RETAIL PRICE-LIST

OF

VEGETABLE, FLOWER,

Herb, Tree, Grass and Field

SEEDS,

BIRD SEEDS, FLOWER ROOTS. &c..

OFFERED FOR SALE BY

SCHLEGEL, EVERETT & CO.

Importers, and Wholesale and Retail Dealers in

American and Foreign Garden and Agricultural Seeds,

WAREHOUSE, 16 SOUTH MARKET ST.,

BOSTON, MASS.

TODD, PRINTER, 15 CORNHILL, BOSTON.

TO PURCHASERS.

It is again our pleasure to present our Annual Catalogue, and Price List of Seeds. Unforeseen events have prevented its publication this year as early as usual, but we trust it will be in season to meet the requirements of our friends, and others, who wish to make selections from it. During the past year a change has occurred in our firm and place of business. The firm of A. SCHLEGEL & Co. has been dissolved, and a new firm formed, consisting of Messrs. SCHLEGEL and FOTTLER, of the old firm, and Mr. GEORGE EVERETT, who has been intimately connected with the Seed trade in this city for the past twenty-six years. The new firm, having purchased of Messrs. GREENWOOD & LINCOLN, Seedsmen, of this city, their stock of Seeds, and good will, have removed their place of business from No. 10 South Market Street, to No. 16 in the same street, where they will be pleased to see all past customers of both firms, and also many new ones.

The new firm will continue to follow strictly, the line of business so successfully adopted and practiced by the late firm of A. SCHLEGEL & Co., and purchasers of Seeds, who believe in the truth of the adage, that

**“The BEST Seeds are Cheapest whatever they Cost,
and Poor Seeds are dear at any Price,”**

Are invited to give our Seeds a trial, and their attention is also invited to the following suggestions:

The Specialty of our Business. First, the furnishing of fresh and reliable seeds, grown from the purest, best, and choicest stocks; and second, to sell them at as reasonable rates as seeds of this character can be afforded, and preserve them true.

Our Terms, are **Net Cash.** All bills are due the first of the month, succeeding the date of purchase, unless otherwise provided for by special agreement.

Orders from unknown correspondents, to secure attention, must be accompanied by a remittance, or a satisfactory reference to a responsible Boston house.

Our Prices. To the prices quoted in this List, we shall adhere as closely as possible; but with some varieties, particularly Clover and Grass Seeds, Bird Seeds, Onion Sets, and Seed Potatoes, fluctuations are quite

SCHLEGEL, EVERETT & Co.'s

Annual Catalogue and Retail Price-List
OF SEEDS, ROOTS, &c.

For the greater convenience of purchasers, we commence our Vegetable List with Peas, Beans, and Corn, and follow with other varieties in alphabetical order.

Our Prices are quoted by the Packet, Ounce and Pound, or Quart and Bushel. Customers will please notice that at the **bushel rate** we sell fractions of a bushel from four quarts upwards; less than four quarts are sold at quart rates. So also at the **pound rate** we sell fractions of a pound from four ounces upwards; less than four ounces are sold at ounce rates or packet rates. If special varieties are required in large quantities, special prices for such will be given, on application.

THE NEW**WHITE-SEEDED, WAXEN-PODDED DWARF BEAN.**

Our stock of this new and very valuable Bean, which we hoped to offer this season in liberal quantities, is again very short. Owing to the prevailing drought of the past summer, causing a failure of our crop, we can only offer it in small packets, to a very limited extent, to enable those who desire it an opportunity to test its merits. We hope to offer it next year in large quantities, and at reasonable rates.

Price per Packet, 50 cts.

	pr oz.	pr lb.	pr bu.

FLOWER SEEDS

IN PACKAGES OF ASSORTED VARIETIES.

THE following packages will be found desirable for purchasers wishing assortments of Flower Seeds, particularly those who are not familiar with the different sorts.

Assortment A	10 varieties of choice	Annuals	\$0.50
“ B	10 “ “ “	Perennials	0.50
“ C	25 “ “ “	Annuals	1.00
“ D	25 “ “ “	Perennials	1.00

Other assortments, large or small, furnished if desired, consisting of either Annuals or Perennials, or both, to suit the purchaser; also assortments of rare and choice varieties, for Greenhouse or Garden culture.

COLLECTIONS OF CHOICE VARIETIES

OF

FRENCH AND GERMAN FLOWER SEEDS

IN PACKAGES OF SEPARATE COLORS.

THESE collections, consisting of packages containing from four to twenty-four different colors each, of the choicest and most beautiful varieties of Flowers, are invaluable for making displays, where the most showy, and greatest variety of colors of special varieties of Flowers are desired. The different collections will be found, each under its appropriate head, in the general list of Flower Seeds, but are here embraced in a special list, for the greater convenience of purchasers of these collections only. Attention is invited to this fact to caution customers against doubling their orders unintentionally by selecting from both lists.

Heliotrope, 6 " choice varieties75

SUMMER FLOWERING PLANTS.

BULBOUS AND TUBEROUS ROOTED.

(FOR SPRING PLANTING.)

THE varieties in this list should be planted in the open ground in spring, as soon as all danger of frost is past—and taken up after blooming in the autumn, when frosty weather sets in. They are easily kept during winter, in cellars that are dry. The Gladiolus, Tuberoses, Anemone, and Ranunculus, in boxes, or bags, or on shelves; and the Dahlias, Tritomas, and Cannas, in boxes of garden earth. The varieties are all easily grown, very desirable, and worthy of extensive culture.

GLADIOLUS.

AMERICAN HYBRIDIZED SEEDLINGS.

THESE fine seedlings are from the stock of an amateur grower, who has been the recipient of many premiums for his successful efforts in hybridizing this valuable flower. These seedlings are very desirable for general garden use, but particularly so for planting in masses, where many and diverse shades of color are desired, without incurring a large expense.

Price, 15c. per Root. | \$1.50 per Dozen. | \$10.00 per Hundred.

IMPORTED HYBRIDIZED SEEDLINGS.

These are also useful for the same purpose as the preceding varieties, and generally produce fine flowers. For a general display at a small expense, these may be used with satisfactory results.

Price, 10c. per Root. | \$1.00 per Dozen. | \$7.00 per Hundred.

SPLENDID FRENCH HYBRIDS.

The French Hybrids are noted for their beautiful and splendid flowers. These are offered in dozens, of our selection, assorted, of the following colors and intermediate shades: White, Buff, Rose, Crimson, Scarlet, Purple, and Spotted. These selections are recommended to purchasers who have no special choice, except to secure fine and dissimilar colors. It is often greatly to the advantage of the purchaser to order these assortments, as we frequently have a surplus of some of the finest varieties, which we use in making up these assortments.

Prices of Dozens, assorted as above. \$4, \$6, \$10, \$20, \$30, and \$45.

*GLADIOLUS, (Continued.)***SPLENDID FRENCH HYBRIDS. (Named Varieties.)**

These are the finest of the hybrid varieties, grown under name, to enable cultivators to secure special colors, if desired. The following list embraces the finest varieties in cultivation, and are recommended to the attention of purchasers. Several in the list, remarkable for the beauty and size of their flowers, are designated by the use of larger type in classification.

— — — — — Excelsum , beautiful buff50	

As Lilics can be planted either in spring or autumn, other varieties, not to be obtained in the spring, can be furnished at the latter time, during September, October and November.

BEDDING PLANTS.

Bedding Plants are, for the most part, greenhouse plants, but hardy enough to successfully endure open garden culture during the summer months. They are very useful for planting in beds, ovals cut in lawns, or other situations, where an early and continuous bloom is desired. They will not bear frost, and should not be planted until the weather and soil have become warm. They then grow rapidly, and those producing flowers give a constant succession until killed by the autumn frost. Those grown for their foliage grow equally well, and when judiciously set, the silvery and variegated varieties together, are quite as beautiful and indispensable as those that are grown for their flowers. The various sorts are furnished in small pots, which admit of close packing for transportation, by express, or otherwise. Orders promptly executed at the following rates.

	Doz.
Ageratum, Mexicanum	1.50
Alternanthera, in sorts	1.50
Achyranthus, " "	1.50
Coleus, Verschaffeltii	1.50
— golden, 4 varieties	2.00
