NO. 61.

INSURGENTS WIN IN PRIMARIES

RESULT OF ELECTION IN STATE OF WASHINGTON

M. Poindexter, of Spokane, Nominated by Republicans for U. S. Senator

(Times Leased Wire.)
Seattle, Wash., Sept. 14.—The winners in state primaries follow:

For senator—Miles Poindexter, Spokane, insurgent.
Congressman First district, T. P. Stanton, Warburton, Tacoma, insurgent; third district, W. L. La Follette, Pullman, insurgent.
Congressman Miles Poindexter, of Spokane, militant insurgent, was yesterday nominated by the Republicans for United States senator by a plurality over Judge Thomas Burke, stand-patter, of more than 35,000, and by a majority over all five of his opponents. Poindexter carried King's county (Seattle), Judge Burke's home, by more than 5,000; carried Pierce county (Tacoma), home of James M. Axtell, third man in the race; carried Spokane county (his own home), by seven to one, and all of eastern Washington by four to one. He has apparently carried every county in the state except Thurston (Olympia), carried by Ashton, and Jefferson county (Port Townsend), carried by Burke.

While returns are meager the three insurgent candidates for congress have apparently won. William E. Humphrey, incumbent in the first district (Seattle), is running close to and may lead Revelle, progressive on first choice vote, but the indications are that he will not get 40 per cent, and the second choice will be required to decide, in which case Revelle will win.

In the second district (Tacoma), Warburton, insurgent, in a three-cornered fight has carried the district by 3,000.

In the third (Spokane) district, W. L. La Follette, Pullman farmer, insurgent and cousin of Senator La Follette, leads all six of his opponents on both first and second choice.

Poindexter's nomination in the primaries insures his election by the legislature, since four-fifths of the successful legislative candidates are pledged to support the party choice.

While there are no returns from the Democratic primaries, results in that party, most of them uncontested or practically so, will be George F. Cotterill, of Seattle, for Senator; W. W. Black, of Everett, for congress, first district; Maurice Langhorn, of Tacoma, for congress, second district, and J. B. Dorman or W. H. Merritt, of Spokane, for congress, third district. Should either Humphrey or McCredie be nominated on the Republican ticket, he would face possible defeat by his Democratic opponent in November.

The senatorial and all three of the congressional contests in the Republican party were fought on the national insurgent issues, the Payne-Aldrich tariff, the high cost of living, national consent to conservation, the domination of politics by big business interests, Aldrichism and Cannonism.

Yesterday's result probably means that the entire Washington delegation in congress next year will be in the insurgent column.

The nominations for county officers are given to-day as follows: County auditor, Otto A. Case; county engineer, James R. Morrison; superintendent schools, A. S. Burrows; county assessor, Albert E. Parish; county clerk, D. K. Sickels; county treasurer, Will H. Hanna; county sheriff, Robert T. Hodge; coroner, James C. Snyder; prosecuting attorney, John F. Murphy.

MAY GO TO OTTAWA.

(Special to the Times.)
Ottawa, Sept. 14.—Neither at the archbishop's palace nor at the residence of the papal legate here, had any information been received in confirmation of the cable information from Rome that Archbishop Gauthier of Kingston had been appointed to succeed the late Archbishop Duhamel here. Though not officially confirmed, however, in Catholic circles it is believed to be correct.

TRANSFERRED.

(Special to the Times.)
Halifax, Sept. 14.—Mr. David P. Wilbur, until October, last, United States consul-general at Halifax, has been transferred from Kobe, Japan, to Vancouver, B. C., exchanging places with George N. West, consul-general for British Columbia. The move means a lowering in rank for Mr. Wilbur, but it was made at his own request, that he will be nearer his wife, now ill in a sanitarium in New York.

TELLS OF CONGRESS.

(Special to the Times.)
Montreal, Sept. 14.—Cardinal Logue, the primate of all Ireland, officiated at mass in St. Ann's church yesterday morning, after which he delivered a short address dealing with the Eucharistic congress. A large crowd gathered in the church long before the hour set for the commencement of the service.

FISHERIES AWARD.

The Hague, Sept. 14.—The award of the International Court of Arbitration in the Newfoundland fisheries case became irrevocable yesterday with the expiration of the five days allowed for an appeal without either the United States or Great Britain having entered a protest against the findings.

FALL FAIR WILL BE A SUCCESS

SECRETARY SANGSTER PERFECTING HIS PLANS

Appeal to Citizens—Judges Appointed—Boy Scouts' Parade on Grounds

With numerous entries in the livestock, poultry, industrial and educational departments, the success of the fall fair is now practically assured. If the exhibition is not a success it will not be for the want of something to see, as a person will have to visit the grounds every day during the progress of the show to see all inside the fence. George Sangster has proved himself to be an indefatigable secretary. He has made every possible arrangement which he has deemed advisable for the success of the exhibition. Besides this he has aroused the interest of many public-spirited citizens, and they are assisting him in no small way to make the jubilee fair one to be remembered for a long time.

A good advertiser, Mr. Sangster is to have pamphlets distributed to all the homes in this city. He is trying to arrange with Lieut.-Col. Hall, the commissioner for the Boy Scouts on Vancouver Island, to have the members of the brigade deliver these. If the consent of the colonel is received then it will mean a great saving to the B. C. Agricultural Association, as no boys will have to be employed, and the work will be efficiently done. The leader reads as follows:

For the Honor of Victoria.
The fiftieth anniversary of the B. C. Agricultural Association will be held in Victoria, September 27th to October 1st, 1910.

It will be a memorable occasion. No expense has been spared to render it both instructive and entertaining.

Every precaution has been taken to make it morally beyond criticism. It will be a liberal education as to the resources of the province of British Columbia. It will provide more and better features of interest than have ever yet been offered.

The same exhibition on the mainland would be crowded day and night. A high-class circus, excellent music, rough riding and roping contests by trained experts.

Drilling and marching contests by Boy Scouts and Boys Brigades. Horse show events of high merit on three afternoons and evenings, with high jumping, four-in-hand and tandem driving.

Fine arts loan exhibit and women's work displays. Grand exhibit of fruit, flowers, poultry and live stock.

There will be a daily change of programme with every day special attractions. Come yourselves and bring your wives, children, friends and acquaintances. (Concluded on page 11.)

SUSPECTED MURDERER HELD AT BELLINGHAM

Employees of Sheriff's Office Deny Man Caught by Fire Fighter is Reid

(Times Leased Wire.)
Bellingham, Wash., Sept. 14.—Pending identification by the provincial police of British Columbia, the man captured by two fire fighters near Fernvale on Monday and who claimed to be George Reid, the Clayburn, B. C., wife murderer, then William Berrill, of Bay City, Mich., will be held by the local authorities.

Yesterday the British Columbia authorities were notified by wire that Reid or Berrill was being held here, asking that an officer acquainted with the murderer be sent here for identification. Reid was caught as he emerged from the smoke and flames of the forest fire raging near Fernvale. He was exhausted and nearly overcome from smoke, heat and starvation. "Yes, the big up. In the man," was the manner in which the prisoner answered Clark and Roper, his captors, in reply to a question whether or not he was the man who murdered his wife and known as Reid.

Employees of the sheriff's office deny the man is Reid.

WILL VISIT WINNIPEG.

Cardinal Vannutelli—Going to Prairie Capital at Request of Archbishop Langevin.

(Special to the Times.)
Winnipeg, Sept. 14.—Cardinal Vannutelli, who will arrive in Ottawa on Thursday afternoon by special train from Montreal, will be entertained at dinner by Sir Wilfrid Laurier on Thursday evening. Cabinet ministers and high dignitaries of the church will be present. The cardinal will remain in Ottawa until Friday afternoon when he leaves for Winnipeg, where he goes at the request of Archbishop Langevin.

CAPTAIN FINED.

(Special to the Times.)
Quebec, Sept. 14.—Capt. Gibson of the steamer Torfonia, was fined \$150 for neglecting to report several cases of sickness on board his vessel.

"CONFUSION WORSE CONFOUNDED."

ESTIMATES OF GRAIN CROPS

REPORTS FOR AUGUST SHOW IMPROVEMENT

Loss in Western Provinces Due to Drought Which Prevailed in July

(Special to the Times.)

Ottawa, Sept. 14.—The bulletin of census statistics issued yesterday says that the reports on the field crops at the end of August are more certain than at the end of July, and that the situation during the month has improved.

The estimate for wheat, oats and barley is 445,420,000 bushels, which is 129,188,000 bushels less than the final estimate for last year. Spring wheat is 45,608,000 bushels less, oats 70,219,000 bushels less and barley 15,910,000 bushels less, but fall wheat shows an increase of 1,649,000 bushels. The loss in the western provinces, exclusive of British Columbia, is the result of the great drought of July which reduced the area harvested by 22 per cent for wheat, 24 per cent for oats and by 21.5 per cent for barley. The estimated production of wheat for the whole of Canada is 122,735,000 bushels, oats 233,247,000 bushels and of barley 32,288,000 bushels as compared with 166,744,000 bushels of wheat, 353,466,000 bushels of oats and 55,398,000 bushels of barley in the final estimate for last year.

The estimate for Manitoba, Saskatchewan and Alberta is 99,890,000 bushels of wheat, 32,201,000 bushels of oats and 14,733,000 bushels of barley, being an average of 11,89 bushels for wheat, 20.96 bushels for oats and of 14.49 bushels for barley over the area sown, but 15.24 bushels of wheat, 27.91 bushels of oats and 21.22 bushels of barley on the area reaped. Compared with the same period last year for the Dominion the average condition of spring wheat on August 31st was 79.05 to 84.30, oats 80.03 to 84.89, and of barley 80.51 to 83.54, but compared with conditions at the end of July it was 79.05 to 79.95 for spring wheat, 80.03 to 79.94 for oats and 80.51 to 79.92 for barley.

REGISTERED MAIL REPORTED STOLEN

U. S. Secret Service Agents Trying to Find Men Who Secured \$35,000

(Times Leased Wire.)

Seattle, Wash., Sept. 14.—While local officials of the postoffice department refuse to affirm the story of the theft of \$35,000 in gold from the registered mails on board the steamer Humboldt last week, it is stated on the most reliable authority that the secret service agents are co-operating with the graminship company's detectives in tracing the thieves into the Tanana district in Alaska. It is believed that the mails were robbed by the same gang that got away with the box of \$51,000 in gold bullion.

NAVIGATION OF HUDSON BAY

R. W. BROCK SUBMITS REPORT ON ROUTE

Length of Season May Be Lengthened Beyond Present Duration

(Special to the Times.)

Ottawa, Sept. 14.—The possibility of the Hudson Bay route is again assisted in the official report of R. W. Brock, director of the geological survey, who accompanied Earl Grey on his recent trip. Mr. Brock sums up as follows:

When detailed charts are available, lights and wireless stations established, currents and magnetism carefully studied and sailing masters are familiar with the route the length of the season of navigation may probably be lengthened at both ends beyond the present duration. From July to November there seems to be no difficulties in the way of again utilizing, if necessary, the back door of Canada through which, until the advent of railways the trade of the west and north was conducted. It should be possible to ship the cattle of the west in modern steamships over the route which in the tiny sail boats of the beginning of the eighteenth century the court ladies of Louis XIV. could travel on pleasure excursions.

PREPARING FOR CORONATION

OVERSEAS PREMIERS WILL BE PRESENT

Large Contingents of Canadian Troops Will Take Part in Ceremonies

London, Sept. 14.—The arrangements for the coronation of King George will include a larger representation of contingents of troops from Canada than on the last occasion. Probably Australia and South Africa having also felt rapid expansion like that of Canada will send an impressive delegation.

Colonial premiers and other officials will receive invitations. The chief ministers will be officially invited in accordance with the scheme approved by King George a month or two ago. The Lord Chamberlain's office will settle the question of precedence in the procession to and from Westminster Abbey. Preparations are actively proceeding. The scheme for the decoration of great public buildings, monuments and streets is already in contemplation. Official invitations of course have not yet been thought of as the court is in mourning, but in outside circles the conservative arrangements are in progress.

TRADES AND LABOR CONGRESS

MANY RESOLUTIONS PASSED BY DELEGATES

Safety Appliance on Street Cars— Parliamentary Solicitor Submits Report

(Special to the Times.)

Fort William, Sept. 14.—The auditorium was crowded this morning when the session of the trades and labor congress was opened. Many ladies were interested spectators of the proceedings. Resolution followed resolution in rapid order, and a feature of the session was rapidly with which business was transacted.

The framing of resolutions had been done in committee, and fast as they were handed in they were presented by Chairman Glocking for discussion. J. B. O'Brien, of Ottawa, submitted a resolution that provincial executives of the trades and labor congress be instructed to ask for the enactment of legislation compelling different street railway companies through the Dominion to equip cars with air brakes and other modern appliances. This was adopted.

Another resolution which was carried unanimously instructed provincial executives to secure the passing of legislation raising the age of children eligible for employment to sixteen.

The congress decided to use its influence to do away with the practice of allowing ratepayers owning property in different wards of a municipality to vote more than once on by-laws. It was held that he should vote only in the ward in which he resided.

The motion by George Price, of Port Arthur, deprecating displays of militarism on labor day was introduced amid applause. It is to be discussed on Thursday.

The report of John G. O'Donoghue, parliamentary solicitor, was also taken up. This afternoon the delegates are being entertained by the local labor council on a trip on the bay, after which they visited the elevators. Tomorrow the sessions will be held at Port Arthur.

BUILDING OPERATIONS AT CAMPBELLTON

Work is Being Rushed, But Thousands Are Still Living in Tents

(Special to the Times.)

St. John, N. B., Sept. 14.—A. E. G. Mackenzie, of Campbellton, who has had charge of the military tents and fire affairs in the burned town, says he considers the conditions serious there, and predicts much suffering for the people in the winter months. The relief committee has received \$95,000 in all, whereas the loss was several million. There are still three thousand and fifty tents in use, and winter is at hand. Building operations are now being rushed.

BY-LAW SOON ON GOLDSTREAM

CITY SOLICITOR DRAFTING MEASURE

Terms Under Which Expropriation of Esquimalt Co.'s Holdings Can Be Made

F. H. McPharmlid, city solicitor, is now engaged in drafting the bylaw providing for the expropriation of the entire holdings of the Esquimalt Waterworks Company, and hopes to have the same ready for submission to the city council at the regular meeting of that body to be held a week from Monday next. The date on which the measure will be submitted to the judgment of the ratepayers will, of course, depend upon the expedition with which the city council passes it.

The preparation of the bylaw by the city solicitor follows the action of the citizens' water committee making a recommendation to the city council to that end and the subsequent adoption of that report by the city council. Certain members of the board, however, notably the mayor and Aid. Fooker, are desirous of having the Sooke Lake proposition submitted to the ratepayers simultaneously with the bylaw regarding Goldstream, but it is improbable that this course will be pursued. At the last meeting of the citizens' water committee, it will be recalled, no decision was reached in respect to a bylaw for the Sooke Lake enterprise, and it is thus probable that the bylaw on Goldstream will be submitted by itself to the vote of the ratepayers.

In this connection the following from the Victoria Waterworks Act (Amendment), passed at the session of the legislative assembly of 1909, will be read with interest:

"Provided that the commissioner shall not enter upon, take or appropriate any of the lands, waters, rights or privileges of the Esquimalt Waterworks Company without, if that company so requires, taking, appropriating and purchasing the whole undertaking of the company; and the price or compensation to be paid by the said corporation to the said company for the value of the property so purchased, taken or appropriated shall, in case of disagreement, be decided by arbitrators appointed under the said statutes of 1873, chapter 20, and 19, 1892, chapter 64.

"Provided, also, that the corporation of the city of Victoria may expropriate a sufficient right-of-way over, through or under the lands of the Esquimalt Waterworks Company for the purpose of conducting waters from Sooke watershed to the waterworks system of the city of Victoria, notwithstanding the foregoing, make compensation therefor, and all damage at any time thereafter suffered thereby; Provided further, that the power of this section shall not be exercised by the said corporation unless the said corporation shall not have exercised any power in that behalf in— (Concluded on page 4.)

FIRE DESTROYS ZEPPELIN AIRSHIP

Zeppelin VI Was One of Largest Dirigible Balloons Ever Constructed

(Times Leased Wire.)

Berlin, Sept. 14.—Giant Zeppelin's great airship Zeppelin VI, was destroyed by fire near Babelsberg today. The airship was a dirigible of the Zeppelin type and was one of the largest aircraft ever constructed.

The fire was caused by a terrific explosion while the craft was making a return trip to Heilbrun, its headquarters. The flames shot skyward and the ship began to settle.

Although the ship fell a considerable distance, it settled lightly and only three of the crew received serious injuries. Six passengers were aboard. The vessel was completely destroyed.

This is the fourth serious accident to the Zeppelin dirigibles. Two have been wrecked and another burned, before today's accident.

Five minutes after the fire started all that was left of the great ship was a twisted mass of framework and molten metal. The crew was landed when the ship settled to the earth before the fire had spread far.

To-day's accident, coupled with three former mishaps to four Zeppelin's ships, have discredited thoroughly the Zeppelin type of dirigible here. Whether or not it will affect the continuing of the German army's experiments with the craft is problematical.

BOYS' LONG JOURNEY.

Arrives At Edmonton, From England on Way to Lesser Slave Lake.

(Special to the Times.)
Edmonton, Sept. 14.—Frederick Tinnell, a 12 years old boy, has travelled alone all the way from Gloucestershire, England, to join his brother at High Prairie, Lesser Slave Lake. The boy was started off carrying a letter containing minute instructions and sufficient money to last him for the various stages on his journey. When he arrived here yesterday he was practically penniless, as he had spent his last money for meals on the train. He had a draft cashed here, however, and this gave him enough to pay his expenses for the last stage of the journey, 170 miles north to Lesser Slave Lake.

IDENTITY OF BODY IN DOUBT

EXPERTS TESTIFY AT TRIAL OF CRIPPEN

Mlle. Leneve, Collapses During Hearing of Case in Bow Street Court

(Times Leased Wire.)

London, Sept. 14.—In the dingy Bow street police court to-day Dr. Pepper, government analyst, under the searching cross-examination of Attorney Arthur Newton, repudiated his former testimony in the Crippen case, declaring that it was impossible for him to determine the sex of the lime-etched body found in the basement of the house occupied by the Crippens in North London.

Dr. Pepper said that the only way to determine the question of sex was by an anatomical investigation, and that with the mutilated parts of the body discovered no genuine determination of the question could be reached in that way.

He believed, however, he admitted that when he first saw the portions of the body that the remains were those of some animal. It requires close examination, he said, to determine that they were parts of a human body. That there could be no mistake about the examination was once made, he declared, positively.

"I quickly saw my error," said Dr. Pepper, referring to the admission that he had at first believed the body to be that of an animal. "There is no question that the body is that of a human being. There could be no mistake about that. I believe that the remains are those of a woman, probably of a middle aged woman of rather large proportions. This is indicated, and I may say almost established beyond doubt by the fact of the operation of hyoscin poisoning."

Dr. Pepper said that the day after the body was found, July 15th, he and Dr. Marshall, one of the experts for the crown, performed a postmortem examination, eliminating all doubt in regard to the body being that of a human being.

Then Attorney Newton began his cross-examination. Dr. Pepper made damaging admissions, leaving the identity of the body dependent on strands of hair found in curlers near the place where the remains were discovered, and on another lock of hair found in a handkerchief. Dr. Pepper admitted that the hair found in the curlers was dark, while that in the handkerchief was of a light color.

Dr. Pepper previously had maintained that identity was established beyond doubt.

Admissions made later in the morning when the crown's expert, Dr. Marshall, took the stand, left the identity of the body still in doubt. Identification, according to Marshall's statements on the stand, would depend on the evidence cited by Dr. Pepper. It is believed that unless some more convincing evidence is discovered the case against Dr. Crippen will collapse.

Mlle. Ethel Claire Leneve, who sat with Dr. Crippen in the prisoner's dock, was elated at the result of the cross-examination. Suddenly she fell forward across the railing that formed the front of the dock. Her elation gave place to depression and caused a complete collapse. She is on the verge of nervous breakdown, the physicians who attended her to-day say, as a result of the strain of the trial. A recess was necessarily made by her collapse.

Dr. Crippen was also highly elated when the questions of the attorney for the defence showed the case of the crown was weakening. Even the collapse of his companion could not cause him to waver in his confidence in the evidence he had presented.

Dr. Pepper, during his examination to-day said the gear on the body which the crown depended on to help identify the body found in the Crippen cellar was an old one, and he believed it had resulted from a surgical operation.

Dr. Pepper said the body evidently had been buried between four and eight months when it was discovered.

Attorney Newton asked him if he had not secured the facts from Inspector Dew before making the examination and then endeavored to make the examination fit the inspector's theory. Dr. Pepper denied that this was the case.

The case is appealing to the play-wrights. Sir John Hare, Sir William Gilbert and H. R. Irving attended the hearing to-day and took copious notes. As seen at Dr. Pepper had concluded his testimony, adjournment was taken until Friday.

TORONTO STREET RAILWAY.

(Special to the Times.)
Toronto, Sept. 14.—Negotiations with President Wm. Mackenzie and the directors of the Toronto Street Railway, with a view to purchase of the company's plant by the city will be now entered upon, the city council having, with an almost dissenting vote in favor of the course.

AUTO OWNERS TO ORGANIZE.

Seattle, Wash., Sept. 14.—More than 500 automobile owners will attend the organization meeting of the Western Automobile Association which will be held here next week. More than fifty machines will come over the road from Portland and scores are starting to-day from points as far distant as Los Angeles and San Diego, Cal. The new organization will be similar to the automobile association of America, embracing the Pacific Coast States.

ATTEMPTED SUICIDE AT OAK BAY AVENUE

Woman Takes Foreign Poison and Lies in Precarious Condition at Jubilee Hospital

A woman, employed at the residence of Frank Burrell, Oak Bay avenue, made an attempt to commit suicide this morning by taking poison. The city police were informed and referred the matter to the police of the Oak Bay municipality.

Dr. Nelson was called to attend the woman and after notifying the police of the matter, ordered her to be sent to Jubilee hospital, where she now lies in a precarious condition.

The nature of the poison taken by the woman is unknown at present, the physician saying it is a foreign poison, the nature of which he is at present unacquainted with.

At the time of going to press the woman was still alive. It is rumored that she left a letter with \$100, and in the letter said she intended to commit suicide.

TWO BOYS FINED \$50 FOR SHOOTING BIRDS

Had Cock Pheasants Plucked and Ready for Pot When Deputy Game Warden Arrived

In the provincial police court yesterday afternoon William and John Perry, two Italian youths, with Anglicized names, were charged with having cock pheasants in their possession prior to the opening of the game season. They were defended by R. C. Lewis but were found guilty and were fined \$50 each.

The case was called yesterday morning but the boys did not appear, and when it was again called in the afternoon, it was found that the boys talked English poorly and an adjournment was taken till three o'clock for the court to obtain an interpreter.

The arrest was made on Sunday last by Deputy Game Warden Gildley, in the Royal Oak district, where he found the accused with cock pheasants in their possession. The birds had been shot and plucked and were ready for cooking.

NEW C. P. R. HOTEL

(Special to the Times.)
Winnipeg, Sept. 14.—The contract was let to-day by the Canadian Pacific railway for the hotel at Proctor, Kootenay Lake, the price being \$150,000. The company has eleven hotels on the main line in the west but this is the first off the main line. C. W. Sharp, Winnipeg, has the contract.

The C. P. R. announced to-day that the Bank Hotel will not be altered this winter. Next season it will face the opposite direction, the trees obscuring the falls being cut away and the Hillside terraced. It will be kept open all winter next year.

INVESTIGATION BOARD

(Special to the Times.)
Ottawa, Sept. 14.—The maintenance-of-way employees of the Canadian Pacific, Grand Trunk and Canadian Northern Railways have applied for a board of investigation under the Lemieux Act to consider the question of conditions of labor and wages. F. H. McGuigan will represent the railway companies. T. J. Lee of Toronto will represent the men.

CANADA'S NAVAL POLICY PRAISED

COMANDER ROPER SPEAKS ON PROGRAMME

Formed to Meet the Existing Situation—Great Britain Needs Cruisers

Toronto, Sept. 14.—Commander Roper, of the Canadian navy, speaking at an exhibition—dinner—luncheon yesterday, particularly deprecated the term "tin pot" navy.

Battleships without cruisers, he said, were like blind men without guides. He had no hesitation in saying that at the present moment Britain had plenty of battleships, but not enough cruisers. He added:

"The present Canadian naval programme, namely, four cruisers and six destroyers, is formed to meet the existing situation, keeping in view the amount of money available to the government. The cruisers and destroyers will also be a useful addition to the Imperial navy in case of necessity. Dreadnoughts cost a lot of money. They also take a large number of men to man them and docks of the largest capacity to hold them. If, therefore, a policy including Dreadnoughts was embarked on, a very large sum of money would be involved and probably considerably more than Canada can at present afford."

"Criticize the programme by all means," he concluded, "but do not let that criticism take the form of placing obstacles in the way of the navy and also dragging the navy into party politics. Apart from everything else the navy should be separated from and above party politics. The Canadian navy is a branch of the service of the Empire, and as such it is the duty of all Canadians and the whole of Canada to assist to their utmost endeavor in making it a great success and an efficient service."

CANADIAN PACIFIC RAILWAY FIGURES

Over Eleven Million Passengers Carried Last Year—Millions for Irrigation Work

Winnipeg, Sept. 14.—The annual report of the Canadian Pacific railway, just issued in pamphlet form, contains some figures which have not hitherto been published. The working expenses for the year amounted to 64.38 per cent. of the gross earnings, and in the net earnings to 32.52 per cent., as compared with 63.22 and 29.08 respectively in 1909. Sales of agricultural lands during the year aggregated 975,000 acres for \$14,483,564, being an average of \$14.84 per acre. Irrigated land brought \$26.59 per acre, so that the average balance was \$12.78. The company will spend \$8,500,000 on the eastern section of the irrigation block to provide water, the work to extend over three years.

Out of the total earnings for the year of \$44,889,496, passengers brought \$24,812,029; freight, \$89,185,887; sleeping cars, express, etc., \$9,226,526, and mails, \$791,745. The number of passengers carried was 11,172,891, against 9,784,350 the year previous. Tons of freight carried jumped in the year from 16,549,616 to 20,554,958 tons.

TWO GIRLS PERISH

Aurora, Ill., Sept. 14.—Two girls, sisters, were drowned here when a sail boat capsized in the middle of the Fox river. Ida, 16 years old, died a heroic death seeking to save her sister Clara, 8 years old. With their arms wound around each other's neck both disappeared under the water before rescuers could reach them. The two girls, with their sister Edith and Arthur Hildebrand, were sailing when a gust of wind overturned the boat.

Drugs Are Always Fresh

When you need a doctor you want a druggist. Remember us.

Our business is the selling of drugs—best drugs at lowest prices.

Medicines to be good must be fresh. That's where the large amount of business we do helps us. We turn over our stock so quickly nothing gets old or stale. Any medicine made up here can be depended on for an effect.

Be Up-To-Date
Study Our Windows

UNIQUE!

YES, that word exactly describes our position, while the great majority of houses are awaiting the new season's Coats and Suits our enlarged showrooms have never been so well stocked with the most up-to-date class of goods ever brought to Victoria. A short and careful study of our offerings will prove that statement is no vain boast. The disastrous tailors' strike in that great centre of American fashion, New York, has only now been brought to a close, but it has not troubled us much. One direct effect of personal buying is prompt delivery of goods ordered, and this we have obtained. The styles we are showing represent the latest vogue, and our prices are moderate. We aim to suit all purses. Cheap goods we have not got, but good goods at low prices you can always find here. We consider our sale of this class of goods constitutes a valuable advertising asset, as a pleased customer does us more good than a page of advertising. We can assure you that if our talk on this subject is short, our stock is long, and our courteous salesladies are ever on the alert to display the best we have to visiting friends. In addition to our Coats and Suits we have on hand in our French room a charming array of exquisitely dainty evening dresses whose delicate shades and ornamental trimmings enhance the effect and make a visit to this room a pleasure to anticipate, and to be oft repeated.

When buying your Costume do not neglect to complete the effect by ordering a Gossard Corset. The Gossard demonstrator will be with us all the week.

RUPTURE IN RANKS OF NEW-YORK REPUBLICANS

Administration Leaders Will Counsel Regulars to End the Fight in Party

Beverly, Mass., Sept. 14.—No state, ment regarding the election in Maine was issued yesterday from the executive offices here. The Maine results shocked Taft and his advisers. That is an open secret and the result was not more pleasing because of the president's recent visit to Maine and the semi-political speeches he made, in which he called attention to the length of service of Maine's public men.

Although nothing like a statement has been given out, the idea seems to have been adopted by common consent that President Taft will not be a candidate for re-election. One of the results of the Maine election will be a hurried change in campaign plans for New York and Ohio. Some of the ablest strategists of the administration will be sent to Ohio to aid in the fight there, and every effort will be made to elect Warren G. Harding, over Governor Judson Harmon. The administration is particularly anxious to win in Ohio, Taft's own state.

In New York the situation is considered critical. With an open rupture between the progressive faction of the Republican party, headed by Colonel Roosevelt and the old guard, fighting to name a standard bearer and adopt a "regular" platform, the chances for Democratic success are considered excellent. It is believed the administration leaders will stay out of the fight, but that they will counsel the regulars to end the difficulties within the party, if possible, and that as soon as the ticket is named the active campaign will begin.

DISPUTE REGARDING FEDERAL CAPITAL

Austrian Senate May Oppose "Neutral" Site—Split in Labor Party Anticipated

Melbourne, Sept. 14.—The long-lasting disputes in Australian political circles about the selection of the federal capital are not yet over. In fact, a serious crisis which may lead to the resignation of the Fisher administration has just developed.

Yass-Canberra, as is well known, was the selected "neutral" site. It is about half-way between Sydney and Melbourne, and has recently been mapped out by government surveyors. Until a day or two ago this remote spot was looked upon as the settled site of the great city which future years would disclose as the capital of the Commonwealth.

Now, however, the whole question is in the melting pot again. The senate, it is understood, will vote for Dalgely as opposed to Yass-Canberra, already agreed upon by the house of representatives. Thus a con-

flikt between the two houses will be precipitated.

If the expected happens, a serious split will appear in the ranks of the government party, for some favor the senate's choice and others that of the lower house.

It is stated to be certain that if the senate adopts a course in opposition to the government, Mr. Fisher will resign office, leaving the formation of a new ministry to the labor caucus.

Events of the next few weeks will be followed here with intense interest.

The question of the federal capital's site has been a bone of contention for more than ten years past. Recently, however, it had come to be regarded as settled. Now it is again a vital issue, and the fate of the government of the day may depend on it.

WATER POWER SITES

Washington, D. C., Sept. 14.—Officials of the forestry service yesterday presented Secretary of Agriculture James Wilson with a draft of the proposed form of lease, enabling water companies to develop water power sites in the forest reserves without obtaining permanent possession of the land. If it is found impossible under the existing laws for the lease plan to be effective and practicable the forestry bureau plans to try for legislation whereby the government will be protected, and at the same time the reserves may be opened to development.

PROPOSAL TO FORTIFY PANAMA CANAL

General Keifer Says Action Would Be Violation of Hays-Pauncetote Treaty

New York, Sept. 14.—To fortify the Panama canal would be a violation of the Hays-Pauncetote treaty, according to General J. Warren Keifer, of Ohio, who has returned from Brussels, where he attended the inter-parliamentary congress.

"We cannot fortify the Panama canal without violating the Hays-Pauncetote treaty," said General Keifer. "In advocating fortification Col. Roosevelt squarely repudiates the doctrine he helped to prepare. Fortification adherents think the proposed amendments were adopted. This was not the case. The senate amended the first treaty, but England did not ratify the amendment, and both countries adopted the original treaty."

FOUR KILLED IN AUTO ACCIDENTS

Nahant, Mass., Sept. 14.—Albert E. Hanna, aged 38, of Lowell, and Mrs. Fannie Reed, wife of Charles I. Reed, a resident of Nahant, were killed and Herman Stagman of Jamaica Plains was injured when an automobile in which they were riding crashed into an electric light pole on the Nahant road.

Woman Killed.
La Crosse, Wis., Sept. 14.—Mrs. R. B. McCoy, wife of Judge R. B. McCoy of Sparta, was killed, and Dr. Carl Reeb of Sparta, was dangerously injured, when the touring automobile in which they were riding skidded from the bank and plunged into the La Crosse river near West Salem.

Another Fatality.
Jacksonville, Fla., Sept. 14.—Mrs. Arthur Griffin was killed, Mrs. Nettie Fernandes was seriously injured and a young man named Calhoun suffered painful injuries in an automobile accident here.

TWO KILLED BY TREES.
Aberdeen, Wash., Sept. 14.—Clarence Brooks, aged 29, was killed at Clemons

A Real Summer Temperature

YOU know the perfect comfort of a summer day with the thermometer at 65°. Why does 65° in the house in winter feel chilly? Why does 75°, while warm enough, feel stuffy and oppressive?

Because the average furnace, in warming the air, dries out the natural moisture and fails to replace it. Instead of the 70% average humidity of the outside air, your furnace heated air probably contains less than 30% of moisture.

The sudden changes from this hot, dry air to the cold, outdoor air is the commonest cause of the colds, sore throats and lung troubles so common in winter.

The Remedy is the "CIRCLE WATERPAN"

"GOOD CHEER" FURNACE

This pan encircles the firepot, and holds several times as much water as the makeshift pan in the average furnace. The result is an evaporation sufficient to keep the air in every room in the house at practically the same humidity as the fresh outside air, so that 65° feels perfectly comfortable, like a summer day. Plants and people thrive in such an atmosphere.

The "Good Cheer" Circle Waterpan Furnace saves doctors' bills as well as coal bills.

For full particulars of this splendid furnace write!

THE DAILY TIMES

Published daily (excepting Sunday) by THE TIMES PRINTING & PUBLISHING CO., LIMITED. Office: 115 Broad Street. Business Office: Phone 1090. Editorial Office: Phone 15.

SUBSCRIPTION RATES.

Daily—City delivery..... 50c per month. By mail (exclusive of city)..... \$3.00 per annum. Semi-Weekly—By mail (exclusive of city)..... \$1.50 per annum. Postage to United States, \$1 extra per year. Address changed as often as desired.

PUBLICITY REQUIRED.

The case of the city engineer is now in sub judice and the Times does not at present intend to discuss it. There is to be a public inquiry conducted by the Mayor and Aldermen, and the city engineer has called in the help of an able lawyer, in the person of Mr. Bodwell, to assist him in placing his position clearly before the council, and incidentally of course, before the citizens, who are intensely interested in the outcome. It has been suggested that the Mayor and Council are not competent to conduct an inquiry judicially, and in such a manner that the public who attend the hearing will behave themselves in a decent manner. It is hardly thinkable that a man who has been chosen for a third time to preside over the municipal work and be the executive head of the city should be so incompetent as is suggested, and the Times does not believe it. Nothing but a public investigation will now satisfy the citizens, for in that way only will they feel sure that the engineer is getting justice done. After the experience of former secret conclaves it is felt by everyone that the Council has taken the right step in deciding to, in future, conduct as much of their business as possible openly and above board. Even if the business at such a meeting is of a perfectly legitimate nature there is always a feeling of distrust when the light of publicity is feared. The fight to secure the conduct of public business in a public way has been a long one, and it would be a retrograde step to do anything else at the present time. The Times has sufficient confidence in the citizens of Victoria to believe that in a matter of this kind they can conduct themselves in a becoming manner. The fact that they did not do so on a former occasion was to a large extent excusable. There was a general feeling that they were being tricked, that the Mayor had acted in an underhand manner, and that a majority of the Council were about to do something which the people considered unjust. The happenings of the few days previous had led them to this conclusion, as it must have led anyone who took any interest in the matter whatever. Now the engineer is to be given a fair hearing, he is to be advised by an able lawyer, and the people will watch for the outcome with equanimity and will certainly conduct themselves in a proper manner.

SHOOTING SEASON.

"Look before you shoot," should be so borne in upon the consciousness of all those who sall forth with a gun to-morrow, that for one season, at least, there will be no accident to report. Hundreds of people have saved up their holidays for this week and will be away to-day or to-morrow morning early, in search of the grouse which are so much prized both by sportsmen and their wives. They go forth with much enthusiasm intent on killing all they can. Many will get large bags for the grouse are numerous this year. Some will get more than their share, for the good things of life are never distributed evenly. The majority will come home after having found little more than the pure enjoyment which comes of a long ramble through the woods in this splendid autumn weather. A great many of the birds are still very small, too small for a sportsman to take any delight in killing them. They are just babies and have the trust of a child for the people who go after them with guns. They are easily killed, and for this reason the bags will probably be larger than would have been the case had the season opened later. No sportsman has attempted to defend the early opening in public. It cannot be defended except on the plea of hoggliness. There are a great many people who will not be able to get away to the woods until Saturday afternoon, and they, almost without exception, will spend Sunday hunting, returning that evening in readiness for the Monday morning's work. Although there are a great many who take exception to the hunter's desire to kill, none will take exception to the delightful surroundings, and the healthful exercises, which give zest to the sport.

SCHOOL TRUSTEES.

The school trustees of the province are at present in session at Kelowna. The meeting has been given greater standing than usual by the fact that the minister of education was present at the opening, and that he, as well as a great many other prominent people, are taking a great interest in the proceedings. In the past it has been considered in many quarters that the position of school trustee could be held by anybody, and that their chief duties were to pay the teachers and look after the school buildings. Now all this is changed, and within the last year or two the trustees have been studying modern methods of teaching as well as modern sanitation, and they take an important part in outlining the policy of the Department of Education in making school regulations. The day when the position of school trustee is to be looked upon as simply a stepping stone to the aldermanic board or to political life, is, we hope, past for ever. The people are coming to realize that the education and proper care of their children is the most important thing in the world to them, and with that in mind they will look for men to serve on School Boards, who will do honor to the position, and probably safeguard the interests of the children under their care. The present gathering of trustees, although in a distant part of the country, may be looked upon as one of the most important in the history of the School Trustees Association, if only from the fact that it is being officially recognized as an event worthy of the serious consideration of leading officials, and prominent men in all parts of the province.

WOMEN'S WORK.

Undoubtedly the community owes a deep debt of gratitude to those women who give their time and energy to the discussion of such subjects as make for the improvement of society, and the welfare of a majority of the people. The difficulty with them is that often they are quite without experience of the subjects which they discuss. People who have no children, for instance, are often the ones who tell how children should be raised and educated, or what comprises a model home; whereas they have no homes of their own in the true sense of the word, and can never hope for one. The community owes a debt of gratitude to such women for taking up these subjects which the busy housewife has no time to think about, much less to teach others. On the other hand those who are really building up the country, the very best women of the best type, are those who are working day in and day out to teach true citizenship to a group of youngsters who call her mother, and bring them to healthy manhood and womanhood, and, at the same time, to so train them intellectually, morally and socially, that they may in their turn do the same by others. These are the women whose names are seldom spoken outside their own small circle of true friends, yet who are doing more than all the women's clubs, councils, meetings and affiliated societies that ever were brought into existence. No one wishes to take from the woman who works in public any of the honor which is her due; but it is seldom that the home maker, the woman who joys in her family, gets the credit which is due to her.

REPORT OF BALLINGER COMMITTEE DELAYED

Chicago, Sept. 14.—Senator Root's "judicial temperament" is believed to-day to be responsible for the failure of the Republican members of the Ballinger investigating committee to publish a report of their findings. Before yesterday's meeting in Chicago, Senator Nelson had planned to use a letter from Senator Flint, who is travelling abroad, as his proxy and call for a vote ordering the publishing of a report. Root protested, declaring that if Flint's proxy were used the anti-Ballinger members of the committee and the public might attack the report as irregular. He announced that he would not countenance a move wherein anything upon which the anti-Ballingerites could fasten a charge of irregularity. It was then decided to withhold the report until the committee meets in Washington, December 5th.

MISSION CAMPAIGN TO BE UNDERTAKEN

Methodist Churches to Unite in Evangelical Work This Fall. A missionary campaign and evangelical crusade is to be undertaken by the Methodist churches of Victoria district this fall. There will be missionary sermons in all the churches on three successive Sundays, a layman's missionary banquet will be held and prominent members of the church from the East will be here to take part in the campaign. This was decided on at a meeting of Victoria district yesterday afternoon. Another matter dealt with was the enlargement and renovation of the Chinese Methodist mission, and a recommendation that this be done at a cost of \$10,000 will be forwarded to the general board of missions. There were present: Rev. A. E. Roberts, chairman; Rev. J. A. Wood, acting secretary; Rev. T. S. Miller, Rev. G. M. Tate, A. J. Brace, H. S. Hastings, Chann, Kuanara, G. T. Boudling, S. O. Bailey, A. Lee, H. Macdonald, W. J. Sargent, W. N. Mitchell, T. James, W. J. Mitchell and others. The meeting was entertained by Mrs. Chris. Spencer at luncheon.

LOCAL NEWS

S. P. C. A. cases of cruelty, phone Inspector Russell, No. 1921. The James Bay Methodist Sunday school will hold a social evening to-night in the church, commencing at 7.30. The programme consists of songs, recitations, drills, etc., given by the classes of the school. Next Wednesday evening at eight o'clock the annual meeting of the board of directors of the Y. M. C. A. will be held in the St. Andrew's Presbyterian church schoolroom. R. B. McMicking, the president, will occupy the chair. The report of the general secretary will be read and officers for the next twelve months will be elected. This meeting will be open to the public. Some difficulty is being experienced in getting wood blocks in ample quantity for the printing of the Douglas street and consequently the operations of the "Photographic" are proceeding somewhat slowly, but this difficulty is expected to be overcome very shortly. The B. C. Electric Company, in the track improvements which it is making on Douglas street, at the corner of Yates street and Pandora avenue, hope to have the work all completed in time for the cars to run without interruption at the time of the opening of the fall fair. The streets committee of the city council will at its next meeting consider a recommendation from Plumbing Inspector Shade that the by-law be altered so that in outlying sections of the city which will shortly be served by the sewerage system those buildings should not be compelled to erect septic tanks or cesspools. In the opinion of Mr. Shade to insist upon the letter of the law being observed might work a hardship, as in the majority of instances, the tanks will be required to serve but a temporary purpose. He suggests that if 3-inch cedar is used instead of concrete the arrangement will be satisfactory. A most enjoyable time was spent by the members of the Young People's Society of Knox church on Monday evening in the church schoolroom, when the work of the fall and winter work commenced. As no meetings had been held during the hot weather the attendance was very large and it is expected that the fortnightly gatherings will evoke more interest than ever among the members. In the absence of President S. J. Drake the chair was occupied by Rev. Joseph McCoy, pastor. Games were indulged in and a solo was rendered by the new organist, Edwin Brown, which was greatly appreciated. At the close of the proceedings refreshments were served by the ladies. A GALA DANCE. North Ward A. A. Preparing to Outdo Previous Events. Invitations were mailed to-day for the gala dance to be given by the North Ward Athletic Association next Thursday evening at the A. O. U. hall, and the affair promises to be one of the most brilliant ever given by the athletic organization from the northern end of the city. As it is the first dance given by the wearers of the royal blue this season, it is just possible that one or two names have been overlooked in the issuing of the invitations, and anyone who has not received one should notify any member of the committee without delay, as only a limited amount will be issued so as to prevent overcrowding. The Turner-Drösser five-piece orchestra has been secured and will render all the latest and most popular waltzes and deus-tempo. Dancing will commence at nine o'clock. The committee in charge of the dance are: E. Christopher, B. Johnson, E. Taylor, Frank Sweeney, Fred Dinadale, S. Anderson and James Dakers.

BY-LAW SOON ON GOLDSTREAM

Continued from page 1. vested in him, the right of expropriation over the lands of the Esquimalt Waterworks Company forming the reservoir site below the power house at Goldstream. And, provided, further, that the works for conducting the said water from Sooke Lake watershed, shall be begun within two years from the 15th of March, 1909, and finished within eight years from said date as to the first means of conduit of such waters. "Provided further, that the following shall govern the said arbitration proceedings in determining the compensation for the expropriation of the undertaking as a whole: "(a) An offer of purchase shall first be made of not less than seven hundred thousand dollars (\$700,000) to be deemed a tender—and the company shall have two months to accept such offer. "(b) If the company decline such offer and arbitration ensues, the arbitrators shall be limited to awarding to the company, and no such award shall exceed, the sum which the company would become entitled to, determined as if the said Esquimalt Waterworks Company were a company incorporated under the "Water (Clauses Consolidation Act of 1907," and as if its franchise, undertakings, property and assets were in process of compulsory purchase by order in council, under the provisions of section 129 of the said act, but so that the interest on capital invested shall be calculated at not exceeding six per cent. per annum, at simple interest, and the bonus on capital actually invested at not more than twenty per cent. and no deduction shall be made in respect of so much of the net profits as were used for construction purposes."

PERSONAL

Mr. and Mrs. J. R. Martin, Stanley avenue, have gone to Cowichan river for a holiday. Rev. Leslie Clay, who is in the interim on business connected with home mission work, will return to the city on Friday or Saturday. Mr. and Mrs. William Seweroff, "Pen-y-Bryn," Barclay street, left on Tuesday night to spend a short vacation at Harrison Hot Springs. Mrs. A. H. Shotbolt (nee Cole) will hold her post-natal reception at her home, 231 Quadra street, on Saturday afternoon and evening of this week, and will afterwards receive on the second Wednesday of each month.

MISSION CAMPAIGN TO BE UNDERTAKEN

Methodist Churches to Unite in Evangelical Work This Fall. A missionary campaign and evangelical crusade is to be undertaken by the Methodist churches of Victoria district this fall. There will be missionary sermons in all the churches on three successive Sundays, a layman's missionary banquet will be held and prominent members of the church from the East will be here to take part in the campaign. This was decided on at a meeting of Victoria district yesterday afternoon. Another matter dealt with was the enlargement and renovation of the Chinese Methodist mission, and a recommendation that this be done at a cost of \$10,000 will be forwarded to the general board of missions. There were present: Rev. A. E. Roberts, chairman; Rev. J. A. Wood, acting secretary; Rev. T. S. Miller, Rev. G. M. Tate, A. J. Brace, H. S. Hastings, Chann, Kuanara, G. T. Boudling, S. O. Bailey, A. Lee, H. Macdonald, W. J. Sargent, W. N. Mitchell, T. James, W. J. Mitchell and others. The meeting was entertained by Mrs. Chris. Spencer at luncheon.

LOCAL NEWS

S. P. C. A. cases of cruelty, phone Inspector Russell, No. 1921. The James Bay Methodist Sunday school will hold a social evening to-night in the church, commencing at 7.30. The programme consists of songs, recitations, drills, etc., given by the classes of the school. Next Wednesday evening at eight o'clock the annual meeting of the board of directors of the Y. M. C. A. will be held in the St. Andrew's Presbyterian church schoolroom. R. B. McMicking, the president, will occupy the chair. The report of the general secretary will be read and officers for the next twelve months will be elected. This meeting will be open to the public. Some difficulty is being experienced in getting wood blocks in ample quantity for the printing of the Douglas street and consequently the operations of the "Photographic" are proceeding somewhat slowly, but this difficulty is expected to be overcome very shortly. The B. C. Electric Company, in the track improvements which it is making on Douglas street, at the corner of Yates street and Pandora avenue, hope to have the work all completed in time for the cars to run without interruption at the time of the opening of the fall fair. The streets committee of the city council will at its next meeting consider a recommendation from Plumbing Inspector Shade that the by-law be altered so that in outlying sections of the city which will shortly be served by the sewerage system those buildings should not be compelled to erect septic tanks or cesspools. In the opinion of Mr. Shade to insist upon the letter of the law being observed might work a hardship, as in the majority of instances, the tanks will be required to serve but a temporary purpose. He suggests that if 3-inch cedar is used instead of concrete the arrangement will be satisfactory. A most enjoyable time was spent by the members of the Young People's Society of Knox church on Monday evening in the church schoolroom, when the work of the fall and winter work commenced. As no meetings had been held during the hot weather the attendance was very large and it is expected that the fortnightly gatherings will evoke more interest than ever among the members. In the absence of President S. J. Drake the chair was occupied by Rev. Joseph McCoy, pastor. Games were indulged in and a solo was rendered by the new organist, Edwin Brown, which was greatly appreciated. At the close of the proceedings refreshments were served by the ladies.

The smoker which was to have been given last evening by the St. Andrew's Society, was postponed until next month owing to the lamented death of Melvin Alexander Angus, an esteemed member of that organization.

A number of the hunters who are going to spend the opening days of the hunting season in the woods, will dress in white suits, the khaki uniforms having been cast aside. The reason for this is to make themselves look conspicuous, and as there are no birds or animals that color the hunters hope to remove the difficulty of the inexperienced gunners, who generally shoot at the first object which presents itself.

On Thursday evening, Sept. 22nd, commencing at 8 o'clock, "A" troop of the Boy Scouts will give an entertainment in the school room of Christ church cathedral. The boys are practicing hard every evening in perfecting the play entitled, "A Scout's Play." E. O. Hughes, who is in charge of this section of the corps, expects to see a large number of the friends of the scouts in attendance on the evening of the performance.

Fire Chief Thomas Davis has returned from Stockton, Cal., where he was in attendance at the annual convention of the Pacific Coast Fire Chiefs Association. He reports that while some of the departments in the south possess more apparatus and are numerically stronger than the Victoria department, the local brigade, in efficiency of drill, is fully the equal of any brigade in the west. Chief Davis was elected vice-president of the association. The next meeting will be held in 1911 in Vancouver.

By the terms of the new liquor license regulation bylaw which passed the council on Monday evening last, the closing hour of all bars will be 11 o'clock each night. The opening hour is 7 a. m. Hotels and restaurants may serve liquor to bona fide travelers on Sundays with meals, but all bars must be closed all day Sunday. Boxes in restaurants must not at any time be closed by means of doors, screens or other device. The new measure also provides for the closing of bars on Christmas day, as well as on days fixed for the holding of elections for mayor or aldermen.

MUCH BUILDING ACTIVITY IS PROMISED THIS FALL

Permits Issued for Grace Lutheran Church—Contract Awarded for New Business Block

The prospects for building activity during the fall and winter months are rosy. Architects and contractors are busy and have many orders ahead, which ensures an unusually busy season. The building inspector is issuing each day a larger number of permits for new structures than was the case at this time last year.

Yesterday afternoon Mr. Northcott issued a permit for the construction of a pretty little edifice for the Grace Lutheran church congregation. The structure will occupy a site on the corner of Queen's avenue and Blanchard streets. It will be one-story in height and basement. The cost will be in the neighborhood of \$6,000. J. C. M. Keith is the architect, and the contractor is L. P. Fredrickson.

Another building permit which was issued yesterday afternoon was for a fine block of places and offices which is to be erected by Philip Jensen on the north side of Pandora street, just south of Hay's blacksmith shop. H. S. Griffith is the architect and Dinsdale & Malcolm have been awarded the contract. The cost is set down as \$11,600.

AGED WOMEN'S HOME.

The following donations are gratefully acknowledged at the Aged Women's Home for July and August: July—Dr. Miller's Flower Mission flowers; Mrs. E. B. McKay, raspberries; A. Friend, dressing gown and night dress; Mrs. Dumblicton, cherries, August—Mrs. Watts Jones (Colquhoun), box of plums; Miss Petch and Mrs. Ney, rug, shawl, cakes, jelly, flowers and table cover; Mrs. Evans, apples; Mr. Riddell, basket of plums; H. Young & Co., Berlin wool; Reformed Episcopal Sunday school, flowers; Forrest Angus, plums.

It has been decided to hold the annual tea and entertainment at the Home about the middle of October. A table of useful and fancy articles will be a feature this year. In charge of Mrs. Simon Leiser. All friends of the Home are asked to again contribute to this. The proceeds go towards procuring a supply of winter fuel, so much of which is needed at the Home.

FAVORS THE WORKINGMEN.

Ex-Mayor Hall Says They Ought to Receive Increased Wages Asked For.

To the Times this morning Dr. Lewis Hall, ex-mayor, said he regretted the action of the mayor and certain members of the aldermanic board in turning down the recommendation of the city engineer on the petition of the civic employees on street construction work for an increase in wages and the setting of a standard wage.

"It is notorious," said Dr. Hall, "that the cost of living has increased to such an extent that it is extremely difficult for the workman to make both ends meet at present. I have personal knowledge of a number of wage-earners who have great difficulty in getting along. In my opinion the increase of 25 cents per day is justified and should be granted."

The ink plant of New Granada is a curiosity. The juice of it can be used as ink without any preparation. At first the writing is red, but after a few hours it changes to black.

MORE PROPERTY ON PORTLAND CANAL SOLD

Local Syndicate Purchases Silver Ledge Claim for Price in Neighborhood of \$5,000

That the mining properties on the Portland Canal are in big demand was proven when the N. B. Maysmith Co., Ltd., sold the Silver Ledge claim, which is situated at the mouth of Bitter creek, emptying into Bear river, to a syndicate of local business men for a price in the neighborhood of \$5,000. This claim adjoins the property of the International Mining Co.

It is the intention of the purchasers to form a company and have this land developed. A representative of the syndicate is leaving this city on Thursday to examine the property and compile a report, which he will present to the directors.

Work on the developing of the property will not commence until next spring. Machinery will be placed on the ground early in the year and the company intends to make a good showing. A shipment of the ore will be sent to the city soon for exhibition and testing purposes. It is understood that the ore consists of silver and lead.

Never since the great Klondike rush has such a demand been made for mining properties in the north. Every steamer leaving for the north carries a large number of miners who are seeking a fortune.

OBITUARY RECORD

Yesterday afternoon there passed away at the Royal Jubilee hospital William Bevan, who had resided in this city for several years. The funeral has been arranged to take place to-morrow afternoon at 2:30 o'clock from the Hanna chapel. Interment will be made in Ross Bay cemetery.

The remains of the late Kate Constance, the infant daughter of Mr. and Mrs. Bernard Schwengers, were laid to rest in Ross Bay cemetery this morning. The funeral took place at 10:45 o'clock from the family residence, 1044 McClure street, where Rev. A. J. Stanley Ard conducted an appropriate service. Many friends of the bereaved parents were in attendance, and the little casket was covered with beautiful floral tributes.

News has been received by Mrs. Hilroy Graham, of this city, announcing the death of her sister, Mrs. Letitia Huggins, relict of the late Edward Huggins, of Fort Nisqually, and third daughter of the late Hon. John Wark, of the Hudson's Bay Company's service, at Tacoma on Monday last. Deceased was 75 years of age. Ever since 1856 she had resided in Pierce county, Wash., and occasionally paid a visit to her sister here. There is left to mourn her loss six sons and two sisters.

WAGNER AND LAJOIE HAVE FINE RECORDS

Wagner Has Had 300 Figure for 13 Years—Performance of Lajoie is Almost as Good

Four records of individual merit have been placed on the pages of baseball history by players of the present day that big fair to remain for all time and never suffer effacement by the superior work of other players. The fourth of these records was turned recently when "Cy" Young, the veteran Cleveland pitcher, rounded out his 500th victory, a mark he has since increased to 504. The 10-year record of Christy Mathewson, the famous New York pitcher, all in the service of that club, and the phenomenal batting averages of Hans Wagner, the Pittsburgh shortstop, and Napoleon Lajoie, the Cleveland second baseman, during their major league careers furnish the other three events of renown.

It is so difficult these days to hang up big batting figures, and the life of the player is so short that their work is not likely ever to be disturbed. Lajoie has been in the big leagues a year longer than his Pittsburgh rival, but on their entire careers Wagner is the better average batter. In 13 years of playing, Wagner never fell below that aim of all batters, the 300 percentage mark. In fact, except for a year when he fell to 285, in his second year in the league, this phenomenal slugger has never finished below 320. His batting percentages for 13 years is the wonderful figure of 347.3-13.

Lajoie came into the National league a year earlier than Wagner, and though he has fallen below 300, this in recent years, he batted hard enough in other years to bring his figures up to 347.3-13. His drop out of the charmed 300 circle came in 1907 and 1908, the two years in which he was burdened with managerial cares of a losing team. Strangely enough, both of the great batters have played in but two cities during their entire big league career. Lajoie started with the Philadelphia club in 1896 and stayed there until he joined the Athletics of the American league, also a Philadelphia club, during the war. From Philadelphia he was forced to Cleveland by the injunction suits ordered by the Phillies. Thus Lajoie has played in only Philadelphia and Cleveland.

The batting averages of these great players during their career are as follows:

Table with columns: Year, Wagner, Lajoie. Rows list years from 1896 to 1909 and an average for 13 years.

The tramways, omnibuses and underground railway round London within a radius of five miles carry each year about 45,000,000 passengers.

NOTICE

IN THE ESTATE OF CAROLINE AGNES McDONALD, DECEASED. All persons having claims against the estate of the above named deceased are required to send particulars thereof, duly verified, to the undersigned on or before the 1st day of September, 1910. Dated this 22nd day of August, 1910. YATES & JAY, Solicitors for Margaret Robertson Dickson and David McIntosh, the Executors.

Take notice that I, S. Caffin, intend to apply to the Board of Licensing Commissioners of the City of Victoria, B. C., at the next sitting thereof, for a transfer of the liquor license now held by me in respect of the Albin Saloon, situate on the corner of Yates street and Waddington Alley, Victoria, B. C., to James Morgan. Dated this 8th day of August, 1910. S. CAFFIN, Applicant. By his Attorney in Fact, Jno. J. Dickson.

AMATEURS WILL HOLD MEETING

B. C. A. U. OFFICERS ARE TO BE SELECTED

Victoria Branch Meets Sept. 20, and Provincial Union Sept. 28 at Empress

Next Tuesday night, September 20, the annual meeting of the Victoria branch of the British Columbia Amateur Athletic Association will be held. The meeting takes place in Victoria and every club affiliated with the union will be entitled to send its delegates. At the meeting the annual election of officers to administer the affairs of the union here will be selected by the delegates present, and the union will pass all accounts to have them in line to report to the provincial gathering. Samuel Duffy, who is to play soccer with Esquimalt, has been given a temporary permit to play pending the passage of his reinstatement by the union. He will be reinstated at the meeting September 20.

The provincial amateur union will meet at the Empress hotel on September 28 when officers from every affiliated city will be in attendance. The meeting is to be called for 8 o'clock. For the British Columbia athletic championships which are to be held here during fair week Vancouver will send with its team of athletes, Dr. J. G. Davidson, B. V. L. Wilson, physical instructor of the Vancouver Y. M. C. A., and H. Gowen, secretary of the Vancouver union as the Terminal City delegates and officials. These men will also represent the Terminal City union at the annual meeting. Dr. Davidson being the president, and he will occupy the chair. At the meeting of the Victoria branch on Aug. 20 Victoria delegates will have to select two representatives to attend the annual meeting of the provincial league with D. O'Sullivan the president of the Victoria branch.

ESQUIMALT SENDS GARRISON DELEGATE

Proposed Joining of Soccer Teams for Season—Garrison Reported to Be Not in Favor

The Esquimalt soccer club is to-day sending a delegate to the Garrison soccer club with a view to bringing about a joining of forces for a team in the Victoria and District Association football league. The Garrison has three or four men whom Esquimalt want and Esquimalt has some whom the Garrison team would like to play. The negotiations are pending and it is probable that they will not result successfully for the Garrison men desire to remain together. If the union takes place the schedule will have to be redrawn.

The Esquimalt club met last night and discussed matters for the winter sports. Among other business the club planned that the soccer playing field will this season be roped in. The question was brought up at one of the league meetings and was considered necessary, and Esquimalt has taken the first step towards putting it into force. The Esquimalt club also passed a resolution that it would as an athletic body join the B. C. A. U. next year. Secretary Irwin issues an invitation to all soccer players who are not signed up to attend a football practice at the Canteen ground on Saturday afternoon.

An old sexton was lettering a tombstone in a graveyard in Yorkshire, when he was stopped by the doctor. "Why, John, you have spelt that wrong," "Have I, doctor? Well, well, pass it over, doctor. I have covered many a mistake of yours, and said nothing."

SPORT NOTES

Officers of a new Ottawa lacrosse club have offered \$1,200 for the franchise of the Capital club. The offer is refused as the Caps want \$2,000 for it, which is the amount of the club's present indebtedness.

The American Rugby football, under the revised rules, failed to make an impression in San Francisco. The English Rugby game is, however, more popular there than ever before.

August 27 at Port Elizabeth, South Africa, the British Rugby team defeated the South Africans by 5 points to 3. The game drew a crowd of 7,000 and Port Elizabeth is not nearly as large a town as Victoria.

Abe Attel has gone east and is at Winnipeg, where he is after a match, Eddie Carsey, a Manitoba featherweight, is his probable opponent. Attel, after defeating Lauder and Marido at Calgary, found nothing in the west to take up his time further.

A finance bug has estimated that England's sport costs \$5,248,000 annually, and there are many sports not enumerated in the list which is as follows: Turf, \$5,000,000; shooting, 17,245,797; dog shows, 574,652; coursing, 227,535; hunting, 415,520,699; field trials (sporting dogs), 1600; polo, 1165,000; fishing, 450,000; yachting, 1,800,000; coaching, 150,000; horse shows, 180,000; sports of the people, 115,000,000; total, \$45,248,496. It is estimated that there is invested, besides, four million pounds on the turf, three-quarters of a million each in polo and fishing, five millions in yachting and ten millions in sports generally.

Fighting will soon be in full swing again in San Francisco, where it is predicted that within six months the lid will fly off in earnest. After waiting a month after Governor Gillet threw the Jeffries-Johnson fight out of California, the "Frisco" promoters began to feel their way. First three-round bouts were put on; the other night four-round contests. Heards then Owen Moran and Frankie Burns boxed ten rounds in "Frisco" without a decision, although the referee went to the newspaper offices an hour later and said he "thought Moran won." Moran and Burns, according to the "Frisco" authorities, engaged in a "boxing contest" and, as the Governor of California has not been heard from, other ten-round bouts will follow. If there is no rumour between now and December, it is planned to put on twenty-round battles. But it will be a long time before heavyweights will be allowed to fight on the coast.

The National directors are up against a stiff proposition in many cases on their team, and as a result will play three exhibition games at the coast in order to try and meet expenses. The players will get their usual twenty-five per cent for playing lacrosse, while in addition those who follow ordinary everyday occupations for their livelihood will be reimbursed the money they would have made if they had stayed at home. This will make the salary limit a pretty steep one.

Horace Hutchinson, winner of the two earliest British amateur golf championships of record—at St. Andrews in 1886 and Hoylake in 1887—bedevils being runner-up in 1893 and twice reaching the semi-finals, arrived in Canada with Lord and Lady Brassey on their famous yacht Sunbeam about five weeks ago. He was in Toronto, and went over the Lambton course with George S. Lyon. Mr. Hutchinson has been amazed at the growth of golf in this country since the days when he had to expound its mysteries.

There will be no changes in the Inter-provincial Rugby League of Eastern Canada this year. Ottawa, Tiger, Montreal and Argonauts will, of course, continue, no other applications being expected. Then the question of having an intermediate series will also be debated upon. The season will open three weeks hence with the Argonauts and Tigers playing at Toronto and Ottawa and Montreal, probably at Lansdowne Park. The Montreal and Ottawa will have to play the opening game in view of the Tiger-Argonaut

engagement and as Montreal is seldom favorable to an early start at the M. A. A. field, owing to many other counter attractions, Ottawa will likely be given the October 1 date.

Jockey Shilling has won many big stakes during the season. On Novelties alone he won four of the most valuable stakes of the Saratoga season, the Futurity, the Rensselaer-handicap, the \$10,000 special sweepstakes and the Saratoga special, a total of \$48,715. Spn. won \$21,440, but Thomas rode him that day because Shilling had been temporarily suspended by Starter Cassidy over that day. Shilling has surely proved himself a wonder as a race rider. He has won more races than any other rider and wound up the season by landing the Futurity, adding \$25,360 to the Hildreth bank roll and making his own grand total of purse winnings \$114,250.

Matt J. Barr, the Vancouver lacrosse enthusiast, has been agreed upon as referee for the Westminster-National lacrosse game on Saturday for the Minto cup, Lionel Yorke, Vancouver, is the other official.

The East End lacrosse team of Vancouver has won the provincial junior championship. Unfortunately, Victoria had no junior league this year, and therefore there is no team to challenge.

Vancouver Rugby men are having their troubles. The Wanderers, Vancouver's oldest Rugby club, is unable to get a team this season. McLord, Baker and Fyson, the three-quarters, will go to the Crusaders, but the others have apparently retired from the game.

Wolgaast and McFarland have been matched to fight a ten-round battle. The challenger will make 133 pounds five hours before the fight, which will take place at Milwaukee on September 30th.

JUBILEE OF ST. JOHN'S CHURCH

IMPRESSIVE SERVICES WERE HELD YESTERDAY

Eloquent Sermon by Dean Doull Last Evening—Social This Evening

Very beautiful and impressive services were held in St. John's church yesterday in commemoration of its jubilee anniversary, and among those in attendance were several who had been present at the laying of its corner stone.

Canon C. E. Cooper, who officiated at the celebration of holy communion in the morning, referred in fitting terms to the clergyman and other earnest workers of St. John's who have now passed to their rest, pointing out how beautifully their memories were preserved in the communion services.

In the evening the Dean of Columbia, Very Rev. A. J. Doull, conducted a largely attended vesper service. Taking for his text, "His dominion shall be from the one sea to the other," he began by expressing the pleasure it gave him to be present on such an occasion, and conveyed to the people of St. John's the heartfelt congratulations of his sister parish, Christ Church. He referred in affectionate terms to the long period of faithful, loving, untiring service which Rev. Percival Jenks had rendered, and followed with a brief resume of the wonderful changes which had taken place in Victoria since the establishment of St. John's church, and the no small part which it had filled in making the changes instrumental for good.

These changed conditions had laid upon the church vastly increased responsibilities, and the jubilee services must not only be an act of thanksgiving for the blessings of the past, but must also be a re-dedication and consecration for the vast work of the future. It was the solemn duty of Canadians to make the Dominion of Canada, from the Atlantic to the Pacific, God's dominion, and in that mighty work no small degree of responsibility rested on St. John's church.

In an age dominated so largely by the spirit of materialism it was the bounden duty of the church as a whole to remind men that there were higher things, more important things, in life than the acquisition of material wealth and worldly goods. In British Columbia God was bringing all nations to the church, Chinese, Japanese and Hindus, all within the reach of church influence, and it behooved the church to do its duty as God had given it opportunity. Foreigners had come to us because God had a purpose to work out concerning them, and the responsibility of it rested with us. The heathen were judging God not by what the missionaries told them about Him, but by

the lives of those who lived in Christian countries and professed to follow Him.

The speaker closed a most eloquent and inspiring address by urging his hearers to be strong and courageous, and full of faith that soon the dominion of Christ should indeed extend from sea to sea.

The musical services, under the capable direction of G. Jennings Burnett, were very much enjoyed by all, especially Sir Arthur Sullivan's anthem, "I King of Thy Power," and Augustus Toop's "Te Deum," which were splendidly rendered by the choir.

Among the clergy present were the Dean of Columbia, the Archbishop of Columbia, Canon Cooper, Rev. H. A. Colton, Rev. J. H. S. Sweet, Rev. T. Henegay and Rev. Mr. Patt.

The services will continue next Sunday when the preacher in the forenoon will be the Dean of Columbia. For the evening service the preacher will probably be Rev. Silva White, of Nanaimo.

A social will be held this evening in the schoolroom, to which the public are cordially invited.

ACTION DISMISSED.
County Court Judge Holds That Real Estate Listing Was Revoked.

In county court judgment has been rendered by Judge Lamsman in the real estate case of Holmes vs. Lea, Ho and Lon Poy, an action for \$200. His Honor says:

The plaintiff, who is a real estate agent, claims \$200 commission on the sale of a lot for the defendants. The defendants deny the plaintiff's agency and say that the price which he gave plaintiff was a net one. On Saturday, January 8th, plaintiff and Lon Poy had a conversation about the property, and Lon Poy told plaintiff his price was \$5,000. Lon Poy says he stated expressly that it was a net price. Lon Poy says it was understood that Lon Poy was to pay a commission, and in this I think plaintiff is correct, and the next time he saw Lon Poy (on the 21st) the latter said to him "property is gone up now and I shall want \$5,000 net." I am not at all impressed with Lon Poy's ability to tell the truth, and where he and plaintiff contradicted each other I have no hesitation in believing the plaintiff.

That same day plaintiff had brought the property to the attention of one Calwell, and had told Lon Poy of him, but as soon as Lon Poy said he wanted \$5,000 net, plaintiff changed his advertisement in the newspaper so as to make the price read \$5,500 instead of \$5,000, as it was in the first insertion, and he tried to get Calwell to pay \$5,500, but he refused, and eventually bought for \$5,000 direct from the owners. I think that what took place between plaintiff and Lon Poy on the Saturday amounted to a listing of the defendants' property at \$5,000, but it was open to Lon Poy to revoke the agency, and this he did before plaintiff had put himself in a position to claim a commission, for at the time Lon Poy changed his price Calwell had not seen the property and had not decided to purchase.

Under the circumstances of this case

I do not think that the revocation of plaintiff's authority to sell at \$5,000 was wrongful—it is true that the change in price was made very soon after the listing, but Lon Poy gave as his reason that property was going up—certainly an excellent reason—and Calwell, the purchaser, stated in evidence that the prices of several different properties visited by him had increased between his first interview with the agent and his return to the agent's office after seeing the property. The action is dismissed with costs.

The case was argued by D. S. Tait for plaintiff and A. D. Crease for the defendant.

WHISKEY HOLDS ITS VICTIMS

Until Released by Wonderful Sarmaria Prescription

Liquor sets up inflammation and irritation of the stomach and weakens the nerves. The steady or periodical (spree) drinker is often forced to drink even against his will by his unnatural physical condition.

Sarmaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the knowledge of the patient.

Thousands of Canadian homes have been saved from misery and disgrace by some devoted wife, mother or daughter through the wonderful Canadian remedy. The money formerly wasted in drink has restored happiness and comfort to the families formerly in want and despair.

Read the following, one of the numerous unsolicited testimonials received:

"I can never repay you for your remedy. It is worth more than life to me. My husband has been offered honor several times, but would not touch it. He said it had no charm for him now. May God's richest blessings ever rest on you and yours, and on those who have tried it. As soon as I can I will see others that I know would give anything to stop their husbands from drink. I will give them your address."

Mrs. K—, Dewinton, Alta. (Name withheld on request.)

Now, if you know of any family needing this remedy tell them about it. If you have any friend or relative who has formed or is forming the drink habit, help him to release himself from its awful clutches. Sarmaria Prescription is used by Physicians and Hospitals.

A FREE TRIAL PACKAGE of Sarmaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postage in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day. The Sarmaria Remedy Co., 75 Jordan Chambers, Jordan street, Toronto, Canada.

What Other People Think

MORLEY ACCURACY.

To the Editor: I notice that your reporter, like his colleagues of your morning contemporary, reports Mayor Morley describing the incidents of the first secret meeting as taking place on Friday, August 2. They reported him correctly, but made the mistake of not checking his statement. I was at the meeting and as I happen to have a reason for remembering the date I know the mayor was wrong. Anyone can see that the Friday in question was the fifth day of August by looking at the calendar. What accentuates the matter is that at the outset the mayor said he wished to be strictly accurate, and referred to papers in his hand. Is this a sample of Mayor Morley's accuracy?

VICTORIAN.

PERSECUTION OF MR. SMITH.

To the Editor: I feel it my duty as an old citizen to strongly express my disapproval of the flagrant piece of injustice that is being accorded to the city engineer by the mayor and certain aldermen of this city.

I was present at the meeting last night with nine other citizens, and I have never in the course of my experience come across a more gross piece of behavior than Mr. Morley's.

His worship, evidently painfully nervous, seeing that so many citizens had gathered to witness his actions, spoke for forty minutes and said nothing of any account. He talked nonsense from the time he got up to the time he sat down, and the wonder is that the citizens present allowed him to continue his hypocritical remarks with reference to Mr. Angus Smith.

It was absolutely clear to my friends and myself that in spite of anything the mayor may say to the contrary he has a deep animosity towards Mr. Smith.

The mayor poses, I understand, as being a consulting engineer. Then does he expect any man could master the work of a growing city like this in four or five months? If the mayor is a consulting engineer I happen to know that he could be drawing in the neighborhood of \$500 or \$1,000 a year in that capacity, instead of which he is making a disgrace of this city and a shame of himself.

How can this official disgrace the chair by continuing in office after his mal-administration of the past eight months and his continued plotting and planning against an official who has never harmed him one iota? How can he continue his interference with civic matters and his stealthy attempts to secure remunerative civic posts for his favorites? His conduct is lamentable, pitiable and the act of a semi-maniac. Alderman Bannerman last night also made an exhibition of himself. He also evidently belongs to the school of canting humbugs. What does Mr. Bannerman know about engineering work?

What does he know about administration or organization? He is a follower of Mr. Morley's. He is actuated by personal animosity towards Mr. Smith and as such should be ousted from his position as chairman of the streets committee in favor of Alderman Fullerton or Hunter. These gentlemen and Alderman Bishop are at least fair-minded.

Alderman Fullerton is to be highly commended for his stand last night against the attempt to oust Mr. Angus Smith. His idea of British fair play predominated and although accused by an irresponsible alderman of "playing to the gallery," nothing I am persuaded, was further from his thoughts. It is this man we want as mayor and we want him or his kind soon. We want a fair-minded, broad-minded, non-meddlesome man at the head of affairs and above all, sir, we want no hypocrite or wind-bag.

I notice that your reporter was said to have interviewed certain aldermen yesterday with regard to the mayor's arbitrary and back-handed policy, and that one gentleman referred to his worship as a crank. He only put it mildly. The mayor is simply so chock-full of his own importance that he can't help interfering with the duties of others.

J. B. S.

TURN ON THE LIGHT.

To the Editor:—I observe that the Colonist this morning, in characteristic fashion, straddles the fence on the city engineer matter. It suggests that the public should be debarred from attending the investigation on Tuesday next, pretending to fear that the proceedings may be disorderly. The Colonist is needlessly alarmed. Cases far more serious, when tried in the criminal courts, for instance, are attended by many people as spectators, and they always conduct themselves properly. They can be trusted to do so at the forthcoming inquiry, and I for one am opposed to the suggestion of the Colonist that they should be prevented from hearing what is going on when the city engineer is brought on the carpet on Tuesday next.

But there are several features about this business concerning the ability of the city engineer to which I would like to allude, with your kind permission. The mayor seems to take the position that some huge engineering problems are confronting the city of Victoria, which will require the services of a high-salaried man. What are these huge engineering problems? I believe they exist only in the imagination of His Worship. Is it not true, as a matter of fact, that there is no city on the continent where the engineering problems are simpler? It is just simply so much tommy-rot for the mayor to talk about "huge engineering problems." But we all understand his purpose in doing so.

Then, again, neither Mayor Morley nor any member of the aldermanic board will deny the charge that has frequently been made in open council meetings and in the press that the city engineer since assuming office has not received the loyal support of his subordinates. Mayor Morley and every

member of the board knows this charge to be true. And in the face of this fact how is it possible to say that Mr. Smith has been given a fair opportunity to demonstrate what ability he possesses for the important position which he holds? Why, the greatest engineer in the world, if he came into a new town, would necessarily require several months to elapse before he would commence to "feel his feet" under him, so to speak; but if on assuming office he found many of his employees out for his scalp with a long knife, he would indeed be "up against it."

I can well understand that the mayor and those who are behind him in this matter are desirous of escaping from the dilemma in which they at present find themselves, and by some hole-in-the-corner proceeding avert a disastrous exposure of their knavery, but I hope an aroused public opinion will see to it that they get all that is coming to them.

MERCHANT.

WANTS PUBLIC MEETING.

To the Editor:—Would it not be a good idea to have a public meeting in Broad street hall on Saturday evening and pass a resolution asking Mayor Morley and certain aldermen to resign. The very thought of having to put up with such a waste of time in the city hall for four months longer, is enough to drive a man to drink. These men profess to be acting in the people's interest in persecuting the city engineer. If they are sincere in these professions and think they can justify their conduct let them resign and give the people a chance at them. They should be asked to do so at any rate.

The expense for the hall would not be much and I am sure there are many like myself who would be glad to chip in to help pay it. Perhaps Alderman Fullerton would take the lead in calling such a meeting.

TIRED ELECTOR.

DID NOT INTERRUPT.

To the Editor:—In your report of the meeting at the city hall on Monday night you mention ex-Ald. Gleason as interrupting with remarks. I stood beside Mr. Gleason all the time and I wish to state that Mr. Gleason did not interrupt in any way. I drew Mr. Hunter's attention to his mistake on the evening of the meeting.

H. W. DAVIES.

THE POSITION OF WOMEN.

To the Editor: In your issue of Monday by quoting from information received from Vancouver, you do me the injustice of reporting that in a paper on citizenship given by me at the provincial conference of the Council of Women that I stated "that the women of this country were little better than a mere chattel and their position was worse than the women of Russia." For the sake of the Council of Women, who kindly invited me to speak, I wish to correct this statement. What I did say was "that fifty years ago in America, as history proves, woman was in some places considered

a mere chattel and was without personality in the sight of the law," which is vastly different from British Columbia to-day. I also said "that the position of the married women of Vancouver was similar to the women of Russia in that they voted by proxy. No matter how much property they own, they have no voice in civic affairs; their husband votes for them," but in every other municipality in British Columbia a woman who owns property has a vote.

MARIA GORDON GRANT.

WANTS JUSTICE.

To the Editor:—I have read Mr. Allen's "Not a Man Hunter" and Joseph Piersch's letters, and wonder can there be such a thing as justice. I was under the impression that the police had their hand on the man (?) who did the shooting and that Mr. Allen had compensation (if such a thing could be) for the loss of his sight.

Words cannot express my feelings for the contemptible coward who did this deed. If he cannot be brought to justice otherwise—well, here is a woman who will put \$250 to Mr. Piersch's \$500 to help bring him. You may give my name to the proper parties, but to others I am just

A WOMAN.

LEAVES OVER SIX MILLIONS.

Denver, Col., Sept. 14.—The estate of the late Thomas P. Walsh, which had been appraised as high as \$100,000,000 was worth only \$5,500,000, according to the inventory filed by Judge S. A. Osborn, representing the estate. Of this valuation \$3,000,000 is in Colorado property.

MILLINERY FALL OPENING

STRIKING NOVELTIES OF PRESENT SEASON

Many New Styles, Shades and Materials Will Be Seen This Year

Yesterday was a gala day for the ladies of Victoria, for the millinery openings were on and gay crowds wended their way from one emporium to another in the fascinating amusement of trying on the season's millinery.

The new hats for fall and winter exhibit show no startling change, unless it be the very considerable heightening of the crowns in the smaller and medium-sized hats.

The flat shape, sweeping wide from side to side and narrowed a bit from front to back, still holds its own, drooping low over the face as in former seasons. Many of these very large hats are simply even scantily trimmed, and rely for their grace upon pure beauty of line.

A feature of turbans, and small and medium-sized hats generally, is the very high crown to be noted this season. Many of the full-draped or shirred crowns of small hats rise to the height of fully a foot, which is quite in harmony with the general quaint suggestion of their architecture. Another characteristic contour is seen in the backward or retreating inclination of the trimming of many of these, high crowns slanting toward the rear and their upward and outward.

Into this season's millinery has crept an entirely new note: with the cup-like turban, slanting over the eyes with a visor and rising high at the back with crests of plumes or coque feathers. Spencer's are showing several of these, which remind one not a little of the caps worn by hunters and men-at-arms in the illustrations to Chaucer and Shakespeare, and in early chapters of English history.

Dominating the season's fashion is the becoming mushroom brimmed hat in all sizes, from the very large Romney effects, through the many medium sized models, to the little drooping af-

fairs that remind one of Kate Greenway pictures. Most of the very little mushrooms are long in the back and have a little-poke effect, being sharply cut away across the front. They show a variety of sizes in crown and brim, though they are, as a rule, quite close fitting, with high crowns tapering to a round top.

Returning to the large French models, which Spencer's are showing in bewildering variety, each seemingly more beautiful than the one viewed before, irregularity of outline is to be noted, with a tendency toward a greater width at the side back. The crowns of these large shapes are, as a rule, very shallow and are more often round than square. The poke shape is very wide at the back and narrower at the sides with a short front brim and shallow round crown. This shape is shown at Spencer's caught down at the sides with ribbon ties and finished with a bow resting upon the hair under the brim at the back. One medium-sized French model which was attracting considerable attention, was decidedly unique, having an almost square brim rounded at the corners and longer at the side and back, with a large square crown of medium height.

Double brimmed effects are new. A very striking one in Spencer's had a double brim, the under one of black faced with satin, the upper of pale rose pink chiffon edged with gold lace caught up to crown at left side with large black willow plume.

Another double brimmed effect was of white satin lace edged with tan crown finished with corded bond edged with gold braid, and white willow plumes.

A lovely white beaver, faced with black-velvet and finished with a mount of white willow plumes was much admired. Still another beautiful creation was of pink satin with black under brim, tan crown, pink willow plumes and large jet ornament.

In mauve shades, Spencer's are showing a number of handsome designs, mostly of beaver or velvet and fur, many being trimmed with roses in the same shades.

In the new blue, combined with black and brilliant Persian bands, a number of extremely smart designs are shown.

In the felt turbans, of which there is an infinite variety, one particularly smart effect has a Pocahontas crown in bronze green tints, tightly banded with satin ribbon in the same shade.

Many gold and silver cord effects are used as trimming to brighten up otherwise dull colors.

Mrs. Vigor is showing a very large assortment of rich and beautiful designs. One especially pretty turban is draped with real lace over a black velvet foundation, and finished at the side with a huge bird of paradise aigrette in pale yellow shades.

In blacks the shapes are of all designs, from the small turban to the large picture hat with its trimming of willow plumes. Of the latter, a much admired Charlotte Corday shape faced with pale blue corded silk is trimmed with two large willow plumes going from back to front and finished with bow and ends of black velvet ribbon.

In the Chanticleer styles, of which there are many, an especially effective one is shown in black pressed beaver with large black wings tipped with yellow.

A large mushroom shape in new blue velvet with pale black marabout crown, having a draped rainbow effect formed by bands of different colored velvet extending from the side crown to the top is very striking.

A lovely tailored turban in ashes of roses formed of velvet and shirred satin, and finished with covered buttons of the same material is very much admired. Another hat which attracted a great deal of attention was of crimson velvet with tan crown and plentiful underbrim, softened over the face with a pleating of white lace. Chanticleer motor bonnets in shot effects are rich and becoming and are quite a feature of Mrs. Vigor's display, which is well-worth all the praise bestowed upon it.

BAD HANDWRITING—SOURCE OF HUMOR

Tenant of Railway President Uses Notice to Quit as Pass on Line

It is the perversity of human nature that people who ought to do one thing do another. Men who write a legible hand (no man can accomplish more than that now) will use a typewriter, and others, who never to be trusted with a pen, order them by the gross and take the discount.

Rudyard Kipling writes a neat, delicate hand, and Conan Doyle's is as plain as the proverbial pluckstaff, but both use a typewriter. It would have saved a deal of misery and helped to perpetuate a useful art if other writers of eminence could have been prevailed upon to "type." Unfortunately the typewriter was too belated an invention to affect many of the best bad writers. Carlyle would not have struggled with a keyboard, but it would have prevented that miserable compositor feeling from Edinburgh to London out of his way if he had. Carlyle's, however, was a copper-plate to others that could be mentioned. Hugo's manuscript, we are told, presented the appearance of a sort of battlefield on paper, in which the killed words were well stamped out and the new recruits pushed forward in anything but good order.

Napoleon was unique in everything, even in his handwriting. His letters from Germany to Josephine were at first taken for maps of the seat of war. And his signature was an undistinguishable hieroglyphic. Byron and Dean Stanley wrote atrocious "lists," and it is said Sydney Smith's was no better, although he used to chaff Jeffrey badly. He used to say that he read Jeffrey from left to right, and his wife from right to left, but neither could make out a syllable.

Jules Janin would rather rewrite than attempt to read again what he had written, and Montaigne could never read what he had written. The acute thinker mended matters by employing a secretary whose writing was absolutely undecipherable. Balzac was as big a sinner, writing or blue paper with blue ink, appalling many seasoned compositors. A terrible hand had Henry Ward Beecher. His daughter once declared that she had three guiding rules in copying it—if a letter was dotted it was not an "i," and a word with a capital letter did not begin a sentence. Jacob Bryan said of Archbishop Cox's calligraphy that it could neither be called a hand nor a flat, but a foot, and that a club one. His hieroglyphics formed a climax, tangled black skein that ran across the paper in knots, which it was impossible to unite into meaning.

Lord Eldon used to tell of John Bell, a great Chancery luminary of his time, that he had three different methods of putting his wisdom on paper—one intelligible to himself only, another which his clerks could read and he could not, and the third, which neither he nor his clerk nor any one else could read. The funny letter of T. B. Aldrich to Professor Morse stands alongside of Tom Hood's facetious reply to Lady Georgina Fullerton's as protest against learned illegibility. Aldrich asserted that he could decipher nothing in the professor's missive but the date, which he knew, and the signature, which he guessed at.

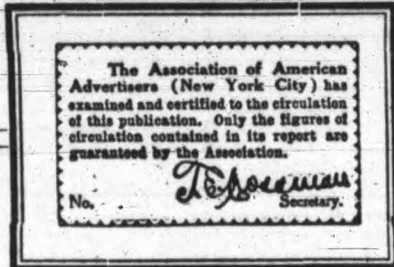

The story of the Duke of Wellington writing to Bishop Blomfield when he had received a letter from J. C. Loudon, the eminent landscape designer, asking to see the Waterloo beeches at Stratfieldsay, is ancient, but it makes us laugh (although perhaps we ought not) to picture the consternation of the bishop (and through him the shock to the whole Episcopal bench) on receiving permission to visit the Duke's Waterloo beeches. Also a classic is the tale of Macready's admission ticket being solemnly made up by the apothecary into a cough mixture, "to be taken three times a day."

The name of Horace Greeley has, in this connection, to be mentioned with a chastened respect. He undoubtedly was the great master of illegibility. It was to him the compositor "averred" that if Belshazzar had seen his handwriting on the wall he would have had cause to be terrified. A common story attributed to Greeley belongs, however, to one Brooks, some time president of the New York Central railroad. It is best, in all things, to be just. And Greeley can well spare it. It was Brooks' notice to quit that a tenant used for two years as a railway man: "With a weight of years, I feel obliged to decline any invitation that takes me a day's journey from home," and this is all they could make of it: "If elle are blighted, dig them early. Any insinuation that brick ovens are dangerous to hams gives me horrors." This is the way the moderns have juggled with the pen, so can we wonder that its time of usefulness is wellnigh spent?

The TIMES Granted Honor Marks in Circulation

THE TIMES HAS RECEIVED from the head office of the Association of American Advertisers, a handsome certificate, confirming and authenticating its circulation statement for the year just closed.

THE ASSOCIATION OF AMERICAN ADVERTISERS is composed of most of the national advertisers of this continent—firms which are interested above all others in ascertaining the exact number of subscribers served by each of the newspapers of America.

Alex. W. Costigan, one of the expert actuaries for the Association, visited Victoria the last week of the year, and spent two or three days in examining the circulation records in the Times Office. His exhaustive examination extended to press count, paper invoices, returns, etc., each being checked carefully and compared. As a result the Times has been accorded HONOR MARKS and a place among the limited number of daily newspapers whose circulation claims are verified and guaranteed by the A. A. A.

This certificate is accepted even before the sworn returns of publishers by the national advertisers, being made by experienced and thorough investigators, whose only object is to obtain the facts for their employers.

All advertising contracts made with the Times are based on this proved circulation in a constituency where the purchasing power of the unit is greater than anywhere else in Canada.

SPECIALS!

COOK STREET, close to Southgate Street, one lot 54 x 124 feet. Price \$1,350. Terms can be arranged. This is one of the best buys offered on Cook Street for some time.

FULLETON AVENUE, Victoria West, a 50-foot lot close to Gorge car, street boulevard, etc. Price \$400.

SOCIAL AND PERSONAL

Mrs. J. F. Lemon and son, Kelowna, are visitors in town. Mr. and Mrs. Wyler are among the English visitors here. J. L. Bryon left for Vancouver on the Charmer last night.

Mrs. J. Stewart, Cumberland, is enjoying a visit in this city. C. D. McRae is among the Vancouver business men in Victoria.

Thomas Geiger, Cowichan Lake, was a visitor in this city yesterday. Dr. Ernest Hall went over to Vancouver last night on business.

T. S. Gore crossed over to the mainland on the Charmer last night. W. W. Sowercroft went over to Vancouver last night on a business trip.

Dr. Lewis Hall left this morning for Pender Island on a hunting expedition. Mr. and Mrs. E. S. Keith are among the visitors in this city from Alberta.

Mrs. J. Cochrane is spending a few days in the Terminal city visiting friends. C. J. Kay returned to his home in the Terminal city last night on the Charmer.

W. H. Parry was among last night's passengers on the Charmer for the Terminal city. E. E. Birmingham was among the passengers on last night's steamer for Vancouver.

Miss Adelaide Young, of this city, is attending the Annie Wright seminary at Tacoma. Mrs. Guy Pennington Goddard, the Angela, will not receive Wednesday, September 17th.

Mr. and Mrs. Lonest are en route for their home in Ottawa, after a pleasant stay with friends here. R. F. Taylor and Geo. Young were among the passengers for Vancouver last night on the Charmer.

William Dinmore was among the passengers on the Princess Charlotte yesterday from Vancouver. John L. Skeene returned to this city yesterday from Vancouver, where he has been on a business trip.

Mrs. Peter McKeechne will receive her home, 2310 Cadboro, afternoons at 2:30, 4:30 and 6:30. J. A. Blair, Mayor, who has been in Ottawa, returned to this city for a few days, and the Royal city last night.

James Bourget, Clark street, who was struck by a wagon on Douglas street a few days ago, is able to sit up and is getting on very well despite his great age, ninety.

Mrs. Herbert Carmichael is the guest of Mrs. H. Marpole, Vancouver, with whom she will spend a couple of months. Mrs. McTavish and Miss McTavish have returned from an enjoyable trip to Prince Rupert, where they were the guests of D. McTavish.

Mr. and Mrs. W. O. Wallace and their daughter, Miss Kathleen, returned recently from an extended visit with friends in the eastern provinces. Mr. and Mrs. Trotter-Johnson, who were in town for their son's wedding, are spending a few days in Vancouver en route for their home in Somenos.

Mrs. McDowell and the Misses McDowell have returned to Victoria, after spending a most enjoyable three-months visiting relatives in England and Ireland. Lord and Lady Talbot de Malahide, who are touring the coast, and have been spending some time in Vancouver, arrived here yesterday and are staying at the Empress.

Mrs. Canova and children, accompanied by her sister, Miss Clark, who have been spending the summer at Kelowna, returned to town on this afternoon's boat from Vancouver. Mrs. A. H. Shotholt (nee Cole), 2213 Quadra street, will hold her post-nuptial reception on the afternoon and evening of Saturday next, and will receive thereafter on the second Wednesday of each month.

Mrs. Bampfyde Daniell has been asked by the Studio Art Club, Vancouver, to teach miniature painting and portraiture in general in connection with the club's work this season. As a former member of the Royal Society of Miniature Painters, London, Mrs. Daniell is eminently well fitted for the work.

Mr. Murphy, who some weeks ago

Our Stock of Silver Flatware Consists of the Very Best

A better or more comprehensive assortment of Flatware cannot be found. Especially is this true in Solid Sterling Silver, while prices are in conformity with high quality. For instance: Sterling Silver Tea Spoons, from \$5.00 per doz. up to \$12.50 per doz. on ordinary stock patterns.

PLATED FLATWARE THAT IS GUARANTEED

Bearing our own name, which is a hallmark of quality, consisting of a complete line priced right. Mahogany and Oak Cabinets, all sizes, to hold from 2-1-2 doz. pieces to doz., suitable for presentation purposes.

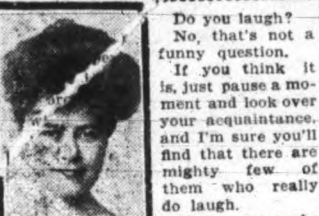

Challoner & Mitchell Co., Ltd. JEWELLERS. 121 Government St., Victoria, B.C.

crack pitcher of the Capital baseball team, the members of which presented him with a handsome silver cup, beautifully engraved.

Lieutenant-Colonel the Hon. George Campbell Napier, C. I. E., arrived in the city yesterday on a pleasure tour and is registered at the Empress hotel. Colonel Napier, who is sixty-five, is heir presumptive of the second Baron Napier of Magdala. In 1861 he entered the Bengal army and in 1887, the year in which he retired from active service, he was lieutenant-colonel. In 1887 he served in the Punjab as assistant commissioner, in 1874 was sent to Persia on special duty, in 1881 was at Candahar, from 1882-1883 was private secretary and A. D. C. to the lieutenant-governor of the Northwest Province, in 1884 was created a deputy commissioner and in 1885 superintendent of Kapurthala state.

After the regular business meeting last evening, Victoria Hiyo No. 1, Ladies of the Maccabees, celebrated their fifteenth anniversary by a social. Mrs. Preston, the new deputy commander, gave an address, which was followed by a piano solo by Miss Elison and songs by Miss Waxstock and Mrs. Foxall. In a grand lighting competition Mrs. Vincent, Erie street, performed the unusual feat of lighting twenty with one match. Bridge whist and five hundred were played and a most enjoyable evening spent. A pleasant feature of the proceedings was the presentation by Mrs. Jackson to Mrs. Wall, past commander, of a very pretty pin, suitably engraved with the motto of the order and the words "Victory from Defeat" in blue enamel. Dainty refreshments were served.

The Evening Chit-Chat BY RUTH CAMERON

Do you laugh? No, that's not a funny question. If you think it is, just pause a moment and look over your acquaintance, and I'm sure you'll find that there are not many of them who really do laugh. Most people smile, and once in a while chuckle or giggle, but the hearty, natural, unrestrained laugh that makes you want to laugh too, even if you don't know what the joke is—well, that's about as rare as a man who doesn't measure success by money or a woman who doesn't judge other women by their clothes.

And because of its rarity, the gift of laughter is an invaluable social asset. A man was telling me recently how he happened to spend an evening at a summer boarding house where there were half a dozen girls and not a man but himself. He told how he was introduced to the group, and what nice girls they were, and what a shame it was there weren't some nice men to amuse them. "Did you see any of them again?" I asked. "Yes, I was back there the next week and I took one of them canoeing," he said.

It was an interesting opportunity to inspect the psychology of a man's choice, and find out just why, with the pick of six, he chose that one. I put the question, "Why did you choose that particular one? Was she the prettiest?" He considered a moment. "No, I don't think so. I guess it was just because she laughed the most at my attempts at wit."

You see? Laughter is an oil for the social relations. In a crowd on an ocean voyage I noticed one woman whom everyone seemed to like to talk to. I watched and listened and found it was not because she was extraordinarily witty or amusing, but because she always laughed at the proper place with a heartiness and spontaneity that made her companions feel that they must be extraordinarily witty and amusing.

Maybe you don't find it easy to laugh. You are afraid your laugh is unmusical. Then make it musical. Learn to laugh prettily. It can be done just as an unmusical voice can be modulated into harmonious tones. Listen to your own laugh and conscientiously attempt to make it more pleasing. If you can afford it, go to a singing teacher and ask him to teach you how to laugh.

All that will make you self-conscious—some one protests. You will become affected if you learn to laugh. Don't let it make you self-conscious. Don't be affected. Just learn to laugh well enough so that you aren't afraid to, so that you aren't self-conscious, and then cultivate a disposition to be genuinely and easily amused, and you will have a social talent that will do much to make you welcome everywhere.

Ruth Cameron

INTERNATIONAL FORTUNES. Some statistically-minded person has been computing the average fortune possessed by citizens of forty years and upwards in the principal European countries. His results make astounding reading.

Table with 2 columns: Country and Fortune. Austria 165, Belgium 275, France 248, Germany 377, Great Britain 354, Holland 322, Italy 334, Roumania 66, Spain 133.

It will be seen that Holland takes the second place with 456, almost twice as much as Germany, while Belgium, which one would have expected to rank high, is fifth with 275. If these figures are at all accurate, Germany's position in the list is surprising and significant.

Scientists say that the whole human body is full of microbes, and that a person is healthy as long as the microbes are in good condition.

AMERICAN SHIPPING SILENT ON HIGH SEAS U. S. Government's Policy Respecting Wireless Cars' Snubbing of Steamships

Washington, Sept. 13.—American vessels on the high seas are not admitted to the international wireless conversations that float through the atmosphere. Any American vessel seeking to pass the time of day with a foreign vessel by wireless is liable to a snub. Ships may pass in the night, but they do not speak each other in passing if one flies the American flag and the other a foreign flag.

Next month an international conference will be held at London to discuss the whole subject. The United States will not be represented. It has not been asked. The previous conference was at Berlin, where, on Nov. 2nd, 1906, a treaty was agreed to embracing the present international rules. Twenty-six nations were represented; the United States being one of them. But since the United States senate has not ratified the treaty, the United States is out of it.

TRAMP STEAMER'S LOG The British steamer Spithead, which will make the September sailing in the Atlantic mail line of the Weir Company from San Francisco, is a sister ship of the big British freighter, Needle, which arrived here recently from Java with a heavy cargo of sugar.

ST. DENIS BRINGS BIG SHIPMENT OF SALMON Vadsø Due To-morrow—Both Steamers Leave Vancouver for North Friday

Two thousand cases of salmon were unloaded to-day from the Bosowitz steamer St. Denis, which returned from Kitimaat, Bella Coola and way ports last night. Altogether 8,865 cases were brought south, most of which will be shipped to Great Britain on the Holt liner Antiochus, sailing from here on October 20th.

CHELSEAKEE EXPECTED AT SAN FRANCISCO Union S. S. Co.'s New Steamer Due Here from Belfast on 19th Inst.

To-day the Union S. S. Co.'s new steamer Chelsea, which was spoken Plata on August 3rd and was due off San Diego, Cal., on Monday, arrived at San Francisco on her way to Belfast to Vancouver. The steamer is expected to reach William Head quarantine station on the 19th and will proceed to the mainland port without calling here. She will probably be put in commission on the route between Vancouver and the logging camps soon after arrival.

TAMBA MARU LATE N. Y. K. Liner Reported to Estevan by Wireless To-day—Will Arrive 2 p. m. To-morrow.

SHIPWRECKED SEAMEN FIVE DAYS IN BOAT Crew of 32 Escape From Burning Steamer and Are Rescued Cape Race, Nfld., Sept. 13.—All of the 32 men comprising the crew of the British freight steamer West Point, which burned to the water's edge in mid-ocean a few days ago, are safe. News that the rescue of the West Point's crew had been completed by the picking up at midnight on Friday of Captain Pinkham and fifteen men of his crew, who had been with him for five days in an open boat, by the Cunard liner Mauretania, New York for Liverpool, was received here to-day by a wireless relay from that steamer. Meanwhile an equal number of the crew of the ill-fated steamer, headed by the chief mate, is approaching Boston aboard the Leyland liner Devonian, from Liverpool, which accomplished their rescue on Friday morning. They will arrive in Boston late on Monday or early on Tuesday. Both parties to-night were informed by wireless of the fortunate delivery of the other.

The message announcing the safety aboard the Mauretania of Captain Pinkham and his party was relayed across nearly two-thirds of the Atlantic. It said that the Mauretania at midnight on Friday had rescued Captain Pinkham, his second officer, two engineers, the chief steward, the captain and ten seamen. The Mauretania and the Rotterdam had previously relayed to shore the news of the rescue of the first mate's boat by the Devonian, the first information of the loss of the West Point to reach land.

PRINCE GEORGE IS DUE TO-NIGHT G. T. P. TO OPEN PIER "B" ON HER ARRIVAL Twice-a-Week Night Service Will Be Inaugurated Thursday at Midnight

On schedule time the G. T. P. liner Prince George arrived in Vancouver to-day at noon and will dock here at 7 p. m. The Prince George will be the first of the fleet to use the new Pier B, to which the business of the company has been transferred and commodious offices opened. The smaller wharf, Pier A, is at present being used as a storehouse but it is rumored that it will be leased to another concern shortly. Leaving here for Seattle at midnight the Prince George will inaugurate the new G. T. P. schedule to-morrow, returning from Seattle at 2 p. m., arriving here at 7 p. m. and leaving for Vancouver at half-past midnight. The steamer will leave Vancouver on Friday night for Prince Rupert, passengers for Stewart and points farther north being transferred to the Prince Albert, and will lay over a day at the Kitimaat island port before returning.

THE AMERICAN BARQUETTE GEORGIANA, now loading at Hastings Mill for Sooke, America, will clear Saturday with 1,500,000 feet.

Southbound for San Francisco, the Pacific Coast liner Queen sailed from Seattle this morning with a full complement of passengers, if whom fair cargo and mail for the 20 embarked here.

With 1854 sacks of guano, 325 barrels of oil, 70 drums of oil, 12 barrels of tallow and miscellaneous freight from the whaling stations, the steamer Otter was at the outer wharf yesterday. After discharging she left for the stations again with empty drums and supplies.

Hoquiam, Sept. 13.—A hook in the end of a line suspended about 20 feet above the deck of the schooner C. A. Thayer saved the life of Capt. Gustaf Peterson here when he fell from the masthead, but was caught by the hook, which broke the fall. The hook tore a deep wound in Peterson's leg, necessitating some 20 stitches.

While being registered in Vancouver the British barque British Yeoman anchored in English Bay on Monday. She is in tow of the tug Defiance and is cement-laden from San Francisco to Powell river. After discharging she will load lumber at Vancouver for Natal.

The charter of the Belle of Spain, a British steamer of 2742 net tons, commanded by Capt. Minister, is announced by the W. R. Grace line to the West Coast of Europe. The vessel was in this section last fall when she brought rails to Prince Rupert, later proceeding to Ocean Island and Stettin. She is now in the South Pacific ocean.

JEWEL ROBBERY Winnipeg, Sept. 14.—The Countess of Antrim, who passed through here a few days ago, was robbed of jewelry valued at many thousands of dollars, priceless from the fact that they were family heirlooms while at the Royal Alexandra last Saturday night. She left for the coast, where she will visit her son, who is in business there.

"SALADA" Tea IS AN ANTIDOTE FOR HOT WEATHER FATIGUE. IT IS COOLING TO THE BODY WHILE COUNTERACTING THE EFFECTS OF HEAT.

BEATRICE BRINGS ORE JETTISONED FROM MAY SHIPMENT DUMPED ON ROCKS TO LIGHTEN STRANDED STEAMER RECOVERED BY LAUNCH

Bringing 304 sacks of ore, which were jettisoned from the steamer Princess May to allow of her being refloated from Sentinel Island, the C. P. R. coast liner Princess Beatrice arrived early this morning from Skagway and sea ports. The ore was consigned from the Big Thling mine in the White Horse district to the Tyee smelter, and was dumped over the side on the May while she was ashore, several of the sacks being burst. One of the gasoline launches of Juneau saved the shipment, which was resacked and sent south on the Beatrice.

At Vancouver the Beatrice unloaded 4,500 cases of canned salmon, 40 tonnes of salt salmon and 156 boxes of salt herring. She brought 125 passengers south, five of the latter being the William Jolliffe, towing the Princess May, and the salvage boat Santa Cruz a few miles south of Juneau on their way to Esquimalt. She sails for Skagway again on Friday evening.

FALL FAIR WILL BE A SUCCESS. (Continued from page 1.) Make the exhibition worthy of the capital city. For your amusement, your instruction and your pride in your city, province and country. In justice to the men and women who have worked hard and faithfully to make the exhibition a success. For the honor of Victoria. After a great deal of consideration the officials of the association have decided on the judges for the fair. Out of the applications received the following have been selected, and in the minds of the executive staff is the most capable that could be appointed: Heavy horses—M. T. Russell, Exeter, Ont. Light horses—Alexander Innis, Clinton, Ont. Cattle, sheep and swine—J. E. Brethour, Ontario. Poultry—W. Coster, Vancouver. Floral—Mr. Davis, Vancouver. Women's work—Miss Ross, Vancouver. Horse show—Dr. Grenside, Guelph, Ont., late of New York. A telegram was forwarded to the secretary this morning by Count Geo. de Roaldes, who is one of the largest stock exhibitors, to have space reserved for three more horses. The programme of the Boy Scouts at the fair will include a parade of the various troops just inside the main entrance on Tuesday afternoon at 1.30 o'clock. An hour later they will be drawn up to form a guard of honor to receive his honor the lieutenant-governor, who is to open the show. On Saturday afternoon the brigade will assemble inside the oval of the race track for inspection. Two challenges

THIEF CAUGHT AND MAKES CONFESSION. Arthur Raymond, Alias Weston, Behind Bars and Will Answer Charge This Afternoon. Arthur Raymond, alias Weston, was arrested yesterday afternoon and is now in the city prison, but up to 11 o'clock this morning no charge had been entered against him. He, however, is alleged to be the perpetrator of many thefts which have occurred in the outlying districts, and especially in Esquimalt and South Saanich. The police have in their possession a quantity of baggage obtained from the house in which the accused boarded, containing goods believed to have been stolen. After his arrest Raymond admitted to the police that he was guilty of wholesale theft, and a list of missing property at the city detective office and the provincial police station confirms the statement that he has been going about plundering from houses left without protection for a few hours in a wholesale manner. For some time past the police have received reports of thefts from residents in the far suburbs, but until yesterday, when Raymond was caught accidentally, he has managed to evade the officers of the law successfully. Yesterday, however, a number of Hindus returning to their shack off Douglas street found Raymond inside. He, it was discovered later, had taken some money, and when the owners of the cabin appeared he made an attempt to get out by the back way. The Hindus followed and were handing him roughly, when Ald. Humber appeared. The Hindus sent information to the police, and Raymond was conducted to the detective office where Inspector Palmer identified him as the man Weston, who twelve years ago served a term of imprisonment for theft here. The Hindus explained the matter and Raymond admitted the theft. On a query at his boarding house certain goods were found which the police allege will form the basis of other charges against him. Owing to the absence of the police magistrate this morning the court adjourned until this afternoon. The accused appeared before the magistrate then on the charge of stealing money from the Hindus. The crime for which Raymond, or Weston, served his first sentence was for theft committed at the Baptist church, Herald street, from which he stole a communion service, valued at \$25. After his release he left Victoria but returned during March last. Some of the property stolen has been recovered and claimed, but there is a considerable amount of jewelry lost, the theft of which is laid to the door of Raymond and has not been recovered. Raymond, after his arrest admitted he had made several trips to Vancouver and Seattle and had disposed of a considerable amount of plunder there. Walter Clark, a married man, was charged in the police court this morning with embezzlement of \$688, moneys alleged to have been collected by him on behalf of the Standard Steam Laundry Company. In the absence of Magistrate Jay the bench was taken by W. W. Northcott, J. P., who remanded the case until this afternoon at 2 p. m., when the magistrate attended. The accused was refused bail. He is defended by Tait and Brandon.

Municipal Notice. The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to construct permanent sidewalks of concrete on both sides of Collinson Street, between Cook Street and Trutch Street, and to construct curbs, gutters and boulevards (including maintenance) on said street, and that the said work shall be carried out in accordance with the provisions of the Local Improvement General Bylaw and amendments thereof, and the City Engineer and City Assessor having reported to the council in accordance with the provisions of section 4 of said bylaw, upon each and every of said works of local improvement giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the council: NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the city assessor, City Hall, Douglas Street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by-law in that behalf regulate and determine. WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, Victoria, B. C., Sept. 14, 1910.

Health Department Inspector's Office. Victoria, B. C., Sept. 12, 1910. The following is the result of butter-fat tests made by the Civic Inspector during the months of July and August, 1910 from samples of milk taken from the carts of the different vendors doing

MARICOPA OIL COMPANY OF LOS ANGELES, CALIFORNIA

Under Canadian Control Capital \$1,000,000

What Our Neighbors Are Doing. (Extract From the California Oil World) Maricopa, Aug. 31.—The Midway Northern Oil Company operating an eighty-acre lease in the northern quarter of Section 32, 12-23, has made a contract to deliver its oil to the New Centre and Anaconda Oil Companies, which supply two railroads and a small refinery in the north part of the state. The midway-northern has laid 12,000 feet of pipe connecting its wells with the receiving tanks at the New Centre loading racks, has installed a large pump and expects to commence to deliver not later than Saturday, S. M. Warmbath, secretary and manager of the Midway Northern, states that the oil will net the company 4 1/2 cents per barrel. The midway northern finished its well about six weeks ago at a depth of 1905 feet and has since put in an eight and a quarter inch agitating string. The well flowed recently for four days, producing from 1700 to 2200 barrels per day, the oil testing 19, 3-10 B. It is expected that when the well thoroughly cleans itself out that it will have a production of about 2500 barrels per day. The company has let a contract to J. M. Latta at Maricopa for a standard 84-foot rig for well No. 2 and has placed orders for a new boiler and engine. Drilling the second well will commence within thirty days. This Company owns a lease of 60 acres in Section 32, 12-23, in the very midst of the Gusher Territory of the Maricopa-Sunset Field on a royalty to the owners of 1.7 of the oil produced. Our property actually adjoins that of the Midway Northern to which the annexed press extract refers. We have now about eight hundred feet to drill. A similar well should be obtained at about the same depth on our property. Such a production with a similar contract would enable this Company to EARN A DIVIDEND OF 2 CENTS MONTHLY, OR 24 CENTS PER SHARE PER ANNUM ON ITS FULL CAPITAL. With such prospects, are you not buying dollar bills for 50 cents. LATEST TELEGRAM. BAKERSFIELD, California. September 12, 1910. In field to-day splendid progress on Maricopa. Expect to bring in big flowing well by fifteenth October or near that date. (Signed) W. F. P. FOGG. Price To-day, 50c per \$ Share Fully Paid and Non-Assessable

BUILDING STILL CONTINUES BRISK

MONTH OF JULY SHOWS BIG GAIN

Operations in Fall Will Probably Establish New Record in the Dominion

Contrary to the somewhat quiet order of things which usually prevails in the midsummer season, building operations in July showed a strong and substantial forward trend. An average gain of 47 per cent, as based on comparative figures supplied Construction, Toronto, from centres in practically every section of the Dominion, bespeak for the month a growth and progress which stand out far ahead of even the highly satisfactory records made in the same period during the past few years. The force of activity for this season of the year is more significant than would appear on the surface, particularly so in view of the heavy operations of the preceding months, in that it is a pretty good sign of an uninterrupted continuance of the present prosperous condition as well as an indication of a volume of fall work greater than has ever been carried out at any previous time.

Montreal's tremendous total in itself reflects a development in new buildings and structural improvements that augurs mightily for the expanding industrial and commercial strength of the country, and would be a big credit to even a more thickly populated and equally as prosperous a centre. Her aggregate value for permits issued amounting to \$3,206,708 and equivalent to an increase of 470 per cent, gives the metropolis priority for the month over all other cities in the Dominion in volume of work undertaken together with the second highest standing as regards percentage gain. From Montreal east the returns to hand show no break in the situation, and the assumption is, in view of the universal activity manifest in the more important maritime cities, that the intermediate points experienced their full quota of the month's work. Halifax and St. John reversed the less favorable order of the preceding month by noting increases of 33 per cent, and 183 per cent, respectively, while Sydney adds to her prestige by again announcing a gain of 151 per cent.

Ontario, however, was less assertive, although Toronto in a total of \$1,953,285, representing a 5 per cent, gain, registers the second highest amount recorded. A retrograde condition, as far as comparative figures indicate, is noted in this province in five instances, viz: Fort William 16 per cent; London, 48 per cent; Ottawa, 73; Berlin, 29 per cent; and Peterboro, 28 per cent. In most of these cases, however, the decrease denotes no serious decline as far as actual investment is concerned. On the other hand, Port Arthur turns to good account with an increase of 71 per cent; Hamilton advances 30 per cent; and Bradford and Windsor annex gains of 12 per cent, in either case.

In the West the progress of the immediate past give but little indication of diminishing activity. Winnipeg registers an aggregate total of \$1,044,830 and a gain of 8 per cent, while Regina's phenomenal uplift of 490 per cent, is the biggest increase noted for the month. Saskatoon and Calgary are also on the safe side of the ledger with an advance of 187 per cent, and 185 per cent, respectively; as is likewise Brandon, which has to her credit an increase of 45 per cent over the corresponding period of 1909. Victoria and Letbridge, however, fail to equal their last year's amount for the month, the loss in order named being 40 and 30 per cent; although the falling off in the latter case can be ascribed to the fact that in July, 1909, the permits included an item of \$50,000 for the erection of a municipal power plant. The outlook in both of these places, as in all western cities, is encouraging. Calgary reports a heavy volume of warehouse and business property scheduled for this fall, while Vancouver expects August to establish a record month.

The reports of permits for July, 1910, and July, 1909, follow:

	July, 1910	July, 1909
Berlin	19,800	\$ 27,200
Brandon	23,950	20,480
Brantford	41,835	24,877
Calgary	539,008	182,280
Fort William	156,300	186,233
Halifax	65,150	48,632
Hamilton	288,959	205,475
Letbridge	84,539	121,868
London	37,700	73,808
Montreal	3,206,708	562,156
Ottawa	202,500	700,100
Peterboro	39,725	43,245
Port Arthur	174,375	114,790
Regina	96,000	51,490
St. John	71,100	27,500
Saskatoon	147,375	51,815
Sydney	45,169	17,750
Toronto	1,953,285	1,854,165
Vancouver	622,290	58,120
Victoria	37,550	32,650
Windsor	1,044,830	962,300
Winnipeg	1,044,830	962,300
	\$9,319,450	\$6,319,986

THROWS BOMBS FROM AIRSHIP.

Boston, Sept. 14.—Aviators White, Brooks and Johnston made several short flights above the aviation field yesterday. White gave an exhibition of bomb throwing at an elevation of 400 feet.

While White was aloft Brooks and Johnston ascended in a duration and altitude record attempt. Both descended after short flights.

FIRE ESCAPES AND ALARMS.

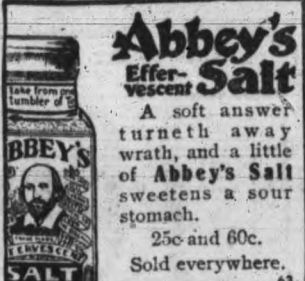

Vancouver, Sept. 13.—At a special meeting of the Fire Commissioners, it was decided that all hotels must be provided with fire escapes and fire alarms by October 1st.

SENT TO JAIL.

Vancouver, Sept. 13.—For stealing \$25 from the Bank of British North America here, G. W. Duncan, a junior clerk, was today sentenced to nine months' hard labor.

HEARING OF CAR REPAIR FRAUD CASE

Former Employee of Company Declares He Paid Bribes to Inspectors

Chicago, Sept. 14.—Hearing of the Illinois Central car-repairs fraud case in the municipal court developed sensational testimony. Evidence intended to show that employees of the railroad company were paid by the Ostermann Manufacturing Company and the Blue Island Car & Equipment Company, was introduced by the prosecution.

John F. Consideine, a former employee of the railroad and later, general foreman of the Blue Island concern, testified that he went to work for the Blue Island Car & Equipment Company in August, 1907, and was placed in charge of a force of 80 car repairers. While in the employ of the Blue Island Company, Consideine admitted he had paid money to Illinois Central employees.

"I paid Paul Kovaleski, a car inspector, \$18 on several occasions," he testified, "and later when Kovaleski was succeeded at Blue Island by Richard Roth and John Strain, inspectors, I paid them \$20 a week in cash."

FLAMES DESTROY VILLAGE OF WHITE ROCK

Loss Estimated at \$20,000—Fire Menaces Mills on the Fraser River

New Westminster, Sept. 14.—The ticker of the local telegraph office rapped out a cry for help Monday afternoon. White Rock, a few hours before a charming village, was a mass of charred ruins. The former inhabitants were fleeing for their lives before a sheet of flames six miles wide. A train was sent out from Ferndale to try and reach the scene of the disaster, but the relief train could proceed no further than the bridge, as the fire had destroyed that structure.

Later telegrams advised that no lives were lost, but two ranchers from Hall's Prairie stated that they had lost some of their stock. The fire was the re-kindled outbreak of a few weeks ago. The loss at White Rock is estimated at \$20,000. There were no less than eleven fires in the vicinity of this city Monday. One of them seriously menaced the Fraser River mills during the afternoon, but it was finally brought under control before it had done much damage.

ACT DIRECTLY ON THE LIVER

Biliousness and Headaches Quickly Cured by DR. A. W. CHASE'S KIDNEY and LIVER PILLS

When you feel irritable, cranky and downhearted, you can usually blame the liver, for there is no organ in the human body which so quickly throws the system out of sorts as a torpid, sluggish liver.

You don't need to be in the blues long if you know about Dr. A. W. Chase's Kidney and Liver Pills, for by their direct action on the liver they relieve promptly and prove lastingly beneficial.

BELIEVES ROOSEVELT WILL BE CANDIDATE

Montana Senator Says Former President Will Be Choice of Party

Spokane, Wash., Sept. 14.—Colonel Roosevelt probably will be the choice of the Republican party as its presidential candidate, in the opinion of Senator W. A. Clark, of Montana. Senator Clark arrived here in his private car. He said:

"Ex-president Roosevelt is undoubtedly grooming himself for the Republican nomination in 1912 and, barring unforeseen developments, he probably will be the choice of the Republican party.

"Opposed to Roosevelt will be probably Governor Harmon, of Ohio. Harmon is a strong, clean candidate. The Democratic party will undoubtedly nominate a strong candidate, for chances for Democratic success have never been better than they are now.

"Had Governor Johnson, of Minnesota, lived, there is no question in my mind but what he would have received the nomination from our party. The Democrats have three or four good strong men. Mayor Gaynor, of New York, is a strong man. Ex-Governor Folk, of Missouri, is an able man, and Woodrow Wilson is a good man. Harmon, of Ohio, I believe is the strongest at this time."

DECLINE OF THE MOUSTACHE.

Permission to wear a moustache was eagerly sought after in the middle of the last century. But now the virile decoration is discarded. Why? In those old days the Bank of England would not allow its employees to wear it, and issued an order which might have come more appropriately from a Bank of Ireland. It was to the effect that the moustache was not to be worn in business hours! A large drapery firm in London objected not only to the moustache, but to hair parted down the middle. There is more tolerance now, and his moustache is often a young shopman's most precious possession. Men look younger when clean-shaven. They are also more readable without the prettification given by the moustache to the upper lip. If hearts can be worn on sleeves, thoughts can be read on upper lips. But is it always wise to leave the legend unblinded? Men seldom like to be divined, as La Rochefoucauld remarked once and for all time. London Express.

GARDEN OF MOCTEZUMA.

Cultured People Who Once Lived in Valley of Mexico.

That an unknown, highly cultured people of whom neither history, tradition nor legend has preserved any record flourished in or near the Valley of Mexico and enjoyed spiced chocolate and aromatic beverages from transplanted tropical fruits grown by them in a marvelously-built garden at Oaxtepec, from 1500 to 2000 years ago, is the latest theory of Guillermo Teles regarding the recently-discovered garden of Moctezuma, says The Mexico Record.

Mr. Teles applied to the department of public instruction for a special permit to make explorations in the garden. His investigation has led him to believe that the garden has great antiquity.

He has been devoting a large part of four years to studying the plans found there. Through the inscriptions he has been able to glean historical data concerning 21 successive caecques. Tropical trees, flowers and fruits were transplanted from the Isthmus of Tehuantepec and Central America to this garden, and there were grown cacao, vanilla, papaya, yollo-ochilli, mecochilli and another rare flower which gives off its odor in the night. These plants and their friends were ingredients of the delicious chocolate which were the favorite beverages of the Aztec lords when Cortez arrived.

The garden was visited by Acamixtli and Bhuicamina, the second named being identical with Moctezuma I. It is claimed that Moctezuma Ihuicamina appropriated this beautiful garden to his personal uses.

AIRMEN AND LADY BIRDS OF BRITAIN

AMATEURS BY HUNDRED INVENTING AIRSHIPS

Men and Women of the Kingdom Taking Up the Science Actively

When last season ended the British outlook in the air was far from enviable, says Mr. Harold Ashton, in the London Morning Leader. Literally, he hastened to explain things. The British temperament was not aerial. John Bull might perhaps sit in a balloon and flap about in a wickerwork basket, but there was too much embonpoint about him to fly.

It did not seem fitting that John Bull should feather his comfortable carcass and change his honored name to Jack Daw. He did not possess the bubble, the effervescence, the lift of those sparrows little men across the Channel like Paulhan and Bleriot, and Dumont and Delagrange, and the rest of them. One day he folded his hands and grunted; but luckily, young Jack, with his imagination aflame at the cloudland conquests of his neighbors, set himself to do something, willy-nilly. Through the long winter months he studied the game, and the glamor of it gripped him—hard!

To-day, up and down this uneasy country of ours, there are hundreds and hundreds of amateur workshops all littered with the debris of wonderful ships of the air, and in one of them perhaps lies hidden the germ of the future Clipper of the Clouds. Who knows? It was not in vain that Jules Verne (himself, forsooth, a Frenchman) wrote his pulsing romances. We are blundering on, and we have already blundered into some of the near-by clouds. Only a few months ago a tall young gentleman, with carefully-creased trousers and fancy socks, walked into a meadow at Pau and in excellent French (for an Englishman) asked if he might be permitted to experience himself in one of the Bleriot's which were skipping about over the cropped grass. He was graciously permitted; and in a day or two he could fly—to the amazement of the assembled onlookers.

Since then those trousers and those socks have become familiar to every subscriber to the Illustrated Press: the saucy young gentleman was Claude Grahame White—the bachelor-hero of a thousand fair English homes where jewelers maidens sit and sigh! I shall never forget that grey, frosty morning in the early spring of this year when young Claude flew away from the gaping crowd at Park Royal and vanished into the mist like a rocketing peasant! We never dreamt that this neophyte would attempt the things he did, or that he would be so near winning the Manchester prize. But little Paulhan suspected. He nipped across the Channel, and after him like a hawk. By the skin of his teeth Louis won the £10,000; and Claude covered himself with glory.

Mr. Grace has done wonders at East-church. He has flown in a high wind over the battlefields in Sheerness harbor, and only recently established a new altitude record for England, beating Mr. Armstrong Drexel's 1,070 ft. soar in the New Forest by over 100 ft. From that altitude he planned down to earth in 70 seconds.

Another English "air-man" who has already distinguished himself is Capt. Bertram Dickson, who at the Rouen aviation meeting last week, shared the honors with Latham, Dubonnet, Moraine, and a host of other Continental stars, including the "boy-bird" Marcel Hanriot. He and Lieut. Lancelot Gibbs are acknowledged rivals in flying in a high wind. Mr. Gibbs's Farman aeroplane was burnt recently by the superstitious mob at Barcelona. So he is now using, and with equal success, a Sommer biplane. Let us hope that before the summer is out these two dare-devils will meet on an English flying ground. They would be worth traveling far to see.

come out into the limelight since last year are Messrs. Moore-Brabazon, Rawlinson, Alec Ogilvie, George Cockburn, Hon. Maurice Egerton, J. Hadley, Mortimer Singer, Captain Dawson, S. A. Barnes, F. Maclean, Charles Lane, Morrison, M. Holder, Graham-Gilmour, Hon. Alan Boyle, Mander, McArdie, and A. V. Roe. Of these, Messrs. Gilmour, Lane and Roe have machines of their own invention. Messrs. Gilmour and Lane have both followed somewhat closely the Bleriot model, but Mr. Roe has launched out in an entirely independent line of flight, and has evolved a triplane which is squat and clumsy looking. It has never flown far, and I very much doubt if it ever will, though Mr. Roe's faith in it is unshaken.

This list is quite encouraging—to go on with. Every man in it has flown, and several of them very well indeed, though the majority have not got beyond the stage of the young bird just out of the nest. Meanwhile, women are nibbling at the entrancing bait, though everybody will agree that flying (in this world) is assuredly not the metier of the fragile fair. The first English woman to fly alone and unaided has been Miss Viola Spencer-Kavanagh, an Ipswich girl, who learnt on a Bleriot monoplane at Pau. She has expressed her desire to fly at some of the English flying meetings, but I have searched in vain for her name among the various lists of entries.

Perhaps she has thought better of it. I hope she has. When one looks back upon the death roll, and remembers that such brilliant air men as Delagrange, Le Bon, and Lefevre—to mention only three who have lost their lives in the unequal battle with the air—have been killed in this perilous business, it is quite clear that women should take no part in a profession that was never meant for them.

TEAMSTER KILLED.

Seattle, Wash., Sept. 14.—Falling under his own wagon when the reach broke on a steep hill, Leo Petzl, a teamster for Carlson & Somers, house movers, residing at 1104 Corwin place, was almost instantly killed by a wheel passing across his neck.

Petzl, with J. M. Carlson, one of his employers, was driving down a steep grade on Boston street, near Franklin avenue, with a heavy load of short timbers. When the reach broke, shaking off the load, Carlson jumped to safety, but Petzl was pushed down under the wheels. He was dragged several feet and one of the rear wheels almost severed his head.

MURDERED BY NEGRO.

Birmingham, Ala., Sept. 14.—Capt. John Terry, a well-known planter of Springville, was shot through the heart and instantly killed while walking over his plantation by Isaac Glover, a negro.

BRITAIN AND EGGS

Some of the best news we have seen for a long time, says the London Globe, is that last year the importation of eggs into this country diminished by sixty millions. Yet, in spite of this diminution, over two thousand million eggs come in from abroad in the same period, though there is not the smallest reason why the whole English egg supply should not be increased by "high moult" farmers. It only needs a little organization and common sense to capture not a part of their surplus.

Some important inventions have been discovered by Junata.

also. The organization is undoubtedly equal to if not better than made good. Miss Millie Worthington, as Nalda, the picture, is a very clever performer, and her singing was highly appreciated. Miss Alice Ward, as the old maid, gave a natural performance and created many laughs, especially in her work with E. C. Hunt, an eccentric comedian whose reputation here has been established at a former engagement. Gus Saville, as the colored servant, rendered some clever specialties, and as this comedian is an old favorite here little need be mentioned as to his ability.

The company, under the careful direction of Mr. Lewis, a leader of note in many big productions, deserve the patronage of theatre goers who appreciate good singing, music, comedy and a pretty chorus of well-costumed young ladies.

New Grand Theatre.

The success of the Walter Law Company at the Grand this week, where they are producing "At the Threshold," is due to two things. First, a strong dramatic play splendidly acted, and second, magnificent stage appointments. Mr. Law never travels without a full equipment and he certainly has the most completely produced act of the modern vaudeville stage on his present tour. La Belle Meeker, the physical-culture maid; Emma Don, the brightest of many impersonators; Tom Miller—Finisgan's Friend, and Will Lacey, a phenomenal cyclist, are billed, making an exceptionally strong bill. The regular song and pictures are in the programme as usual.

Majestic Theatre.

"When We Were in Our Teens," is the title of a biograph lesson in diplomacy, taught in a humorous way and proving beyond a reasonable doubt that the one that is not diplomatic speedily loses all his hopes in the happiness of his future possibilities. "Moxton's Faith," is a western love story, with thrills enough to hold any audience and keep them wondering what is coming next. The incident concerns the timely rescue of a rancher's daughter by a Mexican cowboy whom she had once befriended. "An Episode in the Life of Napoleon," is a splendidly portrayed romance of the Little Corporal. It is during the campaign in Italy when a peasant's house is occupied by some French troops. The officer in charge insults the unprotected wife, and the husband, who is concealed from view but witnesses the incident, springs out to the rescue. Both are condemned to be shot, but the little boy hurries to headquarters and implores Napoleon's intervention, which the Emperor promptly decides on. The finale is highly dramatic. "The Toy-maker's Secret" is a picture of surprising strength. "An Old Story With a New Ending" possesses all the elements that keep up continuity of interest and affords delightful entertainment, bright scenery, strong acting and a good story with perfect photography.

The Advance Man

"Going Some" To-night.

An unique and novel attraction will be "Going Some," which makes its first local appearance to-night at the Victoria theatre, bringing along a bevy of

The Advance Man

Howard Nugent, as "Still" Bill Stover in "Going Some," at the Victoria To-night.

pretty girls and a bunch of the cleverest purveyors of light comedy ever seen in this city. Lawrence and Sandusky have done wonders in the selection of the cast, and the scenic environment will be of the first order.

The story of the play is decidedly new, and the four acts fairly overflow with frolicsome fun and jollity. Cow punchers and college boys and girls figure in the plot. The trouble arises from the fact that the hero, one J. Wallingford Speed, head yeller of Yale, has led the feminine contingent to believe that he is the champion runner of the college, when as a matter of fact he never did anything more athletic than lead the cheering for the real participants in the sports. His predicament grows serious when he offers to run a race with the cook of a rival ranch in order to regain a cherished photograph and set of records, which were the pride and joy of the cow men of the flying Heart Ranch, upon which the house party is held.

The cowboys take the challenge seriously and insist that Speed begin training immediately, which he does under the tutelage of one Larry Glass, nerve specialist and athletic coach for the Yale eleven. The laughable situations come thick and fast, and the enjoyment of the audience grows with every second, until perfect gales of laughter greet every action upon the stage. The ending is unique and new, and the comedy fresh and effervescent, without an old joke or hackneyed saying from beginning to end.

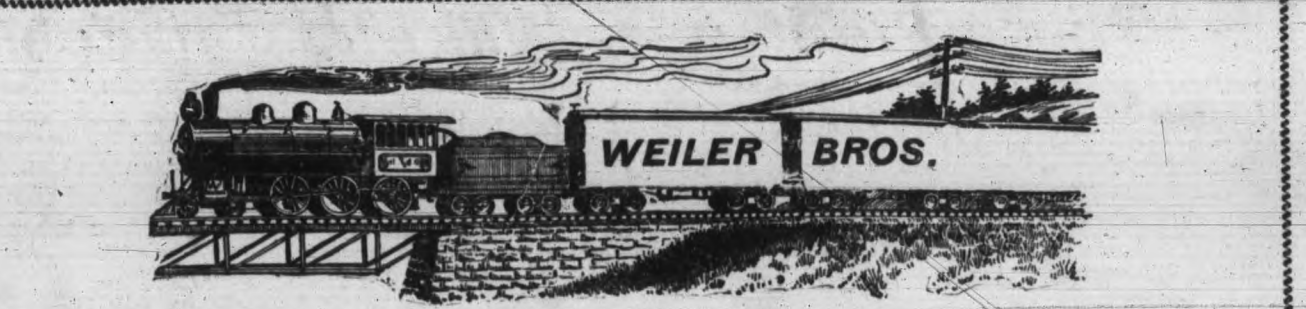

"Manxman" To-morrow.

"The Manxman," best of all the Hall Caine plays, will have a most noteworthy presentation in Victoria at the Victoria theatre to-morrow evening,

WHY?

do you send for the doctor when there is sickness in the house? Because he is the one who, through study and training, is best fitted to treat the illness successfully. That's his business. Our business is to compound scientifically the medicine your doctor orders. We are the best trained through education and experience to do his bidding. Bring your prescription to us for results.

FURNITURE!

What Have You In Your OFFICE?

A business man who wants to make success has always got a nicely furnished office. It appeals to a person immediately they open your office door. An office with a nice desk, etc., looks businesslike. We have just received two carloads of furniture. One of these cars brought us a beautiful assortment of office desks and chairs. We have fifty-six different samples on our fourth floor. We would recommend you to come and look at our display and see if there is not something on this floor that will improve your office and also be a saving of labor to you.

With one of our desks in your office you will never require to hunt for papers, etc., but will be able to put your hand on them at any moment. Give us a call. Come to-day.

tion of the cast, and the scenic environment will be of the first order.

The story of the play is decidedly new, and the four acts fairly overflow with frolicsome fun and jollity. Cow punchers and college boys and girls figure in the plot. The trouble arises from the fact that the hero, one J. Wallingford Speed, head yeller of Yale, has led the feminine contingent to believe that he is the champion runner of the college, when as a matter of fact he never did anything more athletic than lead the cheering for the real participants in the sports. His predicament grows serious when he offers to run a race with the cook of a rival ranch in order to regain a cherished photograph and set of records, which were the pride and joy of the cow men of the flying Heart Ranch, upon which the house party is held.

The cowboys take the challenge seriously and insist that Speed begin training immediately, which he does under the tutelage of one Larry Glass, nerve specialist and athletic coach for the Yale eleven. The laughable situations come thick and fast, and the enjoyment of the audience grows with every second, until perfect gales of laughter greet every action upon the stage. The ending is unique and new, and the comedy fresh and effervescent, without an old joke or hackneyed saying from beginning to end.

"Manxman" To-morrow.

"The Manxman," best of all the Hall Caine plays, will have a most noteworthy presentation in Victoria at the Victoria theatre to-morrow evening,

with a cast of excellence, headed by Frederic Clarke. A magnificent scenic production is carried by the organization, which is under the management of J. Cosgrove.

"A Stubbhorn Cinderella."

Theatre-goers will be gratified to learn that they are to have a return visit from "A Stubbhorn Cinderella." This Big Chicago production of the much-talked-about musical play will be seen at the Victoria theatre on Tuesday evening next. The music is tuneful, there are several catchy melodies, and the company is an exceptionally strong one all round.

Shackleton's Dash For Pole.

Including the wonderful sledge journey in which Lieut. Shackleton placed the flag given him by Queen Alexandra at the farthest south point ever reached, 97 miles from the pole, the pictures to be seen at the Crystal to-morrow and Friday should certainly be seen. These superb pictures also deal with the lighter themes of the journey; daily work, surrounding incidents and occurrence that the camera could be brought to bear upon. These pictures have been largely scanned by hundreds of thousands of people in all parts of the world. Every section of film and all the photos are absolutely genuine and authentic.

A big treat is in store for the local public when the Shackleton south pole expedition pictures are shown with a descriptive lecture on them by R. W. Hulbert at the Crystal theatre, Broad street, in Thursday and Friday.

SYLVESTER'S HENFOOD FOR POULTRY

Is the food of the day, contains everything that the laying hens require for the production of eggs. Thousands are using it; why not, you? \$2.25 per 100 lbs.
