. Grown in rich, moist soil, the stalks are numerous and large, with a solid heart of beautiful yellow. French Grown Seed, pkt. 15c, oz. 80c; $\frac{1}{4}$ lb. \$2.00; lb. \$7.00. American Grown Seed, pkt. 10c, oz. 50c, $\frac{1}{4}$ lb. \$1.25, lb. \$4.00.

GIANT PASCAL.—A late variety of superior keeping qualities. Very large, solid and crisp; a rich, nutty flavor.

Blanches easily. The heart is golden yellow and very attractive. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 75c, lb. \$2.00.

WINTER QUEEN.—Finest dwarf celery and a popular sort. Stalks are large and heavy, of even growth and good length. Quality is excellent and it blanches readily with little trouble. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

NEW ROSE.—A self blanching type which attains a soft rosy pink shade when ready for use. Very attractive and of excellent quality. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

GIANT PRAGUE CELERIAC.—Instead of producing long leaf stalks like ordinary celery it has a turnip-like root with true celery flavor. Used in soups, stews and for all culinary purposes in place of ordinary celery. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$3.00.

GIANT PRAGUE CELERIAC

THERE IS NOT ENOUGH ATTENTION PAID TO ROOT CROPS BY LIVE STOCK RAISERS. OF GREAT VALUE IN FEEDING.

APPLE PIE MELON, Showing inside when ripe.

Canning Club Vegetable Collection

EIGHT CHOICE GARDEN FRUITS FOR PICKLING, PRESERVING AND CANNING

One Packet of each, sufficient for the ordinary garden, postpaid, only 50c.

Ground Cherry IMPROVED YELLOW.—A delicious garden fruit fully described and illustrated on page 10 of this catalogue, where it is offered. Pkt. 10c, ½ oz. 25c, oz. 40c.

Garden Huckleberry We recommend it to our customers. Fully described among the items on page 10. Pkt. 10c.

Apple Pie Melon A large citron melon of superior quality. See page 13 for description. Illustrated above. Pkt. 10c.

Vine Peach Introduced by us. Grow on a vine similar to the musk melon, and require the same cultivation. Fully described on page 9. Pkt. 10c, oz. 30c, ¼ lb. 75c.

American Mammoth Dill Popular annual herb used in pickling. Easily grown. Cut tops when ripened and dry. Keeps indefinitely. Pkt. 10c.

Lemon Cucumber A true cucumber. Vines are prolific and fruits are splendid for sweet or sour pickles. Fine containers for piccalilli or stuffed pickles. Pkt. 10c; oz. 25c.

Golden Nugget Tomato Best of the preserving tomatoes. Round in shape, bright yellow in color, and about the size of a hulled black walnut. Are large enough for table use, but are preferred for pies or preserves. Wonderfully prolific. Pkt. 10c; oz. 75c.

Pimento Pepper Medium to large size, and suitable for making green pepper pickles, and to chop up for mixed pickles of any kind requiring peppers. The mildest of all. Splendid as a container for salads, since it is readily eaten in its natural state, either green or ripe. Per packet 10c.

COLLECTION OF ODD VEGETABLES

BRUSSELS SPROUTS.—See page 1. Pkt. 10c.
CHUFAS, or Earth Almonds.—See left hand column, this page.) Pkt. 10c.

CHINESE CABBAGE.—See page 5. Pkt. 10c.

COTTON.—Start seed early and transplant. Has large, showy flowers, followed by boll of white cotton. Pkt. 5c, oz. 10c.

CURRENT TOMATO.—(See description on page 31. Pkt. 10c.)

ENDIVE.—Called also Winter Lettuce. Excellent for late use. Pkt. 10c.

FRENCH SORREL.—Grown for and are used as

COTTON

"greens." Pkt. 10c.

GARDEN HUCKLEBERRY.—(See description and illustration on page 10. Pkt. 10c.)

GOURDS, Ornamental Mixed.—Pkt. 5c.

GROUND CHERRY.—(See description on page 10.) Pkt. 10c.

KOHL RABI.—(See page 10.) Per pkt. 10c.

MARTYNIA.—Also called "Devil's Claw," and "Unicorn Plant." Ornamental plant, bearing beautiful flowers which are succeeded by large seed pods which when young are fine for pickling. Pkt. 10c, oz. 30c.

OKRA, or Gumbo Plant.—(Description on page 16.) Per pkt. 10c.

PRIMITIVE CORN.—A unique novelty. See page 30 for description. Pkt. 10c.

POMEGRANATE.—Ornamental little fruit, commonly grown in gardens a century ago, but now rarely seen. It grows on a pretty vine; fruit is round, yellow and irregularly striped with orange, red or mahogany; fragrant; a specimen will perfume a room many days. Pkt. 10c, oz. 25c.

SWISS CHARD.—(For description see page 3.) For beet greens. Pkt. 10c.

VINE PEACH.—(For description see page 9.) Pkt. 10c, oz. 30c.

Seventeen packets above, postpaid, \$1.25.

CHERVIL

(An oz. will sow 100 feet of drill.) Leaves used in soups and salads. Have a pleasant aromatic taste greatly liked. Cultivate like parsley. Pkt. 10c, oz. 25c.

CHICORY

LARGE ROOTED.—Used as a substitute for coffee. Cultivated the same as carrots. Take up roots in the fall, cut in small pieces and let dry. When wanted for use it is roasted and ground like coffee. Pkt. 10c, oz. 40c.

CHUFAS

A nice little ground nut greatly liked by children. Its flavor resembles the cocoanut. Very prolific, a single one yielding 200 to 400 nuts growing just under the ground and easily reached by pigs and poultry if they have access. Grow best in light, sandy soil, well fertilized. Plant in April, 10 inches apart, in 2½-foot rows. Cover lightly. Soak seed before planting if very dry. Pkt. 10c, oz. 20c, ¼ lb. 50c.

CORN SALAD

Nice winter salad. Sow in September in drills. Cover in fall with straw or leaves. Pkt. 10c, oz. 25c, ¼ lb. 75c.

CRESS

EARLY CURLED.—A well known salad. Sow at intervals all season. Pkt. 5c, oz. 15c, ¼ lb. 40c.

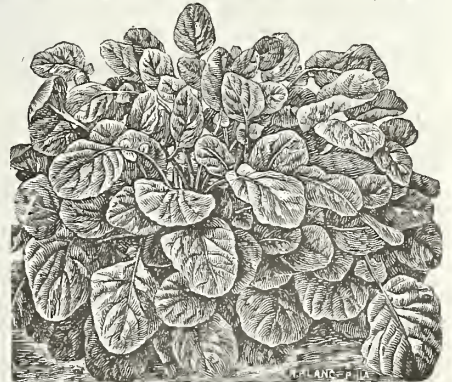

TRUE WATER.—Sow seeds along the running water. Pkt. 10c, oz. \$1.00.

UPLAND CRESS.—A perennial sort; hardy; produces well; same flavor as Water Cress. Grown on high, dry land; does not seed soon. Pkt. 10c, oz. \$1.00.

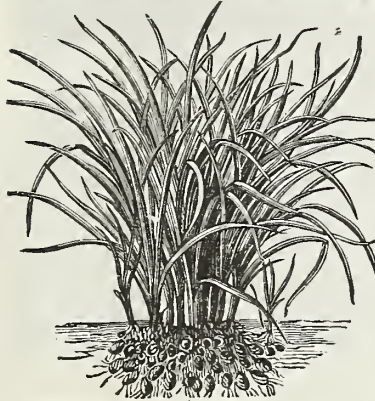

COLLARDS

(One oz. for about 3,000 plants.) Collards are very largely used as "greens" in some parts of the country, especially in the South. They are a form of loose-headed cabbage.

GEORGIA.—The most satisfactory variety for general use. Pkt. 10c, oz. 30c, ¼ lb. 60c.

UPLAND CRESS

CHUFAS

One pound will plant five hundred hills of four grains. Packets contain about 2 ozs.

SWEET CORN

Seven pounds for an acre planted in hills. Fifteen pounds per acre in drills.

Plant as soon as the ground becomes warm in the spring, in hills about three feet apart; give thorough cultivation. Our sweet corn is carefully grown and selected, only the choicest, most perfect ears being selected for seed. It is far superior to ordinary stock. We pay postage by the packet or pound. Quantities of three pounds or more go by express or freight at customer's cost for transportation or will be sent by parcel post if you send postage. See page 1.

IMPROVED GOLDEN BANTAM.—(See cut No. 1.)—This handsome new variety is one of the most delicious of all and it is generally believed to be the richest in flavor. Is extremely early, of hardy, vigorous growth, so that it can be planted quite early. The stalks grow only about four feet high but they bear two or three good ears six to eight inches long, of handsome yellow color. In flavor it is quite distinct from the white sorts and some have called it as sweet as honey. Give it a trial. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 35c, postpaid. Not prepaid, any quantity at 25 cents per pound.

EARLY SUNRISE.—(No. 5.)—Is a splendid new variety which we introduced. It is undoubtedly the best extra early corn for either private gardens or the public market. The ears are long, well filled out at the end, and husk covering so completely and being so tight as to prevent working of worms, which are so bad in Cory. Grains fairly deep and set in straight rows on a small white cob; very uniform and handsome. Market gardeners will find Early Sunrise a profitable and satisfactory sort. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 30c, postpaid. Not prepaid, any quantity at 20 cents per pound.

EARLY MINNESOTA.—(No. 7.)—A standard variety. Has held its position in the list for a long period of years as a dependable sort. Ears of good size and well flavored. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 30c, postpaid. Not prepaid, any quantity at 20 cents per pound.

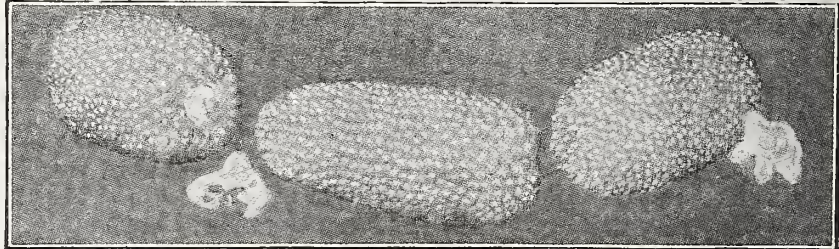

CHAMPION EARLY.—(No. 6.)—Earliest large corn ever introduced, maturing only a few days later than the small eared sorts and producing large 12-rowed ears 8 to 10 inches long. Pure white kernels with white cob, very sweet and tender, usually producing two ears to the stalk. Unsurpassed for market gardening or family garden owing to its large size and fine appearance. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 30c, postpaid. Not prepaid, any quantity at 20 cents per pound.

PHARAOH'S DREAM.—(No. 11.)—“And Pharaoh slept and dreamed. . . and behold seven ears of corn came up, upon one stalk, rank and good.”—Genesis 41:5. The most productive variety of sweet corn ever sent out. So frequently produces seven ears to the stalk it has been aptly named “Pharaoh's Dream.” Ears are large and would sell for Stowell's Evergreen. Produces better when only one or two grains are planted in a hill. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 30c, postpaid. Not prepaid, any quantity at 25c per pound.

EVERGREEN SWEET FODDER.—Preferred for the production of feed for live stock. See page 30. By express, not prepaid, 3 lbs. 50c, 10 lbs. \$1.25. Per bu. (50 lbs.) \$5.00; 2 bu. or more at \$4.85 bu.

IMPROVED STOWELL'S EVERGREEN.—(No. 12.)—The most prominent main crop sort and more largely planted than any other, being a general favorite with canners and market gardeners for late use. The ears are large size. The grains are deep, exceptionally tender and remain a long time in an edible condition. The dried kernels are shriveled so much that they readily show its unusual sweetness. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 30c, postpaid. Not prepaid, any quantity at 20 cents per pound.

COUNTRY GENTLEMAN.—(No. 9.)—An improvement on the old favorite Shoe Peg Sweet Corn. Our illustration of a single ear shows its habit of growth; produces 3 to 5 ears to a stalk. In this, coupled with the luscious quality, the general superiority of this new variety will be quickly seen. The cob is small, giving great depth to the kernels, which are pearly white and we cannot say too often—surpassingly sweet and tender. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 35c, postpaid. Not prepaid, any quantity at 25 cents per pound.

AUSTRALIAN HULLLESS

POP CORN FOR SEED

It pays to raise pop corn as a general crop. The demand usually exceeds the supply. Some farmers claim it is as easily grown as field corn and they receive 3 or 4 times the amount per acre for the crop. Let the children try a patch.

AUSTRALIAN HULLLESS.—Dwarf-growing and heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. Kernels are similar to White Rice, only longer and slimmer and nearly white in color. Its crowning merit lies in its popping quality, fine flavor and absence of hull or shell when popped. Grown extensively for market and commands the highest price and most ready sale. Pkt. 10c, $\frac{1}{4}$ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

MONARCH WHITE RICE.—This is our own strain of large rice pop corn and has been bred up to wonderful productiveness. Bears three to six ears per stalk and yields 1,800 to 2,500 lbs. per acre. Grain is large and pops to great size. Pkt. 5c, $\frac{1}{4}$ lb. 15c, lb. 35c, 3 lbs. \$1.00. Not prepaid, any quantity at 25 cents per pound.

MINIATURE.—The smallest pop corn grown. Splendid quality; pops very tender. Listed by some dealers as hullless, but it differs as its shape is more like Monarch White Rice. Pkt. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

WE OFFER OUR CUSTOMERS THE CHOICEST STOCKS OF SWEET CORN AT VERY LOW PRICES, QUALITY CONSIDERED.

CUCUMBER

(One ounce plants 50 hills, two pounds one acre.)

Cucumbers succeed best in a rich, loamy soil. For first early, sow in hotbeds, in berry boxes or in small flower pots, six weeks before they can be set out in open ground. When danger of frost is over transplant in hills four feet apart each way. For general crop plant in open ground in May, about twelve seeds in a hill. When danger of bugs is past thin to four strong plants in a hill. For pickling, plant in June. Sprinkle vines with plaster or air-slaked lime, or use Slug Shot, to protect them from bugs.

EARLY EXPRESS

EARLY EXPRESS.—It is truly a desirable cucumber. In size it equals the ordinary types, while it is by all odds the earliest variety in existence. The quality is of the best. It is free from any rank, strong flavor at any time. Equally good for pickling or slicing and we recommend it. Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

IMPROVED CHICAGO PICKLE.—Medium in size, dark green in color when young. A variety originated by a pickle grower near Chicago; is considered the best variety there; very prolific; matures early, produces immense number of fine shaped pickles. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

EARLY CLUSTER.—Slim form. Extra prolific, frequently setting in clusters of two and three. Fine for small pickles. If fruit is kept gathered, the vines will continue in bearing. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

WHITE WONDER.—A large, long fruited variety of beautiful ivory white color, which it retains during the whole period of growth. Strong and vigorous growth and very prolific. Quality is really superior, being crisp and tender, with small seeds. We believe it will be more popular than Long Green when better known. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$1.60.

LEMON.—It is round and about the size of a baseball. The fruits are produced in great profusion. Used as any ordinary variety of cucumber, but have a flavor peculiarly their own superior to any, being crisp and tender, and having none of the bitter taste found in some varieties. Of best quality. Desirable for use as mangoes. Pkt. 10c, oz. 25c.

IMPROVED LONG GREEN.—A standard sort. Vine vigorous and productive, forming fruit for the table nearly as early as shorter sorts. Produces very fine, firm fruit about 12 inches long. See illustration. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

DAVIS PERFECT.—Everyone who see the crop say they never saw anything to equal it. Dark, glossy, green, slim and symmetrical, with an average length of 10 to 12 inches. When ripe they turn white without yellow. Quality fine, as seeds are very soft when fit for table use. Very tender, brittle and of exceptional flavor. Early as earliest strain of White Spine and outyielding all others. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

WEST INDIA GHERKIN, or Burr.—This is a peculiar shaped, very small variety of cucumber which makes a handsome pickle of first-class quality. When ready it is about as large as an English walnut, partly covered with spines, from which it takes the name "Burr" cucumber. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c.

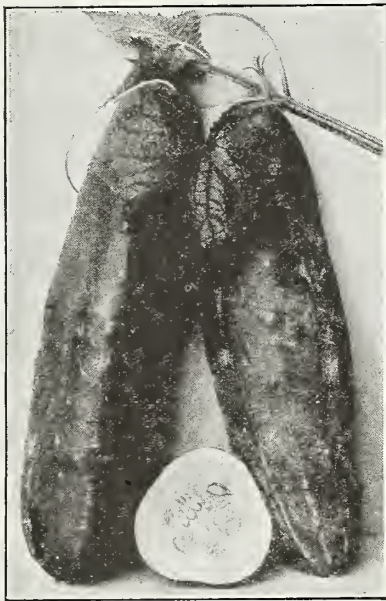

PERFECT WHITE SPINE

PERFECT WHITE SPINE.—This improved strain is pronounced by good judges superior to all others. Fruit even, good size, straight, well formed and symmetrical. It is of uniform shape, making it unexcelled for pickling. Immensely productive and keeps a long time. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

JAPANESE CLIMBING.—The vines are of healthy, vigorous growth, with rich, dark green foliage, and throw out strong, grasping tendrils, enabling it to climb trellis, wire netting, brush or any other suitable support. It is of large size, cylindrical, flesh pure white, skin dark green, turning to brown and netted when ripe. Fine for slicing. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

SEE OUR OFFER OF CHOICE GARDEN FRUITS FOR PICKLING OR PRESERVING, OFFERED ON PAGE SEVEN.

IMPROVED LONG GREEN

VINE PEACH

A splendid novelty introduced by us. The vine on which they are borne is somewhat similar to the musk melon vine, and requires the same cultivation. The fruit is about the size of a large peach, oval shaped, and is of a bright orange yellow color, somewhat russety. For sweet pickles, pies or preserving they are superb. A jar of these cut in halves and cooked in syrup presents a beautiful and tempting appearance. Recipes for preparing for the table will be sent with each order. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 75c.

VINE PEACH

DAVIS PERFECT

EGG PLANT

A tender plant that should be started quite early in a hotbed or box in the house, which must be kept warm. Transplant late to open ground, two feet apart.

IMPROVED NEW YORK.—Our strain of this leading market variety we believe to be unsurpassed. Very large size, skin deep purple, flesh white, of excellent quality. Very productive. Pkt. 10c, oz. 60c, ¼ lb. \$2.00.

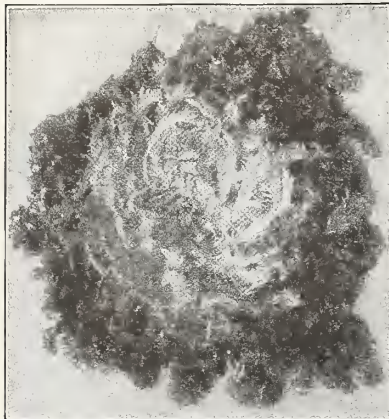

BLACK BEAUTY.—The earliest variety in existence, being much earlier than the above. Pkt. 10c, oz. 60c, ¼ lb. \$2.00.

ENDIVE

(One ounce will-sow about 60 sq. ft.) Preferred to lettuce by many. Should be more largely used. One of the best and most wholesome salads for fall and winter. Sow in April for early; in June or July for winter. When 8 inches long tie together with a string near the top to blanch.

BATAVIAN.—Has smooth leaves and makes a handsome plant. Pkt. 10c, oz. 20c, ¼ lb. 65c, lb. \$2.00.

GIANT FRINGED.—Also called winter lettuce. Best of all. Strong, vigorous grower, making large white heart; leaves are beautifully curled, and of best quality. Pkt. 5c, oz. 20c, ¼ lb. 65c, lb. \$2.00.

ATAVIAN ENDIVE

NEW YORK EGG PLANT

Branch From Plant
Improved Yellow
Ground Cherry

GROUND CHERRY

IMPROVED YELLOW.—Each year adds to the popularity of this little fruit which we introduced. They grow well on almost any dry soil, are easier raised than the tomato, are prolific bearers and oh! what luscious fruit. For sauce or pies they are excellent. They make delicious preserves and when dried in sugar are much better than raisins for cakes and puddings. Will keep in the husk, in a cool place, nearly all winter. Pkt. 10c; ½ oz. 25c; oz. 40c.

GARDEN HUCKLEBERRY

When this was first offered to us we had little confidence in it, but after growing it we recommend it to our customers. It belongs to the Solanum family (Solanum Nigrum), which is the same class botanically as tomato, egg plant, and potato. Fruit is non-edible and by some considered injurious when green. When ripe they are about one-half inch in diameter, of shining black color and make delicious pies, preserves and jam. Pkt. 10c.

GOURDS

Cultivate like cucumbers; they may be trained over lattice work, fences, etc.

JAPANESE NEST EGG.—Grows almost uniformly to the size, color and shape of a hen's egg. The shells are hard and make the very best nest eggs. Pkt. 5c; oz. 20c.

DIPPER.—Makes a light, convenient dipper. Dippers of various sizes of a capacity from a pint to a quart and a half, can be had from a few vines. Pkt. 5c; oz. 25c.

SUGAR TROUGH.—Very large and strong grower. For buckets, etc. Pkt. 5c; oz. 25c.

LUFFA, or Dishcloth.—Has a peculiar lining, which is sponge-like, porous, tough, elastic and durable, making a natural dishcloth or sponge. Start early. Pkt. 5c; oz. 25c.

HERCULES' CLUB.—Grows to immense size—4 to 5 feet in length. Pkt. 5c; oz. 25c.

MIXED UTILITY.—Seeds of the above mixed. This is a very popular item with our customers. Really useful in many ways. Easily grown. Pkt. 5c; oz. 20c.

EXTRA CURLED MOSSBACK KALE

GARDEN HUCKLEBERRY

KALE

EXTRA CURLED MOSSBACK.—A most attractive variety; fine crimped leaves, light green; fine for garnishing. Best cooking. Pkt. 10c, oz. 20c, ¼ lb. 50c, lb. \$1.50.

DWARF GERMAN GREEN, or Siberian.—A very popular variety. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.50.

LEEK

Sow seed thinly in drills early in spring; thin out to stand six inches apart in the row.

LARGE ROUEN.—Largest and most uniform sort. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. \$2.25.

KOHL RABI

Try Kohl Rabi this year. It is a most excellent vegetable, intermediate between the cabbage and turnip. Cultivate like cabbage.

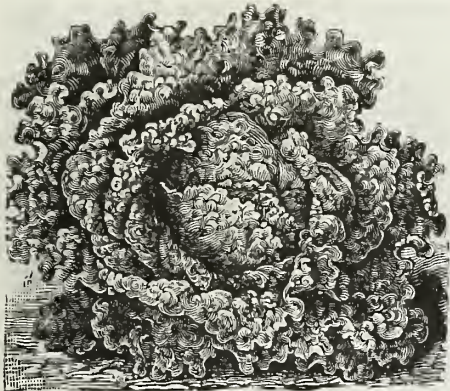

GOLIATH PURPLE.—A new sort of immense size, solid and sweet. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.50.

EARLY WHITE VIENNA.—The flesh is white and tender and it is a good market sort. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.50.

WHITE VIENNA KOHL RABI

LETTUCE

BLACK SEEDED SIMPSON

(One ounce will sow 100 feet of drill.)

There are four recognized types of lettuce. The curled leaf open type includes such well known sorts as Grand Rapids, Early Curled Simpson, Black Seeded Simpson and Prize Head. The crisp head type is represented by the Hanson, Iceberg and Immensity. The smooth leaf cabbage headed type grow large and solid and the best of this type including the California Cream Butter, Improved New York, May King and Salamander.

The Romaine or Coz lettuce is a distinct type, which grows close and compact and which can be blanched like celery. Sow in hotbeds in March and in the open ground as early as it can be worked, thinly in rows.

EARLY CURLED SIMPSON.—A great variety for the backyard garden where only a small plot is available. Can be sown quite thickly and thinned out as used so that the later plants can have room to mature. Not called a heading sort, but produces pale green, somewhat crumpled leaves and is usable in all stages. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.40.

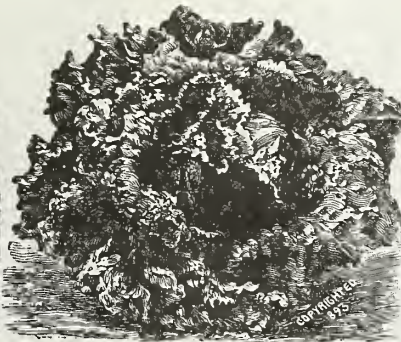

BLACK SEEDED SIMPSON.—This is the standard variety with market growers who grow lettuce under glass or in frames. Makes large loose heads of light colored, brittle leaves. Can be sown outside for first early use but will not stand hot summer weather. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.40.

NEW YORK.—A new sort producing immense heads, often 15 and 16 inches across, and weighing enormously. The interior is beautifully blanched, creamy-white, crisp, tender and delicious, being absolutely free from any trace of bitterness. It is a very large, robust growing variety, rooting deeply, resisting hot, dry weather, very slow to run to seed and a sure header under most trying conditions. The outer color is of a distinct apple green. As a standard main summer crop, hot weather lettuce, it is in every way desirable and has no equal. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

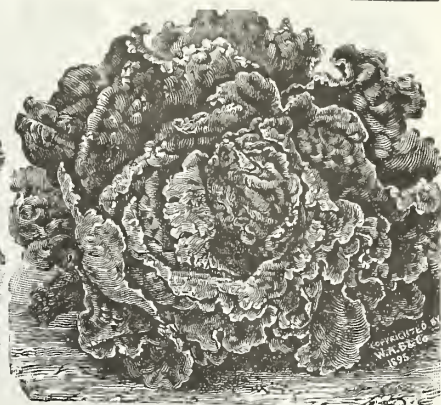

ICEBERG.—Has large, curly light green leaves, sometimes slightly tinged with red. Has a rich well bleached center; stands the summer sun without blighting. Belongs to head lettuce type, but is fit for cutting any time and by thinning out a succession is available. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.40.

IMMENSITY.—An extra large, crisp head variety. Give room to grow. Make rows 18 inches and thin plants to 6 inches in the rows. Cultivate and you will be delighted with the great loose heads of such splendid quality. Stands heat. Pkt. 5c, oz. 15c, ¼ lb. 35c, lb. \$1.40.

MIXED LETTUCE.—A careful and proportionate mixtures of the above. Pkt. 5c oz. 10c, ¼ lb. 30c, lb. \$1.00.

ICEBERG LETTUCE

MAY KING LETTUCE.

MAY KING.—A very early variety of head lettuce of compact growth. The inner leaves are a bright yellow, the outer ones a light green, sometimes slightly tinged with brown. It is extremely tender and brittle. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.40.

IMPROVED HANSON.—As a head lettuce the Hanson has no superior, either for home use or for market. Makes the most solid large heads and is the surest to head of all lettuces. Stands heat well when grown out doors and does well in hotbed or greenhouse. Can be used as a leaf lettuce but is a splendid header. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.

GRAND RAPIDS.—A splendid loose leaf lettuce. In appearance it is attractive and striking, as it is beautifully curled and crumpled. It does not form a head but produces a large number of leaves of pale green color which are finely curled and crumpled. Retains crispness and sweetness when old. Grows upright. A favorite for forcing. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.

CALIFORNIA CREAM BUTTER.—A cabbage lettuce, with round, solid head, outside medium green, slightly marked with small brown spots; within, leaves are very rich cream yellow color, rich and buttery to the taste. Heads good size, compact, very hard and solid. Generally the heart only is eaten, with dressing of olive oil, vinegar, salt and pepper. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.50.

ROMAINE.—Leaves are of rather light green color, shading to white when blanched. More self-folding than any other variety of cos lettuce, so it is not necessary to tie the leaves in order that it may blanch. Pkt. 5c, oz. 15c, ¼ lb. 50c.

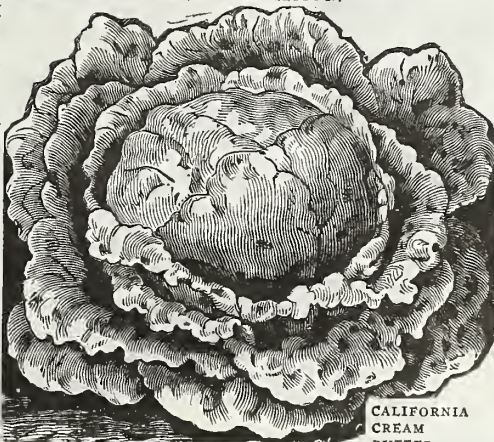

PRIZE HEAD.—Leading brown leaved lettuce. Tender leaves, dark reddish brown. Heads large and rather loose, with very good flavor. We sell more of this than any other brown leaved variety. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.

Improved Hanson Lettuce

NEW YORK LETTUCE

CALIFORNIA CREAM BUTTER

MUSTARD

A pungent salad used for greens. Sow thickly in rows. One ounce will sow about 75 feet of drill.

OSTRICH PLUME.—Leaves are long, ruffled, frilled and curved gracefully as an ostrich plume; desirable for garnishing. Can be cut quite early. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.00.

SOUTHERN GIANT CURLED.—This is the true curled leaf variety so popular in the South for fall planting for early spring salad. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 75c.

WHITE ENGLISH.—Seeds are white and is preferred by housewives for pickling on that account. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 75c.

LETTUCE SOWN BROADCAST ON GOOD GROUND MAKES EXCELLENT GREEN FEED FOR POULTRY. GIVE IT A TRIAL.

MUSK MELON

(One ounce will plant about 80 hills, 2 lbs. to the acre.)

Musk melons require a rich, well drained soil. Plant early as safe from frost; cultivate until vines cover the ground. Plant in hills 4 to 6 feet apart. Use plenty of seed.

EMERALD GEM.—Finest in flavor and the earliest to ripen; too soft to stand shipping any great distance; unequalled for home use or nearby markets. Vines are strong and vigorous; very prolific. Rather small and flattened at both ends. Emerald green between ribs. Flesh very thick, crystalline, of rich salmon color. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.50.

BURRELL GEM.—A truly delicious melon about the same size and shape as Rocky Ford, but has rich, golden yellow flesh of most delicious flavor; solid and a most desirable shipping sort. The seed cavity is very small. Average about 6 inches long, $4\frac{1}{2}$ inches in diameter, and weigh $2\frac{1}{4}$ lbs. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

BURRELL GEM

OSAGE.—One of the best; greatly liked by gardeners. Flesh salmon color, sweet and spicy, very thick and delicious. Seed cavity very small. Medium size, oval, lightly ribbed. Skin thin, dark green color and covered with shallow netting. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.50.

GRAND RAPIDS.—Extremely early. Flesh pure yellow to the rind, finely netted. Larger than the Rocky Ford type, averaging in size with Osage. Of handsome and attractive appearance; good quality. Recommended as a market sort. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

NETTED ROCK KING.—A golden fleshed variety of Rocky Ford type. A new sort which we prefer because of its wonderful sweetness. See illustration below. Size same as Rocky Fords. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 75c.

NETTED ROCK KING

CASABA MUSK MELONS

A class of late maturing musk melons which do not ripen on the vines in the North, but are gathered before freezing weather, stored in a cool place and brought to a warm room for ripening.

GOLDEN BEAUTY, or Santa Claus.—The original round form; green; best keeper of all. Pkt. 10c, oz. 25c.

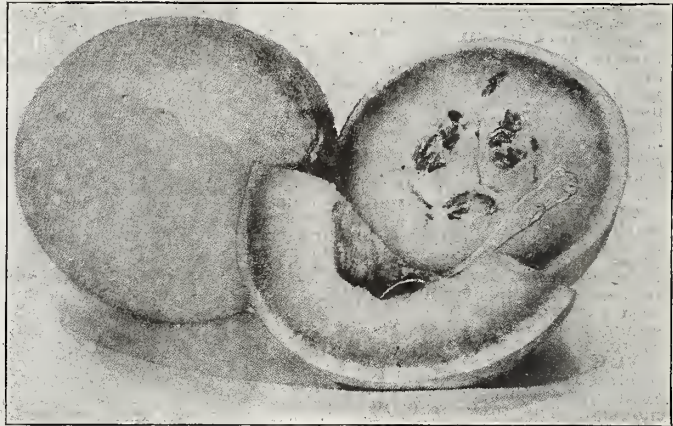

GOLDEN HYBRID.—Is shaped like Winter Pineapple; a beautiful golden color when ripened. Best flavored of this type but will not keep long. Pkt. 10c, oz. 25c.

EMERALD GEM

HONEY DEW.—The picture is typical of its shape; the average size is about as large as a cocoonut, but the smaller sized melons are not inferior in flavor. Every melon is a good one. Flesh is light green and sweet as honey. The rind is straw yellow in color, smooth as an egg and hard as the rind of a winter squash. It is therefore a good shipper, is good right off the vine, and will keep good for months in a cool place. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50, postpaid.

THOROUGHbred ROCKY FORD.—This variety is in great demand by high-class hotels and restaurants. Just the right size for table use, slightly oval in shape, flesh thick of light green color, and fine, juicy, luscious flavor. Very early and wonderfully productive. Our seed is from the best melon grower at Rocky Ford. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

HONEY DEW MELON

IMPROVED GREEN NUTMEG.—Fruit medium size, very rich and melting, exquisite flavor; flesh light green; very productive. Is one of best main crop sorts. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 45c, lb. \$1.50.

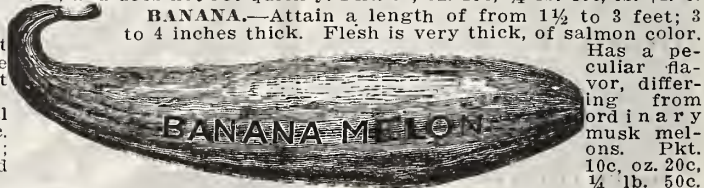

IMPROVED EARLY HACKENSACK.—Largest early sort. Good quality, firm and heavy; deeply netted; flesh light green; splendid market melon. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 45c, lb. \$1.50.

ENORMOUS.—Grows to immense size. Oblong with wide fissures. Well netted but so large that the netting does not show as heavily as on the smaller varieties. Has been grown upward of 15 lbs. in weight. Flesh very thick, salmon colored and of better flavor than any other large melon. Pkt. 10c, oz. 25c.

TIP TOP.—(Orange Flesh.)—A fine, nearly round melon of such attractive appearance as to always sell quickly. It is sweet, juicy and delicious. Of large size; evenly ribbed and moderately netted; strong grower, heavy yielder. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.50.

BAY VIEW.—A fruit of large size, often 10 or 15 lbs. Deep ribbed and does not rot quickly. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

BANANA.—Attain a length of from $1\frac{1}{2}$ to 3 feet; 3 to 4 inches thick. Flesh is very thick, of salmon color.

Has a peculiar flavor, differing from ordinary musk melons. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 50c.

MIXED MUSK MELONS, CONTAINING ABOVE DIFFERENT AND DESIRABLE VARIETIES, PKT. 5c; OZ. 10c; 1-4 lb. 30c; LB. \$1.00

COLE'S EARLY

(One ounce is required for forty hills.)

MCIVER'S SUGAR

FORDHOOK EARLY

IMPROVED TRIUMPH

(Three pounds will plant an acre.)

WATER MELON

A light sandy soil, with good exposure to the sun, is the best for water melons. It should be prepared deep, but receive shallow cultivation. Hoe often and thoroughly. Plant in hills 8 to 10 feet apart each way. Plant 8 to 10 seeds in a hill, and, finally, when danger of insects is past, leave but three plants. Packets contain about one hundred seeds.

COLE'S EARLY.—Decidedly the finest variety for the private garden, but is too brittle for long shipment. It is very early and will mature farther north than most other sorts. Of medium size; very productive. Flesh bright red, of granulated, sparkling appearance. In flavor lusciously sweet and refreshing. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

McIVER'S WONDERFUL SUGAR.—A famous melon for sweetness and high quality. Fruits are long and of large size, averaging about 50 lbs. each. One of the handsomest, being rather light colored, irregularly striped and mottled dark green. Rind is thin but tough; a good shipper. Flesh is delicate light red, entirely stringless and tender. Vine is strong, vigorous, prolific. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.

FORDHOOK EARLY.—Large, early variety. From seeds planted May 10th, ripe melons have been produced the last of July. The rind is tough, making it valuable for shipping. Color is uniform medium green; flesh red, very sweet, solid, and of excellent quality. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

IMPROVED TRIUMPH.—Is undoubtedly the largest of all melons, having been grown to the extraordinary weight of 147 lbs. Very productive. It is of dark green color, matures in good season, flesh dark red, solid, and of excellent quality. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

MONTE CRISTO, or Kleckley's Sweets.—A wonderfully popular variety. After testing all varieties we do not hesitate to pronounce this one of the sweetest, juiciest, most delicious melons; flesh bright red and peculiarly rich, crisp and pleasant flavored. It ripens early, is of good size, a good shipper and a long keeper. Market gardeners will be pleased with it. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

PEERLESS, or Ice Cream.—(White Seeded.)—Very early, medium size, thin rind, flesh bright scarlet, great home market melon. Few surpass it in melting, delicious quality. Color green, slightly mottled, shape oblong to round, and appearance attractive. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

HALBERT HONEY.—A very early variety; medium size; fine, oblong shape; very prolific; skin handsome dark green; flesh a rich crimson, fine grained, melting and exquisite flavor. No equal as home or nearby market melon but will not stand much handling. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

FLORIDA FAVORITE.—It is a real favorite because of sweetness and fine texture. Large size and attractive appearance; is popular both for home use and market. Solid and heavy and ships well. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

IRISH GREY.—Shaped like Tom Watson, equally as large and fine. Distinctive in color. Skin is a very light green, with very small dottings of darker shade which are rather indistinct. Its general appearance is a bright gray, hence the name. A splendid new sort of choicest quality and attractive in appearance. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

TOM WATSON.—A leader among melons, because of quality and shipping excellence. The Tom Watson is large, oblong, skin dark green, with thick netting on entire surface, quite distinct from other varieties. Averages 18 to 24 inches long and 10 to 12 inches in diameter and weighs 50 to 60 pounds. Rind is thin but tough and flesh a bright, attractive red, crisp, sweet and delicious. The heart is large with no core. Seeds brown, tipped white. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

SWEETHEART.—Favorite Des Moines market sort. It is early, large, handsome, heavy, a good shipper, long keeper, of bright color and good quality. The fruit is large, oval, very heavy, uniformly mottled light green; rind thin but firm; solid, tender, melting and delicious. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

MOUNTAIN SWEET.—The old standard, is still quite popular in the North, where large fruited southern sorts do not ripen. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

GOLDEN SWEET.—The Golden Sweet is the most delicious and fine flavored melon, unsurpassed for sweetness and aroma. Outside skin dark, shape oblong, as shown, size medium, a little larger than Monte Cristo, averaging about 20 lbs., just right for family use. Rind very thin but hard and will carry without cracking or bursting. Flesh golden yellow, solid, smooth, with few seeds. This is without exception the highest quality water melon in the list, and this is true of every melon in the field. We have never yet found a poor melon. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 75c.

CITRON MELONS

Nice for preserving and largely used for this purpose.

APPLE PIE.—Will be appreciated in many parts of the country. Illustrated on page 13 of this catalogue. Vine and fruit similar to a water melon and easily grown on any good soil. Each hill produces from 5 to 15 fruits and one of the large size will make as many pies as a half bushel of apples. The flesh is white, solid throughout and of excellent quality for making pies, preserves, etc., and resembles apples in flavor. They keep nice and fresh all winter, so they can be used any time and any surplus can be fed to the live stock. Pkt. 10c, oz. 25c.

COLORADO PRESERVING.—This is a large fruiting strain of citron for preserving. The flesh is clear white and very solid. Green seed. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

RED SEEDED CITRON.—Is round, dark green, striped and mottled with light green. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

GOLDEN SWEET

Good onion seed is of the utmost importance as it is one of the most important crops grown, and there is no other vegetable where the quality of the seed exerts a greater influence upon the crop than onions. There is more money in onions grown from seed than almost any other crop. Fully realizing this, we have for many years made a specialty of onion seed which is all grown from choice, selected bulbs, critically examined before being set out for seed. In vitality it is very strong, being carefully tested, and we are sure that **OUR ONION SEED CANNOT BE EXCELLED** in purity, vitality or high quality. Large onions can easily be grown the first year from the seed by obtaining our American grown onion seed. The crop was short this year and prices may advance. In comparing our prices with others, remember that we **pay the postage**. Deduct ten cents per pound if to be sent by express. Ask for prices in large lots.

LARGE RED WETHERSFIELD.—Is the standard sort throughout the country, the easiest to grow and the surest to make a good crop, being hardy and not subject to decay in very hot or wet weather. Of finest form, skin deep purplish red. The flesh is purplish white, and finer grained than many of the red sorts. Our seed is extra select and cannot be excelled. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$1.85. By express, 4 lbs. for \$6.50.

SOUTHPORT RED GLOBE.—This is a very handsome variety and is deserving of general cultivation. It is medium early (none of the perfectly globe-shaped onions are as early as the flat varieties; grows to a large size, skin deep red, flesh fine grained, mild and tender. It is steadily increasing in popularity as the market is demanding glob-shaped onions more than formerly. They require better soil and cultivation to make a crop than the flat varieties, but much more than pay for it in increased yield and price. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 75c, lb. \$2.25. By express, 4 lbs. for \$9.00.

GOLDEN GLOBE.—Offered by us as the very best yellow, globe-shaped onion for general culture. We prefer it to the red varieties because it is of mild flavor and much more handsome. Always uniform in shape, size and color. Is surely thoroughbred, and the entire crop looks like carefully hand-selected onions. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 75c, lb. \$2.25. By express, 4 lbs. for \$8.00.

YELLOW GLOBE DANVERS.—Handsome, globe-shaped sort of large size, yellow skin, white flesh, fine grained, mild, very firm and the best of keepers. Has yielded 1,000 bu. per acre. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

EXTRA EARLY BARLETTA.—Is a distinct variety; the very earliest onion in cultivation. They are of a pure paper-white color, very delicate in flavor, and in size grow 1 to 1 $\frac{1}{2}$ inches in diameter. For table use and pickling it is most valuable. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.50.

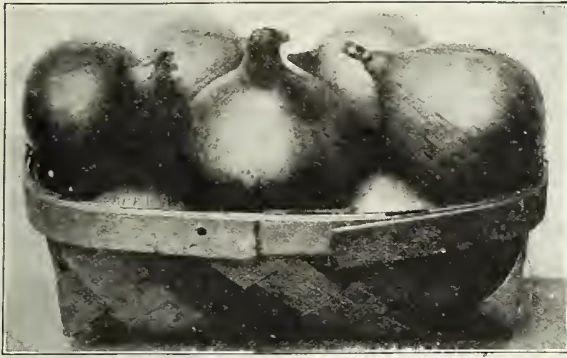

CULTURE.—One ounce will sow about 100 feet of drill; 4 pounds will sow one acre. The soil for onions should be a rich loam thoroughly enriched with well-rotted manure and pulverized before sowing the seed. It should be as free from weeds and grass as possible. As early as the ground can be worked in the spring, sow the seed in drills 14 inches apart, covering one-half inch. Commence hoeing as soon as the rows can be seen; skim the ground over the surface; avoid stirring deeply, and work the soil away from the bulbs. At second hoeing weed carefully and thoroughly by hand. For pickles or sets the seed should be sown very thickly and in broad drills, about 50 pounds to the acre for sets, and 15 to 20 pounds for pickling. For sowing seed and cultivating the crop it will pay you to purchase a good drill and hand cultivator. See description elsewhere. Lang's Hand Weeder, price 30c, postpaid, is the best hand weeder made.

LARGE WHITE GLOBE.—The handsomest market variety; beautiful, clean, pure, silvery white bulbs, of large, even size, globe-shape, mild and pleasant flavor, and outsells every other variety. Undoubtedly the best white sort. Will yield as many bushels per acre as any of the American varieties. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

WHITE PORTUGAL or SILVER SKIN.—Standard white variety for general culture. Bulbs grow flat to good size, ripening early and quite evenly. Flesh mild and sweet; skin a clear silvery white, of very handsome appearance. Sown thickly at the rate of 20 lbs. per acre will produce immense crops of small onions for pickling and for sets. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

AUSTRALIAN BROWN.—Color is peculiarly clear amber brown, quite distinct from any other variety. It is one of the best in keeping qualities, and grows to large size. A splendid shipping variety as it will carry any distance. Many people think the red onions too strong in flavor and this variety will be preferred in such cases. The distinct color is an advantage in many markets. In California, where onions are a staple crop, this is the popular variety because of its hardness, vigor and wonderful crops produced. Our seed is American grown. Pkt. 5c, oz. 20c; $\frac{1}{4}$ lb. 65c; lb. \$2.25.

CHIVES, GARLIC, LEEK, ALLIED WITH ONIONS, CAN BE FOUND IN THIS CATALOGUE. SEE INDEX ON THE LAST PAGE.

MAMMOTH PRIZETAKER

MAMMOTH SILVER KING

MAMMOTH PRIZETAKER.—One of the largest, handsomest, finest flavored, and in every way a choice variety of yellow onion, having been grown to enormous weight of over 6 lbs. Of a clear, bright straw color, and uniform, perfect globe shape. Produces enormous crops, one report being of over 1,200 bu. per acre, and they bring an extra price, being sold as fancy onions. Keep wonderfully well. They ripen up hard and firm, and present the handsomest possible appearance in market while the pure white flesh is fine grained, mild and delicate in flavor. To grow the largest size, sow seed early in hot beds and transplant to open ground as soon as the weather is favorable. Pkt. 10c, oz. 25c, ¼ lb. 85c, lb. \$3.00.

GIANT VESUVIUS.—This mammoth variety is a foreign sort. In rich soil, under good cultivation, they grow to an enormous size the first year. They are of a handsome globe shape, somewhat elongated and are veritable beauties. Will attract attention anywhere. The color is almost blood red; flesh is nearly white and quality most excellent. This variety is much more tender and mild than the American sorts. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, lb. \$3.50.

COPPER KING OR MAMMOTH POMPEII.—Have been grown to the enormous weight of 5 lbs. 6 oz. and not withstanding their large size they retain their shape and fine quality. To obtain an idea how large this really is, just weigh the largest onion you can find and compare weights. Copper color, flesh white, fine grained, mild. Pkt. 10c, oz. 25c, ¼ lb. 85c, lb. \$3.00.

BIG ONIONS

For table use large onions are much preferable to small ones and they bring a better price on the market. The varieties listed on this page are of immense size, splendid quality and yield wonderfully large crops. While they do not keep quite as well as some other kinds, still they are usually good till January or February.

The 5 Giants

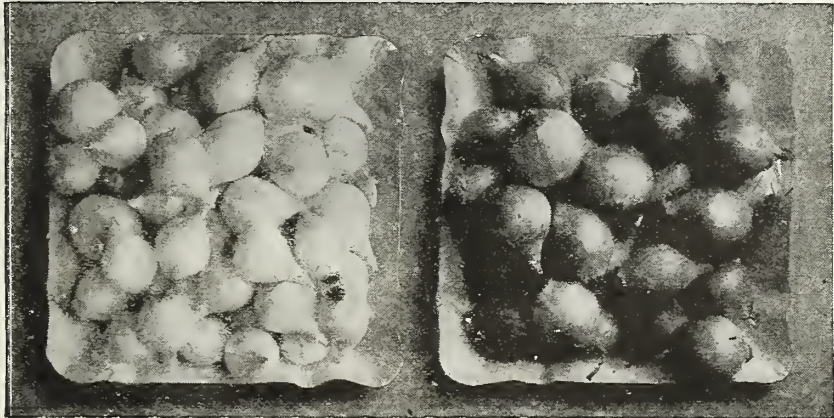

One Packet Each of Mammoth Prizetaker Ailsa Craig, Copper King, Giant Vesuvius and Silver King.

FOR ONLY 35 CENTS

With each of these "Five Giant" collections we will send a circular giving full directions for "Growing Big Onions."

AILSA CRAIG.—A mammoth variety introduced from England, where it has exceeded all other varieties in size, and because of its very light (almost white) color is exceedingly popular as a market sort. It is claimed that the largest onion ever produced was of this variety, weighing nearly seven pounds. Shape and style of the Prizetaker. Color is pale straw yellow. Flavor is exceedingly mild and sweet and its appearance is so attractive that it will command the highest prices. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

MAMMOTH SILVER KING.—The largest white onion, no other approaching its mammoth size. Of attractive form, flattened, but thick through as shown in cut. Often weigh from 2½ to 4 lbs. each. Beautiful silvery white; flesh snowy white, sweet and tender and can be eaten raw. Matures early; of uniformly large size, perfect shape and bring a high price in market. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, lb. \$3.50.

WHITE AND YELLOW ONION SETS FROM SEED

ONION SETS

For early onions for bunching; ready for the table in a very few weeks. Is cheaper to grow from seed but is considerable work to weed, and many prefer to buy sets. Price per pound includes postage; deduct 10c per pound if by express. Three pounds and larger lots shipped at buyer's expense. Legal weight of top sets 28 lbs. per bushel; other kinds 32 lbs. so that 1 lb. equals 1 quart. Write for prices for large lots.

WHITE BOTTOM SETS.—White onion sets from seed are best for early use and large onions. ½ lb. 20c, lb. 40c, postpaid; not prepaid, 3 lbs. \$1.00.

RED BOTTOM SETS.—Are like the white, except that they are of dark red color. Very hardy. ½ lb. 20c, lb. 35c; not prepaid, 3 lbs. 75c.

YELLOW BOTTOM SETS.—Like the white, except color. More used than any other kind. ½ lb. 20c, lb. 35c; not prepaid, 3 lbs. 75c.

YOUNG ONIONS GROWN FROM SEED SETS

POTATO ONION SETS.—A species of Multiplier Onion, increasing from bulb; early; matures quickly; mild. ½ lb. 20c, lb. 40c; not prepaid, 3 lbs. \$1.00.

PERENNIAL, or Winter Sets.—Also called Egyptian or Tree Onions. Usually set in fall; produce earliest spring onions without winter protection. Do not make large bulbs. ½ lb. 20c, lb. 40c; not prepaid, 3 lbs. \$1.00.

Shipment after August 1st.

YOU SHOULD HAVE A GOOD DRILL AND CULTIVATOR TO GROW ONIONS. WE RECOMMEND THE PLANET JR. TOOLS

OKRA

OKRA

One ounce will sow about 80 feet of drill.
 Nice for soups, stews, etc., and also much liked when pickled. Sow at the usual time of tender vegetables in drills 2 in. deep, leaving plants 2 to 3 ft. apart. Pick pods while young; slice crosswise before cooking.
WYRICK'S NEW GIANT.—Wonderfully productive. Pods shoot out from the stalk within 3 in. of the ground, and the whole plant is covered. Pods are vivid green, 8 to 9 in. long. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.
WHITE VELVET.—Pods round and smooth, of attractive appearance, tender; superior flavor. Plants dwarf. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.

PARSLEY

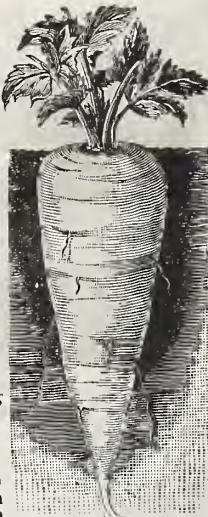

(One ounce will sow 150 ft. of drill.) Sow early, thinly, in drills, 1 ft. apart, ½ inch deep. Soak seed in warm water a few hours before sowing. For winter use, protect in glass frame or light cellar.
MARKET GARDENER'S.—An extra choice stock with dark green, curled, mossy leaves, very productive. Valuable for either garnishing or flavoring. Early variety. Pkt. 10c, oz. 25c, ¼ lb. 65c, lb. \$2.00.
CHAMPION MOSS CURLED.—Very select stock, finely crimped and curled. Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. \$1.50.
HAMBURG.—Turnip-rooted variety, used for flavoring soups. Pkt. 10c, oz. 30c, ¼ lb. 65c, lb. \$2.00.

MARKET GARDENER'S PARSLEY.

PARSNIP

(1 oz. sows 200 ft. of drill. 5 lbs. sows an acre in drills.) Sow early in spring in good, rich soil, which has been plowed deep, in drills 15 inches apart, covering half an inch. Thin to 5 or 6 in. They are improved by freezing.
IMPROVED TABLE GUERNSEY.—The roots do not grow as long as the Hollow Crown, but are of greater diameter and more easily gathered. Very heavy cropper; roots are smooth with a deep, hollow crown and a small top. Flesh fine grained, sweet and of excellent quality; cooks evenly, center being as fine, soft, even quality as outside portions. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.
IMPROVED HOLLOW CROWN.—This greatly improved strain is smoother and of more even quality than the original; fine grained and excellent. Pkt. 5c, oz. 15c, ¼ lb. 35c, lb. \$1.00.

GUERNSEY PARSNIP

PEPPER

(One ounce will produce about 1,800 plants.) Sow seed in hotbed early in spring; transplant to open ground when the weather is favorable, in warm, mellow soil, in rows 18 inches apart. Seeds germinate slowly, require considerable heat.

CORAL BOUQUET.—(See cut No. 1.)—This new red hot pepper is the finest of the smallest sized varieties. Excellent for pepper sauce. Nice for mixing piccalilli. Pkt. 10c, oz. 75c.

RUBY KING.—(See cut No. 2.)—Very large in size, 4½ to 6 inches long by 3½ to 4 inches thick. When ripe are beautiful bright ruby red and always remarkably mild and pleasant to the taste. Produces large, handsome fruit and is splendid for stuffed peppers or mangoes. Pkt. 10c, oz. 60c, ¼ lb. \$2.00.

CHINESE GIANT.—Most gigantic of all Giant Peppers. A fine mild red pepper of enormous size, magnificent appearance and brilliant, glossy scarlet color. The flesh is mild and unusually thick. Excellent for salad. Pkt. 10c, oz. 75c, ¼ lb. \$2.50.

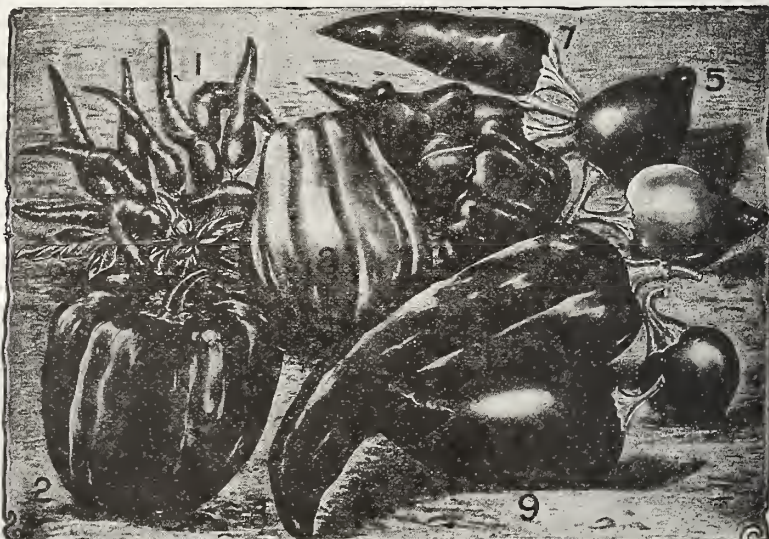

KALEIDOSCOPE.—(See cut No. 5.)—A very ornamental new sort. The small fruit changes from cream color to canary, deepens to orange then turns into pink, until it becomes a deep, shining scarlet. Pkt. 10c, oz. 75c.

LARGE BELL, or Bull Nose.—The standard variety for mangoes or sweet pickles. Fruits large, uniform, thick, meated and smooth, very pleasant mild flavor; prolific yielder; early. Pkt. 10c, oz. 60c, ¼ lb. \$2.00.

MAMMOTH GOLDEN QUEEN.—(See cut No. 8.)—Average a third larger than Ruby King. It is 8 to 10 inches long; bright waxy, golden yellow and mild flavor. A favorite variety for mangoes. Pkt. 10c, oz. 60c, ¼ lb. \$2.25.

PIMENTO.—(See cut No. 9.)—This is a new and distinct pepper. Perfectly sweet, having no trace of pungency. Plants are loaded with fine, perfectly smooth fruits, medium size and thick meated. Pkt. 10c, oz. 50c, ¼ lb. \$2.00.
RED CHILL.—(See cut No. 7.)—Small, long fruit, but very hot. Used for pepper sauce. Pkt. 10c, oz. 60c, ¼ lb. \$2.00.

MIXED PEPPERS.—A mixture of the above and other fancy varieties. Fine for exhibition. Pkt. 10c, oz. 50c.

PEPPERS. Refer to numbers for description.

PEANUTS

Peanuts can be grown in Iowa, and everyone should plant at least a few for the children.

RED CROSS.—This very desirable variety is early as the earliest, most hardy, very prolific and of best quality. Boys, here is a good chance for you. Think of growing peanuts in your own garden and having plenty of them to eat. Shell nuts carefully so as not to break inside skin, plant as soon as ground becomes warm, from 2 to 3 feet apart each way, 4 or 5 to the hill, covering 2 inches. Soil should be deep and mellow. Produce from 25 to 70 bushels to the acre; easily cultivated as corn. Pkt. 10c, lb. 40c, post-paid. By express, 5 lbs. or more at 30 cents per pound.

SPANISH.—A very early variety; quite prolific, but the pods are small. Per package 10c, lb. 50c.

RED CROSS PEANUTS

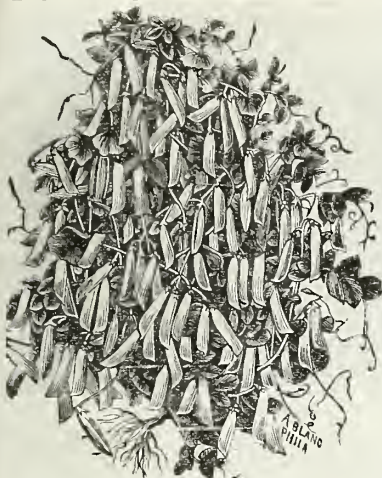

PEAS

(One pound will plant about fifty feet of drill; 2 to 3 bushels per acre.)

Peas mature quickest in light, dry soil, not too rich. May be sown as early as the ground can be worked, and for a succession every two weeks up to July; or, what is better, select several kinds which will form a succession in maturing. Sow in drills 2 to 4 feet apart, according to varieties, and 2 to 3 inches deep for general crop. The wrinkled sorts are marked.* They are more liable to rot if the ground is wet. We are this year offering peas by the pound and the pound prices include postage. Larger lots go by express or freight at customer's cost for transportation. If you want the larger lots to come by parcel post you must send postage as shown by table on page 1. The Iowa legal weight is 60 lbs. per bushel. Pkts. hold 2 oz. each.

EXTRA EARLY SMOOTH VARIETIES

ALASKA.—Height 2 ft.; the pods are rather small, dark green color, well filled; the earliest pea known, being two days earlier than the

IOWA CHALLENGE.

First and Best, and 90 per cent of pods can be gathered at first picking. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 25 cents per pound.

IOWA CHALLENGE.—Extra early variety of superior merit which is a favorite with Des Moines gardeners. We can in confidence say that after a trial of nearly all extra early varieties we have not found one possessing more merit. All good qualities are most nearly brought to perfection in the Challenge. Height 18 inches. 2 oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any amount at 30 cents per pound.

FIRST AND BEST.—A well known standard early pea. Ready to use several days before the early wrinkled varieties. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 25c per pound.

EARLY DWARF WRINKLED VARIETIES

LITTLE MARVEL.—Strong vine about 15 inches high, bearing tremendous crops of fair size pods, frequently borne in pairs. Pods 2½ to 3 inches long, containing six to seven large, deep green peas. As early as American Wonder, more productive, and will be preferred by gardeners generally because of extra quality. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 35c per pound.

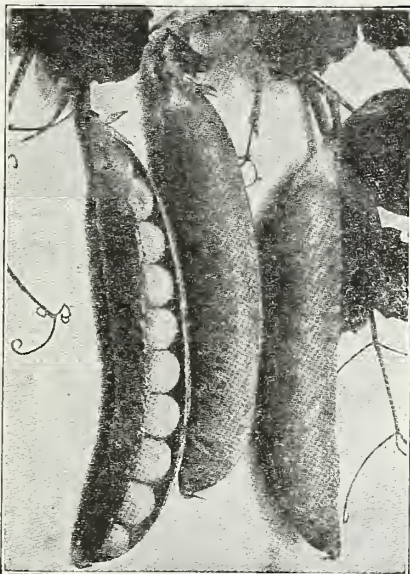

LANTONIAN, or Pioneer.—This variety is the finest of the very large podded, early wrinkled peas. Vine is not quite so long as Gradus but the pods are fully as large as those of that variety and there are twice as many of them. Both pods and peas are a rich, dark green in color and retain this rich color when cooked. A most satisfactory variety. Pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 35c per pound.

PREMIUM GEM.—For many years the standard dwarf wrinkled pea for the family garden, and market gardeners. Grows 12 to 15 inches high and requires no support. Pods large, dark green, and quality is excellent. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 30 cents per pound.

GRADUS, or Prosperity.—This remarkable pea is not only large and of best quality, but it is nearly or quite as early as the small, round, extra early sorts. It is a wrinkled pea with the vine growing about 20 inches high. Pods bright green color and measure 4 inches or more in length. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 30 cents per pound.

NOTT'S EXCELSIOR.—Is fully as sweet and delicious as American Wonder and grows one-half taller. Pods are larger and it is far more productive than the Premium Gem. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 30 cents per pound.

AMERICAN WONDER.—Popular extra early variety for family garden. Dwarf, robust habit, growing about 10 in. high; produces a profusion of good-sized, well-filled pods of finest flavored peas. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 30 cents per pound.

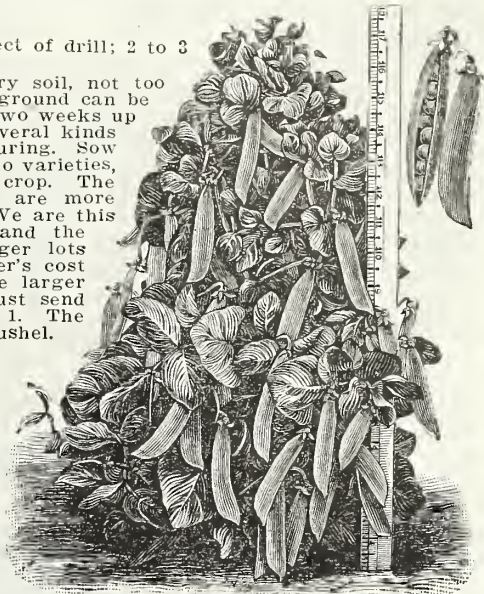

STRATAGEM

grower and an enormous cropper. Pods contain 7 to 9 large peas. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 35 cents per pound.

DWARF WHITE MARROW.—An improvement on the old Large White Marrowfat. Fully as productive, but does not grow so tall and rank. Used almost exclusively for late midsummer planting by market gardeners and is very productive. Grows 3 to 4 feet and is best if supported, though support is not usually given. Peas are smooth and very large. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 25 cents per pound.

CHAMPION OF ENGLAND.—Well known standard sort, grows 4 to 5 ft. high and requires support, but fine quality and large crop produced more than repays any extra labor required. A strong, vigorous grower, continues to bear for a long time. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

NOTT'S EXCELSIOR

MAIN CROP VARIETIES

This class of peas all grow vigorously and should have support of some kind. Some of these, like the Dwarf Champion or Everbearing, will give fair results when not given a support, yet it pays to provide some kind of support as they will yield very much more. Where brush cannot be had, poultry netting fence makes a neat and cheap support.

DWARF CHAMPION.—Splendid main crop variety; bears a profusion of good sized, well filled pods; vines seem less affected by mildew than most late peas; make a sturdy growth 2½ feet tall. Very prolific; quality excellent. Much used by market gardeners. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 30 cents per pound.

EVERBEARING.—Fine for main crop. Grows about 2 feet high, strong and vigorous, branches freely; does well without support. Continues to grow and produce pods a long time if pods are kept picked as they grow. Both pods and peas of good size. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

ABUNDANCE.—A second early with large pods containing 6 to 8 large peas. Height 3 ft. Quality first class. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

MAMMOTH LUSCIOUS SUGAR.—Bears pods much larger than any other variety, often 6 or 7 inches long and 1½ inches broad. They should not be shelled, but the peas and pods eaten together. Grows quite tall, 5 to 6 feet high and requires support. Pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid.

IMPROVED STRATAGEM.—Most popular late variety for arket or family use. Preferred because of the immense size of pods and peas and exceptional sweetness and tenderness. Half dwarf sort, 2 to 3 feet high. Is a vigorous and an enormous cropper. Pods contain 7 to 9 large peas. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 45c, postpaid. Not prepaid, any quantity at 35 cents per pound.

DWARF WHITE MARROW.—An improvement on the old Large White Marrowfat. Fully as productive, but does not grow so tall and rank. Used almost exclusively for late midsummer planting by market gardeners and is very productive. Grows 3 to 4 feet and is best if supported, though support is not usually given. Peas are smooth and very large. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 25 cents per pound.

CHAMPION OF ENGLAND.—Well known standard sort, grows 4 to 5 ft. high and requires support, but fine quality and large crop produced more than repays any extra labor required. A strong, vigorous grower, continues to bear for a long time. 2-oz. pkt. 10c, ¼ lb. 15c, lb. 40c, postpaid. Not prepaid, any quantity at 30 cents per pound.

THE SEED PEAS WHICH WE OFFER ARE THE BEST PRODUCED ANYWHERE IN THIS COUNTRY. THEY WILL PLEASE YOU.

CONNECTICUT FIELD

MAMMOTH PUMPKINS

KING OF MAMMOTHS.—Largest bright golden yellow, fine grained and of good quality. We know of one specimen that reached the enormous weight of 245 lbs. One customer writes us that he grew one that weighed 158 lbs., and on the same vine he had five other pumpkins from 80 to 104 lbs. each in weight—over 640 lbs. from one seed. Grow King of Mammoths and exhibit ther. at your fair. Our seed is from select specimens. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. \$2.50.

NEW ATLAS.—The largest of them all. Uniform in shape and we have had them weigh 300 lbs. Our seed is from the largest sized, perfect shaped specimens. Just the thing for exhibition. Flesh rich yellow, very thick, and excellent quality, nutritious and profitable to grow for stock feeding. Pkt. 10c, oz. 25c, ¼ lb. 75c.

MAMMOTH TOURS.—Also called "Mammoth Whale." Grows to immense size, sometimes 3 feet in length, and to a weight of 100 to 200 lbs. Flesh of a salmon color. Seed of a peculiar shape. Pkt. 10c, oz. 25c, ¼ lb. 75c.

ATLAS PUMPKIN.

PUMPKIN

(One ounce will plant 25 hills; 4 lbs. will plant one acre.)

The best, most enterprising and most prosperous farmers put in a crop of pumpkins every year. They can be grown separately or with a corn or potato crop, and do not seem to interfere in the least. They are valuable for feeding to stock, and what is a fair without pumpkins, or a Thanksgiving dinner without a pumpkin pie? Planted with corn, two pounds will plant one acre.

PIE PUMPKINS

YANKEE PIE.—The noted New England Pie or Small Sugar Pumpkin. Same shape and color as the Connecticut Field but is smaller, very sweet, fine grained and one of the best varieties for table use. It pleases everyone for making pies. Early. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. \$1.50.

LARGE CHEESE.—This is a very popular pumpkin for pies and is quite commonly known as "Sweet Pumpkin." In size they average about as large as the Connecticut Field but are flat shaped, with creamy buff skin and thick golden flesh. It is one of the best of the pie pumpkins and can be grown in the corn like the common cow pumpkin. Pkt. 5c, oz. 15c, ¼ lb. 35c, lb. \$1.00. Five pounds by express or freight at 75c per lb.

GOLDEN RUSSET.—An extra choice sweet variety, also called Winter Luxury.

Golden yellow, netted or russeted over surface; small to medium size. Unsurpassed as a pie pumpkin and a good seller on market. Pkt. 5c, oz. 10c, ¼ lb. 45c, lb. \$1.50.

JAPANESE PIE.—This is similar in size and form to the well known Cushaw, but the skin is deep green, with dark stripes; earlier than any other. Seeds marked with curious indentations. Flesh is very thick. Pkt. 5c, oz. 10c, ¼ lb. 45c, lb. \$1.50.

GOLDEN CUSHAW, or Jonathan.—Like the old Cushaw in shape but of clean old gold color instead of green and white stripe. Flesh is solid, of deep orange color and very rich. Pkt. 5c, oz. 15c, ¼ lb. 55c, lb. \$2.00.

CONNECTICUT FIELD.—Is the common field or cow pumpkin. It is more generally grown than any other. Good quality for culinary use. Oz. 10c, ¼ lb. 25c, lb. by mail 90c. By exp. or frt. 10 lbs. \$7.50.

LARGE CHEESE PUMPKIN

COLLECTION OF MAMMOTH PUMPKINS

One Packet Each of the New Atlas, Mammoth Tours and King of the Mammoths, sent postpaid for **ONLY TWENTY CENTS**

COLLECTION OF SIX PIE PUMPKINS

One packet each Yankee Pie, Large Cheese, Golden Russet, Japanese Pie, Golden Cushaw and 1 oz. Connecticut Field prepaid 25c

RHUBARB OR PIE PLANT

(One ounce will produce about 100 plants.) Succeeds best in deep, rich soil. Sow in the spring in drills, cover one inch. Thin to six inches apart; transplant in the fall or spring to permanent beds three feet apart each way.

IDEAL MAMMOTH.—The largest pie plant. Leaves four feet across; stalks three inches in diameter and 3½ feet long. Die down in August and starts new growth, making fresh stalks for winter canning. Pkt. 10c, oz. 25c, ¼ lb. 75c.

VICTORIA.—The standard variety. Stalks are not so large as Ideal Mammoth, but are preferred by many on account of their more piquant and rich flavor. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.

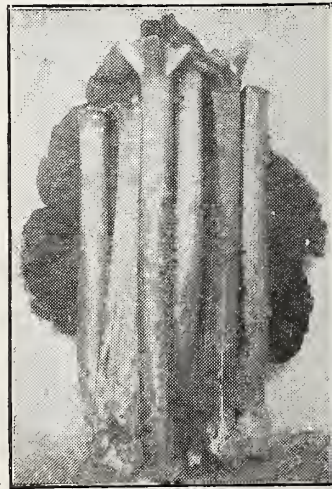

RHUBARB ROOTS

Purchase roots, as you can save one year's time in this way. The roots we offer are large divided plants. Plant spring or fall, setting 3 feet apart.

WINEPLANT, or Strawberry Rhubarb.—A choice new variety, stalks size of Victoria. Cooks red, and is liked because of color and flavor. It is recommended as a choice variety. Each 35c, doz. \$3.50, postpaid. By express, not prepaid, doz. \$2.50.

VICTORIA.—The standard for general use. Each 25c, 5 for \$1.00, doz. \$2.00, postpaid. By express, not prepaid, per doz. \$1.50.

IDEAL MAMMOTH.—The largest variety. Strong roots 35c each, doz. \$3.00, postpaid. By express, not prepaid, per doz. \$2.50.

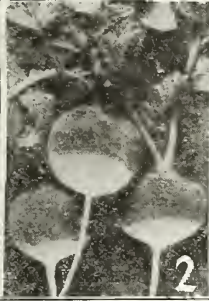

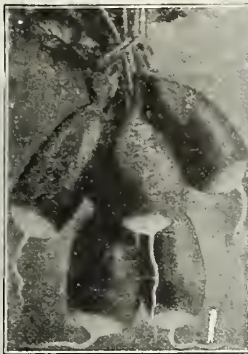

WINEPLANT RHUBARB

GROW PUMPKINS AMONG THE CORN OR IN THE WASTE PLACES ABOUT THE FARM. THEY WILL PROVE PROFITABLE.

One ounce will sow 100 feet of drill.

RADISH

Eight to ten lbs. will sow an acre in drill.

Radish seed should be sown in light, rich soil as early as the ground can be worked, and for a succession, at intervals of two weeks, until midsummer. Radishes must be grown quickly and have plenty of room or they will invariably be tough and pithy. Sow in drills one foot apart and thin to two or three inches apart as soon as the rough leaves appear.

FRENCH BREAKFAST.—(See cut No. 1.)—Of medium size and olive shape, with small top; quick growth; beautiful scarlet color, shading to white. This is our old sort, but it still retains a place in the list because of its beauty and fine quality. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

EARLY SCARLET GLOBE.—(See cut No. 3.)—The most popular variety for hotbeds and forcing, as it is the earliest of all. Of handsome color, crisp, juicy and tender. Forms a small top and will stand a great deal of heat without becoming pithy. Is the gardener's standby for first early radish. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

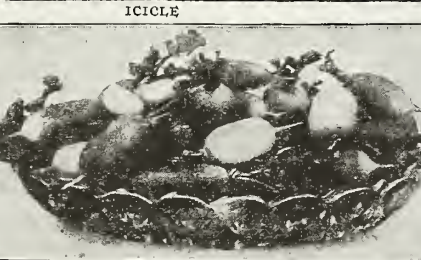

CRIMSON GIANT FORCING.—(See cut No. 5.)—The most profitable variety for market gardeners, and may well be considered the most valuable new sort sent out for many years. A rapid growing variety, developing roots of beautiful deep crimson, perfect in shape and more than double the size of any other forcing variety. It often measures 9 inches in circumference without getting pithy or hollow, and retains its firmness and tenderness of flesh. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

ICICLE.—A splendid long variety of almost transparent whiteness. Produces nice roots in twenty-two days from the date of sowing, and it continues in prime condition for a long period, so that in one sowing of seed, nice, crisp radishes may be had from spring until midsummer. It is much the most popular sort in the entire list. There is no variety that grows more uniform in type, and there are none that surpass it in quality. We recommend it as the best. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

IMPROVED CHARTIER.—The roots are long and cylindrical, scarlet rose above, shading into pure waxy white at the tip. Flesh white, crisp and of mild flavor. Stands hot weather well. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

EARLY LONG SCARLET, or Short Top.—An old standard variety of quick growth; long, slender root. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

WHITE STRASBURG.—Of handsome, oblong, tapering shape, both skin and flesh being pure white. The flesh is firm, brittle and tender and retains its crispness even if old and large. Excellent for summer use. Very popular because it remains fit for use a long time and does not get pithy. Sometimes called the Sandwich Radish. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 90c.

SPARKLER.—(See cut No. 4.)—This is a new extra early, white-tipped, round radish. It is distinct in that the white tip is larger and more pronounced than in any other sort. The proportions of white and red are well shown in our illustration, and the contrasting colors being so nearly equal gives a most attractive appearance. Well adapted for either forcing in frames or private garden. Quality unsurpassed; remaining solid and crisp. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.

EARLY BIRD.—Decidedly the earliest of radishes. With loose soil and proper culture the Early Bird is ready for the table in twenty days from the time of sowing the seed, which makes it one of the most desirable sorts ever offered for either forcing or outdoor culture. It is of round or turnip shape, as shown in our illustration, of bright scarlet color and pure white flesh, which is tender, crisp and of the very best flavor. It has few and short leaves. Very desirable for the home garden and for market. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. \$1.25.

STRIPED TRIUMPH.—A beautiful, sound variety, with white skin striped bright scarlet, being decidedly ornamental. It is very early and has a very small top. The flesh is white, crisp, tender. It being a sport, some of the roots are always of solid color, not variegated, but always of fine quality. Pkt. 10c, oz. 20c, ¼ lb. 65c, lb. \$2.00.

MIXED RADISH.—Our mixture of about two dozen kinds contains all shades and shapes; red, white, pink, variegated; round, half-long and long, in great variety. It is all the go for small gardeners, where space is limited and you want to make a garden and be done with it. One sowing does for the whole season, as they come early, medium and late. You always have some that are just right. You will be surprised and delighted with our popular radish mixture. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

WINTER RADISH

SAKURIJIMA.—This is a giant variety of radish from Japan. It has been grown to the enormous dimensions of 43 inches in circumference. The flesh is solid, firm and brittle, and of excellent flavor. Thrive in ordinary garden soil. Pkt. 10c, oz. 35c, ¼ lb. \$1.00.

CALIFORNIA MAMMOTH WHITE.—Large size, 8 to 12 inches long, 2 to 3 inches thick, white, solid, of good quality. A very popular sort with market gardeners. Pkt. 5c, oz. 10c, ¼ lb. 40c, lb. \$1.25.

CHINA ROSE WINTER.—A bright rose colored variety. The most popular of the winter radishes because of its bright color, firm flesh and long keeping qualities. Pkt. 5c, oz. 10c, ¼ lb. 40c, lb. \$1.25.

LONG BLACK SPANISH.—A large, black-skinned radish, with firm white flesh of pungent flavor. A good keeper, lasting until spring. Pkt. 5c, oz. 10c, ¼ lb. 40c, lb. \$1.25.

MIXED RADISHES

YOU CANNOT BUY BETTER RADISH SEED THAN OURS NO MATTER WHAT THE PRICE OR WHERE YOU OBTAIN THEM.

One ounce of early varieties will plant about forty hills, 2 lbs. per acre.

SQUASH

One ounce late varieties will plant about twenty hills, 4 lbs. per acre.

Plant about the middle of spring in hills, the early sorts four to six feet apart, the late varieties eight to twelve. Thin to three plants in the hill. The soil cannot be too rich. Use Slug Shot to kill the bugs.

DES MOINES SQUASH

DELICIOUS.—A most desirable new winter variety. Color is green. Is about the same size as the Hubbard. Has very thick flesh, cooks dry and is of superior flavor. Although a good fall variety, it is best during the winter. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.50.

TRUE HUBBARD.—This sort is the most popular winter squash grown; hard, green shell; flesh bright orange yellow, fine grained, very dry, sweet and rich flavor; keep in perfect condition throughout the winter. Pkt. 5c, oz. 20c, ¼ lb. 65c, lb. \$2.00.

SYME'S BLUE HUBBARD.—A new strain of Hubbard and a splendid squash. Very thick meated, fine grained, dry and excellent flavor. Color clear, light blue; thick shelled and a good keeper. It is a great improvement over the old Marble-head variety. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. \$2.00.

GOLDEN HUBBARD, also called Red Hubbard.—A counterpart of the old Green Hubbard, except in color, which is a bright, deep, orange yellow; fine flavor; in productiveness excels the green variety. Every market gardener will find it a "seller." Pkt. 5c, oz. 20c, ¼ lb. 65c, lb. \$2.00.

MAMMOTH CHILL.—The "Jumbo" of the family. Outer color rich orange yellow; skin smooth, wide fissures. Flesh very thick and of a yellow color. They keep well and are profitable for stock. Have been grown to weigh over 200 lbs. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.75.

PEERLESS VEGETABLE MARROW.—In England they consider this far superior to squash. Peerless is the most desirable sort, fruits being handsome shape, creamy white color, of excellent flavor. Very productive. Pkt. 5c, oz. 15c, ¼ lb. 55c, lb. \$2.00.

SALSIFY

SALSIFY

VEGETABLE OYSTER

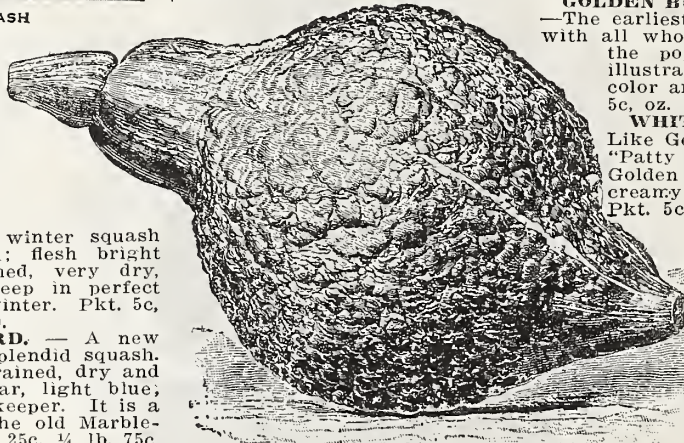

(One ounce will sow 50 feet of drill, 8 lbs. to the acre.)

It is one of the most delicious and nutritious of vegetables and should be more generally cultivated for use in the winter, when the supply of really good vegetables is limited. It has the true oyster flavor and is a delicious substitute for them in soup, etc. Cultivate like parsnips.

MAMMOTH SANDWICH ISLAND.—The best and most popular variety. The roots are white, smooth, and of superior quality. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. \$2.50.

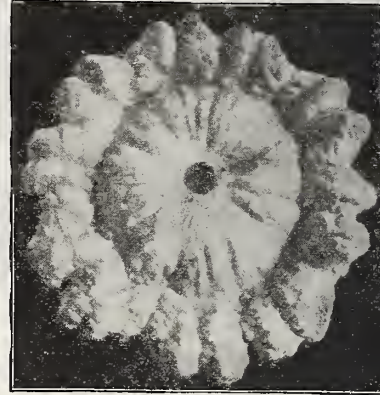

DES MOINES SQUASH.—Introduced by us under the name "Table Queen." Name changed at the request of Des Moines Market Gardeners Association. Vines are vigorous and very productive. Just the right size, averaging about 6 to 8 inches long and 4 to 6 inches in diameter. Color dark green, with sometimes a blotch of red at pointed end. Shell is hard and smooth, and ridged as shown in picture. Just wash it clean, cut in half, take out the seeds, bake twenty minutes and you will have the nicest squash you ever tasted. Splendid for pies. Ripens in the fall and keeps long as Hubbard. A novelty which we introduce with confidence. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. \$2.50.

EARLY PROLIFIC MARROW.—Early and productive. In color brilliant orange-red; good cooking and keeping qualities. Ripens earlier than the Hubbards and is useful as an early fall variety. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.50.

TRUE HUBBARD

"choky" quality common to winter squashes. Always rich, sweet and splendid flavor. Pkt. 5c, oz. 15c, ¼ lb. 55c, lb. \$2.00.

GOLDEN BUSH

GOLDEN BUSH.—(Yellow Bush Scallop.)—The earliest of all and quite a favorite with all who like summer squash. It is the popular shape shown in the illustration, bright golden yellow color and of excellent quality. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.50.

WHITE BUSH SCALLOPED.—Like Golden Bush. Sometimes called "Patty Pan." Differs from the Golden Bush in color only, being creamy white without other shading. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.50.

EARLY BUSH CROOK-NECK.—Splendid, early, productive, fine quality. No summer squash superior to this. Shape long, with curving neck, skin warted. Preferred by many as the best early summer squash. Pkt. 5c, oz. 15c, ¼ lb. 55c.

BANANA.—A distinct variety of fall and winter squash; very prolific, grows to 2 ft. or over in length; very fine grained, heavy; cooks dry but free from

BANANA SQUASH

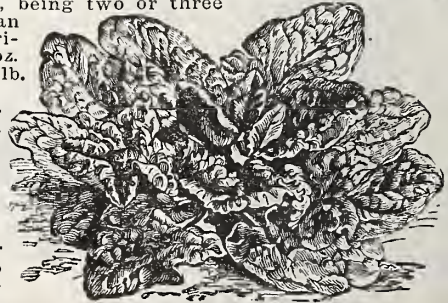

(One ounce will sow 80 ft. of drill.) **SPINACH** (10 lbs. is required to sow one acre.)

Makes the finest "greens" of any plant in cultivation. For summer sow early in spring in deep, rich soil, one foot apart in drills; cover one inch; sow at intervals of two weeks all summer. For very early use sow in September and protect.

VICTORIA.—A variety distinguished for its very long standing qualities, being two or three weeks later than the ordinary varieties. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

LONG STANDING.—Standard with gardeners; leaves are thick, fleshy and crumpled. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

BLOOMDALE.—Savoy-leaved, curled sort. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

VICTORIA SPINACH

IF YOU RAISE MORE SQUASHES THAN YOU CAN SELL ON THE MARKET, THE LIVE STOCK WILL EAT THEM EAGERLY.

TOMATO

(One ounce will produce about 2,500 plants.)

Sow early in hotbeds or seed boxes and when plants have four leaves transplant to 4 or 5 inches apart. Give plenty of air and endeavor to secure a vigorous growth. When all danger of frost is past, transplant to the open ground, 4 to 6 feet apart each way. Well manured, light, sandy, soil is best. Our tomato seed is saved from hand picked fruits. No decayed or deformed tomatoes are used.

SPARKS' EARLIANA.—Probably no early tomato has so large a sale as Sparks' Earliana. Extremely early, remarkable for its large size, handsome shape and beautiful bright red color. One of the most profitable crops for the market gardener and desirable for home gardens. Pkt. 10c, oz. 35c, ¼ lb. \$1.25, lb. \$4.

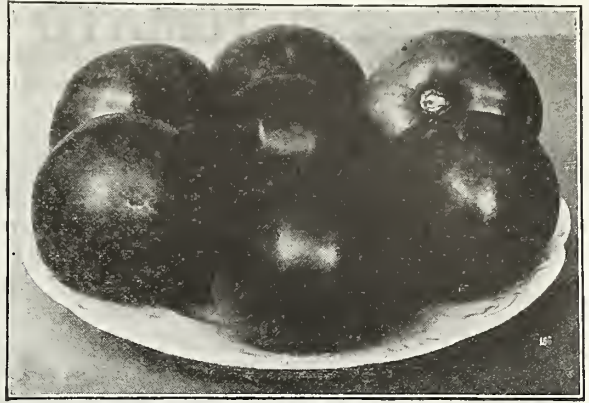

JOHN BAER.—This variety is offered as one of the earliest for home and commercial use. In our trials we found it to mature about the same time as Spark's Earliana, which variety it resembles in size, shape and color. Vines are not very large, but are productive, bearing the fruits in clusters and abundantly. The Tomatoes are of medium size, nearly round in shape, scarlet in color and of excellent flavor. On account of the large yield, desirable size and shape, this variety is suited both for early market and home use. Pkt. 10c, oz. 35c, ¼ lb. \$1.25, lb. \$4.00.

LIVINGSTON'S BEAUTY.—One of the best. Its size, beauty, shape, color, flavor and productiveness make it desirable to market growers. Pkt. 5c, oz. 30c, ¼ lb. \$1.00, lb. \$3.50.

DWARF CHAMPION.—Plant dwarf and compact, stem stiff and short jointed, almost self-supporting when it is laden with fruit. Early. Color is purplish pink. Fruit is smooth, symmetrical, solid and of fine quality. Pkt. 5c, oz. 30c, ¼ lb. \$1.00, lb. \$3.50.

GOLDEN QUEEN.—Large, yellow. Its fruit is smooth and of finest flavor; ripens evenly; handsome. Pkt. 5c, oz. 30c, ¼ lb. \$1.10, lb. \$4.00.

WONDER MAGNUS.—Deep rich red color, very solid and containing few seeds. The best of the potato-leaved tomatoes. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, lb. \$3.50.

SUPERLATIVE

SUPERLATIVE.—The best of all the main crop, medium sized tomatoes. Fruits are medium size, very solid, and without exception the best flavored red tomato we have ever grown. It is very handsome, being a pinkish crimson in color. While we grow many other varieties on our seed farm, our women folks use Superlative in preference to any other. Pkt. 10c, oz. 50c.

BONNIE BEST.—A very early and desirable variety. The fruits are most attractive in shape, solidity and color, which is bright scarlet from outside to center. The vines are strong and vigorous, producing a good crop of round, globe-shaped fruits which ripen more uniformly than other early sorts. A favorite with market gardeners. Pkt. 10c, oz. 35c, ¼ lb. \$1.25, lb. \$4.00.

BONNIE BEST

MATCHLESS.—Well worthy of its name, for in beauty, color and symmetry of form it is without a peer. Vines of strong, vigorous growth, well set with fruit, very rich cardinal red color, and not liable to crack from wet weather; of large size, and size of fruit is maintained throughout season. Solid, of fine quality, and keeps well. Pkt. 5c, oz. 30c, ¼ lb. \$1.10, lb. \$4.00.

PERFECTION.—Large and round, smooth and handsome red fruit of highest quality. It proves very satisfactory for forcing under glass. Pkt. 5c, oz. 25c, ¼ lb. 85c, lb. \$3.00.

STONE.—One of best standard sorts. Color bright red. Fruit large size, perfectly smooth and of best table quality. Much used for canning. Productive. Pkt. 5c, oz. 30c, ¼ lb. \$1.00, lb. \$3.50.

PONDEROSA.—Very large, inclined to be irregular in shape, but of fine quality. A variety quite generally known, popular. Fruits solid, color purple. Pkt. 10c, oz. 45c, ¼ lb. \$1.50, lb. \$5.50.

CRIMSON CUSHION.—Can be grown on trellises. Grows 7 to 10 feet high, if desired; most of fruit is borne 3 to 4 feet from the ground. Fine quality, extremely large, excellent. Pkt. 10c, oz. 45c, ¼ lb. \$1.50, lb. \$5.50.

MATCHLESS

PRESERVING TOMATOES

GOLDEN NUGGET.—(See Canning Club Collection, page 9.) Fruits are beautiful golden yellow, round as a ball and about as large as a hulled black walnut. Flavor exceptionally fine, and a most desirable variety for eating from the hand or as a dessert fruit. Plants are loaded with most beautiful, rich, golden yellow fruits of delicious flavor. Pkt. 10c, oz. 75c.

PEACH.—Named from its resemblance to a peach in size and shape. Color a peculiar shade of pink and orange, differing from ordinary tomatoes. A fine sort for preserving. Pkt. 10c, oz. 50c.

YELLOW PEAR.—A favorite with all who know them. Pear-shaped and a deep yellow color. Highly valued for preserving or to make "tomato figs." They are fine pickled. Pkt. 10c, oz. 40c, ¼ lb. \$1.

CRIMSON CURRANT.—A most charming little fruit, hardly more than a half inch in diameter, of bright crimson color; borne in long clusters containing from twenty to sixty tomatoes. Excellent for eating from the hand or preserved. Pkt. 10c, oz. 60c.

STRAWBERRY, or Husk Tomato.—Also called Ground Cherry. Is of spreading habit and immensely productive. Pkt. 10c, oz. 40c.

GOLDEN NUGGET TOMATO

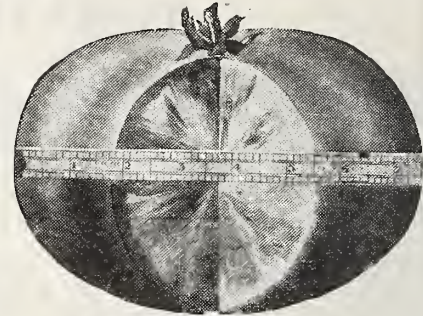

GRAND TOMATO TRIO

**THE THREE MAJESTICS—One Packet Each of the Three Majestics, 25 Cents
One Dozen Each, Strong Plants, Three Majestics, Postpaid, \$1.00**

MAJESTIC.—Is the largest, handsomest and finest quality tomato. When we first sent out this grand sort we were astonished at the reports received from customers. Undoubtedly the largest fruited of any, and the fruit is solid, weighing more than its size would indicate. The first fruits matured are somewhat rough, but later they are smooth and handsome, of rosy red color, its core blending into delicate shell-rose tints. Fruit is unusually solid, with very small seed cells. Flesh is tender, fine grained and rich, yet of mild, delicate flavor, being of the sub-acid class. Plant is of vigorous growth and many of our customers report specimens of 3 lbs. to 7 lbs. each. The largest were, of course, grown by special culture. There were also many reports of 120 to 160 lbs. of tomatoes grown on one plant. Pkt. 10c, oz. 50c, ¼ lb. \$1.50.

RED MAJESTIC.—This new sort appears to have all the good qualities as well as large size of the world-renowned Majestic, but is a bright cardinal red in color, and for this reason may be preferred. Bears the fruit well up from ground, out of reach of the chickens. Many growing both this and the Purple Majestic pronounce red variety superior. Pkt. 10c, oz. 50c, ¼ lb. \$1.50.

GOLDEN MAJESTIC, the \$1,800.00 Tomato.—A magnificent new variety which originated in northern Iowa, and we were so favorably impressed with it that we bought all the stock in existence and paid for same at the rate of \$1,800.00 per lb. It is the golden member of the great triumvirate, fully equal to its elder brothers in size, solidity, yield and flavor. Without hesitation, we pronounce it the grandest yellow tomato in existence. A trial will convince you of its superior qualities. Pkt. 15c, oz. 50c.

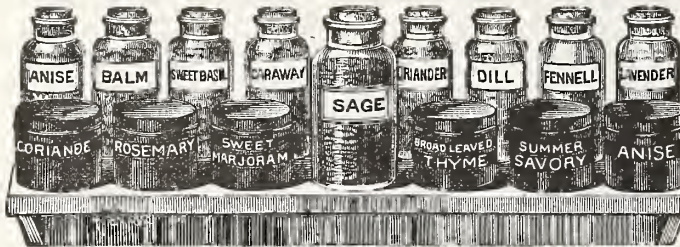

RED MAJESTIC

HERBS

In making up your assortment of seeds for the year don't neglect to order a few varieties of herbs. The chief point is to harvest them properly, which should be done on a dry day when not quite in full bloom, dried quickly and packed closely and entirely excluded from air. Those marked with an asterisk (*) are perennial.

- ANISE.**—Seeds of agreeable, aromatic taste. Pkt. 5c, oz. 10c.
- BALM.**—For making balm tea. Pkt. 5c; oz. 25c.
- BASIL, SWEET.**—For flavoring soups, stews, etc. Pkt. 5c; oz. 15c.
- BORAGE.**—Leaves used for flavoring. Pkt. 5c; oz. 15c.
- CARAWAY.**—Seeds are used for flavoring bread, etc. Pkt. 5c; oz. 10c.
- CATNIP, or Catmint.**—For seasoning. Pkt. 5c; oz. 30c.
- CORIANDER.**—Seeds used in confectionery. Pkt. 5c; oz. 10c; ¼ lb. 25c.
- CASTOR OIL PLANT.**—Seeds are pressed out to obtain oil. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.
- CHAMOMILE.**—Largely used for medicinal purposes. Pkt. 10c.
- DANDELION.**—Grown for greens, also for medicine. Pkt. 5c; oz. 35c.
- DILL.**—Used in making dill pickles. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.
- FENNEL, SWEET.**—Leaves used in sauces. Pkt. 5c; oz. 10c.
- HYSSOP.**—For asthma and catarrh. Pkt. 5c; oz. 20c.
- HOREHOUND.**—For seasoning and cough remedy. Pkt. 5c; oz. 20c.
- LAVENDER.**—Used as a perfume. Pkt. 10c; oz. 25c.
- MARJORAM, SWEET.**—For seasoning. Pkt. 5c; oz. 15c.
- POPPY, or Maw.**—Blue Seeded. Pkt. 5c; oz. 10c.
- ROSEMARY.**—Aromatic leaves used for seasoning. Pkt. 10c, oz. 60c.
- SAFFRON.**—Flowers used for coloring. Pkt. 5c; oz. 15c.
- SAGE.**—Much used for dressing. Pkt. 10c, oz. 35c, ¼ lb. \$1.00.
- SUMMER SAVORY.**—Used for flavoring. Pkt. 5c; oz. 20c.
- THYME.**—Leaves and young shoots used for seasoning. Pkt. 5c; oz. 40c.
- WORMWOOD.**—Used medicinally, and also for poultry. Per pkt. 5c; oz. 25c.
- MIXED VARIETIES.**—A mixture of all the above. A nice garden assortment. Pkt. 5c; oz. 20c; ¼ lb. 65c.

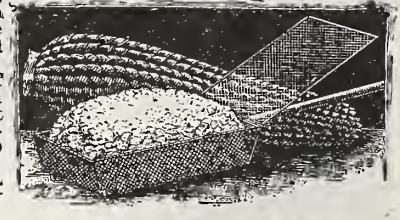

Collection for the Children's Garden

All children, and grownups, too, love melons, peanuts, pop corn and other good things to eat. Devote a small plot in the garden to the production of these items. Let the children have their own plot, do their own harvesting and see how much enjoyment they get from their work. They will take a great deal more interest in gardening for peanuts and pop corn, melons and fruits than they will in the growing of ordinary vegetables. The ground cherry, melons and tomatoes may be eaten as they ripen while the chufas, peanuts and pop corn will be a delight during the winter. Refer to illustrations and descriptions in the catalogue.

1 pkt. **Yellow Ground Cherry**, sweet and good; 1 pkt. **Peach Tomato**, fine flavored and small size; 1 pkt. **Tip Top Musk Melons**, large and fine quality; 1 oz. **Sweet-heart Water Melon**, as good as the name; 1 pkt. **Australian Hulled Pop Corn**, the best pop corn variety; 1 oz. **Chufas or Earth Almonds**, small sweet ground nuts of delicious flavor; ¼ lb. **Spanish Peanuts**, can be grown in any good soil.

Seven items of the best, and in quantity sufficient amounting at regular value to 80 cents.

MAILED POST-PAID FOR ONLY 50 CENTS.

MUSHROOMS

The ease and certainty with which a crop of mushrooms can be grown and the astonishing success of so many who have taken up this new industry, induces us to call especial attention to the subject. We recommend mushroom spawn both for market garden and the private planter. Directions for culture sent on application. Per brick of 1 lb., by mail, 40c. By exp. or frt., not prepaid, 5 bricks \$1.25, 10 bricks, \$2.25, 100 bricks \$20.00.

MUSHROOMS

THERE ARE NO TOMATOES IN THE WORLD SUPERIOR TO OUR THREE MAJESTICS. PROVE THEIR MERITS BY A TRIAL.

One ounce will sow 150 feet of drill.

TURNIP

Two pounds will sow an acre.

For early, sow in April in drills half an inch deep and twelve inches apart; thin to six inches apart in the drill. For main crop sow broadcast in July and August, and before a shower if possible.

EXTRA EARLY PURPLE TOP MILAN.—One of the earliest sorts in cultivation. Bulb very flat, medium size, quite smooth, with a bright purple top; grows compact and makes exceedingly small strap-leaved top. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

EARLY WHITE MODEL.—Much like the above, but is pure white all over, instead of having purple top. Quite popular with gardeners. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. \$1.00.

EARLY SNOWBALL.—A globe-shaped, white-skinned turnip, very fine grained, firm and of delicate flavor. One of the best keeping of white fleshed sorts, very early and particularly adapted for market use. Pkt. 5c, oz. 10c, ¼ lb. 30c.

GOLDEN BALL, or Orange Jelly.—A beautiful bright yellow turnip of medium size and universally sweet and delicious flavor. Is hardy and one of the best keepers. Flesh extremely firm and solid. Brings good price on market. If you have never tried yellow turnips we advise you to plant some of the Golden Ball this year. Pkt. 5c, oz. 10c, ¼ lb. 30c.

PURPLE TOP GLOBE.—Similar to the Purple Top Strap Leaved except shape. The largest yielder of any turnip on the list and always brings top market price. Produces wonderful crops, as much as 1,000 bushels per acre frequently. A splendid item for winter stock feeding. Usually fed in connection with mixed grain feeds. It is so fine in quality that it is very desirable for table use. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c. 5 lbs., not prepaid, at 60c per pound.

PURPLE TOP STRAP LEAVED.—The standard for this part of the country for late planting, and we sell immense quantities of it every year. One of the best table and stock sorts on the market, fine grained and of mild flavor. Of good size, flat shape, pure white below with purplish red top. Good cropper, excellent keeper. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

WHITE EGG.—A quick-growing, egg-shaped, perfectly smooth, pure

white variety with small top and rough leaves. The flesh is very sweet and mild, never having any rank, strong taste. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

MIXED TURNIPS.—All the table varieties mixed in equal proportions. For family use. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

RUTA BAGA

Largely grown in the north for stock feeding, and for this are superior to turnips. Sow in June in drills 2 feet apart and thin out to 8 inches in the row.

IMPROVED AMERICAN.—Very solid, fine quality, good shape, smooth skin, small neck. Keeps well. A choice strain of very best quality for table use or stock feeding. Pkt. 5c, oz. 10c, ¼ lb. 35c, lb. \$1.00.

MONARCH.—This grand new and distinct form of ruta baga is, we believe, by far the most productive of all. Of tankard shape with very small neck, skin dark red above ground and yellow below. The flesh is rich yellow in color, fine grained and of good quality. Pkt. 5c, oz. 10c, ¼ lb. 35c, lb. \$1.00.

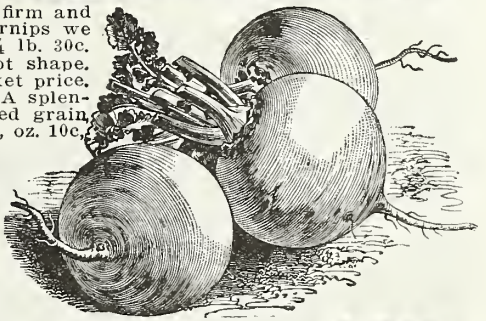

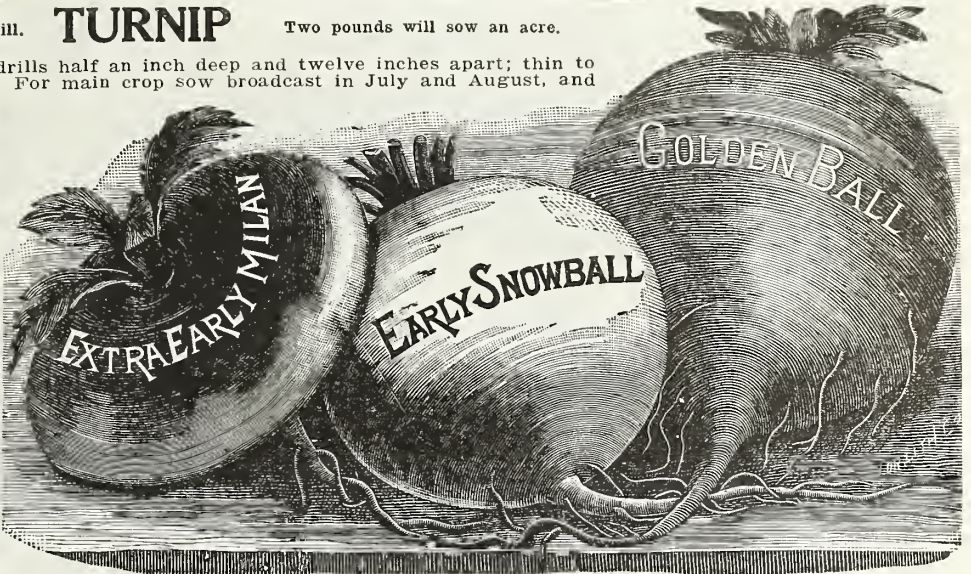

TOBACCO

BIG ORONOCO.—A favorite Virginia variety. Grows very large, broad leaves. A fine variety for dark plug wrappers and brings a good price in the market. Pkt. 10c, oz. 40c, ¼ lb. \$1.50.

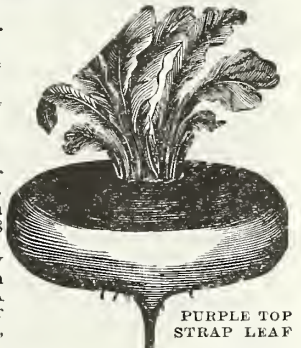

CONNECTICUT SEED LEAF.—This is a staple variety in all sections of the country and will grow successfully over a wide range of territory. Used for cigar fillers. Pkt. 10c, oz. 40c, ¼ lb. \$1.50.

HAVANA.—The best known variety, as it is used very largely for cigar wrappers. Commands the highest market price when well grown and cured. Pkt. 10c, oz. 40c, ¼ lb. \$1.50.

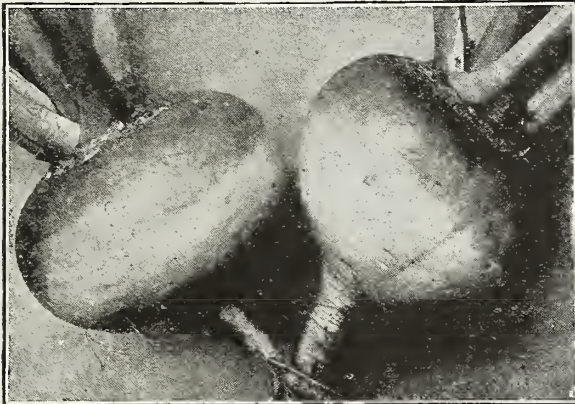

WHITE BURLEY.—A mild and sweet tobacco. It is the standard main crop variety in the tobacco sections as it is extra fine for manufacturing in nearly every manner that tobacco is used. Pkt. 10c, oz. 40c, ¼ lb. \$1.50.

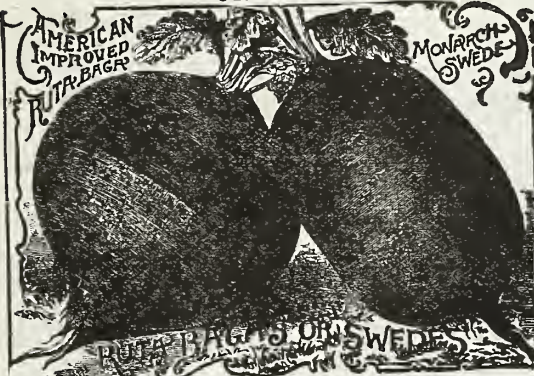

WHITE EGG.

HOLT'S MAMMOTH SAGE—AVERAGE SIZE LEAF

GARDEN PLANTS

Every garden should contain an assortment of these hardy plants and a few square feet will supply the family. Many believe if these well known remedies were kept and used more in families in place of so many drugs and patent medicines it would be better for the health of the people. Orders for these plants must amount to at least twenty-five cents. We pay the postage.

ARTEMISIA, or Brotan.—A hardy plant sometimes called "Old Man." It has great medicinal value. The leaves have a pleasant odor and bitter taste. Use similar to wormwood. Each 15c; 3 for 40c.

CALAMUS—Plain Leaf—(Acorus)—Also called "Sweet Flag." Leaves are aromatic and roots pungent. Grows in wet soil or beside ponds; also in dry places. Each 15c; doz. \$1.50.

CHIVES.—Perfectly hardy little perennials of the onion tribe, and are grown entirely for their tops, which are used wherever flavor of onion is required. Plant in any common garden soil and they will grow readily. The tops appear very early in spring and can be shorn throughout the season. Roots per bunch 15c; 3 for 40c; dozen \$1.25.

CATNIP, or Catmint.—A well known perennial herb having great medicinal value. Used largely for infants. Each 15c; 3 for 40c; dozen \$1.25.

HOP ROOTS.—Golden Cluster.—A fine variety of commercial hops. The vines are very ornamental when trained over rockeries, stumps, etc., with the added value of usefulness from the crop produced. Each 20c; 3 for 50c; dozen \$1.50.

LAVENDER.—A favorite plant with our grandmothers for perfuming wearing apparel, by distributing its sprays in the bureau drawers. Each 15c; 2 for 25c.

MONARDA DIDYMA.—Also called Scarlet Bergamot and Oswego Tea. Not only useful as an herb, but very ornamental with bright scarlet flowers. Each 15c; 3 for 40c; dozen \$1.25.

PEPPERMINT.—All children know and like the flavor of peppermint. It has a high medicinal value. Any pantry collection of dried herbs is incomplete if it does not contain some. Be sure that your order calls for at least a few plants. Each 10c; 3 for 25c; dozen 75c.

GENUINE PENNYROYAL.—Warm, pungent, of somewhat aromatic taste; used for medicinal purposes. Each 15c; 3 for 40c; dozen \$1.50.

ROSEMARY.—Used for perfume; for flavoring meats, stews, etc., and garnishing. Ea. 15c. 3 for 40c; doz. \$1.25.

HOLT'S MAMMOTH SAGE.—Great improvement on common sage. Plants very strong growing; leaves are very large and of unusual substance, strong in flavor and of superior quality. Each 15c; 3 for 40c; doz. \$1.50.

SPEARMINT.—Commonly called Mint and thousands of dollars' worth of it is sold annually in New York, Boston and other cities for flavoring salads, garnishing meat, etc. Each 15c; 3 for 40c; doz. \$1.25.

THYME.—A well known plant which is used for sauces and flavoring. Each 15c; 3 for 40c.

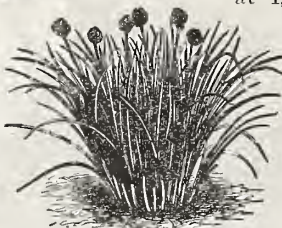

TANSY.—Used largely for its tonic, stomachic and other medicinal qualities. Each 15c; 3 for 40c; doz. \$1.25.

HORSE RADISH

Grow it in your own garden and grate fresh. Plant the sets small end down in rows 3 feet apart, about 12 inches apart in the row. It does best in rich, loose soil set slanting and covered about two to three inches. Doz. 25c, 100 for \$1.50, postpaid. By express, per 100 \$1.25, 1,000 for \$10.00.

GARLIC

Species of onion propagated by dividing the bulbs into small pieces, planting each one separately. It is quite pungent and is used for flavoring soups, stews, etc. Per lb. 50c, postpaid. By express, lb. 40c, 10 lbs. \$3.25.

planting with this tool,
and do it with ease and
satisfaction.

FANCY NORTHERN GROWN EXTRA EARLY OHIO (Grown in Red River Valley)

SEED POTATOES

"Professor C. L. Fitch, specialist in vegetables, of the Extension Department at Ames, says: 'All northern Iowa should buy each year from the best regions in Wisconsin and Minnesota enough seed potatoes to grow their seed for the next year. Practically all of southern Iowa should buy all their Early Ohio and Irish Cobbler seed in most seasons and all their Rurals in trying seasons. Our demonstrations show a gain by this practice of from 25 to 75 bushels per acre in one case at Sigourney.'"

EXTRA EARLY OHIO

We have these grown about 400 miles north of Des Moines, and careful tests have proved them fully ten days earlier than Iowa grown. This is a great advantage and makes this the most popular of all. They are all of good, average size, strictly pure, smooth and free from scab or rot. It is an especial favorite with marketmen, and the most profitable they can grow. Sprout is very strong and vines grow erect, making it easy to cultivate, and on account of early maturity you get the highest market prices. Will keep firm till late in the spring. Frequently sold under the name Early Six Weeks. Desirable for late planting as they keep well for winter. Pk. 80, bu. \$2.75.

EXTRA EARLY TRIUMPH

A popular first early variety. This is the round, red potato which is generally in our markets as new potatoes early in spring. Most of our customers are no doubt familiar with the Early Triumph. The color is bright red; shape is almost spherical, and in size they are about equal to the Early Ohio. They ripen very quickly and are ready for the table as soon as large enough. Our stock is strictly pure. Pk. 90c, bu. \$3.00.

IRISH COBBLER

Has the form and color so popular in the market. Is prolific and profitable to the grower and has become a much prized variety. Matures as early as the Ohio, and is preferred because it is smooth and round in shape and of cream white color. The flesh is white and of fine quality and flavor. It is a strong, vigorous grower, with strong germ. Eyes well developed and slightly indented. Generally quoted at a premium in the summer markets because it is of economical shape, there being no waste in preparing for cooking. Pk. 90c, bu. \$3.00.

ROSE OF THE NORTH

An improvement on the old Early Rose which has been grown on the virgin soil of the far north. It is very early, being only a trifle later than the Early Ohio and much larger. Is smooth and of handsome rose color. Quality superb, either baked or boiled, and yields immensely. It is rapidly gaining the place being held by the old Early Rose. Pk. 80c, bu. \$2.75.

HYBRIDIZED POTATO SEED.—Potato seed from the flower boll (the true seed). It is from such seed that the choice new varieties of potatoes are originated. The result is interesting and often very profitable, and you are just as apt to obtain a choice new variety as a potato specialist. Pkt. 10c, 3 for 25c.

RURAL NEW YORKER

One of the largest yielding varieties in existence. Preferred by large buyers because it is large and unusually smooth, with few and shallow eyes, skin white as is also flesh, which is of good quality. Medium late and the best drouth resister. There is no other potato of more handsome appearance than the Rural New Yorker. It is very hardy and will stand the heaviest manuring without getting scabby or spotted. Under ordinary circumstances they will yield from 300 to 400 bushels per acre and by heavy manuring this yield can be almost doubled. Pk. 75c, bu. \$2.50.

NORTHERN KING

Offered as the potato par excellence in quality. Has light red or pink color and oblong shape and is vigorous and prolific. Will make a crop under most trying conditions. It is quality that recommends this variety, the writer preferring them to all other kinds for winter. The tubers average larger in size than most sorts, are of good shape, and they cook whole, either baked or boiled, without hard centers or becoming "soggy." For the family who wish to grow their own potatoes for the winter supply we believe the Northern King will prove the best. Pk. 75c, bu. \$2.50.

BURBANK

An old standard main crop variety which is very popular because of market demand and heavy yields. Satisfies both the grower and the consumer. Tubers are large, oblong and have fairly deep eyes. Color is white, quality excellent. In our opinion no white potato excels the Burbank in quality, and some grown in sandy soils on new land often command a premium in city markets. Pk. 75c, bu. \$2.50.

SEED SWEET POTATOES

PRICES SUBJECT TO MARKET CHANGES

Thrive on any of the loam soils of the Middle West, and do specially well on sandy ground. A few hundred plants will supply all you need. One customer reports 20 tubers, weighing over twenty pounds, from a single hill, and a full bushel from three hills last year. We do not recommend that you buy sweet potatoes for a small family garden. Better buy plants unless you need a thousand or more. Plants are priced on page 24. If you desire information ask for our free circular, "How to Grow Sweet Potatoes."

Our seed sweet potatoes are grown, stored and handled especially for seed purposes. They are not cold storage stock on which the germ has been killed but are fresh and vigorous. It is absolutely necessary that they be handled quickly in spring as they do not keep well after being taken from the storage bins. We cannot guarantee them to be all sound upon arrival and for this reason we hold the potatoes and fill all orders at once so as to get them to you promptly. We usually ship from April 12th to 20th and notify customers when we start them.

EARLY YELLOW JERSEY.—Holds first place. Earliest and most productive; of large, short, chunky shape and of the very best quality. 10 lbs. \$1.25, bushel basket \$3.00.

NANCY HALL.—A variety originated in the south. Flesh is dark colored and cooks a bright orange. Splendid for baking and is extra sweet and full of sugar. 10 lbs. \$1.25; bushel basket \$3.00. Ask for prices in quantities.

FARM SEED DEPARTMENT

EXPERT PRODUCTION EXPERT SUPERVISION EXPERT SERVICE

THE SINCERE EFFORTS AND SPLENDID FACILITIES OF THE ENTIRE ESTABLISHMENT ARE AT YOUR SERVICE

We can help you if you will patronize our Farm Seed Department. We have the equipment necessary to grade up our Farm Seeds to the highest possible excellence. We can give you better stocks than you can get elsewhere. Every item offered in this list has been carefully grown to maintain purity. Every one has had expert treatment in our special machinery and appliances to make it better than when it came to us, and we do improve it. We have so much pride in our stocks that we are ready to be judged in any way you see fit. We will mail free samples of any item for inspection. We will ship you seed with the understanding that it must be satisfactory or it may be returned to us within fifteen days and the money paid for it will be refunded. You can inspect it and test it yourself. You can have it inspected and tested by any authority and we will cheerfully abide by the report. You know we could not afford to make such an offer if we were not sure of our ground.

Let us help you improve your crops, both in quality and quantity

We put time and money and painstaking care into the farm seed line. We have to. We must supply better seeds than you can get elsewhere if we are to have your trade. The present-day farmer raises good grains and if we are to surpass him in quality, we have to keep wide-awake and progressive. If our grass seeds are to excel in purity and vitality, it requires the closest scrutiny in buying and cleaning. We ask your trade solely upon our ability to please you.

WAREHOUSE, 208-210-212 SOUTH EIGHTH ST.,
WHERE ORDERS FOR FARM SEEDS ARE FILLED.

PRICES named in this department are always subject to important market changes. All quotations are net and are not subject to any premium or discount. Clover and grass seeds are constantly varying in value, and we issue a red ink price list daily during the busy season. Please write for quotations, sending list of requirements when in need. Orders sent us will be given benefit of lowest prices on day order is received.

SHIPPING.—In this department everything that is quoted by the packet or pound is sent by mail, postpaid; all larger quantities, unless noted, are sent by express or freight at the expense of the purchaser. Prices named include bags and delivering to depot here.

ABOUT WARRANTING.—We thoroughly test all our seeds and nothing is sent out which we do not believe to be good in every respect. However, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, and the money paid for same will be refunded. We know of no responsible seed firm in the world which guarantees seeds any further than this. Compare with other seed catalogues and you will find we are right.

It costs less than 50 cents an acre to use our carefully selected SEED CORN.

SEED CORN

Do you deem it wise to risk doubtful corn when GOOD SEED is so cheap?

GROWN, SELECTED, CURED, GRADED AND TESTED BY THE IOWA SEED COMPANY
SEED CORN FOR ALL DISTRICTS VARIETIES TO PLANT ONE HUNDRED BUSHELS PER ACRE

Many authorities claim it is not wise to move corn more than fifty miles north of the point of production. The position may be accepted under certain conditions. We do not recommend that Reid's Dent or Profit corn be taken more than fifty miles north of Des Moines. The thermal lines, however, do not run exactly east and west but vary with the topography of the country. The same varieties will grow and ripen around Sioux City and in northeastern Nebraska as at Des Moines, while for northeastern Iowa and Wisconsin only the early varieties can be recommended. We have sold seed corn for many years and we know from experience that we can give you seed corn suitable for any locality. In our opinion it is more a matter of variety and type than of location. We give brief selection of varieties suited to the different corn districts north of Des Moines, and our recommendation is based on our thirty years' experience. The real corn belt does not extend more than two hundred miles north of Des Moines. Corn can only be grown beyond that point to the north of small flinty types which are not suited to the real corn country. In making descriptions of the varieties we grow, we have endeavored to make plain the range where each may be safely planted, but if there is any question about any variety being suited to your planting, write us and we will advise you honestly and to the best of our ability. We have provided some northern grown seed corn for northern planters if it is desired.

In the Extreme North—Sanford's White Flint, Improved Yellow Flint, Pride of the North, Iowa Gold Mine.

Northern District—Pride of the North, Farmers' Reliance, Iowa Gold Mine, Lenochoer's Homestead and the Flint varieties.

North Central District—Iowa Gold Mine, Iowa Silver Mine, Wenger's Gold Medal, Farmers' Reliance, Lenochoer's Homestead and Flint varieties.

Central District—Profit, Iowa Silver Mine, Iowa Gold Mine, Farmers' Reliance, Wenger's Gold Medal, Reid's Yellow Dent, Lenochoer's Homestead.

Southern District—All varieties.

WHY BUY YOUR SEED CORN OF US

We have pedigreed stock. The seed has been carefully sorted, graded and tested, and is sold with return privilege if not satisfactory. We give you 15 days to examine and test it, and if you conclude you do not want it, send it back and we will refund your money. You must raise more corn per acre to make it pay. Our seed corn will produce far more per acre than the average and every bushel added from the acres increases your margin. Under present conditions every acre must produce its utmost. Poor yields from run out seed will not pay. You are forced to get larger returns. Plant our selected seed corn.

If you do not raise one hundred bushels of corn per acre in a good season you have not realized the full returns possible from your field. There are hundreds of verified records of even greater yields than this. It is really not a difficult thing to do. The first requirement is extra care of the soil. The ordinary yield in Iowa is only about forty bushels and it would seem to the writer the farmer might well spend both time and money to increase the fertility of the soil to the point where production might and should be doubled. Even at the price of 75c per bushel, an added yield such as indicated above would readily cover any extra cost incurred in the application of fertilizer or the careful plowing and preparation of the fields. With the latest improved methods of corn growing you can increase your soil fertility rather than decrease it, during the season you produce the corn crop. By the planting of Soy Beans and by hogging down certain of the fields the land is left even richer than in the spring when the corn was planted. Of course the seasons will have much to do with the results secured and again the use of good seed is necessary. Also intelligent cultivation is a requirement if we are to secure the greatest possible returns. If, however, you make the most of your opportunities and use such seed corn as we can offer, planting three grains to the hill, you should have 10,000 stalks to the acre and at least one ear to each stalk. Don't be satisfied with less.

WE MAKE NO CHARGE FOR BAGS. THEY ARE FURNISHED FREE WITH SEED PURCHASES AT OUR CATALOGUE PRICES

IOWA SILVER MINE

WORLD-WIDE FAVORITE WHITE VARIETY

The Corn That Always Makes a Crop

GROWN EVERYWHERE

A change of location seems in no way to diminish yield or impair quality of the Iowa Silver Mine when grown from our seed. We have reports from customers in Egypt, South Africa, Australia, Central America, Mexico, and the West Indian Islands, as well as from all parts of the United States, praising in the highest terms the Iowa Silver Mine Corn produced from seed purchased of us. So widespread has been the dissemination of this variety, and so universal the success of the planters that without hesitation we recommend Iowa Silver Mine for all corn planters except possibly the extreme North.

It is thirty years since we purchased the original stock of Iowa Silver Mine for the sum of \$1,000 in cash. Each year the stock has been carefully selected to maintain all its superior qualities and we have grown it with care, giving it good soil and cultivation, and isolating it to prevent mixture or taint from any other variety. Our stock is of the original, purchased by us in 1895 and bred continuously since that time under the personal direction of our seed corn experts, who have thirty years' experience as their guide.

IT IS TRULY THOROUGH-BRED

The stalk grows to a height of about 7 or 8 feet and sets the ears about 3½ or 4 feet from the ground, just the right height for easy picking. One peculiarity which will be noticed in going over the fields is that there are no barren stalks; every one has an ear, many stalks have two or three good ears, and the originator says that has been characteristic every year that he has grown it. Type is very even. Ears measuring from 10 to 12 inches in length, and weighing 1½ lbs., are often found. The ears are very uniform in size and shape, with 16 to 20 straight rows (usually 18 rows) of deep, pure white kernels, set on small, white cob, and ears are well filled out over the tips. It is early, maturing in ninety-five days. The cob dries rapidly, so that it is ready for market earlier than any other large white field corn. Seventy pounds in the ear will make sixty-two shelled. It is adapted to a wider range of soil and climate than any other corn ever offered. It is, in every way a distinct type of corn, hardy, and a wonderful resister of drouth.

HERE IS A PART OF ITS RECORD

Everywhere the Iowa Silver Mine captures the prizes over all other varieties. At one fair ten of the largest ears took first prize, ten of the smaller ears took second prize. Afterwards the same ten large ears took sweepstakes over all varieties, both white and yellow, making a total of \$95.00 in prizes taken at one fair by twenty ears of the Iowa Silver Mine Corn. It captured the big prize offered by us in 1896, for the largest crop, against all other kinds of any color, yielding 215 bushels. At the Illinois State Fair it took first premium for the best bushel of corn, any color or sort; first for best white corn in the state, grand sweepstakes for best corn, any color, competition open to the world. In 1899, the Illinois State Agricultural Society offered three large prizes for the largest crop grown on one acre, and Iowa Silver Mine captured all three with crops of 196, 176 and 154 bu. per acre. No other corn, any color, can compare with it for productiveness.

Read the Astonishing Record of Our Own Prize Contest. It produced 215 bu. per acre in Scott county, Iowa, the crop being actually inspected by a member of our firm. It yielded 211 bu. per acre in Indiana; 201 bu. in Arkansas; 178 bu. in Illinois; 145 bu. in Ohio; 137 bu. per acre in Texas.

PRICES: For high grade extra select seed corn postpaid or by express prepaid: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00. By freight or express, not prepaid, pk. 90c, lb. \$3.00, 2 bu. or more at \$2.85, 10 bu. or more at \$2.75 per bushel.

THE PROFIT CORN

OUR OLDEST PEDIGREED VARIETY

A Large, Heavy Ear on a Large Stalk

A POPULAR VARIETY

This variety will produce 100 bushels of ear corn per acre. In addition to a heavy yield of grain, it will also produce an immense amount of fodder or stalks for ensilage. If you have a silo, there is no corn in the entire list that will approach it in value to you. We believe that every farmer nowadays appreciates the value of the silo and we know that they are building thousands of them every year. The farmers appreciate the saving to them by the use of these buildings, but if you plant small corn, or the ordinary types, from which to fill the silo, you do not secure the full returns from your fields. With the expense incurred, you have a right to expect the greatest returns for the money invested. This can only be secured

where you produce the largest quantity of feed per acre that it is possible to raise upon the land. We offer you the Profit Corn to meet this need.

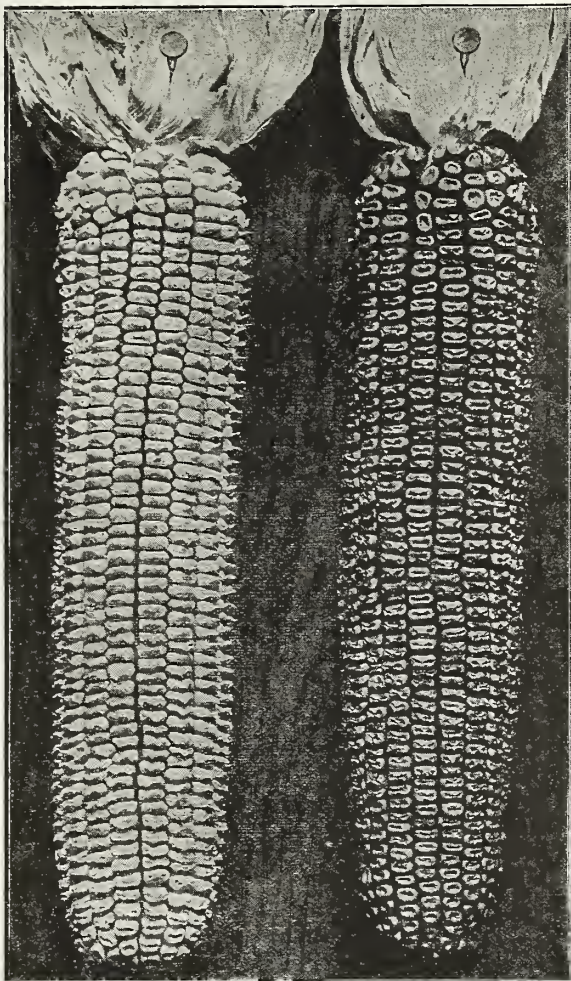

Corn for the silo does not necessarily have to be fully matured like it does if you are to crib it on the ear. If you are in the northern part of Iowa, or the Corn Belt, you can raise Profit Corn for silage, but we would not advise you to plant it expecting to crib it in the ordinary manner. It will mature, however, wherever Reid's Dent can be successfully grown and we think it will yield more corn, and we know it will produce more stalk than that well known variety. If you have a shredder, or if you use corn for fodder in any way, you will find no variety as valuable as the Profit. It produces big ears on big stalks. It contains the largest amount of sugar and starch in each plant, and matures a big crop. You can raise it profitably, either for the market or for feeding, and we recommend it without reserve to friends who want to secure the most profit.

A GENERAL PURPOSE CORN

The purpose of the originator was to fix a type of field corn for profit, superior to any in cultivation, and profit in corn growing, as we understand it, means the largest crop of shelled corn (not cobs), maturing in a reasonably short time, and of the best quality. Ears of large size, the grain is very deep, cob small for size of ear and dries out rapidly, thus making it a sure cropper. Corn is solid on the cob, the kernels appearing driven in, and it shells out immensely.

This variety does not mature so quickly as either Gold Mine or Silver Mine, requiring 110 days, and we do not recommend it for planting in the extreme northern districts of Iowa. If a crop of grain is desired, or if the corn is to be sold in the ear, but we think it is the best corn for silage in the northern districts, as it will mature sufficiently for that purpose. It will do well in the two central and southern districts for all purposes, and we believe it will produce more bushels of shelled corn than any variety with which we are acquainted.

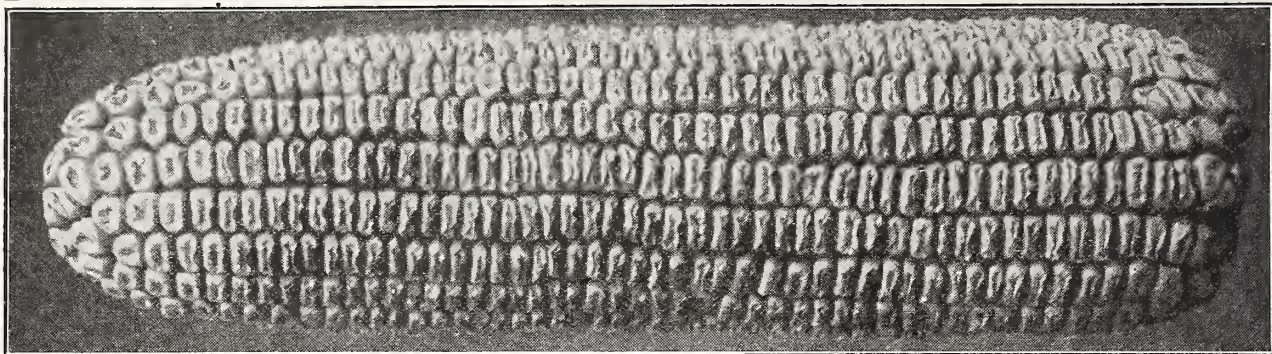

PRICES: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre), \$1.00 by mail or express prepaid. By freight or express, not prepaid, pk. 90c, lb. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. for \$27.50.

IOWA SILVER MINE

THE PROFIT

OUR STOCK OF IOWA SILVER MINE CORN IS NOT ONLY PEDIGREED, BUT HAS BEEN REGENERATED TO INCREASE THE YIELD

SPECIMEN EAR OF IOWA GOLD MINE CORN

IOWA GOLD MINE

It ripens in ninety-five days and never fails to mature. It does not mold or spoil if cribbed at proper time and is the most certain to succeed in adverse seasons. It is all corn and corn of extra quality. We have sold it for thirty years and each season we have a higher opinion of its value.

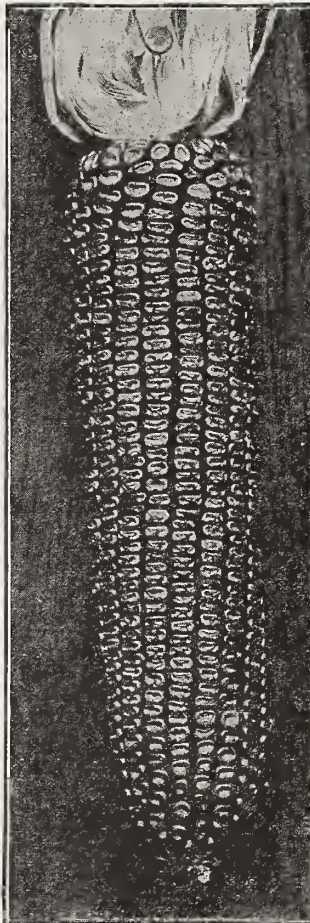

ONLY SIX POUNDS OF COBS

Seventy pounds of Iowa Gold Mine on the ear will make 62 to 63 lbs. of shelled corn. This is the smallest proportion of cob of any variety. We have shelled selected ears of this corn which produced only 6 lbs. of cob per bushel. This is an unparalleled record. It cannot be equalled by any other corn in the world. One carload lot of 400 bushels of Iowa Gold Mine corn was carefully weighed, and after shelling was re-weighed and there was just 455 bushels. Just think of it—a gain of 14 bushels to the 100. You can see from these figures that if you are to sell this corn it should be either sold as shelled corn, or a premium demanded for the corn in the ear. You cannot afford to sell 70 lbs. of ear corn of the Iowa Gold Mine for a bushel as you are actually giving the buyer six or seven extra pounds, worth five cents at ordinary market value.

GRAIN IS OF SUPERIOR QUALITY

You can readily understand its exceeding great value to the feeder. The figures given above demonstrate that there is very little waste, but they do not show the features which are so much superior to other kinds—the soft grain and the oil and sugar content that make it so readily digestible by the stock. There is really ten per cent more feeding value in Iowa Gold Mine pound for pound than in the ordinary sorts, and an acre of Gold Mine producing sixty bushels is worth as much to the feeder as a seventy bushel yield of any other variety.

PRICES: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00, by mail or express prepaid. By freight or express not prepaid, pk. 90c, bu. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. \$27.50.

FARMER'S RELIANCE

FARMERS' RELIANCE

THE EARLIEST LARGE CORN

THE LARGEST EARLY CORN

A Fine Variety for Northern Planters

A grand variety introduced by us. Of very strong, vigorous character, growing more rapidly than any other variety from the day it is planted, it really surprises one with the speed with which it hurries on to make ears. The stalks usually have from nine to eleven blades, while most ordinary corn has thirteen blades. Leaves quite broad, of dark, emerald green, healthy color. Planted as late as June 26th has yielded a splendid crop. We claim it will mature in ninety days. Ears are larger, smoother, and easier to handle than Pride of the North and will yield one-third more under the same conditions. Seventy pounds of ears will make sixty pounds of shelled corn. Fully 40 per cent of stalks produce two good ears.

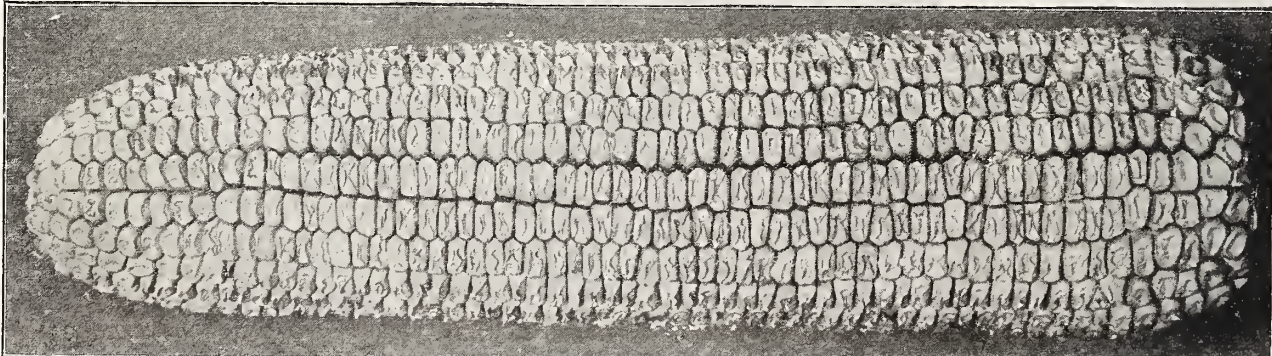

PRICES: Per lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00, postpaid. By freight or express, not prepaid, pk. 90c, bu. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. for \$26.00.

WENGER'S GOLD MEDAL

A NEW THOROUGHbred VARIETY

This new variety is the result of cross breeding made by Mr. S. B. Wenger of South English, Keokuk county, Iowa, and which has been carried on and perfected during the last fifteen years. The foundation for the variety is Golden West crossed upon the Prosperity type of Reid's Dent. The type is thoroughly fixed and it will produce a crop far more uniform than is generally the case and which is only to be found with corn of long pedigree and of careful handling. In offering this variety to the public we believe we are helping the corn growers of the northern district to improve the quality and the yield of the corn in this part of our state. This new corn can be carried seventy-five miles north of Des Moines, and in such locations we think it will give greater yields and sounder corn than any other large variety.

PRICES: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00, by mail or express, prepaid. By freight or express, not prepaid, pk. 90c, bu. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. \$27.50.

SPECIMEN EAR WENGER'S GOLD MEDAL CORN

SEED FOR ONE ACRE OF ANY OF OUR CHOICE VARIETIES FOR \$1.00. ONE BUSHEL ADDED TO YIELD PAYS COST OF SEED.

REID'S YELLOW DENT

THOROUGHbred, PEDIGREED, CAREFULLY SELECTED STOCK
A Splendid Strain of Sustained Purity and Excellence

Most farmers know the Reid's Dent Corn, and it is very popular because of the large, smooth, symmetrical ears, which are always uniform and make it one of the most attractive varieties for market selling. Because of its handsome appearance it is generally accepted as the show standard, and because of show record is widely known and generally distributed.

Our particular strain is far superior to the common strains found on most farms. Our original stock was direct from Mr. Reid, the introducer, and we have grown it continuously for many years. We have bred it to retain the purity of type and heavy yield. You can safely order Reid's Dent of us and be assured you will get superior stock of this superior sort.

It is grown at Altoona. The soil is heavy black loam, the land is high, in fact, it is one of the highest points above sea level in the entire state. Our experience proves that seed corn produced in that locality will mature anywhere in Iowa. It is just as though grown in the northwest part of our state as regards latitude, and an advantage over that section because the soil is heavier and matures the corn more slowly. It is because of this location that our seed corn will successfully grow far to the north and is superior to most of the seed corn produced in other sections of the state.

If you can grow Reid's Dent, buy your seed from us. We will make good our claims of superiority by increased yield of splendid large corn at harvest time.

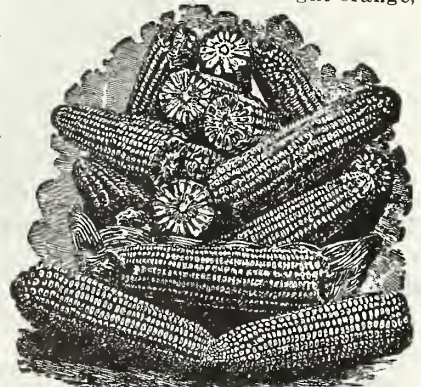

PRICES: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00, by mail or express, prepaid. By freight or express, not prepaid, pk. 90c, bu. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. for \$27.50.

PRIDE OF THE NORTH

THE EARLIEST VARIETY OF YELLOW DENT CORN
Matures Sound and Dry in Ninety Days

Originated with A. L. Goddard, of Kossuth county, Iowa, near Minnesota line, over twenty-five years ago. The ears are 7 to 8 inches long, with small cob and kernel; 70 lbs. of ears will make 62 lbs. of shelled corn; color bright orange, very uniform. Will ripen in 90 days and matures in this latitude when planted in June. Good soil is capable of producing four or five good stalks to the hill and many of the stalks have two ears each. The grain is very long and sets closely on the cob. It is extremely rich, and goes farther in flesh production than ordinary sorts. Splendid for "hogging down." By this method you do not have the labor of husking. It is the dependence of the man in a pinch. If for any reason you can not plant at proper time, Pride of the North will make a crop in 30 days' less time than the large eared sorts. In some years it has made a crop planted after July 4th. It insures a corn crop against floods or storms or unfavorable conditions in May or early June.

PRICES: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00, postpaid. By mail or express, not prepaid, pk. 90c, bu. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. for \$27.50.

PRIDE OF THE NORTH

JUST A FEW GOOD REPORTS ABOUT OUR CORN

I have seven acres of Farmers' Reliance that will make 80 or 90 bushels per acre. It is by far the best corn I know of around here. It was planted June 14th.—Geo. W. Brown, Ross County, Ohio.

Lenocher's Homestead is the best corn I ever fed. Earliest variety in these parts.—J. Able, Doniphan County, Kansas.

Last spring I got some Reid's Yellow Dent seed corn and will say it is as fine as any corn I ever saw. I don't think it could be beat in the state.—A. A. Westbrook, Ira, Iowa.

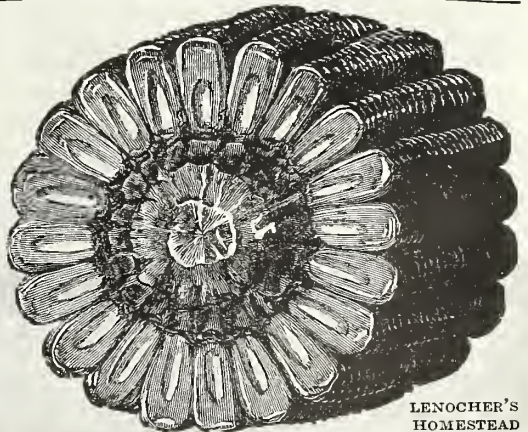

LENOCHER'S HOMESTEAD

THE GREATEST RED CORN EVER PRODUCED

A Hundred Bushels Per Acre Variety

This is the corn that won the Iowa Homestead prize of \$100 for the best three acres of corn grown under ordinary methods. The crop produced yielded 345 bushels on the three acres on the farm of Mr. G. F. Lenoche, a practical farmer and feeder of Dallas county, Iowa. We made arrangements with Mr. Lenoche to introduce the corn to the public and gave it the name of Lenoche's Homestead, and have offered it for twenty years. The color is a rich dark red with occasional light caps; grain deep and huddled; ear somewhat above the average with small cob which dries out rapidly so that it is not likely to be caught by frost. May be grown anywhere that Iowa Silver Mine matures. It is a splendid silage corn and produces good crops in unfavorable seasons when other corns will hardly make nubbins. There is no prejudice on the part of the live stock or the silo against red corn and if you plant Lenoche's Homestead the great yield per acre will overcome any prejudice you may have.

PRICES: Pkt. 5c, lb. 25c, 3 lbs. 60c, 7 lbs. (will plant one acre) \$1.00, by mail or express, postpaid. By freight or express, not prepaid, pk. 90c, bu. \$3.00, 2 bu. or more at \$2.85 per bu., 10 bu. for \$27.50.

LENOCHER'S
HOMESTEAD

WE CLAIM TO SUPPLY THE BEST SEED CORN. WE WILL MAKE GOOD THIS CLAIM AT HARVEST TIME.

EXTRA EARLY FLINT CORNS

Ready for Use a Month Earlier Than Ordinary Varieties

The great value of the Flint varieties of corn is in the production of early feed for live stock. The matured grain is hard and cattle cannot manage it very well but the pigs will thrive upon it as well as upon the dent variety. However, the best use for these is the production of quick food for your stock, because it is sufficiently matured for feeding far in advance of the dent varieties.

SANFORD'S EARLY WHITE FLINT

This standard variety is considered the best flint corn on the market. The ears are of unusual length, 12 to 15 inches, and handsome shape, flinty white color. Plants of sturdy, vigorous growth; leaves are very broad and succulent, and it is therefore of great value for fodder and ensilage, as well as for a grain crop. Stalks usually bear two or three long ears. Pkt. 5c, lb. 25c, 3 lbs. 60c, postpaid. By freight or express, not prepaid, pk. \$1.50, bu. \$5.00, 2 bu. or more at \$4.85 per bu.

IMPROVED YELLOW FLINT

An eight-rowed yellow flint variety with ears from 10 to 15 inches long, 1½ to 2½ inches in diameter, and well filled out to the extreme end of cob. The cob is small and the kernel large and broad; ripens in 75 to 85 days. Excellent for ensilage and is often used here for replanting. Pkt. 5c, lb. 25c, 3 lbs. 60c, postpaid. By freight or express, not prepaid, pk. \$1.50, bu. \$4.50, 2 bu. or more at \$4.40 per bu.

EVERGREEN SWEET FODDER CORN

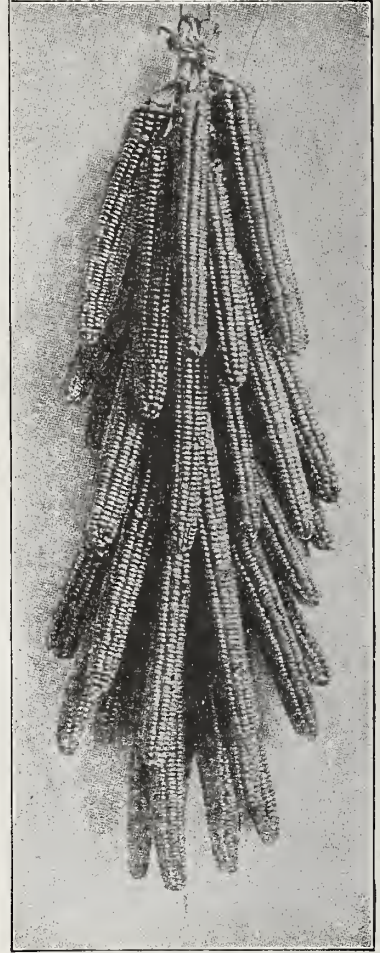

Superior to Field Corn in Feeding Value

EVERGREEN FODDER CORN

The past few years seed sweet corn has been so scarce and high in price that we did not urge our customers to plant it, but last year we grew a splendid crop, both in quality and quantity, and are therefore enabled to offer it at a low price. Our seed is from pedigree stocks selected for sugar content, and is far superior to ordinary sweet corn sold for fodder purposes. It is worth double the value for feeding. We consider it one of the most valuable fodder plants in existence, and stock farmers should all devote some land to it. The stalks are sweet, juicy, rich, tender and very nutritious. On a strong soil it will grow 10 to 12 feet high and produce almost an incredible amount of fodder, which when well cured is equal to hay, besides being cheaper. It is claimed by dairy farmers this fodder will increase the milk and cream production greatly and keep the animals in the best condition. It has the further merit of being so sweet and palatable that cattle eat every part of the stalk and leaves. As a green fodder for cutting in the summer, one acre is worth eight acres of ordinary pasture. Of high value also for "hogging down" in the fall. Plant thick in drills, using a peck of seed per acre; or broadcast at rate of 2 bu. per acre. By freight or express, not prepaid, pk. \$1.50, bu. (50 lbs.) \$5.00, 2 bu. or more at \$4.85 per bu.

Cut Evergreen Sweet Fodder Corn in roasting ear stage for pigs and milk cows.

IMPROVED YELLOW FLINT CORN

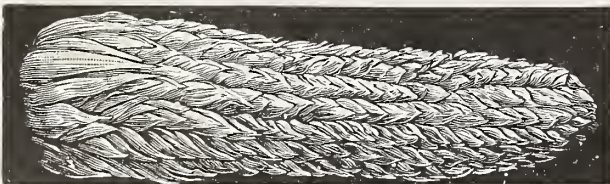

EXPERIMENT CORN COLLECTION

For the benefit of those of our customers who would like to compare our varieties of corn in a practical way, we offer a collection composed of 1 lb. each of the following seven varieties. **Wenger's Gold Medal, Iowa Silver Mine, Iowa Gold Mine, Reid's Yellow Dent, Lenoher's Homestead, Farmers' Reliance.** By express, not prepaid, for \$1.00; or, if you want them prepaid, send postage, see page 1.

SOME UNIQUE AND NOVEL VARIETIES OF CORN

PRIMITIVE OR HUSK CORN

It is from this wild variety that all of our civilized sorts have sprung. The ears are of fair size and each individual kernel or grain is covered with a husk and all is enclosed in an outer husk like common corn. In some of the wild and uncultivated parts of Mexico, the primitive or natural corn can still be found growing wild. It is quite curious and valuable for exhibition purposes and attracts great attention wherever seen. Pkt. 15c. Specimen ear 50c, postpaid.

PRIMITIVE OR HUSK CORN

NEW CENTURY WONDER

A wonderful variety from South America, different in many respects from other sorts. Instead of growing like ordinary corn, one stalk to each kernel planted, it stools like winter wheat, producing 10 to 20 stalks from each seed. Often 3 to 7 ears to stalk, being 8 to 10 in. long, and of most clean, snow-white color. Of excellent quality for the table like sweet corn; when dry and ground makes the cleanest, finest, whitest meal. An improvement on Brazilian flour corn, being acclimated by growing in the north. Plant early as it requires the whole season to mature in this latitude. Requires 3 lbs. of seed per acre. Pkt. 10c, ¼ lb. 15c, lb. 40c. Crop is short. Write for price in quantity.

COBLESS CORN

A unique curiosity. The grain grows at the top of the stalk, where the ordinary corn produces the tassel. Each grain is enclosed in a husk in the manner of primitive corn, while the head resembles sorghum or Kaffir, except that the grain itself is true corn, hard and flinty, about the size of grains of ordinary flint varieties. Sold only in pkts. at 10c.

BY ALL MEANS INCLUDE THESE NOVEL CORNS IN YOUR ORDER AND HAVE SOMETHING FOR THE FAIRS AND CORN SHOWS.

SEED WHEAT

MARQUIS

Ten Days Earlier Than Blue Stem or Red Fife and Produces Five to Ten More Bushels per Acre

This is the wheat that won the \$1,000 prize at New York Agricultural Exhibition against all exhibitors, representing every wheat growing section of the western hemisphere. Superior to any known variety in milling and baking qualities. It has recorded a yield of fifty bushels per acre. It was originated at the Experiment Station at Ottawa, Canada, and introduced to the public in 1905. It is a favorite in Minnesota and the Dakotas, and we have found it the best beardless variety for Iowa planters. We grow our own stock in Iowa because we find that acclimated seed is better for our friends than stock secured from the North. We recommend it as the best beardless spring wheat for this latitude. Grows stiff, strong straw of medium height, has round, dark red kernels and matures two weeks earlier than the old standard blue stem types. Popular because free from beards and not so hard to handle at harvest. Per lb. 5c, 3 lbs. 60c, postpaid. By freight, per bu. \$2.25, 2 bu. at \$2.10 per bu., 10 bu. or more at \$2.00 per bu.

EARLY JAVA

The Early Bearded Sort That is so Prolific and Gives Best Returns in the Corn Belt.

This is a bearded variety which for ten or more years past has given far better satisfaction in central Iowa than any other bearded variety and wherever introduced it is driving other sorts out. The farmers are delighted with it. It is a variety of spring wheat, about ten days earlier than the Velvet Chaff or other standard sorts and thus escapes the extreme hot weather so injurious to small grain. It is usually ready for harvest as early as winter wheat, and therefore desirable to sow on land where winter wheat has partially failed. A good crop can this way be secured from fields which would otherwise be unprofitable. Per lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$2.25, 2 bu. at \$2.10 per bu., 10 bus. or more at \$2.00 per bu.

MACARONI OR DURUM WHEAT

It will yield more bushels per acre than ordinary varieties. Our grower secured a yield of twenty-nine bushels per acre last summer and we recommend it as a profitable sort. It seems to be always a sure crop. It grows very strong and vigorous and gives a good return on poor land. The grains are hardy, glossy, often translucent, large and plump and really beautiful. It seems to be freer from smut or rust than ordinary varieties. Sow one and one-half bushels per acre. Per lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$2.25, 2 bu. at \$2.15 per bu., 10 bus. or more at \$2.00 per bu.

WINTER WHEAT

We issue a descriptive price list of winter wheat about August 1st. Write for it then.

IOWA 404.—This is a strain of Turkey Red variety developed at the Agricultural College at Ames, Iowa, and they offer it as the hardiest and most prolific sort among the many which have been tested on the trial plots of the college farm.

RED CROSS.—The best beardless winter wheat for the corn belt. This variety is immensely popular with our patrons because of hardiness, heavy yields and freedom from harsh beards. Lb. 25c, 3 lbs. 60c, postpaid. Ask for prices in quantity.

TURKISH RED.—The great standard winter variety so generally recommended by all authorities. Lb. 25c, 3 lbs. 60c, postpaid. Ask for prices in quantity.

DEFIANCE.—Our greatly improved strain of Turkish Red which has a record of over 59 bu. per acre in Iowa. Has never failed to produce a profitable crop.

PRICES

SEED OATS

BUY IOWA GROWN SEED. THE BEST OATS IN THE WORLD ARE GROWN IN IOWA

We confine our offerings of oats to varieties which will give greatest yields, the best grain and yet meet the need of special requirements. For the farmer who wants to sow grass seeds with oats we recommend the White Kherson (Iowa 103) on ordinary soil or the Richland (Iowa 105) on strong soil. These do not make such rank growth of straw as other sorts and will not lodge under ordinary conditions. The young grass will not be destroyed when storms come that will beat down the larger kinds.

THE IOWAR OAT

Prof. Burnett's latest introduction at Ames College. The professor says it is three days later, three inches taller and yields three bushels per acre more than White Kherson (Iowa 103). It seems to the writer the best oat now offered. The grain is good size, thin hull and good color, so it is popular for market. We recommend it to our farmers as the best yet produced. By freight, per bu. \$1.00, 2½ bu. bag \$2.25, 20 bushels or more at 75 cents per bushel.

WHITE KHERSON (Iowa 103)

A Production from Ames College

Bred by Prof. L. C. Burnett, agronomist at the Iowa Agricultural College, and introduced by us. Prof. Burnett gave it the designation of "Iowa 103" and we gave it a trade name as "White Kherson" because we believed that numbers might become confusing. It is without doubt the most popular variety in our state. It is very early, and while the grain is not very large, it is plump and heavy, with thin hull. It seems to be free from blight or rust. The straw is strong and stands up well on good soil. When growing it would appear to be a rather shy yielder, but the results at threshing have been so surprising that the farmers have been delighted with the final outcome. Our seed is pedigree stock grown continuously by us since first given us by Prof. Burnett, and it has always been given great care in seed selection and in grading. We know, therefore, that we have better stock than you can buy from ordinary sources. By freight, per bu. \$1.00, 2½ bu. bag \$2.25, 20 bushels or more at 75 cents per bushel.

THE RICHLAND OAT (Iowa 105)

The Best Variety for Rich, Strong Land

Another variety from the Agricultural College bred by Prof. L. C. Burnett and it was sent out as the best for strong, rich ground, where the ordinary varieties of oats would lodge or make excess growth of plant rather than large crops of grain. It does not grow very tall, but has stiff, strong straw and it will stand up under adverse conditions better than any other variety known. It is very early and produces wonderful crops and competes with the White Kherson in quantity produced. The grains are medium sized, light yellow in color, plump and heavy. Resembles the original Kherson oats in color and general habit, but is far superior to that sort in every way. By freight, per bu. \$1.00, 2½ bu. bag \$2.25, 20 bushels or more at 75 cents per bushel.

SILVER MINE

The Popular Main Crop Variety

Standard for main crop in Iowa. Has established a reputation of yielding immense crops of 100 bushels per acre in favorable years. Grain is large, plump and heavy with a reasonable thin hull. Quite hardy, vigorous, stands well and shows little tendency to rust or lodge unless soil is extra rich. Has splendid record in comparative tests at Iowa Agricultural College. Will bring top price in market. By freight, per bu. \$1.00, 2½ bu. bag \$2.25, 20 bushels or more at 75 cents per bushel.

OUR CUSTOMERS ARE AT NO EXTRA EXPENSE FOR BAGS TO HOLD SEED GRAIN AS THEY ARE FURNISHED FREE OF COST.

SEED BARLEY

MANDSCHEURI.—Improved strain of standard six-row bearded barley. The standard market variety by which all are graded and therefore the most popular bearded sort. It is an early variety, very strong, stiff straw, stands up and stools well. It bears large well-filled heads of plump grain. Per lb. 25c, 3 lbs. 50c, postpaid. By freight, per bu. \$1.75, 2 bu. at \$1.65 per bu., 10 bu. or more at \$1.50 per bu.

ODERBRUCKER.—First introduced into the United States from the Agricultural Experiment Station at Guelph, Ontario, Canada. Bred and disseminated at the Wisconsin Agricultural College by Prof. R. A. Moore, who claims it is the greatest barley in this country for feeding or malting purposes. It is bearded, and in growth similar to Mandscheuri, but the straw is somewhat stronger and stiffer, and will stand upon the richest ground. Will not rust and is free from smut. Per lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$1.75, 2 bu. at \$1.65 per bu., 10 bushels or more at \$1.50 per bushel.

SPELT, OR EMMER

This new grain was first introduced into this country by our house several years ago, has proven of great value. It has become a staple crop in all sections of the West and Northwest. It is grown and handled in the same manner as barley. It should be threshed for feeding as the process breaks up the beards and straw so that the animals eat readily. It is a splendid feeding grain, in our opinion second to corn, and in dry or cold sections where corn will not mature Spelt will be the very best feed that can be produced. Records of 75 to 100 bushels of grain and 3 to 5 tons of straw are reported from Kansas, Nebraska and the Dakotas. Its value lies in its hardness, great yields, and feeding value. Use 50 to 70 lbs. of seed per acre. Lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$1.75, 2 bu. at \$1.65 per bu., 10 bu. or more at \$1.50 per bu.

SUNFLOWER

The very best poultry feed for winter. Drill in rows, cut with a corn harvester, dry thoroughly; let fowls do harvesting.

MAMMOTH RUSSIAN.—Extremely large sunflower. Large pkt. 5c, lb. 35c, 3 lbs. 90c, postpaid. By freight or express, not prepaid, 10 lbs. \$2.00, bu. (25 lbs.) \$5.00.

WHITE BEAUTY.—Equal in size to Mammoth Russian. Prices same as above.

BROOM CORN

EVERGREEN.—The brush is noted for fine quality, good length, and handsome appearance. Lb. 25c, 3 lbs. 65c, postpaid. See red ink price list.

DWARF.—Popular in some sections, matures late. Lb. 25c, 3 lbs. 65c, postpaid. Send for red ink price list for value on quantity.

SEED RYE

MAMMOTH SPRING RYE.—This is quite different from the winter rye and is highly valued wherever known. It is not only more productive but the grain is of finer quality and it can be successfully grown in any latitude. The straw is of special value as it stands six or eight feet high, being better than that of winter rye and producing nearly four times as much straw as oats. Produces 30 to 40 bushels of grain to the acre. As it does not stool like winter rye, not less than two bushels to the acre should be sown. There is always a demand for first quality rye straw. Pkt. 5c, lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$2.25, 2 bu. at \$2.10 per bu., 10 bushels or more at \$2.00 per bushel.

MONSTER WINTER.—We consider Winter Rye one of the most important of all farm crops. It is usually sown in the fall. If sown early in the spring it makes an early and abundant pasture, but makes no grain crop. By freight, per bu. \$1.75, 2 bu. at \$1.65 per bu., 10 bushels or more at \$1.50 per bushel.

BUCKWHEAT

Buckwheat is a valuable crop. Generally sown in July and fills up vacant plots at a time when all other planting is past. Can be sown after crop of winter wheat or rye and make a second crop. Also largely used as a winter cover-crop in orchards and nurseries. Use about one-half bushel seed per acre.

JAPANESE.—A week earlier than Silver Hull and yields more. Flour is equal to any other buckwheat, while it is more productive than any other, and succeeds well far north. The kernels are quite large, but the straw is heavier and branches more. Lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$2.00, 10 bu. or more at \$1.75 per bu.

SILVER HULL.—Very good, popular variety. Grain is light gray color, rounder than the common variety, has a thinner husk earlier, yields more. It is preferred by the mills grinding buckwheat flour as it makes a smaller proportion of hull to flour than other sorts. Lb. 25c, 3 lbs. 60c, postpaid. By freight, per bu. \$2.00, 10 bu. or more at \$1.75 per bu.

SEED FLAX

It will pay you to sow nice, pure, high-grade flax seed. It must be cleaned. Our seed is thoroughly re-cleaned, free from mustard or any other seed and is as good as can be purchased anywhere. Do not buy flax seed on open market. It is generally full of weed seed. One of the most profitable of crops. Per lb. 20c, 3 lbs. 50c, postpaid. By freight, per bu. \$3.00, 2 bu. at \$2.85 per bu., 10 bu. or more at \$2.75 per bu.

ONE CUSTOMER GOT 35 BUSHELS PER ACRE FROM THIRTY ACRES OF WHEAT. IT WAS SURELY VERY PROFITABLE.

FORAGE AND FODDER PLANTS

OF SPECIAL VALUE TO LIVE STOCK RAISERS

Every plant that will conserve the hay raised on a farm is of material advantage to the farmer. In this department will be found a number of items which, if properly used, will solve the problem of feed for the live stock when hay and pasturage are short from any cause. Amber Cane or Kaffir Corn for fodder; Rape or Kale for pasturage; Vetch or Field Peas for hay can be used by any farmer in the corn belt with profit. All may be siloed with corn to advantage.

MAKES FINE QUALITY HAY

SUDAN GRASS

WONDERFULLY PRODUCTIVE

A MOST VALUABLE QUICK GROWING PLANT FOR AN ANNUAL HAY CROP

This is a new annual grass that is causing a great deal of inquiry throughout the country. It is very highly recommended by the U. S. Department of Agriculture, who brought it to this country from the Egyptian Sudan in 1909.

Each year adds to its popularity as it proves a splendid crop. We have no record of failure or disappointment to the planter.

Sudan Grass is wonderfully productive. One customer reports over six tons per acre from a single cutting from which he also saved a crop of seed worth \$100 per acre. This is probably the most profitable way to grow it, but our preference would be to produce two crops of hay from broadcasted seeding, cutting the growth each time just when the seed heads are forming. We have produced it for several years on our farms. It makes such a magnificent crop of hay that we are urging our friends who need an annual hay crop to plant Sudan Grass, believing it will produce more tonnage per acre than any other grass now grown. We know that it thrives in Iowa and from the short time required for maturity we believe it can be grown anywhere in the United States with satisfactory results.

We recommend Sudan Grass to take the place of the mil-

lets as a summer hay crop. This in our judgment is its most valued place in the agriculture of Iowa. It is especially valuable to the farmer who has no meadow of tame grasses. So much can be grown in such a short time that a small plot will cover the hay shortage. It will do as a substitute for sorghum for fodder or Kaffir, Milo and Feterita as a forage plant, but we do not consider it as valuable in any other form as it is for hay. In quality it is far superior to the millets. It does not get "dusty," nor is it so "seedy" as millet hay, while it will yield much larger quantities per acre than any variety of millet generally grown. The seed is not expensive, and when the small quantity required per acre is considered, you will see that you can grow a crop of it at less cost than any of the millets. It costs more to produce Sudan Grass seed in Iowa than in the South, hence we are asking a higher price for home grown stocks. We will send whichever you prefer.

PRICES: Kansas Grown Seed—Per lb. 20c, 3 lbs. 50c, postpaid. **Iowa Grown Seed**—Grown from selected stocks. Per lb. 25c, 3 lbs. 60c, postpaid. Not prepaid, Kansas seed, per 100 lbs. \$8.00; Iowa grown, per 100 lbs. \$10.00. See red ink price list for quantity price.

EXTRA FINE FOR SORGHUM

AMBER CANE

FOR HAY AND GREEN FORAGE

KENNEY'S EARLY AMBER CANE

An improved variety grown on our own farms to keep it pure. The stock seed has been saved from stalks tested for sugar content. This process has been followed for a number of seasons, until we now have without doubt, the best sorghum cane in the country. Specially recommended for northern planters as it matures quicker than other varieties. Will grow over wider area than any other sort. In addition a crop of seed worth \$25 or \$30 can be grown at the same time. Our own crop of Kenney's Cane has equalled 8 tons of stripped cane per acre, producing 119 gallons of fine sorghum, and in addition our crop of seed averaged a ton to the acre. Use only 5 lbs. seed per acre. **PRICE:** Per lb. 25c; 3 lbs. 60c, postpaid. Not prepaid, 10 lbs. \$1.25; 25 lbs. \$2.50; 100 lbs. \$8.00. See red ink price list.

EARLY ORANGE CANE

Differs from the Amber variety both in stalk and shape and color of seed head. Seeds are red and are produced in compact head similar to Kaffir and Feterita. It is a few days later to mature than the Amber and is popular in southern Iowa, in Missouri, Kansas and Oklahoma. It is not so good for northern planters as the Kenney's Amber for sorghum making, but makes fine molasses where it matures. The syrup is somewhat lighter than that made from the Amber variety. Some planters prefer it for fodder. The stock we offer for sorghum making is grown for that purpose, while the seed sold for fodder is bought on the market from field growth. **PRICE:** High grade seed, per lb. 25c, 3 lbs. 60c, postpaid. Not prepaid, 10 lbs. \$1.25; 25 lbs. \$2.50; 100 lbs. \$8.00. See red ink price list.

CANE FOR FODDER OR SILAGE

Our stock of cane for fodder purposes is field grown, purchased from sorghum makers, and is far superior to such as comes from cane raised for fodder only. We do not consider it equal to our own stocks of sorghum cane seed for sugar content, but it is reasonably pure and at the low price is a profitable crop. Send for free circulars on Cane and Sudan Grass. **PRICES:** Not prepaid, 25 lbs. \$1.00; 100 lbs. \$3.50; 500 lbs. \$15.00.

CHANGES

CANE IS GROWING IN POPULARITY EACH YEAR AS A FORAGE CROP. MAKES VERY CHEAP FEED.

FETERITA

Similar to Milo Maize and Kaffir Corn in general habit. It matures earlier than either, however, and the grains are somewhat larger and softer. It is also said to be more prolific, yielding thirty to fifty bushels of grain per acre, and suitable for feeding most any kind of live stock. Should be planted in the North about June 1st. In good weather grows quite rapidly and can generally be depended upon to ripen a crop. Pkt. 5c; lb. 20c; 3 lbs. 50c, postpaid. By freight or express, not prepaid, 10 lbs. 75c; 25 lbs. \$1.50; 100 lbs. \$5.00. See red ink price list for prices in quantity.

KAFFIR CORN

Grows five to six feet high, straight, upright growth. The stalk bears numerous wide leaves; keeps brittle and juicy, making excellent fodder either green or dried. Seed crop is heavy, yielding 30 bushels per acre. Can go without rain without any loss in yield. Generally cultivated in drilled rows about three and one-half feet apart. It is given about the same cultivation as ordinary corn except that it is only cultivated one way. In sowing broadcast treat same as Amber Cane and we recommend from 50 to 100 pounds of seed per acre. Use a grain drill cross planting both ways. Price packet 5c; lb. 20c; 3 lbs. 50c, postpaid. By freight or express not prepaid, 10 lbs. 75c; 25 lbs. \$1.50; 100 lbs. \$5.00. See red ink price list for quantity values.

MILO MAIZE

Belongs to the same family as Feterita and Kaffir Corn and resembles them in manner and habit of growth. Grain is light red and quite attractive and is preferred by makers of mixed feeds because of attractive appearance. The same methods of production are as recommended for Kaffir Corn above. Price per packet 5c; lb. 20c; 3 lbs. 50c, postpaid. By freight or express not prepaid, 10 lbs. 75c; 25 lbs. \$1.50; 100 lbs. \$5.00. See red ink price list for quantity values.

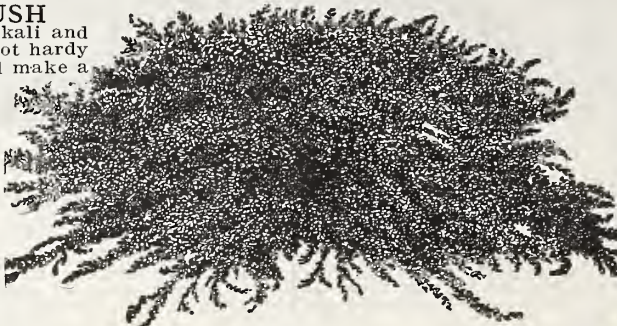

HEAD OF FETERITA

KAFFIR CORN

AUSTRALIAN SALT BUSH

Valuable for soils containing alkali and for all semi-arid or dry regions. Not hardy in the North. Once started it will make a strong growth during hottest and driest weather. Spreading habit, branching freely, making thick mat of stems and foliage 12 to 18 inches over entire surface of the soil. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.00, postpaid; 5 lbs. or more by express, not prepaid, at 75c per lb.

AUSTRALIAN SALT BUSH

PENCILARIA

Particularly a dry, hot weather plant; adapted to the north. Seeds very small and when it first comes up looks like grass, but very soon resembles corn, having broad, succulent leaves. It stools out wonderfully, as high as 75 stalks grown from one seed. Grows 7 to 8 feet high and will produce 15 to 20 tons of green forage. Sow in May or June in drills 24 to 36 in. apart, using 2 lbs. seed per acre, or broadcast, 15 lbs. per acre. Pkt. 5c; ¼ lb. 15c; lb. 35c; 3 lbs. \$1.00, postpaid. By freight or express, not prepaid, lb. 25c; 5 lbs. \$1.00.

PENCILARIA

TEOSINTE

Very prolific, heavy yielding fodder plant. Resembles corn, but leaves are much longer and broader and stalks contain a sweet sap; 35 stalks have been grown from one seed, attaining a height of 11 ft. and thickly covered with leaves. Horses and cattle eat it freely. Plant at usual corn planting time in hills 3 to 4 ft. apart each way. Has yielded 50 tons of fodder per acre. Pkt. 5c; oz. 10c; ¼ lb. 50c; 1 lb. (for 1 acre) \$1.50, postpaid.

WHITE CANADA FIELD PEAS

Entirely different from soy beans and cow peas. Like ordinary garden peas, growing 3 to 4 feet high. Their value is for early hay. Sow early as the ground can be worked, one bushel of peas to two bushels of oats per acre. Mix together and sow with grain drill. Cut when oats are in the milk, cure as ordinary hay. Matures in 90 days. Peas add nitrogen to the soil like clover so the crop is a help. Pkt. 5c; lb. 35c; 3 lbs. 60c, postpaid. By freight, 25 lbs. \$2.50; 100 lbs. \$9.00. See red ink list for quantity prices.

COW PEAS

There is as much difference in the grading of cow peas as in clover, and we handle only the choicest. **Circular on Cow Peas free.**

NEW ERA.—Use 30 lbs. seed per acre and plant like garden beans; particularly recommended for planting after grain harvest and plowing under in fall. Pkt. 5c, lb. 25c, 3 lbs. 65c, postpaid. By frt. 25 lbs. \$2.00; 100 lbs. \$7.00. See red ink list for quantity prices.

WHIP-POOR-WILL.—A popular sort. Pkt. 5c, lb. 25c, 3 lbs. 65c. By frt., 25 lbs. \$2.00; 100 lbs. \$7.00. See red ink list for quantity prices.

TEOSINTE

WHITE CANADA FIELD PEAS

PLANT WITH THE CORN**SOJA OR SOY BEANS****DRILL FOR HAY CROP**

FIELD OF SOJA OR SOY BEANS

VARIETIES OF SOY BEANS

BLACK EYEBROW.—Beans are black and yellow, easily identified. Very prolific, early ripening and desirable. Produced the heaviest crop for us this season.

MANCHU.—Medium size, clear yellow bean; grows upright, heavy foliage and splendid yielder. Our stock true to name, grown by ourselves, here in Iowa.

ITO SAN.—Best known variety. Beans yellow with distinct spot on blossom end. Upright grower, heavy foliage, very prolific. Our own stock.

MEDIUM YELLOW.—A small yellow bean of excellent habit. Matures early. Stands up well, with strong foliage. A favorite with us for yield and value.

The most valuable method of using the Soy Beans in the Corn Belt is to plant them in the corn at the time of planting, placing two or three beans in each hill of corn. Most planters now have either a Soy Bean attachment or one which can be adjusted to the dropping of the beans in the manner suggested. The crop is "hogged down" in October and produces pork at very low cost. If rape is sown in corn and beans at last cultivation, added value is given to the pasturage.

To get the best use of soy beans for fertilizing remove the small grain as soon as ripe, and sow the beans on the field. For fertilizer purposes use three to four pecks per acre, turn the stubble three inches deep, and plant with a grain drill, using every other tube, and harrow in thoroughly. Usually the rank growth of the beans will keep down all weeds, but on weedy land it may be well to run a weeding harrow over the beans after start. They grow very rapidly during the hot weather of July and August, so that at time of frost they may have grown so large as to be difficult to turn under with the plow. If this happens, turn the pigs and cattle

on them, but use the mower if the field is not so you can loose the stock, and haul a part of the forage off the field to the feeding pens before plowing. If you are to get best results, the land should be plowed and beans turned under the latter part of September or first of October.

As a crop to improve the soil it is fully equal to clover. The roots of the plant gather nitrogen in the same manner as the clover and builds up the land in the same way. Pkt. any variety 5c; lb. 25c; 3 lbs. 60c, postpaid. Not prepaid, 25 lbs. \$5.00; 100 lbs. \$15.00. See red ink price list for varieties and prices.

SOW IN SMALL GRAIN**DWARF ESSEX RAPE****SOW AMONG THE CORN**

This is without question one of the most popular and profitable of all annual forage plants, and everywhere it is giving the best of satisfaction. It is easily grown anywhere and stands unsurpassed as a pasture plant for hogs, cattle or sheep. They eat it greedily and seem to prefer it to any other pasture during the summer till late in the fall or early winter. It can be sown early in the season to provide for early pasture for sheep and swine or sow in small grain a few weeks after sowing the grain to provide pasture after harvest. This is very popular method, but it is generally the practice to sow the rape at same time the grain is seeded.

At the Iowa Experiment Station, 60 bushels of oats and 18 tons of rape were grown on an acre, the oats and rape being sown together early in the spring. The rape interfered but slightly with harvesting the oats and afterwards produced a heavy growth which amounted to 18 tons when cut in October.

Rape is also sown in corn at last cultivation. This is a very profitable method where the crop is to be "hogged down" in October. Rape belongs to the cabbage family and will generally withstand the frosts of September or early October, and adds greatly to the value of the forage crop with the corn where stock are turned in.

Rape is an exceptional forage crop for Iowa conditions. This is all the more appreciated when we emphasize that in good rape years, pigs pastured on this forage require less grain feed for 100 pounds of gain than when grazed on alfalfa. This is an "efficiency" commentary on the rape, because alfalfa is the greatest American pasture and forage crop. We will send you a copy* of the complete bulletin on rape if you ask for it. Pkt. 5c; lb. 30c; 3 lbs. 75c, postpaid. Not prepaid, 10 lbs. \$1.50; 25 lbs. \$3.00; 100 lbs. \$11.00. See red ink list for quantity prices.

**SAND OR WINTER VETCH**

Sand Vetch, if sown with rye, may be cut for hay in the same manner, and under similar conditions as field peas. Builds up the soil like clover. The plant is a low running vine, often growing to the enormous length of 25 feet. If sown alone never gets very tall and is difficult to harvest with ordinary haying tools. Sheep or hogs turned on the stubble will not want for pasturage until the Vetch is entirely consumed. Plant with an ordinary grain drill, alone or mixed with rye. If alone, use one bushel Vetch per acre, or use one-half bushel of Vetch and one bushel of rye per acre. Pkt. 5c; lb. 40c; 3 lbs. \$1.00, postpaid. See red ink list.

EXTRA QUALITY IOWA GROWN CLOVER SEED

MEDIUM OR COMMON RED CLOVER

"Iowa Shield" Brand Clovers our Famous Specialty

We sell more clover seed direct to farmers than any seed firm in the West, and it is all sold because those farmers get better quality of seed,—brighter, cleaner, more plump and vital—than they can secure elsewhere. The reason is that we take special care to have everything first class and protect our customers by using the microscope in both buying and selling.

Our clover seed has become widely known for its purity, strong vitality, hardiness, vigorous and healthy growth, and branching qualities, so that now we receive many orders from the most distant parts of the United States. Well posted farmers appreciate the difference between it and ordinary stock. This is the most important of all clovers and the standard everywhere for hay and pasture and our "Iowa Shield" grade is the plumpest, cleanest, purest, fanciest grade, tested and of high vitality. Farmers usually sow 15 to 20 pounds of clover seed to the acre when sown alone, but this seed is so choice that 6 or 7 pounds is really sufficient if conditions are favorable, but we recommend sowing 10 pounds so as to be sure of a perfect stand. About 5 pounds, if sown with timothy. Per pound, 40c; 3 pounds \$1.00, postpaid. See red ink price list for quantity prices.

MAMMOTH RED CLOVER

This is also called Sapling or Pea Vine Clover. It greatly resembles the Medium Red but grows coarser and more vigorous. It is the best clover for pasturing as it will produce an enormous yield and is of the highest feeding quality but not as desirable for hay. Specially desirable for hog pasture. You can enrich your soil more cheaply by sowing Mammoth Clover and plowing it under than in any other way. Per lb. 40c; 3 lbs. \$1.00, postpaid. Ask for price in quantity.

WHITE DUTCH CLOVER

The low growing, creeping, hardy white flowered sort so common throughout the country. It spreads rapidly as it is almost certain to reseed itself each year. Its principal use is in permanent pastures. It is also offered among the lawn grass seeds on page 40. Per lb. 75c; 3 lbs. for \$2.00, postpaid. See red ink price list for quantity values.

CRIMSON CLOVER

Also called Giant Incarnate. This is an annual clover and it will not survive the winters in the north. In the south it is sown in the fall and winters over, making a grass crop in early spring. It has value, however, and if you want to take a year from your rotation, sow Crimson clover with small grain in spring, turning it under just before frost in fall. You can use it to advantage where winter wheat or rye are a part of the rotation by seeding Crimson clover on the growing grain in April and covering in with a disc. It will make a good growth after the grain is harvested and if the land is plowed in October the soil will be in fine condition for a corn crop the following spring. As its principal value is soil building we recommend heavy seeding and would use 15 to 20 lbs. per acre. Per lb. 40c; 3 lbs. \$1.00, postpaid. See red ink price list for quantity values.

ALSIKE CLOVER

Alsike clover is a perennial variety and because it does not die out after seeding as does the common red variety, it is preferred for permanent pastures and meadows. It is harder than common clover and will winter over the severest seasons. It thrives on wet, heavy soils and in mucky ground better than any other clover. It grows somewhat smaller than ordinary clover and many farmers prefer it for hay on that account. It grows 18 to 24 inches high and has round pink or flesh colored blossoms. The seed is small like timothy seed and 7 lbs. alone or 3 lbs. with timothy, are sufficient for an acre. You can seed with Alsike at a lower cost per acre than any other clover.

Alsike clover seed is nearly always produced in mixed meadows. For this reason there is no other clover seed which varies so greatly in quality and price. Don't buy cheap Alsike and don't buy any that has not been thoroughly cleaned. Seed as usually threshed will contain sorrel, dock, timothy, white clover, dirt and trash and it requires expert service to get it really clean enough to use with safety. Well matured clean Alsike seed is blue-green in color, without yellow, and if samples show red they contain immature seed which is of doubtful vitality. It may be taken for guidance that the bluer and brighter the seed the better. Because of its distinctive size and color you can easily determine for yourself the quality. Cleaned seed costs more than if the impurities are not taken out, but you cannot afford to sow seed on a price basis alone. It has great value as a soil builder, and when the permanent pasture or meadow is plowed after a number of years standing, the land will be much stronger if a good proportion of Alsike has been included. Per lb. 40c; 3 lbs. \$1.00, postpaid. See red ink list for price in quantity.

TIMOTHY AND ALSIKE MIXTURE

This has proven a very popular item for permanent meadow, and is really a desirable hay crop. Timothy and Alsike mature seed at the same time so that when seed from a mixed field is threshed both items are contained in the seed crop in proportion as they grow in the meadow. We do not advocate the use of such seed. It is possible with modern cleaning machinery to separate the Alsike from the timothy and to remove the weeds and trash that invariably come from the thresher. All the mixtures we sell we prepare in our own warehouses. We use clean seed of high quality. We know that the quality supplied by us will please you and we also know that the proportions are as represented. It would cost less if we sold field grown mixture, as it can generally be purchased at comparatively low price. It is our thought that no seed should be used without recleaning, and this service can best be given by complete separation. Do not plant any seeds without grading. Sow only plump, vital seeds. These only result from recleaning because nature produces a heavy percentage of weak seeds. Per lb. 25c; 3 lbs. 60c, postpaid. See red ink list.

WILL BE PLEASED TO SUBMIT SAMPLES AND QUOTE PRICES FOR CLOVER SEED ANY TIME ON REQUEST

HARDY UPLAND AMERICAN ALFALFA SEED

Send for free booklet "How to Grow and Use Alfalfa."

No crop is so valuable for permanent meadow as Alfalfa. In ordinary seasons three crops of hay are cut in Iowa and the North generally, while many seasons produce four cuttings. It stands the dry, hot months of July and August in the corn belt and continues green and growing at this time when other grasses are dormant. It is grown everywhere in the United States now, and it is a question of soil rather than climate which determines success or failure with Alfalfa. We procure our American Alfalfa seed from the states of Kansas, Nebraska and South Dakota so that they are suitable for any section of the country. Actual tests of seed from all over the United States show that the stocks produced in the semi-arid districts of the states named give the best results and are hardier than stocks grown farther south or by irrigation in the West. It is because of the results of actual plantings that we offer this seed, and when we have re-cleaned it, taken out dirt, trash, immature seeds and weeds, we have the best possible stocks

THE QUALITY OF SEEDS

There is always a great deal of low grade seeds sold on the market just as it comes from the machines; naturally such seeds will be offered at cheaper prices. It will pay you, however, to buy the best seed you can find. You had better have five pounds of clean, plump and vital seeds where every plant will be strong and vigorous than to have ten pounds, some of which is only sand or dirt and a great part of which will produce weak plants without strength or vitality.

You must remember that Alfalfa plants only survive if they have a strong and vigorous start and this is impossible from immature or weak seeds. As it is a permanent plant an additional reason is given for excellent care in the selection of seed which you sow.

Many farmers are now using inoculating bacteria on Alfalfa seed before planting and while we have hesitated to recommend this we now believe that the practice is a good one, and that it really does improve the crop.

IOWA SHIELD ALFALFA SEED

No seed which we handle is given closer scrutiny than Alfalfa. We buy only the best offered; using the microscope and analyzing for purity. Our Iowa Shield Brand grade is the brightest, plumpest and cleanest we can find; and even this is not good enough for the Shield grade until we have re-cleaned it through our perfected machinery and taken out everything in the way of sand, broken grains and dirt. We invite the closest inspection of our Iowa Shield Brand Alfalfa from particular farmers and we will gladly mail you a sample on request for microscopic inspection and analysis. Per lb. 40c, 3 lbs. \$1.00, postpaid. See red ink list for price.

GRIMM ALFALFA

In response to demand we are offering what we believe to be true Dakota grown stock of this variety. We will use the greatest care to provide our customers with genuine Grimm. Per lb. 75c, 3 lbs. \$2.00, postpaid. See red ink price list.

OUR FANCY GRADE ALFALFA

Will be found of excellent purity, free from prohibited weeds, and grading lower than the Iowa Shield Brand because of color rather than actual value. See red ink list.

IOWA STANDARD ALFALFA

The Iowa Standard is a good grade of Alfalfa, fully up to standard of the Iowa pure seed law, and is in fact fully equal to most of the Alfalfa seed offered as "choice" or "prime" by other dealers. Write for price.

TURKESTAN ALFALFA

We import the seed of this variety, but are just as careful in our buying as we are in the purchase of American seed. There is a demand for this sort in the semi-arid regions of the west and northwest as it is said to be hardier than our native sorts. Lb. 40c, 3 lbs. \$1.00, postpaid.

STANDARD BRAND INOCULATING BACTERIA

For Alfalfa, Sweet Clover, Common Clover, Soy Beans, Cow Peas, Vetch, Garden Peas, Beans, Sweet Peas and all Legumes
Price: 1 acre 75c. 2 acres \$1.40, 4 acres \$2.00 6 acres \$2.75
Add 5c per acre for postage and packing.

KINDS OF BACTERIA

There are many kinds of legume bacteria, differing from each other in shape, size and general characteristics. There is a separate bacteria for each of the legumes. Alfalfa has its own bacteria. There is a separate and distinct germ for the different kinds of beans and peas, as well as a separate germ for each of the clovers, red clover, alsike clover, crimson clover, etc., each having its own germ. Sweet clover, however, has practically the same germ as alfalfa. Mammoth clover being only a development of red clover, has the same germ as the red. With these exceptions each legume has a different germ. Each legume, therefore, must have its own kind of bacteria and without nodules the plant can take no nitrogen from the air.

HOW TO INOCULATE THE SEED

Each bottle of bacteria, as it reaches the customer, is only partially filled with bacteria. When ready to inoculate the seed, remove the rubber cork, fill the bottle about two-thirds full of water and stir and shake thoroughly. Spread the seed on a clean floor. Pour the diluted bacteria out of the bottle into a pan, adding enough more water to nicely moisten all the seed. This will require at least a pint for each bushel of seed. Sprinkle the seed either by hand or with a sprinkling can, stirring the seed well with the hands so that each seed is moistened. Dry in a cool, airy place, but keep them out of the sunshine while drying.

SOWING THE TREATED SEED

Inoculated seed should be sown soon after they are sufficiently dry to handle. If slightly moist all the better. It is a good plan to treat the seed in the evening and sow early the next morning. If placed in a dark place, however, they can be kept for many days, but they should be slightly moistened again, with water, just before sowing.

THE GROWTH OF ALFALFA IS A QUESTION OF SOIL RATHER THAN CLIMATE. OUR HARDY STRAINS FOR ALL LATITUDES.

HUBAM - NEW ANNUAL WHITE SWEET CLOVER

This is the annual white flowered sweet clover, discovered by Prof. Hughes of the Iowa Agricultural College, who traced its point of origin to Alabama, where it was found growing among the biennial variety. It was given the name "Hubam" for the sake of brevity and to combine the name of the discoverer with the place of its discovery, and also to distinguish it from other clovers. We have grown it two years and while it is yet to establish its place in agriculture, so much has been demonstrated that we recommend it to our friends, believing it will prove of great value. It is expected by the use of Hubam to build the soil in one season as much as in two seasons with the common red clover. It will make a crop of hay in seventy days without a nurse crop, or you can seed it with small grain in early spring, and secure a crop of hay after grain harvest in the fall. It is not adapted for fall sowing as it is not hardy and will not survive our northern winters, but it can be seeded in the fall in the south. In common with the biennial varieties it is adapted to very poor soils, and will rapidly build up the land fertility. It will prove a splendid forerunner for alfalfa. By sowing the Hubam in April without nurse crop, you can cut the hay in July, turn the soil and sow the alfalfa in August. By this method

your alfalfa will be almost certain to succeed. We believe this to be the most useful of its many advantages, especially in Iowa, where alfalfa is difficult to establish. Owing to the high price of the seed the temptation to sell common sweet clover seed for Hubam will appeal to the unscrupulous, and we caution you to buy Hubam only of a reliable seed house. Our own stock we have grown ourselves; the original small package being given us by Prof. Hughes four years ago. We know therefore that we have the true "Hubam" and the seed is hulled and cleaned just as completely as any of our other clovers. We will offer only the best hulled and reseeded seed. Our crop this year was cultivated and kept free from weeds.

Because of the high price you may hesitate to use it freely. We recommend fifteen pounds of seed per acre for best hay crop. Five pounds of seed per acre will make as much tonnage as the larger quantity but the hay will be coarser. Five pounds of seed per acre broadcast will produce a great seed crop, but your ground should be clean if you use the broadcast method. Three pounds of seed per acre will sow an acre in drills 18 inches apart, and will produce as much seed as the broadcast method. Price, \$2.00 per pound, by mail postpaid.

SCARIFIED BIENNIAL SWEET CLOVER SEED

Ask for Free Circular on Sweet Clover and Price Per Bushel.

Sweet Clover is now a standard crop throughout the country. It is now being used in spring sowing exactly as common red clover. Some farmers seed it with small grain for nurse crop, while others are sowing it alone in early spring and securing both pasturage and hay the first year. The handling of this crop has passed the experimental stage. We now have machines to hull and clean it, so that we offer it in as high quality and purity as any clover.

SCARIFYING THE SEED.—One great difficulty with sweet clover in the past was slow germination. In the natural condition the seed has a very hard hull and the germ does not start quickly. Sometimes spring sown seed would not sprout until fall, and at best only about 70 per cent germination might be expected. Prof. H. D. Hughes, of the Iowa Agricultural College, at Ames, Iowa, has perfected a machine to scarify the seed, and kindly permitted us to install one in our warehouse so that we can now supply our customers with seed that will show a high percentage of germination. A bushel of scarified seed will give you 25 per cent greater germination than untreated seed, and is really worth that much more to the planter. Use 12 to 15 lbs. of scarified seed per acre. This gives a heavy stand resulting in hay of fine texture and quality.

Sweet Clover belongs to the family of leguminous plants, and adds greatly to the fertility of the soil on which it has been grown. The same bacteria which live on its roots thrive on the roots of alfalfa and therefore it is claimed that alfalfa will do much better on land where Sweet Clover has previously been grown. It roots very deeply, therefore opens up the soil so as to adapt it for all other kinds of crops, making it not only more rich in nitrogen, but allowing the roots of other plants to penetrate more deeply.

Sweet Clover will grow and make a crop on the poorest soil and worst locations of any of the grasses. It thrives on land where there is no plant food apparently. It will be found growing wild in railroad cuts, about the mouths of abandoned coal mines, or steep hillsides where stone crops out—in fact it will grow under more adverse conditions than any of the coarser grasses, and every place it grows it enriches the soil and prepares it to produce the more economic grains and grasses. It is used by thousands of farmers as a forerunner for alfalfa. You will not require inoculation or any preparation of any kind if you sow alfalfa on land that has grown sweet clover.

Many times a farmer wants to start a field of sweet clover in the fall. This is readily done, and by this method you get it out of the way of spring work. Sow in late October on thoroughly prepared ground. The seed will lay in the ground all winter and sprout in early spring. We believe you get quicker growth and larger crops with fall sown seed, although since the scarifying process has been perfected quicker growth is secured with spring sown seed.

WHITE BIENNIAL.—(Melilotus Alba, or Bokhara.)—The white-flowered variety frequently seen growing wild along the roadsides. In growing it for hay, it is cut when about 18 inches to 2 feet high and before it begins to branch heavily. If the mower bar is set about 6 inches above the ground it will cut above the first branches and the clover produces a second crop. If cut too close to the ground the plants are not likely to survive the first cutting. Sow very early in spring or fall, and without a nurse crop. Germinates more quickly and freely if sown on a well prepared seed bed. Per lb. 25c, 3 lbs. 60c.

YELLOW BIENNIAL.—(Melilotus Officialis.)—Very similar to the commoner white-flowered (Melilotus Alba), but blooms a little earlier. Not so rank and coarse and for this reason is claimed to be superior. Per lb. 25c, 3 lbs. 60c.

THE SALE OF SWEET CLOVER SEED INCREASES EACH YEAR AS ITS VALUE BECOMES BETTER KNOWN TO OUR FRIENDS.

GRASS SEEDS FOR PASTURES AND MEADOWS

TIMOTHY

Timothy is now the most popular and widely distributed of grasses. It grows throughout the United States; thrives in the temperate zones throughout the world. It is a hardy perennial and quite tenacious so that it continues to grow in spite of summer heat or winter cold. It is the foundation grass for meadows and pastures and is popular because it fits in with almost any rotation system. Generally sown with clover in spring, among oats, wheat or rye.

We make a specialty of supplying the choicest timothy direct to farmers. We carefully clean all timothy seed we offer. Generally the seed as it comes from the machines contain dirt, trash and weed seeds. Don't sow uncleaned seed. It is difficult at best to keep weeds off the farm, and impossible if you sow grass seeds without recleaning.

Use 12 lbs. of seed per acre if alone; 10 lbs. with clover. Per lb. 25c, 3 lbs. 50c, postpaid. Ask for price in quantity.

KENTUCKY BLUE GRASS

Kentucky Blue Grass is the most popular of the light grasses. It thrives in all parts of the United States. As a pasture grass it affords more nourishment for live stock than any other.

"IOWA SHIELD" KENTUCKY BLUE GRASS.—(See Lawn Grass, page 40, for description.)

FANCY CLEANED.—The legal weight of Blue Grass is 14 lbs. per bushel. Improved cleaning is now possible and the ordinary grade will actually weigh 17 to 19 lbs. per measured bushel. By mail postpaid per lb. 80c; 3 lbs. \$2.25. See red ink list.

ORCHARD GRASS

Second only to blue grass as a pasture grass and superior to it for meadow purposes. Available very early in spring and continuing fit until frozen. Seems to grow more luxuriantly the more it is cropped. Thrives better in shaded situations than other grasses, and is therefore specially valuable for woodland pastures and meadows. Per lb. 50c; 3 lbs. \$1.40, postpaid. See red ink price list.

RED TOP

Very hardy perennial, in form similar to blue grass. Specially useful as an item in pastures or meadows on wet soils. Adapted to almost all land but succeeds best and gives best returns with rich soil and plenty of moisture. Solid seed per lb. 40c; 3 lbs. \$1.00, postpaid. See red ink list.

ENGLISH BLUE GRASS

Also called Meadow Fescue. (Weight 14 lbs. per bushel.) A valuable grass and one growing in use as it becomes known to western planters. It is splendid in mixed pastures or meadows. Sow 20 lbs. per acre if alone. Lb. 50c; 3 lbs. \$1.40, postpaid. See red ink list for quantity prices.

PERENNIAL RYE GRASS

Also known as English Rye Grass. This sort is perennial, perfectly hardy in our climate and a valuable grass for permanent meadows or pastures. Legal weight 14 lbs. per bushel. Sow 20 lbs. per acre. Lb. 35c; 3 lbs. \$1.00, postpaid. See red ink price list.

ITALIAN RYE GRASS

The annual rye grass which grows so quickly. Produces a fine crop of hay in 70 to 80 days. Will produce second crop suitable for pasturage. Sow 14 lbs. (1 bu.) per acre. Per lb. 35c; 3 lbs. \$1.00, postpaid. See red ink price list.

BERMUDA GRASS

A most valuable grass for the South. Withstands heat and drouth wonderfully. It runs over the ground forming a dense turf. Sow 8 lbs. per acre. Per lb. 95c, 3 lbs. \$2.70, prepaid; 5 lbs. or more not prepaid, at 75c per lb.

PERMANENT UPLAND MEADOW

Provides a mixed hay of best quality. It also may be pastured after cutting should it be preferred to use it in that manner. Based on 3 lbs. red clover, 3 lbs. alfalfa, 6 lbs. timothy, 1 lb. English blue grass, 1 lb. perennial rye grass and 1 lb. orchard grass per acre. Price 55c per lb.; 3 lbs. \$1.50, postpaid. See red ink price list.

PERMANENT UPLAND PASTURE

For ordinary soils and desirable for all kinds of stock. Grasses are all hardy and will furnish pasture from early spring until severe freezing weather. Basis per acre: Alfalfa 1½ lbs., Alsike clover 1½ lbs., red clover 1½ lbs., timothy 3 lbs., perennial rye grass 1 lb., English blue grass 1 lb., Kentucky blue grass 2 lbs., Red Top 2 lbs., orchard grass 1½ lbs. Price 55c per lb. or 3 lbs. for \$1.50, postpaid. See red ink price list for quantity values.

PERMANENT LOWLAND PASTURE

Particularly recommended for low, moist lands or for pastures that do not have drainage sufficient to throw off rains quickly. All are hardy and perennial so that the pasture should remain in good condition for many years. Basis per acre: Alsike clover 3 lbs., timothy 4 lbs., Red Top 4 lbs., English blue grass 2 lbs., Kentucky blue grass 2 lbs. Price, 55c per lb.; 3 lbs. for \$1.50, postpaid. See red ink list.

PERMANENT LOWLAND MEADOW

Peculiarly adapted for heavy and wet soils and for those fields that are under water after heavy rains. Basis per acre: Alsike clover 3 lbs., timothy 3 lbs., Red Top 3 lbs., English rye grass 3 lbs., and meadow fescue 3 lbs., a total of 15 lbs. These are all perennials. Price 55c per lb.; 3 lbs. for \$1.50, postpaid. See red ink price list.

WOODLAND PASTURE MIXTURE

For orchards or timber pastures. A top seeding in early spring without cultivation makes better pasturage than nature's methods. Basis is White Dutch clover 3 lbs., orchard grass 6 lbs., Kentucky blue grass 5 lbs., English blue grass 3 lbs. and Perennial rye grass 3 lbs. Permanent. Price, 55c per lb.; 3 lbs. for \$1.50, postpaid.

MILLET

Nothing like millet to cover up shortage in hay. Can be sown in the middle or end of July and makes a valuable crop. See red ink price list for current values.

IOWA SHIELD GOLDEN MILLET.—This is an extra fancy grade of the true southern grown Golden millet of the Tennessee or cultivated strain. The seeds are round and "shotty." The heads are very large, borne on a strong, vigorous, very leafy plant and produce a much heavier crop than the ordinary stock. Per lb. 25c; 3 lbs. 60c, postpaid.

COMMON MILLET.—Preferred by some to Golden, as it does not grow so rank and coarse. Makes a better quality hay, but will not produce so heavily. Use strong, rich ground for best results. Lb. 20c, 3 lbs. 50c, postpaid.

SIBERIAN MILLET.—Frequently called Red millet. Resembles Golden millet in manner of growth and productiveness. Seed is mixed red and yellow. Lb. 20c, 3 lbs. 50c.

HUNGARIAN.—Popular in some sections. Sometimes preferred to millets as it is thought to be less dusty. Per lb. 20c, 3 lbs. 50c, prepaid.

JAPANESE MILLET.—(Panicum crus-galli.)—The "Billion Dollar Grass." Valuable for the north. Yields an enormous crop. Makes an excellent hay. Per lb. 30c, 3 lbs. 75c, postpaid.

MANITOBA MILLET.—Hog or Broomcorn millet. Best for withstanding drouth. Two weeks earlier than Golden. Per lb. 20c, 3 lbs. 50c, postpaid.

WE MAKE NO EXTRA CHARGE FOR BAGS TO HOLD TIMOTHY, CLOVER AND OTHER GRASS SEEDS SHIPPED TO YOU.

FLOWER SEEDS.

Our floral beauties come in for their full share of attention, and aside from our seed farm we have several acres of land right in the city, convenient to the street cars, devoted exclusively to flowers. Here we grow thousands of varieties and have in our employ experienced specialists in this line, who, under our supervision, attend to growing whatever can be grown to advantage in this country, test all novelties offered in this country or Europe, and are constantly trying by selection and hybridization to improve the leading varieties, and make our choice Iowa Flower seeds just what we are striving for—the best in the world. We invite all our customers to call and see this Floral Exhibition whenever they are in the city. Even during the winter the large green-houses on these grounds are a revelation of beauty which surprises everyone. We also have a large acreage on our seed farms east of this city devoted to floriculture. Our flower seeds are all fresh and we know are unsurpassed. Quality is always the first consideration. Our mixtures are mainly made up by ourselves and will yield a better assortment than is commonly found.

AGROSTEMMA

A hardy plant introduced from Russia. Blossoms similar to pinks on long, slender stems. Suitable for border plants; fine for bouquets or cemetery. Mixed colors. Pkt. 5c.

AMARANTHUS

Prized for very handsome foliage, whether grown in conservatory or garden. Colors will be more brilliant if in moderately rich soil. Should not be planted in the north before May.

TRICOLOR.—Leaves yellow, red and green; well known as "Joseph's Coat." Hardy annual; 2 feet high. Pkt. 5c.

SALICIFOLIUS.—Known as "Fountain Plant." Pkt. 10c.

CAUDATUS.—(Loye Lies Bleeding.)—Produces long, drooping chains of brilliant colored flowers. Pkt. 10c.

MIXED VARIETIES.—Pkt. 5c; ¼ oz. 10; oz. 30c.

ANTIRRHINUM

GIANT FLOWERED.—Most beautiful new class, having all the finest colors and markings known in the old varieties, together with several new shades. Flowers are of immense size and produced in long spikes, 1 to 2 feet high, almost as large and beautiful as gladiolus, blooming continuously. Pkt. 10c; ½ oz. 40c; oz. \$1.25.

ANTIRRHINUM

DIRECTIONS FOR SOWING, ETC.—The conditions and requirements of the several species as to soil, moisture, heat, etc., should be studied and observed in culture. We give a few general instructions though more complete directions are printed on seed packets. The soil best adapted to most flowers is light, rich loam, containing enough sand to make it porous. If there is some clay with it the colors will be brighter. Make surface smooth and fine as possible; sow seeds in rows, covering each sort of seed in proportion to its size and you should press the soil down firmly over the seeds. Do not plant any seeds when the ground is wet. Many varieties, such as pansy, verbenas, daisy, hollyhock and the fine greenhouse plant seeds, should be sown early in shallow boxes in the house, in soil consisting of equal parts of fine sand and rich, mellow loam well mixed together and sifted to remove all gravel and lumps. Sow as before directed. Covering the box with glass helps to retain the moisture and keeps the temperature even. Do not keep too wet; when large enough transplant to boxes or beds.

AGERATUM

BLUE PERFECTION.—Great improvement over common blue ageratum. Flowers larger and of deeper blue. Blooms profusely; fine for beds or borders. Pkt. 10c; ¼ oz. 25c.

ALBIFLORUM.—Like above, only white. Pkt. 5c; ¼ oz. 15c; oz. 45c.

ARCTOTIS GRANDIS

Remarkably handsome annual; much-branched bushes about 2 ft. high. Foliage soft and downy, of whitish color; its flowers, borne on long stems, are large and showy; surface embellished with a narrow yellow zone at base; reverse of petals lilac-blue; disc is light blue with slightly projecting white stamens. Lovely flower. Pkt. 10c.

AMBROSIA

(Perfume Plant.)—Long spiral stem with abundant round, greenish-yellow buds and blossoms. Very fragrant. Pkt. 10c; ¼ oz. 25c.

ALYSSUM

SWEET.—Has little white flowers useful for small bouquets. Its fragrance, while pronounced, is very delicate. Makes a pretty border. Pkt. 5c; ¼ oz. 10c; oz. 25c.

LITTLE GEM.—Very dwarf and remarkably uniform, only 3 or 4 in. high and spreads to 12 in. in diameter. Pkt. 5c; ¼ oz. 20c; oz. 50c.

LILAC QUEEN.—A new color in Alyssum which will be very attractive and popular with those who desire a delicate blue plant for borders. Pkt. 10c.

AQUILEGIA

(Columbine)—Free-flowering and deservedly popular hardy plants; bloom profusely through spring into early summer. Hardy perennial.

LONG SPURRED HYBRIDS.—A much more robust species than the ordinary kinds. Colors show wide variations and beauty. Splendid, showy, lasting flowers. Pkt. 15c.

CHRYSANTHA.—The beautiful large flowered variety. Very showy and satisfactory. Pkt. 10c.

COERULEA.—Flowers very large, violet, blue and white. Seed in mixed colors only. Pkt. 10c.

DOUBLE VARIETIES MIXED.—A fine assortment. Per pkt. 10c.

BALSAM

A most beautiful annual, and under the old names Lady Slipper and Touch-Me-Not, has always been popular. Flowers are most brilliantly colored, very large and double. Pkts. contain about 50 seeds.

CAMELIA-FLOWERED MIXED.—Very double, resembling camelia in form, of unusual size, perfect shape, and contains all the best colors. Pkt. 10c; oz. 60c.

PEERLESS MIXED.—A new mixture from best foreign and American strains. Flowers are double and all colors. Pkt. 10c; oz. 60c.

ALL VARIETIES MIXED.—A nice mixture of older sort. Pkt. 5c; oz. 35c.

PEERLESS MIXED BALSAMS

YOU WILL BE WELL PLEASSED WITH OUR CHOICE FLOWER SEEDS. THEY ARE THE VERY BEST OBTAINABLE.

ASTERS

Of our long list of flowers grown from seed there is now none more popular and generally satisfactory than the Aster, and during the past few years it has grown greatly in the public esteem owing to the great improvements which have been made. For late summer and fall display it has no equal owing to the rich colors of its perfectly double flowers, its numerous forms and free blooming. Ask for special circular on How to Grow Asters.

BANNER ASTER COLLECTION

The Beautiful Hues of Old Glory—Red, White and Blue.
One packet of each for only 30 cents.

SNOWDRIFT.—A paeony flowered type of branching form, with flowers borne on long stems. Everyone appreciates the need of pure white in color harmony. The perfect form and large size flower makes this a favorite. Pkt. 15c.

HEART OF FRANCE.—This adds the brilliancy necessary to complete the beauty of our Banner Aster Collection. It would not be complete, however, without the Crimson to give the brightness and shining touch which a pleasing red conveys. Pkt. 15c.

BANNER BLUE.—A truly royal flower, not only in sturdy character of the plant, but also in the great size and substance of the bloom, and the imperial richness of color in the flower. Of branching type with splendid blooms on long stems. Popular because of its unusual color. Pkt. 10c.

ROYAL ASTER COLLECTION

One packet each of the six beautiful varieties illustrated above and one packet of Royal Red—seven in all—postpaid for only 50 cents.

This is a wonderful opportunity for lovers of asters. We offer five bright colors in the best strain of branching type and in addition the best mixtures of the Crown and Crego types, so that you get a wide range of color and form.

ROYAL LAVENDER.—(No. 2.)—The daintiness of the lavender color delights the eye, while the perfect form and lovely type of the bloom itself makes the Royal Lavender Asters cherished among all lovers of asters. Pkt. 10c.

ROYAL PURPLE.—(No. 1.)—A type of branching aster producing immense large flowers of royal purple on strong, upright stems. Unexcelled as a show flower, either in beds or as cut flowers. Per pkt. 10c.

ROYAL WHITE.—(No. 3.)—A beautiful and distinct variety and the best white; of refined and faultless form and very freely produced. Fine for pot culture. Per pkt. 15c.

ROYAL PINK.—(No. 4.)—Of the most beautiful bright shade of pink. Show at their best when mingled with darker shades. Of branching type, producing blossoms of perfect shape on long stems. Per pkt. 10c.

ROYAL RED.—Bright cardinal red flowers of very large size. Compact form with plants of strong, robust growth. Branching type like above, and completes the range of colors with its flaming brilliancy. Per pkt. 15c.

CROWN.—(No. 5.)—Center of each flower white; surrounded by broad margin of color—crimson, rose, violet, etc.; flowers are large, freely produced. Beautiful and showy. Mixed colors. Pkt. 10c.

CREGO.—(No. 6.)—A new strain of chrysanthemum flowered asters. Combine the splendid coloring and shading of the Marvel type with the unique form and distinctness of the Harlequin and quilled varieties. Mixed colors. Pkt. 15c.

VARIOUS TYPES OF ASTERS IN MIXTURES

IMPROVED BRANCHING.—This is the most popular florists' strain. It is also a popular type for outdoor growing and is sold in greater quantity than any other. Mixed colors. Per pkt. 10c; ¼ oz. 40c; oz. \$1.25.

SEMPLER'S BRANCHING.—Flowers are large and double, borne on large, stiff stems. A splendid low priced strain of the branching type. Mixed colors. Pkt. 5c.

GIANT COMET MIXED.—Shape differs from all others, resembling the Japanese chrysanthemum. The flowers are from 3 to 4½ inches in diameter, perfectly double. Pkt. 10c; ¼ oz. 40c; oz. \$1.25.

ROYAL MIXED.—This is our choicest mixture of types and colors, made from named varieties and specialties in high grade asters. It will introduce the widest range of colors and the strongest and most vigorous plants. Mixed in our own establishment to safeguard its quality. Pkt. 10c; ¼ oz. 40c; oz. \$1.25.

QUEEN OF THE MARKET.—This is generally conceded to be the best early type of aster. They usually bloom two weeks in advance of the ordinary branching types. Rather dwarf and of spreading habit. Mixed colors. Pkt. 5c; ¼ oz. 30c; oz. \$1.00.

PERFECTION MIXED.—(Truffant's Improved Paeony Flowered.)—A favorite; flowers large and almost perfectly round, incurved petals. Really choice strain which we offer as a low priced mixture of this form. Pkt. 10c.

FINE MIXED.—Mixture of varieties and colors from the fields of the growers. Good seed at a low price. Flowers of many forms and sizes, and this feature makes it very desirable. Pkt. 5c; ¼ oz. 30c; oz. \$1.00.

SINGLE FLOWERING MIXED.—This plant bears a mass of star-shaped flowers. Pkt. 10c.

PERENNIAL MIXED.—Single flowering, hardy, herbaceous plants. If sown early will flower first season. Pkt. 10c.

ASTER PLANTS GROWN FROM OUR CHOICE MIXTURES OF SEED OFFERED AT A VERY LOW PRICE ON PAGE 51

CALENDULA

CALENDULA

Belongs to marigold family. An annual of the easiest culture and quite effective in mass plantings or in beds.

FINE MIXED.—Many nice varieties and when planted together they make a showy bed. Pkt. 5c; ¼ oz. 10c; oz. 25c.

MEXICAN BURNING BUSH

One of the very best annual border or hedge plants. Known botanically as *Kochia Scoparia*. Grows quickly from seed in the open ground. Plants of rounded or globe-like form shown in illustration, branch freely. Stems are clothed with slender light green leaves. In the fall the ends of the shoots are thickly set with small, bright scarlet flowers, the bushy plants resembling balls of fire. Equally showy planted singly to show the round, ball-like form on all sides or grown in continuous rows. Per pkt. 5c; ¼ oz. 20c; oz. 50c.

CACALIA

COCCINEA.—A handsome, free-flowering little plant; owing to peculiar form of the flower is sometimes called Tassel Flower or Flora's Paint Brush. Scarlet bloom. Pkt. 5c.

CANDYTUFT

All varieties look best in beds or masses; hardy, easy to cultivate, and blooms profusely. Hardy annuals one foot high.

GIANT EMPRESS.—One of the finest varieties. Of very branching habit and when fully grown and covered with its pure white flowers resembles a floral candelabra. Pkt. 10c.

CRIMSON.—Companion to Giant Empress, and will be appreciated because of its unusual color. Pkt. 10c.

BEST MIXED.—Mixture of all varieties and colors. Pkt. 5c; ¼ oz. 10c; oz. 30c

GIANT EMPRESS CANDYTUFT.

BEGONIA

Seeds very small, almost microscopic, and should be sown on top of soil in box, pressing soil evenly. Cover with a glass and give partial shade until up.

VERNON.—Comes true from seed. Plants grow rapidly and thrive under our hot summer sun. Fine for bedding. Pkt. 10c.

MIXED.—Excellent flowering sorts. Pkt. 10c.

BUTTERFLY FLOWER

This large-flowering variety of *Schizanthus* challenges the rare orchids in beauty. Easily grown and makes a bushy plant fairly loaded with rich and various colored flowers. Pkt. 5c.

BRACHYCOME

Also called "Swan River Daisy." Very pretty low-growing plants, fine for borders, rustic work or pot culture, covered during summer with a profusion of cineraria-like flowers. Half-hardy annual. Mixed blue and white. Pkt. 10c.

BROWALLIA

GRANDIFLORA.—Most beautiful of all *Browallias*. Grow only about 1 ft. high; form dense little bushes covered with abundance of delightful extra large sky-blue flowers. Pkt. 10c.

CANNA

Unquestionably one of the best of bedding plants for the American climate. Their handsome leaves combined with their varied and richly colored flowers have an extremely fine effect. Easily raised from seed which should be soaked in hot water for several hours.

FANCY LARGE FLOWERED.—Very large flowering dwarf varieties 3½ feet high. Flower first year from seed. Mixture of finest flowering sorts. Pkt. 10c; oz. 30c.

CLARKIA

A very pretty and desirable hardy annual about 2 feet high. Flowers are white, red, purple, etc., borne in profusion during summer.

SINGLE AND DOUBLE MIXED.—Pkt. 5c.

COLEUS

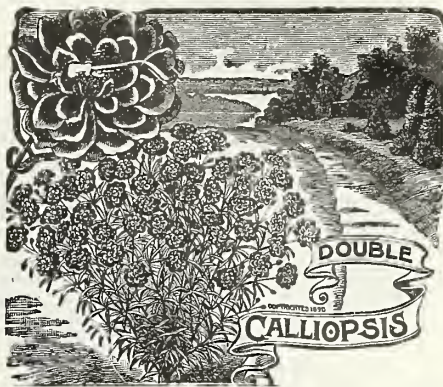

Very decorative border plant. Pkt. 150 seeds.

FINE MIXED COLORS.—Pkt. 20c.

RAINBOW.—Fine; sure to please. Pkt. 25c.

BUSH DOLICHOS

DWARF WHITE.—Bush form of well known Hyacinth Bean, popular as a summer climber. Blossoms similar in appearance to sweet pea, but borne on long racemes; pure white and very lovely. Followed by ornamental pods. Pkt. 10c; oz. 40c.

CALLIOPSIS

Many most-showy flowers are common and grow anywhere without trouble or care. Of these is the calliopsis. Were it new it would be considered excellent.

LANCEOLATA.—New Golden Coreopsis. —One of the most showy hardy perennials grown, forming tall plants 2 or 3 feet high, bearing in profusion for a long period during the summer, large flowers of bright golden yellow. Pkt. 10c; ¼ oz. 25c; oz. 75c.

SINGLE MIXED.—Mixture of annual varieties. Many shades of yellow, red and brown. Pkt. 5c; ¼ oz. 10c; oz. 30c.

NEW DOUBLE.—A beautiful and charming new type of the annual *Calliopsis*. Pkt. 5c; ¼ oz. 20c; oz. 50c.

CARNATION

Finest of the *dianthus* or pink family. Very fragrant. Our seed unsurpassed.

DOUBLE EXTRA MIXED.—The best greenhouse varieties. Will produce wide variety in markings and colors. Pkt. 10c.

MARGUERITE.—Mixed.—In full bloom about four months after sowing; plants succeed in open garden or pots, and are of vigorous, dwarf, erect growth. Colors, marking and shading wonderful. Pkt. 10c.

CANTERBURY BELLS

CAMPANULA.—A very pretty perennial, popular and well know. Striking in permanent plantings. Double, single, mixed colors. Pkt. 10c.

CUP AND SAUCER.—A beautiful variety. Bell nearly 4 inches in diameter, presenting form of a saucer, hence its name. Plant is of strong growth, quite as hardy and floriferous as old-blue variety, and is elegant and handsome; when in flower blossoms literally hiding plant. Perennial. Mixed colors. Pkt. 15c.

SINGLE MIXED.—A choice mixture of single sorts. Pkt. 10c.

DOUBLE MIXED.—Choicest seed from selected plants. Pkt. 10c.

CUP AND SAUCER CAMPANULA.

CELOSIA

For summer beds we know of nothing that will produce as showy and brilliant effects.

SPICATA.—A wonderful new variety of Celosia and far different from any ever before seen. It is a handsome annual, forming upright, well branched pyramids, about 2½ feet in height, and producing at the summit of each branch spikes of flowers of a bright rose color when opening, changing to silvery white; fine for garden or growing in pots. Pkt. 10c.

OSTRICH FEATHER.—Beautifully curled crimson plumes. Pkt. 10c.

CHINESE WOOLFLOWER

CELOSIA CHILDSII.—A magnificent garden annual. An odd and showy novelty for the general flower garden. Plants grow about 3 ft. high, the bloom starting early with a globular central head of immense size, while numerous branches are sent out, each bearing a ball of scarlet wool, while each branch produces many laterals which also develop excellent heads of bloom that last until killed by frost and expand with a deepening richness of color to a deep crimson scarlet. Pkt. 10c.

COCKSCOMB

GIANT EMPRESS.—Very handsome; excite the curiosity of visitors more than almost any plant that can be grown. The Empress is the finest and most gorgeous variety; not uncommon for the heads to measure twelve inches in breadth; purple combs and dark bronze foliage. Pkt. 10c.

GOLDEN GLOW.—Most attractive. Plants large and produce many handsome flowers 5 to 10 inches in diameter, of bright, rich golden yellow. Per pkt. 10c.

ALL VARIETIES MIXED.—Pkt. 10c.

GIANT EMPRESS COCKSCORN

each bearing a ball of scarlet wool, while each branch produces many laterals which also develop excellent heads of bloom that last until killed by frost and expand with a deepening richness of color to a deep crimson scarlet. Pkt. 10c.

CHINESE WOOLFLOWER
CENTAUREA

CYANUS.—Called Ragged Sailor, Corn Flower, Blue Bottle, Bachelor's Buttons and Bluet. Favorite annual, flowering freely in almost any situation. Height 2 to 3 feet. Mixed colors. Pkt. 5c; ¼ oz. 10c; oz. 30c.

CYANUS DOUBLE.—A most charming sport from the above. Flowers very large and globular. A continuous bloomer, and becoming quite popular. Our mixture contains a great variety of colors. Pkt. 10c.

GYMNOCARPA.—(Dusty Miller.)—The foliage of this variety is finely cut and silvery. It is perhaps the best white leaved plant for bedding. Pkt. 10c; ¼ oz. 40c; oz. \$1.00.

IMPERIALIS MIXED.—A grand improvement on the old favorite Sweet Sultan; long stemmed blossoms 3 to 4 inches across, of graceful, airy effect, and deliciously fragrant. Glistening white, red, blue, lilac, royal purple, etc. Fine for bouquets, vases or as corsage flowers. If cut scarcely opened last ten days. Pkt. 10c; ¼ oz. 25c; oz. 80c.

COSMOS

A magnificent race of plants growing about 4 to 6 feet high, and in fall literally covered with graceful flowers resembling single dahlias, but better for cutting. Easily raised from seed if sown early.

LADY LENOX.—Beautiful light pink flowers of extra large size. Full, vigorous plants, six to seven feet. Unequaled among annuals for screens and tall borders. Pkt. 10c; ¼ oz. 20c; oz. 50c.

EARLY DAWN MIXED.—Is extremely early, coming in bloom about two months from time of sowing and continuing until frost. The plants have fine, feathery, light green foliage and delicate rose, purple, white and lilac flowers. Mixed colors. Pkt. 10c; ¼ oz. 20c; oz. 60c.

MAMMOTH PERFECTION.—Flowers double the size of the old flowering cosmos. Seed should be sown early in house, quite late. Pkt. 5c; ¼ oz. 15c; oz. 45c.

CHRYSANTHEMUM

CHAMELEON.—A new and distinct annual variety producing very large single flowers in purple, black, crimson, yellow and copper. Pkt. 10c.

NEW DOUBLE ANNUAL.—Extremely variable. Difficult to describe beautiful forms produced. A great variety of colors, markings and pencillings. It is very double, semi-double or single, all equally charming. Pkt. 5c; ¼ oz. 20c; oz. 50c.

DAISY

Popular perennials, blooming first year from seed; handsome for borders or pots.

BEST DOUBLE MIXED.—Low growing sorts for massed beds or borders. Known as the small English Daisies. Pkt. 10c.

DIANTHUS

Dianthus, or Chinese Pinks furnish abundance of gay and pretty flowers until frozen. Quite as pretty for pot plants in house as carnations. Bloom quickly.

ORIENTAL OR JAPANESE MIXED.—Markings and colors are rich and brilliant. A few blooms will be solid colors but most of them will show wonderful variations, striped, blotched and banded. Colors range from white to deep crimson and maroon and produce profusely and continuously. Pkt. 10c; ¼ oz. 30c; oz. 80c.

FIREBALL.—Beautiful, only 10 to 15 inches in height. Flowers are perfectly double and color a rich velvety blood red. Plants begin to flower shortly after coming up and continue till severe frost. Effective for garden beds. Pkt. 10c.

SNOWBALL.—Fit companion to above. Flowers large, pure white, double, finely fringed, perfect form. Makes a fine plant for borders or beds. Pkt. 10c.

DOUBLE DIADEM PINK.—A superb, large double flower, is hieroglyphically marked, like the original Chinese pinks, in the middle down to the base of each petal. Magnificent in color. Pkt. 10c.

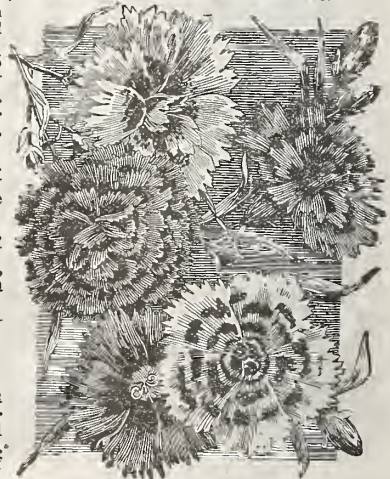

MIXED VARIETIES AND COLORS.—Pkt. 5c; ¼ oz. 15c; oz. 50c.

AFRICAN GOLDEN DAISY

(*Dimorpotheca Aurantiaca*.)

This showy annual comes from South Africa. Blossoms 2 to 3 inches in diameter, a peculiarly rich, glossy orange gold color, produced quickly on sturdy plants.

HYBRIDS MIXED.—Improved type of original form in mixed colors. Pkt. 10c.

DIANTHUS

ESCHSCHOLTZIA

(California Poppy)—Easy to grow, brilliant in color; bloom under any condition.

CRIMSON.—This choice novelty is the result of nine years' careful selection from a chance sport in a bed of yellow Eschscholtzia. Flower bright crimson. Pkt. 10c.

GOLDEN WEST.—A giant flower of rich golden yellow color, some specimens having a dark orange blotch in the center. Pkt. 10c; ¼ oz. 25c; oz. 50c.

SINGLE MIXED.—The common California poppy. Fine form, deep golden color. Pkt. 5c; ¼ oz. 10c; oz. 35c.

ELECTRIC LIGHT PLANT

A sturdy, bushy plant of about 4 feet, covered constantly with large spikes of flowers 6 to 9 in. long which are pure white at base and range from rose to bright red at apex. Grows readily from seed. Showy and ornamental. Pkt. 10c; ¼ oz. 25c; oz. 75c.

EUPHORBIA

VARIEGATED.—"Snow on the Mountain." Strong growing annual suitable for screens. Foliage ornamental, veined and margined white. Pkt. 5c.

GERANIUM

GOOD VENTURE.—Easily raised from seed, which frequently reward the cultivator with new varieties. Start early in the house; bloom the first summer in the garden. Pkt. (about 40 seeds), 15 cents.

GAILARDIA GRANDIFLORA

HOLLYHOCKS

EVERBLOOMING ANNUAL.—A most showy flower. Started in the house in March or April and set out in May it blooms in July. Blooms until killing frosts in fall. Sown in the open ground in May it blooms in August. Of vigorous growth, from 5 to 8 ft. high, and stalks are fairly loaded with large flowers, sometimes 5 inches across. Colors varied. Double, semi-double, single. Pkt. 10c; ¼ oz. 35c; oz. \$1.00.

CHATER'S PRIZE DOUBLE MIXED.—Magnificent double flowers 3 to 4 in. across, of the brightest colors; flowers beautiful and perfect, massed completely around spikes. A mixture of all colors. Pkt. 10c; ¼ oz. 50c; oz. \$1.50.

ALLEGHENY MAMMOTH FRINGED.—An entirely distinct variety. Flowers are single, double and semi-double, of fine form and rich colors. Pkt. 10c.

HIBISCUS

Of easiest culture, with very large, showy blossoms. Hardy. 2 feet high.

CRIMSON EYE.—Dark red stems and foliage. Flowers often measure 20 inches in circumference, pure white, with large spot of deep velvety crimson in center. Blooms first year. Pkt. 10c.

GOLDEN BOWL.—Enormous flowers 5 to 6 inches across, canary color, with large, black center. Pkt. 10c.

MEHAN'S MALLOW MARVEL.—Produces wonderful flowers 8 to 10 inches in diameter. Colored from pure white to fiery red. Splendid for permanent planting. Pkt. 10c; ¼ oz. 40c; oz. \$1.00.

FOUR O'CLOCK
FOUR O'CLOCK

(Mirabilis.)—Marvel of Peru, or Four O'Clock. A most brilliant, showy annual. Their compact growth, rich, glossy leaves and profusion and diversity of bloom, present a gorgeous sight in the afternoon.

MIXED COLORS AND VARIETIES.—A fine assortment. Pkt. 5c; oz. 20c.

GAILARDIA

Blanket Flower. Exceedingly beautiful annuals, very showy plants, 1 to 2 feet high. Grown in mass are effective.

PERFECTION.—A double flower, round as a perfect ball, in most varied and pleasing colors. Pkt. 10c; ¼ oz. 20c; oz. 50c.

GRANDIFLORA.—A splendid new perennial variety, with very large flowers, dark crimson centers, marked with rings of brilliant colors. Pkt. 10c; ¼ oz. 20c; oz. 50c.

GRASS PINKS

DOUBLE CLOVE PINKS.—A new type of the pretty clove scented flowers so much loved by our grandmothers. Their fragrance quickly noticed in passing yards where grown. Colors range from pure white to dark pink. A hardy perennial. Pkt. 10c; ¼ oz. 35c.

GODETIA

Handsome, showy annual about one foot high, of dwarf, compact growth; bear freely flowers 3 to 4 in. across, of exquisite colors. Mixed varieties and colors. Pkt. 10c.

GYPSOPHILA

Sometimes called "Baby's Breath" or "Angel's Breath." Graceful and easily grown. **ELEGANS.**—Mixed colors. Pkt. 5c. **PANICULATA.**—White. Pkt. 10c.

HELIOTROPE

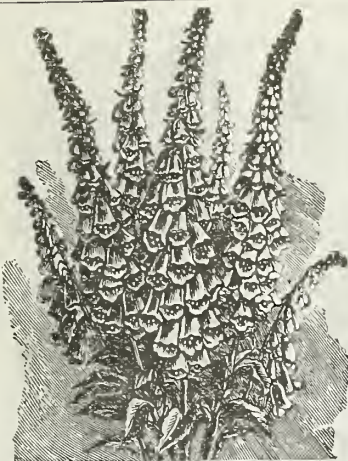

A great favorite for their beauty and fragrance; are well suited for beds or borders, where they bloom in summer and may be potted for winter blooming.

CALIFORNIA MAMMOTH.—A grand new variety producing immense flowers. Pkt. 15c.

MIXED VARIETIES.—Common sorts. Pkt. 10c.

NEW
MAMMOTH
FLOWERING
HELIOTROPE

FOXGLOVE

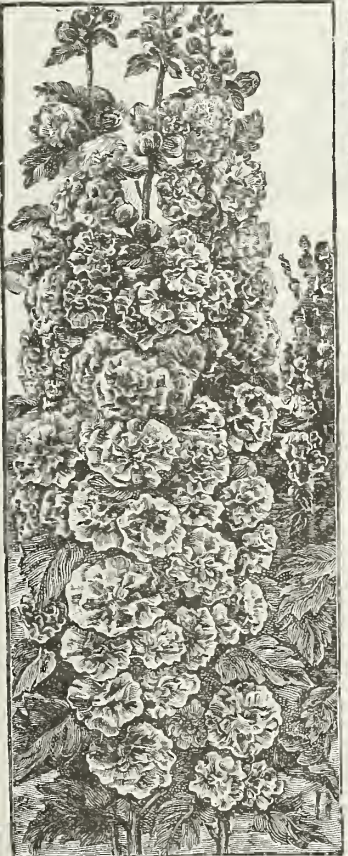

A showy perennial now planted extensively for permanent backgrounds, borders, clump effects.

GLOXINIAFOLIA.—Grow 4 to 5 feet high, producing large gloxinia-like flowers of many shades and markings. Pkt. 10c.

MONSTROSA MIXED.—A distinct type, the striking feature of which is that a large bell-shaped blossom tops each spike. Pkt. 15c.

ICE PLANT

A handsome and curious plant for hanging baskets, rockwork and vases. The leaves and stems appear as though covered with crystals. Brilliant in sunshine. Flower white and pink. Pkt. 5c.

EVERBLOOMING ANNUAL HOLLYHOCK

LANTANA

BRAZILIAN BEAUTY.—Specially fine strain consisting of a mixture of choicest flowered sorts. Pkt. 10c.

LOBELIA

ERINUS.—Handsome trailing annual. Flowers blue. Fine in vases and hanging baskets. Pkt. 10c.

COMPACTA.—A dwarf variety. Flowers darker hue than above and cover plant; fine for carpet bedding or border. Pkt. 10c.

LINUM

GRANDIFLORUM RUBRUM.—(Scarlet Flax.)—A showy annual for flower beds and masses; crimson scarlet flower. Pkt. 5c; ¼ oz. 15c; oz. 50c.

PERENNIAL.—A beautiful hardy perennial sending up numerous stems, clothed with a small, hair-like foliage. Pkt. 10c; ¼ oz. 25c; oz. 80c.

MARIGOLD

A general favorite for planting in mixed beds and informal gardens, as they produce such great numbers of brilliant colored flowers.

PRIDE OF THE GARDEN.—These are greatly improved in size and doubleness of flowers. Double mixed. Pkt. 5c; ¼ oz. 10c; oz. 30c.

DWARF FRENCH.—Double mixed. Pkt. 5c; ¼ oz. 10c; oz. 30c.

ELDORADO.—Immense flowers, 9 to 14 inches around; double; primrose, lemon, orange and golden shades. 3 feet high. Pkt. 10c.

BEAUTY

Brilliant Nasturtium Collection

13 Varieties, 13 Colors—Both Dwarf and Climbing Kind.

The finest collection we have ever offered. **Aurora** (Dwarf), **Beauty** (Dwarf), **Chameleon** (Dwarf), **Empress of India** (Dwarf), **General Jacqueminot** (Dwarf), **King Theodore** (Dwarf), **Ruby** (Dwarf), **Vesuvius** (Dwarf), **Sunlight** (Climbing), **Midnight** (Climbing), **Moonlight** (Climbing), **Twilight** (Climbing), **Firelight** (Climbing). 13 varieties 1 pkt. each, \$1.00; 13 varieties 1 oz. each, \$3.00, postpaid.

LARKSPUR

One of the most useful of annual flowers for beds or borders or for the informal garden. Flowers are borne in compact spikes, color red, white and blue, and are showy and desirable in any situation. Sow early in open ground.

DWARF ROCKET.—Grow about two feet in height. Mixed colors. Pkt. 5c; ¼ oz. 15c; oz. 40c.

TALL ROCKET.—Three to four feet high, adapted to either borders, beds or among perennial plantings. Pkt. 5c; ¼ oz. 15c.

PERENNIAL LARKSPUR

BUTTERFLY.—A distinct variety, growing about 18 inches high, with fine feathery foliage, and producing freely spikes of large blossoms of intense gentian blue. Pkt. 10c.

GOLD MEDAL HYBRIDS.—A splendid strain. Immense spikes 2 to 3 feet, with large flowers mostly of light blue shades. Pkt. 15c

FORMOSUM.—These are perennial larkspurs and are most showy and useful in permanent plantings, as they produce splendid spikes of flowers all summer. Perfectly hardy, blooms first year if sown early. Mixed colors. Pkt. 10c.

ELDORADO MARIGOLD

MACHET MIGNONETTE

NASTURTIUMS

DWARF VARIETIES

Aurora.—Deep chrome yellow, blotched and veined purplish carmine. Pkt. 10c; oz. 20c.

Beauty.—Scarlet splashed canary yellow. A fine variety; attractive flower. Pkt. 10c; oz. 30c.

Chameleon.—Crimson, gold and bronze, bordered and flamed. Pkt. 10c; oz. 30c.

Empress of India.—Dark purplish leaves and brilliant scarlet flowers. Pkt. 10c; oz. 30c.

General Jacqueminot.—Named for the rose; flowers bright crimson scarlet. Pkt. 10c; oz. 25c

King Theodore.—The "black" nasturtium, deep velvety crimson. Pkt. 10c; oz. 30c.

Ruby.—Bright and brilliant carmine color; profuse bloomer. Pkt. 10c; oz. 25c.

Vesuvius.—Bright salmon pink, veined deep orange. Brightest shade in list. Pkt. 10c; oz. 30c.

Imperial Mixed.—Mixed by us from best named varieties. Pkt. 10c; oz. 30c; ¼ lb. 75c.

Dwarf Varieties Mixed.—A nice mixture of colors; free bloomer. Pkt. 5c; oz. 20c; ¼ lb. 60c

CLIMBING VARIETIES

Firelight.—Brilliant cardinal red, brightest and most attractive color. Pkt. 10c; oz. 30c.

Midnight.—Dark brownish red; profuse bloomer. Fine in mixed beds. Pkt. 10c; oz. 30c.

Moonlight.—Pale straw or lemon yellow, a delicate, soft shade. Pkt. 10c; oz. 25c.

Sunlight.—Rich brilliant yellow color, flowers immense size; crinkled. Pkt. 10c; oz. 30c.

Twilight.—Lovely delicate flower of salmon rose or pink. Pkt. 10c; oz. 25c.

Caprice.—Changeable colors, often a dozen different shades on a plant. Pkt. 10c; oz. 35c.

Madam Gunter's Hybrids.—Mixture of many colors; climbing. Pkt. 10c; oz. 30c; ¼ lb. 75c.

Tall Varieties Mixed.—A good mixture of climbing sorts. Pkt. 5c; oz. 20c; ¼ lb. 60c.

LARKSPUR

MIGNONETTE

SWEET SCENTED.—The fragrance of the Mignonette makes it indispensable for bouquets and cutting. Sow seed early and they will commence blooming the first of June. Pkt. 5c; oz. 25c.

ALLEN'S DEFIANCE.—Valuable variety with mammoth spikes 12 to 15 inches long, more fragrant than any other. Florets of immense size and the cut flower often keeps three weeks. Pkt. 10c; ¼ oz. 20c; oz. 60c.

MACHET.—Makes a pretty and fragrant pot plant. Distinct variety of great merit. Vigorous dwarf growth with very large spikes of deliciously scented red flowers. Pkt. 5c; ¼ oz. 15c; oz. 50c.

MYOSOTIS, OR FORGET-ME-NOT

PALUSTRIS.—True Forget-Me-Not. A perennial. Blooms first year from seed. Pretty plants with neat little star-shaped blue flowers. Pkt. 10c.

VICTORIA.—The best variety for pot culture. Of dwarf, globular habit; beautiful sky-blue flowers with center double. Pkt. 10c.

NICOTIANA

AFFINIS.—Plant is covered with large, white, star-shaped flowers which, after being cut, remain perfect a week. A few plants perfume the whole garden. Pkt. 10c.

SANDERAE HYBRIDS.—Beautiful rosy carmine color and blooms freely. Shades of purple, pink, red, salmon, violet and white. Grows about 2 feet high, branches freely and loaded with flowers. Sow seeds early in the house and transplant in May. Mixed colors. Pkt. 10c.

NIGELLA (Love in the Mist)

MIXED COLORS.—Hardy annuals about 1 ft. high; fine cut leaves and handsome flowers. Blooms early. A very pretty flower. Double flowers, blue, white and purple, beautifully veiled with feathery, delicate foliage. Pkt. 5c; ¼ oz. 10c; oz. 25c.

MISS JEKYLL.—A large and profusely blooming variety with bright sky-blue flowers and fine fern-like foliage. Taller than most kinds. Pkt. 10c; ¼ oz. 20c; oz. 60c.

Directions for growing
pansies will be mailed
free on request.

PANSIES

Pansies are a specialty with us, and we use the greatest care in growing and importing the best strains. Packets contain 100 to 250 seeds.

PRETIOSO.—A new strain of the world's best grower, imported only by us, and offered under special arrangements. Widest range of colors, most diversified markings, and velvety substance of any mixed pansies now offered. They are great, large, fine blooms, satiny finish, brightest colors, which really shine with lustre. Pkt. 15c; ¼ oz. \$2.50; oz. \$8.00.

AMERICAN GIANT.—This strain is of strong, robust, luxuriant growth and produces magnificent immense flowers. Comprise practically all shades and markings known, including Giant Bugnots, Cassier's and large-flowered sorts from France, England, Holland and other countries. A strain of curled and ruffled pansies which appear double. Pkt. 25c; ¼ oz. \$4.00; oz. \$12.00.

MASTERPIECE.—Distinct from all others in form of flowers, the border of every petal conspicuously undulated and curled. Flowers are very large. Pkt. 15c.

GIANT TRIMARDEAU.—Flowers of very large size, some have measured 4 inches in diameter. Each flower marked with three large blotches or spots and stands well above foliage. Choice mixed colors or separate colors of black, white, red, yellow or blue. Each per pkt. 15c; oz. \$6.00.

FINE MIXED.—Many good sorts. Pkt. 10c; ¼ oz. 75c; oz. \$2.50.

PERENNIAL POPPIES

ORIENTAL HYBRIDS.—For brilliancy nothing equals these. Flowers enormous size, often over 6 in. in diameter; colors from soft flesh and rose to the most brilliant scarlet and richest maroon purple. Hardy. Pkt. 10c.

ICELAND.—Flowers first year from seed. Colors purest white to deepest orange scarlet. Pkt. 10c.

PORTULACA

DOUBLE MIXED.—These old favorite flowers are double as a rose, brilliant with many shades of color, white, yellow, crimson, scarlet, pink and all blooming at mid-day. Pkt. 15c; ¼ oz. 75c.

GRANDIFLORA SINGLE MIXED.—Also known as rose moss. It forms a brilliant, striking bed of color, on bright sunny days, and blooms brightest in the mid-day hours. Very dwarf, low-growing plants, forming a mat. Pkt. 5c; ¼ oz. 25c; oz. 75c.

PYRETHRUM

GOLDEN FEATHER.—Beautiful golden-leaved foliage plants of special value for borders. Pkt. 10c.

ROSEUM HYBRIDUM.—Perennial resembling cosmos, in colors from light pink to deep red with large yellow center in each. Pkt. 10c.

PENTSTEMON

FINEST MIXED.—Hardy perennial; blooms first year. Many spikes of Gloxinia-like flowers 2 inches across; crimson, white, rose, purple, etc., beautifully edged and marked. Pkt. 10c.

GIANT FANCY
PETUNIA

SANTA ROSA
POPIES

POPIES

AMERICAN FLAG.—Flowers extra large, very double, snow white, bordered with scarlet, very showy variety. Pkt. 5c.

DOUBLE CARNATION.—Splendid assortment of best double carnation flowered sorts. Pkt. 5c; ¼ oz. 15c; oz. 40c.

SANTA ROSA MIXED.—Improved Shirley poppy; unusually large flowers of remarkably clear colors, including new striped salmon and blush shades. Petals beautifully crumpled. Pkt. 5c; ¼ oz. 25c; oz. 75c.

PAEONY FLOWERED.—Is a robust variety 2 ft. high, bears very large flowers, round, smooth, double, and of exceeding brilliancy. Mixed colors. Pkt. 5c.

ANNUAL VARIETIES MIXED.—Single and double. Pkt. 5c; ¼ oz. 15c; oz. 40c.

SPLENDID PETUNIAS

No garden is complete without a bed of elegant petunias. They commence flowering early and continue a mass of bloom until killed by frost; easily cultivated, requiring rich soil and a sunny situation.

ROSY MORN.—A beautiful new petunia of clear rosy pink color, showing great beauty in the informal garden. Pkt. 15c.

GIANT FANCY.—The flowers are exquisitely ruffled or fringed on edges, and of enormous dimensions (4 to 5 in. across), unlimited varieties of colors, markings, veinings, blotchings and striplings, in the most grotesque and beautiful combinations. Some colors are rich and gorgeous, others are of lovely delicate shades. Pkt. 25c.

DOUBLE INIMITABLE.—Splendid mixture. Our seed is the best imported stock, and will produce about 25 per cent of fine double flowering plants. Pkt. 25c.

LITTLE PET.—(Howard's Star.)—These small flowered, compact growing, free blooming petunias are round, bushy little plants about 8 in. high, covered for months with beautiful flowers which have a distinct five-pointed star in the center. Pkt. 15c.

GRANDIFLORA MIXED.—Very large, elegant flowers, with most beautiful shades of crimson, white, rose, maroon, etc., blotched, striped, veined, marked and fringed. Per pkt. of 200 seeds 15c.

FINE MIXED.—Best of older varieties. Extra fine striped and blotched sorts. Pkt. 5c; ¼ oz. 60c; oz. \$2.00.

IT IS DESIRABLE TO PURCHASE DOUBLE PETUNIA PLANTS IF YOU WANT THEM ALWAYS TRUE TO NAME AND COLOR.

PHLOX DRUMMONDI

If we could have but one flower for our garden that one would be the Phlox. A brilliant, almost dazzling show; continual bloom.

FIREBALL.—Brilliant, dazzling scarlet. Growth is dwarf and compact; fine for bed effect. Pkt. 10c; ¼ oz. 50c; oz. \$1.50.

GRANDIFLORA ALBA.—Fit companion for Fireball. Flowers very large, pure white. Pkt. 10c; ¼ oz. 50c; oz. \$1.50.

GRANDIFLORA MIXED.—Large-flowering strain. Colors white to nearly black, including pink, red, violet, crimson, purple, yellow, blue, scarlet and brown, striped and banded in an indescribable manner. Pkt. 10c; ¼ oz. 40c; oz. \$1.25.

PERENNIAL MIXED.—Splendid hardy plants which bloom continuously after the second year. Pkt. 10c.

GRANDIFLORA
MIXED PHLOX**RAINBOW CORN**

(Striped Japanese Maize.)—Offered as a novelty by some seedsmen. Grows 5 to 6 feet high and has alternate foliage, the leaves being very long and 2 to 3 inches wide. Desirable for groups or ribbon beds, or back border to a lawn. Pkt. 5c, oz. 15c.

FAIRY ROSES

Remarkable beautiful little roses only about an inch across, usually semi-double. Plants 10 to 15 in. high, blooming from May until frost. Nice pot plants. Pkt. 10c.

RICINUS

Castor oil plant. Stately foliage plants. Said to keep out moles.

CAMBODGIENSIS.—Has large palm-like leaves of darkest reddish maroon, covered with a bright bronzy luster. Have large red veins. Seed pods fiery red. Pkt. 10c; oz. 25c.

ZANZIBARENSIS.—Grows to a height of 12 to 14 feet, with leaves 2 to 4 feet across. Pkt. 5c; oz. 15c.

SANGUINEUS TRICOLOR.—Blood red stalk; very attractive, giving tropical effect in clumps or screens. Pkt. 5c; oz. 15c.

MIXED VARIETIES.—Mixtures of the above and many other choice sorts. Pkt. 5c; oz. 10c.

COMMON.—The ordinary Castor Bean. Pkt. 5c; oz. 10c; lb. 50c. Ask for price in quantity.

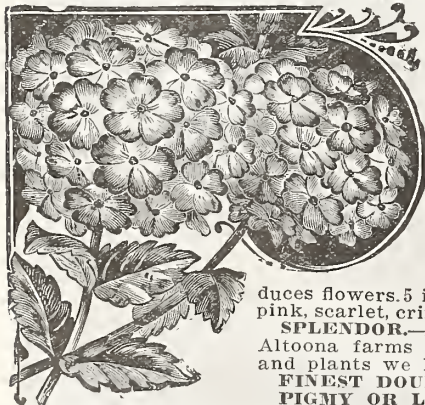

SALVIA

SPLENDENS.—Free bloomers. Brilliant scarlet. One of the most satisfactory bedding plants. Pkt. 10c; ¼ oz. 75c.

MRS. C. N. PAGE.—Dwarf, free blooming sort. Much earlier than Splendens and brighter color. Pkt. 15c; ¼ oz. \$1.00.

SCABIOSA

LARGE FLOWERED MIXED.—Handsome border plant, producing double flowers in variety of shades and colors; splendid for bouquets. Pkt. 5c; ¼ oz. 15c; oz. 50c.

MAMMOTH VERBENAS

SENSITIVE PLANT

Very pretty and curious plant, its leaves closing when touched. Seeds start slow and it is best to start them in boxes; cover shallow and see they do not dry out; it makes a good house plant for the winter and pleases the children. Pkt. 10c.

SALPIGLOSSIS

Plants about 18 in. high, bearing through the season large flowers 3 to 4 in. across, of beautiful colors.

NEW VARIEINED

—Surface soft and velvety, colors marvellous, ranging from pure white to dark yellow, dark red and purplish black, including blue, velvety plum color, maroon, crimson, brown, gold and yellow, white, dark purple, black, and brilliant scarlet, beautifully veined and mottled. Pkt. 10c.

**WAHLENBERGIA**

A perennial plant blooming the first year if sown early in the open ground. Flowers 2½ to 3 inches in diameter, of light blue, lavender and white. Pkt. 10c.

WALLFLOWER

Greatly prized for their exquisite fragrance. Grow in long, brilliant colored spikes of flowers.

EARLY FLOWERING MIXED.—Flowers early the first season. Double and single mixed colors. Pkt. 10c.

VERBENA

Deservedly a universal favorite. A constant bloomer and if grown from seed has a sweet fragrance.

BANNER VERBENA COLLECTION

Red, White and Blue.—One packet each of our national colors of seed from the mammoth type.

Banner Collection 25 cents, postpaid

NEW CENTURY MAMMOTH.—The most beautiful colors, largest flowers and largest truss which often measures over 9 inches in circumference while single florets are as large as a twenty-five cent piece; more vigorous than the ordinary. Pkt. 10c; ¼ oz. 35c; oz. \$1.25.

CANDIDISSIMA.—Large trusses of pure white flowers. Pkt. 10c; ¼ oz. 40c; oz. \$1.00.

BLUE MIXED.—Blue, purple and lavender sorts. Pkt. 10c; ¼ oz. 40c; oz. \$1.00.

DEFIANCE.—A true scarlet, large and extra fine. Pkt. 10c; ¼ oz. 35c; oz. \$1.00.

CHOICE MIXED.—From the finest foreign collection of named sorts. Pkt. 5c; ¼ oz. 20c; oz. \$1.

ZINNIA

Strong growing, hardy and elegant plants, colors are bright and varied and range from pure white to deep purplish crimson.

ROBUSTA GRANDIFLORA.—Strong growth and large flowers. Grows 3 ft. high and produces flowers 5 in. across. In separate colors; white, yellow, orange, pink, scarlet, crimson; or in mixed colors. Pkt. 10c; ¼ oz. 25c; oz. 75c.

SPLENDOR.—This splendid strain of Zinnia is grown on our Altoona farms with special care. The finest colors and blooms and plants we have seen. Pkt. 10c; ¼ oz. 25c; oz. 75c.

FINEST DOUBLE MIXED.—Pkt. 5c; ¼ oz. 15c; oz. 50c.

PIGMY OR LILIPUT.—Plants are small and of bushy growth, each one bearing scores of beautiful little blossoms. Pkt. 10c.

SHASTA DAISY

ALASKA.—A perennial, blooming better and more abundant each season. Flowers about 4 inches in diameter, with three or more rows of pure white petals on single, stiff, wiry stems nearly 2 feet long. Pkt. 10c.

STOCKS

PERPETUAL WHITE.—(Princess Alice or Cut and Come Again.)—Sown early will bloom from May to November. Pkt. 15c.

PERPETUAL MIXED.—A mixture of colors. Pkt. 10c.

EARLY LARGE FLOWERING DWARF.—Very popular. Variety of colors. Pkt. 10c; ¼ oz. 40c; oz. \$1.00.

SWEET WILLIAM

SINGLE MIXED.—Hardy plants 1 ft. high, of extreme richness and variety of color; sweet-scented. Per pkt. 10c; ¼ oz. 25c; oz. 75c.

DOUBLE MIXED.—Florets double and full centered. Pkt. 10c; ¼ oz. 40c; oz. \$1.00.

ANNUAL.—Quick growing type. Pkt. 10c.

SUNFLOWER

The sunflowers are attractive for screens, borders, clumps and among shrubbery.

DOUBLE CHRYSANTHEMUM FLOWERED.—Dwarf growing 4 to 6 feet; beautiful double flowers. Pkt. 10c.

GLOBE OF GOLD.—A new double, about 4 feet high; branching stems; in bloom it seems a mass of golden yellow. Pkt. 10c; oz. 25c.

EXCELSIOR BRANCHING.—Has a single flower about 5 inches across producing a pyramid of bloom. Pkt. 5c.

RAINBOW SUNFLOWER.—Grows 5 to 8 feet, branching freely. Colors range in shades of yellow, red and brown. Pkt. 10c.

PEERLESS MIXED.—Mixture of many kinds. Pkt. 10c.

ZINNIA

SPENCER SWEET PEAS

This most lovely type of sweet peas originated in England some years ago with the original variety now called Countess Spencer. The distinguishing characteristics of the type is the wavy, orchid-like appearance of the blossoms. They are stronger, more robust in growth, with extra large flowers of exquisite, delicious beauty. We offer only a few of the many varieties in existence, choosing those which have become fixed in form and color and which will reproduce without deviation. We offer you a beautiful display of varied colors.

AMERICA.—Ivory white with distinct stripes of bright crimson. Of the best Spencer type with three or four lovely large flowers on each stem. Pkt. 10c, oz. 40c; ¼ lb. \$1.25.

BARBARA.—Salmon color without markings or shading, and makes a remarkably attractive bouquet without any other color. Pkt. 10c; oz. 40c; ¼ lb. \$1.25.

ELFRIDA PEARSON.—One of the largest flowers yet introduced. Color is pink, of a most lovely shade, and we offer it as the best pink of the class. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

FIERY CROSS.—The most unique color in sweet peas. The standard is bright orange scarlet while the wings are rich orange cherry shade, making a flower of flaming color and unusually attractive. Pkt. 15c; oz. 50c; ¼ lb. \$1.50.

FLORENCE MORSE.—Very delicate rose color, shaded a little darker pink at edges. One of the best; large, open, wavy flowers. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

KING MANOEL.—The finest type of Spencer form in size and manner of growth. Stems are long, strong, and carry three or four fine blossoms of deep, rich maroon. Pkt. 10c; oz. 35c; ¼ lb. \$1.00.

KING WHITE SPENCER.—One of the finest types of the Spencer class and the best white variety. Flowers deeply waved and curled. Color pure white. Pkt. 10c; oz. 40c; ¼ lb. \$1.00.

PRIMROSE SPENCER.—Undoubtedly the richest coloring and finest quality of primrose shade. Equally as finely waved as the other Spencers and of strong, robust character. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

R. F. FELTON.—Color is soft, pleasing lavender with wings of French gray, making a dainty and lovely blossom. Combines extreme loveliness with strength and vigor. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

ROYAL PURPLE.—The color is so rich that it will astonish with its beauty. It is a warm rosy purple, the younger flowers having a softer tone; flowers of immense size. Pkt. 10c; oz. 40c; ¼ lb. \$1.25.

SUNPROOF CRIMSON.—A splendid crimson color and selected as the most vigorous variety of this shade. Will stand summer heat without fading or drooping. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

WEDGEWOOD BLUE.—We give this preference among blue sorts because of its superiority. It is a beautiful lively blue in its entirety. Pkt. 10c; oz. 40c; ¼ lb. \$1.25.

SPENCER MIXED.—This is a choice mixture of the Spencer types and varieties. Contains many sorts not named in our list. Pkt. 10c; oz. 25c; ¼ lb. 90c; lb. \$3.00.

GIANT FLOWERED SWEET PEAS

The sweet peas here offered are of the great-flowered or grandiflora class, and are grown for us by the best specialists in America. The stocks from which they are produced are not surpassed by anyone, and we know from the reported experience of our friends that the results from planting our sweet peas are most satisfactory. We have discarded all poor and inferior sorts and offer what we know to be the cream of the list.

IMPERIAL MIXED.—Sixty of best sorts carefully selected so as to get the proper proportion of each color in assortment. Makes the choicest mixture ever offered. We are sure our customers will be pleased with them. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

GRANDIFLORA MIXED.—This is a mixture from the growers and is made from surplus stocks of varieties and seeds as are grown in trial plots together with the seeds from fields of mixed colors. Contains a wide range both of new and old varieties. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

EARLY FLOWERING MIXED.—A new type of sweet peas which bloom much earlier than either Grandiflora or Spencer kinds, and will be popular. A splendid mixture of colors. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

AMERICA.—Clear scarlet on a white ground. Pkt. 10c; oz. 20c; ¼ lb. 60c.

BLACK KNIGHT.—Rich, glossy blackish aroon. Immense bold, attractive flowers borne in greatest profusion. Pkt. 10c; oz. 20c; ¼ lb. 60c.

DOROTHY ECKFORD.—The largest flowered white variety. Great bloomer. Pkt. 10c; oz. 20c; ¼ lb. 60c.

EXTRA EARLY BLANCHE FERRY.—Earliest of all. A beautiful light rose and white. Delicately handsome. Pkt. 10c; oz. 20c; ¼ lb. 60c.

KING EDWARD VII.—A true giant-flowered variety; brighter than other dark varieties, in fact, the best dark red in existence. Pkt. 10c; oz. 20c; ¼ lb. 60c.

LADY GRISEL HAMILTON.—Light lavender with azure blue wings. Pkt. 10c; oz. 20c; ¼ lb. 60c.

LOVELY.—The most beautiful shades of soft shell-pink, shading to faint rose at outer edges. Pkt. 10c; oz. 20c; ¼ lb. 60c.

LOTTIE ECKFORD.—Standard rose, the wings primrose shaded and splashed rose. Pkt. 10c; oz. 20c; ¼ lb. 60c.

MRS. KENYON.—A decided novelty in sweet peas, being a very pretty large-flowered sort, of a handsome primrose or yellow color. An attractive new color. Pkt. 10c; oz. 20c; ¼ lb. 60c.

NAVY BLUE.—A great novelty; the darkest and truest blue of any variety. Free bloomer. Pkt. 10c; oz. 20c; ¼ lb. 60c.

ROYAL PURPLE.—Striking dark flower. Pkt. 10c; oz. 20c; ¼ lb. 60c.

ROYAL ROSE.—A most beautiful clear rose. Pkt. 10c; oz. 20c; ¼ lb. 60c.

PERENNIAL SWEET PEAS.—(Lathyrus.)—A very popular perennial variety and it should be more generally used. Mixed colors. Blooms second year. Pkt. 10c; oz. 50c.

One ounce of each \$3.00.

IMPERIAL MIXED SWEET PEAS

GROW YOUR SWEET SWEET PEAS ON FOUR-FOOT POULTRY NETTING. IT AFFORDS THE BEST SUPPORT FOR THEM

ORNAMENTAL VINES

Nothing adds more to homelike appearance of a place than the pleasant shade of vines over the porches, and climbers on trellises, trees, fences, and outbuildings.

BALLOON VINE.—A pretty, rapid growing climber, succeeding best in a warm situation. Flowers white, followed by balloon-like seed pods. Pkt. 5c, oz. 30c.

BRYANOPSIS.—Yellow flowers, followed by pretty cherry-like green fruits which change to bright scarlet, marbled with white. Pkt. 10c, oz. 40c.

COROEA SCANDENS.—A magnificent climber of rapid growth and beautiful blue flowers. The seed should be planted edgewise. Pkt. 10c, ¼ oz. 50c.

CANARY BIRD FLOWER.—Delicate, finely-cut foliage and curious bright yellow flowers, resembling the canary bird in shape and color. Pkt. 10c, oz. 25c.

CARDINAL CLIMBER.—A hybrid of Cypress Vine and Morning Glory. Grows 20 to 30 feet high, bright cardinal flowers 1 to 1½ inches in diameter. Of merit for porch and arbor uses. Pkt. 10c.

CYPRESS VINE.—A beautiful rapid climber with delicate dark green foliage and an abundance of star-shaped scarlet and white blossoms. Mixed colors. Pkt. 10c, oz. 50c.

DOLICHOS.—(Hyacinth Bean)—Mixed Colors.—A rapid growing annual climber flowering freely, in clusters followed by ornamental pods. Pkt. 5c, oz. 15c.

Daylight.—Pure white flowers standing out boldly from the rich foliage. Pkt. 5c, oz. 30c.

Darkness.—A good companion for above. Both stems and under side of its leaves purplish red. Pkt. 5c, oz. 20c.

GOURDS—Ornamental Mixed.—A mixture of the odd-shaped and fancy-colored sorts. Contains the most popular and handsome foreign varieties. Pkt. 5c, oz. 25c.

JONAH'S GOURD.—Grows with wonderful rapidity. Leaves quite large, flowers pure white, 2 or 3 inches in diameter. Fruits of great length, resembling Hercules Club. Pkt. 12 seeds 10c, 3 for 25c.

KUDZU VINE.—Jack and the Beanstalk.—Hardy, very rapid growing vine which dies to the roots after frost, but which grows to forty feet in a season when established. Large foliage and clusters of pea-shaped purple flowers. Grows readily from seed. Pkt. 10c.

MORMORDICA.—Mixed.—Commonly known as Balsam apple and Balsam pear. Foliage ornamental, and fruits are golden yellow, opening when ripe, showing a bright carmine center. Fine for trailing. Pkt. 10c, oz. 40c.

MAMMOTH PASSION FLOWER.—Sow the seed early. Magnificent blossoms the first year, of pink, blue and white, very large and showy. A very desirable vine for trailing over porch or trellis. Pkt. 10c.

MOONFLOWER.—White.—(Ipomoea Grandiflora.)—One of the grandest summer climbers, growing 25 to 40 ft. high, and covered nightly and dull days with beautiful flowers from 5 to 6 in. in diameter. Fragrant. Pkt. of 5 seeds 10c, ½ oz. 40c.

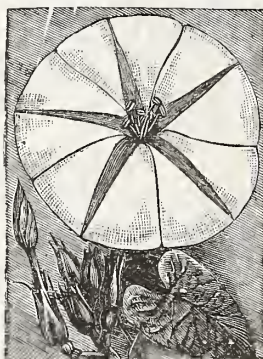

Pink.—5 seeds 10c, ½ oz. 50c.
Blue.—In striking contrast to the true White Moonflower. Color exquisite, clear, satiny blue; well defined crimson bars. Pkt. 10c; ½ oz. 50c.

RUNNER BEAN.—Scarlet Runner.—A valuable climbing bean, having bright scarlet flowers and pods; very showy as a climber, also valuable for table use. Pkt. 10c; ¼ lb. 30c; lb. \$1.00.

SMLLAX.—Specially valued for decorating and floral work all the year. Seeds start slowly and should be planted in loose, rich soil, and kept moist and warm. Pkt. 10c.

WILD CUCUMBER.—A well known vine common in many sections, and the quickest climber know. Reaches height of 30 ft. in one season. Pkt. 10c, oz. 40c.

WISTARIA.—One of the most popular hardy vines, climbing to a height of 50 feet or more. It is perennial and easily grown from seed. Pkt. 10c.

MORNING GLORIES

IMPERIAL JAPANESE.—Remarkable for the large size and exquisite new colors of the flowers, with magnificent foliage. Vines grow quickly to a height of twelve to twenty feet. Flowers are of gigantic size, sometimes measuring four or five inches across. Colors, shading and markings really wonders of nature. Double and single. Pkt. 10c; oz. 25c.

FRINGED JAPANESE.—Odd yet attractive appearance. Similar in size and coloring to the Imperial strain. Beautiful because of waved and curled borders of blossoms. Pkt. 10c, oz. 35c.

NEW DOUBLE FLOWERING.—Of rapid growth, and flowers very freely. They are white with a slight spot of red or blue at base of larger petals. About 8 per cent will reproduce themselves true from seed. Pkt. 10c.

IMPROVED CLIMBING.—A great improvement on the old climbing morning glory. Large size; great variety. Pkt. 5c; oz. 20c; ¼ lb. 60c.

BRAZILIAN.—(Ipomoea Setosa.)—One of the most luxuriant plants ever grown; very showy and graceful, with rose-colored flowers from 3 to 4 inches in diameter, and a huge leaf 10 to 12 inches across. Pkt. 10c; oz. 25c.

EVERLASTINGS and GRASSES

These are very attractive for winter decorations as they are of rich brilliant colors and are fine for winter bouquets. Cut when in full bloom, tie in small bunches and hang heads down to dry.

AMOBIMUM.—*Alatum Grandiflorum.*—A pretty everlasting, double white flower. Pkt. 5c.

ACROCLINIUM.—Mixed Colors.—Fine form, about two feet high, large double flowers; retain their form and beauty a long time. Shades of pink to white. Pkt. 5c; oz. 30c.

GLOBE AMARANTH.—(Gomphrena.) Mixed Colors.—Popularly known as "Bachelor Buttons." Handsome globular heads of flowers. Colors purple, white, flesh, orange and striped. Pkt. 5c; ¼ oz. 10c; oz. 30c.

HELICHRYSUM.—Monster Mixed.—A very pretty and popular hardy annual bearing large double flowers of different shades and colors, ranging from white to yellow, rich red, scarlet. Retain their form and color many months. Particularly useful in winter decoration. Pkt. 5c; ¼ oz. 20c; oz. 50c.

JOB'S TEARS.—An ornamental grass known botanically as *Cox Lachryma*. Produces beautiful seeds about ¼ inch in diameter, which are used like beads in fancy work. Grows 2 to 3 ft. high with broad leaves. Pkt. 5c; oz. 15c.

JOB'S TEARS FOR FANCY WORK.—We also offer in quantity at a low price, choice seeds of glossy pearl color, which are used for necklaces, basket and raffia work, and in strings for portieres. Not sold for germination. Oz. 10c; ¼ lb. 35c; lb. \$1.00.

PENNISTEUM.—*Ruepellanum.*—Commonly called Purple Fountain Grass. Very popular for borders to beds of cannas and large bedding plants. Pkt. 10c.

RHODANTHE.—Mixed Colors.—For winter bouquets blossoms should be gathered before fully expanded; if dried, retain brilliancy for years. Pkt. 10c.

STATICE.—(Sea Lavender.)—Immense panicles of small blue flowers sometimes a foot in diameter. Grows 12 to 18 in. high. Pkt. 10c.

XERANTHEMUM.—Free flowering and easily grown, making a handsome bed. All kinds mixed. Pkt. 10c.

FLOWER SEED MIXTURES

WILD GARDEN MIXTURE.—Over 400 kinds of flower seed. Contains many surprises. Pkt. 5c; ¼ oz. 10c; oz. 25c.

LOW GROWING ANNUALS.—Flowers which grow less than six inches in height. Pkt. 5c; ¼ oz. 15c; oz. 40c.

FLOWERS FOR BOUQUETS.—Pkt. 10c; ¼ oz. 25c; oz. 75c.

MIXED BIENNIALS AND PERENNIALS.—For permanent beds. Transplant in fall. Pkt. 10c; ¼ oz. 25c; oz. 75c.

MIXED EVERLASTINGS.—(Straw Flowers.)—Pkt. 10c; ¼ oz. 25c; oz. 75c.

MIXTURE OF CLIMBERS.—Pkt. 10c; ¼ oz. 25c; oz. 75c.

BULBS

For Summer Blooming

AMARYLLIS

JOHNSONII.—Of strong, vigorous growth, bearing from 3 to 6 brilliant red flowers on each stem. The petals are striped with white; very attractive; fragrant. Each 50c.

FORMOSISSIMA.—(Jacobean Lily.)—Is of extremely rich, deep velvety crimson. Free bloomer and succeeds well in pots or open ground. Each 20c, 3 for 50c; dozen \$1.75.

ATAMASCO.—A fine little bulb for summer blooming; bears pink flowers. Each 15c; dozen \$1.50.

CALADIUM

ESCULENTUM.—(Elephant's Ear.)—A splendid tropical plant, growing 4 to 5 feet, with immense leaves, beautifully veined and variegated with different shades of green, often growing 3 feet long. Of easy culture. Medium sized bulbs 25c, 3 for 65c; large bulbs 40c, 3 for \$1.00; mammoth 65c, 3 for \$1.50.

FANCY-LEAVED.—Popular for conservatory, greenhouse and window boxes, but nearly all varieties succeed admirably planted out of doors, when the ground has become warm, in partly shaded, sheltered borders. Leaves variegated red, yellow, white, brown, green, etc. Many choice varieties, each 40c; dozen \$4.00.

GLORIOUS CANNAS

These are now generally considered the most showy and effective bedding plants. They have tropical appearing foliage and showy flowers, some of which are truly orchid-like.

A. CROZY.—Height 4 feet. Green foliage. Crimson scarlet, with broad gold border. One of the most striking among the long list of cannas. See illustration. Each 20c; dozen \$2.00.

BRANDYWINE.—Height 4 ft. Handsome bronze variety. Leaves show tinting of green in such a way they appear striped. Flowers large, wine red, dappled crimson. Each 15c, doz. \$2.00.

CALIFORNIA.—Rare and handsome; color a pure rich orange gold, good habit of growth, large flowers, erect head and blooms freely; green foliage. Height 3 feet. Ea. 20c; doz. \$2.00.

CHARLES HENDERSON.—Four feet high. Green foliage; one of the finest bedding plants in existence; compact, vigorous growth; free bloomer; deep, rich crimson. Each 15c, doz. \$1.50.

DAVID HARUM.—Height 3½ feet. A dark foliage variety, with very large petaled flowers of intense vermilion scarlet. Choice variety. Each 20c; dozen \$2.00.

EUREKA.—A new variety of the best white flowered sort. Blooms are large and showy. Foliage green, height 3 feet. Each 25c, dozen \$2.50.

FLORENCE VAUGHAN.—It is 5 feet high. Dark green foliage; yellow flowers, spotted with bright red. Is fine for bedding. See illustration above. Each 15c; dozen \$1.50.

GOLDEN GATE.—A medium growing variety with green foliage and bright yellow flower. Very attractive and fine in contrast planting. Each 20c, dozen \$2.00.

INDIANA.—Orange, striped and dashed red; very large, fine flowers. Height 6 feet, foliage green. Each 20c; dozen \$2.00.

KING HUMBERT.—One of the grandest ever offered. Flowers extra large. Bright orange scarlet streaked with crimson. Foliage is bronze with brownish green stripes, large, thick and leathery. Strong grower, height 4 feet. Each 20c; dozen \$2.00.

LOUISIANA.—Fine. Color vivid scarlet. A strong grower; height 6 feet. Foliage green. Each 20c; dozen \$2.00.

NEW YORK.—Leaves very large and broad, dark purple color Flower Scarlet. A splendid sort. Each 20c, dozen \$2.00.

PENNSYLVANIA.—One of the best orchid flowered sorts. Foliage green, flowers very large, bright scarlet, shaded orange, height 6 feet. Each 20c; dozen \$2.00.

PRESIDENT.—Dwarf variety growing about 3 feet tall. Very profuse bloomer. Flowers large, and beautiful bright red color. Green foliage. Each 35c, dozen \$3.00.

SHENANDOAH.—A large pink flower of splendid form. Dwarf habit but strong grower. Height 3 feet. Bronze foliage. A popular sort. Each 20c; dozen \$2.00.

UNCLE SAM.—Great, large flower of orange scarlet. A striking variety. Height 6 feet; green foliage. Each 25c; doz. \$2.50.

VENUS.—Height 4 feet. Flowers extra large, pink, bordered yellow. A general favorite because it makes a splendid show. See illustration at the left. Each 20c; dozen \$2.00.

WYOMING.—One of the majestic flowering cannas in orchid flowering class with a luxuriant growth of rich purple foliage. Above a borne great plumes of massive orange-colored blossoms with large petals. Seven feet. Each 20c; doz. \$2.00.

YELLOW KING HUMBERT.—A distinct shade bright yellow. Flower large, plant strong and robust; a free bloomer. Foliage green. Height 3 feet. Each 25c; dozen \$2.50.

MIL ED BEDDING CANNAS.—Each 15c; dozen \$1.50.

CALADIUM ESCULENTUM.

FANCY LEAVED CALADIUMS

A. CROZY FLORENCE VAUGHAN and VENUS

Uncle Sam Canna Collection

One each of the following choice varieties:
 Brandywine, California, Indiana, Louisiana, President, New York, Shenandoah, Uncle Sam, Pennsylvania. Ten superior sorts postpaid for only \$2.00.

Contrast Canna Bed Bargain

A few of the best as follows:
 2 A Crozy, 2 David Harum, 2 Venus, 2 Chas. Henderson, 2 California, 2 King Humbert. A fine contrast in flower and foliage.
 Postpaid for \$2.00.

CALLA LILIES

These are generally sent out as dry bulbs, but the Little Gem variety are always started plants. Should our stock of dry bulbs become exhausted we will send growing plants instead.

MAMMOTH WHITE.—Largest flowering variety and most majestic. It is of perfect flowering form with large tropical appearing leaves of bright green color and yielding throughout the season a profusion of white flowers. Large size each 25c, 3 for 60c.

ELLIOTTIANA.—This magnificent new yellow calla is of marvelous beauty. Flowers very large and of brightest golden yellow. Leaves beautifully spotted white. Each 35c, 3 for 90c.

LITTLE GEM.—A perfect miniature Calla, growing 8 to 12 inches high, producing beautiful snow-white blossoms. Blooms summer or winter. Growing plants 20c, 3 for 50c.

SPOTTED LEAF.—Leaves deep green with white spots, giving plant a magnificent appearance. Flowers are of pure white with black centers. Each 20c, 3 for 50c.

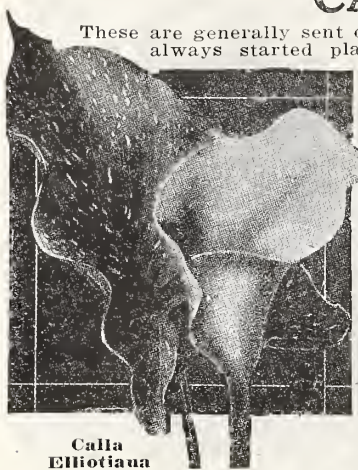

ARISAEA.—(Jack in the Pulpit.—Sometimes called Indian Turnip. A tuberous plant which grows wild in moist woods and along streams. Well known and make beautiful plants. Each 15c, large bulbs, each 25c.

LITTLE GEM CALLA

CINNAMON VINE

Perfectly hardy, the stem dying down every autumn, but growing again so rapidly as to completely cover any trellis or arbor very early in the season. Beautiful heart-shaped leaves, clusters of delicate white flowers and delicious cinnamon odor. Large tubers, postpaid, for 15c; 2 for 25c; doz. \$1.25. Small bulbets, 20c per dozen, 100 for \$1.00.

Calla Elliottiana

STATELY DAHLIAS

The Dahlia is one of the showiest of all autumn flowers. Of the many varieties we have selected the following as of special value. For best results start roots early in house. Late in season, when dry roots are exhausted, we fill orders with strong rooted pot plants.

DECORATIVE DAHLIAS

For type of blooms see Nos. 1 and 2 in group picture.

DELICE.—A new dahlia, greatly prized by specialists because it is a new shade—an exquisite glowing rose pink—a soft yet brilliant shade. Admirable in vigor and habit of growth. Ea. 30c, 3 for 75c.

ELSIE DAVIDSON.—(See cut No. 1.)—Giant-flowering, deep golden yellow. Popular because of form and color. Each 35c.

JACK ROSE.—So named because the color is brilliant crimson red, almost exactly like the General Jacqueminot rose. Popular because of brilliant color. Each 30c, 3 for 75c.

BARON GRANCY.—One of the best white decorative dahlias, resembling the paeony. Petals are uneven, giving the flower a unique appearance. Color white, effectively overlaid pink. Ea. 35c.

SYLVIA.—(See cut No. 2.)—A very lovely shade of mauve pink, shading to white in the center. A fine flower on a vigorous plant. One of the best decorative dahlias of lighter shade. Ea. 30c, 3 for 75c.

SOUVENIR de GUSTAV DOAZON.—Giant flower, strong plant. Ordinarily 6 inches and sometimes fully 9 inches across. Blooms in abundance. Color bright, dazzling red. Each 25c, 3 for 60c.

SHOW DAHLIAS

Type of blooms, Nos. 3, 4 and 5 of group picture.

A. D. LIVONI.—(See cut No. 4.)—Also offered under the name Ethel Vick. Early blooming variety. Very handsome and best of the pink show sorts. Each 30c, 3 for 75c.

W. W. RAWSON.—Flowers 18 inches in circumference; petals are rolled up so that they overlap each other. Color is pure snow white, tinged with light blue at center. Each 35c, 3 for 90c.

LE GRAND MANTOU.—(No. 5.)—Richest crimson velvet. About half the petals are tipped with a large spot of white. Frequently flowers are solid scarlet, but most are variegated. Ea. 30c, 3 for 75c.

MERLIN.—A beautiful orange-scarlet. Free flowering and good for cut flower purposes. Each 30c.

NORMA.—Flowers are large, perfectly quilled and of a most exquisite shade live bright orange. Ea. 30c.

QUEEN VICTORIA.—Plant a robust grower and so covered with flowers as to appear almost like a solid mass of golden yellow color. Blooms early. Each 25c, 3 for 60c.

ROBERT BROOMFIELD.—Pure white. Tall grower. Each 30c.

STRADELLA.—(Cut No. 3.)—Beautiful deep purple-crimson. Exceptionally free flowering. Stems long and wiry. One of the finest. Each 30c.

HYACINTHUS CANDICANS

The stems are 3 to 4 feet high; bear quantities of large, drooping flowers, ivory in color and bell-shaped. Delicately fragrant and by planting closely a clump of these will produce a charming effect. Large, each 15c, doz. \$1.50.

DAHLIAS (REFER TO NUMBER IN DESCRIPTION)
CACTUS DAHLIAS

COUNTESS OF LONSDALE.—A pleasing shade of salmon pink or apricot, shading to carmine. Ea. 40c, 3 for \$1.00.

STERN.—Color is bright primrose yellow. Very bright and particularly pleasing in mixed bouquets. Ea. 40c, 3 for \$1.

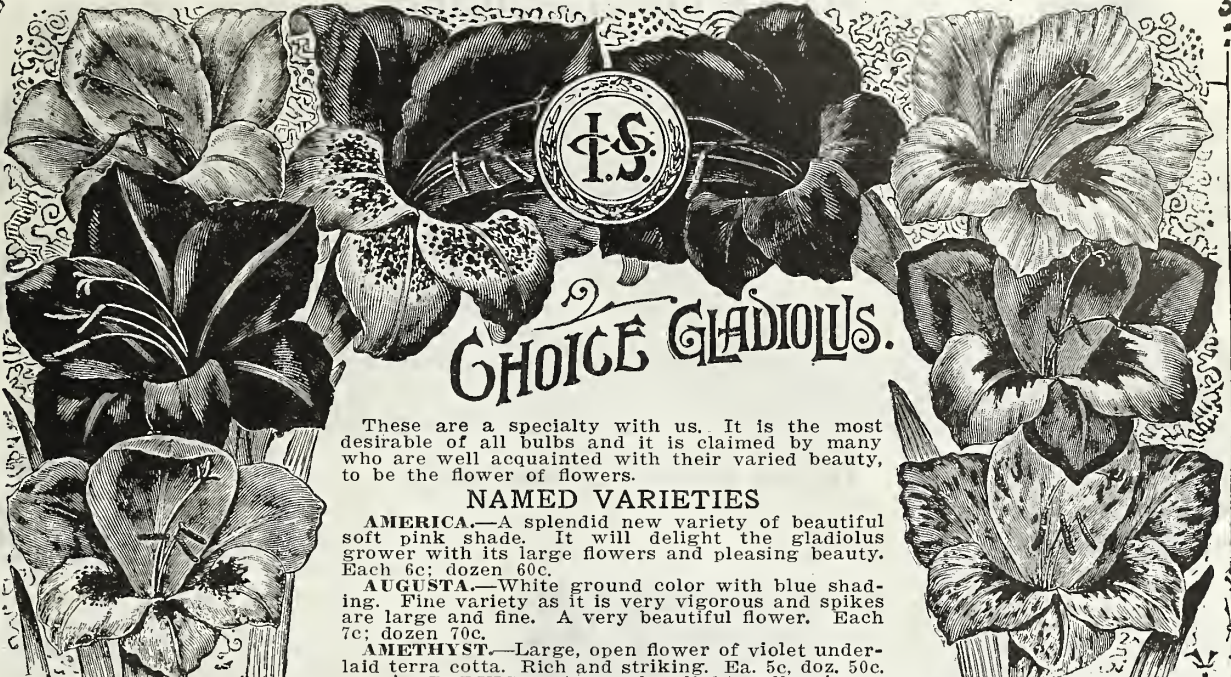

J. H. JACKSON.—In color a perfectly gorgeous, deep, velvety blackish-maroon. Gigantic size. Ea. 30c, 3 for 75c.

KREIMHILDE.—Bright, shining pink, gradually shading to white at the center. Vigorous grower. Ea. 30c, 3 for 75c.

HYACINTHUS CANDICANS

THE BEST OF THE DIFFERENT DAHLIA TYPES ARE OFFERED. YOU CAN EASILY FIND YOUR FAVORITE AMONG THEM.

CHOICE GLADIOLUS.

These are a specialty with us. It is the most desirable of all bulbs and it is claimed by many who are well acquainted with their varied beauty, to be the flower of flowers.

NAMED VARIETIES

AMERICA.—A splendid new variety of beautiful soft pink shade. It will delight the gladiolus grower with its large flowers and pleasing beauty. Each 6c; dozen 60c.

AUGUSTA.—White ground color with blue shading. Fine variety as it is very vigorous and spikes are large and fine. A very beautiful flower. Each 7c; dozen 70c.

AMETHYST.—Large, open flower of violet underlaid terra cotta. Rich and striking. Ea. 5c, doz. 50c.

BERNICE.—A popular light yellow, with buff and pink markings. Very fine. Each 5c, dozen 50c.

BRENCHLEYENSIS.—Deep vermilion scarlet. One of the brightest and most showy varieties. A few spikes make a striking bouquet. Each 6c, dozen 60c.

CANARY BIRD.—The best yellow variety. It is a good, vigorous grower and color of the flower is pleasing and attractive. Each 15c, dozen \$1.50.

CHICAGO.—A splendid large flower of purest white borne in great spikes. Each 10c, dozen \$1.00.

GOLD COIN.—Cream yellow, rich maroon spots in lower petals. One of the best of light sorts. Ea. 6c, doz. 60c.

HALEY.—Color pure salmon pink. A very large, open flower, borne on spreading stalks. Each 6c, dozen 60c.

INDEPENDENCE.—Extra large open flowers handsome salmon rose color. Grows nearly 3 ft. high. Ea. 5c, doz. 50c.

MRS. FRANK PENDLETON.—Flowers large pink with brilliant carmine blotches on lower petals. Ea. 10c, doz. \$1.00.

MEADOWVALE.—Pure white ground, crimson throat and stripes of pink in lower petals. Beautiful. Ea. 7c, doz. 70c.

MRS. FRANCIS KING.—Great beauty Color pleasing light scarlet. Spike is strong, flowers large. Each 6c, doz. 60c.

NIAGARA.—Tall stalk, strong stem, vigorous; color canary and cream shadings. Splendid. Each 7c, dozen 70c.

PRINCEPS.—Rich crimson with deep shadings in throat, and fine large white blotches on the lower petals. Flowers large and fine. Each 7c, dozen 70c.

ROUGE TORCH.—A beautiful large white with scarlet feather in lower petals. A good variety. Each 7c, doz. 70c.

TACONIC.—A beautiful flower of a lovely pink color, striped and flaked lighter shade, and with throat of light blush. Each 7c, dozen 70c.

VELVET KING.—Almost solid colored flower of deep crimson. A very fine variety for bouquets or decorative effects. Each 7c, dozen 70c.

GLADIOLUS COLLECTION

One choice first size, extra large bulb each of America, Amethyst, Gold Coin, Meadow Vale, Bernice, Mrs. Frances King, and Rouge Torch; 7 choice sorts 40c, postpaid.

SPECIAL GLADIOLI MIXTURES

For the benefit of such of our customers as wish a number of given tints for massing we are offering at attractive prices some of the choicest mixtures to be found in this country.

ALTOONA MIXED.—This is put first in our list of Gladioli because we believe it is the best mixture in existence. Is made from the named varieties on this page and other very choice sorts which we do not list. Large bulbs each 5c, dozen 50c, 100 for \$4.00.

SILVER TROPHY MIXED.—Considered one of the finest of commercial mixtures. Our stock was procured from the originator and has been carefully grown, so that we can without hesitation recommend it to our friends. Each 5c, dozen 50c, 100 for \$4.00.

FINE MIXED.—Our own mixture containing a wide range of color; offered at a very low price and we feel sure they will prove satisfactory. First size each 4c, dozen 40c, 100 for \$3.00.

HEMEROCALIS LILIES

Hardy, herbaceous plants that multiply rapidly. Very desirable for clumps and mass planting.

LEMON LILY.—Handsome flower for garden culture. Not a true lily, as bulb is different shape, but flower is much like Liliun Speciosum in form and about 3 inches in diameter. Color is clear lemon yellow of very bright, pleasing appearance. Have a most delightful lemon fragrance. Each 20c, doz. \$2.00.

ORANGE LILY.—Similar to Lemon Lily, fine orange color. These and Lemon Lilies intermingled give a most pleasing effect and a wealth of blossoms. Each 20c, dozen \$2.00.

BUTTERCUP LILY.—(Hemerocalis Thunbergii.)—Is a splendid variety, blooms in July. Grows 4 feet; large lily-like flowers of buttercup yellow. Each 20c, dozen \$2.00.

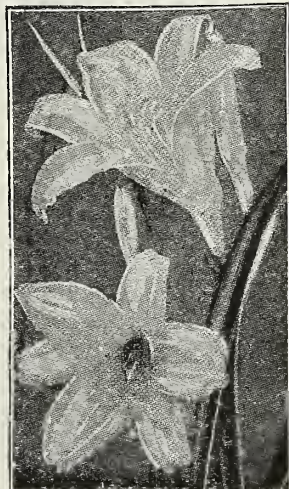

CORN LILY.—(Hemerocalis Fulga.)—Blooms in mid-summer. Flower corn yellow. Profuse bloomer. Ea. 20c, doz. \$2.

DOUBLE CORN LILY.—(Hemerocalis Quanso.)—A double flower of attractive appearance. Distinctive both in habit and color of bloom. Each 20c, dozen \$2.00.

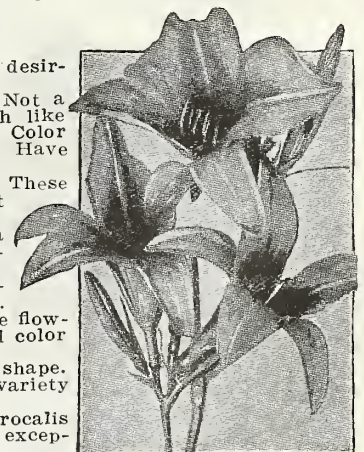

ALPRIANA.—Color rich orange, flowers open and cup shape. Is sometimes called "Buttercup Lily, but differs from the variety called by that name above. Each 35c, dozen \$3.00.

GLOBE D'OR.—This is one of the finest of the Hemerocalis lilies. Color is rich golden yellow, and the flowers are exceptionally large. Each 35c, dozen \$3.00.

DR. REGAL.—Large, clear lemon yellow. Each 35c, doz. \$3.00.

LEMON LILY

ORANGE LILY

YOU CAN GET RESULTS QUICKLY BY PLANTING SUMMER BULBS. OURS ARE FULLY MATURED AND OF BLOOMING SIZE

BEAUTIFUL LILIES

Nothing can surpass the Lily in beauty, purity, delicacy and stately, magnificent grandeur. A few clumps planted in some place in your yard where they will not be disturbed from year to year, will reward you with abundant flowers. These varieties are, perhaps, the most popular lilies grown, producing large flowers of delicate beauty. Bloom better the second year.

AURATUM.—(Japanese Gold-Banded Lily.)—This is justly entitled to the name given it, "The Queen of Lilies." The immense flowers are produced in great profusion and are deliciously fragrant. The large white petals are thickly spotted with rich chocolate crimson, and have a bright golden yellow band through the center of each. Each 50c, 3 for \$1.25.

SPECIOSUM RUBRUM.—These are perhaps the most popular lilies grown, being easy of cultivation and produce large flowers of delicate beauty on strong stems; height from 2 to 4 feet. Blooms in August. Flowers are white, with a deep rosy or crimson band on each petal, with deeper colored spots between. They are 5 to 6 inches in diameter, very fragrant and have all the hardness of the Speciosum class. Each 40c, 3 for \$1.00.

SPECIOSUM ALBUM.—The finest of the pure white, hardy perennial garden lilies. Has large white flowers of great substance, beautifully recurved. Each 40c, 3 for \$1.00.

MELPOMENE.—Words cannot describe the beauty of this variety. Frosted white, spotted, clouded and bearded with pinkish crimson. Petals recurved, widely bordered. Each 40c, 3 for \$1.00.

EASTERN SPLENDOR LILY COLLECTION

A selected choice bulb of each of the following varieties: **Auratum, Rubrum, Album and Melpomene**. The finest varieties of cultivated lilies; all perfectly hardy anywhere. **POSTPAID FOR ONLY \$1.35.**

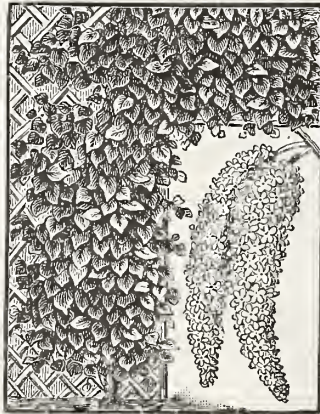

LILY OF THE VALLEY

A well-known, universally admired spring flowering plant, bearing bell-shaped, powerfully fragrant flowers. For the open ground one should select a partly shaded and rather moist situation. They are very charming in large patches as their handsome green leaves and lovely sprays of flowers make a beautiful effect. Once established the crowns increase in number. Four strong roots for 25c, dozen 75c.

MADEIRA VINE

Also called Mignonette Vine and Mexican Vine. A beautiful tuberous-rooted climber, with rather plain, thick leaves and handsome racemes of fragrant white flowers. Makes a very rapid growth and a few plants cover a trellis or cottage in a single season. Very pretty to use for shading a porch or veranda. Each 10c, dozen \$1.00.

MADEIRA VINE

SUMMER OXALIS

No bulb is so valuable for edging the borders of walks or flower beds as the beautiful flowering Oxalis. When planted 3 in. apart they produce an unbroken row of elegant foliage and pretty flowers; blooms quickly after planting.

DIEPPI ALBA.—Pretty, low-growing variety with light green leaves and clusters of pure white; bell-shaped flowers; blooms profusely. Dozen 15c, 100 for \$1.25.

LASLANDRA.—Large, dark green palmate or five fingered leaves, with clusters of rosy pink flowers. This is taller than above. Satisfactory border. Doz. 15c, 100 for \$1.25.

TUBEROSE

NEW EXCELSIOR PEARL.—The tuberoses is justly a universal favorite and very easily grown. Has short, robust stem and long spikes of large flowers, which are perfectly double and twice the size of the common tuberoses, white of equally delicious fragrance. Spikes frequently bear 30 to 50 flowers, remaining in bloom for a long time. They are always wax-like, pure white, and unsurpassed for buttonhole bouquets. First size each 10c, doz. \$1.00. Medium size each 7c, doz. 70c.

MEXICAN SINGLE.—Grows 3 feet high, producing two to five flower stems from one bulb. Flowers single, pure white, much pleasanter in fragrance than the Pearl. Each 10c; doz. \$1.

TRITOMA

PFITZERI.—(Flaming Torch.)—Flower spikes produced in great freedom, of rich orange scarlet; in bloom is a grand sight; scattered through garden adds brightness. In its glory when other flowers are seared with frost. Each 35c.

TIGER LILIES

The old fashioned tiger lilies were favorites for many years, and are still popular. The improved varieties here offered are far superior to the old kind and are worthy of a place in any garden.

DOUBLE TIGER LILY.—A double form of the Old Tiger Lily. The flower is densely double, color orange red, spotted with black. Blooms freely; should be more largely grown. As hardy as the old-fashioned tiger lily and much more beautiful. Each 25c, dozen \$2.50.

TIGRINUM SPLENDENS.—An improved tiger lily growing sometimes 5 feet high and producing large pyramids of orange red flowers spotted with black. Each 20c, dozen \$2.00.

PEARL TUBEROSE

Winter Blooming Bulbs

- Orders for these filled in September.
- Hyacinths, mixed colors, doz. \$1.00
 - Tulips, single mixed, doz.50
 - Tulips, double mixed, doz.50
 - Crocus, mixed, doz.25
 - Narcissus, paper white, doz.75
 - Narcissus, Von Sion, doz. 1.00
 - Chinese Sacred Lily, each.25

Complete bulb list for fall planting will be sent in August.

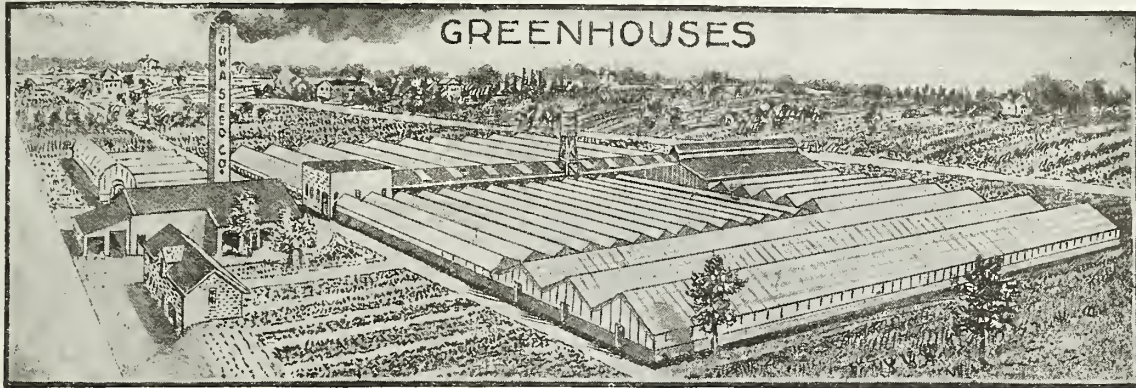

TRITOMA PFITZERI

GREENHOUSE DEPARTMENT

GREENHOUSES

Iowa Seed Company's Thirty-two Greenhouses

Our greenhouse department is better equipped to care for a mail order plant trade than any establishment in the west. We have 32 large greenhouses besides a number of steam heated hot beds and cold frames. Special attention is given to growing plants for our mail customers. Our business in this line covers the entire country and we constantly fill orders from every state and ship many orders to foreign countries. Our system of packing is complete and careful. This department is under the personal supervision of Mr. C. W. Davison, a director and stockholder in our company. He has had an experience of many years in conducting this branch and every order received gets his personal care.

Separate Plant and Seed Orders.—We send two order sheets with this book. Use one for seeds and the other for plants as designated. The plant orders go direct to

the greenhouse for filling and are kept on file there. Such use of the order sheet will save time and expense.

Terms.—At the prices named we send plants by mail postpaid except where noted. Orders must amount to at least 25 cents, for if of less amount they are filled at a loss.

Special Express Rates.—The consolidated express company continues to carry plants at second class rates, which are cheaper than ordinary merchandise. In shipping by express at customer's expense for carriage we leave the dirt on the roots unless instructed to the contrary.

We Guarantee plants ordered to reach purchasers in any part of United States in good order by mail or express. Complaint must be made immediately on receipt of goods. After their delivery in good condition our responsibility ceases.

ABUTILON

SNOWSTORM.—The best white flowered Abutilon. Plant is strong, upright grower and it will contrast nicely in a collection of these Abutilons. Each 20c.

ECLIPSE.—A splendid variety for baskets and vases; foliage marbled green and yellow; flowers scarlet and orange buff. Each 20c.

GOLDEN BELLS.—The best yellow flowering variety; of dwarf habit. Each 20c.

DAY DAWN.—Color a bright, clear pink, a pleasing and lovely shade. Each 20c.

ACALYPHA

BICOLOR.—Brighter and more attractive for bedding than Coleus. Leaves bright green margined with band of lemon yellow, dotted and spotted with the same color. Each 25c.

TRICOLOR.—Mottled and blotched with crimson and scarlet on green background. Maintains its markings in summer heat. Each 15c.

MARGINATA.—Foliage bronze green, margined with the same color. Each 20c.

SNOWSTORM ABUTILON

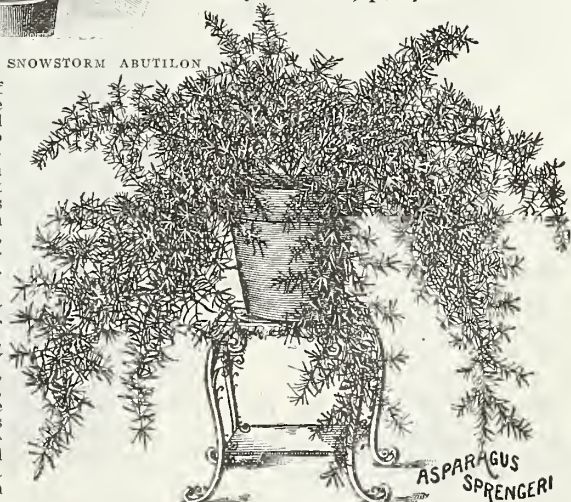

ASPARAGUS

PLUMOSUS NANUS.—One of the handsomest of our foliage plants for pot culture, beautiful the year round, and there is no more decorative plant in the entire list. Easily grown, even in a north window. Leaves bright green, gracefully arched, and as finely woven as the finest silken mesh; their lasting qualities, when cut, are remarkable, retaining their freshness for weeks. Each 20c; large 40c.

SPRENGERI.—A splendid new plant for hanging baskets or pots. It droops most naturally, sending out numerous feathery fronds which, in a short time, make a growth of 3 to 6 feet, forming an exquisitely handsome and striking picture. It produces small white flowers which are succeeded by red berries. A well established plant is literally a mass of emerald green. Each 20c; large size each 40c.

ASPARAGUS PLUMOSUS NANUS

ASPARAGUS SPRENGERI

NOTICE

We ship all plants as soon after order is received as weather permits. Bedding plants we will hold until usual season for setting out. If plants are ordered during winter for immediate shipment they will be sent at buyer's risk.

ASTER PLANTS

Snowdrift White, Royal Purple, Enchantress Pink, Heart of France. Any of these, doz. 35c, 100 for \$3.

BEST VARIETIES MIXED.—Price is low and you should have a fine bed of these. Dozen 30c, 100 for \$2.00, prepaid.

BANNER ASTER COLLECTION

One dozen Heart of France, one dozen Snowdrift and one dozen Royal Purple.

Three dozen choice plants for only 75 cents, postpaid.

PRINCESS PAULINE AGERATUM
ANTHERICUM

A new variegated decorative plant, useful, when small, as center to jardiniere. Larger plants are very attractive in porch boxes and hanging baskets. The leaves are only about six inches long, dark green, with a bright yellow center; the crest of each flower stem reproducing a new plant complete. Each 20c, dozen \$2.00.

ARGENTEA GUTTATA BEGONIA OTTO HACKER.—Strong, vigorous grower, of fine upright habit, with large shining deep green leaves eight to ten inches long. Flowers bright coral-red, borne in immense clusters eight to ten inches across. Each 20c.

PROFUSION.—A new French variety of vigorous growth. Flowers are bright pink, produced evenly all over the plant. See photograph and Profusion Trio on back cover page. Each 30c.

PICTA ROSEA.—Wonderfully free flowering. Flower is rosy flesh color, shaded silvery pink, and enlivened with dense clusters of yellow anthers. Blooms constantly. Ea. 25c.

PRESIDENT CARNOT.—Bears large panicles of beautiful coral red flowers. Upright grower; foliage green above, purplish red underneath. Each 20c.

RUBRA.—A constant bloomer. Heavy, waxy green leaves. Flowers rosy scarlet. Each 20c.

THURSTONII.—Remarkable foliage. Under side of the leaves rich purplish red, with prominent veinings. Upper side bronze green, shaded crimson and olive and a metallic luster over all. Flowers rosy white, in clusters. Each 25c.

Profusion Begonia Trio

One Profusion, one Haageana and one Caroline Luserne, illustrated in colors on back cover page.
POSTPAID FOR ONLY 75 CENTS

AGERATUM

PRINCESS PAULINE.—Of dwarf, compact habit, rarely exceeding 5 inches in height. Blue and white colors combined in one flower. Blooms entire season bright and pretty. Each 15c, dozen \$1.50.

STELLA GURNEY.—Deep, even blue. Literally forms a sheet of bloom all summer. Dwarf, compact growth. Each 15c, doz. \$1.50.

WHITE SWAN.—Pure white; fine for borders or beds. Each 15c, dozen \$1.50.

ANTIRRHINUM

A general favorite for both outdoor and indoor planting. Desirable for decorations in tall vases as cut flowers. Succeeds without extra care. The giant varieties surpass old-fashioned sorts in every way.

GIANT WHITE.—Perpetual bloomer, producing dozens of long spikes of beautiful pure white flowers. Blooms last two weeks. Each 15c, dozen \$1.50.

GIANT YELLOW.—Like white, but color is pure lemon yellow. Each 15c, dozen \$1.50.

KILLARNEY PINK.—The peculiar pink shade seen in the Killarney rose. Each 15c, dozen \$1.50.

GIANT RED.—Bright, brilliant flower; to complete collection. Ea. 15c, doz. \$1.50.
ONE each, four colors, postpaid, 50c.

BEGONIAS

Begonias are greatly prized by lovers of house plants. The Rex types are perhaps the most magnificent of all foliage plants, while many of the flowering sorts present wonderful blossoms.

ARGENTEA GUTTATA.—It has purple bronze leaves with silvery markings. Flowers white. Vigorous, strong growing variety of easiest culture. Always satisfactory. Very popular. Each 25c.

ALBA PERFECTA GRANDIFLORA.—We doubt if there is a white flowering variety that equals it. The foliage resembles Rubra but is lighter green, while the flower panicles are much handsomer. Each 20c.

ALBA PICTA.—Leaves of a glossy green color, thickly spotted with silvery white. Flowers white. Each 15c.

REX BEGONIA

REX.—The Rex or King Begonia may well be called the king of foliage plants and they make a magnificent showing with their rich lustrous tints and tropical looking leaves. There are many different varieties, presenting a great range of beautiful markings and splendid color effects. Best results in moist and shaded situations, making it the very finest plant for household decoration. We have a very choice stock of these. Each 50c.

SANDERSONII.—A variety growing in compact, bushy form, with deep, glossy green leaves and scarlet flowers in drooping clusters. Each 20c.

GIANT WHITE
ANTIRRHINUM

RAINBOW BEGONIA COLLECTION

One each five extra choice varieties: *Argentea Guttata*, *Metalica*, *Picta Rosea*, *Thurstonii* and *Margery Daw*. Postpaid for \$1.00.

BEEFSTEAK.—(Warszewicz.) The old-fashioned Beefsteak Begonia, with thick rounded leaves of deep green with red on reverse side. Each 20c.

CAROLINE LUSERNE.—A splendid, upright, vigorous grower, with long leaves of spotted olive green, a bright wine-red beneath. Enormous trusses of perfect coral-red flowers. See photograph and Profusion Trio on back cover page. Each 35c.

GRACILIS LUMINOSA.—A magnificent new specimen, with flowers large, perfect and plentiful, and never out of bloom. Color the brightest scarlet. Each 25c.

HAAGEANA.—Flowers rosy pink, bright and attractive. Plant tall and shrubby, with hairs on stems and leaves. See photograph and Profusion Trio on back cover page. Each 25c.

MADAM DE LESSEPS.—Has very large leaves of silky texture beautifully spotted with silver. Flowers pink and white. Each 20c.

MARGERY DAW.—A beautiful trailing sort. Bright salmon flowers in broad panicles. Green "angel wing" leaves. Each 20c.

METALICA.—This elegant variety has very large leaves shaded with green, crimson and olive, with a peculiar metallic luster. Flowers clear pink, shaded white. Each 25c.

PICTA ROSEA

BRYOPHYLLUM

A curious plant. Leaves thick and heavy. When cut and placed in moist soil little plants start from notches in them and make strong plants in short time. Flowers look like long green, red striped pods, through which breaks a pointed tube of dull red. Each 15c.

BLOOMING CACTUS

NIGHT BLOOMING CEREUS.—This gorgeous cactus bears abundant pure white blossoms measuring twelve inches across. A plant loaded with these flowers is a sight never to be forgotten. Blooms at night and is very fragrant. Better order one and call your neighbors in to see it bloom. This is the true, round stemmed variety. Each 20c.

FLAT LEAVED CEREUS.—The common sort, similar to the above, except in form of stem. A good bloomer and desirable. Each 20c.

CHRISTMAS CACTUS.—(Epiphillum.)—Also known as Lobster Cactus. Stems branching and hanging in bunches. Flowers bright red; blooms freely. Each 20c.

BOUGAINVILLEA

GLABRA.—A beautiful plant of strong and rapid growth. The brilliant rosy crimson blossoms are produced from early in March until midsummer. For conservatory or window garden. Each 25c.

BUTTERFLY BUSH

BUDDLEIA.—Hardy, thrives in all soils, grows vigorously from 2 to 3 ft. high, and blooms the first season from spring planting. Flowers are soft shade of lilac color borne in dense spikes 12 to 15 in. in length and 3 in. in diameter. Each 25c, doz. \$2.50.

ASIATICA.—Butterfly Bush, with pure white fragrant flower-spikes. Not quite hardy in North. Glorious pot plant for winter blooming. Each 25c.

BIRDSEYE PEPPER

BIRDSEYE PEPPER.—Grows in manner similar to Christmas Pepper. Fruits are small and pointed, and change colors as they ripen. Each 15c.

CHRISTMAS PEPPER

CHRISTMAS PEPPER

Surprisingly pretty house plant. A round, compact bush 12 to 15 inches in height with dark olive green leaves and covered with curious little heart-shaped fruits of bright colors—purple, white, yellow, orange and red on the same bush. Fruits are edible as small garden peppers. Each 15c.

CROWN OF THORNS

EUPHORBIA.—A very curious and remarkable window plant. Strong growing plant that can be trained over any desired form. Bright scarlet flowers. An object of rare and striking beauty. It is easily grown. It grows wild in Judea, and it is said that from this the crown of thorns was made which was worn by our Saviour. Each 25c.

CYCLAMEN

GIANT FLOWERED.—Foliage broad, massive, graceful, of dark green, beautifully variegated with silver and rose. Immense, fairy-like flowers; quite fragrant. Assorted colors. Each 25c, large 35c.

CYPERUS

UMBRELLA PALM.—A very ornamental plant which throws up slender, round stems about two feet high, surmounted at the top by a whorl or flat, ribbon-like leaves, diverging horizontally. Should have abundance of water. Each 15c, larger 25c.

DRACENA

INDIVISA.—(Fountain Plant.)—Quite generally listed among palms. It is a decorative plant about two feet high, with slender, drooping, green leaves, long and narrow. Each 15c, large 25c.

**COLEUS**

Whoever has been in our large city parks will never forget the ornamental beds, curving and quaint designs and mingling arabesques of all colors—which look like varicolored rugs spread at short intervals on the smooth lawn. These are formed of Coleus.

PRICES.—All of the varieties of coleus named below each 10c; doz. \$1.00. Mixed varieties suitable for bedding, unnamed, 80c per dozen, postpaid; \$6.00 per 100, by express, not prepaid.

ADMIRAL DEWEY.—A better bedder and a brighter color than Verschaffeltii; color a bright crimson, edged maroon.

ANNA PFISTER.—Pointed leaves with deep scalloped edges. Color bright golden yellow intermingled with green and crimson. Of dwarf and compact but spreading habit.

BECKWITH'S GEM.—The large leaves have fine scalloped edges. It shows four shades of color, center maroon, bordered red; edge green with point of yellow.

BRILLIANCY.—Bright crimson color, shining. A splendid sort among greens and yellows.

BIZARRE.—A striking variety, with leaf center of bright crimson and edged green and gold.

CHAMELEON.—Combining numerous shades of color in the leaf to form a specimen of great beauty.

CRIMSON BEDDER.—Purplish crimson.

DUNEIRA.—Crimson, with maroon center and scalloped light red edge. A fine showy variety.

FIRE CREST.—Bright crimson with slight golden yellow edge, blotch of deep bronze in center. Splendid.

GOLDEN BEDDER.—Color yellow. This is the best yellow coleus for bedding; deep gold in the sun.

GRACE ADAMS.—Green leaf with red crested edge.

JAMES BRADSHAW.—A fine, showy variety with striped leaf showing colors of crimson and yellow.

MRS. F. SANDER.—Large, creamy white center, bordered green; blotched crimson and purple; fine for pots.

PROGRESS.—Beautifully mottled red, green and bronze. A charming combination of colors.

MRS. JOHN BOEHMER.—Rich maroon bordered golden band. Large pointed leaf.

TRAILING BEAUTY.—Of trailing habit. Serrated leaves of fiery crimson; zoned maroon edged green.

YELLOW TRAILING QUEEN.—Like above; color golden yellow.

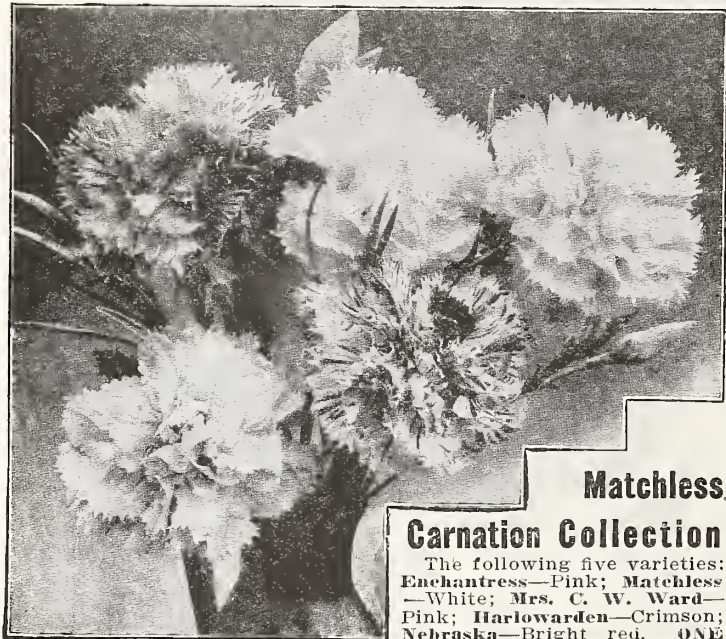

VERSCHAFFELTII.—Still one of the best; rich, velvety crimson.

CYCLAMEN.

CROWN OF THORNS.

MATCHLESS COLLECTION

Matchless

Carnation Collection

The following five varieties:
Enchantress—Pink; **Matchless**
 —White; **Mrs. C. W. Ward**—
 Pink; **Harlowarden**—Crimson;
Nebraska—Bright red. **ONE**
EACH OF ABOVE 75 CENTS.

CHRYSANTHEMUMS

These are now, and deservedly, the most fashionable of all autumn flowers. All these varieties are excellent for pot culture, and the best of their class. Attract universal attention at great flower shows on account of large size, exceptionally fine shape, and handsome colors. Their large size is especially noticeable when grown as a single stem and only one flower is allowed to develop on each plant.

CHAS. RAGER.—(Improved Eaton.)—Fine, large and pure white, incurving with outer petals reflexed. Almost a perfect ball. Each 15c.

DR. ENGUEHARD.—Very large size and solid appearance. A true bright pink; one of the largest and best. A splendid pot plant. Each 15c.

HARVARD.—A new crimson chrysanthemum of splendid form and magnificent full, double, solid, red flower of great size. Each 20c.

JOSEPHINE FOLEY.—A globular Japanese incurved variety of perfect form and growth. Color pure white. Of exceptional merit. Each 20c.

MARIGOLD.—Bloom is a peculiar shade of deep, rich yellow. Flowers are very large, petals incurved, close growth and fine shape. Each 15c.

ROBERT HALLADAY

RICHMOND.—A bright yellow flower, of wide open type, extra large size and very beautiful. Plant is vigorous, and will prove satisfactory to the amateur. A new sort of great promise. Each 20c.

ROBERT HALLADAY.—One of the most popular of yellow sorts, because of early bloom and unique flower. Bloom is of "raggedy" type and very beautiful. A strong, vigorous plant with bloom of large size. Each 15c.

SENSATION.—A mammoth flowered variety, bright shining pink in color, strong and vigorous in growth. Fine for pot plant. Each 15c.

SEDGWICK.—A new pink sort with large blooms, close, compact flowers, strong, sturdy habit. Will be satisfactory in any collection. Each 15c.

VICTORY.—A fine golden yellow, round globe form, extra large size, very compact. As nearly perfect as yet produced. Each 25c.

WM. TURNER.—Incurved type of bloom, solid and very large. Clear, pure white. Semi-dwarf, very strong and vigorous. Each 20c.

WHITE CHIEFTAIN.—Close, compact blooms of the most popular type and no other carries so firm a flower. A strong, sturdy plant. Each 15c.

WHITTIER.—A bright flower of old gold color, of large size, with very large incurved petals. Each 20c.

YELLOW TURNER.—The golden companion of the favorite Wm. Turner, and we recommend it for pot culture by the amateur. Each 20c.

POMPOM CHRYSANTHEMUMS

These small 'mums are popular again; give showers of bloom after most other flowers are gone.

LILLIAN DOTY, pink.

DIANA, white.

ZENOBIA, yellow.

PANAMA, deep red.

MRS. FRAK BEAU, orange.

Any of the above each 15c; per doz. \$1.25. One each of five named for 50c.

CARNATIONS

Fragrant flowers are always sought after, and the rich, spicy odor of the carnation, combined with its various colors, leaves little to be desired. They are easily grown and bloom freely.

BENORA.—A handsome variegated variety, color white with irregular streaks of red. A beautiful composite flower which is very popular. Each 20c.

ENCHANTRESS.—Charming variety of immense size and delightful blush pink color. Each 20c.

HARLOWARDEN.—A bright, dazzling crimson, very free bloomer; flowers on long stems. Each 20c.

HERALD.—A bright and beautiful shade of scarlet. Plant a good grower, strong and free blooming. Flowers are large. Each 20c.

MATCHLESS.—Pure white, of extra large size, perfect in form and of great substance. Plant vigorous, bearing the flowers on long, stiff stems. Petals beautifully fringed. Each 15c, dozen \$1.50.

MRS. ACKERHURST.—A new bright pink variety of special value. It is not only lovely in color but it is strong, vigorous and free flowering. Each 20c.

MAINE SUNSHINE.—A new yellow carnation which is very promising. Color is bright and attractive. Each 25c.

MRS. C. W. WARD.—This is a beautiful deep pink. Extra large flowers on strong stems. Ea. 15c.

NEBRASKA.—A fine deep red flower. Blooms freely, gives better results as a pot plant for amateurs than most sorts. Each 25c.

SUPREME.—Finest pink carnation; distinguished for perfect form and large bloom. Each 20c.

THENANTHESIS.—A splendid, brilliant scarlet flower, the most popular color. Each 20c.

WHITE WONDER.—Large flowers of the purest white. Valuable for garden planting. Each 20c.

INTENSITY

LOYALTY COLLECTION

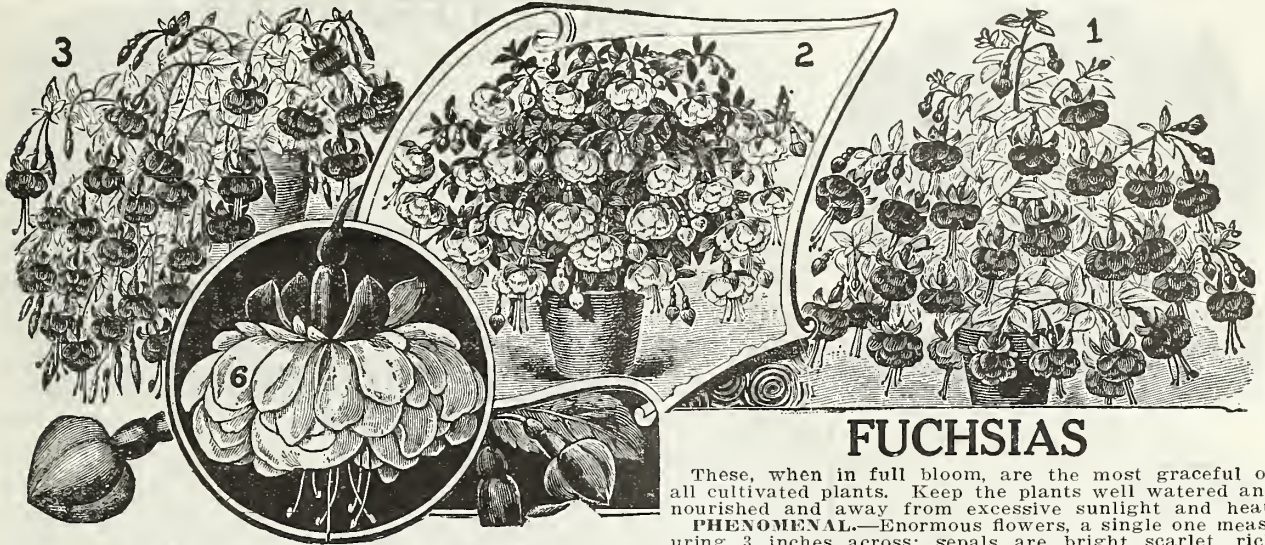

Four finest novelty Chrysanthemums: one each Chieftain, Intensity, Liberty and Loyalty, postpaid, for 75 cents.

LOYALTY.—Color is the popular bright yellow. Prized for the beauty of the bloom. One of the best of the newer yellow sorts. Each 25c.

LIBERTY.—A companion flower to the above, pure white in color. Grow strong and vigorous. Immense flowers which delight the grower. Each 25c.

CHIEFTAIN.—This is well named. It is chief in size, color, form and vigor. Color is a bright shining pink, with a soft richness of tint. Frequently 24 in. in circumference. Petals are incurved and blossom is compact. Strong, upright grower. Each 25c.

INTENSITY.—A dark, velvety crimson. No reverse is noted as the petals are solid color. Form recurved, solid. The most satisfactory solid red chrysanthemum. Each 25c.

FUCHSIAS

These, when in full bloom, are the most graceful of all cultivated plants. Keep the plants well watered and nourished and away from excessive sunlight and heat.

PHENOMENAL.—Enormous flowers, a single one measuring 3 inches across; sepals are bright scarlet, rich purple corolla, very double, flaked with red. Each 20c.

SPECIOSA.—Greatly prized for its profuse blooming qualities. Sepals are more elongated than other sorts, and of soft rosy pink color. Each 20c.

ROSAINES PATRIE.—(See Cut No. 2.)—Grand double white variety. Flowers of enormous size, sepals bright carmine; large, pure white, double corolla. Each 15c.

TRAILING QUEEN.—(See Cut No. 3.)—Of beautiful trailing habit. Fine for hanging baskets. Bright, rich scarlet and purple flowers. Each 20c.

JUSSIEU.—Blossoms extra large size; superb coloring. Tube and sepals bright glowing crimson, corolla very rich violet purple, very double and widely extended. Each 20c.

GUSTAV NADAUD.—Sepals very brilliant red, corolla double, purple. A giant flowered sort. Each 20c.

STORM KING.—(See Cut No. 6.)—The standard contrasting variety with red sepals and double, white corolla. The most popular type. Each 20c.

BLACK PRINCE.—Of upright, robust growth. Tube and sepals bright carmine, sepals large and broad with pale green tips; violet pink corolla. Ea. 20c.

MONARCH.—By far the largest of the single varieties. Its immense blooms are very dark purple. Each, 15c.

SUNRAY.—A novelty fuchsia with variegated foliage. Colors clear yellow, golden bronze, and red, are combined. Flower is pink or deep rose sepals with bright carmine corolla. Each 25c.

RAINBOW FUCHSIA BARGAIN

One Choice Plant each of Storm King, Jussieu, Black Prince and Speciosa, giving a wide range of types and colors.

FOUR PLANTS, POSTPAID, FOR ONLY 65c

FERNS

FLUFFY RUFFLES.—(Scholzeii.)—A new upright growing variety, dark and rich in color. Fronds are finely cut. The vigor, habit and color of this fern are far superior to ordinary sorts. Each 25c; larger sizes 50c, 75c and \$1.00 each.

BOSTON FERN.—(Improved Sword Fern.)—This is a wonderfully healthy, rapid growing and graceful house plant. Thrive in all rooms; gas or furnace heat does not seem to injure it. Its sword-like fronds, on large specimens, attain the length of 5 to 6 feet, produced in bewildering mass, arching, curving and interlacing in every conceivable direction. Each 20c; large plants 35c and 50c and \$1.00.

TEDDY, JR.—A fine, compact fern. Can be grown in much less space than any other of the Boston type. Each 20c.

WHITMANI.—Whitmani is of dwarf growth, compact and a wide, stocky shape. The fronds are erect and less liable to revert to the original Boston type. Each 20c; large 50c; extra fine specimens \$1.00.

ELEGANTISSIMA.—A sport from the Ostrich Plume fern. The side pinnae being subdivided, makes both sides of the frond equally beautiful. The plant is compact, with wide fronds. Each 20c; large plants 50c.

VERONA.—(Baby's Breath.)—An elegant small Ostrich Plume fern. Fully equal to the best of this type in pluminess and graceful form, but far more dainty and exquisite. Each 25c, large 50c.

MACKAWA.—Similar to the original type of Boston fern in robust growth. The fronds are not so long, and are somewhat curled and crested after the ostrich plume type. Vigorous, upright habit makes it desirable. Each 25c, large 50c.

OSTRICH PLUME FERN COLLECTION

One each of Mackawa, Elegantissima, Teddy, Jr., Whitmanii, postpaid for only 75c.

DAINTY SMALL FERNS

MAIDEN HAIR FERN.—(Adiantum Cuneatum.)—Very popular. Most graceful and useful of all for cut flower work. Each 20c.

HOLLY FERN.—(Cryptomium Falcatum.)—Rather broad, dark, glossy green foliage. Quite easily grown; ornamental. Each 20c.

MOSS FERN.—(Selagnellia Emilliana.)—Also called Lycopodium. Has delicate lace-like foliage. Fine for fern dishes and always beautiful. Each 20c.

CRESTED FERN.—(Pteris Wimsetti.)—One of the most popular of the small ferns. Striking lanceolated foliage; upright growth. Each 20c.

DAGGER FERN.—(Aspidium Tsussimense.)—A miniature sword fern. Adapted to small ferneries or fern dishes. Each 20c.

BOSTON FERN

FLUFFY RUFFLES FERN

SINGLE GERANIUMS

Geraniums are the most easily grown and satisfactory of all flower plants and only the rose can vie with them in popularity. After careful comparison we have selected the following as the best:

AUREOLE.—(Mad. Bruant.)—Fancy flowered sort; remarkable colors. Each floret is large, white center beautifully veined with carmine lake, radiating into a handsome aureole, each petal being bordered bright pink. Each 25c.

BLACK PRINCE.—A very dark rich, velvety crimson. The nearest black known in single geraniums. Each 20c.

ELECTRIC GEM.—A fine sort, producing very large flowers on strong trusses. Color is brilliant scarlet. Each 20c.

PHOEBE.—Dwarf, compact, extremely free flowering, seemingly every joint producing a spike of bloom. Color deep rose. Each 25c.

RICHMOND BEAUTY.—A magnificent single variety. Color crimson scarlet with large white feather in two upper petals. Each 25c.

RADIUM.—Magnificent, well formed flowers, produced on enormous trusses in great profusion. Color brilliant orange scarlet; foliage large and fine; luxuriant, branching, and robust. Each 20c.

SNOW QUEEN.—Grandest single pure white geranium in existence. Vigorous and healthy growth. Do not turn pink in sun. Each 25c.

DOUBLE GERANIUMS

APPLE BLOSSOM.—(Mrs. Lawrence.)—Shining salmon, tinted white. Free flowering; dwarf, compact habit. Extra fine as a pot plant. Each 25c.

BEAUTY POITEVIN.—Conceded one of the best semi-double bedding sorts. Color salmon pink, shading to clear salmon in the center. Each 20c.

BERTHA DE PRESLEY.—A beautiful light pink. Stands the sun without fading. Satisfactory either for beds or in pots. Each 20c, dozen \$2.00.

CARUSO.—One of the newer varieties that will prove popular. Color bright scarlet, large truss, large florets and vigorous habit. Each 25c.

CURIOSO.—Double "Bird's Egg" geranium. Blooms dotted pink in white and are beautiful. Each 25c.

DAYBREAK.—Color is bright pink and it blooms more freely than most sorts. Each 20c.

DOUBLE DRYDEN.—Center coral white shading lilac to edge of petals; of soft glowing crimson. Each 20c.

EL CID.—Choice bedding sort. Bright scarlet, a rich, dazzling shade. Each 20c.

GLORY DE FRANCE.—Petals white, veined with carmine rose. Each 20c.

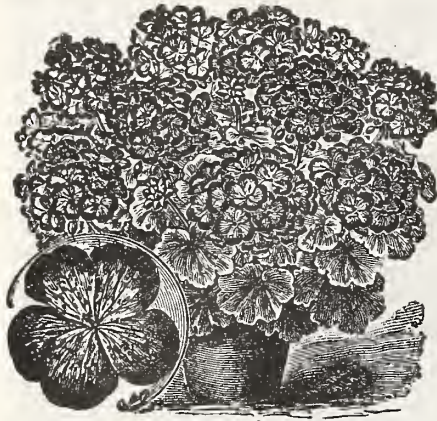

JEAN VIAUD.—Color a bright, rosy pink; distinct white blotch in center. Each 20c.

IMPROVED LA FAVORITE.—The best double white geranium. It is a strong grower and a profuse bloomer. Each 20c, doz. \$2.00.

SCARLET BEDDER.—Type of S. A. Nutt, but color is brighter. Each 20c, doz. \$2.00.

S. A. NUTT.—The best crimson. Takes the lead as a bedding variety. Each 15c, doz. \$1.50. By express, not prepaid, 100 for \$11.00.

MARVEL.—A bright scarlet; larger than S. A. Nutt, and counted the best bright red. Each 20c, doz. \$2.00.

AUREOLE

SCENTED GERANIUMS

NUTMEG.—Small leaves with nutmeg perfume. Each 15c.

OAK LEAVED.—Beautiful foliage resembling oak leaves, black center with green border. Each 20c.

ROSE SCENTED.—The broad leaf. This is the most popular of scented geraniums. Each 15c.

SKELETON LEAVED.—Leaves are very finely cut, rose fragrance. Each 20c.

BALM.—Delicious balm fragrance. Each 15c.

LEMON.—A nice little plant of bushy growth with delightful lemon fragrance to leaves. Each 15c.

MRS. TAYLOR.—A scarlet flowered rose geranium. The blooms resemble the pelargonium, but are smaller. Blooms constantly. Ea. 20c.

PEPPER.—Strong fragrance, moderate size leaf, easily grown. Each 15c.

PEPPERMINT.—A rare variety with thick "hairy" leaves and refreshing peppermint fragrance. It is most popular. Each 25c.

IVY LEAVED GERANIUMS

CORDEN'S GLORY.—Fine, bright scarlet; large, bold, full flowers; constant bloomers; one of the very best. Each 25c.

ALLIANCE.—Flowers large, semi-double and fine. Exquisite shade of delicate lilac white, upper petals feathered and blotched bright crimson rose. Each 20c.

CAESAR FRANCK.—Double as a Crimson Rambler rose. Specialist claim this to be the best Ivy Geranium. Color soft, rich crimson scarlet, shaded rose at base of petals. Foliage clean, waxy green. Vigorous, quick growing and strong. Each 20c.

EDEN MARCHI.—Has enormous sized flowers; color beautiful salmon rose, slightly shaded violet. It is an improvement on the Charles Turner. It is a strong, free grower, producing flowers at almost every joint, which are full double and perfect in form. Each 20c.

JEAN D'ARC.—Very large and finest white in existence. Perfectly double, white as snow; flowers literally cover the plant when in full bloom. Each 20c.

FANCY LEAVED GERANIUMS

GRACE PAGE.—Identical with the standard dark crimson S. A. Nutt geranium except foliage, which is beautifully variegated. Leaves are of dark green, and each bears a border of pure snowy white. Each 20c.

MRS. POLLOCK.—Magnificent. Green leaf disc, overlaid by beautiful bronze red, belted with bright crimson, outwardly margined with golden yellow. Very distinct in its markings. Each 30c.

WM. LANGGUTH.—Plant is short and stocky; beautiful deep green leaves, bordered with a broad, pure, snow white band. Flowers extra large, bright red, showing magnificently against the white foliage. Each 30c.

MAD. SALLEROI.—A very compact variety of silver leaf geranium. Fine for massing or bordering; thrifty; leaves green, edged with white. Of special value for edgings or ribbon work. Each 15c, dozen \$1.50.

CRYSTAL PALACE GEM.—Yellow, with green disc; fine bedder. One of the oldest of the fancy leaved sorts, but popular. Each 30c.

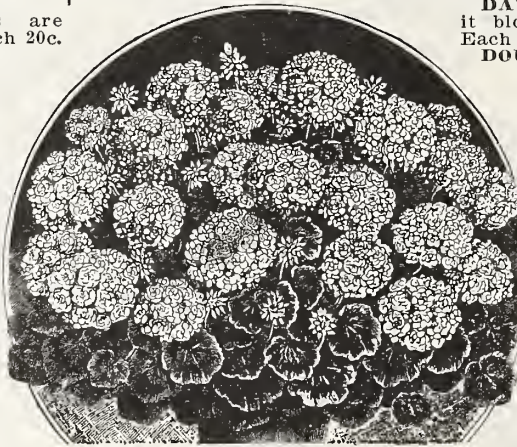

MOUNTAIN OF SNOW.—Finest of this class for ribbon lines or massing; leaf bright green, margin broad silver white; single scarlet flowers. Each 20c.

DISTINCTION.—Round green leaves with clear black circle. This dark sort is fine in contrast planting among silver leaved varieties. Each 30c.

HAPPY THOUGHT.—Tricolored with dark green foliage; creamy white center with dark band about the light zone; flowers bright scarlet. Each 20c.

GOLDEN CIRCLE.—Green foliage; golden edging; flower scarlet. Each 20c.

HAPPY THOUGHT COLLECTION.—Happy Thought, Golden Circle, Mad. Salleroi, Crystal Palace Gem, Mountain of Snow, Mrs. Pollock. Six of the finest fancy leaved sorts in splendid contrast for only \$1.00, postpaid.

LA FAVORITE

GLOXINIA

We know of no bulbous plant that will give such universal satisfaction as the Gloxinia. Their charming trumpet-shaped flowers are exquisitely tinted, blotched or tigered with miniature dots of violet, pink or crimson. They are of the easiest culture in pots and bloom continuously for months. Each 35c.

GREVILLEA

SILK OAK.—One of quickest growing of ornamental house plants. Easy to manage, grows rapidly and is pretty in all stages of growth. With its long, drooping silky foliage it reminds one of a palm or fern. Young growths are light bronze color, tips covered with soft down resembling raw silk. Ea. 15c.

HIBISCUS

GRANDIFLORA.—Large, shrub-like, woody plant bearing immense single red flowers. Each 15c.

PEACHBLOW.—Flowers very fine, large, double and of a charming rich, clear pink, with deep crimson center. Does not always appear double when first in bloom, but as the plant ages it takes on double form. Each 15c.

PEACHBLOW HIBISCUS

IMPATIENS

SULTANA.—Beautiful plant producing waxy, bright flowers of rosy scarlet almost continuously, winter and summer; suitable for pot or garden culture. Compact growth; almost perpetual bloomer. Ea. 10c.

HOLSTIL.—Strong, robust growing sort with brilliant vermilion colored blossoms. One of the best. Each 15c.

PINK BEAUTY.—Well named, the color being a most beautiful shade of clear pink. Each 15c.

JASMINE

MAID OF ORLEANS.—A beautiful plant of easy culture, fine grower, good bloomer, very fragrant and of waxy white appearance. Each 25c.

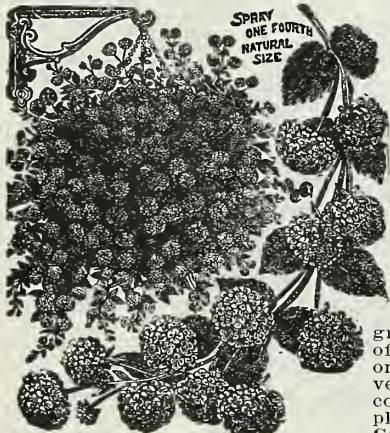

NIGHT BLOOMING.—(Cestrum Parqui.)—World famous variety producing greenish white flowers incessantly. Strong fragrance after dark. Each 25c.

CAPE JASMINE.—(Gardenia Florida.)—Pretty low growing evergreen shrub. Thick, glossy green leaves, waxy white double flowers of delicious sweetness, valued for winter flowering in house or conservatory. Each 30c.

GRANDIFLORUM.—An old favorite variety and most satisfactory. Valuable for winter blooming. Flowers white, star-shaped. Fragrant. Each 20c.

REVOLUTUM.—A climbing variety with deep yellow single flowers and glossy foliage. A beautiful plant. Each 20c.

One each five Jasmines only \$1.00.

WEeping LANTANA

HELIOTROPE

These are universal favorites on account of their delightful fragrance. They bloom equally well as bedding plants in summer, or in pots in the house during winter.

BUISSON FLEURI.—Semi-dwarf. Very large trusses of large flowers. Color violet; star-shaped eye. Each 15c.

PRINCE CHARMANT.—Beautiful foliage and large trusses of mauve blue flowers. A novelty of merit. Each 15c.

LORD ROBERTS.—Very large trusses of blue flowers. Each 20c.

FLORENCE NIGHTINGALE.—Very large trusses of dark lavender flowers. Each 15c.

SNOW WREATH.—Superb large clusters deliciously fragrant flowers, nearly white. Each 15c.

JERUSALEM CHERRY

An old-fashioned plant grown for its showy berry-like fruits which remain on plant for a long time. Used generally in window gardening, but will grow quite large. Each 15c.

LANTANA

A most satisfactory plant for outdoor bedding and blooming all winter in the house. Flowers resembles the Verbena, borne on a woody plant.

JAVOL.—The best, largest and free blooming white variety. Pleases everyone. Ea. 15c.

PERFECTION.—Variegated foliage, unusually handsome. Outside florets pink with rose center; inside florets very light sulphur yellow, orange center. Blooms freely. Each 15c.

GOLD CUP.—A dwarf, compact grower. Bears very pretty lemon yellow flowers with golden yellow center. Each 20c.

WEeping.—Beautiful trailing sort; desirable for hanging baskets, vases, pots or open ground. Profusion of pink flowers. Each 20c.

RADIATION.—Semi-dwarf. Color brilliant red with orange yellow center. Distinct and beautiful blending of color. Each 15c.

AMIEL.—Semi-dwarf, very compact; color reddish orange, yellow center. Of fine form and a mass of bloom. Each 15c.

VERSICOLOR.—First opens cream yellow with red center. Cream gradually changes to pink. Flower is fine at all times. Each 15c.

Radiant Lantana Collection.—One each: Radiation, Versicolor, Javoi, Perfection and Weeping Lantana. One each 75c, postpaid.

PANSY PLANTS

Pansy plants are quite a specialty with us and we sell immense numbers of them every year. Our plants are grown from the very best quality of seed and are strong and vigorous and have beautiful, large, velvety flowers of all shades and colors. Extra large, strong plants plants of American Giant and Giant Trimardeau Mixed at 75c per doz., 4 doz. for \$2.40, postpaid.

NEW MAMMOTH FLOWERING HELIOTROPE

HELIOTROPE COLLECTION

One each of the five varieties named in column to left for 70c.

HYDRANGEAS

AVALANCHE.—Splendid large white flowers. Easy to grow; remarkably free flowering. Each 25c.

LA LORRAINE.—At first pale rose turning to bright pink. Large blooms. Splendid variety. Each 25c.

MME. E. MOULLERE.—White; extra size. Awarded medal at National Flower Show at Boston. Each 20c.

MOUSSELINE.—Light amber pink turning brighter as the flower ages. Of extra size. Each 25c.

OTAKSA.—Used for Easter decorations. Enormous trusses of intense pink flowers. Excellent specimen plants for porch or lawn. Blooms entire season. Each 20c, large, 50c and 75c each.

E. G. HILL.—One of the finest of pot hydrangeas. Superb, color white. Each 25c.

MARGUERITE DAISY

WHITE.—A French improvement on the old White Marguerite which has for many years been so popular. Is much larger and will produce ten times as many flowers. Each 15c, dozen \$1.50.

MRS. F. SANDER.—A superb new variety of double white Marguerite, so lovely as to be a firm favorite wherever known. Owing to continuous, free blooming habit and beautiful lasting blooms on long stems, is peculiarly adapted for beds or for use as cut flowers. Each 20c.

SOLIEL D'OR.—A very popular sort with flowers of a very pretty canary yellow color. It blooms freely and continuously. Each 15c.

AMERICAN GIANT MIXED PANSIES

DOUBLE PETUNIAS

Extremely popular because of striking contrasts in the colors of each flower and because they are always in bloom. Difficult to grow from seed as only a percentage are double.

SNOW QUEEN—Elegance and purity are strongly covered by this lovely flower. Each 25c.

CLIO—A splendid shade of purple. Flowers extra size, of nearly solid color and extremely striking appearance. Each 25c.

FANTASIA—Handsome double white and purple petunia. Striking variegation. Beautiful. Ea. 25c.

PINK BEAUTY—Many shades of pink in this flower. The general effect is a bright, pleasing pink. Each 25c.

FANTASIA
DOUBLE PETUNIA

PEPEROMIA

SILVER STRIPED.—A beautiful ornamental basket or pot plant for the home. Grows vigorous and thickly massed. The leaves are wax-like, thick and fleshy, and distinctly variegated white and green. Easily grown and thrive in living rooms. Each 25c.

PEPEROMIA

OTAHEITE ORANGE

An extra fine plant, with glossy green leaves, the true fragrant orange bloom, and abundant little bright oranges. With good culture they are never out of fruit from one year's end to another. In beauty, grace and fragrance there is nothing like its leafy sprays of bloom. Each 25c, large \$1.00.

PONDEROSA LEMON

It is a true ever-bearing variety. Blossoms waxy white and as fragrant as orange blossoms. Fruit has been taken from the tree weighing over 4 lbs. The lemons have very thin rind for such large fruit. It fruits when quite small and makes a lovely house plant. It fruits freely second year. Strong plants each 25c, postpaid. Two-year-old plants \$1.00 each.

SURINAM CHERRY

A very ornamental plant at all times, as both flowers and fruits are attractive in color shades. Fruits are cherry red color and are useful and desirable for culinary purposes. Growth of plant is shrub, like orange and lemon listed on this page and readily grown in pots. Each 25c.

STRAWBERRY GUAVA

A useful and ornamental pot plant; wonderfully productive. Has dark, shining green foliage, with fruits of striking carlet shade, about size of hulled walnut. Fruit is used for dessert and makes a most attractive jelly. It will have buds, blossoms and fruit in various stages of development on the plant at one time. Each 25c.

RUBBER TREE

(Ficus Elastica).—This is the true rubber tree from which is secured the rubber of commerce. Grows slowly in temperate climate, and under artificial conditions and is adapted for house or conservatory. Highly valued everywhere for their tropical appearance. Leaves very large, thick and leathery and of a beautiful shining green color. It endures the dry air of living rooms remarkably well. They are difficult to propagate and will remain high price. Each \$1.00, postpaid. Larger sizes \$2.00, by express, not prepaid.

TROPICAL COLLECTION

Everyone is interested in the manner of growth of the tropical plants and we offer some of these which are suited for house culture, believing they will be popular.

Ponderosa Lemon, Otaheite Orange, Strawberry Guava and Areca Palm. One strong plant of each for

ONLY \$1.00 POSTPAID

PONDEROSA LEMON

PALMS

The most elegant and highly decorative of all plants and the low prices at which they are now offered place them within reach of all.

KENTIA BALMOREANA.—This is considered one of the hardiest and best in cultivation. A rapid grower. Each 45c.

ARECA LUTESCENS.—A truly graceful and beautiful palm. Strong, upright grower with long, finely cut leaves. Easy to grow and very satisfactory. Each 45c.

KENTIA FOSTERIANA.—A fine variety of the Kentia class. Vigorous and will prosper with ordinary care. Each 45c.

PANSY GERANIUM

Beautiful flower belonging to the Pelargonium class. Flowers are of medium size and have white throat. Each petal is shaded toward the center with a rich lavender pink and a dark maroon blotch in the center. Of easiest growth, dwarf in habit, and as it requires little attention it is invaluable as a window plant. Colors and markings most extraordinary. Each 25c.

PELARGONIUMS

Known as Lady Washington geraniums. **EASTER GREETING**.—Enormous flowers, bright amaranth red, each petal being marked with large black blotch. Each 40c.

THE MAID.—A fine sport of Easter Greetings, producing reddish carmine flowers with five black blotches with purplish carmine. Each 40c.

GARDENER'S JOY.—Ground color apple blossom pink, two upper petals blotched carmine brown, the florets are 3/4 inches in diameter. Dwarf, sturdy nature. Each 40c.

GLORY.—Of very large size. The upper petals contain two large purple magenta red spots, distinctly veined. New color. Each 40c.

EASTERN STAR.—Ground color with rose pink with five large reddish brown blotches, edged scarlet lake. Each 40c.

LADY WASHINGTON COLLECTION

One each five Pelargoniums, postpaid for \$1.75.

PRIMROSE

MEXICAN.—Perpetual bloomer. It has blossoms 2 to 3 inches across, of beautiful colors. Each blossom keeps perfect many days and when it droops others take its place. Each 15c.

OBCONICA.—Lovely perpetual blooms. Flowers are of rose lilac shading white. Each 25c.

CHINESE.—Most popular flower for winter blooming. Flowers all shades of color; distinct and beautiful markings. Each 20c.

THE BABY.—(Primula Forbesi).—Forms a dense rosette of fleshy leaves from which dense spring flowering stems, 12, 15 and even 20 inches tall, supporting whorls of dainty flowers of a delicate rosy lilac with eye of pale gold; not more than a half inch in diameter, but produced abundantly. Each 20c.

ONE EACH, 4 PRIMROSES, 65c

OTAHEITE ORANGE

OUR TROPICAL FRUIT COLLECTION IS AN UNUSUAL OFFER AND WILL PLEASE THOSE WHO WANT SOMETHING DIFFERENT

EVERBLOOMING ROSES

We consider these not only the most popular, but also the most satisfactory of all flowers. Our plants of the several varieties are mostly grown on their own roots and are strong, healthy and vigorous. This list represents the choicest selections from nearly a thousand varieties, and we are sure every one will prove satisfactory. Roses sent by mail or express prepaid in perfect condition, to the most distant parts of the United States, and we guarantee safe arrival. Directions for culture sent with every package.

CHAMPION OF THE WORLD.—The champion bloomer. It is claimed that one plant will produce more flowers during the year than ten of any tea rose. Color is a deep, rich, rosy pink. Ea. 20c.

ETOILE DE FRANCE.—Clear red or crimson velvet shade.

Without doubt the finest hybrid tea rose in our list. Each 25c.

FRANCISCA KRUGER.—A strikingly beautiful rose of deep coppery yellow; quite unique and distinct from all others. Of large size and very symmetrical. Each 25c.

GOLDEN BEDDER.—The finest golden yellow tea rose. A strong, vigorous and healthy plant and a profuse bloomer. By some it is called Star of Lyons. Each 25c.

GRUS AN TEPLITZ.—One of the brightest colored roses known. When first opened it is dark, rich crimson, quickly changing to a bright scarlet. Blooms continually. Each 25c.

KAISERIN.—Decidedly the finest white ever-blooming hardy garden rose. Soft, nearly white, lightly tinted lemon at center. Free, continuous bloomer. Buds of faultless shape, developing into large, very double flowers of exquisite fragrance. Each 25c.

KILLARNEY.—The buds are especially long and the color is a peculiarly bright, living pink, more beautiful than any other pink rose. A free bloomer, easily grown, of strong healthy constitution. Each 30c.

LA FRANCE.—La France roses are certainly the nearest perfection in flowers. Distinctive characteristics are the true La France fragrance and beautiful form. Prized for profuse bloom. Each 25c.

RICHMOND.—A strong rival of the American Beauty. It is a beautiful scarlet crimson, as free blooming as any tea rose, and flowers are exceedingly fragrant. A standard variety because of its merit. Each 25c.

SUNBURST.—A splendid large rose, ranking with American Beauty and Killarney in size and form. Color a beautiful coppery yellow, shaded lighter; a brilliant flower. Each 30c.

GIANT IRON CLAD ROSE COLLECTION

PAUL NEYRON.—Beautiful shade of deep pink.

FRAU KARL DRUSCHKI.—One of the very largest blooms among white roses.

ULRICH BRUNNER.—Glowing scarlet. Form and size equal to the best.

MRS. JOHN LAING.—A fit companion for Paul Neyron in size, hardiness and form. Color soft, blush pink; fragrant.

J. B. CLARKE.—Intense scarlet shaded dark, rich, crimson maroon. Flowers very large and fine.

VERY LARGE AND FINE. PRICE POSTPAID \$1.00.

CHAMPION OF THE WORLD

THE IRON CLAD ROSE COLLECTION INCLUDES FIVE OF THE BEST HARDY VARIETIES.

BEAUTIFUL HARDY ROSES

Constantly grow in value. The roses below named are growing plants in from 2 to 2½-inch pots. Two-year-old plants have reached such excessive cost that we do not think they are worth the difference to the planter. It will pay you better to get first-class small plants than to use No. 2 stock of two-year-olds. We prepay postage or express charges on plants at prices named.

AMERICAN BEAUTY.—One of the best and most valuable roses, both for garden and house culture. Color rosy crimson, exquisitely shaded and very handsome. Extra large, full flowers, fine buds. A good bloomer. Each 35c.

BARON DE BONSTETTEN.—Rich, dark red, passing to a deep, velvety maroon, nearly black. A large flower, very highly scented. Each 35c.

CLIO.—Color flesh pink, shaded rose in center. Large flower of fine form. We think so highly of it we include it among our favorite varieties. Each 25c.

COQUETTE DES ALPS.—Flowers are large and full, finely formed and pure white. Profuse bloomer. Each 25c.

FRAU KARL DRUSCHKI.—Beautiful white variety often called White American Beauty, because habit and growth resemble that popular sort. Each 30c.

GENERAL JACQUEMINOT.—One of the grandest of roses; nothing can surpass them in beauty. Color a rich, dazzling scarlet, shaded with deep, velvety crimson; a superb, glowing color. Each 25c.

J. B. CLARKE.—Awarded gold medal of National Rose Society. A hybrid perpetual of unique color, being an intense scarlet, shaded with deep, velvety crimson-maroon. Flowers very large and fine. Strong, vigorous grower. Each 25c.

MRS. JOHN LAING.—For outdoor planting is undoubtedly the finest. A beautiful soft pink; delicious fragrance; very double and of large size. A constant bloomer. Each 25c.

MADAME PLANTIER.—Flowers borne in great profusion; are pure white; hardy as an oak, and certain to grow. Blooms in June. Each 20c.

PAUL NEYRON.—Double flowers of shining carmine pink. Largest rose known, and one of the most prolific. An exceptional grower, making shoots 4 to 5 feet high. Offered in our Iron Clad Collection. Each 25c.

TRIUMPH.—Superb variety from England. Sometimes known as "Hugh Dickson." Color crimson flamed scarlet. Blossom large, highly perfumed. Each 35c.

ULRICH BRUNNER.—A rich, glowing crimson scarlet; flowers of exquisite shape. The deep red in our Iron Clad Collection. Each 25c.

AMERICAN BEAUTY ROSE COLLECTION

Who has not heard of the American Beauty, the rose famed in poetry, story and song? The cut flowers are frequently sold during the winter at \$10 to \$25 per dozen. What flower lover has not hoped some day to have a "garden of roses" with American Beauties galore? This collection has proven very popular and has given satisfaction to planters everywhere.

AMERICAN BEAUTY, WHITE AMERICAN BEAUTY, BLACK BEAUTY, STRIPED BEAUTY, PINK BEAUTY and MOSS BEAUTY. By mail, prepaid.

SPECIAL PRICES: One each of the above for \$1.50.

AMERICAN BEAUTY ROSE

GOOD ROSES ARE EXTREMELY SCARCE THIS YEAR AND WE HAVE CONFINED OUR LIST TO THE CHOICEST SORTS ONLY

BABY RAMBLER ROSES

This type of roses has created a furore among rose planters in America and we list below four varieties in collection that our customers may have contrast of color necessary for best effects. Hardy, fine for permanent beds and for decorative landscape effects.

CRIMSON BABY RAMBLER.—A cross of the Crimson Rambler and a Polyanthus variety. The bush is vigorous, absolutely hardy, about 12 inches in height, and on our place every plant was in bloom every day of the summer and fall. 120 flowers have been counted on a single panicle. Each 30c.

BABY TAUSENDSCHON.—Dwarf form of the "Thousand Beauties" rose. Like the climbing variety, it shows many shades of color, from carmine to shell pink, in the clusters at the same time. It produces blooms in wonderful profusion and a few plants will give the effect of many varieties in a single bed. Each 30c.

WHITE BABY RAMBLER.—(Catherine Seimet.)—The true Baby Rambler type, with pure white flowers. Deliciously fragrant and perfectly hardy. Each 25c.

PINK BABY RAMBLER.—(Phyllis.)—A counterpart of the Crimson Baby Rambler except that color is a bright, shining pink. Each 25c.

ONE EACH OF THE ABOVE FOUR BABY RAMBLERS \$1.00.

HARDY CLIMBING ROSES

For porches and trellises nothing surpasses the climbing roses. Following are recommended as permanent plants.

CLIMBING AMERICAN BEAUTY.—Real American Beauty in flower, foliage and fragrance, but grows as a climber, often making 15 ft. in a single season. Flowers are very large, from 3 to 4 in. in diameter, of fine form and are borne in great profusion. A continuous bloomer, and hardy. Each 30c.

THOUSAND BEAUTIES.—(Tausendschon.)—Blooms produced in clusters and show different shades at same time, deep pink, grading to light shell pink. It is this feature that gave the rose its name of "Thousand Beauties." Not so thorny as most sorts. Ea. 30c.

SEVEN SISTERS.—One of the old standard climbing roses. Crimson, changing all shades to white. Blooms in clusters. Each 25c.

PRAIRIE QUEEN.—Always popular. Grows successfully everywhere and under any conditions. Bright pink, full and double; a large flower. Each 25c.

BALTIMORE BELLE.—Double blush white; large clusters covering plant with bloom. A favorite, popular because of hardiness and excellence. Each 25c.

CLIMBING ROSE COLLECTION

One each of the above five Climbing Roses for \$1.00.

RAMBLER ROSES

BLUE RAMBLER.—(Veilchenblau.)—The wonderful rose, having glossy green foliage and large clusters of medium sized flowers. Color is an attractive shade of violet crimson, later changing to a more distinctive and unique shade of violet-blue. Strong plants each 25c.

EXCELSA RAMBLER.—Greatly improved Crimson Rambler. Begins blooming two weeks earlier and color is brighter, more intense crimson; almost entirely free from mildew. Each 25c.

CRIMSON RAMBLER.—Most popular rose in existence, as it is always satisfactory. Many instances reported of 3,000 to as high as 19,721 flowers by actual count, on one bush. Exceedingly hardy. Flowers are produced in large trusses of pyramidal form and of brightest crimson color. Blooms remain on the plant for a great length of time without losing their brightness. Ea. 25c.

YELLOW RAMBLER.—A grand new variety like above except that it is golden yellow. Each 25c.

DOROTHY PERKINS.—A grand new sort remarkably like Crimson Rambler, but flowers more double and beautiful shell pink color. Each 25c.

WHITE DOROTHY PERKINS.—Like the parent variety with pure white flowers. Each 25c.

RAINBOW RAMBLER COLLECTION

One each of the six Ramblers for \$1.00.

CRIMSON BABY RAMBLER

COCHET ROSES

The Cochet roses are everblooming and distinctly beautiful.

MAMAN COCHET.—Buds large and pointed, while the open flowers are extra large, double and bloom all the time. Color is a rich, clear pink, changing to rose. Each 25c.

RED COCHET.—Buds long and pointed; flowers full and perfectly double; color rich, rosy crimson, bright and glowing. Each 20c.

WHITE COCHET.—An exact counterpart of the beautiful Maman Cochet except that it is of purest white. Very desirable. Each 20c.

YELLOW COCHET.—Deep sulphur yellow. True Cochet type; most desirable of yellow roses for outdoor planting. Each 20c.

FOUR COCHET ROSES FOR 75c

COPYRIGHTED 1895 BY A. BLAND
CRIMSON RAMBLER

SEVEN SISTERS

Fairy Roses

Small rose, marvels of grace and beauty; bloom in cluster.

YELLOW SOUPERT.—(Mosella.)—A choice novelty. The flowers are double; tinted white on a beautiful yellow ground. Each 25c.

LITTLE WHITE PET.—A pure white of perfect shape. Each 25c.

CLOTHILDE SOUPERT.—One of the most popular and satisfactory roses grown. Wonderfully free bloomer. White, shaded pink. Ea. 25c.

CECIL BRUNNER.—Is similar to Clothilde Soupert, except it is salmon rose on yellow ground color. Like all others of this class it is extremely free flowering. Each 25c.

THE FOUR FAIRIES 75c.

Moss Roses

CRESTED MOSS.—Deep pink buds surrounded by mossy fringe; fine. Each 30c.

CRIMSON GLOBE.—Large flower; deep, rich crimson; very mossy; fragrant. One of the best. Each 30c.

WHITE MOSS.—Everyone should have one of these lovely plants. Each 30c.

One each Moss Roses 75c.

SANSEVERIA

SALVIA
MRS. C. N. PAGE.—The salvias are among the most brilliant and showy bedding plants. This variety is semi-dwarf, grows about 2 ft. high with long spikes of dazzling crimson flowers. Each 20c. doz. \$2.00.

IMPROVED SPLENDENS.—Large, tall and fine, bright crimson flower and dark green foliage. Ea. 15c. doz. \$1.50.

SNOWSTORM.—White flowered, tall growing. A few among a bed of scarlet salvias are unique. Ea. 20c. doz. \$2.

PURPLE PRINCE.—A beautiful purple shade of this popular flower. Fine for mixed beds. Each 20c. doz. \$2.00.

ALFRED RAGANEAU.—An improved splendens type somewhat more dwarf in growth, surpassing the old type in vigor and beauty. Each 15c. dozen \$1.50.

ST. LOUIS.—Foliage green, with white spots. Blooms bright scarlet, very large. Attractive. Each 15c. doz. \$1.50.

KING ALBERT.—A new shade in salvias. A bright, pleasing pink. Habit and growth equal to any of the others. Each 20c.

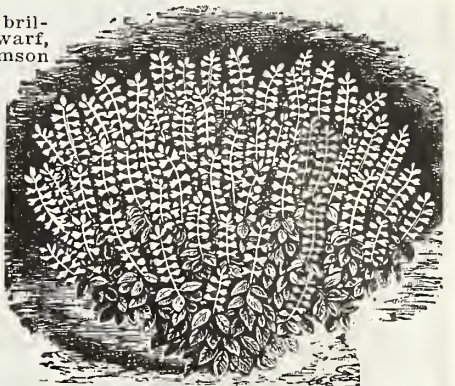

ONE EACH, SEVEN SALVIAS, POSTPAID, \$1.00.

STROBILANTHE

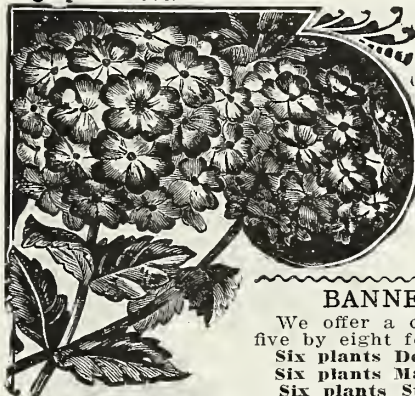

ROYAL PURPLE.—An excellent bedding plant and a beautiful foliage plant for pot culture. Forms a compact bush 18 inches high, with leaves 5 to 9 in. long, of beautiful metallic purple, shading into light rose; flowers violet blue, borne in immense racemes. Each 25c.

SANSEVERIA

ZELANICA.—Striking in appearance, and will stand downright neglect. Will grow in a dark, cool room or on the mantle in a heated sitting room. Requires little water yet remains thrifty. Singularly beautiful. Erect, rigid, sword-like leaves, which are thick and leathery, dark green color, beautifully striped crosswise with white. Each 25c, large plants 50c.

MRS. C. N. PAGE SALVIA

MAMMOTH VERBENAS

SWAINSONIA

WHITE.—A beautiful climbing plant. Habit of growth is extremely graceful, and trained up at the side of a window or on a trellis presents lovely light green, feathery foliage, and a splendid profusion of pure white sprays of flowers resembling Sweet Peas. Each 20c.

VERBENAS

Everybody likes Verbenas, as there is no one can help enjoying the sight of a nice bed covered with dark green leaves and brilliant blossoms. We have finest of colors. 10c each, \$1.00 per dozen.

BANNER VERBENA PLANT OFFER

We offer a collection of plants which will fill a bed five by eight feet and we offer you as a special.
 Six plants Defiance Giant Red Verbena.....50c
 Six plants Mammoth Snow White Verbena.....50c
 Six plants Superb Large Blue Verbena.....50c
 18 Choice Plants in Banner Colors, Postpaid, for \$1.25.

STROBILANTHE

WINDOW GARDEN SUPPLIES

These goods are sent by express or freight, customer paying charges, unless otherwise noted. Note mailing weight and postage required.

WIRE HANGING BASKETS.—Are made of wire; lined with moss and filled with dirt they are very attractive. Light, strong and durable, and have chain attached. By express, 8-in., with enough moss to line it, each 40c; 10-in., each 50c; 12-in., each 60c. If to go by mail add postage for two pounds.

FISH OIL SOAP.—(Usually called Whale Oil Soap.)—For plants infested by vermin. Also used against fungus diseases and will keep trunks of trees free from borers. Lb., by express, 35c. If to go by mail, add postage for 2 pounds.

PAPER FLOWER POTS.—Made of heavy, strong, waterproof paper. Fine for growing vegetable plants, pansies, asters, etc. You do not have to disturb roots of plants when setting in the open. 1/4-in., by express, doz. 10c, 100 for 65c; 3-in., by express, doz. 15c, 100 for \$1.00; 4-in., by express, doz. 25c, 100 for \$1.75. If to go by mail add postage, weight per dozen, 1 lb., per 100 3 lbs.

SPRINKLERS.—Made of pliable rubber with perforated cap. Large size holds about one pint, small size about one-third pint. Indispensable for floral work. Excellent for washing foliage of house plants. Large, each \$1.25, small \$1.00, postpaid.

Sulpho-Tobacco Soap

SPRINKLER

PAPER FLOWER POT

SULPHO-TOBACCO SOAP.—For a cheap, effective, clean and harmless insecticide this is unexcelled. Quickly exterminates all insect life on plants and flowers. Unsurpassed for rose bushes. It rids the house of cockroaches and is a superior wash for dogs and all animals. Prevents poultry lice. 3-oz. cake, sufficient for 1 1/2 gals. solution, by mail, postpaid, 15c; by exp. 12c. 8-oz. cake, for 4 gals. solution, by mail, postpaid, 30c; by exp. 25c. Six 8-oz. cakes by exp. \$1.35. If by mail add postage. Wt. 6 cakes 4 lbs.

STERLINGWORTH PLANT TABLETS Highly concentrated food for plants put up in small tablets to be used as needed. No. 1 pkg. (30 tablets) each 15c; No. 2 pkg. (100 tablets) each 25c; No. 3 pkg. (250 tablets) each 50c, postpaid at prices named.

RED SNAPPER PLANT FOOD.—A concentrated food for house plants, registered in Iowa. Trial size (10 oz.) 30c, postpaid. Regular size (24 oz. Plant Food and 8 oz. Plant Tonic, with booklet of instructions), postpaid 60c, or by exp. 50c; 12 1/2 lb. bag with tonic and booklet, by exp. \$1.50.

STANDARD HOUSE AND GARDEN FERTILIZER.—Highly concentrated product which promotes luxurious growth, increases yield, imparts a deep green color to foliage and brilliancy to flowers. A pinch for a house plant, a pound for 200 sq. ft. of ground. Directions with each package. 1/2 lb. 35c; lb. 60c; 5 lbs. \$1.75 Add postage as per table page 1.

VINES AND BASKET PLANTS

CLERODENDRON
BALFOURII.—Unique and beautiful. It presents a splendid combination of colors, having bright scarlet flowers with creamy white calyx; a profuse bloomer, young plants a foot high bearing several clusters. A strong and rapid grower. Each 20c.

CRIMSON CREEPER

HEERIA ROSEA.—A pot plant highly ornamental all the time. Long, slender and exceedingly graceful vines, red stemmed, with dark, rich green foliage; and are exceedingly pretty as they hang in wavy tresses over the side of a hanging pot or basket. It blossoms during the late winter, spring and early summer; flowers large and of a peculiar shade of bright crimson, and borne in great profusion. Each 15c.

GLECHOMA

(Variegated Ground Ivy).—The foliage is a bright green, marked with pure white and has a refreshing fragrance similar to mint. Graceful and beautiful for hanging baskets. A general favorite with all of our customers as there is a continual and steady demand for it. Entirely hardy when planted out, and makes an ornamental, dense mat on the ground. Each 15c, dozen \$1.25.

IVIES

ENGLISH.—Old favorite, showy the year round. Hardy in South; will not stand our Iowa winters. Each 15c, large plants 40c.

VARIEGATED ENGLISH.—Foliage is prettily marked pure white on dark green ground. A handsome pot plant or for trailing from sides of boxes or baskets. Each 15c.

KENILWORTH.—Old familiar trailing ivy. Perhaps the best for shaded places or rooms where light is not very strong. Each 15c, dozen \$1.50.

PARLOR.—Well known, popular as a plant for hanging baskets and vases. Grown with very little trouble. Each 15c, dozen \$1.50.

ONE EACH FOUR IVIES ABOVE ONLY 50 CENTS.

VINCA MAJOR

ELEGANTISSIMA.—The handsomest vine to grow in window boxes, hanging baskets, trailing from pots, rockeries, etc. The long, trailing stems of glossy green leaves are broadly margined and variegated with white. Of easiest culture and does well either in sun or in shade. Blue flowers. Each 20c, dozen \$2.00. Large size plants each 35c.

HARRISONI.—Similar to above but with darker variegation. Very popular because of its strong growth. A well grown plant will fill a large hanging basket. Each 20c, doz. \$1.75. Large size, each 35c.

WANDERING JEW (Tradescantia)

An old well known trailing plant nice for growing in hanging baskets, vases, pots or window boxes. Vigorous, rapid grower.

ZEBRINA.—Top of leaf dark green, striped white, reverse side red. Each 15c, 3 for 40c.

STRIPED.—Top of leaf light green, striped white, reverse side light green. Each 15c, 3 for 40c.

MAMMOTH.—Much larger growth than the ordinary sort, color plain green. Each 15c, 3 for 40c.

HANGING BASKET COLLECTION

This illustration of our popular collection but poorly depicts the beauty of a hanging basket filled with appropriate plants, well grown and healthy. We have in this collection chosen a half dozen plants which will give splendid results with little care and may be grown in any window garden.

BOSTON FERN.—The most popular decorative plant in the entire list. Each 20c.

REX BEGONIA.—Most beautiful foliage plant, a source of much satisfaction Ea. 50c.

WEeping LANTANA.—Trailing variety of Flowering Lantana. Each 20c.

VARIEGATED VINCA.—The most popular vining basket plant on the list. A favorite with all. Each 20c.

TRAILING FUCHSIA.—Adding much to the collection with its beautiful flowers and foliage. Each 20c.

WANDERING JEW.—The old-fashioned favorite basket plant. Each 15c.

Above postpaid, \$1.25. Or the six plants and one 8-inch wire hanging basket and moss for lining, all postpaid, for \$2.00.

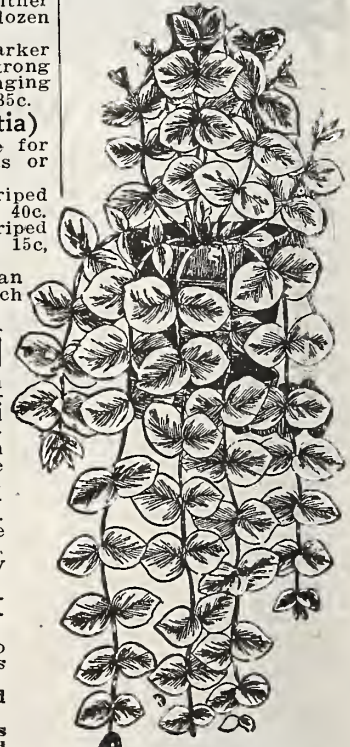

SAXAFRAGA

STRAWBERRY GERANIUM.—Well known, much used old plant for hanging baskets or vases. Long, strawberry-like runners. Grow vigorously and give satisfaction under hardest conditions. Each 20c.

SOLANUM

JASMINOIDES GRANDIFLORUM.—Of trailing habit but if desired it can be cut back to a bush form. Star-shaped flowers in large panicles; white with a violet tinge on back. Each 20c.

VINCA ELEGANTISSIMA

MANETTIA VINE

MANETTA

BICOLOR.—One of the handsomest little vines in existence. Easily and quickly grown; blooms continuously. Well adapted for hanging baskets, pot culture, vases or beds. Flower of size and shape shown in our cut, brilliant scarlet tipped with clear golden yellow. Blooms constantly and profusely in winter when taken into the house. Ea. 25c.

MOONFLOWER

WHITE.—Handsome climber, 25 to 40 ft. high, and covered nightly and on dull days with its white, moon-like flowers. Each 20c, dozen \$2.00.

BLUE.—Ipomea Leari.—Flowers are clear, satiny blue, well defined crimson bars. Each 20c, dozen \$2.00. 1 White and 1 Blue Moonflower 35c.

HANGING BASKET COLLECTION.

HARDY VINES

In making a home, plan for future beauty, comfort and happiness by planting a variety of hardy clematis, ornamental vines, shrubs and roses which will constantly grow in beauty and size. We prepay postage and exp. charges at these prices.

AMPELOPSIS

VEITCHII.—(Boston Ivy.)—One of the finest climbers for covering walls, as it clings firmly to the smoothest surface, covering it with overlapping foliage, giving the appearance of being shingled with green leaves. Entirely hardy in the most exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones, brick or woodwork with the greatest tenacity. Each 25c, doz. \$2.50. Large plants 60c, doz. \$6.00.

ENGELMANNII.—This is an improved Woodbine which bears very large, dense and abundant foliage. The leaves are glossy light green in summer, changing to brilliant crimson in autumn. Clings to rough stone or brick without support. Each 25c, doz. \$2.50. Large plants 50c, doz. \$5.00.

ARISTOLOCHIA

DUTCHMAN'S PIPE VINE.—Well known. It takes its name from the singular brownish colored flowers resembling in shape a pipe. The leaves are heart-shaped and retain their color from early spring to late fall. Each 25c.

AKEBIA QUINATA

A perfectly hardy, fast-growing Japan vine, producing flowers in large clusters, of chocolate purple color, possessing a most delicious perfume; the foliage is never attacked by insects. Each large 60c.

BIGNONIA

RADICANS.—(Trumpet Creeper.)—It has clusters of large, trumpet-shaped flowers with orange throat. Grows in almost any soil under trying conditions; hardy. It is one of the most popular of the hardy vines, and is useful and beautiful for any situation. Each 25c; large plants 60c.

BITTER SWEET

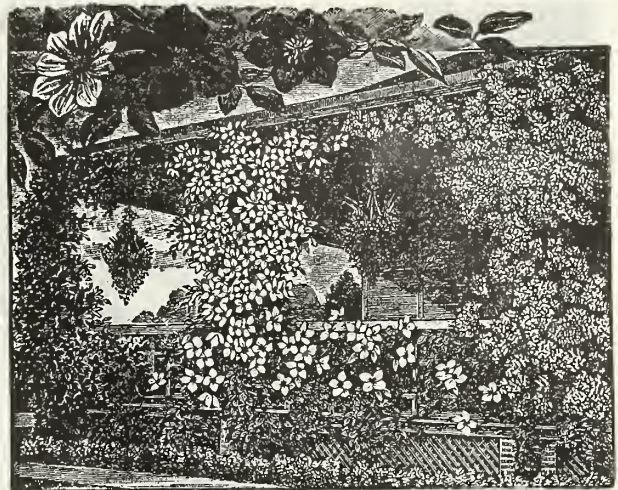

Large leaves, yellow flowers, orange capsuled scarlet fruit. One of the most popular of native plants, as its beautiful seed pods are prized for winter decoration. Each, large 50c.

CHINESE KUDZU VINE

Jack-and-the-Bean-Stalk Vine.—The phenomenal growth of this vine can hardly be imagined—sometimes 12 inches a day. Large leaves of bright green affords a dense shade. Valuable, rapidly covers arbors, fences, trees, rockeries, etc. Grows 50 to 75 feet when well established. Each 25c, large size 50c.

CAMELIA VINE

HARDY CLEMATIS

The most popular climbing plant of the day, and is constantly gaining in popularity—and why should it not?—as it is hardy, standing our most severe winters with but slight protection; grows rapidly and blooms freely during the entire season.

JACKMANII.—The most magnificent and showy vine in existence; of strong, healthy growth, perfectly hardy and sure to succeed anywhere. Flowers four to six inches in diameter, of a rich, deep velvety purple, distinctly veined. It is especially adapted to open lawns or house fronts in the city or country. Strong plants, each \$1.00.

HENRYII.—This may be briefly described as a white-flowered Jackmanii. It is the finest of all white sorts; the same size as Jackmanii. Each \$1.00.

PANICULATA.—This small-flowered variety of Clematis is one of our most beautiful, hardy, fall-blooming vines. The flowers, which are pure snow-white, are produced in immense clusters, fairly covering the plant with a mass of fleecy-white; deliciously fragrant. Of extreme rapidity of growth. Each 35c, large, extra strong plants 75c.

COCINEA.—A charming variety. Flowers are bell-shaped, brilliant coral red color. A rapid grower and free bloomer, flowering from June until frost. Perennial, about 12 feet high. Each 35c.

VIRGIN'S BOWER.—(Clematis Flammula.)—An old-fashioned popular climber, growing to a height of 20 feet, and covered with fragrant flowers. The vine is perfectly hardy, rapid growing, graceful, and will succeed anywhere. Each 25c; large 50c.

CLEMATIS COLLECTION.—A great bargain. A large plant of each of above kinds of Clematis for only \$3.00, postpaid.

HONEYSUCKLE

RED CORAL.—A shrubby climber and one of the most satisfactory of all plants. Has been a favorite for many years. The odd-shaped foliage is showy and attractive and it produces its bright red, fragrant, trumpet-shaped flowers almost continuously. Nice for a hedge or for training over a residence. Large plants 50c.

HALLIANA.—(Hall's Japan.)—The Halliana is considered by many the sweetest and most beautiful of all. Blooms constantly and profusely from June to November. Flowers pure white, changing to yellow, and of peculiarly delicious fragrance. Each 20c, doz. \$2.00. Large two-year-old plant 40c, dozen \$4.00.

GOLDEN LEAVED.—Slender, moderate grower; leaves are beautifully veined and netted with bright yellow; flowers yellow and sweet-scented; fine for pillars and trellises. Each 20c, large 50c.

HONEYSUCKLE COLLECTION.—One each of the three varieties above, offering distinct types, large plants \$1.20 postpaid.

CLEMATIS JACKMANII CLEMATIS HENRYII CLEMATIS PANICULATA

CAMELIA VINE

In the Camelia Vine (*Calystegia Pubescens*) we have a flower of true Camelia shape and size, perfectly double and of most beautiful rose color. Of easiest culture, growing well in any soil or location. Vine grows quickly to a height of 5 or 10 feet. Leaves are lance shape, dark green, and lap like shingles. Roots live over winter. Blooms from May to October. Each 25c, dozen \$2.50.

CHINESE MATRIMONY VINE

LYCIUM.—A very vigorous growing shrubby climber, perfectly hardy. Every new shoot becomes filled with small purple flowers, followed by brilliant scarlet berries which remain on the vine until late in the winter. Although flowers are not showy, the long stems droop gracefully and make an admirable covering for the porch. Each, large 35c.

HOP VINE

A vigorous, hardy, ornamental vine, for covering old trees, out-buildings, fences, etc. Produces the hops of commerce. Grows 50 feet high in a single season, is both ornamental and useful. Each 20c, 3 for 50c, dozen \$1.50.

SILK VINE

PERIPLUCA GRECA.—Beautiful rapid-growing climber, 30 to 40 feet high; hardy. Leaves glitter like silk, hence name. Flowers purplish brown, borne in clusters. Each 50c.

WOODBINE

VIRGINIA CREEPER.—A strong, rapid grower; foliage large, dark green; in autumn bronze and crimson. This is an old favorite and quite common in most localities. Valuable for covering back porches, out-buildings, arbors, etc. Each 20c, doz. \$2.00. Large size 35c, doz. \$3.50.

WISTARIA

BLUE CHINESE.—A very rapid grower and one of the most beautiful of all climbers. It is perfectly hardy, climbing to a height of fifty feet; when covered with bloom it is magnificent. Each 25c, large 75c.

WHITE.—Similar to above; flowers white. Each 25c; large 75c.

LARGE-FLOWERED CLEMATIS AND CLIMBING ROSES IN PINK OR RED ARE A FINE COMBINATION FOR PORCH ADORNMENT.

HARDY PERENNIAL PLANTS

Our customers are learning that these require less care and more satisfactory with ordinary culture than most other classes of plants. When once set out they bloom year after year, the flowers really becoming better as the plants grow older. These are all hardy, the tops lying down every winter, but coming up again in the spring. We prepay the postage.

ACHILLEA

THE PEARL.—Finest of all plants for cemetery planting. The flowers are good sized, forming a beautiful plant 18 inches high, completely covered with pure white flowers from July until frost. We recommend this for general planting. Each 15c, dozen \$1.50.

MILLIFOLIUM ROSEUM.—Finely cut, deep green foliage. Bears a mass of bright pink flowers or umbels. Each 15c, dozen \$1.50.

ANEMONE

WHIRLWIND.—Beautiful Japanese Anemone; has proved one of the finest hardy fall-blooming plants cultivated; grown to a height of 3 feet, holding up on stiff stems double flowers from two to three inches across, of pure white, and heavy, waxy texture. A large bed of this is worth going miles to see, and the large, graceful flowers are fine for cutting. Each 35c, dozen \$3.50.

BABY'S BREATH

(*Gypsophila Paniculata.*)—When in bloom it forms a symmetrical mass 2 to 3 feet high, of minute white flowers, giving it a beautiful mist-like appearance. For cutting purposes it is exquisite. Each 20c, dozen \$2.00.

DOUBLE BUTTERCUP

A dainty novelty. The flower is from one-half to three-fourths inch in diameter, perfectly double and of a peculiarly shining bright yellow color, as if varnished; produced in great profusion. Each 15c, dozen \$1.50.

COLUMBINE

(*Aquilegia.*)—Columbines are always beautiful and attractive, reminding one of the woods. Many handsome colors. Each 15c, dozen \$1.50. Large 25c.

IBERIS

SEMPERVIRENS.—(Perennial Candytuft.)—A dwarf plant producing clusters of flowers. A fine perennial for mass bedding. A mat of bloom in spring. Very desirable for borders of permanent beds or along walks and drives. Each 15c, doz. \$1.50.

MEHAN'S MARVEL MALLOW

Magnificent hardy Mallow; in size, profusion of bloom, and rich coloring among the most beautiful and striking perennials. Blossoms 8 to 10 inches across. Colors from fiery crimson to pure white. All shades of pinks and reds, rich in coloring. Ea. 30c, doz. \$3.00.

CANTERBURY BELLS

We can furnish assorted colors. Wonderfully fine perennials, which will often reach 3 feet in height. Color blue, rose or white. Each 15c, dozen \$1.50. Large 25c, dozen \$2.50.

PEARL ACHILLEA

DAY LILY

The day lilies are much liked for shaded situations as they thrive better than most perennials under this condition.

BLUE.—Lovely blue flowers, borne on tall spikes. Each 25c, dozen \$2.50.

VARIEGATED.—Beautifully mottled dark green and pure white leaves, lilac flowers. Each 25c, dozen \$2.50.

DICENTRA (Bleeding Heart)

SPECTABILIS.—The old Bleeding Heart as lovely as ever. In early spring it bears its long chain of pendulous bloom of exquisite beauty. One of the most satisfactory of permanent plants, and a general favorite. To secure satisfactory results, keep soil loose and rich. Each 65c.

FOXGLOVE

(*Digitalis.*)—These are most satisfactory summer flowering hardy perennials, succeeding under almost all conditions, and with but trifling attention will give wealth of flowers during June and July. They are used extensively with good effect in shrubberies and in other shady situations. Each 15c, dozen \$1.50. Large 25c, dozen \$2.50.

GAILARDIA

GRANDIFLORA.—Flower in June and continue one mass of bloom the entire season. Thrive in almost any position or soil. Perfectly hardy. Flowers large, from 2½ to 3½ inches in diameter, produced on long stems. Center is dark reddish brown. Petals scarlet, crimson orange and vermilion. Each 15c, doz. \$1.50.

GAILARDIA GRANDIFLORA

COLUMBINE

HIBISCUS

CRIMSON EYE.—Is a robust grower, with red stems and green foliage. Flowers are immense in size, often measuring 20 inches in circumference. The color is purest white, with a large spot of deep velvety crimson in center. Will succeed anywhere; is perfectly hardy. Each 25c, dozen \$2.50.

MOSCHEUTUS.—Is also called Swamp Rose Mallow. A splendid pink Hibiscus, with eye of darker shade, free flowering. Each 25c, dozen \$2.50.

HELIANTHUS

MULTIFLORUS PLENUS.—A perennial double flowered sunflower which has blooms from 2 to 4 in. across, double as any dahlia, and cover the plant. Color is a bright golden yellow. Give it a sunny position and rich soil. Each 20c, dozen \$2.00.

HOLLYHOCK

These old favorites are again becoming popular. Both showy and desirable for massing and backgrounds. Mixed colors, including black, white, pink, yellow and red. Each 15c, dozen \$1.50. Large 25c, dozen \$2.50.

CANTERBURY BELLS

OUR HARDY PLANTS ARE ALL ACCLIMATED IN IOWA AND WILL GIVE BEST OF SATISFACTION TO NORTHERN PLANTERS.

FRENCH IRIS

The true "Fleur-de-Lis," the national flower of France. Perfectly hardy, thrive anywhere, grow and bloom luxuriantly. Unless otherwise noted, price any variety, 15c each, dozen \$1.50. By express, 100 for \$10.00.

ALEXANDER HUMBOLDT.—Standards of violet, falls purple, veined white. Bears large, bold flowers on strong stems.

CELESTE.—Large, open flower of pure celestial blue, changing to porcelain blue as it ages.

FLAVESCENS.—Standard cream white, falls primrose veined bronze. Tall growing and late blooming.

FLORENTINA.—Rich indigo blue throughout. Flowers large, first in bloom and quite lasting.

FLORENTINA ALBA.—The best white iris. A lovely shade of color. Very early, fine. Plant for contrast.

HONORABLE.—Standards bright yellow, falls chestnut brown veined white. Free bloomer.

LA TENDRE.—Standards lavender, falls light blue, thickly veined violet. Pleasing, clean, bright color.

MADAME CHEREAU.—Is pearly white, edged with a broad margin of violet. Flowers are crumpled.

GYPSY QUEEN.—Standards a rich cream yellow. Falls deep purple, shaded bronze. Medium height. A free bloomer.

SAN SOULI.—Unique color combination, violet and yellow, finished apricot. Blooms freely.

SHAKESPEARE.—Standards of light yellow, veined seal brown, falls deep, carmine violet. A beauty.

PRINCESS VICTORIA LOUISE.—Standards sulphur yellow; falls rich plum, bordered cream.

SUCCESSION IRIS BED

One plant each of 12 named sorts of French Iris, giving a contrast of color, postpaid for only \$1.50.

JAPANESE IRIS

Among the most beautiful summer flowering plants. They send up to a height of 3 feet a dozen flowering spikes, each bearing two to four blossoms 8 or 10 inches across, and of most beautiful markings and color combinations—white, indigo, purple, blush, yellow, etc. Easily grown as a potato, in any good soil. Give full exposure to sun. Bloom freely in June and July. Mixed colors, each 25c, dozen \$2.50.

SUPERB PAEONIES

The Paeony is truly a most noble flower and rivals the rose in brilliancy of color and perfection of bloom, while greatly surpassing it in size and stately grandeur. One writer has well said that the "Paeony fully equals the rose except in poetry, perfume, thorns, bugs and disease." They are of the easiest culture, most vigorous habit, and free from disease and insects. The foliage is rich, glossy and ornamental, even when plants are not in bloom. Many of the newer varieties are quite fragrant and no other flower is so well adapted for large and showy bouquets. Plant the paeonies this year, plant lots of them in rows, beds or as specimen plants on the lawn. They make a grand show. Set out as early in spring as possible. In planting set the crowns not less than two inches below surface. We pay postage.

FIVE FAVORITES PAEONY COLLECTION

REMARKABLY FINE FOR A PERMANENT BED

Free bloomers, flowers of larger size, and contrast in colors will afford the greatest opportunity for mixed bouquets of these wondrous blossoms.

Festiva Maxima.—White, blotch of red in center.

Queen Victoria.—Like above but somewhat smaller.

Floral Treasure.—Light rose pink; very fine.

Fragrance.—Bright pink, brighter than above.

Grandiflora Rubra.—Deep blood red.

5 Favorite Paeonies, \$2.50, Postpaid

IRIS

WHITE PAEONIES

FESTIVA MAXIMA.—By far the finest double white paeony grown. The flower is of immense size, perfectly globular. Appears extremely double. Color purest snow white with carmine marks in center. Each 60c, doz. \$6.00.

COURONNE D'OR.—Peculiar in form, as the blooms are rather flat, but in the center is a touch of white, with a few crimson splashes like Festiva Maxima. Medium height, rather later than other white sorts. Vigorous. Each 75c.

QUEEN VICTORIA.—Very double and compact; color flesh white, white center, petals lightly spotted with red. A half dozen make a magnificent bed. Each 50c, doz. \$5.00.

GOLDEN HARVEST.—Nearest approach to a yellow paeony. Outer petals light blush, light yellow center. Prolific, bearing flowers in clusters of three. Ea. 60c, doz. \$6.00.

MARIE LEMOINE.—A rare and magnificent variety; flowers are enormous, opening a light blush pink, changing to white. Very late bloomer. Scarce. Ea. 75c, doz. \$7.50.

PINK AND ROSE PAEONIES

EDULIS SUPERBA.—This is a very large, full flower of light pink. Popular because of its strong growth and immense clumps. Each 60c, dozen \$6.00.

VICTORIA, TRICOLOR.—Is a very large, full flower; outer petals pale rose, inner petals white and center bright rose, thus showing three shades of color, from which it takes its name. Each 50c, dozen \$5.00.

FRAGRANS.—A very double flower of deep bright rose. Blooms late in the season. Strong, robust grower. Each 60c, dozen \$6.00.

DUCHESS D'ORLEANS.—Medium large compact flower. Guards are deep pink, center shaded salmon, with silvery reflex. Fragrant. Extra strong. Each 60c, dozen \$6.00.

FLORAL TREASURE.—One of the finest in the entire list. Flowers extra large and very double; exceedingly prolific; color soft, delicate blush pink. Ea. 60c, doz. \$5.00.

DUKE OF CLARENCE.—Most prolific bloomer in list. Wonderful large blooms somewhat cone-shaped. Color is deep pink, overlaid white, showing a composite appearance. Each 60c, dozen \$6.00.

BRIGHT AND DARK RED PAEONIES

FELIX CROUSSE.—Flower of bright red color, differing from most sorts in solid flower having practically no division of outer petals and center. Very double, late flowering. Each 75c, dozen \$7.00.

GRANDIFLORA RUBRA.—Has extra large balls of blood red, magnificent flowers. Probably the largest red variety in existence. Give it rich soil. Each 75c, dozen \$7.50.

RUBRA TRIUMPHANS.—An early blooming and very sweet-scented flower of rich, brilliant, glowing, satiny crimson color. Each 60c, dozen \$6.00.

FULGIDA.—The color is a deep, dense, bright crimson, and it is an early and free bloomer. A beautiful and very desirable variety. Each 50c, dozen \$5.00.

TRICOLOR PAEONY BARGAIN

One white, one pink, and one red, our choice of varieties, but good plants and will produce good flowers. A real bargain. **THREE DIFFERENT COLORS, POSTPAID, \$1.25.**

GARDEN PINKS

Dwarf hardy garden pinks that will grow anywhere and increase in beauty every year. A universal favorite because of its delightful clove-like fragrance.

LAURA WILMER.—A choice variegated sort of great beauty. Each 20c, doz. \$2.00.

ABBOTSFORD.—Deep carmine, marbled with white; has clove fragrance. Each 15c, dozen \$1.50.

ELSIE.—Bright rose with maroon center. A general effect pleasing and attractive. Each 15c, dozen \$1.00.

HER MAJESTY.—Grand variety; plants grow to an immense size, spreading and producing great numbers of pure white double flowers. Each 15c, dozen \$1.30.

HOMER.—Flower contains a dark center in bright red ground color. Each 15c, dozen \$1.50.

MIXED VARIETIES.—Desirable for large beds or borders. Dozen for \$1.25, 100 for \$8.00.

Large clumps named varieties of Garden Pinks 25c each, per dozen \$2.50.

BLUE SPIREA

BLUE SPIREA

(Caryopteria.)—This is a handsome shrubby plant for pots or open ground. Bloom from mid-summer until heavy frost. Each 20c, doz. \$2.00.

PLATYCODON

(Wahlenbergia.)—A bushy, herbaceous plant 2 to 3 ft., with handsome deep green foliage and bearing grand clusters of beautiful white, lavender and blue, large, bell-shaped flowers; blooms very profusely and continuously. Ea. 25c.

SHASTA DAISY

It can be grown out of doors by anybody where it is not cold enough to kill oak trees. It is perennial and blooms better and more abundantly each season. The flowers are extremely large and graceful, averaging about 4 inches in diameter, with three or more rows of petals of the purest glistening whiteness, and are borne on single, stiff, wiry stems, nearly 2 feet long. Effective in corners and as foreground of screens; are very popular for planting in clumps and masses among shrubbery or in the permanent garden. Strong plants 15c each; dozen \$1.50.

SHASTA DAISY

RUBBECKIA

RUBBECKIA

GOLDEN GLOW.—A glorious, well known and very popular hardy plant that should find a place in every garden. It is of extra fine habit; vigorous growth, with early, continuous and immense blooming qualities. The stems are long and gracefully poised. Attains a height of 6 to 8 ft., and a small plant set out in spring will produce hundreds of blossoms during August and September, each as large as a good sized chrysanthemum. It is of easiest culture. Nice for screen row. Price 20c, dozen \$2.00.

SEA PINK

ARMERIA, OR THRIFT.—Foliage narrow and grass-like; bears compact heads of flowers of handsome pink. Entirely hardy. Each 15c, dozen \$1.50.

PERENNIAL ASTER

Very showy, strong growing and free flowering, presenting a mass of small, bright flowers in large clusters during late summer and autumn. Many shades of color. Each 15c, dozen \$1.50.

SWEET WILLIAM

Well known, free blooming, hardy perennial plants which produce masses of lovely, brilliant, sweet-scented flowers through a long period, making a splendid effect in beds. One foot high. Flowers are borne on heads or umbels. Color white, pink, crimson, purple, etc., with rich markings. Each 15c, dozen \$1.50.

YUCCA FILAMENTOSA.

POPPY

The perennial poppies surprise and delight flower lovers with the wondrous size and beauty of the blossoms. Are very hardy and increase in beauty each year.

ICELAND.—Has fern-like foliage; bears an immense number of elegant flowers. Each 15c, dozen \$1.50.

ORIENTAL.—Mammoth flowers of gorgeous colors. Each 15c, dozen \$1.50.

HARDY PHLOX

No hardy perennials are more showy or effective than a fine collection of hardy phloxes, and the new and improved varieties will add much to their popularity. Flowers are very large and have brilliant shades of color. Many choice varieties and colors mixed. Each 15c, dozen \$1.25.

CREeping PHLOX

(Phlox Sublata.)—The Creeping Phloxes have a charming beauty. Absolutely hardy without protection. When in bloom, during April and May, their multitude of lovely white or blue flowers cover everything beneath as completely as carpets cover the floor. Bloom again in September, but not so freely. They do well on good soil, but are also desirable for covering rocky hillsides, sandy slopes, bare ground too poor to grow anything else, and for edging borders of hardy plants or shrubbery are not surpassed. We can furnish pure white and light blue. Each 15c, dozen \$1.50, 100 for \$10.00.

LINUM

PERENNIAL FLAX.—A desirable plant for the border or rockery, growing 2 ft. high, with light, graceful foliage and large blue flowers all summer. Each 15c, doz. \$1.50.

DELPHINUM

FORMOSUM.—(Hardy Larkspur.)—Its long spikes of bright blue flowers are produced from June till frost. Handsome in clumps. Each 15c, doz. \$1.50.

VIOLETS

Of all perfumes that of violets is no doubt most delicate and pleasant. Grow and bloom freely if given a cool situation, but will not succeed in a warm place. Cover well to insure protection during the cold weather of winter.

SWANLEY WHITE.—Finest double variety. Of vigorous growth, producing a great many pure white double flowers. Has such delightful odor it is called "Queen of Fragrance." Each 25c, doz. \$2.50.

LADY CAMPBELL.—To contrast with white. Color deep violet blue; very fragrant; continual bloomer, is of easy growth. Each 20c, doz. \$2.00.

YUCCA

FILAMENTOSA.—(Adam's Needle.)—Tropical looking plant with long, narrow leaves, remains green entire year. Grows in clumps and throws up flower stalks from 3 to 4 ft. high, from which hang 100 to 300 creamy white, bell-shaped flowers. It blooms a long time. Each 25c, dozen \$2.50. Strong two-year-old 50c.

HYDRANGEA PANICULATA GRANDIFLORA

HYDRANGEA

NEW SNOWBALL.—(Arborescens Grandiflora Alba.)—Flowers much more profuse than Paniculata and though the blooms are not so large they are pure white and more like the snowball. Blooms in July and August. Each 25c, doz. \$2.50, large 75c postpaid. By express, per doz. \$7.00, per 100 \$50.00.

PANICULATA GRANDIFLORA HYDRANGEA.—The most popular of all shrubs. Unsurpassed for the lawn, a hedge, or cemetery planting. Attains a height of 5 to 7 feet; is hardy in all localities and in July and for two or three months the flowers are massive, cone shaped, sometimes 10 inches in length, changing from white to pink and finally to a beautiful, rich, coppery red. Each 25c, doz. \$2.50. Per 100, by express, \$18.00. Large plants each 75c. By exp., doz. \$7.00, 100 \$45.00.

PRIVET

CALIFORNIA.—A most vigorous grower of compact and regular form; foliage is a beautiful shade of glossy, wax-like green which it retains well into the winter, being almost an evergreen. For hedges plant 8 to 10 inches apart. Strong plants per dozen, \$1.50; prepaid. By express, per 100 \$8.00; 500 for \$35.00.

ARMURENSE.—Makes a splendid formal hedge. The plant has glossy leaves and almost an evergreen. Stands the severest winters. Hardest of all privets. South of Iowa line the California variety is generally more popular. Each 30c, doz. \$3.00, prepaid. By express, 100 for \$20.00.

BARBERRY

THUNBERGII.—A very pretty variety from Japan; dwarf, graceful habit; foliage is small, changing to beautiful bright red early in fall; showy. Large plants 60c. By express, doz. \$5.00, per 100, \$40.00.

SYMPHORICARPUS

RACEMOSUS.—(Snowberry.)—Small pink flowers, followed by large white berries, which hang on most of the winter. Each 25c, doz. \$2.50.

VULGARIS.—(Coral Berry.)—Nice hedge plant, naturally graceful, 2 to 3 feet high. Frequently grows wild in meadows and woodlands. Each 25c, doz. \$2.50. By express, 100 for \$20.00.

SPIREA

BILLARDI.—A strong growing variety; pink flowers. Each 50c.

ANTHONY WATERER.—Grows 18 to 36 inches high, and is covered from spring until fall with large heads of crimson flowers. Fine for borders. Each 50c, dozen \$5.00.

VAN HOUTTEI.—(Bridal Wreath.)—Fine compact clumps with pure white flowers borne in masses drooping gracefully. Each 25c, dozen \$2.50, 100 for \$18.00. Large, each 40c, dozen \$4.00. 100 by express, not prepaid, \$25.00.

THUNBERGIA.—Slender, gracefully drooping branches. Has single white flower. Blooms early. Large plants each 50c.

SYRINGA

GRANDIFLORA.—One of the strongest growing varieties, with lovely, large, very fragrant flowers. Each 40c.

LE MOINEI.—A charmingly fragrant variety. Flowers are yellowish white. Each 40c.

TAMARIX

Foliage is light, feathery and graceful, sage blue in color and very striking. Pink blooms through summer. Each 50c.

WEIGELIA

ROSEA.—Of robust but graceful growth, 5 to 6 ft. high; it produces immense numbers of superb large trumpet-shaped flowers in June and July, also some in the fall. The plants frequently have more flowers than leaves. Large plants 50c, dozen \$5.00.

EVA RATHKA.—A splendid new variety. Has large purplish red flowers with rich, creamy white markings. Large plants 60c.

VARIEGATED.—A neat, dwarf shrub; variegation of green, yellow and pink in its leaves; flowers delicate pink. Large 75c.

GRANDIFLORA WHITE.—Flowers are pure white, without shade or markings. Large plants 60c.

HARDY SHRUBS

Shrubs are permanent improvements which increase in size, value and beauty year after year. Our price is for strong, healthy plants sent by mail, postpaid, except if they are quoted "by express" it means that customers are to pay cost of transportation.

ALTHEA (Rose of Sharon)

DOUBLE WHITE.—Beautiful shrubs. Of neat shape, nice foliage and valuable for hedge plants, are loaded with large, double, white flowers during fall. Each 35c.

DOUBLE RED.—Similar to above but flowers are bright red color. Each 35c.

DOUBLE PURPLE.—Like above, except flowers are beautiful purple. Each 35c.

DOUBLE BICOLOR.—White, blotched pink. Very beautiful. Each 35c.

CORNUS

FLORIDA.—(White Flowering Dogwood.)—An ornamental and spreading, irregular-shaped tree producing large white flowers in the spring; crimson foliage in autumn. Each 35c.

STOLONIFERA.—(Red Twigg'd Dogwood.) A strong growing shrub, with clusters of fine white flowers, stem and branches turning blood-red in winter. Each 35c.

DEUTZIA

PRIDE OF ROCHESTER.—A very desirable shrub of strong, hardy growth, with nice, luxuriant foliage and bearing an abundance of beautiful, double white flowers. Each 40c.

CRENATA.—Flowers are double white and tinged with pink. Each 40c.

DWARF HONEYSUCKLE

RED TARTARIAN.—Blooms in June with beautiful pink and white flowers, followed by red-berries. Each 30c.

LILAC

PERSIAN.—Strong growing shrub, bearing large, fragrant clusters of purple flowers very early in spring. Large plants 75c.

FIERY PLUME.—A novelty in lilacs. The brightest and nearest red flower of all lilacs. Very showy and desirable. Large plants 75c.

NEW DOUBLE WHITE.—A recent novelty of great merit. The truss is of large size and produced in profusion. The individual flowers resemble miniature tuberoses. Large plant 75c.

COMMON.—The old standard variety with bluish purple flowers. Large plants 60c.

SINGLE WHITE.—Like above, but has white flowers. Large plants 75c.

SNOWBALL

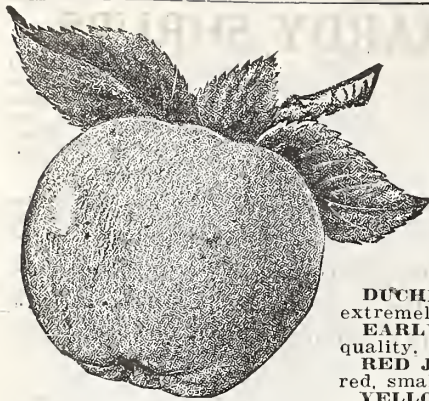

COMMON.—Well known and popular shrub covered with dense white flowers, which give it its name. Large plants each 65c.

JAPAN.—Valuable improvement on the common Snowball; flowers are smaller and more numerous, often as many as twenty on a stem 18 inches high. Large plants each 75c.

SNOWBALL

NURSERY STOCK

YELLOW TRANSPARENT APPLE

CRAB APPLES

Price \$1.00 each, \$11.00 per dozen.

TRANSCENDENT.—Small, yellow, popular.

WHITNEY.—Large, bright red, vigorous and productive. Popular variety.

CHERRIES

Price \$1.50 each, dozen \$16.00.

EARLY RICHMOND.—Medium size, dark red, juicy, acid flavor. Unsurpassed for cooking. Standard early variety in Middle West.

MONTMORENCY.—Large red acid cherry; is larger than Early Richmond and about ten days later. A superior sort for home use.

ENGLISH MORELLO.—Deep, dark red. Very acid, but fine for pies. Late.

PEARS

Any of the following by express, \$1.50 each, dozen \$16.00.

CLAPP'S FAVORITE.—Very large, yellow and dull red with russet specks. Rich and melting. Ripens in August.

KIEFFER.—Large, rich colored and good quality. Excellent for canning; will keep until winter. Hardy. Ripens in October.

BARTLETT.—Large size, excellent quality. A leading variety. Ripens in August.

SHADE TREES

We shall be pleased to supply Shade or Ornamental Trees at prices given. Please remember they come direct from the nursery and cannot be shipped with any other goods except nursery stock.

ASH—American White.—Fine, hardy trees of symmetrical, rapid growth. 6 to 8 ft., 75c each; \$6.00 per 10.

BOX ELDER.—Well known, quick-growing, hardy tree. Succeeds everywhere. 6 to 8 ft., 75c each; \$6.00 per 10.

CAROLINA POPLAR.—Takes first rank among rapid growing trees. It thrives everywhere. Resembles Cottonwood but does not bear seed. 6 to 8 ft., 60c each; \$5.00 per 10.

CATALPA SPECIOSA.—Fine, rapid grower. Valuable also for timber, posts and cross-ties. Popular in semi-arid regions. 6 to 8 ft., 75c each; \$6.50 per 10.

ELM—American White.—Well known, beautiful shade and park tree. 6 to 8 ft., 75c each; \$6.00 per 10.

LINDEN—American.—Known also as Basswood or White wood. A fine spreading native tree with large leaves and fragrant flowers. 6 to 8 ft., \$2.00 each; \$18.00 per 10.

MAPLE—Soft or Silver.—Valuable for producing quick shade. 6 to 8 ft., 75c each; \$6.50 per 10.

MAPLE—Hard or Sugar.—Slow grower but very hardy, valuable and beautiful. 6 to 8 ft., \$2.00 each; \$18.00 per 10.

NORWAY MAPLE.—Hard wood, fine foliage, with beautiful spreading top. 6 to 8 ft., \$2.50 each; \$20.00 per 10.

SYCAMORE—American.—Lofty, spreading tree with handsome broad leaves. 6 to 8 ft., \$1.50 each; \$12.50 per 10.

CUT FLOWERS FOR ALL OCCASIONS

Our Cut Flower department is fully equipped to care for your orders for funerals, weddings, decorations, and social occasions. Write for price list of seasonable offerings. Address Iowa Floral Co., Des Moines.

Carefully packed and are sure to please.

Fifty or more of any sort sold at the hundred rate; purchaser to pay transportation charges by express or freight on all nursery stock unless otherwise quoted. Orders must amount to at least one dollar. These are shipped direct from the nursery and cannot be sent with other goods. Ask for special prices on large orders.

APPLES

Price \$1.00 each, \$11.00 per doz., 100 for \$75.00.

Summer Varieties

DUCHESS.—Yellow, striped red; medium to large; extremely hardy and productive.

EARLY HARVEST.—Large, golden yellow; splendid quality. Very popular in Iowa for many years.

RED JUNE.—Choice quality, very early, bright dark red, small to medium size.

YELLOW TRANSPARENT.—Very early, light yellow, medium size; juicy, sub-acid.

Autumn Varieties.

MAIDEN'S BLUSH.—Yellow with beautiful blush cheeks. Good quality. Medium large.

RAMSDELL SWEET.—Large. Rather oblong shape. Dark red. Best fall sweet apple.

FAMEUSE.—(Snow Apple.)—Deep dark red, flesh very white, juicy and rich. Splendid sort.

Winter Varieties.

BALDWIN.—Famous eastern market apple. Large, bright red, crisp, juicy and rich.

BEN DAVIS.—Large, red, striped yellow, good quality, good keeper. Profitable market sort.

DELICIOUS.—Large, brilliant red, shading to a golden yellow at blossom end. Extra quality.

GRIMES GOLDEN.—Large, golden yellow. Favorite sort because of extra choice quality.

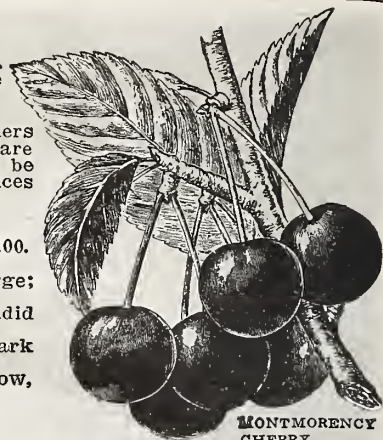

JONATHAN.—Most popular of all. Large, deep red. Rich flavor, juicy and sweet.

NORTHWESTERN GREENING.—Large, light green. The fruit has been kept for a year.

TALMAN'S SWEET.—Medium size. Pale whitish yellow. Good quality.

WEALTHY.—Large, red, showy, sub-acid and productive. Most popular.

WINESAP.—Medium. Deep red. Quality very fine. Rich, crisp flesh, sub-acid flavor. Popular.

MONTMORENCY CHERRY.

PEACHES

Each 75c, dozen \$7.50.

CROSBY.—Medium size, bright orange yellow, streaked carmine. One of the best standard sorts and claimed to be the hardest of all. Ripens in September.

CHAMPION.—Fruit large, beautiful in appearance, excellent flavor, skin creamy white with red cheeks, extremely hardy with free stones. Ripens in late August.

ELBERTA.—The most popular early market sort. Large, bright lemon yellow, with blush cheeks. Ripens in August.

PLUMS

By express, each \$1.50, dozen \$16.00.

ABUNDANCE.—Hardest of Japanese varieties. Large, showy, fine quality.

BURBANK.—Considered by some to be the best of all the European sorts. Color clear cherry red with thin lilac bloom. Flesh deep yellow, very sweet.

WEAVER.—Flesh firm, red, juicy with flavor resembling apricot, free-stone, early bearer and very productive, hardy and said to be curculio proof.

WILD GOOSE.—Large, rich and melting; delicious. Strong grower and prolific.

WEeping TREES

WEIR'S CUT LEAF MAPLE.—Cut leaved, very hardy and graceful. 6 to 8 ft., \$1.75 each; \$15.00 per 10.

WISCONSIN WILLOW.—An upright grower but with drooping twigs. 6 to 8 ft., \$1.00 each.

WEeping CUT LEAF BIRCH.—Perhaps the most elegant of all lawn trees. Delicate foliage, silvery white bark. Tall and slender but a vigorous grower. Every householder should have one or two specimens. 5 to 6 ft., \$2.00 each; 6 to 8 ft., \$2.00 each.

TEA'S WEeping MULBERRY.—Very distinct and beautiful. Hardy, 1-year head, each \$3.00.

ORNAMENTAL TREES

BECHTEL'S FLOWERING CRAB.—Medium size tree and large, very double, fragrant flowers. 3 to 4 feet, \$1.50 each.

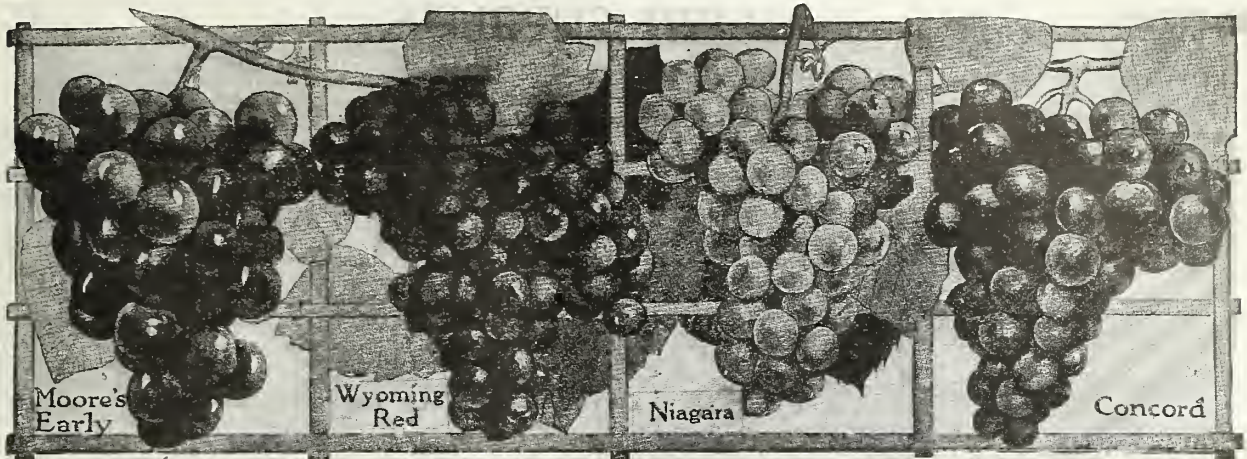

CHESTNUT—The American Sweet.—Well known; valuable for nuts and lumber. 6 to 8 ft., \$1.50 each, \$12.00 per 10.

SCHWEDLER'S MAPLE.—Red foliage in spring changing to green in summer and red again in the fall. Beautiful tree for parking. 6 to 8 ft., \$3.00 each; \$28.00 per 10.

MOUNTAIN ASH.—A fine hardy, small tree. Bears red berries. 6 to 8 ft., \$1.50 each.

CERTIFICATE OF NURSERY INSPECTION.

Office of the State Entomologist, State of Iowa, Ames, Iowa, September 1, 1921, Number 126. This certifies that the nursery premises of Iowa Seed Company, located at Des Moines, Iowa, has been inspected as provided by the laws of Iowa (Section 2575-a5) supplement to the Code, 1913, and found apparently free from dangerous insects, pests or plant diseases. Permission is hereby granted to the owners of the above named nursery to sell and ship nursery stock which has been inspected for the year ending September 1, 1922, provided that a copy of this certificate is attached to each container. Certificate expires September 1, 1922.—F. A. FANTON, Acting State Entomologist.

GRAPES

Our grape vines are No. 1 one-year vines which experience has shown to be the best size for transplanting. The most robust vines are marketed by nurserymen generally at one year old; the culls grown another season and sold as two-year-olds. Write for prices in large lots.

AGAWAM.—Berries are very large and bright red, with thick skin; very vigorous grower. The fruit is of good quality. Each 35c, dozen \$3.00.

BRIGHTON.—Of best quality. Bunch and berry large, of bright red color and it is quite productive. Each 40c, dozen \$3.50.

CAMPBELL'S EARLY.—Strong grower, large, with healthy foliage. Very productive; keeping and shipping qualities unequalled by any early grape. Ripens with Moore's Early. Bunch and berry large, glossy black with blue bloom. Sweet and juicy; clusters usually shoulder. Each 40c, dozen \$3.50.

CONCORD.—Well known standard black sort. Succeeds everywhere. Each 20c, dozen \$2.00.

MOORE'S EARLY.—Bunch large, berry very large and round, vines are exceedingly hardy. Desirable early market black variety; popular. Each 35c, dozen \$3.00.

NIAGARA.—A leading white sort; very productive and hardy. Bunch is white, changing to pale yellow when fully ripe; skin is thin and tough. Quality extra fine. Each 35c, doz. \$3.00.

WYOMING RED.—Claimed to be as choice in quality as the Delaware. Fruit is larger and brighter red than that sort. Each 35c, doz. \$3.00.

WORDEN.—A large grape of the Concord type, much earlier, larger and of better quality; hardy and more productive. Each 25c dozen \$2.50.

GOOSEBERRIES

Cannot ship to any state west of Minnesota, Iowa, Missouri, Arkansas and Louisiana.

CHAMPION.—A new variety from Minnesota. Hardy, free from mildew, very productive, large size and recommended as the best. Ea. 25c, doz. \$2.50.

JOSSELYN.—Of superior merit. Is very large, hardy, productive and free from mildew. Each 35c, doz. \$3.50.

PEARL.—Most prolific; hardy, entirely free of mildew. Superior size and yield. Each 30c, doz. \$3.00.

HOUGHTON.—Pale red, good quality, productive. Each 20c, doz. \$2.00.

DEWBERRIES

LUCRETIA.—The best dewberry for this section. Berries much larger and better quality than blackberries. Doz. \$1.00, 100 for \$6.00.

STRAWBERRIES

Quick service and special packing is necessary in handling strawberry plants. For these reasons we ship strawberry plants by themselves. Perfect flowered sorts are marked (s); imperfect marked (p), must have perfect flowered planted with them. Ask for quantity price.

AROMA (s).—The best and most profitable late berry. It is very prolific and of most excellent color and quality. Plants strong, vigorous and free from disease. Fruits very large, roundish, conical, glossy and bright. Per doz. 25c, 100 \$1.25, postpaid. By express, 300 for \$3.25, 1,000 for \$10.00.

BEDERWOOD (s).—One of the best varieties for planting with Warfield or Crescent. Produces a large amount of pollen. Fruit is of excellent color and a good shipper. Ripens early. Doz. 30c, 100 for \$1.75, postpaid. By express, 300 for \$4.25, 1,000 for \$12.50.

BRANDYWINE (s).—Large berry, vigorous, strong grower, and a large, heavy plant. Fine for market; large, firm and handsome red color. Blooms perfect, a good fertilizer for other sort. Doz. 30c, 100 for \$1.75, postpaid. By express, 300 for \$4.25, 500 for \$12.50.

SENATOR DUNLAP (s).—Medium sized sort; is very hardy, productive, a vigorous grower. Bears until quite late. Unsurpassed in quality; claimed best all around variety. Doz. 30c, 100 for \$1.75, postpaid. By express, 300 for \$4.25, 1,000 for \$12.50.

WARFIELD (p).—One of the best known market berries, medium size, excellent quality, and a good shipper. One of the best early and maintains its size well throughout the season. Doz. 30c, 100 for \$1.75, postpaid. By express, 300 for \$4.25, 1,000 for \$12.50.

EVERBEARING STRAWBERRIES.—Progressive and Superb varieties.—Per dozen 50c, 100 for \$2.50, postpaid. By express, 300 for \$6.00, 1,000 for \$17.50

FAMOUS STRAWBERRY BARGAIN

25 each Sen. Dunlap, Bederwood, Warfield, Aroma Four varieties, furnishing both male and female blossoms suitable to grow together and give a succession of fruit all season. 100 plants in all (just enough for a home bed), well rooted, vigorous and young plants that have never fruited. Postpaid for \$1.50.

CURRANTS

Cannot ship to any states west of Minnesota, Iowa, Missouri, Arkansas and Louisiana.

POMONA.—Most productive and vigorous. Ripen early but remain on the bush longer than any other; fine quality. Each 25c, dozen \$2.75.

FAY'S PROLIFIC.—One of the most prolific, of excellent quality. Each 25c, dozen \$2.75.

WHITE GRAPE.—Standard. Fruits are light colored, mild and fine flavor. Ea. 25c, doz. \$2.75.

RASPBERRIES

Our varieties are all tip grown plants. We do not sell sucker plants, nor varieties which propagate from suckers.

COLUMBIAN.—This is a leading purple-red variety. Fruit is rich and sprightly in flavor, and is superior for canning, jam or preserving. Grows very large, strong and vigorous and yields immensely. Doz. \$1.25, 100 \$8.00.

ST. REGIS.—Everbearing red variety. Spring set plants bear the first year, continuing to fruit until late in fall, late crop coming on the tips of new canes. Hardy and the best everbearing red raspberry. Doz. \$1.50, 100 \$10.

NEW CARDINAL.—Surprises all by its great growth, extreme hardiness, great productiveness and the unusual richness of its flavor, large purple berries. Dozen \$1.25, 100 for \$8.00.

KANSAS.—Ripens about one week earlier than Gregg. Fruit large and firm. Valuable as a home or market variety. Dozen 75c, 100 for \$5.00.

GREGG.—Hardy and excellent. Has been leading blackcap sort for many years. Dozen 75c, 100 for \$5.00.

CUMBERLAND.—One of the best of blackcap variety. It is of very large size, good quality; firm and handsome and an excellent shipper. Plants vigorous and hardy, productive and free from disease. Doz. 85c, 100 for \$6.00.

BLACKBERRIES

SNYDER.—Standard sort. No other so prolific or so desirable for shipping. Doz. 75c, 100 for \$6.00.

ANCIENT BRITON.—Regarded as one of the hardiest and especially adapted to Iowa, Wisconsin and Minnesota. Dozen 75c, 100 for \$6.00.

BLOWERS.—A sturdy grower and quite hardy. The fruits are large, melting and of splendid quality. Dozen \$1.00, 100 for \$7.00.

WARFIELD

LAWN SUPPLIES

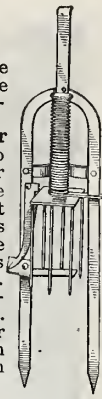

Customers to pay cost of transportation on goods in this department. Items which can be mailed are listed with shipping weight and you can add postage, if you want them to come by mail, add postage, according to parcel post table on page 1. Ask for Free Booklet "How to Make a Lawn." See page 40 for lawn grass seed and fertilizer.

PASTIME LAWN MOWER.—After many years' experience in the lawn mower trade, we have adopted the policy of confining our line to one style and two sizes. The real problem is to get the very best mower possible at a fair price and offer it in sizes most convenient. In our Pastime mowers we have a new style which we are offering as the easiest running mower yet produced. It is ball bearing and has four cutting knives. The wheels are 9 1/4 inches in diameter. Illustration shows general style of the machine. The writer uses one at his own home and recommends it as the best mower we have ever had. Price, 16-inch \$14.00, 18-inch \$15.50.

GRASS CATCHERS.—Most successful device for the purpose. Attached to handle only. Does not interfere with action of mower. Illustration shows it adjusted. Can be quickly adjusted at lower end to dump grass. No. 1, for 12 to 16-inch ordinary mowers, each \$1.00. No. 20, for large mowers, size 16 to 20-inch, each \$1.25. Mailing weight 2 lbs. each.

LITTLE GIANT MOLE TRAP.—Not so large as the Reddick but principle is similar. Strong, durable and will do the work. Is easily set. Has a strong spring with great force. Each, by exp., \$1.25. Weight 2 lbs.

REDDICK MOLE TRAP.—If you are bothered with moles you should purchase one of these traps. It is undoubtedly the best trap made and no mole can pass under it and live. Each, by express, \$1.35. Weight 2 lbs.

LITTLE GIANT MOLE TRAP

PASTIME LAWN MOWER

SPRAYERS

Each year proves the importance of spraying fruit trees and plants in order to destroy the insects and secure a good crop. The most successful fruit growers are the most enthusiastic on spraying. It will pay you to invest in spraying apparatus if you have only one fruit tree. The spraying of apple and plum trees is especially recommended. A circular giving full information mailed free on request. All spray pumps are sent by freight or express, not prepaid, except where noted.

THE AUTO-SPRAY NO. 1.—Compressed Air Sprayer.—Our choice of compressed air pumps of strength and simplicity. Will not get out of repair and is kept absolutely clean without difficulty. Diameter 7 inches; height 2 feet; capacity 3 1/2 gals.; weight empty 7 lbs.; weight loaded 30 lbs.; weight shipping 15 lbs. Illustration shows mechanism. If additional information is wanted, send for circular of the Auto-Spray. Prices: Auto-Spray No. 1B, brass tank with "Auto-Pop," \$11.00. Auto-Spray No. 1D, galv. tank with "Auto-Pop," \$7.25. Two-foot brass extension rod, postpaid, 75c.

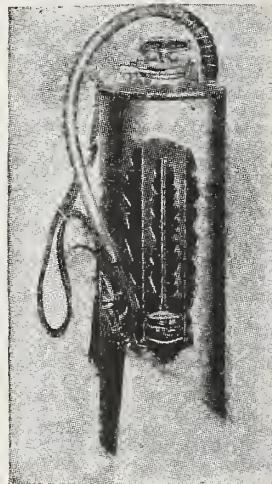

ACME COMPRESSED AIR SPRAYER.—Pattern shown by illustration. It is 18 inches high and 7 1/4 inches in diameter. Capacity is four gallons but works better if not more than 3 1/2 gallons is placed in it. There is no leather or wood in the pump valve to expand and contract. Has three-piece nozzle for fine or coarse spraying. Shipping weight 10 lbs. Price, galvanized \$6.50; brass \$9.00.

IMPROVED FAULTLESS, or "Misty" Sprayer.—Shaped like the standard Faultless, but the spray nozzle protrudes through the tank, making it stronger. Mailing weight 2 pounds. By express, brass \$1.00; galvanized iron 75c; tin 50c.

LOWELL BUCKET PUMP.—A low priced, serviceable bucket pump, made similar in pattern to the Little Giant; not quite so large. It has only one tube with plunger. Is useful for garden spraying, washing autos or windows, and for light work generally. Well constructed and will last many seasons. The best of the small brass bucket pumps. Each \$5.50. Mailing wt. 5 lbs.

THE LITTLE GIANT BUCKET SPRAY PUMP.—Constructed entirely of brass and is provided with a large air chamber and has ball valves, and the pressure is held uniformly so the nozzle throws a continuous spray. Will throw a solid stream 50 to 60 feet; fitted with hose and imperial combination and fine and coarse spray, solid stream nozzle and foot rest. Price by exp. \$5.50. 8-ft. pipe extension, by exp. 75c. Mailing wt. of pump 7 lbs.; of extension pipe 2 lbs.

LEVER BUCKET OR BARREL SPRAY PUMP.—Similar to the Little Giant but is larger, has lever handle with cog gears and can be attached to bucket or barrel. Action of plunger keeps liquid thoroughly mixed. Are of brass, will not rust. Price by exp. \$8.50; 8-in. extension pipe (for use among large trees), by exp. 75c. Mailing wt. of pump 9 lbs.; of pipe 2 lbs.

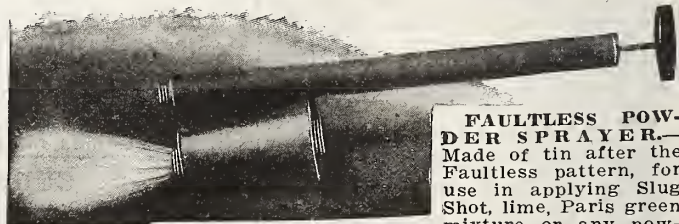

AUTO SPRAYER

FAULTLESS SPRAYER

CONTINUOUS FAULTLESS SPRAYER.—Is made like the old standard Faultless Sprayer which is the most popular of this type. Made in such a way that the action of the plunger forces a continuous fine mist spray and drawing back plunger does not stop flow as in old style sprayer. Add postage for mailing, wt. 2 lbs. By exp., brass \$1.50, tin, \$1.

FAULTLESS POWDER SPRAYER.—Made of tin after the Faultless pattern, for use in applying Slug Shot, lime, Paris green mixture or any powdered insecticides. Light and easily handled. Does the work perfectly and it is the most economical method in quantity of powder applied. It is cheap and effective. If to go by mail add postage for mailing. By exp., not prepaid, \$1.00. Mailing weight 4 lbs.

DUSTERS.—Buckets with perforated bottom, used for applying Slug Shot or other forms of powdered insecticides. Very convenient and effective for the purpose. Each, by exp., 75c. Mailing weight 1 pound.

LITTLE GIANT PUMP

SPRAY MATERIALS

Sherwin-Williams Insecticides,

Poisons are not mailable. All items on this page go at customer's expense unless quoted postpaid.

It is vitally important to conserve and protect fruit and vegetables from insect pests. Spraying is the best method to combat the insects and diseases and present methods of manufacture have given us insecticides in most condensed form, and in formulas ready for instant use for any purpose.

The Sherwin-Williams Co., has developed a large line of insecticides in dry powdered form thus being convenient to handle and to keep until used. There is no danger of freezing or loss through leakage, and cost of transportation is reduced to the lowest.

DRY LIME SULFUR.—The use and success of Lime-Sulfur solution is known to practically every fruit grower in the country. Sherwin-Williams Dry Lime-Sulfur is true lime-sulfur solution in dry powder form—the first and only one of its kind on the market. It has all the advantages of the liquid material, but eliminates the disadvantage. Protected by patent. Price: 1 lb. 35c, 5 lbs. \$1.50, 10 lbs. \$2.00, 25 lbs. \$5.

FUNGI BORDO.—Dry powdered Fungi-Bordo is a true Bordeaux mixture in dry powdered form, requiring only to be mixed with cold water to make a standard Bordeaux. Directions on package. Price: 1 lb. 50c, 5 lbs. \$2.25.

PESTROY.—Pestroy is a combination Bordeaux mixture and arsenate of lead to save the time and trouble of making up and combining Bordeaux solution and the arsenate of lead mixture. Price: ½ lb. 30c, 1 lb. 50c, 5 lbs. \$2.25.

HAMMOND'S SLUG SHOT.—A combination of potent insecticides and soluble plant food. It destroys all insects injurious to shrubs, trees and plants. Poisonous to insects but not to foliage. 1 lb. 25c, 5 lbs. 75c, 10 lbs. \$1.40, 100 lbs. \$13.00.

FUMIGATING AND DUSTING POWDER.—Formerly sold under the name of Tobacco Dust. By express, lb. 15c, 5 lbs. for 45c, 100 lbs. for \$6.00.

CROW BRAND INSECT POWDER.—Best grade. Fresh and nice. It does not pay to use cheap, ordinary grades. Splendid for home use to kill cockroaches, ants and flies. By express, ¼ lb. 35c, lb. \$1.25.

DRY POWDERED ARSENATE OF LEAD.—Because of its unusual lightness, stays thoroughly in suspension, giving the spray uniform strength. It contains from 30 to 33 per cent arsenic oxide. It clings to the foliage for the longest possible time, which means effective control of insects. Price: ½ lb. 35c, 1 lb. 60c, 5 lbs. \$2.75.

ARSENATE OF CALCIUM.—Arsenate of Calcium contains the maximum quantity of arsenic oxide, namely, 43 per cent, and when used according to directions will give splendid results. Price: ½ lb. 30c, 1 lb. 55c, 5 lbs. \$2.50.

BLACK LEAF 40.—This is about 40 per cent Nicotine. Very powerful and one gallon will make from eight hundred to one thousand gallons of spray. For outdoor uses and house plants indoors. Price: 1 oz. can 35c, ½ lb. \$1.25.

PARIS GREEN.—Sherwin-Williams Paris Green has by years of use proven its quality. It is one of the safest and most effective Paris Greens. Price: ¼ lb. 20c, 1 lb. 60c, 5 lbs. \$2.50.

NICO-FUME.—A condensed preparation of tobacco, 40 per cent nicotine. Use one ounce in 10 to 15 gallons of water. Price: 4-oz. can 75c, 1 lb. \$2.35, 8 lbs. \$16.50.

TUBER-TONIC.—Dry Powdered Tuber Tonic is a combination spray, having the desirable quick killing properties of Paris Green, and adhesiveness of arsenate of lead, and fungus preventive qualities of Bordeaux mixture. Large potato growers in this country have used Tuber-Tonic with splendid results. Price: 1 lb. 65c, 5 lbs. \$2.85.

WOLF'S GARDITE.—This is a splendid preparation for use at home either on flowers or vegetables. It is a dry powder in a carton with perforated top so that it is easily applied. Useful for house plants and in window gardening. Gardite is not poisonous, it is a thorough effective garden insecticide that does not contain one iota of poisonous chemicals or other ingredients harmful to human health. Price: 35 cents, postpaid. Ask for price in quantity.

FRUIT PACKAGES

We are prepared to furnish you the best stock made, at low prices. We handle a great many carloads each year, and from our long experience of more than a quarter of a century we are enabled to select superior stock. It pays to have bright stock which will make the fruit look nicer and sell better. Prices named here are subject to change during season. All goods in this department go by freight or express at customer's expense for carriage. If wanted by mail figure from Parcel Post Table on page 1, from weights given for each item, and send postage necessary.

NURSERYMEN'S SUPPLIES

GRAFTING WAX.—A special preparation for application where trees have been pruned; for preventing the loss of sap from wounds made in bark or from broken limbs and to hold grafts together. Price, ½ lb. pkg. 25c, postpaid.

TREE PRUNER.—Strong wooden handles 24 inches long; 1½ inch cut; powerful and effective. The best pruner where branches are within reach. Each \$1.75. Mailing wt. 4 lbs.

WATER'S TREE PRUNER.—The standard make; with 6-ft. pole \$1.65; 8-ft. pole \$1.85; 10-ft. pole \$2.00 Can't mail.

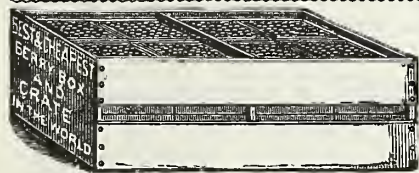

IMPROVED HAND PRUNING SHEARS.—The best hand shears on the market. Made specially for pruning berry or rose bushes, grape vines, etc. Made of best steel, 8 inches long, straight spring (can't lose out). Price \$1.75. Mailing weight 1 lb. each.

CONNECTICUT PRUNING SHEARS.—A good tool for most work. Steel blades, spring and malleable handles. Price 85c. Mailing weight 1 lb.

TREE LABELS.—3½ inch, plain, copper wire. Per 100 45c, per 1,000 \$3.75. Not wired, per 100 30c, per 1,000 \$2.40. Mailing weight 4 lbs. per 1,000.

POT LABELS.—Smooth wood labels, 4-in. per 100 30c, per 1,000 \$2.40; 6-in. per 100 45c, 1,000 \$3.75; 10-in. per 100 \$1.00, per 1,000 \$9.00. Mailing weight, 4-in, 4lbs.; 6-in. 6 lbs.; 10-in. 10 lbs per 1,000.

PRUNING COMPOUND.—Sherwin-Williams Pruning Compound is one of the oldest mixtures of this type on the market. It is well known to many fruit growers. It is furnished in semi-paste form and thoroughly protects the wounds made in pruning, preventing the entrance of all moisture, and due to its antiseptic qualities, it prevents the development of fungus diseases which often take place unless the pruned wood is properly cared for. Price, per qt., 75c, gal. \$2.50.

BERRY BOXES.—Made of the best white wood (spruce), heart stock, cut smoothly, and perfect shape, size 4¼x4¾x3¾, to hold a dry measure quart. The bottom is set up for ventilation. Usually put up in bundles of 500 boxes complete for shipment and all ready for putting together, which can be done very rapidly. 500 at the 1,000 rate; broken bundles at the 100 rate. Price per 100 75c; 1,000 \$5.30; 10,000 or more at \$5.00. Weight, 10 lbs. per 100.

PINT BOXES.—Same as regular quart size except they are only two inches high. For red raspberries and other soft fruits. Price same as quarts.

CRATES.—Made of thoroughly seasoned stock, well ventilated at sides and bottom, but with a tight cover to protect from dust. We always ship in the flat or "knock down." They make a neat, strong and cheap package holding 16 to 24 quart boxes. Price: 16-qt. crates per 10 \$2.50, per 100 \$21.00; 24-qt. crates per 10 \$3.00, per 100 \$27.50. Weight, 16-qt., each 4 lbs.; 24 qt., each 5 lbs.

CRATES FOR PINT BOXES.—24-pt. size, per 10, \$2.50; 100 for \$21.00. Weight 3½ lbs. each.

CRATE NAILS.—Far superior to common nails, as they hold much better. Ten pounds (makes 100 crates) \$1.00.

ANNEALED TACKS.—Made of the very best Swedes iron and of proper length so that they go through either two or three thicknesses of the material and clinch to hold securely. A lb. will make 1,000 boxes. Lb. 50c, 3 lbs. \$1.35.

WIRE STAPLING MACHINE.—Standard.—For making berry boxes. The latest improved, operated by foot power, and can be easily operated by any one. Makes boxes very rapidly. Made in two sizes and can be shipped direct from the factory in Michigan. No. 1 (standard) each \$80.00.

STAPLING WIRE.—To use with the above machine for making boxes. Per coil of 12 lbs. \$1.80, 5 coils or more at \$1.75 per coil.

MAGNETIC TACK HAMMER.—Picks up the tacks and saves much of the labor. Each 25c. Mailing weight 1 lb.

SPHAGNUM MOSS.—For packing plants and soft nursery stock. Write for price in quantity. Large wired bale \$1.25; burlap covered bale \$1.50.

EVERY YEAR BRINGS US HUNDREDS OF KIND LETTERS FROM OUR PLANT CUSTOMERS. OUR PLANTS PLEASE THEM.

Planet Jr TOOLS AND IMPLEMENTS

Two million workers, the world over, testify to the durability, economy, labor and time-saving advantages of all Planet Jr. tools. Wherever you are, whatever you grow, Planet Jr. are scientific aids to bigger profits. Every tool guaranteed by the manufacturers. We have sold these machines for over forty years.

PLANET JR. NO. 4 COMBINED SEEDER AND CULTIVATOR.—This tool combines in a single implement, a first-class hill-dropping seeder, a perfect drill seeder, a single wheel hoe, a cultivator, and a plow. It holds two quarts and sows in continuous rows, or drops in hills 4, 6, 8, 12 or 24 inches apart. The index is accurate, simple and easily set. The drill is detached and the tool frame substituted by removing but one bolt. It then becomes a single wheel hoe. Price \$19.00.

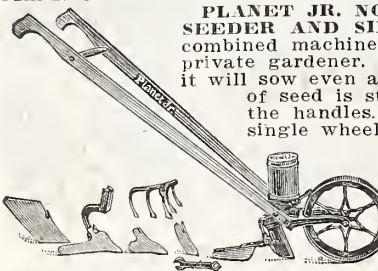

PLANET JR. NO. 4 SEEDER AND CULTIVATOR

NO. 25 COMBINED SEEDER, DOUBLE AND SINGLE WHEEL HOE.—As a seeder this tool is the same as No. 4 described above but when used as a cultivator it can be set up either as a double or single wheel hoe. Has steel frames and straddles crops until 20 inches high.

PLANET JR. NO. 25 HILL AND DRILL SEEDER

PLANET JR. NO. 31 COMBINED DRILL SEEDER AND SINGLE WHEEL HOE.—A combined machine at a low price for the private gardener. The index is easily set, it will sow even a packet of seed and flow of seed is stopped by simply raising the handles. Also can be used as a single wheel hoe. Illustration shows the cultivating attachments. Price \$13.00.

PLANET JR. NO. 31 COMBINED

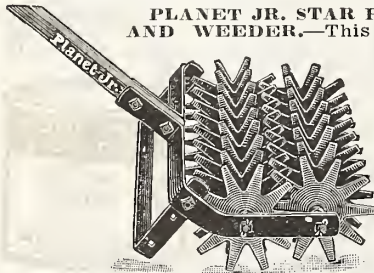

No. 31-D.—The drill part only of the above machine. Attachments can be purchased at any time. Price \$10.50.

No. 33.—The wheel hoe part of the No. 31 Combined Drill and Single Wheel Hoe. A cheap and durable tool for the small garden. Price \$6.50.

PLANET JR. NO. 60 DOUBLE WHEEL ONION HOE.—This is a departure from all previous wheel hoes. Compact and strong, the arch carrying the hoes is adjustable, eliminating the necessity of tool frames generally found on other types. Can be widened to work any width of row, and by raising or lowering the hoes will be suitable for any size person. The adjustable arch is not found in the other tools. Price \$6.00.

NO. 60 DOUBLE-WHEEL HOE

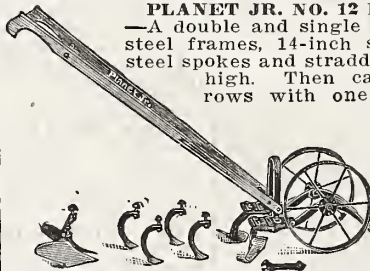

PLANET JR. STAR PULVERIZER, LEVELER AND WEEDER.—This new tool is especially adapted for preparing the seed bed, and will be found of great value in smoothing and fining the soil surface. The rear blade is 13½ inches wide. After the crops are started, it may be used between the rows as a weeder or as a crust breaker. If used frequently it is easy to operate and will keep the plot clean and mellow. Price \$6.50.

PULVERIZER AND WEEDER

PLANET JR. NO. 3 HILL AND DRILL SEEDER.—A drill only. Wheel diameter 15 inches; capacity of hopper three quarts. Specially designed for gardens who want a large drill to run easy and plant closely. Price \$18.50.

PLANET JR. NO. 12 DOUBLE WHEEL HOE.—A double and single wheel hoe in one. Has steel frames, 14-inch steel wheel with heavy steel spokes and straddles crops until 20 inches high. Then can be worked between rows with one or two wheels. Does the work of six men with ordinary hand hoes. The attachments will all be found useful from the beginning to the end of the season. Price \$12.50.

PLANET JR. NO. 12 DOUBLE-WHEEL HOE price \$9.00.

PLANET JR. NO. 16 SINGLE WHEEL HOE. (Price \$10.50.)

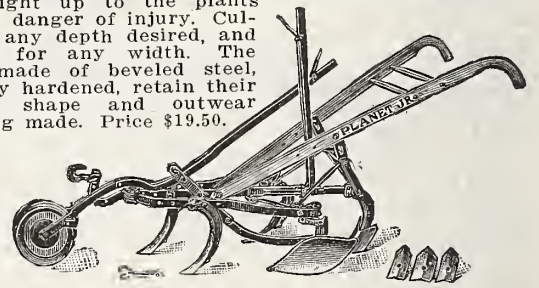

Have a great variety of attachments which adapt them to a large variety of work. Handles are adjustable in height. The frame is steel, convenient and strong, with a simple device by which to exchange the tools without removing the nuts. All attachments are of a special pattern, carefully tested. Steel parts are high carbon steel, oil tempered and specially hardened, finely formed, finished and polished.

PLANET JR. NO. 17 SINGLE WHEEL HOE.—Same as No. 16, but has no rakes or leaf guards. Price \$8.75.

PLANET JR. NO. 17½ SINGLE WHEEL HOE.—Same as No. 16 but has only hoes and cultivator teeth. Price \$7.60.

PLANET JR. NO. 18 SINGLE WHEEL HOE.—Same as No. 16 but has one pair 6-inch hoes only. Price \$6.25.

PLANET JR. NO. 8 COMBINED HORSE HOE AND CULTIVATOR.—No other cultivating machine is so widely known, for it is in use throughout the civilized world. So strongly built as to withstand incredible strain, yet light and easy to handle. Opens and closes furrows, hoes right up to the plants without danger of injury. Cultivates any depth desired, and adjusts for any width. The teeth, made of beveled steel, specially hardened, retain their cutting shape and outwear anything made. Price \$19.50.

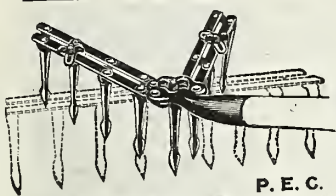

PLANET JR. NO. 8 HORSE HOE

PLANET JR. NO. 90 TWELVE TOOTH HARROW AND PULVERIZER. Price \$20.00. **No. 90-B** (less pulverizer) \$16.75. The chisel-shaped teeth on this tool go as deep or shallow as you like, close to row, without injuring plants, cut out all weeds, stir the soil and mellow and fine it as with a garden rake. Any width from 12 to 32 in. The wheel won't clog; the pulverizer leaves the ground in perfect condition for seeding or plant setting.

PLANET JR. TWELVE-TOOTH HARROW

YOU WORK AT COSTLY DISADVANTAGE IN THE GARDEN IF YOU DO NOT HAVE GOOD TOOLS TO PLANT AND CULTIVATE.

P. E. C.

PULL EASY GARDEN TOOLS

A line of adjustable hand tools very effective and low in price.

CULTIVATOR HOE NO. PE5.—Adjustable 6 in. to 12 in. wide. Five prongs each nine inches long. Sturdy 4 ft. handle. The long grasping teeth cultivate deeply and thoroughly. Instantly adjustable by loosening two broad winged thumb nuts, tightening the nuts. Tooth points concaved for scouring. Middle tooth removable. Price, each \$1.10. Mailing weight, 4 lbs.

CULTIVATOR RAKE NO. PEC.—Adjustable 6 in. to 18 in. wide, nine teeth. All steel parts enameled royal blue. French polished handle 4½ ft. long. Middle tooth removable for cultivating rows of small plants on both sides at the same time. Better than a rake for preparing the soil or for cultivating. Price, each \$1.35. Cannot mail.

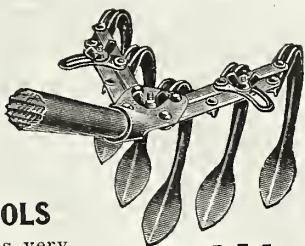

PULL EASY DANDELION RAKE.—Wedge-shaped teeth, gather in leaves and stems of dandelions, stripping them from lawn. Backward stroke cleans rake instantly. Wonderfully popular. Will rid a lawn of leaves and dead grass, 16-gauge, high-carbon steel—18 inches wide, unbreakable teeth. Price 90c. Cannot mail.

DIBBER.—Steel pointed for transplanting vegetable plants. Each 35c, postpaid.

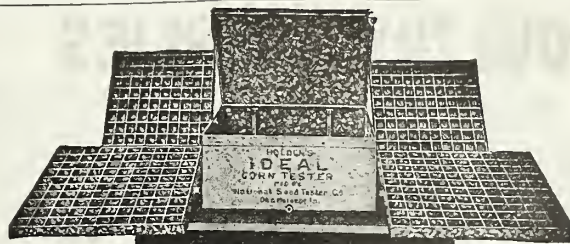

HAZELTINE HAND WEEDER.—This hand weeder is about 9 in. long. For hand weeding it is extremely useful because it will be found almost necessary in the proper management of small vegetables and flowers. It has five sharp edges. Each 35c, postpaid. By exp., per doz. \$3.00.

DANDELION DIGGERS.—Straight, chisel-like bladed tool with notched cutting knife. Each 20c, postpaid.

FLORIST TROWELS.—Extra heavy and durable. Best made. By parcel post, each 50c; by express, each 40c.

P. E. 5

HOLDEN'S IDEAL CORN TESTER.—NO. 1.—Made of galvanized iron as per pattern shown in the illustration. It is for testing ears of seed corn before shelling for seed. Capacity of this size 400 ears (one to each compartment) and each compartment is removable at will. It is quite simple in operation and full directions for use will be sent with each tester. By express or freight, not prepaid, \$13.00.

HOLDEN'S IDEAL CORN TESTER.—NO. 2.—A cabinet tester with capacity for 400 tests at one time. By express or freight, each \$22.00.

No. 4.—A single box tester of galvanized iron; capacity 200 tests. By express or freight, each \$7.00.

COLUMBIA GARDEN DRILL

The Columbia Garden Drill we consider one of the most perfect machines in the market for planting all kinds of seeds. It is not only adaptable to all kinds of vegetable seeds, but can also be used for planting seed grain or forage crops. A first-class seeder, but not a cultivator.

No. 10.—Like illustration. Strong, durable, simple and performs the work splendidly. Price each \$22.00.

No. 11.—Is exactly like No. 10, but has fertilizer attachments. Tremendous advantage gained in earliness and strong growth. Price each \$26.50.

EUREKA SEED DRILL.—A small hand drill for vegetable seeds in beds. Gardeners will like it for sowing seeds in hotbeds. By express, \$1.25. Weight 3 lbs.

SEGMENT HAND CORN PLANTER.—Operated with one hand. An immense amount of ground can be planted in one day. Drops as fast as you can walk, and you make it drop where you want it. Open drop by simply bending the planter forward thus pressing the spring which controls the hopper opening and permits the corn to fall through. You can also plant beans or peas and it drops pumpkin seed by a simple operation without interfering with the corn planting. Price, each, by express, \$2.00. Mailing weight 4 lbs.

SEGMENT CORN PLANTER

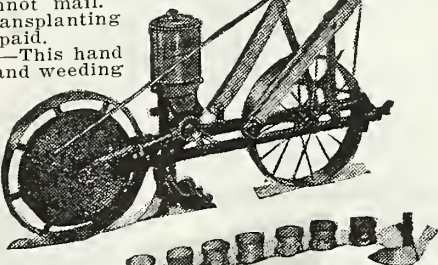

STAR CORN SHELLER.—A fine sheller for hand use. Has attachment for shelling tips and butts separately, making it desirable in saving seed corn. We also sell an extra attachment for shelling pop corn. Can be fastened on a box and has reversible chute which throws cobs out at the rear away from the shelled corn. Strong, well made, and will last a lifetime. At our very low price, we consider it the best hand sheller on the market. Each, by express \$2.00, wt. 12 lbs.

PLANTER PATENT SEED CORN

GRADER.—Single Sieve.—A sieve grader 12x18 in. in size with screen of heavy galvanized iron and mesh especially suited to grading seed corn before planting. A cheap, quick and effective method of eliminating tip and butt grains and preparing seed for edge dropping. Each by express, \$1.00. Mailing weight 3 lbs.

Double Sieve.—Like above, with two sieves attached. Each, by express, \$1.25. Mailing weight 5 lbs.

SEED CORN GRADER

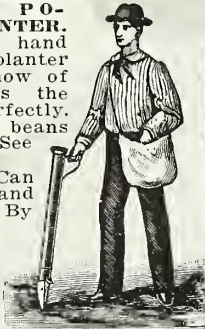

COLUMBIA GARDEN DRILL

CYCLONE SEED SOWER.—Farmers should have a small hand seed sower for emergency use. This is an improved style, strong, well made and durable. It is very easy to understand and easy to operate. Directions with each machine. By express \$2.25. Mailing weight 4 lbs.

EUREKA POTATO PLANTER.

—The best hand potato planter that we know of as it does the work perfectly. Also plants beans and corn equal to any corn planter. See cut. Price \$2.25.

EUREKA POTATO PLANTER

LANG'S HAND WEEDER.

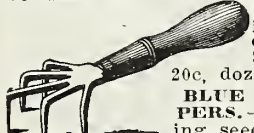

—Is in our opinion the best; its special feature a band which passes over the fingers, which, when the tool is not in use, gives full use of the hand for pulling weeds and thinning out plants without laying down the tool. Price 30c each, postpaid. By express, per dozen \$2.50.

THE CYCLONE SEED SOWER

THE SOWER THAT SCATTERS EVENLY

EXCELSIOR WEEDING HOOK.—Can be used to advantage among small and tender plants. By parcel post each 25c, doz. \$2.50; by exp. 20c, doz. \$2.25.

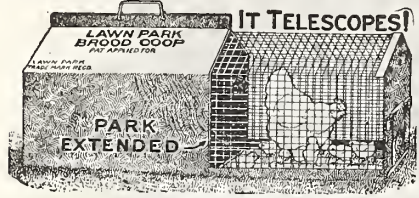

BLUE GRASS STRIPPERS.—For gathering seeds. Ea. by exp. \$2.50. Mailing wt. 4 lbs.

GARDEN TROWELS.—By parcel post 5-in. 20c; 6-in. 25c. By express 5-in. 15c, 6-in. 20c

LANG'S HAND WEEDER HANDIEST TOOL ON EARTH.

POULTRY SUPPLIES

LAWN PARK BROOD COOP.—An all metal coop as shown in illustration. Size of coop 18 in. wide, 24 in. long, 19½ in. high, while the wire park is practically the same size. The pen telescopes into the coop portion if desired and has a handle by which it is moved. Each \$4.00, dozen \$45.00.

BURLINGTON BROOD COOP.—Round metal coop, made of galvanized iron, with sliding door which can be fastened open at desired size. Adjustable top for ventilation. Rat, mink, weasel, mite and rain proof. Size 22 in. diameter, 29 in. high. Each \$2.25, dozen \$22.00.

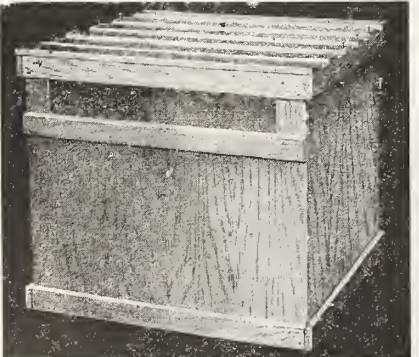

HEN FRIEND DRINKING FOUNTAIN.—Galvanized iron. Is easily handled. Exp., 2-qt. size each 45c; 5-qt. each 60c; 10-qt. each 90c. Mailing weights: 2-qt., 1 lb.; 5-qt., 2 lbs., 10-qt., 3 lbs.

SANITARY DETACHABLE FOUNTAIN.—Made of stoneware; the chicks can drink all around. Is easily cleaned. Made in two pieces; top lifts up. When in position water flows only as needed. Can ship by freight or express only. One quart 75c, two quart 85c, gallon 90c, 2-gallon \$1.50.

IOWA SHIPPING COOPS.—All wood. Sides and end pieces nailed together with cleats so that coops are readily made in using form. As shown by cut coops are ventilated front and back and top is covered with slats, giving thorough ventilation. Cleats around upper and lower end make it easy to handle.

"HAVE NO COLD CORNERS"

TOP FILL FOUNTAIN

MOE'S TOP FILL FOUNTAIN.—Won't slop over. Dead air space keeps water cool in summer, warm in winter. Simple in construction. Remove cover and fill from top. Water ceases to flow when cover is removed. By express, 1-gal. \$1.75; 2-gal. \$2.40; 4-gal. \$3.25. Mailing weights: 1-gal. 3 lbs.; 2-gal. 5 lbs.; 4-gal. 10 lbs.

MOE'S DRY FOOD HOPPER.—As shown by illustration, this hopper is devised to permit fowls access to the feed without scattering or wasting. Two sizes. No. 35 \$1.50; No. 36, \$2.50. Mailing weights: No. 35, 3 lbs.; No. 36, 5 lbs.

GRIT AND SHELL BOX

SANITARY FEED TROUGH

Turk's Vacuum Poultry Waterer

Made after the principal of the Thermos bottle to keep water warm in winter and cool in summer. Made of best galvanized iron, holds four gallons. Each \$4.00.

DRY FEED HOPPER

MOE'S GRIT AND SHELL BOX.—Has three compartments for grit, shell and charcoal; galvanized iron. Can be used as feed hopper for small chicks; ½ pk. By express \$1.15. Wt. 4 lbs.

MOE'S TRAP NEST.—Made of galvanized iron in 2 sizes. Front drops when hen enters. Price, No. 33, for Mediterranean breeds, size 12x12x12, each \$1.50; No. 34, for larger breeds, size 12x12x14, each \$2.00. Mailing wt.: No. 33, 5 lbs.; No. 34, 6 lbs. Fronts only for fastening to ordinary nest boxes, each 60c.

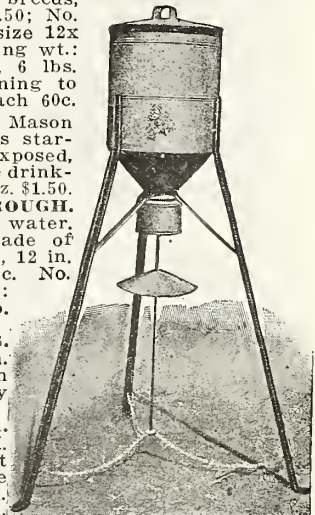

STAR FOUNTAIN

STAR FOUNTAIN.—Made for Mason jar, like Northwestern, but it is star-shaped. Not so much water is exposed, and fowls cannot pollute it while drinking. Ea. 20c, postpaid. By exp., doz. \$1.50.

MOE'S SANITARY FEED TROUGH.—Can be used for feed, mash or water. Barred top prevents waste. Made of galvanized iron. By exp. No. 21, 12 in. long, each 65c; No. 22, 18 in. 90c. No. 23, 24 in., \$1.25. Mailing weights: No. 21, 1 lb.; No. 22, 2 lbs.; No. 23, 4 lbs.

O. K. AUTOMATIC FEEDERS.—As shown in our illustration. No. 1, has capacity of ½ bu., with stand, each \$4.00. No. 2, capacity 1 bu., with stand, each \$4.25.

APACO AUTOMATIC FEEDER.—Similar in style to the O. K. machine illustrated here, except that it has no legs and is to be suspended from hook or nail. Capacity 12 qts. of grain. Each, only \$1.50, dozen \$15.00.

O. K. AUTOMATIC FEEDER

BONE CUTTERS AND MILLS

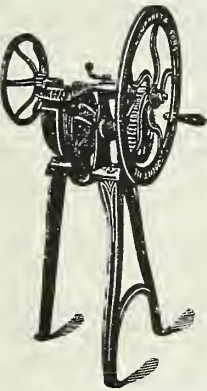

HUMPHREY'S GREEN BONE AND VEGETABLE CUTTER.—One of the leading bone cutters. Be sure and investigate this before you purchase. Manufacturer's guarantee with each cutter sold. No. 1 cutter, \$20.00; No. 2½, semi-power, \$25.00; No. 2, all-power cutters, each \$25.50.

HUMPHREY'S RAPID CLOVER CUTTER.—For cutting clover, alfalfa, etc., which are essential foods for poultry. Strong and durable, with five cutting knives and double-edge stationary knife which is reversible. Each \$19.00.

CROWN BONE CUTTERS.—No. 1.—Weighs 50 lbs.; is to be bolted to bench or table for operation. Each \$20.00.

No. 2.—Same as above, but has a tripod metal stand upon which cutter is fastened. Wt. 80 lbs. Each \$24.00.

MODEL GRINDING MILL.—To grind shell, grit, bone, and grains. Easily adjusted to grind coarse or fine as desired. No. 1, each \$3.50. No 2, each \$6.00.

HUMPHREY'S CUTTER

BIRDS

"Little Dewdrops of Celestial Melody."

The music of a good singer makes the whole house more cheerful and every member of the family enjoys the pure, clear notes of a happy little song bird. Ask for illustrated price list. Express charges are to be paid by purchaser on goods on this page except where stated. Descriptive list free.

HARTZ MOUNTAIN CANARIES.—From the Hartz Mountain. Famous for their clear, pure, beautiful song—a restful melody. Because their voice is just as nature gave it—unchanged by any training—we call them Nature's Solo Singer. These are the finest singers ever offered at the price. Males, guaranteed good singers, each \$10.00.

FEMALE CANARIES.—Females \$1.50 to \$2.50 each. Roller females \$3.00 each.

ST. ANDREASBERG ROLLER CANARIES.—Without doubt the finest songsters in the world. Their tones are sweet, round and full, consisting of delightful bell notes, low water bubble, charming flute notes and long, silvery trills. They are an ideal bird for an invalid. Each \$15.00.

CHORUS LEADERS.—These birds are trained singers. Male birds, guaranteed. Each \$20.00.

OTHER BIRDS.—If you want any other birds please write. Bird Price List free.

HARTZ MOUNTAIN CANARY

IMPROVED BRASS CAGES.—(Like cut.)—6x9 \$4.00; 7x10 \$5.25; 8¼x11½ \$6.00.

IDEAL BRASS CAGE.—Like cut but has brass screen around lower part. Size 6x9 \$5.25; 7x10 \$6.50.

BREEDING CAGES.—Wood frame. Single compartment: 17 in. long \$3.75; 19 in. \$4.50. Double: 19 in. \$4.75; 21 in. \$5.50; 23 in. \$6.50.

WIRE NESTS.—15c each. Postage on one to three nests 4c extra.

TOY BELLS.—For birds, 10c, postpaid.

PARROT BELLS.—Each 12c, postpaid.

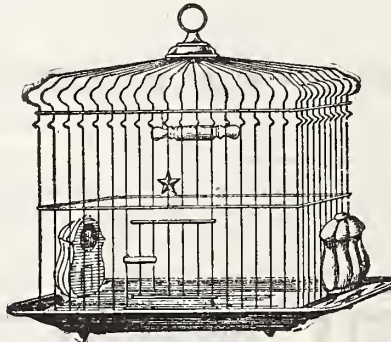

CUTTLE BONE.—10c each, postpaid.

JAPANNED OR PAINTED CAGE.—Best cage on the market for the money. It is neat, durable and convenient.

IMPROVED BRASS CAGE

PARROTS

GUARANTEED TALKERS

A bird that talks has a wonderful charm. Below we offer tame, hand raised parrots guaranteed to learn to talk within six months.

ROYAL AZTEC DOUBLE YELLOW HEADS.—Our very finest talking strain, unsurpassed as imitators of the human voice. They are superior to all other American parrots and make most fluent talkers. Price \$20.00. Ask for prices on young birds in June.

MEXICAN DOUBLE YELLOW HEADS.—Good birds guaranteed as above and second only to the Royal Aztecs. Price \$16.00.

MEXICAN RED HEAD PARROTS.—Medium size, make nice talkers and great pets. Young birds ready in June. Price \$8.00 each during June and July.

PANAMA PARROTS.—Large, green parrots, very fluent talking species. Usually in stock entire year. Price, \$25.00 each.

GOLDFISH

GOLD FISH.—We refer only to the plain variety by this name. These are more popular than the fancy sorts, below priced and generally satisfactory. Those bred in this state seem to have a peculiar brilliancy of coloring which is especially noticeable when in the fish globes. Prices 15c, 25c, 35c, 50c and \$1.00 each, according to size. The 25c size (5 for \$1.00) is the most popular. The largest size is only suitable for ponds or fountains.

SILVER FISH.—This is simply an uncolored gold fish of dark silvery color. Medium size 15c to 25c each.

PEARL FISH.—Elegant fish, pearly white, or white is variegated with gold markings. Medium size 25c to 75c each.

AMERICAN FANTAIL FISH.—Are bred from the imported Japanese fish. Very handsome. Price according to size, shape and color, 50c, 75c and \$1.00 each.

ORIOLE FISH.—Are beautifully variegated golden red and clear black. Medium size 25c to 75c each.

COMET FISH.—Also called "Long-Tailed Beauties," and "Fancy Gold Fish." The most graceful in their movements of all aquaria fish. Medium size 35c each; large \$1.00 each.

JAPANESE FANTAIL FISH.—By far the most popular of all fancy fish and the most satisfactory of the imported varieties. The fins and tails are of delicate lace-like appearance. The tail is V-shape and frequently divided. They are beautifully variegated usually with golden red and pearly white or black. Choice specimens 75c to \$2.50.

TELESCOPE FISH.—A very curious appearing fish which always attracts attention from its "extreme ugliness." Its eyes are abnormally large and bulging. Price \$1.00 to \$1.50. Black Telescopes, which are quite rare, \$3.00 ea.

HOME COLLECTION

Consists of one 4-quart Globe, three pretty Fish, Shells, and Food. Weight packed about 13 pounds. Price \$1.60.

PARLOR COLLECTION

Consists of one 8-quart Globe, five Fancy Fish, Food, Plant Shells. Shipping wt. about 20 pounds. Price \$2.60.

GLASS FISH GLOBES.—These are neat, cheap and consequently more popular than the large aquariums. Like cut below. Measurements approximate.

1-qt.—5 in....	.25	4-qt.— 8 in....	\$.85
2-qt.—6 in....	.45	8-qt.—10 in....	1.25
		12-qt.—11 in....	\$2.00

GLASS FISH GLOBE

PREPARED FISH FOOD.—Good for all kinds of gold fish. This we import from Europe, where they make the best. Price, 10c per box, postpaid.

DIP NETS.—For handling fish without danger of injuring them. Medium size, 50c, postpaid.

AQUARIA CEMENT.—Invincible water-proof cement, to set glass in aquariums. Lb. 45c, postpaid.

BIRD SEED

Add postage if to go by parcel post. Prices subject to market changes. As you value the life of your bird feed only our fresh seed. Per lb.

Crushed Raw Bone, poultry size	
Fine Crushed Bone, for chicks	
Charcoal, fine or coarse	

OUR IOWA SHIELD BRAND of Clover, Timothy and other seeds is strictly new crop of exceptional purity, and has been thoroughly cleaned on the best electric seed cleaning apparatus made. It is nice, plump seed, carefully tested, and proven to be of strong germinating qualities. We handle no lower grade than the Iowa Standard which is based on the Iowa Law of 1915. The Fancy and Iowa Shield are superior qualities. It pays to sow the best seeds obtainable, and our Iowa Shield Brand Seeds, are, we feel sure, superior to all others.

ABOUT WARRANTING—Notice—We use great care in selecting cleaning all seeds and nothing is sent out which we do not believe every respect, but we want it plainly understood that we do not warrant express or implied, as to description, quality, productive other matter of any seeds we send out and we will not in any way, for the crop. If the purchaser does not accept them on these terms be returned at once and money which has been paid for same will

TERMS

Cash with order. No extra charge for bags. The express or freight charges on all farm seeds are to be paid by purchaser.

CATALOGUE FREE

Our catalogue for 1922 is now ready and it will be mailed free on request. It describes all the best kinds of Farm Seeds and also Vegetable Seeds, Flower Seeds, Plants, etc.

IOWA SEED CO.

DES MOINES, IOWA

Store, 209-211 Walnut St. Warehouse 212 So. 8th St.

BAGS FREE

In comparing prices remember to make no extra charge for bags ordered from this list.

OUR RESPONSIBILITY

As this will doubtless go into the hands of many who are unacquainted with the question will naturally arise, "What is the answer?" To same we refer you, by permission of the Valley National Bank, of Des Moines, Iowa, the express company, the postman, or Dun or Bradstreet Commercial

IF ANY SEEDS RECEIVED FROM US ARE NOT SATISFACTORY RETURN THEM PROMPTLY AND GET YOUR MONEY BACK

of the great surplus of corn and the consequent low general movement toward a systematic curtailment. Many misguided agricultural writers and speakers so far as to advocate the curtailment of all corn sells. This is a mistaken idea, and would prove generally followed. The epigram used as a heading of this is no farmer so poor as he who has nothing to be considered carefully.

of the corn acreage is probably wise and if the crops next June and July should show the acreage percent less than last year, prices on the Chicago and will advance greatly. Corn now in the crib will bring a higher price as well as all products which show the trend of corn.

in keeping with the movement to produce every acre of corn on the reduced acreage, which can only bring the improved high grade varieties, and also every acre of ground produces something. Put the Clover or Soy Beans and store fertility for next year's crop in the soil" do not depress markets and are prices are right.

Farmlands in Iowa and in fact throughout the state and it is a question if conditions warranted the prices which occurred during 1919 and 1920. At present it is hard to make farm crops pay interest on the land cannot afford to let this expensive land lie idle. It is hard to afford to farm it in any way except by the most modern and using the highest grade seeds obtainable. Due to the great reduction of market values of grain products, the farmer felt poor and there were remark-men who reseeded their pastures or who purchased land. The result is, that in many of the pastures there is barely a half stand, and in some cases not a quarter or a third stand of clover and grasses. It will be the land go this way. It must be reseeded this year will be the result. Prices on clover and grass reduced and now seed may be purchased at less price prevailing two years ago. It is a question if low prices again for many years, and this is the seed. Our qualities this year are excellent. Seed has been thoroughly tested and proven to be of strong and been re-cleaned, critically analyzed and it will, we are most particular customers in every respect. We send samples on application and quote special price, large lots.

Unless you are sure that your wheat, oats, and corn are first class, pure and of strong vitality, do not do them. It will pay better to change your seed and the newer varieties, which have been bred up over a series of years and will greatly out-yield the old. It will pay you to sow a better quality of seed to get a better quality crop which will grade high on the market and will also yield a much greater crop.

All that we have said regarding seed grain and seed corn, we said still more emphatically about seed corn. We have reduced our prices greatly from those which we had many years past. It will cost you only about one bushel per acre to their crops. Can you afford to buy ordinary varieties when you can obtain pure bred low figure? The cost of seed for 80 acres of land less than \$40.00 delivered at your town, if you are in this central corn belt. At the prevailing low price the only way to make a profit is by increasing the yield produced per acre.

CROPS: There will no doubt be many acres this year or different crops will be sought, replacing the old. A good crop to consider is Soy Beans. A good crop, also excellent for silage or for hogging in the corn and in this way grow a double crop and increase the fertility for the following season. For a crop, Sudan Grass is fast taking the place of cane. It is a superior quality of hay and very profitable. It requires only 6 lbs. of seed per acre in drills or broadcasted, the cost is trifling. Alsike Clover will re-quire as the price is much lower and the seed being much further, seeding about double the acreage. Here sheep and hogs are raised should be without a doubt Essex Rape. It adds value to the other feeds in the pens meat production. Look over the field seed catalog. You may find just the item you need to fill

SEEDS: Whenever there is a general lack of employment of money, the people naturally consider the value of a garden. You can easily save half the cost of seed by your family by devoting a small plot of land, and just consider how nice it is to have fresh vegetables early in the spring when lettuce, radishes and peas, all through the summer months until the fall when you will gather in the cabbage, turnips, carrots, beets, and other winter use. The cost of seed amounts to very little and the time spent in planting and cultivating will be well repaid for your labor.

We do not advise you to buy expensive house plants. We recommend that you grow a few flowers to help brighten up the living room, and also on the dining room table. The presence of color has great effect on the mind and will make living better. Don't forget to include in your

PERMANENT IMPROVEMENTS: Probably you don't care to sell your farm or home place at this time, but something may occur which will make it necessary or desirable for you to do so at some time in the future. Why not begin improving it now and plant a few ornamental trees, hardy shrubs and hardy herbaceous flowering plants as well as some fruit trees, grape vines, etc., which will constantly grow in size, beauty and productiveness year after year and daily add to the beauty and desirability of your home place. It will make it more pleasant for you and more desirable to any purchaser and consequently bring a much higher price. The first cost is trifling, but as they constantly increase in size and beauty, they rapidly add to the value of your property many times the expense, each year. Please look over all parts of our catalog thoroughly and send in your order at an early date. From present outlook, we believe that the demand this year is going to be much larger than usual and it may be hard to obtain stocks desired late in the season.

ALSIKE CLOVER

Usually Alsike Clover seed sells at a much higher price than the Medium or Common Red Clover and it really should do so as the seed is small and one bushel of the seed will sow as much land as two bushels of the red. But this year the crop was good while the red clover seed crop was decidedly short. We are, therefore, enabled to offer Alsike at a comparatively low price and this is the year to sow it. It is really superior for hay, being finer, more nutritious and yields a better crop. It is more hardy and much longer lived than the ordinary red clover. We cannot too strongly recommend it to our customers. It is hardy even in northern Minnesota, and is the only variety which will produce a good crop and not kill out in low, wet land. The hay is finer and better than any other, therefore of special value for sowing with timothy. Height 18 to 24 inches, and has round pink or flesh colored heads. See price on opposite side of this sheet.

SPECIAL We have a very nice lot of Alsike and Timothy seed which we have mixed together. A careful analysis shows that it contains about 23% Alsike and 75% Timothy—just the right proportions for seeding. It has been thoroughly re-cleaned and will please you. To induce you to try this mixture, we are offering it at a very low price. See opposite side of this sheet.

SEED POTATOES

We believe this is the year to plant potatoes. While ordinary potatoes are plentiful, choice seed potatoes are not in oversupply, and especially the early varieties. It is probable that prices will go very high before planting season and possibly stock will become unobtainable. Better order at once and have them reserved for you, and we will guarantee you against our price being lower at time of shipment. Can particularly recommend our Extra Early Ohio Potatoes grown in the Red River Valley, about 400 miles north of Des Moines. They are smooth and nice, quite productive and a week to ten days earlier than the Iowa grown Early Ohio.

POULTRY SUPPLIES

We handle a complete line of Poultry Supplies of the best quality as you will see by list in catalogue.

PLYMOUTH ROCK CHICK FOOD—This feed has been prepared with the idea of supplying a perfectly balanced ration for young chicks. It has been demonstrated that young chicks do much better on our especially prepared feed than on any moist or soft food that can be obtained. The feed is composed of various kinds of grains, bone and other nutritive foods, making it the most complete and cleanest chick feed on the market. Price per 25 lb. bag 75c. See red ink prices.

PLYMOUTH ROCK HEN FEED—In the preparation of this feed we have had in mind the production of the best feed that could be made for laying hens and the keeping of all fowls healthy. Price, 25 lbs. 70c. See red ink prices.

PLYMOUTH ROCK EGG MASH—Prepared after a formula of the Ames Agricultural College as a special mash feed for laying hens. Especially desirable for winter feeding, since in addition to ground grain of various kinds, it contains meat scraps and alfalfa meal, which takes the place of green grass and bugs. This makes a complete ration for hens and growing chicks. Best results are obtained by feeding it dry. 25 lb. bag 85c. See red ink prices.

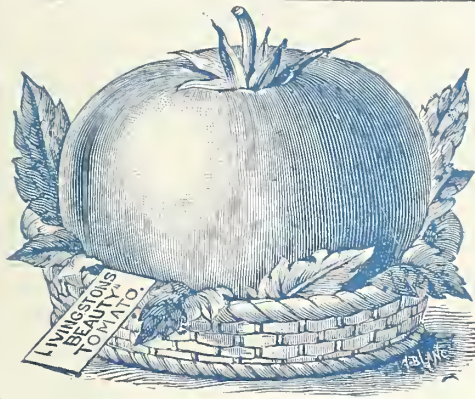

PLYMOUTH ROCK BUTTERMILK FOOD—A new addition to our famous line of Plymouth Rock Poultry Foods. Is of particular value as a finisher for "milk-fed" poultry. It is a helpful item for laying hens as it is rich in protein and keeps them in good health. Splendid for the growing chicks from the day they are hatched. 25 lb. bag \$1.75. See red ink prices.

THE BACK-YARD VEGETABLE COLLECTION

The entire collection as listed, postpaid in the United States, for \$1.25. Made up to supply the man who has only a small plot for garden purposes. The variety offered in this collection are of standard, proven sorts, and are the kinds that have become most popular with our customers because of results and quality. The quantities are sufficient to meet the needs of a small family and should produce enough with ordinary care and culture to save the planter at least a hundred dollars in living expense and at the same time afford variation for the family table. For detailed description of the varieties included, see the body of the catalogue.

HERE IS WHAT IS INCLUDED IN THE COLLECTION:
