From: Operations Division To: Personnel Division 13 September 1951

Comments relative to proposed NPR GCHQ PER No. 253 are as follows:

a. Concur in the necessity for implementing paragraph 2, Article 3 of PMO No. 17.

b. Any attempt to confine normal or ordinary duty within the hours of 0800 and 1700 or 0800 and 1200 is not realistic.

c. Recommend that duty hours (normal or ordinary) if specifically defined, should include the following:

(1) All calls from reveille through t aps.

(2) Day time training.

(3) Night time training.

d. Any variation from duty hours, as included in sub-paragraphs 1, 2, 3 of paragraph c above, is normally covered by pertinent directives issued at appropriate levels.

① I do not concur. There is no provision in SR 40 for space required for (over)

establish a "Central Publications Depot". The two offices Section 2 Dr. Gp. Hq. is much smaller than that of 44 Hq. At the present time a tighter control on issue & manuals is very desirable. In my opinion the best solution for sometime to come is to use the SOP as written.

(1) (2) (4)

1. Reference Intra Office Routing Slip from Executive, CAS, 21 July 1951, Subject: Processing of Training Manuals (Attached).

2. Effective 1 July 1951, General Affairs responsibilities outlined in inclosure were turned over to Service Group with concurrence of Chief of General Group and in accordance with SOP outlining mission and functions of Service Group.

3. Provided the NPR is to have an operating Service Command and the NPR is intended to function along somewhat the same lines as U.S. Army, supply of publications and blank forms is an appropriate mission for Service Command, with the Chief of General Affairs, General Group, retaining forms control and printing control.

4. It is recommended, therefore, that attached SOP, dated 21 July 1951, be amended as follows:

a. So much of sub-paragraphs g & h as pertains to General Affairs Section, GG Hq, be revised to read General Affairs Section, Service Group Headquarters.

b. The following be added as sub-paragraph i:

"A Central Publications Depot will be established by Service Group Headquarters for the purpose of storage and issue of publications not distributed on initial distribution."

Remarks:

Do not concur for following reasons:

1. There is no provision in Service Group for spaces required to establish a "Central Publication Depot." The General Affairs Section of Service Group Headquarters is much smaller (19) than that of GGHq (52).

2. At the present time, a tighter control on issue of manuals is very desirable.

3. Recommend SOP remain as written.

The Director General's Office has submitted the following proposed NPR Rules for comment and/or concurrence.

a. Rule governing Command and Seniority for Police Officials.

b. Rule governing Classifications of Police Officials.

-C.F.K.-

From: Operations Div

Thru: Comptroller
To: Personnel Div

16 July 1951

1. Concur, except as indicated below.

2. Following changes are recommended:

a. Rule governing command and seniority for police officials.

(1) The terms "commander, chief, commanding officer, and leader," should be clarified at this time. Organization tables use "commander" for the name title of the officer who is in charge of the unit; Prime Minister's Office

COPY

Comments (Cont'd)

Ordinance No. 52, dated 29 December 1950, uses the term "chief"; paragraph 2, article 1 and article 2 of proposed Rule uses "commander" in one place and "chief" in another place. Suggest that paragraph 2, article 1 read ". . . . shall be known as a 'commander'," and article 2 read ". . . . under the command of one commander who shall use the term 'chief' in official correspondence."

(2) Article 2 - Insert the word "section" between "platoon and squads."

(3) Article 3 - Delete "where two or more units are posted in the same camp." Responsibilities of a camp commander do not change with respect to the number of units in the camp.

(4) Article 7, par a - Delete. Engineer officers should not be classified within their branch. Their capabilities may be reviewed when being considered for an assignment but they should be, in general, capable of serving in whatever capacity they are assigned.

b. Rule governing classifications of police officials.

(1) Article 2, par 1, item 3 - Engineer (combat) should be deleted under General Services and included in paragraph 2 of article 2, item 2, and listed engineers. Officials serving in this technical service should be capable of performing duties with combat engineers, construction engineers, topographic, water supply, maintenance and depot units, or staff positions, and be assigned to those positions on the basis of professional knowledge, experience and physical qualifications.

Remarks:

1. The attached draft fails to specify whether town patrol will be performed only by regular members of Safety Units or will be performed by members of the NPR regardless of their normal unit assignment. It is felt that the latter is the case due to the fact that there are insufficient Safety Units in the Station List to provide town patrols necessary to implement this regulation.

2. If town patrol members are not regularly assigned members of Safety Units it is the opinion of the Attorney General of Japan, that at present, they have no authority to enter public buildings or private dwellings as indicated in paragraph 4c (6) h (3) (a).

3. It is my opinion that the idea of establishing town patrols for the maintenance of discipline and order among NPR personnel on pass or leave is a worthy one. It should be approached with great caution to prevent any possibility of growth of a secret police organization and to eliminate any possibility of serious incidents arising from the imposition of unauthorized power over the civilian population by improper acts of over-zealous members of such patrols.

----------C. F. K.----------

MEMORANDUM FOR RECORD:

Action refers to draft of a memorandum, subject: "Town Patrols."

Thru: Information Division
From: Operations Division To: Personnel Division Date: 19 May 1951

1. Concur with paragraph 3, Personnel comments.

2. In the opinion of this division, the proposed memorandum should not be published. The subject of town patrols should be completely separated from the training and operations of safety units.

3. Discipline and the relationship of NPR personnel to civilians are matters of primary interest to the Personnel Division. Proposals as to the organization and functioning of town patrols, therefore, should come from the Personnel Division, not the Safety Section. Recommendations as to the training and utilization of Safety Units may properly be made by the Safety Section to the Operations Division.

Article 2a. It is understood that the camp commander will be the senior line officer present for duty at the camp. Article 2a can be interpreted to mean, therefore, that the Director General, in effect, is authorized to assign or remove battalion and regimental commanders. It is believed that the assignment of battalion and regimental commanders is a duty and responsibility which should be retained by the Region Commander.

Article 2b. Recommend the wording of this paragraph be as suggested by Comptroller in comments of 10 March 1951, prefaced by "During temporary absence of the commander, unless otherwise directed by competent authority, etc."

b. Page 2.

Article 3. Suggest elimination of the words "and assigned to a Service Group unit, region or higher headquarters."

c. Chapter I. Suggest addition of two articles as follows:

"Article ____. Camp Security. The camp commander is responsible for maintaining adequate security of the camp in accordance with existing directives.

"Article ____. Fire and Disaster. It is a command responsibility to take every possible precaution to prevent fires. The camp commander will maintain up-to-date plans to be executed in event of fire and disaster."

1. Do not concur.

2. Organization and functions of staff sections in Table of Organization headquarters is not considered by this division to be an appropriate subject for an NPR Regulation. This subject is at present being taught in the staff school and it is believed that further education of the Japanese can best be accomplished at this time through personal advice of the Chiefs of CASA divisions and Senior Advisers.

3. At a later date the publication of a manual such as the U.S. Army FM 101-5, "Staff Officers' Field Manual," should be considered. Such a manual would cover the organization and functions of all staff sections.

NPR Regulation
No. 10-

The Organization and Functions of the Inspector Section of the National Police Reserve shall be fixed as follows by order of The Director General

(Date)

HAYASHI Keizo
Chief, General Group

The Organization and Functions of the Inspectors Section

Article 1. The Inspector

Keeps the Chief, General Group, Intermediate, Region and Service Group informed on all matters which pertain to the efficiency, conduct, discipline, living conditions, morale and welfare of units and individuals of the National Police Reserve.

Article 2. Deputy Inspector or Executive

Assists the Inspector in supervising and correlating the work of all divisions of the Inspectors office. May also serve as Chief of the Administrative Division, if so directed by the Inspector. In addition, acts for the Inspector in the absence of the latter.

Article 3. Administrative Division

Maintains files and records of the Inspectors office. Types reports of inspection, investigation and such other typing as directed. Controls personnel problems and recommends assignment or transfer of Inspectors within the NPR.

Article 4. Inspection Division

Conducts inspections, including annual General and special inspections in compliance with appropriate National Police Rules. Inspects all commands, units, companies and such accounts as required by the Chiefs of General Group, Intermediate, Region or Service Group. Prior to making inspections, he consults all other staff and special staff sections to obtain any special items that may be desired for inquiry and reports. Advises and furnishes extract copies of inspection reports to all staff and special staff sections when such reports are of direct interest to the section concerned. Based upon inspections, recommends remedial action to correct deficiencies and delinquencies noted.

Article 5. Investigation Division

Conducts all investigations as directed by the Chiefs of General Group, Intermediate, Region or Service Group, and in accordance with appropriate National Police Reserve rules, acts in an advisory capacity, reaches conclusions from developed facts and makes recommendations but has no power to reach fihdings or to impose punishment. All investigations are considered confidential in nature unless a change is prescribed by the authority ordering the investigation.

MEMORANDUM FOR: Chief Personnel Division, CAS-A-P

SUBJECT: Organization and Initial Training of National Police Reserve Enlistees

1. Reference, "Basic Training Program for National Police Reserve Recruits," inclosure 1.

2. You will take necessary action to organize National Police Reserve enlistees at Camp Mc Knight into units shown on attached station list, inclosure 2. Tables of organization have not been completed for service command units. Until these tables of organization can be furnished, organization of service command units will be limited to forming of companies or detachments of the strength indicated on the station list. For purposes of accomplishing basic training, small units may be attached to companies. They will retain their designation.

3. Effective upon the date of the organization of each company or other organization you will designate personnel to act as officers and non-commissioned officers in each unit. Such verbal appointments will be in an acting capacity only. National Police Reserve personnel appointed to grades and ranks in an acting capacity will not wear the insignia of rank or grade to which appointed nor draw the pay of the rank or grade. Company or unit rosters containing the name, serial number, acting rank or grade of all personnel will be forwarded to this headquarters, attention Chief of the Personnel Division, Civil Affairs Section Annex, with the least practicable delay.

4. Initial shipment of JNPR enlistees to Camp Mc Knight will be organized into those units on your station list, inclosure 2, other than National Headquarters and Service Command Headquarters. These Headquarters will be organized later.

5. A supply of "Unit Progress Chart," Form 100, for use by each company or unit, was furnished you. These charts will be used in preparing the weekly report on the status of training. Copy of this chart with English translation is attached as inclosure 3.

CAS ANNEX FILE COPY

6. A supply of "Basic Training Report" forms, Form 101, was also furnished you. This form will be used in reporting status of training. This report will reflect the progress of training for the week reported on, and will reach this headquarters on Monday following week of training. Copy of "Basic Training Report", Form 101, is attached as inclosure 4.

7. As training aids, training instructions, and materials for NPR training are procured copies will be furnished direct to you by Training Branch, Operations Division, this section.
