The House of Commons being come.

His Excellency the Governor General was then pleased to open the Session by a gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I welcome you to the second session of the twenty-sixth Parliament of Canada.

This is a time when it is possible, despite our many problems, to deliberate on Canadian and world affairs in a spirit of reasoned hopefulness.

My Government will attempt to make its full contribution to the maintenance of peace and the improvement of international relations; to the strengthening of our national unity through a co-operative federalism; to fostering the full employment of our people and the efficient growth of our economy; and to broadening the opportunities for a good life which should be open to all Canadians.

We are looking forward to the visit this autumn of Her Majesty Queen Elizabeth. The presence of the Queen of Canada will mark for our country the historic occasion of the interprovincial conferences on confederation; it will also re-emphasise the importance we attach to the Commonwealth, through which so much can be done to advance understanding and co-operation in this increasingly interdependent world.

We recently had great pleasure in welcoming to Ottawa the Prime Minister and the Foreign Secretary of the United Kingdom, with whom many matters of mutual concern were fruitfully discussed.

Since the close of the last session of Parliament, my Prime Minister has visited France and the United States. His friendly discussions with the President of the Republic of France will help to encourage an increasingly intimate relationship between France and Canada.

The unique partnership of Canada and the United States was symbolized in the signing by the President and the Prime Minister of an agreement by which the two countries become, for the first time, joint owners of property in what is to be the Roosevelt-Campobello International Park. You will be asked to approve legislation implementing this agreement.

A protocol signed during the Prime Minister's visit to Washington will make the Columbia River Treaty a basis for developments of great advantage to both countries. This was made possible by successful negotiations between my Ministers and the Government of British Columbia. You will be asked to examine and approve the Columbia River Treaty and the protocol.

Canada will this year be taking part in important trade and tariff negotiations. My Ministers will negotiate for the expansion of markets for Canadian exports through the liberalization of world trade.

In the conduct of external affairs, my Government will continue to work for the conciliation of international differences and for practical steps toward adequately controlled disarmament. Such steps depend on keeping the defences of the free world strong. My Government will submit for your approval a statement of a new defence policy designed to maintain an effective Canadian contribution to keeping the peace in co-operation with our allies.

At home there has been a heartening expansion of the economy. Employment has increased at an accelerated rate and the number of Canadians seeking

work has fallen. More progress is, however, required. My Ministers will propose a variety of measures which will further increase employment and raise the standard of living by strengthening and expanding the primary and secondary industries of Canada.

Comprehensive proposals to reform public regulation of the railways, and to facilitate the adaptation of the railway system to present and future needs, will be submitted for your consideration.

A measure will be placed before you to establish minimum wages, maximum working hours, statutory holidays and other labour standards for work under federal jurisdiction.

A measure will be placed before you to establish a comprehensive system of contributory pensions.

You will be asked to authorize, after consultation with the provinces, arrangements whereby university students requiring such assistance will be able to secure loans without payment of interest during the years of study.

Major amendments to the National Housing Act will be proposed.

You will be asked to approve the changes in fiscal arrangements with the provinces, decided upon at the Federal-Provincial Conference last November, which implement the principle of equalization in provincial revenues from the shared tax fields. It is my Ministers' policy to continue the series of federal-provincial conferences which last year achieved considerable progress in improving federal-provincial co-operation.

A measure will be placed before you to provide for a Minister responsible for Rural Development, in order that my Government may carry further its policy of giving increased attention to the needs of agriculture in both eastern and western Canada. You will be asked to consider other measures to assist in the improvement of farms and of farm income.

A measure will be placed before you to establish a twelve-mile limit for the use of Canadian fisheries. In co-operation with the provinces, my Government will undertake a national fisheries development programme reflecting the outcome of the Federal-Provincial Conference on Fisheries held last month.

You will be asked to consider measures to strengthen the position of periodicals published in Canada.

A measure to provide for the redistribution of electoral districts will be placed before you.

My Government intends to institute an inquiry to advise on the best practicable way to set enforceable limits to expenditures in election campaigns.

A measure to establish an age of retirement from the Senate will be placed before you.

You will be asked to consider amendments to the Citizenship Act which will ensure full equality of rights for all Canadian citizens wherever they were born.

You will be asked to consider measures to facilitate the reorganization of government in the interests of more effective and more efficient administration. In particular, a measure will be proposed to establish the Treasury Board under the presidency of a separate minister, who will devote his full attention to the increasingly urgent problems of the management of the public service and government expenditures. The President of the Treasury Board will be responsible for implementing other recommendations of the Royal Commission on Government Organization.

You will be asked to consider other legislative proposals.

Members of the House of Commons,

You will be asked to appropriate the funds required for the services and payments authorized by Parliament.

You will be asked to agree to the re-establishment of committees on defence and on the procedures and organization of Parliament, and to establish other special committees.

Honourable Members of the Senate,

Members of the House of Commons,

May Divine Providence guide you in your deliberations.

The Commons withdrew.

His Excellency the Governor General was pleased to retire.

The sitting of the Senate was resumed.

The Honourable Senator Vaillancourt presented to the Senate a Bill S-1, intituled: "An Act relating to Railways".

The Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The Speech was read by the Honourable the Speaker.

The Honourable Senator Vaillancourt moved, seconded by the Honourable Senator Leonard—

That the Speech of His Excellency the Governor General be taken into consideration on Tuesday next, 25th February, 1964.

The question being put on the motion, it was—
Resolved in the affirmative.

The Honourable Senator Vaillancourt moved, seconded by the Honourable Senator Leonard—

That the Senate do now adjourn.

PRAYERS.

Tribute was paid to the memory of the Honourable Senator Campbell, whose death occurred January 16, 1964.

Tribute was paid to the memory of the Honourable Senator Turgeon, whose death occurred February 14, 1964.

The Honourable the Speaker presented to the Senate the Report of the Parliamentary Librarian, as follows:—

REPORT OF THE PARLIAMENTARY LIBRARIAN

Second session of the twenty-sixth Parliament, 1964

To the Honourable the Speaker of the Senate,

The Parliamentary Librarian has the honour to submit his report for the last nine months. The last report was presented to both Houses on May 15, 1963.

The Joint Committee met once during the last session, on July 31st, to review Library matters.

The publication of the "Selected Additions List" was continued for the benefit of Senators and Members.

From May 1, 1963 to January 31, 1964, our staff answered 3,583 reference questions and circulated 20,349 books and periodicals. During the same period, 9,904 volumes were catalogued and classified, which brings to 202,328 the number of volumes recatalogued since the fire of 1952.

The Parliamentary Librarian and the Associate Parliamentary Librarian spent two days in Washington studying the operation of the Legislative Reference Service of the Library of Congress. They were cordially received by their American colleagues who gave valuable information on the kind of assistance their Service provides to Congressmen. The Parliamentary Librarian usefully visited the Legislative Libraries in Edmonton and Winnipeg.

On January 16, Miss Simone Chiasson, Head Librarian of the Department of Trade and Commerce, was appointed Chief Reference Librarian in replacement of Mr. T. E. Monette, who continues to serve the Library as Senior Library Consultant. Two other appointees to our Reference Department are Mrs. Zora Zink and Mr. René Rozon.

We have lent one of our reference librarians Miss Olive Gouthreau, to the Economic Council of Canada, for a period of four months, to assist in the establishment of its own library.

The Cataloguing Department was reorganized under the authority of Miss Florence Moore, assisted by Mrs. Monique Gould. Mr. Gerard Mercure replaced Miss Jean Durrell who left for Montreal.

We have established a Vertical File and a Clipping Service which have already proved most useful: our Xerox Photocopier will enable us to provide copies of clippings, articles or pages from books.

The Honourable A. W. Roebuck, Q.C., has presented copies of his *The Roebuck Story* and the Honourable F. W. Gershaw has provided copies of his *Highlights of Medicine Hat and District*, and *The Blackfeet Confederacy*.

The late Honourable John G. Higgins presented an early map of the Province of Canada. Amongst other gifts we should especially like to mention a leather bound set of *Timber in Canada*, vol. 1-13, 1940-1953, presented by the Canadian Lumbermen's Association and the seven volume *Transactions of the Canadian Sectional Meeting of the World Power Conference, Montreal, 1958* presented by the World Power Conference—Canadian National Committee.

The one unique addition is a three volume work, *Poetry in Canada's Parliament 1865-1960*, the manuscript of Mr. Bernard Figler, LL.L., M.S.W., of Montreal; it may be examined in the Library.

Increasing pressure on the House of Commons Reading Room has led to a continuing survey of how to improve its service and integrate it more closely with the Library.

During the recess we completed a survey on the need for professional librarians in Canada, 1962-1967. This was undertaken at the request of the Canadian Library Association as a modest centennial project and the report was published by the C.L.A.

Finally, language classes in French and English have been made available for interested members of the staff.

Respectfully submitted,

Erik J. Spicer,
Parliamentary Librarian.

APPENDIX

WEDNESDAY, November 25th, 1964.

The Standing Committee on Finance to which was referred the Estimates laid before Parliament for the Fiscal year ending March 31, 1965, reports as follows:—

1. On May 20th 1964 the following order of reference was adopted by The Senate:

That the Standing Committee on Finance be authorized to examine and report upon the expenditures proposed by the Estimates laid before Parliament for the fiscal year ending 31st March, 1965, in advance of the Bills based on the said Estimates reaching the Senate; and

That the said Committee be empowered to send for persons, papers and records.

2. In obedience to the foregoing, the Committee held a meeting for organization on May 21st, 1964. The Honourable Senator Molson was elected vice-chairman and a Steering Committee was appointed consisting of the Honourable Senators Flynn, Haig, Smith (Queens-Shelburne) and the Chairman and Vice-Chairman.

3. Subsequently the Committee held 11 meetings and heard evidence from senior officials of the Treasury Board, from the Comptroller of the Treasury, the Auditor-General and the Deputy Minister of Finance.

4. This is the first occasion since 1956 that the Estimates have been referred to a Committee of the Senate. Prior to 1956, the Finance Committee under the chairmanship of the Honourable Senator Crerar, and later of the Honourable Senator Hawkins studied the estimates and made reports thereon which were helpful and valuable. In the interval, since 1956, an important development that has taken place is a Report, officially known as the "Report of the Royal Commission on Government Organization" but more commonly called the Glassco Report after the distinguished Chairman of the Commission. Under that shorter title it is designated in this Report.

5. The Glassco Report dealt with many matters other than the Government Estimates, but as your Committee is concerned only with the Estimates, it is that aspect of the Glassco Report that has demanded our attention.

In dealing with the Glassco recommendations, it is desirable to re-state the place and importance of the Estimates in our Parliamentary system of government, and the methods and procedures whereby they are currently prepared, presented and approved.

6. The control by Parliament of the spending by the Executive has its roots deep in our constitutional history, going back in England as far as the days of the Long Parliament. In Canada, it was embodied in our Act of Union, and in the British North America Act. The Executive alone can initiate measures imposing charges upon the public exchequer, and in order to do so it must table in Parliament its Estimates of Expenditures. In the case of its Main Estimates, these are tabled on or about the commencement of the fiscal year to which they apply, so that Parliament may have early and ample opportunity to deal with the spending program for the new year. They are usually tabled on or about February 1st each year.

7. Many months of preparation, however, have preceded the tabling. About the first day of July 1963 the Treasury Board requested the various departments

of government to submit to it their establishment plans (that is to say, the expected numbers of staff members) and their expenditure requests, setting a deadline of November 1st, 1963, for such submission. Then during the months of November and December 1963 these submissions were studied, analyzed and, if necessary, revised by the Treasury Board and its staff. Discussion, argument and negotiation take place vigorously between all levels of Treasury Board staff and departmental staff during this period. The Ministers who are members of the Board met in December 1963 and conducted an intensive review of the estimates. It is at this stage that the various Departmental Ministers appear before the Treasury Board as suppliants for their particular areas of responsibility. The results were then recommended by Treasury Board to the Cabinet. The final decision on the Estimates was made by the Cabinet and thereafter the Estimates were printed and placed before Parliament.

8. In the light of the time factor involved in this procedure, it is understandable that from time to time during a fiscal year supplementary estimates are prepared and submitted to Parliament to cover expenditures unforeseen at the time of the preparation of the main estimates, or resulting from subsequent legislative action. Three such supplementary estimates have been tabled in Parliament for the current year, to date.

9. As of November 24th, 1964 the Estimates have not yet been approved and therefore no final Supply Bill has been voted by Parliament for the expenditures for this year. Because it has been necessary to supply the government with money on account so that it may carry on the business of the country, some five interim supply bills have been passed by Parliament so far this year, providing generally for expenditures for nine months and, in some cases, for ten or eleven months. It is an anomalous situation that most of the money has been spent before Parliament has approved the expenditures themselves.

10. The procedure as so described for this year is consistent with the pattern that has been followed for some years. It is familiar to all members of Parliament and need not have been set out in this report, were it not for the fact that in recent years criticisms have been voiced that seem to warrant examination.

11. It is far from satisfactory to have so long a period of time elapse before the final vote of supply by Parliament and to have so much money spent before the Estimates have been approved. Having in mind the increasing multiplicity and magnitude of Parliamentary duties, it would be desirable to bring about an earlier disposition of the estimates and the consequent bill or bills of supply. In this connection it is noteworthy that in the United Kingdom 26 days before August 5th of each session are given for the consideration of the annual estimates on supply. Therefore, there is a limit on the debate and a deadline for the final passing of supply.

12. The consideration of the estimates has traditionally provided an opportunity for debate, not confined to the items of expenditure, but also on grievances, within relevant limits, against the Executive. Indeed, at times this aspect of the debate may completely overshadow consideration of the financial items themselves.

13. The Senate as an integral part of Parliament has to debate and vote upon supply Bills before they are passed. Traditionally, it has exercised both the above-described functions when dealing with supply bills, namely, scrutiniz-

ing expenditures and airing any grievances which Honourable Senators may have against the Executive. Depending on circumstances, therefore, a debate could take two or three days, or no longer than one day.

14. Insofar as the financial aspect of supply bills is concerned, so long as the estimates are referred to the Finance Committee at each session, an opportunity is provided for the examination and scrutiny of expenditures. As to the other aspect, the airing of grievances, the rules of the Senate do provide other opportunities for members to raise such questions. Nevertheless, it is desirable to preserve and protect our rights in this respect in the debate on supply bills. Unfortunately, it has happened on a number of occasions over the past ten years that the Senate has been faced with an indirect form of closure forced upon it by the pressure of events and primarily caused by the insufficiency of time between the date a supply bill reaches the Senate and the deadline by which the government's legislative authority to spend would be exhausted.

15. Your committee calls attention to this situation in the hope that ways and means may be found to bring about an earlier and speedier disposition of the estimates and of the Supply Act or Acts based thereon, and to express its willingness to deal with such estimates with promptness and despatch to meet any earlier deadline that Parliament may wish to prescribe.

16. In carrying out the reference to it this year, your Committee did not examine in detail the estimates of any particular department, but it did consider the estimates in general, and questions as to various aspects of a number of departments were put to the witnesses before us. The Committee did devote considerable time to the procedures, forms and substance of the Estimates and in particular made a study of the recommendations of the Glassco Report to which we have referred. These recommendations were designed to bring about greater economy and efficiency in the financial management of the government. They have all been under intense study by the Government and its officials; some have been accepted and are being implemented, and others are in the process of being put into force. Four outside management firms have been engaged to do pilot studies for four different departments of government for the purpose of determining how the Glassco suggestions can best be built into the departmental systems of accounting and financial reporting.

17. The Glassco Report made this general statement, at page 94, of Volume I of the abridged Edition:—

“The conclusion is inescapable that the present procedures in developing and reviewing the Estimates are wasteful and inefficient. The form of the Estimates does not permit intelligent criticism and, in placing the major emphasis on the nature of expenditure rather than on its real purpose, the matters coming under senior review are the less important details of administrative judgment. Any valid assessment of performance by departmental management is excluded and it is virtually impossible to form any objective judgment from the Estimates as to the desirability of continuing, modifying or enlarging specific programmes in the public interest.”

18. Your Committee concurs in general with this analysis. Certain specific recommendations are then made in the Glassco Report and some of the major ones with our comments thereon are as follows:—

(a) “That the number of votes be reduced and all cost elements of individual programmes be consolidated within the same vote.”

Departmental estimates are broken down into subdivisions classified as "Votes" for the convenience of Parliamentary decision. This recommendation has been accepted by the government and largely applied in the 1964-65 estimates. In 1961-62, the Main Estimates included 495 votes, over three times the number currently used in the United Kingdom. The 495 votes have been reduced to approximately 240 in the current estimates and no doubt there can be a further reduction.

(b) "That departmental estimates should be prepared on the basis of programmes of activity and not by standard objects of expenditure."

Your Committee agrees that the *primary* emphasis in the estimates should be on the "programme" rather than on the standard objects of expenditures. The significance of an expenditure must be related to the purpose for which it is being incurred. Departments should justify their estimates by relating them directly to the programme that occasions them and, in turn, justify the programme as being worth the amount expended upon it, not only on its own account but also in competition with other needs for which money is required. This change however should not take place at the expense of omitting relevant details such as are contained in the standard objects of expenditures.

(c) "That the establishment review should be part of the overall review process of expenditures."

In essence, this means that the determination of the number of staff required in a department should be part and parcel of the determination of the cost of the various programmes of the department. The logic of this proposition is self-evident and it has been accepted by the government and is endorsed by your Committee.

(d) "That all departments and agencies should be required to prepare and submit to the Executive long-term plans of expenditure requirements by programmes, and that based thereon an overall forecast of government expenditures and prospective resources for a period of five years ahead should be prepared annually."

At present government budgeting and accounting are on a year to year basis. This is necessarily so, because Parliament should and does annually exercise its control and review of a government's administration. Nevertheless, a government should be aware of its probable longer term financial requirements. Increases in population alone will make greater demands upon many branches of government service. Most businesses now must project their budgets ahead for five years or more to be ready to meet changing conditions, obsolescence, new products and other potential developments. The use of such a forecast does not involve a decision to agree with projected expenditures but its value would lie in preventing decisions being made currently that would not take into account the future consequence of that decision by itself, and also in the context of its relative effect on overall operations.

(e) "That Departments and agencies be given the necessary financial authority and be held accountable for the effective management of the financial resources placed at their disposal."

This is probably the most significant of all the recommendations made by the Glassco Commission. In essence, it is a de-centralization of financial responsibility. The theory supporting it is that by making a department itself responsible for its financial expenditure, it will exercise that responsibility more effectively and economically than if some outside body is, as the Report puts it, "likened to a policeman patrolling the departments to ensure financial rectitude".

Your Committee desires to sound a word of caution in connection with this recommendation. The change, of itself, will not automatically bring about the desired improvement. Its success will depend upon how the key personnel in the civil service respond to the challenge involved in this delegation of greater responsibility to them, and assume the higher degree of accountability for the efficient and economical financial management of departmental affairs. In each department there must be a fully qualified and competent financial administrator under the Deputy Minister. In this connection your Committee has noted with approval that a course for training such personnel has now been set up in the Civil Service. It is to be hoped, but it still remains to be seen, that skilled and competent internal financial management within departments will bring about greater efficiency and savings. It should perhaps be made clear that such extension of authority within departments refers only to expenditures authorized by Parliament. Indeed, the change may well require even greater vigilance and more careful scrutiny of public expenditures by the Executive and Parliament.

(f) "That the costs of major common services be charged to user departments."

At present in many instances free services are provided to various departments of government, among which might be mentioned accommodation, furniture, power, franked mail, superannuation and other employee benefits. Your Committee agrees with the principle of this recommendation and, so long as its implementation does not superimpose an elaborate or expensive system, it is desirable that the costs of such services should be charged to the user department of them.

(g) "That where appropriate, revenues be offset against related expenditure, and that votes be shown in the Estimates and controlled on a net basis."

As the Glassco Report states, it is normal in industrial budgeting to relate revenues and costs. In government those revenues derived from services rendered are generally only incidental. Your Committee agrees in principle with this recommendation of the Glassco Report and we have noted that the officials of the Treasury Board are studying the practical problems it presents for the purpose of seeing how far the desired result can be achieved.

19. It is not our function in this Report to deal with recommendations of the Glassco Commission other than those relating to the Estimates. We have said enough to indicate our approval in general of the relevant ones. We emphasize, however, that decisions to spend are in the first instance decisions of government policy and that even Parliament's control over such decisions must be viewed in the light of our system of responsible government. Therefore, the total amount of the Estimates and the objects thereof are the primary responsibility of the government of the day and, once those decisions have been made, the most that management can do, and in practice Parliamentary scrutiny also, is to see that the expenditures are made as efficiently and as economically as possible, and without waste, extravagance or duplication.

20. In addition to its studies of the Glassco recommendations, your Committee inquired into a number of matters concerning the Estimates in general and also as to particular items. The questions and the answers submitted by the Treasury Board officials appear in the printed proceedings of the Committee, with suitable appendices where required, and for the purposes of this Report it is sufficient to say that all relevant information was obtained upon the items as to which members were concerned.

21. The following observations are made as to the Estimates in general. The Main Estimates for 1964-65 totalled \$6,703,513,508, or \$84,378,008 more than those of the previous year. It should be noted, however, that there was a substantial reduction in the current Estimates of the Department of National Defence from those of the preceding year, amounting to \$109,000,455.

It would be misleading, however, to compare the Estimates of respective years without taking into account the Supplementary Estimates. In the current year Supplementary Estimates have been filed totalling \$221,763,280 and the Minister of Finance in his Budget speech in March estimated that the total expenditure for the year would be about \$7,125,000,000, or \$233,000,000, more than in the preceding year, an increase of a little more than 3%. It is interesting to follow the trend of increases in expenditures over past years, and a table of the history for ten years is appended. This year's percentage increase in federal expenditures should also be viewed in relation to the 8% increase in the Gross National Product of Canada for the current calendar year over the preceding year, as currently estimated.

22. In the course of its deliberations, your Committee considered the place of Crown corporations and agencies with relation to the Estimates. Some of them do not appear in the Estimates at all and others appear with inadequate information. Having in mind that the purpose of the Estimates is to enable Parliament to scrutinize the financial operations of government, your Committee believes it would be useful on another occasion to examine the financial statements of one or more Crown corporations and to give the managements thereof the opportunity to testify as to their operations. Your Committee would be prepared to undertake such action if the Senate in the future should deem it advisable.

23. Your Committee desires to record its thanks and its appreciation for the evidence submitted by those senior officials of government who appeared before it and their courtesy and co-operation.

All which is respectfully submitted:

T. D'ARCY LEONARD,
Chairman.

PRAYERS.

The Honourable Senator Leonard, from the Standing Committee on Banking and Commerce to which was referred the Bill S-20, intituled: "An Act to incorporate Bank of British Columbia", presented the following report:—

MONDAY, December 14th, 1964.

The Standing Committee on Banking and Commerce to which was referred the Bill S-20, intituled: "An Act to incorporate Bank of British Columbia", has in obedience to the order of reference of June 9, 1964, examined the said Bill and now reports that in the opinion of your Committee the preamble to the said Bill has not been proved for the following reasons:

At the hearings before the Committee, the Premier and other Ministers of the Government of the Province of British Columbia appeared in support of the Bill and stated that, if the Bill were passed, the government of that province would subscribe for up to 10% of the shares to be issued by the bank; so far as your Committee is aware, there is no precedent for the ownership by the government of a province of a substantial proportion of the shares of a chartered bank operating under the provisions of the Federal Bank Act; this could involve the effective control of a federal chartered bank by the government of a province, a situation which would raise important questions of public policy and of constitutional law; your Committee is of the opinion that these are matters of general policy which should be determined by the Parliament of Canada in the forthcoming revision of the Bank Act, and that pending such determination this Bill should not be proceeded with.

All which is respectfully submitted.

T. D'ARCY LEONARD,
Acting Chairman.

The Honourable Senator Leonard moved, seconded by the Honourable Senator Paterson, that the report be taken into consideration at the next sitting of the Senate.

The question being put on the motion, it was—

APPENDIX

MONDAY, February 8th, 1965.

The Special Joint Committee of the Senate and of the House of Commons appointed to consider Bill C-136, intituled: "An Act to establish a comprehensive program of old age pensions and supplementary benefits in Canada payable to and in respect of contributors", makes its third Report as follows:

1. Pursuant to the Order of Reference of the House of Commons of November 16, 1964, and the Order of Reference of The Senate of November 18, 1964, your Committee had before it for consideration Bill C-136, intituled: "An Act to establish a comprehensive program of old age pensions and supplementary benefits in Canada payable to and in respect of contributors."

2. Your Committee was comprised of thirty-six members: twelve Senators, namely, Honourable Senators Blois, Boucher, Croll, Denis, Flynn, Fergusson, Lang, Lefrançois, McCutcheon, Smith (*Queens-Shelburne*), Stambaugh and Thorvaldson, and twenty-four members of the House of Commons, namely, Messrs. Aiken, Basford, Cameron (*High Park*), Cantelon, Cashin, Chatterton, Côté (*Longueuil*), Francis, Gray, Gundlock, Klein, Knowles, Laverdière, Lloyd, Macaluso, McCutcheon, Monteith, Moreau, Munro, Olson, Paul, Perron, Rhéaume and Scott.

3. Subsequently, Honourable Senator Smith (*Kamloops*) was appointed in place of Honourable Senator Lang, and the following members of the House of Commons, namely, Mrs. Rideout and Messrs. Marcoux, Howe (*Wellington-Huron*), Leboe, Morison, Enns and Prittie were appointed in place of Messrs. Klein, Olson, Paul, Marcoux, Moreau, McCutcheon and Scott respectively.

4. A Subcommittee on Agenda and Procedure was appointed. The members were: Honourable Senators Croll, Fergusson, McCutcheon, and Messrs. Cameron (*High Park*), Chatterton, Côté (*Longueuil*), Francis, Knowles, Monteith and Munro. During the latter stages of the Subcommittee's proceedings Mr. Aiken was appointed in place of Mr. Monteith, Mr. Basford in place of Mr. Côté (*Longueuil*), and Senator Smith (*Queens-Shelburne*) in place of Senator Croll.

5. Your Committee held 51 sittings and heard approximately 116 witnesses, including individuals speaking on their own behalf and others who represented various public and private organizations. A list of individuals appearing on their own behalf is attached hereto and is marked Appendix A. A list of various public and private organizations presenting briefs, and the individuals who represented such organizations, is attached hereto and is marked Appendix B. A list of individuals and organizations who presented briefs but did not appear is attached hereto and is marked Appendix B-1. The members of the Committee expressed their gratitude to these witnesses for their efforts and contributions.

6. Your Committee also heard officials of Government departments, a list of whom is attached hereto and is marked Appendix C. The members of the Committee expressed their gratitude to these witnesses for the time and effort they expended by their attendance at numerous committee meetings and their forthright and able explanations and advice throughout the hearings. The Committee wishes to thank especially the following: Mr. J. E. E. Osborne, Technical Adviser to the Committee, for his very able assistance; Dr. Maurice Ollivier, Parliamentary Counsel, who advised the Committee as to the proper procedure to be adopted; and Mr. Maxime Guitard, Clerk of the Committee, for the thorough and capable way in which he assisted in organizing all of our committee meetings.

7. The Committee, after full study of the matters placed before it, endorses the principles of the Canada Pension Plan as an addition to the existing pension benefits provided to the Canadian people by Old Age Security. These principles are as follows:

- (i) The total pension available to Canadians in retirement should be in part flat rate and in part earnings related.
- (ii) Earnings related coverage should be as broad as practicable.
- (iii) The level of combined benefits available under the Canada Pension Plan and Old Age Security should represent a high proportion of the previous earnings of those people whose income does not permit other adequate provision for their retirement.
- (iv) There should be scope for further benefits under private pension plans for those in a position to afford them and integration of private pension plans with the Canada Pension Plan should be a matter of consultation between employers and employees.
- (v) There should be protection for widows, orphans and disabled persons.
- (vi) Full pension benefits under the Canada Pension Plan should become available after a relatively short transition period to retired persons 65 years of age and over.
- (vii) Pensions available at retirement should reflect the rising productivity of the Canadian economy and should therefore bear a direct relationship to the increases in the level of earnings that have taken place during a person's career; pensions should also be protected against the inroads of any possible future rise in price levels.
- (viii) There should be safeguards in the Canada Pension Plan which will guarantee that future efforts to increase the level of benefits will require that full consideration be given to the cost thereof.

8. As will be noted in paragraph 10 of this Report, your Committee recommends the adoption of Bill C-136 amended in the manner set out in Appendix D. However, your Committee also recommends that consideration be given to the making of the following changes in the Bill:

- (i) that the provision exempting the Armed Services and the Royal Canadian Mounted Police from coverage under the Canada Pension Plan should, if integration is technically feasible, be deleted;
- (ii) that the provision of a maximum benefit of \$104.00 a month payable in respect of the orphans of one contributor be deleted, and that in lieu thereof provision be made for the payment of a flat rate benefit of \$25.00 a month for each of the first four orphans, and an additional benefit of \$12.50 a month for each additional orphan, of one contributor;
- (iii) that an additional type of benefit, namely, a dependent child benefit, payable in respect of each child of a disabled contributor, be included in the Bill, the amount of such benefit to be the same as that provided in respect of orphans;

- (iv) that the provision authorizing a drop out of 10% of the months of lowest average monthly earnings be deleted and that in lieu thereof there be a drop out of 20% of the months of lowest average monthly earnings for the purpose of calculating a contributor's benefit upon retirement;
- (v) that more specific authority for regulations respecting benefits for disabled persons be included in the Bill, such regulations to cover:
 - (a) the conditions upon which a benefit may be paid and continue to be payable,
 - (b) initial, periodic and other assessments of disability and for the payment of the cost thereof under the Plan,
 - (c) the requiring of an applicant to undergo rehabilitation where practicable and available,
 - (d) the payment of a benefit to such person while undergoing rehabilitation if under the circumstances it is considered appropriate,
 - (e) the granting of authority for an applicant to engage in therapeutic employment while undergoing rehabilitation if such is recommended as part of therapy,
 - (f) a provision that where rehabilitation is recommended failure without good cause as defined by regulation to undergo rehabilitation be a ground for determination that a person has ceased to be disabled, and
 - (g) a provision that where rehabilitation is required and undergone, the cost thereof be payable under the Plan;
- (vi) that the Old Age Security Act be amended so that a person who has not resided in Canada for the 10 year period immediately preceding his application should be able to draw the Old Age Security without having resided in Canada for the last year immediately preceding approval of his application, providing he has resided in Canada for a total of at least 40 years since attaining the age of 18.

9. The Committee also recommends that the Government give consideration to further measures regarding the position of those people who, because they are or soon will be retired, will not be substantial contributors to, or beneficiaries from, the Canada Pension Plan.

10. The Committee having given full consideration to Bill C-136, an Act to establish a comprehensive program of old age pensions and supplementary benefits in Canada payable to and in respect of contributors, has agreed to report it with the amendments set out in Appendix D attached hereto.

11. A copy of the Committee's Minutes of Proceedings and Evidence (*Issues Nos. 1 to 24*), respecting Bill C-136, is appended.

All which is respectfully submitted.

After which the Honourable the Deputy of His Excellency the Governor General was pleased to close the Second Session of the Twenty-Sixth Parliament of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

The second session of the twenty-sixth Parliament opened on February 18, 1964, and you have been in session for a longer time than any other Parliament in our history. You have enacted much important legislation and approved many government actions of great significance for Canadians.

Canada was honoured by the presence of Her Majesty The Queen, and of His Royal Highness The Duke of Edinburgh last October, when we commemorated the conferences held a century before which paved the way to Confederation.

In the past year there was a very substantial increase in the number of people employed in Canada. Unemployment was reduced to the lowest level for many years. Economic growth has accelerated. The 1964 expansion in the Gross National Product was the largest percentage increase to be achieved since 1956. The incomes of Canadians have risen to new high levels. Exports have greatly improved, including particularly exports of manufactured products. Interest rates have been held at relatively low levels and monetary conditions have assisted business expansion. The Government's budget deficit has been sharply reduced.

The first report of the Economic Council of Canada, analysing the great potentialities for the expansion of the Canadian economy between now and 1970, has been laid before you. My Ministers are assessing the policies required to meet the challenge of these potentialities.

My Government has agreed with the governments of all the provinces to recommend a measure whereby all amendments to the constitution of Canada will in future be enacted in Canada.

You have made an important reform by providing that independent commissions shall undertake the redistribution of electoral districts for the House of Commons, on a basis that will rectify many disparities in the representation of the people.

Following the recommendation of a special committee representative of all parties in the House of Commons, you have expressed your approval of a distinctive Canadian Flag. By Royal Proclamation this flag, in the Canadian colours of red and white and bearing the Canadian emblem of the maple leaf, was inaugurated on February 15, 1965. My Ministers are convinced that, through the years, the flag will constitute an important contribution to Canadian unity and Canadian identity.

With Her Majesty's consent, and in accordance with your recommendation, the Royal Union Flag will be flown on appropriate occasions to symbolise Canada's membership in the Commonwealth and our devotion to the Crown.

You have enacted legislation authorizing the integration of Canada's three armed services and have approved a White Paper on the re-shaping of Canada's defence policy to improve the effectiveness of our contribution to peace-keeping and international security.

The preliminary report of the Royal Commission on Bilingualism and Biculturalism has been laid before you. My Ministers have been gratified to observe the improving understanding of problems arising from the reality and importance of the dual character of our country.

In the spirit of co-operative federalism, my Government has held important conferences with the governments of the provinces, and close consultation has greatly improved the co-ordination of federal and provincial policies.

You have enacted legislation whereby the abatement of federal tax on personal incomes, in favour of the provinces, will be increased during the next two fiscal years. You have also enacted legislation whereby my Government may make, with provinces which so wish, alternative financial arrangements respecting certain established programmes the cost of which is shared by my Government.

The federal-provincial conference has established a tax structure committee which is reviewing the fiscal needs and relationships of federal and provincial governments.

You have approved an address to the Queen as a result of which the British North America Act was amended to provide that Parliament may legislate concerning benefits, for disabled persons and for survivors, supplementary to old-age pensions.

Following this constitutional amendment, you enacted legislation to establish the Canada Pension Plan, for the comprehensive provision of retirement pensions which will be fully portable and which will be kept in line with changes in earnings and in the cost of living. In the same legislation you have provided a measure of income maintenance for contributors who become disabled and for the widows and children of contributors who die.

In the same legislation also, you have provided that the old-age-security pension will in future be paid from age 65 and that the basic amount of the pension will be increased if the cost of living rises.

You have enacted legislation whereby allowances of \$10 a month are paid in respect of children aged 16 and 17 who are not working, either because they are unable to do so or because they are receiving full-time education.

You have adopted a measure whereby my Government may guarantee bank loans to university students and pay the interest on these loans during the years of study; this programme is being administered in co-operation with the provinces.

You have enacted a measure to establish a labour code for industries under federal jurisdiction. The code provides for a minimum wage of \$1.25 an hour and for standards respecting hours of work and holidays.

The cash income of Canadian farmers rose in 1964 to a record level. Exports of wheat were the largest ever. Revisions in dairy policy were reflected in increased production, especially of cheese, better sales and prices, and the elimination of the butter surplus.

You have enacted a measure establishing a new type of farm credit, so that partnerships of farmers may borrow for the purchase of machinery to be used co-operatively.

You have enacted legislation to double the size of loans which may be made by the Farm Credit Corporation and of loans by chartered banks guaranteed under the Farm Improvement Loans Act.

You have adopted a measure whereby my Government may provide re-insurance of the major portion of the disaster risk to any province establishing a crop insurance programme.

You have approved increased assistance to farmers in eastern Canada and British Columbia purchasing feed grains.

My Government is expanding the work of ARDA and has made with the provinces a new agreement respecting programmes for the five years beginning 1 April, 1965.

You have approved an increase in Canada's contribution to the World Food Programme.

In 1964 Canada's fisheries established records both in the quantities landed and the value of the catch to fishermen. A federal-provincial conference on fisheries development gave impetus to a widespread programme of industrial development in the fisheries.

You have adopted a measure establishing a twelve-mile fishing zone.

You have approved increases in veterans' pensions and allowances, enabling their recipients to maintain their standards of living and to share in the benefits of a more buoyant economy.

By amending the National Housing Act you have broadened the range of financial assistance available for urban renewal and low-rental housing.

My Government has concluded an agreement with the United States respecting free trade in automobiles and their components. The agreement makes possible for the industry programmes designed to achieve substantial improvements in efficiency, production and employment.

You have approved the payment of subvention assistance on the movement of Canadian coal for a period of five years from 1 April 1965, and have authorized loans for coal production assistance for a further period of four years.

You have enacted legislation whereby divorce Bills can be dealt with more expeditiously.

My Government has initiated inquiries directed to the re-assessment of immigration policy and procedures.

My Ministers have made further progress in the study and implementation of many of the recommendations and suggestions of the Royal Commission on Government Organization.

We must note with regret that in the past year there has been little progress in reducing international tensions. In recent weeks, some tensions have been heightened. My Government has continued to make constructive efforts towards peace and good neighbourliness.

You have approved the participation of Canadian troops in the United Nations Force in Cyprus. Though no long-term solution to this problem is yet in sight, the United Nations Force has been successful in controlling armed conflict.

You have approved the Columbia River Treaty and its protocol, which my Government subsequently ratified. These arrangements are of mutual benefit to Canada and the United States, providing this country with large supplies of low-cost power and increasing opportunities for employment.

My Prime Minister attended the Conference in London of Commonwealth Prime Ministers to discuss matters of common concern, including the establishment of a Commonwealth Secretariat.

My Government convened a conference of experts to exchange experience on the practical and technical problems of peacekeeping. The Commonwealth Education Conference was held in Ottawa.

In the search for international understanding and co-operation, my Prime Minister and his colleagues have visited and received a number of leaders of other countries, including the Presidents of Ireland and the United States; the Prime Ministers of Britain, Japan, Malaysia and Trinidad and Tobago; the Chancellor of the Federal Republic of Germany; the Foreign Ministers of Australia, Belgium, Britain, France, Germany and Norway; and the Secretaries-General of the United Nations and of NATO.

Canadians recently joined with the people of Britain, the Commonwealth and the world in paying final tribute to Sir Winston Churchill, to whom so much was owed by all free men.

Members of the House of Commons

I thank you for the provision you have made for the public services in the current fiscal year.

Honourable Members of the Senate,

Members of the House of Commons,

May Divine Providence continue to bless our country.

The Honourable the Speaker of the Senate then said:

Honourable Members of the Senate:

Members of the House of Commons:

It is the will and pleasure of the Honourable the Deputy of His Excellency the Governor General that this Parliament be prorogued until Monday, the fifth day of April, 1965, to be here holden; and that this Parliament is accordingly prorogued until Monday, the fifth day of April, 1965.
