VICTORIA, B. C., MONDAY, APRIL 7, 1913

NO. 81

POLICY OF PACIFIC NAVY MUST FALL TO TRINITY OF DOMINIONS

Premier Scadden Hopes Con-
summation of Plan Will Be
Not Long Delayed

WESTERN AUSTRALIAN PREMIER'S STATEMENT

Foster's Mission on Trade Out-
come of the Laurier Gov-
ernment Policy

CONTRIBUTION NEVER POPULAR IN AUSTRALIA

Vancouver, April 7.—Premier Scadden, who spent Saturday in the city, did not hesitate to emphasize the determination of all Australia to stand by its naval policy, no matter what the other self-governing nations of the British Empire might do. While naturally guarded in his expressions he did not disguise that in his opinion, and that of all the representative public men of the Commonwealth, the right naval policy for the outlying portions of the Empire was primarily one of self-defence.

Mr. Scadden, while diplomatic in his utterances did not conceal his belief that the policy of the Pacific would eventually fall to Canada, Australia and New Zealand, nor hide his hope that such a consummation may not long be delayed.

"I do not care to discuss the naval question as it affects Canada, nor the memorandum of the admiralty and of Mr. Winston Churchill, for the reason that if I did, I might be accused of meddling in your politics, a thing which I have no desire to do. But, so far as our own country is concerned, you can say that the whole commonwealth of Australia is united in support of the policy of a local fleet working in co-operation with the British admiralty, but still Australian in its inception, in its organization and in all its workings."

"We are following out the agreement reached with the British government at the defence conference of five years ago, a policy which was confirmed by the imperial conference of 1911, with the single exception of New Zealand, and which we confidently expected that Canada would have followed, as we have done."

"It is a matter of regret to us," he continued, "that there is a tendency now to alter that policy, but you can take it from me that Australia will never consent to any alteration of the policy upon which she has embarked. We have our Australian navy; and we are proud of it, as proud as Britain is of the British navy; and we have no difficulty in securing all the men we require."

"It is true, we have compulsory service, and in that regard we differ from you, but we do not find that that system has any evil effects; indeed it is now the national policy of all parties, and the young men of Australia take a pride in serving the commonwealth on both land and sea. All our positions of command are open to the bluejacket, and any lad who shows his aptitude for the service is sure of promotion."

Speaking on other subjects, the distinguished visitor was more outspoken. He is a supporter of the policy of inter-imperial trade preferences and believes that the result of the deliberations of the empire trade commission, now in conference in Australia, will be of practical benefit to the empire.

He accepts the careful consideration of the report of that commission by both political parties in Canada as a matter of course, because, although the present representative of Canada on the naval commission is Hon. G. E. Foster, the commission itself was created as the result of the suggestion of Sir Wilfrid Laurier at the imperial conference of two years ago.

Asked if he thought Canada could do what Australia has done in naval

HON. JOHN SCADDEN

Premier of Western Australia, who speaks in regard to naval protection of the Dominion.

matters, Mr. Scadden replied: That is a question which I would like to answer, but it would not be advisable to do so, because if I did I might be told that I was interfering in your politics, but I can say that the policy of concentration in the North Sea or the contributions of money will never receive popular acceptance by the people of Australia."

The Asiatic exclusion policy of Australia was also dwelt upon by Mr. Scadden, who pointed out that it was working satisfactorily and without giving offence to either Japan or China, by reason of the system of educational tests, which proved effective in keeping out the laboring classes of those countries. Woman suffrage is working well in the Commonwealth, in all the states. The women take an active interest in politics, a large percentage of them exercising their privilege of voting, and their influence is always good, especially along the lines of domestic and social reform.

Premier Scadden spent a busy day on Saturday. From the time he arrived at the station in the morning until he left at night for Seattle en route to San Francisco he had not an idle moment. He was met by Mayor Baxter and Aldermen Woodside, Crowe, Hepburn, Trimble, McSpadden, Black, Cameron and Kirkpatrick, while a representative contingent of the High School cadets who met the premier upon their visit to West Australia, were present under command of Captain R. N. Davy and gave their "yell" of welcome, which made the visitor feel quite at home.

The party drove to the Hotel Vancouver where Mr. Scadden met many people prior to attending a luncheon given by the Commercial Club. The afternoon was devoted to an automobile ride through Stanley park around the city, and the evening was taken up by a banquet at the Progress Club rooms, which was presided over by Mayor Baxter and attended by fifty of the cadets, who made up in enthusiasm for the hospitality extended to them by the premier when they visited this state.

Captain Davy, on behalf of the cadets, expressed their thanks to Mr. Scadden for his hospitality and presented him with a black bearskin robe as a souvenir of the gratitude of British Columbia, for his treatment of its boys while they were under the Southern Cross.

"I want to say," said Mr. Scadden, in reply, "that the Vancouver cadets behaved as Britishers all the time they were in Australia. There was never the slightest complaint heard about their conduct. This reflects great credit on their training and on their officers. I hope their parents will see that the corps is not disbanded. There is strength in combination for nations as well as boys. I hope the cadets' example will be followed by other Canadians and that a body of Australian cadets will be sent here at an early date."

WINNIPEG FREE PRESS IS IN NEW BUILDING

Winnipeg, Man., April 7.—The Free Press to-day issued from the new half-million dollar building, located on Carlton street, north of Portage avenue, which is understood to be the most modern newspaper office in America. Over a year had been spent before construction was started in securing all the latest ideas in newspaper buildings, and the management feel that they have to-day an institution which will compare with any newspaper office in America.

MILITANTS WANT NEW MARRIAGE SERVICE

Fifteen Moral Humiliations
Mentioned in Manifesto Being
Distributed in England

WOULD OMIT WORDS "OBEY, SERVE, GIVE"

"With All My Worldly Goods,"
Has Never Been True,
They Claim

GOVERNMENT URGED TO DROP RING CEREMONY

London, April 7.—A campaign against the indignities to woman, contained in the Anglican marriage service, is the latest effort of the Suffragettes' Spiritual Militancy League. Fifteen such moral humiliations are mentioned in the manifesto which the league is sending not only to every clergyman of every church in England, but to all persons whose forthcoming marriage is announced in the daily papers. The first two indignities alleged are the words "obey him and serve him," which the bride is required to repeat, and the question put by the minister, "Who giveth this woman to be married to this man?"

One of the remedies suggested for both is the omission of the words. The alternative is that the bridegroom be required to promise to "obey her and serve her," and that the minister also ask "Who giveth this man to be married to this woman?"

Three indignities surround the marriage ring and the bridegroom's accompanying declaration. The words "With all my worldly goods I thee endow," have never been true, says the manifesto. The government is urged to drop the ring ceremony and its formula, or to enforce an exchange of rings and the use of a formula containing "no economic falsehoods or moral offence."

Humiliation No. 7 is the minister's pronouncement that they shall be man and wife together. The implication complained of is that the woman is wholly a wife and the man not wholly a husband.

Protesting that the first of the Psalms addresses itself wholly to the bridegroom, the league demands its omission or that it be supplemented by another addressed to the wife. The petition that the man shall love his wife as Christ does the church, is an "appalling humiliation of woman and a pernicious exaltation of man."

The thirteenth indignity is quoted, St. Paul's words: "Wives submit yourselves unto your husbands as unto the Lord, for the husband is the head of the wife, even as Christ is the head of the church."

The league strenuously opposes the idea of the husband being the head of the wife and suggests: "Husbands also submit yourselves unto your wives," as a supplement to this second exhortation to the wife.

VANCOUVER LIBERAL CAMPAIGN SUCCEEDS

Twenty-Five Hundred Names
Registered During Saturday
by Party Workers

Vancouver, April 7.—The Liberal campaign of Saturday was a great success despite the unfavorable weather. Tables were placed at various points of vantage throughout the city with the result that some 2,500 names were registered with more to come in. Full reports have not yet been received of the day's work, but the results so far known are most gratifying to the Liberal organizers, and indicate an interest on the part of the public, and especially of the younger men, which is most satisfactory.

The declaration of confidence in the Liberal naval policy received thousands of signatures during the day, practically every Liberal voter signing it immediately after his registration.

A meeting of the Liberal executive will be held this evening when important attendance of all members of the executive is requested. W. W. Baer, the Liberal organizer, who returned from Victoria on Saturday, left for Nelson yesterday, where he will continue the good work done in Victoria and Nanaimo constituencies.

DIED YESTERDAY

Berlin, April 7.—The bearer of the most remarkable name in the German aristocracy died yesterday. He was Herr Pfoerntner von Der Hoelle, "the doorkeeper of hell." He had an official post in Silesia.

FOUR ARE RESCUED FROM BARQUE MIMI

Garibaldi Lifesaving Crew
Made Heroic Run in Power
Boat To-day

CHEERS GREET ACT OF RESCUE TO-DAY

Thirteen Were Drowned When
the Boat Capsized; Men Bel-
lieved to Be in Hold

SURVIVORS ARE IN PITIFUL CONDITION

Bay City, Ore., April 7.—Only four men of the twenty-two who were on board the German barque Mimi when she capsized early Sunday morning have been rescued, and the probabilities are that all the rest are dead, either by drowning or from suffocation in the hold of the capsized vessel. The Garibaldi life-saving crew made a heroic run to the Mimi in a powerboat this morning and succeeded in taking from the rigging Capt. J. Westphal, of the Mimi; Capt. Charles S. Fisher, president of the Fisher Engineering Company, and F. Ludwig and T. Kirschner, sailors. They had lashed themselves to the rigging and had withstood the terrible exposure to which they had been exposed for over twenty-four hours. The cabin boy of the Mimi and a sailor had perished in their lashings.

The rescue was accomplished amid great excitement, hundreds of persons on shore witnessing the departure of the life-saving crew, their approach to the vessel and the removal from the wreck of the four men. As each man was taken aboard the lifeboat, tremendous cheers went up from the crowds. Finally the last of the sailors were taken aboard the powerboat, and she was headed for shore. The short journey to the beach was made to the accompaniment of a noisy demonstration from the watchers, and the lifeboats were manœuvred so that persons rushed forward to assist in lifting the benumbed survivors onto the beach. The men were in a pitiful condition. They had been without food since early Saturday night, and during the greater portion of the intervening time had been drenched to the skin by mountainous seas which beat over the Mimi, keeping them constantly wet. At times the waves were 20 feet high, and each successive onslaught sent volumes of spray over the little group of men who had lashed themselves to the rigging.

As soon as the survivors reached shore they were taken to a place of shelter, given hot drinks and food and a change of clothing. All of the rescued are in bad shape, but it is believed all will survive the thrilling experience through which they have passed.

Not a body has come ashore. There is no trace of any of the others who were on board. One of the rescued men made an incoherent statement which is believed to indicate that there are several men, possibly dead, in the hold of the vessel, but owing to the weakened condition of the rescued men and the refusal of physicians to permit shore they were taken to a place of better shape, it will not be possible to learn what were the conditions on board the Mimi after she struck.

On Saturday the vessel had been dragged to within a hundred feet of deep water, and all that remained, apparently, to fit her once more for service was the midnight high tide, worked in well. Gradually she was pulled to the beach, and in spite of the heavy sea which was running, and then the order was given to cut her loose. It was a fatal mistake. Hardly had she been released from the shore ropes when she swung boardside against the wind and in a moment toppled over on her side, her masts pointing shoreward. Driven by the wind and sea, the Mimi pounded a bed for herself and lay immovable. That something had gone wrong was evident to those on shore. Owing to the darkness it was impossible to see what had happened, but dawn showed her position and word was sent to the life-saving station at Garibaldi. A special train brought the life-savers and their apparatus, and braving the heavy seas the crew put out to the rescue. Several attempts to reach the vessel were made, but were useless, and fagged and worn with the exertions of the day the crew beached their boat last evening and announced their intention to give up the task for the night. Volunteers offered to go out, but the commander of the life crew refused to permit the attempt, which he said would only result in disaster.

Numerous but unsuccessful attempts were made to shoot a line over the vessel from shore. During a lull in the storm late in the evening the life-savers launched their boat for another attempt, but like those which preceded it, it ended in failure, and they returned to get what rest they could before the arduous duties which confronted them to-day.

Later it was learned that thirteen of those who were on board the Mimi were drowned when she capsized, being

NAVAL BILL TO BE FOUGHT TO FINISH STRENUOUS OPPOSITION TO CLOSURE

New Phase of Government Measure Raised by Winston
Churchill's Announcement Will Give Rise for Further
Discussion in House of Commons

Ottawa, April 7.—The political barometer this morning would seem to point to a fight to a finish on the naval bill. While it is not absolutely certain, the bill is almost certain to come up again this afternoon.

Should the government be able to get an assurance that the West Indies trade agreement would be given a third reading after a short discussion, which is quite likely, it will be brought down, but if substantial assurance cannot be obtained, the fight on the naval bill will be resumed.

In view of the developments which have taken place since the close of the two weeks' session, more particularly the announcement by the first lord of the admiralty as to the disposition which is to be made of the Canadian ships, it is likely that the government will agree with the opposition that some time should be allowed for discussion of the new phase of the question.

In ministerial circles, however, it was said that if the opposition persisted in opposing the bill, drastic measures to force it through the House will be introduced. The Liberals say that they will be quite prepared for any eventualities and that closure will be fought quite as strenuously as the navy bill itself. The indications are, therefore, that there is likely to be a discussion of the bill with unusual hours of sitting.

LAZARD BROTHERS IN C. N. R. COMPANY

Expected That Sir William
Mackenzie Will Dispose of
Many Enterprises

MONEY REQUIRED FOR TRANSCONTINENTAL

Montreal, April 7.—There is a rumor here to the effect that Sir William Mackenzie is about to bring about a very important deal in connection with the financial reorganization of the Canadian Northern Railway Company, and when it is consummated the great house of Lazard Brothers & Company will be a partner with Sir William Mackenzie and Sir Donald Mann, in their trans-continental enterprise.

It is also expected that Sir William's enterprises in South America, Mexico, Winnipeg and Toronto will all be taken into the enlarged concern or that they will be sold to provide capital for the C. N. R. undertaking. It is generally held that Mackenzie & Mann will be unable, for a greater length of time, to keep an undivided hold on the common stock of the company, and that what is now considered a going concern.

washed from the vessel. One sailor is believed to be in the hold of the vessel, probably dead.

While the Garibaldi life crew were rescuing those on the Mimi the life crew from the Point Adams station, Astoria, arrived on the scene, but could not get into action and did not participate in the immediate work at hand. The Point Adams crew came from Astoria on the tugboat Ononita. That the lives of the three mates of the Mimi were not added to the death toll was due to their own foresight and caution. Several weeks ago they made the statement that if the Mimi was got into deep water in her unballasted condition while a heavy wind was blowing, that she would turn over. Shortly after she struck high water early Sunday morning, the three men, with Fisher, Fred Goldman and T. Hagen, left the vessel, going ashore on the cable which held the Mimi from the shore end. This cable later was ordered cut and released the shore hold, the vessel swung broadside to the wind and shortly afterward turned over in her side.

Among those supposed to be on the wrecked vessel are the following: Captain Albert Crowe, Portland, president of the Fisher Corporation of Portland; Russell T. Blackman, secretary of the Fisher Engineering Corporation, Portland, resident of Germany; W. E. Koen, Portland, contracting plumber; Captain J. A. Wood, mate of the Mimi, resident of Germany; O. E. Ester, Brighton, Ore.; C. W. Sibb, North Plains, Ore.; Jack Fitzpatrick, Brighton, Ore.; J. E. Holyfield, superintendent of the Brighton mill, Brighton, Ore.

Willie Kuschnon, cousin of the rescued sailor, T. Kuschnon, and cabin boy on the Mimi, died from exposure about an hour before the life-saving crew reached the vessel. An unknown sailor also died of exposure.

The known dead include Capt. Albert Crowe, of Portland, supervisor for Lloyds; Russell Blackman, secretary of the Fisher Engineering Company; O. S. Estes, of Brighton, Ore., employed by the engineering company; C. W. Sibb, of North Plains, Ore., employed by the engineering company; Jack Fitzpatrick, Brighton, Ore., fireman on the donkey engine used on the deck of the Mimi to help get her off the beach; Willie Kuschnon, cabin boy; an unknown sailor died from exposure, and several sailors of the Mimi.

The barque Mimi lies in deep water, 200 feet from the point where she rested on the spit for nearly two months. She went over broadside to the shore and the masts are extending to the shore nearer the shore. At low water several feet of the hull are exposed above the water, but at high tide the breakers at times dash over the wreck to a height of thirty feet.

ASKS IF MORGAN WENT TO HEAVEN

Finds Men More Interested in
State of Financier's Soul
Than His Estate

NEVER ANOTHER JUST LIKE HIM, SAYS PASTOR

Philadelphia, Pa., April 7.—Rev. Dr. George Chalmers Richmond at St. John's Episcopal church last night said: "Has J. P. Morgan gone to heaven? If not, why not? I find men now more interested in J. P. Morgan's present state of soul than in the money he left or the cash he was able to manipulate. Mr. Morgan was a great master of finance, but not a great believer in the mass of men or in their feelings."

"The country will get on much better without him. Some men in Wall street have made a god of Morgan for years. Now let them read the gospel of Jesus and see how far short of God did Mr. Morgan really appear to be."

"If it caused his death to testify before the Pujo investigating committee, then I hope more of his type will be called to testify. Mr. Morgan was a great financier, but not a great man. We shall never see a man just like him in our American life, and we ought to be glad of it. His death was providential in many ways."

RIDICULE FOR NEW PARISIAN COSTUME

Marcelle Prince Driven From
Longchamps Enclosure by
Laughter of People

Paris, April 7.—Rain spoiled much expected pleasure at the opening of Longchamps racing season yesterday, but the great crowd in attendance was treated to at least one sensation.

It is the custom for women to display the latest word in dresses on this occasion. A Parisian actress of note, Marcelle Prince, was driven out of the enclosure through sheer ridicule of her costume. It consisted of pale blue silk with bright yellow edging. The corsage was ornamented with embroidered forget-me-nots and bouquets of lilies of the valley.

The skirt had vividly yellow ribbons on one side, and on the other a large knot covered with embroidered forget-me-nots. The body of the skirt was light and there was a tiny slit at the bottom. She wore heel-less shoes of the same color as the skirt.

There were real lilies of the valley in bows on her cloak, which was of black silk, in the style of those worn by men in evening dress. Her hat, which was in the form of a turban, was tied at the chin with ribbons, and was also adorned with lilies of the valley and forget-me-nots.

PRESIDENT WILSON WILL READ MESSAGE

Washington, D. C., April 7.—President Wilson's determination to read his message to congress to-morrow has completely displaced the tariff and the income tax as subjects of chief popular interest. No president since John Adams has availed himself of the right. Congress was amazed when it heard of the president's plan. Some account of that loss has figured that the measure still would have enough votes to pass.

The senators went away with the impression that while the president was still open to conviction he was inclined somewhat to the single tariff bill. The entire question must be decided, however, before the Democratic caucus meets to-morrow.

Representative A. Mitchell Palmer, of Pennsylvania, chairman of the caucus, sought the president's opinion as to whether the caucus to-morrow should be open.

"I have always been in favor of the caucus," said the president.

UNITED STATES WILL EXPAND ITS TRADE

Encouragement for Reciprocity
Treaties Embodied in New
Tariff Bill

WIDER MARKETS FOR AMERICAN EXPORTS

Concession Offered for Amer-
ican Shipping on Imported
Goods American Owned

STAND AND DELIVER POLICY CONDEMNED

Washington, D. C., April 7.—The sixty-third congress, the first in many years with the followers of Thomas Jefferson in a majority, began business at noon.

As Speaker Clark dropped his gavel, Majority Leader Underwood dropped the tariff revision bill into the hopper and thereby officially started a business that promises to keep congress at work through Washington "dog days" and well into August.

While the legislators were finding their new seats a procession of woman suffragists representing every congressional district in the United States, invaded the capitol and presented petitions demanding a constitutional amendment for equal suffrage.

Washington, D. C., April 7.—An attempt to widen the foreign market for American goods and to encourage reciprocity treaties with all foreign nations is embodied in the new tariff bill, in a clause empowering the president to grant favors to any nation that gives mutual concessions to the United States. The reciprocity clause takes the place of the penalty clause of the present tariff law. The clause, designed to open wider the markets for American exports throughout the world is as follows:

"That for the purpose of readjusting the present duties on imports into the United States and at the same time to encourage the export trade of this country, the president of the United States is empowered to negotiate treaty agreements with foreign nations wherein mutual concessions are made looking toward freer trade relations and further reciprocal expansions of trade and commerce."

Such reciprocity agreements, under the new law, would have to be approved by congress before becoming effective. In a statement accompanying the bill, Chairman Underwood declared that under the Payne law the United States had attempted to expand commerce by force.

"We went to the nations of the world with the demand that they stand and deliver or we would punish them," he said. "Many years ago this system of expanding trade and commerce was abandoned by the enlightened nations. The only true course that can be pursued to expand our foreign trade along rational lines is through mutual concessions that may prove beneficial to both of the contracting parties, free from coercion."

Another concession that would be made in the new bill is designed to encourage American shipping. A concession of five per cent would be made in all tariff rates on goods brought to this country in American-built ships, owned wholly by American citizens.

Restrictions on Philippine imports practically are removed by the new bill, and important changes in the method of enforcing customs laws are provided, following out the recommendations made after recent investigations of the customs service.

President Wilson said to-day he was "on the fence" as to whether the tariff should be revised by schedule or in a single bill. Senators Simmons, Shively, Hughes, James, Stone, Williams and Gore, Democratic members of the senate finance committee, argued unanimously with the president for a schedule by schedule revision, but at its conclusion the president said he would still further consider the matter before reaching a decision.

The president had fairly made up his mind that the single bill idea was the more effective, and believes that such a measure could pass. He told the senators that he did not think any senators voting against the bill, would venture to bear the burden of responsibility for defeating the party programme. It was suggested that the Louisiana senators would oppose the bill, but the president, it is said, took account of that loss, but figured that the measure still would have enough votes to pass.

The senators went away with the impression that while the president was still open to conviction he was inclined somewhat to the single tariff bill. The entire question must be decided, however, before the Democratic caucus meets to-morrow.

Representative A. Mitchell Palmer, of Pennsylvania, chairman of the caucus, sought the president's opinion as to whether the caucus to-morrow should be open.

"I have always been in favor of the caucus," said the president.

What's Behind That Chronic Catarrh?

MILITARY BILL IN GERMAN REICHSTAG

Imperial Chancellor To-day Will Elucidate Measure Calling for Army Expenditure

DEBATE MAY LAST UNTIL THE SUMMER

Berlin, April 7.—With the submission to the Reichstag to-day of the government's armament and taxation measures, a contest will begin which is almost certain to last until the summer vacation, and possibly will not be ended before fall. The imperial chancellor, Dr. von Bethmann-Hollweg, will explain the political situation and the minister of war, General von Heeringen, will elucidate the technical features of the measure.

There is no question that the army increases will be accepted practically without alteration, but there is widespread disagreement and dissatisfaction over the financing of the proposals. The new army bill calls for the expenditure of about \$250,000,000, and the financial measures include a non-recurrent tax of from \$243,750,000 to \$250,000,000, spread over two years, and a permanent yearly increase in taxation of from \$45,000,000 to \$47,500,000.

Herr Bassermann, the National Liberal leader, in a speech recently at Hanover, said that the National Liberals had accepted the armament increase, but that the tax measures were unjust and would require the most thorough revision.

This also is the view of other non-government parties.

AUSTRALIAN FORECASTS BATTLES TO BE FOUGHT ON THE PACIFIC

Balance of World Shifting and Opening of Panama Canal Distributing Its Equilibrium; Hon. Andrew Fisher Does Not Believe in Spasmodic Contributions

Melbourne, April 6.—During the course of a banquet given to-night to the officers of the dreadnought New Zealand, now in this port, the governor-general of Australia, Lord Denman, made a splendid speech on the naval policy. "The belief that Australia intends to use her warships only in the Pacific is entirely erroneous," he said, "and judging from the utterances of the public men of Australia this will not be the case. Should there arise any serious crisis our ships will co-operate with the mother country wherever and whenever the danger is formidable."

The attorney-general, Hon. William Hughes, declared that preparations for war were necessary, although it was a tragic reflection on civilization when Christian nations were preparing to destroy each other. Nevertheless, he continued, the position was not Australia's making, and she would be doubly stupid if she did not realize her position by failing to make all preparations for trouble.

In the past much reliance had been placed on the brotherhood of man, but that was now as valuable as silk might be on an umbrella trying to stop a rain.

Continuing, Hon. Mr. Hughes declared that the active part that Australia, New Zealand and Canada were taking in naval affairs of the British Empire was causing the rest of the world to wonder and to take note. "Australians, Canadians and New Zealanders must absolutely participate in the peopling of the Pacific," said the attorney-general. "The balance of the world is shifting, and the opening of the Panama canal is distributing its equilibrium."

"I venture to forecast that probably all the battles of the British Empire will be fought in the Pacific. Even such a field as that is not beyond the potentialities of Canada, New Zealand and Australia."

Hon. Frank Tudor, minister of trade and commerce, made a graceful tribute to the work of the Canadian commissioner for Australia, Mr. Ross, when he attributed the promotion and encouragement of reciprocity between Australia and the sister dominion to his efforts. Mr. Ross, he declared, was a worthy representative of a worthy dominion.

Mr. Fisher, New Zealand minister of customs, said that he had come to Australia to ask the federal government to form a trade union with New Zealand and Canada. He fervently hoped that reciprocity would be brought about by the three representatives of the three great outposts of the British Empire.

He was convinced that the country he represented was going to be a nation within a nation, striving always to do its duty as far as defence was concerned, and yet willing at all times to co-operate with the other dominions. He commended the spirit which had prompted the prime minister of Australia, Hon. Andrew Fisher, to say, "The dominions of the Southern hemisphere might be tested to the last man and to the last gun and to the last farthing."

Continuing, Mr. Fisher said that he did not believe that the spasmodic contribution to the British navy would be desirable. All dominion help should be permanent and substantial.

DATE IS NAMED FOR FIRST RUPERT TRAIN

Morley Donaldson Announces G. T. P. Will Operate to Coast September 14, 1914

NO MORE GRADING CONTRACTS THIS YEAR

Winnipeg, April 7.—The first Grand Trunk Pacific train from Winnipeg to Prince Rupert will leave this city September 14, 1914, said Morley Donaldson, vice-president and general manager of the road to-day. The Grand Trunk Pacific will augment its tracks by laying 295 miles of steel, according to a statement made by Mr. Donaldson Saturday. This steel will be laid on the main line from the eastern end of the steel-162 miles into Prince George. Two bridges are to be built across the Fraser river, which Mr. Donaldson expects to be ready for the steel by the time it reaches there. On the main line from Prince Rupert, steel is already at Boulder Gulch past Hazelton, and a viaduct steel bridge now in course of erection over the gulch will be completed by April 25. Work will proceed steadily through to Burns Lake, a distance of 115 miles at a steady rate of 1-2 miles a day. The Regina branch will be tied with the Great Northern early in the summer, with fifty-six miles of steel yet to be laid. The Moose Jaw northwesterly branch will be continued forty miles to the end of grade. The Battleford branch will be ready to turn over to the operating department by July 1. Construction will be started immediately on the work of the Bow river bridge. Mr. Donaldson announces officially that there are 324 miles between the eastern and western ends of steel. Of this distance he expects to build 202 miles this summer and to leave 222 miles to be built up next summer. The vice-president also expects the two ends of steel tied up by September 1, 1914. The first train will leave Winnipeg for the coast fourteen days later. However, he announces that there is much ballasting to be done before he can announce the inauguration of a summer schedule. No contracts for grading will be let this year.

DOMINION FINANCE SHOWS AN INCREASE

Revenue for Fiscal Year Ending March 31 Shows Revenue of \$165,528,137

Ottawa, April 7.—The financial statement of the fiscal year which closed on March 31, issued by the department of finance on Saturday, shows a total revenue of \$165,528,137, as compared with \$132,745,396 during the previous year.

The total expenditure accounted for up to March 31 was \$95,630,031, as against \$83,650,553 in the previous twelve months, while the expenditure chargeable to capital account totalled \$28,758,456, as against \$28,290,985. Of the capital expenditure no less than \$23,822,948 was chargeable to public works, including railways.

PERUVIAN CONSUL IS FOUND DEAD IN ROOM

Dies in House of Friend Who Finds Gas Turned on Full Strength

Vancouver, April 7.—Robert Jackson, the Peruvian consul at Vancouver, a historian of considerable note, and an expert on South American politics, was discovered dead last night at 1748 Davie street, the apartments of F. M. Hack, a close friend, with whom he had spent the previous night. Gas, which was rushing from an open cock in a heater nearby, filled the bedroom and was pronounced by a doctor to be the cause of death.

Mr. Jackson, who leaves a wife and several children and who resided in the hotel-Edford, on Robson street, was preparing to leave Vancouver with his family on April 24, to occupy a government position in Peru. He is the holder of numerous decorations which were bestowed on him by Chile, Peru and other South American governments which he had served in various executive capacities.

On Saturday night Mr. Jackson accompanied Mr. Hack, who is a well-known realty broker, to his apartment on Davie street. As both were ardent students of history, there were several points which they desired to settle by reference to the latter's library. As the hour was late when their discussion was completed, Mr. Jackson decided to spend the night with his friend instead of returning to the hotel.

Yesterday morning, however, he was apparently ill, complaining of severe pains and was seemingly despondent. He remained in bed the entire day and was left by Mr. Hack only at 4 o'clock in the afternoon. Returning at 8 o'clock Mr. Hack was greeted by a strong odor of gas and a hurried investigation led him to the door of the bedroom occupied by his friend.

The window and door, both open when Mr. Hack left, were tightly closed on his return. The cock on the gas heater was full on, and allowed a tremendous amount of gas to escape. The bed was in perfect order, showing no signs of a struggle, or an attempt to escape the deadly fumes.

VANCOUVER DRILL HALL.

Ottawa, April 7.—The government has arranged for the purchase of a site for a drill hall on Commercial drive, Grand View, Vancouver, B. C.

The total cost will be approximately \$200,000.

MAKE A WILL

There are many reasons why everyone who owns property should make a will. Where no will is left, the law does its best to divide property equitably; but it makes the same provisions for all intestate estates, and there are no two persons whose circumstances are the same. Here in British Columbia, the married man who leaves no will generally leaves his widow dependent.

If you would protect those dependent on you, MAKE A WILL.

Let us assist you in this important duty.

Grand Pianos

The Tone Is a New Delight

The really beautiful thing about a piano—if it is a good piano—is the tone. If the tone lacks depth, purity and solidity, the soul of the instrument is absent.

The aim in building the HEINTZMAN & CO. GRAND PIANO, from the moment it is begun, is tonal quality. A large percentage of the sum you pay is represented by this tonal quality. It costs heavily to put it there, but it is the foundation stone of all HEINTZMAN & CO. pianos, especially the GRAND, of which we are making a very special exhibition at the present time.

The merit of the HEINTZMAN & CO. GRAND Piano is so definite and of so much importance that any intending purchaser who desires CANADA'S BEST PIANO will be repaid by inspecting and carefully comparing with any and all other makes. The reason for the preference by the majority of the great artists who visit Canada will be quickly appreciated, and your decision will be likewise.

The Price of a HEINTZMAN & CO. Superb GRAND Is \$1,000.00

CARRANZA ASKS FOR AMERICAN SYMPATHY

Mexican General Continuing the Madero Campaign Signs an Appeal

REMAINS FAITHFUL TO OLD GOVERNMENT

San Antonio, Tex., April 7.—In a statement addressed to the American people, made public here to-day, Venustiano Carranza, governor of the Mexican state of Coahuila and leader of the so-called Constitutionalists, defending their position, says: "I desire that the American people shall form their own judgment of the justice of the attitude of the government of these states and of a large part of the people of several others. After thirty-five years of the dictatorship of General Porfirio Diaz, the Mexican people broke the power of General Diaz and elevated to the presidency Francisco I. Madero, chief of the democratic effort against the Porfirio Diaz dictatorship.

"The elements of the old government, not conforming to the new regime, attempted three times, by means of revolutions, to destroy the power of Senor Madero; but the nation was with him and all the force of his enemies was futile.

The disappointed elements, in their impotence, began to gather an army and succeeded in gaining part of the garrison of the City of Mexico, which rose against the legally-constituted government. The president confided the command of his forces to General Victoriano Huerta. General Huerta united himself with the revolutionary troops and Felix Diaz, nephew of the dictator, taking prisoner the president, the vice-president and the cabinet.

"Such proceedings brought as a consequence, repudiation on the part of the so-called government of General Huerta, and from this repudiation originated the armed conflict which is destroying the nation anew, but which has no other solution than that of force of arms; but we believe right should triumph over force and we will not consent to the restoration of a dictatorship which will be a thousand times worse than the last.

"I declare the above and I ask the American people and the governors of their states, if such acts had occurred in Washington as occurred in the City of Mexico, if a chief in the army had overpowered the president and vice-president and assassinated them, if by force of arms he had assumed the chief magistracy of the nation, would they follow other lines of conduct than the governors of Coahuila and Sonora have followed? I do not believe so. The usurping president had not been in power twenty-four hours before he took this step.

"I hope that the American people will find justification in the foregoing for the present effort against the so-called government of General Huerta and that they will exonerate us of the injuries which may be occasioned to their interests against our will, in the contention in which we are involved." The statement was sent from Piedras Negras to San Antonio to-day.

COMES TO ESTABLISH PROVINCIAL SURVEYS

Will Establish Latitude and Longitude in Northern British Columbia

Vancouver, April 7.—At the request of the provincial government, F. A. Macdormid, of the chief astronomer's branch of the interior department, Ottawa, will shortly undertake the work of establishing the latitude and longitude of various points in Northern British Columbia. His observations will precede the establishment of monuments in connection with surveys of provincial lands.

Mr. Macdormid is here from Ottawa accompanied by his assistant, Allan B. Beedoe and his telegraph operator, A. J. Tennant. The party will begin their operations at Morristown on the Skeena river, and hope to extend them north as far as the Ground Hog basin coalfields before next fall. The work will be done on clear nights as it involves precise astronomical observations. It will be carried on in conjunction with A. H. Swinburn, another astronomer who will be stationed at Field in the Canadian Rockies. The surveys, or determinations in Northern British Columbia will, in technical parlance, be tied onto the base line at Field, whose location has been already established by similar observations carried on between Field and McGill University, Montreal. The checking up of the simultaneous observations at both points, as was done originally from McGill, will be carried on by telegraph over the Yukon telegraph line. The method in vogue is to take observations of a particular star and from the data gathered the latitude and longitude is determined. To carry on the work successfully telegraph operators at both ends will transmit or receive the observations of the two astronomers, separated as they will be by thousands of miles.

Mr. Macdormid was engaged on similar work last season in the Cariboo district, having determined and planted monuments at 52, 53 and 54 latitude north.

EXPERT CORSETIERE'S DEMONSTRATION

American Lady
CORSETS

Angus Campbell and Company, Ltd., wish to announce that

Miss Rosenthal of New York

Will be in attendance at their Corset Department all this week to demonstrate the very newest models in "American Lady" Corsets, including the celebrated high-grade "Madame Lyra" Corset. This season, as, in fact, every season, "Madame Lyra" Corsets reflect the very highest efficiency in corsetry. "Madame Lyra" Corsets are so French in every detail as to be practically a French corset, but specially designed for the American figure: Nothing is spared in making this exquisitely fitting corset the very "perfection" in corsetry. WE EXTEND A CORDIAL INVITATION TO EVERY LADY to visit Miss Rosenthal during this week and have her prove the many advantages and points of high excellence in these Corsets. The perfectly NATURAL FORM is the essential feature of the correct figure of to-day, and in the "American Lady" Corsets the requirements of this desirable "natural form" combined with ease and grace, is open to every woman. Make a note to call on Miss Rosenthal and have her FIT YOU TO THE CORSET THAT FITS.

We have models to suit every figure, both slender, medium or stout, and the "Lyra" Corset is so scientifically built that even the stout figure can be given with safety and ease that graceful poise in her carriage she has so much yearned for. "American Lady" Corsets are priced at \$1.50 up to \$4.50 a pair, while the "Madame Lyra" Corset comes in the higher-grade qualities and priced \$4.50, \$6.00, \$7.50, \$10.00 up to \$15.00.

FLOODS THREATENED DIVIDEND DISASTER

Damage Summed Up by Elisha Lee at Conference on Engineers' Demands

New York, April 7.—The entire railway system of Ohio and Indiana was practically put out of business for five days by the floods in the Middle West. To repair and replace the railway affected by this disaster, will practically wipe out the surplus earnings of many railroads. In many cases dividends will be threatened. The reason is, of course, that all such damage must be retried out of current earnings and cannot be charged to capital.

This position of some of the eastern railroads was set forth to-day by Elisha Lee, chairman of the conference committee of managers, in summing up before the arbitration board that is settling under the Erdman act the demands of 34,000 firemen for better wages and extra help on large locomotives.

W. S. Carter, president of the firemen, concluded his argument to-day and took up the two firemen question, declaring that the mechanical stokers, which the railroads maintained lighten the labor of the firemen, did not do the work they were given to do. He said the use of them cost the railroads more than extra firemen would.

"And for these gray-haired engineers," he continued, "to come here and say that they worked harder as firemen in their day than do the firemen of the present is merely a concert. The engines that they fired in those days would not make a good watch charm now." The board will announce its decision April 23.

For those subscribers who do not wish to be at the beck and call of everyone there exists in Paris a secret telephone register.

A DELICATE SITUATION.

The eyes of all Christendom and Moslemdom are turned at the present time on the little town of Scutari, where the Turks are clinging obstinately to their last defences, pressed desperately by the martial Montenegrins. Sixteen miles away, on the Adriatic, the warships of Great Britain, Germany, Austria, France and Italy are united to make a demonstration on the Montenegrin coast, while France is also awaiting Russia's definite approval to represent the latter in the naval threat.

The Powers seem to have pretty generally agreed that Scutari is to be left in possession of the new state of Albania, and the Albanians regard it as their most important city. If this programme is carried out it looks as if Austria will have a strangle hold on the whole territory, for its ruler will be largely under Austrian tutelage, a mere automaton prince on an autonomous throne. But the people of the little rocky kingdom of Montenegro are defying the great powers. In face of the protest of the European concert they have pressed the attack on Scutari, and with the sacrifice of many of their bravest troops, are in possession of the key to the beleaguered city, the great Tarabosch fort. Apparently the plucky little mountaineers are very anxious to "take a chance" in the case. They would like to march into Scutari before peace comes and confront the Powers with a "fait accompli." Should they do so, it will be a matter of much difficulty and delicacy to eject them. There is little doubt that they will cling to Scutari to their last ounce of strength. The city is the gateway from Albania into Montenegro, and if it is in the possession of an unfriendly power the men of the Black Mountain are always threatened. Besides, King Nicholas covets it as his capital in place of his present rocky eyrie of Cetinje.

The crux of the whole question, and that which is causing the European diplomats many sleepless nights is whether or no the chief representative of the Slav race will join in coercing into submission one of the Balkan allies. It is almost unthinkable that Russia will take an active part in this, as it has been universally acknowledged throughout the war that she is behind the Slav states. In view of the fact that the other component parts of the Triple Entente have joined in the demonstration, her very silence is significant. After all, blood is thicker than water; the tie of race may be stronger than the binder which holds together the concert of Europe. Look at it how we will, it is a delicate situation. The Balkan war, in making the Slavs masters of European Turkey, has created a new and vital force in European politics. Flushed with success, and imbued with confidence that is born of victories bravely won, the campaign now drawing to a close has aroused ambitions of national power, which, if challenged, may result in a general continental conflagration.

A DEAD EMERGENCY.

In the House of Commons on December 18 Hon. George E. Foster labored eloquently to show that there was a "great need" in the North Sea. He drew a startling picture of the menace which threatened Britain in her home waters, which he said justified his abandonment of the policy of 1910 and necessitated the contribution of three ships to the Admiralty. Three months later, on March 26, Winston Churchill knocked Mr. Foster's theory cold by stating that the Admiralty proposed to station the Canadian ships at Gibraltar to form a new squadron that would make periodical cruises about the Empire. Where, then, is the emergency? What has become of the pressing need in the North Sea? This

whole emergency cry on the part of the "republicanists" has been nothing but a dishonest attempt to stampede parliament into a contribution which, we know, is not at all urgently required for British home waters. Moreover the contribution is not to relieve the British taxpayer as it is to be additional to the force the Admiralty considers sufficient for Britain's protection, and the ships are to be maintained at the "Old Country's" expense.

The following parallel columns set forth the situation with abundant clearness:

Extracts From Rt. Hon. Winston Churchill's Speech, House of Commons, December 18, 1912. "What is the situation? There, you have Britain, the heart of the Empire, geographical position, the North Sea, and you cannot take the heart of the Empire out of that place. You cannot change the geographical position of Britain to-day is the heart of the Empire."

"I tell you, Mr. Speaker, and the members of this House, when we come to think of all that is involved in the maintenance of those little islands in the North Sea for the Empire, and, measurably, for the whole world, we must see how imperative it is that we realize the gravity of this question. If, to-morrow morning, the news were to be flashed around the world that the British fleet had been wiped off the sea, and that British communications had been absolutely blocked, that momentary paralysis, decay would set in and the distant parts of the Empire and Canada would have no security, no confidence and no absolute lease of life. When I look at that I say to you, Mr. Speaker, that it makes me feel that this is an awfully grave and important matter."

"Then, for example, suppose that Germany with her mighty fleet, masked and protected as it is from aggression, backed by one of the greatest army powers of the world, a fleet ready for instant action—such as a fleet-attack on Great Britain with a coast line of two thousand miles, and twelve hours is at the point against which she directs her operations, where will your one Atlantic squadron be? What will your six-weeks-distant Pacific squadron do?"

THE FIGHT IN ALBERTA.

Alberta is in the midst of a provincial election campaign which will be over in a fortnight. Both sides are advancing the usual sweeping predictions, but the opposition actually has no hope of unhorsing the administration. According to the Calgary Alberta well-informed Conservatives do not expect to capture more than sixteen seats out of fifty-five, but even if they did better than that, the security of the government would not be endangered. The opposition hopes to make good its criticism that the government has shown discrimination in favor of northern Alberta, and no doubt the nomination of Premier Sifton for Macleod was designed to off-set any agitation based upon this charge.

The government relies upon an excellent administrative record. It has aimed at progressive legislation along the lines of that of Saskatchewan, among its recent democratic enactments being the direct legislation act which is now in operation. It has also liberally aided in the opening up of the province by railway construction, and on the whole has done nothing to justify the electorate in displacing it with the energetic gentlemen who are campaigning against it.

R. B. Bennett, Calgary's member in the House of Commons, is on the ground lending his torrid eloquence to the opposition forces. Unfortunately for the effect of Mr. Bennett's activities, his association with the grain elevator combine is so widely known throughout the province as to restrict his usefulness. The man who in 1911 opposed the wider markets policy, and is now connected with an elevator combination, which restricts the price paid to farmers for their grain, will find that his torrential rhetoric will not convince the electors though it may entertain them.

But the fact that Mr. Bennett has come from Ottawa to participate in the campaign is of some interest to this province because of the recollections it revives. In 1907 when Liberal members from British Columbia in the federal house took part in the provincial election which being residents here they had every right to do, the McBride cohorts raised the cry of Ottawa interference, and worked it overtime. No doubt they would now say this was merely another exhibition of Sir Richard's masterful political generalship,

while, as a matter of fact, it was the cheapest kind of buncombe which would suggest itself more readily to a small boy than to one who had pretensions to political skill. Mr. Bennett has as much right to take part in the Alberta elections as any other resident of the province, just as Mr. Macpherson was entirely within his right in campaigning in British Columbia five years ago.

AUSTRALIAN ELECTION.

The situation in Australia to-day, in view of the forthcoming federal election, is one which cannot fail to be of interest to the student of Empire politics, and more particularly the worldwide movement for lower tariffs.

When Hon. Alfred Deakin resigned the leadership of the Liberal opposition and Hon. Joseph Cook, a free trader, was selected to succeed him by a majority vote of only one over Sir John Forrest, the advocates of protection denounced the appointment of a free trade champion to lead a protectionist party to victory. In this connection it is interesting to observe that insofar as a large part of it advocates a protective policy the Liberal party corresponds to the Conservative element in Canada. It represents a fusion of the moderate Liberals and Conservatives, the latter embracing the pastoralists and agrarian and commercial interests who are bitterly opposed to the land policy of the Fisher labor administration, and who were desirous that the veteran explorer and statesman, Sir John Forrest, because of his avowed protectionist principles, should lead the opposition forces.

Mr. Cook's declaration so early in the election that if returned the Commonwealth need not look to him for an advocacy of higher protection will probably convince the party that a mistake has been made in the selection. The broad-dividing line of Australian parties is state versus federal rights. The states retain such large powers under confederation that the constitution approximates more closely to that of the United States than to that of Canada. The Liberal party is the party of state rights; the Labor party on the other hand is for centralization by the gradual withdrawal of powers from the various states. The latter party has far more chance of controlling the federal house than that of winning state elections, particularly with the legislative councils of the states standing between its objects and the wealthy classes. While it is true that labor governments are in power in two or three of the states now, the radicalism of their policy is tempered by the limitations imposed upon it by the councils.

So the struggle in Australia to-day, which appears to be shaping to give the Fisher government a renewed lease of power, though not with the same majority as brought it into office in 1910, has been accentuated by the tariff differences between the parties, composing the opposition. In that opposition are found free traders and protectionists, landlords and tenants, agrarians and mercantile interests, whose union is prompted by the desire for self-protection rather than for joint political action. Unless the free traders are made to walk the plank, and the party comes out with a protectionist policy, it is difficult to see how the opposition can hang together till the ballots are counted next month.

The latest received copy of the London Daily Telegraph has more comments on Mr. Churchill's new memorandum. It says: "The first lord has placed the British government in the awkward position of siding with one Canadian party against the other upon a matter of acute party controversy. Nor can he cover himself by pleading that he merely answered Mr. Borden's questions, for the whole cause of the mischief is that he went outside the questions. The statements which have been objected to were not asked for; he volunteered them." This frank comment is very much in line with the editorial statement of the Manchester Guardian, one of the greatest of British dailies, which states that the memorandum "touched Canada on the most sensitive spot of national pride." The Guardian rightly gives Canadians credit for national spirit. The Canadian government assumes that they have none.

If, as Mr. Tait hints, Sir Richard may soon be called from this province to roam in other political pastures, will his departure in any way affect the name of the new theatre? For instance, suppose the Attorney-General succeeds him as first minister, should he not be treated with similar consideration? Why could the theatre not be named the McBride-Bowser theatre, with due reservation for additional hyphens and appellations should political changes render them appropriate. In fact we should do the thing properly and call our playhouse the McBride-Bowser-Ross-Ellison-Young & Taylor Theatre, reserving the portico for Mr. McPhillips. The speaker's countenance might look out across the footlights from a corner in the drop-curtain.

If we could only have brought Captain Clive, Philipps-Wolley and Premier Scadden, of Western Australia, together, our cup of happiness would have been full. The Australian would have told the captain how his country was united on the policy of a local navy, having abandoned the contributory system as unsatisfactory and inadequate. He might have shocked our navy leaguer by his emphatic declaration that Australia would never permit her ships to be concentrated in European waters. And the Australians are almost entirely of British stock and more than half their trade is with the United Kingdom.

Comparisons are odious we are told, but it is nevertheless pleasing to note that Dr. Friedmann was given a much better reception by the medical profession of Canada than he received in the United States. That is as it should be. Dr. Friedmann has been the storm centre of an interesting international discussion during the last few months, and the carping criticism which followed him from the States before the results of his treatment had time to be shown served as a foil for the eminently proper spirit in which the Canadian people received him.

Hon. John Scadden, premier of Western Australia, recently offered reasonable advice to Lord Roberts. "What Lord Roberts ought to do," he said, "before asking men to accept national service is to carry out a campaign for giving the workers a full share in the government and the wealth of the country to which they are entitled. In Australia we can make the country what we choose, and if it is to be made worth living in, it will be worth defending."

If the great powers of Europe imagine that their naval demonstration will prevent Montenegro from reaping the fruits of her heroism and sacrifices they may be in for a big disillusionment. Public opinion in Russia and Great Britain sympathizes with Montenegro and is not going to permit statesmen to play Austria's game. In stopping this war the powers may find they have precipitated a much more disastrous one.

The people of Germany are still busy wondering what further sacrifices they will be called upon to make in the interests of militarism. The financiers, bankers and merchants are beginning to wonder if they will shortly be compelled to build their houses in the shape of forts, and arm their steam yachts like modern Dreadnoughts. The sword exercises at Heidelberg will also take on a new significance.

Think of a vessel bearing the illustrious name of Lord Derby being described as a tramp steamship. And the lexicology of the waterfront will not permit us to use any other term. Perhaps it would have been better to have referred to her as the "peregrinating Lord Derby." Then, nobody's susceptibilities would have been wounded.

We Have Never Known Such a Spring Season for Novelty Coats AND that's the reason why we are having another special big showing. There are so many interesting features about the new styles that are constantly arriving from the leading fashion centres that it's almost impossible for us to describe them. There are just two styles that seem to predominate—the straight front and the cutaway in three-quarters and full lengths. One as popular as the other. Plain tailored effects are numerous; others with extreme cutaway effects, fastening in the one-button style. Novelty cloths are in demand—coverts, ratine, Turkish, blanket, tweeds, whipeords, and worsteds; in black and white stripes and checks, browns, blues, fawns and all the new season's latest shades. The trimmings also are in numerous styles. Some have collars and cuffs of contrasting shades of ratine or same material; others with Paisley or brocaded silk, and some with black velvet. All have huge fancy or glass buttons. Some are half and others fully lined with plain satins or brocaded silks. Values ranging from \$10.00 to \$50.00. SEE THIS SPECIAL SHOWING IN THE VIEW ST. WINDOWS

The Waist Department Goes Rapidly Ahead THIS last large shipment of muslin waists makes our stock particularly well assorted, with every known style shown for this season. No less than 15 styles in "mid-dy" waists alone are being shown, to say nothing of the bewildering assortment of muslin waists. It's the large assortment we carry as well as lowness of price which is making our sale of waists so large. Take an early opportunity to visit this department. You will find it both interesting and profitable. First Floor

A Week's Sale Started To-day 70 BALES WOOL-FILLED COMFORTERS AT A PRICE SACRIFICE A LITTLE LATE in the season, perhaps, but then we couldn't have bought them to sell at these prices earlier in the season. It's only because the manufacturer did not want them left on his hands while making other Summer goods that he sold them to us at these low prices. The sale opened to-day and will continue during the week until the stock is cleared. As there are some very special values in this lot we would advise intending purchasers making an early visit. Wool filled comforters covered with a strong quality muslin in various attractive designs. Filled with a good sanitary cotton felt. Size 66x72. Selling at, each\$1.50 Size 66x72. Selling at, each\$1.75 Size 72x72. Selling at, each\$2.00 CHINTZ COVERED COMFORTERS, a most serviceable line in Turkey red and Paisley designs. Size 66x72. Selling at, each\$2.50 Size 72x72. Selling at, each\$3.00 SILKOLINE COVERED COMFORTERS of a fine quality. Very soft light cotton wool used for filling in this line making them light to handle but very warm to use. In a pretty range of designs. Size 66x72. Selling at\$3.00 Size 72x72. Selling at\$3.50 EATEN COVERED COMFORTERS in a fine weave of twilled sateen, in fancy floral patterns. A comforter we can recommend with every confidence. Size 72x72. Selling at, each\$3.75 See Broad Street Windows.

The Durham Duplex Safety Razor Has Arrived THE DURHAM DEMONSTRATOR RAZOR is for the purpose of acquainting you with the wonderful ease, quickness and comfort of the Durham Duplex shave. If you try one thoroughly as directed we believe you will fully prove to yourself that it is a perfect instrument for satisfactory shaving. Don't hesitate about trying one, for it is perfectly safe. On sale in the Hardware department, at 40¢ Second Floor. Ladies' French Underwear We have just received a large shipment of Ladies' very fine French underwear and it is to be seen in the department on the first floor. Most of the garments are handmade and of the highest quality, in all the latest designs in gowns, combinations, corset covers, drawers, chemises, etc. Beautifully trimmed with French and German Valenciennes lace, also Irish and Cluny. Splendid values ranging from \$2.50 to \$17.50. Also a splendid range of white satin Princess Slips, from \$7 to \$12.50 See Broad Street Windows.

C. P. R. SHOPS PREY TO MIDNIGHT BLAZE

Fire Did \$5,000 Damage to Building and Contents and Blistered Charlotte's Side

Fire destroyed the carpenter shop attached to the C. P. R. wharf early Sunday morning. The loss on the building is estimated at \$2,500 and the contents are said to be worth about the same amount.
The Princess Charlotte was lying in the wharf against the burning building and her sides were blistered, but good work by two deckhands with the ship's hose prevented her from catching fire although huge tongues of flame licked her sides.
When the reels arrived the building was enveloped in flames from end to end and had evidently been burning for half an hour. The night watchman rushed up to the dromen with a garden hose in his hand and, waving the hose and his other hand, began to hurl imprecations at the department for its delay in getting on the scene. He said he had taken 15 minutes to get central on the phone. While he talked he was holding the hose so that, instead of playing on the building, it was drenching some men standing nearby. The firemen ordered him out of the way. Any delay that occurred must have been with the telephone or the watchman, as the fire department responded to the first call instantly.
The storehouse and carpenter shop were doomed when the firemen arrived and they confined their efforts to saving the office, which they did successfully.
The goods destroyed in the carpenter shop include a large quantity of paint and oil and practically all the carpenter's tools. The major portion of the loss is covered by insurance.
The blaze was a most spectacular one for a short time. The fire smouldered inside the building for some time, until it completely filled it up and then burst through the roof with a terrific blaze that leaped a great distance into the air.

Form First Aid Team—A meeting of a large number of members of the police force was held Saturday afternoon for the purpose of organizing another team to compete in the provincial first aid contest to be held in Vancouver in August. The team will also compete in an international contest which has been founded by an American residing in Nanaimo. Victoria holds the provincial trophy now.

A LINE O' CHEER EACH DAY O' TH' YEAR

By John Kendrick Bangs
REACTIONS.
There are lots of satisfactions in the poet's rhymed reactions—When he wants a rhyme for "tearful"
Nothing goes so well as "cheerful." When he writes a verse on "trouble," Nothing helps him more than "bubble."
And the phrase "a night of sorrow" Plainly hints "a bright to-morrow." So with us, when trials vex us Let us think of "solar plexus." And with naught of hesitation Hand it to the visitation.

O., Mr. Graham, Tillamook road, between the hours of 5 and 7 at the house of J. P. Hancock, corner of Eldon place and Burnside road, and C. Pointer, Ardrescar road.

AGENT GOT WELCOME

Mme. Clara Butt's Failure to Arrive at Auckland Created Amusing Situation.

On the last tour Mme. Clara Butt and her husband, Kennerley Rumford, made in New Zealand, a misunderstanding as to the hour of the English artists' arrival led to amusing complications. Crossing from Sydney Mme. Butt's manager wired: "Leaving by boat." Whereupon, as he behaved a loyal British colony eager to welcome the greatest contralto in the world, Auckland got out its brass band, its reception committee, its choir of girls; laid a red carpet on the wharf, and smiled a smile as broad as the harbor entrance. Reporters rushed to the incoming boat, and found—not the prima donna and her musical husband, but one lone, most advance agent, who had failed to impart the fact that the singers were to follow by the next steamer. The offender sneaked off the ship through a rear porthole, and concealed himself from the outraged populace. That the Aucklanders were not disappointed, however, when the distinguished visitors actually did arrive, may be gathered from the following account in the Auckland Bulletin: "As for Madame Butt's singing—well, two columns of comment by an expert are needed to do even partial justice to the remarkable performance."
On Friday, April 11, Mme. Butt and Kennerley Rumford will sing at the Victoria theatre.

CAPT. AMUNDSEN DECLINES

Norwegian Explorer Will Not Cross to Island—Banquet To-morrow Night.

The Canadian Club has a double disappointment in its speakers. Captain Raoult Amundsen, who speaks in Vancouver on Thursday will be unable on account of prior engagements to accept the invitation to speak here, while Premier Scadden of Western Australia, who reached Vancouver on Saturday, left in the evening for San Francisco, whence he will sail to-morrow for Australia.
The annual banquet is set for to-morrow evening at the Empress hotel. Hon. Dr. Young will reply to "British Columbia," M. B. Jackson for "Canada," and Chief Justice Hunter for "The Empire." The president of the Vancouver Canadian Club, Rev. Dr. Mackay, will propose "The Canadian Club."

CARD TOURNAMENT.

"Guest Day" at Alexandra Club to Be Held on Wednesday Evening.

There will be a card tournament in the ballroom of the Alexandra Club on Wednesday evening, April 16, commencing at 8 p. m. This entertainment will take the place of the "Guest Day" usually held on the first Monday in the month. Entries for bridge may be made to Mrs. J. W. Ambery, Rockland avenue, and for rum and five-hundred to Mrs. A. F. Griffiths, Stadacona avenue, or Mrs. D. R. Ker, 1296 Yates street.

The purchase of a high class Piano is a serious task, not alone because of the investment involved, but because in the selection of the proper instrument, happiness, home happiness, can be made or marred. The test of a Piano is not in the first few weeks of its use, nor in the first few months; it lies in the quality of tone, the unvarying, lasting tone that remains the same throughout the years.

Gerhard Heintzman Pianos "Canada's Best"

The Gerhard Heintzman Piano, "Canada's Best," fulfills EVERY requirement, whether of the master or the amateur desirous of obtaining that which is superlative. The mellow, satisfying tone the Gerhard Heintzman produces when you hear it first in the showroom, prevails year in and year out while the instrument stands. This wonderful tone is built into the Piano, it depends, not on one or two features super-added, but upon the instrument as a whole.
The designs you find in Gerhard Heintzman Pianos are masterpieces; the architecture is worthy of the action it holds, the finish is in keeping with the general high standard.

Yet the Genuine Gerhard Heintzman Piano costs no more than many inferior instruments, and we sell it on such easy terms that you can afford to buy it even more readily than many other Pianos. You are welcome to see, and hear and test the Gerhard Heintzman in our demonstration rooms at any time.

Shipping News from Day to Day

EASTERN MARKETS FOR RUPERT FISH

Canadian Fish and Cold Storage Company Shipping Iced Halibut Via Seattle

GEORGE BRINGS 18 TONS; BIG SHIPMENTS EXPECTED

G. T. P. Flyers to Transport Fish From North; South-bound Travel Light

Markets have been secured in the east for all the fish which is caught by the trawlers of the Canadian Fish and Cold Storage Company, of Prince Rupert. Each southbound G. T. P. steamer brings about twenty tons of iced halibut and cod, which is shipped by rail from Seattle. Greer Starrett, manager of the big fishing company, came south on the Prince George, which arrived here yesterday, en route to New York. He has much business to be completed in regard to the maintenance of these markets, and he will also keep his eye on the outlook for additional markets in case the catches of the trawlers become exceptionally large.

The trawlers, Jas. Carruthers, Geo. E. Foster and Andrew Kelly, are getting good catches of cod and halibut at the present time in Heate strait. The Canadian Fish and Cold Storage Company also has four smaller vessels working in conjunction with the big trawlers, and the catches of the fleet of late have been very satisfactory. The big plant, which is six stories in height, built of concrete and covering an immense amount of ground, is packing most of the fish in ice and sending it south on the G. T. P. flyers, the mid-week boat handling most of the freight. The big cold storage plant is the largest in the world and is located on Seal Cove.

Looking for Big Output. The officials of the company are looking for a big output this summer. Despite the fact that the fish cannot be shipped by rail from Prince Rupert to the east, the company is shipping the catches south to Seattle. During the next few weeks the amount arriving on the boats will have increased a great deal, according to an official. During the herring season the cold storage reaped a large harvest, and at the present time there are 1,600 tons of "shiners" at the plant. Part of this will be used as a bait for the trawlers, while the remainder will be sent south very shortly.

The Prince George, Capt. Donald, came into port after a fine trip, beautiful weather prevailing throughout. Southbound passenger travel is slackening off slightly, and the George had only 40 saloon and 75 steerage.

This morning at 10 o'clock the steamer departed for the north, going through to Stewart. Among the passengers who disembarked at this port were the following: Wm. Anderson, Mr. and Mrs. C. C. Perry, L. D. Fulton and Chas. McArthur.

J. H. Burgis, general agent of the passenger department of the G. T. P. at Seattle, came over from the Sound this morning on the George, and is spending the day in town.

INDIAN MONARCH'S MASTER WILL SETTLE IN VICTORIA

Captain K. P. T. Wood, formerly in command of the Indian Monarch, which visited this port last September, has arrived in the city with the intention of making his home here. Captain Wood was for nine and a half years master of steamers of the Monarch Line, of Glasgow, which is owned by Ra-burn and Verel, of that city. The monotony of tramp steamers palled on him, and when he was here last year he decided to resign his command and settle in Victoria. On the return of the Indian Monarch to her home port he left her, and received a substantial testimonial from the owners in recognition of his years of efficient service.

TAMBA WITH RECORD LIST DUE WEDNESDAY

Nippon Liner Spoken by Wireless Last Night; Has 314 Passengers on Board

From the Nippon Yusen Kaisha liner Tamba Maru, which is now steaming across the Pacific, a wireless message was received last night stating that she would arrive here from Hongkong and Yokohama on Wednesday afternoon. At 5 o'clock last night the Japanese steamship was approximately 800 miles from Victoria. By docking here on Wednesday the Tamba is making a fast trans-Pacific voyage. With finer weather conditions prevailing on the "peaceful" ocean the steamships will make better time, and will soon be operating on their summer schedules.

When the Tamba arrives here she will put off 600 tons of general freight, and it is not likely that she will get away for the Sound until early Thursday morning. For Seattle the Tamba has 2,500 tons, which includes a ship-

MAKING READY FOR ALASKA EXCURSIONS

S. S. SPOKANE. Of the Pacific Coast fleet, which will leave here early in June on her first cruise to Alaska waters. She will make five trips and already a great many reservations have been made for the excursions. The Spokane is now overhauling at San Francisco.

ment of silk valued at over half a million dollars.

Record Passenger List. The Nippon liner is bringing in the largest passenger list of the year. All told she has 314 travellers, 211 of whom will disembark at this port. The remaining 103 will go through to the Sound. A great number of the passengers are Chinese returning from the Flower Kingdom. There are also quite a crowd of Japanese, who will be studying the summer at the British Columbia and Alaska canneries.

Late to-morrow afternoon the liner Shidzuoka Maru will sail from Victoria for the Far East. The vessel will have 28 first cabin passengers. As part of her cargo there will be 150 tons of wheat, 5,000 tons of flour, 300 tons of agricultural implements and 1,000 green hides.

CORWIN WILL BE FIRST SHIP TO REACH NOME THIS SPRING

Seattle, April 7.—Solving the problem of regular and effective steamship service between Nome and Kotzebue Sound ports and providing dependable connections with the great gold dredging sections on the rim of the Arctic Circle, the Kotzebue Transportation & Trading Company, recently organized in Seattle and San Francisco, will operate the steamer Corwin in the Far North during the coming summer.

More than \$25,000 has been spent in putting in new boilers and practically rebuilding the Corwin, which formerly was a United States revenue cutter, and subsequently made herself famous as the first vessel each year to make the voyage from Seattle to Nome.

The officials of the Kotzebue Transportation & Trading Company have decided that the Corwin shall maintain her reputation of being the first vessel of the season to bring supplies to Nome residents. So the ship will sail for Nome on or before May 10.

The vessel will go out under command of Capt. R. J. Healy, an experienced Arctic navigator. She will take as much fresh fruits, vegetables and dairy products as she can carry.

After the Corwin gets to Nome she will engage in trading to Behring Sea ports until navigation in the Arctic is open. She will then make her regular trips to Keewalik, Deering, Kotzebue and other ports beyond Behring Strait. The vessel will leave Kotzebue Sound ports on her last trip two weeks later than the larger steamships dare stay so far north. This will give the dredge operators and crews a longer time in which to do their summer work.

Officials of the Kotzebue Transportation & Trading Company have decided that the Corwin shall maintain her reputation of being the first vessel of the season to bring supplies to Nome residents.

More than \$25,000 has been spent in putting in new boilers and practically rebuilding the Corwin, which formerly was a United States revenue cutter, and subsequently made herself famous as the first vessel each year to make the voyage from Seattle to Nome.

The vessel will go out under command of Capt. R. J. Healy, an experienced Arctic navigator. She will take as much fresh fruits, vegetables and dairy products as she can carry.

FREIGHTER SUFFERS EXTENSIVE DAMAGE

Starboard Side Aft of Amidships of Lord Derby Resembles a Concertina

KEEL PLATE MISSING AND PLATES AND FRAMES BENT

Double Bottom Saved Water From Getting Into Holds; Takes Six Weeks to Repair

Comparatively speaking the bottom of the tramp steamer Lord Derby, Capt. Fellows, which struck a submerged dock in Rosario Strait last Friday and which is now in the Esquimalt drydock, resembles an opened concertina. From aft of amidships on the starboard side the vessel's plates and frames have been bent and buckled relentlessly and show that the big freighter must have struck the rock solidly.

The exact damage which the Lord Derby had sustained was not ascertained until the big dock had been pumped dry yesterday afternoon. Without question she is about the worst battered ship to enter the Esquimalt dock for repairs. Her damage even surpasses that of the "Strath" liner Strathalbyn, which was here about 18 months ago. The work of repairing the Strathalbyn's damage was carried out by the B. C. Marine Railway and occupied 40 days.

What the Damage Includes. A view over the ship's bottom reveals the fact that the keel plates

MAN DROWNS AS TEES TIES UP AT ALBERNI

Patrick McGr. v Falls Overboard; West Coast Steamer Has Bad Trip to Clayoquot

Although the C. P. R. west coast steamer Tees, Capt. Gilliam, made only one of the short trips to Clayoquot, a great deal of bad weather was crowded into the few days she was absent from port. The Tees returned to port on Saturday afternoon a number of hours late. She was delayed by terrific southeast gales which prevailed throughout the trip. The steamer spent one night in Uclulet sheltering from the blow. When rounding Cape Beale on her homeward run the old Tees poked her nose into the full fury of the blast. The sea was not running high, but the wind was howling.

While the Tees was berthing at Alberni great excitement prevailed at that place, fell over the deck into the icy waters of the canal. Attempts were made to fish him out, but he drifted under the wharf. He could not swim and was helpless to save himself. S. S. Stone made an attempt to save him in his launch, but just before he reached the spot McGr. sank for the last time. The body had not been recovered before the Tees left.

Tees Going to Holberg. Late to-night the Tees is steaming for Holberg and she will be laden to her capacity with freight and her staterooms will all be filled with passengers. Many people are now making their way into Holberg to spend the spring, summer and fall on their farm lands. The Tees is experiencing great difficulty in handling all the freight which offers for shipment to west coast ports. On her short trip to Clayoquot she carried 218 tons, which is just about her limit. Her holds will be filled to-night and she will carry much freight on deck.

RAINBOW LEAVES NEXT WEEK

The reports that H. M. C. S. Rainbow, Commander Hesse, would leave port to-day for Vancouver were incorrect. It is not likely that the Canadian warship will get away until Tuesday of next week.

OAK BAY

We have a few specially fine treed lots which are well worth the attention of intending home builders.

These lots are now on the market for the first time.

AROUND THE SHIP CHANDLER'S STOVE

Down at the ship chandler's this morning a number of old seadogs, who gathered around the old stove, squatted on kegs of nails or coils of rope, talked of some of the terrible storms which they had experienced during their days afloat. This kind of yarn is always interesting. Each seaman tries to outdo the other regarding the "terrible experience," he had.

"We were crossing Pentland Firth, in Scotland, once," said one of the group. "She came on to blow hard from the northeast and a fierce sea was kicked up. We only had a small packet and she threw herself about badly in the sea. Well, sir, we hit one big sea and I thought—and so did all the rest aboard—that my end had come at last. Our craft dived quickly and I never thought she was coming up. We must have been under for fully five minutes. The suddenness with which she dived caused a spare anchor which was lying in the foreholds to break the hatch and shoot out on deck. A lot of water got into the hold through the opening. Just to show you how deep the old ship must have gone, when she emerged from the water there were crabs all over our forward deck. You may not believe it but we certainly must have gone pretty close to the bottom."

While those yarns might demonstrate the peculiarities of some waves, I would like to tell you something about the force of a wind which overtook us once in the Bay of Fundy. This was the opening sentence of another seaman's yarn. "We were beating down the bay and the weather was pretty bad. Just as we were hauling round off Grand Manan Island, we were hit by a hurricane, the worst I've ever met, and I've been through some bad ones during my sea-life. We had a lot of sails on. When that storm hit us the sails burst like thunderclaps. In a few seconds there were only ribbons left flying wildly in the wind.

"I was up on the maintopmast yards, taking in canvas when the wind hit us. That wind simply whistled through our rigging and I thought our ship was going over. My feet were on the footropes and I clung to the yards with all my strength. I was afraid to go on deck and I just hung on. Well, that wind blew so fast after awhile the whippings in securing them for a piece of twine which is placed around the end of a rope to keep it from unraveling) blew off my toes and I unravelled clean up to my hips. That was some storm now."

No one had a yarn to beat that one and the gathering adjourned.

Another puts me in mind of the time we were crossing Heate Straits," put in another seaman, who had spent many years on the coast. "We were steaming from Prince Rupert to Skidegate and fell in with a bad southeaster. There was a fierce sea on and our ship was pitching into it in great style. Well, we got caught in a big roller and down we went. You know there's all

kinds of halibut in those waters, and, sir, when we rose on the next sea there was a great many live halibut jumping about the deck. A lot of salt was left on deck, so the old man stings out for all hands to salt down the fish, and we salted down six barrels. We got a good price for the fish on our return to Prince Rupert."

MAN DROWNS AS TEES TIES UP AT ALBERNI

Patrick McGr. v Falls Overboard; West Coast Steamer Has Bad Trip to Clayoquot

Although the C. P. R. west coast steamer Tees, Capt. Gilliam, made only one of the short trips to Clayoquot, a great deal of bad weather was crowded into the few days she was absent from port. The Tees returned to port on Saturday afternoon a number of hours late. She was delayed by terrific southeast gales which prevailed throughout the trip. The steamer spent one night in Uclulet sheltering from the blow. When rounding Cape Beale on her homeward run the old Tees poked her nose into the full fury of the blast. The sea was not running high, but the wind was howling.

While the Tees was berthing at Alberni great excitement prevailed at that place, fell over the deck into the icy waters of the canal. Attempts were made to fish him out, but he drifted under the wharf. He could not swim and was helpless to save himself. S. S. Stone made an attempt to save him in his launch, but just before he reached the spot McGr. sank for the last time. The body had not been recovered before the Tees left.

TEES GOING TO HOLBERG

Late to-night the Tees is steaming for Holberg and she will be laden to her capacity with freight and her staterooms will all be filled with passengers. Many people are now making their way into Holberg to spend the spring, summer and fall on their farm lands. The Tees is experiencing great difficulty in handling all the freight which offers for shipment to west coast ports. On her short trip to Clayoquot she carried 218 tons, which is just about her limit. Her holds will be filled to-night and she will carry much freight on deck.

SPORTING NEWS

VICTORIA MANAGER SURE OF LANDING EASTERN PLAYERS

Lionel Yorke Wires That He Has Support of Big Four Clubs

Victoria's lacrosse prospects are of the brightest. In a wire to the sporting editor of the Times, to-day, Lionel Yorke, manager of the Victoria professional club, who is now in the east in quest of players, states that he will have a winning club in the capital this summer. Mr. Yorke was at the big meeting in Montreal on Saturday and represented the Victoria club at the gathering. The information that he has succeeded in rounding up a bunch of players is also contained in his dispatch. He says in part: "Victoria in good with the Big Four. Hope to secure several Ottawa Capitals and Cornwall men. In spite of downfall of commission, Big Four agreement with Con. Jones leaves plenty of players available and think I can secure creditable team. Big Four clubs offer every assistance to Victoria."

Mr. Yorke, in company with Con. Jones, will now make a tour of Ottawa, Cornwall, Toronto and other lacrosse centres, and according to the dispatch there is every reason to believe that the local pro's will gather up a squad of players who can hold their own with any club. The men he may secure from Ottawa are Bobby Pringle, one of the greatest little defence fielders in the game and a great field general, and Moose Goodwin, another steady defence player. Both of these players have big league reputations. Of the Cornwall recruits, Ranson, DeGray and Cummings are the pick, though Runlens is also talked of. Wells Gray, the Westminster magnet, was in town Saturday for a few hours, and he expressed the opinion that the Salmon Belles will be as strong as ever, and that the Westminster club will import one eastern home player this year.

SIBBY NICHOLS.

After Murton.
Toronto, April 7.—"Sport" Murton, the star Tecumseh home player, will probably play with the Vancouver lacrosse club this season, as a result of a conference held here yesterday between Charlie Querrie and Con. Jones. Jones is looking for another real home player and wants to strengthen up his attacking division. He is even willing to trade both McGregor and McDougall if he can get the right man. He submitted several propositions to Querrie for Murton and indications point to the Indians' star playing with the coast team this year. Jones is also after one of the Ottawa players, but he refused to tell the name of the new wonder yesterday.

ENGLAND WINS INTERNATIONAL

Scotland Unable to Score While England Registered Only Goal of Match in First Half

London, April 7.—By winning from Scotland in the International Association game played here Saturday on the Chelsea grounds by the score of one goal to nil, England takes premier position in the International standing, Wales and Scotland being tied for second place, with Ireland, cellar champions.

Scotland opened the second half with a strenuous attack which tested to full the capabilities of the English defence. R. Compton and J. Pennington. Two free kicks were awarded to the attackers but both proved abortive. Play was stopped a couple of minutes owing to an injury to W. Watson, left half-back for England, who was compelled to leave the field. England for the rest of the game withstood the untiring attack of Scotland gallantly. The game finished as at half time, England, one; Scotland, nil. England by winning this game has won the professional series for 1913. The teams were as follows:

England—S. Hardy, Aston Villa; R. Compton, Blackburn Rovers; J. Pennington, West Bromwich Albion; J. E. Brittleton, Sheffield Wednesday; J. McCall, Preston North End; W. Watson, Burnley; J. Simpson, Blackburn Rovers; H. Fleming, Swindon Town; N. Hampton, Aston Villa; C. Holley, Sunderland; and Hodgkinson, Blackburn Rovers.

Scotland—J. Brownlie, Third Lanark; A. McNair, Celtic; J. Walker, Swindon Town; J. E. Gordon, Glasgow Rangers; G. Thomson, Sunderland; D. Wilson, Oldham Athletic; J. Donachie, Oldham Athletic; J. McMenamy, Celtic; W. Reid, Glasgow Rangers; A. Wilson, Sheffield Wednesday; and G. Robertson, Sheffield Wednesday.

Standing of the teams were as follows:

	P.	W.	L.	D.	F.	A.	P.
England	3	2	1	0	6	5	4
Wales	3	1	1	1	4	4	3
Scotland	3	1	1	1	2	2	3
Ireland	3	1	2	0	3	4	2

BEES HAVE EASY TIME WINNING

Ballard Team Outclassed in All Departments by Victoria Club; Morse in Limelight

Had Ballard possessed a real ball club, Victoria fans could feel jubilant over the showing of the Bees in their series against the Ballard nine. However, as Jimmy Clarke's proteges failed to show a great deal against the Capital City club, the performance of Mike Lynch and his Bees do not rank as high as though the visitors were world beaters. To sum up in brief, Ballard failed to show a run across the pan in their eighteen innings in Victoria, while the visiting twirlers were subjected to an unmerciful hammering for the sixteen innings that they worked. No less than seventeen runs were made off their delivery, while home runs, three-baggers, two-base blows and singles came with a regularity that amazed the visiting mound artists. Victoria showed up in grand form against Ballard, and in team looks wonderfully strong in all departments.

Morse Gets Home Run.
On Saturday, the story of the previous day was repeated. The Bees went out and slugged the pill all over the ball yard, stole bases with an audacity that got the Angora of the Ballard backstop and fielded almost perfectly behind the trio of gunners who kept turning the Ballard batters back from the plate in one, two, three fashion. The Bees had such a big edge on their opponents that Mike Lynch pulled himself out of the game after the contest had gone six innings, figuring that the game was safe beyond a doubt. There was quite a large outpouring of the fans and they appreciated the all-round good work of the hired help. Hap Morse's mighty wallop for a round trip put the crowd in good humor early in the game, and with victory assured, the fans set back to witness the futile efforts of the Ballard aggregation to score. It was a case of a good big team against a fair semi-pro club, with the latter unable to stem the tide of base hits that kept mounting up against them.

Twirlers Worked Well.
A pass issued by Kantelehner in the eighth presented the Ballard club with a chance to send a man around, and also registered the twenty-eighth man at bat in the full nine innings, this being the only break in the methodical system that the Bee twirlers had of mowing 'em down in one, two, three order. Kiddo Wilson, Kaufman and Kantelehner worked three innings

DUNNE THINKS GIANTS GRAND BASEBALL CLUB

Bert Dunne, a Western Canada League manager, writing to President Wattle, from Seattle, warns the local magnate against the Colored Giants. "This team is the fastest I ever saw," he writes. "All of them good hook sliders, and how they can hit that ball!" Dunne figures Taylor and Petway two of the greatest ball players he ever saw in action. The Colored Giants will be here on Wednesday and Thursday, when the fans will be able to judge for themselves whether or not Dunne knows a ball player when he sees one.

Following is the lineup of the colored team: Duncan, l. f.; Hill, c. f.; Barber, r. f.; Pierce, or Petway, c.; Taylor, 3 b.; Munroe, 2 b.; Parks, 1 b.; Hutchinson, s. s.; Lindsay, Foster, Gatewood, and Dougherty, pitchers.

HODGSON WAS BRIGHT STAR OF WARDS' WIN

Wards had little trouble in defeating the Empires at North Ward park on Saturday afternoon, the final score being 3 to 1 with the champions on the long end of the scoring tally. The teams took the field minus several players and the game was an easy victory for the Wards. The Empire lineup included a couple of spares, while the Wards had all their stars in uniform. Hodgson, the Wards' clever centre forward, was responsible for three brilliant goals, one of which came from a rush the length of the field. A Kerley was responsible for the Empires' solitary goal.

REMARKED ON THE SIDE

Treat For the Fans This Week
There is no doubt that the American Giants can play real baseball, and Victorians will get their first chance of witnessing a Class A ball team in action at the Royal Athletic park, when the colored aggregation of ball tossers get into action against Mike Lynch's band of Bees. The decisive fashion in which the Giants put it over Seattle's Northwestern League champions, including a real old-fashioned batting bee at the expense of Dugdale's grand array of twirlers shows that the team includes hitting as well as fielding strength, and if the locals are to win from the colored team, they will have to show everything they possess. It will be the first real chance that Lynch and his team have had to extend themselves so far this season and the fans will also be glad of the opportunity of witnessing the Bees working at top speed. The games will start at 2.30, and with the opening at Seattle but a week distant, some really live baseball will be the result.

Lionel Yorke's Meeting With Success.
Reports from Montreal and Toronto indicate that Con. Jones and Lionel Yorke are having little difficulty in rounding out their teams. The failure of the lacrosse commission to go through is accounted for by the fact which Con. Jones signed with the Toronto clubs in the Big Four. Once the coast clubs can get working in harmony with R. J. Fleming, the Toronto lacrosse impresario, there is no reason why these two leagues should not control professional lacrosse in the Dominion. A commission is unnecessary when such an agreement is in force, all of which means that the backers of lacrosse are going about the renaissance of the game in a sane and sensible manner. The salaries will not be so big, but there will still be enough in the game to attract the best players, while Victoria, with the offer of permanent positions holds out a particularly inviting prospect to the player who comes to the coast.

LEWIS GOES TO MEDICINE HAT

McQuary Also Released by Local Club; After Another Outfielder.

Two more official heads have been lopped off by Manager Mike Lynch, and this morning outfielder Lewis hit the trail for Medicine Hat, while pitcher McQuary went back home to Tacoma, after a trial with the Bees. Lewis broke out in sensational style the first few days he was here, but he did not last, while McQuary's arm has been giving him trouble ever since the second week of the training season. He will have to be treated at Tacoma, and may be given a trial next spring.

Another twirler and one of the backstops must be disposed of before Lynch will have his club in fighting trim, and it is possible that Lynch will install Hap Morse in left field, using one of his twirlers as utility man. The local club is still after a big league outfielder, and Lynch hopes to land him before the end of the week.

REMARKED ON THE SIDE

Treat For the Fans This Week

There is no doubt that the American Giants can play real baseball, and Victorians will get their first chance of witnessing a Class A ball team in action at the Royal Athletic park, when the colored aggregation of ball tossers get into action against Mike Lynch's band of Bees. The decisive fashion in which the Giants put it over Seattle's Northwestern League champions, including a real old-fashioned batting bee at the expense of Dugdale's grand array of twirlers shows that the team includes hitting as well as fielding strength, and if the locals are to win from the colored team, they will have to show everything they possess. It will be the first real chance that Lynch and his team have had to extend themselves so far this season and the fans will also be glad of the opportunity of witnessing the Bees working at top speed. The games will start at 2.30, and with the opening at Seattle but a week distant, some really live baseball will be the result.

Lionel Yorke's Meeting With Success.

Reports from Montreal and Toronto indicate that Con. Jones and Lionel Yorke are having little difficulty in rounding out their teams. The failure of the lacrosse commission to go through is accounted for by the fact which Con. Jones signed with the Toronto clubs in the Big Four. Once the coast clubs can get working in harmony with R. J. Fleming, the Toronto lacrosse impresario, there is no reason why these two leagues should not control professional lacrosse in the Dominion. A commission is unnecessary when such an agreement is in force, all of which means that the backers of lacrosse are going about the renaissance of the game in a sane and sensible manner. The salaries will not be so big, but there will still be enough in the game to attract the best players, while Victoria, with the offer of permanent positions holds out a particularly inviting prospect to the player who comes to the coast.

Barrieau May Yet Meet Joe Bayley.

Morris Condon holds out every hope that Ernie Barrieau will agree to terms for a bout with the Canadian lightweight champion at Burnaby on Victoria Day. Of course the Victoria boy will not consent to any deal that will give Barrieau fifty per cent. of the gate, or any such foolish arrangement, but Condon is willing to allow Barrieau a fair percentage, or is willing to split the gate seventy and thirty, the winner taking the lion's share. This shows that Condon means business, and if Barrieau really thinks that he has a chance for the championship, he will jump at such an opportunity. The whole trouble lies with the desire of Barrieau to get a match and a good guaranteed for appearance; he knows that he cannot win from Bayley at 135 lbs., and it looks like a wild stab to grab off a big chunk of the purse, regardless of the outcome of the bout.

Our Showing of "PROPER CLOTHES" Spring Suits Will Please Business Men

Business men who have regard for their appearance are now selecting their new spring suits. They are to be met with everywhere—on the street, in offices and stores, and if you have not yet got yours, it behooves you to come here and make your selection from the largest stock of high-grade clothing ever shown in this city.

"Proper Clothes" appeal particularly to business men because they are smart without being "flashy"; strong, serviceable and well-tailored from good English and Scotch tweeds, serges and chevots, English worsteds, etc.; in black and white checks, warm browns, greys, navy and other popular colors.

"Proper Clothes" will keep their shape. The colors are fast and will not fade, and the cloth will not get shiny. They are lined with a strong twill mohair lining that will outlast the suit—a feature that often receives less attention than it merits.

Special Showing at \$15, \$20, \$25

SEE THEM IN THE WINDOW.

FITZPATRICK & O'CONNELL

"You'll Like Our Clothes" —Rgd.

apiece and they were never in trouble. The trio having their breaks operating in grand style, while perfect control was another feature. Johnny Rawlings appeared a liner with one mitt in the ninth and redeemed his scramble of an easy grounder earlier in the game. Morse's all-round playing was a feature, and also that of Charlie Brooks.

TOURNEY OPENS.
Rochester, N. Y., April 7.—Eight Rochester teams in the five-man division opened the annual tournament of the National Bowling Association to-day. The Grand Centrais, with 2,644, were high. The tournament will close on April 22.

EASTERN STARS RETIRE FOR GOOD FROM LACROSSE

St. Catharines, April 7.—Billy Fitzgerald, the famous player on the Toronto lacrosse team, definitely announces to-day that he will play no lacrosse this year. He has offers from Tecumsehs and the coast at figures higher than those offered by Toronto, but will turn them all down. Kalls, another St. Kitts' man on the Toronto, also says he has quit.

GIANTS WINNERS.
Knocked Three Seattle Twirlers Out of the Box.
Seattle, April 7.—The colored Giants from Chicago massacred the white Giants of Seattle yesterday afternoon in Mr. Dugdale's back yard. About 5,000 fans, fully half of whom were women, enjoyed the spectacle. The final score was 11 to 7.

Melkie had to retire at the end of the second. McIvor was knocked out of the box in the fourth, and when Gipe went in the colored gentlemen were tired of running and Gipe got off easy.

"FORD"

The Pathfinder to Economy in Motordom

THE UNIVERSAL CAR

Touring Car Fully Equipped \$825

THE COMPACT FORD OFFERS YOU ITS SERVICE

In selecting a FORD, you are MAKING NO MISTAKE. Thousands have purchased before you, thousands will purchase after you.

THE NAME OF FORD OWNERS IS "LEGION." Admit then—"Nothing wrong with the FORD."

1913 Roadster Fully Equipped \$750

Allowing the Ford is right, and its EVER INCREASING DEMAND places this beyond contradiction, \$825 for a fully equipped Touring car, and \$750 for a Roadster, surely cannot fail to impress you.

SUCH FIGURES ARE WORTHY OF YOUR CONSIDERATION, consequently may we not suggest a demonstration?

It's the man that gets the GREATEST VALUES for the LEAST OUTLAY that counts his deal satisfactory. FORD OWNERS ARE SATISFIED. For PRICE, the FORD defies competition. For VALUE, nothing bigger was ever offered.

BASKETBALL

James Bay Methodists and Centennials were winners in Saturday night's basketball double-header on the Y. M. C. A. floor. In the first game the James Bay five trimmed the Metro-politans 24 to 6; while in the final the Congregationalists were beaten 26 to 16.

After a city boarder has spent the summer in the country he is apt to believe that the original gold brick factory is located out of town.

SPORTING NEWS (CONTINUED)

BEES' FIRST SACKER WILL NOT PLAY AGAINST COLORED CHAMPS

Charlie Brooks a Real Southerner; Chicago Club Play Here on Wednesday; Have Fine Record

Charlie Brooks stated this morning that he will not take part in the series against the American Giants. Being a Southerner, he says that he has never participated in athletic competition with negroes, and says that he is not going to start now. Just who Lynch will play at first, in the absence of Brooks, remains to be seen, though it is probable that Morse will be shifted to the initial station, Lewis playing left field. Brooks' absence will affect the fielding strength of the locals, while their batting will also be weakened, for Lewis is by no means the hard hitter that Brooks is.

Giants Here Wednesday.
The Giants will play at the Royal Athletic park on Wednesday and Thursday afternoons, the games starting at 2.30. The beating that the colored team administered to the Seattle Giants in their series with the North-western League champions, indicates that the Giants are some ball club, and it will take the bees all their time to hold the colored aggregation down.

To Use Southpaw.
On the Chicago club there are seven left-handed batters. This means that Lynch will send Kantelehner to the mound on Wednesday in an effort to stop the murderous hitting that the Giants indulged in against Seattle. Should the southpaw be able to work effectively against the Giants, there is a probability that Bobby Steel may be sent against them on Thursday. Lynch would like nothing better than to grab a couple of games from the Giants, if only to show the strength of this team compared with that of Seattle.

Yesterday at Seattle the Giants garnered seventeen runs, while Dug-

KIDDO WILSON

dale's hired help cornered seven. The colored team also belted the ball for three home runs and eight doubles, some hitting when one looks this over. Melkie and Melvor both had to beat it to cover under this bombardment. Taylor, the Giants' third sacker, had a brace of home runs on Saturday against Dell.

University of Washington will perform here on Friday and Saturday against the Bees, and this will wind up the Victoria club's preparations for the opening of the season at Seattle next Tuesday. The twirlers for the opener will also be selected in the series against the rah-rah boys.

Beautiful Ranch in Sunny Cowichan
Here is a Ranch Proposition That Must Appeal to the Man With Small Capital, Some Knowledge of Agriculture and a Love of Outdoor Sport
There are seventeen acres, sixteen of which are cleared and under cultivation, and only one acre in bush. It is beautiful bottom land, and with proper attention is capable of producing immense crops of hay, garden produce, or anything adapted to cultivation on Vancouver Island.
A creek runs through it and there is the best of trout fishing within a short distance, it being a short distance up the Cowichan River out of Duncan, where the fishermen of Victoria are fond of going in search of the steelhead and trout. The shooting also is the best on the Island.
Koksilah and Cowichan Station are about 3 1/2 miles away and the golf club and tennis courts are nearby.
The property includes a 7-roomed house and large attic with a basement, stone foundation, built on high land, with a splendid view of the surrounding country and possessing all conveniences, including hot and cold water. There is also a large driving house and a good Chinaman's shack. Price, \$11,000. Terms easy.

**After Measles
Whooping Cough
or Scarlet Fever**

is a critical period—weakened throats, delicate bronchial tubes and unsound lungs often follow; sometimes impaired sight or hearing.

But if **SCOTT'S EMULSION** is taken promptly and regularly after the fever subsides it quickly and effectually restores appetite, strength and flesh.

Scott's Emulsion contains the elements nature requires to restore sound health.

**ENGINEERS COMMENCE
TO FIX BOUNDARIES**

Government Sent Party This Morning to Work on Reserve; Will Rush Work

This morning the provincial government put a party in the field on the Songhees reserve to establish the boundaries of the lands to be used for terminal purposes by the Canadian Northern and Esquimalt and Nanaimo railways. This work will be rushed through as rapidly as possible.

The Canadian Northern engineers have been busy for the past few weeks making their cross-sections of the ground with a view to determining the most practical elevation of the yards. Mr. Lewis, chief engineer for the company on the island, stated this morning that it has been found necessary in places to cross-section every fifty feet.

By making cross-sections of the ground the company will be able to determine the most economic means of grading to be done, so that the terminals may be established as cheaply as possible.

Next week the right-of-way surveys on the line to Union Bay will have been completed. The locating parties have finished their work. As soon as the reports of the latter parties are in hand the company will call for tenders on the work.

The question of the type of bridge to replace the old Johnson street-bus is still undecided.

**BEWARE
YOUNG MAN**

It's the Little Dandruff Germs That Are Causing Your Hair to Thin Out

Parisian Sage Stops Falling Hair and Does Not Contain Poisonous Lead or Dyes

The clever young man of to-day doesn't take any chances on losing his hair. A man who is baldheaded at 30 looks like 45, and is placed at a disadvantage when seeking employment.

If you have dandruff it means down near the roots of your hair an army of dandruff germs are attacking the hair root and destroying its vitality.

When the hair falls out and baldness results. Young man; put your faith in delightful PARISIAN SAGE, it will stop falling hair, kill dandruff germs, abolish dandruff and itching scalp, or money back.

PARISIAN SAGE is only 50 cents a bottle at D. E. Campbell's, and dealers everywhere. Get it with Auburn Hair on every carton. Ask for PARISIAN SAGE.

Society is composed of two great masses: Those who have more dinners than appetite, and those who have more appetite than dinners.

When we do the best we can, we never know what miracle is wrought in our own life, or in the life of another.—Helen Keller.

and Apple
Cream Cheese**

a delightful combination.

**WILL LIMIT BLOCKS
TO TEN STORIES HIGH**

Mayor's Suggestion to Be Embodied in Civic Legislation by Amending By-law

For the meeting of the city council this evening City Solicitor Robertson has prepared a by-law, which will be introduced by Alderman Gleason, limiting the height of buildings in the city to ten stories.

No other attempt is to be made towards amending the building by-law until the select committee, which is working on the question, reports.

At the rally of the Progressive Club on February 26 the mayor indicated that the city would limit the height of buildings to ten stories, and stated he hoped to have the civic legislation governing this phase of construction amended accordingly.

At the present time most of the large blocks in the city range to eight stories. Skyscrapers are not popular in Victoria. At the present time the building inspector has certain powers of limitation with some classes of buildings.

MAY AID RAILWAY

South Vancouver Delegation Wants Tunnel in Municipality.

R. C. Hodgson, president of the South Vancouver Board of Trade; Messrs. Elliott and Vorel, of the board, and Councilor Stewart Campbell, of South Vancouver, had an audience with Attorney-General Bowser on Friday, during which they urged that the provincial government use its influence with the Canadian Northern railway to induce the company to build the tunnel to the False Creek terminals through South Vancouver. They wish to have the eastern entrance of the tunnel commence at the foot of Victoria Drive, on the north arm of the Fraser river.

The delegation pointed out that at present South Vancouver merchants must pay Vancouver terminal's charges, and further charges for the haul back into the municipality. They contend that by having the railway company put in a station at the end of the tunnel, at the point suggested, merchants will not have to pay terminal charges.

Mr. Hodgson claims that a right-of-way for the tunnel to the False Creek yards would be about twenty acres, valued at \$3,500 per acre. This would mean a total cost of \$70,000. The board of trade and city council believe that the ratepayers of the municipality would sanction a by-law to provide that sum so that the right-of-way would cost the Canadian Northern nothing.

The delegates claim that the attorney-general gave them a promise to take the matter up with the premier on his return from the east.

In the past calendar year losses by fire in the United States averaged \$70,000 a day, and aggregated \$207,543,500.

**Wash Dress Fabrics
Dainty, Novel and
Inexpensive**

With the advent of milder weather a woman's thoughts turn, naturally, to the preparation of suitable outdoor wear. **WILL "HOUSE WARM"
NEW CHURCH TO-NIGHT**

Various City Churches to Be Represented at Gathering at Congregational Edifice

There will be a "house warming" in the lecture hall of the new Congregational church, corner of Quadra street and Mason street, at 8 o'clock this evening. The following clergymen are expected to represent the several churches of the city: Rev. Dr. Scott, of the Metropolitan Methodist church; Rev. J. R. Inkster, of the First Presbyterian church; Rev. J. B. Warnicker, of the First Baptist church; Rev. W. Leslie Clay, St. Andrew's Presbyterian church; and Rev. T. W. Gladstone, the Reformed Episcopal church. Rev. Robt. Connell, of St. Saviour's church, and president of the Ministerial Association of Victoria, has sent his regrets at his inability, through a previous appointment, to be present. Others who will be present will be Rev. J. K. Unsworth, of the First Congregational church, Vancouver; and Mr. Dalton, representing the congregation of the same church.

Interspersed with the speeches of fraternal greetings from these various churches will be a programme of vocal and instrumental numbers. Through the kind permission of Mr. and Mrs. Baker, the Ritz hotel orchestra will give the following numbers: Grand operatic selection from the "Gelsa"; "Cavallera Rusticana"; the "Herd Girl's Dream"; Mr. Charles will give a piano-forte solo, Beethoven's "Sonata Pathetic"; Mr. Hickling, cello solo, "Salute d'amour"; vocalists, Mrs. Wm. Grant, T. H. Brown and E. Locke. The orchestra will be under the direction of Archibald Hunt, and W. H. Davis will act as accompanist.

During the evening the affiliated societies of the church will serve refreshments, and it is anticipated that the event will be of a most pleasurable character.

D & A CORSET

The Corset that Enhances the Charms of Youth

Very young women need this corset. It gives the exact foundation required for the successful fashionable costume, supports the back, encloses the hips, gives to the figure a more mature appearance and is so graceful and so comfortable that wearing it is a positive pleasure. And Doctors tell us this is the model which every young woman should adopt. The price is \$1.00 to \$3.00 less than that at which any imported corset of similar quality sells.

D. & A. No. 458 of medium height and length—Lace and Ribbon trimmed. Six hose supporters—White coutille Port Arthur and West \$2.00.

There is a D. & A. and La Diva model for every figure. Our catalogue, sent free on request, will help you to choose the best for yours.

BLACK, MIXED & GREEN.

THE EVENING CHIT-CHAT

By RUTH CAMERON

A very difficult question has come to me from one of my letter friends. It is a question I have never been able to solve for myself; how, then, shall I settle it for another?

Therefore I pass the problem along in the hope that some wiser brain can answer it as it should be answered.

My correspondent tells of a case in which a widowed mother and two maiden aunts have immolated themselves upon the altar of a feeble-minded child's happiness. In order to keep the child out of an asylum and make his miserable life as happy as possible, they have toiled and scrimped and saved and sacrificed, without stint, the last fifteen years. He is infinitely more care than the most troublesome baby. He must never be left alone, and he requires expensive medical attendance.

After telling about this unflinching sacrifice of all pleasure and all social relations, my letter friend asks, "Do you think it is right that these three lives that might be valuable to the community, should be given for one of no intrinsic value to the world? How far should one be willing to do things like this? How far should one encourage others to? Should they go to the utmost limit of devotion? If not, where can the line be drawn?"

It is, indeed, a very puzzling question.

Somehow, as I read it, I thought of Peter and his question as to whether he ought to forgive his brother even until seven times, and of his Lord's answer, "Until seventy times seven."

There was one paragraph in my friend's letter that I read over several times because it seemed to me it was one answer to her question.

"The love and devotion of these three," she writes, "is wonderful and beautiful. Almost passing a mother's love. While the recipient of it all is incapable of appreciating it, and gives flight but trouble in return."

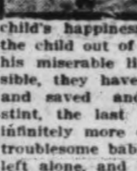

My friend grieves because these women have such bleak and unhappy lives. Is any life unhappy when it is absorbed in a "wonderful and beautiful" love? What if the recipient is incapable of paying back the devotion he receives? That does not make the joy of love and sacrifice any less.

We all know cases more or less like this, and I think many of us are inclined to condemn the sacrifice as futile. That is a dangerous judgment. I am ready to leave it to a greater Judge to decide.

But there is one thing I want to say. We must remember that the one for whom we would sacrifice ourselves is not the only person to be considered. Others have their rights to happiness, we ought to think twice.

I know a man who sacrificed a whole family to the care of a half-witted sister, and though he was of God's noblemen, and I know he must have believed it was right, I can't see it that way.

And yet, again, who am I to judge? There are some things that each of us must settle with his own soul. If I should write about this the whole evening, I should still come back to

liner Adriatic for a three-months' visit to England.

W. Finch Page, wife and three daughters left Wednesday by the North Coast Ltd. and the Atlantic Transport liner Minnehaha on a visit to England.

T. B. Shoebottom, a barrister connected with the attorney-general's department, left on Saturday evening for Vancouver. He will return here tomorrow night.

C. L. Queen, a former hotelkeeper of Vancouver, whose ancestry goes back 150 years in Canada, is in the city on a business connected with his government position.

Charles F. Law, Mrs. Law and daughter, of Vancouver, returned to the mainland last evening. Mrs. and Miss Law spent the past two weeks here at the Empress hotel.

D'Arcy Tate, vice-president of the Pacific Great Eastern railway, has returned from a visit to Vancouver, where he was in conference with P. Welch a director in the same company.

J. D. Roberts, of Tod Inlet, formerly connected with the works department in the interior of the province, paid a visit to the city over the week-end. He stayed at the James Bay hotel while here.

Kenneth J. Burns, general freight agent for the Great Northern railway in British Columbia, accompanied by Mrs. Burns and Miss L. Moses, is staying at the James Bay hotel for a few days.

F. C. Wade, K. C., and W. H. Senkler, K. C., are in the city from Vancouver to attend the meeting of the benchers of the Law Society of British Columbia. They are staying at the Empress hotel while here.

S. H. Shannon, of Cloverdale, W. Kidston, of Vernon, and W. Campbell, of Grand Forks, all members of the Royal Commission on Agriculture, arrived at the Empress hotel yesterday to commence their tour of the island.

Arthur Lineham, Mrs. Lineham and daughter, and Miss Claire O'Brien left yesterday by the North Coast Ltd. and the White Star liner Olympic for a tour of the Mediterranean and other European ports. Before returning to Victoria in November they will visit South Africa.

Captain Unwin, R. N., R. D., who distinguished himself while on special service during the Spanish-American war and received the King's gold medal for his work, is in the city to-day, staying at the Westholme hotel. Yesterday morning he paid a visit to the Esquimalt dockyard. He expects to return to Vancouver this evening.

Among the Victorians who spent the week-end in Seattle and attended the Grand Opera were Mrs. Hermann Robertson, Mrs. (Dr.) Bowers, Mrs. Mary Ritter Hamilton, Mrs. Harold Petthick, Mr. and Mrs. Moore, Mr. and Mrs. Tomlin, Miss Lillian Smith, Mrs. Leeming, Miss Dunsmuir and Mrs. Frank Barnard.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, April 7—5 a. m.—The high pressure area on the American coast is spreading inland, and a fresh ocean disturbance is approaching Vancouver Island, causing showers on the Coast. HADFIELD

MILLINERY CREATIONS—Uncommon Yet Not Extreme

The gratifying response to our "Spring Opening" so completely depleted our stock that we have been busy replenishing for a continuance of the early season's trade. In this connection, we have during the last week, been compelled to visit the States, where we have secured the most recent conceptions in modes.

Radiant colors, characteristic of the happy season, predominate; Cerise, Grafton Blue, Violet DeBois—an exquisite shade of mauve—and Gazelle, is a comprehensive title given to the tans from a pale shade to a deep one.

Chiffon and Lace Coverings with colored velvet combinations, Picture Hats in bright colors—and unique effects in black and white.

These fashions are uncommon without being extreme; stylish but not following altogether hackneyed lines; color effects are suggested rather than emphasized; and everything is additionally attractive because of the thoroughly dependable quality and the surprisingly moderate prices that always rule at this establishment.

This Week's Corns

Will be Gone Next Week—250,000 of Them

This week, 250,000 corns will be removed with Blue-jay. So every week. This invention now is ending a million corns a month. Think of that—you who pare corns, you who daub them, you who still use ancient methods.

Apply a Blue-jay plaster and the pain will end at once. In two days take the plaster off. The corn will be loosened. Simply lift it out. There'll be no pain or soreness. You will never feel that corn again. Others may come if you still pinch your feet. But that corn is ended forever. You can prove this with one plaster, in two days.

A is the picture is the soft B & B wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

Blue-jay Corn Plasters

Sold by Druggists—15c and 25c per package. Sample Mailed Free. Also Blue-jay Bunion Plasters.

(276) Bauer & Black, Chicago & New York, Makers of Surgical Dressings, etc.

BIG CONGREGATIONS PRESENT AT OPENING

New Congregational Church Crowded to Capacity; Rev. Mr. Hindley Speaks

Capacity congregations were present for both the morning and evening services at the new Congregational church yesterday, the double attraction of being present at the first services, in the new building, and the opportunity of hearing such an excellent speaker as Rev. Mr. Hindley, of Spokane, filling every seat in the edifice.

At the morning services, following the invocation delivered by Rev. Hermon Carson, pastor of the Congregational church, who presided at all the services throughout the day, Rev. Dr. Campbell, former pastor of the first Presbyterian church, read the Scripture lesson. Rev. Dr. Reid, who dedicated the old Congregational church on Pandora street, delivered the dedicatory prayer, this being followed by the beautiful rendering of Jackson's "Te Deum," sung by the choir.

Mr. Hindley, who by a noticeable coincidence, preached at the opening of the previous Congregational church ten years ago, preached the principal sermon at all three services during the day, in the morning speaking on "The Imperialism of Christianity." In the development of his theme Mr. Hindley showed the supremacy of Christian teachings over the ethics of materialism as exemplified in politics, business and worldly pleasures. In proving his thesis he used many practical illustrations pointing to the value placed today on things belonging to the last class. In order to redeem the supremacy of commercialism and political chicanery, it was necessary, he said, for the church to hold aloft the very highest ideals.

At the afternoon address, given before the Sunday school, Rev. Mr. Hindley spoke on the subject, "Making Life Worth While." In the evening, speaking on "The Church and the Western Spirit," he made an appeal to the church to adapt itself to the western spirit, but at the same time warned it against losing its own ideal of Christian service and Christ-likeness. The church which could conform to the needs of the West and still hold true to its tenets of righteousness would in the end be the most successful as a power for good. At the evening service the choir gave the well-known hymn, "The Heavens Are Telling," and at the afternoon service a special musical programme was given which included a number of violin selections by Archibald Hunt, and some vocal solos by Miss M. Morrison.

The dedication of the church proper will take place in about two months' time, after the new organ has been installed, and the church is in every respect complete.

LECTURER TELLS OF BIZET.

Interesting Address Given to the Alliance Francaise by M. Pichon.

The monthly public meeting of the Alliance Francaise, which took place last week at the Alexandra Club, was treated to a very interesting lecture by M. Louis Pichon on Georges Bizet, the composer. The lecturer traced the early career of the author of "Carmen," showing that in early life the composer evinced signs of talent. In due course Bizet gained the famous Prix de Rome, and had three years of study under good tuition. Later he earned a livelihood by giving lessons in music, and also composed some symphonies and operas, including "Djanitche," "Patrie" and "L'Arlesienne." After this came "Carmen," the production of which famous work at the Paris Opera Comique he survived by only a few months, passing away at the early age of thirty-seven. To illustrate the lecture the overture from Carmen was played in excellent style by H. Leiser; "Toreador" was sung by Mr. German, and M. Pichon himself skillfully handled the flute in a minuet from "L'Arlesienne." Before the close of the evening refreshments were served, and the announcement made that the next soiree would be held in May.

BASKETBALL TOUR.

Fred Brown Picks All-Stars for Island Jaunt.

Fred Brown is handling a Victoria basketball team that will make a tour of the island with the idea of bringing the island basketball championship to the city. Manager Brown has selected a strong quintette to represent the capital, and is confident that his all-stars will return with the championship safely tucked away. The team will play Courtenay on Tuesday evening, the remainder of the games being as follows: Comox, Wednesday; Cumberland, Thursday; Chemainus, Friday, and Duncan Saturday. The following are the Victoria representatives: Bob Whyte, Ed Brynjolfson, J. Houston, Lew McDonald, Fred Brown (manager), and a spare who remains to be selected.

FERNWOOD VOTERS' LIST

Arrangements have been made for the registration of voters in the Fernwood suburb of the city by opening an office in the Parfitt Block at the corner of Gladstone avenue and Fernwood road. A notary will be in attendance in the office of Parfitt Bros. each evening from 7:30 and those who wish to secure their right to the exercise of the franchise are requested to register early as this is the last week of registration.

Great West Fisheries Gold Bonds Are as Good as Gold

MAKE APPLICATION NOW

EVERY SAFEGUARD IS THROWN AROUND THEM WHICH MODERN FINANCE CAN DEVISE, AND ARE GUARANTEED IN SUCH A WAY, THAT IT IS IMPOSSIBLE FOR THE INVESTOR TO LOSE ONE CENT OF HIS INVESTMENT

Absolute security on money invested and large returns, are the predominating features of GREAT WEST FISHERIES GOLD BONDS; while every element of risk has been eliminated making this the soundest and best investment in British Columbia.

THE FISHING INDUSTRY IS YET IN ITS INFANCY AND IS ONE OF CANADA'S LEADING INDUSTRIES

The fishing industry of British Columbia, while yet in its infancy, has grown to such proportions as to be classed as one of the leading assets and best paying industries of the Dominion; every year witnesses a tremendous increase for fish as a staple food article; at present the demand exceeds by far the supply, so that investors placing their money in the Great West Fisheries, Limited, NOW are getting in on the ground floor of a proposition, where it is impossible to lose a cent, but instead net handsome returns on money invested.

WHAT THE GREAT WEST FISHERIES, LIMITED, INTEND DOING

The Great West Fisheries, Limited, was organized for the purpose of entering the fishing business in all its branches such as canning salmon and dry-salting herring, also the fresh fish business and intend handling halibut on a large scale, markets for the output are already assured.

Two Halibut 300 lbs. Each

Brailing Salmon from the Nets

with the very latest machinery. A splendid site for the erection of the plant has already been located at Sidney, B. C. This site being especially adapted owing to railroad and ferry connection, which will allow the company to load its product into the cars at its doors, and dispatching the same east without delay.

MANAGEMENT IS IN CAPABLE HANDS

The management of the company is vested in the hands of men who have been practically identified with the fish curing and canning business for years who have met with splendid success and whose business ability will bear the closest investigation.

GREAT WEST FISHERIES BONDS BEAR 6% ANNUALLY, ALSO PARTICIPATES IN ALL PROFITS EARNED

Great West Fisheries Bonds have additional features from many other bonds. With every bond sold, one hundred shares of common stock is set aside in trust, and should the bondholder wish to convert the bond held into common stock within three years, he can do so. The company also has the option of redeeming the bonds in five years by paying the bondholder a premium of 10% and accrued interest thereon. Every bond is guaranteed against loss of principle, by one of the strongest financial corporations on the continent, and certified by a bank, every bondholder enjoys all the privileges of a common stockholder and has no liability.

GREAT WEST FISHERIES BONDS CAN BE BOUGHT ON EASY TERMS

All bonds are issued in denominations of \$100 each, and can be purchased on easy terms. Interest on your bond is paid by us annually and dates from the date of your first payment. Price of Bonds \$100 Each, Payable \$10 Down and \$10 Monthly. Call or Write To-day for Further Information

ASSISTANCE FOR CANADIAN NORTHERN

TOTAL OF DOMINION AND PROVINCIAL AID

Subsidies and Guarantees Exceed Two Hundred Millions! How It is Distributed

The Manitoba Free Press says: In view of the demand of the Canadian Northern for still more financial aid in the form of cash grants and cash loans from the Dominion government, it is of importance that the public should have full and clear knowledge in regard to all the public aid that has been already given to that corporation and in regard to what has been done with it, and more particularly how much of their own money has been put into the building of that railway system by the few men who hold all the stock. It rests with parliament to enforce the laying open of the finances of that corporation to public view. In the meantime, the figures of the public aid granted thus far to the Canadian Northern, as they stand in the public records and on the statute books of the Dominion and of five of the provinces, claim attention.

The Dominion government blue book of railway statistics sets forth the total capitalization of the Canadian Northern, the Canadian Northern Ontario and the Canadian Northern Quebec, as \$299,999,999. The total of stock is \$23,000,000 and the funded debt \$276,999,999. Of the latter figure, \$214,817,739 consists of bonds, the balance being classed as equipment trust obligations and miscellaneous obligations. First in the list of public aid given to the Canadian Northern, let us take the land grants. These amount to 4,102,848 acres. Next we may note the subsidies given in the form of actual hard cash. These amount to \$4,250,000. This does not include the cash subsidy of \$15,000 a mile for the 500 miles of the E. C. section voted at the last session of parliament, which will, when earned, amount to six million dollars.

In regard to these totals of land grants and cash subsidies, given heretofore, stand in this year's issue of the Dominion government blue book laid before parliament by the present minister of railways. Mr. Cochrane, it is to be stated that some of the items consist of the figures of land grants and cash subsidies made before the chartering of the Canadian Northern to railways which now form part of that system, as, for example, the \$41,575 granted by Manitoba and Northern Pacific system, now forming part of the Canadian Northern system on a nine hundred and ninety-nine year lease from this province.

The details of the land grants are as follows: 2,534,125 acres, granted originally for the Hudson Bay line, 798,400 acres granted originally to the Lake Manitoba Railway and Canal Company, and 680,225 acres, granted originally to the Manitoba and South Eastern. The details of the cash grants stand thus:

Paid by the Dominion—
Canadian Northern \$ 274,695
Port Arthur, Duluth and Western 271,290
Ontario and Rainy River 1,624,526

Paid by Ontario—
Port Arthur, Duluth and Western 255,371
Ontario and Rainy River 1,072,800
Paid by Manitoba (as noted above) 841,575

Total \$ 4,150,278
Add E. C. subsidy now being earned 6,000,000

Grand total \$10,150,278

We come now to the guarantees of Canadian Northern bond issues by the Dominion government and by the Provincial governments. The Dominion guarantees, up to and including 1911, stands as follows:

1905 \$1,923,287
1906 1,622,584
1911 7,493,526
Converted from pounds sterling into dollars, at \$4.5 per pound, these three totals amount to \$23,542,295.

Coming now to the provincial guarantees, the Dominion blue book, which gives the figures up to June 30, 1912, states the British Columbia guarantee, which is at the rate of \$5.00 per mile on approximately 500 miles, as totaling \$2,500,000. Additional guarantees in the last two sessions bring the total of British Columbia guarantees up to \$2,850,000.

The Alberta guarantees amount to \$20,000,000 and those of Saskatchewan \$18,000,000. The Manitoba guarantees of Canadian Northern bonds amount to \$23,500,000. This does not include the \$5,000,000 of Canadian Northern liability to the Northern Pacific on the mileage taken over by the present Manitoba government and leased to the Canadian Northern, behind which stands the province stands. The details of the Manitoba guarantee have been set forth more than once of late in the Free Press, and need not be repeated here.

The total of Canadian Northern bonds guaranteed by the province of Ontario is \$7,800,000.

Summing up, we find that guarantees of Canadian Northern bonds, principal and interest, have by statutes of the Dominion or of the provinces named been provided for as follows:

Guaranteed by Dominion \$ 53,542,295
Guaranteed by British Columbia 42,850,000
Guaranteed by Alberta 28,550,000
Guaranteed by Saskatchewan 18,000,000
Guaranteed by Manitoba 23,500,000
Guaranteed by Ontario 7,800,000

Total \$178,172,295

This total, it will be noted, is in excess of the total of outstanding Canadian Northern bonds, stated at the outset of this article. The difference represents the mileage for which guarantees are provided, but which the Canadian Northern has not yet constructed.

Recapitulation:
Land grants, 4,102,848 acres, at, say, \$5 an acre \$ 20,514,240
Cash 10,150,278
Guarantees 158,172,295
Total aid, direct and indirect \$298,836,773

TEACHING TRUTH.

Dr. Benjamin E. Smith, the editor of the Century Dictionary, and other lexicographical works, whose death is just announced, once made an autobiographical statement which may interest advocates of scientific education, says the Manchester Guardian. "Someone had asked his opinion about the best methods of teaching truthfulness to children. 'Frankly,' he replied, 'I know I told the truth as a child purely from a desire to please my mother, as I would have carried out any other course of action on which she insisted. But I never saw any other reason for doing it until, as a lad, I worked in a chemical laboratory. Then I realized that nothing that was said made the slightest difference to the elemental fact, and I believe I have loathed exaggeration and falsehood ever since.'

Sale of Men and Young Men's Suits and Furnishings All This Season's Goods

This is the best opportunity you'll have this season to replenish your wardrobe at a GREAT SAVING. This is but the first part of the season, and here we are offering STYLISH SUITS and FURNISHINGS at a fraction of their real worth.

On the first of May next this business will be known as Murgatroyd & Company; and until then everything must be cleared out to make room for an entirely new stock.

NOTICE TO CREDITORS.

In the Goods of Charles Alexander, Deceased in Probate.

Notice is hereby given that all creditors and persons having any claims or demands against the estate of Charles Alexander, late of Victoria District, B. C., deceased, who died on or about the 21st day of January, 1913, are hereby required to send by post prepaid or to deliver to the undersigned Solicitors for the Executors of the said deceased on or before the 21st day of April, 1913, their names and addresses and full particulars of their claims and demands, duly certified in writing, and the nature of the securities (if any) held by them.

And notice is hereby also given that after that date the said Executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that they will not be liable for the said assets or any part thereof so distributed to any persons whose claims or demands they, the said Executors, have not then had notice.

Dated at Victoria this 21st day of March, 1913.

NOTICE TO CREDITORS.

In the Matter of the Administration Act and in the Matter of the Estate of William Alexander Vye, Deceased.

Notice is hereby given that all creditors and persons having any claims or demands against the estate of William Alexander Vye, late of Victoria, B. C., deceased, who died on or about the 21st day of January, 1913, are hereby required to send by post prepaid or to deliver to the undersigned Solicitors for the Administratrix of the said deceased, on or before the 27th day of March, 1913, their names and addresses and full particulars of their claims and demands in writing, duly certified, and the nature of the securities (if any) held by them.

And notice is hereby also given that after that date the said Administratrix will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which she shall then have notice, and that she will not be liable for the said assets or any part thereof so distributed to any persons whose claim or demands she, the said Administratrix, shall not then have had notice.

Dated at Victoria this 27th day of February, 1913.

NOTICE TO CONTRACTORS

Tenders will be received, on or before 5 o'clock P. M. of Tuesday, April 15th, 1913, for the erection and completion of an eight-room, brick and reinforced concrete Public School Building on the corner of Monterey Avenue and Oak Street in the Municipality of Oak Bay. Tenders to be addressed to the Board of School Trustees of the Municipality of Oak Bay, and to be delivered at the office of the Secretary, Municipal Hall, Oak Bay Avenue.

Separate tenders will be required for the heating and plumbing. The Board of School Trustees do not bind themselves to accept the lowest or any tender. Drawings and specifications may be seen at the office of the undersigned. Each tender must be accompanied by a marked cheque, payable to the Board of School Trustees of the Municipality of Oak Bay, for an amount equal to 5 per cent. of the total amount of the tender.

The cheque will be returned to the contractor and also to the unsuccessful tenderers when a contract has been entered into and a satisfactory bond provided. In the event of the successful tenderer refusing to enter into a contract, when called upon to do so, the cheque will be forfeited to the Board of School Trustees.

CORPORATION OF THE DISTRICT OF OAK BAY.

Notice is hereby given that the Sewer and Water Fronting Assessment Roll for 1913 has been filed in the Treasurer's office. Any person dissatisfied with said assessment may petition the Council not later than May 1st, 1913.

NOTICE TO ELECTORS.

Take notice that the above is a true copy of the proposed by-law upon which the electors of the Corporation of Esquimalt will be taken within the Town Hall, Esquimalt, on April 5th, 1913, between the hours of 9 a.m. and 7 p.m.

A. B. ELLIS, Returning Officer. Public notice is hereby given that the vote of the electors of the Corporation of Esquimalt will be taken on Saturday, the 5th day of April, 1913, between the hours of 9 a.m. and 7 p.m. on the School Loan By-law, within the Municipal Hall in Esquimalt, and that A. B. Ellis has been appointed Returning Officer to take the vote of such electors with the usual powers in that behalf.

PUBLIC NOTICE.

Notice is hereby given of the filing of plans for the laying of a submarine cable across Saanich Inlet, between a point on the East shore of Saanich Inlet, where Cypress Avenue intersects the water's edge of said Saanich Inlet (in Sec. 12, T.11.W.2, North Saanich District, Vancouver Island, B. C.), and a point on the west shore of the said Saanich Inlet where the line between sections 9 and 10 intersects the water's edge of said Saanich Inlet (located in range X, Sitouanigan District, Vancouver Island, B. C.), with the Minister of Public Works, Ottawa, and with the Provincial Registrar of Deeds, Victoria, B. C.

TO J. W. PLASTIN AND J. WALTER.

Take notice that an action has been commenced in the Supreme Court of British Columbia against you and others by Murray and Aves, Limited, in which the plaintiff claims to have a certain memorandum of agreement dated tenth July, 1912, and made between the plaintiffs, H. C. S. Heister and F. B. Brown, and yourself and others set aside or, in the alternative, declared null and void. And further take notice that an order was made on the 2nd April, 1913, and direct service of the writ herein upon you by serving a copy of said writ and order upon solicitors for defendants, Messrs. Company, Limited, and inserting notice of writ and order in nine consecutive issues in a newspaper of Victoria City, and unless you enter an appearance at the office of the District Registrar, Victoria, within ten days after the last publication hereof judgment may be given against you by default.

END OF CONTROVERSY NOT YET IN SIGHT

Minority Fails to Pass Resolution Cancelling Mr. Topp's Appointment

RATEPAYERS CALL IN VAIN FOR RESIGNATIONS

Majority of Saanich Council Maintains Stand on Appointment of Official

After hearing deputations which called on Reeve Nicholson and Councillors Dunn and Quick to resign, and after voting down a resolution of the minority to cancel the appointment of Mr. Topp as municipal engineer, the Saanich municipal council on Saturday adjourned at a late hour without having advanced one iota the issue which divides the municipality.

Suggests Negotiation. Councillor Dunn extended the olive branch, suggesting that a settlement be reached at a private conference of the council, but the offer was not accepted, the councillor remarking they could not carry on the business of the council with an action for alleged slander hanging over the head of one member, taken at the initiative of the municipal engineer, with whom their work must lie very largely.

The reeve was more conciliatory than at the previous meeting, which was disorderly, and disarmed suspicion by the determination to hear the delegations before the council proceeded with business. There were some 60 persons in the little council chamber from Wards 1, 4 and 5, who presented the case for the opponents of the measure. Although Ward 3 had adopted a similar course, one appeared to present the petition in person.

In addition to those in the hall at least another 40 attended the session, and even after the question had been disposed of, they waited on with the expectation of it being able.

Presents the Case. On the motion of Councillor Borden, G. E. Davidson was first heard for Ward One Ratepayers' Association. Mr. Davidson said the association desired the reeve to resign.

The reeve: "I represent 4,000 ratepayers. Do you think I am going to resign for some 40 or 50 persons who ask me? I am willing to resign if you can show me the majority are dissatisfied. You must show me a petition signed by 50 per cent. of the ratepayers of this municipality."

Mr. Waters, for Ward Two, presented a resolution asking the council to abrogate the appointment of Mr. Topp. The association wanted a permanent engineer and also desired to work in harmony with the council.

The reeve: "You have a permanent engineer. Mr. Topp has undertaken to carry out all the work—water, sewerage, paving and everything else the council desires. If he does not, I will undertake to see he is dispensed with forthwith."

Mr. Day spoke for Ward Four. As one resolution called for Councillor Dunn to resign, that councillor jumped up. He said the men who endorsed that resolution had voted for him in January, and would vote for him again if they had the chance—which they would not have. (Ironical laughter.) The councillor said he did not attend the Colquitz Hall meeting because he could not get the assurance of an impartial chairman. He regretted the wild talk which had occurred on this subject.

A Hot Fusillade. J. A. Grant, speaking for Ward Five, soon got into hot water with the reeve. Mr. Grant told the reeve that the meeting held at Royal Oak on Wednesday had made serious charges against several persons, and the reeve and the representative of the ward should have attended to hear, and answer them.

The reeve told him to put the charges in writing, and he would answer them. Mr. Grant said the reeve was allowed to leave the Royal Oak meeting alone, although he had been invited. He knew what stock to take of a discredited man like Mr. Grant.

Signature of Plans. The discussion dropped at that stage to be renewed when subdivision plans were being passed. Councillor Williams asked the reeve if it was not true that he had signed subdivision plans which had been returned by the council for amendment, without their receiving any approval from the council subsequently. The reeve said he had done so when the plans had been returned for certain amendments. As soon as those amendments were carried out, he saw no reason why they should not be signed.

The councillor protested that the course was illogical, and ought not to be continued, when Councillor Dunn observed across the table: "You have an audience and you want to advertise yourself."

The reeve threatened to expel Councillor Williams from the chamber unless he took his seat, and this the Ward Three councillor did with reluctance.

An Ambush From the Rear. Councillor Borden moved a motion that all outside work beyond \$100 in value be restricted to that authorized by the works committee. He stated that the superintendent had too much power from some authority outside the committee. The motion was not moved to hamper Mr. Pym, but to regulate the control of work.

Councillor Williams seconded the motion. A more businesslike method was needed. Many items of work were inaugurated without reference to the works committee. A report on all such work should reach the committee.

Councillor Quick moved to extend the limit to \$150 in value. "I realize the object of this motion," observed the reeve, "and it is aimed at myself. I will ask Mr. Pim (the superintendent) if I have ordered work to be done in anything more than small amounts."

The superintendent answered that the reeve's interference with road work had been restricted to small and emergency orders.

The reeve to Councillor Williams: "You are trying to blacken me through Mr. Pim."

The council ultimately decided to pass the resolution, with \$150 inserted as the minimum.

Motion to Cancel. Councillor Williams subsequently moved the following resolution, which Councillor McGregor seconded:

"That, whereas the appointment of C. H. Topp as consulting engineer does not fulfil the requirements of the recommendation of the works committee for a permanent engineer, inasmuch as the proposal on a similar basis from Mr. Topp was not entertained, and whereas residents of Saanich have recently by numerous public meetings unanimously condemned that appointment, and whereas the majority of the council have frequently stated that they have no confidence in Mr. Topp as an engineer for the municipality, therefore be it resolved that Mr. Topp's services to this municipality be terminated as soon as possible and an engineer be selected from among the recent applicants who shall devote his whole time to the service of the municipality and who shall be acceptable to the whole council and the ratepayers."

Untenable. Councillor Williams claimed that the council of Saanich was retaining, and not employing Mr. Topp. They knew that Mr. Topp was engineer of Esquimalt, and held other appointments.

Mr. Topp could not cover the work which required to be done in the municipality. He believed after what had occurred that the majority were in an untenable position. He termed it a most inadequate and most objectionable way to have the engineering work done. The people of the district were opposed to it. They wanted a man who would have the confidence of the whole council.

Councillor McGregor suggested that as the opposition to Mr. Topp was so considerable the majority should agree to a change and appoint an engineer to give his whole time to the business of the municipality. He was sure that Mr. Topp's appointment would only be for the present year if the majority persisted in retaining him.

Wants Compromise. Councillor Dunn felt that a good deal of the opposition was artificial and a good deal political. He hoped the council would agree to sit in private, and reach some conclusion on the matter.

Councillor Borden renewed his objections to the appointment, whereupon the reeve said he proposed to continue in his position in that he had to support the non-resident as well as the resident voters. He had a petition in favoring the appointment signed by some 116 persons.

Councillor Quick said he had voted for the appointment because Mr. Topp's offer was the cheapest. What was the good of paying \$7,000 or \$8,000 a year for an engineer?

Councillor Borden: "Who suggested \$7,000 a year?"

The motion was lost. Councillors Borden, McGregor and Williams voting for, and the reeve and Councillors Dunn, Quick and Verrier against.

The subject was then dropped temporarily, without either side having changed the attitude previously adopted.

VIGOROL

THE GREAT FRENCH TONIC

Builds up a Run-down System—Men and Women of Victoria May Now Be Strong and Healthy—Mr. Campbell Has it and Guarantees Every Bottle.

VIGOROL is the latest invention. A new lease of life is guaranteed to every man and woman who takes VIGOROL. No Reason for Doubt

We want your confidence—want you to feel you can depend on our honesty and sincerity. When we say **Rexall Orderlies** will give you better results than any similar remedy, and promise your money back if they don't, you ought to believe us.

Rexall Orderlies

taste just like candy. They act easy. They cause no inconvenience whatever. Our faith in them is backed by knowledge of what they are made of and observation of severe cases of constipation and other forms of bowel troubles in which they gave prompt and pleasant relief.

Don't take our word—make us prove it. Use Rexall Orderlies, and if you don't feel like coming back to thank us for telling you about them, then come back and we will return the money you paid us for them. We won't obligate you in any way whatever. Merely ask and back goes your money to you.

Make You Feel Great

That's what Rexall Orderlies do, because the thorough cleansing they give the bowels—their toning and strengthening effect upon the bowels—the influence they exert toward promoting prompt, easy and regular action of the bowels, thus freeing the system and keeping it free from the damage, distress and depression always caused by irregular bowel action—all these beneficial results from the use of Rexall Orderlies help dispel gloom, improve the spirits and add to the joy of living. Very often they ward off serious ills that frequently result from continued constipation.

Their Easy Action

Rexall Orderlies are a common-sense remedy for bowel disorders. Easy in action, they do not purge, gripe, nauseate or cause excessive looseness.

They tend to tone and strengthen the delicate intestinal nerves and muscles, promptly relieve constipation and help to overcome its cause and make its recurrence improbable. In these things they differ from old-fashioned, harsh, disagreeable physic, which usually gives only temporary relief and often leaves the bowels in worse condition than ever.

We particularly recommend Rexall Orderlies for delicate and aged persons and for children. In vest-pocket size tin boxes, 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c. Usual dose one tablet.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all druggists. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

D. E. CAMPBELL
The **Rexall Store** British Columbia
Victoria

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment—each especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores.

"The Car Ahead"

TUDHOPE cars avoid the 35% duty charge. This saving goes into extra care in construction and testing of motors and axles—chrome-nickel steel materials—more frequent inspections—greater liberality in design and finish—better equipment.

Special attention to these fundamentals of construction does not show in the specifications. But it proves itself in service, comfort, roominess, convenience, easy control and power.

The Tudhope Dealer will be glad to demonstrate these points.

SPECIAL MEETING TO CONSIDER SUPPLY

Water Question at Saanich is Before Municipal Council

NEW PETITION FOR CESSION OF TERRITORY

Observation of Slaughterhouse Regulations in Richmond Road Abattoir

At the Saanich council on Saturday it was resolved that a meeting of the works committee would be held shortly to consider with Engineer Jopp the question of the water supply and distribution in the district.

The water commissioner wrote as follows: "Will you inform me what quantity of water will be required in the year and what streets you require to lay mains upon? Providing there is no difficulty in reference to pressure, owing to the elevation of the ground, we should be able to supply you with all the water you require, as we have

arranged to obtain a supply from the Esquimalt Waterworks Company."

Several of the councillors urged immediate action to determine what course would be best under the circumstances of the present shortage.

Secession Petition.

An amended petition to extend the city limits in order to embrace in its area lots 25, 26 and 27 was read, and with it a letter from the municipality's solicitor, J. A. Aikman. The latter advised the council that under the peculiar conditions now existing with reference to incorporation of the municipality of Saanich, if the lieutenant-governor-in-council under either on both of sections 14 and 15 of the municipal incorporation act was to cancel the incorporation of Saanich the government could not reincorporate a district of more than 2,000 acres, and as the council had got an act through last session legalizing the original incorporation, which included some 40,000 acres, it seemed that the only thing which could be done was to get the government either to amend the above sections, or to pass an act specially authorizing the municipality to part with the said sections in the way petitioned for.

The solicitor's advice will be followed, the latter course being favored.

S. C. Weston, who prepared maps of the municipality for the council, will receive a fee per hour of time occupied in keeping the various maps up to date.

An application on account of Hindus for cow bars on the Rithet property, Royal Oak, was granted, provided the bars complied with the government regulations. One will accommodate 40 cows, and the other 20 animals.

Slaughter House.

Councillor Williams withdrew at the application of Lawrence Goodacre & Co. a remark made at the previous meeting that offal was being fed to pigs at their slaughter house. He explained that when he saw the site some time ago there were pigs feeding, but that the practice seems to have been discontinued recently, according to the proprietors' statement.

A report on this slaughter house also was submitted by the health officer, Dr. Rundle Nelson. He said in part: "I found the whole condition very insanitary, and a most offensive odor was present." He therefore suggested a complete new building to comply with the provincial regulations. He also suggested that three months would be sufficient to rebuild the premises.

The recommendation was adopted, although Councillor Dunn said three months was much too short a period to effect alterations.

"Looking For Trouble."

Councillor Williams wanted to know why after passing-by-laws the council allowed them to become mouldy and rusty. He had reference to the pound by-law, which was not enforced. The reeve told him he was looking for trouble. As a matter of fact the police officer had received power to enforce the by-law, and had put on special police for the occasion.

The council decided to buy a 60 h.p. Case engine, and a number of hand drills.

The reeve assured Councillor McGregor that the work on Quadra street was ordered last year, and was to be done out of general revenue. It would not conflict with the paying scheme.

Will Appoint Policeman.

Councillor Williams objected to the reeve allowing an advertisement for the policeman in ward two going into the press without the word "mounted." The reeve stated there was a difference of opinion on the subject. It was a matter for the council to determine now.

The officer should cover the ground, Councillor Borden said the council wanted a man in office, not one who broke his word. This direct dig at Councillor Dunn led to an angry retort across the table, but the reeve ruled further discussion out of order.

Twenty-four applications for the position were subsequently read, several from ex-service men. A special meeting of the council is to be held on Wednesday to make the appointment.

Broadmead Avenue.

It is proposed to clear Broadmead avenue, upon which obstructions exist, so that the forty-foot clearance for boulevarding can be planted. It appears that one woman has buildings on the public road, Mrs. Bradshaw by name, who has been in occupation for some years. The subject is an old one, and in view of the fact that the council's title to the land is in question, the solicitor's opinion will be taken first.

STAFF OFFICER HERE

Major Lipsett Will Instruct Local Militia Officers in Strategy.

For the purpose of instructing the officers of the various units of the militia in Victoria in strategy, Major L. J. Lipsett, general staff officer for Western Canada, has come to spend a month in the city. On Monday and Thursday evenings he will give lectures in the drill hall to the officers of the Fifth Regiment and the Eighty-eighth Fusiliers. During his stay he will also conduct excursions into the country with groups of officers for the purpose of practical demonstration of his theories regarding strategy in the field.

KNOCKED DOWN BY MOTOR

Many Minor Injuries Sustained by James Hight.

James Hight, a 15-year-old boy living in James Bay, sustained a severe gash in his leg and many bruises and cuts when he was knocked down in Government street Saturday afternoon by an automobile belonging to the Merchants' Trust and Trading Company. C. Thompson, the chauffeur, picked the boy up and hurried him to St. Joseph's hospital where Dr. Robertson applied six stitches to his leg. The boy had no bones broken, but his injuries will confine him to bed for about a week.

No reform moral or intellectual, ever came from the upper classes of society. Each and all came from the protests of martyrs and victims. The emancipation of the working people must come from the working people themselves.—Wendell

In the hollow of Your hand

You hold independence, wealth, competence, luxury—what you will. It is for you to decide whether you will close your hand or not. Port Edward, B. C., offers to-day the same wonderful opportunity for investment that Prince Rupert offered in 1909. You know what profits were made by early investors in Prince Rupert, Pacific terminus of the G. T. P. In 1909 town lots in the townsite of Prince Rupert, Pacific terminus of the Grand Trunk Pacific, were sold for a few hundred dollars each. The same lots to-day are worth as many thousands. Not a single instance has come to hand of an investor who failed to make good profits on lots in Prince Rupert bought at the original sale. The average profit made was 300 per cent; many made as high as 600 per cent. Port Edward, the industrial annex that Prince Rupert must have in order to meet the demand for industrial waterfrontage that is now arising, amounts, practically to another section of Prince Rupert, although it is owned by a different syndicate. Port Edward offers exactly the same opportunities to-day as Prince Rupert offered three years ago. These statements are purposely conservative and well within the mark. We want you to ask questions, to make inquiries, to satisfy yourself absolutely, before buying. But don't let the chance pass.

Port Edward, B.C.

Prince Rupert's Industrial Annex

Lies on the Mainland of the Province, adjacent to Prince Rupert, which is situated on Kaein Island. Port Edward is on the main line of the G. T. P., and is recognized by the company controlling that great transcontinental road. Station, sidings, etc., and all transportation facilities required are being provided. Port Edward possesses one of the finest natural harbors on the entire Pacific Coast, and the development work has been planned by experts, who have taken advantage of the natural slope of the property to provide industrial expansion of the most modern type. Port Edward's harbor is so formed as to admit of pier wharves which will provide seven times the dockage space per unit of waterfront that Prince Rupert has.

The opening of the Panama Canal will come early in 1915, according to the plans of Colonel Goethals. Mr. M. Donaldson, vice-president of the G. T. P., stated on March 31 last that the company expected that road to be in operation not later than November, 1914.

These two events will revolutionize present conditions of commerce. As a result, the vast wealth of the Northern interior of British Columbia will be opened to the world. Development will come very rapidly, and investment values will enhance just as quickly. Realize what an opportunity this offers you. Send for the details right now, to-day!

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

SUBDIVISION UNDER THE AMENDED ACT.

To the Editor:—The 1913 amended act as at present applied makes it almost impossible to get any plans accepted by the land registry office without being referred to the attorney-general for relief from some of the absurd enactments of same, especially that one compelling the giving of thirty feet on all boundaries for roads, irrespective of adjoining subdivisions. Your proposed plan may have been approved by the land registry office subject to such relief, with sound reasons for granting same, after thorough examination into contiguous properties, and armed with this, you confidently go to the attorney-general's office to procure such relief. Behold, on reaching there, you are met by the inspector of legal offices, who without one-tenth of the data at hand, already looked into by the land registry office bearing upon the case, essays to point out and insist on all kinds of alterations in the subdividing of your property, losing sight of the fact that you are there merely for relief regarding compliance with some unnecessary enactments which the attorney-general has the power to give, and which have been recommended by those in the best position to judge of the situation. You are virtually told by him that you must subdivide according to his ideas or have your plan refused. The act itself as amended, is certainly difficult enough to comply with without having to carry out all suggestions that the inspector of legal offices may see fit to impose, so diametrically opposed to the best advice of competent surveyors and those familiar with surrounding conditions. As the act reads at present, ninety per cent. at least of the plans presented for registration at the land registry office will have to be referred to the attorney-general for relief, but surely after being O. K'd by the land registry office, with the exception of some small deviations from the "act" from which relief has to be obtained from the attorney-general, and for which sound reasons have been given and sworn to, it should be unnecessary to open up and discuss any features other than those referred to in the application for relief.

The way matters are being dealt with at present, you are absolutely in the hands of the inspector of legal offices, even when willing to comply with the letter of the act, and unless you adopt his every suggestion your plan is liable to be refused entirely or delayed indefinitely.

This state of affairs is intolerable, and should not be allowed to exist. The real estate brokers, especially under the amended act, are paying very large sums of money to the government, and are certainly entitled to protection, rather than any impediments being placed in their way.

ERNEST KENNEDY, Victoria, April 7.

A PUBLIC MARKET.

To the Editor:—"Better late than never" is a true saying. For years I have taken an interest in public markets. In Los Angeles, in San Francisco, in Portland and Seattle I never miss my daily count. There is so much interest and instruct, so much for the people, that the places mentioned Seattle has solved the question to a greater extent, has, in fact, made the public market a success. Since has, in fact, three markets, in different localities, all well patronized. I have seen eight autos drawn up in line at the Pike street market, their occupants, the chauffeur, carrying a basket, and the mistress buying the wares—meat, fruit, vegetables, fish and poultry. This shows that it is not the working class only that patronize a market. The original Pike street market was nothing better than a long shed open to the street in front and supplied with long tables facing the sidewalk. This has been lengthened since last spring and a nearly always occupied, especially on Saturdays. It is not true, as stated by some, that foreigners run the public markets in Seattle. This is only true in so far as vegetables are concerned, and may be to some extent in fruits, as is the case everywhere. All other commodities are sold by whites. There is no doubt that the different articles are sold cheaper and that the vegetables are better, being cleaner and fresher, that is in better condition, than in other markets, observed by all. Saturday is the show day, when farmers, with their wives and children may be seen, with may be a pig cut up into suitable sizes, the wife with dressed fowls and baskets of eggs, and various kinds of small fruits, all spread out on the table for your inspection and at reasonable prices. I noticed that the eggs were all stamped or dated and guaranteed fresh, and to crown all, the price of all these commodities is about one-third less than at regular dealers, and less than half Victoria prices in case of many articles, such as

vegetables and fruits. Two weeks ago when I passed through the Pike market I noted the splendid potatoes were selling at 60c. per sack delivered, and apples (not very large, but sound and of a red variety) were 50c. per box. The average price for larger kinds was from 75c. to \$1.25. In the covered part of the market were sold meats, fruits and dairy produce, cooked meats, bacon and bread and pastry. Meals even were served at noon. All this applies to the other markets, but not to the same extent. Of the public markets of the Pacific Coast from Los Angeles to Seattle, the latter is the greater success and prices lower. Last year I read in the Seattle papers that certain owners of orchards had aired their grievances in the newspapers to the effect that they had for the last three years carried on business as orchardists at a loss through the poor prices obtained from the wholesaler who acted as middleman, they contending that the latter only allowed them 50 per cent. of the price obtained from the consumer. Not being able to do better with these gentlemen they rented stalls in the public market, advertised, and sold their fruit direct to the consumer. This brought them a profit, and the consumer got the fruit much cheaper.

With respect to the project of a public market for Victoria there can be no two opinions. It is the right thing, if properly carried out with the full cooperation of producer and consumer. I would suggest that the goods be sold at lowest cash price without delivery. If latter is required, charge for it extra. I understand that at the present time there is an orchard in Saanich who has over 100 tons of fine potatoes which he cannot sell at a fair profit, and is going to let them rot and use them for manure. Can this waste of good food be allowed when the price of good potatoes last week was 25c. per pound? There is something rotten in Victoria as well as in Denmark if such a state of things exists.

EDGAR FAWCETT, Victoria, April 7.

THE WOMEN'S CAMPAIGN.

To the Editor:—A local sheet known as the Week does not consider it a matter of serious importance that a lady should be molested on a street in the best residential part of Victoria. There has been much of late in the Week to offend its numerous lady readers, quite apart from the Woman's Suffrage question. It is hard to fathom the cause of this unpleasant attitude. We have no militant suffragettes in Victoria, to smash the windows of the Week's office, and it should be fairly recognized, both by the press and public that the Women's Political Equality League is conducting its campaign in a dignified womanly manner in spite of the fact that a fair publicity in the daily press has been denied them (the reason for the commencement of militancy in England). I cannot see that the women of Victoria have done anything to warrant an uncharitable attitude.

Thanking you for past courtesy. Yours truly, MATEE FAMILIAS, Victoria, April 5.

PASSING SHOW

Cleopatra.
Helen Gardner in Cleopatra: the most beautiful motion picture ever made. The story of the most remarkable woman in history. It is crowded with effective incidents from beginning to end. There is no lapse of interest at any stage of the production. One critic has said: "I rose from the exhibition as I might after watching and hearing a great stage performance." The picture is of high educational character and is one that will not jar the finest tastes. Each of the six parts is in itself a beautifully conceived picture. This picture will be shown at the Victoria theatre Tuesday, Wednesday and Thursday, April 8, 9 and 10.

William H. Crane will be presented at the Victoria theatre this evening in Martha Morton's comedy of current life, "The Senator Keeps House." Joseph Brooks will offer the delightful satirical comedy in what has been generally recognized as the happiest comedy he has offered within the past several seasons. This was the verdict of New York during four months at the Garrick theatre.

There are many significant details associated with his current success that would take too long to recount, but the chief points are that "The Senator Keeps House" is the sort of play in which William H. Crane is entirely at home, and which gives his host of admirers a glimpse of him at his best. It also represents Mr. Crane once more as a member of the United States senate. Those rugged and homely qualities which Crane infuses into every character he portrays are elaborated upon in this instance, and he brings to bear all the charm of his personality and fine art to make them appealing in the dramatic sense.

Majestic Theatre.
"The Grim Toll of War," spectacular civil war drama in two parts, is a feature on the Monday and Tuesday bill. "Cinderella's Slipper"—she loses it. Her lover finds it and it leads to their reunion and marriage. "Hydrogen," a rare picture showing how hydrogen gas is made. "The Valley of the Lauterbrunnen"—on the same reel are fine views of mountain scenery in Switzerland. "Over the Phone"—comedy. "The Granja," a hand-colored

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Avoid stirring up dissensions and try to accomplish results without disturbing the plans of others. Your next year will be a busy one.

Those born to-day will be energetic and fond of sport, but will lack certain balance of judgment necessary to a successful career. Patience with others and a habit of looking from their viewpoints should be taught them.

TO-DAY IN CANADIAN HISTORY

Upon this date, in 1868, the whole country was shocked by the news of the murder of Thomas D'Arcy McGee upon the steps of his lodgings at Ottawa, just after he had left the House of Commons, where he had been speaking in his usual eloquent fashion. Of Irish birth, he had lived long in the United States. In his younger days this eager poet and journalist had been an ardent, and sometimes rash, advocate of "Home Rule for Ireland." But, as he grew older, he had changed his views, and settling in 1857 in Montreal, had speedily become one of the notable figures in the public life of this country. As Minister of Agriculture he had attended the several conferences at which the union of the provinces was discussed. In and out of parliament he had been an untiring advocate of Confederation, and perhaps did more than any of his colleagues to kindle the enthusiasm of the people for the idea. He was still in the prime of life when his days were cut short by the assassin's hand, because of his refusal to give his countenance to the wild schemes of the Fenian Brotherhood.

SOME PHASES OF OGDEN POINT LANDS

Mayor Morley's Letter Re-opens Important Negotiations

WOULD GOVERNMENT HAVE INSISTED ON TRANSFER?

Letter Shows That Precautions to Safeguard Public Are Alone Needed

COMMISSIONERS HAVE RESUMED INQUIRIES

Royal Commission on Agriculture Holds Session at Saanichton To-day

The full significance of the letter of Mayor Morley with regard to the transfer of land at the outer wharf to the Dominion government for the harbor works has not yet been realized. What the mayor had in view was not a repudiation by the city of the obligations undertaken last year, but some security that the lands would revert to the city when the construction of the breakwater at Ogden Point was completed. Nothing in the mayor's letter conveys the desire to repudiate a bargain.

The mayor contends that it would have been sufficient for the city to have conveyed to the Dominion government the lands in trust for the purposes for which they were required, namely, for harbor works, until such time as the works were completed. He holds that this temporary conveyance was merely necessary for the purpose of using lands held in trust for public for a different object, and should not have been a permanent conveyance. The lands will be enormously valuable when the breakwater is built.

Will Be Valuable

This presents another aspect of the case which cannot be overlooked. The whole tendency of politics in the Dominion is to take powers from the municipalities and vest them in governments, who thereby gain increased powers to secure their positions through political patronage. When the breakwater is built the lands, some 19 acres in extent, will be enormously valuable. They must be by the nature of things, the site of bonded warehouses and other works employing labor which will be vested in the Dominion rather than the city, thereby increasing the patronage of the government at the expense of the municipality.

On the other hand the question arises whether the department would have taken the lands without a clear title. On behalf of the minister proceedings were taken under the Expropriation Act of Canada by H. B. Robertson last summer, and the plan was filed for the minister in the local land registry office under that Act. It is not the practice to build permanent public works on any lands except those owned by the crown, although there is an exemption clause in this act which enables lands to be occupied temporarily, such as Mayor Morley doubtless desires in this case.

Impression Held

The impression which is understood to have been conveyed at the time by the representatives of the government was that the ministry would not build the breakwater without a conveyance being executed in its favor, although the application made to the then mayor was made without knowledge that the act provided for temporary occupation of lands for public works purposes.

The provincial government wishes its hands of the negotiation, saying that the amendment was merely a fulfillment of the city's petition prepared by City Solicitor Robertson to have the lands transferred.

Text of Letter

Accompanying is the mayor's letter, which shows that the application is of a precautionary character.

"In order to assist in the bringing about of the breakwater improvement of the Dominion government on the Dallas road waterfront, the city council of last year passed a resolution petitioning the government to enact a bill, entitled 'Act to amend the Cemetery Ordinance, 1878,' whereby certain waterfront lands on Dallas road, formerly vested in the city, might revert to the Dominion government by an order of council (see section 3 of the act), said lands to be included in the scheme of outer harbor improvement. I am informed that the said order in council has not yet been made or registered.

"I would recommend that the council immediately request the provincial government to proceed no further in regard to this matter, pending an application by the city to the Dominion and provincial governments regarding the ownership of the said lands.

Not Necessary

"In my opinion, it was entirely unnecessary for the city to further its rights to these foreshore lands, representing a value of some two million dollars, in order to obtain improvements by the Dominion government to the value of \$1,500,000, any further than during the period of the improvement.

"The future of New Westminster, from a shipping standpoint, has been immensely improved by their foresight in obtaining an extensive waterfront under city ownership, on account of which they are experiencing no difficulty in obtaining further foreshore grants from the Dominion government, as well as extensive assistance in the nature of harbor improvements, which the city will continue to own and control.

"Except for the street ends, and one or two small pieces of frontage, and the electric light station and the city's yard, the city of Victoria commands no waterfront lands available for city-owned or controlled docks or wharves, except that which can be

utilized on its frontage on the Dallas road, which frontage extends from the outer wharf property and including the cemetery, the piece of which frontage in question is, at this time, the most valuable.

Should Lose No Time

"In my opinion, the city should lose no time in duplicating the work of New Westminster and other cities, the most important phase of which, at the present moment, is the winning back of a piece of waterfront land now forming part of the outer harbor improvement, by obtaining the approval of both governments to the non-enactment of section 3 of the act, and by rescinding of whatever action has been taken in regard to the alienation of this land from the city, to take effect at the completion of the work now undertaken and any additions thereto by the Dominion government. If the matter is properly presented I feel sure that there will be no difficulty, providing a properly constituted board of harbor commissioners is appointed or elected to safeguard all matters of proper expenditure of public moneys, collecting revenue, and management of public-owned harbor works and facilities.

"In closing, it is hardly necessary for me to call your attention to the immense benefits which naturally accrue to a city which can exert a control over matters of this nature, for the encouragement of shipping, as well as the producing of revenue for further development in this direction."

CONFERS WITH GOVERNMENT.

Member for Ymir Arranging for Public Works Expenditure in District.

James Schofield, member for Ymir, is at the Empress hotel having come here to confer with the government regarding public works in his constituency. This year he secured \$170,000 for highway construction in his district, and \$110,000 for bridges.

"Everything looks bright in Ymir district," he said this morning to the Times. "There is plenty of employment for everyone and the mining situation is better to-day than it has been for years. All the old properties are doing well and several bright prospects have been opened up. We are pushing the construction of new highways and doing everything we can to improve the transportation facilities of the district."

START NARROWS TRESTLE.

Expected That Wood Stave Pipe Will Arrive From Mainland Shortly.

City Engineer Rust said this morning that a commencement had been made on the construction of the trestle across the Narrows of Victoria Arm at Harriet road, and that the work would be done during the present week. The department is also expecting the wood stave pipe to arrive from the mainland in the next few days.

MEETINGS

Banquet to Honor Major.—The members of No. 3 Company of the Fifth Regiment will hold a banquet on Wednesday evening in the Balmoral hotel in honor of Major Harris, who has done such splendid work in the artillery practice. The proceedings, which will commence at 8 o'clock, will consist of speeches and songs, and during the evening the company will extend their congratulations to the Major upon his recent promotion from the rank of captain.

Veterans to Meet.—No. 34 Company of the Imperial Veterans of Canada, will hold a meeting in the city hall this evening at 8 o'clock.

Regiment to Parade.—At the parade of the 2nd Regiment, C. G. A., at the drill hall this evening at 8 o'clock the Duke of Connaught's cup for general efficiency among coast defence battalions will be presented to No. 4 company. All members and recruits are required to attend.

Automobile Association to Meet.—The annual business meeting of the Victoria Automobile Association is to be held to-morrow evening at 8 o'clock at the club room, 1199 Port street. Officers will be elected.

Summer Association.—The fortnightly general meeting of this society will be held to-morrow evening at 2025 Blanchard street at 8.

Ladies' Auxiliary, Seaman's Institute.—The Ladies' Auxiliary of the Seaman's Institute will meet at the Empress hotel to-morrow morning at 11 o'clock. A report of the recent entertainment will be given.

St. Paul's Vestry Meeting.—The annual vestry meeting of St. Paul's church, Esquimalt, will take place on Tuesday, April 15, at 3 p. m.

St. James' Auction Social.—The Women's Guild of St. James' church will hold an auction social on Thursday evening, April 19, at the rectory, 215 Quebec street.

Daughters of the Empire.—To-morrow afternoon there will be a special meeting of the General Chapter of the Daughters of the Empire for the purpose of making arrangements in connection with the "Old English Fair," which is to be held in Empire Day week next month. The meeting will take place at the residence of Mrs. Curtis Sampson, Oak Bay, at 3 p. m.

Island Arts Club.—A general meeting of the Island Arts and Crafts Club will take place at the Alexandra Club at 8:30 p. m. on Wednesday evening, April 9, when Miss Lang will read a paper entitled "Notes on Bookbinding."

J. G. C. Wood, member for Alberni, leaves for his constituency on Wednesday.

LISTS CLOSE FOR ELECTORAL REGISTER

Last Day to Register Brings Many Applications; Hindus Are Refused Admission

To-day the last claims are being made throughout the province in connection with the provincial voter's lists. The city list, it is expected, will run to between 10,000 and 11,000 names. The Saanich lists will show an enormous increase, and in Esquimalt the party agents estimate some 1,300 to 1,400 names, of whom two-thirds are in Esquimalt township.

Three Hindus, Shri Singh, Kapoor Singh and Lal Singh applied to-day to a notary public for registration as British subjects. They hold property, two being really men, and another an ex-soldier in the Indian army, and they are well known in the Hindu colonies of British Columbia.

Refusal to register them was taken under the amendment of the Provincial Elections Act, which says:

"Chinamen, Japanese, Hindus and Indians are disqualified and prohibited from voting at any election, and from making application to have their names inserted in any register of voters."

The men are greatly annoyed.

PREACHES LAST SERMON

Rev. Dr. D. McRae Bids Farewell to St. Paul's Presbyterian Congregation.

Rev. Dr. McRae, for the past 27 years pastor of St. Paul's Presbyterian church, Esquimalt, last evening preached his farewell sermon to a congregation which filled the auditorium of the church to overflowing. Dr. McRae, who also conducted the morning service, gave a brief sketch of his life, and concluded with an expression of his appreciation of the support which had been given him during his many years with the church. Rev. Leslie Clay will act as moderator until the appointment of Dr. McRae's successor.

BOYS LIKE TENT.

Canva Institution is Now in Operation at Boys' Central School.

The tent which has been constructed to relieve the situation at the Boys' Central school was brought into use this morning, and proved warm and comfortable. The boys describe it already as "the construction camp," and seem rather glad to be under canvas. The two rooms at the McGill building will also shortly be available.

Y. M. C. A. WILL ENTERTAIN

Will Play Host on Wednesday Evening to All Young People's Societies of City.

On Wednesday evening of this week the Y. M. C. A. is to hold a big Co-operative social to which every young people's society in the city has been invited. The association social committee is in charge and under the direction of Secretary Witham there are four departments, each of which is preparing for a monster crowd. The chairman of committees are: Advancing, R. E. Crompton; programme, H. S. Young; reception, G. C. Pauline; refreshments, W. G. A. Shadwell.

Those societies which have not received a direct invitation are expected to accept this intimation and be present in large numbers. The social is a new departure, being called a co-operative social from the fact that the lady visitors will furnish the cakes, etc., for refreshments, thereby co-operating with the Y. M. C. A. in furnishing social pleasures for large numbers of citizens.

OUR LETTER BOX

THE PROPOSED QUADRA STREET CAR LINE.

To the Editor:—I understand there is some talk of running a new car line from Pandora avenue north along Quadra street to Bay street, and against this there is a "sounter" proposal to run the branch instead from Douglas east along Bay street.

Though I have no property interests in either direction the latter seems to me decidedly the more reasonable and desirable for the reason that three churches have located on Quadra street partly to get away from previous noisy locations, and get a street that seemed likely to be moderately quiet, and I know that the clergy and wardens of St. John's are strongly opposed to having the old nuisance repeated, in which I think they will be warmly supported by the congregation, the same will no doubt be the feeling of the other churches representing in all about 2,000 people. On the other hand if the line were run from Douglas street it would pass the entrance to the new drill hall, and would be of great convenience in the future to several hundred men attending to their militia duties.

Yours,
W. RIDGWAY WILSON.

SOL DUC HOT SPRINGS HOTEL NOW OPEN

The management announces that the Sol Duc Hot Springs Hotel is now open to the public. The attendance last year was gratifying—unprecedented almost, for the first season.

Improvements have been made during the past winter which will add materially to the high standard already established by the institution. A number of cottages, first class in appointment, have been built, and are available for those who prefer them to quarters in the main hotel. A large number of tents, comfortably fitted up with all modern conveniences, are also in readiness for the use of guests who like the outdoor life.

A large assembly hall has been erected, and will be used for various purposes, as well as for dancing and amusements of various forms.

It is further announced, that the hotel will be kept open the year round hereafter.

The hot mineral water of SOL DUC springs has proven so efficacious in the treatment and eradication of human disorders that it has become necessary to keep the hotel sanatorium, etc., open for the entire year.

In addition to the medicinal virtue of the water, the scenic attractions of Sol Duc, and the winter sports which are to be made a feature of the institution, will add largely to its popularity. Every provision for the lovers of such sport, skiing, tobogganing, etc., will be provided.

Steamer Sol Duc leaves Victoria daily, except Sunday, at 11 a. m. arriving at Port Angeles, Washington, at 12:30 p. m., from which point direct connection is made with automobile stage line. Time from Port Angeles to Sol Duc Hot Springs, four hours.

For full information and descriptive literature, address the Manager Sol Duc, Clallam County, Washington, or 697 American Bank Building, Seattle, Washington.

POLICE UNIFORMS AND MOTORCYCLE

Tenders will be received by the undersigned up to 4 p. m. on Monday, April 14, 1913, for the following undermentioned articles:

1 Deputy Chief's Uniform, 1 Inspector's Uniform, 3 Sergeants' Uniforms, 3 Jailors' Uniforms, 2 Drivers' Uniforms, 4 Mounted Constables' Uniforms, 3 Constables' Uniforms, 1 Motorcycle, not less than 7 h. p.

Specifications may be seen at the office of the City Purchasing Agent, to whom all tenders must be addressed and marked on the outside "Tenders for Police Uniforms, or Motorcycle." Each tender must be accompanied by a check for 5 per cent of the value of the tender. The lowest or any tender not necessarily accepted.

W. GALT,
City Purchasing Agent,
City Hall, April 7, 1913, Victoria, B. C.

Do Not Confuse this, the real Bankrupt Stock Sale, with other so-called "Assignees" Sales.

Victoria Bargain Clothing House

1419-1421 DOUGLAS STREET (Near City Hall)

BIG BANKRUPT STOCK ON SALE at the Victoria Bargain Clothing House. Come!

OBITUARY RECORD

The funeral of little Lillian Iona Robertson, the 14 months old child of Mr. and Mrs. Chas. Robertson, 1055 Hilda street, took place at 10:30 this morning from the family residence, Rev. J. B. Warnicker officiating.

The funeral of the late Mrs. Cora May Hughes, wife of Jacob M. Hughes, of 1043 Burdette avenue, took place on Saturday afternoon from the Sanda-Fulton parlors at the First Baptist church, where Rev. J. B. Warnicker conducted the services. The pallbearers represented the various unions to which the deceased's husband belonged. They were Messrs. L. F. Tait, H. F. Bishop, R. T. Williams, Chas. Gardiner, J. J. Wachter and F. LeRoy.

The funeral of the late Miss Matilda Mary Miles took place on Saturday afternoon from the residence of Dr. and Mrs. Richard Nash, 1005 Pemberton road, where a short service was conducted by Rev. Robert Connell, and half an hour later from Christ Church Cathedral, where service was held at 2:30. The services were choral, the hymns being "Peace, Perfect Peace," and "Where the Light Forever Shines." There was a large attendance of the deceased's friends and pupils, and also a big representation of the various musical organizations in the city. Among the many beautiful floral tributes that covered the casket were two wreaths from the Ladies' Musical Club, a harp from Miss Miles' pupils, a harp from the Victoria Choral Society, a wreath from the Arion Club, and a cross from the congregation of St. Saviour's church, for which she was organist for some time. The following acted as pallbearers: Messrs. G. White-Fraser, C. E. Elderton, C. C. Pemberton, B. Parker, Dr. Nash and H. Garnett.

The death occurred last Thursday of James Fleming, aged 33 years. The deceased was a native of Ontario, and is survived by one brother W. P. Fleming, of Calgary.

IRREGULAR SESSION

INDUCED BY BEARS

Shorts Covering Cause Forced Market; Caution Before Tariff Announcement

(By F. W. Stevenson & Co.)
New York, April 7.—It was an irregular session for the stock market. Opening was somewhat weaker mainly induced by the bear element pressing sales at every opportunity. Later the shorts in an effort to cover were cause of forcing the market up, but hardening levels were not maintained, and the weakness of industrial issues, particularly C. & O. gave an uneasy tone to the bulk of the list.

Table with columns: Bid, Asked, and various stock symbols like Amal. Copper, Ann. Beet Sugar, etc.

NEW YORK COTTON.

Table with columns: New York, April 7, and various cotton grades like Jan., May, July, etc.

NEW YORK SUGAR.

New York, April 7.—Raw sugar steady. Molasses, 80 cent. centrifugal, test, 4; molasses sugar, 79; refined sugar quiet, crushed, 5.25; fine granulated, 5.25; powdered, 5.45.

NEW YORK MONEY.

New York, April 7.—Money, on call steady, 3 1/2 per cent. calling rate, 3 1/2; closing bid, 3 1/2 per cent. offered at 4 per cent. Time loans steady, 60 days, 4 1/2 per cent.; 90 days, 4 1/2 per cent.; 60 days, 4 1/2 per cent. Prime mercantile paper, 3 1/2 per cent. Sterling exchange steady at a decline with actual business in bankers' bills at 48.25 for 60 days, and at 48.10 for demand. Commercial bills, 48.25. Bar silver, 50c. Bonds—Governments steady, railroads heavy. Mexican dollars, 47c.

CANADIAN STOCKS.

London, April 7.—The following are the quotations of the active provincial and municipal stocks: Province of Manitoba, registered 1909, 5-97; province of Ontario, 1907, 4 per cent., 94-96; province of Saskatchewan, registered 1907, 5-96; Hamilton, 1915, 4 1/2 per cent., 93-105; Montreal, 1905, 5-96; Ottawa, 1908, 5-96; Vancouver, 1908, 4 per cent., 91-93.

CAPETOWN STOCK ISSUE.

London, April 7.—Capetown cables to-day say that the result of the new Capetown issue has been received with surprise. The issue was 4,000,000 pounds sterling, 4 per cent., at par, and 98 per cent. was left with the underwriters. The result is regarded as a record, especially as the South African Union, because of the infrequency of its appearance in the London market, has a high reputation as a borrower.

NEW LOANS ASKED.

London, April 7.—Prime Albert's issue of 100,000 pounds sterling 4 per cent., 98 tentures at 96 is advertised to-day. Such price almost spoils the market for others. A prominent Canadian financier, Manitoba's success of last week, however, is certain to encourage similar borrowers. The city of Hobart, Tasmania, asks to-day for 250,000 pounds sterling in 20-year 4 per cent. debentures at 100. Southern Alberta Land Company will shortly issue 250,000 pounds sterling 6 per cent. debentures at 98.

LOCAL PRICES KEEP

SATURDAY'S LEVEL

Boston and New York Markets Affect Granby With Victoria Investors

Victoria, April 7.—Prices were firm on the local stock exchange to-day, and generally speaking kept the levels of Saturday. Granby Smelter was slightly off on the indecisive trend of Boston and New York markets, and Corporation Gold was rather weaker with sellers not below .95. The trust issues, notably Great West Permanent and Albion Trust showed a steady enquiry. Mining stocks were amongst the quietest of the list, and had an easing tendency.

Table with columns: Bid, Asked, and various stock symbols like Albion Trust Co., Balfour Patents, B.C. Life, etc.

SAN JUAN MANUFACTURING CO.

This company stock was quoted in the financial columns of 4th inst. at selling at 50c. The price is 50c, which is the lowest at which stock can be bought. The company's works in Victoria West manufacture a household cleanser, a mechanical soap, a metal polish and a store and shoe polish, and the business is forging ahead in a very encouraging way.

WHEAT UNCHANGED FOR MAY BUYING

Eighth Off for July With Later Advance for Both Months

Winnipeg, April 7.—The market opened unchanged for May, 1/8 off for July, but strong cables and a generally good demand caused a very strong and active market, and both May and July wheat advanced a fraction over one cent, closing 1/2 cent higher than the opening. A decline in American visible gave additional strength. Oats are steady and flax a little changed but fairly active. There is a very good cash demand with offerings more liberal, and the export outlook is steadily improving. Receipts for two days are about average, 75 cars inspected and 200 in sight.

WHEAT—Open, Close

Table with columns: May, July, and various wheat grades like No. 1, No. 2, etc.

OATS—Open, Close

Table with columns: May, July, and various oat grades like No. 1, No. 2, etc.

FLAX—Open, Close

Table with columns: May, July, and various flax grades like No. 1, No. 2, etc.

PRIMARY MOVEMENTS

Receipts—To-day, Last Year. Wheat 236,000 271,000. Corn 258,000 228,000. Oats 270,000 231,000.

Shipments

Wheat 212,000 213,000. Corn 244,000 218,000. Oats 262,000 263,000.

STOCK FLASHES

New York—Anaconda Copper Co. has declared the regular quarterly dividend of 75c per share, payable April 14, to stock of record April 8.
New York—In the first two weeks of March, Northern Pacific's gross earnings were about \$23,000 ahead of the same two weeks of last year.
New York—Pennsylvania Railroad Co. and allied companies have taken their quota of New Norfolk & Western bonds.
New York—The Great Northern railway Co. has declared the regular quarterly dividend of 12 per cent., payable May 1, to stock of record April 12. Books do not close.
New York—Net earnings of Union Pacific after taxes for last fiscal year show an increase of 2.47% from a year ago, amounting to \$1,000,000.
London—Copper close: Spots, 68 1/2 off 70; 60-day, 1.50; 3-month, 1.50; 6-month, 1.50.
New York—Tea, Ceylon, shows 11.92 per cent. earned, against 8.14 per cent. last year.

BUENOS AYRES HAS

INFLUENCE IN WHEAT

Steady Market at Chicago Follows Firmness at Argentine Metropolis

(By F. W. Stevenson & Co.)
Chicago, April 7.—The wheat market opened steady influenced by the firmness in Buenos Ayres, strength in America and Canada on Saturday, and firmer Platte offerings. Interest centered chiefly in May option, which ran up easily on any buying, and showed a gain of one cent at the close. Later crop months were stronger, but acted quietly. World shipments were heavy with a large amount to the United Kingdom, but this only served to check the advance in part, and the approach of the official crop report which is anticipated will be bearish was offset by action in Paris and unfavorable weather in Russia and France.
Light receipts of corn and the activity of bull leaders advanced prices to the highest level of the season. Close was only fractionally off from the high point of the day.
Oats were correspondingly firm.

GRAIN FLASHES

Chicago—World's shipments: Wheat, 15,488,000 bushels; corn, 2,984,000 bushels; Russian, 2,362,000 bushels; Danube, 90,000 bushels. Wheat on passage, increase 2-4,200,000 bushels; corn, decrease 502,000 bushels.
Minneapolis—Very good export demand reported from head of the lakes, and way there is a little wheat being worked every day.
Trafalco stocks, total decrease of wheat, 64,000 bushels.
Clearances: Wheat and flour, 546,000 bushels.

WHEAT RECEIPTS

Table with columns: To-day, Last Year, and various wheat grades like Minneapolis, Duluth, etc.

INDICATES THE NEED OF BETTER SERVICE

EXPENDITURE BY-LAW IS ADOPTED TO-NIGHT

About \$1,600,000 Will Be Required From Land Taxation to Meet Expenditure

The select committee of the Saanich council reported on Saturday to the council on the Garden City water question, which has been a subject of some feeling in the district for two years. It was charged that the vendors of the subdivision, McPherson and Fullerton—Brothers, had improperly acted in connection with the matter. The committee, while criticizing minor details of their actions, clears the reality of bad faith in their acts. The information upon which the committee's finding is based was taken at a meeting on March 26. The report is signed by Councillor Williams, chairman, and Councillors Dunn and McGregor.

In Good Faith.

Referring to the lateral laid in Garden City by McPherson and Fullerton Brothers, the report says: "We are of opinion that this firm by laying these laterals did so in perfectly good faith after taking care to protect themselves by obtaining a guarantee from the city authorities that the latter would not connect any individual in the subdivision wishing to make use of these laterals until such persons had satisfied the claim of the firm for the pro rata cost of laying these laterals." While strongly condemning such method, still from the fact that no provision was made in the by-laws for laying these laterals, and obviously the use of the mains without them would be limited to those property owners immediately adjoining same, we fall to see what other course was open at the time that taken by this firm in order to supply the whole of the subdivision with water from the main. And, further, we consider the amount levied upon the property owners by the said firm a fair sum to cover the cost of laying these laterals."

Recommend Disconnection.

After discussing various water connections which were the subject of evidence, the report refers to Garden City park.

The committee in this connection says: "We find that Messrs. McPherson and Fullerton acted entirely without authority in extending the laterals from Garden City to Garden City park, which latter is outside the assessed area. We see no alternative but to recommend that these extensions be entirely disconnected."

The report ends: "We are of opinion that this inquiry has brought out important facts which prove that the existing troubles are the result of the inadequate methods of water supply at present existing, and clearly show the importance of the immediate undertaking by the municipality of Saanich of a comprehensive system of water supply for the residents of these districts."

Free Treatment for Skin Sufferers!

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of skin and hair will be sent post-free on application to "Cuticura," Dept. 32, Boston, U.S.A.

ENCOURAGING BOYS AT RIFLE SHOOTING

Imperial Competition for Senior and Junior Teams; Limited to Youths Under 20

Under the auspices of the National Rifle Association a competition open to the British Empire will be held in May and June of this year on ranges within the Empire for the Imperial Challenge Shield. This competition is divided into two classes and has in view the encouragement of all boys throughout the British Empire to learn how to use a rifle.

There are thirty prizes and also grants towards cost of ammunition to teams unsuccessfully shooting for prizes and medals. The strength of each team is limited to eight, the distance being 20 yards. Any single loading rifle taking 22 ammunition is permissible for two sets of ten shots each at 200 and 500 yards.

The following units are entitled to send teams: (a) any company of an officers' training corps; (b) any cadet company or corps; (c) any school (not having an officers' training corps or cadet company); (d) any troop of Boy Scouts; (e) any company of the Boys' Brigade; (f) any company of the Church Lads' Brigade; (g) any company of the London Diocesan Church Lads' Brigade; (h) any company of the Catholic Boys' Brigade; (i) any company of the Jewish Lads' Brigade; (j) any organization of boys with objects similar to those of the above organizations and subject to the approval of the N. R. A.

The teams are limited to youths under 20 years of age on June 30, 1913. The result of the competition will be known in September, by which date all colonial scores will have been received from the overseas dominions.

CHILDREN'S CHAPTER FORMED.

"Rainbow" Branch of Imperial Order of Children of the Empire Organized at Esquimalt.

An interesting event took place on Saturday afternoon at the home of Mrs. A. R. Wolfenden, Head Street, Esquimalt, when the "Rainbow" Chapter of the Imperial Order of the Children of the Empire was organized by Mrs. R. S. Day, hon. organizing secretary of the Imperial Order of the Children of the Empire. Twenty-two children of the district signed the roll as charter members, and the following officers were elected: Regent, Mrs. J. Fortescue; President, Miss Baugh Allen; Treasurer, Miss Hort; standard-bearer, Miss Betty Falter. The first work to be undertaken by the newly-formed chapter will be the care of the long-neglected graves of the soldiers and sailors; these the children will tend during the summer months, and will set out with shrubs and flowers, the first excursion to take place next Saturday, weather permitting, under the care of the officers of the chapter.

SEE
By GEORGE MATHEW ADAMS

There are two ways of Seeing. One with the Eyes and one with the Mind. Helen Keller recently stated in a public address that there were many people more Blind than she. She was right. The Blind are those who WILL NOT see.

Keep your Eyes and Mind wide Open.

Joseph Pulitzer, the late Blind Editor of the New York World, made his newspaper great not until after he became Blind. Prescott wrote his great Histories with Sightless Eyes. P. S. Henson, the great Preacher, with but one Eye, has seen more and learned more than most people would with a dozen Eyes. The Blind many times See most.

Keep your Eyes and Mind wide Open.

Use your Eyes. See Things. And after you see them, make Friends out of them. No two people See Things exactly the same. Walt saw Latent Power in the Steam that came out of his mother's Tea Kettle. Franklin saw another kind of usefulness stepping from the tail of his Kite. The followers of these men saw enough from what they saw to adapt it and force Civilization ahead by scores of years.

Keep your Eyes and Mind wide Open.

Many of the really Big Things in this world have not yet been Seen. You, at your humble task To-day, may See some of them, or shadows of them.
