# Lilies Approved Varieties for the Garden

**Five Beautiful Lilies:** In order that you may have the greatest measure of success with Lilies, we have selected five varieties that are absolutely hardy, of easy culture and permanency. These five varieties will succeed anywhere without expert care. Their flowering season runs from June into September. *Lilium Candidum* should be planted from September into October. *Lilium Hansoni*, *Henryi*, *Regale*, and *Speciosum* may be successfully planted from late October until heavy frost. We make delivery at the proper time for planting.
