TOKYO REGIONAL
HEADQUARTERS
NATIONAL RURAL POLICE

COPY

Dec. 16, 1949

To : Every Prefectural Police Troop Commander, within the Region.

From : Chief C.I.D. Tokyo Regional Hq., N.R.P.

Subject : On the Control of Confectionaries.

The bread, confectionaries, rice and other controled food stuffs are sold in towns, recently, and this seriously effects on the deliverance of rice and other food.

I advise you to hold all these controled articles. Especially the city police has many things to do with these Controlling comodities, and so I hope you to make these city police known about this purpose.

1. Planning of the control.

A round up of breads, confectionaries, and other manufactured food-stuffs and complete control to these manufactures, and black marketeers.

2. The Objective articles of the control.

1. No matter how few the amounts are, the manufactured comodities, which are made of/from rice etc.

2. Even if the materials are of/from corns, the followings are object for control:

1) breads.
2) "Daifuku" or "Manju"
3) "Monaka"
4) Western cakes and sponge-cakes.
5) "Senbei"

Provided for the materials are made of/from article foods, they will not be controlled.

3. Point of the control.

1. Dealer.
2. Broker of the manufactured articles and raw materials.
3. Producers and manufacturers.

4. Date of control and Result.

1. From Dec. 17 until the further notice.
2. Upon consultation with Municipal Police and report to the concerning bodies (Food Kodan) about the control, and the round up, the result to be reported to this Hq. by phone every Monday morning. of the previous week.

December 15, 1949

SUBJECT: PETITION REQUESTING REVIEW OF THE NEW ORDER BY THE METROPOLITAN POLICE BOARD AGAINST THE BAKERY AND CONFECTIONARY INDUSTRY, AND, A REQUEST FOR RESCINDING OF THE SAID ORDER AFTER A CAREFUL STUDY OF THIS APPEAL.

TO : ADMINISTRATIVE OFFICER, ECONOMIC SECTION, KANTO CIVIL AFFAIRS REGION, TOKYO

FROM : THE TOKYO YOGASHI KOGYO KYODO KUMIAI.
(The Tokyo Confectionary Industrial Association)
Membership: Three Thousand.

The Tokyo Yogashi Kogyo Kyodo Kumiai (The Tokyo Confectionary Industrial Association) respectfully submit this petition to the authorities delegated in the administration and supervision of the industries in which the members of our association derived their daily livelihood. The purpose of this petition is to request your special consideration in reviewing the new order issued by the ECONOMIC SECTION of the Metropolitan Police Board against the Bekery & Confectionary Industry in general. We beg for your careful study of the situation now faced by us, due to this new Order, and request your assistance in modifying the order or, if possible, to rescind the said order so that we may be allowed to conduct our legitimate business as we have done in the past.

The maintanance of our business is not only of a vital imporatnce to the populace of this great metropolis but is a matter of life or death to those who are directly connected in this industry. We will be deprived of our means of livelihood, which we have so long relied upon, and particularly at this time, faced with the coming of the biggest holiday season of the year, should this order

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

be continued to be enforced, our whole industry would be faced with annihilation.

The Tokyo Metropoliten Police Board, in issuing the order, inferred that the instruction for such order was directed by the Economic Control Officer of the Kanto Civil Affairs Region in Tokyo. Due to this fact, we submit this initial petition to you for review and consideration (A brief resume of the closure order as issued by the Metropolitan Police Board is attached herewith for reference.)

Hundreds of confectionary & bakery operators, due to retrictions and controls imposed upon them by the government through material shortages (sugar, flour, rice, beans, etc.) in this post-war Japan, were forced to close and obtain other means of livelihood. On the other hand, hundreds of others, employing their ingenuity and resourcefulness have managed to maintained their business.

There were number of problems faced by these business men. Not only in adjusting themselves to the new post-war laws and regulations, many had to look for substitute, and other materials (edible and uncontroled by the government food law) in order to remain in business and to satisfy the demand of the public. It is true, in some cases, there were incidents where members did not abide by the rules and regulations of the government or fell out of line in regards to the use of restricted material. But in most cases they were apprehended and fined or reprimanded in accordance to the weight of the irregularities.

We feel that this new order of the Metropolitan

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Police Board were aimed at those who has consistantly conducted their business in ~~the~~ defiance of the law. We also feel that this new closure order were not aimed primarily to the industries in general, particularly to those who has been conducting their business on the legetimate and law abiding ways, by using substitute's and other food materials outside of control.

We fully realize the food situation of Japan. We also know of our dependence to the Occupation and to that of the United States government for the well-being of this country. We also realize that some steps need have to be taken, sometimes drastic in nature, in order to carry out the aims of the occupation and to lead this war-torned nation to recovery and to be admitted into the family of nations in the near future. But this new order of complete closure, prohibition of sales and manufacture of decoration cakes, sweets, and other confectionaries, regardless of the fact that they may have been made of uncontrolled and nonessential food material, seems too drastic to us. ~~It~~ is this part of the order which we desire modification.

As we have mentioned earlier, the ingenuity of our members have made us possible to manufacture cakes and confectionaries by use of imitation and non-controlled food materials. We feel that this business be allowed to continue, be allowed to meet the demands and requirements of the hungry public.

Also, number of the neighborhood house-holds where bakers and confectionaries are located, rely on these

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

stores for the manufacture or in assisting the manufacture of their household needs. Due to fuel shortages, lack of household equiptment and other essentials necessary for making of cakes and other needs, these neighborhood housewives would bring their own materials to these neighborhood shops to have their needs satisfied. Many of our members rely solely on this type of business for the maintainance of their livelihood.

There are number of uncontrolled materials and substitutes which can be employed by our industries. For example, honey, millet-jelly, unrefined raw sugar, brown sugar, fruit sugar, grape sugar, "wasenbon" (Japanese), and other sweetening in place of imported or restricted sugar.

For the benefit of the authorities concerned, we are always willing to have anyone inspect our shops or our manufacturering plant. For the sake of proof, we can and will make cake frosting, sweets and other desirable confectionaries, nearly to the likeness of those made from controlled material. This is not merely our boast, but in order to remain in business and to satisfy the demands of the sweet-toothed public, our members conducted experiment after experiment in order to bring the result up to the present level. In addition, we would like to add that over three thousand (3,000) small businesses are dependent on our industries.

It is these facts, and because that our industries are faced with the situation where complete annihilation and stoppage of business that this petition is submitted before you. We humbly request your kind and sincere attention and beg for the speedy ruling in our favor.

Respectfully:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DIGEST

Tokyo
Yukan Chugai
12 Dec '49

1. Headline: Police enforce control on cakes.

The Economic Section of the Metropolitan Police Board, with the cooperation of all police stations under its jurisdiction, on December 10 made a sweeping raid on confectioners and enforced controls on cakes made from staple foodstuffs. As a result, the police arrested 700 violators and seized illegal cakes amounting to 400 "kan".

The police authorities went on enforcing their control on cakes on December 11,also, and seized quantities of illegally-made cakes.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Tokyo Restaurant Control
Monthly
Nov

During the month of November, the third Public Hearing Committee conference of the Tokyo Food Dispensing Business Management Committee was held in concordance with Article 11, Restuarant Control Law No. 52. The Committee reviewed and acted upon twenty-one cases, resulting in cancellation of five individual licenses; suspension of operations for four months, involving four firms; suspension of operations for one month, involving one firm, and suspension of individual licenses, in addition to one month's probation, involving eleven firms. Altho the foregoing sentenses are considered to be more severe than those previously imposed, it is the considered opinion of this headquarters that a lesser degree of leniency should obtain in the future if satisfactory results are to be realized.

Due to the increasing availibility of staple foods on the retail market, more stringent enforcement action is obviously necessary.

Currently, the Public Hearing Committee has a ~~xxxxx~~ back-log of approximately one hundred cases pending consideration. In the opinion of this headquarters, the Public Hearing Committee should increase the frequency of it's meetings in an effort to dissipate the inordinately large back-log indicated above.
