

NEWS BROUGHT FROM ARCTIC EXPLORERS

Capt. Mikkelsen and Party Locked in Winter Quarters on Alaska Coast—Dr. Steffanson's Situation.

D. Cadzow, the trader from Rampart House, Alaska, who is now in Victoria, brings indirect news from the Anglo-American Arctic expedition which left here under the command of Captain Mikkelsen and Ernest Liffingwell over a year ago.

GRAND ORANGE LODGE VISITORS

SPLENDID RECEPTION GIVEN THEM IN CITY

Many Distinguished Members of Order Arrived Last Night—Were Shown About Victoria.

The Victoria Lodge had the good fortune to receive a visit from the delegates of the Grand Orange Lodge of Canada last night. In response to the hearty invitation of the local lodge, Grand Lodge delegates arrived last night. They came over on the Princess May from Vancouver. They mustered about 60 strong. The Grand Lodge members reported having had a most successful session at Vancouver. Their local brethren here proved themselves even on short notice well prepared to give them a good reception.

DESTRUCTION OF INSECT PESTS

CITY BY-LAW TO BE INTRODUCED AGAIN

Inspector Cunningham Favors Passage of a Civic Measure to Deal With Subject.

A by-law compelling the destruction of caterpillars and other noxious and destructive insects will be considered by the city council on Monday evening. It was spoken of at the last session of the board of aldermen, when a motion asking leave to introduce it was handed in over Ald. Weston's signature. The pressure of business, however, delayed the appearance of this motion until it was almost time for adjournment, and upon Ald. Weston expressing doubt as to the legality of such a measure, the by-law was shelved. On Monday it will again come up, and will most likely be considered and adopted.

TRAIL BUILDING ON WEST COAST

HUGE UNDERTAKING ABOUT TO COMMENCE

Canyons, Bluffs and Rivers to Be Surmounted Before Work is Complete

Full details have come to hand of the trail building which will be commenced on the West Coast early next week, and they go far to show that the work will be a huge undertaking. The trail will be carried through a very rough country, past deep canyons and high bluffs, over creeks, rivulets, and large streams which will necessitate the construction of bridges.

INTEREST IN PRINCE'S VISIT

WILL HAVE ROYAL RECEPTION TO-MORROW

Emperor's Envoy to Be Guest of Lieutenant Governor Dunsmuir—Elaborate Preparations.

Victoria is alive with interest in view of the approaching visit of H. I. H. Prince Fushimi, who will reach the C. P. R. wharf to-morrow afternoon at 5:30 on board the Princess Victoria. Preparations for his reception are being proceeding rapidly and although by special request no special addresses will be presented the welcome will be of a hearty and demonstrative character. The Princess Victoria with the Royal visitor on board will enter port to the thunderous welcome of Point Battery. Along the wharf a guard of honor, drawn from the Fifth Regiment, will await his arrival. The guard will be in the command of Captain R. Angus while Lieut. C. G. S. Duncan and G. W. Prior will act as subalterns. The band of the Fifth will also be present, and as the Prince will also be accompanied by the Japanese national anthem, the Kimi Ga Yowa which was familiarized to Victorians during the recent visit of General Kuraki.

SPIRIT OF REVOLT RIFE IN PORTUGAL

Many Persons Have Been Killed and Wounded in Fights With Troops in Streets of Lisbon.

(Associated Press.) New York, June 22.—A Paris dispatch to the Times to-day says that dispatches received there last night from Lisbon, by way of Madrid, report that popular hatred of the system of government by decree instituted by the premier after the dismissal of parliament in the beginning of May has had as its outcome Barricade Fighting between the troops and the people and much bloodshed. The premier made a journey from the capital to Oporto in the hope of obtaining a popular endorsement of his policy, but at every station between Lisbon and Oporto crowds blessed and Oporto received the premier with Crepe Banners in place of flags and yells and insults instead of hopes for cheers. When the dictator returned to Lisbon there was a furious riot outside the railway station. The cavalry charged the mob and infantry fired into it. The officers' commands were drowned by cries of "Death to the Dictator." Revolvers were freely used by the crowd and a young officer was mortally wounded. A neighboring square was filled with the killed and wounded laid out in rows. The principal fighting occurred under the windows of the Hotel Dux Angliette. Several English visitors witnessed the struggle. It is said the people fought for hours with sticks and stones against the soldiers who fired volleys. Women with their aprons filled with stones Supplied Missiles to the Men and urged them on. The Republican leaders harangued the people to revolt. Barricades were built and cafes were invaded, the mob breaking up furniture for their extempore fortifications. Chief Lisbon Cafe was completely destroyed. The mob Fought with Great Fury, undismayed by the volleys of the troops. Thursday was a day of mourning for the dead. All the newspapers appeared with deep black borders and on business offices and private houses flags were flown at half mast, and windows draped with crepe. Last night the troops again fired on people in public squares. Most serious events are expected. The spirit of revolt is widespread. The censorship is strict.

PRINCE FUSHIMI NEARING COAST

ENJOYED THE TRIP THROUGH MOUNTAINS

Train Stopped at Places of Interest to Permit Party to View Scenery.

ROBBED BY LONE BANDIT

Held Up Two Stages and Relieved Sixteen Passengers of Their Valuables.

Wawona, Cal. June 22.—Two of the regular stages from Raymond, bound for Wawona, were held up and sixteen passengers relieved of their valuables by the "Black Kid," the famous lone bandit of this section.

RETURNED SUBSCRIPTIONS.

Canadian Estates Limited Acted Generously in Business.

The Financier and Bullionist of London, of a recent date, makes reference to the fact that the negotiations for the acquisition of the Douglas Lake Cattle Company's estate in the Nicola country have fallen through. This was previously referred to in the Times.

Some animals are entirely voiceless. Among these are the grebe, armadillo, and porcupine. In most serpents the vocal cords are completely absent.

AMENDMENT TO THE B. N. A. ACT

BILL RECEIVES SECOND READING

Measure Will Pass British House of Commons Before End of Month.

(Special to the Times.)

London, June 21.—The British North America Act as amended passed its second reading in the House of Commons to-day. Hon. Winston Churchill and Hamar Greenwood in supporting it pointed out that while the government could not interfere between British Columbia and the Dominion, the way was still open for any province to make better terms if possible. The words "final and unalterable" were omitted because it was impossible to bind the sovereign parliament.

Mr. Greenwood pointed with pride as a Canadian to the dignified and quiet way in which Canadian prime ministers, including Premier McBride, brought the matter to the colonial office. Mr. Greenwood said the bill must pass by July 1st and said the government intended to pass it.

Spiritualism, 175 Chatham street, near Cook street. R. H. Kneeshaw lectures at 8 p. m. Subject, "Saints and Sinners." The public are cordially invited to these lectures.

IS CONSUMPTION INCREASING? Doctors say not. People are treating catarrh before it becomes consumption. Curing it by Catarrhose, which destroys the disease and prevents its return. Nothing like "Catarrhose" for colds, catarrh, and throat trouble. Money back if it fails.

DEATH OF PIONEER. Winthrop, June 21.—John D. Hasen, of Deloraine, Man., a pioneer settler, formerly of Stratford, died at his farm on the 19th.

RAISING BREAD. Edmonton, June 21.—On Monday the price of bread in this city goes up. A 14 pound loaf will be sold at the rate of 15 leaves for \$1 retail, and 15 leaves for \$1 wholesale. The news was decided upon at a large meeting of the local bakers held last Friday night, and is said to be due to the increased price of flour.

FOUR MEN PERISHED. Men Were Asleep Below Decks of Steamer When Fire Broke Out. St. John, N. B., June 21.—William Logan and Allan Logan, brothers, Fred Smith and a man named Baxter were burned to death last night in a fire which broke out on the steamship Crystal, which was lying at the island, heavily laden with hay. The fire is supposed to have caught from a spark from the smokestack falling into the hay. The men were sleeping below the deck, and were caught like rats in a trap. Although the rest of the crew worked hard to release them their efforts were fruitless. Many others were seriously burned. The steamship cost \$22,500, and was insured for about half that amount. She is a total loss.

Salvatore Gouverniale, an Italian, was sentenced at New York on Friday to be electrocuted at Sing Sing prison some time during the week beginning August 24 for the murder of Policemen Selleck and Schler on April 15th. His counsel has appealed, thus staying the execution.

Rev. Dr. Somerville, of Toronto, will to-day send a cheque for \$2,000 to Shanghai for the relief of Chinese famine sufferers. This makes about \$20,000 sent by him.

SPECIAL POWERS FOR GOVERNORS

AGRIAN DISORDERS FEARED IN RUSSIA

Social Democrats and Members of Group of Toil Will Issue Manifesto.

St. Petersburg, June 21.—An Imperial ukase has been issued to the governors of the province of Archangel, Novgorod, Pskov, Vyaznia, Smolensk, Tver, and Yaroslavl, according to which special powers entitling them to suspend newspapers, disperse meetings, banish undesirable persons and take other measures for the maintenance of public security by administrative process without having resort to the courts, and to inflict punishment of three months' imprisonment and \$500 fine. The provinces include practically the entire area of Russia where some form of martial law has not already been proclaimed.

The step was taken to head off agrarian disorders, the possibility of which it is believed has been greatly increased by the determination of the Social Democrats, Revolutionists and members of the Group of Toil to issue a joint manifesto to the nation urging the people not to accept the "unconstitutional regime" contemplated by the new election law, but defend the idea of popular representation by force.

The decision to issue a joint proclamation was taken during the night and the text is now being drafted.

The National Socialists, or Social Revolutionists have decided to issue a separate proclamation on similar lines.

The delegates of the railroad organizations have for several days been vainly endeavoring to hold a conference here.

LAND FRAUDS.

Sentence Passed on Three Men in District Court at Omaha, Nebraska.

Omaha, Neb., June 20.—Thomas M. Huntington and A. R. Todd were sentenced today by Judge Mungler in the United States district court to pay a fine of \$1,000 each and to be imprisoned in the Douglas county jail for three months. Fred A. Stutz was sentenced to pay a fine of \$1,000 and to stand committed to the Douglas county jail until the fine is paid.

The sentences are the result of the conviction of the three men on an indictment charging conspiracy, defraud and title to large tracts of land in Sheridan and Cherry counties, this state, by means of false, fraudulent and fictitious entries and for subornation of perjury. This constitutes the second or last group of defendants in the Richard and Comstock case.

FINE WEATHER FOR CROPS.

Spring Wheat in Alberta May Establish New Record.

Regina, June 21.—Good hot growing weather, interspersed with warm showers, has brought the spring wheat on at a surprising rate during the present week, and it is now at least as forward as at the same date last year.

A striking feature is the evenness of the growth, the shoots being sturdy and of good color. With present conditions crops this year promise to establish a new record. Grass has never looked better, and the hay crop will be exceptionally heavy. Farmers are going in a great deal more for stock, and the fodder shortage of last winter will lead to a great deal more hay being put up than last year. Unless heavy rains lead to a rush growth, the hay should all be guaranteed by the end of July. Roots are looking well, but went in somewhat late.

SENTENCED TO DEATH.

Sebastopol, June 21.—The assassin of Colonel Gus Sessokoffsky, assistant harbor commandant at Sebastopol, who was murdered here on June 16th, has been condemned to death. He was tried by regular court-martial, but the procedure was an expedition as that of the abolished drumhead court-martial.

TELEGRAPHERS STRIKE.

Operators Idle at San Francisco and Oakland.

San Francisco, June 21.—The telegraph operators in the employ of the Western Union and Postal companies here and at Oakland struck at 1 p.m. today. This strike will be purely local and will not affect the eastern office. President Small of the Commercial Telegraphers' Union is in conference with the local committee. He said the statement issued yesterday by President Clowery of the W. U. Telegraph Company, will make no difference so far as the situation here is concerned.

WHAT A PITY

That ambitious people through hard work invariably neglect health—it is pitiful to look into their pale, tired faces and see plainly written there the evidence of transgressed law.

The penalties of over-work are as easily seen as they are hard to bear. Sleepless nights, tired mind and body, hearts that flutter and cause all sorts of uncomfortable feelings.

Happily if these symptoms have not been so long established as to be chronic, Ferrero's will cure them.

Its mode of action is very simple, its curative power very great. It makes people eat more because it creates a wholesome feeling of hunger.

If you want strength and endurance use Ferrero's. It will give it to you. No other tonic, so full of nutriment and strength-making properties. Even one box will prove its enormous merits.

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

Per-na Should Be Kept In Every Household

Where There Are Little Children.

Per-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. Buy Per-na on hand—accept no substitute. Children are especially liable to acute catarrh. Indeed, most of the afflictions of childhood are catarrh. All forms of sore throat, quincy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh. Per-na contains no narcotics. One reason why Per-na has found permanent use in so many homes is that it contains no narcotic of any kind. Per-na, if taken according to printed directions, is perfectly harmless. It can be used any length of time without acquiring a drug habit. It does not produce temporary results, but it is permanent in its effect. It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

No Doctor Required.

Mr. Edward Otto, 927 De Soto street, St. Paul, Minn., writes: "I cannot say enough for Per-na. It has done great work in my family, especially for my oldest boy. We had doctored with three or four different doctors and they did not seem to do him any good. We gave up hopes of cure, and so did they, but we pulled him through on Per-na. We had several doctors and they said they could do no more for him, so we tried Per-na as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto. There are a multitude of homes where Per-na has been used off and on for twenty years. Such a thing could not be possible if Per-na contained any narcotics.

The Benefit Which the Children of the United States Have Received From Per-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded. But at least this much can be said that the coming generation owes a great debt to Per-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting disease, thus blighting the whole career of the individual. The mothers who are bringing up their children today to believe in Per-na are speaking from their experience. These children brought up to believe in Per-na from the start, will, when they become heads of families themselves, use Per-na with unquestioning faith.

A Child's Life Saved.

Mr. G. H. Farmer, New Martinsville, W. Va., writes: "Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong. We know that our little son's life was saved by your wonderful medicine, Per-na, and we shall always praise you and use it in our family when needed. Should we have any more catarrhal trouble in our family, we shall always write to you for treatment." Mr. W. F. Doring, Mt. Vernon, Mo., writes: "I have used Per-na to my entire satisfaction and am exceedingly well pleased with the results, having suffered greatly with catarrh of the stomach."

Mrs. J. C. Sterling, 183 Brown Avenue, Norfolk, Va., writes:

"My little boy, Meredith, suffered with indigestion so badly he could not eat anything without it making him very sick; so I thought (as many others have) that I would try Per-na, and it worked like a charm. Now he eats anything he wishes, and I would not be without it for anything." My other little boy, Alfred, two and a half years old, has taken it and received as much benefit from Per-na as his brother. I hope my testimonial may be of some benefit to others, as I feel as though I cannot praise it enough."—Mrs. J. C. Sterling. Mr. Howard Andrew Sterner, 424 Canal Street, Reading, Pa., writes: "I have Per-na in my house all the time and won't be without it. It is good for children when they take a cold or croup. It cured my baby boy of croup. I have introduced Per-na into six families since I received your last letter, and four have seen relief already."—Howard Andrew Sterner. Per-na Protects the Entire Household. As soon as the value of Per-na is appreciated by every household, both as a preventive and remedy, many lives will be saved and thousands of chronic suffering cases of catarrh may be prevented.

When Sickness Comes to the Little Ones

It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family.

The mother looks forward with dread to the torrid heat of summer, thinking of her children and the many liabilities to disease that are before them.

Spring and summer are sure to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Per-na is the best friend she has in time of illness among the children.

A Multitude of Mothers

Have discovered that Per-na is their standby, and that in many of the ailments of spring and summer to which the children are subjected, Per-na is the remedy that will generally quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Per-na quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Per-na is a household remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Per-na has.

Mr. C. H. Hioek, Antwerp, Ohio, writes: "My daughter Allie, after taking three bottles of your Per-na is entirely cured of catarrh of the head of two years standing. We have used Per-na as a general tonic as well as for catarrh and are well pleased with it and recommend it to anybody who has catarrh."

The Mothers Hold Per-na in High Esteem.

Not only because it has cured them of their various ailments, but because it promptly restores the children from the throes and grasp of catarrhal diseases.

We have in our files many testimonials from mothers whose children have been cured by Per-na. However, the large majority of mothers who use Per-na, never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Per-na that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

H.I.H. PRINCE FUSHIMI

SKETCH OF THE CAREER OF THE DISTINGUISHED VISITOR WHO WILL REACH VICTORIA TO-MORROW

To-morrow Victoria will extend a welcome to His Imperial Highness Prince Sadanaru Fushimi, who is on his way from London where at the head of the special mission sent by the Emperor of Japan, he visited King Edward. The Prince is at the head of one of the noble houses of Japan directly connected with the Imperial family. The Prince is not accompanied by his consort. He is, however, attended by a brilliant and numerous suite, including: Michinori Seigo Nagasaki, K. C. V. O., councillor of the court of His Imperial Majesty the Emperor of Japan; Saburo Baba, K. C. V. O., grand master of the household; Major Otchiko Higashi, M. V. C., artillery aide-camp; Dr. Toizo Iwai, M. V. O., physician to the Prince; Shigehiro Tokioka, attache to the section for exterior affairs of the Imperial household; Shigetaru Kurosawa, attache to the bureau of ceremonies of the Imperial household; Motojro Tsuda, attache to Prince Fushimi; T. Nosse, consul-general for Japan in Canada; Miles V. Lampton, M. V. O., representing the foreign office; Capt. D. J. C. Newton, A. D. C., representing His Excellency the Governor-General; Joseph Pope, C. M. G., I. S. O., representing the Dominion government; W. R. Baker, representing the Canadian Pacific Railway Company.

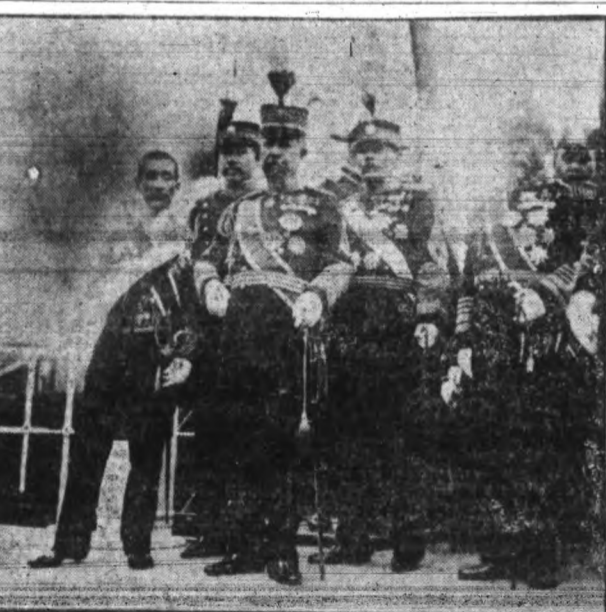

The reception accorded him in London was a very warm one. He was entertained by His Majesty and various members of the Royal family, the Lord Mayor of London and others. In company with the King he visited reviews of the army and navy. Canada has accorded him a warm reception also and it is but fitting that the same cordiality should be extended to him at Victoria, the last point of the British dominions to entertain him. The Prince is a soldier. He took part in the China war, and he led a division in what was perhaps the most fiercely contested engagement in the recent Russian campaign. He has more than once undertaken important diplomatic missions in Europe and America; he speaks little English, but is fairly fluent in French, and he has a reputation wherever he has gone, for firmness and kind consideration for all those who are around him.

Prince Fushimi is a member of the Imperial family of Japan and a cousin of the Emperor. The descendants of the semi-mythical Jimmu, who came down from heaven and became the first Emperor, are now a numerous clan. Besides the family of Mutsu-hito, the Emperor, there are thirteen other families, of which that of Fushimi is the first. Prince Sadanaru is not in substance the Emperor and the Crown Prince. Although the old traditions have a reverence by which the Emperor was accounted too sacred to be looked upon by ordinary eyes, the effect of them still remains. In the eyes of the Japanese people the Emperor is a deity.

A great host of the savage islanders suddenly poured in on them from all sides, danger in hand. The attack was sharp and so unexpected that for a moment it seemed that nothing could save them. Prince Fushimi rallied his companions, led the fight in person, and brought his party along to safety. In 1896 the Prince went to St. Petersburg to represent Japan on the occasion of the coronation of the Czar. He had met Nicholas when the Czar was on his former visit to the Far East, and was one of those who had expressed his country's regret when a Japanese fanatic had attempted to slay the heir to the Russian throne. Eight years after the coronation ceremony the Prince found himself again in the presence of the Russians, but this time in fighting array. Japan, after nursing her grievances against Russia for nearly ten years, was now taking her revenge. A Japanese army landed on the Liaotung Peninsula and cut off Port Arthur. It was attempting to go south to attack the great fortress itself, and his only land-way was barred by the line of Nanshan hills, held by the Russians. The Japanese, their ships on one side and their soldiers to the front, attacked the Russian position. The long fight, tremendous and costly struggles known up to that time in the modern history of warfare. The Japanese were slain wholesale in their endeavors to advance. Time after time they tried, and failed; but in the end by their very persistence they won. The fall of Port Arthur, and the fall of the Russian position, was the preponderating factor in deciding the war. In this Nanshan fight Prince Fushimi took a

prominent part, directing his troops under heavy shell fire and risking himself freely. He made his headquarters as commander of the first army division in a little Chinese house in the village of Han-chi-tung, and there for a short time he did routine division work. He was already picked out, however, for more exacting, if less exciting work. In June, 1904, he was promoted to the rank of general, and he was made a member of the Supreme Council of War. In the following October he was sent to America to attend the St. Louis Exhibition and generally help to promote his national cause there. He somewhat amazed the American soldiers at the time by the minuteness with which he examined them and their equipment. And his frankness, quiet manner, and cordial attitude made him many friends.

The Battle of Nanshan. In referring to his arrival in Ottawa the correspondent of the News in a recent issue, recalls the storming of Nanshan Hill. He says: "On the 26th of May, 1904, the formidable 'Oki' stormed Nanshan Hill, the centre of his army was the First, or Tokio, division under His Imperial Highness Lieutenant-General Prince Fushimi. The position was terribly strong. Two bays cut deep into the peninsula on which Port Arthur stands, leaving a very narrow isthmus on one of these bays, that to the Japanese right, Japanese gunboats piled, in the other was a Russian gunboat, and Russian transports crammed with troops. In the centre of the isthmus rose Nanshan Hill, in front of the hill was the narrow level plain. The heights were lined with

PRINCE FUSHIMI. His Imperial Highness stands in centre of group with Baron Komura on the extreme right of picture.

A BLOOD AND KIDNEY TONIC.

Make your own Blood Tonic by mixing one ounce Fluid Extract Dandelion, one ounce Compound Sarsaparilla, four ounces Compound Syrup Sarsaparilla. Shake well in a bottle, and take one teaspoonful after meals and again at bedtime. Any good druggist can supply these ingredients. This is said to be a splendid Blood Tonic and system restorer because of its gentle action in restoring the kidneys to normal activity, forcing them to filter from the blood all impure matter and acids, destroying micro-organisms which produce ill-health and sour blood. Everyone should take something to cleanse the blood from time to time, and the above simple prescription is the most highly endorsed of the hundreds of home remedies generally used. Mix this yourself, then you will know what you are taking.

WORKING IN THE INTERESTS OF VICTORIA.

In his letter, published in another column, Mr. McPhillips pleads (a) for the sinking of all feelings of sectionalism as between Victoria and Vancouver and (b) that all Victorians, irrespective of political faith, join hands in the endeavor to advance the interests of this city.

the soul-destroying influences which are encountered, are by no means counterbalanced by metropolitan attractions. Still, just as the boy counts the days until he reaches manhood, so the city longs to number its population by hundreds of thousands and by millions.

The New York Evening Post, dealing with the new gospel which is now being given to the world, principally by the new woman, says: A book by the Swedish author, Ellen Key, is having considerable vogue in Europe.

CITY NEWS IN BRIEF

Ladies' second hand bicycle left with us to sell at a bargain. Owner leaving city. Pimley Auto Co., Ltd., opposite post office.

The regular monthly meeting of the Anti-Tuberculosis Society will be held in the city hall on Monday afternoon at 2:30 o'clock sharp.

This afternoon a piano recital is being given at Walcott's hall by the pupils of Mrs. Boulton. A. R. C. M. The concert began at 3:30 and a lengthy programme is on the list.

Great clearance sale of ladies' and children's hats all this week at Robinson's Cash Store, 36 Yates street. Every hat reduced to half regular price.

Next Sunday the Iroquois will stop one hour at Mayne and return via the picturesque Iroquois channel and Pender Island canal. This is a most delightful outing among the Thousand Islands of the Gulf.

We pay men of 22 years and under good wages and at the same time teach them a good trade—Albion Stove Works, Pembroke St.

At the Metropolitan church to-morrow the choir will be assisted by Mrs. Sweetwood, soprano soloist from Arizona. At the evening service Mrs. Sweetwood will render "Hold thou my hand."

S. J. Hagan's new hotel "Lewisville" at Chemainus is nearing completion and will soon be opened for trade. It is modern in every way and will be finished with new material throughout, and in first class style.

A strawberry and ice cream festival will be held at the Congregational church school room Tuesday, June 26th, commencing at 2 p. m. A good programme will be given and all are cordially invited. Admission, adults 25 cents; children, 10 cents.

J. B. Osborn, the blind Socialist lecturer from Oakland, Cal., will deliver an address in the A. O. U. W. hall Tuesday evening, commencing at 8 o'clock. Workmen of the world unite; you have nothing to lose but your chains; you have a world to gain. (Mars)

At the W. C. T. U. mission rooms at 8 o'clock this evening a free concert will be given. Services will also be held on Wednesday and Sunday evenings. The mission is open all day, light lunches being served, and there is provided a reading room affording a pleasant place for strangers to rest and get information.

For the purpose of distributing prize orders among these houses where he finds the brand, the Golden West soap man will make a tour of the city on Monday night. He will call at various houses and in all will distribute \$10 on the first night. The prize orders will be as follows: A \$5 order of the Fullerton shoe store, a \$4 order on Henry Young & Company, and two \$3 orders, one on the Standard Stationery Company and the other on Terry & Marett. The distribution will continue during the week and in all probability for some time to come. The only qualification necessary to win the prize is the possession of a cake of the Golden West Soap.

FINCH & FINCH
HATTERS, 47 GOV. ST.

The annual communication of the grand lodge A. F. and A. M. which opened at Vancouver on Thursday was brought to a close yesterday. The grand lodge will meet in Victoria next year. A number of the delegates are now visiting this city among them being J. H. Schofield, M. P. P. Trail, who has just retired from the office of grand master.

This is the eve of the anniversary of the Battle of Plassey which was fought in 1757 on the banks of the river Bhagirathi about 86 miles north of Calcutta. It was here that Clive by his victory over Surajor Dowlah, subahdar of Bengal on June 23rd, 1757, laid the foundation of British supremacy in India. Plassey recalls to mind the events of the year previous to the battle and the heart ending tragedy of the Black Hole of Calcutta where 146 prisoners were so cruelly treated.

Tuesday's Winnipeg Free Press says: W. H. Willis, the new manager of the Royal Alexandra hotel, arrived in the city last night and took over his work this morning. He spent the greater part of the time with E. Gordon, the acting manager, in making a tour of the hotel and looking into the affairs which will require his attention. Mr. Willis has for several years been manager of the St. Francis hotel at San Francisco. Mr. Gordon leaves on Thursday to take over the management of the C. P. R. hotel "Empress" in Victoria.

WOMEN'S AUXILIARY.

Annual Meeting of Those Interested in Hospital Work to Be Held Tuesday.

The annual meeting of the Women's Auxiliary Society Provincial Royal Jubilee hospital will take place on Tuesday next, June 25th, at the board of trade rooms, Bastion Square, promptly at 2:30 p. m. All members and donors of the society, together with any of their friends interested in the work are most earnestly desired to attend this meeting. The report of the executive concerning this year's work and the future plans of the society will be read and as well the secretary's statement and the hospital Sunday receipts (special fund). There will be several interesting speeches and discussions and a large attendance is expected.

As the treasurer of the Women's Auxiliary Society Provincial Royal Jubilee hospital is most anxious to make a full return of hospital Sunday receipts at the annual meeting next Tuesday, it is desired that the churches which have not yet done so, will, if possible send in the returns before Friday evening to Mrs. Hazel, Royal Jubilee hospital.

TOSS FOR A SPEECH.

At a meeting of the St. Austell Urban council two members rose simultaneously to speak, and the chairman was asked, "Who caught the speaker's eye?" The reply was "Neither," whereupon the councillors tossed, and the winner spoke.

THE GOLDEN WEST SOAP MAN will call on you soon and give you part of that \$15. See page 8.

DIED ON THE WAY TO THE HOSPITAL

Joseph Backus of This City Passed Away in the Patrol Wagon.

Joseph Backus, an old resident of Victoria, died in the police patrol wagon this morning while he was being taken to the Jubilee hospital after being found in a fainting condition on Johnson street. Coroner Hart met the wagon a few minutes after the deceased expired and pronounced life extinct. The body is now lying at Smith's undertaking parlors.

Mr. Backus left the hospital this morning after a short sickness, his physician, Dr. Frank Hall, having given permission for his discharge. He intended to go to a room which he occupies in a hotel on Johnson street and took the car into the city. After leaving the street car he became faint and was found by Police Sergeant, R. H. Walker, leaning against the front of Shotbolt's drug store. The sergeant, thinking he was suffering from a temporary faintness, offered to assist him to his room but finding that the man was in a very weak condition, decided to have him removed in the patrol wagon to the hospital. When the wagon was a short distance past the High school the man expired.

The deceased was a native of Kingston, Ont., and came to this city many years ago. He was 72 years of age and leaves, besides his wife, a daughter and two sons. No inquest will be held, the cause of death being certified as due to heart failure.

FORMALLY RECOGNIZED.

Services Held in Connection With the Central Baptist Church.

On Thursday last the recognition services in connection with the new Central Baptist church were held here when a committee composed of delegates from New Westminster, Saanich, Esquimalt Baptist church, of this city, and other churches of the Pacific coast for the purpose of formally recognizing the new church as a branch of the great organization.

The meeting was held at 3 o'clock in the afternoon and was attended by the pastor and other officers of the church. Statements of the church's organization, its tenets, location of operations and the officers elected were received and the church was formally recognized by the council which convened for the purpose.

In the evening a public meeting was held in Emmanuel church at which Rev. R. Lennie occupied the chair. A charge to the church was made by Rev. P. H. Evans, of Vancouver, and Rev. L. L. Dakin, delivered a charge to the pastor. The hand of fellowship was then extended to Rev. Mr. Burnet by Rev. L. L. Dakin, on behalf of the church and afterwards in his own name.

The pastor made an appropriate reply. His address was an earnest one, stating that he fully realized the responsibility attaching to his office.

AMENDED THE CHARGE.

Steenmetere, who was arrested after a fracas in the Royal saloon on Wednesday night, again appeared in the police court to-day to answer an amended charge of attempted murder. The information was originally laid charging him with an assault but has now been amended to the more serious charge. The police have experienced much difficulty in obtaining a Greek interpreter, and on this account Chief of Police Langley asked for a remand until Friday next. J. A. Alkman, who is representing Steenmetere, strenuously objected to this adjournment unless the magistrate would allow reasonable bail. After a discussion, Magistrate Hall allowed bail, the amount set being \$1,500 in two sureties of \$750.

Two boys named William and Oswald Reid, aged 12 and 8 respectively, were arrested by Constable Carlow on Yates street last night. The officer was passing Todd's warehouse on Stone street, when he noticed the two boys affecting an entrance. He waited until they reappeared and then followed them to Yates street, where he took them into custody. All the boys secured was a quantity of matches. An older boy is believed to have had a hand in the burglary, and the police are now searching for him. The boys are brothers and belong to a respectable family and their act is believed to have been regarded by them as one of mischief.

To-day J. A. Alkman, on behalf of Peter Hansen who was recently convicted on a charge of stealing \$4 from a Chinese restaurant and committed to prison for a year, filed a motion giving six days notice that certiorari proceedings will be taken to have the judgment of the magistrate revoked. Hansen was convicted on purely circumstantial evidence.

ANNUAL TRAINING DRAWING TO CLOSE

Big Gun Firing Commences To-Night -Smoking Concert Given By No. 3 Company.

The annual training of the Fifth Regiment at Macaulay Plains is drawing to a close. The whole of the week while under canvas has been in preparation for the exercises of the last few days in camp. Especially is this the case with the firing practice. Familiarity with the handling of the gun in action is of supreme importance, and the men have been thoroughly drilled in this branch of the work. The full charge of firing is reserved to the last. Accuracy of sight has been attained by means of the Morris tubes.

The preliminary firing of the big guns in the fort takes place to-night. The men will be then fully competent to finish their firing next week. Good results are sure to be the result from such proficient marksmen as the Fifth are known to be.

The regiment will parade to-morrow morning at 10:45 for the purpose of attending a drum head service in which a number of members of the company and many came by special invitation from the other companies of the regiment. Until late the revelry was sustained, refreshments and "My Lady Nicotine" being supplied. Vocal and instrumental items were recited, and while a number of recitations were given, it was early in the morning when the concert finally came to an end.

The following was the evening's programme:

DECLINE OF PHYSIC

A Striking Speech by Sir F. Treves--Coming Age of Health. "I am certain it is safe to prophesy that the time will come when hospitals for infectious diseases will be empty, and not wanted."

The argument of facts, he said, showed this to be inevitable, as was shown by the great success in dealing with these diseases. Very little, however, could be done by the legislature, but everything by the progress of medical science, and in a much larger degree by the intelligence of the people and the interest they took in it.

He looked forward to the time when people would leave off the extraordinary habit of taking medicine when they were sick, and when it would be an anomalous for persons to die of scarlet fever, typhoid, cholera and diphtheria as it would be for a man to die of a wolf's bite in England.

CITY OF VICTORIA Under "AN ACT RELATING TO THE CITY OF VICTORIA, 1907."

"THE VICTORIA WEST ARBITRATION BY-LAW, 1907." Notice is hereby given that His Honor Judge Lampaun has appointed Mr. Dennis R. Harris, C. E., and British Columbia Land Surveyor, sole Arbitrator between the Corporation and all persons affected by the validation of William Ralph's survey of Victoria West as the Official Map of that portion of the City, which is final and conclusive evidence against all persons concerned of the street boundaries shown thereon; and also as Arbitrator between all adjoining owners affected by the adjustment of the street boundaries, and Thursday, the 27th day of June, 1907, at the hour of 3 p. m., has been appointed by him, at the Committee Room, City Hall, Victoria, to hold the first sitting. A copy of Ralph's Map showing the adjustments necessary may be inspected at the office of the City Engineer.

SUNSHINE FURNACE

THE LARGE DOUBLE FEED DOORS

on the Sunshine furnace provide an opening deep and wide enough to admit great rough chunks of wood that would either have to be wasted, or chopped up for an ordinary furnace. As for putting coal in the Sunshine, why, it's the easiest thing imaginable! Such a generous opening would be next to impossible to miss. And you can easily deposit the coal in any spot you desire. After you have experimented with small feed-doors, and hit the edge of the door frame a few

times, you will recognize more completely the ease and advantage of the Sunshine method. The illustrations hint at the difference.

If you will examine the fire-pot of the Sunshine you will notice that the sides are straight up and down. On many furnaces the fire-pots slope, forming a rest on which the ashes accumulate.

As ashes are non-conductors of heat they prevent the fire-pot from radiating as much heat as it should; they clog up the draft and deaden the fire.

But the Sunshine fire-pot is a wonderful radiator of heat. No ashes can cling to the straight, sheer sides of its fire-pot. The live, red-hot coals are always snug up to them. There is nothing to prevent the radiation of every unit of heat produced by the fuel.

The Sunshine is the most scientifically and perfectly constructed furnace. It radiates most heat with less consumption of fuel. It is the easiest-managed, cleanest, greatest labor and fuel economizer you can buy.

If your local dealer does not handle the Sunshine, write direct to us for Free Booklet.

FAREWELL CONCERT. Splendid Programme Will Be Given in Institute Hall on Tuesday Evening.

On Tuesday evening a farewell concert will be given by Prof. Wickens and his pupils to Miss Justine Gilbert of this city, who is leaving in company with her mother, Mrs. Justin Gilbert, to pursue her musical studies in Germany.

The programme for the occasion is a delightful one. The pupils will be assisted by Mrs. D. E. Campbell and J. H. Griffiths, both of whom will give vocal selections.

A feature of the concert will be the little children's orchestra, who have been carefully trained by Professor Wickens. This orchestra is composed as follows: Violins—Miss Beryl Moss, Master Horace Plimley, leaders; Miss Audrey Taylor, Miss Augusta Mitchell, Master Edwin Hawkins, Master Joseph Astle, Pianos—Miss Florence Richards, Miss Violet Patterson, Cello—Master Willie Mitalstale, Cornet—Master Henry Mitalstale.

The full programme is as follows: Piano Quartette (Strings doubled), Op. 31, No. 1, by Schubert, M. Weber. String Quartette, Op. 156, No. 1, by Beethoven. Violins, Miss Ruby Sylvester, Miss Justine Gilbert, Violas, Prof. E. G. Wickens, Mr. Gustave Mitalstale, Cellos, Miss Nancy Harrison, Mr. Gordon Edwards. Violin Solo—Legend, C. Bohm, Miss Justine Gilbert.

BRIDE-GROOM WAS DRUNK.

Was Unable to Respond to Questions at the Altar.

While waiting in the porch of a Leeds church, the bridegroom of a wedding party, which had arrived a little too soon, occupied the time by visits to a neighboring public house. As he had already had more than was good for him, by the time the vicar was ready to perform the ceremony, the bridegroom could hardly stand upright. The preliminary responses of the bridegroom were coherent, if feeble; but at the critical question: "Will you have this woman to be the lawful wife?" his condition became worse, and the vicar

"THE GOLDEN WEST SOAP MAN" WILL CALL ON YOU SOON

STARTING MONDAY NEXT he will give away, absolutely free each evening, four envelopes containing orders on leading Victoria Merchants, to users of

GOLDEN WEST SOAP

Six Bars for 25 Cents

AT ALL GROCERS

GOLDEN WEST Washing Powder

3-lb. Package, 25 Cents

AT ALL GROCERS

GOLDEN WEST TOILET SOAP

3 Cakes in Box, 35 Cents

AT ALL DRUGGISTS

He Will Start by Giving Away **\$15.00** { One \$5.00 Order, One \$4.00 Order and Two \$3.00 Orders

The "Golden West Soap Man" will call on practically every home in Victoria. Everybody who can show him that they are users of any of the above Golden West Products will receive one of these orders, and anybody who uses both the SOAP and WASHING POWDER will receive an ADDITIONAL ORDER.

This is no chance game. There is money in it for everybody. We have already given away thousands of dollars in British Columbia.

You must have Soap, and you may as well have GOLDEN WEST, which is the best, and get one of these orders.

A short account, giving the experiences of the GOLDEN WEST SOAP MAN and names of the lucky ones, will appear in THE TIMES each evening.

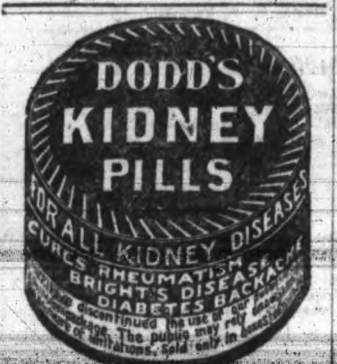

ORDER THESE GOODS TO-DAY, AND BE PREPARED. You may receive the first call. Remember he gives away FOUR Orders EACH EVENING.

Any Sceptical person can go round with the "Golden West Soap Man" any evening and be convinced

London, May 21.—The return of the Queen to London will give an impetus to things social—if that were needed. The weather has been sadly lacking in kindness to those whose pleasure it is to join the whirl of the London season, and pretty gowns can only be worn in the evening. Another brilliant night at the opera will be witnessed when the Queen makes her first appearance there. It looks a particularly busy season for her Majesty. There are as usual a multitudinous number of charitable functions at which it is hoped she will be gracious enough to attend, as her presence, of course, spells success socially, and in that case financially.

Rush of Americans. There is a phenomenal rush of American visitors to our shores this season. All the hotels are already packed and are booked to the end of June and some to July, so that those who neglected to obtain accommodation in advance will find difficulty in locating themselves in a West End hotel for their stay. The great attraction is undoubtedly the international horse show, which opens at Olympia next week, and most of the great families of New York, Boston and Chicago are here for the occasion. Among the American millionaires over for the event are the Vanderbilts, Harrimans, Goulds, Rockefellers, Ordens, Mills, Whitney, Winans and others. All the well known American society hostesses are entertaining the Duchesses of Marlborough, the Duchess of Manchester, the Duchess of Roxburgh and Mrs. Walter Burns, wife of Mr. Pierpont Morgan's nephew, May Retaillate.

and cargo service between Liverpool and New York. There is no smoke without fire, and these reports do not get about unless there is some foundation for them. No doubt the German company keenly resents the contemplated transfer by the Cunard company of fast Cunarders to Southampton and Cherbourg to obtain the rich continental trade, and it is likely enough that the Hamburg-American line would try to retaliate by aiming a blow at the other lines by establishing themselves at Liverpool to make a bid for the enormous passenger and cargo traffic. They are much incensed evidently at the premature publication of the news.

Ellen Terry's Husband. Things theatrical are decidedly interesting this week, the arrival of Ellen Terry's husband not being the least among them. There is an amusing account of his uncomfortable voyage in the Minehaha. He did not wish his identity to be known on board the boat, which was full of visitors coming over for the international horse show next week. But the first day he appeared on deck he was recognized by one or two people, with the result that the news spread like wildfire, and Mr. Carey was the object of much scrutiny every time he made his appearance. Life on the "boards" has evidently not toughened him to the extent of withstanding the curious glances of a shipful of people, and to escape them he disappeared to his cabin, where he remained for the rest of the voyage. His arrival here was very unobtrusive. Miss Terry met him at St. Pancras station in London, where neither of them were recognized, and they drove to their home in Chelsea without the unwelcome demonstrations of a curious public.

Miss Sutton Arrives. Lawn tennis enthusiasts will hail with pleasure the arrival of the American champion, Miss Sutton, who has once more crossed the Atlantic with the full determination to win back the English championship. This plucky little woman is in great "form," and it will be quite surprising if she fails. She has been telling interviewers that she has no intention of failing. She has also been telling them a lot of interesting things about the popularity of the game with her American sisters. She says they have improved wonderfully in their play and men are no longer ashamed to be seen in the courts with them. To give the final fillip to the game in America she would like to arrange for an English team to visit them. During her stay she

hopes to settle about an international match to be played in her country next year, and the Longwood Club, Boston, have offered a cup and their ground.

Ballooning. Ballooning was likely to become a fashionable craze. But the disaster that befell one sent up by the war office authorities in the presence of the King this week is likely to put a stop to this amusement. The fleet of private balloons that went up last week happily met with no mishap. Not so that with the two young officers of the Royal Engineers, whose departure the King and Prince Fushimi witnessed. The balloon was found floating in the English channel, but there is no trace of the officers, and much anxiety is felt as to their fate. The worst is feared, for if they were picked up by any of the big liners wireless telegraphy would have informed the war office of the fact. At present there is absolutely no clue to the mystery of their disappearance, but the general belief is that they are drowned.

Proved a Failure. Why do serious plays fail in London? That is the question which is disturbing the mind of more than one theatrical manager at present. A splendid melodrama, "The Last of His Race," was produced at Drury Lane a few weeks since dealing with the Redskins of Northern America, whose hairbreadth escapes and daring escapades have thrilled most youths at one time or another. But it is announced for withdrawal, and it must be sorrowfully admitted has proved to be a dead failure, and this is only one of many serious plays that have failed. Mr. Bourchier, one of our leading actor managers, has been airing his views on the frivolity of the English stage, and he accounts for it by the fact that the modern man works so hard in the day time he is too tired to care about serious plays at night. He wants amusement and not instruction. But this theory falls to the ground when it is remembered that it is not the people who work hard in the day time who support the theatres. It is the moneyed people who do not work who occupy the stalls and boxes, and they decide the financial fate of the play.

Supported by Truth. An article in Truth this week backs up Winston Churchill in his attack on the "yellow press." The gist of the writer's remarks turns on the point that the big London dailies belong to a few individuals who use them for their own profit and glorification. The owners are men of no political importance and are not journalists in a literary sense. Their wives are likely to be of no more value than those of any other tradesmen. The conferring of titles on newspaper proprietors also meets with this writer's entire disapproval. He thinks it is contrary to all journalistic independence. If titles are given at all why not to some distinguished writer, or the press, rather than to those who control the business side of the concern. But he forgets that titles can only be bought with money in this country, not with brains.

at the Haymarket theatre, which is likely to have a long run. This will be due not so much to the merit of the production as to the acting of the young lady—one might say girl, for she is but seventeen—who has made her debut in the leading part. Miss Marie Lehr was sprung on an unsuspecting public the other night in the role of Trixie in "My Wife," a light comedy adapted from the French, and her young head should be indeed turned by the enthusiasm her acting aroused. The critics were one in agreeing that she can take her place in the first rank of comedy actresses on the British stage. To make such a bound into fame at "seventeen" is given to few and the young actress confesses that she feels as if it were all a dream from which she will wake up. She owes her training to that fine actress Mrs. Kendal, with whom she toured the provinces.

Visitor's Views. A Frenchwoman, who has been visiting London, has been giving her impressions of Englishwomen to a newspaper man. She is a candid critic and tells Englishwomen openly that she is horrified at their clothes—they are "abominable," and their "hats are worse." In describing their walk words fall her, they stride along like men, no grace, no beauty, and last, but not least, she declares that London reminded her of a "town of dolls," who only moved when a string was pulled, so wanting in animation and life are Englishwomen. What a pity she was not here for the suffragist demonstrations, her opinions would no doubt be wonderfully modified if she had witnessed one of the various tussles with the policemen in Palace Yard. But Englishwomen must at least be thankful to their French critic for allowing that they are "the most beautiful skinned creatures in the world, with faces rich as rose leaves," also that in no city are evening clothes worn by women with such distinction or to be found a finer display of necks and beautiful hair.

A GREAT TRIUMPH

GAINED BY DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE.

The Doctors of Mount Clemens Institute Prove the Value of These Pills in the Case of Mr. S. Harris, Government Inspector of Elevators at Hamilton, Ont. (From the Star, Dundas, Ont.) We were much pleased to see Mr. S. Harris, the well known Government Inspector of elevators of Hamilton, in Dundas the other day, greatly improved in health and appearance since the last time we met him. As is known to many of the Star readers, Mr. Harris has recovered from a long and severe illness; many predicted Mr. Harris would never recover, and the fact that he is once more able to go around very nearly as spry as he did before he was attacked, is little less than marvellous to them.

and subsequent sufferings which he experienced, and while he did not court publicity, decided that in the public interest he would relate the circumstances of this wonderful cure. About fourteen months ago Mr. Harris woke up one morning with a stiff neck; try as he would, and after applying all the remedies externally that he could hear of or think of, he was unable to get rid of it. The stiffness moved to the spine and shoulders, then to his hips, until it made almost a cripple of him, and it was with extreme difficulty that he could get out of bed at all. As for walking it was out of the question with him. The attack became so bad that he was unable to put on either his coat, vest or hat. From time to time he called in various medical men, none of whom were able to give him much relief. It was almost impossible for him to raise his feet from the floor, and all pronounced his a severe case of muscular rheumatism, giving him little encouragement as to his ultimate recovery. However, one medical gentleman finally recommended different treatment. Mr. Harris decided to follow his advice, and went to Mount Clemens, Mich. As is customary with all patients, Mr. Harris had to undergo a thorough examination in order to determine if the system can stand this rigorous treatment. After several examinations had been made as to Mr. Harris' condition, the physicians there finally decided that he was not suffering from muscular rheumatism at all, but that his ailment was of the nerves, and told him that the baths would do him little or no good; that he required altogether different treatment. Mr. Harris placed himself in the hands of one of the physicians there, and what seemed quite strange to him, they did nothing for him but administer medicine in the shape of pills. Shortly after he commenced this treatment he began to improve perceptibly, and his appetite greatly improved. He began to walk around slowly at first, but soon was able to get around more than he could for a year previous. He was able to put on his coat and vest and began to feel like his former self. His improvement was so rapid and perceptible not only to himself, but to others, that he was led with all sorts of questions as to his wonderful recovery. The medical attendant was questioned as to the nature of the medicine which was being administered. Much to the surprise of Mr. Harris and other patients there, he was told that it was a well known Canadian remedy, Dr. Williams' Pink Pills, and was advised to continue their use for a time on his return home. Mr. Harris is loud in his praise of the wonderful curative qualities of Dr. Williams' Pink Pills, and consented to make his case public in the hope that he might benefit others similarly afflicted. Mr. Harris has long been a resident of Hamilton, being a well known builder of elevators, as well as Government Inspector of the same, so that his prominence and well known integrity is evidence that he is sincere in the statements he made.

Every steel-plate range kept the kitchen broiling-hot until we found out just how to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook. THIS range is a COOL range-lined with thick asbestos, so the heat stays inside the range, so the oven bakes quick and bakes evenly. Food is better cooked quicker cooked and cooked for less fuel-cost, and cooked with less bother.

FOR CLEANLY COOKERY Oxford Chancellor BURNS WOOD OR COAL

Everything about it is clean, ash-pit has an outside guard so it can be emptied without fluffing ashes over everything. Feed-door extra big to take in fuel without clutter and mess. And this range's draft-control is sensitive, easily governed, brings a fire up quick or cools it down quick, easier to manage than you think possible. Couldn't make this range any more handy, any more serviceable, it's all it should be to please you.

THE NEW ROUTE ACROSS CANADA

PRINCIPALS ARE ON VISIT TO VICTORIA

Port Simpson and Churchill Railway They Say Will Be Built at Once.

Those directly interested in the Port Simpson and Churchill railway which it is proposed to build from the B. C. coast point to Hudson's Bay, state that construction of the line is assured and will be commenced almost immediately. To-day Col. May, who is prominently identified with the financial side of the enterprise, is in the city accompanied by Messrs. McKay and Fraser, who are associated with him in it. The arrival of Col. May in the city for the purpose of taking steps towards forwarding supplies to Port Simpson and beginning work on the wharves necessary for the early stages of the work. The financial arrangements they report are perfect and there is abundant capital back of the enterprise to see it through to completion. Col. May himself is well acquainted with western conditions. He was formerly governor of Alaska and is enthusiastic over the possibilities of the new trade route.

CHILD SCALDED TO DEATH AT NANAIMO

(Special to the Times). Nanaimo, June 22.—Bertha Endrizki, a 15-month-old child, was scalded to death yesterday. The father had just returned home from the mines and was preparing to take a bath. He lifted a pot full of boiling water on to the floor. The child bumped against the pot, knocked off the lid and fell into the water. The child died a few hours later.

DESTRUCTIVE FLOOD IN NEW MEXICO

(Associated Press). Albuquerque, N. M., June 22.—The Rio Grande, swollen by recent rains in New Mexico, has passed the danger point in the valley south of this city. Thousands of dollars' worth of damage has been done. Guadalupe, a small hamlet of several hundred people, is reported to be entirely washed away and the natives are homeless. Great damage has been done in San Antonio and at San Pedro and San Antonio, small native villages below San Antonio. A large force of men is at work building levees at San Antonio to keep out the water. At Guadalupe the river suddenly changed its channel and the villagers barely escaped with their lives.

REDUCED RAILWAY FARE

Decision to Adopt Two-Cent Rate Reached at Meeting of Presidents of Big Roads.

(Associated Press). Chicago, June 22.—The decision of the railway presidents to reduce passenger rates to two cents a mile, was reached, says the Inter-Ocean, after a long and heated discussion by the leading railroad presidents of all the western and transcontinental roads yesterday. It was not a formal agreement, but it is equally binding, for two large roads doing a transcontinental business are said to have served an ultimatum to the others that they would put the rate into effect immediately. Following the meeting, officials of the roads admitted that they had been obliged to bow to public opinion and anti-railroad legislation. They said that no further fight would be made against the two-cent laws already passed and that the roads would accept the inevitable.

SPOULE SCORED

Taken to Task For Reference to Visit of Ministers to Rome. (Special to the Times). Ottawa, June 22.—Speaking at Aurora yesterday Hon. A. B. Aylesworth said that Dr. Sproule's address at Vancouver in reference to the visit of Sir Wilfrid Laurier and Hon. W. S. Fielding to Rome was worthy of a true Canadian. Hon. R. Lemieux spoke of the unity of races, the conciliation act and postal preferences.

RETURN TO BARRACKS

Mutinous French Soldiers Have Marched Back to Adege. (Associated Press). Adege, Department of Herault, France, June 22.—Six hundred men of the 17th Infantry who mutinied yesterday and marched to Beziers under arms, returned to their barracks here to-day.

KILLED BY ORE CAR

Tomophy Nev., June 21.—George Marovich was killed last night at the Belmont mine and his brother, Frank, badly injured by a runaway ore car. "The Golden West Soap Man" will call on you soon and give you part of that \$15. See page 8.

PROBABLY MURDERED

Skeleton of Man Found—Bullet Hole Through the Forehead.

Seattle, June 22.—What the authorities believe to be evidence of murder was unearthed yesterday at Kenneydale, south of Lake Washington, when workmen employed by the logging firm of French & Peterson dug up a skeleton about a quarter of a mile from the post office. The bones had evidently lain in the ground for years, and there was nothing which might lead to the identification of the man. Through the forehead was a bullet hole, and at the base of the skull was another and larger opening which indicated that the bullet had passed through. In the shallow grave with the bones was an old, rusty revolver. The gun is a .35-caliber affair of cheap pattern. Not more than two inches of earth covered the skeleton, and in places the rain had washed the earth away until parts of the bones were exposed. Coroner Carroll states that a theory of suicide could not be entertained because of the position of the wound in the head and because the body had been carefully covered with earth and a pillow arranged for the head.

STRIKE OF TELEGRAPHERS

Two Hundred Operators Are Idle in San Francisco. (Special to the Times). San Francisco, June 22.—Two hundred telegraphers are out here. Chief operators, wire chiefs and half-a-dozen loyal operators maintain a fragmentary service. Strike breakers are coming in. The company will do its utmost to break this strike. The union, on the other hand, contemplates calling strikes elsewhere unless the company yield.

PIGMIES OF VOLCANOES

A race of pigmies who live in a bamboo forest thousands of feet above the sea-level is the latest discovery in Central Africa. Dr. A. F. R. Wallaston has just returned to England after penetrating 15 one of the most inaccessible and unknown spots in the world. To the south of Lake Albert Edward is the Mtumbiro volcanic region, a wild mountainous and difficult country with waterless stretches. No Englishman has ever set foot there before, and Dr. Wallaston found traveling very difficult, not only on account of the physical obstacles, but also owing to the attitude of the natives. There were nine volcanoes, mostly extinct, altogether, the highest being about 14,000 feet. Near the top they are covered with dense bamboo, which is supposed to be inhabited by a race of pigmies, who live by raiding the villages on the lower slopes. Although the expedition spent five weeks among the volcanoes it was not found possible to visit the people at their summits. From the summit of one volcano last year issued a great stream of lava a mile or two wide and some ten miles in length, which had made a vast track through the forest. The natives of the region were thickly populated, and their fine physique, very rich in food, bees and cattle, and living principally on milk and honey. The unexplored valley of the Ruzsisia was then reached by the expedition on their way to Tanganyika. At one place the torrent of the river rushed through a natural tunnel hundreds of yards in length. They passed through a region devastated by sleeping sickness, the population dying by thousands. Almost every village presented a revolting spectacle, as it is the custom of these people to turn out tricken natives to die on the roadside. The expedition had considerable trouble in the Manyema country, the inhabitants of which refused to supply them with food. One big chief, a vassal of the Belgians, who had under him some 10,000 men, in refusing porters, threatened to shoot Dr. Wallaston. The latter promptly overawed him by sending a boy for his gun and occupying the chief's house.

A CABINET OF SPORTSMEN

Opening the Exhibition of Summer Sports and Pastimes in London recently, Lord Carrington, president of the Board of Agriculture, said the Liberal party was generally supposed to be composed of sports and sanctimonious smugs. He did not think that was quite fair or Liberals would not have returned the present Cabinet to power. If they took the Cabinet right through it could not be described as sanctimonious or smug. Mr. McKenna was a first class cricketer, the Lord Chancellor was a high-class cricketer, Lord Ripon an excellent shot, Mr. Gladstone and Mr. Asquith keen golfers, Lord Tweedmouth was a first class deer-stalker and one of the best rifle shots in England; Sir Edward Grey and Mr. Buxton first class fishermen, while the former was also champion tennis player and they had a first class fighting man in John Burns. He thought the whole of England, friends and foes alike, would agree that in Sir Henry Campbell-Bannerman they had the best-humored and one of the pluckiest sportsmen in the country.

BOYS' HISTORY OF COLONIES

At a Norwich missionary meeting the Bishop of Bath and Wells told a schoolboy story illustrating the different ideas as to the making of the British Empire. The bishop said that he had verified the story by personal inquiry of the school master concerned. A Bristol schoolboy had to write an essay on how England obtained her colonies, and this was how he described the process: "Now I will tell you how England obtains her colonies. First, she sends out her missionaries. They look about for the best land. When they have found it they call the people to prayer, and when their eyes are fast shut, up goes the Union Jack."

FINE BY INSTALMENTS

A widow, who was summoned for the third time before the Long Stratton (Norfolk) magistrates for not sending her child regularly to school, was fined 10s. to be paid by instalments of three-pence a week.

The juniors of the primary department of the Metropolitan Methodist church will hold an entertainment on Wednesday evening of next week. The parents and friends are invited to attend. The programme, which commences at 8 o'clock, will include solos, duets, choruses, fancy drills and other numbers. The entertainment will be held in the school room of the church.

Steamer Coysa, now lying at Nanaimo, while manœuvring at the wharf there on Thursday got her propeller caught in a hawser and the latter twisted round in such a fashion that the screws failed to act. Yesterday morning W. Atkins a diver attached to the B. C. Salvage Company, proceeded to Nanaimo and has been engaged since yesterday afternoon in endeavoring to extricate the hawser. The Coysa was in this port some weeks ago discharging a cargo of nitre from South America. She is loading with bunker coal at Nanaimo.

BORN. M'DONALD—At Nelson, on June 16th, the wife of P. L. McDonald, of a daughter.

MARRIED. MURRAY-GOW—At Vancouver, on June 19th, by Rev. J. M. McLeod, Whitley Murray and Miss Mary E. Gow.

ZAVITZ-GOW—At Vancouver, on June 19th, by Rev. R. J. Wilson, Richard H. Zavitz and Miss Ethel Estelle Douglas.

DEPARTED. KEEFER-HERALD—At Vancouver, on June 20th, Charles Keefer and Miss M. Herald.

DIED. KELLEY—At Nelson, on June 18th, James A. Kelley, aged 72 years.

WANTED—A general blacksmith. Apply Brayshaw's Wagon Works, 37 Broughton street.

GENTLEMAN, returned to Victoria to settle, wishes to share post office box. Willing to pay full cost for privilege. Write Col. Wova, care of Times Office.

TO RENT—Two furnished front rooms, modern conveniences, breakfast included. Apply, mornings or evenings, 165 Johnson street.

LADY ROOMER WANTED—Breakfast if required. Box 814, Times Office.

LOST—Thursday evening, probably between Menzies and Beacon, light colored cotton parasol, bamboo handle. Reward. Daily Times Office.

Freight must be delivered before 5 p. m. at company's warehouse and office, 25 WHARF STREET. PHONE 1164.

THE DANGERS OF THE PROFESSIONAL

Record Makers Like Barney Oldfield and Bruno Siebel Run Great Risks.

The presence on the Pacific Coast this summer of Barney Oldfield, and Bruno Siebel, two of the most famous professional autoists, attracts attention to the wonderful career of the first named.

Automobile racing with the cars covering miles in less than a minute has proved the most dangerous and fascinating sport of the age. When making the turns at this excessive speed the monster machines skid sideways in a frightful manner, breaking and splintering of one board and a twisted steering knuckle.

When a tire, pumped to the hardness of steel, wears through to the fabric, the friction causes expansion. Then there is an explosion of a tire. What happens when this is the case can be easily imagined. When travelling miles in 65 seconds, the car covers the ground at a rate of over 100 feet a second. As the machine is less than six feet from the pole, should the inside front tire explode, it takes less than a tenth of a second to be hurled through the fence.

At Detroit, Mich., in 1903, Oldfield met with his first accident on a road race. When just entering the stretch, his inside front tire went wrong and the rim dug into the track, hurling the car through the fence. Two lives were snuffed out by the death-dealing car, while Oldfield himself was almost fatally injured.

It was a long time before he raced again, but as soon as the car was repaired, he was again tempting fate. At St. Louis a year later, August 28, 1904, Oldfield again started on a fatal drive. It was for the Louisiana Purchase trophy. This is the only track in the last three years that Oldfield has not covered a mile in less than a minute, and without doubt he would have beat the minute on this track but for the fact that during the first mile he crashed through the fence killing two spectators. A year later, in 1905, he covered the mile in thirty-seven seconds over this same track.

August has always been Oldfield's fatal month. It has always been in August that he has had accidents that have had fatal endings, so that now it is almost impossible to get him to enter a race during this month. Since 1902 every year, excepting last year, he has had an accident which happened during this month; twice in Detroit, he has experienced them and once in St. Louis, while later on Pittsburgh was the scene of an accident with his Green Dragon. Last August the Peerless Pilot would drive nothing but exhibitions during his hoodoo month.

Bruno Siebel, the Flying Dutchman, was brought by W. K. Vanderbilt from

Berlin, Germany, to drive his 30 H. P. Mercedes in 1903 at the beach at Ormond-Daytona, Florida. At this meet Oldfield gave the millionaire the beating of his life, winning the mile open for the world's championship.

Siebel then went back to the old position as manager and mechanical expert from the Smith & Mabley Auto Co. on Broadway, the American agents for the Mercedes, later leaving that concern to drive a car for Harry K. Thaw. In 1903 Siebel went to Pasadena and afterward settled in Los Angeles, where he reconstructed the Burke-Siebel 999. This car was defeated by Oldfield in the races there last month, and since that time the Flying Dutchman has been driving the Red Devil, and the combination of the Dutchman and the Devil are a big success.

At Lake Side, Siebel covered a mile in 56 seconds, and is without doubt the most daring driver on the track with the exception of Oldfield. At Fresno, on May 22, the Dutchman mixed with the fence, but with nerve and skill got out with no greater damage than the breaking and splintering of one board and a twisted steering knuckle.

Siebel has but one ambition, and that is to win from Oldfield, though his chance of doing that is very remote. During the last two years Oldfield has lost but one race, and this was to Siebel in Los Angeles. At the three-quarter pole on the last mile, while Barney was in the lead, he snapped his crankshaft and the Dutchman won. This does not satisfy Bruno, however, "I want to win from him when he goes through to the tape," says he, "and the best that I have been able to get was a tie with him at Riverside when we ran a dead heat in the five-mile race, best two in three heats."

AUTOMOBILE FROM COMMERCIAL SIDE

Important Part Which It Plays in the Trade Returns of France

The commercial aspect of the automobile trade is of importance in the world to-day. In this connection the situation in so far as France is concerned, is worthy of note.

The great automobile exporting country of the world is France. First in the field with practical vehicles, she has known how to maintain her supremacy in the world's markets, as shown by the fact that in 1905—the last year for which export records from all of the automobile manufacturing countries are available—her exports were of substantially twice the value of those of all the rest of the world together. It may here be pointed out that so far as exportation of automobiles is concerned only six countries need be considered. France is far in the lead, then follow Germany, the United States and England, with al-

most an equal export business. Then follows Belgium, which for a country of its size "cuts quite a figure" in the world's automobile commerce, and the last of the countries, Italy, has seen its automobile industry develop strongly only during the last two years.

Several factors helped to establish France as the great producer of motor vehicles for the world's markets. Her automobile industry is to a large extent centralized around Paris, the great Mecca of the wealthy classes in all parts of the world. The early French manufacturers thus, in a sense, built and tried out their cars under the very eyes of a select international purchasing public, and a high degree of mechanical reliability had been attained they were able to sell their machines direct to a cosmopolitan clientele, who took the cars with them into their respective native countries. While the start of French automobile exports was therefore in a sense spontaneous, it must be said to the credit of the commercial heads of the French automobile industry that they have shown great energy in developing export markets, and they share with the French automobile engineers the credit for France's present position as an automobile manufacturing country.

The old gibe concerning the lack of enterprise of French business men, that they stand with their nose pressed against their shop window waiting for customers, no longer holds true. France, of course, has long enjoyed an enormous export trade in such commodities as champagne, silks, etc., which are indigenous to the country, but this is the first time that she has taken the lead as a producer of a mechanical article.

The growth of her automobile export business since 1897, the year of the first official records, has been remarkably uniform, as the accompanying table shows.

The French exports and imports for the various years were as follows:

Year	Exports	Imports
1897	124,738	149,870
1898	331,806	383,472
1899	1,883,472	3,136,454
1900	3,042,076	4,203,780
1901	10,167,428	663,200
1902	14,896,592	1,990,500
1903	19,418,711	2,423,800
1904	27,571,000	—

The principal consumers of French cars for 1905 showed the following results:

England	\$9,954,482
Germany	3,262,214
Belgium	2,048,766
United States	1,323,480
Italy	961,098
Argentine Republic	678,144
Spain	262,740
Switzerland	245,936

This table demands some explanation. The import duty on cars in France is calculated on the total French export value of practically half a million dollars, which figure has never been reached again since.

LADIES!

We Want Name for New Range

We have under construction, patterns for the most modern and finest Steel Range ever placed on the Canadian market, and look to the ladies of Canada to supply a suitable name for it.

The name should be original and suitable for the highest grade of heavy cooking apparatus. A name that will look well in print, and one easily remembered.

This range will be made of heavy steel plate, with handsome cast ornamentation, constructed with a view to meet the requirements of the GREAT WEST, but equally applicable to any part of Canada.

Conditions of Contest

1. Name, if one word, to contain not more than 8 letters. If two words, not more than 10 letters.
2. Not more than 3 names to be suggested by one person.
3. All replies must be addressed to our London office and mailed within two (2) weeks after this paper is published.
4. The judges in the contest will be officers of the McClary Company, assisted by two advertising experts.
5. Should the name decided upon be sent in by more than one person the prize will be given to the person whose name is first received.
6. Mention this paper.

PRIZES

- 1st One of the new ranges complete, with reservoir and high closet, delivered to the winner's nearest station. Value \$65.
- 2nd Choice. One of the new ranges, square—that is, without reservoir and high closet, delivered to the winner's nearest station. Value \$40.
- 3rd Choice. Goods—stove or enamelware—delivered to the winner's nearest station. Value \$30.
- 4th Choice. Goods—stove or enamelware—delivered to the winner's nearest station. Value \$20.
- 5th Choice. Goods—stove or enamelware—delivered to the winner's nearest station. Value \$10.

The winning names will be decided upon without delay, and the results will be published in this paper within ten days or two (2) weeks afterwards. Address all communications to

Largest Makers Under the British Flag of Stoves, Ranges, Furnaces, Enamelware, Etc.

ers of French Cars" gives the values of French automobiles and parts imported into the seven countries at the head of the list of French automobile consumers in 1905. By comparing this table with that for the total French exports it will be seen that England takes substantially one-half of France's surplus automobile production. The United States, in spite of the fact that their millionaires are reputed to be great admirers of French machines, in 1905 stood only fourth in the list of consumers of French cars, Germany holding second place and little Belgium third. Italy follows the United States, while one year earlier it still led it. A peculiar thing in the statistics of French exports is that Spain as early as 1900 imported from France cars to the value of practically half a million dollars, which figure has never been reached again since.

ADVANTAGES OF BENZOL AS FUEL

Motorists in Europe Regard This By-product of Gas Plants With Favor.

While American motorists are placing their hopes on alcohol to deliver them from their dependence on the standard fuel, benzol is being paid to benzol. This fuel is a by-product of illuminating gas plants, and at present the price is very low. In Germany, for instance, where gasoline sells at about 60 marks per 100 kilograms, benzol may be bought for 20 marks per 100 kilograms when taken in barrel lots. It develops from some testimony recently taken by the Fuels committee of the Motor Union of Great Britain that so far as heat values are considered benzol is superior to gasoline, the thermal values per gallon being 163,690 and 157,142 British thermal units respectively. A German engineer who has made road tests of this fuel claims to have observed a considerable increase in motor power over gasoline.

The specific gravity over benzol is .88, and it is not so volatile as gasoline, yet it burns more readily than gasoline, and the carburation problem can be satisfactorily solved. The main question upon which the probable future of benzol as a motor fuel rests is the limit of its production as a by-product in gas and coke plants. The present low price is due to the fact that there is little practical use for the liquid, its application being limited to such purposes as the removal of grease spots from clothing, etc. It is to be feared, however, that if it should be definitely proven to be a practical motor fuel the price would soon be raised to a level even more limited than that of gasoline. Yet, even though it may not be capable of replacing gasoline, if it should materially increase the sources of supply of motor fuel it would be a

matter of much importance to the automobile industry. One apparent disadvantage of benzol is that it solidifies at the freezing temperature of water, but as it readily dissolves in alcohol any trouble from this cause could probably be obviated by using such solution during the cold season.

Motorists having connections with gas plants might advantageously make a test of this fuel in their cars. It is claimed that no sooting of the cylinder walls occurs, and by separating the lighter proportions of the crude benzol, the sulphur compounds, which might possibly attack the metal surfaces, can be removed.

FOR VISITORS.

Information for the Guidance of Autoists From the U. S.

The local Motor Club, in preparing a circular for visitors, to be a guide to them, has done a good work. The information given is as follows:

1. In order to avoid confusion and possible accidents the Victoria Motor Club directs attention of visiting motorists to Rules of the Road in this province:
1. On meeting a vehicle coming towards you keep to the left.
2. On overtaking and passing a vehicle going in the same direction as yourself pass on the right.
3. Drive always, whenever possible (except as specified in Clause 2), on left hand side of street or road.

Visiting motorists are advised to comply, at once on landing, with provisions of the "British Columbia Motor Regulation Act," which provides that all automobiles must register (cost \$2.00). Registration can be effected in Victoria at office of Superintendent of Provincial Police, Court House. The police department, in addition to the certification of registration, will supply copy of the "B. C. Motor Regulation Act," which contains general regulations and speed limit, etc., etc.

Owing to the very narrow and very winding nature of many of the roads in British Columbia, which, at many places where roads only from seven to nine feet wide abound in sudden sharp turns (around which it is impossible to see owing to dense vegetation, high banks, etc.) it is necessary at times to drive with great caution. This particularly applies to some parts, near Goldstream, on the road between Victoria and Goldstream. There is considerable traffic on this road, and more than ordinary caution is required on its many narrow sharply winding portions; motorists should drive slowly around these turns and sound horn frequently.

IMPROVING COURSE

Proposal to Make Loops at Ends of Ormond-Daytona Beach Track.

The management of the Ormond-Daytona Beach carnival evidently does not intend that the 1907 Vanderbilt cup race shall be abandoned for want of a course, if a circuit cannot be obtained on Long Island, upon which the contest may be decided. A representative of the management has been sent to Florida to investigate the proposition of building the proposed land loops at each end of the beach course so as to permit long-distance events being contested without having recourse to bothersome controls or "neutralizations," or else compelling the contesting drivers to come practically to a standstill in order to make the turns. It is possible that the land loops will be constructed even if it is definitely settled that the Vanderbilt cup race be run on Long Island, as the loops would permit long races being run in much faster time than has been possible heretofore. W. J. Morgan, general manager of the tournaments, has written to most of the prominent automobile manufacturers, asking for their opinion regarding the number and character of events which should be included in the programme for the next Florida meet.

FOR REPAIR WORK.

Wood Bros. Have Secured First Class Machinist for Garage.

Mr. Rigley, a first class machinist, has been secured by Wood Bros. to take charge of the repair work in the new garage. Mr. Rigley is a man of experience. He was formerly in the employ of Beyer & Peacock & Co., of Manchester, Eng., having charge of the auto repair department in their works. Facilities will be provided at the garage for the carrying out of all necessary work at the new premises, 88 Fort street.

MAKING TOY SOLDIERS.

In a large room on an upper floor are being fabricated toy soldiers, row on row in dazzling array. On each side sit girls, whose busy fingers are rapidly transforming them. Here is one worker with a heap of soldiers before her, just as they have arrived from the moulding room. Her duty is to "edge" them; that is, carefully scrape away with a knife any little roughnesses that are still left on them. After passing through her hands, they are ready for the next stage, the painting.

Most of the girls in this room, as in others into which we shall take a peep before leaving, are engaged in painting. Some do red tunics only, some blue; others do horses only; while others again perform the more delicate work of putting in the little touches that make the uniform correct to the smallest detail. A. L. Hayden in Little Folks.

For having his chimney—the chimney of the fire station—on fire, the chief constable of Stockport was fined.

THE MOTOR CLUB RUN TO ALBERNI

Local Autoists Will Have An Outing Next Week—Meeting Thursday Evening.

Next week the Victoria Motor Club will hold a club run to Alberni. Leaving here on Saturday the members will spend that night in Nanaimo, and on Sunday will continue on its way to Alberni. The run home will be made on Monday.

This outing of the club should be a most enjoyable one. The route selected is a delightful one, combining some of the most charming pieces of scenery on the Island.

The number of autoists who will take part in the trip will undoubtedly be great, Monday being a holiday.

There will be a meeting of the Motor Club at 8.30 on Thursday evening at the club room, Garesche block, Yates street. At this time the final arrangements for the outing will be made and in addition general business will be transacted.

The club has now posted all the "Go Slow" notices on the Goldstream road. Forty of these notices have been placed for the guidance of those who are not familiar with the roads.

A MOTHER'S GRATITUDE.

Mrs. V. Cheoret, of St. Penoit, Que., writes as follows: "It is with feelings of the deepest gratitude that I write to tell you what Baby's Own Tablets have done for my baby. When I began giving him the Tablets he was so thin and wasted that he looked like a skeleton. His digestion was poor; he was constipated and cried day and night. I got a box of Baby's Own Tablets and from the first they did him a great deal of good. His food digested better; his bowels worked regularly; his sleep was natural; he stopped crying and began to grow fat. I got another box and am happy to say before they were all used he was in perfect health and is now a plump rugged child. I always keep a box of Tablets in the house and would advise other mothers to do the same." The above is a fair sample of hundreds of letters that come from all parts of Canada, praising Baby's Own Tablets. The Tablets cure all the minor ills of babies and young children, and are absolutely safe, as they do not contain one particle of opiate or narcotic. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Another twenty-four-hour automobile race, this one under the auspices of the Quaker City Motor Club, is to be the match-off of the recent successful event at the Point Bresee track at Philadelphia. The Quaker City Motor Club has selected June 25th and 26th as the dates. There will also be four other races for smaller distances.

A Thoroughly Up-to-Date Apartment House in Victoria Is a Necessity

And it is proposed by the Directors to Call for Tenders shortly for the Erection of a High-Class Building. It is the intention to erect same on Modern Lines on One and One-Quarter Acres of Bishop Cridge's Property, on Carr Street.

The Building itself will occupy a space of about 120 Feet Square, and will be surrounded by Well Laid Out Gardens and Tennis Courts, etc. There will be about Sixty-Five Suites of Rooms in the proposed Building, running from one large room and bath room to five rooms and bath room.

The Company is capitalized for \$250,000.00, but only half of this amount will be sold at present; the other half to be sold later, if another building on similar lines is built.

As the Directors are anxious to have the Building finished as soon as possible, all those who are thinking of applying for stock are asked to communicate with the Company's Brokers right away. As this will doubtless prove a safe and very profitable investment, the allotment of Stock now being made will be taken up in a very short time. Numerous applications for Stock have already been made, and a large number of people have signified their intention of applying for Rooms in the New Building.

CASE FOR THE STATE IS CLOSED

CORROBORATION OF ORCHARD'S EVIDENCE.

Denver Horse Dealer on the Witness Stand—Expert in Handwriting Testifies

Boise, June 21.—The trial of William D. Haywood for the murder of ex-Governor Frank Steunenberg was resumed here to-day at 9:30 a. m.

Senator Borah announced that the State had received information from the First National Bank of Denver fixing the date of one of the drafts which have been introduced as evidence, and upon which the date has been punched out by the file in the bank. This draft was for \$100 and the bank wired that it bears the date of December 21st, 1905. It was drawn in favor of J. L. Simpkins by Haywood.

The letter produced in court from Pettibone, received by Orchard while in jail at Caldwell, stated that "That had been sent to Jack." Orchard said he had asked for \$100. The date was admitted prima facie that the date was December 21, and the date was recorded as evidence.

W. V. McCartney, former clerk in the telegraph office at Denver, testified that he did not write the telegraphic money orders sent from Denver to Orchard, when on the Bradley mission in San Francisco.

G. S. Kingsley, an attorney of Boise, qualified as an expert in handwriting. He was asked to compare Pettibone's signature on the letter replying to the insurance agent in Denver with the signature of "Wolf" and "P. Bone" on the back of the telegraphic money orders. Kingsley said that in his opinion the signatures were written by one and the same person. He was not cross-examined.

Jim Seaborn, a colored horse dealer of Denver, testified in the case of a horse and buggy to Haywood in Denver. Orchard testified as to the sale of the team to Haywood. Seaborn said that Orchard and he drove to Pettibone's store, and the three drove to a place described as the location of the headquarters of the Western Federal Union of Miners.

Orchard went upstairs and came down with another man, who got into the buggy. The witness said: "They said they would be back soon, and drove off together."

The negro identified Haywood as the third member of the party.

It was the first direct connection of Haywood with Orchard. He said Orchard paid him \$100 for the outfit, but the bill of sale was made to Pettibone.

Cross-examined, he said he met Orchard at the penitentiary after coming to Boise. He said he was summoned by Pinkerton detectives and he received his fare and expenses from them in advance.

Senator Borah then stated that with the exception of proving the sending of a money order for \$75 by the Western Union from Haywood in Denver to Steve Adams, in Ogden, Utah, in 1907, the State's case was closed.

Mr. Richardson for the defence said that they would agree that the state should file the telegrams as soon as they were received. Senator Borah said that the telegram would be here "to-night."

"With this exception, your Honor," said Senator Borah, "the state is ready to close its case."

There was some wrangling over the reading of a long opinion delivered in the Colorado courts on the *Moyes* habeas corpus case and which the defence said should be read, as it had been offered as evidence for the state. Judge Wood denied the motion that it be read to the jury.

This closed the state's case and at 10:25 the court adjourned until 1:30 p. m., when the defence moved that the court instruct the jury to render a verdict of "not guilty."

A BROKEN HEART and Its Lost Love

OVER ONE HUNDRED SOLDIERS WOUNDED

Statement by French Premier Regarding Conflict at Narbonne—Mutineers Have Surrendered

Paris, June 21.—The government was interpellated in the Chamber of Deputies to-day on the measures which it proposed to take in order to restore order in the south.

Premier Clemenceau in the course of his reply said that over one hundred soldiers were wounded in the fighting with the mutineers yesterday at Narbonne. He then had confirmed the dispatches of the Associated Press in regard to the mutiny in a battalion of the 17th Infantry at Aude, and its march to Beziers, and said he could not listen to any proposition for the conditional surrender of the mutineers. The premier concluded by demanding a vote of confidence.

The opposition deputies fiercely attacked the government, saying the troops fired without provocation and children had been slaughtered and that the release of M. Ferroul, ex-mayor of Narbonne alone would restore order. Otherwise, according to one of the speakers, the bloody rioting of to-day will be the revolution of to-morrow.

General Ballouard with artillery and other troops proceeded to Beziers in order to compel the unconditional surrender of the mutineers who are now said to number 607 men.

Mutineers Surrender.

Beziers, France, June 21.—General Ballouard arrived here to-night and after an interview with the mutineers the latter decided to return to their regiments.

Details of Muting.

Paris, June 21.—Details of the mutiny of French troops show that a battalion of the 17th Infantry Regiment sent from Beziers to Aude on account of the soldiers' sympathy with the local wine growers, mutinied there this morning, raided the magazine, filled their pouches with cartridges and with fixed bayonets and flags flying marched out of Aude and entered Beziers.

When notified this morning the chiefs of the local crowds mingling with the rolling of drums and strains of bugles. After stacking arms the deserters announced their intention to remain on the square until allowed to reoccupy their barracks, whence they were recently transferred.

The people gave the mutineers the warmest welcome, furnished them with ample provisions and a supply of straw upon which the tired soldiers threw themselves after stationing pickets and proclaiming a determination to defend their lives in the event of being attacked.

THE RAVAGES OF FOREST FIRES

THE LOSSES WILL BE VERY SERIOUS

One Million Dollars Worth of Timber Reported to Have Been Destroyed.

Toronto, June 21.—That over a million dollars' worth of timber belonging to the province has been destroyed, that dozens of prospectors have been entirely cleaned out, and that in all probability some lives have been lost, is the story of the forest fires in the north, told by R. R. Gamey, M. L. A.

Mr. Gamey arrived in the city yesterday morning from Latchford. He was on his way to his lot in James township when he met his man coming out, driven out by the smoke and danger.

"Most of the James township is gone," he declared, "and also the lower quarter of Smythe, the west half of Tudhope and a big area of the reserve across the Montreal river. From the Montreal river to the railway is twenty-five miles, and it is probable that prospectors may have got out off. With their supplies cut off, they could do nothing but wait, and perhaps the wait would be too long."

"I met a prospector at Latchford yesterday who had jumped into the river and soaked with his life. Another poor fellow who had taken about two tons of stuff into his camp in a canoe was completely wiped out."

Fire Warden's Report.

Toronto, June 21.—The forest fires in James township are out, according to a telegram received by the crown lands department from Chief Fire Ranger Macdonald, who with his special rangers was dispatched to the scene. The ravage wrought by the flames in the district is briefly reported to be very serious, but no detailed estimate of the damage is yet to hand. The chief ranger also reports that fire swept over five miles of the crown reserve between Silver Lake and Bear Lake, but the timber destroyed was almost entirely jack pine, and very little good pine is gone. Hon. Frank Cochrane is sending special men to the district to prepare a detailed estimate of the damage done.

PLAN TO BREAK JAIL

Number of Prisoners Are on Trial at Portage la Prairie.

Portage la Prairie, Man., June 21.—In connection with the recent breaking from jail of the prisoners Phillips and Leary, some details have come to light which lead the authorities to suppose that a more or less general escape was planned. Six other inmates were implicated, and these appeared before the magistrate yesterday charged with assisting the prisoners to escape. The case was conducted behind closed doors, but it is learned that one pleaded guilty and the others denied the charge. As the investigation is not yet complete, the application of the crown prosecutor for a remand was granted after the evidence had been taken.

"Diet" Corsets

Modelled upon scientific principles a series of curves of grace and elegance is comprised in every pair of D. & A. Corsets. You can buy a "D. & A." at various intermediate prices ranging from \$1.00 to \$5.00.

Fit-Reform

73 Government St., Victoria, B. C.

WILL MEET AT MIDLAND.

Decision of the Orange Grand Lodge—Gift to Vancouver Lodges.

Vancouver, June 21.—In appreciation of the good work done by Vancouver's local Orange lodges, the grand lodge yesterday morning, at its second day's session, voted a gift of \$500 to be applied on the Orange hall, now in course of construction in this city. The gift came as a surprise to the local Orangemen.

After the presentation of the gift, committee reports dealing with alterations of laws and constitution, and showing the condition of finances and credentials were listened to.

The afternoon session was dispensed with, owing to the excursion to Lake Butnzen, which was commenced at 2:30 o'clock and ended at 6 o'clock.

At the session last evening rivalry between the three cities of Calgary, Winnipeg and Midland was shown in the selection of the next convention city. At the opening ballot Calgary dropped out of the race, the Eastern delegates contending that the West should not be chosen as the meeting place twice in succession. The next ballot showed Winnipeg the victor. Word was given out that the "Peg" had won, and the delegates began shaking their heads, some of them having voted for that city through a misunderstanding. The feeling became so strong against the action taken, considering the fact that, but three years have elapsed since Winnipeg entertained the grand lodge, that a reconsideration was given, a third vote was taken, with the result that Midland, Ont., was chosen. Almost unanimous approval of this city is the sentiment voiced by the members.

During the past three and a half years twenty people were buried in Marshwood churchyard, Hants, of whom only two were under sixty years of age, and their united ages amounted to 1,425, giving an average of just upon twenty-five years.

"The Golden West Soap Man" will call on you soon and give you part of that \$15. See page 8.

ILLNESS ROBBED OF ITS TERRORS.

GENERAL'S SUDDEN DEATH.

Sir A. Ellis Died While Awaiting Arrival of the King at Horse Show.

Death intervened to mar what was to have been the most brilliant evening of the horse show in London a few nights ago by suddenly striking down the Major-General Sir Arthur E. A. Ellis. He was awaiting the entrance of King Edward, upon whom he was in attendance at the performance. Gen. Ellis was one of a distinguished party that joined the King and Queen of England and King Frederick and Queen Louise of Denmark.

The death of Gen. Ellis was due to heart disease, from which he had long been a sufferer. There was no premonition of his seizure. He and Lady Ellis were chatting with Sir Frederick Treves and other friends when the general gripped his throat and fell back in his chair unconscious.

Aid was promptly rendered by Sir Frederick and other distinguished physicians present, but the death of the general was practically instantaneous.

The dramatic side of the picture was increased by the fact that Gen. Ellis died while the cheers announcing the arrival of the two royal couples were ringing in the auditorium and echoing from the street. Inquirers were told that the general had merely fainted, and the body was quickly removed to an ante-room.

King Edward was not informed of the death until after the performance, which was not interrupted by the tragic incident.

Gen. Ellis was an extra equestrian to the King, and he had been officially connected with the royal family for 41 years. He was born in 1847.

The gum used on postage stamps is a specially made composition, prepared from potato and other vegetable starches, which are dissolved in a mixture of water and alcohol.

The Power of Piano Music.

A piano ceases to be an instrument and becomes a thing of life under the hands of a master. It breathes every human emotion under his fingers and no other instrument so perfectly lends itself to the many phases of musical expression. Of course the instrument itself must be a good one, such as the New Scale Williams Piano, foremost in Canada to-day.

ADVENTURE WITH SEA LION.

An Indian had an exciting adventure with a huge sea lion at Sechart on Tuesday, says the Vancouver News-Advertiser. Several Indians were busy working on the beach painting a boat which they had hauled up when their attention was attracted by the big animal some distance out from shore. One of the men foolishly got out a little canoe and proceeded to paddle to the animal with the intention probably of getting as near to it as possible without running into any danger. But he evidently ventured too close for the animal, suddenly made a rush at him and before he could get out of the way had crashed into his canoe, upsetting it and throwing him into the water. Had those on shore not noticed the danger the results might have been serious, but they were on their way to the rescue and shot the animal before any more damage could be done. The Indian was hauled into one of the canoes very little the worse for his exciting experience. The sea lion, when it came to the beach, was found to be a very large specimen, weighing something over a thousand pounds.

LOW PRICE FOR SALMON.
A meeting of the representatives of the chief firms in New Westminster buying salmon from the fishermen of the Fraser River was held on Thursday, at which it was decided to still further reduce by one cent the price to be paid by them for fish. This reduction will bring the price of spring salmon to 4 cents per pound. This is the lowest price these fish have touched for several years. The former prices this year were from March to April last, eight cents per pound, and from April to June, six cents per pound.

AORANGI SAILS.
Bound for Australia the steamer Aorangi, Capt. Phillips, sailed from the outer wharf last night. She was loaded with 2,000 tons of cargo and carried 124 passengers. Along the latter was the All-Canadian lacrosse team on its way to tour through the antipodes. There is a possibility that the Aorangi will be taken off the Victoria route in view of the renewed mail contract and accelerated service is necessary.

TOTTENHAM INJURED.
The Merchants' Exchange at San Francisco on Thursday received a dispatch from Kobe, Japan, saying that the British steamer "Tottenham," from Portland, Oregon, which had arrived there, reported having struck a rock and sprung a leak. The stern and 14 plates of her hull were smashed in. She is going into dry dock at Kobe.

MARINE NOTES.
R. M. S. Empress of Ireland, from Quebec, June 14th, arrived at Liverpool yesterday. She has made a remarkable run considering the additional mileage covered in getting to Sydney for mails and the delay of four hours and a half.
Steamer President, of the Pacific Steamship Company, arrived yesterday at Seattle from Nome. She will be placed on the Puget Sound-San Francisco route next week, and will sail from this port for the first time on the evening of the 27th inst.
When she returns from her present trip to the North the steamer Camoulin, of the Union Steamship Company, will go on the ways of the Victoria Machinery Depot where she will undergo a thorough overhauling and cleaning. Her next date of sailing will be subsequently announced.
The steamer Indianapolis, of the Alaska Steamship Company, will make a special excursion trip to Port Townsend and Port Angeles on the 4th of July. The trip will permit of Victorians excursionists spending the better part of the day in either place.
Steamer Capilano, of the Union Steamship Company, which was tied up at Vancouver on account of the scarcity of coal, secured fuel at Union Bay and left on Thursday for Naas Bay and way ports in northern British Columbia.
E. E. Blackwood, local agent of the Cunard Steamship Company, has been

FIRES IN THE ADIRONDACKS.
Railway Bridge Destroyed and Traffic is Delayed.
(Associated Press).
Utica, N. Y., June 22.—Forest fires are reported to be raging along the line of the New York and Ottawa railway in the Adirondacks. A bridge 100 feet long has been burned out near Moire, and traffic is delayed.
Fires are also reported between Meno station and the Blue Mountain House, and the little hamlet of Spring Cove, near Malone Caledon Santa Clara, sent for help yesterday.

FEWER BRITISH LAWSUITS.
Nearly a Million and a Half Last Year—532 Divorce Cases.
The latest British civil judicial statistics, those of 1906, have just been issued. They show the first decrease since 1899 in legal proceedings, the decline being from 1,518,527 cases in 1904 to 1,473,919.
Among the most interesting features of the report is the section dealing with matrimonial suits, which shows there were 521. There were 292 petitions for divorce, which, although thirty-two more than in 1904, were considerably fewer than in the preceding years. Husbands' petitions reached a total of 49 and wives' 222.
Of the marriages dissolved 33.23 per cent. had lasted from five to ten years, 30.43 per cent. had lasted from ten to twenty years, while 20.38 per cent. had existed for at least twenty years.
Another feature of the statistics is the steady growth of imprisonment for debt. 11,477 debtors having been committed, the highest number for ten years.

SIMPLE LIFE HOTEL.
A "Simple Life" hotel has been opened at the Garden City (Letchworth). Fruit and vegetables are the main articles of diet, and the butter is supplied by the local dairies.

BUCKINGHAM PALACE.
Prince Fushimi, in taking tea at Buckingham Palace, on his recent visit to England, swallowed that beverage on the site of a house in which the first cup of tea ever drunk in England was made. To go back to the second half of the sixteenth century, there was no Buckingham Palace in existence. James I. had planted four acres of ground with mulberry trees for silkworms. On a part of this land Lord Gosling built himself a home. This home passed to Lord Arlington, who named it Arlington House, and who brought thither the first pound of tea ever introduced into England. That was in 1666. The property was later acquired by the Duke of Buckingham, who built there a new palace, calling it by his own name. It was bought by George III., who took in more land, and settled the whole upon his Queen, "Neither William IV. nor George IV. lived there. Queen Victoria was the first sovereign to live at the new Buckingham Palace, as her successor, King Edward, is the first King to die so.

WIFE'S UNFAILING WEAPONS.
"Men who are married," said Mr. Snowden in dealing at Marlbone with a defendant who complained of a nagging wife, "ought to understand that a wife always has a tongue—a weapon always ready to be drawn."

GRAND ORANGE LODGE VISITORS

(Continued from page 1)
H. S. Hockey, editor of the Orange Sentinel, another prominent member who was present, is a member of the Board of Control in Toronto city. For many years H. S. Hockey was managing editor of the Toronto News. He left the News for St. Thomas, Ontario, to manage a paper in that city. On the death of E. F. Clark, M. P., he became editor of the Orange Sentinel, the organ of the Orange order.
Rev. William Walsh of Brampton, chaplain of the Royal Black Preceptory and of the Grand Orange Lodge of British America, and now of the Grand Orange Lodge of Ontario West, better known to the brethren as Father Walsh guide, philosopher and friend of all the brethren, was present also.
John McMillan of Toronto, Past Grand Master of Ontario West, a prominent Orangeman for many years past in the Queen City, W. James Clark, the private secretary to the Hon. Dr. Pyne, Minister of Education, Ontario, many others were present.
The visiting members expressed themselves highly delighted with their trip. Emmanuel T. Essey of London, Ontario, confessed to be the first city he had ever visited. The present visit was the first time the Grand Lodge had met so far west. In every sense of the word it was a most successful visit. Some stayed longer than they had intended. They had so thoroughly enjoyed the beautiful surroundings that they could not tear themselves away from Victoria. The others who did leave earlier only did so because they were compelled to hurry east.

What Other People Think

MR. McPHILLIPS REPLIES.

To the Editor:—The letter appearing under the name "Victoria" calls for some answer.

It is idle for "Victoria" to endeavor to draw a red herring across the agent.

It is not the intention of the Conservatives to array province against province—and shout "Quebec, Quebec."

Quebec is to be admired in her strenuous insistence upon public expenditure commensurate with her contribution to the federal treasury—and it may be that she does not get more than her due; but the pertinent question is—does British Columbia get that which she is entitled to? I speak to fellow Canadians—citizens of British Columbia—Liberals as well as Conservatives; and the answer comes irrespective of political predilections—No!

It being assumed that there has been unequal treatment—then why is it that whenever public utility is given to the wrongs of British Columbia, do we find someone in our midst ready to play into the breach and support this unequal treatment?

Take the case of the Quebec bridge. The Dominion government could heavily subsidize it; but not a dollar would they give to the New Westminster bridge. This struggling province had to spend a million dollars to build a bridge, both national and international in view of its crossing a large navigable river and giving railway communication with the United States.

Then we have this language from "Victoria": "I would remind Mr. McPhillips that the solid seven at Ottawa have helped to bring about the construction of the Grand Trunk Pacific and the Great Northern, both of which are at work in British Columbia, and both of which mean much for the prosperity of Victoria."

a time. The present government did not establish the normal school at Vancouver. The question then is—is there need for a second normal school? If there is—then the movement for the establishment of a normal school at Victoria will have my hearty support. As for an influential deputation waiting upon the government in the matter—all I can say is, I never was apprized of any such deputation, nor was I asked to attend or support the request made.

With respect to the deputation asking expenditure on roads around Victoria, I have the same answer to make. I was never apprized of it nor asked to assist in the matter. I might, however, say that the roads around Victoria were built by the government of the province and splendid roads they are, and I do look forward to grants being made from the provincial treasury upon those roads that come within the category of main or trunk roads.

The fact that I was not kept faith with positive engagements entered into with the purchasers of the government lands in the vicinity of Vancouver—when an amount approaching a million dollars was realized from the sale of the lands. Surely the expenditure of \$70,000 for the sum realized from the sales made is not out of the way. Now let us see what was done in the vicinity of Victoria by past governments. All the roads were built by the province, and notably the road from Fairfield road past Foul Bay, Shoal Bay and Oak Bay, a most expensive road.

What can be gained by this sectional cry? It is a matter to be deplored and is only the part of the "Little Victorians" or "Little Vancouverites." The present government may be depended upon to give equal treatment to all parts of the province.

What suggests "Victoria" in his charge that the Court of Appeal Bill is described by even some of McBride's supporters as being an outrage on the city? (meaning Victoria city)?

The Court of Appeal will sit in Victoria and Vancouver. The Full Court—the present Court of Appeals—sits in both cities. The provision in this regard was not an enactment of a Conservative administration—I may say it had my most strenuous opposition, as I am opposed to the decentralization of the courts; but I was borne down in my opposition. Now after the lapse of years and the great strides in population and importance of our sister city of Vancouver, in which we should all take justifiable pride, it is too late to change, and I may say that I am converted to the belief that there is wisdom in the provision for sittings in both cities. Where is the outrage in both cities? Where is the outrage in the city of Victoria? It is evident that "Victoria" has allowed his zeal to run away with his discretion. Enough perhaps has been said in answer to the attack made.

Some few considerations though may be indulged in, and in connection with them I would like to see the Times co-operate with the Colonist and also assist the legislators to the end that we obtain the early construction of a transcontinental line of railway to Victoria. To accomplish this a bridge at Seymour Narrows or a steam-ferry is essential. Let every energy be bent in this direction. If the Dominion government will do its part, it is not unreasonable to ask the provincial government to co-operate in the matter.

Then if Vancouver has the normal school, why should Victoria not have the university? Let our rivalry with Vancouver be friendly. Do not allow it to mean, carping, jealous envy. Vancouver's destiny is a great one. I feel that I am not too optimistic when I say that Victoria's destiny is as great, if not greater.

The development of this wonderful province stored with nature's riches, should be the actuating motive of all public men; and I do not write in disparagement of what has been done, rather do I wish to spur on our Liberal representatives and urge upon them renewed efforts in furtherance of British Columbia's just demands. The Liberal party is in power at Ottawa, and it is peculiarly their duty as well as their opportunity to press upon and wrest from the government of Canada that which is our due.

The Conservatives being in power in the province, it is the duty of that party to urge upon the provincial government everything that will make for the speedy development of the country. In this way we shall progress. If time is wasted in idle bickerings and waste of strength in internecine political warfare, stagnation will assuredly ensue. The province has been rehabilitated, financially, economically and industrially; prosperity has come to us. Who can gainsay that there is at least some ground to be gained for the party that has brought about this changed condition?

Our Liberal friends never fail to claim all the credit for Canada's general prosperity—then why begrudge us a modicum of credit for British Columbia's changed condition? A. K. McPHILLIPS

Music Cabinets

We have several pretty designs in Music Cabinets—shown on the Third Floor.

These are priced fairly and there is no reason why the piano top or a convenient chair should serve the purpose.

And these are the good sort—just as nicely finished as your piano.

Prices range at each, \$5, \$12, \$12.50, \$20, \$25, \$30, \$32 and \$35.00

Some Seasonable Furniture Lines

This should surely be your Summer Furniture store. Although we have in the past carried what we considered were large stocks in this class of furniture, we have never shown such a large and complete line as this season.

We can supply you every want in these lines with reliable makes and at prices that will stand comparison with any quoted elsewhere. See the lines and then compare values.

SCREEN DOORS, all sizes, up from \$1.25

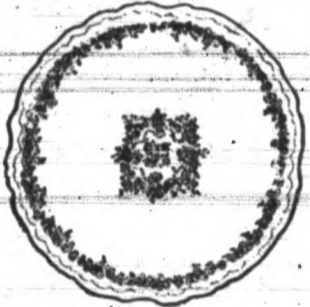

WINDOW SCREENS, up from \$25c

ICE CREAM FREEZERS, prices start for two quart sizes at \$2.75

Lawn Furniture Camp Furniture

See Our Showing of Refrigerators First

If you purchase a Refrigerator without first seeing our extensive line of these goods you are doing yourself an injustice. Ours is positively the largest and finest showing of Refrigerators in the city. The best and most modern systems of Refrigerators are seen in these, and you shouldn't fail to see them if you are now, or likely to be, in the market for a Refrigerator.

Splendid Gift Things Which Cost Little

A well chosen china and glassware stock like ours abounds in beautiful, useful and decorative bits within the reach of the smallest purse.

This season it would seem that such things were grander than ever—it is almost inconceivable that such handsome pieces can be produced for the prices obtaining.

If you have only a modest sum to expend, you will be delighted with what we can show you.

No trouble to do it, we assure you.

Have You Ever Investigated Open-Stocks?

There are good sound reasons for the tremendous growth of our open stock Dinnerware business.

The merits which have brought it about are the merits you desire in your tableware—good looks and good wear.

Not only is every pattern handsome in appearance, but the wearing qualities of the different brands are absolutely satisfactory.

Then there is the "ever-matchable" feature which enables you to replace every broken piece immediately, without fuss or extraordinary expense. All prices. Investigate.

Out-of-Town Orders Shipped Free

We make no charge for packing and shipping orders to out-of-the-city points, and we invite you to try a sample order. Your money back if not satisfied.

Among the Housekeeping Things

So many of you young people are about to join the army of housekeepers, that we cannot refrain from giving you a bit of advice and that is:

BUY THE BEST

The initial cost may be a trifle more but the best will be found the cheapest in the end.

You don't expect to keep house only a few months—you expect it's a matter of a lifetime. Then buy the best of housekeeping utensils.

We make "quality" the standard by which everything is measured and squeeze the price down to the point where it is false economy to buy trash.

If you doubt it, come in and we will show you.

Picnic Hampers

For boating parties, auto parties, or picnics of any sort where you must take lunch along, here is an article which should appeal to you.

A hamper containing a complete outfit (less eatables, of course, but room for such) knives, forks, plates, cups, pepper and salt, two large covered flasks, etc., etc., strongly made and a superior article. Two sizes at each—

\$10.00 and \$12.00

Good Bread all the Time

If you use the Eclipse Bread Maker you will have no "failures" with your bread-making.

The Eclipse is the only machine that kneads dough by compression, therefore makes the best bread. It is the simplest in construction, will not get out of order, easiest to operate and clean.

Mixes and kneads perfectly in three minutes, producing from the smallest quantity of flour a perfectly healthy bread. Price each

\$3.00
