JAN 14 1950

1. 1. Reference Radio 42842, Chugoku Civil Affairs Region, dated 12 January 1950.

2. The following information is forwarded for your information:

Chugoku Civil Affairs Region reported at 1315 hours, 12 January 1950, that a second report had been received from Taiyo Fishing Co., Shimonoseki, as follows:-

"An unknown warship (one mast high powered diesel engine) approached No. 3, TAIYO MARU at around 0000 this morning (12 Jan.) and opened machine gun fire. Military personnel from the warship got on board and the boat moved on a northerly course.

The warship then started to chase the other Japanese fishing boats in the vicinity but suddenly turned off the lights and disappeared with great speed.

From past experiences it is believed that the Japanese fishing boat was taken to SAISHU Island (ZUZU Army) either to Port ZUZU or Port REISUI or to Port FUSAN.

The area is patrolled by Japanese patrol boats and the company is absolutely sure that the #3 TAIYO MARU was inside the recognized fishing territory.

The company appeals for the immediate return of the fishing boat."

3. This section requests to be informed of any information that might be received concerning this ship.

Ref C 54501 transmitting your 5, Jan 19.
Since we have been in touch informally last few days with Korean FONOFF with view facilitating release Jap fishing vessels, I thought it best to communicate copy of your note fo FONMIN. This was done yesterday afternoon. At that time FINMIN showed EMB Officer draft of instruction to Korean Amb Tokyo asking him to propose to SCAP return of Jap fishing craft provided 8 Korean craft allegedly seized over past several months by Japanese are returned to Korea. On suggestion Emb Officer FONMIN agreed to delete from his draft instruction a proposal that return of fishing craft be settled in conjunction with solution broader problem of Korean and Japanese claims and counter claims to large number of vessels in Korean and Japanese waters at time of Japanese surrender.
For your info, FONMIN stated FONOFF does not possess copies of your notes of Apr 29, Jun 7 and Sep 24. Early receipt by Emb of copies of cited notes might facilitate settlement of problem. Vessels enumerated in your note are now in Mikpo and according to FONOFF crews and vessels in good condition.

Propaganda speech of the President of the Korean people's republic association (Choson Immin Kong was Heop Hie)

The essentials of the speech

People must know this that the South government which is owned by the traitor Ee Seung man is a branch of the United State of America and look how the police and army forces treat the none-known good people living in South Korea. Such police and army forces are brought up by the runious Ee Seung mang and his men.
Now we have to protect such good people from them and make these people free. This is a duty which we have to perform as soon as possible.

Kim Tong-gu, the commander of people's military forces (Chosun In-min Konwa-gun Chang-gwan)

North Korean people's military forces are grew by Gen. Kim Ilesung who is the head leader of us. Gen. Kim's mobile forces on moving in the South Korea are fighting, sparing no pains and grudging no lives, for all people's happiness, expansion, progress and even our descendants. Why they are so brave and noble? because they have inherited Gen. Kim's blood and they are proud of that. We should Know, there is only way that we could organize a firm government, is to burst the traitor Ee Sun-man's South government and the American imperialistic policy entirely.

To unify our country we have already prepared enough armaments to sweep the traitors from South Korea. Let us fight bravely for our democracy.

It has been passed two years since the people's military forces were established. Now its made remarkable progress.

SUBJECT: Recent Activity of Koreans about Korean High School

FROM: Yao Municipal Police Station

TO: Chief, Legal & Government Section

Since last October when the closure of Korean Schools was instructed, all Korean students have ~~been~~ entered the Japanese schools quite peacefully in Fuse City. But recently there is some showing that the former principal and some other teachers of a Korean High School in Fuse City are trying to establish a school for only Korean students as follows:

On 11 January 1950, some 40 Korean students appeared to the Korean High School where had been no classes since the ban of Korean Schools.

On 12 and 13th January 1950, some 100 Korean students seem to have attended classes at the above mentioned school from Fuse and Osaka cities.

On 14 January 1950, there was a poster posted on the main gate of the school reading "Entrance Ceremony takes place at Tamagawa Gakuin".

Further investigation revealed that on the verbal agreement made by SO Bunki, former principal of the Korean School, and NISHIWAKI, vice-chairman of Osaka Educational Committee and principal of Tamagawa Gakuin, (that is Higashimoto Junior and Senior High School) the Koreans concerned are trying to re-establish legally a Korean School by calling it a branch of Tamagawa Gakuin, with intention of giving classes for the former students of the Korean High School.

Yao Municipal Police Station is now under investigation.

RE: TREND OF KOREAN PEOPLE

IN AKASHI CITY

From around 1000 hrs. on Jan.18,'50,four or five hundred Korean people headed bybthe former staffmembers of the now defunct League of Korean People assembled at the former Korean schoolbuilding instituted by Korean League and discussed about the following items:

1. Re: Registration of Foreign Nationals.
2. Re: Relief to the Needy.
3. Re: Shutdown schools.

Then five(5) representatives visited the City Hall to see the mayor around 1330 hrs and presented the following demands:

1. The City management should burden the whole of the charges for taking photographs neceesary for the change of foreign nationals registration at this time.
2. The City management is requested to take good offices in giving jobs for the needy.
3. Take account of the relief method for the needy.

For which the mayor's answer was as follows:

1. Although the city management is unable to burden the the whole charges of taking photographs, some amount of money shall be supplied as a part of a ring in connection with the relief enterprise for the needy,after investigation of the actual situations.
2. As to giving support in getting jobs for them, about hundred daily labors a day are now being hired by the city management,it is advisable for you to join in our enterprise.

The representatives,acknowledging the mayor's answer,left the City Hall at 1430.

SUBJECT: Special Report on Korean Activity - Kanagawa Prefecture
Translation NRP Report 22nd November 1949

TO : Commanding General
Eighth Army
APO 343
(Attn: Civil Affairs Section)

1. This report submitted in compliance with Operational Directive 56, para 5, dtd 16 November 1949.

2. The Mindan has started the registration of all Koreans in the prefecture with strong but passive opposition from the Choren.

3. One Lee-Gen-Kyo, vice-president of the Mindan is planning to organize the "Great Koreans Welfare Association". This is apparently an anti-communist faction whose aim is to alleviate the present difficult living conditions of Koreans. Offices are in the Kishimoto Building in Tokyo, Room 417. The president is: Lee-Gen-Kyo Vice-president: Jo-Chu-Shin. Boku-Gen and Kin-Ka-Kyo are also officers. One of the association's aims is to train their young people for such jobs as communication technicians, marine and air transport and other services. Placement bureaus are to be established and anti-communist culture is to be sponsored.

4. Koreans in general seem to be apathetic toward the registration. The Mindan seem short of finances and even in Kamakura where the Mindan is popular, enthusiasm for the registration is at a low ebb. The Choren have expressed their opposition by pamphleteering in the following vein:

"(a) Why break your neck to register when the purpose of it is to find conscripts for Lee-Sho-Ban. (the president of the South Korean Government)

(b) Registration will give us nothing except examination into our incomes for tax assessment.

(c) You were told that the registration would facilitate trips to Korea. In a few months if you do go it will be at the risk of your life since the Northern Koreans will control the entire country.

(d) The Mindan reactionaries will eventually be tried by our People's Court."

5. About 200 persons attended an opening ceremony sponsored by the Mindan in Odawara City. The head of this branch is Tei-Chin-Kaku. Thirty former members of the dissolved Choren tried to disturb this ceremony and gathered in front of the Odawara R.R. Station. Cross examination of Mindan members took place in true Korean fashion. Two policemen were then dispatched by the Odawara Municipal Police and the affair quieted down.

a. In view of the Choren dissolution rapid development of the Mindan is anticipated. Preparations are now under way in Ofuna, Fujisawa, Zushi, Oppama and Yamato-machi. Closer surveillance therefore, of the expanding Mindan will be required.

b. Additional pamphlets appeared in opposition to the Mindan registration which adopted the following refrain (In. translation follows):

"Fellow Countrymen:

Korean registration is the road to annihilation, fellow countrymen in this prefecture, fight against it absolutely.

Not only Koreans but also Japanese with sense are angry and fighting against the arbitrary Yoshida oppression for dissolving the Choren and the Minsei, confiscating private property and now closing the schools.

At this moment the Lee-Sho-Ban government and his catspaw, Mindan did not dare to protest but are trying to expand Lee-Sho-Bans influence by this happening. We appeal to our brethren to oppose them for the following reasons:

(1) What is the aim? To undermine the Koreans who fight against oppression and strengthen the Mindan who serve the reactionary Yoshida Cabinet.

(2) Citizenship This is a matter of one's own selection under both international and Japanese Law. For the sake of freedom it is appropriate that we support the Korean Democratic Republic and reject the Great Mindan of Lee-Sho-Ban which betrays Korea and kills women and children.

(3) Oppose conscription and the war campaign. Every nation has rights and duties. But what are the rights of the Great Koreans? Merely, the duty of enlistment (up to 45 years in South Korea) and taxes.

What real advantages are the Korean mission and the Mindan trying to demonstrate? Loss of every legal right if we are not registered or no protection of life or property (ask government offices!), fooling us as though we were children or fools. They state ridiculous things such as:
- inability to enter or retire from school (don't they know about our struggle in the defense of education!). Or that we cannot register birth or marriages (ask the office!). They say we cannot return to our native country. This is true but who cares to return and be killed. There are only a small number of smugglers and ignorant boys who will fall for Lee-Sho-Ban's enlistment notice.

We can find much to be proud of in the Korean People's Democratic Republic which offers peace, freedom and equality rather than the rights and duties of the Great Korean Mindan which will soon disintegrate.

Fellow Countrymen:

Don't be cheated by the Mindan. Let us soundly trounce the Mindan!

(1) We oppose war. Protect young men and property from Lee-Sho-Ban. Oppose the Koreans registration.

(2) Have the schools reopen with no changes.

(3) Employ the same teachers.

(4) Have special classes.

(5) Retract the school closing.

(6) We object to the compulsory donation system and demand complete exercise of the 6-3 system.

(7) Give us the right to vote for the Board of Education and the other assemblymen.

(8) Overthrow the Yoshida Cabinet! Organize the Democratic People's Republic!
