P R E F A C E

This Gazetteer of geographic names in the Hawaiian Islands is published by the Hydrographic Office from data compiled by the United States Coast and Geodetic Survey, Department of Commerce.

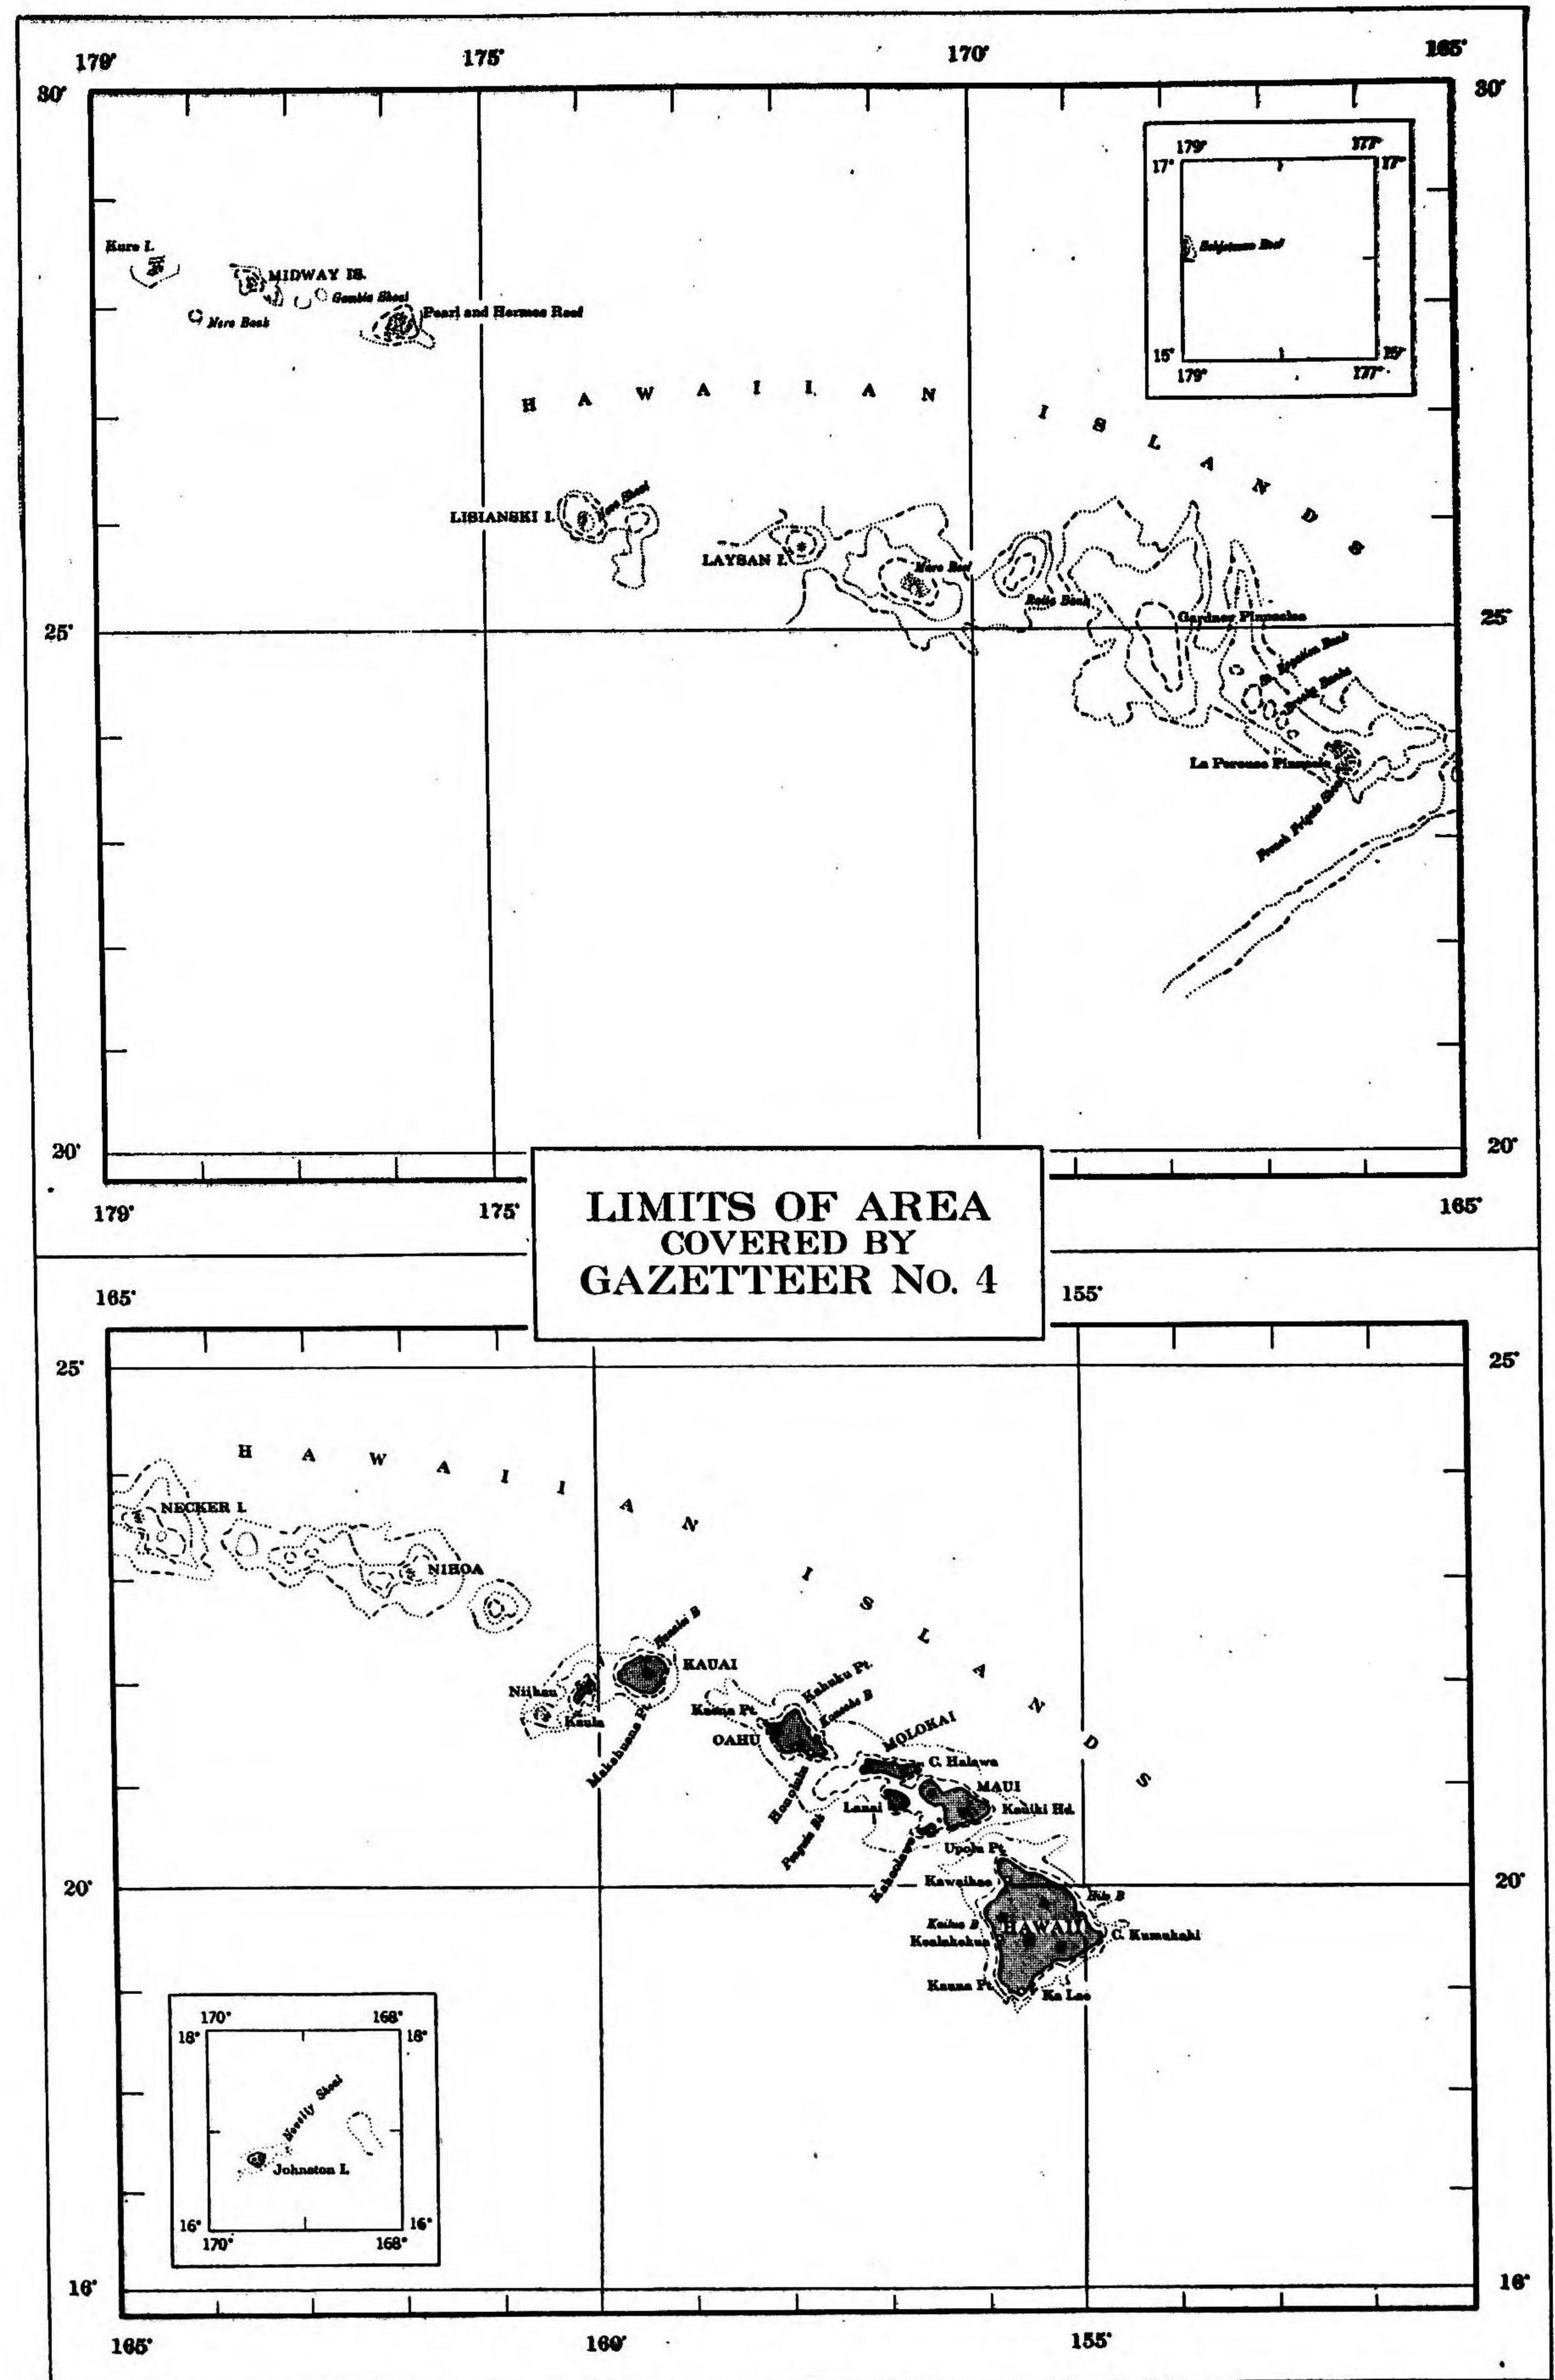

In the compilation, the names were transcribed exactly as they appear on the source charts and maps. The preferred names are shown in roman type, the alternative names in *italic*. The geographic coordinates of the features were taken from the source map or chart. No discrepancies in coordinates were found except on Kauai Island, and no attempt was made to reconcile these. Longitudes are from Greenwich.

Any errors or omissions noted in this publication should be referred to the Hydrographic Office, Navy Department, Washington, D. C.
