EIGHT of New York's greatest merchants have investigated the circulation of *The World*, and have signed the following testimonial:

THE undersigned advertisers in New York City, having been invited to examine all books and accounts relating to the circulation of *The World*, certify that they have availed themselves of the invitation, and that they have traced the circulation in various periods from the contracts for the supply of paper to the bank deposits for the sales of the paper. They have verified the published statements of circulation, and are satisfied of their accuracy, and that the net actual, bona fide, paid circulation of *The World*, Morning and Evening Editions, per day, for the six days of the week ended March 18th, 1893, after deducting all return papers, free papers and exchanges, was 375,000.
