The best Christmas a man gets is the Christmas he gives.

Along with the slogan "Shop Early" is one which goes right along with it—"Buy from the Home Merchant." It pays to remember both admonitions. Try it.

Miss Gara's work, during the past week, is to be commended and Our Town is very grateful to all those who have so readily responded to her appeal for the needed support. She will solicit a subscription from every home in Narberth, and we are surely looking for great results through her effort.

Harrisburg, Pa., Nov. 27.—"Do your Christmas selling early," is the appeal of Commissioner John Price Jackson, of the Department of Labor and Industry, to merchants throughout Pennsylvania in an effort to effect reasonably early closing of all mercantile establishments during the holidays and thus prevent prosecutions for violations of the labor laws.

The familiar, "Do your Christmas shopping early," is also directed by the Commissioner in the army of Christmas buyers in the hope of obtaining the co-operation that will make the appeal to the merchants effective.

"Christmas shopping should be done as early as is possible—early in the day as well as early in the season," said Commissioner Jackson today. "If all merchants in every community combine unitedly for a definite closing hour each night during the holiday season, none will lose trade, the law will be observed and every establishment will have fresher and more efficient clerks to meet the gruelling demands of the holiday rush.

Girls under twenty-one years of age may not be employed in stores or factories after 9 o'clock at night or before 6 o'clock in the morning. No female may be employed more than six days a week, more than fifty-four hours a week, or more than ten hours a day. When an establishment is closed for a legal holiday, females may be employed, during such week, two hours a day overtime for three days, but the working hours for the week must not exceed fifty-four.

"Inspectors of the Department of Labor and Industry in all sections of the State are instructed to pay special attention to the working hours of employes during the holiday season, not for the purpose of instituting many prosecutions, but to see that the laws are obeyed and to relieve the often needlessly long hours of employes."

CHILD LIFE CHAPTER.

The next meeting of the Child Life Chapter will be held on Friday morning, December 3rd, in the Community Club Room at 10.00 o'clock. At that time, the study of the psychology of the child will begin. A large attendance is desired.

Editor of Our Town:

Having noted from time to time the large number of boys and men in Narberth who smoke cigarettes, and being somewhat familiar with the fruits of that habit, I was pleased to note the action of Burgess Henry in his effort to curtail the sale of cigarettes to boys and discourage their use.

During the past few days I have been reading a book just off the Century Company press, by Charles B. Towns, entitled "Habits That Handicap." While I have been studying the book primarily in pursuit of up-to-date scientific information on alcoholism, yet I have found in it a lot of startling facts concerning the cigarette. For fifteen years Mr. Towns has given his life to the study and treatment of victims of the alcoholic and drug habit. In that time he has investigated and treated nearly seven thousand cases in this country, China and Europe. He makes the startling statement that in nearly all the seven thousand drug and alcoholic victims he has studied and treated he has found a history of excessive use of tobacco. He is especially vigorous in his opposition to the cigarette, and his attitude is based on a study that possibly no other living man has been able to give to the subject. He finds the tendency of one bad habit to lead to another—"cigarettes, drink, opium, is the logical and regular series."

Certainly, parents who have growing boys ought to stop and think seriously when a man of Mr. Towns' experience makes such startling declarations as the following:

"I consider that cigarette smoking is the greatest vice devastating humanity to-day, because it is doing more than any other vice to deteriorate the race." And again he says: "I am convinced that the use of cigarettes is responsible for the undoing of seventy-five per cent. of the boys who go wrong."

If not using too much of your valuable space, may I not call attention to what some of the world's greatest living leaders have been saying recently about this injurious habit? Dr. Kellogg has shown by experiments that there is sufficient poison in one box of cigarettes to kill forty frogs; hence there is ground for calling the little demon a coffin spike.

Connie Mack, the leader in the base ball world, has recently said: "Boys who have continued smoking cigarettes do not, as a rule, amount to anything. They are unfitted in every way for any kind of work where brains are needed."

America has no greater authority on the boy than Judge Ben Lindsay, and growing out of his extended experience in Juvenile Court, he says: "One of the worst habits in boyhood is the cigarette habit. Persisted in, it dulls and deadens all the finer moral sentiments. It makes a physical and moral wreck of any boy."

Luther Burbank, the "plant wizard," laments the early departure of some of his youthful friends concerning whom he says: "Several of my young acquaintances are in their graves who gave promise of making happy and useful citizens, and there is no question whatever that cigarettes alone were their destruction."

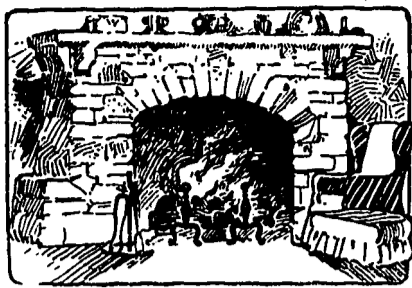

Just one more quotation—this time from Dr. Gunsaulus, the eminent orator, whose observations as president of Armour Institute have led him to say: "I do not believe there is an agency more destructive of soul, mind and body or more subversive of good morals than the cigarette. The fight against the cigarette is a fight for civilization."

Sixty-nine of the largest mercantile firms of Detroit refuse any longer to take into their employ any boy or man who uses cigarettes. Henry Ford is especially aggressive in his antagonism to this habit, and is spending large sums of money in an educational way against it. Thomas A. Edison is most uncompromising in his opposition to the cigarette smoker, and will not knowingly take into his employ young men who have acquired the habit.

The action of Burgess Henry is a most worthy and commendable one and it should have the moral support of every thinking man and woman in Narberth, and here is hoping that the testimony of the world's great leaders quoted in this article may be personally called to the attention of every boy in the town, whether he has formed the habit or not.

THE PRIMARIES NEXT SPRING.
One election is scarcely over until we speculate as to the result of the next one. Congressman Watson has not yet taken his seat in the House, but his successor will be nominated at the primaries on May 16, 1916. At that time there will also be selected National and State Convention delegates, Presidential electors, State Committeemen, a State Senator and four Assemblymen from this county.

NARBERTH Y. M. C. A. GLEE CLUB NEWS

Everything is now ready for the Minstrel Show, to be given in Elm Hall, December 10 and 11. As you all know, the show is to be given for the benefit of the Y. M. C. A.

Be on the lookout next week for the program of the show in Our Town and also for some one who will come to see you and ask, "How many tickets do you want?" The general admission is 35 cents and reserved seats 50 cents.

The rehearsal this week will be held in Elm Hall. It is the wish that every Glee Club member will be on hand.

THE NARBERTH ATHLETIC CLUB.

In lieu of the usual Saturday night game, last week's match was played on Thanksgiving night. Mediator Boys' Club of West Philadelphia, made the journey to Narberth, and their Thanksgiving dinners apparently set well, because they put up a fine game: in fact a little too fine for our boys, for they had to take the short end of the score which was 21 to 16. What the score would have been if the hospital list was not as large as it is, might be another story. Davison, of Mediator, played the most prominent part in his club's victory, while our own Colwyn Humphreys did something more than his share by making thirteen out of the sixteen points. The line-up was as follows:

NARBERTH.		Field	Foul
		Goals	Goals
L. Smith, forward	4	3
C. Humphreys, forward	4	9
D. Odell, center
G. Sheldon, guard
P. Redifer, guard
MEDIATOR.			

NARBERTH.		Field	Foul
		Goals	Goals
Hunter, forward	4	..
*Loos, forward	1	..
Cushing, center	3	..
Davison, guard	2	5
*Reed, guard
*Smedley, forward	1	..

Next week our boys will play Haines A. C. and a very interesting game is expected.

NEW ATHLETIC FIELD OPENED.

The \$65,000 Grounds for Lower Merion High Used First Time on Saturday.

The new \$65,000 athletic field of Lower Merion High School was officially opened two weeks ago, when the Lower Merion High School foot ball team met the crack eleven of Norris-town High. The field is directly back of the handsome school building, and consists of tennis courts, quarter-mile track, with a 220 straight-away, baseball diamond and gridiron.

For many years the Lower Merion High School has been in need of an athletic field. The various school teams have been forced to travel to Haverford College, Cynwyd and other points to practice and play their games on the grounds of other institutions, which were very generously loaned to them for such events.

The Board of Education realized the trouble the teams were having, but the directors also experienced difficulty in securing suitable property near the new high school. Last year the board purchased the ground and the work of grading and putting it in proper shape for athletic events has just been completed. The grounds are spacious and there is plenty of room for parking automobiles and teams.

FALL CARE OF ORCHARDS.

Spraying and Other Operations Effective in Bringing Many Insects and Scales Under Control.

Valuable work in the control of orchard insect pests may be accomplished during the fall, winter, and early spring. Certain destructive insects are held in check only by spraying during the dormant period of trees when stronger washes may be used than when the trees are in foliage. Many insects of the orchard spend the winter on the trees in the egg, larval, or pupal stage, and their destruction in the course of pruning or other orchard work is practicable and is of much importance in keeping them reduced.

Spray Dormant Trees for Scale Insects and Plant Lice.

Orchard scale insects as a class are best treated after the foliage has dropped from the trees. This work may be done in late fall, during the winter when the temperature is above freezing, or in the spring before the buds swell to any extent. Spraying of apple, peach, pear, and other trees for the San Jose scale with strong lime-sulphur or other suitable wash is now very generally practiced by orchardists, and many persons owning but a small number of fruit trees in the yard also regularly spray the trees for the control of this serious insect pest. Lime-sulphur concentrate is used in spraying for the San Jose scale, and may be purchased of manufacturers or made at home. The commercial article usually has a density of 32 to 34 degrees as registered on a Baume hydrometer, and in preparing the concentrate at home effort should be made to secure a wash of about this density. Such a concentrate is used at the rate of one part to eight or nine parts of water. Only one treatment each winter is necessary to hold this pest in subjection, but the application must be very thorough, coating all parts of twigs, limbs, and branches. This work requires a spray pump, and this may now be obtained for work on almost any scale, and range in size from the so-called bucket pump suitable for work on a few trees in the yard to the large gasoline-power outfits employed in extensive orchards. More specific information on the San Jose scale and the preparation at home of lime-sulphur concentrate will be found in Farmers' Bulletin 650.

Certain other scale-insect pests which may be present on the trees, as the cherry scale, oyster-shell scale, etc., are also pretty well held in check by this annual treatment with lime-sulphur wash. The treatment is also effective against the pear-leaf blister mite, which is universally present on pears and in some localities is a very serious apple pest. Certain destructive apple plant lice winter in the egg stage on the apple, especially on the newer growth, and thorough lime-sulphur spraying for the San Jose scale undoubtedly results in the destruction of many of these eggs, though the treatment is not always sufficient to obviate spraying after the insects have hatched and the foliage is putting out. In the Middle and Southern States, where the winters are not too rigorous, the woolly apple aphid often maintains itself in colonies here and there on apple trees, occurring more especially around wounds where the thinner bark is exposed. The sprayings for the San Jose scale aid in destroying these colonies. Spring spraying of peach as the buds are swelling, in addition to its destructive action on the scale insect mentioned, is also a very effective check to the so-called peach twig-borer, or peach worm, which is very destructive in California and numerous arid valleys in the West. This spring application of lime-sulphur to peach is practically a specific for the serious fungous disease known as peach leaf curl. In some sections of the country the pear Psylla is a very serious pest to pears. The adults hibernate in crevices and cracks on the trees, resuming activity with the first warm days in the spring. Spring spraying of pears for the San Jose scale has in addition a very marked value in checking the pear Psylla.

The so-called terrapin scale of peach, as well as Lecanium scales in general, are not satisfactorily controlled by the lime-sulphur spray.

Annual Y. M. C. A. Meeting.

December 6 is the date set for the big annual Y. M. C. A. members' meeting. Put this down in your calendar.

**NARBERTH WINS
MAIN LINE
CHAMPIONSHIP**

Defeats The Crack Haverford Prep. School In Great Game

Through the excellent playing of Captain Durbin and Quarterback McCarter, the home team defended its foot ball title, on Thanksgiving morning, and is, as proven, the peerless Main Line Champions.

The game was featured by the excellent kicking of Jim Moore, the Haverford Preparatory School star, who booted the pigskin for an average of sixty yards. Narberth scored in the first quarter by the running around the ends of Captain Durbin and Moore, and the line plunging of Eugene Davis, the Central High School star. Moore missed the goal from a difficult angle.

Durbin's Run for a Touchdown Does Not Count.

Captain Durbin ran through the entire visiting team for seventy yards, making a touchdown. His run, however, did not count, as the umpire detected some holding on the part of the visitors. Narberth did not stop at that, and after a series of line plunging and a forward pass (Durbin to Humphreys), brought the ball to the 10-yard line, and McCarter put the ball over for the second touchdown of the game.

Ardmore Holds Narberth on One-Yard Line.

Narberth had the ball on their own 1-yard line, but did not have the push behind them to put the ball over. Ardmore consequently held them for downs. Walton tried to kick on the first play, but the Narberth line got through and blocked the kick, and after pulling one player off another, it was discovered that Dickie had the ball for Narberth's final touchdown of the game. Moore then kicked the goal.

The game was witnessed by the largest crowd of the season, which added much more interest and was very encouraging to the home team.

The score:
Narberth. Ardmore.
G. Jefferies... left end McCrea
Ensinger... left tackle Goodman
S. Markle... left guard Brady
L. Jefferies... centre Kerwood
Humphreys right guard Calvert
Fine..... right tackle Seasholtz
Kerrigan... right end Sweet
McCarter... quarterback MacReynolds
Moore... right halfback Parson
Davis..... left halfback Walton
Durbin..... fullback Weller
Touchdowns—Dickie, 1; McCarter, 2. Goal from touchdown—Moore. Substitutions—Dickie for J. Jefferies; Fleck for L. Jefferies; Owens for Humphreys; Long for Fine; Parson for MacReynolds; Albertson for Parson. Referee—Shollenberger, Brown. Umpire—Conner, Cornell. Head linesman—Ballou, U. of P. Time of periods—15 minutes.

MAIN LINE DIRECTORY IS NOVELTY.

The C. E. Howe Company has just issued a directory which is a novelty so far as Philadelphia is concerned, since it is a Main Line directory exclusively, with a full list of the suburban population from Overbrook to Frazer, including Cynwyd and Bala. It is the first directory of its kind to be issued here. The lists are arranged by towns and there is also an alphabetical list of all Main Line residents arranged separately as well as a complete business classification of the section.

Opened October 4, 1915.

Through the action of Superintendent of Schools A. S. Martin, the public schools of Norristown have joined the ranks of over 400 other cities and towns throughout the United States in co-operating with the Bureau of Naturalization of the U. S. Department of Labor in its national movement for the elimination of the hyphen and the Americanization of candidates for the privileges of citizenship.

Superintendent Martin has advised the Commissioner of Naturalization that the night schools of Norristown opened October 4. Classes which may be attended by persons of foreign birth are held in the High School Building and instruction is given in reading, spelling, business arithmetic, business forms and elementary book-keeping, citizenship and mechanical drawing. It is estimated that about fifty foreign-born persons have enrolled thus far.

The Bureau of Naturalization will, from month to month during the current scholastic year, furnish Superintendent Martin with the names and addresses of aliens residing within his jurisdiction who file petitions for naturalization or declarations of intention. This will enable the school authorities to get in touch with such applicants and give them valuable assistance in preparing for citizenship.

Last year there were 219 persons who applied for citizenship in Montgomery county. Since July 1, 1910, 551 aliens of the county have declared their intention and 292 have filed final applications for citizenship.

The necessity for the education of aliens residing in Norristown is clearly shown by the following figures taken from the latest available statistics:

The foreign-born white population of Norristown in 1910 was 4015, or 14.4 per cent. of the total population. Of this number 1691 were males who had attained their majority and only 477 were shown to have been naturalized.

In 1910 there were 837 males of voting age who were classed as illiterate. Of these, 483 were foreign-born whites and only 291 were native whites, the percentages of illiteracy being 28.6 for the former and 4.4 for the latter. Of the total population in the city in 1910, there were 1072 persons 10 years of age and over who were unable to speak the English language.

DOMESTIC PARCELS POST SERVICE

The co-operation of the patrons of the post office is desired during the holiday season to the end that all parcels sent containing gifts, etc., during this season may be handled in the best manner possible to insure quick and safe delivery. This is the time when the post office facilities are taxed to their utmost. It would seem only the part of wisdom that those who are sending packages should get them mailed early. Please remember you are permitted to write on the package "not to be opened until Christmas" or words to that effect; therefore, there should be no objection should the package arrive at its destination a week or so before Christmas.

In spite of the numerous warnings and instructions issued regarding the secure wrapping of parcels for shipment through the mails, many persons present parcels for mailing distances of hundreds of miles perhaps in the same condition as though they were to be delivered within a few blocks. All packages should be well wrapped and securely tied. The address should be plainly written, with the name and address of the sender written on the upper left hand corner of the package.

Insurance Feature.
 All parcels of value may be insured against possible loss or destruction while in the custody of the Post Office Department by paying a small fee in addition to the regular postage. The rates are:

Value up to \$5.00 3c insurance.
 Value \$5.00 to \$25.00 5c insurance.
 Value \$25.00 to \$50.00 10c insurance.
 Value \$50.00 to \$100.00 25c insurance.

There is herewith reproduced a facsimile of an insurance tag properly filled out. It is necessary for the sender to fill out a tag when having a parcel insured. You are urged to familiarize yourself with this tag to avoid errors. A complete record is kept of all insured parcels both at the office of mailing and the office of delivery. In case of loss or destruction indemnity will be paid.
 Edward S. Haws, Postmaster.

OUR
Christmas
Edition

The Christmas Edition of
Our Town

will be under date of
December 16th
 and we are already preparing for this issue

It is our intention to get out an especially large edition with eight pages, and it will be worth while for all advertisers to take advantage of this special opportunity to advertise.

Coming as it does one week prior to Christmas, it will give the merchants an opportunity to spread their news among the residents of this community, who will spend considerable money at the holiday season. The enterprising storekeeper will want to get his share of this money.

Phone or write to Our Town, and we will have our representative call on you.
