# v1 Designs:
Mentor Dashboard

Overview

The mentor dashboard is a centralized place that is meant to improve the overall mentor experience. It has tools and materials that help mentors have a better overview of their mentees and allows the mentors to be more proactive.

The dashboard modules have been designed based on previous research and the information gathered from interviews with the mentors.

Layout

This slide deck will showcase 9 different modules, however not all of them will be included in the dashboard. This round of feedback will help identify the top 3-5 modules that will be developed.

The layout will be similar to that of the newcomer homepage. It will have 2 columns with wide and narrow modules stacked on top of each other as it is exemplified in the next slide.

THE MODULES

M1: Overview of the mentees

Here mentors will have the ability to have an overview of their mentees contributions and progress.

Mentors can add a variety of filters to this table, which can help identity the mentees that need the most help. It also gives mentors the opportunity to reach out to their mentees first.

M3: Overview & questions

This module is a combination of the 1st and 2nd module. It includes a short preview of the questions and it showcases the mentees contributions.

The questions that haven't received an answer yet are shown in bold at the top of the table.

M4: Mentor tools

This module displays tools that help customize & personalize the mentor experience.

The module includes:

- Mentor status (active / inactive)
- Claim a mentee feature
- Ability to edit the message that is displayed to the newcomers
- Ability to add interests

M5: Mentor resources

The mentors will have easy access to the Growth teams work.

The list of helpful links and guidelines on this module will vary depending on the resources available for each wiki.

M8: Mentor list

This gives a quick preview of the most active mentors on your wiki. Mentors can use this list to reach out to other mentors with questions.

- Activity level is based on the last time the editor has made a contribution.
- You would view the whole list of mentors in a new window that will display their usernames, their message and maybe their top interests.

M9: Answers to FAQ's

This modules allows mentors to create, edit and save phrases that could be helpful for them when answering mentee questions.
