SANTUAO TRADE REPORT.

1°. LOCAL.—Due allowance being made for the ill effect of political disturbances on the trade in tea—the one great staple of the port,—the result of the year's operations cannot be regarded as other than satisfactory. Credit revived, large quantities of merchandise were moved, and, if profits never are what they ought to be on the merchants' showing, the people at large no doubt reaped the benefit. Aided by harvests of quite unusual abundance they are perhaps better off now than has been the case for some years past. Thanks to the enterprise of a well-known merchant who is interested in the local trade, Santuao itself at last shows some signs of development, and it may be that the foreshore reclamation which he is now undertaking will prove the first step towards the establishment of that direct steam communication with the North which has been repeatedly urged in these reports. The cultivation of the poppy in the surrounding districts is again being suppressed, and it was officially reported that 4,540 *mou* of the plant were rooted up in the neighbourhood of Fuan last season. Though it will no doubt continue to lurk in out-of-the-way spots, it seems that the spell of licence which followed the revolution is now over.

2°. REVENUE.—The Maritime Customs revenue amounted to *Hk.Ts.* 151,317. The normal collection of late has been some *Hk.Ts.* 150,000, the actual figures varying slightly from year to year with the fluctuations of the tea trade. The increase of *Hk.Ts.* 3,801 now shown over the collection for 1912 is due to somewhat heavier shipments of this commodity. As regards the Native Customs receipts, both import and export duties advanced, and the total of *Hk.Ts.* 73,986 formed the best collection on record—a not unsatisfactory result in view of the conditions under which this branch of the revenue is administered. Increased importation of nankeens and a further revival in the outward trade in paper and pottery were the chief factors contributing to this improvement.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—Kerosene oil declined from 480,703 to 445,966 gallons, and matches, from 55,958 to 46,750 gross; yet the small trade in foreign commodities was, on the whole, well maintained, the import of cotton italians, turkey red cottons, dyes, salt fish, and sugar being greater than in any previous year. Seeing what a limitless supply of fish the local waters afford, it is somewhat remarkable that in recent years salt fish has been imported into the district from foreign countries—not for any special merit it might possess as regards flavour, but simply because it is cheaper. The reason of this anomaly is probably to be found in the great advance in the price of Chinese salt. Although the few thousand piculs of fish now brought in from abroad may appear almost negligible beside the vast mass caught locally, it may well be that, if the price of salt is maintained at its present high level, the foreign article will hereafter be imported in such quantities as seriously to affect the livelihood of the native fishermen.

(b.) *Re-exports.*—*Nil.*

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—Another disappointing year has been experienced in the tea trade. At the opening of the season, in spite of the heavy stock left over at Foochow, the prospect seemed to be not unfavourable. Credit having been somewhat restored, sufficient funds were in hand for up-country advances, and, if the dealers were warned by the unexpected collapse of the foreign demand the year before against placing undue confidence in that branch of the trade, it was not unreasonable that they should have anticipated a busy season on the whole. Although the prices obtained in the Foochow market were rather disappointing, it seemed early in the season that their expectations were in a fair way to be realised, and by the end of June shipments from Santuao were some 8,000 piculs in excess of those for 1912. If the political situation had remained unchanged, this improvement would probably have been maintained and the total export might even have exceeded the high average of recent years; but, as it was, the disturbances of July and August brought the trade to a standstill, and when the season closed the returns showed that, although shipments had been about 3,000 piculs more than in 1912, they were still 5,000 piculs below normal. However, the outlook for the season of 1914 is now good, as the demand at Foochow has been sufficient to sweep the market clean; and the rest given to the shrubs last year, when it was not worth while even to pick the late leaves, augurs well for the quality of the next crop. Fortified by these good omens, the dealers are laying their plans for the coming months with their customary hopefulness, in spite of the hard knocks that fortune has dealt them in the past. However adverse may have been the effect of the rebellion on the trade in tea, the uprising had little apparent influence on the shipment of other cargo. Generally speaking, business was good in nearly all the leading items, and it is satisfactory to note a considerable revival in the paper market at Ningteh (甯德), and, to some extent, at Loyuan (羅源) also, though it is doubtful if more than a pretence has been made of checking the malpractices in manufacture and packing. For the second year in succession rice bowls were turned out at Wanyao (碗窑) in record numbers, and 132,689 piculs of pottery left the inlet; but payment by the piece is not conducive to regularity in the output, and nearly every junkmaster was put to the inconvenience of waiting three or four weeks to complete his lading. Unfortunately, there are some grounds for the belief that the northern markets are now overstocked, both with paper and with pottery, and that the trade in these articles is likely to suffer the ill effects of over-production. Shipments of bamboo poles and of shell-fish were far in excess of previous records. In two items alone—tea oil and sugar—was there any noteworthy falling off, and it would appear that the weather, so favourable in general, was ill suited to hazel trees and sugar cane alike.

(b.) *Imports.*—Except as regards salt and flour, the import trade in Chinese goods showed no marked fluctuations. Though the total value was somewhat less, such decreases as occurred are capable of an explanation not incompatible with a year of local prosperity. As last year, the deliveries of nankeens were heavy, short arrivals by steamer being made good by increased consignments by junk, and the harvest of the sea was abundant, over 170,000 piculs of dried and salt fish of one sort or another having been brought into the inlet. While the import of wheat fell away before the ample local supply, the means of the people allowed them to indulge more freely in the luxury of machine-milled flour. A very marked decline occurred in the arrivals of salt. In former years there were imported, on an average, some 300,000 piculs of this commodity, which is so essential to the well-being of the local fishery. After a somewhat reduced supply in 1912, the amount imported during the year under review dropped to 185,600 piculs, and there would seem little doubt that the increased taxation now levied is

responsible for this large decrease. How far the fishermen may as yet have suffered in consequence is uncertain, seeing that, owing to a decline in the Chekiang demand, a greater part of the import than heretofore has been retained for local use and that the supply has ~~been~~, to some extent, supplemented by old stores which has now been placed on the market; but the continuance of the present high price of this necessity must be looked on with misgiving, no less from the point of view of revenue than as affecting the livelihood of a large section of the population. The retail price, which in years gone by was little more than \$1 a picul, if so much, has during the last year or two rapidly advanced till it now stands at about \$3.30. The import of beans, which in the preceding year had shown a great increase owing, it was feared, in some degree to a resumption of poppy cultivation, fell to about the usual figures. Consignments of cow and buffalo bones showed a considerable reduction: the market for these at Yangchow and Chinkiang is largely controlled by dealers for Japan and Formosa, where prices rule much higher than in China. The decrease in medicines was due to the large stocks received towards the close of the preceding year.

5°. INLAND TRANSIT.—(a.) *Inwards*.—No remarks.

(b.) *Outwards*.—*Nil*.

6°. SHIPPING.—The Indo-China Steam Navigation Company's steamers *Loksang* and *Tungshing* entered during the March quarter, bringing nankeens, foreign salt fish, and rice, and cleared with paper for the North. Apart from the Dutch oil-steamer *Sabine Rickmers*, these were the only outside vessels to visit the port for more than two years.

7°. PASSENGER TRAFFIC.—No remarks.

8°. TREASURE.—As the Treasure table, incomplete as it necessarily is, shows that some \$300,000 were brought in from Foochow, it would seem that the Santuao branch of the Fukien Bank has not yet succeeded in attracting all the business of which the local circumstances admit, although—as the receiver of provincial taxes—it is said to be well supplied with funds.

9°. OPIUM.—*Nil*.

10°. MISCELLANEOUS.—Wind and wave having reduced the Customs jetty almost to ruins, the work of reconstruction was begun towards the close of the year. The concrete retaining walls which are now being added will not only make a stronger stand against the onslaught of the elements, but will also afford greater space for handling cargo. It is proposed as well to fill in a further strip of the Customs foreshore in support of the reclamation, to which reference has been made in the opening paragraph of this report.—Several Chinese men-of-war have recently made use of the harbour, and the advantages of Santuao as a naval base have been much discussed. In this connexion a visit of inspection paid at the end of the year by Mr. Archibald Johnston, vice-president of the Bethlehem Ironworks, may be noted.—Considerable activity has been displayed of late by the preventive service of the Salt Office, and for the better protection of local fishermen the salt launch which patrols the neighbouring coast has been entrusted in addition with the duties of a water police.—A company, registered as the Hua Hsing Kung Ssu (華興公司), has lately been formed to reopen some disused lead

mines in the vicinity of Pingnan (屏南); some 35 miles from this port. Though it is said that quantities of ore of high grade are easily accessible, the company is likely to find great difficulty in making its venture a success, unless it is prepared to invite additional capital and to submit to expert advice.—The year passed without the port being visited by any storm of typhoon violence. During the autumn, which was unusually dry, there were, as usual, a few sporadic cases of cholera in the inlet, but, happily, no such epidemic as was experienced at Foochow.

G. ACHESON,

Acting Commissioner of Customs.

SANTUAO, 7th March 1914.

中華民國二年三都澳口華洋貿易情形論畧

竊查本口貿易祇以茶葉爲大宗乃本年竟因亂事致阻猶幸別項生意尙差可稱佳緣今歲銀根畧鬆大批貨物得藉以流通雖其利市難副商人奢望然而民人等却得因以獲間接之沾潤更兼本歲年占大有收穫豐殷大抵閩閩較之二三年前活潑多矣本埠於今竟有進步之象因此間有一著名商人勇於企業且於本埠興旺之事亦頗注意現其已於本關碼頭附近填築海塘從前本關論畧中所述莫本口有一往來北方之輪船一事今該商如此興作或可卽爲該事之起點也此間一帶營粟本年重行嚴禁按官場報告謂福安一邑拔除烟苗有四千五百四十畝之多其嚴厲蓋可想矣懸揣此後幽寥隱僻之處是物或不免潛植然若民軍起事後之肆無忌憚競相播種之事則可斷言從此息矣

一本關稅課本年新關共征關平銀十五萬一千三百十七兩近幾年收數大抵總在十五萬左右而每年之所以小有參差者皆緣茶葉出口歲各不同本年較去歲計多三千八百兩之故卽茶葉出口較多所致也本年常關稅課進出口均見增加計共征關平銀七萬三千九百八十六兩實爲第一興旺之年衡以常關辦法收至此數尙爲滿意此等增加之故大半因土布進口之多及粗紙粗碗等出口之鉅也

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者本年煤油進口共四十四萬五千九百六十六加倫較去年計短三萬四千七百餘加倫火柴進口共四萬六千七百五

十各羅斯較去年計短九千二百餘各羅斯此兩大宗雖畧減色然意大利布紅布顏料洋鹹魚及糖等貨均較往年爲增以故統觀本年洋貨貿易尙稱中等查外洋鹹魚一物並非有何特別佳味而本埠瀕海又爲產魚最繁之區乃近年該鹹魚竟能前來銷售令人殊堪詫異詳揣其故殆因中國鹽價逐年飛漲是以此物得以乘之暢銷現在運進雖非過鉅似乎無足重輕然中國鹽價倘繼此依然不減則恐是物嗣此源源而來於是間業漁者不無妨礙也

本年茶業依舊失望當茶市初開時

福州雖有陳茶積存然而茶商等仍咸懷一獲利之望本年銀根較去歲畧爲鬆動茶業中人得藉以向鄉闕採辦惟因去年運往外洋之生意失敗而本年均有戒心不敢復涉該想耳雖然而業此者仍預冀其生意可臻繁盛蓋服賈之儔懷此希冀亦至理也首春時~~市~~價雖無甚稱意乃至六月杪際由本口運出之茶竟較去年增至八千担設使四境無虞定可繼續有加無已超越往年不意至七八月間亂事忽起而此項生意亦即因之黯然消滅及其結局檢視關冊其數雖較去年增加三千担然與前幾年平均扯算則實短絀五千担之譜惟茶市歇後福州並無存茶又兼七八月亂事起時鄉間採茶柯因得葆其元氣轉年出茶必茂有此兩因是以於歲暮時遙度來年茶業定當隆盛雖昨今兩年此業相繼墮落而今有此兩端諒是業中人當仍有準備前進之興會但茶業

一項本年雖隳於亂事而詳察別項貿易蓋尙未覺有何變動也總之本埠一帶各生意尙可稱佳粗紙一項本年甯德紙廠幾有復元之象而羅源廠之生意雖較遜於甯德然亦稍見起色但該各廠所自稱揚舊弊已除之語則尙恐其所行不能揜其所言耳粗碗出口竟躍至十三萬二千餘担較去年極旺之歲尤爲超過特其製碗工人薪資係按件給發以故該工人等作輟靡常其碗出數遂難預定因而運碗之船每以待碗致有延擱二三旬之久者惟紙碗兩宗本年所銷竟如是之暢第恐極盛之餘後難爲繼風聞北方此兩宗銷售之場現在已有存積之說矣竹竿鯉蛤諸物均較往年增加甚鉅惟茶油及糖兩項却見短少因本年天氣雖佳究與是二物有不甚合宜處也

土貨進口除鹽斤及麪粉外其餘各貨均與去年不相軒輊本年貨值總計較去年稍減然其所減並非本埠景象不佳蓋別有原因存乎其間也土布進口其多與去年相埒惟裝由輪船者稍少裝由帆船者畧多耳本埠一帶海面捕魚極盛統計乾鹹各魚連同別口所運進者約共十七萬担麥子進口略減緣此間是物收穫甚豐耳機製麪粉本年此間人民稍裕因之購買者亦夥鹽斤進口極絀蓋是物爲業漁者所必需倘一短少漁業因卽不振查往年進口之鹽其數總在三十萬担上下及至去年忽爾減少不意本年更一落千丈乃竟減至十八萬五千餘担推原其故蓋稅率過重有以致之也夫漁業視鹽斤多寡爲興衰今鹽斤短至此數在理漁業當亦落地然而亦難斷定風聞浙省本年收買閩鹽極少是以今歲進口之鹽多留於本地更兼鹽價驟昂曩日存鹽之家皆乘機出

售有此兩因故迄今漁業落至何境尙不可知然而鹽價倘繼此仍如是奇昂則恐不特有壞鹽課而此間人民多以捕魚爲生且慮從此無以度活也至鹽價一事查往年按零買計算每担祇不過一元乃遞相增加馴至本年每担竟至三元三角之多亦可驚矣豆子去年進口驟增者恐係本埠附近各處種植鶯粟所致今年則前來較少又復往年入口之數矣牛骨本年運進無多蓋是物係來自揚州鎮江兩處而該兩處多將是物售於日本及臺灣各商因日本境內出價較昂耳藥材入口亦少緣去年十二月間有大批藥材運來故也

金銀本埠由福州分設之福建銀號聞其係收納附近各縣之錢糧則是該號現款並無不足矣乃檢閱關冊本年現銀進口約有三十萬元雖該冊所載難免遺漏然卽以此數度之則該號於招徠生意一道當猶有未盡處也

一藥土無

一雜論本關碼頭因風浪激衝久經損壞本年十一月間又復重行修建並於該碼頭兩旁夾築洋灰之壩藉資保障是舉也匪第可防碼頭崩潰之險且碼頭因之展寬許多於商人起卸貨物亦極稱便此外尙擬填築海塘一段即與本論首段內所述有一商人所填之海塘接連也今年有中國兵艦幾艘停泊本口前幾月軍界仍復熟商本澳可否作爲軍港及至年底又有美國一鐵廠之經理人亦因軍港之事前來踏勘近數月官鹽局緝私船於此間數數梭巡並另責成一艘巡查本口一帶洋面兼以保護漁業本年有商人於屏南一帶設一公司命名爲華興擬將該邑舊開之礦重行開採業經呈部註冊惟該礦雖風聞鉛質甚富且極易於採取然而若不廣集股本及妙選專門礦師則恐其成績終難臻於美善也本年天氣絕佳並無颶風等災秋間乾燥出於意表而其時仍有霍亂發現幸是症本埠不似福州之廣且烈耳

FOOCHOW TRADE REPORT

1°. LOCAL.—The increase in the revenue over the 1912 collection is *Hk.Tts* 93,532. Foochow has thus contributed $2\frac{1}{2}$ per cent. of the *Hk.Tts* 4,000,000 which has been announced as the total gain in the receipts of the Maritime Customs in 1913 as compared with those of the previous year. This result is the more satisfactory because the outlook at the commencement of 1913 was by no means brilliant. The spring rice crop was deficient and there were on hand heavy stocks of unsold tea from the previous season's crop. Later on, however, although drought at one time (July) threatened, the weather—that all-important feature in agricultural China—became propitious. The second rice crop was abundant, while other products of the soil—for which Foochow is justly famous: oranges, olives, and even the humble potato, produced here in vast quantities and excellent quality—contributed largely to the general well-being. The timber trade is also said to have done well; but, of course, until some system of re-forestation is evolved, there can be little cause to exult over the enhanced export figures. The tea trade is dealt with later on in this report by expert hands than mine; it suffices to say here that the foreign export, although restricted as to quantity because of the competition of Java-grown leaf, has had one all-redeeming virtue—it has brought some profit to the exporter. Local industries working with foreign machinery, such as the saw-mills and the Electric Light Company, are understood to have had a good year. A new undertaking—the Columbia G.m.b.H. Factory—has now to be added to their number. It is a German-owned concern for the production of albumen and egg yolk for export abroad, and occupies the premises on the north bank of the Min, formerly owned by the now defunct match factory. When in full working order, this factory will be able to deal with a large quantity of raw material—duck and fowl eggs—daily. A notable revival is the resumption of activity at the Government Arsenal at Pagoda Anchorage (Mamoi). By Presidential Mandate, Mr. Tsein Tsing Lien (鄭清濂) has been appointed Director there. His assistant is Captain Heenan T. Shen (沈希南), of the engineering branch of the Chinese Navy. It is understood that many long-needed improvements and additions to the somewhat antiquated plant are in contemplation, and it is hoped in a near future to restore some of the lost lustre of bygone years, when the genius of a Giquel gave to China her first impetus in naval architecture. Closely connected with the reopening of the Arsenal is the question of river conservancy, as at present the entrance to the Dry Dock is much obstructed by sandbanks. The vagaries of the Min are proverbial, and the wilful stream has ever been full of surprises for the navigator. Its amelioration is vital to the interests of the port, and it is hoped that ere long the matter may be taken seriously in hand by the light of expert knowledge.

2°. REVENUE.—A gratifying increase in revenue has to be recorded—the total collection being *Hk.Tts* 940,066, as compared with *Hk.Tts* 846,534 in 1912, or a gain of *Hk.Tts* 93,532. Of this amount, *Hk.Tts* 35,086 is referable to opium duty and likin, i.e., the consolidated tax of *Hk.Tts* 350 per picul, under the agreement of May 1911, *Hk.Tts* 7,544 to import duty

other than opium duty, *Hk.Tts* 37,546 to export duty, while coast trade duty accounts for *Hk.Tts* 11,560. It will thus be seen that all categories of duties have contributed to the general improvement.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—In the net values of the direct and coastwise trade—*Hk.Tts* 8,755,323—the averages of previous years have been very considerably exceeded. There is an increase of *Hk.Tts* 175,286 in the value of opium and a gain of some *Hk.Tts* 123,000 in kerosene oil. The consumption of sugar has largely increased—a sure sign of prosperity in our hinterland. *Per contra*, however, it was found necessary to import foreign rice to the extent of 156,106 piculs, valued at *Hk.Tts* 495,949.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The total value of Chinese produce exported abroad—*Hk.Tts* 3,795,170—is chiefly, of course, made up of tea, while that to Chinese ports, chiefly Shanghai—*Hk.Tts* 5,898,167,—consists for the most part of tea, bamboo shoots, oranges, wood, and paper. Of these latter, black tea contributed a value of *Hk.Tts* 1,810,168, represented by 52,489 piculs, and brick tea, 2,442 piculs, worth *Hk.Tts* 29,665. 1st and 2nd quality paper totalled 85,595 piculs, valued at *Hk.Tts* 898,828, and joss paper, 13,036 piculs, worth *Hk.Tts* 415,119. Softwood and Foochow poles between them account for a value of nearly 1 million taels. The general trend of Chinese exports to Chinese ports, especially noticeable in tea, is upwards—an encouraging feature which should go far to counterbalance the inevitable effect of the ever-increasing disfavour with which Foochow tea is regarded in foreign markets. I am indebted to various local experts for the following *résumé* of the foreign tea trade here in 1913: “Considering the enormous stocks carried over from the previous season and poor reports of the demand for China tea on all the home markets, the current season has not proved so bad as was expected, although the amount of business done has been considerably smaller than last year. The stocks at the beginning of March 1913 were as follows:—

	<i>Half-chests.</i>	
Oolong	40,000	} black leaf teas,
Congou	16,000	
Souchong	6,000	

and, with the exception of the oolongs, consisted of common grades. The large native demand from the north of China in the early part of the year cleared a great portion of the above stocks and saved the teamen from losses that would have undoubtedly ruined many of them, and the season 1912-13 from beating the record of bad seasons ever experienced in Foochow, which, notwithstanding, was one of the worst for many years. The amount of dollars sent up country was for the above reasons less than in the previous year (about \$200,000 less), and therefore supplies were a great deal smaller, which helped to keep up prices by not over-stocking our market in the face of decreased demand. The quality, taking it all round, was about equal to last season, the leaf being generally better made and not so broken and dusty. All better-grade teas and fancy teas found fair markets in England and on the Continent; also Australian and other markets took the smaller supplies at fair rates and seem to have done well with them. Common teas were also in demand at the close of the year, and there are practically no stocks of any kind left here to carry over to the next season. The revolution

troubles in August did not seriously affect the tea trade here. The latest reports (31st December) of the home markets are not very cheering; but when the shortage of supplies (about 10 million pounds from China) is really felt, it is hoped that they will improve and that stocks will be small before the next season's supplies begin to arrive. It is regrettable to notice from the Chamber of Commerce statistics a further shrinkage in the once flourishing Foochow tea trade. Total supplies for the season under review are: of congous 33 $\frac{1}{2}$ per cent., sou-chongs 22 $\frac{1}{2}$ per cent., and oolongs 50 per cent. less than the previous season. Scented orange pekoe, which has become quite a small trade, shows, however, an increase of 39 per cent. Flowery pekoe also shows an increase of 14 per cent. *Congous*: Teas from the Chingwe district were a good, useful crop, both in leaf and liquor; settlements were made on a basis of last year's prices. Panyongs and Seumoos only a fair average quality. Panyong prices about the same as last year; Seumoos about 10 per cent. higher. *Souchongs*: The quality generally was fully up to the average; some of the crack chops were a trifle better than last year. Opening prices were about 10 per cent. higher than in the previous season. *Flowery Pekoes*: A fair average crop, and, considering the handsome price of about £s. 240 per picul, which the best chops realise, it is a pity the teamen do not make some effort to improve the quality up to the silvery white standard of olden times. *Oolongs*: As the teamen were stuck with an unsold stock of about 12,000 half-chests from the previous season, the supply for 1913 was 50 per cent. less than in 1912. The crop has been realised at about cover cost. A new feature in the Foochow tea trade during the past three seasons is the business in wysan green tea for Russia. This absorbs about 5,200 piculs of leaf from Panyong and adjacent districts, which would otherwise be made into common to medium grades for the London and northern Continental markets, and, as the prices paid for this wysan are higher than can be afforded for the leaf to be made into congou, it has forced the price of common congou up to a point that is unremunerative for foreign buyers, as teas at, say, 6d. per lb. laid down from Ceylon, India, Java, and Hankow show better value than from Foochow. The quality of the crop generally was good, but, as far as the teas for the foreign trade were concerned, it would have been considerably better had it not been for the remarkable increase in the business done by native firms with Tientsin. An extremely strong demand from that quarter showed itself shortly before plucking commenced, and producers were able to get from those buyers much better prices than those interested in the foreign demand could pay. This resulted in the best leaf being secured for the Tientsin trade, and other buyers found it extremely difficult to obtain supplies. It is too early yet to be able to form any opinion as to the position with regard to the coming season; but it is reported that, in spite of the increase of the volume of the business and the higher prices paid, those interested have done well, and, if this should be the case, buying on the same basis as this season may be expected next season. This native business with the North is a very serious factor in the situation here, as far as it concerns the foreign firms. The business is done direct with the producers, and the elimination of the middlemen, which the foreign buyer has to employ, conduces to the benefit of both buyer and seller. Buying being done direct, it is thus on a much sounder basis, in this respect, than the production for the foreign demand, which is entirely speculative. The course of events in connexion with this native northern market is therefore being watched with some anxiety by foreign firms here. A feature of the business done this season has been the strong demand throughout for common flowery pekoes for Bombay and Persia. These teas have been all taken off the market at a much earlier date than usual, and have brought teamen good returns. Heavy losses have again been made in Saryunes, Paklum, and oolongs; the special markets to which these in the past have been shipped in considerable quantities appear

no longer to be able to use them, except at prices at which producers cannot continue to make them."

(b.) *Imports.*—The total net value of Chinese imports amounted to *Hk.Ts.* 4,757,753, or an increase of *Hk.Ts.* 2,769,615 over the 1912 figures, of which sum some 2 million odd taels are due to largely augmented importations of rice, flour, and coal. The failure of the spring rice crop is no doubt responsible for the large quantity of both foreign and Chinese rice required here during 1913, and is so far an unsatisfactory feature in the year's trade. But the increased import of Shanghai-milled flour may be put down as a good sign, as it is mostly used to meet the growing taste for cakes and macaroni made from it.

5°. *INLAND TRANSIT.*—(a.) *Inwards.*—Inward transit dues totalled *Hk.Ts.* 11,255, or *Hk.Ts.* 1,037 more than in 1912, while the total value of the trade was *Hk.Ts.* 536,463. The goods under special transit pass consisted of *Hk.Ts.* 535,924 worth of Shanghai Mill flour, and of Shanghai cotton yarn, valued at *Hk.Ts.* 421,360.

(b.) *Outwards.*—The outwards trade has never been of much importance here and calls for no remark.

6°. *SHIPPING.*—The total of steamers entered and cleared under General Regulations has increased, as compared with the figures for 1912, by 77 vessels, aggregating 87,102 tons. The most noticeable increase is under the Japanese flag—240 vessels, equalling 293,478 tons, as against 168 and 206,976 tons in 1912. There is also a gain of 12 vessels and 45,938 tons under the British flag, while the Chinese flag has fallen off by 11 vessels and 39,236 tons. The diminution of vessels under the Chinese flag is no doubt directly due to the short period of "independence" declared here in July, which resulted in a temporary suspension of the regular trips of the China Merchants Steam Navigation Company's vessels. In sailing vessels, there is also a slight increase under the Japanese flag, which in this instance covers Japanese-owned Chinese junks trading between this port and Formosa. In vessels trading under Inland Steam Navigation Rules, the most noticeable feature is a falling off under the Chinese flag, due, possibly, to want of interest in the subject by Chinese owners.

7°. *PASSENGER TRAFFIC.*—No remarks.

8°. *TREASURE.*—On the recorded figures of imports and exports of goods the balance of trade, or, in other words, the excess in value of imports over exports, is *Hk.Ts.* 3,819,739. This is partly met by an excess of treasure exported over treasure imported of *Hk.Ts.* 1,314,233, and the balance is no doubt paid for by the "invisible movements of credits" between Foochow and abroad, explained by the fact that at this port, as at Amoy (see Amoy Trade Report for 1912, under section 8°), large sums are received on account of emigrants abroad.

9°. *OPIUM.*—(a.) *Foreign.*—The quantity of Malwa released from bond, i.e., imported, is 140.67 piculs more than in 1912. *Pér contra*, there is a decrease of 18.31 piculs in Patna. But these figures in the present state of opium affairs here mean very little. One thing is certain, and that is that the province is sincerely anxious to see the trade in the foreign drug come, to an end.

(b.) *Chinese*.—Trade is prohibited, and great efforts have been and are being made to extirpate its cultivation within the province.

10°. MISCELLANEOUS.—On the 9th January Mr. Chang Yüan-chi (張元奇), the newly appointed Civil Governor of Fukien, arrived and took over charge of his office on the 10th of the same month. Shortly afterwards, on the 4th February at about 4 P.M., a dastardly attempt to assassinate him was made by means of a bomb thrown by some unknown person in front of his sedan chair while he was crossing the city bridge on his return to his *yamên* from a visit to Nantai. Happily, as far as the Governor himself was concerned, the attempt was unsuccessful, but the bursting of the bomb—evidently made of an explosive of high power—wrought great havoc amongst the spectators, many of whom were injured, while 21 persons were killed outright. On the 10th May, on account of ill-health, Mr. Chang Yüan-chi handed over temporary charge of his office to Mr. Chiang Yü-ching (江畚經), the Commissioner of Internal Affairs, Fukien, and left Foochow on the same day.—The Anti-Opium Society celebrated its seventh anniversary on the 5th June. This institution has been very active during the whole of the year in the suppression of the opium habit, and also of that kindred evil, the anti-opium pill.—The Dragon Boat Festival was held, as usual, on the 9th June (the 5th day of the 5th moon), and celebrated with the same popular enthusiasm as of yore.—On the 20th July a proclamation was issued by the Fukien Tutu, Sun Tao-jên (孫道仁), announcing the “independence of the province” and stating that the Military Board had proclaimed martial law for the purpose of maintaining order. There was a considerable exodus of the more wealthy people from Foochow city to Nantai and the surrounding country, but order was well maintained and no disturbances of any kind took place.—On the 10th August a further proclamation by Tutu Sun announced that the “independence” of Fukien had come to an end. At no time during the movement could the province have been said to be in sympathy with it, and the general feeling amongst all classes was one of intense relief that an irritating and, possibly, dangerous state of affairs had been put a stop to.—On the 3rd August Dr. Sun Yat Sen (孫逸仙) arrived at Pagoda Anchorage from Shanghai in the Norddeutscher Lloyd s.s. *Yorck*. He did not land, but transhipped to the Japanese s.s. *Bujun Maru*, and left in her for Japan *via* Formosa on the morning of the next day.—Owing to the great heat and lack of rain, the summer months, and especially August, were attended by much sickness in and around Foochow. Cholera of a virulent type claimed many victims and did not finally depart until the cooler autumn weather had set in.—Mr. Wang Shêng-ling (汪聲玲), appointed Civil Governor of Fukien by Presidential Mandate, assumed charge of his office on the 23rd November.—On the 29th October Admiral Liu Kuan-hsiung (劉冠雄), Minister of the Navy and High Commissioner for Reorganisation of Naval Affairs, etc., arrived at Pagoda Anchorage, accompanied by cruisers and other vessels of the Chinese Navy and a large body of northern troops. During the ensuing months the disbandment and transfer to their homes of the Hunanese troops formerly in garrison here was peacefully and tactfully accomplished. Their place has been partly filled by northern troops.—On the 10th December Admiral Liu Kuan-hsiung took over charge of the Tutuship of this province from Tutu Sun Tao-jên, who left soon afterwards for Peking.

I am indebted to Mr. O. von Seckendorff, Assistant, for the following remarks on the Native Customs here. The result of the year's working of the Native Customs under the control of this office may be summarised as follows: The total value of the trade is *Hk.Ts* 8,287,145, or an advance of *Hk.Ts* 1,667,188 as compared with the 1912 record. The

improvement in revenue in 1913 as compared with that for 1912 is *Hk.fts.* 13,643. In imports, there are considerable increases in dried and salt fish, as well as in nankøens, bean oil, and samshu. Amongst exports, the principal increases are shown in coarse chinaware, lampblack, oranges, 1st quality paper, timber, and wood poles. The enhanced export of the last two items is, as noted previously in this report, not a theme for congratulation. It is calculated that between the export of timber and poles—and the yearly consumption of firewood—the equivalent of some 12,000,000 trees must have been used up in 1913.

PAUL H. KING,

Commissioner of Customs.

中華民國二年福州口華洋貿易情形論畧

竊查本口貿易情形本年稅課比上年長徵關平銀九萬三千五百餘兩考本年各海關稅收總數其已見發表者則較上年溢出關平銀四百萬兩以福州口所多之數而言實居百成中之二成零三分之一溯當本年歲首時貿易情形實未見有何光明發展氣象乃猶能得此美滿效果豈不更堪愜意耶本年早稻收成較歉而上年出產茶葉囤積未能消脫者爲數尤多迨七月間亢旱之象雖曾發現於一時然未幾則時令又轉爲調和斯固農產國之中華所最重要原因也晚造收成殊形豐足其他福州土產爲向所著稱之橘子橄欖與及粗賤品如山薯者均極充盈品質尤佳是又誠爲公共之幸福焉木料貿易亦云順適但此時出口數目雖見加增然非俟至森林條例詳加規定使不致徒有採伐而無培植則目前之欣幸要亦甚覺輕微至論茶務貿易情形另載於此篇後幅中係得諸素有經驗之人所叙述實較勝於鄙人所言也茲猶有足堪發明之一語則爲運往外洋茶葉雖被爪哇產茶所侵佔致出口數目較形減縮然其中尙有取償功用乃販運出口茶商於此且能稍獲利益云本口營業中用外國機器造作者如鋸木廠電燈公司本年均顯覺暢達此外復有德國商人新創蛋廠一家其公司名曰哥倫比亞_{音譯}有限公司亦在機製行業數內所有製出之蛋白蛋黃均運銷往外洋各處該廠即在閩江北岸爲現已停閉之自來火廠舊有屋業廠中工作若能盡其容量而爲之則每日所製雞鴨蛋料質爲數當必甚夥今有最堪注意之一端乃馬尾船政局政務近仍接續進行經

大總統任命鄭清濂君爲該局局長以海軍部技正沈君希南爲之副所有船局中各種建設似乎類多未合久知其必須改良擴充者刻均在籌畫預備中深冀其曩昔精采之喪失行將見恢復於一旦而亦克道蹤夫當年如奇才異能之監工日意格者俾使中國復得有肇造軍艦動力不禁拭目以俟之至論重興船局問題所最爲切近之條則在疏濬河道一層緣目今局中旱塢入路極受沙灘之障礙蓋閩江形勢隨時變遷固已爲衆所共知矣其潮流無定所每予航行家以出其不意以故改良河道一事尤於本口利益最有關係所願富有學識能力者視爲當務之急從而著手進行焉

一本關稅課本年幸獲增漲統核其徵收數目計共得關平銀九十四萬六十六兩上年則祇八十四萬六千五百三十四兩兩相比較實盈九萬三千五百三十二兩此所多數目中洋藥稅釐占三萬五千八十六兩卽係按照前清宣統三年禁煙條件所訂每洋藥一担稅釐併加至三百五十兩之辦法也其進口正稅除洋藥稅外於溢徵數內亦占七千五百四十四兩出口稅占三萬七千五百四十六兩復進口半稅則占一萬一千五百六十兩由是而觀覺所有各款稅課均無不顯臻進境

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者本年共計淨值關平銀八百七十五萬五千三百餘兩以數年來所有貨值均勻計則本年殊覺超越乎尋常其中如洋藥價值增多十七萬五千二百餘兩煤油亦多值銀十二萬三千兩糖一物銷場極形發達蓋由腹地景象日臻富庶其勢有足徵也然而猶有必需賴以接濟之品如洋米者

本年進口竟多至十五萬六千一百餘担即值銀四十九萬五千九百餘兩
洋貨復出口無甚可紀

一土貨貿易土貨出口運往外洋及通商口岸連復出口在內本年運往外洋之土貨共估值關平銀三百七十九萬五千一百餘兩就中自應推茶葉爲至大宗其運往通商口岸者以上海一口爲最居多數統共估值五百八十九萬八千一百餘兩大部份則在茶葉竹筍橘子木料及紙等項而其中紅茶一種計占價值銀一百八十一萬一百餘兩應五萬二千四百八十九担茶磚則有二千四百四十二担值銀二萬九千六百餘兩上等及次等紙共得八萬五千五百九十五担值銀八十九萬八千八百餘兩紙箔有一萬三千三十六担值銀四十一萬五千一百餘兩杉木及本口所出木料併計共值銀一百萬兩土貨出口往通商口岸綜觀其大概勢派顯覺茶葉一宗大有竿頭日上狀況是亦誠堪鼓舞之一端所以不能不幸而有此對待抵力足堪爭衡者蓋緣本口茶葉於外洋各處市上日見厭棄情形已成爲難免之惡果矣所有本年茶務貿易情形近荷本口各洋商各以其所見者分別叙述見示要皆於茶務確有經驗之人也茲特譯其大概云溯上年存積茶葉爲數固多加以外洋各處市面華茶銷路所得諸報告之行情又極欠佳然而本年景況雖云疲敗却尙不致如吾人之所慮不過貿易數目較之上年則不如耳當三月初旬間所有存茶計烏龍茶二五箱四萬箱工夫茶二五箱一萬六千箱小種茶二五箱六千箱其工夫小種二種均屬於紅茶類除烏龍外餘皆爲下等之貨在上半年內供應於北

方各省茶葉甚覺衆多實於前存數目中不止銷脫其半業茶者至是乃得以保全損失使非然者可決其受累必甚夥矣由此而言則上年與本年相搭接之茶季中其敝壞處向爲本口所未見者亦克幸免有此失意之記載第數年來仍當以此謂爲最非順境有以上所提原因故本年載運往上游買茶洋銀較上年約少二十萬元遂使茶葉來源極細此間市面又以外洋定貨較少未便存積過多價格亦卽賴以保持以所有各種茶葉大概品質而言視上年不相上下而採製法似乎轉有精進其中碎末亦未若前此之甚各類上等並最上等之茶在英國與歐洲均獲流通若新金山以及其他各處市面則需小份之供應其得價尙佳並覺銷場順利各類下等茶至年終時亦復多人購買故其貨實無餘存於此間以待來年者當七八月間本省雖有獨立之舉然而茶務貿易却尙未大受影響據外洋市面十二月杪最近之報告謂茶葉景象殊非樂境計本年由中國運往之茶竟少去一千萬磅左右殊令人若有所失也仍望其日有起色並於下屆新茶未到以前存貨亦少庶乎其克有濟按此間洋商總商會所出報告表而觀尤有歉然者覺福州口夙稱興盛之茶務今則更有退而無進矣統計本年上市茶葉工夫茶較上年少百成中之三十三成零四分之一三小種茶少百成中之二十二成半烏龍少百分之五十花香茶貿易本已漸就輕微惟本年則增多百分中之三十九分白毫茶亦多百分之十四工夫茶一類其由政和縣產者所有收成葉質與及泡出茶汁均極精美而價值則以上年定格爲標準若坦洋及邵武產工夫茶品質均祇平常坦洋茶價較上年無甚軒輊

邵武產昂貴十分之一論小種茶品質本年亦尚均勻上庄貨中則更有畧勝於去年者當開盤時價值較上年高漲百分之十白毫茶收成亦佳若上庄貨每担約可值銀二百四十兩有此善價之求而茶戶仍不欲力求進步使該茶亦得有昔時潔白如銀之質地能無深可慨耶又有謂烏龍茶由上年存下在茶商手中未獲銷脫者約共二五箱一萬二千箱而本年運到之數則較上年適短一半以其結果而言尙堪顯全成本福州茶務貿易近三屆中另有一新開局面卽爲運往俄國之綠茶一種取名曰淮山者有此原因故由坦洋及其附近各境地所出茶葉當被收吸至五千二百担左右否則必將用以製成粗茶或中等茶運往倫敦以及歐洲北方一帶市面蓋淮山茶得價較高甯願製作此類而不欲以其葉作成工夫茶也遂使工夫茶類之粗茶價格較漲洋商販運家並不能有利可圖緣此類茶價如錫蘭印度爪哇及漢口等處所產每磅約祇值六辨士較福州產者實更相宜也第其收成品質亦甚佳美以大概而言若非華商辦運往天津一路之茶極形發達則華茶出洋貿易必能更臻佳境蓋天津一部分於此間茶葉將採摘時已先踴躍定購而種茶山戶售與此路客家貨物其得價之優實較勝於定運出洋者也卒之較佳茶葉多趨於天津一路貿易遂使他人之欲購買者甚覺艱難至於來年茶務情形應居於何等地位則目前尙爲時過早尙未能預爲定論惟說者則謂雖有前提漲力兼以價值高昂然而所有貿易其實尙稱順手設使此說可憑或者庶堪望來屆購辦情形亦將與本年無異耳此項經由華商運赴北方茶務貿易實於本口洋商所處之勢有最大關繫殆緣華商購茶往往與山戶直接交易並經手人而無之非若洋商之必不能免

此也是以買者賣者均覺兩有裨益且既直接購買已先立於穩當地位以視洋商定貨但具有投機性質者實能爭勝一籌矣凡關於運銷北省之茶其進行何似常使此間洋商無不注意考察通盤而計本年最稱暢銷者爲運往孟買及波斯二處之下等白毫茶一種所有市面上此類茶葉均獲銷脫且其時期較往常爲更早業茶之人尤克取價厚利至沙縣茶白琳茶及烏龍茶等類本年失敗更甚其行銷此類茶葉市場向須大幫之貨運往者此時似已將停絕購用勢非至價值之低必使業茶山戶不堪以接續採製而不止云

土貨進口本年淨計估值關平銀四百七十五萬七千七百餘兩比上年盈銀二百七十六萬九千六百餘兩其中大宗貨物最見膨漲者如米及麪粉及煤三項統核其價值銀已達至二百萬兩有奇所有中外米糧進口數目之鉅其原因有可決者蓋皆由本年內此間早稻歉收不得不賴此以接濟也若以本年貿易而言猶當稱爲缺點然觀上海機製麪粉進口亦見加多似乎轉足成爲佳境大抵多用以製成餅麪等類以投人民食性之所嗜耳

一內地稅則洋貨入內地子口稅共徵關平銀一萬一千二百五十五兩較上年多徵銀一千三十七兩其貨價總數則有五十三萬六千四百餘兩此外復有請領特別轉運單者如上海機製麪粉計值銀五十三萬五千九百餘兩又上海棉紗值銀四十二萬一千三百餘兩

土貨出內地本口於此項貿易向來無關重要故不足具論

一船隻遵照本關總章行駛者本年進出口輪船較上年多七十七隻統計加增八萬七千一百二十八噸所最堪觸目者乃懸挂日本旗之船共有二百四十隻即居二十九萬三千四百七十八噸視上年則祇一百六十八隻計二十萬六千九百七十六噸英國船亦多十

二隻得四萬五千九百三十八噸若中國船則短少十一隻計短三萬九千二百三十六噸夫中國船所以短少之原因有無可疑義者蓋緣七月間此間宣布獨立其時期雖短然而影響所及致使招商局常川往來船隻直接爲之暫行停滯又有日本國旗之篷船一類本年亦覺畧增此項船隻即爲日本商所置之華式篷船來往於本口及臺灣兩處貿易者至遵照內港行輪章程行駛之船隻所有挂用中國旗者顯然有退縮不前形勢或者殆緣各華商罕有於此中求利之思想耶

一旅客無可叙述

一金銀以本年進出口貿易貨物價值而言比較進口貨價實多於出口者共關平銀三百八十一萬九千七百餘兩大概此項進口貨值溢出數目其對抵法半由金銀出口比進口多值一百三十一萬四千二百餘兩然而猶有不敷之數可斷言其必爲本口與外洋之所謂暗中入款者用以暗中抵還蓋即從外洋華僑滙回巨款之類也其說明情形請閱廈門口上年貿易論畧第八節所云云者正與本口無異

一藥土洋藥白皮土一項本年由關棧起出即進口之數較上年加多一百四十担公班土則反減少十八担以本口現今洋藥命運而言覺此些微之數似亦無足重輕惟有最堪表決之一端乃本省省界中莫不熱誠盼望洋藥貿易之早日告終也

土藥貿易本省業經禁止現仍出其毅力嚴厲進行期於全省禁種罌粟一事務達其根苗盡絕之目的

AMOY TRADE REPORT.

1°. LOCAL.—The year 1913 may be looked upon as one of average prosperity for the port of Amoy. The rice crops have been plentiful and the prices of rice unusually low, down to \$4 per picul. The prosperous state of agriculture in the surrounding districts was further borne out by the enormous demand for bean-cake and other fertilisers, the trade in the former commodity demanding more tonnage from the North than was readily available. The main feature of the year's statistics has been a material decrease both in values and revenue, due to opium, which was, however, made good, to a great extent, by developments in general trade. In sympathy with the insurrection in the Yangtze Valley, the Fukien province declared its "independence" on 19th July, "cancelling" it again on the 8th August, much to the general relief. In local industries, the good profits made by the Amoy Tinning Company, of Kulangsu, which is said to have paid a dividend of 35 per cent. for 1913, has given rise to the establishment of a rival on the other side of the harbour in the shape of the China Canning Company, a purely Chinese enterprise, started towards the end of 1913, with a capital of \$160,000, half of which is paid up. The articles canned—for consumption of Chinese living abroad—are chiefly fish, fruit, and vegetables. The year 1913 also witnessed the establishment of two electric light companies on the Amoy and Kulangsu sides respectively, both of which were in full function by the end of the year. The Amoy-Changchow Railway again made no progress towards its goal, owing to lack of funds, the shareholders—all Chinese—having definitely tied up their purse strings. One train runs daily between the Amoy terminal, Sungsu, and the present railhead, Chiang Tung Chiao (Polam Bridge). During 1913, 183,034 passengers and 776 tons of goods were conveyed, with a gross receipt of \$38,482, which, of course, did not cover expenses. A project is now on foot to induce the Central Government to take over the line. On the 1st October the Amoy Native Customs, functioning under the control of the Maritime Customs Administration, was extended by the inclusion of an important station—Shihma and some smaller stations,—all of which lie within the 50-*li* radius originally stipulated for as defining the sphere of such control. This may be expected to lead to an appreciable increase in the Amoy Native Customs revenue available for Boxer indemnity payments. The anti-opium crusade has been continued unabatedly, as will be seen under the heading "Opium" in this report. Bubonic plague again appeared during the year, and lasted in its epidemic stage from the 2nd July to the 5th September. A serious cattle plague ravaged the districts in the immediate neighbourhood of Amoy during the spring and early summer. Politically, the place has been comparatively quiet, notwithstanding the ferment in other provinces and the period of the province's secession. As the result of the abolition of prefectures, this district was again classed as a *hsien*, under the name of Szemingsien, in March. The money market and the local exchange underwent comparatively small fluctuations.

2°. REVENUE.—While the total revenue for the year under review shows the considerable falling off of *Hk.Ts.* 348,000, which places the year 1913 at the bottom of the list for the past 10 years, the import and coast trade duties, apart from opium, which may be taken as a fair indicator of the trade activity of the port, show substantial increases over similar headings of

revenue during any year in the past decade. The cause of the decrease thus lies entirely in opium, duty and likin, which together account for *Hk.Tts.* 392,000 shortage as compared with the figures for 1912. Under the other headings, a fair average position has been maintained.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The first feature to claim the attention under this heading is a serious drop in the total value of foreign imports (less re-exports) from *Hk.Tts.* 11,754,000 in 1912 to *Hk.Tts.* 10,596,000. But here again, as under the heading 2°, it is necessary, for a fair conception of the normal trade of the port, to eliminate opium, which, with its enormously inflated values during the past few years and sudden drop in importation during 1913, has introduced a disturbing feature of considerable magnitude. Thus purified, the total values of net foreign imports, less opium, for 1911, 1912, and 1913 respectively become *Hk.Tts.* 7,729,373, *Hk.Tts.* 8,481,217, and *Hk.Tts.* 9,560,486—an undoubtedly healthy advance. It would really seem that the local consuming power for foreign goods generally is already showing the benefit of the cessation of the drain through opium. This is not surprising when one considers that during 1911 foreign opium alone represents in value no less than 36 per cent. of the total foreign imports. Among foreign cotton goods there appears to be no noteworthy feature outside of the usual annual fluctuations due to accidental conditions of the market, carrying over of stocks, etc. The same may be said of cotton yarn, in which a decrease of some 4,700 piculs may be due to the somewhat high importation during 1912, though, on the whole, Bombay cotton yarn seems to be gradually giving way to the Chinese article. Woollen goods present no noteworthy features. In metals, bar and nail-rod iron have steadily advanced, being 600 piculs in advance of 1912 and about 2,000 piculs over the quantities imported eight to ten years ago. In matches and kerosene oil, the steady advance of many years has been sustained during 1913, as may be expected of articles of such universal utility in every village in the hinterland taught to appreciate them, their markets readily responding to every improvement in the means of communication or effort for the extension of trade connexions. Sugar, white and refined, shows very marked increases, the former, with 146,770 piculs, trebling last year's figures and almost quadrupling the average of the past decade.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—As may be gathered from the Values table, Amoy is not an exporting place, the total value of exports fluctuating round *Hk.Tts.* 3,500,000 per annum. The year 1913 was no exception. In the principal articles, paper and tobacco, the export has been well sustained, with fair increases. Cow and buffalo hides and the local tea come next in the order of importance. Beyond these and the foodstuffs—dried fish and vegetables and vermicelli—consumed chiefly by Chinese abroad, there is no article much exceeding a total value of *Hk.Tts.* 50,000 during the year.

(b.) *Imports.*—Chinese imports, chiefly from the North, represent a more important branch of local trade, amounting in value to *Hk.Tts.* 6,081,657 during 1913, of which beancake alone accounts for *Hk.Tts.* 2,504,504, and black, green, white, and yellow beans and soya together for *Hk.Tts.* 1,139,325. Thus Manchuria contributes over 60 per cent. of the Chinese imports at Amoy. Cotton yarn from the Shanghai mills and flour come next in the order of importance, the former with a total value of *Hk.Tts.* 414,000, which is some 10 per cent. less than in 1912, and the latter with a value of *Hk.Tts.* 228,000 for the 71,870 piculs imported during

the year, or 21,800 piculs more than in 1912. This article, however, fluctuates considerably, and can only be taken in conjunction with foreign flour arriving *via* Hongkong. As with cotton yarn, it is purely a question of momentary market conditions which article—foreign or Chinese—is selected by the middlemen, the consumers having no voice in the matter.

5°. INLAND TRANSIT.—No comments.

6°. SHIPPING.—(a.) *Under General Regulations.*—The year 1913 has been the first to mark the total disappearance of the foreign-type sailing vessel from the Amoy shipping statistics. As regards steamers, it is also the worst year of the past decade for the number of vessels entered (796) and cleared (802), and a poor one for the tonnage, which shows a falling off of about 2 per cent. as compared with the previous three years' average.

(b.) *Under Inland Steam Navigation Rules.*—A similar falling off in tonnage is noticeable.

7°. PASSENGER TRAFFIC.—There is no important change to note in the past year's passenger traffic beyond the fact that some 27,000 fewer coolies left for Singapore and the Straits than during 1912 and 27,000 more returned. The falling off in departures is undoubtedly due to the 14 days' quarantine imposed at Singapore against passengers from Amoy, on account of smallpox, which stopped all coolie traffic to the Straits between the 16th April and the 10th June. The plague quarantine, fixed at 10 days, was met by the steamers slowing down somewhat on the route so as to make up the required period before arrival. The emigration to the Philippines continued without intermission, owing to the very thorough system of inspection and disinfection to which the coolies are subjected at this port before the steamers' departure. The deck passenger rate to Singapore fluctuated round about \$10, being fixed for each trip between the shipping agents and the passenger brokers, who charge their own prices from the coolies. The rate from Singapore is somewhat less, being about \$7.50, all including messing. The rates to and from Manila are, respectively, \$15 and \$13, not including fees or messing.

8°. TREASURE.—The movements of treasure at Amoy present some noteworthy features. The tables show that treasure to the value of *Hk.Fts.* 5,855,714 has been imported during the year 1913 and *Hk.Fts.* 998,786 exported. This excess of inward over outward treasure, though somewhat accentuated in this case, is the invariable rule at this port. For the past 10 years it has amounted in the aggregate to 23½ million Haikwan taels. Seeing that it is not likely that emigrants take away more money in their pockets than they bring in—as a matter of fact, they all understand and freely make use of bank drafts,—the only explanation of this excess is that there exists a steady drain of treasure, principally in the shape of coined silver, into the interior, where it is gradually taken into use as a medium of trade in preference to sycee and inconvenient quantities of copper coins. In this connexion, a great proportion of the treasure imported here must be regarded purely as a commodity, and it is therefore natural that the speculators engaged in it will buy up such coins as they can obtain at the cheapest rate, *i.e.*, which stand at the greatest discount elsewhere. Thus the 10-cent and 20-cent pieces which have been minted in such large quantities at Foochow, Canton, and elsewhere have of late been figuring very largely in our importation of treasure. They are sent to the bigger inland marts in the neighbourhood, where they command a far better price than in the coast ports named, either in payment of produce or in exchange for dollars,

which are then brought to the port, much to the detriment of the local dollar value. While on the subject of treasure movements, it is opportune to examine the local "balance of trade," which at Amoy has always been such as would make an economist of the old school shudder to think of. The year 1913 shows this characteristic stronger than ever. Against imports of a total value of *Hk.Ts.* 16,677,189 can only be placed *Hk.Ts.* 3,391,743 worth of exports. Adding to this the *Hk.Ts.* 4,856,928 excess of treasure imported, we arrive at a balance of 18 million Haikwan taels "against" the trade of the port to be accounted for. The first question which suggests itself in this connexion is whether the balance may not adjust itself *via* a neighbouring port through some movement of goods or treasure in the interior unrecorded here. Thus it might be conceivable that one port serves as the most convenient outlet, while another takes prior position as a distributing centre, both of a common hinterland. This is, however, not the case with Amoy, as, apart from the known geographical features which preclude such an assumption, the statistics show that at Foochow imports and exports—taken in conjunction with treasure movements—are fairly well balanced, while Swatow shows a similar big excess of imports over exports, generally even a few million taels more than Amoy. This points to the solution, *viz.*, the emigrants for whom these two ports are noted. The savings of these emigrants, remitted or brought home, adjust the balance of trade. How this is done is explained in the Amoy Trade Report for 1912. It merely means that the surplus earnings of the emigrants ultimately arrive here in the shape of goods. The principal feature about it, however, is its remarkable extent, as, with an annual remittance of 16 to 18 million taels, one must arrive at the conclusion that the remitted earnings of the Amoy Chinese abroad pay for the entire import trade of the port.

9°. OPIUM.—(a.) *Foreign.*—The importation of opium shows the strongly continued dwindling naturally due to the restrictions which will soon entirely wipe out this heading from the statistics. Meanwhile the accumulated stocks of foreign opium are being gradually taken into consumption in small parcels. That the trade must be an extremely speculative one at this juncture is suggested by the enormously rising prices. Thus the value of Persian opium rose from *Hk.Ts.* 2,300 to *Hk.Ts.* 4,333 per picul between July and October. These high values were still being maintained at the close of the year.

(b.) *Chinese.*—There being no longer any legitimate trade under this heading, one is naturally led to inquire into the amount of success attending the official efforts at total suppression. These have certainly been pursued with unabated vigour in the Amoy district during the year under review, both as regards the cultivation of the native poppy—where force has had to be used on more than one occasion—and as regards the individual consumption. On the 5th May all the boiled opium shops in the Amoy city were closed and smoking itself made a punishable offence. Occasional burnings of opium, pipes, etc., took place in public. If the present policy is carried on consistently for some years, there seems to be every likelihood of real permanent effect being obtained. A hopeful indication—coming perhaps earlier than expected—is the afore-mentioned material increase in imports other than opium in a year which could not be called a particularly prosperous one for trade. This undoubtedly points to a diversion in the port's purchasing power into healthier channels.

10°. MISCELLANEOUS.—One of the features of the trade of this port which has been a puzzle to many, and does not seem to have been yet specially treated of in any previous Trade Report, is that regarding the local currency. The unit of this currency is the so-called "Spanish dollar," which, though actually in use in the 60's, had totally disappeared from the market by

the end of the 70's. Since then, however, it has been retained as a book-unit by the local agency of the Hongkong and Shanghai Bank and made to rule practically all commercial and banking transactions of the port. The rate of this unit with regard to the silver currency actually handled here—styled “chopped yen,” and consisting variously of Japanese yen (coined for Formosa), Hongkong dollars, Mexican dollars, and Indo-China piastres, all considered, *mirabile dictu*, to be mutually equivalent in value—is fixed from day to day by the aforesaid bank. It varies generally from about 2 per cent. premium to par, but may even go below par in times when local silver coins are scarce, as in 1911, when it actually touched 3½ per cent. discount. The sole criterion for this fluctuation is the bank's want or superfluity of silver dollars, which is practically synonymous with the port's demand or supply of coined currency. Some other banks established in more recent years—the Bank of Taiwan and the Chinese official Bank of Communications—have local silver currency—yen or dollars—as their unit; but this has not affected the paramount position of the Spanish dollar as the basis of trade and foreign exchange transactions at Amoy. From a currency point of view, the position is a most remarkable one, as the only legal tender for daily purposes consists practically of cheques on one bank or silver coins at rates fluctuating daily at the will of that same bank. Though in theory the Spanish dollar is represented by 72 candareens Canton weight of current dollars or silver of 900 fineness, in practice sycee is not obtainable, and the bank reserves the right to refuse the acceptance of dollars by weight, taking them by count only, with the interposition of its daily rate to arrive at Spanish dollars. Needless to say, this rate also varies for buying and selling. The system of handling dollars by count only has become the rule, since the bank's policy of accepting only clean or slightly chopped dollars has had the effect of driving the old mutilated cup-and-saucer-like coins to other ports or into the melting-pot. Notwithstanding all the above peculiarities, the Amoy currency system presents distinct advantages for the trade as compared with the neighbouring coast ports. By adhering to an extinct currency and continuing that as a book or bank unit, the bank is able to keep its unit mostly always at par with the Hongkong dollar, and quote for its sterling exchange almost invariably the identical figures ruling for the day at Hongkong. The Amoy merchant thus obtains in his foreign dealings the benefit of a sterling exchange rate very closely following the price of bar silver, and is freed from the additional uncertainties introduced by varying supply and demand of the local currency, which may amount to a considerable percentage in abnormal times or through artificial “riggings” of the money market. The Amoy currency system may thus be quoted as an object lesson to show how, under a heterogeneous and irregular coinage system, a fictitious bank-unit may be resorted to almost unconsciously with great steadying effect, and how easy it is even for a single bank to maintain such a fictitious unit under conditions which are far removed from carrying any force in the nature of legal compulsion. In this direction would seem ultimately to lie a practicable road towards currency reform and unification for China.

一本關稅課本年所徵數目雖有短少關平銀三十四萬八千兩以近十年來之數較之本年實居其末然若除藥土不計外其進口正稅及復進口半稅之數比較近十年中不論何年均有增益且堪爲本口貿易興衰之標準緣本年稅課短少之故全屬藥土釐稅兩項共較上年少三十九萬二千兩也至於其餘各稅均與常年大畧相同

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者其中能令首爲注意莫如洋貨價值除復出口不計在內之跌落蓋上年有關平銀一千一百七十五萬四千兩本年降至一千五百九十九萬六千兩欲知本口貿易有無照常須將藥土一項除出方能洞悉緣藥土自前數年來價漲異常而本年進口之數頓減以致洋貨價值之總數大爲顛倒若將藥土除去則前清宣統三年分進口洋貨淨數共值有七百七十二萬九千三百餘兩中華民國元年分有八百四十八萬一千二百餘兩民國二年分有九百五十六萬四百餘兩以此觀之可見每年有益之洋貨進口確有加增似係銷售別色各洋貨之力有隱沾停止藥土來源之利益若查前清宣統三年進口洋貨價值於洋藥一項不下百分之三十六此則實無足怪也外國棉貨類每年進口多寡均視上年存貨若干行市如何爲定準此外別

無可論棉紗亦不外如此進口有少四千七百担祇爲上年進口頗多故也印度棉紗進口短少似有逐漸用中國紗以代之者至於絨貨類亦無足論列惟五金類進口內以鐵條鐵支確有遞增較上年多六百担比之八年至十年以前即多二千担也自來火與煤油切實增加今已久矣而本年亦然蓋此等貨物之利益有普及附近各鄉是以人多樂用且交通之法日益完善貿易又力擴張故其銷流日廣白糖及車白糖顯增多數白糖有十四萬六千七百餘担較上年多有三倍若以前十年之數計算而比較之則本年約多有四倍矣

洋貨復出口無論列之處

一土貨貿易土貨出口運往外洋及通商口岸連復出口在內查本口若由本關價值表觀之則並非貨物出口繁盛之區每年土貨出口價值約在關平銀三百五十萬兩左右本年亦大抵如斯出口貨物最要者即係紙張與煙草各有加增其次則生牛皮本地茶葉然除此數色以及多數爲華僑銷用之食品乾魚乾菜粉絲而外本年別無他貨之價值能逾過五萬兩以上者

土貨進口多係由北方運來乃本埠貿易之一大端比出口爲更要其價值本年共有六百八萬一千六百餘兩內豆餅一項有二百五十萬四千五百餘兩黑綠白黃各豆及大豆共有一百十三萬九千三百餘兩然則土貨由滿洲輸入本口者有百分之六十矣其次要者只上海之機器棉紗暨麵粉耳此項棉紗共值四十一萬四千兩較上年少百分

之十麵粉有七萬一千八百餘担共值二十二萬八千兩較之上年多二萬一千八百担進口多寡大相懸殊故須參考由香港運進之外國麵粉若干方能詳晰麵粉貿易與棉紗大致相同經手商人無論其貨爲洋爲土但擇其時價較廉者而採之其銷用之人均無異辭也

一內地稅則無可論列

一船隻遵照本關總章行駛者本年洋式篷船係首次不見於本關船隻報冊之內若論輪船進出口以前十年來較之乃本年爲最不佳者蓋進口祇有七百九十六艘出口祇有八百二艘耳其噸數亦屬短絀與前三年扯而較之約少百分之二遵照內港行輪章程行駛者本年噸數之短絀亦然

一旅客出口往新嘉坡等處者較上年少二萬七千名回客則多二萬七千名此外別無重要更張之事可錄按其外出減少之由實因新嘉坡政府以痘症盛行有禁令屢客不准於十四天內登岸致客人前往新嘉坡等處竟由四月十六日至六月十日全行停止然其疫症之禁限係以十日爲滿是以輪船在途行駛故意遲行必待限滿而後到焉客人往飛利賓者並無間斷因於輪船未行之先有經本口美國公衆衛生醫士澈底察驗並清除傳染之氣故也其艙客往新嘉坡之川資每次係由輪船之代理行與客棧議定每名約在十元左右惟客棧將船票轉售與客人者則另訂價目若由新嘉坡來者川資較少每名約在七圓五角往來伙食俱計在內其往小呂宋者每名川資十五圓由小呂宋

來者每名只十三圓耳而往來伙食等費均不計算在內也

一金銀本口金銀進出間有可錄之事數端本年金銀進口共值關平銀五百八十五萬五千七百餘兩出口共值九十九萬八千七百餘兩然進多於出係本口歷年不易之情形惟本年盈入之數不過較之常年畧有加多而已溯自前十年來所溢之數總共有二千三百五十萬兩觀外出客人隨帶之銀竟無逾過携回之數客人遞寄銀項此等入多於出之故係因銀幣運入內地逐漸用作貿易較諸元寶及銅幣更爲利便蓋本口輸入之金銀多有以作貨物之貿易業此之商每觀何處之銀幣扣水最多即行收買來廈故近來閩粵等處鼓鑄之一二角小銀圓報運進口爲數極多其價值於附近內地各市鎮有較以上沿海三口更佳乃於進口後即配入該處或用以採辦土產或兌換銀圓來廈以致本埠銀圓價值受其影響因所論進出金銀之故順考其出入口貨而辨別之本年進口貨共值一千六百六十七萬七千一百餘兩出口貨共值三百三十九萬一千七百餘兩二款對除其進口貨值尙餘一千三百二十八萬五千四百餘兩再加以金銀進出對抵盈入之四百八十五萬六千九百餘兩則進口貨價盈入統共有一千八百餘萬兩之多此款係以華僑積蓄匯歸之銀抵之而其法已於民國元年本關貿易論畧詳言之矣此乃專指華僑所餘之資以還進口之貨價者其匯歸之數每年約有一千六百至一千八百萬兩其數若是之鉅實足動人心目是以可決進口貨值全數確係本埠華僑匯回之款以抵還也

一藥土洋藥進口日漸衰微推原其故乃係煙禁森嚴有以致之現時已將前積之土逐漸移出銷售想不久本關報冊中定將此項名目消滅於無何有之鄉矣其價值之升漲殊異於尋常可見當此情形危迫之時此項貿易實屬冒險之至也波斯土價值在七月至十月之間每担由關平銀二千三百兩升至四千三百三十三兩而各色藥土至年底其價值之高仍復如是

土藥生涯已無合例之營業然官長對於禁種禁吸極其勉力以期從速肅清而其收效若何實足令人研究查本口本年禁種罌粟及禁箇人吸煙甚覺認真間因禁種而用力者已非一次矣本年五月五日城市所有清膏舖一律着令閉歇吸煙之徒卽有科罰之罪禁煙局有數次將所獲藥土煙膏煙具等物當衆焚燬自茲以往倘能循照現時辦法接續進行始終如一則數年間可收永遠完全之效果本年貿易雖非異常興盛之年然進口貨物除將藥土不計外其加增之鉅已於上文言之此希望之佳兆發現之速率實出人之意表足徵本口購貨之力量確有移向有益貨物之一方面矣

一雜論本口制幣亦爲貿易之一端此中情形殊有令人難測者前此論畧竟無特論及之按此制幣之本位名曰大秤銀卽呂宋銀也於前清咸豐十年間市上確有行用迨至前清同治九年底概行消滅嗣後匯豐銀行僅存其名爲標準以爲本口各項生意及銀行交易之用其大秤銀之價對於市面現在行用之銀幣

名曰鑿號銀圓如日本香港墨西哥西貢等銀其價值俱各相同實

異也係每日由該銀行定之每百圓常係由平均而至加水二圓若遇銀圓缺乏之時亦間有扣水如前清宣統三年間每百圓有扣至三圓五角之多緣此銀價起落皆視該銀

行之銀圓多寡而定焉近年復有台灣銀行及中國交通銀行之設立均以本埠通用之銀幣即銀圓為標準其於大秤銀為本口貿易及外洋匯兌交易之根本殊無妨礙也以幣制觀之本口有甚形奇異者蓋每日行用係匯豐銀行之大秤銀支票或本埠通用之銀圓其價目升降日隨該銀行之意而左右之大秤銀雖與粵平重七錢二分之銀圓或銀內有淨銀九成者相等乃本口並無元寶故該銀行收銀皆不照稱其重但以銀圓之數按其每日所定之價折合大秤銀而已且該銀行進出價數又各不同然用銀圓扯合大秤銀則已成爲例矣銀行收入之銀必須清潔及稍有鑿號者因此故致剪鑿凸凹各色花銀或運往他口或消溶另鑄第本口幣制雖有以上所述各等奇異情形然其於貿易上實較諸沿海鄰郡各口則顯有裨益也該銀行將昔年消滅之大秤銀作爲標準既能致其銀常與香港之銀圓價值相等且能使廈門金鎊匯兌與香港之價有大抵不易之相符金鎊匯兌其起落每跟於銀條之價故本口與外洋交易之商人匯銀置貨亦得沾其價之利益可毋庸慮及本埠銀圓盈絀有關於前項匯兌之價也總而言之本口幣制實可採以爲例蓋於參差不齊之下而一銀行以虛無之制幣爲標準毋須用力迫人經驗如是之易若仿其法而行之則中國將來整頓劃一幣制其收效似可預期矣

SWATOW TRADE REPORT.

1°. LOCAL.—In spite of gloomy forecasts, 1913 has proved the record year for revenue and imports, though an unfortunate decrease has to be noted in exports. All classes of imports made an excellent showing, with opium as the best contributor to the increase in revenue. Had it not been for the counter-revolution in August, both revenue and trade would have been in even a better position; for the unrest so close at hand, and the rumours of despatch to this province of northern troops to quell the rebellion, naturally caused merchants to be shy of concluding forward contracts and brought about a temporary cessation of trade. With this exception, however, and in spite of the annoyance caused locally by the Triads, merchants have worked away steadily and quietly throughout the year, and the majority, I am informed, are gratified with the profits that have rewarded their labours. In December there was some excitement on the money market caused by the bankruptcy of a large Chinese firm, which also conducted banking business with a local circulation of bank-notes. \$200,000 covered the liabilities, and, as the creditors held their hands and guarantors came forward immediately, the public did not lose, and a run on other banks was averted. Money was, however, very tight for a while, and the rate of interest rose as high as 48 per cent. per annum. It is curious to note here that, in spite of the disturbed condition of much of this province, the remoter districts have experienced no unrest, and in many places queues are still worn and little interest seems to be taken in politics, while the common people appear quite contented and satisfied with their lot under the present régime. Another cause of prosperity and good reason for contentment was the autumn harvest, which was reaped under ideal conditions, and turned out excellent, in spite of the September typhoons, which were considered at the time to have wrought much havoc. The counter-revolution at Canton did not meet with any adherents here beyond two newspapers, which were suppressed, as the Tu-pan Wu Hsiang-ta was strong enough to hold the place down and preserve order. This high official was in a difficult position, as his son was at Canton in the power of Chên Tutu; but he managed to weather the storm, much to the satisfaction of local merchants, who appreciate his firm hand and fair dealing. In January he was given charge of the Kiaying district in addition to his own, and, since the suppression of the rebellion, he has been kept busy reducing the Triad and White Fan secret sects and settling clan fights. The Triads especially have made themselves obnoxious, mainly in the neighbourhood of Chaoyang, where they created for a while a perfect reign of terror by their barbarous ill treatment of women and cruel methods of mutilating their enemies and those who did not care to part too readily with their worldly goods. After much difficulty and delay, Hsu A-po (許阿鉢), the leader, who aped the style and title of Tutu, was captured and shot, and his various male successors having met with the same fate, the Triads have now elected his widow, quite a young woman, to fill his place. This chieftainess, with her followers, cruises about in Chaoyang waters and is much feared, but is likely soon to follow her husband. Clan fights have also been a great source of anxiety, as they spring up out of the merest trifles, such as the cutting of grass on a hillside, and are conducted with so much ferocity that General Wu has been obliged on several occasions to proceed in person to arrange matters, and, though often fiercely attacked, has succeeded by very drastic methods in

bringing about a certain measure of quiet. In February a certain Kao Shou-t'ien (高壽田) tried to start a rebellion here, but was promptly caught and shot. He was formerly a comprador on a vessel trading hence to the South, and is supposed to have taken action to revenge some Triad friends who had been executed. Like him, Ch'én, the rebel Canton Tulu, was known locally, as he served two or three years ago in a local bookseller's shop.

2°. REVENUE.—The total revenue during the year amounted to *Hk.Tts.* 2,031,655, the first time in the history of the port in which the 2 million mark has been passed. To this good result opium duties and likin contributed an increase of over *Hk.Tts.* 144,000; import duties, over *Hk.Tts.* 100,000; and coast trade, over *Hk.Tts.* 20,000; while export and tonnage dues fall off to the extent of *Hk.Tts.* 136,000 and *Hk.Tts.* 14,000 respectively. Transit duties gained a little over *Hk.Tts.* 700.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The net value of the foreign import trade during 1913 amounted to *Hk.Tts.* 20,302,376, as against *Hk.Tts.* 18,947,348 in 1912—our record year. There was a gain in all classes of imports. The piece goods trade was in somewhat greater volume than in 1912, but dealers, with some exceptions, have not had as profitable a year as they might, owing to too keen competition among themselves, though they have all the same managed to hold their own. Fancy goods have been in great favour when suitable for long coats and garments to match; but the demand for woollens suitable for foreign-style clothing is conspicuous by its absence, and that fashion has practically died away. Staple goods have been in average demand, though white shirtings have moved more slowly than usual. While the Customs records show an increase in yarn over the figures for the previous year, the demand is said to be diminishing, and dealers in this commodity find it difficult to earn profits. The demand for fancy goods, to the exclusion of such plain fabrics as are woven up country from imported yarn, is given as one reason for the lessening demand, and importations of cheaper plain cloths in the piece as another. Business in kerosene oil has been a very satisfactory one during 1913, and the total quantity gone into consumption is estimated at 650,000 units—an increase of about 10 per cent. as compared with the figures in the previous year, though the actual quantity that reached Swatow is less. Prices advanced gradually during the first half of the year, but remained stationary during the last six months. Metals call for no special remarks, and the import of coal remains stationary. Foreign rice shows a deficit of over 65,000 piculs, owing to good local crops, and flour is less by 54,000 piculs odd for the same reason. White and refined sugar have increased greatly in the last few years, but the grand total is still below the 1906 figures.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The export trade shows a slight gain over that for 1912, in spite of a bad business year in Siam and the Straits Settlements, which take the bulk of our foreign-going produce. That to coast and river ports shows, however, a decline in value of over 3 million taels as compared with that for 1912, due mainly to sugar, the Swatow staple, which is still on the downward grade and is over 2 million taels to the bad. The reasons for this decline are, firstly, the absence of improved methods in the cultivation of the cane and the preparation of the sugar, and, secondly, the cheapness of the Java product, which sells on the local market for over a dollar a picul less than the Chinese article, and can thus easily supplant its rival on the Yangtze. For many years Hankow buyers refused to touch foreign sugar, owing to the employment of

bone dust in the refineries; but this prejudice has now been overcome, much to the injury of the home product. Large quantities of very cheap and poor quality of Java sugar have come in of late, to be used in the manufacture of samsu, of which there is a large export to Siam and the Straits Settlements. Of the other principal exports, liquid indigo is less than in 1912 by over 3,000 piculs; but this is due to demand for it in Fukien, and not to any failure in crops. The trade in hemp skin has proved very profitable for farmers, and the total production for 1913 is estimated at 20,000 piculs, of which 17,800 piculs left port, as against an average yield of only 12,000 piculs. Oranges show a decrease, and the quality this season is much poorer, owing to the damage wrought by the September typhoons. Nankeens (mostly foreign shirtings locally dyed) have dropped from 20,126 piculs in 1912 to 2,529 piculs, due probably to a rise in price of a tael a picul, which has enabled the foreign material to be dyed more cheaply elsewhere.

(b.) *Imports*.—A decrease of 1,698,650 piculs in weight and over 6 million taels in value appears under the heading of rice as compared with the figures for the previous year. This is simply due to the bountiful local harvests rendering outside supplies unnecessary. Beans show a great falling off, due probably to the establishment of beancake factories at Hankow, from which port the local factories obtained their supplies, and where the cake can be manufactured more cheaply than here. In consequence, the two local establishments are being run at a loss, and it is to be feared they will have to shut down entirely at no distant date. Beancake has gained about half a million piculs over the figures for 1912, showing how easily this fertiliser holds its own against all attempts to supersede it. Groundnuts have also improved their position, as the demand in the Straits and Siam for the manufactured cake and the oil expressed for cooking purposes continues to grow. Silk piece goods show a gain of 533 piculs, or more than double the figures for 1912, due to the fact, as mentioned elsewhere, that Chinese style of clothing is once more finding favour in its own country.

5°. INLAND TRANSIT.—(a.) *Inwards*.—The gain in value over the 1912 figures is about Hk. Ts. 60,000. This trade continues to consist almost entirely of kerosene oil.

(b.) *Outwards*.—*Nil*.

6°. SHIPPING.—The slight falling off in the entries and clearances is due to the scarcity of tonnage in the East, which, with the high price of coal and increase of salaries, have caused an advance in freights. The following are the quotations for 1912 and 1913:—

To SWATOW.	1912.	1913.
	Per Picul.	Per Picul.
From Newchwang and Dairen	27 cents.	37 cents.
„ Chefoo	22 „	32 „
„ Wuhu	18 to 21 cents.	22 to 23 cents.
„ Tientsin	50 cents.	75 cents.
„ Hankow	2 mace 8 cand.	3 mace 5 cand.

The rates for chartered steamers advanced from \$8,000 to \$11,000 a month. The rates of freight from Bangkok here advanced to 50 and 55 cents a picul, but dropped to 25 and 30 cents a picul in November and December, owing to the paralysis of Siamese trade caused by the heavy bank failures. During the year the Fock Tung Steamship Company was established in the port, and is now running two chartered steamers between Amoy, Swatow, Hongkong, Singapore, and Java ports, loading for the South and Straits with general cargo and emi-

grants, and returning with raw sugar and molasses from Java and Bangkok rice. Eight new launches were added to the register during 1913, bringing the inland waters steam navigation vessels up to 25 in number. Three steam and eight motor launches run on the Han River, above Chaochowfu; but as the service is over-supplied, the companies concerned are working at a loss.

7°. PASSENGER TRAFFIC.—The item of interest under this head was the despatch on the 24th April of the German s.s. *Michael Jepsen* with 1,130 contract coolies to Samoa. From a proclamation issued by the Emigration Bureau at Swatow, we learn that the monthly pay of these coolies is 20 marks, and they are only to be called upon for agricultural labour and to work 10 hours a day for six days a week, with a holiday on Sundays, New Year's Day, and other festivals. Food, lodging, medical attendance, and medicines are provided free, and facilities are given for the sending home of letters and remittances. During 1913, 33,298 more passengers went abroad than returned, showing how well the demand for Swatow coolies is maintained. In 1912 the figures were 31,876.

8°. TREASURE.—No special remarks.

9°. OPIUM.—Business in the Indian drug has been exceptionally good and profitable, with a total import of 2,008 chests, weighing 2,121 piculs, and duty and likin showing a gain of *Hk.Tts.* 145,875 over the figures for 1912—the record year. Market prices in January and December 1913 are compared below:—

	JANUARY.	DECEMBER.
	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>
Malwa	1,861	3,933
Patna	1,738	4,033
Benares	1,938	4,066

from which it can be seen that only wealthy smokers can afford to indulge in the pipe. The poorer classes have been compelled to resort to anti-opium pills, wine, and cakes. It is interesting to note the constant opening of medicine shops relying on business of this kind, and the huge profits made by them, which are said to be anything from \$10,000 upwards a year for large houses and \$3,000 to \$5,000 for small ones. The secret of their success is to mix morphia with Chinese medicine in such bottles and packets as will cost from 5 to 20 cents each, and thus be within the reach of everyone. Morphia is put up in such small packets that it can be easily smuggled; and it is difficult to see how such a lucrative trade can be put a stop to. Opium smoking has been very closely watched during the year, and various Edicts fulminated against it as well as against the growth of the poppy. During the first six months of 1913 the police conducted systematic house-to-house search for smokers, and arrests were of daily occurrence, with fines of from \$5 to \$200 for each offender and three-tenths reward to the police. Later on, however, when the control of prisoners passed to the law courts and no rewards were given the police, house-to-house search ceased and smoking became more general. It should be noted that 498 piculs of Indian opium duty paid and labelled reached Swatow from treaty ports, chiefly Shanghai, during 1912, while in 1913 only 42 piculs were received from these sources.

10°. MISCELLANEOUS.—Plague first appeared in Swatow in the spring of 1894, and since then it has visited the port annually in more or less severity. The town of Swatow itself has been remarkably free from the disease for several years, and the only cases that occurred in the

early summer were confined to members of outlying villages who had come to the port for help or fled from fear of infection. Plague, however, is slowly making its way up the Han River, and was especially severe in the Tapu and Yungting districts. The Chinese are beginning to believe in the efficacy of plague inoculation, and in 1913 about 8,000 patients, Dr. Lyall, of the English Presbyterian Mission, informs me, were inoculated with vaccine from Bombay.—In August and September Swatow and the city of Kityang suffered a good deal from cholera, and about the same time dengue fever appeared in a mild form, and was prevalent for a few weeks. This last disease is not a frequent visitor to the port. Apart from these epidemics, the summer may be considered healthy.—The waterworks were taken over in December by the local company, but water has been supplied free to the town for some months. A tariff has been published, to come into effect at an early date, and a foreign engineer has been appointed in charge of the works as well as of the electric light station owned by the same company. It is to be hoped that the company will be efficiently managed, as Swatow possesses no proper water supply in itself.—The Chief of Police was dismissed and imprisoned for embezzlement, and his successor, Ku Shih-sun (顧石蓀), who took over office on the 6th November, appears firm and energetic. He is bent on improving the force under him, and weeding out from it all weakly and useless men—a reform much needed.—In 1913 various societies have been started to promote abstention from foreign wines and cigarettes, and have shown great activity, especially against the latter. The danger from drinking is more worthy of attention, as the increased price of opium has resulted in increased consumption of liquors, and those not of the best and safest quality.—Canton government bank-notes have been at a discount throughout the year, often as low as 42 per cent., and during the rebellion no one would accept them at any price.

NATIVE CUSTOMS.—Both value and collection for 1913 show a decline, owing partly to the stagnation of trade caused by the Canton counter-revolution, and partly to the rebellion on the Yangtze causing a temporary cessation of business with river ports. White and brown sugar continued to lose ground, owing to the competition of foreign sugar, both locally and on the Yangtze, and less cane seems to be planted year by year. The import from inland of molasses shows a decline of about 70 per cent., for which the product from Java and Formosa is responsible, as it sells on the market for Ts 2 a picul, as compared with Ts 2.80 for the local commodity. Chinaware under Native Customs transit documents shows also a decline, owing to Annam and the Straits Settlements requiring less. The old trade in samshu with Chekiang province, which received a set-back during the revolution, has revived, and the import shows a gain of 100 per cent. over arrivals in 1912. Liquid indigo shows an increase, owing to the good markets for it in Fukien, where the crops were damaged by inundations. Trade in pottery has revived, as the kilns at Fengki (楓溪), near Chaochowfu, destroyed during clan fights a year ago, have been rebuilt or repaired. Paper fans and native shoes were formerly sent overland to Hweichow (惠州) and from there farther south; it has now been found cheaper and safer to send them by launch and junk from Swatow, hence the improved position of these items in our returns.

W. G. LAY,

中華民國二年汕頭口華洋貿易情形論略

竊查本口貿易情形其預兆初呈雖爲暗淡究竟稅項與進口貨物之進境又爲歷來所未見也不幸出口貨猶覺減少是亦美中之不足見夫進口各貨與所徵稅款俱有加增而加增之內猶以洋藥爲巨擘設使八月間二次革命潮流不生將見稅課暨貿易駸駸進步愈不知如何美滿無如不靖狀況近在指顧間而四起謠言北軍南下儘教商務中人不寒而慄因之立合同販貨物不敢齒及居然演成生意暫停險象此外雖本地稍有三點會匪勾結搔擾而商人按部就班週年轉運依然不礙於交通聞得各商多有獲利之厚具徵握算持籌終歲勤動至此而能得收良效果是亦不負其辛勞也十二月間埠上銀市頗覺恐慌揆厥由來蓋因本口華商倒閉一行該行兼業銀莊出有鈔票嗣經措資二十萬元隨卽彌縫債務遂令前此羣向該行追討者至此亦罕有所聞更經有人出任維持銀市而衆人之被欠者不至有所虧損其影響他銀莊紛紛收債者不期而竟銷聲於無形矣當是時也銀根緊急周轉爲難頓教年息每百分漲至四十八分間嘗瀏覽潮屬而得一奇事也粵地區域多未敕平乃距汕窺遠各處復不見有不靖之景况遠僻之區多有辮髮之人若輩熙熙皞皞於政治無甚關心且於此際制度似覺各已相安更有一事誠足顯地方之旺象動輿情之知足其事維何厥惟晚造之禾稻也秋收原難預卜雖九月間風雨爲虐斯時固謂秋稔無期收成必敗詎知雨止風息而芄芃禾稼竟未

摧殘於是樂意殷殷依然年登大有此而知足信知足也粵垣二次革命謬倡獨立本處除兩間報館鼓吹外絕少附和之徒該報館尋亦封禁幸得綏靖處督辦吳祥達君坐鎮是邦保存秩序生平威望固若干城惟吳公處此時境尤有難乎爲情以其哲嗣隸於陳督宇下且晚近在肘腋而吳公有如冒險乘舟能於驚濤駭浪中穩持舵柄挺力直前不變方針異常鎮定究使人民安堵風鶴不驚閭閻羣情服其運用且尤深感其遇事持平無偏無頗曾於正月間又兼梅州督辦方其之蒞汕也自解散亂軍而後軍事倥傯日不暇給惟尤爲注意者志在剪除三點白扇諸會匪之勢力以及綏靖四鄉之械鬥夫三點會之巢穴近在潮陽該匪暴戾橫行凶殘最熾妄自尊大盤踞一隅其猖獗使人縮頸吐舌者猶以虐遇婦女挾衅尋仇斂財不遂爲尤甚一遭荼毒立予分尸慘酷如斯言之心悸經幾許之艱難曠幾許之時日始將沐猴而冠之僞都督元兇許阿鉢者緝而槍斃尋有相繼該匪起而爲首者不一而足要皆先後被擒次第伏法匪之黨羽復舉其婦出爲首領以接其位聞匪婦乃一青年少婦也時常率領匪衆出沒於潮陽水面一帶其惡焰亦足令人聞而生畏逆料一轉移間必蹈其夫之覆轍也潮人好鬥成風誠足動人顧慮往往因纖微事故輒生惡感卽如采薪細事耳而亦有時借此發揮釀成猛烈之劇曾見督辦吳公幾回親蒞戎行赴鄉辦鬥當其往也具有不得已之苦衷迫到鬥鄉彼輩豈不畏法反敢夾而攻之吳公遇此強梁知非以理可喻無已則施以激烈手段然後戡定之效始收本年二月有高壽田者欲在汕頭潛謀不軌乃未閱時拿獲槍斃此人向充來往

南洋輪船買辦觀其用意殆欲爲被緝服法之三黠會匪以圖報雪卽若粵省謀二次革命之陳督往日事同一轍蓋陳疇昔在汕嘗爲書市之僱工云

一本關稅課本年共徵關平銀二百三萬一千六百五十四兩此二百萬之數是爲汕頭論畧中卓然初次之僅見也而此數內尤推洋藥爲最優綜其稅釐較去年已增十四萬四千餘兩各項進口貨稅較去年增十萬餘兩由通商口岸進口稅較去年增二萬餘兩惟出口稅較去年短徵約十三萬六千兩船鈔較去年短收約一萬四千兩子口稅較去年增七百兩有奇

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者本年此項淨數估值關平銀二千三十萬二千三百七十六兩去年此項淨數估值一千八百九十四萬七千三百四十八兩所有本年進口各貨均見有加惟布疋一項尤爲特出惜營業是項者踴躍競爭致所得之利不如應得之利雖然猶可立於得利之地織花之布可爲華裝之長服或配長服之短褂者最爲時尚至堪爲洋式服飾之呢羽各貨杳然難覩至此洋裝服飾已爲過時之物尋常各色布疋概屬平均惟白洋布亦見滯消棉紗一項本年進口之數視本關冊檔紀載固謂多於去年無如銷場日形退縮據個中人云此宗利益已成強弩之末織花之布人皆樂用致本地鄉間向購棉紗織成之光面土布亦覺過問無人此爲洋紗減銷之第一原因也况本年又遇各種價廉無花之布源源進口故棉紗益覺勢處於寂寞此爲洋紗減銷之第二原因也本年煤油商人殊獲暢心之境計其銷數之旺共有六十

五萬箱之譜以視去年每百分多至十分雖由源頭運來數少而上半年價值日漸漲高迨至下半年依然穩立五金無甚特別姑不論及進口之煤比去年不見進退南洋米石因本年本處豐稔進口比去年驟減六萬五千担麵粉比去年亦少五萬四千餘担白糖近年來遞臻進境惟較前清光緒三十二年猶覺稍遜一籌

洋貨復出口無論可紀

一土貨貿易土貨出口運往外洋及通商口岸連復出口在內本年土貨出口運往外洋者較去年頗有加增暹羅南洋各埠多為本口專消外洋之土貨銷場本年該埠等商况雖差但土貨消流是處者未嘗見絀而運往通商口岸者則見無色即與去年相形已減關平銀三百餘萬兩統觀其故則土糖一宗使人不堪回首即以此時而論猶居退後等級本年糖市不佳較去年減少二百餘萬兩究其原因一在種植之工不求改良製煉之方不加研究一在爪哇糖價之賤即本口市價每担較土糖減銀一元以其價廉幾於揚子江上獨樹一幟其勢力膨漲莫遏恐土糖終非敵手迴憶漢口曩日抵制洋糖幾歷年所因其雖有骨粉迨至近年此種偏見始除然而洋糖受此惡感不知虧蝕幾許矣近來又有質劣價賤之爪哇糖紛至沓來多為釀酒購用酒則運銷暹羅新加坡一帶綜覈出口大宗各貨如水說比去年減少三千餘担蓋此貨多由帆船裝運福建並非土產歉收耳本年蔗皮之豐收種植家異常獲利計其出產約有二萬担由汕運往他處者已達至一萬七千八百担較往年出產平均扯算每年祇有一萬二千担橙柑出口本年亦屬寥寥而色味

均覺淡薄皆原九月間風雨爲災受損故也土布多以洋布經土染者去年出口二萬餘担本年減至二千餘担諒因布價每担加銀一兩致多有運向他處過染而工價較汕便宜也

土貨進口本年米約減一百六十九萬八千餘担價值較去年亦減關平銀六百餘萬兩確因本處豐年不俟外來之米荳子減少爲數實鉅或緣漢口瓶設數家製造荳餅廠使然曾見本口製造荳餅向赴漢口運荳回汕今經該處設廠製造且貨價復廉是以前之購運荳粒者變而易運荳餅也荳子減少勢所必然故本口製造荳餅商人虧累不貲復恐不久尙須歇業荳餅進口本年較去年竟增至五十餘萬担足徵此項肥料究非他料得與爭雄花生進口遞有增加以暹羅南洋等處作餅榨油爲華僑飲食必需之物此項作用方興未艾綢緞本年進口增至五百三十三担較去年約多二倍有餘因知華人仍喜服用華裝也前文敘及勿須詳言

一內地稅則洋貨領有運照運入內地者本年較去年估值約增關平銀六萬兩之譜此項貿易庶幾仍以煤油獨步耳
土貨領有三聯單運出內地無

一船隻本年船隻進出口畧見減少實係東方一帶船隻減少究其減少之故蓋因煤炭價昂人工又漲遂令載資騰貴而藉船載貨者亦因之不旺也茲將本年與去年輪船載資價目列表於下

中華民國元年

由牛莊大連來汕水脚每担二十七仙士

二年

每担三十七仙士

每担七十五仙士

元年

由漢口來汕水脚每担二錢八分

二年

每担三錢五分

本年各商賃僱輪船裝運貨物者每艘每月租費自八千元遞漲至一萬一千元由暹羅來汕輪船水脚每担漲至五十仙士五十五仙士迨到十一十二兩月因該處銀莊倒閉多家商務因之停滯而水脚復見跌至二十五仙士至三十仙士本年本口添設輪船公司一家名曰福東公司該公司租船兩艘往來廈門汕頭香港新加坡爪哇等埠由本口運往南洋爪哇者雜貨華工由爪哇進口者生糖糖水由暹羅運來者米石而已按照內港行輪章程本年小輪船來關註冊者又增八隻行駛內港小輪船共二十五隻其在韓江行駛者已有小火輪船三艘電汽輪船八艘輪風樞比客少船多虧累公司勢所不免一旅客本年此段紀載堪為一有價值之報告四月間有德國輪船一艘名曰美安捷臣裝

運華工一千一百三十名前往沙漠島地方本口保工局經出告示宣布畧謂每名每月工資二十馬克專業農務每日工作時刻以十點鐘為率其於星期暨年節等日概予停工休息火食住址與及染病時醫藥等費概歸公司料理無須自備寄家書信匯兌銀錢皆由公司妥籌便捷招待周密殊稱特別本年旅客往外洋者計其去數多於回華共有三萬三千二百九十八人而去年祇有三萬一千八百七十六人足見本口華工之多盛於他處仍是卓爾不羣耳

一金銀無甚特別姑不具論

一藥土本年印度洋藥貿易異常發達進口共有二千八箱計重二千一百二十一担去年此項貿易已為特出乃本年所徵稅釐較去年更增關平銀十四萬五千八百七十五兩茲將洋藥市價一月分暨十二月分列表於下

一月分價值

十二月分價值

白皮土每担關平銀一千八百六十一兩

三千九百三十三兩

公班土每担關平銀一千七百三十八兩

四千三十三兩

喇庄土每担關平銀一千九百三十八兩

四千六十六兩

由此觀之吸食洋藥必於富厚之家始能吞吐自如若夫貧窶之子必以市上所售戒烟藥丸藥酒藥餅等類弭其烟癮於是有利用此機者良足動人心目嘗見塵市間迭有添設藥店專以戒烟各藥品恃為利藪大者每年獲利不下一萬元小者亦有三五千元所守秘密牟利主義即用嗎啡調和華藥製成戒烟藥品或盛小瓶或用紙包一瓶一包取價自五仙士至二十仙士使貧富人等便於購用至私運嗎啡之詭謀大約裹成小包使

其易於走私噫似此損人利己不知如何籌畫方可剔除積弊年來烟禁甚嚴迭見示諭
煊煌禁種禁食本處上季猶見警隊沿門入室不厭搜查緝獲烟犯日有所見被緝者律
以罰鍰自五元以至二百元者有之即將此款提出三成獎賞警察閱時所拏烟犯解交
地方審判廳核辦而警察獎賞已無着落從此挨戶搜查杳然不見而吸烟者不惟高枕
無憂且又趨之若鶩去年洋藥由通商口岸進口經已過稅貼有印花者共有四百九十
八担然多係上海而來本年由通商口岸進口者僅有四十二担

一雜論本口疫症萌芽肇始於前清光緒二十年春間自此以往頻年皆見或重或輕構病
不一惟汕地區域以內恆經數年未見發源此病即本年夏初時畧有罹疫而死者大都
皆爲內地時疫流行畏而奔避來汕之人或遭是厄今已更向韓江上游漸肆蔓延入大
埔越永定日益猖獗不稍偃息近日華人頗信種疫之靈據本口福音醫院來醫士述云
本年種疫者約有八千人矣種疫藥漿來自孟買當八九月間汕頭揭陽多患霍亂骨疼
發熱諸症但骨疼一症染病尙輕只盛行數星期即已平復然骨疼發熱一症汕頭本非
常觀如無以上數種時症本年本口即爲康健之鄉自來水於十二月間已交由該公司
接收並經延聘外國機師一位專管水電兩公司一切機務從此惟願水公司措施咸宜
不生窒碍原以此地覓水爲難向乏供人日食正當之水源也本口警察長蕭星聯吞嚙
公帑業經撤差既被扣留不容保釋繼其任者厥惟顧石蓀君於十一月初六日已履新
矣其於政治一途洵稱穩健慎勤將事勞瘁不辭下車伊始注重振軍裁弱留強尤爲加

意如此改良警政誠爲當務之急也本年社會多有鼓吹勸人勿飲洋酒勿吸捲烟一若紙烟尤爲專重抑知劣質之酒毒勝於烟於此講求務須兼顧况當洋藥價昂之秋酒又消流日廣且所消之酒良非佳釀已見脫離墨籍中人轉而沈沔於醉鄉也廣東軍用票週年均屬跌價常有落至四成二之低當二次革命時人皆不用

一常關本年常稅固爲減色以粵省二次革命事起各項貿易因之遂生阻力兼以長江亂事頻仍而內地各港咸有戒心交易暫停互相觀望本地土產赤白各糖緣洋糖雄據利權致土糖退縮之態度猶是惟日不足種蔗農業頻年遞減內地所出糖水本年約少七成所少之數皆爲爪哇台灣糖業侵而有之該兩處糖水每担市價值關平銀二兩土出糖水每担價銀二兩八錢相懸如斯安能角勝瓷器運出內地亦見冷落緣安南南洋各埠消流不暢故也夙昔營業浙酒進口商人革命時曾經停運幸今又恢復舊業矣比去年尚增一倍水說一項緣福建種說被水冲沒適逢土說旺收是以裝由帆船運銷閩地尙見生色窰貨元氣復回雖毗連郡城之楓溪鄉各窰爲械鬥毀傷一經修葺仍復舊觀本處紙扇暨鞋向皆遵陸運往惠州轉運往南本年改由海運卽在汕頭或裝小輪或載帆船逕行出口緣業此者已悟陸運費重而險殊弗若海運費輕且穩也此項暢銷堪爲常關本年貿易冊中增光矣

CANTON TRADE REPORT

1°. LOCAL.—Notwithstanding the political upheaval in July, which occasioned renewed and severe fighting in the city and neighbourhood of Canton, completely disorganising trade and resulting in a stoppage of business for the time being, it is satisfactory to be able to chronicle the highest revenue collection on record—*Hk.Tts.* 3,346,737. The figures, however, as is explained more fully below, are in themselves somewhat misleading and suggest greater commercial prosperity than actual facts warrant. Owing to the strict and energetic measures introduced, and steadily maintained, by the previous administration here (which may be said to have terminated upon the arrival of General Lung (龍濟光), who was appointed Tutu (都督), or Military Governor, of this province on the 12th August by Presidential Mandate) against opium smoking, the importation of the drug into Canton from abroad had dwindled to very low proportions; but advantage of the general disorder brought about by what may be termed the second revolt, or, more correctly, the attempted revolt, mentioned above, was naturally taken advantage of by the opium-dealing and opium-smoking community, with the result that a temporary recrudescence of the trade at once became noticeable, which had the effect of swelling the revenue collection to a larger extent than was anticipated. But after the present administration was firmly established the prohibition measures were gradually, but strictly and effectively, reintroduced, and there are indications that the opium trade here during 1914 will show a considerable falling off as compared with the year under review. And whether or not the general trade will correspondingly advance with sufficient rapidity to obviate the probability of a diminished revenue collection in consequence thereof is problematical. The duties, etc., collected on opium amounted to *Hk.Tts.* 840,768, or 25 per cent. of the total revenue collection; native exports, *Hk.Tts.* 1,202,549, or 36 per cent. of the total collection; and foreign imports, *Hk.Tts.* 958,807, or 29 per cent. of the total collection. The total value of the trade for the year under review aggregated *Hk.Tts.* 112,285,888—imports, *Hk.Tts.* 51,347,878; exports, *Hk.Tts.* 60,938,010; opium, *Hk.Tts.* 5,634,409; and transit trade, *Hk.Tts.* 1,159,149. The corresponding figures for 1912 were as follows: total value of trade, *Hk.Tts.* 96,170,631—imports, *Hk.Tts.* 48,405,486; exports, *Hk.Tts.* 47,765,145; opium, *Hk.Tts.* 5,870,217; and transit trade, *Hk.Tts.* 861,013. Turning to the administrative changes in the local government during the year, it will be seen that events followed one another during the summer with dramatic swiftness. Mr. Hu Han-min (胡漢民), the original Tutu of the province, who first assumed office on the 10th November 1911 upon the overthrow of the Manchu régime here, was recalled to Peking in the spring of the year, but did not vacate his post till later, as stated below. On the 16th June 1913 a Presidential Mandate was issued appointing him “Tranquilisation Commissioner” (宣慰使) to Tibet. The appointment was not taken up, but Mr. Hu relinquished charge on the 20th June and left Canton on the day following. Ch'en Chiung-ming (陳炯明), who had formerly served as Vice-Tutu (副都督), was appointed by the President to succeed him, and he finally assumed charge on the 4th July 1913. After being in office for only a few weeks he unexpectedly severed his connexion with the Central Government in Peking and declared the independence of this province on the 18th July. The people of Canton remained apathetic and indifferent, and the attempt to establish a *de facto* government on independent

lines aroused little enthusiasm among the general public. It was evident from the beginning, indeed, that without the active support of the local army the movement would speedily collapse. Defection amongst the troops soon became manifest, and three regiments of the 2nd Division mutinied. Ch'én Chiung-ming being thus unable to maintain the position which he had ~~inadvisedly~~ assumed by force of arms, fled precipitately to Hongkong on the 4th August in a foreign gun-boat. General Su Shên-ch'ü (蘇慎初), in command of the 2nd Division, immediately issued a short proclamation cancelling the late Tutu's declaration of independence and at the same time constituting himself Tutu and Civil Administrator (都督兼民政長). Owing largely to excellent police arrangements, the city remained comparatively tranquil during these troublesome days; but the local notes fell to 55 per cent. discount. Su Shên-ch'ü's rule was short-lived, for Chang Wo-ch'üan (張我權), in command of the 1st Brigade, was "elected" Tutu, etc., in his stead a couple of days afterwards. In the meantime the local political situation was for the moment further complicated by the appointment of General Lung Chi-kuang (龍濟光) as Tutu and Acting Civil Administrator by Presidential Mandate. General Lung had rendered excellent military services, both under the Imperial and the Republican Administrations here, and had always enjoyed the confidence of the people to an unusual extent. The city of Canton was therefore prepared to accept the President's nominee, whose appointment afforded universal satisfaction. General Lung arrived in Canton on the 11th August in command of about 5,000 troops, and Chang Wo-ch'üan disappeared the same day, having held the post of Tutu, supported by his soldiers, for a period of six days. General Lung's force met with considerable local opposition on the part of the military forces holding Canton on his arrival, and he first established his head-quarters on board a Chinese gun-boat moored off Dutch Folly. He landed on the 18th August and moved into the old Admiralty (舊水師提督行臺), situated near the Tutu's yamên (Viceroy's yamên), in the old city, where he remained some time pending the completion of repairs to the Tutu's yamên, which had suffered severely from shell-fire during the disturbances. A considerable amount of street fighting took place before General Lung's troops were able to finally take up their positions in the city. Organised looting on an extensive scale occurred, and a great deal of damage to private property was reported. Practically all the shops in the city were closed and retail trade was at a complete standstill for a few weeks. The total value of the property destroyed is variously estimated at about \$10,000,000, while it is reported that about 3,000 lives were lost. After four or five days of more or less severe, but desultory, fighting, in which the local artillery and gun-boats engaged, General Lung gained entire possession of the city, and a number of the "foreign-drilled" troops were subsequently disbanded and others were re-enlisted and formed into new regiments by the Military Governor. It will thus be seen that the attempt to form and maintain an independent government in Canton entirely failed, and the chief cause of the failure was the lack of support evidenced by the people, who, tired of bloodshed and disorder, were not prepared to face the effects of a second rebellion. With the exception of the Superintendent of Customs, originally appointed by the Central Government, who vacated his post on the 19th July and proceeded to Shanghai, the rest of the local officials remained in Canton and continued in office until after General Lung's arrival, and the continuity of work in the various government departments therefore suffered no serious interruption. The Maritime Customs continued to function as usual, but it would be idle to deny that the members of the Out-door Staff, whose duties compelled them to visit the Canton-Kowloon Railway terminus and various other places, both afloat and ashore, experienced unusual difficulties in the execution of their duties and were at times exposed to considerable danger. It might not be inappropriate to remark here that the general recrudescence of so-

styled "piracy" throughout the delta and on the Pearl River and its approaches has rendered it extremely difficult for the Maritime Customs authorities to maintain the lights service on the river during the past two years, and the fact that each light has been regularly exhibited without interruption throughout reflects credit upon the Marine Department. It should be stated, as was mentioned in last year's report, that the Military Governor, acting upon representations made by the Commissioner of Customs from time to time, has stationed an armed guard at each of the sixth order lights on the river, excepting Chain Rock Lighthouse, which lies under the shadow of the Bogue Forts, but which, in spite of this, has also been "pirated" and the lightkeepers' effects and money stolen. The delta is still in a more or less disturbed state, and the communications remain unsafe in many districts. This condition of affairs naturally adversely affects trade and severely handicaps the junk business.—The prospects for 1914 cannot be said to be favourable, in view of the unsatisfactory state of the local money market. The Canton dollar notes stand at about 48 per cent. discount as compared with Hongkong currency, and the absence of a local reserve of silver precludes the immediate probability of any improvement. The city and neighbourhood remain tranquil, and no doubt the unrest in many of the outlying districts will gradually disappear under the settled and efficient government which is now established in Canton.—The Native Customs stations in the vicinity of Kwangchowwan ceased to be controlled by the Maritime Customs on the 30th June 1913.—A new lighthouse of the first order is under construction on Sampanchow (三板洲), an island situated some 5 miles below the Bogue (虎門). It will constitute a leading light to the entrance of the Canton River and will greatly facilitate shipping running between Canton and Hongkong and Macao. Sampanchow consists of two small islets separated from each other by a shingle beach, which is rarely, if ever, covered by the tide. The larger of these has an extreme length of only about 300 feet and a maximum width of only about 100 feet, and it is also, for building purposes, practically divided into two parts by a natural tunnel. Except to the eastward, where the steamer track is found, it is surrounded by shoals. The summit is about 45 feet above high-water mark. The restricted size of the site has naturally rendered building operations difficult. The lighting apparatus will be what is known as the "Aga" system, and, following the same principle, a new type of continuous sounding fog-signal gun will be used. The sound from this gun is obtained by the explosion of a charge of acetylene gas, and the whole installation occupies a very small space, is automatic, and is economical to run. As the situation of the light renders coloured sectors necessary, it was decided by the Engineer-in-Chief to adopt a fixed light occulted either by screens or by the burner itself, as in the Customs gas buoys, and the central belt of the first order apparatus recently removed from Shaweishan (沙尾山) Lighthouse, in the Shanghai district, will be availed of in combination with an Aga flash-light apparatus giving a characteristic of 0.4 second light and 3.6 seconds dark. By selecting this type of light, all complicated clockwork and occulting screens become unnecessary. The coloured arcs proposed are as follows: a red arc showing up river, a white arc to seawards, or in the Hongkong direction, and a green arc abreast of the light, which has to be passed close to and which would therefore be too dazzling if it were white. Acetylene is usually considered a dangerous gas to handle, and under pressure is, of course, very explosive; but as applied by the Aga system it is free from the possibility of explosion, as it is dissolved in acetone, and is contained in tanks or cylinders filled with a porous substance. This method of lighting buoys, beacons, and lighthouses is now extensively used abroad, and it is interesting to note that it has been adopted for lighting the Panama Canal. The Sampanchow Lighthouse will be completed about October 1914.

2°. REVENUE.—The total revenue—*Hk.Ts.* 3,346,737—is the highest on record, as already stated. It exceeds by *Hk.Ts.* 269,836 the collection for 1912 and by *Hk.Ts.* 65,012 that of the previous record year, 1907. The result is due chiefly to increased receipts on account of import and export duties, though coast trade duties and transit dues participated, to a lesser degree, in the advance. A decline is noticeable in opium duties and likin, which when compared with the figures for the preceding year show a decrease of *Hk.Ts.* 155,294, or 15½ per cent. Tonnage dues also show a loss of *Hk.Ts.* 3,666.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The net value of foreign imports, viz., *Hk.Ts.* 31,268,432, exhibits an advance on that of the preceding year of more than 5½ million taels, or 18 per cent., nearly all branches of the trade contributing to this increase. In cotton goods, there was a general improvement, notwithstanding the fact that foreign importers agree in describing the year as unusually dull. The explanation lies in the fact that an increasing number of contracts are being placed direct in Hongkong. Grey shirtings, good quality 10 lb., were in evident favour, 117,258 pieces being imported, against 89,149 pieces in 1912, and the better grades of white shirtings were also a good market (252,837 pieces, against 179,135 pieces). There was a big jump in cambrics, lawns, and muslins (39,262 pieces, against 27,477 pieces), and the same remark applies to chintzes and furnitures (60,465 pieces, against 36,591 pieces), lenos and balzarines (52,976 pieces, against 35,344 pieces), and plain italians (47,704 pieces, against 34,027 pieces). Trade was also brisk in plain and brocaded dyed shirtings (27,001 pieces, against 14,349 pieces), cotton flannel (79,829 pieces, against 69,772 pieces), and handkerchiefs (111,287 dozens, against 76,601 dozens); whilst a further increase is recorded in cotton yarn, the Indian product advancing from 57,157 to 72,439 piculs and the Japanese from 8,381 to 9,829 piculs. With regard generally to cotton and woollen goods, it may here be noted that the tendency displayed recently on the part of so many of the Chinese to adopt a foreign or semi-foreign style of dress would seem to have received a check, and the less expensive native garb is returning to favour. For this reason, probably, there was a smaller demand for melton cloth (7,395 yards, against 22,278 yards) and woollen and cotton flannel (4,058 yards, against 8,580 yards). Tweeds and serges, on the other hand, recovered from the decline shown last year, 89,501 yards being imported, as against 7,471 yards, and a fair trade was also done in some of the more old-fashioned woollens, e.g., spanish stripes (33,184 yards, against 16,818 yards) and camlets (2,643 pieces, against 1,659 pieces). Under miscellaneous piece goods, increases are recorded in canvas and cotton duck (614,465 yards, against 528,300 yards) and hessian cloth (56,172 yards, against 40,357 yards), whilst the most notable decrease occurred in linen (3,437 yards, against 17,451 yards). In metals, a moderately brisk business was done throughout the year. Raw iron, in the form of bars, nails, nail-rod, and sheets, were imported to the extent of 96,143 piculs, as against 72,693 piculs in 1912. Tinned plates show a negligible decrease (36,797 piculs, against 37,293 piculs). Lead, in pigs, improved from 18,053 piculs to 24,292 piculs, and galvanized iron wire, from 3,942 piculs to 4,615 piculs. As regards sundries, foreign importers for the most part complain that business was stagnant. But this is in no way borne out by our statistics, which show substantial increases under nearly all the principal headings. The value of clocks and watches imported (*Hk.Ts.* 66,806) has never been exceeded. Aniline dyes continue to advance (value *Hk.Ts.* 189,855, against *Hk.Ts.* 124,100), and other noticeable increases are flour (427,124 piculs, against 382,201 piculs), groundnuts (35,307 piculs, against 32,193 piculs), condensed milk (64,866 dozens, against 45,038 dozens), printing paper (104,836 piculs, against 42,625 piculs), soap (value *Hk.Ts.* 103,546, against *Hk.Ts.* 89,172), and white sugar (444,468 piculs, against

192,029 piculs). Rice was imported from Saigon and Bangkok in larger quantities (366,699 piculs, as against 57,249 piculs only in 1912), to make up for a shortage in the usual consignments from the North. There was remarkably little variation in the quantity of coal imported (113,382 piculs, against 113,371 piculs). The price of this commodity rose considerably during the latter half of the year, and dealers are understood to have reaped a handsome profit on their stocks. The value of foreign clothing, chiefly underwear, imported fell from *Hk.Tts.* 67,677 to *Hk.Tts.* 17,272; but foreign headgear, of every conceivable shape and style, continues in popularity, and caps and hats arrived to the number of 356,229 pieces, as against 311,381 pieces last year. India-rubber shoes, which were formerly much in vogue, have now gone out of fashion, importations dwindling from 405,126 pairs in 1906 to 1,510 pairs for the year under review. There is a noticeable increase in the value of machinery imported (*Hk.Tts.* 221,597, against *Hk.Tts.* 86,109). Of the total, sewing machines account for *Hk.Tts.* 110,000. The demand that is becoming noticeable for oil-engines, both stationary and marine, is due chiefly to recent improvements in motors, permitting the use of crude oil in place of the much more expensive gasolene, and a large development of this trade in the near future may be confidently predicted. Crude-oil motors for irrigation purposes were erected during the year in the Koming district (高明縣), on the West River, near Samshui, and larger engines of similar type were also imported for the use of the Fatshan Electric Supply Company. Oil-engines, usually an exact copy of some foreign pattern, are being made locally by the local Chinese engineering firms, who are presumably alive to the growing demand for motive power in a handy form. Importations of kerosene oil aggregated 14,887,257 gallons, as against 13,944,407 gallons in 1912. The American product advanced from 8,756,544 to 8,953,382 gallons, and the Borneo and Sumatra kinds, from 3,217,394 and 1,278,492 gallons to 4,303,004 and 1,630,871 gallons respectively. The bulk of the trade remains in the hands of the Standard Oil Company and the Asiatic Petroleum Company, although a limited quantity of what is described as a good burning oil, packed in the United States, was imported by a comparatively new firm, the Texas Oil Company. The year would have been a good one for the kerosene trade but for certain deterrent factors, chief of which may be mentioned the difficulty of transporting money and oil to the interior during the period of political unrest already referred to. These, however, may be regarded as merely incidental checks to a trade whose future, thanks to an ever-widening area of consumption and constantly growing demand, is definitely assured.

(b) *Re-exports*.—The value of foreign goods re-exported to foreign countries and to Chinese ports during the year was *Hk.Tts.* 185,451 and *Hk.Tts.* 513,803 respectively, the latter total being made up chiefly of reshipments of kerosene oil to West River ports.

4°. CHINESE GOODS.—(a) *Exports, Abroad and Coastwise (including Re-exports)*.—In spite of the disturbing influences against which it has had to contend of recent years, the export trade shows a vitality which is extremely satisfactory from every point of view. The value of Chinese produce shipped abroad and coastwise during 1913 reached the highest recorded total, *Hk.Tts.* 62,024,896, a gain of *Hk.Tts.* 13,127,040, or 21 per cent., on that of the preceding year. Easily the most prominent place amongst local staples is occupied by silk, which, with its products, accounted for *Hk.Tts.* 40,248,300, or nearly 65 per cent. of the value of the entire export trade. Following the demand that set in towards the end of 1912, the year opened with a steady business for the Continent, prices gradually advancing. The demand became more acute in February, and by April the market was practically clear of old

cargo, and large orders for new crop silk were being registered. During May and June the market quietened down and easier prices ruled. Owing to gloomy trade prospects in the United States, due partly to the Paterson strike, there were few inquiries from that centre. Prices remained steady nevertheless, and later a fair business was again transacted. The troublous days of July and August hampered trade generally, as already mentioned, and the silk trade in particular, and for some time the market was dormant. With quiet once more restored, a strong demand from home—due to the rise in Japan—had to be met, and prices soared to an abnormal level, the effect of which was to weaken the market, so that during September there was a dwindling demand. Toward the end of the year, however, a steady business was still being carried on, preventing values from receding entirely to the low level obtaining in July and August. To sum up, the year may be described as a good one for the silk trade generally. At the close of the season the market was absolutely bare of stocks, and in view of their heavy commitments for the future, dealers are unwilling to engage themselves further. The aggregate yield of the seven crops is estimated to have been 50,000 bales, as compared with 42,000 bales for 1912. The total export was 38,247 bales to Europe and 18,786 bales to the United States. A good demand for waste silk existed throughout the year, and the market was swept clean of all stocks. Europe took 28,800 bales and the United States 9,820 bales, as against 17,656 and 9,354 bales shipped to those parts of the world in 1912. In addition to the above, there was an export during the year of 6,839 bales of pierced cocoons to Europe. Of other Canton staples, cassia shows an increase of 32,485 piculs as compared with shipments during the preceding year. An unusually large crop led to a fall in prices, and contracts for best selected and broken were filled at \$12 and \$8, the lowest figures yet recorded, whereas in 1912 the same grades could not be obtained for less than \$15 and \$11 respectively. The quality of the inferior varieties is stated to have materially improved, as the result of well-founded complaints from Europe regarding their adulteration with alien barks. Cassia buds declined in value from \$27 per picul in 1912 to \$22, at which rate they are now on offer. The export of fire-crackers decreased from 77,370 to 63,515 piculs, and somewhat lower prices ruled throughout the year. Leaf tobacco also declined (58,068 piculs, against 62,757 piculs). Shippers report that complaints from home of short weight on contracts have been more frequent of late, and Chinese dealers might well direct their attention to this matter. There was a fairly regular demand for palm-leaf fans; but a typhoon destroyed a part of the crop, shipments decreasing in consequence from 8,281 to 7,263 mille. So-called "commons," packed in cases of 500, fetched \$7.50, and "satins" \$7 per case of 300 pieces. Trade in canes was hampered by piracy, boats being held up on their way through the delta and only released after payment of blackmail. But for this the increase shown (1,773 mille, against 1,331 mille) would probably have been greater, as a steady demand existed, particularly for partridge canes, which are much in request for walking-sticks and umbrella handles. A further drop in sugar is noticeable (20,507 piculs, against 97,003 piculs); but cement improved from 145,680 to 204,816 piculs, and the Kwangtung Cement Company is reported to have had a profitable year. During the year orders were received from Tonkin, Siam, Manila, and the Straits Settlements, and the company experiences no difficulty in disposing of its output, which is stated to be more than 500 casks daily. The trade in mats and matting is considered to have been satisfactory. Of the former, 2,887,768 pieces, and of the latter, 157,259 rolls, were exported, as compared with 2,420,207 pieces and 217,641 rolls respectively in 1912. France, Holland, and—on a smaller scale—England, Germany, and Denmark were the principal buyers. Orders from the United States were disappointingly small, but to compensate for this Holland took a larger quantity than usual of the finer varieties of matting. Three-fourths of

the total sales consisted of the cheaper mats from the Tungkun (東莞) district. The balance was made up of the so-called "damask" mats, produced in the neighbourhood of Canton, and the more expensive kinds from the Lintan (連灘) district. These latter, with the exception of the high-grade "116-warp" matting, were not a strong market, however, and prices remained between 18 and 19 cents per square yard throughout the year. Tungkun mats, on the other hand, were in much demand, opening at 6½ cents per yard for the 40/45 lb., and advancing towards the end of the season to 8½ cents per yard.

(b.) *Imports*.—The total net value of Chinese imports amounted to *Hk.Ts.* 20,079,446, showing a loss of more than 2½ million taels on the figures for 1912. This decrease, however, is more than accounted for by the reduced supplies of rice that arrived from the North (417,158 piculs, against 1,164,900 piculs in 1912). Amongst other items that show a decrease may be mentioned nankeens (22,862 piculs, against 31,380 piculs), ginseng (25,392 catties, against 26,783 catties), sesamum seed (4,224 piculs, against 34,844 piculs), and leaf tobacco (28,624 piculs, against 53,130 piculs). Increases occurred in beancake (342,002 piculs, against 136,247 piculs), groundnuts (1,042,256 piculs, against 998,647 piculs), medicines (value *Hk.Ts.* 404,950, against *Hk.Ts.* 319,247), and yellow silk (1,980 piculs, against 1,499 piculs). Fire-crackers and fireworks to the value of *Hk.Ts.* 713,956 were also imported, as against *Hk.Ts.* 693,130 in 1912.

5°. INLAND TRANSIT.—(a.) *Inwards*.—The value of the transit trade inwards increased from *Hk.Ts.* 857,213 to *Hk.Ts.* 1,157,308, which, it may be noted, is rather less than 4 per cent. of the total value of foreign goods imported. Passes to the number of 27,227 were taken out, as against 25,579 in 1912, the principal articles sent inland being kerosene oil, printing paper, matches, white sugar, and aniline dyes.

(b.) *Outwards*.—Only one pass was surrendered during the year, covering a small consignment of hides, value *Hk.Ts.* 1,841, brought from an up-country place in this province.

6°. SHIPPING.—(a.) *Under General Regulations*.—The institution of a regular Sunday service between Hongkong and Canton, subject to certain restrictions and the appearance of one new river steamer on the same run, account for the increased figures under this section. Altogether 4,783 vessels, with an aggregate tonnage of 2,616,498, entered the port, as against 4,317 vessels, with a tonnage of 2,534,144, in 1912. One vessel under the Russian flag visited the port, the first since 1906. In June the three well-known steamers belonging to the Messageries Cantonaises—the *Charles Hardouin*, *Paul Beau*, and *Robert Lebaudy* (now named *Wuchow*)—changed to the Chinese flag on being taken over by the Canton Navigation Company. Their sale means the disappearance—for the time being, at any rate—of the French flag from the river.

(b.) *Under Inland Steam Navigation Rules*.—57,294 vessels, aggregating 883,592 tons, entered and cleared, as against 50,262, aggregating 812,641 tons, in 1912. The steady advance shown of recent years has thus been well maintained. The larger number of the vessels on our register are launches of from 10 to 18 tons, but the tendency undoubtedly is towards a larger and more powerfully-engined type of boat. New registers were issued to 110 vessels, and 73 withdrawn, bringing the number of launches running under inland waters rules up to 432, an increase of 37 for the year. Business appears to have been fairly profitable during the earlier part of the year, and as a result of the disturbances in the summer the demand for launches to take away refugees was so great that rates of hire increased from 30 to 50 per cent.; but, later, owing to the dearness of coal and the constant depreciation of Canton notes, launches

were being, it is said, run at a loss. Our records show that launches do not keep strictly to the smooth waterways of the delta. Thus, two or three of the larger and more powerful boats on our list were requisitioned on several occasions during the year to proceed as far down the coast as Leichow (雷州), for the purpose of towing salt junks back to Canton. In September one adventurous trader started in a junk towed by a chartered launch to trade from Chanchuen (陳村) to Chinchow (欽州) *via* Hoihow and Pakhoi. But this undertaking was abandoned after a second trip, the profits not being sufficiently lucrative to compensate for the risks of such a long and comparatively dangerous voyage.

7°. PASSENGER TRAFFIC.—Our statistics show that 1,129,489 persons arrived and 1,157,483 left by the steamers plying between this port and Hongkong and Macao, a total of 2,286,972, or, approximately, 6,500 passengers daily. Compared with the total for the preceding year, when the traffic was exceptionally heavy, there is a decrease of 318,078.

8°. TREASURE.—Imports from Hongkong and Macao aggregate *Hk.Ts.* 12,604,195, this being in advance over the preceding year's figures of *Hk.Ts.* 4,587,318. *Per contra*, the export to those places amounted to *Hk.Ts.* 3,710,676, as against *Hk.Ts.* 6,010,773 in 1912. It should be understood that the above figures merely represent amounts reported to the Customs and are obviously incomplete. Seeing the large number of Cantonese working abroad, it may be assumed that the remittances from them annually aggregate a considerable sum, and that these, and other, invisible assets more than counterbalance the indebtedness against Canton which the published statistics disclose from time to time. The outstanding feature of the financial year has been the steady decline in the value of Canton government notes. In April the notes exchanged for silver coins at a discount of 11 per cent. only, which by June had increased to 19 per cent. During July and August they suffered a further fall to 29 per cent. In September the financial position had become so serious that an attempt was made in the general interests of all by officials and merchants alike to improve the status of the notes. It was decided that all the guilds, etc., should accept them at par; deputies were despatched to the large markets of the interior to see that notes were circulated at their face value; and the exportation abroad and transport inland of silver coins were prohibited. As a result of these measures, the decline in the value of notes was checked momentarily, the discount in October being no more than 24 per cent. But a reaction shortly set in, and by the end of December a one-dollar paper note was worth only \$0.63 in subsidiary coins. The average discount on subsidiary coins against Hongkong currency during the year was 8½ per cent. The following figures are returned by the Canton Mint, showing the number of coins struck during 1913:—

Dollars	<i>Nil.</i>
20-cent pieces	109,974,000
10-cent "	1,439,000
Copper cents	<i>Nil.</i>

9°. OPIUM.—(a.) *Foreign*.—The total quantity imported—2,409 piculs—falls short of the figures for the preceding year by 698 piculs. Owing to the stricter enforcement of the prohibition laws in Canton and its immediate vicinity during the earlier part of the year, there was a marked decline in the arrivals of opium. But a period of greater laxity naturally followed the disturbances in the summer, the result being an increased importation during the last three months of the year, as mentioned above. It may be noted that the average value of Patna

opium during the year works out at *Hk.Tls.* 2,340 a picul, as against *Hk.Tls.* 1,850 in 1912. At the end of December it had risen to *Hk.Tls.* 3,610 a picul, with every prospect of a further advance in price in view of the approaching termination of the trade altogether.

10°. MISCELLANEOUS.—*Canton-Kowloon Railway* (廣九鐵路). No extensions on the Chinese section were undertaken during the year, and the proposed connexion with the Yueh-Han Railway by a loop line to the north of the city is still under consideration. A 2-foot gauge country railway, $5\frac{1}{2}$ miles in length, from the Namkong station now serves the Lokong (螺岡) group of villages. The total number of passengers carried on the main line during 1913 was close on 2,000,000, including 400,000 through passengers between Kowloon and Canton. Goods traffic is increasing, the amount of freight dealt with being 8,500 tons through and 34,100 tons between stations. The merchandise carried is mostly of a light nature. The total receipts for the year aggregated \$784,000. Beginning in March, the time table provided two through express trains each way, timed to run the 111 miles (Canton to Kowloon) in 3 hours and 42 minutes. Extra rolling-stock has been ordered, which will enable further additions to the schedule to be made, and a through night service is contemplated from March 1914.—*Canton-Hankow Railway* (粵漢鐵路). Satisfactory progress was made on this line during the year. The 11th section was finished, and the Yingtak (英德) station opened in May, followed by the Shahow (沙口) station, 109 miles from Canton city, in August. Work in the 12th section is nearing completion. In the 13th section, a tunnel 500 feet long is being pushed on with, and the bridges and gradients in the 14th section are nearly finished. The piers of the Shiukwan (韶關) bridge in the 15th section are completed and work on the tunnel at Kaolimchuen (高廉村) in the 16th section has commenced. As regards the remaining five sections in the Kwangtung province, nothing beyond surveying work has been accomplished. Traffic along the whole line increased considerably during the year. The number of passengers carried daily is given as 6,000, whilst nearly 300 tons of goods are also dealt with.—*Samshui Division*. An increasing number of passengers avail themselves of this branch line, but the receipts on account of freight still leave much to be desired.—The Canton Waterworks had a good year, and was able, after defraying all expenses, to declare a dividend of 7 per cent.—Another important local concern, the Kwangtung Electric Supply Company, is also reported to have done well. During the year the company extended its service to Fati (花埭) by a cable across the Back Reach from Honam.—Postal parcels to the number of 109,230 were handled by the Customs during the year, the amount of duty received being \$84,685, as against \$56,355 in 1912. The facilities offered by the post office in the transmission and safe delivery of goods are increasingly appreciated. In this way, a considerable trade was carried on with Yunnan in such local products as cotton sweaters and socks, medicines, buttons, etc.; with Tientsin and Newchwang, in gold thread and silk ribbons; and with Swatow and Amoy, in pongee silk. Through the same channel there arrived a large quantity of silk piece goods from Hangchow and Soochow, and 5,000 cloisonné water-pipe cases from Peking, all for local consumption.—The new water-tower and installation, referred to in last year's report, on the British Concession—Shameen,—erected at a cost of \$76,000, were completed in July, water being supplied to the community from the beginning of August. Samples of the water have been tested by the Hongkong Government analyst and bacteriologist, with satisfactory results.—An unusually large number of notifiable diseases occurred on the Concession during the year, namely: diphtheria, five; smallpox, one; typhoid fever, four; cholera, three (all Orientals); meningitis, one; and dysentery, 18. The first four mentioned of these diseases were, it may be noted, concurrently prevalent in the native city.

NATIVE CUSTOMS.—The total value of the trade passing through the Native Customs at Canton (including the Chanchuen sub-station) rose from *Hk.Tts* 32,879,431 in 1912 to *Hk.Tts* 39,290,292. The marked improvement shown early in the year was, of course, checked by the disturbances that broke out in July, when, owing to a feeling of insecurity, imports almost ceased to come forward, and, with the exception of a temporary rush of goods hurried away to Hongkong for safety, exports also declined. The ensuing depression was prolonged by the incidence of the typhoon season—which is always an off-time for junks,—and it was not until October that more favourable conditions again prevailed. According to Chinese merchants, the year under review has been one of the worst on record, and this is, to some extent, confirmed by a decline of 21 per cent. in the value of direct exports (*Hk.Tts* 7,941,446, against *Hk.Tts* 10,018,008), which, from an economic standpoint, is not compensated for by the increase of 45 per cent. in the value of foreign imports (*Hk.Tts* 24,678,941, against *Hk.Tts* 17,040,277). Trade coastwise advanced from *Hk.Tts* 4,887,700 to *Hk.Tts* 5,364,220 in the case of imports and from *Hk.Tts* 933,446 to *Hk.Tts* 1,305,685 in the case of exports. The following staple imports from foreign ports show marked increases: bran, coal, rice, cuttle-fish, cotton thread and yarn, gypsum, groundnuts, sesamum seed, white and brown sugar, china-ware, hardwood, cow hides, vermicelli, and sharks' fins. Of staple exports abroad, lard, pigs' bristles, earthenware, paper, fire-crackers, cotton rags, duck and fowl feathers, straw matting, samshu, tea, softwood planks, and prepared tobacco have decreased considerably. Exports coastwise, on the contrary, *e.g.*, native cloth, paper, joss-stick powder, chinaware, saltpetre, sulphur, split bamboos, and cotton umbrellas, have improved. The Native Customs revenue collection for the year amounted to *Hk.Tts* 314,909, as against *Hk.Tts* 314,211 in 1912. There has been practically no new development in the junk traffic between Canton and Hongkong direct, or in that with the north-east coast. The towed-junk services with Yeungkong (陽江) and with Shuitung (水東) were well maintained. These lines depend mainly on Kongmoon (江門), which, owing to its geographical position, is the natural centre of trade for the south-east coast and its hinterland. Steamers under the control of the Native Customs—other than towing and passenger launches—are represented by a single vessel—the s.s. *Chiaolun Taiyat*, of 347 tons net register,—which, besides monopolising the transport of salt from Samakong (三丫港), on the extreme south-east coast of Hainan, carries a few passengers and a little miscellaneous cargo. Regular junk traffic between Chanchuen and Macao has almost succumbed to competition from launch-towed boats, which maintain a regular daily service, and, besides being safer, complete the passage in about 12 hours, as against two or more days by sail. Native craft suffered severely from a typhoon on the 18th September, two of the regular traders between Hongkong, Canton, and Chanchuen being totally lost. Piracy was more prevalent throughout the delta, but offences against vessels reporting at the Native Customs were not specially prominent. Several cases occurred in which blackmail was levied on boats trading between Chanchuen and Hongkong, and although measures have since been taken by the authorities to guard against molestation, the condition of these routes continues to occasion anxiety to traders.

Commissioner of Customs.

APPENDIX.

PRINCIPAL EVENTS CONNECTED WITH THE HARBOUR DEPARTMENT DURING 1913.

BUNDING.—The completion of the Bund wall between West Creek and Shameen Creek is now well within view. At the end of the year two gaps remained to be filled in—one in front of the post office site, 140 feet in length, and the other in front of the site formerly occupied by the old Customs Examination Shed, 30 feet in length. The piling in these two gaps is driven and the lower courses are laid, which ensures the continuity of the work through the coming high-water season.

The authorities of the Christian College at Honglok have commenced to reclaim out to the normal line in front of their property. It is their intention to construct an ornamental basin, behind the shelter of the Bund wall they are now building, for the accommodation of motor-boats and launches.

WHARVES AND JETTIES.—During the early months of the year the Shameen Municipal Council erected a substantial iron-screw pile jetty, off the river front of Shameen, projecting 50 feet into the river from the Bund wall. This serves as a landing-stage for launches, sampans, etc., and a protection for the new Shameen Waterworks intake pipe.

In April the Asiatic Petroleum Company erected two dolphins and a pipe-line jetty off their property in the Back Reach. These are constructed of H-iron piling and bracing.

In April the Hongkong, Canton, and Macao Steamboat Company commenced erecting a wharf, constructed of iron-screw piles and a concrete deck, to take the place of the old night-boat wharf, destroyed by fire in November 1912. The new wharf is 140 by 40 feet, and is situated 75 feet to the eastward of the site occupied by the old one.

In October the Canton Steam Navigation Company, late purchasers of the Messageries Cantonaises steamers *Paul Beau*, *Charles Hardouin*, and *Robert Lebaudy*, commenced work on the building of an H-iron pile wharf on a site 50 feet to the eastward of that occupied by the old Russel Wharf, which is situated immediately to the eastward of the Customs property. This wharf will extend along the Bund wall for a distance of 100 feet and into the river 50 feet.

During the year the Ytch-Han Railway Company have extended their new ferry jetty at the mouth of West Creek. Its dimensions now are 70 by 50 feet.

A settlement has been arrived at between the Hongkong, Canton, and Macao Steamboat Company and the territorial authorities regarding the property rights of the former on the new Bund, and the Steamboat Company have obtained permission to erect a new wharf 140 by 50 feet on the site of their old Ho Fu Nien Wharf. It is to be hoped that work on the demolition of the old wooden wharf and the erection of a new iron-pile wharf will be commenced immediately. When this is accomplished, there will remain between West Creek and Shameen but one of the old wooden structures—the China Merchants Macao Boat Wharf.

MEASUREMENTS FOR TONNAGE.—During the year 13 motor vessels, aggregating 1,069 tons gross and 615 tons register, and 75 steam vessels, aggregating 6,465 tons gross and 3,348 tons

register, have been measured for tonnage at Canton. The largest motor vessel measured was the *Siberia*, of 131 tons gross and 75 tons register; the largest steam vessel, the *Hungon*, of 480 tons gross and 282 tons register. Of these, three motor vessels and 47 steam vessels were built at Canton, the largest being the s.s. *Ohchow*, of 200 tons gross and 126 tons register.

Piratical attacks on the Customs light-stations in the Canton district have decreased materially, the only case of any importance during the year being an attack made on Chain Rock Lighthouse, on 30th June, by four armed men, who bound the lightkeepers and stole all their belongings. Customs property was not interfered with, and the lights service was regularly maintained in the face of exceptional difficulties.

ARNOLD HOTSON,
Acting Harbour Master.

洋貨復出口往外洋者本年估值十八萬五千四百五十一兩往中國別口者本年估值五十一萬三千八百三兩往中國別口之數多係煤油轉船駁運前往西江口岸者也

一土貨貿易土貨出口運往外洋及通商口岸連復出口在內雖近年時局擾亂然此項出口貿易

極為滿意土貨裝船出口往外洋及通商口岸者本年共估值關平銀六千二百二萬四千八百九十六兩歷觀本關檔冊此為最高之點去年共估值一千三百十二萬七千四百十兩大宗土貨之內土絲最占優點共估值四千二十四萬八千三百兩在出口土貨之中幾占百分之六十五本年開春絲業平善絲價漸高迨二月時訂購更多及至四月市上舊絲全行售去而訂購新絲者源源而來五六月間市面畧淡絲價畧低又因美洲罷市商務窒礙訂購者少惟絲價尙屬平穩七八兩月亂事發生絲業更受影響殊有蕭條景象及回復安寧秩序之後由外洋函來訂購者紛至沓來蓋因是時日本絲價昂貴故也至九月時銷場縮小及至歲底貿易尙穩絲價尙不至如七八兩月之低總而言之本年絲業可稱順適市上所存之絲一律沽盡查本年土絲七造約計出絲五萬包去年四萬二千包出口往歐洲者三萬八千二百四十七包往美洲者一萬八千七百八十六

包本年亂絲訂購者多所存之貨已售去無餘計本年往歐洲者二萬八千八百包往美洲者九千八百二十包去年往歐洲者一萬七千六百五十六包往美洲者九千三百五十四包此外更有破口蠶繭六千八百三十九包本年出口運往歐洲桂皮一項較之去年多三萬二千四百八十五担本年桂皮異常豐收故價值較廉訂購揀淨最好桂皮每担價銀十二圓桂皮碎每担價銀八圓此爲最低之點去年揀淨最好桂皮每担至少十五圓桂皮碎每担至少十一圓其下等之貨經已改良大有進步蓋因歐洲訂購者皆噴有煩言謂有外來桂皮攙雜其間去年桂子每担價值二十七圓本年每担祇值二十二圓爆竹出口亦覺減少去年七萬七千三百七十担本年六萬三千五百十五担全年價值亦屬低減煙業一項亦少本年出口五萬八千六十八担去年六萬二千七百五十七担訂購之家皆云重量不足與原約不符此節華商亟應注意葵扇一項訂購亦多惟葵葉間有遭風損壞者故本年出口畧少查去年出口共有八百二十八萬一千柄本年祇得七百二十六萬三千柄計每箱五百柄之粗葵扇價值七圓五角每箱三百柄之絲邊葵扇價值七圓竹竿一項貿易因由各江河道運來之時迭遭海賊截留勒索銀兩以致大受影響否則本年出口必更多查本年竹竿出口一百七十七萬三千根去年一百三十三萬一千根至斑竹竿訂購亦多係造手杖及傘柄之用糖斤出口減少本年二萬五百七十七担去年九萬七千三担鐵水泥去年十四萬五千六百八十担本年二十萬四千八百十六担廣東鐵水泥廠本年據云獲利蓋因東京暹羅小呂宋及南洋新嘉坡一帶多

來訂購該廠皆能供給每日所出鐵水泥計五百桶有奇蓆子地蓆兩項貿易亦好本年蓆子出口二百八十八萬七千七百六十八條地蓆十五萬七千二百五十九捆去年蓆子出口二百四十二萬二千七百七條地蓆出口二十一萬七千六百四十一捆法荷英德及丹國訂購者多美國訂購畧少上等地蓆荷國訂購尤多計沽出總數東莞價廉蓆子占四分之三其餘係省城鄰近所出之蓆及連灘價值較昂之蓆也此項連灘蓆除去內有一種係用特別揀選最精之草織成者不計外餘亦不甚暢銷本年價值每一丁方碼約十八或十九仙東莞蓆子銷場亦旺開市之時四十磅零四十五之蓆子每碼價值六仙半其後增至八仙半

土貨進口本年淨估值關平銀二千七萬九千四百四十六兩較之去年少二百五十萬兩有奇其短少之故多因北省米石進口減少查本年米石進口四十一萬七千一百五十八担去年一百十六萬四千九百担土布亦少本年二萬二千八百六十二担去年三萬一千三百八十担參本年二萬五千三百九十二斤去年二萬六千七百八十三斤芝蔴本年四千二百二十四担去年三萬四千八百四十四担菸葉本年二萬八千六百二十四担去年五萬三千一百三十担荳餅本年三十四萬二千二担去年十三萬六千二百四十七担花生本年一百四萬二千二百五十六担去年九十九萬八千六百四十七担各種藥材本年估值四十萬四千九百五十兩去年估值三十一萬九千二百四十七兩黃絲本年一千九百八十担去年一千四百九十九担爆竹本年估值七十一萬三千九百五十六兩去年估值六十九萬三千一百三十兩

一內地稅則洋貨領有運照運入內地比較去年增多計去年估值關平銀八十五萬七千二百一十三兩本年估值一百十五萬七千三百八兩本年本關所發運照共二萬七千二百二十七張去年二萬五千五百七十九張運入內地之貨係煤油印字紙自來火白糖及五色染料土貨領有三聯單運出內地此項貿易來關繳銷運照者本年祇有一張係由內地採運少數生牛皮前來計估值關平銀一千八百四十一兩

一船隻遵照本關總章行駛者查本年特准輪船於星期日常川來往省城香港歸另訂章程取締另有新造江船一艘行駛省港兩處故船隻之數增多計本年進口船隻共四千七百八十三艘二百六十一萬六千四百九十八噸去年四千三百一十七艘二百五十三萬四千一百四十四噸本年有俄旗輪船一艘駛來本口六月間法華郵船公司之著名輪船三艘名哈德安播寶及李寶第由華商粵航公司合資承買改掛華旗復將李寶第一輪改名梧州現在暫無法旗江船行駛省河矣遵照內港行輪章程行駛小輪本年進出口共五萬七千二百九十四艘八十八萬三千五百九十二噸去年五萬二千六百二十八噸者爲畧占多數惟以大艘及有堅固汽機者爲更適用本年共有小輪一百一十艘來關註冊請領新照另有舊照七十三張繳回註銷計行駛內港小輪本年共四百三十二艘比較去年多三十七艘此項貿易春間頗能獲利至夏間大局擾亂省城居民紛紛附搭小輪遷避別處故租船之價增至三倍或五倍不定後因煤斤價昂更兼廣東紙幣低折聞說小輪商人虧本者多再查本關冊簿此項小輪並非專走內港水道有兩三艘略大之輪於本年內駛往雷州海濱各處拖帶鹽船回省者經有數次九月間有冒險覓利商人雇小輪一艘拖帶渡船由陳村駛往欽州並道經海口北海兩處但祇行駛二次隨即停止因其營業所得之利不足償其沿途所冒之險也

一旅客人數由港澳附輪來省者共一百十二萬九千四百八十二人由省附輪往港澳兩處者共一百十五萬七千四百八十三人兩款合共二百二十八萬六千九百七十二人每日批計來往之數約六千五百人比較去年少三十一萬八千七十八人

一金銀由港澳兩處進口者共估值關平銀一千二百六十萬四千一百九十五兩比較去年多四百五十八萬七千三百十八兩出口往港澳兩處者本年估值三百七十一萬六百七十六兩去年估值六百一萬七千七百七十三兩但以上祇係商人來關呈報之數不能作為完全總數試觀華人出洋謀生者如是之多年中匯銀回華者不知凡幾此等無形匯兌數必不菲兩相比較出入款項足可相抵廣東紙幣價格本年逐漸低折四月時尙通用八成九及至六月已低至八成一七八兩月低至七成一九月間金融恐慌政商兩界爲大局計竭力維持紙幣勸人十足通用並派員前往內地各處查察有無低折紙幣並禁運銀毫出口下鄉斯時紙幣價格猶未十分低折十月間尙通用七成六迨十二月每廣東紙幣一圓祇值銀毫六角三分至省城銀毫轉換香港紙幣本年批計每百圓銀毫約須補水八圓五角本年廣東造幣廠並無大銀圓及銅圓鑄出計鑄出二角小洋一萬九百九十七萬四千枚一角小洋一百四十三萬九千枚

一藥土本年進口共二千四百九担比較去年少六百九十八担本年春間省城及鄰近地方厲行禁煙故進口洋藥異常減少夏間亂事發生煙禁自然鬆懈在年底三個月內洋藥進口大有加增本年公班土批計每担估值關平銀二千三百四十兩去年每担估值

銀一千八百五十兩十二月底煙價尤爲飛漲每担估值銀三千六百十兩預料他日將近禁煙淨盡之時煙價更高也

一 雜論廣九鐵路在華界段內者本年並無添築路線至該路所擬於本城之北與粵漢鐵路接軌一事現正籌議尙未進行南岡站內另有輕便小鐵路一條其鐵軌橫闊二英尺長五英里半行駛螺岡各處村鄉廣九幹路本年搭客共二百萬人內有四十萬人係由九龍直來省城及由省城直往九龍者至載運貨物亦有加增計由九龍直運來省城及由省城直運往九龍者共八千五百噸其各車站轉運者三萬四千一百噸多屬輕便之貨該路本年進款共七十八萬四千圓本年三月間添開快車二輛來往省城九龍共行一百一十一英里計三點零四十二分鐘便可駛到該路業經添購機件及鐵軌等將來行車時間表更可推廣現正籌畫擬明年三月間添開夜車粵漢鐵路本年繼續進行尙稱妥協第十一段經已工竣英德車站五月間已開車行駛沙口車站離省城一百九英里者亦於八月開車第十二段將近工竣第十三段有隧道一條長五百英尺現正施工開鑿第十四段所有橋梁及填平高低道路工程亦將工竣第十五段韶關橋柱經已築成第十六段高廉村隧道亦已興工其餘在本省界內尙有五段之路除已測量外並未開辦別項工程全路載客載貨本年均有加增計每日載客約六千人載貨約三百噸三水枝路載客亦多惟載貨尙少省城自來水公司本年營業獲利除去支銷各費外得息七釐廣東電力公司營業亦好本年由河南用水線推廣電燈至花埭一帶郵政包裹本年

報經本關者共十萬九千二百三十件共征收稅銀八萬四千六百八十五圓去年包裹稅銀五萬六千三百五十五圓郵政局轉寄及投遞包裹最爲穩妥人皆稱便計土貨由包裹寄雲南者有棉汗衫襪藥材鈕扣等往天津牛莊兩處者有金線絲欄杆繩帶等往汕頭廈門兩處者有廣東生綢其由包裹進口貨物由杭州蘇州兩處來者絲綢甚多由北京來者有法藍水煙袋殼五千個俱係本處銷售者去年貿易論內所論之沙面英界水塔本年七月經已工竣興築之費七萬六千圓八月初間該塔經已分別供給食水所出之水經香港政府化學師驗過甚爲滿意本年沙面租界發現各種病症甚多計喉症五起痘症一起熱症四起霍亂症三起皆東方人腦病一起痢症十八起前四種病症本城華人地方亦同時發現粵海常關貿易連陳村分關統計在內去年共估值關平銀三千二百八十七萬九千四百三十一兩本年估值銀三千九百二十九萬二千九百九十二兩本年春間極有進步至七月間擾亂之時窒礙商務且因大局未定進口貨物極少除將貨物趕速附寄往港以圖安穩外其餘出口之貨亦極減少其後又遇颶風故貿易情形竟有愈趨愈下之勢渡船貿易亦嘗有停歇直至十月始有起色據華商稱說本年商務凋敝已極其直運出口之貨本年估值銀七百九十四萬一千四百四十六兩去年估值銀一千一萬八千八兩惟洋貨進口加增本年估值銀二千四百六十七萬八千九百四十一兩去年估值一千七百四萬二百七十七兩由通商口岸運來之貨去年估值四百八十八萬七千七百兩本年估值五百三十六萬四千二百二十兩運往通商口岸之貨

去年估值九十三萬三千四百四十六兩本年估值一百三十萬五千六百八十五兩由洋埠運來之貨如糠煤米魷魚墨魚棉線棉紗石膏花生芝蔴白糖赤糖瓷器雜木生牛皮粉絲魚翅均有加增出口往外洋之貨如豬油豬鬃毛瓦器紙張爆竹爛布碎雞鴨毛草地蓆土酒茶葉木板菸絲皆大為減少惟出口往通商口岸如土布紙張神香粉瓷器硝磺竹片及布傘則各有加增本年常關稅項共征收關平銀三十一萬四千九百九兩去年征收三十一萬四千二百一十一兩其來往省港或東北海濱一帶渡船貿易並無敗夏進步至小輪拖帶渡船來往省城陽江及水東者貿易尚屬平穩此路航線營業多靠江門一埠該埠係天然適中之地實為東南海濱及內地各處轉輸貿易之中心點歸常關管轄輪船除拖船及載客兩項小輪外另有輪船一艘名僑輪第一淨三百四十七噸該輪稟准專利由海南東南海濱之三了港駁運鹽斤來省兼載搭客數人及少數別項雜貨至常川來往澳門陳村渡船因不能與輪拖渡船競爭營業幾至全行失敗此項輪拖渡船每日依期行駛既屬迅速且較穩妥約十二點鐘時間便可抵埠其非輪拖渡船則須兩三日水程兩相比較自然優勝劣敗本年九月十八日颶颶為災華船大受損失有渡船兩艘常川來往省城香港及陳村者中途遇風全船覆沒各江河道盜風更熾惟劫船之案呈報常關者尚非格外增多來往陳村香港渡船接海賊投函勒索銀兩者經有數起雖經地方官設法保護然荆棘載途航行者仍有戒心也

KOWLOON TRADE REPORT.

1°. LOCAL.—The total net value of the trade passing through the stations of this district by junk and rail was *Hk.Ts.* 48,355,931, as compared with *Hk.Ts.* 40,048,784 in 1912, showing an increase of approximately 20 $\frac{1}{4}$ per cent. The value of the trade carried by junk was *Hk.Ts.* 47,376,272. Import trade by junk shows an increase of more than 8 million taels over the figures for 1912, 3 $\frac{1}{2}$ millions of which are accounted for by the enormous increase in the importation of rice. Rice bran further accounts for nearly 2 millions. The value of the export trade by junk remained practically unchanged. The value of the trade carried by rail amounted to *Hk.Ts.* 979,659, showing a total increase of some *Hk.Ts.* 134,000, which is entirely accounted for by the import trade, a slight decline being manifested in the export trade for the year. As regards the "local" trade of Hongkong, the year under review cannot be said to have been satisfactory. In the piece goods market, the bright prospects under which the year opened have not been altogether realised, as it was hoped that the scarcity of supplies of goods in the interior, reasonable crop results, and the general inclination of the Chinese to settle down to business would result in a good state of trade. Unfortunately, the political unrest and rebellion in the spring and summer months, and, more recently, the financial chaos which has been very pronounced in the southern provinces, have brought about long periods of stagnation. The total arrivals of cotton yarn amounted to about 200,000 bales, and the turnover to 125,000 bales, whereas in 1912 the latter was about 180,000 bales. The turnover of the local mill, however, improved during the year, which would tend to show that yarns produced from China cotton on similar lines to the Shanghai mills are growing in favour. In the woollen market trade has been very bad, and there are still large stocks that cannot find an outlet. In some of the more old-fashioned kinds, such as long ells, spanish stripes, black lastings, and camlets, trade has been fair, but serges, coatings, meltons, worsteds, etc., have been a dead market, and the stocks are sufficient to last the small percentage of Chinese who have adopted Western attire a good many years. Under the heading of sundries trade has been bad. The market is still suffering from the effects of over-speculation during the first revolution, and the second revolution has helped to accentuate the depression. The importations of flour into Hongkong during 1913 amounted to 5,176,623 bags, more than half a million less than in the previous year. The quantity arriving from America totalled 4,774,623 bags, the residue being produced by Australia and Canada. The importation of flour from Canada breaks new ground, as the extensive grain-fields around Calgary, which are producing large quantities of wheat, are now finding their markets in the East in place of Europe. What is very noticeable is the increase in the shipbuilding trade during the year. Nine vessels, with a total gross tonnage of 3,304 tons, were launched by the Hongkong and Whampoa Dock Company, and 11 vessels, with a total gross tonnage of 5,886 tons, by the Taikoo Dockyard and Engineering Company, which also had three screw steamers and two steel lighters on hand at the close of the year. The crops in the Kowloon district were, on the whole, satisfactory, two good crops of rice being garnered everywhere except at Yimtin (鹽田), where the first crop was badly damaged by typhoons. The

oyster beds at Kwaimiao (桂廟) were practically destroyed by the flood of fresh water consequent on a typhoon. The stone and brick building, mentioned in the Trade Report for 1912, which was erected as a hospital outside the west gate of Shumchün (深圳) city, has never been fitted up, and is now occupied by troops. The telephonic communication which connected Shaichung (沙魚涌), Pingshan (平山), Wangkong (橫岡), Tamshui (淡水), and Waichow (惠州) was blown down during the year, and has not been re-established. A new school has been built in Lofong (羅坊) village by the rich elders of the place.

2°. REVENUE.—(a.) *Junks*.—The total revenue derived from junk-borne cargo amounted to *Hk.Tts* 326,837, as compared with *Hk.Tts* 264,052 in 1912. This increase of 23 $\frac{3}{4}$ per cent. is contributed to by all headings of revenue, but chiefly by general cargo duty, which, with a total of *Hk.Tts* 146,566, shows an increase of *Hk.Tts* 35,268, and is the highest on record since 1898, in spite of the fact that the duty on exports is some *Hk.Tts* 3,700 less than in 1911 and 1912. Opium yielded a total of *Hk.Tts* 54,583—an increase of *Hk.Tts* 3,929 over the 1912 figures. General cargo likin (*Local Tts* 116,066 = *Hk.Tts* 104,373) and chingfei (*Local Tts* 23,703 = *Hk.Tts* 21,315) show increases of *Hk.Tts* 21,118 and *Hk.Tts* 2,469 respectively. Under these last two headings it may be noted that with the renewal of a "farm" for the collection of likin and chingfei on tobacco in Kwangtung the levy of these taxes at Customs stations ceased in February. During the year "farms" for the collection of the following taxes lapsed, but were renewed within a few months, during which time their collection was in the hands of the Customs: chingfei on red bricks and roof tiles, tsoli on caladium and caltrops, tsoli and chingfei on jadestone, and tsoli and chingfei on hides and leather.

(b.) *Railway*.—The total revenue derived from rail-borne cargo amounted to *Hk.Tts* 23,504, an increase of *Hk.Tts* 4,967, or 26 $\frac{1}{2}$ per cent., over the 1912 collection. To this increase import duty contributed *Hk.Tts* 5,430, and transit dues, *Hk.Tts* 4, while export duty fell-off to the extent of *Hk.Tts* 467.

(c.) *General*.—The grand total for the year shows a revenue of mixed *Tts* 364,422, or *Hk.Tts* 350,341, being an increase of *Hk.Tts* 67,752 over the preceding year's collection. The following table shows the proportion of revenue collected by each collecting station in this district:—

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—(i.) *Junk borne.*—The estimated value of imports by junk for the year under review is *Hk.Tts* 29,731,794, showing an increase of more than *Hk.Tts* 800,000, or nearly 37 per cent., over the corresponding figures for 1912. The importation of rice increased from 1,299,542 to 2,799,104 piculs, and of bran rice, from 856,904 to 1,971,195 piculs. Brass and metals of all kinds showed improvement, notably iron and mild steel bars, which increased nearly 100 per cent. Cotton goods showed a slight rise throughout, except cotton thread in reels, which dropped from 82,317 to 48,120 gross. Coal increased some 28,000 tons, and fish, both dried and salt, and groundnuts also showed large increases. The total importation of kerosene oil dropped from 1,131,750 to 857,545 gallons.

(ii.) *Rail borne.*—The estimated value of the imports carried by rail was *Hk.Tts* 711,138, as against *Hk.Tts* 485,657 in 1912.

(b.) *Re-exports.*—*Nil.*

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—(i.) *Junk borne.*—The value of the trade under this heading was *Hk.Tts* 12,812,500, as against *Hk.Tts* 12,517,639 in 1912. There was a distinct increase in the quantity of live stock exported, the number of pigs having risen from 22,824 to 32,633, and of cattle, from 3,042 to 4,470. The export of gunny bags and bamboo canes was nearly doubled, while fresh eggs and packing mats showed a large decrease. Black tea decreased by 6,000 piculs.

(ii.) *Rail borne.*—The total value of the exports by rail was *Hk.Tts* 268,521, showing a decrease of some *Hk.Tts* 90,000 from the figures shown in 1912.

(b.) *Imports.*—*Nil.*

5°. INLAND TRANSIT.—(a.) *Inwards: Railway.*—No transit passes for cargo were issued in 1913; but 11 “luggage transit duty receipts” for small quantities of merchandise were issued, the total value of the merchandise so carried in 1913 amounting to only *Hk.Tts* 491, the total revenue accrued under this heading being *Hk.Tts* 12.

(b.) *Outwards.*—*Nil.*

6°. SHIPPING.—(a.) *Under General Regulations.*—The total number of vessels entered and cleared during 1913 was 34,360, as compared with 32,443 in the previous year. Tonnage increased from 2,432,588 tons in 1912 to 2,769,360 tons, due chiefly to the junk tonnage, which increased by some 140,000 tons both inwards and outwards.

(b.) *Under Inland Steam Navigation Rules.*—The total number of vessels entered and cleared during 1913 was 1,956, as compared with 1,046 in the previous year. Tonnage increased from 26,136 tons in 1912 to 46,657 tons. This increment in tonnage is due to increased traffic on the Taiping-Taishan run and the institution of the Shekki-Lintin ferry.

7°. PASSENGER TRAFFIC.—The number of passengers carried by junk and launch past our stations during 1913 amounted to 310,884, as against 205,229 in 1912. Those who crossed the frontier by the Canton-Kowloon Railway from Hongkong to China numbered 250,437, and

from China to Hongkong, 296,614. During the year the Tung San Company (東新公司) started a launch to compete with the Tung Yik (同益) Company on the run between Hongkong and Taiping *via* Taishan, and the Hang Lee (恒利) Company opened a new run between Hongkong and Shekki, with an interchange of tows at Lintin. There are no changes to report in the launches running on the east coast. One launch still continues to ply between Hongkong and Shumchün, in spite of the railway.

8°. TREASURE.—*Nil.*

9°. OPIUM.—Imports into this district increased by 9 per cent.—from 145 piculs in 1912 to 158 piculs. The year opened most gloomily, owing to the enforcement of provincial anti-opium measures. Quotations at the beginning of the year were \$2,800 nominal, dropping subsequently to \$2,550 for Patna and Benares. On receipt of news in January that the Indian Government were suspending sales in order to relieve the situation, a more hopeful view was entertained. Further drastic steps in certain provinces counteracted this better feeling in the market and caused a want of confidence among dealers and importers. In February there was some improvement, and sales were effected at advanced prices. The market kept steady during the following three months, and at the end of May prices were \$3,700 for Patna and \$3,550 for Benares. In June and July there was a good demand at advanced prices. In the autumn there was a sharp rise, Patna being quoted at \$5,825 and Benares at \$5,525; importers and dealers regained confidence and the market was considerably strengthened. In October and November the Bengal market was very quiet, but at the close of the year there was an improvement. Quotations per chest at various periods of the year were as follows:—

The Hongkong opium farmer continues his operations on the three years lease granted from the 1st March 1910 at a rental of \$1,183,200 per annum. It may here be noted that at a meeting of the Hongkong Legislative Council on the 18th December a Bill—cited as the Opium Ordinance, 1914—was introduced, and will come into operation on the 1st March 1914, by which the Government will assume entire control and management of the opium business hitherto leased out to the opium farmer.

10°. MISCELLANEOUS.—At the beginning of the year the boycott of the trams, consequent on the refusal of the Lower Level Tramway Company to accept Chinese subsidiary coins in payment of fares, still continued; but the Ordinance, which was passed in December 1912, empowering the levy of a supertax in areas found to be in sympathy with the movement, proved a sufficient deterrent, and the boycott subsided early in the year.—Plans for the construction of a terminal station for the Canton-Kowloon Railway at Kowloon were passed by the Government in February, and the building operations, which will probably take some two years to complete, have made good progress during the year. Customs control should be greatly facilitated by the arrangements now planned.—In April, after a long trial, which aroused considerable interest, seven Japanese were found guilty of forging Kwangtung provincial bank-notes to the value of a million dollars, and sentenced to various terms of imprisonment.—Trade was at a standstill during the rebellion in Kwangtung in the latter part of July and the beginning of August. The rebel Governor General of Canton, Ch'en Chiung-ming (陳炯明), arrived in Hongkong on the 8th August by the French gun-boat *Vigilante*, and left for Singapore by the German mail-steamer *Yorck* on the following day.—His Excellency the Governor, Sir Henry May, K.C.M.G., left on the 22nd August for a short furlough at home and returned to the Colony on Christmas Day. The Government was administered in his absence by His Excellency Mr. Claud Severn.—Piracy was rife during the year, the most serious case being the attack on the British river s.s. *Taion*, which occurred on the 2nd April. The robbery took place in Chinese waters when the vessel was some three hours out of Hongkong. Six of the *Taion's* crew and one Chinese passenger were killed, and four of the crew received serious shot wounds. The foreign officers of the vessel and the one foreign passenger, a missionary lady, were, fortunately, uninjured. The estimate of the value of the

pirates' haul was \$25,000.—The black typhoon signals—repeated at our Chekwai signal-station—were hoisted 17 times during the year, though only two typhoons actually struck the Colony. These typhoons, which occurred on the 17th August and 18th September respectively, caused no little damage. In the case of the former typhoon, owing to the late delivery of telegrams announcing its approach, considerable damage to native craft and loss of life occurred at Taishan station. The new Mongkoktsui breakwater, which is costing \$2,300,000, and which is being built as an additional typhoon shelter for junks, is still under construction.—Plague was prevalent in a minor degree throughout the year, the maximum number of cases being registered in August, when over 90, of which some 80 odd were fatal, were reported.—The number of seizures of smuggled arms and opium by the Hongkong authorities throughout the year was very noticeable.

I am indebted for the compilation of this report to Mr. L. SandercocK, Acting Deputy Commissioner, and Mr. A. H. F. Edwardes, 2nd Assistant, B, on the staff of this office.

居百成之二零九七

一 洋貨貿易洋貨由外洋運進進口及由通商口岸運來者本年報經本關進口洋貨由民船裝載者共估值關平銀二千九百七十三萬一千七百九十四兩比較上年增多八十餘萬兩合之每百分中幾增三十七分洋米進口自一百二十九萬九千五百四十二担增至二百七十九萬九千一百四担米糠自八十五萬六千九百四担增至一百九十七萬一千一百九十五担各類銅鐵均有起色然以鐵條爲最幾加一倍之多布疋類亦稍加增惟轆轤棉線自八萬二千三百十七各羅斯跌至四萬八千一百二十各羅斯洋煤增多約二萬八千噸鹹魚乾魚花生等亦大有加增煤油進口由一百十三萬一千七百五十加倫跌至八十五萬七千五百四十五加倫本年由火車載運進口各貨共值七十一萬一千一百三十八兩上年僅得四十八萬五千六百五十七兩

洋貨復出口無

一 土貨貿易土貨出口運往外洋及通商口岸連復出口在內出口土貨由民船裝載報由本關各分關出口者估值關平銀一千二百八十一萬二千五百兩去年一千二百五十一萬七千六百三十九兩本年牲口一類出口俱有加增生豬由二萬二千八百二十四頭增至三萬二千六百三十三頭紅牛由三千四十二頭增至四千四百七十頭蘇蘇袋

竹竿幾加一倍惟生蛋包蓆均減甚多紅茶約減六千担有奇由火車載運出口各貨共值關平銀二十六萬八千五百二十一兩較之去年減少九萬餘兩

土貨進口無

一內地稅則洋貨領有運照入內地本年本關並無發給此項運照僅發搭客隨帶零星貨物子口半稅單照十一張所運貨物共值關平銀四百九十一兩計徵半稅銀十二兩土貨領有三聯單運出內地無

一船隻遵照本關總章行駛者本年報由本關進出口之民輪等船統計三萬四千三百六十艘載重二百七十六萬九千三百六十噸比之上年三萬二千四百四十三艘載重二百四十三萬二千五百八十八噸其噸數增漲之故係因民船進口出口各漲十四萬噸有奇遵照內港行輪章程行駛者本年報由本關進出口之船統計一千九百五十六隻載重四萬六千六百五十七噸比之去年一千四十六隻載重二萬六千一百三十六噸噸數增漲之故係因太平來往大鏟開多輪拖一艘石岐往來伶仃而又新開輪拖一艘之故也

一旅客按冊所載之數是年由民船及小輪船報經本關進出口者計有三十一萬八百八十四名去年則有二十萬五千二百二十九名其由廣九鐵路經英界入華境者二十五萬四百三十七名由華界入英界者二十九萬六千六百十四名來往香港太平報經大鏟分關之輪拖是年有一東新公司開多一艘而與同益公司互相爭攬生意又有恒利

公司新開輪拖一艘來往香港石岐報由伶仃分關換輪拖帶者至於行駛東路報經三門分關之小輪船本年無甚更變來往香港深圳之小輪生意雖被火車攙奪本年仍有一艘照常行走

一金銀無

一藥土本年洋藥經由本關進口者增多百分之九去年一百四十五担本年漲至一百五十八担當在歲初之時因值中國數省厲行煙禁以致市面大為冷淡此時大土及新土等每箱價值二千八百元未幾而竟跌至二千五百五十元其在正月之時傳聞印度政府有擬暫將洋藥停止出投藉以維持市面商人以為從此當有起色無如各省取締禁煙之律接武而起甚至間有益加嚴厲不無又生阻力遂使買者賣者仍舊意存觀望及至二月方始略有銷場而所售價值亦稍高昂此後接連三月市面平穩無甚起跌至五月杪大土每箱起至三千七百元新土三千五百五十元六七月時生意更佳且能得其善價而沽之迨至秋間之時價值陡然銳長大土每箱值洋五千八百二十五元新土五千五百二十五元操是業者至此方無懷疑市面為之大定十月十一月時獨有濱高洋藥銷場甚淡及至歲杪之時而又復有轉機茲將各種洋藥本年每箱價目列表於左

本港煙膏公司仍為原承商人由一千九百十年三月一號起專辦三年尚未屆滿每年認繳餉銀一百十八萬三千二百元聞在是年十二月十八日香港議政局議訂一例名曰一千九百十四年鴉片則例定於明年三月一號施行將會給予商人認餉專賣熟膏之生理該處政府收回自辦云

一雜論香港電車公司前因不收中國銀毫以致激起華人抵制之事直至本年年首風潮尚未盡息該處政府遂於上年十二月間訂一新例擬將凡屬抵制區域劃出抽收特別捐項藉此以解散之方在訂期施行為時不久竟然全行消滅矣廣九鐵路英界九龍總站地點以及建造房屋之圖已於本年二月呈奉該處政府批准業經鳩工庀材觀其本年所作工程進行甚速約在兩年之內即可全工告竣該站成功之後而與本關稽徵等事多所方便四月間香港臬司判定偽造百萬廣東紙幣之日本人七名分別予以監禁

之罪溯當審訊此案之際各人極其注意七月下旬以至八月上旬之間商務忽然停止係因粵省二次革命之故革督陳炯明乃於八月八日乘坐法國炮艦赴港次日轉搭德國郵輪前往星架坡埠是月二十二號港督梅制軍假旋祖國隨於十二月二十五日回任其在假期之內所有政事皆由史布政司暫行代理本年海盜猖獗情形依然如昨其最劇者則爲四月初二日英商泰安輪船一案被劫處所係在相距香港三小時之行程華界地方該輪水手爲匪槍斃者六名另有華客一名受傷者四人船上各洋員暨一西女教士幸無受傷聞該輪船被劫賊物約計值洋二萬五千元之譜本年懸報颶風之黑球共十七次之多本關赤灣風警台均仍仿照懸球示警中有兩次風勢最烈一在八月十七號一在九月十八號是兩次內船隻房屋爲風摧壞者亦屬不少惟在八月十七號時香港轉達赤灣報風之電因其遞到遲延以致大鐘分關所泊民船間有爲風擊壞並有溺斃人命之事香港旺角嘴地方新築破浪石堤一道以便民船多一避風之所估計工料價銀約二百三十萬元該堤工程現時尙未告竣本年核疫之症相較上年稍少但在八月之時最盛一月之內計有九十餘宗致命者八十餘人本年香港緝獲私運軍火與夫洋藥之案層見疊出似此一隅之地竟有如是之多斯亦可謂奇矣

LAPPA TRADE REPORT.

1°. LOCAL.—The trade in the Lappa district showed no unusual features during the year 1913. If business was not remarkably brisk, it is at least satisfactory to be able to record that it was well up to the average of the preceding year. As was to be expected, the decline in the import of Indian opium continued and was responsible for a further reduction in the revenue figures. The funds formerly invested in the opium traffic appear to have been devoted to trade in ordinary commodities, for the value of the general cargo passing our stations in both directions exhibits a most hopeful increase, the imports and exports together showing an advance of over a million taels. Silk piece goods merchants and coal dealers are said to have good reason to congratulate themselves on their profits; failures were few, only two cash shops being reported as closing their doors. The weather in the early spring was mild and somewhat damp, giving promise of a rich harvest, while the summer was not oppressively hot. The district was not visited by any serious epidemic, and the general health report was unusually favourable. Money was rather tight throughout the year, and the constantly increasing discount on Chinese subsidiary coins, which are the medium for the majority of business transactions, had a tendency to hamper business. On the 8th June a squall of extraordinary severity struck the inner harbour of Macao. It caused steamers to break adrift from their moorings, and played havoc amongst the floating population, upsetting sampans and throwing the occupants into the water. Fortunately, the German gun-boat *Ittis* was in port, and with her boats saved numbers of people from drowning. On the 17th August one of the most severe typhoons that has ever been experienced here passed over this district, the centre passing almost exactly up the Broadway. The force of the storm was terrific, and much damage was done both on sea and land. Many junks were driven past Malowchow station, and several of these were seen to founder with all hands. On the following day quantities of wreckage drifted past the stations, and numbers of bodies were seen floating in the Broadway and Malowchow Pass. In Macao the damage was very serious. In many places along the Praya Grande and the Avenida da Republica, a very fine road lately constructed along the seashore to connect the Praya Grande with the inner harbour, the sea wall was torn up, huge blocks of stone being hurled right across the road. Houses were unroofed, and trees and even walls blown down. In the open country, where there was little to offer resistance to the wind, no great harm was done.

2°. REVENUE.—The total receipts for the year under review amounted to *Hk.Ts.* 283,622, which is, roughly speaking, a decline of some *Hk.Ts.* 42,000 from last year's collection. The falling off in the opium duties amounts to *Hk.Ts.* 54,652, which more than accounts for the above decline, and proves that other goods are coming in to fill the vacancy caused by the gradual extinction of the opium trade. The import duties are the best since 1904, but the exports show a slight diminution. A reference to the proper heading will show that the most important increase in the export trade is in the consignments of pigs, which pay no duty, while the decreases all concern dutiable articles. This explains the apparent anomaly of shipments of increased value yielding a smaller revenue.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The total value of the foreign commodities, exclusive of opium, that passed the Lappa stations inward bound during the course of the year was *Hk.Tts* 11,418,976, an improvement of over *Hk.Tts* 470,000 on the imports of 1912. Indian cotton yarn shows an increase of 20,000 piculs, or 60 per cent., over last year's arrivals. This large advance is due to various causes. The returning to work of numbers of workers who left their homes during the unsettled times of the previous year is no doubt a contributing factor, while the establishment of new factories in Sunning, Heungshan, and other important places has also had considerable effect on the import of yarn; but probably the main cause is the lowering of the freights on the Tungkun (東莞) and Chanchuen (陳村) junks, which caused the Hongkong shippers to send the spinnings for Fatshan (佛山) and Shikiu (市橋) by this route. Nankeens are steadily advancing in favour, and this year show a further increase of 1,659 piculs. This material, dyed to a pale shade of khaki, is largely used to make uniforms for soldiers and schoolboys, etc. Another good harvest, even more productive than the preceding year's, reduced the demand for foreign-grown cereals, and prices fell from *Hk.Tts* 4.50 to *Hk.Tts* 3.20 per picul; consequently, although the rice that eventually arrived from abroad was slightly in excess of the 1912 import, the total value was considerably lower. That the value of the medicines conveyed through the Lappa stations has advanced from *Hk.Tts* 138,255 to *Hk.Tts* 182,923 is largely due to the reduction in freight referred to above. The arrivals of sugar exceeded those of 1912 by 30,369 piculs. The districts for which this sugar was destined formerly drew their supplies from Kwangchowfu and the four lower prefectures—Kochowfu (高州府), Luichowfu (雷州府), Kiungchowfu (瓊州府), and Limchowfu (廉州府)—by inland routes. Owing to an unsatisfactory crop in the Chingyuen district (清遠縣) there was a shortage of sugar in Kwangchowfu (廣州府), and the price rose to *Hk.Tts* 8 per picul, while the produce of the lower prefectures cost *Hk.Tts* 5 to *Hk.Tts* 6. Java sugar of an equally good quality, in the form of cakes or bricks, was procurable in Macao at about the same figure as the produce of the lower prefectures, so this was purchased and sent up *via* the Lappa stations. The decision come to during the course of the year that robes and jackets of Chinese silk and satin were still to be worn raised the value of the silk piece goods imported by some *Hk.Tts* 15,000. The decrease of 253,620 gallons in the kerosene oil passing inward through the Lappa stations does not imply any loss of popularity for this illuminant or any decline in the demand. The neighbouring districts have been supplied as usual, but a large proportion of their oil has reached them *via* Canton, whither the oil is said to have been sent for distribution, conveyed thither in tank-boats from Hongkong. The typhoon of last August destroyed a number of Macao fishing junks, and this reduction of the fishing fleet has no doubt to some extent affected the year's trade with China in salt fish; but the main cause of the decrease of 20,624 piculs in the imports of this commodity is that the bulk of the Shekki supply reached that place by a new route that did not pass our stations. Formerly the fish were brought into Macao and thence shipped to Shekki through Malowchow or Tsinshan. Now the Hongkong fish dealers send out boats to collect the fish from the fishing fleet at sea, and ship them by a new line of tows that ply between Hongkong and Shekki *via* Lintin and Wangmoon.

(b.) *Re-exports.*—*Nil.*

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The exports from China *via* Lappa during the year under review aggregated *Hk.Tts* 5,225,256, an advance of nearly 8 per cent. on the preceding year's total. More than twice the usual number of pigs were shipped from China, partly to meet the demand from the enhanced Chinese

population of Macao and Hongkong, and partly because after the counter-revolution in July the inland routes were in a disturbed condition and the sea route past our stations was extensively used in preference. Palm-leaf fans, produced only in the Sunwui district (新會縣), have always been amongst our most important articles of export; but the 41,776,634 pieces shipped during the year is by far the greatest number that has ever passed our stations. The bulk of these fans is bound for Hongkong for transshipment there, some to Shanghai and the Yangtze ports and some to Singapore and New York. Building operations in Macao called for much more timber than is usually required, and caused the export of softwood planks to show an improvement of over *Hk.Ts.* 150,000 in value. Pottery and earthenware and groundnut oil also show substantial advances. On the other hand, poultry and eggs each show a serious decline. As explained in last year's report, during the unsettled times immediately after the revolution poultry farmers thought it wise to convert their stocks into money, and this naturally resulted in a shortage of eggs and chickens. Competition from the North has also interfered with the egg trade. The firewood junks on their way down from Shiuhing (肇慶), on the West River, have to pass through a country infested by pirates, who levy blackmail on all passing boats. The firewood trade is not a very remunerative one, and many of the boats being unable to comply with the demands of the pirates were obliged to cease running, causing a decrease of nearly 150,000 piculs in the export of this necessary. The manufacture of samshu from foreign rice by brewers in Macao reduced the amount required from China by over 4,000 piculs. Silk piece goods and leaf tobacco also show reduced figures.

(b) Imports.—*Nil.*

5°. INLAND TRANSIT.—*Nil.*

6°. SHIPPING.—17,919 junks and 5,420 steamers entered and cleared at the Lappa stations during the course of the year under review; their tonnage amounted to 1,235,020 tons. It will be noticed that the increase in the proportion of steamers to sailing craft, to which attention was called last year, still continues. Of the entries and clearances of junks referred to above, 1,608 were from China to China, 13,083 to and from Macao, 2,544 to and from Hongkong, 679 between Hongkong and Macao, and the remainder, five in number, were engaged in the trade with Indo-China. 18 steam-launches are plying in this district under inland steam navigation certificates issued at Canton.

7°. PASSENGER TRAFFIC.—The passengers who passed through our stations during 1913 numbered 1,977,920, or 340,000 more than during the previous year. Of this total, 981,072 persons entered China and 996,848 passed out of the country. 648,030 passed through Tsinshan, the majority of them bound to or from Shekki. 155 people visited Heungchow and 146 left that place, while 1,191,100 passed our land stations—599,783 inwards and 591,317 outwards.

8°. TREASURE.—*Nil.*

9°. OPIUM.—(a.) *Foreign.*—The import of certificated Indian opium into China by way of the Lappa stations during the year under review was only about 54 per cent. of the figures for 1912, and amounted to no more than 147 chests, weighing 176.25 piculs and valued at *Hk.Ts.* 431,858. A remarkable feature of the year's opium business was the rapid increase in value, particularly in the latter part of the year. In January the selling price in Macao of a chest of certificated Patna that had paid duty and likin and was labelled ready for importation

into China was about \$3,600, while by the end of the year the local value had risen to more than double that figure, with a strong tendency to advance. On the 14th June an agreement was entered into between the Governments of Portugal and Great Britain, whereby the two high contracting parties bound themselves to set a limit to the amount of uncertificated drug imported into Macao and Hongkong for the use of the respective opium farmers. The Macao farmer is not to import more than 260 chests annually for local consumption; and for re-export in the form of prepared opium to countries where the importation of this drug is not prohibited he is limited to 240 chests annually, unless the authorities of the country of destination certify that a larger amount is necessary for the requirements of lawful trade. At the end of July the opium farmer's contract expired, and tenders were invited for a new contract to run for five years at the upset price of \$460,000 a year, a figure which, in spite of the new limitations on the import of opium, was equal to more than three times the amount of the previous contract. In all, 19 tenders were received, and on the 16th July the farm was knocked down to the highest bidder, whose offer amounted to the large sum of \$1,056,666 per annum.

(b.) *Chinese.*—*Nil.*

10°. MISCELLANEOUS.—In June the Central Government appointed a Superintendent of Customs to Canton, Kowloon, Lappa, and the ports on the West River. This official took over the duties in connexion with Customs work which since the revolution had been performed by the Military Governor.—The highest and lowest readings of the thermometer recorded at the Macao Observatory during the year were 36°.1 C., or 96°.92 F., on the 5th September and 5°.2 C., or 41°.36 F., on the 26th January. The total rainfall was 1,877 millimetres, or 73 inches, an increase of nearly 50 per cent. on that of the previous year; as usual, the wettest month was June, with 25½ inches.—On the 11th May the Portuguese cruiser *Adamastor*, on her way from Hongkong to Macao, touched a rock near Dumbbell Island and had to return to Hongkong for repairs. The only mishaps to shipping reported to this office were due to the depredations of the pirates, who infest this district. They grew bolder as the year went on, and several junks were attacked within a few miles of Macao. In August they sent in a letter, signed by all their chiefs, threatening to attack our station at Naiwanmoon, and, later on, they announced their intention of sinking the *Tungli* guard-boat at Tsinshan. In October two noted pirate leaders, armed with automatic pistols, were captured at Malowchow station and handed over to the Tsinshan police, who sent them on to the provincial capital for trial. On the 10th December a party of pirates, who had embarked at Kwangchowwan as ordinary passengers, seized the Portuguese s.s. *Kwangchowwan* after passing St. John Island. They shot the captain, a young Portuguese named Jesus, and wounded the Chinese pilot. A junk was waiting for them off Kaulan (高瀾), and they carried away with them some \$24,000 taken from the comprador's room, besides some cargo and the crew's money and clothing.

中華民國二年拱北口華洋貿易情形論畧

竊查本口貿易情形本年無甚特色然雖未能異常振興仍較上年不相上下斯亦差堪稱意矣洋藥進口逐年遞減將來稅課因之短少固在意中想業此者近皆挾其資本改營別業因百貨往來本口各分關大有進步統計進出口貨價估值關平銀多於上年百餘萬兩綢緞洋煤兩項均見獲利其他亦鮮虧折祇有銀店兩家歇業而已春初天氣溫和雖稍覺潮溼仍有豐年之兆夏令亦非酷熱年內並無劇烈疫症居民慶幸非常終歲銀根短絀銀毫貼水繼長增高因有多數生意以銀毫爲周轉之需故銀水加高實於商場有礙本年六月初八日突有烈風吹撞澳門內港輪船斷纜失錨漂流四逸艇戶亦被殃及舟覆人溺斃命甚衆其時幸有德國兵艦名衣利提士者適泊於澳卽放舢板設法施救多人得慶生還八月十七日又遭極大颶風其勢之猛爲本口所僅見風之中點上行幾至磨刀門然後吹往別處飄搖震撼水陸均受損傷渡船漂過馬溜洲分關爲數甚夥其中人船俱擱於淺者亦復不少翌日卽有傷殘各物流過關廠並於磨刀門及馬溜洲海道均見有浮尸多具澳門地方被炎亦巨南環一帶及新關之絕好馬路循南環海邊通至內港者該處沿岸石隄多被吹起並有巨石掀翻道中屋瓦飛揚卽樹木牆壁亦被吹倒惟空曠之地無礙風勢者受害較淺

一本關稅課共徵關平銀二十八萬三千六百二十二兩較上年約少四萬二千兩計洋藥

稅釐一款短徵五萬四千六百五十二兩已逾以上所少之數足徵洋藥漸次潛消而百貨源源而來得以彌縫其闕自前清光緒三十年以後進口稅收之旺以本年爲最惟出口稅稍形退縮緣出口貨內生豬甚多無須納稅而應稅貨物轉見寥寥是以貨值加增而稅收反絀其不相符之故有由來也

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者本年除洋藥外共值關平銀一千一百四十一萬八千九百七十六兩較上年多值銀四十七萬餘兩如印度棉紗多於上年二萬担計增百分之六十其增多之故一以上年時局不靖工人遠避異鄉今始復業再則新甯香山及各處扼要地方新建織造各廠與此項貨物大有關係是以進口甚盛更考其最大原由或因往來本口之東莞陳村兩處渡船載脚低減以致香港貨客將該貨由此路轉運佛山市橋等埠土布亦逐漸暢銷本年加多一千六百五十九担此等物料染成淺黃色多合軍營兵士與學校各生號衣之用本年禾造較上年尤爲豐收原無須多購外洋之米又因每担售價由關平銀四兩五錢跌至三兩二錢是以末後運到之洋米數雖稍增而總計價值仍然銳減藥材估值由十三萬八千二百五十五兩增至十八萬二千九百二十三兩亦因上文所論載脚低減之故洋糖亦較上年增多三萬三百六十九担緣各屬需糖之區從前皆取給於廣州府及下四府之高雷瓊廉由內地陸路轉運適因清遠一縣糖造失收廣州府儲糖亦少其價漲至每担關平銀八兩又以下府所出之糖每担關平銀五兩至六兩而爪哇之糖片糖甄其質之美與土糖埒在澳門

採買價值亦與下府無異以故各商就地購取經過本口分關運入各屬銷售綢緞多值一萬五千兩蓋因本年決定綢製華服仍可通行適用煤油少二十五萬三千六百二十加倫並非人不喜用亦非貨不銷流查除近各屬照常購買曾有大宗煤油從香港用油船載往省城分運各處八月間之颶風澳門漁船損壞頗衆船隻減少則年內鹹魚生意定亦受其牽累惟此項貨物少至二萬六百二十四担之故實有多數改由新路運往石岐不復經由本口關廠蓋從前皆係載魚來澳復由澳門轉運石岐經過本口馬溜洲前山兩廠今則香港之操魚業者放船出海即就海上向漁船收買然後用往來香港石岐之輪拖渡船載回該埠祇經過零丁橫門兩處而已

連復出口在內

本年此項貿易由中國出口經過本關各廠共估值關平銀五百二十二萬五千二百五十六兩較上年幾多百分之八生豬較常足增兩倍一因澳門香港人民衆多銷場甚廣一因七月間省城復亂陸路梗阻多由水路販運過關葵扇獨產自新會縣爲本口出口貨物之一大宗本年計有四千一百七十七萬六千六百三十四柄從來經過關廠無如此次之多該貨多數載往香港復由香港轉運他處有往上海揚子江各埠者有往新嘉坡紐約者澳門建造各工需用木料較夥故輕木板多值十五萬兩有奇瓦器窰器及花生油亦切實加增惟鷄鴨與鷄蛋均形銳減上年曾已論及蓋因光復後時局未定畜鷄鴨者多以變貨存銀爲妙算鷄蛋與

雞鷄自爾短少而北方口岸亦有販蛋攙奪本口生意者柴船由肇慶下駛在西江水面必須經過海盜窩聚之區盜黨每船勒收重費此項生意本不甚佳又苦於盜賊逼索難以供應致多停歇故出口之柴幾少十五萬担土酒販自中國者計少不止四千担因澳門釀酒家有以洋米釀造也綢緞煙葉皆形減少

KONGMOON TRADE REPORT.

1°. LOCAL.—The year began well and ended well, in spite of many difficulties and vicissitudes, and, on the whole, it has been a prosperous one for the merchants. Towards the end of June a political undercurrent made itself felt, which induced merchants to become more cautious in their transactions. On the 18th July Tutu Ch'ên Ch'ung-ming pronounced the Kwangtung province to be independent from the Central Government, though the populace generally was not in sympathy with this step. This move caused a marked setback to trade, and, though the independence lasted less than a month, it was only in September that normal conditions returned. Meanwhile the money market had been much disturbed and the provincial government notes depreciated steadily until the discount reached about 42 per cent. However, generally the year was so good commercially that a new record for the value of trade and revenue collection has been established which will not easily be beaten, though there is no apparent reason why, with a stable money market or a reformed currency and that dreaded scourge "piracy" subdued, the trade should not further increase very considerably. The net value of the trade coming under the control of the Maritime Customs amounted to *Hk.Ts.* 8,656,789, which is an increase of *Hk.Ts.* 2,044,712 over the figures of 1912, comprising *Hk.Ts.* 6,841,140 for imports and *Hk.Ts.* 1,815,649 for exports. The black tea trade has well maintained its upward tendency—in 1913 the export amounted to 13,774 piculs, an increase of 2,142 piculs over last year's figures. The yield of the first paddy crop was good, but, owing to incessant rains, the paddy was spoiled in the hands of the farmers, as paddy before it can be stored for use or got ready for the market must be dried in the sun, and this not being possible, much of it deteriorated. The second crop was bad, owing to floods caused by dams breaking during a typhoon. During the year foreign rice imported amounted to 193,220 piculs, against 37,542 piculs in 1912, more than five times as much; a great part of this rice was imported for the relief of people in distress through the floods in August. The highest price of Chinese rice during the year was in September, viz., \$8.60 per picul of 1st quality. Local paddy merchants lost money through advancing it to farmers, in the hope of getting full supplies of paddy in return; but, owing to the floods, many farmers failed, some absconded, and others even lost their lives in the disaster. During July and August rain was excessive, and the water in the river kept very high. On the 17th August it was 1½ feet above the Customs Bund, when a very fierce typhoon struck the port and neighbourhood, causing much damage to property on land and river; the protecting embankments were broken in many places and the whole country was flooded, hundreds of houses fell in, plantations were submerged, thousands of fruit trees were washed away or decayed, and many lives were lost; the damage done in Sunwui district is estimated at about \$4,000,000. The Customs jetties were demolished, and the railway had to stop running for 10 days. Piracy was rampant during the first half-year; but when, in August, the revolutionary soldiers fled from Canton, taking their arms with them into the country, where they either sold their arms or joined the pirates, matters turned from bad to worse and the pirates became extremely bold; steamers, passenger-tows, steam-launches, and the railway all have equally been attacked and ransacked; the capture of steam-launches with which to hold up junks, even within 15 *li* of the

Custom House, and the kidnapping of skippers and passengers to be held for ransom, are now matters of almost daily occurrence, and piracy has never been so daring as at the close of 1913. On the 3rd April the Hongkong s.s. *Taion* was pirated, whereby some Chinese lost their lives and some \$25,000 was looted. On the 10th October the same steamer was again the object of some 30 pirates, who had embarked as passengers; but, fortunately, Customs officers found most of their weapons concealed in the luggage of three females, and by this timely discovery the planned attack was frustrated. On the 10th September the Gaemooon Customs station, in charge of a foreign officer, was attacked and everything portable stolen, and on the 4th October the Stauneh Island light-station was looted. Throughout the year there was a good supply of subsidiary coins in the market, and these coins are generally used by merchants in the transaction of business, while whole dollars are usually scarce. Provincial government notes were not favoured when it was found that the provincial treasury had no reserve for these notes, and some inland places refused to accept them. While the discount of these notes was 22 per cent. in 1912, it rose to 42 per cent. in 1913. In December *Hongkong* \$100 exchanged for \$112.20 subsidiary coins and for \$180 provincial government notes.

2°. REVENUE.—The total Maritime Customs revenue collection for 1913 amounted to *Hk.Ts.* 558,707, being an increase of *Hk.Ts.* 109,372 over the collection of 1912, our previous record year.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The net value of the foreign trade during 1913 amounted to *Hk.Ts.* 6,841,140, a gain of nearly 2 million taels over that of 1912. The increase in opium of 189 piculs is only responsible for a little over one-fifth of the total gain, which shows that the improvement in the general import trade has been most marked. All kinds of cotton piece goods show large gains. The import of condensed milk more than doubled, on account of more active canvassing by agents; and white sugar continued to show improvement, 27,600 piculs more than in 1912 being recorded. Towelling showed an advance of 45,700 yards; wheat flour, of 14,513 piculs; woollen and cotton mixtures, of 22,610 yards; matches, of 83,134 gross; and cigarettes, of 7,000 mille. The second rice crop being a failure, owing to floods and a typhoon, 193,220 piculs were imported, or five times as much as in 1912. Most of it is said to have come from Tonkin, where the harvests were unusually bountiful, and, finding little demand in Hongkong, it was brought on to this district, where it found a ready market. Kerosene oil, which showed little improvement last year, took a big jump, showing an increase of 440,213 gallons of American and 154,210 gallons of Sumatra over the figures for 1912. This is no doubt partly due to the more aggressive methods of the foreign agents now stationed here and partly to the fact that a considerable portion of the district formerly supplied from other sources now gets its oil from here.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The total value of Chinese produce exported was *Hk.Ts.* 1,815,649, an increase of *Hk.Ts.* 126,986, divided about equally between exports abroad and those to Chinese ports. Black tea and prepared tobacco, as well as pigs and straw bags, show a creditable improvement. Palm-leaf fans, after a considerable gain last year, show a falling off of 2,117,000 pieces. Straw mats have decreased by 642,000 pieces, due to the fact that during part of the year the local brokers' charges were increased and this commodity was shipped to Hongkong by other

routes. Other articles which show a decrease are poultry, leaf tobacco, and oranges. The export of fresh fruit and vegetables remained about the same.

(b) *Imports.*—*Nil.*

5°. INLAND TRANSIT.—(a.) *Inwards.*—Although this trade has shown no great advance, it has, however, quite held its own. The number of passes issued was slightly less, 1,573, as compared with 1,640 in 1912, while the value of the trade increased from *Hk.Tts.* 119,863 to *Hk.Tts.* 129,994. Most of the goods for which passes were issued were destined for places in the Kwangtung province, and most important among these were, as in past years, kerosene oil, matches, white sugar, and all kinds of piece goods.

(b) *Outwards.*—*Nil.*

6°. SHIPPING.—(a.) *Under General Regulations.*—The figures show an increase in the tonnage and number of vessels entered and cleared over those of 1912, as the Portuguese s.s. *Takon*, on the Macao-Kongmoon run, has been employed throughout the year, and two Chinese steamers, running between Canton-Kongmoon and the south coast, were added; also American vessels with kerosene visited the port more frequently.

(b) *Under Inland Steam Navigation Rules.*—The total number of vessels entered and cleared exceeds the figures of 1912 by 1,420, and tonnage also increased by 44,190 tons.

7°. PASSENGER TRAFFIC.—With somewhat normal conditions returning, the passenger traffic increased again, the total number of steamer passengers reaching 329,133, an increase of 37,540 over those of 1912—194 foreigners and 166,782 Chinese being outward bound and 208 foreigners and 161,949 Chinese being inward bound. The greater facilities for travelling now provided by the railway helped to swell the figures of the passenger traffic. In nine months the Sunning Railway carried to and from the port 154 foreigners and 90,426 Chinese inwards and 138 foreigners and 82,177 Chinese outwards, or 172,895 in all.

8°. TREASURE.—No remarks.

9°. OPIUM.—(a.) *Foreign.*—During the year the total import of foreign opium reached 989 piculs, against 800 piculs in 1912. Of this amount, 408 piculs were sent direct to coast and inland places, viz., Yeungkong, Shuitung, Suncheong, Sunning, and Tikhoi, while 414 piculs were sold locally, and the remaining 167 piculs went to the neighbouring districts of Canton. As in and around the provincial capital the prohibition of opium smoking and dealing was more stringent, supplies were drawn from this port. The expected prohibition of importation has been delayed; besides, since the revolt in July the suppressive measures have been less strict, and the dealers avail themselves of the respite to lay in a stock while they may legally do so. During the year the price of Patna and Benares per chest of 115 catties average weight was: in January, *Hongkong* \$3,600; in March, \$3,950; in June, \$4,400; in August, \$4,800; and in December, \$6,570. Local opium merchants made still greater profits than in 1912.

(b) *Chinese.*—No remarks.

10°. MISCELLANEOUS.—The line of the Sunning Railway to the river bank at Kongmoon was at last completed, on the 24th March 1913, and the trains have been running regularly from the 1st April, there being four trains per day each way. The service is gaining in favour with

the travelling native population, though the receipts, about \$2,200 per day, do not yet reach the expectations of the directors, viz., \$2,600 per day. The Kongmoon Paper Mill Company, Limited, which started operations in 1912, has temporarily closed its mill, as, owing to lack of good technical management, the product has not turned out a success and did not find a market. An electric light company was formed at Kongmoon city, and lighting begun on the 5th September 1913; over 600 lamps are now in use in the town, but, as the powerhouse was not fitted with up-to-date machinery, the electricity cannot be conducted to any greater distance.—The Sunning Railway Company and the Canadian Presbyterian Mission have commenced the work of bunding their properties along the river, some 780 feet in length. This work will materially facilitate traffic along the foreshore and improve the appearance of the port.—Owing to piracy and consequent unsafety prevailing, the Yungki Cocoon Market has been shifted to Kongmoon; and this new enterprise has had a marked effect on the local steam-launch and passenger traffic as well as on agriculture. The turnover of the cocoon market during the two seasons of the year is said to have been \$1,200,000. Many rice fields are now sacrificed for the culture of mulberry bushes, as the production of silk is increasing.

NATIVE CUSTOMS.—The total value of the Native Customs trade in 1913 amounted to *Hk.Ts.* 5,591,487, and shows an increase of *Hk.Ts.* 2,145,621 over the figures for 1912. The Native Customs collection, *Hk.Ts.* 95,050, exceeds that of 1912, the previous record year, by *Hk.Ts.* 22,092. This encouraging result is due to a healthy increase in trade, and may partly also be attributed to the working of the new tariff, in force since 1st October 1912, which taxes the goods more equitably and has encouraged trade in many instances: *e.g.*, under the old regulations, coal, owing to its high *hsiaohao* charge, could not well be imported direct from Hongkong, but had first to be imported at Canton and thence brought here under *likin* rules; while during 1913, under the new tariff rules, 206,534 piculs of coal have been imported from Hongkong, whereby the local railway and launch traffic have been much benefited. The import trade was valued at *Hk.Ts.* 2,993,714, as compared with *Hk.Ts.* 1,234,755 in 1912, an increase of *Hk.Ts.* 1,758,959. Coconuts, groundnut oil, rattans, sesamum seed, hemp twine, and wooden clogs advanced remarkably, while a steady increase in many other articles is noticeable. There was a shortage in the importation of yam flour, melon seeds, beancake, and betelnuts. The export trade was valued at *Hk.Ts.* 2,597,773, as compared with *Hk.Ts.* 2,211,111 in 1912, an increase of *Hk.Ts.* 386,662. Native cotton and satin shoes show an increase of 19,500 pairs, and seem to be regaining in favour. Caps advanced by 34,000 pieces. Naukeens, paperware, and fire-crackers all show a creditable improvement, and yam root, an article which made its first appearance in our statistics, was exported to the extent of 2,164 piculs. Beans, leaf tobacco, prepared tobacco, bamboo ropes, old clothing, and vegetable seed show a falling off. The total number of junks entered and cleared under all headings was 5,963, as compared with 5,181 during the previous year, showing an increase of 782.

SAMSHUI TRADE REPORT.

1°. LOCAL.—In spite of the disturbed state of the country, owing to the declaration of independence of the Kwangtung province in July, the year under review may be considered a fairly satisfactory one as regards trade at this port. Imports have made great strides, and exports, though not quite reaching the figures of the previous year, have fairly held their own. The summer floods, lasting longer than usual, did some damage to the second rice crops; but as the first crop was a good one, the average for the year worked out at 70 per cent. Silk crops were good, and the market considerably better than of late years, merchants and silkworm keepers making fair profits. No epidemic of any kind occurred during the year. The typhoon in August caused but slight damage in this district. At the beginning of August several thousand soldiers were sent from Canton to Samshui, with the intention of resisting the Government troops, under General Lung Chi-kuang, coming down the West River. Samshui city was occupied by the Canton soldiers, and the hills on the opposite side of the river were hastily fortified, thus placing the port in a dangerous position. Piracy was rampant everywhere, and traffic and business was at a standstill. Fortunately, the independence of Kwangtung was soon cancelled, and the troops, after some quarrels among themselves, during which even some big guns were fired, retired to Canton, and trade gradually revived, but was severely hampered by the stringency of ready money. In order to assist the circulation of the Canton government notes, which at the beginning of the year were accepted at 85 per cent. of their face value but at the end of the year only at 60 per cent., the authorities issued a proclamation that only 50 dollars worth of ready money was allowed to be sent at one time to the inland market towns; but as this only accentuated the stringency of ready money and interfered with trade, the order was abolished towards the end of the year. A tax office (三水航政分局) for collecting licence fees from all kinds of local boats—cargo-boats, sampans, etc.—was established in April, but, owing to the unyielding opposition of the boat people, it had to be closed in July. Samshui and its port, Hokow, having practically no trade of their own, foreign imports and Chinese exports direct to foreign countries may be apportioned as follows: Fatshan, 25 per cent.; Sainam, 35 per cent.; West River, 25 per cent.; and North River, 15 per cent.; whilst of the trade in Chinese goods coastwise, both import and export, Fatshan accounts for fully 90 per cent.

2°. REVENUE.—The total collection of *Hk.Tts.* 407,515, compared with the figures for 1912, shows an increase of *Hk.Tts.* 68,505. The gain under the different headings were: import duty, 25 per cent.; transit dues, 30 per cent.; tonnage dues, 30 per cent.; opium duty, 30 per cent.; and opium likin, 30 per cent.; whilst export and coast trade duties show a slight decline, viz., 5 per cent. and 1½ per cent. respectively.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of direct imports was *Hk.Tts.* 5,119,000, and coastwise, *Hk.Tts.* 17,000, an increase of *Hk.Tts.* 1,280,000 and *Hk.Tts.* 3,000 respectively over the figures of the preceding year. Though practically every

item shows a fair increase, dealers in foreign piece goods are said to have suffered heavy losses, the increase being attributed to the replenishing of exhausted stocks. Locally machine-made cloth being in high favour, Indian cotton yarn is imported in constantly growing quantities, over 67,000 piculs arriving during 1913, against 55,000 piculs in 1912. Among metals, wire nails and plate cuttings have found a good market, showing an advance of nearly 100 per cent. and 50 per cent. respectively. Under sundries, betelnuts, cuttle-fish, salt fish, flour, Japan matches, etc., show a steady increase for the last few years. White sugar, which of late years had declined, was imported in large quantities, owing to the sugar crops on the North River being seriously affected by the drought of the previous year. Kerosene oil again shows a heavy dropping off, Canton having taken the place of Samshui as distributing centre for this article.

(b.) *Re-exports.*—*Nil.*

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The year under review cannot be considered a good one as regards export trade. The increase in value—*Hk.Ts.* 1,805,551, against *Hk.Ts.* 1,734,896 in 1912—is principally due to the enhanced prices of exports, the quantities of our staple exports being in most cases slightly under the figures of 1912. The insecurity of the waterways and the stringency of ready money—the depreciated paper money being difficult to negotiate at inland places—interfered, to a great extent, with the flow of Chinese produce to the port. Since the extension northwards of the Canton-Hankow Railway, considerable quantities of goods, which used to come to this port by boat from the North River, are now conveyed by rail to Canton. The increase in paper fans, mats, paper, shoes, etc., was insufficient to counterbalance the losses under nankeens, hides, tea, leaf tobacco, etc., hence there was a slight falling off in export duty. The celebration of Chinese New Year and similar occasions for indulging in joss ceremonies, being no longer interfered with, caused a fair revival of trade in fire-crackers, joss paper, and joss ornaments towards the end of the year.

(b.) *Imports.*—Almost every item under this heading shows a fair increase, more especially groundnut cake, liquid indigo, medicines, and brown sugar; but oils of all kinds have declined heavily, owing to bad crops up country, which raised the price at place of origin so high as to make it unprofitable to import.

5°. INLAND TRANSIT.—(a.) *Inwards.*—Considerable gains are to be noted in metals and sundries, more especially in betelnuts, matches, medicines, and sugar. 18,361 passes were issued, against 14,614 in 1912. Whilst almost the whole of the cotton yarn, sent inland under transit pass, went to Kwangsi, the bulk of the piece goods was distributed in Kwangtung; Kweichow and Kiangsi taking a fair share of the sundries.

(a.) *Outwards.*—*Nil.*

6°. SHIPPING.—(a.) *Under General Regulations.*—The total number of vessels entered and cleared compared with 1912 show an increase of 153 steamers, representing 113,000 tons, and a decrease of 78 sailing vessels, with 13,521 tons, the conveyance of cargo being considered safer by steamer than by native boats. The French s.s. *Robert Lebaudy* changed ownership and flag in June, and is now known as the *Wuchow*, under the Chinese flag. The British s.s. *Taiming*, of 237 tons, was added to the Hongkong-Samshui-Wuchow line in September. The Chinese s.s. *Yatsai* attempted for some time to run between Samshui and Wuchow, but, finding it too unremunerative, soon discontinued.

(b.) *Under Inland Steam Navigation Rules.*—Native boats preferring to be towed, owing to the insecurity of the waterways, inland steam navigation was very flourishing during the year, 16,444 vessels, aggregating 347,872 tons, entering and clearing, against 14,350 vessels, with 282,560 tons, in 1912.

7°. PASSENGER TRAFFIC.—The bulk of this traffic is from and to inland places. Canton paper money, though greatly depreciated in the market, being accepted at face value by the railway in payment of fares, the passengers from and to the North and West Rivers soon perceived the advantage of travelling as far as possible by rail, thus saving time and money. Samshui, being the terminus of the railway, derived considerable benefit from the landing and embarking of so many passengers.

8°. TREASURE.—No remarks.

9°. OPIUM.—(a.) *Foreign.*—Dealers are said to have had a prosperous year. The amount to be imported being limited, prices rose continually, being at the end of the year nearly three times as high as at the beginning. The increase in total imports is asserted to be due not to a larger local demand but to the fact that merchants find it less troublesome here than at Canton to send the opium farther inland.

(b.) *Chinese.*—*Nil.*

10°. MISCELLANEOUS.—To cope with the needs of the growing traffic, a number of new shops and inns, as well as a new coal depôt and several native boat-building yards have during the year been established along the bank of the river, giving the port quite a busy appearance.—At Sainam one more silk factory and many small shops for machine-made cloth, etc., were opened.—Towards the end of the year an electric-light plant was erected at Fatshan. The installation seems to be highly appreciated, and quite a number of shops, etc., are now lit by electricity.—The match factories on the North River and at Fatshan experienced great difficulty in obtaining *huchaos* for their materials, on account of the possibility of them being used for explosives; the factories were for a time forced to stop work.—Owing to the insecurity of traffic on the river, the Canton-Samshui Railway carried considerably more cargo than usual, principally live stock, buffalo hides, vegetables, etc., to Fatshan, and nankeens, oil clothing, paper, etc., from the same place to Samshui, where they are shipped to Wuchow, Nanning, and other places on the West River. The total quantity of goods carried by the railway during the year was 95,500 piculs, and the number of passengers, 473,587; these figures might have been greater had the railway been extended to the river bank instead of to the present station—1 *li* inland.

中華民國二年三水口華洋貿易情形論畧

竊查本口貿易情形因本年七月廣州宣布獨立反抗政府於時秩序紊亂本口頗受影響惟綜觀全局則於不十分美滿之中已可謂有美滿之結果進口貨物極爲繁富出口貨雖不如去年之多然互相比較所差亦屬無幾當夏末秋初之際江流暴漲浸及田廬時日之久歷年罕有晚稼不免損傷特以早稻豐穰故本年收成平均計之尙有百分之七十蠶業亦頗興旺飼養之農戶販運之商人無不利市三倍至於各種疫症均未發見八月內雖有颶風經過但本口境內亦無鉅大之損失此皆至可欣慰之事且足爲商業發達之一助者也惟本年亦有令人不能滿意者則以八月初旬政府因粵東叛亂特命龍督聲罪致討師由西江順流而下而廣州逆黨亦派有軍士數千陸續開至三水分駐縣城內外暨河口等處爲抵禦計並於本口對山安設礮臺以備轟擊西來軍艦戰爭之禍如在目前危險情形不堪言狀各屬盜賊又復乘機蜂起聯羣結隊肆意剽掠因之交通梗塞商務停滯直至粵省取消獨立廣州軍士全數撤回本埠市場始有振興氣象惟貿易雖有轉機而舊觀仍難恢復良以亂事初定銀根奇緊一般營業者流周轉不靈極形困難故也廣東紙幣價格日低歲首每元尙可值洋銀八角五分年終則跌至六角先是粵中當道曾發佈告限制攜帶銀毫下鄉每人不得逾五十元之數其意蓋欲流通紙幣俾免低折不意此令頒行以後省中現銀較前愈形匱乏且使商業上生莫大之障礙於是前項禁令遂於年底取銷今夏四月本口有一新設之機關名曰三水航政分局其

開辦章程係令來往各船咸赴該局領取牌照按船隻之大小分別納費並聲明未領牌照之船一概不准駛行當時各船戶聞之全體反對羣以聯同罷駛爲抵制之法無一起局繳費請領牌照者亦無一搭客載貨行經河面者相持數日風潮益烈所有本口蛋戶聲勢洶洶幾欲爲難該局經此挫折故七月間卽行裁撤要而言之三水與河口均非富庶之區並無何種商業究其進出口貨之所從來蓋外洋貿易佛山鎮約佔百分之二十五西南鎮約佔百分之三十五西江各地約佔百分之二十五北江各地約佔百分之十五至沿海貿易則但就佛山一鎮而言已約佔百分之九十云

一本關稅課本年共徵關平銀四十萬七千兩有奇比上年多收六萬八千兩有奇若以所徵之數與上年分別互較則進口稅增百分之二十五船鈔子口稅洋藥稅洋藥釐各增百分之三十出口稅減百分之五復進口稅減百分之一有奇

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者本年由外洋運進口之貨共估值關平銀五百一十一萬九千兩零比去年增多一百二十八萬兩有餘其由通商口岸運來者共估值銀一萬七千兩零比去年增多三千兩但進口各貨雖見加增然溯厥緣由實因內地商鋪舊日所存底貨盡行售出無不添置新貨所致至販運洋布客商則並未獲利且多虧本本地機織土布銷場甚廣故進口印度棉紗歲有增益本年共計六萬七千担比去年五萬五千担之數實多一萬二千担五金之中鐵絲釘及鐵碎板均見暢銷比較去年進口數目鐵絲釘實增一倍鐵碎板增其倍數之半雜貨如檳榔魷魚墨魚

鹹魚麪粉東洋自來火等類此數年均有增加白糖一項往年均少惟本年較多緣去歲冬季天時亢旱北江各處甘蔗歉收所製之糖爲數有限故不得不購自外洋以資挹注至於煤油較上年復形減少大有每况愈下之勢推原其故則以改從廣州進口與曩時之由本口輸入以分散內地者情形有異也

洋貨復出口無

一土貨貿易土貨出口運往外洋及通商口岸連復出就土貨出口而論本年並不爲佳蓋本年估價較之上年雖多七萬兩有餘然此係土貨價值騰漲之故其實大宗貨物之數量則比去年縮減究其原因約有三端一則航路不穩二則金融緊迫紙幣價格倏起倏落不便利行使因此商人裹足土貨來源頓形滯塞三則粵漢鐵路繼續展築迤北諸段漸次開車北江各地土貨昔之由水道運入本口者今則改由火車運往廣州不復經過三水故僅就零星貨物觀之如紙扇席子紙張鞋子等類雖形豐富但其所增溢之數仍不足抵土布牛皮茶葉菸葉等大宗貨物所減損之數本年出口稅項不免短絀卽以此故雖然當年終時度歲及慶祝各事所用之奉神器具暨爆竹等物則異常充裕殆因時勢變更無人干涉故迷信神權之事遂以復興歟

進口土貨其中逾於上年額數者有花生渣水靛藥材赤糖諸種惟各項油則獨形短少其故以產油各地歲收不旺較諸本埠市價尤高也

一內地稅則洋貨之入內地者五金與雜貨均甚充斥雜貨之中檳榔自來火藥材白糖其

數无夥所發子口稅單去歲祇一萬四千餘張本年共一萬八千餘張領有此項稅單各貨棉紗一宗幾盡運赴廣西洋布以行銷廣東爲多雜貨則貴州江西兩省銷數亦不爲少

土貨出內地無

一船隻遵照本關總章行駛者進出口輪船比去年多一百五十三隻載重增十一萬三千噸篷船少七十八隻載重減一萬三千餘噸蓋因輪船運貨較篷船爲妥故一增一減相反如此法國李寶第輪船六月間更易業主所有該船旗幟亦俱改換卽現今中國梧州輪船是也本年九月港梧廣西航務公司新增大明輪船一艘計載重二百三十七噸又有中國溢西輪船擬往來三水梧州嗣因試行數次不能獲利遂復停止遵照內港章程行駛各輪本年生意頗有進步緣民船單行水面慮有危險多用小輪拖帶之故進出口總數共一萬六千餘艘共載重三十四萬七千餘噸溯查去年隻數祇一萬四千餘噸數祇二十八萬二千餘

一旅客來往內地者頗多其故因廣東紙幣價值雖落惟用以購買車票則仍照十足收受毫無虧折商民羨此利益且因車行便捷凡往返省城與西北兩江之間者遂多搭乘火車取道三水蓋此段廣三鐵道由廣州通至三水而止故本口因之亦蒙其利

一金銀無可紀論

一藥土聞本年販賣洋藥商人贏餘無算蓋以中國政府於洋藥進口數目特加限制故其

價日益昂貴以年終與歲首較之增至三倍本口進數雖多然並非全在本埠銷售仍係轉運內地不過以由三水進口較諸廣州爲便易耳
土藥無

一 雜論本口商務之暢旺旅客之衆多既如上述故市面亦愈有起色新增店鋪不一而足如本關東偏之煤炭廠修造民船廠皆近今所開設可見本埠之繁盛實已蒸蒸日上西南繅絲廠及機器織布所近亦增設數間所出土布等物發售於各肆者觸目皆是佛山電燈廠新於歲杪成立民居商店現多安設電燈以其照耀光明非煤油燈所能及也佛山暨北江兩處本各有一自來水廠惟因製造自來水之鍊綠強礬質等件亦能用以製就炸彈政府爲防患起見不輕發給運照以致是項藥料該兩廠無從購運當時遂暫行停工因水道不穩之故自廣州至三水之鐵路所運貨物亦倍於曩昔如各種家畜牛皮蔬菜等物多向佛山而去土布舊衣服紙張等則自佛山運至三水轉往梧州南甯西江各處統計本年該鐵路運輸貨物共九萬五千餘担搭載人客共四十七萬三千餘名所借車站設立之處距離江岸稍遠若能接至河濱則附搭輪船及由輪船起卸之貨上下尤爲便利每年所運之數當不止此而已也

WUCHOW TRADE REPORT.

1°. LOCAL.—The Wuchow merchants in general express satisfaction with the results of the year's trade, in spite of a considerable amount of stringency in the money market that would not have existed but for the hindrances, political and commercial, briefly detailed in the following *résumé*. During the first half of the year the briskness of trade in foreign imports more than counteracted the regrettable decrease in Chinese exports. The autumn drought of 1912 continued till near the end of April, and the resultant scarcity of rice caused an inflow of the Annam-grown cereal on the Canton market, the import of which in June was also necessary in Kwangsi. Piece goods merchants, however, did well, notwithstanding the difficulties they had to contend with owing to a scarcity of this staple means of exchange; and had it not been for the Canton *emeute* in August, there is little doubt that imports would have continued to figure prominently throughout the year. For quite a while afterwards lack of confidence was naturally prevalent in commercial dealings with the sister province; and to further enhance the consequent decrease in the year's revenue during the last two quarters, inward transit trade, dependent entirely on imports, fell off in sympathy, though the figures for the whole year exceed those of 1912. Greater facilities for freight now exist, and Liuchowfu, an important distributing centre inland, now reaps the benefit of direct motor-boat transport, sustained by three well-constructed and up-to-date vessels. The same congestion was experienced at the various *p'ai*, or floating godowns, as in 1912, owing to the accumulation of goods for Nanning, though the number of motor-driven vessels on the Upper West River and its tributaries has been increased by 11 vessels. Until the end of July many believed that the scourge of this port, its annual flood, was not going to visit us this year; but exceedingly heavy rains set in just at that time, and the West River was soon at a 60-foot level. It was, indeed, fortunate for Wuchow that the Fu River had its spate very much earlier in the year, for the West River rose from 16 feet on the 23rd July to 63 feet 9 inches by the 20th August, and its tributary, the Fu River, did not add its quota to the flood. The principal thoroughfares were under water to a depth of 8 feet for close on three weeks. By the 9th September, however, it had dropped to 19 feet, and business was again in full swing. A typhoon swept over the river on the night of the 18th August, doing considerable damage to foreshore property at almost every town, though the loss of life was, happily, very small indeed. The rapids on the river west of Wuchow continue to account for numerous accidents to shipping, and the total loss of the motor-boat *Chiton*, in July, is the most serious one recorded. The kerosene oil trade with Nanning is greatly hampered, owing to want of rapid and safe transit; an attempt to remedy this is being made by a well-known local merchant, who is having a powerful motor-tug built, with a view to towing up barges laden with oil. There is no doubt that if this first venture should prove successful others will be built, as the kerosene oil trade is bound to increase by leaps and bounds. The net value of the trade coming under the cognizance of the Maritime Customs amounted to *Hk.Ts.* 13,008,049, and of that under the Native Customs, to *Hk.Ts.* 11,486,440, thus making the total net value of the trade controlled by the Wuchow Customs *Hk.Ts.* 24,494,489—unfortunately, well below that of 1912. It is, however, satisfactory to note that the decrease

is all under junk-borne trade, which modern and increased machine tonnage is slowly but surely ousting.

2°. REVENUE.—The total collection for 1913—*Hk.Tts.* 681,108—surpasses that of 1912 by *Hk.Tts.* 16,017, and that of 1910, the previous best year, by *Hk.Tts.* 60,174. These figures would no doubt have been considerably better had the latter half of 1913 continued to be as flourishing as the first two quarters of the year; still the advance of *Hk.Tts.* 16,017 is very satisfactory, when the disappearance of opium revenue, a now prohibited trade, is taken into account. The increase is practically all on foreign imports, which give the major portion of our revenue, with *Hk.Tts.* 430,356, against *Hk.Tts.* 406,019 in 1912, a record for the port. Export duty—*Hk.Tts.* 102,917—shows a decrease of *Hk.Tts.* 13,322, while coast trade duty—*Hk.Tts.* 17,157—and transit duty—*Hk.Tts.* 127,901—both show a slight increase. The Native Customs revenue—*Hk.Tts.* 106,299—shows a decline of *Hk.Tts.* 37,686.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The gross value of foreign goods is *Hk.Tts.* 11,048,202, a record figure for this port, being *Hk.Tts.* 660,656 in excess of the value for 1912 and an advance of *Hk.Tts.* 3,668,761 as compared with the value for 1911. The importations of cotton yarn amounted to 118,697 piculs, valued at *Hk.Tts.* 3,000,035, as against 131,929 piculs in 1912 and 82,989 piculs in 1911. This decrease is due to the failure of the rice crops, owing to the long drought and the subsequent flood, which restricted the buying powers of the farmers, who generally purchase cotton yarn to make into native fabrics for their own use, and were therefore hampered owing to the scarcity of this great medium of exchange. English grey shirtings have advanced by 20,000 pieces, and white shirtings, by 33,000 pieces. Hongkong-dyed shirtings, on the other hand, have dropped nearly 15 per cent. Velvets and velveteens rose from 133,809 to 228,490 yards, while blankets and rugs show a decrease of 27,000 pounds. Cheap hosiery has again advanced, the figures being 62,000 dozens, against 42,000 dozens for 1912. Metals advanced *Hk.Tts.* 87,000, principally in iron plate cuttings. Gasolene and petrol continue to be in favour as illuminants, and are also largely in use by small motor craft, though not so extensively as during 1912. Kerosene oil, in spite of transit difficulties, holds its own well, the decrease being very small, considering the volume of the trade.

(b.) *Re-exports.*—The value of the goods re-exported to Hongkong aggregated only *Hk.Tts.* 2,218. Hongkong goods re-exported to Nanning after payment of duty at Wuchow amounted in value to *Hk.Tts.* 3,000,723, as compared with *Hk.Tts.* 2,987,054 in 1912.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The value of the produce exported to Hongkong was *Hk.Tts.* 3,843,278 (including Nanning re-exports, worth *Hk.Tts.* 130,938), being a decrease of *Hk.Tts.* 433,000 as compared with that of 1912. The value of produce shipped to Canton by steamers was *Hk.Tts.* 394,812, and of that sent to the delta by junk, *Hk.Tts.* 9,713,468—considerably less than in 1912. The aggregate value of the export trade thus amounted to *Hk.Tts.* 13,556,746. Cereals, wholly shipped by junk, dropped from 3,422,820 to 1,507,510 piculs. Of the produce shipped by steamers, coir sticks advanced from 73,000 to nearly 300,000; hides, by 5,000 piculs; and softwood planks, 50,000 square feet, while poles also show an improvement of about 30,000 pieces. Several important items, however, show a decrease, the principal among which are: pigs, nearly 30,000 less; white sugar does not appear at all; and brown sugar, down to 2,000 piculs, against 10,000 piculs in 1912. Shipments of indigo also are 3,000 piculs less this year, though from a

merchant's point of view the business done has been more satisfactory than in former years. The price of this commodity is about *Hk.Tts.* 7 per picul. 15,572 head of cattle and 1,791,474 fowls were exported during the year under review.

(b.) *Imports*.—These were valued at *Hk.Tts.* 1,381,386, and consisted principally of beans, *Hk.Tts.* 244,520; groundnut cake, *Hk.Tts.* 73,815; medicines, *Hk.Tts.* 14,123; and brown sugar, *Hk.Tts.* 157,392.

5°. INLAND TRANSIT.—(a.) *Inwards*.—The number of passes issued was 242,959, covering merchandise valued at *Hk.Tts.* 5,487,368, as against 208,403 passes, covering merchandise valued at *Hk.Tts.* 4,962,223, in 1912. Of the goods sent inland, the following commodities show an abnormal advance as compared with those for the previous year:—

	1912.	1913.
	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>
Velvets and velveteens	14,134	27,405
Cigarettes	8,568	42,360
Raw cotton	30,077	42,466
Flour	67,107	98,466
American oil	282,215	503,758
White sugar	53,860	142,152

(b.) *Outwards*.—The total number of passes surrendered was 3,921, covering produce valued at *Hk.Tts.* 1,314,437, as against 3,737 passes, covering produce valued at *Hk.Tts.* 1,318,718, in 1912.

6°. SHIPPING.—(a.) *Under General Regulations*.—4,167 vessels, aggregating 756,570 tons, entered and cleared at this port, as compared with 3,844 vessels, aggregating 678,368 tons, in 1912. During the year two additional vessels under the British flag appeared, the s.s. *Taiming* (a new steel vessel), of 237 tons register, owned by the Kwongsai Navigation Company, and the steel motor oil barge *Tungkwong*, of 58 tons register, owned by the Asiatic Petroleum Company, Limited. The Chinese s.s. *Kwongwai* now runs to Canton, instead of to Hongkong, alternately with the Chinese s.s. *Wuchow*, formerly the French s.s. *Robert Lebaudy*, in competition against the two British stern-wheel steamers *Sainam* and *Nanning*. Eleven additional motor-boats have been placed on the West River routes, one of which went out of our jurisdiction to the Nanning-Poseh run, and three were transferred for inland traffic to Liuchowfu. The total number of motor-boats on the Wuchow-Nanning trade is now 20 (15 Chinese and five British), aggregating 1,057 tons register. The various steamer companies trading with Hongkong have continued to pool the freight as in 1912, to the apparent satisfaction of all concerned. Three vessels on the lower river were pirated during the year, and one collision case, in June, on the Nanning route, together with the loss of the motor-boat *Chiton*, in July, are the principal checks on record against free navigation, as no Chinese vessels appear to guard themselves in any way by insurance.

(b.) *Under Inland Steam Navigation Rules*.—4,120 steam-launches, aggregating 104,358 tons, entered and cleared, as compared with 4,549 steam-launches, aggregating 89,494 tons, in 1912. In January a collision case arose at Dosing, which caused a slight loss of life, and trial in the local courts ended in the launch concerned paying \$700 to the junk people. Other accidents are not worthy of note.

7°. PASSENGER TRAFFIC.—During the year 490 foreigners and 150,623 Chinese came to Wuchow, and 401 foreigners and 170,890 Chinese left the port.

8°. TREASURE.—*Hk. Ts.* 4,000 in sycee under imports show that at a few places inland dealing in timber foreign coins do not find favour, and that figures under other headings are not higher must be attributed to the fact that money is principally used for paying duty or likin and circulates itself within the port. The coin imports were 1,400 Indo-China dollars, 610,828 dollars in 20-cent pieces, and 846,368 dollars in 10-cent pieces; and the export movements of silver were 74,000 Hongkong, China, and Indo-China dollars, 58,229 dollars in 20-cent pieces, and 29,295 dollars in 10-cent pieces. Kwangsi government bank-notes have been in circulation throughout the year on a par as small coin, and in September official efforts were made to enforce the acceptance of Chinese 10-cent coins. The Hongkong equivalent, however, continues to be as much as ever in use. The exchange on subsidiary coinage ranged from 7.2 to 12.5 per cent., the projected Hongkong currency law, to become operative in March 1914, depreciating and reverting to its own markets native-made silver coinage.

9°. OPIUM.—With the beginning of March the importation into Kwangsi of Indian and any other foreign or Chinese opium was prohibited, and no opium whatever figures in our returns. Opium smoking still goes on to a limited extent, and it is presumed that the drug obtained by the smokers is smuggled in overland from the neighbouring provinces.

10°. MISCELLANEOUS.—In February General Lung Chi-kuang arrived from Canton, with 6,000 troops, who were quartered for the time being in the local temples. Their presence here turned out to be fortunate during the political crisis at Canton in August.—In April a complete electricity plant arrived from England; but want of funds and lack of public interest have so far hindered operations entirely.—In April the first abnormal rise of water in the Fu River caused considerable distress along its banks, and a sum of \$50,000 was raised for relief purposes.—The antimony works here have done practically nothing this year; but the tin mines inland work more freely under Customs transit rules, permitted now by the territorial officials.—An abortive rising at Liuchowfu in September interdicted trade with that town for some days. The authorities, however, acted promptly, and the absurd efforts of one town to claim independence were very soon nullified.

I am indebted to Mr. R. T. Nelson, 1st Assistant, B, on the staff of this office for the compilation of this report.

NANNING TRADE REPORT.

1°. LOCAL.—In reviewing the trade of the port in the light of the statistics, which follow, it is gratifying, at the outset, to be able to say that during the past year we have been through a period of exceptional activity. A year that has seen a record flood, and withal a general expansion in the trade of the port, can only be characterised as remarkable. It is idle to speculate upon what would have been the value of the trade had it not been for the flood, which inflicted untold hardship and loss upon thousands of people; but, notwithstanding this adverse influence, our figures establish a record and are a striking testimony to the soundness of the trade of the province and to its powers of recuperation. The value of the trade of the year amounted to *Hk.Ts.* 7,600,752, against *Hk.Ts.* 7,033,825 in 1912, and, apart from the flood period, business was maintained at a high level of activity. The political situation of the district was satisfactory and such as to inspire the confidence essential to progressive commerce, and, with the exception of a few attacks by pirates on small craft up river, this part of the province enjoyed peace and order. So far as I can speak from personal inquiries, merchants look back upon the year just closed with material feelings of satisfaction. The unrest at Canton must naturally have affected, to a certain extent, local commercial enterprise, though not to the large extent that might have been expected. The explosion of a bomb in the Tutu's yamên in August led to the introduction of most stringent measures, with a view to preventing the smuggling in of explosives and illicit traffic in fire-arms. This, together with the strict search exercised by the police and soldiers over passengers and luggage, inaugurated in July by the Tutu's orders, certainly did not tend to encourage merchants to go in for any other than well-secured transactions. During July there was a serious drought, and business became rather unsatisfactory; and, at the close of that month, when it was rumoured that many leading merchants had cancelled their forward business engagements, the outlook became rather desperate. In August occurred the flood to which mention has already been made. The heavy local rains, together with the simultaneous swelling of the Lungchow and Poseh Rivers, were the causes of the high water. From the 1st of the month onwards the river rose rapidly from hour to hour. A great number of the houses in the business quarter of the city were entirely submerged, while the inhabitants of two and three story hong's in the higher-situated streets had to climb on to the roofs for safety. The river overflowed the Settlement Bund on the 5th, and on the 10th the tide-pole registered 55.9 feet. After a drop of a few feet, the river rose a second time, reaching 47.8 feet on the 22nd, but dropped again to 14.8 feet on the 31st. The country for miles round Nanning was covered with a thick yellow sheet of mud, roads were upheaved, and villages destroyed. The flood was succeeded by a typhoon, which completed the destruction of many much-damaged houses. Opportunity offered, and was availed of, to remove the Customs hulk on to the shore, where it is now a permanent establishment—a matter of convenience to both merchants and Customs staff. The disastrous effects the floods had on trade in general were soon evident. All business was suspended and traffic with Wuchow restricted for several weeks; the crops in the district were destroyed; and the revenue for August showed a deficit of nearly 80 per cent. as compared with that of the previous year. During September matters adjusted themselves slowly, and October showed a

boom in trade such as has never been recorded before. The establishment of a number of new shops and the enlargement of others may be held to indicate that the city population (said by many to have increased by nearly one-half within the last two years) is more eager than ever to supply itself with various imported articles, which it has learned to recognise as rendering existence more comfortable. It is only to be expected that enhanced prosperity as shown by our statistics for the year under review, together with an influx of officials and well-to-do merchants consequent on the transfer of the capital from Kweilin, and a general spread of civilisation, should engender a desire to adopt a state of life similar to that enjoyed in other parts of the Republic in closer touch with Western ideas. Towards the end of October silver coins became rather scarce here. To secure the stability of the paper money, of which millions of dollars worth are said to be in circulation, severe restrictions were imposed by order of the Tutu on the export of 20-cent and 10-cent pieces, only amounts not exceeding 200 dollars being allowed to be taken away by individual travellers. Fortunately, paper money, *i.e.*, Kwangsi bank-notes, has always been quoted here at a slight premium over hard cash. The importation of opium into Kwangsi was prohibited from the 1st March 1913; but the seizures made and the extraordinary measures resorted to by smugglers to escape detection show how difficult it is for the law to break down a well-established custom, no matter how generally the custom is condemned. Seizures of the drug in small and large quantities from travellers by motor-boats, etc., were of frequent occurrence. That the year was one of great mobility is demonstrated by the figures giving the number of passengers carried during the year. The recent additions to the fleet of motor-boats—there are now 24 plying regularly—have made Nanning a very large centre of motor-boat traffic; but owing to competition, with its concomitant cutting of prices, it is, perhaps, a little doubtful whether the profit has been quite commensurate with the activity. With regard to the future of motor-boat traffic, no check to the growth of the movement is to be apprehended, and it seems likely that further facilities will be provided in the future. The benefit of cheap travelling can hardly be overrated, but it is hoped that cheapness will not be carried to the point of discouraging enterprise. As regards the trend of commerce in the 12 months ahead, there is a general feeling of hopefulness amongst those engaged in trade. The impression is that the new year will show a steady improvement, and there seems no reason to suppose that the flood-tide has been reached.

2°. REVENUE.—The collection for the year—*Hk.Ts.* 115,933—shows an increase of *Hk.Ts.* 13,054, over that for 1912. This increase is general, except in the case of inward transit, over all headings, and is especially remarkable, as an indication of the growth of the port, when it is considered that for nearly two months the country for miles round was under water and the Custom House actually closed for two weeks. Merchants continue to pay import duties at Wuchow. Export duties show an increase of 9 per cent.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The total value of imports from Hongkong for the year was *Hk.Ts.* 19,482, and the total import from Wuchow, *Hk.Ts.* 3,247,388, and both these figures show an increase over the totals for 1912. Principal increases are velvets, singlets, canvas, umbrellas, caps and hats, metals, cigarettes, flour, needles, and looking-glasses and mirrors. The import of fancy soap shows a fairly large increase, and sewing-machines have risen from 287 to 1,019. There is a decrease in the import of American kerosene oil, with a corresponding increase in that of Sumatra oil. The oil at this port is imported chiefly by the Standard Oil Company and the Asiatic Petroleum Company, and the base of supply is Wuchow, whence the oil is brought up in junks and stored in hulks. The larger

proportion of kerosene comes up under exemption certificate, having paid duty at Wuchow. Any statistics for oil during 1913 are unfair indications as to the growth of import, as the summer floods caused an almost complete cessation of import for a considerable time. In fact, the figures for the year under review—remaining almost identical with those for last year—indicate that Nanning, which is the distributing centre for Poseh, Lungchow, and even far into Yunnan, will increase its demand for oil year by year.

(b.) *Re-exports*.—These are for the most part small, reaching the value of *Hk.Tts.* 6,870.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports)*.—The total value of Chinese exports was *Hk.Tts.* 3,330,820, an increase of *Hk.Tts.* 9,313 over the figures for 1912. Increase is shown in the export of hides, leather, aniseed oil, and medicines; but dried lizards, wood oil, sugar, groundnut oil, and coir canes show decreases. The export of coir canes seems likely to continue to decrease at this port, as when the canes are cut the Chinese also take out the roots and no new planting takes place. The movement of white sugar shows a decrease of 15,969 piculs, owing chiefly to an unfavourable market at Hongkong, but, to a certain extent, to adverse conditions caused by the flood. The export of star aniseed also declined somewhat; but here again the falling off is to be attributed to the disastrous floods. The export of aniseed oil, which is dealt with in three qualities—from Lungchow (龍州) (the smallest supply), from Chenan (鎮安) (the largest supply), and from Poseh (百色),—and practically constitutes the world's supply, shows an increase of 1,531 piculs. In consequence of increasing demand, farmers are enlarging their plantations enormously, and a fall in price may therefore be looked for. The trade is on rather a difficult basis, as the Chinese dealers mix the pure aniseed oil with spirits of wine or specially prepared petroleum.

(b.) *Imports*.—No remarks.

5°. INLAND TRANSIT.—(a.) *Inwards*.—The passes issued cover goods to the value of *Hk.Tts.* 488,418, a decrease on the figures for 1912 of *Hk.Tts.* 36,929. Passes to Kweichow show a slight increase, whilst those to Kwangsi and Yunnan show decrease. Part of this decrease is attributable to the exceptional state of the river previously mentioned.

(b.) *Outwards*.—The total amount of outward transit for the year showed a large increase; the figure reached was *Hk.Tts.* 886,392, against *Hk.Tts.* 671,344 in 1912.

6°. SHIPPING.—(a.) *Under General Regulations*.—There was a large general increase in shipping during the year, in spite of the adverse conditions caused by the flood. There is a growing demand for motor freight, as the minimising of risk and time saved more than compensate for the high prices charged.

(b.) *Under Inland Steam Navigation Rules*.—Under this heading again there was an increase in the number of vessels. In 1912 44 boats entered and 43 cleared. During the year under review 179 entered and 187 cleared. The traffic with Poseh (百色) is increasing, and with the river under normal conditions boats will probably be able to reach Lungchow more or less regularly.

7°. PASSENGER TRAFFIC.—Helped, to a certain extent, by the constant movement of troops up and down river, there was an increase in passengers through the port during the year.

101 foreigners and 35,125 Chinese entered and 67 foreigners and 36,739 Chinese left on vessels under Customs jurisdiction.

8°. TREASURE.—No remarks.

9°. OPIUM.—No remarks.

10°. MISCELLANEOUS.—A well-known Hongkong firm has tendered for the installation of an electrical generating-station, which will furnish light and motive power; and improvement in the water supply is also under consideration.—Dr. Lechmere Clift, Medical Officer of the port, writes: "The population has increased about 30 per cent. since the moving of the provincial capital from Kweilin, and this addition has produced a tight fit indeed, causing many of the vacant breathing spaces in amongst the houses to be built upon. This state of things has not conduced to the general health. Malaria is quite uncommon, and no contagious or infectious disease has raged. Tuberculosis is spreading, especially where there is overcrowding, together with damp earth floors and flooded courtyards."

而易見貨物停滯本口與梧州運輸間阻者亦數星期收成歉薄本關八月分之稅課較上年竟減百分之八十而九月時商業漸有復原之象及至十一月一躍而進於最興盛之地位誠冠乎歷年所未有新建舖屋漸增即原有之業亦思擴拓蓋兩年以來丁口畧增半數風氣漸開地方人士頗知自謀其幸福而思學步文明之先進省會遷邕政界及營業鉅商相將聯袂而來是亦貿易發展之原因也十月杪市面金融緊迫欲堅紙幣之信用故都督佈令禁止銀毫出口每客所帶不得逾二百元緣本省發行紙幣數十萬元幸此項紙幣價值尙能畧超於市面銀毫之上洋土藥經於本年三月一律禁運惟緝獲仍不少鮮關卡查檢雖嚴而偷運之法層出不窮計查獲電船搭客所夾帶多寡不一久已司空見慣明知法律所在亦頗難遽除其痼習旅客往來如織觀冊結所載已可概見電船常川往來者共二十四艘以本口爲總匯之所祇以同業互爭貿易致腳價遽跌揣其利益恐難效鼓輪之迅捷矣以情形論將來尙有日新月異而無障阻其進行按旅費廉行旅莫大之益自難言喻第願其不若是者蓋恐航商因而裹足耳統觀商意來年景象頗有繼長增高之希冀由是言之本口商業前途當未有艾也

一 本關稅課本年共徵關平銀十一萬五千九百三十三兩較上年加增關平銀一萬三千五十四兩除入內地半稅外餘均增進是則頗堪詫異者已可想見貿易之興起也緣本口洪水爲災幾及兩月即本關停止稅收亦兩星期其進口稅商人仍由梧關完納出口稅則加增百分之九分

一 洋貨貿易洋貨由外洋逕運進口及由通商口岸運來者此項貿易由香港運來者估值關平銀一萬九千四百八十二兩由梧州轉運進口者估值關平銀三百二十四萬七千

三百八十八兩比之上年均有加增以棉剪絨棉汗衫凡布傘帽鐵紙煙麩粉鍍鏡爲最香肥皂亦然衣車自二百八十七架增至一千十九架美國煤油畧減然以蘇門答臘者之增加適足以補其缺統計仍與上年相若本口煤油多係三達公司與亞細亞由梧載蓬船進口多持有海關給發免稅單者其稅在梧州完納本年冊結所載實不足以衡其貿易蓋受秋間水災之影響停阻運輸觀其數尙能與上年相等可料將來必蒸蒸日上緣龍州百色及雲南一帶皆以本口爲樞紐也

洋貨復出口無多共估值關平銀六千八百七十兩

一土貨貿易土貨出口運往外洋連復出本年共估值關平銀三百三十三萬八百二十兩

較去年加增關平銀九千三百十三兩生熟牛皮八角油藥材均有起色惟蛤蚧木油糖生油棕竹等則形短絀棕竹一項必出口日減蓋土人取竹連根并拔而無補植白糖竟減一萬五千九百六十九担一由香港價值低落且兼受水災之損失八角亦緣水災故因而減色考八角油出產計有三處少數來自龍州以鎮安爲最盛連百色所出卽以供遍全球本年較上年加增一千五百三十一斤其銷路既廣種植日增庶價值可冀其平此種貿易頗難把握緣商人每以火酒或特製煤油等而攙雜之

土貨進口無論

一內地稅則洋貨運入內地之價值共關平銀四十八萬八千四百十八兩較諸上年之數虧絀三萬六千九百二十九兩其中運往貴州者畧有增進而往雲南及本省則減少究其原因不外水災所致

土貨領有三聯單運出內地估值關平銀八十八萬六千三百九十二兩比上年六十七萬一千三百四十四兩則大有起色

一船隻遵照本關總章行駛者雖受水災之滯阻仍有增進電船脚價即畧覺昂貴而旅客亦喜於附搭蓋往來迅捷而免危險之虞遵照內港行輪章程行駛者此項船隻頗形銳進去年進口僅四十四隻出口四十三隻共八十七隻本年竟增至進口一百七十九隻出口一百八十七隻共三百六十六隻以駛行百色者為增加故逆料將來龍州區域當水力敷用時亦能攘往熙來而無間阻矣

一旅客往來較上年頗見其多蓋受軍人調撥之助計本年進口洋人一百一人華人三萬五千一百二十五人出口洋人六十七人華人三萬六千七百三十九人此係本關管理船隻所載之數

KIUNGCHOW TRADE REPORT.

1°. LOCAL.—The year 1913 opened auspiciously and continued prosperous till its close. Trade therefore shows a marked improvement on that of 1912, as indicated by a glance at our statistics, and the assumption is that those engaged in it have had a profitable year, although there are not a few who complain that it has been a dull year and that low prices have left little or no margin for profits. Climatic conditions were propitious throughout the year. No calamity has befallen the island in the way of typhoons, and, as a result, crops generally turned out good. Hence food was abundant and comparatively cheap. Unfortunately, piracies and brigandage have been of frequent occurrence. Numerous bands of robbers have infested the neighbourhood, causing much uneasiness amongst all, and the consequent feeling of insecurity with regard to property has not been without its effects. As far as can be ascertained, in no instance have any steps been taken to effectually cope with these marauding gentry by the local officials, and so long as the latter remain quiescent, so long will the harassing of the unfortunate returning emigrant continue, detrimental to the well-being of the government and the peace and good order of the island. In July some 200 aborigines on the war-path looted four villages in the district of Aichow (崖州), carrying away several hundred bullocks and a rich haul in money and clothing. Having satisfied their wants for the time being they retired unmolested to their mountain fastnesses, there to remain until a favourable opportunity presents itself for another raid. In December the provincial authorities granted a monopoly for \$106,000 a year for the purchasing and retailing of leather and cow hides. A strong protest against this measure was lodged by the tanners as well as by the local Chamber of Commerce. I fear this monopoly will seriously affect our revenue during the coming year, as it concerns two of our leading exports, expansion of which was confidently looked forward to, but has now met with a check.

2°. REVENUE.—The total collection for the year amounted to *Hk.Tts.* 256,344, showing an increase of *Hk.Tts.* 29,789 over the receipts for 1912. This result must be considered eminently satisfactory when it is remembered that duty and likin on opium, which amounted in 1912 to *Hk.Tts.* 76,031, have fallen to *Hk.Tts.* 57,762. Compared with the figures of the preceding year, the increase is chiefly under the import heading—*Hk.Tts.* 129,690, as against *Hk.Tts.* 84,657. The export, coast trade, and tonnage dues headings also contributed to a certain extent. Transit dues, on the other hand, suffered a small decline, falling from *Hk.Tts.* 8,892 to *Hk.Tts.* 8,603. The Native Customs collection also shows an increase, rising from *Hk.Tts.* 14,186 to *Hk.Tts.* 18,935. This increase, however, is mainly due to the inauguration of a revised tariff, which was introduced during October.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The political unrest which ran riot over other parts of China left this island practically undisturbed, and the import trade flourished in consequence. The net total value of foreign goods imported was *Hk.Tts.* 3,780,039, showing an increase of *Hk.Tts.* 1,052,300 over arrivals in 1912. Most of the articles on our list contribute to this satisfactory result. With the exception of dyed shirtings, the importation of

all kinds of cotton piece goods has grown, the figures for nankeens being nearly double those of 1912. American kerosene oil rose from 1,290,000 to 1,482,000 gallons, and Sumatra oil, from 233,915 to 358,500 gallons. Aniline dyes also show greatly enhanced figures—*Hk.Tts.* 14,834, as against *Hk.Tts.* 5,842.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The net total value of Chinese produce exported rose from *Hk.Tts.* 2,390,670 in 1912 to *Hk.Tts.* 2,603,341. This increase is entirely due to goods exported to Chinese ports, principally Swatow, the value of this trade having risen from *Hk.Tts.* 263,413 to *Hk.Tts.* 503,715. On the other hand, the value of Chinese produce exported to foreign countries fell off slightly, the figures being *Hk.Tts.* 2,099,626, as against *Hk.Tts.* 2,127,257. The large exportation of brown sugar from Java during the year, and the disturbed state of the mainland, notably of Shanghai and the Yangtze district, account for the decline in the exportation of this commodity from Hainan, only 79,668 piculs having been passed, as against 110,308 piculs in the previous year. As foreshadowed in my report for 1912, the exportation of white sugar dwindled away to nothing, all that was manufactured being consumed locally. Sesamum seed rose from 9,521 to 14,492 piculs.

(b.) *Imports.*—The value of Chinese imports was *Hk.Tts.* 235,755, an increase of about *Hk.Tts.* 20,000 over the figures of the preceding year.

5°. INLAND TRANSIT.—(a.) *Inwards.*—5,443 passes were issued, as against 3,784 in 1912. The value of the trade rose from *Hk.Tts.* 121,024 to *Hk.Tts.* 210,092. Kerosene oil was again the main item covered by these passes. The Chinese inland practically all use kerosene oil, its good light and little smoke having enabled it to oust the groundnut oil for lighting purposes.

(b.) *Outwards.*—348 passes were surrendered, as compared with 467 in 1912. The value of the trade fell from *Hk.Tts.* 324,428 to *Hk.Tts.* 220,352. Brown sugar and galangal were the two principal commodities. Of the former, 45,258 piculs came forward, and of the latter, 14,699 piculs.

6°. SHIPPING.—The tonnage of vessels entered and cleared during the year aggregated 631,272 tons, a decrease of 114,836 tons on the figures of 1912. All flags, with the exception of the French, show a decline, which is said to be due to the large amount of freight offering at Haiphong and Saigon. In March the French mail contract was given to Messrs. Marty & Co.'s steamers, and under it the s.s. *Hongkong* calls here regularly every Friday to land passengers and mails. On her trip to Hongkong she occasionally takes a deck cargo from here.

7°. PASSENGER TRAFFIC.—The total number of passengers arriving and departing during the year was 54,192, of whom only 229 were foreigners. The number of emigrants to Singapore was 16,858, and to Bangkok, 10,997, a decrease of 5,912. The decline in emigration is due to the good harvests that have been obtained during the last two years, rendering it unnecessary for men to go abroad to find employment.

8°. TREASURE.—During the year, to meet the pay of soldiers stationed on the island, large quantities of Kwangtung paper notes were imported by the local Treasury. These notes did not find favour among merchants, and were discounted from 15 to 30 per cent.

9°. OPIUM.—(a.) *Foreign*.—In this report I have to record the total cessation of open trade in the drug. During April a meeting of the Chamber of Commerce was held, and it was decided that as the use of opium was harmful to the well-being of the nation all importation of the drug should cease from the beginning of May. On this decision being made public, the price immediately rose, and large quantities of opium were imported before the prohibition came into force, large profits being made. Since May, however, all open importation has ceased, though I am convinced that large quantities still continue to be smuggled into the island, especially during the south-west monsoon, from Singapore. It is rumoured that 54 chests were clandestinely carried by junks during the past season. 30 chests were supposed to have been landed at Pochin (舖前), 12 at Tsinglan (清瀾), four at Aichow (崖州), and eight at Lingsui (陵水).

(b.) *Chinese*.—*Nil*.

10°. MISCELLANEOUS.—In April a local daily newspaper, the 瓊島日報, started publication. Its life, however, was a short one, for in September it was suppressed, by order of the Ministry of the Interior, for publishing articles subversive of the institutions of the Government.—The new German Consulate, an imposing and handsome structure, will, it is anticipated, be ready for occupation in April next. In August the Asiatic Petroleum Company established its own agency, under the management of Mr. A. Ledebor, and in November the Standard Oil Company, of New York, followed a like course, having for its manager Mr. J. H. Bulmer. Previously both companies had been represented by Chinese.—Two shocks of earthquake were felt during the year; the second, in September, was somewhat severe, resulting in the collapse of a dwelling and the death of one of its inmates.—On the 1st November, shortly after the arrival of the s.s. *Triumph* from Hongkong, a fire broke out in her after-hold. It was, however, expeditiously got under control, notwithstanding the fact that the vessel had on board 5,000 cases of kerosene oil. That she escaped total destruction may be characterised as a bit of "good joss." The damage by fire and water was estimated at \$5,000, 80 per cent. of which is reported to have been covered by insurance.—There have been a few mishaps to shipping, but there is nothing of a serious nature to chronicle.—Quite a number of war vessels visited the port during the year, namely, the British ships *Bramble*, *Otter*, and *Thistle*, the German ship *Tiger*, the French ship *Décidée*, and the Japanese ship *Suga*.—The health of the community, on the whole, I am happy to state, has been good. As usual, plague and cholera broke out in the neighbouring districts. Unfortunately, it has not been possible to obtain reliable statistics of the mortality.

My acknowledgments are due to Mr. H. St. J. Wilding, 2nd Assistant, B, for the preparation of sections 2° to 9°, and to Mr. Chan Shiu Pang, 2nd Clerk, C, for collecting the information from which this report has been compiled.

中華民國二年瓊州口華洋貿易情形論畧

竊查本口貿易情形今年始終暢旺其比去年進步之處但觀本關總結冊載之數自可昭然顯見矣雖商場中人多謂本年貿易冷淡貨價低落幾致無利可圖然以意料之當必可獲盈餘也本年終歲氣候甚佳本島既無颶風又無別項災害且年書大有糧食充足售價持平獨惜盜風甚熾附近地方劫搶頻仍商民不獲安靖因之購辦貨物咸有戒心而為地方官者則亦從未聞其設法有剪除盜匪之舉此等要務吾恐其苟延一日坐視不理彼由外洋歸回之華工尤必一日難免劫槍之害斯不獨於政務有損而於本島治安亦有礙耳七月間有黎匪二百人在崖州連劫四村槍去牛隻數百並銀錢衣物甚夥當時因無人出而干預並得安然還山然彼等慣技每值飽欲之後均係暫歸將來遇有機會仍必復出行劫也十二月間省憲將本島生熟牛皮批給承商專買專賣每年繳餉十萬六千元此事本島製皮匠人以及商會人等均皆極力反對查此項生熟牛皮乃係出口貨物之兩大宗前時尚冀其有所增加今忽有此歸商承辦之障礙明年此項稅收是必受其影響因而減少

一本關稅課本年共征關平銀二十五萬六千三百四十四兩比去年多收二萬九千七百八十九兩以洋藥稅釐一項去年所收七萬六千三十一兩比較今年所收跌至五萬七千七百六十二兩而論則以上多收之數頗足令人滿意至所有多收之數大約以進口稅款最為增多統計本年收入共係十二萬九千六百九十兩去年共係八萬四千六百

五十七兩他如出口稅復進口稅以及船鈔等項均皆畧有加增惟子口半稅稍形減色去年所收共有八千八百九十二兩今年則僅有八千六百三兩此外常稅收數亦有加增去年計共一萬四千一百八十六兩今年則增至一萬八千九百三十五兩其能多收之故蓋因十月間改訂稅則有以致之也

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者當中國多事之秋各處地方均有騷擾惟本島尙形安謐是以進口貿易甚形發達本年進口貨物淨估值關平銀三百七十八萬三千九兩比去年增多一百五萬二千三百兩此蓋因多數進口貨物均有加增布疋進口除色粗布之外亦見增多而土布所增之數比較上年幾有二倍他如美國煤油去年共係一百二十九萬加倫今年則增至一百四十八萬二千加倫蘇門答臘煤油去年共係二十三萬三千九百十五加倫今年亦增至三十五萬八千五百加倫至五色洋染料亦屬大有增加本年估值一萬四千八百三十四兩去年則僅有五千八百四十二兩而已

洋貨復出口姑勿具論

一土貨貿易土貨出口運往外洋及通商口岸連復出
口在內土貨出口去年淨估值關平銀二百三十九萬六百七十兩今年則增至二百六十萬三千三百四十一兩此項增多之故係因出口運往中國汕頭口岸者最居多數計其估價去年共係二十六萬三千四百十三兩今年則增至五十萬三千七百十五兩至土貨運往外洋則畧見減少計本年估值共

係二百九萬九千六百二十六兩去年共係二百十二萬七千二百五十七兩本年因由爪哇運來中國赤糖甚夥又因省垣上海揚子江等處地方不靖所以由本島運出之赤糖極少計其報經本關出口之數本年僅有七萬九千六百六十八担而去年則有十一萬三百八担若白糖一項本年則竟至無有出口其製出之糖勛俱係在於就地銷售而已此事去年貿易論畧業已述及至芝蔴出口去年共有九千五百二十一担本年則增至一萬四千四百九十二担

土貨進口本年共估值關平銀二十三萬五千七百五十五兩比去年約增二萬兩

一 內地稅則洋貨領有運照運入內地本年發出運照共係五千四百四十三張去年共係三千七百八十四張所有此項貿易之估價去年共有十二萬一千二十四兩本年則增至二十一萬九千二百兩至所發之照仍屬以煤油爲大宗蓋因內地人民大都喜其明亮少烟樂於通用故購取花生油以燃燈者因亦寥寥無幾矣

土貨領有三聯單運出內地本年來關繳銷之單數共計三百四十八張去年共計四百六十七張所有估價去年共有三十二萬四千四百二十八兩本年則跌至二十二萬三百五十二兩尤以赤糖荳薑兩項最爲大宗共計本年運出之赤糖有四萬五千二百五十八担荳薑有一萬四千六百九十九担

一 船隻本年進出口船隻統共載重六十三萬一千二百七十二噸較之去年減少十一萬四千八百三十六噸除懸掛法旗船隻之外其餘均見減少其減少之由關係因海防西

貢兩處貨多所致三月間法國郵船之合同已歸孖地洋行承訂因之該行香港輪船每於禮拜五日準至本口起卸搭客郵件且於開赴香港之時間或接載船面貨物

PAKHOI TRADE REPORT.

1°. LOCAL.—A glance at the statistics of trade for the year 1913 might perhaps convey the impression that this port had not suffered greatly from the disturbed state of the country, arising from the attempt to overthrow the existing Republican Government; but a close scrutiny of the first two quarters' statistics would reveal the fact that at the moment of the outbreak trade was making a splendid effort towards recovery from the havoc wrought by the revolution. By this is not meant that the port was reverting to its earlier commercial status, but that the revival in trade which had set in during the latter days of 1912 continued in a marked degree and became more pronounced during the earlier half of the succeeding year. The interval of comparative tranquillity which had elapsed since the revolution had served to restore confidence, and signs of a general improvement were apparent when rebellion burst forth, again dislocating business and occasioning a temporary suspension of intercourse with the inland marts and the outer world. Being far from the political centre, this port had little or nothing to fear from the rebellion itself, but much from lawlessness and brigandage. On the 19th July a telegram was received from the Tutu, Ch'én Ch'ung-ming (陳燭明), declaring the independence of the province and severing its connexion with the Central Government. The news created little commotion, the better class of people merely desiring to be allowed to follow their peaceful avocations unmolested. Some uneasiness, however, ensued on the announcement of the intention to withdraw the Canton-drilled troops, numbering about 2,000 men, as it was feared that the numerous bands of robbers, which had been kept in check and overawed by the presence of the military, on hearing of their departure, would again have recourse to pillage and rapine. Merchants became so apprehensive that goods ceased to be imported, and all available money was shipped speedily to Hongkong. As a precautionary measure, the officer in command at Lienchow disarmed his troops until matters should assume a more pacific phase in the provincial capital. The subsequent flight of the Military Governor and the revocation of the declaration of the independence of the province were hailed with delight. Even long after the crisis had passed apprehension continued, and merchants were loth to embark on further enterprise of magnitude, the year coming to a close without any distinct signs of recovery.—As is naturally to be expected in times of national turmoil and stress, commodities generally, but more particularly local products, depreciated in value, probably foodstuffs alone being able to command good prices, but even these only to a limited extent and in small quantity. In such a crisis the farmer is anxious to market his produce, the trader to dispose of his wares. This general eagerness to realise hard cash, and probably to deposit it in a bank for better security, results in a lowering of prices, in a cheapening of commodities. Nor is it to be expected otherwise than that the capitalist and depositor will feel nervous about withdrawing his capital from its place of security until he is assured that the storm has passed and the outlook cleared. Not infrequently he will have sought safety far from the scene of his activities and may be reluctant to return.—The plague made its appearance in the port as early as the middle of December 1912, grew virulent in March, and gradually abated towards the middle of May, finally becoming extinct at the end of that

month. Certain quarters of the town were entirely denuded of their inhabitants. The death roll is estimated at little short of 1,200.—The grain harvests of 1913 have been bountiful, and food products being generally cheaper, the outlook is brighter than for some years past.

2°. REVENUE.—As compared with the collection for 1912, the total revenue, *Hk.Tts.* 103,817, shows a falling off of nearly 10 per cent. That this decrease was not greater is chiefly due to the recovery of the import trade during the first half of the year. The duty derived from this branch of revenue improved almost *Hk.Tts.* 15,000; and tonnage dues and transit dues both show higher figures. Although export duty receded *Hk.Tts.* 2,500, it is to duty and likin on opium, which fell over *Hk.Tts.* 25,000, that the decline is to be attributed, the net loss recorded being approximately *Hk.Tts.* 11,000. Everything considered, however, it may be a matter of genuine satisfaction that the decrease was not heavier.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of direct foreign imports reached an aggregate of 1.85 million taels, which are the highest figures since 1904. While the high exchange ruling steadily must have acted as an additional stimulus to the import trade, the explanation of this improvement is simply to be found in the fact that since the days of the revolution stocks which had been depleted were allowed to remain at a low ebb, merchants engaging in a mere hand-to-mouth business and carrying no large supplies. Thus the increase is not merely confined to any particular goods or class of goods—it is almost universal. Imports coastwise are represented by the modest sum of *Hk.Tts.* 400. Opium, which declined in value over *Hk.Tts.* 140,000, formed the only notable, and perhaps not unwelcome, exception to the general advance in foreign imports. Of the total value, cotton piece goods claim 35 per cent. Shirtings, lenos, cotton lastings, and cotton yarn all show a marked improvement on the figures for 1912. Very little demand for woollen goods exists, and their total value is wholly insignificant. Metals have advanced, but their relative unimportance may be measured by the fact that they represent a mere 3 per cent. of the import trade. The importation of kerosene oil, though higher by 180,000 gallons than in 1912, falls far short of the figures of earlier years. To apportion to each variety its share in this increase: American oil improved 100,000 gallons; Sumatra, 80,000 gallons; while Borneo oil remained stationary. I am reliably informed that the markets lying to the west of this port, and possibly Onpo and some ports to the east, draw their supplies from Haiphong through Tunghing, thereby evading import duty and paying a lighter freight. Conspicuous advances have been made by the following articles: aniline dyes, which improved 70 per cent.; flour, over 28 per cent.; lamps and lampware, almost 52 per cent.; and medicines, over 33 per cent. Aniline dyes derive their popularity partly from their cheapness and partly from the article being dyed requiring but a single immersion, against three required by the native dye. The increased importation of nankeens corresponds, to some extent, with the decrease in junk-borne native cloth imported through the Native Customs. Only a small quantity of rice, 522 piculs, which came from Haiphong, was imported.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The export trade reached a total value of *Hk.Tts.* 918,091, showing, as compared with that of the preceding year, a decrease of over *Hk.Tts.* 150,000. With the exception of fish and fishery products and groundnut cake, which have advanced in a marked degree, all the principal items

have decreased, notably pigs, firewood, liquid indigo, groundnut oil, and sugar. Many boats engaged in the carrying trade, in the absence of freight, temporarily forsook their calling and turned their attention to fishing. Owing to the scarcity of foodstuffs, arising from the poor grain and root crops of 1912, pigs were reared in reduced numbers. The local price therefore ruled high, leaving but a very small, if any, margin of profit to dealers, who are consequently dissatisfied with results. There was no scarcity of firewood; but the low freight obtainable by steamers for its transport was the principal factor in determining its export. It would seem that liquid indigo feels severely the competition of foreign dyes, and, therefore, its cultivation of recent years has been greatly on the wane. The crop of groundnuts was plentiful, but the nut was small and the quantity of oil expressed was over 20 per cent. below the average yield. The sugar crop for 1912 was much below the average, the prolonged drought which prevailed seriously affecting the canes and causing a partial failure. Brown sugar decreased over 16,000 piculs, or 77 per cent., and no shipment of white sugar took place. There is no doubt that, with continued freedom from political unrest, an improvement in the export trade may be confidently expected before long.

(b) *Imports*.—Chinese imports, never a branch of trade of any importance at this port, are gradually approaching vanishing point, their total value having fallen to *Hk.Ts.* 3,548.

5°. *INLAND TRANSIT*.—(a) *Inwards*.—Wholly insignificant as the transit trade to the interior is, it reflects in its figures the improvement in the import trade, and, if the country had had no occasion for alarm, it would doubtless have shown a further advance.

(b) *Outwards*.—As the provincial paper money is accepted at the likin stations and barriers in the interior at its full face value, whereas the market value has depreciated fully 40 per cent., merchants do not find it to their advantage to bring down goods under outward transit passes, and pay the transit duty in silver on arrival at the treaty port. As a consequence, no transit passes were taken out during the year, and it is difficult to surmise how long this state of affairs may last.

6°. *SHIPPING*.—(a) *Under General Regulations*.—The shipping of the port underwent a decided decline, both with respect to the number of entries and tonnage, the decrease amounting to 19 vessels and 12,126 tons. As regards number, the French flag predominated, but the British vessels, though fewer than either the French or German, were of greater carrying capacity. The steamer under the Dutch flag came from Muntok with returning emigrants. Messrs. Marty & Co. have made some effort to maintain a fairly regular service throughout the greater part of the year, but the prevailing infrequency and uncertainty of the steamer communication with Hongkong cannot fail to be of the utmost disadvantage to trade generally, but more especially to exporters. Pigs, it would seem, continue the determining factor in the shipping business of the port, as the freight, \$1.50 per head, is very profitable, the vessel accepting no liability in the event of loss.

(b) *Under Inland Steam Navigation Rules*.—The launch plying under these rules is employed in towing a native junk between Chanchuen (陳村), Hoihow, Pakhoi, and Chinchow (欽州).

7°. *PASSENGER TRAFFIC*.—No remarks.

8°. TREASURE.—The enormous difference between the value of treasure imported (*Hk.Tts* 44,344) and treasure exported (*Hk.Tts* 852,663) has been the subject of frequent comment. No doubt treasure in excess of the usual amount was sent this year to Hongkong for better security during the recent unsettled times. By far the greater portion of the coin in circulation in this part of the country is the 20-cent Canton-minted piece, of which no less than 5.35 millions were shipped, while little over \$170,000 in large dollars were exported. Most of the subsidiary coin arrives from Chinchow (欽州), junks generally carrying from \$10,000 to \$20,000 each trip.

9°. OPIUM.—(a.) *Foreign*.—The quantity of Indian opium imported during the year was 31 piculs, against 103 piculs in 1912. During the first six months the price remained fairly steady at a little over *Hk.Tts* 3,000 per chest. In August a sharp rise was experienced, which continued till the end of the year, when the price was quoted at little short of *Hk.Tts* 5,000. Foreign opium is said to have been procurable, however, at Kwangchowwan much below this figure. While hitherto the dearth of opium has acted as a great check on consumption, rendering it a luxury in which only the very affluent could indulge, its rapid and continuous rise promises in the near future to make its use absolutely prohibitive.

(b.) *Chinese*.—There was none imported or exported.

10°. MISCELLANEOUS.—In January the three prefectures, Kaochow (高州), Leichow (雷州), Lienchow (廉州), and the department of Chinchow (欽州), which constitute the sixth electoral district of the Kwangtung province, held their first elections for the Provincial Assembly and the House of Representatives.—The early months of the year were dry, but during the period from May till September the rainfall was somewhat abnormal, 89½ inches being registered. No doubt these heavy rains acted as a most effectual check on the plague, washing out and cleansing the drains and streets of the town.

中華民國二年北海口華洋貿易情形論畧

竊查本口貿易情形按諸本年貿易統計冊以概括之眼光觀之本口似未深受亂黨謀傾政府擾亂國家之影響惟細繹上半年貿易統計冊正在亂機甫動之際商務行將復原然此亦非謂本口商務程度竟能與往日爭衡祇以去冬始見復興追上半年尤臻發達之分際耳蓋自反正以還地方安謐信用藉以規復各業均形起色旋至二次革命發現本口與外埠內地之交通暫行停滯商務迺又因之頓挫本口距省會較遠於亂黨舉動初無戒懼惟所慮者為盜賊土匪七月十九日接奉前粵督陳炯明宣布本省獨立與中央政府斷絕關係之電消息傳來聞者亦不甚驚惶其一般良民祇求自由營業無相滋擾而已迨聞有由此間調陸軍二千名回省之說人心乃不免懸懸深恐前此成羣結隊之匪為陸軍所鎮壓者至此復肆搶劫因之商人即停止運貨進口而將所有現銀均亟亟運赴香港駐廉陸軍長官為先事防範起見故將兵隊軍械暫時盡行勒繳以候省中消息及聞前粵督潛遁本省已取銷獨立人民無不額手稱慶然險象雖成往迹而商人尚有戒心未肯放手交易直至年尾商務情形仍未見實在恢復夫當國家困苦患難之秋各項貨物其價值自較低於平時而以土貨為尤甚惟食物一類或能畧沽舊價然數量亦復有限丁茲厄運農家之出產商人之躉貨咸願售獲現銀復將所獲之銀存儲穩妥銀行此貨物價值之低有由來也且資本家與儲銀者往往遲疑觀望非至風潮確

已過去現象確已明瞭萬不肯將資本取出貿然營業夫固意中事至商人因避難遠離營業地點而不願返者則又比比皆然本口時疫自去年十二月中即已發現本年三月更甚直至五月間逐漸稀少迨五月底乃見銷滅本鎮有數處幾至全無人烟約計死亡人口將及一千二百人本年禾造豐收各種糧食價值亦賤此則較諸往年景象似覺
光昌

一本關稅課本年共徵關平銀十萬三千八百餘兩較去年約減收十分之一其不至於再減者大概因上半年進口貿易復原之故查本年所徵進口稅較去年約增一萬五千兩船鈔子口半稅兩項亦較增多出口稅雖減收二千五百兩然本年稅課見絀之故實因洋藥稅釐項下短收二萬五千兩所致計本年約共淨短一萬一千兩綜觀本年全局情形覺所徵稅數不至過於短絀尙稱滿意

一洋貨貿易洋貨由外洋運進口及由通商口岸運來者本年洋貨由外洋運進口者共值關平銀一百八十五萬餘兩自前清光緒三十年後其價值以本年爲最多查本年洋貨貿易之加增雖因市面鎊價平穩商人乘機獲利有以致之然亦因光復後市面存貨無多商人祇圖支持不遑計及屯積至今不能再事添補故各類貨物本年大概有增無減由通商口岸進口者祇值關平銀四百兩各項洋貨無甚減少所減少者僅洋藥一項其估值短少十四萬兩有奇衰落誠鉅或爲吾人所歡迎者歟棉貨一類進口價值占總數百分之三十五其中較去年顯有加增者爲原色布白色布各色羅布棉羽綾及

棉紗等絨貨一類市面上無甚銷場總數中所占價值渺乎微矣五金一類較勝去年然仍僅占進口價值總數百分之三而已煤油進口雖較去年增十八萬加倫然仍與前數年相去遠甚其中所增者係美國油十萬加倫蘇門答臘油八萬加倫般鳥油與去年仍不相上下聞本口之西面各市場或本口東面之暗鋪及其他地方其所需煤油欲避完正稅而減輕運費有由海防經東興運進者顏料進口較去年增百分之七十麵粉增百分之二十八燈具增百分之五十二藥材增百分之三十三進口顏料之增多因價值較賤且用本地顏料須染三次者而用洋顏料祇須染一次即足故人民視為適用也本年土布進口較多大概係用華船裝載由常關報運進口者較少所致進口米數僅五百二十餘担係由海防運來者

洋貨復出口姑不具論

一土貨貿易土貨出口運往外洋及通商口岸

連復出
口在內

本年土貨出口共值關平銀九十一

萬八千餘兩較去年約少十五萬餘兩除海味及花生餅兩種俱有起色外其餘如生豬柴水靛花生油糖一般土貨盡形減少有多數運貨船隻以無貨可運竟棄其原有職業暫行捕魚去年農家出產不豐食品騰貴養生豬無前數年之多本地豬價因之而貴販豬者以獲利甚微所以不甚踴躍柴出口較少非為出產短絀祇因水脚太賤輪船不願裝運之故水靛因不克與洋顏料競爭所以近年來種植水靛極為減少本年所產花生雖多而其仁殊小所壓出之油約較平時成數低百分之二十糖去年出產較平常大

遜因天時乾旱甘蔗大受損害故失收過半赤糖出口較去年少一萬六千担即短百分之七十七至白糖則並無出口總而言之若明年國家無事則出口之貨物不久當見興旺固無俟龜卜也

土貨進口向不占重要地位現漸次短絀本年僅值關平銀三千五百餘兩

一內地稅則入內地之貿易雖甚細微然亦隨進口貿易遞增如內地並無騷擾自當更有進步出內地之貿易因關卡收納稅釐通用本省紙幣均按照票面銀數十足兌收而市面紙幣價值須低折十分之四商人因此便宜由內地採辦土貨本年並無請領三聯單者以本關徵稅向用現銀故也現象若此何日可以挽回此時殊難逆料

一船隻遵照本關總章行駛者本年進出口船隻噸數較去年殊形見絀計減少船隻十九艘噸數一萬二千一百二十六噸法國船數仍首屈一指英國船數雖較少於法德兩國船而噸數則獨多又有和國船一艘係由文島載華工回者本口與香港往來船隻本少而又往往鮮有準期夫固不利於本口貿易而於出口貨則更多妨礙惟法商孖地洋行往來船隻勉有一定期限至生豬水脚每隻計銀一圓五角此與船隻極有利益且船上不負損失之責任故本口船隻之多寡一似仍憑有生豬出口與否以爲斷遵照內港行輪章程行駛之小輪祇有一艘拖帶渡船來往於陳村海口北海欽州之間

一旅客姑不具論

一金銀進出口金銀價值所差甚遠歷年論中已及之矣本年報關進口值關平銀四萬四

千餘兩出口值八十五萬二千餘兩蓋必因地方不靖以圖穩妥而運存香港者較多於平時可無疑義本地通用銀幣以本省所鑄雙毫銀幣數居大半本年出口有五百三十萬枚大銀圓出口僅十七萬枚其雙毫銀幣多半由欽州運來每次渡船常攜有一二萬枚

一藥土洋藥報關進口去年共有一百三担本年則僅有三十一担上半年價值尙稱平穩約每箱值關平銀三千餘兩八月間價值陡增接續漲至年尾每箱值銀將及五千兩左右聞廣州灣洋藥價值較低於本口自洋藥漲價以來於銷場大有阻礙蓋此種奢侈品非富有餘資者無從購吸若嗣後繼續騰貴則不禁而自絕矣

一雜論正月間高雷廉欽四屬爲本省第六選舉區舉行省議會及衆議院之初選舉本年開始數月天時頗形乾燥自五月至九月間雨水異常充分計有英尺八十九寸半如此絕大雨量將本鎮之溝渠街道洗除潔淨實足以阻制時疫之流行者也
