The Longfield Iris Farm
Mary & Jane Williamson
Bluffton Ind.
1934

Oriental Tapestry

Did you ever see seven acres of Iris in bloom? Every morning in May and June we go down to the Iris garden so that entering it we may have the sun at our backs—to greet the varieties that have just come into bloom, some of them for the first time. At noon, on a bright day, the field is a blaze of glory but perhaps the finest time to view it is toward evening, when the sun slips down behind the willows at the far end—when its tempered rays are seen through millions of varicolored petals. Then it is that Longfield looks like some vast Persian rug.

We like to share our garden with our friends. Flower lovers are always welcome. The tall bearded Iris are usually at their best the last week in May and the first week in June.

Here may be seen great masses of the finest Iris varieties that grow. Here you may inspect our new introductions and may become acquainted with the best achievements of American and European hybridizers. Here you may see the seedling beds—fifty thousand Iris plants that will display their first blooms this year. Somewhere in these beds will be revealed those new things that, after years of observation and testing, will comprise the new introductions five years from now. Here, too, you will find those half-dozen worthy Iris that have been sorted and graded and watched and judged for the past five years and will be introduced in 1935.

Bluffton lies 25 miles south of Fort Wayne. Paved roads lead to it from every direction. The Iris garden is at the west end of Market street and you'll generally find us there. If we're not there, try the house—419 Market Street. We hope we may see you this year.

MARY AND JANE WILLIAMSON.

Introduction and Terms

(Please read carefully)

PRICES in this catalogue supplant those in all previous catalogues and price lists. Unless otherwise indicated prices are for one plant delivered prepaid to the customer in the United States only. However, orders amounting to \$1.00 or less are not prepaid and must include 15c postage when order is given to us. Three plants of any one variety priced at \$1.00 or less (with the exception of those listed at 20c each) will be furnished for two times the price of one plant, and three plants of any one variety priced at more than \$1.00 will be furnished for two and one-half times the price of one plant. On orders amounting to \$25 or more a discount of 10% will be allowed. If you are interested in five or more plants of any variety we shall be glad to quote you a price on the number desired. We also publish a wholesale price list which is mailed regularly to the trade.

The size, quality and labeling of every plant is guaranteed satisfactory to the customer. If there is any complaint when plants are received, do not return them but give them the best possible treatment you can and write us at once, indicating the adjustment desired.

We cannot too strongly recommend July and August planting. However we will ship on any date you wish or as near to that time as we can. We cannot ship before June 15 or after November 1.

Brief directions for planting are given on the reverse of the duplicate order sheet in this catalogue.

Mixed Iris Seedlings

LOT A

Twenty-five plants of mixed Iris seedlings (full-grown plants of blooming size) with one plant of Beau Sabreur or Talwar (labeled) for \$1.00. Express charges collect.

We have sold many hundreds of Lot A and the buyers have all been very much pleased with them. If you don't want named Iris but wish a beautiful and varied lot we believe this is the best Iris buy in the world. They are especially fine for borders along walks and driveways. This collection of seedlings differs from year to year due to our change in crosses in searching for new varieties.

In ordering, designate this collection as Lot A.....\$1.00

Thirty-Five Selected Seedlings

All different—at least 15 of them of Dominion parentage

LOT B

Thirty-five selected seedlings, all different, at least 15 of them of Dominion parentage, for \$3.00. Express charges collect.

Each year we select from our seedlings for observation a much larger number, of course, than we ultimately name and introduce. These selected plants are grown several years. They are all beautiful and meritorious, but are often too near other varieties to warrant introduction. We will furnish 35 of these plants all different, at least 15 of them of Dominion parentage, for \$3.00. Express charges collect.

If you are not interested in named varieties but wish something different and beautiful you will find this selection of 35 seedlings at this price satisfactory in every way. We can furnish this collection any time from April 1 to November 1. We recommend July or August planting. This collection of seedlings differs from year to year due to our change in crosses in our search for new varieties.

Please designate your order as Lot B.....\$3.00

Made-to-Order Collection

LOT C

Collections are generally more tantalizing than satisfying. Here is one you will find has both characteristics—you make the combinations yourself.

Here is the proposition:

1. You select the plants you want from the list below, one of each kind, as many kinds as you wish but not less than 6 kinds.
2. You add up the prices of the kinds you have selected, deduct one-third of the total, and remit the balance, but the amount remitted must not be less than \$2.00.
3. Each plant will be a properly labeled full-sized plant and the order will be sent prepaid by express or mail as you may direct, guaranteed satisfactory.

New Longfield Introductions for 1934

Our 1934 introductions are not to be considered in computing the 10% quantity discount mentioned on page 2.

TALL BEARDED IRIS

Amigo (Wmsn. No. 1565, 1934). (No. 486 X —). A finely finished and very rich neglecta. The very heavy texture and fine form suggesting Dominion make it outstanding in its class. S. arching cupped, obovate, light Laven-der Violet. F. flaring, wedge-shaped, deep Hyacinth Violet shading out to light Hyacinth Violet, narrow white margin. Haft, white veined Bay. Style branches same as standards. Beard, orange. Large flowers; 4 inches high and 5 inches wide on 30 inch stems, well branched; seven flowers to a stalk. \$20.00

Barbarian (Wmsn. No. 630, 1934). (L. A. Williamson X —). This is such a unique Iris, in fact unlike any other in its peculiar form, that we feel it merits introduction. The long slender flowers which appear nearly lacinated with very long pointed buds give an odd appearance and yet a very graceful one. S. conic arched, fiddle shaped, Mathew's Purple. F. drooping, extremely pointed wedge-shaped, Mathew's Purple with faint electric blue streak below beard. Haft White veined Kaiser Brown. Style branches, Hortense Violet along midrib, Baryta Yellow along edges. Beard, very sparse, Light Cadmium. Well-branched stalks, 32 inches high with four flowers to a stalk. Flowers: 6½ inches high, 4 inches wide. Fra-grant. \$2.00

Chamita (Wmsn. No. 1635, 1934). (Toscana X —). A distinct brown toned Iris that has been greatly admired by visitors to our gardens. S. arching cupped, spatulate, Russet shading to Tawny with Dark Vinaceous shading along blade. F. drooping, wedge-shaped, Hydranga Red shading quickly to Russet. The whole flower overlaid with gold. Haft, Empire Yellow veined Russet. Style branches, Light Cadmium, Dark Vinaceous along midrib. Beard, Cadmium Yellow. Excellently branched stems 31 inches high with seven flowers to a stalk. Fine formed flowers 5 inches high and 5 inches wide. Chamita will be of particular interest to breeders. \$10.00

Equipoise (Wmsn. 518, 1934). (307 X Dominion Seedlings). A tall graceful yellow and violet blend. Fine for the garden as it has excellent carrying quality for such a light blend. S. arching cupped, obovate, pale Baryta Yellow shading to Pinard Yellow at base. F. straight hanging, rounded wedge-shaped, Hortense Violet, narrow margin of Baryta Yellow. Haft, White veined Pinard Yellow shading to Madder Brown near beard. Style Branches, Baryta Yellow, along midrib Pale Hortense Violet. Beard, Light Cadmium. Excellently branched sturdy stem 43 inches tall with seven flowers to a stalk. Flowers: 3 inches wide and 5 inches high. Very vigorous. \$5.00

Sandia (Wmsn. No. 1516, 1934). ((Hesperis X Dominion) X —). A bright and clean deep pink blend of heavy texture. Very lovely in mass or as an exhibition Iris. S. arching cupped, obovate, Rosolane Purple flushed Pinard Yellow. F. straight hanging, wedge-shaped, Rosolane Purple. Haft: Pinard Yellow veined Kaiser Brown. Style branches: Pinard Yellow, midrib Rosolane Purple. Beard: Light Cadmium. Well-branched stems 39 inches tall with seven flowers to a stalk. Flowers: 5 inches high and 4 inches wide. Vigorous. \$7.50

Sundipt (Wmsn. No. 1674, 1934). (292 X —). A tall glowing yellow of fine form with a certain flare to the S. and F. A flower of wonderful carrying power and great charm and grace in carriage. S. arching cupped, obovate, Pinard Yellow shading to Light Cadmium at base, no markings on claw. F. straight hanging, wedge-shaped, Pinard Yellow shading to Empire Yellow at haft. Haft: Empire Yellow with light golden brown veining. Style branches: Empire Yellow. Beard: Light Cadmium. Excellently branched stems 39 inches high with six flowers to a stalk. Flowers 4½ inches high and 4 inches wide. Vigorous. \$8.00

NEW WILLIAMSON DWARF BEARDED IRIS

(Late Bloomers)

These dwarf bearded Iris bloom with the late tall bearded Iris, around the first of June and not in April as most dwarfs do. They are fine for rock gardens or edging.

Hobo (Wmsn. No. 35, 1934). (Pedigree Lost). A bright little dwarf variegata with the most attractive and unusual dark green foliage whose leaves are blunt edged, heavy, fibrous and curly. The foliage is 10 inches high

and the blooms 14 inches. The S. erect and open; spatulate; Light Cadmium. F. horizontal; wedge-shaped; Maroon veining of haft carried down into fall until it finally emerges into a solid color. Style branches, Light Cadmium; Beard, Cadmium Yellow. Small flowers; 3 inches wide and 2 inches high; good branching with three flowers to a stalk. Very vigorous. \$1.00

Play Boy (Wmsn. No. 21, 1934). (Pedigree Lost). A delightful tiny amoena that is most charming and gay. The foliage is 8 inches high with flower stalks 10 inches high. The small flowers 2½ inches wide and 2 inches high, number four to a good branched stem. S. arching cupped, obcordate, White with base Lemon Chrome. F. flaring, triangle-wedge-shaped, White with Fluorite Violet veining to solid Fluorite Violet, white margin. Style branches, White flushed Pale Hortense. Beard, Light Cadmium. Vigorous. \$1.00

NEW WILLIAMSON TABLE IRIS

This charming group of Iris which we are introducing for the first time bloom with the tall bearded Iris but they must not be compared as they are in an entirely different class. The small dainty flowers on slender wiry stems, with grass-like foliage, make them especially suitable for cut Iris for the table, hence the name. Most of the tall bearded Iris are too large and stiff for effective table arrangement. These Iris are also fine for the border as they are quite floriferous and graceful. Being a new group, there is not the wide color range that we find in the tall bearded but we hope that we may continue to add new and more improved varieties from time to time. In growth and size they closely resemble the dainty and gay Tom Tit.

Bunting (Wmsn. No. 830, 1934). (Miranda X —). A pale violet self of fine form on excellently branched stems 29 inches high, nine flowers to a stalk. Fragrant. \$0.75

Kinglet (Wmsn. No. 878, 1934). (207 X —). A deep golden yellow self with small well-formed flowers on well-branched stems 29 inches high, seven flowers to a stalk. Deeper and brighter in color than Sherwin Wright. \$0.75

Pewee (Wmsn. No. 917, 1934). (Pedigree Lost). A tiny pure white flower on gracefully well-branched stems 17 inches high. A perfect little gem. \$0.75

Siskin (Wmsn. No. 1663, 1934). (Special Mixture). A lovely clean pinard yellow self with slightly opened S. and flaring F. adding to the grace and airiness of the whole plant. This and Pewee are the smallest of the group. Twenty-four inches. **\$0.75**

Titmouse (Wmsn. No. 829, 1934). (Arethusa X —). Amber Yellow speckled and edged Hortense Violet. Finely formed flowers on excellently branched stems 31 inches high with 9 flowers to a stalk. **\$0.75**

TABLE IRIS COLLECTION

One each of the above five varieties for **\$3.00**

New Mead Introductions

It is a privilege and great pleasure to introduce these fine seedlings of the late Mr. Franklin B. Mead and his co-worker Mr. J. M. E. Riedel.

These introductions are not to be considered in computing the 10% quantity discount mentioned on page 2.

Eros (Mead-Riedel, 1934). A glorious pink blend and without a doubt one of the loveliest and most pleasing Iris ever introduced. It has a silky texture, a large shapely flower on a 42-inch stem with an iridescence of shadings from Vinaceous through Carthaginian Pink, pinkish Vinaceous to Hydrangea Pink with much warm yellow at the haft and deep yellow beard. All of this delightful coloring results in a definite garden effect of salmon pink. It has had as high as 12 flowers to a stem. Very fragrant. Very vigorous and a fast multiplier. **\$15.00**

Mozambique (Mead-Riedel, 1934). A tall, stately red violet purple with flowers of largest size and finest form and great rounded petals. Falls a bit flaring. S. Mulberry Purple; F. Prune Purple shading to Cotinga Purple, beard inconspicuous. Height 37 inches. Fragrant. Strong grower. Mr. Mead considered this better than Meldoric. **\$12.00**

Rhages (Mead-Riedel, 1934). A lovely large violet plicata. A shapely flower of beautiful and distinct color. S. white tinged Light Hortense Violet; F. white dotted Deep Violet. Slightly fragrant. Height 33 inches. **\$12.00**

A "self" is an Iris whose standards and falls are of practically the same color.

A "bicolor" is an Iris whose standards differ in color from the falls.

A "plicata" is an Iris whose petals are sanded, veined or otherwise marked with a color darker than the ground color.

A "variegata" is an Iris with standards of yellow, gold or orange and falls heavily veined a darker color or completely of a darker color.

An "amoena" is an Iris with white standards and colored falls, sometimes veined or margined white.

Names of colors in capitals are those of Ridgeway's Color Standards and Nomenclature. It is unfortunate that copies of this work are limited but until we have a more widely distributed standard the conscientious describer can do no better than follow the only definite and reliable standard available. The Ridgeway names in many instances are color names in common usage and in most cases they can be fairly interpreted even by those not acquainted with the color charts.

The numbers in parenthesis following the names are 1933 American Iris Society ratings. Numbers not in parenthesis are 1927 American Iris Society ratings (first number, exhibition rating; second number, garden rating). The rating is on the basis of 100 as perfection. Following the rating of the variety is the name of originator and the year of introduction of that Iris.

Dwarf Iris

This interesting group of plants averages only about eight inches in height and blooms from April to about the middle of May. They are fine for rock gardens as well as planted in front of perennial borders.

- Atrioviolacea 82-81.** S. and F. deep red violet. The first dwarf Iris to bloom. \$0.15
- Aurea Maculata.** Yellow with bright orange beard. Purplish tinged falls. \$0.15
- Azurea 83-85.** H.S., R.H.S. Makes a lovely carpet of soft lavender blue above the short green foliage. Very dwarf, very floriferous and fragrant. \$0.15
- Blue Beard (Perry, 1903).** S. bluish white; F. olive green with some purple veining. Fragrant. \$0.15
- Bluestone (Perry, 1903).** Blue purple bicolor with smooth rounded S. and F. Free flowering. \$0.15
- Bride (Caparne, 1901).** Nearly white. Fragrant. 12 inches. \$0.15
- Cyanea (G.&K., 1899).** Rich violet purple with a white throat beautifully veined. Perfectly formed flower with nice flaring F. Very fragrant. \$0.15
- Dixmude 73-78 (Mil. 1916).** S. Aniline Blue and F. rich crimson purple with white throat, veined purple. The contrast of the S. much lighter than the F. makes this a very distinct dwarf Iris. \$0.15
- Florida (G.&K. 1899).** Medium yellow self. Free flowering and of good form. Fragrant. \$0.15
- Graminea.** A very well-formed garnet red self. \$0.15
- Hobo (Wmsn. 1934).** See page 7 \$1.00
- Lieut. de Chavagnac (Andre, 1926).** A new violet with a delightful lemon fragrance. Blooms also in the fall. \$0.50
- Lutea (1875).** H.C., R.H.S. A yellow dwarf. \$0.15
- Marocain 74-85 (Mil. 1914).** C.M., S.N.H.F. A free blooming dwarf with flowers of rich, deep purple. Very floriferous and fragrant. \$0.15
- Orange Queen (Barr, 1910).** One of the best yellows. A uniform shade of clear deep yellow, and flowering at same time as Marocain, slightly lower in growth and making a most beautiful combination. Fragrant. \$0.15
- Oriel (Caparne, 1901).** A large flowered reddish self. \$0.15
- Pixy (H.P. Sass, 1929).** Dwarf plicata blend of Jubilee coloring. Flowers with tall bearded Iris. 8-10 inches. \$1.00
- Playboy (Wmsn. 1934).** See page 8. \$1.00
- Pumila Purple (Purchased our stock from Farr).** A handsome large flowered blue dwarf. \$0.15
- Rose Mist (86) (H.P. Sass, 1931).** A soft rosy mauve, almost pink. A new color in dwarfs. Twelve inches. \$0.50
- Socrates 85-81 (1920).** A very handsome rich wine red Iris. \$0.15
- Ultra (H.P. Sass, 1929).** True blue dwarf having two or three blooms to a stem. Free bloomer. Fall bloomer. \$0.50
- Zobeida (Burchfield, 1923).** S. slaty; F. velvety dark purple. \$0.25

Two new late-blooming
dwarfs—see
page 7.

Intermediate Iris

These Iris in general bloom just after the dwarfs and before the tall bearded and thus fill in the blooming season. They vary in height from 15 to 24 inches and have relatively large flowers.

- Blue Boy** (Fos. 1913). Violet self with same colored beard. Large flowers of good substance. Fragrant. \$0.15
- Challenger (85)** (J. Sass, 1930). Largest flowered intermediate. S. dull dark purple; F. dark blackish violet, velvety with a contrasting white beard tipped orange. Vigorous and free blooming. Twenty-four inches. \$0.50
- Crimson King 86-83**. This Iris has flowers of the same rich deep red purple coloring as Kochii, but the flowers are larger and ruffled, the stalks taller and the growth more open. Very good. Fragrant. Twenty-nine inches. \$0.15
- Cryoso (89)** (Nicholls, 1931). H.M., A.I.S. 1932. Clearest, deepest, most luminous yellow of any bearded Iris. Large, flowers of good shape and fine substance, ruffled. Twenty-four inches. \$7.00
- Dorothea 70-70** (Caparne, 1901). A.M., R.H.S. S. blue white faintly flushed lilac; F. same color but with a deeper lilac, tinged and irregularly streaked and mottled a deeper violet. The S. and F. lie out flat like a Japanese Iris displaying a beautifully marked throat. Seventeen inches. \$0.15
- Doxa (84)** (H.P. Sass, 1928). H.M., A.I.S. 1928. Interesting blend of olive and blue. Twenty inches. \$0.50
- Empress 76-81** (Caparne, 1901). Large flowers of very pale blue white. Seventeen inches. \$0.15
- Etta 78-77** (Caparne, 1901). A.M., R.H.S. Creamy yellow self with prominent yellow beard. Fragrant. Seventeen inches. \$0.15
- Firmament** (Groschner, 1920). A very large flowered variety of two shades of lavender blue. Twenty-seven inches. \$0.15
- Florentina 76-75**. H.C., R.H.S. The fragrant early flowering Iris. S. and F. white tinged lavender; orange beard. Twenty-five inches. \$0.15
- Golden Harvest (75)** (J. Sass, 1929). S. and F. citron yellow suffused olive at haft and base of S. Brilliant orange beard. Fall bloomer. Twenty inches. \$1.00
- Helge** (G.&K. 1908). An early pale yellow. Two feet. \$0.15
- Ingeborg 76-79** (G.&K. 1908). A.M., R.H.S. Clear white flowers with gold veining at throat and rich golden beard. Flowers of good texture and held on stout stems. Very fine. Fragrant. Eighteen inches. \$0.15

- Kharput 72-74.** A.M., R.H.S. Species of Asia Minor. S. Pansy violet; F. velvety darkish purple, straight hanging. Fragrant. \$0.15
- Kochii 75-80.** A.M., R.H.S. A wild Iris of southern Europe. Flowers a deep blackish purple. Very rich coloring and a general favorite. Fragrant. Two feet. \$0.15
- Leota** (Fry, 1923). Creamy white with F. faintly lavender streaked and the throat veined lemon yellow. Flower of fine form and good size. Twenty-five inches. \$0.25
- Major** (Lemon, 1840). S. blue purple, F. red purple. Fragrant. Twenty-six inches. \$0.15
- Moonbeam** (Mur, 1927). S. and F. exceedingly clear, pure sulphur yellow with no markings. Firm texture, fine form and fragrant. Twenty-four inches. \$0.75
- Nymph** (83) (Sass, 1927). Deep yellow with a rich golden beard. Twenty-three inches. \$0.25
- Purple King 67-74** (Wallich, 1930). H.C., R.H.S. Splendid deep violet. Very free flowering. Fragrant. Twenty-four inches. \$0.15
- Soledad 81-92** (Mohr, 1922). A.M., A.I.S. Amber yellow flowers of great attractiveness. Twenty-two inches. \$0.25
- Sunbeam** (78) (Mur, 1927). S. and F. pure and rich deep canary yellow; of firm satiny texture and smooth, well-rounded form. Very fine. Twenty-four inches. \$0.35
- Yellow Hammer 78-88** (Denis 1920). A.M., A.I.S. Clear primrose yellow with a deep golden beard. Good form, medium size flowers. Twenty-five inches. \$0.15
- Zua 79-74** (Crawford, 1914). Very pale lavender flowers heavily crimped and creped. Eighteen inches. Entirely distinct from all other Iris. Fragrant. \$0.15
- Zwanenburg 80-82** (Denis, 1909). C.M., S.N.H.F. S. cream flushed and lightly blotched pale violet; F. smooth velvety old gold streaked and blotched maroon; lemon yellow crests. Very unusual Iris. Fragrant. Twenty-one inches. \$0.15

Turn to page 35 to find
seven fine varieties of
Day Lilies.

Tall Bearded Iris

Older, standard varieties will be found listed alphabetically, at extremely low prices, on pages 32 and 33. Look there for any common variety not found below.

- Adobe** (Wmsn. 1932). A lovely, large well-rounded flower. S. a warm buff shading to red; F. Pompeian Red with buff margin. An unusual blend which suggests the name. Admired by many visitors in our gardens. \$5.00
- Alcina** (80) (Con. 1931). A glistening Iris with pale yellow standards and beautifully blended blue and gray falls. Thirty-two inches. \$1.75
- Aliquippa** 89-88 (Hall, 1924). A.I.S. Silver Medal. Good-sized flowers of pale massicot yellow with luminous center of deeper coloring. Makes a most attractive light garden effect. Fragrant. Thirty-four inches. \$0.25
- Allure** (77) (Murrell, 1927). Silver Medal A.I.S. A beautiful blend of rich canary yellow flushed and overlaid with violet pink. Finely formed and ruffled. Holds its delicate color best in partial shade. \$0.50
- Alta California** (86) (Mohr-Mit. 1931). A fine yellow of exceptionally smooth texture. S. clear yellow, F. deep yellow faintly bronzed. Finely branched stems 48 inches tall. Withstands sun and rain. \$15.00
- Ambrosia** (88) (Sturt. 1928). An iridescent white Iris evenly tinted throughout with pale flesh, with warmth heightened by a rich orange beard. Large flowers of satiny texture blooming freely on gracefully symmetrical plants. One of Miss Sturtevant's best and a superb garden Iris. Thirty-six inches. \$1.00
- Amerind** (And. 1926). A metallic bronze self, aptly named for the American Indian. Forty-six inches. \$0.25
- Amigo** (Wmsn. 1934). See page 6. \$20.00
- Amneris** (Mil. 1925). S. violet blue; F. steel blue deeply shaded violet blue with a rich velvety appearance. This is a seedling of *Pallida Dalmatica* of the greatest vigor with tall, well-branched stems. A flower of distinction and superb garden effect due to its rich tonal shading. \$0.25
- Andante** (E1) (Wmsn. 1930). Enormous flowers of rich velvety raisin purple. An outstanding Iris, combining size and color in an unusual degree. Fragrant. Thirty-six inches. \$0.75
- Andrew Jackson** (Kirk. 1929). A flower of large size heavy substance and good form. The general effect is a rich red violet. \$0.50
- Anndelia** (Sturt. 1929). A new departure in the *plicata* group. S. light lilac; F. white with a fine border of rosepurple. Beautifully ruffled. A fine garden Iris of great daintiness. Fragrant. Thirty inches. \$0.50

*Chamita—brown as a
violin. See
page 6.*

- Aubade (82)** (Con. 1930). S. soft yellow; F. blending of rose and pale gray. A charming garden effect of apricot. Thirty-six inches. \$7.50
- Avatar** (Wmsn. 1927). A.M., A.I.S. S. light heliotrope-grey shading out to yellow at base; F. pansy violet; beard orange. This is a stately Iris. Perhaps its greatest charm is due to the yellow glow which suffuses the flower as though it were lighted from within. Three feet. Fragrant. \$0.25
- Azrael 87-84** (Mor. 1924). A violet bicolor. \$0.25
- Azulado** (Mohr-Mit. 1924). Large pale blue. \$0.25
- Azurine** (Wmsn. 1930). A very lovely light silvery blue, distinct in color; flowers slightly ruffled and irregular in shape. A very charming and dainty variety. Floriferous. \$0.25
- Baldwin (88)** (Sass, H.P. 1927). S. and F. deep blue purple with an electric blue sheen. A finely formed flower of great size. The petals are broad and rounded and the dome-shaped standards are of majestic proportions. A flower of heavy substance and outstanding quality. \$0.35
- Ballerine 90-89** (Vilm. 1920). C.M., S.N.H.F. Large flower of fine form and lovely blue lavender coloring. Fragrant. Late. \$0.25
- Barbarian** (Wmsn. 1934). See page 6. \$2.00
- Beau Sabreur (80)** (Wmsn. 1930). A variegata with Dominion character in S. and F. A remarkably refined and finished flower of subtle beauty. S. yellow beautifully flushed red purple; F. ox-blood red, margin slightly paler. \$0.50
- Belle Porter** (Lapham, 1929). Deep red toned blend. Small flowers. Twenty-four inches. \$0.25
- Bergama** (Wmsn. 1932). An unusual variegata with bronzy overcast. S. bright and yellow at base shading to purplish yellow; F. Raisin Purple distinctly margined yellow. Thirty-two inches. Makes a good combination with Sonata. \$2.00
- Bertrand 89-87** (Bliss, 1920). S. bright lavender violet and F. velvety rich deep violet. \$0.25
- Black Wings (88)** (Kirk. 1931). A large heavy textured flower of a deep midnight blue overlaid with a frosty black luster. It is vigorous, well-branched and fragrant. \$7.00
- Blue Banner (83)** (Kirk. 1929). S. light lavender blue, beautifully frilled; F. a rich velvety deeper blue shading to a pale blue at the edges. The general effect is that of a very bright electric blue. Long flowering season. Outstanding because of its size and height. \$0.75
- Blue Hill (87)** (Sass, H.P. 1930). H.M., A.I.S. Darker shade of blue than Sensation but larger flower on perfect branching stem. Striking white beard. Absolutely hardy, better grower and hardier than Sensation. \$2.00
- Blue Velvet (86)** (Loomis, 1929). Clear very velvety dark blue with orange beard. Large flowers on sturdy stems. Forty inches. \$3.00

*Hobo—a little rascal
that blooms late.
See page 7.*

- Bright Balloon** (Waller). A fine clear yellow of good form; three feet. \$0.50
- Bruno** (Bliss, 1922). A.M., R.H.S. 1929. S. fawn tinted lavender shading to yellow at base; F. velvety red purple edged with buff. A fine Dominion seedling with a distinct brown cast. \$0.35
- Buechley's Giant** (80) (Buechley, 1933). An extremely large flower of fine form and good substance along the Lord of June shades, the falls a bit darker. Thirty-two inches. \$5.00
- Bunting** (Wmsn, 1934). See page 8 \$0.75
- Buto** (Sass, H.P. 1926). A large and gorgeous dark blue purple of great purity of tone. Splendid for massing in combination with Fascination, for instance. Thirty inches. \$0.35
- Cadenza** (Wmsn. 1930). A fine large blend of pink lavender and cream. A formal Iris of distinction. Forty inches. Fragrant. \$0.25
- Cameliard** (84) (Sturt. 1927). A distinct variegata blend of great size and height. S. and F. amber yellow, overlaid wine purple. Vigorous and free flowering. Forty-eight inches. \$0.35
- Camilla Dubuar** (Lapham, 1929). A pale pink self of good size. Well-branched, floriferous and vigorous. \$0.75
- Cantabile** (Wmsn. 1930). S. pure shining white; F. Amethyst Violet shading out to a broad white margin; beard yellow. This is a very fine amoena surpassing all others in its fine form, clearness in color and distinct beauty. Fragrant. Thirty-two inches. \$0.25
- Cantata** (Wmsn. 1930). A rich, intense Hyacinth Violet self; beard yellow. This is a Dominion seedling of fine form and splendid coloring. Fragrant. Early flowering. Thirty-two inches. \$0.75
- Cardinal 92-90** (Bliss, 1919). A.M., R.H.S. S. lavender, shot rose; F. dark red purple of wonderful velvety texture. One of the richest of the Dominion race. A distinguished Iris with flowers perfect in form and poise. Fragrant. \$0.35
- Caroline E. Stringer 84-83** (Sass, J. 1924). The lightest pink toned Iris of fine texture. Beard bright yellow. Thirty-three inches. \$0.35
- Cassandre Cayeux** (Cay. 1928). C.M., S.N.H.F. Finely formed large flowers of splendid substance. S. smoky rose lavender; F. purplish garnet. Forty-eight inches. \$0.75
- Castalia** (Wmsn. 1933). A very beautiful Pallid Blue Violet self of large size, perfect form and heavy texture. Very vigorous with erect foliage. Very fragrant. Thirty-four inches. \$1.50
- Cavatina** (Wmsn. 1930). A blending of soft lavender and old gold. A smooth, satiny finished flower of indescribable beauty. Forty inches. Fragrant. Late and long flowering period. \$0.35
- Chamita** (Wmsn. 1934). See page 6. \$10.00
- Chartier 88-89** (Hall, 1925). A.I.S. Silver Medal. A smooth, satiny clear white with wide segments. Fragrant. Thirty-two inches. \$0.25
- Chasseur 82-85** (Vilm. 1923). C.M., S.N.H.F. A very late yellow with buds heavily stained Prussian red. Fine garden effect. \$0.25

*Did you notice the new Table
Iris listed on
page 8?*

- Chatelet 72-77** (Vilm. 1923). C.M., S.N.H.F. Large flowers of uniform soft pink tone. Fragrant. \$0.25
- Cherry Rust** (Wmsn. 1932). S. rosy copper shading yellow at base; F. velvety brownish red mahogany. More coppery and lower than King Tut. Useful primarily as a very distinct color for a low mass. Stands up well through wind and rain. Twenty-four inches. \$0.50
- Cimarron** (Wmsn. 1932). Brilliant massive flowers on graceful stems. S. Magenta; F. Dahlia Purple. A very fine red of unusual well-rounded form. Thirty-four inches. \$5.00
- Cinnabar (88)** (Wmsn. 1928). Silver Medal A.I.S. A rich dark red of one tone, but it is a bicolor due to the heavy velvety falls. Stands up through wind and rain in fine shape. Has great carrying power. Forty-two inches. \$0.35
- Citronella 85-85** (Bliss, 1922). A.M., R.H.S. A very brilliant, free flowering yellow with F. beautifully veined and mottled Vandyke Red with intense orange beard. Fragrant. Three feet. \$0.25
- Clara Noyes (85)** (Sass, H.P. 1931). H.M., A.I.S. 1931; A.M., A.I.S. 1932. A lovely blending of yellow, orange and apricot impossible to describe. Very beautiful and distinct. Thirty-eight inches. \$3.00
- Clement Desormes 79-75** (Denis, 1923). S. and F. deep red pink. Bright flowers of perfect form and magnificent carrying quality. Free blooming and one of the best landscape varieties. Thirty-four inches. \$0.25
- Cockatoo** (Mor. 1928). A soft, clear yellow plicata, ruffled. Thirty-two inches. \$0.75
- Coppersmith** (Shull, 1926). H.M., A.I.S. S. Crimson purple; F. Indian Lake shading to dahlia carmine producing a rich coppery red effect in the sun. Large well-formed flowers on 42 inch stems. Fragrant. \$0.35
- Cornuault 79-80** (Denis, 1918). S. coppery red, F. velvety crimson-bronze slightly paling at edges. Flowers of perfect form set on well-branched stalks, three feet high. One of the best French Iris. \$0.35
- Coronado 87-86** (Mohr-Mit. 1924). Lilac bicolor suffused yellow. Three feet. \$0.25
- Coronation (87)** (Moore, 1927). A deep golden yellow self. Large flowers on tall well-branched stems. It is strong, hardy and a profuse bloomer. \$0.35
- Dauntless (90)** (Con. 1929). Dykes Medal in 1929 A.I.S. A beautiful rose-red self though the F. appear darker because of their velvety quality. A tall, sturdy variety of the habit of Cardinal with well-branched stems and beautiful poised flowers. Forty inches. \$1.00
- Day Dream 81-81** (Sturt. 1925). A charming garden Iris, tall and vigorous of pleasing soft pink tone. Forty-two inches. \$1.75
- Dazzler** (Wmsn. 1932). Here is another red but with an entirely different garden effect, with the sun shining on it, it is rosier than anything else in the garden. Has a very long carrying range. It is a larger, finer and rosier Seminole. Thirty-six inches. Slightly fragrant. \$8.00

- Decennial** (Wmsn. 1930). S. a clean bright Picric Yellow, deepening slightly at base; F. ground color Dahlia Carmine with a narrow yellow margin, near the base of the beard is an overdash of electric blue; beard deep yellow. A truly lovely Iris. Fragrant. \$1.50
- Delight 84-83** (Sturt. 1923). A stately white *plicata* toning to orchid in the heart. \$0.25
- Depute Nomblot (88)** (Cay. 1929). Dykes Medal S.N.H.F. S. copper red flushed golden bronze. F. wide and spreading, rich shade of claret crimson. The entire flower seems lightly dusted with gold. The flowers are large and well proportioned on very tall and wide branched stems. Very fine. Fifty inches. \$6.50
- Desert Gold (87)** (Kirk. 1930). This is a yellow of gigantic size, perfect form, and unusual substance with strong and branching stalk. The color is a straw yellow, deepening toward the center; beard chrome yellow. One of the finest yellows. Early flowering. \$2.00
- Distinctive** (Cay. 1925). A clear soft rose flower with much yellow toward the center. Fine for massing. \$0.25
- Dog Rose (82)** (Insole, 1929). C.M., R.H.S. 1929. A very beautiful delicate pink Iris with deep gold beard. Very large oval shaped flowers on tall, well-branched stems. Proved a sensation in England. Stock limited. \$7.50
- Dolly Madison 93-91** (Wmsn. 1927). H.M., A.I.S. Mauvette shading out to yellow at base; F. Lilac shading out to gold at base; bright orange beard. This is one of the finest Iris ever introduced. Very large flowers of perfect form, heavy texture carried gracefully on 36-inch stems. \$0.35
- Dominion 88-82** (Bliss, 1917). A.M., R.H.S. Deep rich blue purple bicolor. \$0.35
- Don Juan** (Cay. 1928). C.M., S.N.H.F. A sturdy growing Iris with immense flowers on well-branched stems. S. light rosy-lilac shaded bronze; F. purplish garnet red. Thirty-six inches. \$0.75
- Don Quixote** (Mohr-Mit., 1927). S. lavender with yellow overtone; F. violet. A lovely large blend. \$0.25
- Dora Longdon 76-78** (Bliss, 1918). S. delicate lavender suffused yellow; F. rich red-lilac paling to yellow at base with brown reticulations. Orange beard. Thirty inches. \$0.25
- Dorothy Dietz (87)** (Wmsn. 1929). S. on opening Light Chicory Blue, quickly fading to white; F. Pansy Violet fading to paler at the extreme margin. This is a large and unexcelled *Amoena* or *Neglecta*, distinct and refined, and enthusiastically approved by the many judges who have seen it. Thirty-eight inches. \$1.00
- Dr. Chas. H. Mayo** (Fry. 1924). One of the finest pink toned Iris with white throat. Resembles Mrs. Marion Cran but is larger and ruffled. Three feet. \$0.25
- Duke of Bedford 89-87** (Bliss, 1922). A magnificent Iris of the Dominion race, almost a self of rich violet purple, velvety and brilliant. Free flowering and a good strong grower. \$0.25

Brief Directions for Planting and Caring for Bearded Iris

Sweet, well-drained soil, free of roots of other plants, preferably with some lime, and all the sunshine possible. No fresh manure, no tree leaves; clean, shallow cultivation and no litter or mulch about the plants from early spring until the ground freezes in the fall. A light winter mulch of corn fodder or straw, brought up about the plants, rather than thrown on them, is beneficial but is not necessary except for plants recently planted and not well established. Bonemeal is a satisfactory fertilizer. Well rotted manure may be used if well spaded under, so there is no humus in contact with the rhizomes. Wood ashes may be used freely.

A plant ready for planting consists of 2 essential parts—the leaves and the rhizome (often mistakenly called bulb). Moderate drying does not injure the leaves or rhizomes. If the soil is dry at planting time, fill the trench or hole with water and after it has soaked into the ground, spread the roots over the moist surface and draw soil over them, tramping it down firmly and covering with loose soil. The rhizome should be just below or at the surface and should be held firmly in place if the soil has been properly packed over the roots.

Rarely, due to high temperatures and humidity, slimy bacterial decay will attack the leaves and rhizomes of plants in transit. When such plants are received wipe off all the moist and decayed parts with a rag or ball of paper or excelsior, and dust the base of the leaves and the rhizome thoroughly with sulfur, powdered gypsum or plaster of paris. Plant at once with the upper surface of the rhizome exposed to sun and air. Keep plant under observation to see disease is checked. If the disease progresses, treat as directed for rhizome rot.

Rhizome Rot. The name is descriptive. Give a gentle pull to adjacent leaves to see if the disease has spread beyond the area you have detected. Scrape out all disease and softened tissue and pack the cavity with powdered gypsum. Scatter gypsum on the ground about the diseased area until the surface is white. Examine the plant from day to day to see if the disease is checked.

Mustard Seed Fungus. Work gypsum into the soil to the depth of half an inch and scatter on the surface until it is white.

Root Borer. (1) Clean the garden thoroughly of all litter and old Iris leaves as early in the spring as possible. Burn this litter. (2) After vigorous leaf growth is established in the spring watch for evidence of borer attacks and cut off the leaves **below** the point where the borer is working; drop the leaves in a tight bottomed basket or bucket and burn them, or bury them in a well-packed grave. (3) Dig plants immediately after flowering, trim leaves down to a 3-6-inch fan, burn or bury all leaves and discarded bits of rhizomes. When trimming plants look carefully for borers. Lay plants on cool (earthen or cement) floor and keep moist (cover with moist burlaps, old carpet or straw) for about 48 hours. Examine again for borers and replant.

- No substitutions under any circumstances.
- For any variety you cannot furnish you may substitute one or more of your own introductions not now in my collection of a **value at least three times** the value of the variety you cannot furnish.
- Send me a permanent metal label for each variety in my order. (If you do not check this square, we shall label your plants with the usual wooden label.)
- If my order is shipped before May 15, cut out any flower stalks. (We recommend this, but if square is not checked we shall leave flower stalks on plants.)
- You may send my order by express, charges collect, enclosing numbered seedlings to reimburse me, with the understanding that you guarantee the transaction satisfactory to me in every particular.
- You may send my order by express, charges collect, enclosing varieties of your own introductions not now in my collection to reimburse me, with the understanding that you guarantee the transaction satisfactory to me in every particular.
- If you have seed to spare, please send some free with my order.
- Of the following varieties, I have drawn a line through those now in my collection: Adobe, Alcanna, Alpenglow, Amanecer, Amigo, Andante, Anosia, Argynnis, Avatar, Azurine, Barbarian, Beau Sabreur, Bergama, Brenthis, Bunting, Cadenza, Cantabile, Cantata, Carnival, Castalia, Cavatina, Chalcedony, Chamita, Cherry Rust, Cheyenne, Chianti, Cimarron, Cinnabar, Colias, Dazzler, Decennial, Dolly Madisen, Dorothea K. Williamson, Dorothy Dietz, Equipoise, Ethel Peckham, Flamingo, Friar Tuck, Gay Hussar, Geo. J. Tribolet, Grapta, Griselda, Grisetite, Hermene, Hesperis, Heyday, Hiamovi, Hobo, Hyacinthus, Hydromel, Illuminator, Jane Williamson, Katherine MacFarland, Kinglet, Kublai Khan, Lent A. Williamson, Lerema, Luzianna, Lycaena, Mareschal Ney, Margaret Anne, Mary Williamson, Muscatel, Nathalis, Nightshade, Onyx, Opaline, Pewee, Play Boy, Rasakura, Rhea, Sandakan, Sandia, Segovia, Silver Ribbon, Siskin, Sonata, Sumac, Sundipt, Talwar, Terias, Thecla, Titmouse, Toscana, Tuscany Gold, Tuscarora, Vesper Gold, Yataghan, Yellow Rail, Zamora, Zingara.

- Dusk 82-83** (Mor. 1921). S. lavender; F. deep maroon with a bright golden beard and yellow styles. A very lovely blend. Fragrant. \$0.25
- Edgewood** (Hall, 1926). A deep pinkish lavender bicolor, large flowers of fine carriage. Fine for garden effect. Forty-five inches. \$0.50
- El Capitan 86-87** (Mohr-Mit. 1926). H.M., A.I.S. Large handsome flowers of violet-lavender. Forty inches. \$0.35
- Elizabeth Egelberg (80)** (Egelberg, 1930). H.M., A.I.S. A medium light tone of mauve pink, with a central glow of creamy yellow caused by the very heavy orange beard on the light ground of the throat. Plant vigorous, healthy and hardy. Forty-three inches. Fragrant. \$0.50
- Elsa 82-85** (Mor. 1926). Of the shade of soft violet found in Corrida, but with a larger flower having flaring falls. Three feet. \$0.25
- Elsinore** (Hall, 1925). Primrose yellow, the S. and F. bordered with pale pinkish purple. A charming flower of delicate coloring. Thirty-four inches. \$0.35
- Endymion** (Sturt. 1925). A charming light buff blend. Thirty-six inches. \$0.25
- Equipoise** (Wmsn. 1934). See page 7. \$5.00
- Eros** (Mead-Riedel 1934). See page 9. \$15.00
- Esplendido 83-86** (Mohr, 1924). A fine big red-toned blend of good form. Forty-two inches. \$0.25
- Ethel Peckham (87)** (Wmsn. 1932). H.M., A.I.S. 1932. Large perfectly formed flowers of a wonderful brilliant red. We feel this is the best of the reds yet produced. Very fragrant. \$25.00
- Euphony (83)** (Sass, H.P., 1929). S. ruffled richest copper with a tinge of heliotrope at tips; F. veined old gold and tinged violet over a cream background. Three feet. \$0.35
- Farandole** (Cay. 1928). C.M., S.N.H.F. Flowers of largest size on well-branched stems. S. light rosy-lilac and F. purplish rose. Thirty-six inches. \$0.50
- Fascination** (Cay. 1927). S. and F. clear, bright purplish pink of a most intense hue; about the same depth of tone as Aphrodite but without the blue of that variety. Free flowering, vigorous with large finely-shaped flowers; a joy for the Iris connoisseur. \$0.50
- Fernande** (Mil. 1926). S. hazel nut color flushed soft mauve; F. reddish mauve with a violet sheen. Thirty inches. \$1.50
- Firefall** (Essig. 1928). Bright bordeaux red with Cadmium beard. \$0.35
- Flambeau** (Sturt. 1924). A yellow with F. veined chestnut. A vivid orange beard which lights the whole flower. Foliage low which gives the effect of great airiness to the blooms. Forty-two inches. \$0.25
- Flamingo** (Wmsn. 1929). A light, warm, rosy red, the base of the petals, style branches and the brilliant beard giving a strong central infusion of yellow. A fine formed flower of unusual coloring. \$0.25
- Folkwang 80-84** (G.&K. 1924). Beautiful color blending. S. rose pink; F. claret red, edge lighter. Large flowers on 30-inch stem. A lovely Iris difficult to describe. \$0.25

*Sundipt is a fine new
yellow—see
page 7*

- Fra Angelico** (Vilm. 1926). C.M., S.N.H.F. S. light bronze gold; F. same color overlaid metallic light lavender blue. A finely formed flower of great beauty and delicacy of coloring. \$0.25
- Francheville** (Cay. 1927). C.M., S.N.H.F. Enormous stout textured flowers 42 inches high; well-branched stems. S. chamois-fawn shaded clear lilac; F. purplish red shading to heliotrope at the margins. Of great value in hybridizing. \$0.75
- Frieda Mohr 89-85** (Mohr-Mit. 1926). A large deep pink toned Iris of perfect form, good texture, brilliant coloring and long flowering season. Forty-two inches. \$0.35
- Gargantue 86-87** (Mil. 1923). C.M., S.N.H.F. S. and F. violet blue, a rich color somewhat deeper than that of Wedgwood. Vigorous habit. One of the very few first-class garden Irises of this tone. Forty-five inches. \$0.35
- Gaviota 82-82** (Mohr, 1924). A creamy white with S. and F. edged yellow. Fragrant. \$0.25
- Gay Hussar** (Wmsn. 1929). This is a most brilliant variegata of wonderful texture. S. Lemon Chrome; F. deep velvety Ox-Blood Red with a narrow paler margin. One of the most popular of the Iris in our garden during blooming season. \$0.35
- Geo. J. Tribolet 90-88** (Wmsn. 1926). Silver Medal A.I.S. A magnificent deep red purple Iris. Flowers of perfect form borne freely on splendidly proportioned stems. Forty inches. Fragrant. \$0.25
- Germaine Perthuis 91-90** (Mil. 1924). C.M., S.N.H.F. Spec. Prize S.N.H.F. An intense velvety violet purple self; tall, large flowered and a fine grower. Late; fragrant; very fine. \$0.25
- Glamour 89-86** (Bliss, 1922). S. mauve tinted rose; F. red purple, flushed bronze. A fine variety of Dominion parentage. Three feet. \$0.35
- Glowing Embers 87-86** (Sturt. 1923). A.M., A.I.S. S. rich warm tan slightly flushed violet; F. a velvety dark glowing red. Heavy flower of great size and substance. \$0.25
- Golden Glory** (Jackson, 1927). H.M., A.I.S. A sturdy tall yellow with indistinct reticulation at throat. Of excellent form, deeper in color and superior to Shekinah with the foliage and vigor of Afterglow. Three feet. \$0.25
- Golden Promise 84-81** (Neeley, 1924). S. deep yellow; F. soft yellow faintly flushed soft lavender and reticulated bronze. Orange beard. \$0.25
- Grace Sturtevant (85)** (Bliss, 1926). The most outstanding rich brown Iris of Dominion parentage. Orange beard. \$1.00
- Grandiosa** (Donahue, 1930). A very large blue Lent A. Williamson. A beautiful Iris. Fragrant. Forty-one inches. \$1.25
- Griselda** (Wmsn. 1928). A beautiful large-flowered blend. S. Vinaceous Gray, Old Gold at base; F. Raisin Purple shading out to Vinaceous Gray; beard orange. Thirty-eight inches. \$0.35
- Grisette** (Wmsn. 1928). S. Walnut Brown shot with the Manganese Violet of the F. Its distinction lies in its smooth silky tones suggesting a rich Quaker Lady or Steepway. Thirty-four inches. \$0.25

- Helios (85)** (Cay. 1929). Special Award of Paris Iris Commission. Enormous, wide-petaled flowers of perfect form and fine substance. The S. are of pure lemon yellow as are the F. which are delicately pencilled clear rose purple which gives the flower a most artistic and sketchy effect. Forty inches. \$3.00
- Henri Riviere (85)** (Mil. 1927). S. purest lemon yellow, lightening to canary yellow at the base; F. lilac mauve with yellowish reflex, blending to canary yellow at the throat and edged canary yellow. An extremely late flowering Iris of the greatest vigor and fine large flowers. One of Millet's finest introductions. Forty-two inches. \$1.00
- Hermene (85)** (Parker, 1933). A tall satiny deep pink blend with golden center. Unusual and attractive color which harmonizes with most Iris colors. Of great garden value. Large flowers, fine texture and good form. Forty inches. \$1.50
- Heyday** (Wmsn. 1931). S. Mustard Yellow; F. Vandyke Red with a diffuse yellow margin. Its distinction lies in its long unique form and graceful carriage. Has a long period of bloom from mid-season on. In the late afternoon presents a soft glowing mass of color to delight the eye. Thirty inches. \$0.35
- Hiamovi** (Wmsn. 1930). A tall, stately and graceful Iris. Large lavender Violet bicolor. Vigorous. Fragrance of Sweet Williams. Forty-six inches. \$0.25
- Hoar Frost** (Mor. 1929). Delicate white flowers on slender stems. Thirty-two inches. \$0.35
- Hyacinthus** (Wmsn. 1928). A large, distinct, rich reddish brown bicolor with an orange beard. Thirty-six inches. \$0.25
- Hydromel** (Wmsn. 1928). S. slightly bronzed deep yellow; F. darkest mahogany with narrow gold edge. A very distinct Iris of heavy texture. Thirty inches. \$0.25
- Hypnos (83)** (Con. 1931). Blue shading into red and grey. Very tall and husky. \$0.50
- Iduna** (G.&K. 1926). Soft creamy white S. and violet blue F. Fragrant. Twenty-eight inches. \$0.25
- Illuminator** (Wmsn. 1932). A clear light red of Dominion derivative unique in that there is not a trace of yellow or brown in the flower. Thirty-six inches. Slightly fragrant. \$12.50
- Indian Chief (88)** (Ayres, 1929). S. Pinkish red; F. deep rich velvety red. A large, well-formed flower of heavy substance. Very fine and striking. Forty inches. \$1.00
- Ion** (Mead, 1929). S. pure violet blue; F. blackish violet edged with a paler shade. Very heavy textured flower lighted by a creamy white beard. Thirty-six inches. \$0.75
- Iriscrest** (Mead 1929). Large, broad finely rounded petals of clear medium blue. F. shading white at base. Fine. \$0.75
- Jacqueline Guillot 82-83** (Cay. 1924). Very large blooms of pure lavender violet with lustrous finish. Stalks stout and well-branched. Fragrant. A fine garden variety. \$0.25

- Jane Williamson** (Wmsn. 1928). General effect a pink pastel in sunlight glowing with iridescent colors, beard bright orange. Three feet. Vigorous and free flowering. Fragrant. \$0.25
- Joycette** (88) (Sass, J. 1931). H.M., A.I.S. A self tone of clear red with no blue tones. Flowers of good size on very tall well-branched stems. Fragrant. \$15.00
- Jubilee 85-84** (Sass, 1923). S. colonial buff fading to peach color; F. cream white; the whole flower heavily flecked with bright brown toward the center. A distinct ruffled Iris of extra heavy substance. Fragrant. Twenty-four inches. \$0.25
- Katherine McFarland** (Spitzer, 1926). A.M., A.I.S. S. Mulberry Purple; F. rich velvety blackish purple shading to a darker purple; beard orange. So far as we have observed this is the darkest Iris yet produced. It is a medium-sized flower on 30-inch stem. \$0.50
- Kestrel 85-84** (Mor. 1922). S. lobelia violet and F. rich velvety nigrosin violet, with a lighter border. \$0.25
- King Karl 85-83** (Sass, 1925). A.M., A.I.S. A beautiful plicata deeply frilled; S. light pinkish cinnamon; F. cream speckled red purple. Fragrant. Twenty-seven inches. \$0.25
- Kinglet** (Wmsn. 1934). See page 8. \$0.75
- King Midas** (87) (Mead, 1928). One of the first of the tall, bearded varieties to flower. The S. are golden buff suffused garnet brown edged golden buff. The heavy beard is of deepest orange and the center of the flower and the hafts are illuminated with intense golden lights, whence the name. A flower of fine quality, finish and form. Twenty-eight inches. \$0.75
- King Tut 84-85** (Sass, 1926). S. deep red-brown with F. of intense deep chestnut red, illuminated with orange. A dominating and striking color. Thirty inches. \$0.50
- Kublai Khan** (78) (Wmsn. 1931). A regal Iris of distinguished carriage—a rich rosy red bicolor. Each stalk carries five or six large flowers of distinctly globular form, each maintaining its individuality in the clump, well above the erect vigorous dark green foliage. Forty inches. \$2.50
- Labor 86-87** (Cay. 1926). A distinct rich red tone. A dark heliotrope violet, the S. flushed with copper, the F. with an electric blue sheen. One of the finest Iris. \$0.25
- Le Correge** (Vilm. 1927). C.M., S.N.H.F. S. light bronze suffused violet, golden at the throat; F. rich and velvety wine-red, lighter in tone and somewhat browner than Ambassadeur; prominent and brilliant beard. A very large, fine flower of heavy substance; tall grower, well-branched and sweetly scented. Thirty-six inches. \$0.35
- Lenzschnee** (G.&K. 1927). Pure white with a halo of pale sky blue on the falls. Large flowers on 32-inch stems. \$0.35
- Leverrier 86-82** (Denis, 1917). Flowers large; S. lilac purple; F. pansy violet. Of vigorous growth producing its great blooms on tall widely-branched stems. Fragrant. Forty-two inches. \$0.25

- Lindbergh** (Arb. 1930). S. Light blue violet; F. rich Pansy Violet shaded lighter at the edge. A flower of very pure liquid coloring. An attractive flower in every way, changing with the lights of day, of good form, good habit, thrifty and free blooming under all conditions. Unsurpassed for massing. Recommended as a garden Iris of very highest quality. Forty inches. \$0.35
- Lodestar** (Hall, 1925). A.M., A.I.S. S. lemon chrome; F. velvety claret brown with lemon chrome border. The flowers are fine finish with S. of remarkably clear color. Thirty-six inches. A most brilliant variegata. \$0.35
- Lona 84-83** (Sass, 1923). S. pale purplish vinaceous white toward center, ruffled. F. cream dotted and striped violet. Fragrant. Twenty-eight inches. \$0.25
- Loudoun** (Fen. 1924). A.M., A.I.S. Deep cream dotted amber; tallest and largest flowered of the peach colored plicatas. Three feet. \$0.25
- Luciane** (Cay. 1928). A wonderfully free-growing Iris and one of the latest to flower. S. bright lilac; F. flaring reddish violet. Three feet. \$0.35
- Luzianna** (Wmsn. 1932). This is a lovely clean bright blue about the shade of Miranda but bluer. Beautiful in habit. Fine for massing and makes a very attractive border. Slightly fragrant. Thirty inches. \$0.50
- Magenta** (Cay. 1927). C.M., S.N.H.F. S. and F. deep amethyst violet; a glorious and distinct color of a great purity and intensity. This variety is of pallida type, a good grower with good-sized flowers of great substance. A new color accent of great value in the Iris garden. \$0.75
- Magnate 75-75** (Sturt. 1918). S. light ageratum violet; F. velvety reddish purple-violet. Large flowers on sturdy stalks. Two feet. \$0.25
- Magnificent 79-79** (Fry. 1923). H.M., A.I.S. S. bright violet-rose; F. crimson. A large flower redder than Opera. \$0.25
- Majestic 88-87** (Bliss, 1923). A large flower of heavy substance. S. light blue, F. deep blue-purple. Thirty-eight inches. \$0.25
- Mareschal Ney (84)** (Wmsn. 1930). H.M., A.I.S. 1932. A very rich bicolored red with a chestnut brown tone, the central area distinctly orange lighted at a distance. Large flowers of fine form. Vigorous. \$1.00
- Margaret Anne** (Wmsn. 1933). A lovely Iris of unusual brick red tone and attractive. S. Ferruginous, F. Vandyke Red; Beard Deep Chrome. Thirty inches. \$1.50
- Marquissette 85-86** (Cay. 1926). C.M., S.N.H.F. A new distinct and attractive coloring, being a shrimp pink. \$0.75
- Marquita (87)** (Cay. 1931). C.M., S.N.H.F. A very attractive new variety. Of huge size and fine form. S. clearest ivory yellow; F. the same with ruby lines running almost evenly from base to apex. As the flower ages the center of the fall turns red leaving a creamy rim edging the flower. \$7.50
- Mary Barnett 88-90** (Cumbler, 1926). A larger Princess Beatrice. Glorious golden beard. One of the best light blues. Fragrant. \$0.25
- Mary Elizabeth (83)** (Kirk, 1929). A brilliant rosy red self. S. and F. same shade but the heavy velvety quality of the falls give it the effect of a bicolor. Golden beard. Thirty-eight inches. \$4.00

- Mary Geddes (89)** (Wash. 1931). H.M., A.I.S. A very beautiful and unusual Iris. S. light ochraceous salmon; F. same shade overlaid Pompeian red. Garden effect orange salmon. Very floriferous and vigorous. Thirty-eight inches. \$10.00
- May Sadler 82-81** (Perry, 1925). A rich and velvety flower of violet-crimson. One of Perry's best introductions. Thirty-eight inches. \$0.25
- Melchior** (Wal. 1927). A fine Dominion seedling along the lines of Mrs. Valerie West; large, tall, massive and of fine habit and heavy substance. S. deep bronze violet; F. rich velvety crimson purple. Forty-two inches. \$1.50
- Meldoric (88)** (Ayres, 1930). H.M., A.I.S. Huge blue black flowers with S. dome shaped, slightly reddish; flaring F. Orange beard. Very fine. Thirty-eight inches. \$4.00
- Messaline** (Mil. 1927). S. crystalline pale gold shading to lighter at the margins and flushed with pink lights; F. corinthian red passing to gold at the throat. Strong yellow beard. Thirty-six inches. \$0.75
- Midgard (85)** (Sass, 1926). S. and F. yellow shaded pink. A lovely blend with general effect a glowing pink. Large blooms of fine shape and lasting substance. Thirty-six inches. \$0.25
- Ministre Fernande David** (Cay. 1930). C.M., S.N.H.F. A massive flower of superb form and texture. S. silky red purple. F. velvety glowing dark red purple. Thirty-eight inches. \$6.00
- Moa 90-87** (Bliss, 1920). S. pure violet; F. deep violet purple or pansy violet; beard yellow-orange. Forty-two inches. \$0.25
- Montour** (Hall, 1925). A very lovely pink and brown effect with pinkish cinnamon S. flushed magenta; F. velvety burnt lake. Small blooms but a most unusual coloring and extremely attractive. \$0.25
- Moonlight 85-84** (Dykes, 1923). S. amber white; F. smoky sulphur yellow with green gold reticulations on haft. Very early and fragrant. \$0.25
- Mount Royal** (Morg. 1929). S. clear light blue; F. dark blue purple. Outstanding for clarity of tone, and for fragrance. Thirty-eight inches. \$0.50
- Mozambique** (Mead-Riedel, 1934). See page 9. \$12.00
- Mrs. Valerie West 92-91** (Bliss, 1925). Dominion seedling. Very large of heavy substance; S. bronze flushed lavender; F. deep, rich velvety red purple. Fragrant. Thirty-six inches. \$1.00
- Murillo** (Vilm.) C.M., S.N.H.F. A rosy Peau Rouge of liquid effect and of great garden value. S. rosy purple; F. rosy violet. Thirty-eight inches. \$0.25
- Naomi** (Sturt. 1924). A pink and carmine bicolor in garden effect. Floriferous and fragrant. Thirty-six inches. \$0.35
- Nebraska** (Sass, 1927). Rich deep yellow S. beautifully frilled. F. the same with rich brown markings. The most brilliant yellow. A very showy Iris. Thirty-four inches. \$0.35
- Nehawka** (Sass, J. 1929). Gracefully ruffled white flower heavily stippled dark blue purple. Appears almost as a self at a distance. Twenty-eight inches. \$0.50

*Equipoise is a new blend
you'll like. See
page 7*

- Nepenthe (84)** (Con. 1931). H.M., A.I.S. A lovely subtle pale blend. S. soft buff flushed lavender; F. very long of the same shade but flushed rosy lavender. Thirty inches. \$3.00
- Nightshade** (Wmsn. 1932). The wide branching and flexible stems combined with the dark purple shade of this Iris give a unique and beautiful garden effect. Light and airy. Those who like Souv. de Mme. Gaudichau color will be especially pleased with this Iris. Fragrant. Forty-two inches. \$1.50
- Ningal (83)** (Ayres, 1932). A very lovely and attractive blend. S. pure bronzy buff; F. flaring and of a smooth warm buff overlaid with iridescent very pale blue. Large finely formed flowers on tall stems. Forty-six inches. \$10.00
- Numa Roumestan (86)** (Cay. 1928). The S. are vinous red and the F. are somewhat deeper, a rich amaranth red. It has splendid carrying quality and composes well in the garden picture. A suggested grouping is with Jacqueline Guillot, Wild Rose and Pluie d'Or; another with King Midas and Hemerocallis Flava. Thirty-six inches. \$1.00
- Omaha** (Sass, 1926). A very distinctive Iris of coppery pink and brownish cinnamon. Thirty inches. \$0.35
- Opaline (85)** (Wmsn. 1930). A soft pinkish, strongly yellow flushed blend. A very lovely Iris admired by many. Thirty-six inches. \$0.75
- Ophelia 88-87** (Cay. 1925). A beautiful distinct and entirely novel coloring. S. golden coppery shaded heliotrope in the center. F. sulphur yellow shaded light heliotrope with golden copper margins. Thirty inches. \$0.50
- Oread** (Mor. 1927). Bronze and crimson of fine texture. Large and early. \$0.25
- Pacific (87)** (Essig, 1929). Clear, clean, bluish violet. F. flaring straight and slender. Very early. Not very hardy. Thirty-six inches. \$1.00
- Persia (86)** (Ayres, 1929). S. smoky blue; F. rich purple, blue in the center shading to much paler blue at the margin with dull gold markings at haft. Unique coloring. \$2.50
- Petruchio 90-90** (Mor. 1924). S. lobelia violet; F. dahlia carmine. Fine golden beard. Haft very prominently marked with brown on a cream base. A very fine large Iris. \$0.75
- Pewee** (Wmsn. 1934). See page 9. \$0.75
- Picador** (Mor. 1928). A large variegata with S. buff gold to a base of mustard yellow; F. Mineral Red to Dahlia Carmine. A brilliant Iris. Forty inches. \$5.00
- Pink Jadu (85)** (Sturt. 1931). A plicata of soft lovely pink and white, delicate and charming. \$2.50
- Pluie d'Or (87)** (Cay. 1928). Dykes Medal. One of the finest yellow Iris yet in general commerce. The flowers are richly toned, somewhat deeper than Gold Imperial, but they are larger and of finer form on tall well-branched stems. Should be in every garden. Thirty-six inches. \$0.75
- Primrose 88-88** (Sturt. 1925). A.M., A.I.S. S. a deep yellow and F. much lighter giving a medium yellow garden effect. Thirty inches. \$0.25
- Princess Beatrice 90-90** (Barr, 1898). A.M., R.H.S. The finest form of Pallida Dalmatica. Silvery lavender flowers of the greatest substance on 40-inch stems. Fragrant. \$0.25

- Princess Osra 81-80** (Bliss, 1921). Large free flowering plicata. S. and F. white peppered on margin with delicate lavender. \$0.25
- Rameses (90)** (Sass, H.P. 1929). Dykes Medal, A.I.S. 1922. S. light russet, vinaceous with yellow glow through center; F. tourmaline pink, large apricot beard. branching stem. Thirty-six inches. \$1.50
- Rasakura (80)** (Wmsn. 1930). Rose Purple bicolor but with the S. and F. not contrasting in shade. Vigorous, slightly fragrant and 32 inches tall. \$1.00
- Realm** (Baker, 1920). An intense, pure, rich blue self with a conspicuous golden yellow beard. The flowers are large, finely poised and of great substance. Best garden Iris of this color. Forty-two inches. \$0.35
- Reverie 83-82** (Sturt. 1920). S. cream flushed pink; F. an unusual tone of deep rose. The form, poise and style of flower are very fine. \$0.25
- Rhadi** (Mrs. W. R. Dykes, 1928). Silver Gilt Medal, E.I.S. Large flowers of good substance. S. creamy white shaded blue gray, pale bronze reticulations. F. bronze shaded blue slightly deeper than S. Prominent old gold beard. \$3.00
- Rhages** (Mead-Riedel, 1934). See page 9. \$12.00
- Rhea** (Wmsn. 1928). Darker than Isoline and a vigorous doer with all of Isoline's stateliness. S. Light Lobelia; F. Pansy Violet with tawny haft. Similar in size and form to Isoline. Thirty-six inches. \$0.25
- Rheingauperle** (G.&K. 1924). A pink of the utmost beauty and distinction. Petals are edged silver. \$0.35
- Rheintraube 76-79** (G.&K. 1920). A.M., R.H.S. Light Wisteria violet and madder violet, vigorous grower. Three feet. \$0.25
- Rialgar 81-82** (Sturt. 1924). A.M., R.H.S. S. deep yellow; F. chestnut brown. Late. Thirty inches. \$0.25
- Robert W. Wallace** (Perry, 1923). Rich deep violet. \$0.25
- Romance** (Mur. 1928). Silver Medal, London Iris Show; A.M., R.H.S. Another fine garden Iris of vigorous growth, well-branched and very free flowering. The blooms are beautifully formed and the color gives a general impression of a lustrous, satiny rosy-bronze. Charming in combination with Rialgar, Wild Rose and Allure. \$0.50
- Romala 87-89** (Bliss, 1924). A.M., R.H.S. S. pale lilac; F. velvety red violet. The center of the flower is tinged pale ivory yellow and the beard is deep yellow. The S. are finely arched and the F. flat hanging. A most lovely Iris in every way and a strong grower. Fragrant. Thirty-six inches. \$0.25
- Rose Dominion (88)** (Con. 1931). H.M., A.I.S. A beautiful deep rose-pink bicolor, with horizontal velvety F. Fragrant. Twenty-seven inches. \$3.50
- Rose Marie** (Cay. 1928). A vigorous late-blooming Iris with flaring F. S. light violet with greyish stately reflections; F. purplish red and gracefully frilled. Thirty-six inches. \$1.00
- Rubeo (88)** (Mohr-Mit. 1931). S. deep glistening rose; F. broad, heavy texture of deep maroon. Wonderfully branched stem. Forty-eight inches tall. Huge shapely flower. \$7.50

*Eros—one of the finest iris
ever introduced
See page 9*

- Sandakan (Wmsn. 1930). S. Pale Vinaceous Drab shot with yellowish and purplish reflections; F. Dahlia Purple; beard deep yellow. Thirty-six inches. \$0.75
- Sandia (Wmsn. 1934). See page 7. \$7.50
- Sandrine (Cay. 1927). Another of Cayeux' giants, in size and stature. S. fawn brown shaded with heliotrope and the F. amaranth red shaded at the margins with rosy mauve. Forty-two inches. \$0.75
- San Francisco (87) (Mohr-Mit. 1927). Dykes Medal A.I.S., 1927. One of the finest large flowered plicatas. S. and F. white distinctly edged blue lavender. Flowers are large, of perfect form, heavy texture on tall, stout, well-branched stem. A truly beautiful Iris. Forty inches. \$0.75
- Santa Barbara 91-89 (Mohr-Mit. 1925). A very fine and lovely lavender blue that has spreading horizontal falls. Forty inches. \$0.25
- Selene (82) (Con. 1928). H.M., A.I.S. A tall pure luminous white with yellow beard. Large flowers of heavy substance. Perfectly hardy. Very good. \$5.00
- Sequoiah 87-86 (Shull, 1926). H.M., A.I.S. Large flowered and tall. S. light vinaceous lilac blending to tawny olive near the base; F. pansy purple shading to velvety blackish red purple. In texture the S. gives one the impression of shot silk and the F. of rich velvet. \$0.35
- Shiawassee (Burch. 1927). Velvety red purple bicolor. Thirty inches. \$1.00
- Shirvan (88) (Loomis, 1932). H.M., A.I.S. S. pale shade of lustrous brown with yellow tones prevailing. F. semi-flaring rich heavy red brown. Finely formed flower of exceptionally velvety texture. Very brilliant. \$15.00
- Sirius (Bun. 1927). A.M., R.H.S. A beautiful Iris of fine garden value on account of its splendid habit and pure color, which has escaped general notice. Somewhat more violet than Souv. de Mme. Gaudichau which, taken all in all, it really surpasses as the color is fine and rich and does not fade in the sun. \$0.50
- Sir Michael 92-90 (Yeld, 1925). A.M., R.H.S. S. clear lavender blue; F. a rich red purple strongly suffused red-brown, beard brilliant red gold. Flowers large and massive. Fragrant. Forty-eight inches. \$0.75
- Siskin (Wmsn. 1934). See page 9. \$0.75
- Snow White (Sturt. 1926). Pure white. Easily grown. Thirty-six inches. \$0.75
- Solitaire (Nich. 1932). A fine shaped white of medium large size with brilliant yellow beard. Good substance and hardy. Thirty-eight inches. \$3.50
- Sonata (Wmsn. 1929). S. Olive-Buff shading to Sulphine Yellow at base; F. Lilac quickly shading out at the margins to the color of the S.; at the level of the apex of the beard and midway of either side a faint wash of Pompeian Red. A beautiful blend of the Mme. Durrand type. Makes a lovely combination with Rhea and Avatar. Thirty-eight inches. \$0.25
- Sophonra (Mor. 1923). An early white of waxy substance. \$0.25
- Sorcerer (Floore, 1926). A large flowered deep blue bicolor. Late. \$0.25

- Souv. de Loetitia Michaud** (Mil. 1923). Lobelia blue shading lighter at edges illuminated by heavy golden veins on the haft of the falls and a bright orange beard. Large shapely flowers on 48-inch stems. Very stately and a free bloomer. \$0.25
- Sumac** (Wmsn. 1932). The flower has the carriage of a Dominion without the severe formality of a Dominion F. The general garden effect is a red purple, which is emphasized when grouped in mass. Thirty-nine inches. Slightly fragrant. \$2.00
- Sundipt** (Wmsn. 1934). See page 7. \$8.00
- Swazi 89-84** (Bliss, 1922). S. bluish violet; F. dark velvety pansy violet. One of the finest of the Dominion seedlings. Flowers large and plant sturdy. Fragrant. \$0.35
- Talisman (83)** (Mur. 1930). C.M., S.N.H.F. A very richly colored Iris which gives a golden apricot effect in mass. S. and F. rich iridescent golden yellow faintly suffused and flushed violet pink more deeply in the F. than S. Electric blue flush down center of falls. Beard golden yellow. Fragrant. Thirty-two inches. \$4.50
- Talwar** (Wmsn. 1930). A red self with distinct Dominion characteristics. S. Rood's Violet; F. Raisin Purple. Beard deep Chrome. Large flowers of fine form. Fragrant. Early. Thirty inches. \$1.00
- Tenebrae 88-88** (Bliss, 1922). A dark colored Dominion seedling of dependable growth. S. violet purple, darker at the center; F. velvety blackish purple, center of flower stained and flushed straw yellow. Fragrant. \$0.25
- Thorsten** (G.&K. 1926). This is a lovely rich blue bicolor. Large flowers of fine form and texture and exquisite coloring. Late and fragrant. \$0.25
- Thrudwang** (G.&K. 1926). S. deep yellow; F. dark plum. \$0.25
- Titmouse** (Wmsn. 1934). See page 9. \$0.75
- Tom Tit 74-79** (Bliss, 1919). Very dark mulberry purple with good substance and horizontal falls. Small, gay and dainty. Eighteen inches. \$0.25
- Toscana** (Counterman 1932). A very unique colored Iris. The flowers are gracefully carried and the general garden effect is a sulphine yellow. A deeper, richer, glorified Vesper Gold. This Iris offers a most pleasing effect and should be found planted in all Iris lovers' gardens. Slightly fragrant. Very floriferous and vigorous. Thirty-six inches. \$10.00
- Tropic Seas 85-85** (Shull, 1924). H.M., A.I.S. A blue sister to Morning Splendor. S. Dauphin's Violet; F. mulberry purple. Forty-two inches. \$0.25
- Trostringer** (Sass, 1926). A lovely soft pink-toned variety that is nearly a white-flushed pink. Slightly deeper color than Caroline E. Stringer with flowers larger and better arranged. \$0.25
- True Charm 88-84** (Sturt. 1920). A large, tall and very fine plicata. S. and F. white with margins delicately veined blue lavender. Forty inches. \$0.25
- True Delight** (Sturt. 1924). A pure pink plicata. S. and F. purest white with pure rose pink venation and style arms. Free growing and floriferous. Sweet pea fragrance. Thirty-six inches. \$0.50

*Three plants of any iris variety listed at
\$1.00 or less for the
price of two*

- Tuscany Gold (85)** (Wmsn. 1929). The general effect is a distinct reddish gold color. S. Sulphine Yellow, clearer and deeper yellow at the base, shading upward to deeply tinged purplish at the margin; F. colored as S. but more purple. Thirty-two inches. A beautiful blend that has proven very popular. \$0.75
- Uncle Remus** (Essig, 1928). Deep mulberry purple self of fine form and texture. Thirty-six inches. \$0.50
- Valencia 85-86** (Mohr-Mit. 1926). A beautiful bright orange, buff self. Good formed flower on 18 inch stems. \$0.25
- Van Cleve** (Van Name, 1928). A.M., A.I.S. A tall well-branched variety of the deepest purple color, with velvety falls. Fragrant. \$0.35
- Vesper Gold 89-89** (Wmsn. 1927). H.M., A.I.S. A lovely soft yellow blend that combines better with most of the Iris than do the brighter tones. It is especially beautiful with Jane Williamson. Fine for massing. \$0.25
- Vingolf 83-85** (G.&K. 1924). S. creamy yellow flushed rose; F. rich velvety violet and a clear edging of light yellow. Very lovely well-formed Iris. Free flowering. \$0.25
- Wamblika (86)** (Sass, 1931). The flowers are large, perfectly formed and pure white with a bluish sheen through the haft. Pale yellow beard and a few yellow stripes on throat of F. Thirty-eight to forty-five inches. \$1.75
- Wedgewood 87-87** (Dykes, 1923). Large flower of rich Wedgewood China blue with a striking white beard. Forty-two inches. \$0.25
- Winneshiek (87)** (Egel. 1931). Large blooms and one of the best deep blue blacks we have seen. \$3.00
- Woodland** (Hall, 1925). A mauve to Chinese violet self. Broad petalled flowers of great size and beautiful shape. Stout, erect stalks, wide foliage, vigorous and free blooming. Forty-five inches. \$0.25
- W. R. Dykes (89)** (Dykes, 1926). This is probably the most remarkable yellow Iris on the market. The S. are tall, dome shaped and frilled. The falls are long and broad of great thickness and the surface of the flower is crinkled. Flowers of richest golden yellow with the falls lightly flecked violet. \$6.50
- Yataghan** (Wmsn. 1930). A dark purplish red, a richer Geo. J. Tribolet. Beard Deep Chrome. Fragrant. Very attractive. Three feet. \$0.75
- Yellow Moon 85-85** (Sturt, 1923). H.M., A.I.S. A soft, very pale yellow Iris of fine form and satiny texture. Exceedingly free, a good grower and desirable in every respect. Thirty inches. \$0.25
- Yves Lassailly** (Cay. 1928). C.M., S.N.H.F. An Iris with finely formed flowers of great texture. A delightful note in the garden. S. pure white and F. the same with a suffusion of soft sky blue. Three feet. \$0.75
- Zingara** (Wmsn. 1928). A.M., A.I.S. A very distinct orange variegata. Small flowers on 24-inch stems but very bright. Named for a group of gypsies who wore orange shawls. \$0.25

*Mozambique is tall and stately.
New this year
See page 9*

Crested and Beardless Iris

- Carolina.** A native beardless Iris of S. E. United States. A very frilled and ruffled flower, a bit more rosy than Versicolor. \$0.75
- Cristata.** A beautifully crested, woodland species. It is dwarf, the flowers almost stemless, dainty, light lilac in color marked with white, orange and darker lilac. Useful in the rock garden. \$0.35
- Dorothea K. Williamson (Wmsn. 1918).** A hybrid of the beardless species *fulva* and *foliosa*. Large velvety flowers of the most vivid purple. Thirty inches. Generally considered one of the very finest of the beardless Iris. Fine as a cut flower. It requires a moister situation than bearded Iris. \$0.25
- Ensata.** A native of Central Asia to Korea. A very handsome little soft-lavender flower that blooms about the same time as the Dwarf Bearded Iris, the dainty flowers nestling down among the foliage. Twelve inches. \$0.25
- Foliosa.** A native beardless Iris. Large flowers of violet blue carried very close to the ground on short angular stems. Does best in damp woodland soil, but will do well in rich garden loam. \$0.25
- Fulva.** A beardless Iris from the southern United States. Flat flowers of coppery red on upright stems 15-18 inches high. Prefers a moist situation. \$0.25
- Graminea.** A native beardless Iris of Southern Europe. Very fragrant. A very pretty little grass leaved variety that blooms well in full shade. The individual flowers of reddish violet lasts several days in good condition. Fine for rock gardens. Ten inches. \$0.50
- Hyacinthiana.** A native of Kansu, China. Soft blue and sulphur yellow, with brown venations. Hyacinth scented. \$0.50
- Orchioides.** Bulbous Iris. A native of Eastern Bokhara. Blooms very early. The blooms are rich deep yellow, very dainty. Foliage looks like a miniature cornstalk, with flowers at the top and in the axil of each leaf. The leaves are very glossy deep green, wide and down curving. Twelve inches. \$1.00
- Oenantha.** A native of southern United States. A tall very large flowered wine red. Four feet. \$3.00
- Pseudacorus.** A beardless Iris native to Europe. Strong foliage and flowers of brightest yellow. Suited to moist locations. \$0.25
- Pseudacorus gigantea.** A giant flowered form of *Pseudacorus*. \$0.25

- Regalis.** A beardless Iris native to southern United States. Very large and tall, beautifully shaped blooms of a delicate shade of pale lilac pink, styles very large, with long feathery crests. Broad foliage. Four feet. **\$4.00**
- Versicolor.** A common beardless species in the eastern northern United States. Variable in color, generally a light purple with yellow, white and purple on the haft. **\$0.25**
- Vinicolor.** A very fine wine colored beardless Iris from Louisiana. **\$1.00**
- Violilutea.** A beardless Iris native of the southern United States. A pretty soft violet with bright yellow crests. Three and one-half feet tall. **\$3.00**
- Virginica.** This is the common wild marsh or swamp Iris in Indiana. Similar in color to or lighter than Versicolor. **\$0.25**

Siberian Iris

These Iris are tall with slender stems and narrow, grass-like foliage. They are among the best for cut flowers. The plants do well in a moist location as well as in any good garden location.

- Emperor.** A.M., R.H.S. A beautiful Iris with deep violet blue flowers. **\$0.25**
- Kingfisher Blue** (Wallace, 1924). One of the tallest of the sibericas, bearing exceptionally large flowers on stems of over four feet. Very bright sky blue, lighter and brighter in shade than Perry's Blue, with much broader F. and less reticulated. **\$0.25**
- Llewellyn** (Cleveland, 1929). Large flowers of a most unusual shade of soft blue. Very distinct. Forty-six inches. **\$1.50**
- Periwinkle** (Cleveland, 1926). Big, brilliant blue, the F. having white venations to brown and green throat. Styles have turquoise midrib. Forty inches. **\$1.00**
- Perry's Blue** (Perry, 1912). A.M., R.H.S. A tall and particularly beautiful variety considered one of the finest sibericas. Large well-formed flowers on very tall stems. The color is a wonderful clear shade of sky blue, with white markings on the F., which are broad and stand at right angles to the S. Described as "Old China" blue. Forty-two inches. **\$0.25**
- Royal Flush** (Cleveland, 1929). Deep purple overlaid with red. Fifty-four inches. **\$4.50**

HEMEROCALLIS COLLECTION: One each of the above listed varieties for **\$1.75**.

Zinc Labels and Wire Stakes

We have had so many requests for zinc labels like the ones we furnish with our Iris plants that we have arranged to furnish 75 of these, copper wired, prepaid for \$1.25. Recipes for indelible ink and directions for writing on the zinc accompany each package of labels.

We can also furnish wire stakes, made from No. 9 galvanized wire, 22 inches long, with a ring turned on the end, for three cents each, express charges collect.

Join the American Iris Society

Every gardener interested in Iris should join that great company of flower enthusiasts comprising the American Iris Society. Each new member receives four valuable booklets each year, recording the development of this charming flower. Your membership will help you in planning your garden picture, will assist you in appraising more surely the value of new introductions.

Membership costs \$3.00 per year. You may add that amount to the order you send us for Iris, designating it for Iris society membership, and we'll take care of the rest. Or you may send your remittance with a letter of application to the Secretary of the Society, Mr. B. Y. Morrison, 116 Chestnut Street, Takoma Park, D. C.

Identifying Flowers Sent by Mail

Every year we receive a number of packages containing Iris flowers to be named. We are sorry it is impossible to do this with any accuracy or certainty. Such flowers have always been received in poor or very bad condition and the number of named varieties and unnamed seedlings in gardens is so great that identifications based on such wilted or rotted flowers are utterly untrustworthy. Such unnamed plants may be named by some expert who visits your garden or you can take freshly cut stalks to an Iris show or to some good garden for comparison. We do not believe it is worth while sending such flowers by mail to be named.

Gypsum

Gypsum has been found useful in the treatment of rhizome rot, but it is not always easily available, especially in small communities. If you want gypsum, enclose a stamped return envelope to Gypsum Association, 211 West Wacker Drive, Chicago, Illinois, and they will tell you the nearest point where gypsum may be obtained.
