G-2

Standard of depurge as to persons who were designated by the Attorney-General, following the example of "those falling under the Memorandum" in accordance with the Organizations Control Order, included the former Imperial Ordinance No. 101 of 1946.

In accordance with the following principles, we have scheduled to set up the plan and program of depurge as mentioned below, in consequence of serious consideration and investigation.

1. Depurge principle.

(1) As far as persons who were designated by the Attorney-General as a person following the example of those falling under the Memorandum, on the basis of the Organizations Control Order included the Imperial Ordinance No. 101, are concerned, we have deliberately considered whether or not the depurge or abolishment of designation for them will bring forth obstacle to democratization of Japan in future. Moreover, we have deliberated nature,

construction, formation, activity, external influence of organizations to which such persons belonged, as well as position, status, activities of such persons in organization to which they belonged.

(2) As far as members of the so-called right-wing organizations are concerned, we have scheduled to depurge them for the most part, excepting the most prominent leaders, ultra-nationalistic natured or activated persons and general class officials of military service occupying post of leading staff officials of such organizations .

(3) As far as members of terroristic organizations are concerned, we have programed to depurge members of organizations of small scale structure and formation or of minor violent criminal cases, that is, a small groups of simple good-for-nothing fellows, excepting persons of prominent terroristic tendency, as individual, such as, ex-convict in violent cases . As far as members of other organizations are concerned, we have programed to depurge them, excepting leading staff, representatives or directors.

(4) As far as members of the so-called leftist-wing organizations or of organizations concerned with third nationals are concerned we have planned to put them in the outside the sphere of depurge.
