CLASSIFIED INDEX

An index in which each work included in this catalog is listed under a heading descriptive of its medium of performance or special character. For each entry the name under which it will be found in the first section is given first, followed by the filing title or the title given in the work, or both.

PREFATORY NOTE

The Classified Index is designed to meet the needs of those who are searching for music for performance, or for music of national characteristics or special subject interest. The headings have been selected and the list of headings constructed on the principle of using specific headings insofar as possible, e.g., "Opera," not "Dramatic Music-Operas." However, headings of broad scope with subdivisions for specific types have been used when the headings are so closely related as otherwise to require numerous cross-references or searching under widely separated headings, e.g., "Chamber music - Quartets - String instruments" not "String quartets."

The headings are arranged alphabetically. When subarrangement is necessary, it is sometimes in an alphabetical order of categories (see "Juvenile music") and sometimes in a logical order (see "Chamber music").

To facilitate locating the desired heading, the Classified Index is preceded by a "Table of Headings Used," citing the page number on which the list under each heading starts. Cross-references are included from headings not used, and from subdivisions of a general heading to the broad heading. All cross-references are given in the table, and are not repeated in the index itself. Examples are:

Oratorios. See Choral music - Sacred choral works
Librettos. See Operas, operettas, etc. - Librettos

Cross-references are made from one heading to another when the second covers closely related material, e.g., "Orchestra. See also String orchestra."

Instructive material for particular instruments is listed under the name of each instrument, e.g., "Violin instruction." Material which is predominantly textual, such as histories, biographies, and works on appreciation, theory, etc. will be found in a separate section at the end called "Books and Pamphlets."

The entries in the index constitute brief references to the main entries in the first section of this volume. The entries consist of the name of the author followed by the title page title, or the filing title and the title page title. Each entry in the index is represented by an entry under the composer in the main section, where any other editions registered in the period covered by this catalog will also be found.

The abbreviations used are: acc.-accompaniment; unacc.-unaccompanied; arr.-arranged.

CLAIMANT INDEX

An index to claimants of copyright, as given on the applications, of all works listed in this catalog, arranged alphabetically under the distinguishing word in the claimant's name, e.g., Lochner, Louis P.; Elkan-Vogel Music Corp.; Marletta (Edizioni); Schirmer (G.) inc. Forenames or initials used as part of a firm name are placed within curves when the name is written in inverted form, e.g., Disney (Walt) Music Co., Fischer (J.) & Bro. Names of publishers, other firms, and organizations are followed by their addresses. When the claimant is a firm, its name is followed by 1) the name under which the work will be found in the first section and 2) the filing title or the title given in the work or both. When the claimant is a person and is also the author, the title of the work only is given; if he claims works written by others, the treatment of names and titles is the same as for firms.

REMOVAL OF DEPOSITS FROM
COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1955, any article of the following named classes of published works deposited for copyright between January 1, 1951, and January 1, 1952, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.50 per issue, \$3.00 per year.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used in the registration numbers to distinguish the classes, and the prices of the semi-annual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee

specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should

be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

In the following table, the symbols listed represent the materials principally contained in each part; for other materials, including renewals (always designated by the symbol R), which may be included in a particular part and for a more complete statement of contents, the respective "How-to-Use" section should be consulted. In a registration number a zero immediately following the symbol, i. e., AF0, EF0, indicates that two copies of a foreign publication have been deposited with a catalog card and application for registration, under the provisions of section 215 of Title 17 of the *United States Code*.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PART 5A

Published Music (Part 5A) lists domestic and foreign published music and selected unpublished music currently registered in Class E, also music materials registered in Class A and as contributions to periodicals in Class B. Each registration is described in a main entry and cross-references are provided to facilitate the location of the main entries.

Part 5A consists of four sections: 1) a list of main entries arranged alphabetically under the name or title appearing at the beginning of each entry (interfiled with the main entries are cross-reference entries beginning with other names for which a searcher might look; in each case, the cross-reference refers the searcher to the name or title under which the main entry can be found); 2) an index to the titles given in the main entries; 3) a classified index, in which each registration is listed under the medium of performance of the work, or, when the music is of a special type, under an appropriate subject heading; and 4) an index to the names of the copyright claimants as given in the applications.

The main entries are usually listed under the names of the persons principally responsible for the music (composer, compiler, arranger, editor), but, in some instances, a work is listed under its title. Cross-references are made for the names of other persons associated with the creation of the works, such as the authors of the words, arrangers, etc. Each name is given in the fullest known form, with cross-references from pseudonyms, nicknames, and forms contrary to normal usage in the particular language, e. g.:

MARAIS, JOSEF, pseud. SEE Pessac, Joseph.

GRASSI, ANTONIO DE. SEE De Grassi, Antonio.

Each main entry includes, in addition to the name or title used as the heading, the following information descriptive of the work, if available and applicable:

- 1) Title and any descriptive data given on the publication.
- 2) Names of all persons associated with the creation of the work, together with an indication of their respective responsibilities.

- 3) Imprint, consisting of place of publication and name of publisher when the publisher is not also the claimant (when the publisher and the claimant are the same, name and place of publication appear only with the data relating to the claim of copyright).
- 4) Series title.
- 5) A note giving the medium of performance when necessary.
- 6) Price, given exactly as it is printed on the copy.
- 7) Names of authors given in the application which do not appear elsewhere in the entry.
- 8) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees.
- 9) Information contained in the application which relates to the registration of an earlier version of the work.

Filing titles are supplied in order to bring together all excerpts from one work, or to file nondistinctive titles under the name of the musical form. They are placed in parentheses in front of the title which is given on the work; for example:

*(Roberta) The touch of your hand, from the musical play Roberta.

*(Concerto, violon, no. 2) Deuxième concerto pour violon & orchestre.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries concerning the cards should be addressed to the Card Division, Library of Congress, Washington 25, D. C.

Occasionally the names of the composers and the filing titles do not appear in the work; in such cases they have been supplied in the entries from the records of the Copyright Office or from bibliographic sources.

Information relating specifically to the claim of copyright is preceded by the Copyright symbol © and includes the following:

- 1) A brief statement of the new matter on which copyright is claimed when this information is given in the application.

- 2) Name of the copyright claimant, followed by the place of publication for claimants other than individuals, unless a place of publication has been given in the imprint above.
- 3) For published works, date of publication as given in the application; for unpublished works, the day, month, and year on which the last of all the items required to complete

registration (i. e., each of the following: copy, application, and fee) was received in the Copyright Office.

- 4) Registration number.

An explanatory note is added to the main entry whenever it is necessary to indicate a variation in information which relates to the publication date or the name of the claimant as given in the application and in the copy of the work.
