March, 1st 1887.

The undersigned having this day opened a Dental Office at No. 66, Settlement of Yokohama, begs to call your special attention to his Gold and Porcelain Crowns and Bridge Work, or ARTIFICIAL TEETH WITHOUT PLATES, which are acknowledged to be the grandest discoveries in Modern Dentistry, and the most beautiful, natural, substantial and useful substitutes for the organs of mastication.

Nitrous Oxide Gas will be given, whenever desired, for the PAINLESS EXTRACTION OF TEETH. It is the safest of all known anaesthetics, pleasant to take and leaves no bad effect. All those favoring him with their patronage will be kindly treated and every effort made to strengthen the confidence of patients in his ability.

D. F. Ogden, L.D.S.,

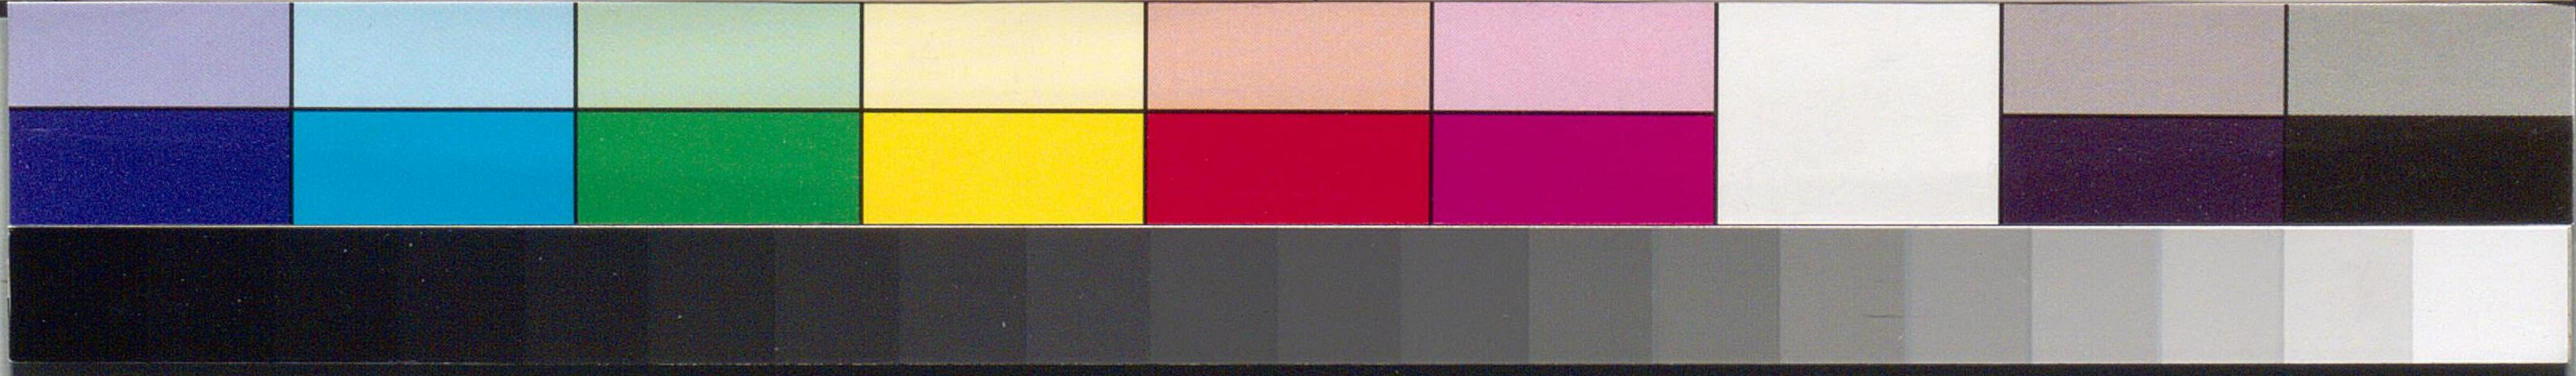

Graduate of the Royal College of Dental Surgeons of Ontario.

CHARGES MODERATE.

Fifteen Years of Successful Experience in North and South America.
