The Northern mail brought New York papers of the 4th and Mileston of the 11th. By the Sahuda, line ship, and Napuleon packet London dates three days later have been received by the New York editors. The news is not very important. We extract such as possess the mast laterest, from the columns of the Enquirer. No general battle, it will be seen, has taken place between the Russians and Pole The army of he former, encamped in the neighborhood of Warshw, evinces, by its conduct a dis osition to eachew a adecisive trial of their respective strength; unless indeed the inzbility of the Russian power to proceed with the campaign, as the negociation of a loan would lend us to infer, has thrown its army into an inactive statu ovo.

By the ship Eleanor, capt. Childs, sailed from Liverpool on the 22d of August, we have received our files of London rapers up to the 21st. The tory party are butting manfully against the Reform Bill. The marquis of Lox DONDERRY Scenis to have supplanted his Grace of Wellington in the knack of devising impediments to check the operations of an administration, which is countenanced by the unjurity of the English people. The ultra-patrician spirit; the bullying senatorial dictation has subjected the Marquis to severe rebuke from both foes and friends. Pelgium is his stalking horse, and behind her, as from a rampart, he assails the reforming ministry.

The cholera-morbus is raging at Warsaw to a very formidable extent. Dr. Antomarci, once Napoleon's surgeon at St.-Helena, writes from Warsawallat he and his colleagues have more than 12,000 patients under their care.

The prohibition regarding the sailing of vessels under the Bortuguese flag has been withdrawn. The Duke of Marlborough packet led the Tagus sthe 31st of July , the Portuguese men-of war had French colours flying when the packet sailed.

A depreciation had taken prace in the London money market, on the 21st, on account of reported change about to take place in the miery. Rumor assigns the premiership to the DUKE OF RICHMOND.
We letter, says the Globe, by a letter from

Warsaw, that the whole of the city is under-mined. This shows a determined resolution on the part of the Poles, and threatens inevitable destruction to their foes.

The French Chamber of Deputies are atill squarbling and shooting forth "paper-bullets grateful task to compare the progress of arts a d sciences, among the infant population of Missouversa, ministers in opposition to deputies. The news by this arrival is highly important. no proving that the gallant Pours har not only nobly defended themselves against their opprescors, but are in high spirits on the eve of what is considered a great and final struggle for their freedom. What is still more important, there is reason to believe that by their gallantry and perseverance, they have at length compelled the Powers of Europe to interfere in their behalf. The London Sun of the evening of the 24th

[God grant it may be true.] Accounts from Warsaw, says the Herald, have been received up to the 12th inst. They unte that the Russian General, Field Marshal Count Paskewitch, kept the grand army at a cautions distance from the Polish capital (fully 50 miles) and as cautiously avoided coming to on engagement. It was thought that his plan to car off the supplies from Warsaw. He was said to be expecting reinforcements of troops from the Russian Asiatic provinces, and fears were entertained of those troops bringing in their train the plague, which had, a is stated, some time ago broken out amongst them. The greatest unanimity prevails in the Polish capi tal, and all feelings of party spirit have given way to patriotism. The Polish army, at the date of these accounts, was in sight of the Russians, and a great buttle was hourly expected. Despatches had been received at Warsaw from Colodel Koss, who accompanied Gielgad to Lithuania, and who was detached towards Polan The Colonel continued to maintain him self in the Government of Mohilew. The num ber of the armed insurgents there, and in the vi cinity of Witepsk was estimated at 10,000 men Gen. To stoi, had broken up from Wilna to march against them. The report that a part of General Rudiger's rosps had crossed the Vistul bad not been confirmed. General Dembinski had been appointed Governor of Warsaw, and had stready begun to net in that character.

To change of importance had taken place in the position of the armissippe the last ac-counts, but every thing seems to portent an awful and final struggle. It seems to be the policy of the present Commander of the Russians ra-ther to starve the exputations a surrender than to make a bold joish at invalignmen. > LONDON, Aug 23 The Emperor of Russia eas, at length, indu ced a capitalist to accept the management of a Pole-murdering loan. His Imperial Majesty could not find any one to contract for his loan, consequently it has been brought out upon comproviding any one will buy it, and the proceeds to be handed to the Emperor of Russia. We are rejoiced to learn that no English house could be truction of the Poles. A Dutch firm has got the commission. The amount of the intended loan is 3,400,000, and it is offered at 88. bearing an interest of five per cent. By the way this uffair shows the weakness and poverty of the Russian Empire. BELGIAN COLONISTS .- The attention of many of our citizens has been attracted within a few lays, by a costume huherto unknown even in this city, which presents so great a variety of the modes of foreign nations. Several tall, erect, well made men, have been occasionally seen in the streets, dressed in green suits of a peculiar but becoming form, with tutt Dutch breeks green stockings, and square hats of straw covered with red silk. Inquiries were made by passengers whence the strangers came, and it proved that they belong to the suit of Prince Leon, whose arrival from Belgium has been recently announ ced. At the customhouse a few days ago, as gentleman informs us, he saw a person enteriog forty five servants and eighty five trunks, belon ging to the retinue of this re-pectable foreigner. The recent changes in his native country have nduced nim to seck a permanent about in the United States. For this purp se he has brought a considerable number of his countrymen, with a large sun of money, as is stated, designing to purchase a tract of land in Pennsylvania. N. Y. Dai Adv.
