**Gazetteer to Maps of  
LESSER SUNDA ISLANDS**

**MAP SERIES AMS T-551 SCALE 1:250,000**

Compiled by the United States Board on Geographical Names

This gazetteer is based on the second edition (AMS 2) of the 1:250,000 maps of the Lesser Sunda Islands (AMS T551) and is designed to facilitate the finding of inhabited places and natural features such as mountains, streams, capes and islands named on these maps. Names listed are not necessarily official names approved by the United States Board on Geographical Names. Listings are columnated as follows:

**COLUMN 1**

Names are listed as they appear on the maps and are in strict alphabetical order. Designations and abbreviations (other than inhabited places) are shown in brackets after the name only when the generic term in English does not form a part of the name. Where the name does not include an English generic term, and where no designation appears, it refers to an inhabited place. For key to designations and abbreviations shown in brackets, and for the glossary of foreign generic terms, see page III.

**COLUMN 2**

*Grid Reference.*—The grid reference for each name is composed of two parts separated by an oblique stroke: (a) the sheet number on which it appears; (b) the grid reference of the southwest corner of the grid square in which the name appears.

The grid references are of the normal "military" type, and fall in the N.E.I., Southern Zone. Grid references consist of a letter which refers to the 100,000 meter square, and two numbers, the first of which is the number of a line running from north to south, and the second of which is the number of a line running from east to west across the map. The intersection of the two lines thus numbered is the southwest corner of the 10,000 meter square containing the name concerned.

**COLUMNS 3 AND 4**

*Geographic Coordinates.*—Latitude and longitude respectively are given as of the center of a 2-minute quadrangle.

**An index map at the end of the Gazetteer shows the layout of the sheets in the series.**

**DESIGNATIONS AND ABBREVIATIONS**

|            |                     |                    |                |
