ACTION REQUIRED - REFERENCES			
<p>As deemed appropriate</p> <p>1. Attached herewith is the original letter which contains a microfilm letter and copies of the microfilm. The letter was sent by an unknown writer from Paris, France in early December 1964 to William B. Snidow, United States Department of State employee to an address in Beirut, Lebanon. The letter was forwarded by sea pouch to Snidow in Barranquilla. Since the letter was of no personal interest to Snidow, he turned it over to Gerald R. Roberger for such action as he deemed appropriate.</p> <p>2. The letter apparently indicates that the writer wants to contact the Central Intelligence Agency and in one paragraph suggests that the reader not forget Bernon Mitchell and William Miller.</p> <p>3. The attachments are forwarded to Headquarters for whatever action is deemed appropriate.</p> <p style="text-align: right;">Alan A.
