So MystiQ, Why the mask?

Think about the mask for a second? what does it represent to you? In this day and age the entire human population wears a mask - (Now with Carone here more)we all have two faces. We all have two sides (A dark side and a good side). In most cases we wear a mask to cover up our dark side. People who are angry, sad or in pain, wears a mask to hide behind a smile. Abusers wears a mask to hide the monstrous side with that of a kind and loving one. Behind the mask you can be pretty much anybody you want to be, and you can do pretty much anything you want to do and nobody will know it's you, but behind closed doors and curtain falls that mask falls off and you become the real you again. Sometimes when people suddenly change, it's not an actual change but just the mask that falls off.
