VEGETABLE

AND OTHER
 PLANTS.

RICHARD VINCENT, Jr. & SON,

White
 Marsh,
 Baltimore
 Co., Md.

To Our Patrons:

We believe we are one of the largest growers of vegetable plants in the United States, our facilities for the same being unexcelled, having over two and a half acres of glass especially for this purpose alone. We are making special efforts to please our customers, as we believe we have done in the past, as numerous testimonials will show. On field-grown plants of cabbage, celery, tomato, etc., we can fill orders for almost any quantity at any time, making liberal reductions on large lots of same.

Being growers of plants, not seeds, and purchasers of the same, we receive no guarantee with them, therefore we give none with our plants, but purchase our seed from the best sources, and any inquiry in regard to whose stock the seeds are from will be answered to the satisfaction of our customers.

If there is anything you want in the way of seeds, trees, vines, plants or shrubs we will be pleased to quote prices on same.

When vegetable plants are ordered by mail add 10 cents per 100 to pay postage. Always order sent by express when possible, as we are enabled to send larger and better plants.

At the low prices these plants are offered OUR TERMS are strictly cash with the order, or satisfactory reference from parties who have had no dealings with us before.

We make special contracts for growing large lots for some of our patrons: if you need large quantities of special kinds, let us know early enough to plant for you, and we will make price to suit.

We are enabled to ship promptly, as we are connected with two railroads and two express companies, the United States and Adams.

Remittance should be made either in the form of an Express Money Order, Bank Draft, Registered Letter, or P. O. Money Order on *Baltimore*.
