The acte of sale to be passed before L T Caire, not. pub at the expense of the purchasers. sep 10

ACADEMIES.

POONAH PAINTING.

NO Art is so calculated to improve the taste as that of Drawing. No study, therefore, is more beneficial to youth, none more gratifying in the declining period of life,

Many, however, are discouraged in their first attempt, and relinquish the Art as impracticable; but after taking a few lessons in the Poonah style, their ready success will give them an inclination to poetry nature. The effort may be difficult at first but the difficulty will speedly vanish while the advantages will be solid, and the gratification excessive.

The Paints and Method of applying them are entirely new. In point of softness the painting much resembles a fine engraving in brilliancy and blending of colours, it surpasses all conception of the former style, but the greatest supremacy it posess over the ordinary method is, that a knowledge of it may be acquired in a very short time, even by those who possess no taste in drawing, and no knowledge of the use of the pencil.

Mr. DE LOS RIOS,

Teacher of the new Style of indian japanning, &c in 9 lessons, respectfully request those ladies who are desirous of receiving lessons at their own residence, and who are unable to call at M. de Los Rios rooms, to send their address to his dwelling corner of Damain and Royal St under the book store of M. Guot. There will be six classes, each conducted by a different method, which will be arranged thus:

1st Class, drawing, painting, and golden on paper.
2d " ib ib ib on velvet, silk or cotton.
3d " ib ib ib on China or earthenware.
4th " ib ib ib preparing, goldea, painting brazen, and varnishing, on boxes.
5th " Preparing, golden, and forming fruits and flowers with colored brazen, &c.
6th " Golden, to silver over, borders, sifters, &c. on glass.

M. de Los Rios will give guaranty to those promised proficiency; so certain he is from the manner in which he gives lessons, that a pupil must acquire a knowledge sufficient to allow them to depend upon their own exertions, after having taken the lessons; and, unless such be the result, they will not, and cannot, expect any remuneration whatever.

The room in which M. De Los Rios exhibit his specimens, is open to the public from 10 until 5, admittance may be gained by visiters obtained their names, entrance in Dumaine Street. sept 15
