MORE ATTENTION

Sound Money Men Turn Out by Thousands in the East to Impress Voters.

To be Paid to British Columbia by the Liberal Government of Canada.

Monster Parade in New York and Buffalo and 117y All Carried Flags.

Deputy Minister of Railways to Look Into the Crown's Nest Pass Scheme.

The Opinion of a London Editor Who Recently Crossed the Continent.

Report From Surveyor Ogilvie on the Find at Bonanza Creek, Yukon.

New York, Oct. 31.—The parade of sound money men started promptly at 10 o'clock. It was the largest parade ever seen in the city. On the reviewing stand at Madison Square were Governor Morton, Garrett A. Hobart, Cornelius Bliss, General Butterfield, Chas. S. Fairchild, ex-Mayor Hugh J. Grant, ex-Mayor Abram S. Hewitt, and other prominent men. Every transportation system leading into the city by land or water was taxed to its utmost capacity to bring in the thousands of people who came either to march or see the procession. They came from every hamlet, suburb and city within a radius of fifty miles. It was an exception to note any one among the multitude not carrying a flag of some size.

(From our own correspondent.)
Ottawa, Ont., Oct. 31.—Surveyor Ogilvie, who is in the Yukon district, reports a very large discovery of gold on Bonanza Creek near Fort Cahaby. He says there are 250 claims taken and room for over 1,000 claims and it would take 2,000 men to have them properly worked. In a few hours three men got \$75. One nugget worth \$12 was got on the surface. If properly prospected \$300 to \$400 can be got per day. He asked the department to look into the question of the laying out of claims so as to save disputes.

Buffalo, N. Y., Oct. 31.—The largest parade this city has ever seen, by far the largest that has ever transpired in any city outside of New York, in this state, was formed and marshalled at 2 o'clock this afternoon. It is estimated approximately that there were 30,000 in line. The weather was balmy and the streets were lined with people, the afternoon being given up by almost the entire population to holiday making. Hours before the first organization marched to the muster place, every available window in the main street was pre-empted by sightseers, and all morning the incoming trains have been laying down carloads after carloads of countrymen, eager to witness the mammoth parade in favor of sound money.

A minister of the crown stated to your correspondent to-day that there is no truth in the story sent out from Ottawa that the government intended reviewing the list of superannuated officials with a view of having some of them re-appointed. He ridiculed the report as absurd.

London, Oct. 31.—The Statist to-day prints the following cable sent by the editor, Thomas Lloyd, who recently stopped in several of the states: "San Francisco, Oct. 30.—I travelled from Chicago and St. Paul to Portland, Or. thence to San Francisco. Chicago is outwardly busy and prosperous but is really depressed. The stock exchange is closed, banks are unwilling to loan and factories are closed. There are numbers of unemployed; street beggars are numerous, all being anxious for the winter. St. Paul is also depressed, but had more hope from the rise in wheat in the northwest. There is suffering even in San Francisco. Party lines everywhere are obliterated. It is a fight of masses against classes. The bitter feeling in the west is against syndicates, trusts and combinations, not so much against the east. New York and Chicago hope McKinley will carry several western states. San Francisco disbelieves in several of the states. The opinion here is that the election will be very close. People are hopeful but not confident that McKinley will win. The best judges fear a continuance of unbusiness. I find no dislike towards England. Personally I am most kind received. The cool-headed say they never saw such excitement since the war. They reject all predictions. The assumed confidence of the politicians is part of the game. Bryan is personally respected. He is a fanatic, but honest. He exercises a magnetic influence over his hearers. There is not so much fear in the west as in the east of socialism and sectionalism. Altogether it is admitted that there is distress. Borrowers dislike leaders and laborers wish to restrict federal interference with state disturbances. (Signed) T. LLOYD."

A valuable discovery of corundum has been made in the county of Hastings by the geological survey. It was found on Crown lands. Corundum is a valuable stone, akin to emeralds, and at present is imported from Carolina at a cost of \$70 per ton.

CHINESE VICE-CONSUL.
Seattle Merchant Receives the Appointment for Washington.
Seattle, Oct. 30.—Chin Gee Hee, one of the leading members of the Seattle Chinese colony, has been made Chinese vice consul on this coast, with this city as his headquarters. This is one of the direct results of the increasing Oriental trade emanating from this part of the coast and as well as the reward of a special effort put forth by interested parties resident here.

(By Associated Press.)
Ottawa, Ont., Oct. 31.—To-day's Gazette contains a proclamation to prorogue parliament from Nov. 7th to Dec. 17th. The postponement is merely formal and is signed by the deputy governor.

ONE DOLLAR A YEAR.
That is What Some of the Whirlers Will Receive.
San Francisco, Oct. 30.—The steamer Jeannette, fifteen months out on a whaling cruise, has just returned from the Arctic. In a hammock in the vessel's forecastle lies Thomas Fitzgerald in a probably dying condition. The effects of a bullet wound inflicted last March when he was trying to make his way to the Yukon gold fields after deserting his ship. For seven months he has carried a 44-calibre bullet in his right side. At various times in answer to his pleading his messmates have probed his wound with lead pencils and about anything that could be used as a probe, but did not succeed in striking the bullet, and Fitzgerald has been wasting away.

SPORTING INTELLIGENCE.
Events of Interest in the Amateur and Professional Field.
CHESS.
TO-NIGHT'S GAME.
It is proposed to play a match game between sides to be chosen by two of the strongest players present this evening at the Victoria Chess club quarters, room 53, Five Sisters' block. Visitors interested in the games are cordially invited to attend. Some exciting games are expected. Play will commence at 8:30 p.m. sharp.

WANTS HIS SHARE.
Charles Fair, the Defendant in a Liberal Cause, Has Offered to Retire.
San Francisco, Oct. 31.—Notary Public J. J. Cooney, of the Fair pencil deal case fame, is going to try for some of the most famous and rich in the country as much as living. He has complained to the court that Chas. L. Fair, in his complaint filed in the courts, in connection with his answer to Mrs. Craven's suit, on Thursday falsely and maliciously libelled him and asks damages in the sum of \$200,000. Attorneys Delmas and Shortridge acting as counsel for Cooney, on his behalf, have entered two suits against Fair, each for \$100,000.

INDICTED FOR MURDER.
True Bill Against the Mass of the Herbert Fuller.
Boston, Mass., Oct. 29.—The grand jury in the United States circuit court at Boston, Indicted Herbert Fuller, first mate of the barkentine Herbert Fuller, for the murder of Capt. Thos. Nash, his wife and second mate Hansberg, on board the Herbert Fuller last July.

COULD NOT CONTRADICT.
The ingenious reasoning of children is sometimes very amusing.
The Philadelphia American gives the following:
"Elsie" said the mother, "I understand you took a second helping of pudding at Mrs. Brown's today."
"So I did, mamma."
"Do you think that was right, Elsie?"
"Yes. You often told me not to contradict and Mrs. Brown said, I know, Elsie, you will have a second helping of pudding, and I couldn't contradict her, could I?"

WANTS BIG ODDS.
Bryant Will Bet \$100,000 to \$300,000 on His Maid.
Colorado Springs, Col., Oct. 29.—W. Stratton, the cold mine owner of Cripple Creek, yesterday made an offer to bet \$100,000 against \$300,000 that William J. Bryan will be elected president. Mr. Stratton avers that if he wins he will give the money to the Colorado Springs free library and if the others win they are to have the money.

Called Out.

That is what we are doing every day—CHALLENGING competition, meeting every man, woman and child equally. No squirt guns at long range or nauseous compounds ad lib, but a straight shot at the heart of a big parcel for your money and wing our opponents every time for cash. No seconds. Market advancing, all bread-stuffs are up, flour jumping, rolled oats following suit and canned goods in the procession. We make no change in prices this week.

Dixie H. Ross & Co. Government Street.

To the Public

We, the undersigned, Merchant Tailors of the City of Victoria, do hereby declare that we never have and do not now employ Chinese or Japanese labor in any capacity in the manufacture of garments, or in any capacity whatsoever in connection with our business.
This statement is rendered necessary in view of the fact that certain interested persons are circulating false statements to the effect that the white Merchant Tailors of the City are employing Chinese and Japanese labor in the manufacture of garments.
Such assertions, when touching any of the undersigned Merchant Tailors, are absolutely false in every particular.

A DAY OF DANGER.

Adventures of Former Residents of Victoria with Mashona and Rebels.

Surrounded by the Savage Natives and Forced to Fight for Their Lives.

The Mashona rising is now to a certain extent ancient history, but the following letter, descriptive of some of its incidents is of interest, inasmuch as it was written by a lady who was not long since a resident of Victoria.

We left Salisbury at 11 a.m. on the morning of June 11, for Untall, in a passenger wagon conducted by Mr. G. Lamb, our party consisting of Mr. A. J. Dickinson, who left us at Mr. Law's, H. G. Haigh, G. Lamb and myself, also two natives and a Cape driver.

We reached Graham and White's, where we were met by Mr. J. Lamb, who had been waiting for us since we had left Salisbury.

Mr. Lamb received a wire, dispatched by runner from Headlands, instructing him to return to Salisbury at once, as it was feared the Mashona were rising.

Mr. Lamb decided to take the party to Headlands, with a message for his brother, Mr. J. Lamb, in Salisbury, to the effect that we were returning, but in case of the alarm proving false, to send more donkeys from town to meet us at Law's.

On reaching Marandellas, Mr. Lamb received another intimation from his brother, by runner, urging him to return, and not to treat the matter lightly.

We were at first rather inclined to remain at Marandellas, where there was an immense quantity of ammunition, which seemed to make that place safe, but kind fate impelled us onward.

Our progress was greatly impeded, and we were obliged to travel together, and so form a large and formidable-looking body as possible.

We reached Graham and White's early on Sunday afternoon, and here, perhaps, for the first time fully realized the gravity of our predicament.

some urging by the rest of the party. We had barely resumed our journey when the lookout cried, "Look back, the Mashona!" and sure enough, the rebels were carrying off the flour which the Count had just abandoned.

The Cape boys, who were also travelling with us, left their wagon and inspanned their oxen in front of Mr. Lamb's donkeys. With this acquisition we moved forward and continued to distinguish the rebels busily engaged in pillaging the deserted wagons.

Our attention was, however, quickly called to something of more importance, by finding ourselves fired upon from the bushes on the right.

Our party returned fire and we had the satisfaction of hearing the hideous shouts of the enemy when any of our shots took effect.

The men were now under the disadvantage of complete darkness, until later on when the moon rose.

We had two or three good dogs and these were made useful by sending them into the bush along the roadside.

Our time was fully taken up by the attacks made repeatedly upon us, the rebels fired with bullets and buckshot, which were incessantly whizzing over us, making the situation decidedly unpleasant.

At 2 a.m. a Cape boy, named Jacob Nelson, badly wounded, crawled up to the farm and had been fighting since six o'clock the previous morning.

At 4 a.m. all the men went on guard until daybreak, at which time we left our handy place of shelter. After we had gone about a mile we noticed a huge volume of smoke ascending from Law's, which led us to suppose that the dwelling had been fired upon after our departure.

FREWEN'S LETTER

Some of the Reasons Why He Believes That Bryan Will be Elected.

Republican Farmers Now Campaigning for the Free Silver Party.

London, Oct. 29.—The letter of Mr. Moreton Frewen, the well-known English economist, which appeared in yesterday's Times and was briefly referred to in last night's dispatches, has caused considerable stir in financial circles.

The letter bears date of Chicago, Oct. 17. Mr. Frewen says in part: Never before in any election was the strife of tongues, the clash of authorities so bewildering. In New York not farly the business community, but all the shrewdest political bosses are unshaken in the conviction that Major McKinley must inevitably win.

Again, one of the most astute of Democratic senators for a state which lies between the headwaters of the Ohio and Lake Erie, believes that Major McKinley will carry every state north of the Tennessee border, and east of Colorado.

Senator Jones, of Arkansas, who is the manager of the Bryan campaign, has been good enough to go closely into his electoral estimates with me. A year since, when all the Eastern press were declaring free silver to be dead, this senator was nevertheless certain that the next Democratic national convention would adopt a free coinage plan.

What are we to gather from such conditions as these? The situation seems to resolve itself into this: The South is likely to give Mr. Bryan 150, the West 100, or 210 out of a necessary 224. Therefore McKinley must carry all of the seven central states to be safe; whereas, if Mr. Bryan wins the smallest of these states (Minnesota) the presidential prize is his.

CHIEF ENGINEER AT STAFFORD'S MILLS WELL KNOWN BY HUNDREDS.

WEAKENED AND BENT

Lost Health by La Grippe—Suffered Two Years—Cured by Dodd's Kidney Pills.

Amherst, Oct. 31.—(Special)—Mr. David H. Cone is a man well known here, especially among mill hands and lumbermen. Mr. Cone was crippled by his sufferings from kidney trouble, and so remained until he met a better fate in Dodd's Kidney Pills.

"For over two years I suffered great and almost constant misery. 'La Grippe' so deranged my kidneys that I was bent and became so weak that I could, with great difficulty, drag myself to my work."

"I have not hidden my light, for I have advised more than a score of afflicted people to use Dodd's Kidney Pills. Everyone tells the same story; all praise them."

OTTAWA LETTER

Ottawa, Oct. 24.—The condition of the finances and the trade returns which appear in to-day's Canada Gazette, show that an era of prosperity has commenced to strike Canada since the Liberals took hold of office.

Take the finances in the first place. A brief summary was telegraphed you yesterday, but a more lengthened account will be of interest. Commencing with last year's figures, and Mr. Foster closed the year with a deficit of \$363,842. In addition he added to the public debt five and a half million dollars.

Table with financial data: 1894-95, 1895-96. Columns for Customs, Excise, Post office, Public works, Miscellaneous, Expenditure, Net deficits.

It will be observed that the revenue increased during the year by \$2,087,075 while the expenditure decreased \$1,028,375 leaving the deficit for the year in consolidated fund \$300,482.

There was expended on capital account during the year \$4,014,500 compared with \$4,310,838 in the previous year, an increase of about \$300,000.

During the Tory regime the public debt rolled up to an enormous extent.

The gross public debt at the end of the year 1894-95 was \$317,922,116 while at the close of the fiscal year just past, 1895-96, it was \$325,596,085, an increase during the year of \$7,673,969.

The net debt increased during the year from \$252,919,472 to \$258,528,304, a net increase of debt of \$5,608,832.

Table with financial data for 1895 and 1896. Columns for Customs, Excise, Post office, Public works, Total, Expenditures.

It will therefore be seen that the revenue for the first three months of Liberal government has increased by \$255,645, while the expenditure decreased during the same time from \$5,537,627 to \$4,062,350, or a decrease of \$1,475,277.

The net public debt was lessened from \$258,528,304 on the 30th of June last to \$254,665,028 on the 30th of September, making a decrease of \$3,863,276. During the same three months last year the debt was decreased by only \$2,330,017.

There was expended on capital account for this period \$320,581, compared with \$742,351 for the three months in 1895.

Take a glance at the trade figures prepared by the customs department. The imports for the first three months of the present fiscal year were \$32,084,242 compared with \$29,420,750, or an increase of \$2,663,492 over the returns for the same period in 1895. The increase in the duty collected was only a little over \$50,000.

As to the exports there was a similar increase. For the last three months they were \$38,642,010 compared with \$35,378,730 in 1895, or an increase of \$3,263,280. So that the result shows an increase in the grand aggregate trade of the Dominion of over six and a half million dollars.

The imports for the month of September were \$11,530,095, as compared with \$9,843,004, an increase of \$1,687,091, while the exports were \$12,626,046 compared with \$10,497,531, an increase of \$2,128,515, making for the month an increase in the aggregate trade of three and a half million dollars.

SLABTOWN. TROUBLESOME UTES.

Marauding Bands of Indians Causing Uneasiness Among Settlers.

Denver, Oct. 30.—Gov. McIntyre and State Game Warden Gordon Land have notified that 900 Indians from Utah have invaded the White River country and the settlers are becoming restless and unless the Indians are rounded up there is likely to be trouble.

In a letter from ex-Mayor Crawford, of Steamboat Springs, received at the State House, it is stated that Indians are slaughtering all kinds of game and that no hunters are also being engaged in slaughtering deer for their hides.

Those who believe chronic diarrhoea to be incurable should read what Mr. F. E. Grisham, of Garys Mills, La., has to say on the subject.

—Those who believe chronic diarrhoea to be incurable should read what Mr. F. E. Grisham, of Garys Mills, La., has to say on the subject.

HIS AIM WAS TRUE.

George Vining Kills One Man, Wounds Another, Then Suicide.

Olympia, Oct. 30.—George Vining shot and instantly killed James Jones at Shelton and wounded a man from Seattle named McIntyre, after which he turned his own rifle on himself and dropped dead from a shot in the abdomen.

For several days two characters from Seattle have been hanging around the Shelton saloon with no apparent occupation. They became engaged in a row with George Vining, and the latter got the worst of it, having a piece bitten out of his lip.

The first man to leave the saloon was one of the Seattle men with whom Vining had fought. His name was McIntyre. Vining leveled his rifle and struck McIntyre's arm, shattering the bone so that amputation was necessary.

With the first report of his rifle the lights in the saloon were extinguished, and the people scattered. James Jones

THE APPLE CROP.

Phenomenal Crops in Most of the Eastern States.

New York, Oct. 30.—Throughout the states of chief commercial production, including New England and New York, the crop of winter apples is large, according to the special report.

This authority says that the crop in New England, New York, Michigan and parts of a few other states is phenomenal. New England and New York have over 16,000,000 barrels, against a little more than 7,000,000 a year ago.

Talpalation of the heart, nervousness, tremblings, nervous headache, cold hands and feet, pain in the back, and other forms of weakness are relieved by Carter's Iron Pills, made especially for the blood, nerves and complexion.

CAPT. REED'S REPORT.

He Tells How the Arago Was Carried Against the Jetty at Coos Bay.

San Francisco, Oct. 30.—Capt. Albert Reed, master of the steamer Arago, recently wrecked at Coos Bay with a loss of fourteen lives, has arrived in this city and denies with much emphasis that he had criticised the conduct of the chief officer, H. Warner, or had blamed him for the loss of a single life, as certain published dispatches had made him do.

"I left Empire City at 7 o'clock the morning of October 29. The bar was rough and it was the first of the flood tide, and I thought there might be smooth spells and that I would go close out to the breakers, so as to take advantage of the smooth spell if it came. I was going out close alongside the jetty, as I always had done, expecting when I passed the end that the tide would set me south, as usual when flood, but instead there was a strong northerly current, which set me in close, and before I knew it, I was running north instead of south, and it was impossible to avoid striking the jetty.

HELENA CAROLINE SAFE.

One of the Schooner's Passengers Came Down on the Willapa.

Tacoma, Oct. 30.—The schooner Helena Caroline, of Tacoma, reported lost by Juneau papers of October 21, is said to be O. Naglested, one of her passengers, reports that she rounded Juneau the evening of October 21, just in time for him to catch the Willapa south.

Several times she had to lie to and spread oil on the boiling waters. A young prospector, known only by the name of Dan, who went north from San Francisco on the steamer Albion last spring, was lost on an island—say by twelve miles in size, lying in Cross Sound, at the entrance to Glacier Bay, where the schooner put in during a storm. The second day three passengers, including Dan, went deer hunting on the island. One soon returned. The other two became separated. One returned at night, but Dan was not seen after. The schooner remained a week, and every day all the passengers and the crew, except one left on watch, went out searching. They divided into parties of two and nearly encircled the island, shouting and firing their guns.

HARDY WON'T GO! Grand finale of the South Essex Campaign—"For AULD Lang Syne, ma Freen's!"

CHARLES FAIR'S ANSWER.

He Says the Deeds Held by Mrs. Craven Are Fraudulent.

San Francisco, Oct. 30.—Charles L. Fair has filed an answer and cross-complaint to the suit of ejectment filed by Mrs. Nettie E. Craven, the school teacher, who claims to be the contract widow of the late James G. Fair.

A NARROW ESCAPE.

The five and a half year old son of Mrs. Isabella Sullivan, 35 Walnut street, South, Hamilton, was placed in a precarious position last fall, the cause of which was rheumatism and kidney trouble.

DR. BROWN'S CASE.

California Congregationalists Request Dubuque to Rescind its Action.

Oakland, Cal., Oct. 30.—The Bay conference of the Congregational ministers adopted a resolution requesting the Dubuque conference to rescind its action admitting Dr. Brown to fellowship in defiance of the action of the Bay conference in suspending him.

BETWEEN LIFE AND DEATH.

For 25 Years, Says Mrs. J. D. Stoddard of Albany Park, N. J., and Two Bottles of Dr. Agnew's Cure for the Heart Restored her Lost Treasure.

For twenty-five years I have been a great sufferer from heart disease, palpitation, dizziness and severe headaches. I saw Dr. Agnew's Cure for the Heart advertised, and determined to try it.

AUCTION SALES.

By Order of the Mortgagees. Important Sale of First-Class Business Properties in the City of Vancouver, B. C.

Mr. A. S. Rankin, Auctioneer, will sell by Public Auction, at his Auction Rooms, in the Thompson-Cole Block, 425 Hastings street, Vancouver, B. C., on THURSDAY, the 12th day of NOVEMBER, 1896, at 2.30 o'clock P. M.

This property fronts 33 feet on the abutment on Water street, and is covered or partly covered with the warehouse and premises, now or lately occupied by Messrs. Major & Elder.

For further particulars and condition of sale apply to Messrs. Wilson & Campbell, solicitors, Vancouver, B. C., or to J. S. RANKIN, Auctioneer, 325 Hastings street, Vancouver, B. C.

British Columbia.

YANCOUVER. There is now in the Bank of Montreal a gold brick weighing 2078 ozs. It is the result of the second clean-up of the Cariboo Hydraulic Mining Company. It is valued at \$37,000, and it is to be sent to San Francisco.

William H. Watson, who lived just outside the city limits on the cemetery road, died Thursday night of pneumonia. Deceased, who was 71 years of age, was a native of England, and had lived out here some time. He was possessed of considerable property and money, and in recognition of several acts of kindness done him by a neighbor, Mr. Preston, he had left everything to the latter's children. The funeral will take place on Saturday.

At a meeting of the officers and men of companies Nos. 5 and 6, Fifth Regt. C. A., held on Wednesday night, an association was formed to be known as the Second Battalion, Fifth Regiment, Rifle and Revolver Association. The object of the association is to encourage rifle and revolver shooting amongst its members, both at the rifle range at Centennial park and at the drill hall, with the M. C. tube.

NEW WESTMINSTER. Chilliwack has a mining boom on its hands now, and as the result of a recent strike made by Mr. E. Knight, of Popcum, the whole of Chilliwack mountain has been staked out. Thos. Vance, who has been working for three years on a claim on "Little Mountain," has a shaft in sixty feet, and Montana experts who have examined the ore say that it is a very good property.

Mr. Joseph Brown, a resident of Westminster for ten years, and a native of England, died on Thursday. The late Mr. Brown kept a general store on Eighth street. He leaves a widow and seven children.

The Board of Trade is again considering the question of growing flax in Westminster district. A communication has been received from Seattle informing the board that experiments in Washington State with flax have resulted in an article equal to the best Belgium flax. The board are themselves experimenting in flax in Westminster district.

At a special meeting of the council of the Board of Trade arrangements were made for the reception of the Ottawa ministers on their arrival here. The members of the board will be presented to them in reference to various public works in the province. The committee appointed to make the necessary arrangements is composed of the president, vice-president, and Mr. John Henry. The committee will act with the council and the Liberal Association. The ministers will make a personal inspection of the river from its mouth to Chilliwack, in company with members of the committee, who will explain where the badly needed permanent improvements are necessary. The records of the different municipalities and the various M.P.P.'s will meet the ministers along the river at the different points and as at the committees. On the arrival of the ministers an address of welcome will be presented by the mayor on behalf of the corporation, and the Board of Trade and other committees. It is thought the ministers will arrive in Westminster some time next week—but the day is not known.

MIDWAY. E. A. Hiebensch is doing development work on the Kootenay, Columbia and Anacosta claims in Deadwood camp which is very favorable results.

E. H. Brown has finished assessment work on the Lenore in Deadwood camp. The work consisted of a 12 foot tunnel on the vein. Surface assays went as high as \$10 in gold.

Shader, of Chicago and F. Hilder, Detroit, passed through Midway on Friday last. They are on a tour inspecting the camps of the district, having come from Okanagan and Kruger mines.

James Kerr returned last week from a scout work of the Kettle river, where J. C. Dale had been doing development work on the Canal and Copper Boy. He reports the claims adjoining with depth.

James and Hannah have struck a vein on their placer claim near the branch, but are unable to do much on account of the low water.

When running a tunnel this winter expect to strike iron in less than a mile.

Douglas, Atwood and Wakeford five claims, all located on the north side of the Kettle river. The country around Rocking good assays in gold, copper, silver. The country around Rock has been prospected for hundreds of prospectors must be within a few yards of the vein which the locations were made.

It did not find the marks of a vein in the whole country for miles thoroughly prospected.

Rickards, acting townsite receiver a letter Wednesday last. C. Stuart, saying that the company in a position to carry out the plan for putting water on the land that the price of lots on it would be raised on his plan.

Neither the postoffice nor his deputy would grant a contract of a contract of the postoffice. The deputy also that the postmaster would not give his consent to such a contract without first consulting the committee of the district, so he went out of town to call on the Hon. J. H. Hester, member of the Yalo-Cariboo-Kootenay district. The two contracts were to the effect of 3000 last, for a mail in this district. One contract was in Manley & a survey between Manley & the other to W. J. for carrying a tri-weekly mail between and Grand Forks, which is being carried out according to the agreement which the postoffice was led to suggest. The lines have formed a combination of their interests, the

Snodgrass line making its terminus at Greenwood City and the Marcus line also terminates its run at the same place. Doubtless this is a great convenience to the farmers of the stage lines. One lessens his run into miles and the other over-twenty, while Midway and Boundary Falls are out just three miles each week.

VERNON. (Vernon News.) A disastrous fire occurred on Monday morning on the commonage, by which Mr. "Bandy" Grant lost his house and nearly all its contents. As usual, the origin of the blaze is attributable to a defective flue, and there appears to be no doubt that this was the cause of the conflagration.

Several large falls of snow have already been experienced in the States and Eastern Canada, and in England it is reported that snow fell last week to the depth of several inches. Here we are enjoying the most delightful autumn weather, and the bright sunny days may reasonably be expected to continue for several weeks yet.

Thos. Wilson has decided to resign his position as manager of the Colisteam ranch orchard and fruit gardens, which he has held for the past year or so, and intends removing with his family to the coast early next month. Mr. Wilson has had a long experience in the fruit growing industry, and has obtained splendid results from his work in this district.

Mr. Frank French, who has been in Kootenay for the past two weeks selling produce for the Vernon Farmers' Association, reached home on Saturday, well satisfied with the result of his trip. He found no difficulty in selling the car he took with him, at Revelstoke and Trail, and left again this week with another consignment.

Mr. T. E. Crowell and J. T. McKinnon are back from a prospecting trip in the mountains at the head of the B. N. creek. They found plenty of good looking quartz and staked three claims, which they think promise well. Some very fine looking rock, rich with heavy galena, has been found in that section during the past fortnight. The place is fairly easy of access, and a number of men have been prospecting it since the first find a few weeks ago.

Mr. C. F. Costerton returned by Tuesday's steamer from a trip to the southern country, which was extended as far as Fairview. He reports mining operations lively in that camp, all claim holders feeling confident that Fairview is "all right."

Mr. D. Graham, M.P.P., and Mr. Thos. Clinton were in town this week, and both are very much pleased with the cheering news of the advance in wheat. A sympathetic rise in flour and bread stuffs will of course speedily follow, and they expect that the farmers interested in the Armstrong mill will receive a very considerable bonus on their wheat as a result of better prices. Already the mill is on a very satisfactory basis, and the directors all felt much encouraged with the future of this co-operating industry.

There came very near being a serious blaze at the postoffice during the noon hour on Monday. It seems that Mr. Thompson, the Mission stage driver, according to his usual custom, threw the mail bags over the partition into the office proper, but instead of alighting on the floor it seems a couple of them dropped on to the stove hearth. It did not require very much time for the bags to ignite, as when Postmaster Veau arrived on the scene ten minutes later the fire was making pretty good headway with Her Majesty's mail bags.

ROSSLAND. The Rossland. C. W. Callahan, of London, on Wednesday sent six men out under Ed Rafferty to do work on the claims he and his associates purchased on Murphy Creek. Work will be carried on all winter.

Last week about 75 per cent. of the pooled stock of the Caledonia Consolidated company was sold to Toronto parties. It is announced that the company will be reincorporated for \$1,000,000 instead of \$500,000 as at present.

Track laying with the Red Mountain railway has reached this side of Barney's ranch, and is being pushed forward, so that two weeks or less will see it complete to Red Mountain. The only obstacle is the building of a trestle about opposite the O. K., and a gang of men is at work there. To-day Engineer Roberts paid about \$2000 in customs duties on the working engine, flat cars and tools to be used on this side of the boundary line.

On the West-Ex a drift was started in from the 50-foot level, and after going 30 feet practically the whole mass of the drift was in ore, running higher in copper than any previously found in the mine. Last week the last adverse against the title was settled and the property will now be crown granted.

One of the largest ore bodies in the camp has been shown to exist on the C. H. R. That property is developed by three tunnels, one above the other, on the same vein. Above the third there was a good surface showing, but no work was done to discover what lay underneath until recently, when three men were put to work to strip the ledge. Their labors have shown the existence of a body of ore 30 feet wide, stripped from the surface of this, no sinking having been done, run from \$10 to \$40 in gold and as high as 20 per cent. in copper has been shown.

That shining ore is got from the surface. The lower tunnel, if continued, it is calculated, would strike this ore body. If it holds out.

Some good looking galena was brought in on Saturday night from the Copeta and Trail Creek Gold Mining Company. There is about nine inches of galena with the rest of the ore, which runs well in copper. E. W. Peterson, who has charge of the work, is down only about four feet, so that for this length the result is considered very satisfactory.

On the Ivanhoe the shaft is down 20 feet, and a tunnel of 100 feet has been run in below all the way. Assays of late have been interesting.

At the Allen Mine on Saturday evening J. Fred Ritchie, chief engineer and a member of the executive committee, was killed in crossing to Miss Jane Adams, sister of Mrs. M. E. Allen, Rev. Mr. Tozier officiating.

Mr. A. J. Jones and others who have been through the salmon river country,

SWEPT BY STORMS

One Hundred Thousand Dollars Will Not Cover Damage in New Orleans.

Other Places Visited by Cyclones Followed by Death and Devastation.

New Orleans, Oct. 30.—The cyclone which struck this city on Thursday swept over a distance of about a mile and a half, or thirty blocks from Poydras street to Robin street, the track of the storm being about 100 feet wide from the river to Poydras street.

The property loss is estimated at \$100,000 dollars. The skyscraper sheds, situated on Robin street near the river front, used by the Texas & Pacific railroad for cotton storage, were damaged to the extent of \$10,000.

Newellton, La., Oct. 30.—Tensas parish has again been visited by a most destructive cyclone. The atmosphere had been heavy and sultry all day, the clouds growing blacker and blacker.

The next place reached by the unwelcome visitor was Johnson's Bend at Lake St. Joseph. The Associated Press correspondent visited this place at 4 o'clock and visited a scene of disaster.

Omaha, Oct. 30.—Western Nebraska is covered with ten inches of snow. In some sections of the state a high wind accompanied the snow, assuming the proportions of a blizzard.

Oxford, Mass., Oct. 30.—A terrible cyclone passed through the eastern part of Lafayette county Thursday, demolishing farm houses and uprooting trees of all sizes.

The storm passed through the outskirts of the town of Delay and demolished several houses. The house of Milton Kruger was blown away, but his wife and seven children who were in the house miraculously escaped with slight bruises.

Guthrie, O. T., Oct. 30.—A cyclone swept over a stretch of country about 20 miles east of here on Wednesday evening, devastating a district several miles long and probably a hundred yards wide.

postoffice and store was lifted bodily into the air, carried one hundred yards and dashed to the earth. The building was smashed into splinters, and Postmaster H. T. Mullin and his wife, who lived in the building, were killed.
