AYA PANA BITTERS.

Manufactured by J. Chauvet.

THESE BITTERS, which are confessedly superior to any other liquor, are offered to the public with confidence, because their extraordinary merits universally justify their use. These BITTERS are composed exclusively of the extracts of various plants and possess in a concentrated form the valuable medicinal properties. Their tonic and stimulating properties render them particularly valuable in cases of debility, as they are likewise a febrifuge, and are proved by experience to neutralize the effect of miasma on the system.

We must publish a host of certificates to substantiate our assertions, but this will not be necessary, as the public is convinced that no client is more advantageous to the human race than one who daily make use of the AYA PANA BITTERS.
