

## LOCAL ACTIVITIES

### BUILDING AND PLUMBING CONTRACTS—COST OF WEED CLEANING

Work has been begun on the excavation for the new brick hotel, which is to be erected on Brand boulevard, next to the Peters building. The permit for the building was issued by Building Inspector Banker Friday. It is issued in the names of H. L. Borthick, H. E. Betz and E. K. Daniels. It is stated that the building will cost more than \$14,000 and the lot from \$8000 to \$10,000. The hotel will have store-rooms, a restaurant and other rooms on the ground floor and hotel rooms above.

The Glendale Hardware Store has closed a contract for the plumbing work of a large apartment house in Los Angeles, at Sixth and Rampart streets. This building will be known as the Miller apartments. The number of fixtures in this apartment building will be 153. That shows the extent of the contract. The usual number of pieces in a small house is from five to six.

That the Glendale Hardware Store is increasing and extending its building outside of Glendale can be seen in the fact that besides the Miller apartments the firm has several other smaller contracts in Los Angeles and one in Hollywood that involves the installing of 260 fixtures. This contract is in connection with a big four-story apartment hotel that is being built by Frank L. Melin. The whole of this work has now been roughed in and the fixtures will be installed by the first of September. The Glendale Hardware Store has had an average of twenty-two plumbers working on the job every day.

**Cost of Lot Cleaning**  
T. W. Watson, City Manager, says that the cost of destroying the weeds on the city lots this year is about one-third less than it was last year. This, he says, is quite natural. Last year's cleaning up destroyed most of the easily killed weeds and those left to deal with are the more persistent and stronger plants and shrubs, such as the deadly nightshade and the Jimson weed and a few others like the persistent tumble weed. These will take several years to kill out, but they will finally succumb.

Following are the weed-cleaning statistics:  
Notices sent out .....2400  
Lots cleaned .....718  
Cost of cleaning .....\$745.45  
Average cost for 675 lots .....\$1.05  
Cost for forty-three lots (about .80 1-3) .....\$34.50  
It was very apparent this year that the stimulus given to gardening had taken up a number of the vacant lots, thus accounting for the decrease in the number of lots cleaned by the city.

Last year the number of lots cleaned was 1360 and the average cost per lot was \$1.23. It is the belief of the Manager that next year will see a still further improvement in the condition of the lots.

### LIBRARY STORY HOUR

Mrs. Danford, librarian, announces that the story hour will be observed at the library Wednesday morning as usual. A program of interest and instruction for the children is being prepared. Interest in this feature of library work has increased throughout the summer and the children are interested in having a still larger attendance at each succeeding meeting. These meetings have a very definite influence for good on the children who attend for they are taught to use the library catalogue and they are stimulated to reading the right kind of books. In these days when there is so much to attract the children away from good books, the library story hour is a blessing, indeed.

### TENNIS MATCHES POSTPONED

FOREST HILL, N. Y., Aug. 28.—Great disappointment was felt here today over the postponement of the Tennis National Championship matches, which were scheduled to begin today. Heavy rains set in last night and completely took away all chance of anything being done. There is a large contingent from California present.

### LET PRINCIPLE GOVERN

In advocating any cause principle should always govern. It is indeed inconsistent for a person to favor or oppose a cause because he has a like or dislike for some one who favors or opposes that cause. It has been observed at times that a man of fair intelligence will oppose a measure because a supposed enemy favors it. This is an instance in which principle does not govern one's decisions.

## NEW ENGLAND STYLE

### MRS. ELLA RICHARDSON TELLS OF CUSTOMS IN SALEM, MASS.

Mrs. Ella Richardson, who is visiting in the East, recently paid a visit to Salem, Mass., which place she found bound in the ties of the past. "The people of the Pacific Coast," she says, "long ago left behind them this ancestral bondage. They are more at liberty to develop in the right direction."

"In New England, on the other hand, people still walk in certain paths of thought simply because their ancestors did. They don't want to change. For instance, I would say to my friends, 'This car line is nearer, more pleasant and saves time, let us take it.' They answer, 'We never went that way; we always go another way.' That is sure to be the oldest way. They have great dread of changing a habit."

"I ask one of my friends here, 'Where is the bluing?' She replies, 'Bluing! I never use such a thing. My mother never used it.'"

"Fancy houses where there are from four to six bolts to each outside door. These are in place even in daytime and all the inside doors and windows are bolted as the proprietors of the houses enter their houses at night. They even bolt and lock their bedroom doors. Old records still have their influence on these people; they still shrink at the thought of the scarlet letter 'A' that used to blaze on the dress bosom of certain women; and at the big letter 'D' that formerly was hung for one year around the neck of a drunkard. "They still approve of the law which punished Captain Kemble with the stocks for kissing his wife on Sunday, when he returned after an absence of three years. They still think it was wisdom to bring criminals to church on Sunday to hear interminable lectures."

"It has been estimated that during the years when the minds of men were inflamed against witches and witchcraft the executions of witches in Germany amounted to 100,000; in France to 75,000; in Britain to 30,000. Other countries in Europe contributed to the horrible work in proportion to their bigotry. "In Salem in 1688 witches were sentenced to death. The old witch house is still there. I visited it. I also visited the old John Ward house, built in 1684. This house is furnished with seventeenth century furniture and is very quaint. I purchased a model of the kitchen, which I will be glad to place where it may be seen by all in Glendale on my return."

"Salem, Mass., is full of curious, old doorways and many interesting carved tombstones and inscriptions. The old town pump is a very interesting relic of the past days when unpopular characters were thoroughly soured under its purifying waters. These were the days when mobs used to chase bailiffs with the cry, 'Under the pump! Under the pump!'"

"Of course Nathaniel Hawthorne is forever associated with Salem. Here is the old 'House of the Seven Gables,' of which he wrote so interestingly. Here, too, is his own birthplace. All these places were pointed out with pride and satisfaction to us. The Salem people live much in the past and regret the passing away of the good, old days. For myself, I love California and the present."

### FEDERATED BROTHERHOOD MEETING

Call of the Executive Committee of the Federated Brotherhoods of Glendale, the Dry Federation of Glendale, the I. O. of G. T. and the Glendale and West Glendale branches of the W. C. T. U.

The voters of Glendale, Tropic, Casa Verdugo and surrounding country are called to meeting this (Monday) evening at 8 o'clock at the Union High School Auditorium, to meet the candidates for the office of supervisor and district attorney who will address the voters, so that they may be able to judge of the qualifications of the several candidates and vote intelligently at the Primary Election. (Signed) I. H. DURFEE, Pres. E. HOSKYN, Sec. of Federated Brotherhoods.

### BIRD AND FLOWER CLUB

With the return of Mrs. Nanno Woods, president of the Bird and Flower club, from La Jolla, the weekly meetings will be resumed on Wednesday. Members and friends will please assemble as usual at 2 o'clock sharp at Headquarters, 1111 Broadway.

## WILSON TO TAKE STEPS TO PREVENT STRIKE

### PRESIDENT WILL CALL ON CONGRESS FOR LEGISLATIVE RELIEF

(Special Service to Glendale Evening News)  
WASHINGTON, D. C., Aug. 28.—As the heads of the railways have expressed their resolve to face a strike of national dimensions rather than yield to the suggestions of the president, President Wilson is resolved to ask congress to take such legislative measures as will afford relief in case of a strike being precipitated. A bill establishing the eight-hour day on railroads may be introduced or the Interstate Commerce Commission may be authorized to take the question of wages into consideration in adjusting rates. The men refuse absolutely to arbitrate the question of the eight-hour day.

## DECLARES WAR ON CENTRAL POWERS

### BUCHAREST GOVERNMENT THROWS ITS LOT IN WITH THE ALLIES—ARMY MOBILIZED WEEKS AGO

(Special Service to Glendale Evening News)  
PARIS, Aug. 28.—Roumania declared war on the Central Powers today. This news is official. It is also confirmed by official information from London and from Berlin. It was expected here that this would be the result of the determination of Italy to declare war against Germany. Italy has long had a political agreement with Roumania which made it almost certain that the Balkan power would follow Italy's example.

## ACCEPTS CHALLENGE OF ROUMANIA

### BERLIN GOVERNMENT PROMPTLY ORDERS PASSPORTS MADE OUT FOR BALKAN MINISTER

(Special Service to Glendale Evening News)  
LONDON, Aug. 28.—Immediately on the news that Roumania had declared war on the Central Powers the kaiser ordered the passports of the Roumanian minister at Berlin to be made out and delivered to him. Germany has undoubtedly been prepared for some time for what has taken place. It was practically certain that Roumania would enter the war the moment Italy declared war against the Central Powers.

## ITALY DECLARES WAR ON GERMANY

### SWISS GOVERNMENT ASKED TO INFORM BERLIN THAT WAR NOW EXISTS BETWEEN TWO COUNTRIES

(Special Service to Glendale Evening News)  
ROME, Aug. 28.—Italy is actually at war with Germany. Through the Swiss government the Italian government informed Berlin of its declaration of war with Germany late last night. Ever since Italy entered the war she has refrained from a formal declaration of war against Berlin, but German's hostile acts against Italy have been frequent and the latest announcement of the Austrian government that the defense of Trieste would be under German direction decided the Italians to act. The Italian people are greatly pleased with this decision, which has decided Roumania to enter on the side of the Allies and has brought a formal declaration of war against Roumania by Germany, Austria, Turkey and Bulgaria.

## WAR NEWS MAKES WHEAT FALL IN PRICE

### ROUMANIA'S PLUNGE INTO EUROPEAN WAR IMMEDIATELY AFFECTS CHICAGO MARKET

(Special Service to Glendale Evening News)  
CHICAGO, Aug. 28.—Wheat fell rapidly eleven cents on the market here today, as a result of the news that Roumania had declared war against Germany. The fact that Roumania is now in the war on the side of the Allies opens up the way for the passage of Russian wheat to Europe.

## GREECE NOW ON VERGE OF WAR

### ADVANCE OF BULGARS AND CAPTURE OF GREEK FORTS ROUSES COUNTRY TO FURY

(Special Service to Glendale Evening News)  
ATHENS, Aug. 28.—Greece is on the verge of war. Were it not for King Constantine and the pro-German ministry the country would have entered the war long ago. The people are shouting every day for ex-Premier Venizelos to take action. They would expel the king and make Venizelos premier. Meantime Gen. Moschopoulos has been made temporary chief of staff. He is a pro-Venizelist and pro-Allies.

## HUGHES DISPENSES WITH BODYGUARD

ESTES PARK, Aug. 28.—Charles E. Hughes, Republican candidate for president of the United States, is beginning to manifest much restlessness under his constant protection by guards. Today he dispensed with them altogether and motored up the mountains to small cities at an elevation of 10,000 feet.

## VOTE FOR PACKER

### TATLOW GIVES EIGHT REASONS WHY EVERY GLENDALE CITIZEN SHOULD VOTE FOR PACKER

Glendale, Aug. 28, 1916.

#### EDITOR GLENDALE NEWS:

Dear Sir:—As an uncompromising adherent of the scientific philosophy of socialism, also a thorough believer in the expedient of organized labor, finding a single member in the above class who is "on the fence" as to who he should vote for as supervisor of the fifth district, and thinking that there may be others who may be in the same rut, will you kindly permit me to present a few reasons why every member of organized labor and every socialist in the Fifth Supervisorial District should vote for Stephen Packer tomorrow?

1. Because, the result of the Primary in all probability will forecast the result of the election.

2. Because while "Steve" does not vote the socialist ticket and is not aware of the fact, his principles, as I have the pleasure of knowing by nearly ten years of actual contact, are fundamentally socialistic.

3. Because, there is no Socialist candidate in the field for the office.

4. Because, if we knew absolutely nothing of his business capacity and moral character previous to his identifying himself with the interests of Glendale, that would be more than sufficient for those who know him.

5. Because, all things considered, he is at least as good as the best in the field, is conducting a clean campaign, devoid of mud slinging which has served as a boomerang to at least one of his opponents, augmenting the friends of Steve.

6. Because, whole organized labor is weak in Glendale, Mr. Packer has not alone advocated all that labor stands for, but he has demonstrated the principle in a practical manner in connection with his numerous building and business enterprises by favoring the principle wherever opportunity afforded, always paying the "scale," often times more.

7. And because, brother prohibition friend, a prohibition supervisor does not make dry laws, he simply has an opportunity to enforce them when the people make them, one of Mr. Packer's pledges is, to enforce not alone existing, but also those laws which become effective in the future; were the Board of Supervisors composed entirely of "drys," they could do no more.

8. And last but not least, Steve is our neighbor, he lives next door, we see him every day, our interests are his interests. Our paramount interest is or should be, in our home town, many of us literally make our living in this city, and those who do not, thoroughly believe in anything which will enhance values and add to the sum total of happiness and make Glendale the most sought after spot on earth. Then regardless of political affiliation, wet or dry, prohibition or single tax, I see no valid reason why every voter in the Fifth District in general and the city of Glendale in particular should not make a sacrifice if necessary, to ensure the election of our tried and true neighbor, Mr. Stephen C. Packer, as the next supervisor of the Fifth District.

J. FLETCHER TATLOW,  
1411 Oak Street.

### CO-OPERATION NECESSARY

The city of Glendale is just in that stage of development that the co-operation of her citizens is very necessary for the carrying out of all projects that are for the welfare of the city. All organizations should work in harmony and have for their main purpose the upbuilding of the institutions of their home city. It may be in place to have local rivalry but when it comes to Glendale against the outside world every citizen of Glendale should be for Glendale first, last and all the time. There are many improvements needed in Glendale, there is the procuring of a public park that is advocated by many and there is the Y. M. C. A. building and the swimming pool that are advocated by others and there is the erection of a large auditorium that will seat several thousand people advocated by many; there are club houses to be erected, new churches are being built and plans are being made for others to build. Glendale is a growing city and her institutions are promoted by a progressive and intelligent class of people who will attain the greatest success for the community by working together or as Mr. Lilly stated in a recent article published in the Evening News, by "Pulling Together." There is no one class of people who

## MEETING OF VETERANS

### OLD SOLDIERS ASSN. HELD SUCCESSFUL ENCAMPMENT AT HUNTINGTON BEACH

After a most successful convention that began on Tuesday, Aug. 15, the Southern California Veteran Association brought its annual gathering to a close, Friday, Aug. 25. The daughters of veterans gave a most enjoyable program, Saturday, Aug. 19. This was followed by the usual memorial services on the following Sunday. The roll of deceased comrades was read by Adjutant T. M. Barrett of Glendale and responded to by the beating of the memorial roll. The number of veterans who have passed away during the past year was 207. Music and a memorial address by the chaplain, the Rev. C. R. Norton, closed the services. In the afternoon there was a dress parade. The Veterans' Drum corps headed a parade of 197 veterans, a company of Spanish War veterans and Sons of Veterans. The total number in line was 240, the largest showing for many summers.

On Sunday evening there was also a service of sacred song, which was largely attended. Miss Isabel Barrett and Mrs. Jessie Mason were soloists. The latter rendered "The Sword of Bunker Hill."

A sham court, a camp fire, a "kitchen band" from Long Beach, a bean dinner and other events made the days of the encampment seem short. There were 580 veterans in line at the dinner. A body of ladies, equal in number to the veterans, were also entertained at dinner. The veterans, the ladies of the various Relief corps and their friends who sat down to dinner numbered more than 1200.

Another entertainment was given on Tuesday evening, Aug. 22, under the management of Dr. A. F. Crane, of the Universal Film company. A number of professional people from the film companies gave their services, which were highly appreciated. On Wednesday, Aug. 23, election of officers was held. Much interest was taken in the competitive dance for veterans not under 70 years of age and by ladies of 60 years or over. This affair was held at the beach skating rink and was a source of much fun. Comrade Nash and Mrs. Mason won the prizes.

Election of officers for the ensuing year resulted as follows:

D. W. Hession, Buena Park, commander; Tom Hull, Los Angeles, senior vice-commander; G. M. Burlingame, Pasadena, junior vice-commander; Rev. C. R. Norton, Glendale, chaplain; E. C. Seymour, Highland Park; J. W. Van Horn, Los Angeles; Tom Galbraith, Los Angeles; O. S. Bookhout, Ventura; J. H. Maxwell, Colton; W. Thompson, Escondido; C. W. Manning, Holtville; R. C. Gilliland, Riverside; T. M. Barrett, Glendale; J. M. Talcott, Santa Ana; W. S. Wilson, Riverside, Council of Administration.

Auxiliary officers were elected as follows: Mary A. Matthews, president; Mary McCain, senior vice-president; Anna Townsend, junior vice-president; Mary Dunning was appointed president of the Penny club; Harriett Coulter, assistant. Julia Hobart was appointed councilor-at-large. Officers were installed on Thursday evening, Aug. 24, and the camp was broken up Friday, Aug. 25.

### CRISIS ON GREEK FRONTIER

BERLIN, Aug. 28.—The Anglo-French forces are contracting their front by drawing in the wings of their armies as the Bulgarians advance. There has been a large withdrawal of both British and French troops in Northeastern Macedonia.

can afford to separate themselves from all others and say we will do this and so because we know it is a settled fact that great things can be accomplished only by the united efforts of the people of the community.

The main requirement is good citizenship. One man may arise earlier in the morning than another, one may partake of two meals a day instead of three, one man may drive an auto at a fifteen mile speed and another may drive at a twenty-five mile speed. One may dress in fine clothing, another in less expensive garb. All of these characteristics are of little significance when it comes to joining together to work for what will upbuild the Glendale community.

Families who have been out of town spending the summer vacation are now returning preparatory for the opening of school. The commencement of school means that there is extra life and stir in the community.

## BELIEF IN POSSIBILITIES

There is no question but that the negative attitude toward life is one of the greatest deficiencies in the character of any individual. Parents as a rule start their children on this shrinking from the confronting of life boldly and bravely. Life is like the nettle. If you grasp it firmly it will not injure you; but if you grasp it feebly it stings. Life presents the same problem. It must be faced and faced down. The Fates, the Greeks used to say, are cowards. Confront them boldly and all they can bestow for good is yours; shrink from them and all the evil they have is poured out upon you.

There is nothing in this world that cannot be done if one only tries to do it with the determination to succeed. Life is hard enough without parents suggesting to their children the possibility of failure or the chance of disaster. There is really no such likelihood to the man or woman who says "I will" and never "I won't."

Truly the vein of the Shakespearean character, vainglorious though he be, who said, "Why then the world's my oyster, which I with sword will open," is more true to the right view of human existence than that of the person who timidly draws back and says, "I'm afraid I can't." There is really no such a thing as an impossibility in this world. Whatsoever man has done in any age can be done again and as human genius and perseverance have triumphed over natural obstacles in all ages so they will triumph over them again.

People who are certain something cannot be done are always too many in this world. They have been the natural obstacles in the way of the progress of the world. They were the crowd who stood in the way of Galileo when he had discovered the motion of the heavenly bodies and compelled him to recant his "heresy" on pain of being burned alive. Poor Galileo recanted his new-found knowledge but even as he laid down the pen after having signed his recantation he was heard to mutter, "And still it does move."

You can run against the same old crowd in these days grumbling and growling and doubting everything in the way of progress and always backing the reactionary and imprisoning the visionary. "Right forever on the scaffold; wrong forever on the throne." These people never freely consent to support anything until long after it has become a success. Then they join the throng that hails the victor and agree that they had always said he was sure to win.

There are always many people who can tell you that some particular thing can't be done. "But, you know," said the lawyer to his client, who had been forcibly thrown off a train and left to find his way through the Arizona desert as best he could, "they can't do that sort of thing." "I don't care about their not being able nor permitted to do so," replied the client, "but I was thrown off and what are you going to do about it?"

True to the type of "real man" Alexander the Great walked up to the famous Gordian knot which so many kings and nobles had tried to untie and failed. Hit wits did not fail him for a moment. Its twists and turns and complexities were nothing to him. He drew his sword and severed the knot and as the oracle had prophesied became the conqueror of the world. That is the spirit that never fails. Even though under eclipse for a season it emerges, fair as the moon, bright as the sun and terrible as an army with banners.

## THE CONQUEST OF NATURE

It is likely that the trans-Atlantic submarine has come to the world a little sooner because of the war. It is likely, however, that it would have come to us even sooner if men had learned by this time to beat their swords to ploughshares and their spears to pruning hooks. The money spent on this war in Europe if devoted to education would have advanced mankind one thousand years. It would have abolished poverty and how much nicer it would have been for the people of the world to be paying the interest on all those billions of dollars to themselves rather than spending them for ammunition and putting them into the pockets of the navy and army builders.

Yet the world may be thankful that it is even so much ahead on the war game that it has conquered the air and the "waters that are under the earth." By and by there will be undersea passenger boats of all kinds running through the subocean lanes of the Atlantic and Pacific—on the surface when the sea is smooth and submersed when billows rage and gales blow hard.

There is no doubt that the feat of the Deutschland in crossing the Atlantic twice, with a cargo of merchandise, is likely to be an epoch-making event. To the Germans is due much praise for their undoubted ingenuity in subocean mechanics. That the Diesel internal combustion engine has contributed to the success of this sub-Atlantic journey goes without saying. The delicate and complicated engines that burn oil by internal explosion are without equal for this submarine work.

When the war is over the world will be the richer by several material improvements. Not the least of these will be the travel under the sea and through the air. It is well worthy of thought that the first modern writer to detail subsea boats was Jules Verne, a fiction writer of France. His works are well worth reading. "Twenty Thousand Leagues Under the Sea" is a literary gem in the way of imaginative scientific writing; yet all the details of the "Nautilus" have been worked out by different nations in subsea boats.

In like manner this same Frenchman detailed the dirigible balloon and a hundred other mechanical devices whereby man has, since Verne ceased to write, conquered the material world and made the winds and waves obey him.

Not the least of the fruits of the imagination of Jules Verne has been the German submarine "Deutschland" and the super-Zeppelin, 800 feet long, flying at a height of 14,000 feet; able to soar above the highest peak in the United States and also to carry hundreds of tons of explosives for the destruction of a few non-combatants here and there. What the super-airship will yet accomplish for the development of the world is only beginning to be seen. The work is really

wonderful so far as it has gone. Applied to construction and not destruction the super-airship could first open up all the secret places of the earth and then when the secrets of this world had all been discovered, if that were possible, as God is infinite, human attention could then be directed toward the conquest of the other planets and the discovery of the wonders of creation in the other worlds.

Meanwhile the developed submarine could find out all the secrets of the ocean just as they have been described in that wonderful work of Jules Verne. When wars have ceased the world should advance by leaps and bounds.

**FOREST NOTES**

More people are spending their vacations on National Forests this summer than have ever done so before, many persons traveling long distances by automobile in order to camp in these public playgrounds.

The rabies epidemic which is carried by infected coyotes is spreading eastward in Utah. Rabid coyotes are common in the entire western part of the State, and one has been killed within thirty miles of Salt Lake City.

Tourist registers are in use on many of the National Forests. By registering their names and destination, persons going into the mountains can arrange to have telegrams and other important messages forwarded by the Forest Rangers.

Experiments at the Forest Products Laboratory at Madison, Wisconsin, have resulted in the discovery of a method whereby the yields of alcohol and acetate of lime from the destructive distillation of hardwoods have been increased fifteen per cent.

**THE PRICE**

Independence is a valuable possession, yet it may easily be overdone. A traveler who carried that admirable trait to excess was passing over a country road that was new to him. He stopped at a small roadside hotel for dinner. When he was ready to start on again, the hotel keeper, after the manner of country hosts, asked him where he was going. The traveler was in a disagreeable mood.

"I have paid my bill, and it is none of your business," he replied. About half a mile from the hotel the traveler found that the road forked. He, of course, did not know which one to take, so he sent the driver back to inquire at the hotel. The hotel keeper had profited by the other's show of independence.

"You can tell the gentleman," he said, "that he has paid his bill and he can take whichever road he likes."

The annual value of the farm woodlot products of the United States is over \$195,000,000.

**Personals**

Miss Gladys Justema, 304 S. Central, is spending a few days at Redondo beach, where she is visiting friends.

Rev. and Mrs. W. E. Edmonds and family leave Tuesday morning for Camp Baldy, where they will spend the week. They will make the journey in their own car.

Mr. James H. Woods, Mrs. Nanno Woods and their family, 1222 Milford St., who have been spending the past two weeks at La Jolla, returned to Glendale Sunday night, greatly benefited by their vacation.

Mr. and Mrs. W. M. Crawford, 916 S. Central avenue, motored Sunday to Balboa beach, by way of Santa Ana, and thence along the coast to Long Beach, whence they returned to Glendale. They found all the beaches crowded with visitors.

Miss Lucile Nelson of 230 East Broadway celebrated her twelfth birthday on Friday and in celebration of the event spent the day in company with a number of friends at Long Beach. Those who accompanied her were her mother, Mrs. Jack Nelson, Mrs. Alice Hetrick, Mrs. Houk and Mr. and Mrs. K. C. Siple and son.

**EAGLEDALE NOTES**

Mrs. C. W. Young, Rock Glen avenue, returned Saturday from Hermosa Beach, where she has been spending the greater part of the last six weeks. Mrs. Young went first to Redondo Beach with the Camp Fire girls, of which her daughter, Amber, was a member. After a short time there she went to Hermosa, where she enjoyed a very pleasant time. Mrs. Young says that the beach is very cool compared to Glendale at present.

Mrs. Mildred Lerchen of Ellis avenue gave a very enjoyable entertainment to fifty guests, Wednesday night. The evening was devoted to dancing and cards. Delicious refreshments were served.

Four families from Eagle Dale got up a unique and profitable camping expedition to the beach at Malibu, just beyond Santa Monica, during the past week. They went in autos and had a trailer to carry what camping outfit they needed. They camped on the sand below Malibu and lived a regular gypsy existence. Those of the party were Mr. and Mrs. B. S. Bourne of Douglas avenue, Mr. and Mrs. J. Hartley-Taylor of Colorado, Mr. and Mrs. Peter Duckler of Grand View and Mr. and Mrs. Jack Lowe of Roland avenue. There were eleven little girls belonging to the various families in the party.

Mr. Frank, Mr. John Connor, Mrs. Maus and Miss Williams of Eagle Dale motored Sunday to Seal Beach, where they spent a very pleasant day.

**TO SELL GLENDALE FOOTHILL LOTS**

The real estate firm of Mrs. Nanno Woods and the Glendale and Montrose Railway company have joined offices. Mrs. Woods remains in her front office, now known as "The prettiest real estate office in Glendale," while the Montrose Railway company have fitted up the two back offices for the volume of their general business. Tickets and information may be obtained in the real estate office. This amalgamation promises to be of great mutual benefit to both firms.

During Mrs. Woods two weeks' vacation, from which she has just returned, the three offices have been altered and decorated; it will still take a few days to have everything perfectly ship-shape, but by the end of this week the arrangement of the handsome offices will be completed.

Mrs. Woods expects to devote much of her time to sub-division property. She has secured the sub-division of a new subdivision in Burbank, where land in acre lots can be purchased from \$550 to \$1000 per acre, gas, water and electricity furnished to each lot. She has also been so fortunate as to obtain the exclusive sub-division of Glendale Foothill Gardens, the first half-acre lots to be placed on the market in the fashionable North Glendale Foothill district. This sub-division is located on Pacific avenue and Sixth street, the latter having just been made into a splendid boulevard. The views from this locality are superb, commanding a magnificent view of the North Glendale Foothills, Griffith Park, the Hollywood Foothills and San Fernando Valley. These half-acre lots will be quickly snapped up, as the locality is high-class and the prices are low.

**REAL SALARIES**

The press agent statements as to salaries alleged to be paid to certain movie stars depend somewhat, in the matter of truth, upon whether stage money or real money is understood. Salaries with them are not infrequently like that of the actor who was offered fifty dollars a week by a manager. "Fifty dollars!" said the thespian, with great show of mingled surprise and scorn. "fifty dollars! Why So-and-So offered me a hundred."

"Yes, I know, but in this case you get it," replied the manager, and the actor signed the contract for fifty.

**POLITICAL ANNOUNCEMENT**

**MR. McNUTT CORRECTS THE ADVERTISEMENT OF MATTHEWS**

Editor Glendale Evening News: In your advertised notice of Matthews for Assemblyman there is this statement, "Mr. Matthews' candidacy has been endorsed by the Sixty-first District Republican Club, the Clean Government League, and the California branch of the White Cross Society."

This is a canard "to try to catch votes." There is no such a club as the Sixty-first Assembly District Republican club. Every Republican must know that. The Republican committee for the District has never even had a meeting since the candidates announced themselves for the Assembly. This same candidate has stuck large photographs of himself all over the District west on trees and telephone poles in the highways, etc., with this same statement of indorsement on them in large black type. They have a small figure 2 at the end of and below the line, but no one knows what that means and they only note or can see the large black type. It is conclusive that the intention is to make believe that he has been endorsed unqualifiedly by the Sixty-first District Republican club, which is false as there is no such a club in existence.

It should be added that posting these notices upon things in the public highways is a violation of Ordinance No. 204, New Series of the Board of Supervisors, which Ordinance makes it a crime with severe penalties to do such posting. All the candidates, I am advised, were this year served with warning copies of this ordinance, and you will observe in going about that Matthews is the only Assembly candidate who has violated it.

Mr. Matthews should have stated in his advertisement the number of mortgages in exorbitant rates of interest his corporation has been instrumental in placing on the homes of poor people. You remember that familiar "ad." "\$1,000,000 to loan, Matthews & Matthews, low rates, 5 to 7 per cent, no delay, quick action." But if you went in to get a loan, why they were just loaned up now, but they had a friend (perhaps that was our Wickliffe), who could make it, but at an exorbitant rate. He should also have given us a history of his dealing in tax titles. That you know is the catching of people who have forgotten, or are pushed for ready money.

Well, it would make you weep if you were to investigate the "White Cross Society" and the "Clean Government League," so-called, in East Los Angeles, as they are manipulated for political purposes by McNeill, who is managing Matthews' campaign. Money and ward heeling—ward heeling and money.

Will you let these things determine who shall go to the legislature to make laws for you?

Yours for straightforwardness and against all forms of deceit,  
P. S. McNUTT.

**LARGEST TUNGSTEN MILL**

The 300-ton mill of the Tungsten Company at Tungsten, Cal., is rapidly nearing completion, and present information is that it will be ready to crush ore on or before Thursday. All the different parts and machines of the plant have been turned over and tested one by one as installation has been completed, so that while there will undoubtedly be some final adjustments to be made, the mill will be practically ready to run almost as soon as the last artisan finishes his part of the contract.

Some ore has already been hauled over the railroad by mule power. Gasoline, instead of hay motors, will be ready for use in another day or two.

There appears to be little new to report from the mines. Connection between the lower tunnel and the Little Sister shaft will soon be made. The work is all in ore.

**Water, Water Everywhere! But—**

MOST of us don't know how to use it. And—those of us who do appreciate its value as a curative agent—haven't the facilities necessary.

Of all of Nature's curatives none has so wide a range of usefulness as water. This has brought into being a branch of rational medicine known as Hydrotherapy. Hydro means water; therapy means healing. Combine the two and you have: hydrotherapy or, healing by water.

Sounds simple, does it? But—it's hardly as simple as it sounds. There are over 200 procedures to be used singly or in combination. And—it requires skill of no mean order to employ them intelligently and effectively.

Understand—there is as much difference between the old-fashioned "water-cure" and new-fashioned Hydrotherapy as there is between the horse-car system of 1888 and the electric traction of today.

A single treatment in our Hydrotherapy Rooms will show you how water—as used at this institution—can adapt itself to any morbid condition. Tomorrow will be an excellent day to try it!

Treatment Rooms open 9 A. M. to 9 P. M., except Saturday. Trained Nurses of both sexes in attendance. For rates and appointment telephone Glendale 2 or Home 1213

THE OLDEST ESTABLISHED AND BEST EQUIPPED ESTABLISHMENT IN THE SAN FERNANDO VALLEY

We, as a nation, do not want war. We want peace. But to make no preparation against possible attack would be to invite war.

Speak the word, smile, nod, get out of yourself, away from yourself, find happiness in losing self. Give of yourself and in so doing you will be a gainer of much that money cannot buy.

Shallow men believe in luck; believe in circumstances. Strong men believe in cause and effect.—Emerson.

The weakest living creature, by concentrating his power on a single object, can accomplish something; whereas, the strongest, by dispersing his over many, may fail to accomplish anything.—Carlyle.

**STEPHEN C. PACKER** will be elected Supervisor at the Primaries if Glendale, Tropic and Casa Verdugo voters will do their duty August 29th. The polls will be open from 6 a. m. to 7 p. m. All persons who have registered since January 1st, 1916, can vote for Supervisor and other County officials whether party affiliations were stated or not. Later on a list of telephones will be published where voters may call for free Auto service to and from the polls on election day.

## VOTE FOR PACKER

### VOTE FOR A WORTHY CITIZEN OF GLENDALE AT THE POLLS TOMORROW

Tomorrow, August 29, is Primary Election day. Stephen C. Packer of 1462 Riverdale Drive, Glendale, is a candidate for supervisor in the Fifth Supervisorial district, his candidacy having been endorsed early in the year by more than 2,000 voters of the Glendale community.

The Glendale Evening News is always pleased to support home institutions and local candidates for office, providing such candidates are worthy. That Mr. Packer is a bona fide resident of Glendale is known to everybody who has kept in touch with the active citizens of the community for Mr. Packer has been active in supporting what stands for the betterment of Glendale. Mr. Packer has been identified with every movement that has been for the good of the schools. Whenever a school bond election was called to his attention he at once became an active worker for the success of the cause of education. Whenever it was suggested to him that there was a case of need in the community he was quick to respond to see that the necessary aid was furnished. Whenever there has been anything proposed for the benefit of Glendale Mr. Packer has been ready to lend his influence in making it a success. He has proven himself a very substantial citizen and as will have been noticed he has been given the endorsement of the banks and the leading business institutions of the city. Mr. Packer's platform has stated very emphatically that he will stand for the enforcement of all the laws for bettering conditions in the county. The management of the Evening News has sufficient acquaintance with Mr. Packer as a citizen that he feels positive that this gentleman's attitude on all questions that are for the welfare of the county will be absolutely right and that there is no question but he will do his duty in every particular.

### S. C. PACKER PARADE

As a demonstration of the respect and esteem in which Stephen C. Packer, candidate for supervisor from this district, is held in his own town, a large number of representative citizens organized a parade of automobiles Saturday. The parade started promptly at 4 p. m. from the Chamber of Commerce building and proceeded to make a complete tour of the district. This was one of the most successful parades of this kind that has ever been organized in Glendale. There were about fifty autos in the parade carrying an enthusiastic crowd.

The parade proceeded from the Chamber of Commerce down to Central, thence to San Fernando road, thence to North Broadway, Los Angeles, to First street, to Mission road, to Pasadena avenue, to Highland Park, to South Pasadena, to Pasadena and thence home by way of Colorado boulevard.

All along the route the parade was warmly greeted and the impression made by the number of autos and the number of people they contained was something more than temporary.

### MORE BRICK!

Brick, the venerable and reliable building material—unmistakably the oldest thing made by civilized man, as far as records determine—gives evidence of architecture on earth. It was the earliest substantial building material, and is the latest. Six thousand years of history which embrace the entire known period of human civilization deal with brick. The earliest sunrise of enlightenment on the far-away plains of Babylonia, in the remotest time of which we have no man-made record, revealed towers and walls of burnt brick. Today men are still building of the same material, and they expect their structures to stand as long as some of those in the Eastern countries stood.

Every great and commanding movement in the annals of the world is the triumph of enthusiasm. Nothing great was ever achieved without it.—Humphrey Davy.

STEPHEN C. PACKER, CANDIDATE FOR SUPERVISOR, FIFTH SUPERVISORIAL DISTRICT

MY BUSINESS ACQUAINTANCE WITH STEPHEN C. PACKER FOR THE PAST THREE YEARS HAS BEEN SUCH THAT I TAKE PLEASURE IN ENDORSING HIM AS EMINENTLY QUALIFIED TO FILL THE POSITION WHICH HE SEEKS, WHICH IS CANDIDATE FOR SUPERVISOR OF THE FIFTH SUPERVISORIAL DISTRICT, LOS ANGELES COUNTY, AND I HAVE THE UTMOST CONFIDENCE IN HIS INTEGRITY AND GOOD CITIZENSHIP, AND THAT HE WILL BE FIRM ON EVERY QUESTION THAT IS FOR THE MORAL, SOCIAL AND EDUCATIONAL ADVANCEMENT OF THE INSTITUTIONS OF THE COUNTY. HE IS A MAN OF FEW WORDS, BUT NOBLE PURPOSES, AND IT IS BECAUSE I BELIEVE THE ABOVE FACTS ARE TRUE THAT I WILL CAST A BALLOT FOR HIS ELECTION AT TOMORROW'S PRIMARY.—A. T. COWAN, PUB. EVENING NEWS.

### YOUR IDEALS AND YOURSELF

What are your ideals? Tell me and I will tell you what you are.

In your ideals your character is expressed. Your ideals are character.

In right ideals is safety. Ideals not only are goals to attain, but anchors as well. They do not hold down or back, but they do hold one steadfast to a purpose.

Anchor keep one from drifting. The idealist does not drift.

The greater the idealist and the higher and finer the ideals the straighter his course.

Strong characters move in straight lines, even as great ships steer the straightest of courses.

Weak characters vacillate, their life-course lacks straightness and steadiness, even as the track of the physically weak or drunken weaves

from side to side as he traverses the pavement.

Blessed is the man or woman with ideals. And God help the one without them. There is no emptier life than that without idealism.

Cherish your ideals and nourish them and you will come to find them nourishing you. "Man does not live by bread alone." Nothing truer was ever said.

Bread nourishes the body, ideals the soul. In ideals there is growth, in ideals there is life itself.—Attainment.

### VERY GRUESOME, INDEED

"And now," asked the school-marm, "who can give me a sentence containing the word gruesome?"

Up goes Johnnie's hand. "Dad," says he, "didn't shave for a week and he gruesome whiskers."

### WHAT IS A BRICK?

It is no mean testimony to the value of the first of all building materials that to call a man a "brick" is about the highest compliment we can pay him. Franklin Matthews, an American war correspondent, met Field Marshal Oyama, and became so impressed with his personality and excellent education that he wrote a two-hundred word cablegram home, in which, among other things, he said: "I find Marshal Oyama a brick." This was sent to the interpreter, who translated it in Japanese and sent both copies to the army censor. That afternoon Matthews was questioned by the commanding captain regarding the cablegram, and especially concerning the expression, "You are a brick." Matthews explained to him that in America when you called a man a "brick" you meant that he was a

splendid chap—fair and square, and all that." The captain smiled the Japanese smile and said: "Your interpreter was very clumsy. He translated the word 'brick' literally, making it read 'a lump of dried mud,' which puzzled me greatly. I am glad of your explanation."

### TRAINING A CHILD

If you would have courage in the child be courageous. Courage, truth, kindness and mercy, thoughtfulness, consideration, tolerance, patience, forbearance, sympathy and justice, or their opposites, will go into the making of the character of the child according to what it sees in us.

It behooves us, no matter who we are, whether we have children of our own or not, to be our best. Somewhere a child is watching, observing, thinking, unconsciously taking note.

## FREE AUTO SERVICE

### TELEPHONE LIST FOR CONVENIENCE OF PACKER SUPPORTERS

For free auto service next Tuesday Packer voters should phone:

Verdugo Precinct No. 1—Glendale 9858.

Verdugo Precinct No. 2—Phone Home 1703; Sunset Glendale 1398.
