VOL. 41

VICTORIA, B. C., WEDNESDAY, AUGUST 21, 1912

NO. 44

CONDEMN APTHY OF GOVERNMENT

BIG DEPUTATION TO VISIT VICTORIA

Proposal to Camp on Steps of
Parliament Building Until
Cabinet Acts

Vancouver, Aug. 21.—Strong determination to no longer submit to delays in dealing with the question of the alleged right of the latter to a reversion of one-fourth of the lands in Lynn valley subdivisions was the keynote of a meeting held in North Vancouver last night to consider future action in the matter.

This determination crystallized into a resolve to send a deputation, several hundred strong, to Victoria demanding that the injustice and suffering to which property-owners in the affected district have been subjected shall be immediately removed. If this action is adopted to the extremes which were suggested, it will not only be by far the biggest deputation which has ever been organized at the doors of the government, but it will also be the most aggressive.

More than one leader in the movement urged that having arrived at Victoria the delegates should camp upon the steps of the parliament buildings until their wrongs were redressed. To this belligerent sentiment hearty support was given.

A notable feature of the meeting was that it was almost entirely composed of the most enthusiastic local supporters of the McBride government, who were to a man unanimous in condemnation of the apathy of the premier and his supporters.

News may be said, and briefly recounted the condition of affairs, and recapitulated the steps, which had been taken to induce the government to alter them.

WILL FORTIFY SEAPORTS.
Valparaiso, Aug. 21.—The Chilean government has decided to convert the seaports of Valparaiso and Talcahuano into impregnable fortresses and has accepted the tender of an English gun factory for the necessary cannon.

SECOND CHARGE AGAINST DARROW

Attorneys for Defence Ask for
the Dismissal of
Indictment

Los Angeles, Cal., Aug. 21.—Before any of the opposing counsel could offer a word of argument, Judge George H. Hutton yesterday summarily washed his hands of participation in any further prosecution of Clarence S. Darrow by assigning to Presiding Judge Willis of the Superior court, the case in which Darrow is accused of bribing Juror Robert F. Bain. The case was set for trial at 10 o'clock next Monday morning.

The district attorney presented an affidavit to-day in which it was stated that there was no merit in the contention of the defence that the 60-day limit had expired against the trial in the second indictment. The defence had stipulated to fixing a date for the trial after the trial of the first indictment. The defence had asked for a dismissal, setting forth the 60-day limit expiration as one of the grounds for a dismissal. The motion of the defence in the dismissal probably will be argued before Judge Willis on Monday.

CHICAGO TRACTION DISPUTE.

Chicago, Aug. 21.—Officials of the companies operating the two street railway systems of Chicago were prepared to submit a definite proposition to their employees to-day as they resumed negotiations with "leaders and Mayor Harrison."

While the offer of the traction officials dealt with working conditions only, it was expected that the proposition would bring about a break in the deadlock which has existed for two days. In the event of working conditions being satisfactorily adjusted, the vital question of wages, heretofore untouched by either side, will then be taken up.

WILL BUILD BATTLESHIP.

Washington, D. C., Aug. 21.—The Senate and the House in conference yesterday decided to compromise on the \$15,000,000 battleship in the naval appropriations bill, paying the way to end a long deadlock on that measure. The one ship will not be a super-dreadnought as originally planned.

ICEBERGS DELAY STEAMER.

Boston, Aug. 21.—After a trip through icebergs and fog the steamer Parisian arrived here yesterday from Glasgow. Capt. Haines reported that only 22 miles were made last Thursday because of the proximity of the icebergs and fog.

ONE OF VICTORIA'S BEAUTIFUL RESIDENCES

—Photo by Fleming.

THE HOME OF J. BOWKER, OAK BAY

J. KEIR HARDIE TO VISIT CANADA

WILL ATTEND LABOR
CONGRESS AT GUELPH

Will Speak in U. S. on Behalf
of Socialist Candidate for
the Presidency

Winnipeg, Aug. 21.—That J. Keir Hardie, the well-known British labor leader, will attend and address the forthcoming convention of the Dominion Trades and Labor Congress, which opens at Guelph, Ontario, on September 9, was announced here yesterday by W. R. Trotter, the Winnipeg representative of the congress, who has just received a letter from Mr. Hardie in which he stated that he would go to Montreal on August 17, and go straight to New York, where he will arrange his itinerary stumping the country in the presidential campaign in behalf of the Socialist candidate. While at Minneapolis later on in the fall he will probably take a flying trip through Western Canada.

CHURCHILL AS NAVAL INSTRUCTOR

Lectures Admirals on Handling
of Fleets and the
Conduct of War

London, Aug. 21.—The Standard to-day publishes a story from its naval correspondent charging Winston Churchill with having given wireless instructions to commanders in the recent naval manoeuvres from Whitehall, also with having "presumed personally to lecture a score of British admirals on the handling of fleets and the conduct of a "naval war." The situation would be ludicrous, the Standard adds, were it not for the appalling effect such an incident has on naval discipline and efficiency.

PREMIER BORDEN'S RETURN.

London, Aug. 21.—Right Hon. R. L. Borden, the Canadian premier, will leave England for Canada on August 30.

ITALY SUBMITS TERMS TO TURKEY

Vali of Island of Rhodes Will
Take Part in the Peace
Negotiations

London, Aug. 21.—A Vienna dispatch says that Soubhi Bey, the vali of the Turkish Island of Rhodes, which was seized by the Italian fleet on May 4, has been released by the Italians and arrived at Constantinople, bearing with him intimations of the terms of a possible peace with Turkey, acceptable to the Italians.

It is stated that the vali is to proceed shortly to Sadzeland at the request of Turkish Sultan, and that further negotiations between delegates of Turkey and Italy may take place there.

DEATH OF GENERAL WILLIAM BOOTH

WAS UNCONSCIOUS FOR
FORTY-EIGHT HOURS

Septile Poisoning Followed Recent
Operation on His
Left Eye

London, Aug. 21.—Ray, Wm. Booth, commander-in-chief of the Salvation Army, passed away yesterday at his residence, the Rookston, Headley Wood, eight miles from London.

The veteran Salvation Army leader was unconscious for 48 hours previous to his death. The medical bulletins had not revealed the seriousness of the general's condition, which for a week past, it is now admitted, was hopeless. Twenty weeks ago General Booth underwent an operation for the removal of a cataract in his left eye. For two days after the operation indications justified the general's recovery. Then, however, septile poisoning set in, and from that time, with the exception of rallies, the patient's health steadily declined. The general recognized that the end was near, and often spoke of his work as being finished.

Throughout his command-in-chief's illness his son, Bramwell Booth, chief of the staff of the army, and Mrs. Bramwell Booth gave their unremitting attentions to him both night and day. Present at the bedside when the end came were Mr. and Mrs. Bramwell Booth and their daughter and son, Adjutant Catherine Booth and Sergeant Bernard Booth; the general's youngest daughter, Commissioner Mrs. Booth-Helbred; Commissioner Howard, Col. Kitching and Dr. Wardlaw Milne.

Where General Booth will be buried has not yet been decided upon. It is the general belief that the commander-in-chief's last resting place will be alongside that of his wife, who 21 years ago was buried in Abney Park, Stoke Newington, London.

New Head of Army.
New York, Aug. 21.—William Bramwell Booth, eldest son of the late William Booth, commander of the Salvation Army, has been appointed head of the army to succeed his father. This announcement was made at Salvation Army headquarters here this afternoon, after a cable message announcing the appointment had been received from London.

NEW MEXICAN WAR MINISTER.

Mexico City, Aug. 21.—General Garcia Pena, minister of war of Mexico, will resign and be succeeded by General Victoriano Huerta, who has been in charge of the campaign against the rebels in the north, according to unconfirmed reports here. The administration is pleased with Huerta's work in the north and army officers believe it not improbable the government will take this means of rewarding him.

SEEKS INFORMATION.

Washington, D. C., Aug. 21.—Representative Norris of Nebraska introduced a resolution yesterday requiring the president to send to the House all information he has regarding the case of James Wood Rogers, a Californian, who was killed in the Central African jungles by British soldiers, who were ordered to kill or capture him. The resolution was referred to the foreign affairs committee.

INCREASING FORCE IN KOREA.

Tokyo, Aug. 21.—The Japanese military authorities have decided to increase the strength of the Japanese army in Korea by two divisions. The increased cost is estimated at about \$12,000,000.

ENGLISH PEER IS PESSIMISTIC

DECLARES WAR WITH
GERMANY INEVITABLE

Lord Congleton's Views of Naval
Competition Between
Two Nations

Vancouver, Aug. 21.—That war between Great Britain and Germany is inevitable unless arrangements can be made for curtailments of armaments was the statement of Lord Congleton in an interview last night.

He declared even war would be better than a continuance of the present ruinous competition in naval preparations, and expressed gratification that the Canadian government should have come forward at this time to let the world and Germany know that the Dominion was eager to come to the aid of the Motherland.

Discussing Ulster's attitude to Home Rule, his lordship, who is a fervent Unionist, said that within the near future action of a kind that would be a surprise to the Liberal party would be taken. What the plans were he said would be kept secret until they take form in action. He forecasted the defeat of the Asquith ministry before the end of their normal term of the passage of Home Rule, and expressed the belief that the Unionists would repeal the Parliament Act.

Lord Congleton is about to start on a hunting expedition into the British Columbia interior.

FRANCE AND RUSSIA REACH AGREEMENT

French Premier Reports that
His Mission Has Been
Successful

Dunkirk, France, Aug. 21.—Premier Raymond Poincare was welcomed like a victorious general when he landed here to-day from the French armored cruiser Conde on his return from his successful mission to Russia. The entire town was decorated with flags, and all the inhabitants turned out to cheer him.

At a luncheon given in his honor by the mayor at the town hall, Premier Poincare declared that his visit to Russia had resulted in a complete understanding in regard to the common action to be taken by France and Russia to meet all eventualities likely to arise out of European complications either at the present time or in the future.

This united action, he concluded, had been immensely strengthened by the support which Great Britain was giving to Franco-Russian aims.

FOUND DEAD IN OFFICE.

Winnipeg, Aug. 21.—Dr. Wm. Smith, osteopath, was found dead in his office yesterday in the Somerset building. He had been dead four or five days. The body was lying on a couch and it is believed heart failure was the cause of death. Dr. Smith came to Winnipeg three or four months ago from the United States. Little is known of him in Winnipeg.

INQUIRY INTO POLICE GRAFT

TO BE STARTED
BEFORE MURDER TRIAL

The Evidence is Expected to
Strengthen Case Against
Becker and Gangsters

New York, Aug. 21.—A "John Doe" police graft inquiry is to be undertaken several weeks before the trial of the men charged with the murder of Herman Rosenthal, it was learned to-day. Preliminary proceedings before Supreme Court Justice Goff are expected to strengthen the cases against Lieut. Becker and the six others indicted yesterday for the Rosenthal killing by unearthing new evidence of police corruption. The John Doe inquiry will cease during the murder trials, but will be resumed after they are concluded.

Becker and the others will be called to plead in court to-morrow. The grand jury to-morrow will be asked to consider the testimony of "Big Jack" Seelig, who told of his arrest by two members of Lieut. Becker's "strong-arm" squad.

The two detectives swore that they found a revolver on Seelig's person. Five witnesses testified before the grand jury that Seelig did not have a revolver when arrested. The grand jury may indict the two detectives for oppression and perjury.

"Bald Jack" Rose had previously told the grand jury that Seelig had been "framed" that Becker might get Seelig under his power. Becker, Rose says, sent word to Seelig that he would either have to furnish the men to kill Rosenthal or go to prison for a long term for carrying concealed weapons. Seelig says he furnished the men and that was all he had to do with the Rosenthal case.

MAY DIE FROM WOUND.

Belle Plaine, Kas., Aug. 21.—Sam Wood, the farmer who killed James Thompson, probably fatally injuring Matt Manahan and slightly wounding Gaylord Manahan, in an attempt to kidnap Ethel Manahan, the daughter of Matt Manahan, is still alive to-day. He tried to kill himself when over-brought and has two bullets in his lungs and one imbedded in his spine. Matt Manahan, who was beaten so badly, recovered consciousness to-day and has a chance to recover. It is not believed that Wood can live.

ACCUSED OF EMBEZZLEMENT.

Toronto, Aug. 21.—The combined defalcations of Arthur Richmond and Roland Harris, the two young Toronto bank clerks now under arrest for embezzlement, will, it is estimated, approximate \$50,000. Most of the money was taken to the bookmakers. Harris was taken into custody yesterday charged with stealing \$20,000 from the Standard Bank. Richmond, who attempted suicide before being arrested on Monday, is still too ill to appear in court. The two young men were not acquainted with each other.

RUSSIAN LAWYER MURDERED.

St. Petersburg, Aug. 21.—All S. Strytanoff, counsel for General Stoesel when he was tried by court-martial for the surrender of Port Arthur to the Japanese, was murdered in the house of General Sheikh Ali, at Ufa, European Russia, by relatives of Sheikh Ali. The motive is unknown. S. Strytanoff took a prominent part as a Muscovite deputy in the Duma debates.

CORSICAN ARRIVES AT LIVERPOOL

BOW DAMAGED IN
COLLISION WITH BERG

Passengers Present a Gold
Watch to Captain of
Liner

Liverpool, Aug. 21.—With a large rent in her bow the Allan liner Corsican arrived alongside the landing-stage here to-day. Otherwise she was none the worse for her encounter with an iceberg on August 12.

Captain Cook, the commander, says the vessel was going dead slow and when ice was sighted the engines were immediately put full astern, but before the ship lost her way she touched the berg. He says the damage is ten feet above the water line and the liner made no water whatever. A wireless message to stand by was sent to the Lake Champlain, but was afterwards cancelled.

Stories of the passengers vary, the majority agreeing there was excitement, but no panic. A Yorkshire man named Clark says the iceberg was seventy feet high and so long that its ends were visible. Two students named Hethell and Stevens declare that they were nearly thrown out of their bunks by the force of the collision, a hundred tons of ice being thrown on the ship. Other passengers say glasses on the tables were not even moved. The Corsican's boats were at once made ready for lowering, discipline being excellent. During the voyage addresses and a gold watch were presented to Capt. Cook by grateful passengers.

FLOOD DESTROYS BRIDGE.

Traffic on Alaska Railway Interrupted.
—One Man Killed.

Seattle, Wash., Aug. 21.—Cable advices received to-day at the office of the Copper River & Northwestern Railroad from Cordova, Alaska, said that Miles Lake, impounded by a moraine of Miles Glacier, burst Monday, causing the Copper River to rise twelve feet in a few hours. The great steel bridge of the railroad in front of the glacier withstood the bombardment of icebergs brought down by the flood, but the wooden bridge at Flag Point, a short distance downstream, was destroyed, 20 bents being carried out. Foreman B. Boyle, of the bridge crew, was killed by falling timber yesterday at Flag Point during repair work. Traffic on the Copper River road will be suspended several days while repairs are being made.

It is believed that the recent earthquakes in southwestern Alaska caused Miles Glacier to settle and turn loose the great volume of water that swept down stream.

AMERICAN FIRMS SEEK CONTROL

Alleged Attempt to Drive
Canadian Track Buyers Out
of Market

Winnipeg, Aug. 21.—American interests are battling strenuously against Canadian track buyers on the local grain exchange, whom they seek to drive out of business, according to a statement issued by MacLellan Bros., the well-known grain firm, which has been suspended by the exchange on account, it is said, of a breach of a new rule prohibiting track buying, which, it is claimed, was passed clandestinely. This firm says that during the past fourteen years some thirty members of the Winnipeg grain exchange who went in for track buying have been driven out of business and are now working on a commission basis for line elevators controlled by American interests.

NATIVES IN CAIRO VOW VENGEANCE

Threat Against Government as
Result of Imprisonment of
Conspirators

Cairo, Egypt, Aug. 21.—Grave apprehension is felt here at the attitude of the natives of the city over the sentencing of the conspirators in the plot to murder Lord Kitchener, the Khedive, the Premier and the Sirdar, which was unearched some time ago. The case of the government against the natives implicated was most clear and the sentences well-deserved. Nevertheless the populace is greatly displeased and dire threats of vengeance against the government are made. Whether further developments will ensue is worrying the authorities.

MORE FIGHTING IN ALBANIA

TURKS REPORTED IN
CONTROL AT BERANA

Montenegrins Call Upon Gov-
ernment to Declare War
Against Turkey

Constantinople, Aug. 21.—The Porte has invited Montenegro to withdraw her troops from the Albanian district of Berana. The powers, it is reported, have advised Montenegro to comply with Turkey's wishes.

Further fighting has occurred at Berana and the Turks have driven the Montenegrins out of the district, according to advices from Albania. A telegram received here yesterday has been reached between the representative of the Turkish government and the Albanian insurgents, who were marching toward Salonica in considerable force. The Albanians are said to have begun to return to their homes. Clamor for War.

Cettinje, Aug. 21.—A mass meeting of Montenegrins here protested yesterday against alleged atrocities committed by Turks in the Albanian district of Berana, on the Montenegrin frontier. A resolution was passed calling upon the Montenegrin government to declare war against Turkey.

To Confer on Situation.

London, Aug. 21.—The fact that Sir Edward Grey, secretary for foreign affairs, has accepted the invitation of the Austrian minister for a conference regarding the Balkan situation, demonstrates the importance that is being laid on the present trouble.

The Balkans are seldom altogether free from trouble in one form or another, and plots and intrigues there are always carefully watched by European powers.

Austria's minister of foreign affairs will therefore exchange views with Great Britain's representative and it is believed that plans will be formulated to pacify the antagonist parties in the Balkans.

TAFT WILL SIGN THE CANAL BILL

Will Send Another Message to
Congress Regarding Wa-
terway Measure

Washington, D. C., Aug. 21.—White House callers who discussed the Panama Canal bill with President Taft to-day, declared he would sign the measure and send it to congress. A memorandum stating that some of its features are not entirely agreeable, and suggesting that legislation be passed later to show that the United States has no desire to abrogate the Hay-Pauncefote treaty by granting free passage to American ships.

One congressional caller said that Mr. Taft might have vetoed the bill if congress were not close to adjournment. A veto, however, would make it certain that no Panama legislation could be enacted until winter. The president, Secretary Stimson and Col. Goethals all are anxious to begin preparations for the administrative and operating forces for the canal. The Panama joint resolution asked by President Taft in a special message to congress to make clear the right of foreign ship owners to carry into American courts the question of free tolls in the Panama canal was turned down late yesterday by the senate committee on interoceanic canals.

The resolution has not yet been formally introduced in the house, but the senate committee took a direct vote on the proposal as embodied in the president's message.

ALASKAN HOME RULE.

Washington, D. C., Aug. 21.—The conference in Alaskan administration Bill providing for two branches of a legislative assembly and a railroad commission was adopted yesterday by the House. Its approval by the senate and the president's signature will provide "home rule" for Alaska.

DIES ON TRAIN.

Port Arthur, Aug. 21.—Joseph Heckerbeck, a Russian, bound for Winnipeg to live with his daughter at 94 Ontario street, died of heart failure on the harvesters' train, east of here. The body was taken off the train and will be interred here. His age was 68 years, and he was accompanied by a son. Neither could speak English.

PRETENDER PROCLAIMED.

Magazan, Morocco, Aug. 21.—The Moroccan pretender, El Hiba, has been proclaimed sultan at Marakesh, the religious capital of the country, which recently was evacuated by French troops, according to reports through native channels.

We are prompt, we are careful, and use only the best in our work

"TOE RIGHT"

Wm. M. Scholl, Orthopedic Foot Specialist, has thought out a series of natural remedies and contrivances for the cure of foot troubles. Among these is "TOE RIGHT," a pure rubber contrivance, which straightens and separates the toes and prevents them overlapping and crowding. It thus gives sensitive and irritated skin a chance to heal. For the common trouble of soft corns between the toes "TOE-RIGHT" is the cure. Each 45c.

BUILDING AT ROYAL CITY.

New Westminster, Aug. 21.—New Westminster is smashing all building records during the present month. The highest monthly total ever reached before is \$200,000, but that has already gone by the board in the first sixteen days of the month, the value of the permits issued having reached \$250,000. In this total, is included the new civic

hospital which will be a handsome building costing over \$135,000. Another important building will be a \$65,000 six-story block which will be erected on Begbie street, next to the Russell Hotel. Close by excavations are being made for another modern block on the upper corner of Begbie and Carnarvon streets, while down on Columbia street and Begbie an eight-story building will be opened within the month.

DEAN REMANDED FOR EIGHT DAYS

Case Adjourned at New Westminster at Request of Counsel for Bank

New Westminster, Aug. 21.—Charles Dean, who is accused of having played a part in the sensational bank robbery here last September, was brought up in the police court yesterday and at the request of Douglas Armour, counsel for the Bank of Montreal, was remanded for eight days. Adam Johnston, who appeared for Dean, stated that while he had no objection to a reasonable adjournment, he thought there should be a limit. It was a poor name, he said, that had no limit.

Mr. Armour explained that his object in asking for an adjournment was really to expedite matters. Important developments had come to light during the past week, and he expected that when the prosecution did start, he would be able to go right ahead with it.

Magistrate Edmonds remarked that the contention of the prosecution appeared to be reasonable, and granted the adjournment asked for.

P. K. Ahern, of the Pinkerton Detective Agency, who was in the city this morning, stated after adjournment that the prosecution was awaiting the arrival of Walter Davis, alias Walsh, alias O'Day, who was arrested in Toronto recently, and who is expected here in the course of a few days.

A large crowd had gathered in the courtroom to see Dean, who, during the proceedings, appeared cool and unconcerned.

GRANDSTAND COLLAPSES.

Indianapolis, Aug. 21.—While Governor Marshall was speaking in reply to the acceptance of the vice-presidential nomination on the Democratic ticket yesterday afternoon, a stand seating 200 persons collapsed, several persons were painfully bruised, but none are reported seriously hurt.

ACCIDENTAL DEATH.

Kamloops, Aug. 21.—An inquest into the death of Andrew Smith was held here recently by the coroner, Dr. Archibald. The jury returned a verdict that deceased came to his death by having lost his balance in some unaccountable manner while carrying mail toward the train at the Ducks station. They recommended that since the deceased came to his death in the performance of his duty that the government assist the bereaved family consisting of a widow and seven children.

ACCUSED OF MURDER IN FIRST DEGREE

Seven Men Included in Blanket Indictment in Rosenthal Tragedy

New York, Aug. 21.—A blanket indictment charging murder in the first degree was returned by the grand jury yesterday afternoon against Police Lieut. Becker and four gangsters, in connection with the murder of Herman Rosenthal. The gangsters indicted are "Lefty Louie," "Whitey Lewis," "Dago Frank" and "Gyp the Hood."

Jack Sullivan, a friend of Becker, and William Shapiro, chauffeur of the automobile which the murderers used, also were included in the blanket indictment, making seven in all charged with first degree murder. All are under arrest with the exception of "Lefty Louie" and "Gyp the Hood."

The grand jury refused to return indictments against Sam Schepes, Jack Rose, "Bridgie" Webber, Harry Valton and Louis Libby, who are being held as material witnesses.

An unexpected witness before the grand jury yesterday was "Big Jack" Seelig, now out on bail awaiting trial for carrying concealed weapons. He previously had been reported that Seelig was told that the indictment against him would be quashed if he furnished the gunmen to make away with Rosenthal. It was to learn of these reports that Seelig was brought before the grand jury.

The appearance at the court house of Seelig caused a sensation. Former Police Magistrate Wahle, who was "Big Jack's" counsel when he was released on bail, revealed the fact that his client had been arrested last Thursday at Providence, R. I. Mr. Wahle intimated that Seelig had been apprehended on a trial charge through an understanding between the police of New York and Providence. Other witnesses examined to-day were the clerk of a hotel at Far Rockaway, where the gunman celebrated after the shooting, and a photographer who made a group picture of them there. Detective Cassas testified in regard to the police hunt for the murder suspects. Charles H. Pilm, described as Becker's press agent, also testified. These witnesses, it is said, completed the testimony desired by the district attorney before he asked the grand jury to present a blanket indictment. Schepes's counsel, Bernard Sandler, declared that his client would make a clean breast of everything.

Two more banks have been found where Lieut. Becker had money on deposit. These, it was said, brought the total of Becker's deposits up to \$90,000. There was a shake-up in the police "vice squads" yesterday when Commissioner Waldo transferred two lieutenants to precinct duty and appointed two men in their places.

RISKS LIFE TO SAVE WORKMEN

Superintendent Rescues Three Employees—One Dies on Way to Hospital

San Francisco, Cal., Aug. 21.—Risking his own life to save three employees, Joseph Sinclair, superintendent of the Pacific Roofing & Refining Company, descended into a reeking asphalt still yesterday and brought them out alive. Raymond Giovanni and Louis Pruzzo entered the still to clean it. Both were overcome. Rudolph Strang, a fellowworkman, went down after them. As he was carrying their inert bodies to a manhole he, too, collapsed. Sinclair managed to get out toward the street, but Giovanni died on the way to a hospital and Pruzzo is not expected to recover.

WILL RESUME OPERATION.

J. A. Moore Says Irontale Plant Will Be Running Within Thirty Days.

Port Townsend, Wash., Aug. 20.—James A. Moore, president of the Westport Corporation, visited Irontale Monday in company with a party of capitalists, who looked over the steel plant. Mr. Moore assured the people of Irontale that within thirty days the affairs of the corporation would be in shape so that men would be employed and the plant would start and that he would be in full control.

WOUNDED BY SOLDIER.

Russian General, His Wife and Several Orderly Officers Shot—Would Be Murderer Slain.

Warsaw, Russia, Aug. 21.—General Prince Nicolaï Tumanoff, commander of a brigade in the garrison, yesterday was wounded in the chest and one of the legs of his wife, Princess Tumanoff, was shattered by bullets fired by Epyvate Powenski. Powenski entered the general's flat and fired several shots with his carbine. Several orderly officers in the room at the time also were wounded, but shot and killed Powenski. The motive was revenge for punishment inflicted on Powenski by his superior officers.

MYSTERIOUS DEATH.

Folkstone, Eng., Aug. 21.—Mary Enright, said to be an American, died in a hospital here yesterday. Fishermen found her unconscious on the beach Sunday night, apparently suffering from the effects of poison. It is supposed she attempted to drown herself. The woman's clothing and jewelry indicated that she was well-to-do.

TWO NEW MINISTERS IN SASKATCHEWAN

Cabinet Now Consists of Seven Members—Two Bye-Elections

Regina, Sask., Aug. 21.—Two additional members of the Saskatchewan government have been sworn in, bringing the number of ministers in the Scott government up to seven. The two ministers are Hon. George Langley, minister of municipal affairs, and Hon. George Bell, provincial treasurer. The increase in the personnel of the cabinet has permitted of a rearrangement giving a wider distribution of portfolios, which are now disposed of as follows: Hon. Walter Scott, president of the council and minister of education; Hon. A. Turgeon, attorney-general and provincial secretary; Hon. J. A. Calder, minister of railways and telephones; Hon. W. B. Motherwell, minister of agriculture; Hon. A. P. McNab, minister of public works; Hon. George Langley, minister of municipal affairs; Hon. George Bell, provincial treasurer.

The bureau of public health, now under the department of agriculture, will, in the future, be administered by Hon. George Langley, in the municipal department.

RAILWAYS READY TO MOVE GRAIN

Companies Report Substantial Increases in Rolling Stock

Winnipeg, Aug. 21.—Private information received at the grain exchange here yesterday from Fort William indicated that a three-cent rate for grain is a possibility in the near future. This is in line with reports from Duluth of a rapid increase in grain rates from American lake head ports. A good deal of pessimistic talk can be heard around the exchange of a blockade such as shall make that of last year seem insignificant. But against this is the early start of harvesting, and with good weather conditions, the three great Canadian transportation companies express their belief of being able to take care of the crop in good time.

Last fall the crops were abnormal, harvesting and threshing everywhere being delayed by the miserable weather. The railways now report a general improvement in terminal facilities and very substantial increases in the rolling stock. For instance, the C. P. R. has one thousand new box cars with a corresponding increase in motive power available for this season. Both this company and the Canadian Northern have greatly expanded the facilities of local terminals and under ordinary circumstances repetition of a blockade in Winnipeg yards need not be feared. The Grand Trunk Pacific, once its difficulties with the Dominion government over the section of the N. T. R. immediately east of here is settled, will be able to make effective use of its five and a half million bushel elevator capacity at the head of the lakes.

APOPLEXY CAUSED DEATH.

Tacoma, Wash., Aug. 21.—Although the city chemist's office has not completed its analysis of the bottle of sherry found near the side of Alex. Reith as he lay dying in the Hotel Donnelly, Sunday afternoon, Police Commissioner A. U. Mills yesterday announced there is no longer any doubt that the well-known lumberman succumbed to apoplexy. A thorough medical examination, he says, shows death due to an apoplectic stroke. To dispel the last doubt, however, Mills ordered the analysis of the wine. Suspicious circumstances in connection with Reith's death are declared to have been cleared up by the police investigation.

APOPLEXY CAUSED DEATH.

St. Louis, Mo., Aug. 21.—The body of William Toenges, a drill master in the United States army, and stationed at Jefferson barracks, was found yesterday in St. Peter's cemetery lying on the grave of Pearl Leroy, who killed herself July 2 because of unrequited love for Frank B. Kehoe, a chauffeur. The body was discovered through a letter written by Toenges to a St. Louis detective, in which he announced he was going to end his life, and made arrangements for the disposition of the body.

Grief over the suicide of Miss Leroy was given as the reason for the determination to end his life.

CALL EXTENDED.

Kamloops, Aug. 21.—At the well attended congregational meeting of St. Andrew's Presbyterian Church recently a unanimous call was extended to the Rev. J. S. Hengerson, who for the past nine years has been pastor of St. Andrew's Church, New Westminster. Rev. J. Hyde, of Chase, presided over the session as moderator, W. A. Wylie acting as secretary. A stipend of \$2,200 per annum will be offered, with a month's holiday.

The Awful Cost

of neglect of the teeth infinitely outweighs the small cost of having them put right now. Think what neglect means! Not only does it mean the unsightliness of decayed teeth and the probable tortures of toothache, it imperils your digestion, it menaces your whole physical well-being. An examination of your own teeth in a mirror cannot reveal the decayed pinhole which will later result in a ruined molar. Take the wise precaution of having us examine your teeth to-day. Should you be one of the few fortunate whose teeth are perfect we shall tell you so frankly. Otherwise we shall tell you, with equal frankness just what is required and exactly what it will cost. While putting yourself under no obligation you ARE putting yourself in the hands of the best known, most widely experienced, and most successful Dentists of the Pacific Northwest.

LATE GENERAL WILLIAM BOOTH

Life Story of Head of a Great World Movement

One of the great characters of the age has passed away in General William Booth; the founder and head of the Salvation Army, who possessed an almost unrivalled position in civilized society. Exercising an influence unexampled in modern times, worshipped by Salvationists in all lands, and engaged in the reclamation of the submerged tenth, General Booth here aloft, the steady, unflinching, to the downcast and the ostracized. None was too low for his energies, none had strayed so far from the path to be beyond the pale of hope. Food for the hungry, shelter for the shivering, and clothes

LATE GENERAL BOOTH.

amid vice, degradation and squalor, probably without parallel in any corner of the globe, that he commenced his work of spiritual and social reform. He observed that the great majority of the people here attended no place of worship, and to reach them he started the Christian mission, which held services in the open air, halls, and wherever a crowd could be gathered. To this mission, when it had become a large organization, formed on military lines, he gave, in 1878, the name of "The Salvation Army." Under this name it grew rapidly. In 1885 he had married Catherine Mumford, whom he heard address a social party on temperance, and she took a most active part in all the various meetings and delivered, in the Binfield Chapel at Gateshead, what may be considered her first public

HARDY BAY

Is The Most Talked of Seaport of Canada To-day

DID YOU?
How many people would have presumed, ten years ago, to predict the present city of Prince Rupert? We might say five years ago, but at that time considerable talk was in the air relative to a terminal on the Pacific for the Grand Trunk Railroad.
Similar talk can now be heard about HARDY BAY, with the exception that the possibilities were never so great for Prince Rupert as they now are for HARDY BAY.

CAN YOU?
Can you afford to ignore this evidence of WHAT OTHERS ARE DOING? Some of the brainiest men in British Columbia are backing HARDY BAY. This is best evidenced by those who have bought and own property on its shores.

WILL YOU?
When lots are purchased carefully in such towns as HARDY BAY, whose future is assured by such resources, the investor should realize a magnificent increase. This fact is based upon and is being corroborated daily in cities throughout the Canadian Northwest.

- Facts About Hardy Bay**
- WHY HARDY BAY WILL GROW**
- 1—There are over twenty billion feet of timber tributary to HARDY BAY.
 - 2—There are 25,000 acres of pulp wood adjacent.
 - 3—There are millions of dollars to be derived from fishing.
 - 4—There are thousands of acres of fertile soil near HARDY BAY.
 - 5—There is pasture for a big dairying district.
 - 6—HARDY BAY is over 300 miles nearer Japan and China than is Victoria.
 - 7—HARDY BAY is one of the best sheltered harbors on the continent.
 - 8—It is virgin territory, with plenty of coal in its immediate neighborhood.
 - 9—There is an increasing market for all they can produce.
 - 10—HARDY BAY is pronounced the safest port on Vancouver Island.
 - 11—It affords a shorter route to the Orient, which country, teeming with millions for trade, is awaiting the short, set and most economical route.
 - 12—For all these resources HARDY BAY is the natural distributing centre.
- The following table of comparisons shows the great advance made by some coast cities during the past twenty-five years. The figures shown are the assessed values.
- | | |
|---------------------------------------------------------------|-------------------------|
| Seattle, in 1887: About \$6,250,000; | in 1910, \$206,000,000. |
| Vancouver, 1887: About \$2,600,000; | in 1911, \$192,000,000. |
| Prince Rupert, 1907: About \$10 per acre; 1912, \$15,000,000. | |
| Hardy Bay: 1911, nothing; now about \$250 per acre up. | |

No lot in our townsite is less than 50x110 feet. Lots are now selling from \$100 to \$600. Ten per cent down, with balance over two years, either monthly or quarterly, with no taxes or interest until paid for. Streets and avenues run from 66 to 100 feet wide, with 14 foot alleys.

SUBSCRIBE FOR THE VICTORIA DAILY TIMES

Founded the Army. It was July 2, 1885, on Mile End Waste, in the East End of London.

THE DAILY TIMES
Published daily (excepting Sunday) by THE TIMES PRINTING & PUBLISHING COMPANY, LIMITED

TO ADVERTISERS.
All copy for new display advertisements, as well as copy for changes of old advertisements, must be received at the Times Office before 4 p. m. on the day previous to their publication.

THE TIMES AND LABOR.

In a recent editorial the Times made reference to the frequent labor disturbances which have taken place in the province and incidentally adverted to the I. W. W. agitators as being largely responsible for "peaceful" strikes and interruptions of railway construction without effectively improving the conditions of the wage earners employed on these works.

sometimes at no little sacrifice to itself. The Times is not accused of graft, nor can it be. For every dollar it has received from governments or commercial enterprises it has rendered value as these things are estimated in the markets of the world.

Our correspondent asks, "What is to be the remedy for the conditions complained of?" and then proceeds to answer the question. He says: "Practice Liberalism, which stands for advancement; cut out these abuses and give the men better conditions."

The Times believes that labor as a class in society will come in a short time to distinguish between the true and the false in professed friendships, and of awakened, enlightened labor this paper is never afraid.

GENERAL BOOTH.

The news of the death of General Booth, head of the Salvation Army, which occurred yesterday morning, did not come in the nature of a surprise. With advanced years, a body worn by the stress of constant application to the responsibilities of his imperial position, an operation upon one of the most delicate organs of the human temperament, his death was not unanticipated.

The career of General Booth is a striking illustration of the power of intensified conviction and a lasting tribute to the genius of organization. Commencing his devotion to what he believed to be the work of God as a local preacher in the Methodist body in England he, early in life, manifested a genius for evangelism.

The "General's" familiarity with the submerged masses through his early work led him to outline a plan for the reclamation of the sub-merged tenth, as he called the underworld. He originated a movement in which he hoped to secure the co-operation of the wealthy in an effort to lead the handicapped and morally crippled out of the wilderness into a paradise of new conditions.

KIRK'S KOAL

Phones 212 and 139

In Montreal a few days ago a man known as the "Human Freak" showed several doctors there how he could curve and dislocate his spine, and spring it back again into place without apparent injury to himself.

Speaking of the proposed exemption of American vessels from tolls on the Panama Canal, the New York Post says "it is a greater disgrace than would have been a naval defeat in the waters of Colon."

In Centralia, Mo., a Mr. H. Yoder has had a telephone placed in his house. But Mr. Yoder is a Mennonite, and a committee of the church has interviewed Henry and advised him that he had better have the telephone removed.

AT THE GOLDEN GATE.

The following is credited to a negro preacher in Washington: "Ah dreamed Ah was in Heaven the other night. As Ah stood bet inside de golden gate dar came a rap, and George Washington was announced by St. Peter. 'Let him come up and sit on mah left side,' said de good Lawd, who was sitting on de throne.

THANKS TO THE TRUNK.

Billy Maclean owns the Toronto World and a seat in the Canadian parliament. Mr. Maclean has a reputation for attacking the railroads for their shortcomings. A couple of switchmen came out of the yard in Toronto and walked toward a neighboring quenchery.

ART NOUVEAU.

Boston holds its own as an art centre. It one may judge from a story of a new maid in a household not very far removed from the centre. Among the possessions of the family was a figure of the "Winged Victory," which seemed to disturb the domestic considerably.

PAY TRIBUTE TO LATE GEN. BOOTH

Church Workers Praise Noble Labors of Founder of Salvation Army

Toronto, Aug. 21.—"The general died to-day," Bramwell Booth's laconic telegram to the Salvation Army in Canada received at the Army headquarters here last night, thus recording the passing of one of the world's most remarkable figures, brought forth words of appreciation and sympathy from the representatives of every denomination of religious endeavor in the city.

"I don't know anything that sets forth the true character of General Booth more than his last words to me a few weeks ago," said Commissioner David M. Rees, head of the Salvation Army in Canada, to-day. "He said, after describing his own inability to do the same amount of work as, formerly, owing to the loss of his sight, the poor, the suffering, the outcast, the widows, the orphans, the criminals and fallen masses of humanity must not suffer. Because I have to shackle you must do more. They must not lose through my weakness." That was characteristic of his whole life. It can be said in truth, that he lived for others.

Mr. James Whitney said: "It was my privilege to meet him very often both in England and in Canada, and I have very pleasant recollections of his hospitality, together with his companionship on several occasions in England. General Booth's death may be termed a very important event, but I am glad to feel that the work of the Salvation Army will go on under the influence exercised by him during his life."

Work Praised. Montreal, Aug. 21.—The news of the death of General Booth did not become general until this morning. On every side general regret was expressed for the blow which had fallen on the Salvation Army.

Montreal divines were profuse with their praise for the noble work accomplished by General Booth, and that a blow had been dealt not only Montreal, but the world at large, through his death, was the consensus of opinion.

LOCAL NEWS

Will Apply for Post Office.—The Oakridge residents will apply for a sub-post office on Hillside avenue, and a petition for its location at G. H. Keny's grocery store will be presented to Postmaster Shakespeare.

Auto-Speeding Cases.—In the provincial police court this morning A. E. Redfern and the Terminal Motor company paid fines of \$10 each for speeding on the Malahat drive. R. A. E. Grant who was recently fined in similar circumstances has lodged an appeal against the conviction.

Material Fell on Chinamen.—One of the wooden buildings on Fisguard street condemned by the city recently was being removed by Chinese yesterday when part of the roof fell on one them. Firemen assisted in hauling the Chinaman out from the debris, not much worse for his experience.

Building Permits.—The building inspector issued permits this morning to D. C. Hutchinson, for a six-roomed house on Sumas street, to cost \$3,500, and to J. R. Barnes, for a store on Edmonton road. About \$300,000 worth of permits have been taken out this month—the total for the year being \$5,648,590.

Tenants Claim Failed.—Margaret Jones sued William Jones in the county court yesterday for possession of property on Colquhoun River. The defendant was tenant of the plaintiff and the court held that the tenant could not dispute his landlord's title. The action was dismissed. H. A. McLean, K.C., appeared for the plaintiff and J. P. Wallis for the defendant.

Camosun Club Reception.—The president and members of the Camosun Club are at home this afternoon in their fine new premises in the Central building. This club has grown amazingly and since its inception a short time ago has had to change its quarters several times, so great has been the increase in membership. The reception is taking place from 3 to 6 o'clock.

Greasers' Picnic To-morrow.—Owing to arrangements for excursion trains with the E. & N. Railway conflicting with the company's regular schedule to-morrow, it has been necessary to make the following changes: Trains will leave Victoria at 9:30 a.m., 11 a.m., 1:30 p.m. and 7 p.m. Returning they will leave Goldstream at 5:40 p.m., 8:15 p.m., and 10:30 p.m. Everybody will be welcomed and a good time for all is assured.

W. C. T. U. Annual Picnic.—The W. C. T. U. will hold their annual picnic to-morrow afternoon at the Gorge, the arrangement being that members shall meet at the Japanese gardens at 3 o'clock for the special, business meeting which is being held to discuss arrangements for the forthcoming exhibition. A big attendance is requested, and members are asked to bring well-filled baskets for the tea which will take place later in the gardens.

Local Memorial Service.—A memorial service for the late head of the Salvation Army will be held on Sunday at the Citadel, Broad street. The service will be conducted by Col. Gaskin, of Winnipeg; assistant chief Western secretary, Major Greene, divisional officer,

Women Who Love Dainty and Serviceable Dresses Will Be Greatly Interested in These New Styles

BECAUSE they are so simple and tastefully designed and are so well made that they at once appeal to all women who prefer the neat and artistic garment in preference to the elaborately trimmed. They are fresh from the fashion centres and are therefore perfectly fresh and new. It seems like a hopeless task trying to convey to your mind through the medium of a few printed words the many graces and charms that are embodied in this showing, so we invite your inspection.

All are the one-piece style and the materials include panama cloths in navy and light blues, browns, tans and wine color, also serges in a fine range of shades. Most of them have high necks of lace and the yokes are mostly the V-shaped or round.

Some of them are made to give a one-sided effect, while others are trimmed with dashes of materials of a contrasting nature, pipings, braids, buttons, etc. All are in the high waisted style, and have long sleeves.

Why not see them and decide on one to-day before the assortment gets picked over? The prices are exceptionally small considering the quality of the materials that have been used and the high grade of the dressmaking that is represented.

All sizes to be had and you can choose from models marked as low as \$10, \$15, \$20 and \$22.50

Items From the Men's Furnishing Department

THAT ARE FRESH FROM THE FACTORY AND FULL OF INTEREST

MEN have a chance to secure the best and the newest shirts or underclothing at a price that is most reasonable and really low when compared with the quality of the goods we are offering. Here are a few of the items, but we prefer that you see the goods either in the windows or in the department, in preference to merely telling you what we think about them.

MEN'S SHIRTS AND DRAWERS, made of a good mixture of lamb's wool and cotton. They are to be had in all sizes and are excellent garments for fall wear. They are warm, comfortable and exceptionally well made. Per garment, 75c and \$1.00

MEN'S OUTFIT SHIRTS, in a variety of fancy stripes. They have turn-down collars, attached, soft cuffs and are to be had in all sizes. A very fine value at \$1.75

CEYLON FLANNEL OUTFIT SHIRTS for men. Made with turn-down reversible collars and soft cuffs. To be had in colors grey, blue and tan stripes. A Spencer value at \$1.25

WORK SHIRTS, made of a strong blue cambric and have a turn-down collar attached. All sizes are to be had and this garment is easily worth \$1. Spencer's special \$1.50

COTTON SOX for men. These are a light weight and are to be had in black or colors. All sizes. Special, 2 pairs for \$1.25

SILK NECKWEAR in fancy stripes, four-in-hand and wide end styles. There is a wide range of colors to choose from. Prices 25c, 50c and \$1.75

Here are Some of Our Blanket Values

IT is an easy matter to make general claims about the qualities of our goods, and it is just as easy to substantiate the claims that we make for them. The goods themselves tell their story to all discriminating shoppers better than is possible through the medium of an advertisement.

WHITE WOOL BLANKETS are to be had in full or three-quarter size. They are a well finished blanket and are a quality that we can safely recommend. Three-quarter size are to be had at \$3 a pair, and the full size comes at only \$3.50

WHITE WOOLLEN BLANKETS—These are an extra fine quality for the money, have a nice nappy finish, pink and blue borders and have a small quantity of cotton mixed with the wool to give the blankets a better wearing value and to prevent shrinkage as much as possible. Full size and a bargain at, per pair \$3.75

HEAVY WOOL BLANKETS—Here is a blanket that will last for years and please you all the time. It is true that they are a little more expensive than the general line of blanket but the extra cost is more than offset by the better value that they represent. The prices start at, per pair, \$10 and range down to \$5.00

DAVID SPENCER, LIMITED

Mr. and Mrs. Phillips, and Staff Captain White. The band will play the funeral march of the Army. "Promoted to Glory," which was composed for the funeral of Mrs. Booth in 1890, and the "Dead March in Saut."

Oiling of Roads.—It is extremely probable, says City Engineer Rust, that unless private enterprise constructs large oil tanks in the city for the supply of local needs, the city will next year require an oil tank of its own, located direct in Victoria for the liquid supply on the streets. He finds the experiments so far carried out have been most effective in checking dust, that fewer applications of oil will be required during the season than in eastern cities, and that it can be applied more economically here than in many other cities.

Upon the graves of the dead in the Turkish cemeteries little vessels of water are placed for the benefit of the birds, and some of the marble tombs have basins attached out for the same purpose, the superstition being that birds carry messages about the living to the dead, and like everybody else in Turkey, are suspected of being spiteful unless something is done to curry their favor.

More Good Glove Values for Women

AND here are a few of the items that we are offering. They are all part of our regular stock and you can depend on their worth.

LISLE THREAD GLOVES for women. These are to be had in colors reds, pinks and myrtle and are our regular 50c values. Friday's sale price \$1.50

LISLE THREAD GLOVES, two clasp length and in colors white, brown, grey, black navy and beaver. A quality that we sell regularly at 50c a pair. Friday's special \$1.25

REAL CHAMOIS GLOVES, in white and natural color. They are two-clasp length and are our regular \$1 values. Friday's special, per pair \$1.75

GLACE KID GLOVES in white only. They are 16-button length and we considered them good values when we sold them at \$3 a pair. Friday's special, per pair \$2.50

DENT'S DOGSKIN GLOVES, in tan color only and 1-clasp length. These are a very fine value at, per pair \$1.00

PERLIN'S MARCHESSON-GLACE KID GLOVES for women. Colors tan, brown, navy, slate, beaver, black and white are to be had. Another splendid line that should find ready customers at, per pair, only \$1.00

THE KAYSER SILK GLOVES—This is a brand that has made itself famous and exceptionally popular through the uniform and high standard of quality both in material and workmanship. On Friday we are offering some of these gloves at a price concession that should make business in this department hum. They are 16-button length and are to be had in colors white, black, sky and pink. Per pair, only \$1.25

CHAMOISETTE GLOVES, two-clasp length and to be had in white and natural color only. They are an extra fine quality and should sell rapidly at, per pair \$1.50

Serviceable Sheets at Modest Prices

IT is the policy of this store to supply you with the best possible quality of sheets at the lowest possible price. Here are a few items for your consideration.

FULLY BLEACHED SHEETS—These are all-hand torn sheets and are ready for immediate use. They are neatly hemmed, are full size and being made of a very strong sheeting will be found most serviceable. They are a value that should sell at \$1.75. Spencer's special price \$1.25

READY-MADE SHEETS, full size, a perfect weave and free from dressing. This is a quality that we can safely recommend and is a very fine value at, per pair \$2.00

SHEETS FOR THREE-QUARTER BEDS—Here is a good strong sheet that is well worth considering. It is a splendid quality and an exceptional value at, per pair \$1.50

HEMSTITCHED SHEETS—We are showing some very fine samples of hemstitched sheets and invite you to inspect them. They are made from a very fine quality of sheeting that is free from dressing and will stand very hard wear. Size 22 1/2 yards is marked at, per pair, \$3.00 and \$2.50; size 24 1/2 yards at \$3.50 and \$3.00; size 26 1/2 yards at \$4.00 and \$3.00

Constipation

is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking

If You Drink—We have a display of goblets, liqueur, brandy and soda and other glasses that we are selling for about half price. Regular \$4 a dozen goblets, now \$2.40; liqueurs, 15c each; claret, 90c per dozen. R. A. Brown & Co., 1302 Douglas street.

Mother!—We have interesting news for you, school opens next week and you will require to outfit the boys and girls, and the place where you can outfit two for the price that it usually costs for one is at Mrs. J. E. Elliott's old stand, 742 Fort street, where the Assigne's Sale is in full swing. The stock of sweaters, hosiery, skirts, dresses, felt hats, underwear and boys' suits, 20 to 26 inches, is large and well assorted and the price is—well, drop in and see.—W. G. McLaren & Company.

"WAS AN IMPERIALIST."

Lyceum Club Journals Pay Tribute to Miss Cameron.

The July issue of the Journals of the Lyceum Club, London, England, and of the Society of British Women Journalists, both contain feeling references to the death of Miss Agnes Deans Cameron. Miss Cameron was a member of both clubs and had made numerous friends in them during her two years in England. The Lyceum, in the course of its appreciation, pays her the following tribute: "Miss Cameron was an Imperialist. Her love for the Motherland and for Canada was as boundless as her hopes for the great Empire. It is no empty compliment to say that in the two years she spent in this country she did a great deal to draw closer the bonds between England and Canada. Her illustrated lectures on Canada were everywhere received with enthusiasm. When she returned to Canada she continued her imperialistic work by telling her own people of the greatness of England and, even more appealing, of the kindness and sincerity of England, always endeavoring to indicate points of meeting and not of difference between the Old Land and the New."

CONCERT ON TUESDAY.

Arion Club Will Sing in Front of Parliament Buildings.

On Tuesday evening next the Arion Club of forty male voices will give an open air concert in front of the Parliament buildings, permission having been kindly granted by the premier. This organization is just entering upon its twenty-first year of existence, having been started in the year 1892, and since that time has been looked upon as the leading musical club in the city, and is to-day not only the oldest in Victoria but the oldest male voice club in the Dominion.

It has been kept up by associate members who have always subscribed liberally to its concerts in the past, and while it is well known to the older residents of the city, yet there are many who have located here in later years who have not had an opportunity of hearing the club sing.

The concert on Tuesday evening next will thus give them a chance of hearing the club, and with good weather in sight, and a full moon on that evening to light up the beautiful surroundings, a most enjoyable evening's entertainment is assured. The club, which this season will be conducted by Mr. Herbert Kent, have been rehearsing a programme of twelve numbers, and it is hoped there will be a large gathering to listen to them on that occasion.

FORT STREET FIRE.

Dangerous Blaze Stopped With Small Loss at Victoria Dye Works.

A sudden outbreak of fire at the premises of the Victoria Dye Works, 444 Fort street, at 3:15 o'clock yesterday afternoon did considerable damage to the rear portion of the premises, and to the amount of about \$100 to the adjoining cottage, occupied by C. Runcannon and owned by Max Lelzer. The total damage is estimated by the fire chief to be \$600 and is covered by insurance. Old rags soaked with gasoline and used for cleaning purposes, and the cleaning business demands the use of gasoline largely, and the rags and oil in the rear premises made a ready subject for fire.

The structures on the east side are wooden houses and on the west side is the store of the Staneland company. The fire department, in addition to quenching the flames at the cleaning works, had to guard the dry wood of the houses which have been standing a number of years, and protecting the Staneland company, where there is a large quantity of paint and other inflammable material kept. With the exception of the fire which started and did about \$100 worth of damage to the cottage occupied by Mr. Runcannon, the men of the brigade were successful. Five hose streams and chemicals were used on the flames, the chemicals extinguishing the fire and the water streams saturating the surrounding buildings.

UNITED IN WEDLOCK AT CHRIST CHURCH

Another Victoria Daughter Becomes a Bride To-day—Harrison-Forsyth

A quiet wedding took place at 1 o'clock to-day when Ven. Archdeacon Scriven united in marriage Bernice Seabrook May, the youngest daughter of Judge and Mrs. Harrison, and Chas. Anderson Forsyth, formerly of Glasgow, Scotland, the ceremony being celebrated at Christ Church cathedral in the presence of a few of the more immediate relatives of the young couple. The bride, who was given away by her father, Judge Harrison, looked very winsome and girlish in a graceful gown of ivory duchess satin, embroidered with pearls and trimmed with orange blossoms, with which she wore her mother's wedding veil arranged in cap shape and caught in place with orange blossoms. She carried a bouquet of fragrant white carnations, and wore as her only ornament a gold bracelet, the gift of the groom.

Miss Shibley, of Calgary, the bride's most intimate friend, acted as bridesmaid, and looked very pretty in a gown of embroidered cream voile with hat to match, her bouquet being of pink and white carnations, while the bride's mother wore a very becoming mauve-colored gown of crepe de chene with black picture hat, effectively trimmed with touches of mauve. The best man was A. O. G. Crawford.

Immediately after the wedding the bridal party adjourned to the residence of the bride's parents, 1323 Harrison street, where a dainty wedding breakfast was partaken of by the guests. Mr. and Mrs. Forsyth leaving by the afternoon train for their honeymoon, the bride wearing a handsome going-away suit of pearl grey cloth trimmed with black and mauve, and with hat to match. The groom's gift to the bride was a blouse-set of green enamel set with pearls, and to the groomsmen a cigarette holder in silver case. Mr. and Mrs. Forsyth themselves being the recipients of numerous handsome gifts and the hearty good wishes and congratulations of their friends. On their return in about ten days' time they will take up their residence at Newport avenue.

BUILDING IN THE WEST.

Victoria Shows Up Well in Comparison With Other Cities.

According to reports received by the "Financial Post" the building permits in 47 municipalities for the first seven months of 1912 aggregate \$115,740,000. For the cities east of the Great Lakes this is an advance of 19.5 per cent over last year, and for the cities west of the Great Lakes, including the twin cities, an advance of 44 per cent. The figures for the west are: Brandon, \$509,852; Calgary, \$9,891,108; Edmonton, \$9,033,287; Fort William, \$1,981,050; Lethbridge, \$782,293; Medicine Hat, \$1,662,734; Moosejaw, \$3,134,355; Nanaimo, \$214,322; Nelson, \$306,515; North Westminister, \$850,478; North Vancouver, \$623,529; Oak Bay, B. C., \$250,419; Port Arthur, \$746,174; Prince Albert, \$1,308,850; Red Deer, \$226,005; Regina, \$3,618,589; Saskatoon, \$5,559,660; Vancouver, \$10,206,732; Victoria, \$5,350,440; Winnipeg, \$14,552,200.

BIG TOURIST TRAFFIC

Is Anticipated by the G. T. P.—Hotels in British Columbia

W. P. Hinton, general passenger agent of the G. T. P., who is expected here with Chairman A. W. Smithers and President Chamberlin upon their return from Prince Rupert states that it is the anticipation of his department that the Grand Trunk Pacific would be reorganized, by the time the railroad was through to the coast, a service capable of handling the very large amount of tourist traffic that they had in sight. Mr. Hinton is accompanying the chairman of the board of directors and Mr. E. J. Chamberlin on their trip of inspection.

"Of course with my office in Winnipeg I devote myself to the Western end of the business," said he. "But at the same time I know from information received through our hundreds of agents all through the East, both in Canada and the United States, that when our line is in a position to handle through business to Prince Rupert we will be inundated with tourist traffic. The general excellence of our eastern service is being more than kept up with in the West, and the travelling public, appreciating the service we are giving them, are eager to see the new mountain beauties that our line through British Columbia will reveal to them.

If You Get It At PLIMLEY'S It's All Right

CYCLING CERTAINTIES In the "KIRMER-ARROW"

PLIMLEY'S PRICE \$35 FOR CYCLING SATISFACTION

Any Kirmar owner will tell you a tale of satisfactory cycling service. YESTERDAY'S PLAY IN BIG CRICKET TOURNEY

J. H. Gillespie Scored a Century in Victoria vs. Esquimalt—Ismay's Fine Bowling

Meritorious Performances.
 Batting.—J. H. Gillespie, Victoria vs. Esquimalt, 146; C. A. L. Payne, Vancouver vs. Portland, 68; T. R. Leonard, Victoria vs. Esquimalt, 54; H. A. Ismay, Albion vs. University masters, 51; L. T. Dwellley, Burrard vs. Saanich, 57.
 *Signifies not out.
 Bowling.—E. W. Ismay, Albion vs. University Masters, 7 for 28; Speak, Oak Bay vs. Garrison, 6 for 44; Askey, Garrison vs. Oak Bay, 6 for 42; F. J. Peers, Vancouver vs. Portland, 6 wickets for 36; C. Lawrence, Portland vs. Vancouver, 5 for 33; E. Fenwick, Portland vs. Vancouver, 5 for 33; C. A. L. Payne, Vancouver vs. Portland, 5 for 33.
 King Cricket again held his sway yesterday, and one hundred and ten doughty warriors strove on the cricket fields of the city and suburbs to reap a harvest of points for the final reckoning—at the end of the week.
 Perhaps the play was not up to test match standard; perhaps some of the batting was somewhat crude, and grounders were fozzled and catches dropped—but there was an abundance of good, sterling, sportsmanlike cricket all the same, with plenty of hard hitting, and keen, close fielding.
 Vancouver's great finish against the only United States team in the tourney will long be remembered, 141 runs in 63 minutes is fast going. C. A. L. Payne, of course, did the slashing, and it was a wise move on the part of Captain Armitage to put the old Middlesex man in first.
 At Mount Tolmie the Albion encountered the University Masters, who gave the town team a hard game. Albion led well on the first innings, but with a very short time in which to make the runs the masters hit at everything, and Champain and Lieut. Moore came very near to snatching a victory from the ashes of defeat.
 Victoria had an arm-chair victory against Esquimalt and Gillespie, Leonard and Coates pelted the tired bowlers of all parts of the field. Burrard also won again with ease against Saanich.
 The victors of the day were: Vancouver, Burrard, Victoria, Albion and Garrison, and the respective losers, Portland, Saanich, Esquimalt, University Masters and Oak Bay.
 The standing of the teams in the tournament this morning were as follows:

Team	P.	W.	L.	Pts.
Vancouver	2	2	0	4
Burrard	2	2	0	4
Victoria	2	2	0	4
University Masters	1	1	0	2
Garrison	1	1	0	2
Albion	2	1	1	2
Oak Bay	2	1	1	2
Saanich	2	0	2	0
Esquimalt	2	0	2	0
Cowichan	1	0	1	0
Portland	1	0	1	0

Standing of Teams.

Team	P.	W.	L.	Pts.
Vancouver	2	2	0	4
Burrard	2	2	0	4
Victoria	2	2	0	4
University Masters	1	1	0	2
Garrison	1	1	0	2
Albion	2	1	1	2
Oak Bay	2	1	1	2
Saanich	2	0	2	0
Esquimalt	2	0	2	0
Cowichan	1	0	1	0
Portland	1	0	1	0

After being well beaten in the first innings, Vancouver furnished a terrific finish yesterday, and won in the second venture by a wicket. To obtain the runs they had to hit like Jenson or C. L. Thornton, and the fact that they scored 141 in very little over sixty minutes speaks volumes for the class of cricket they exhibited.
 In the first innings, Portland scored 108 runs, mainly through Thomas, 37, McKillop 17 and Fenwick 11.
 Peers was Vancouver's most successful bowler once again with the following figures:
 O. M. R. W.
 12 1 36 6
 It was naturally expected that Vancouver would soon hit off the total which Portland had aggregated, but this was not the case. Vancouver collapsed badly, 6 wickets were down with only 37 runs on the board, but the tail did better than the head, and Caldwell, the seventh man, played the best innings of his side. Clayton's 13 included seven singles—excellent evidence of the quality of the bowling.
 In their second knock Portland failed to carry out the work so nobly begun. C. A. L. Payne took on the bowling, and with his lobs dismissed five of the best batsmen for 27 runs, the whole side going out for 57.
 Not content with sharing "in" their destruction Payne took the Portland bowling in hand from the start, and laid the foundation of victory with a stashing innings, in which he beat the clock hollow. Peel and Armitage carried on the work, and hit at everything, with Hodges and Captain Armitage partnered, Vancouver won just on time. Scores:
 Portland C. C.—1st Innings.

 Vancouver won by 4 wickets.

Burrard vs. Saanich.
 These teams met on the Esquimalt ground yesterday, and the mainland team, winning the toss, elected to bat, sending in Becham and Hood to face the bowling of Horton and Coton. Burrard started most inauspiciously, Becham falling a victim to Horton, clean bowled, while Killick, Beaton and Smith wended their way back to the pavilion in quick succession. Thus four good men were out for less than a dozen runs, and matters looked far from promising. Hood, Ivamy and Bullen, stopped the rot, but even with their great efforts 7 wickets were down for 73.
 And then Dwellley came in. Starting very quietly he later began to pile on the runs, and hit with such freedom that the score had mounted to 171 runs before the last batsman retired. It was a great last wicket partnership, and both men were warmly applauded on returning to the pavilion.
 The Saanich batting was disappointing, for with the exceptions of Shepperson and Carew Martin, none of the men seemed to offer much resistance to the deliveries of Ivamy, Tynnam, Hood and Becham, on whom the Burrard captain rang the changes with skill.
 In their second venture Saanich played doggedly when a little more freedom might have been justifiable. Burrard won on the first innings. Scores:
 Burrard—1st Innings.

 Burrard won by 92 runs.
 Albion Victorious.
 At Mount Tolmie, the Albions had a great day yesterday, and in defeating the strong eleven of University Masters accomplished a feat of which they may well be proud. Ismay and Barrington Foote gave them a good send-off on the way to victory, the former passing the half century and the latter falling just short. Both men batted stylishly and attractively, while Foote hit out with more than his usual freedom. E. W. Ismay failed for the first time in several matches, but amply atoned by his magnificent bowling, very shortly afterwards.
 His figures for the innings were as follows:
 O. M. R. W.
 11 2 28 7
 Albion did none too well in their second venture, G. Wilson and E. W. Ismay being the only batsmen to make any showing, and the side was out for 129 runs.
 This left the Masters 168 runs to make to win, and just an hour to get them in. It says much for their sportsmanship when they got 129 runs in the hour allotted to them.
 F. H. B. Champain hit well for 43 runs, playing in his own inimitable way. In the first innings, however, he was

bowled second ball. His captaincy of his side, however, was superb.
 Lt. A. Moore gave him great help in their attempt to stave off defeat, but Jeppson was too insistent, and the innings closed for 129, with the Masters well beaten. Scores:
 Albion—1st Innings.

AUSTRALIAN SETS NEW WORLD'S RECORD
 Fitzgerald Covers Fifteen Miles Indoors in Record Time at Tacoma
 Tacoma, Aug. 21.—Setting a new world's record for 15 miles on an indoor track, Jimmy Fitzgerald, the Australian distance runner, last night covered 15 miles in 1 hour 21 minutes 41-1/2 seconds in the Gilde rink.
 The record time was made in a match race with Victor Norman, of Seattle. Norman quit the contest in the 11th mile when Fitzgerald started a sprint which proved the Seattle man's undoing. The fact that the eleventh mile was run off in 5.06 shows the terrific pace the men were travelling. The former world's record for professional running, held by Fred Appleby, of England, was made in 1909, in Winnipeg. The time recorded was 1:22:56.
FRANK GOTCH WRESTLES WESTERGAARD TO-MORROW.
 Kansas City, Mo., Aug. 21.—Frank Gotch, champion wrestler of the world, will stage a "farewell" match here to-morrow night when he will meet Jess Westergaard, of Des Moines. The match has been arranged especially for the visiting members of the Loyal Order of Moose, of which Gotch is a member. Gotch has agreed not to use the "toe-hold."

Good News of Good Furniture From a Good Store
 Buy One of These Famous Davenports and You'll Have an Extra Bedroom
 It's a beautiful Davenport by day and a comfortable bed (not a makeshift) at night. The very best double coil springs, seat and back. It folds from a handsome Davenport to a comfortable bed in one motion. Requires no mattress. Frame is in fumed finish, back and seat in denim.
 A soft, luxurious seat to sit on, a plain seat which cannot wrinkle, it's a sanitary bed—you can thoroughly clean it—and under it.
 When used as a bed it's as rigid as the best brass bed, and the slightest woman or child can operate it without any strain, any racking effort.
 See this Davenport Bed on our fourth floor
At Only \$40.00

MADAM--This Very Complete Carpet Department would like to Show You a Splendid Stock of Dainty Light Colorings in Bedroom Carpets.
 Refined patterns and designs that are "different" in excellent Body Brussels, Axminster Carpets, Wiltons—all the wanted colorings.
 Going to decorate your bedroom in pink, blue, yellow, ivory, lavender? We have the floor coverings that will add the proper tone—either to cover the entire floor or made into rugs—any size desired.
 Not only the beautiful things in Carpets and Rugs, but the draperies for the windows, beds and other furniture—all to match—phone us, drop a line, we'll call, measure your rooms, you can select the carpets and draperies. We'll give you as low an estimate as good material, good work can command.

DRIFT LEAVING FOR SOUTH IN FEW DAYS

Schooner-Rigged Yacht Taken Out for Trial To-day—Crew is Signed On

Within a few days the little schooner-rigged yacht Drift, owned by Joseph Davidge, of this city, will commence her trip south to San Francisco. This morning the craft was taken out of the harbor for a try-out in the Straits, and as soon as provisions can be taken aboard she will put to sea. After some difficulty a crew has been signed, and four men will take the Drift south. It is expected the craft will take about two weeks to beat down the coast to San Francisco. It was originally intended to have the Drift leave port at the same time as the Tenderfoot, which got away a short time ago. The Drift has no engine, and will not make as good a passage as the Tenderfoot, which is using her five horse-power engine in calm. Mr. Davidge has decided to take his craft south despite several slight setbacks, and shipping men here will watch his trip to Frisco with more interest than the run of the Tenderfoot, as she will make the whole voyage under sail.

A race of blonde Eskimos in Victoria Land, arrived here yesterday on the revenue cutter Bear, after spending four and a half years in the Arctic. Mr. Stefanson collected a vast amount of valuable scientific information concerning the Eskimos of the far north and found many new tribes. Important geographical data was also obtained. Mr. Stefanson was accompanied by Dr. R. M. Anderson. They made the journey out from the mouth of the Mackenzie river on a steam whaler as far as Point Barrow, the most northern point of Alaska, where they boarded the Bear. The expedition was financed by the American Museum of Natural History and by the Geological Survey of Canada.

SCHOONER CLEARING BEGINNING OF WEEK

Polaris Has Almost Completed Loading Her Lumber Cargo for Australia

Either on Tuesday or Wednesday of next week the American schooner Polaris, Capt. Hansen, will be towed out of the harbor from the Canadian Puget Sound mills. Her cargo has nearly all been stowed in her hold, and Capt. Hansen expects to move to the Royal Roads early next week. The Polaris is taking little over a million feet of lumber for Australia, and has loaded in smart time. She is taking timber of small sizes, and the loading, which has been conducted by Capt. Hansen, was done in just slightly over three weeks.

The Polaris is the first schooner to take a cargo of lumber from this port. While in the harbor she has attracted some interest, a number of people visiting her each day to try to familiarize themselves with the rig of the vessel. The schooners are popular vessels with lumber shippers, and at the present time they are in great demand. They are securing high rates and the owners are reaping large profits.

No word has yet been received here of the steamer Marie Teresa, which is to load at the Canadian Puget Sound mills next month. She is fully due from Boston with a cargo of tar for Vancouver, but so far has not yet been reported off Tatoosh. It is expected that almost any day she will be seen standing off Flattery. She will be towed to Vancouver to discharge, which work will require about three weeks. The vessel will then come to Victoria and commence to load for Australia.

Officials of the mills are looking for a vessel to succeed the Marie Teresa in loading lumber at this port, but so far they have not secured a vessel.

DANISH STEAMSHIPS ARE TO CALL HERE

ARABIEN FIRST SHIP TO COME WITH CARGO

Left London To-day for Victoria—Service Only Recently Inaugurated to Coast

Announcement has been made that the Danish East Asiatic Steamship Company, which recently inaugurated a steamship service from European ports to the North Pacific, will in future include Victoria in the ports of call for its vessels. According to the first shipment of cargo for Victoria, the Arabien is not called for here until the latter part of September or early in October.

Since the company commenced operating steamships to this coast via Cape Horn the vessels have called at San Pedro, San Francisco, Portland, Seattle and Tacoma. As the other shipping companies coming to Victoria are doing well, handling large shipments of freight for this city and the adjacent towns on the Island, the officials of the company have decided to have the steamships they operate call here.

The Arabien is a new steamship, having been built last year. She is of 3,750 tons dead weight capacity. It is not known at present just how much cargo the steamship has for Victoria. The East Asiatic Company has no homebound schedule for its vessels, but leaves them open for charter after they have finished discharging on the South. They are always picked up to take lumber cargoes to Australia or general cargoes to the Orient. The Arabien, it is understood, will take a cargo of wheat to Europe on her return trip.

TRAVEL TO 'FRISCO ALLIGATOR AND IS NOW VERY HEAVY MAN IN BATTLE

Umatilla Sails South With Full List—Dozen Refused Tickets at Local Office

Persons who desire to journey to San Francisco from British Columbia or Puget Sound ports by the steamship route are advised to make their reservations some time ahead of the date they propose to sail or they are most likely to be disappointed. It is a peculiar fact that at this season of the year travel southbound from Victoria is extremely heavy, and people have to be refused passage on each outgoing boat.

This morning the Pacific coast steamship Umatilla, Capt. Kelly, left port for the Bay City, and every stateroom aboard her was filled. All the space allotted to Claude A. Solly, local passenger agent for the line, was sold and about a dozen persons were refused tickets. Wires were sent to Vancouver and Seattle, asking for additional rooms, but the offices in these cities reported similar conditions. In years past the heavy rush of travel to the south has not started until October and the fact that so many people are leaving here at this time of the year indicates that a great many British Columbia and Washington residents will spend the winter in California.

The business over the Frisco sea route has been growing remarkably, and the new steamships being built for the Pacific Coast Steamship Company will not be ready any too soon. Mr. Solly, who is also booking passengers on the President and Governor running out of Seattle for the Golden Gate and by the Alaska-Pacific boats, reports congested travel on these boats as well. Shipping men do not think it will be long before either the Governor or President will include this port as one of their stopping points. The Umatilla and City of Puebla are becoming too small for the run, and larger and better ships are required. Among the passengers booked here on the Umatilla were the following: E. Murphy and J. S. Johnson, who are going through to Manzanillo; Mr. and Mrs. E. Robinson, Mrs. C. Celee and Mrs. and Mrs. R. D. Clempett, Maurice D'Avia, Mr. and Mrs. J. T. Kerr, Mable Kerr, Beatrice Kerr, Mr. and Mrs. Alex. McTavish, Mrs. E. S. Porto and two children, Mrs. Phillips, S. A. Thomas, Lawrence Burns, R. Van, Mrs. S. Grimshaw, Mrs. C. Richards and Mr. and Mrs. Robert Smith.

GOOD WEATHER MET BY PRINCE RUPERT

Little Fog Coming Down From Rupert—Few Passengers Sails To-morrow

Except for light fogs encountered between Egg Island and Seymour Narrows on her southbound trip the Prince Rupert, Capt. Barney Johnson, of the Grand Trunk Pacific fleet, had fine weather throughout the round voyage. The vessel arrived in port from the north early this morning with but a small list of passengers.

She was very light coming south this trip, having but forty passengers in her cabin and less than 100 bunks. Among the passengers who came south from Prince Rupert were: J. H. McRae, of McRae Bros., photographers at Prince Rupert; W. H. Logan, a mining expert, who has been on a visit to the north; O. N. Lindsay, a real estate man from Spokane, who has been in Rupert on business; Geo. Beattie, of Queen Charlotte City, where he runs a general store, and Geo. Harris.

The Prince Rupert went across to Seattle this morning and she will be back here to-morrow, clearing at 10 a. m. for Prince Rupert. A large number of passengers have been booked for Prince Rupert, nearly all the local space having been sold.

Bound for Holberg and way ports the E. P. R. steamer Tees, Capt. Gilchrist, left here last night. The Tees was full up with passengers and many were unable to get berths. She also had a large cargo of freight, her forward hold being filled with freight.

The steam schooner Meville Dollar came in yesterday from San Francisco. She is putting off several hundred tons of cement at the Canadian Mineral Company's docks and will proceed from here to Vancouver to-night.

The North German Lloyd will organize three cruises to the West Indies and the Isthmus next winter, the sailings from New York to be monthly, beginning in January.

The French barque Assieres, the first sailing vessel of this season's California grain fleet, got away from San Francisco for Leith, Scotland, on Saturday with a cargo of 371,899 centals barley, valued at \$131,000.

A novel bit of boat building is under way at the big plant of the Greenport Basin & Construction Co., New York. It consists of building a 75-foot tug in such a way that it can be "knocked down" and packed in a crate for shipment to Honolulu.

SPECIAL MEETING OF COUNCIL THIS AFTERNOON

Three-quarters of a Million Raised by Loan in Last Year and Half

There will be an interesting session of the city council this afternoon if the mayor gives Alderman Humber a free hand with the papers he wishes to present in favor of the motion adopted on Monday for a committee of inquiry, the personnel of which is to be appointed. It is stated the members will not be those of the committee most intimately concerned with sewers, in which case the choice will be greatly limited. Probably some announcement will be made guaranteeing protection to those who give evidence.

Since January, 1911, the sum of three-quarters of a million dollars has been spent on sewers out of loans, and in that time 36 miles of street drains, 20 miles of four-inch lateral connections, and 15 miles of main sewers were laid last year, twelve miles of sewers and two and a half of surface drains were laid this year, though, of course, in the figures for 1911 are included work done under local improvement by-laws.

No one in touch with city hall matters has any clear idea where the money is to come from, and how it will be raised by the city to continue the works. A further reference to the ratepayers at this time of year is not encouraging, judging by the way in which the by-laws were turned down last fall, and the diversion of the paving plant appropriation is a mere drop in the bucket in work of this character, expensive rock drills and compressors being required. It is alleged that insufficient system in preparing trenches for sewer pipe without considering regrade operations in connection with paving operations, and the boring of unnecessary holes for blasting, has greatly increased expenditure, but the fact can only be obtained by a searching investigation, and the calling of men actually engaged in the various gangs.

FLYING LEGION WILL ARRIVE SATURDAY

Special Committee Will Go to Seattle on Friday to Greet Them

At the meeting of the executive of the citizens' committee in charge of arrangements for the entertainment of the Flying Legion, of San Francisco, who will arrive here at noon on Saturday, the following were delegated to proceed to Seattle on Friday afternoon to greet the visitors: Messrs. C. W. Rhodes, C. F. De Sals, A. von Girswald, J. R. Anderson, and Randolph Stuart, secretary of the committee.

Mr. Stuart last night received the following telegram from Mayor Rolph, of San Francisco: "Your telegram of yesterday very much appreciated. While pressing public duties here, under ordinary conditions, would prohibit my leaving the city at this time, I have decided to accept your very courteous invitation, and will accompany the Flying Legion on their visit to your city. Kindly present my compliments to your mayor and your committee. I am looking forward with the keenest of pleasure to meeting you all on Saturday afternoon next."

"JAMES ROLPH, Jr., Mayor of San Francisco."

This morning he received the following from another distinguished Californian:

"I shall have very great pleasure in accepting the invitation of the citizens of Victoria which you have so graciously and cordially extended to me."

"BENJAMIN IDE WHEELER, President, University of California."

J. S. Dennis, assistant to the president of the G. P. R., has instructed Norman S. Rankin, general publicity agent of the company at Calgary, to accompany the party on the Island. E. J. Chamberlin, president of the G.T.P., has been invited to attend the reception luncheon on Saturday.

Arrangements have been completed for Rev. Dr. Clappett to preach in Christ Church Cathedral in the morning, when a number of seats will be reserved, and Right Rev. W. F. Nichols, bishop of California, will preach in the evening.

A programme of the routes, rail and road, will shortly be issued to enable motor parties to know when and where to meet the party. Final preparations have been completed for the flotilla of the Yacht Club to meet the Princess Alice in the Strait on her arrival with the Legion, and the Arion Club will sing, under the able conductorship of Mr. Herbery Hunt, in the rotunda of the Empress Hotel on Sunday evening, between 9 and 10 o'clock.

The party will leave by motor car from the Empress Hotel on Monday morning at eight o'clock sharp for Jordan River. They will arrive at 11 o'clock. Luncheon will be prepared by Mr. Moore of the Canadian Forest Sound Lumber company, after which there will be an inspection of the lumber camps. Three hours will be allowed to see the bucking, felling and pulling in of logs, etc., the party leaving for Victoria at 4 o'clock and will arrive at the Empress Hotel at seven for dinner.

About forty cars will be needed, and at least two repair cars.

TALKS ON SOCIALISM.

Rev. Bernard Vaughan Gives Views in Seattle—Comes Here This Week.

Father Vaughan, the well-known Jesuit priest of London, England, who is making a tour of the west at present, returned to Seattle on Sunday night after a visit to Alaska, and is expected to arrive in Victoria next Saturday in time to preach in the Roman Catholic cathedral on Sunday. Last evening he preached in St. James' cathedral, Seattle, on the subject, "Revelation and Revelation," and on Thursday evening will be heard at the church of the Immaculate Conception, when his subject will be, "Is the Catholic Church a Menace to the State?"

This will practically conclude his work in that city, and Victoria may look forward to hearing this eminent man on some of the great social questions which lie so near his heart, and on which he is able to speak with such fire and eloquence. His visit to this city will extend over ten days or a fortnight. On Monday last Father Vaughan found himself on the fringe of a Seattle crowd which had gathered to hear some speaker who was addressing them on the subject of Socialism, the remarks and statements which he overheard evoking some rather severe criticism from the famous expounder of Catholicism.

"I am free to confess," he said to a representative of an American contemporary, "that Socialists have set us splendid examples of energy and enterprise in working for a cause; also a spirit of generosity and self-sacrifice by the earnest way in which they go to work in their attempt to establish a commonwealth with a very problematical future and an uncertain destiny. They have done great and valuable work in calling attention to the social evils of our day. But, and it is with reluctance that I utter a word of condemnation to any section of the community, as a citizen and a Christian. I am compelled to condemn Socialism for three reasons: First, because, whether I consider it from the standpoint of history or from the standpoint of ethics, I find it to be bound with principles and postulates which by no legitimate process can be made to fit in with the laws of justice, equity and right as promulgated by the Christian dispensation as founded to-day in the constitution of the great and glorious republic."

"The reading of the history of Socialism is almost like reading the story of the quest for the philosopher's stone. The object sought in both cases is unattainable. You can no more revolutionize human nature than you can turn iron into gold; yet the search has resulted in a number of by-products not without their uses."

Industry, and Socialism has given an impetus to social science. But when I have said this much, I must shake hands and say 'good-bye' to the comrades. I cannot follow them on either of their two roads—economics and ethics. There is a theory which never can be reduced to practice. As a matter of fact they have never even attempted to submit to us—ever—the working drawings of the state which it is their ambition to set up.

"The red flag, in spite of all that has been said or done, will never float over the White House. The Stars and Stripes will remain nailed to the staff. But for all that, Socialism is a menace both to creed and country."

HILLSIDE ARBITRATION.

Widening Scheme Case Referred to Arbitrators for Settlement.

An arbitration in connection with Hillside avenue widening called arbitrators and lawyers to the city hall this morning. The city engineers set out at the corner of Hillside avenue and Cedar Hill road for the widening, and thereby will disturb the residence of J. McNair Jones, who claims \$5,250 compensation.

It will be possible to move the house back, and some arrangement having this object in view is likely to be reached during the proceedings, allowing Mr. Jones compensation for the land taken.

J. J. Shallerross is acting for the city. J. Hart for the owner, and E. E. Brett as umpire. City Solicitor Robertson appears for the city, and F. A. McDiarmid for Mr. Jones.

According to the Militarische Politische Korrespondent, German army aviators will henceforward be required to swear fidelity on "land, sea and in the air."

Women Appreciate

the value of good looks—of a fine complexion, a skin free from blemishes, bright eyes and a cheerful demeanor. Many of them know, also, what it means to be free from headaches, backaches, lassitude and extreme nervousness, because many have learned the value of

BEECHAM'S PILLS

as the most reliable aid to better physical condition. Beecham's Pills have an unequalled reputation because they act so mildly, but so certainly and so beneficially. By clearing the system, regulating the bowels and liver, they tone the stomach and improve the digestion. Better feelings, better looks, better spirits follow the use of Beecham's Pills so noted the world over

For Their Good Effects

Sold everywhere. Women especially should read the directions with every box.

TRAVEL WESTWARD ON THE INCREASE

Former Resident Here Tells How Americans Seek Information of Victoria

"Victoria is inquired for everywhere I register," said Harry Hemming, formerly of the Driad hotel here, this morning when expressing an opinion that the prosperity of Victoria had not yet fully commenced. Mr. Hemming, the inventor of the new publicity forms that he has patented throughout the world and distributed in almost every hotel in America and Canada, is continually travelling the continent in the interests of his invention and finds almost everywhere he registers someone who calls to interview him in regard to the British Columbia capital and the business opportunities on the Island. He is staying at the Empress.

Mr. Hemming is about to launch his invention on England and the continent being now in negotiation with Cook & Sons, the famous tourist firm, for the European rights. He expects within two weeks to leave for England. He has now covered the North American continent, it being three years, while he was at the Driad, since he first thought of the large folder method of taking care of the railway and resort guides with which the hotel lobbies are supplied.

"When I was down in Dakota," he said to-day, "and registered there, I was called on by two people who wanted to know more of Victoria. I scarcely pass through Detroit or Chicago without some person coming to me for information. It is very surprising to learn how the knowledge of Victoria is growing. They know of it everywhere now, and there are thousands who would come west if they were sure that the conditions they have heard about are correct."

Mr. Hemming believes, from what he has seen and from the people who have called on him, that the interest in the west is becoming greater each year and that the flow of travel this way so far is nothing to what is to come.

EXTERNAL TRADE OF UNITED KINGDOM

Reports for Six Months Show Increase in Trade With Canada

The "Accounts relating to the Trade and Navigation of the United Kingdom" for June show that the value of the merchandise imported into and exported from the United Kingdom during the first six months of the year were as follows: Imports \$1,722,187,000; exports of United Kingdom produce, \$1,095,148,000; exports of foreign and colonial produce, \$281,541,000. Compared with the figures for the first half of 1911—the highest previously recorded—these totals show the following increases: Imports \$96,678,000, or 5.9 per cent; exports of United Kingdom produce \$8,002,000, or 0.7 per cent; exports of foreign and colonial produce, \$14,334,000, or 5.4 per cent.

Regard being had to the adverse influence during the half year of serious labor troubles, notably the coal strike and the strike of London transport workers, these figures indicate a satisfactory expansion in trade.

The foregoing totals relate to merchandise only. The total values of gold and silver, bullion and specie, imported and exported during the six months were as follows: Imports, \$156,399,000; exports, \$128,400,000.

The values of the imports from Canada, and of the exports and re-exports to the Dominion, during the first six months of each of the years 1911 and 1912, were as follows: Imports in 1911, \$41,240,000; in 1912, \$50,922,000; exports of United Kingdom produce in 1911, \$45,043,000; in 1912, \$50,338,000; re-exports in 1911, \$7,189,000; in 1912, \$8,576,000. Thus all branches of the trade show substantial increases.

Among the principal articles were the following:

Imports from Canada in the first half of 1912, wheat, \$19,334,000; wheat meal and flour, \$5,098,000; bacon and hams, \$3,312,000; cheese, \$3,328,000; canned salmon, \$2,899,000; wood, sawn or split, planed or dressed, \$1,275,000. Exports of United Kingdom produce to Canada: Iron and steel and manufactures thereof (so far as distinguished in the monthly accounts); \$2,668,000; cotton piece goods, \$3,780,000; woollen and worsted tissues (including carpets and carpet rugs), \$8,216,000; apparel, \$1,659,000.

TWO LINEMEN ELECTROCUTED.

Bellingham, Wash., Aug. 20.—Charles Boyd, of Seattle, and Fay Pease, of Allyn, Wash., were electrocuted near Burlington Monday as they were stringing a wire on the line of the Bellingham-Skaigt Interurban. The men were at work on the ground when a heavily charged wire parted and fell on them. Death was instantaneous.

Vaccination is compulsory in Norway and Sweden before a couple can be legally married. A minister will not perform a ceremony unless he is shown certificates that both bride and bridegroom have been vaccinated. In Brazil parents and guardians, before committing to the marriage, must first require a medical certificate from the bride or bridegroom certifying that he or she has been vaccinated.

The total number of animals slaughtered for food in 1911 at the "abattoir" for horses in Paris was 49,862, being 48,976 horses, 379 asses, and 453 mules.

KELOWNA NURSERY FOR SALE

As a Going Concern, Price

\$17,000

Stock on hand will easily realize twice this amount by May, 1913.

A positive bargain for a man that understands the nursery business. The demand for nursery stock in this growing orchard district far exceeds the supply. Great quantities are imported every year from the States. The stock offered consists not only of strictly first class quality but the varieties are most desirable for British Columbia.

A rigid investigation of the merits and possibilities of this concern are invited.

Preserve That Photograph of the Loved One

You have a photograph of one who is very dear to you, which you would not care to lose for anything, yet you leave it on the bureau or mantelpiece exposed to the dust, which has to be wiped off every day, and therefore shortens the life of that photograph very materially. Put that photograph in a handsome sterling silver frame, and it will last for generations.

Come in and see our showing of sterling silver and fancy frames, just to hand. There are some very beautiful frames in new designs, with engine-turned silver mountings. Some are of very artistic French brass or bronze mountings in lovely designs. See them in our window.

Sterling Silver Frames Range in Price From \$1.00 Up

WOMEN SHOULD BE PROTECTED

Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as an ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DEMA BETHUNE, Sikeston, Mo.

Murrayville, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital, but I dreaded it. I got along so well that I gave up the doctors and was saved from the operation."—Mrs. CHARLES MOORE, R. R. No. 8, Murrayville, Ill.

turned from a trip to England to-day and will resume his seat on the police court bench to-morrow morning.

G. H. Allen, G. Curgenven, V. V. Murphy, J. F. Murphy, D. D. Taylor, E. C. Brooke-Smith, E. W. Carr, Hilton, Lionel R. Fawkes, and A. Ralph Ashby, of Duncan, are guests at the Ritz.

A party of automobilists, including Mr. and Mrs. Will Spencer, Mrs. David Spencer, Jr., and Mrs. Watt, left the city in three cars this morning for a ten-day's tour of the island.

Mr. and Mrs. J. W. J. D. Farley, of Vancouver, came down this morning to attend the convocation, and are staying at the Empress.

Mr. and Mrs. W. J. Baird, president of Vancouver Conservative Club, came down from Vancouver this morning to attend the convocation.

The Evening Chit-Chat

By Ruth Cameron

The other day in a restaurant I saw a young girl haughtily summon the waitress and tell her to take back an order of ice cream in which, according to the customer, there was a taste of salt.

The waitress inquired if the customer would like something in its place, and he said "I don't believe she visualizes to herself the fact that some real creature is going to receive a sharp rebuke or perhaps even more than that as a result of her complaint."

The girl who used a speck of salt as a pretext for getting rid of some cream that she did not fancy in an exaggerated example of the complainer. There are not many like her—I hope. But there are a great many people who are always ready to complain of the goods or service they receive, on any legitimate ground. "Clothed in a little brief authority," I always think when I see any such person enjoying the opportunity to be domineering and superior to some clerk whose business it is to receive complaints.

Some employers make allowances for such cranks and receive their complaints with a big grain of salt, but the more common tendency is to take the side of the customer against the employee. A certain successful clothing house deliberately tells its clerks to remember that "the customer is always right." Pleasant for the customer? Yes. But think of the attitude toward employees, which is the inevitable complement. And although few employers go quite so far as to make that a stated rule, in the majority of cases the customer undoubtedly gets the benefit of the doubt in any matter of complaint.

So go easy on such complainers. Think twice before you make them. There are times when you owe it to yourself, to common justice and to future sufferers to protest. But more often the righteous indignation which you fancy you feel is simply ruffled pride, passing annoyance or a desire to exercise your power as the master or mistress of the public servant.

Give yourself a chance to cool down first and then if you think you ought to make a complaint, do so. But you probably won't.

Ruth Cameron

PASSING SHOW

The Empress Theatre.

The feature act at the Empress theatre this week is one which created considerable attention in Paris, the city where many excellent vaudeville turns imported for the stage of this continent have had their first presentations.

Edward Locke's new playlet, "The Green Mouse," presented by Louis Mackintosh and Robert Rogers, comes up to expectations and proves to be a roaring farce in which laughter is constant. Mr. Rogers has the role of a clubman who returns home after partaking too freely of the flowing bowl to be treated with a novel cure by his waiting partner.

Lina Pantzer, who comes of a famous acrobatic family, opens the entertainment with a graceful and clever exhibition of bounding wire work, combining the equilibrium of Karoline Eddy and the aerial tumbling of Hugh Lloyd. It is one of the best wire walking acts seen here.

Bert Daniels and Lester Conrad have a high-class musical act. The younger member of the duo plays a violin in a most entertaining way. He is not only a classical selection, but shows himself to have many of the ragtime tricks which vaudeville audiences seem to enjoy. His partner plays the piano.

Harry Holden and Luck-Harron appear in an act entitled "The Messenger Boy and the Lady." It is a good singing, dancing and talking act, and amuses highly.

Majestic Theatre.

"Man's Genesis," a physiological comedy founded upon the Darwinian theory of the evolution of man, will be shown at the Majestic to-day and Thursday. This subject is a distinct departure from the conventional motion picture production, depicting, as it clearly does, a theory of grave importance—Darwin's argument as to the evolution of man. The story is that of the life of "Brute-force" and "Weak-

FOR THE COMING SEASON. A medium smoke grey cashmere is made up charmingly as sketched here. The long shoulder and draped sleeve are well placed, and buttons covered with the material are set closely on sleeves and skirt. A new lace arrangement is shown on the waist and the back is similar to the front, except for a combination of the lace in a coat-tail effect. A girde of changeable foulard is draped about the waist, and shows shades of rose and green besides the smoke grey. Small pearl buttons are sewed on with rose silk, and a small rose velvet bow finishes the neck.

EFFECTIVE OF FLOUNGING. Some of the best features of new lingerie gowns are combined in this design. The panner effect is graceful and the front closing, with crystal buttons, is very decorative. The gown is made over a foundation of sheer voile, cut square in the neck and with elbow sleeves, finished with a bias fold of chiffon, put on with a beading, the neck of the overblouse being finished to match. The girde is of pale blue satin, with a wreath of pink roses used as a buckle, which adds a delicate touch of color.

hands in the primeval village. The bare flat at this period was the only weapon and, as one may imagine, the law was "might is right." "A Prisoner of the Harem" is a thrilling Egyptian production, with dreams, prayer, and the miraculous intervention of Providence which lead to the accomplishment of wonders and the satisfying of the desire of the soul. "Egyptian Sports" is a good topical film. "Frog" is a very excellent scientific picture. "The Heat Wave" is a very amusing picture of a hot day, and bath tubs on wheels.

ROMAN RELICS IN ENGLAND.

Interesting discoveries have been made at Wallsend, upon the site of the Roman camp at Segedunum, during excavations for foundations for a hotel. Portions of the east rampart of the east gateway have been laid bare, and a wall of the north guard chamber within the east gateway. Hitherto the shape of the east rampart has been uncertain, but the present discoveries will, in all probability, give archaeologists the clue which will determine the point. The remains of a gravel road which ran through the camp from the east to the west gateways, and also a road which ran across it at right angles have also been found. Portions of other walls, supposed to have been connected with the soldiers' barracks, have been laid bare. Another Roman grave has been unearthed at Chester in a field which is to be used for the ex-

HON. F. L. CARTER-COTTON ELECTED CHANCELLOR

Impressing Gathering of the First Convocation of the University of British Columbia This Morning—Senate Also Appointed

Hon. F. L. Carter-Cotton, M.P.P., was elected chancellor of the new British Columbia University at convocation this morning, by 376 votes to 242 registered in favor of Charles Herbert Tupper, K.C.

The following fourteen gentlemen were also elected to the senate of the university with the votes given below: E. E. McKechnie, 414; F. W. Howey, 397; H. Wolverson, 379; J. S. Gordon, 363; Mrs. J. W. De B. Ferris, 346; F. C. Wade, 336; W. P. Argue, 330; W. D. Brydon-Jack, 302; J. M. Turnbull, 293; E. W. Sawyer, 263; Mrs. M. A. Watt, 245; C. D. Rand, 239; Hon. G. Hunter, 223; J. M. Pearson, 222.

The following fourteen gentlemen were also elected to the senate of the university with the votes given below: E. E. McKechnie, 414; F. W. Howey, 397; H. Wolverson, 379; J. S. Gordon, 363; Mrs. J. W. De B. Ferris, 346; F. C. Wade, 336; W. P. Argue, 330; W. D. Brydon-Jack, 302; J. M. Turnbull, 293; E. W. Sawyer, 263; Mrs. M. A. Watt, 245; C. D. Rand, 239; Hon. G. Hunter, 223; J. M. Pearson, 222.

HON. F. L. CARTER-COTTON, Chancellor.

Dr. Young was elected temporary chairman until the result of the ballot brought the chancellor to the platform to preside over the convocation. In his introductory remarks the Minister of Education stated that the convocation was convened under the conditions of the University Act. He read a letter from Mayor Beckwith, regretting his inability to be present owing to previous engagements.

Dr. Young then outlined the history of the university movement since the first announcement in regard to it was made from the throne in 1907, providing that the establishment of a university in British Columbia should be proceeded with. Since holding a portfolio as minister of education he had pressed forward with the work entrusted to him with all his energy. In view of similar institutions all the world over it was only right that adequate sinews of war should be provided.

In 1907 the Endowment Act was introduced, granting two million acres of public lands as endowment of the university, to be administered under the provisions of the Land Act. The act allowed three years for making selection, but since that time he had had the time extended and the work of selection was being proceeded with.

Dr. Young made the important announcement that no distinction would be made in regard to sex, and all offices would be open to any student, whether male or female. The question of a site. The minister for education had some interesting things to say on the question of the site. He remarked that the premature greyness of the locks of the premier and himself were due to their efforts to decide exactly where the university would stand.

KAMLOOPS' HYDRO-ELECTRIC SCHEME

By-Law Will Be Submitted—Extension of Electric Lighting and Water Systems

Kamloops, Aug. 21.—At the last meeting of the city council a letter was read from Maxwell Dutcher & Co., stating that Mr. Lea was sending an expert from the east to confer on various important engineering projects in the west and that he would stop in Kamloops and go over the proposed hydro-electric project here. The matter of placing the order for the pipe for the water system, was left to the water and light committee and the engineer.

CHAS. KENT.

as that now occupied by the Pemberton block. Later Mr. Kent joined the hardware firm of Edgar Martin, where he held the office of book-keeper for some time, during which a partnership was formed between Messrs. Martin and Tilton. In 1888 he left this business connection to become city treasurer, an office which he occupied for 22 years, and from which he retired only two years ago—a splendid testimony to the alert and vigorous nature of the octogenarian's mind.

Mr. Kent, in spite of his four-score years and one, is still hale and hearty, and able to appreciate the unusual measure of health which has been granted him through a long life, during which he has seen Victoria grow from the very rudiments of a town into a thriving and up-to-date city.

DESPODENT MAN ENDS HIS LIFE

Disappeared Several Weeks Ago and Body is Found in Bush

Alberni, Aug. 21.—Despondent over his inability to earn a living for himself, Nells Hurtig, a Norwegian, committed suicide in Alberni and his body remained undiscovered for three weeks.

Hurtig had been known in the district for some time, having arrived in the days of railway construction. He was industrious and was generally well liked. He had served as a sergeant-major in the Norwegian army and was retired on pension. About eight months ago he left for Vancouver and entered the General hospital where he underwent an operation and was a patient for many weeks. After his discharge from the hospital he returned to Alberni and endeavored to resume work, but found himself incapable of holding up his end with others. He quietly made arrangements to settle his board bill and a few small obligations and then disappeared. Friends became anxious and enquiries were made but no trace of the missing man could be found.

A few days ago a man engaged in land clearing came across the body in the bush, partly hidden in a stump, on the north bank of a creek. Hurtig had ended his life by cutting his throat. A coroner's inquest was held and the verdict was to the effect that the deceased came to his death by his own hand while temporarily insane.

OBITUARY RECORD

The death took place last evening at 81 North Park street of Mary Bowcott, six-months' old child of John Bowcott. The funeral will be held to-morrow morning at 10 o'clock from the Victoria Undertaking parlors.

The funeral of Murdoch MacLean, infant son of Mr. and Mrs. MacLean, of Gelfin street, took place yesterday afternoon from the Hanna-Thomson parlors, Rev. H. Carson officiating.

The death occurred yesterday of Roderick Angus Macdonald, infant son of Mr. and Mrs. Norman Patterson Macdonald, 172 Fifth street, aged four months. The funeral took place this morning at 10 o'clock from the residence, Rev. Mr. McCoy officiating.

The funeral of the late Herbert Dodson took place yesterday afternoon at 2:15 from the B. C. Funeral parlors to the Reformed Episcopal church, where service was held at 2:30 by Rev. Dr. Campbell and Rev. Dr. Reid, the services being attended by a number of friends of the deceased. The pall-bearers were Messrs. Stevens, O'Reilly, E. S. Wootton, Laundry, Hisecks and Wootton.

The remains of the late John Hake Webber were shipped this morning on the Inroquois to Seattle, from where they will be sent to Santa Barbara for interment. Mr. and Mrs. W. T. Nett, of Cobble Hill, son-in-law and daughter of the deceased, accompanied the remains.

The death took place this morning of Gordon Trantier Nobbs, the three months' old son of Mr. and Mrs. Henry Nobbs, 596 John street. The funeral will take place on Friday afternoon at 2:30 from the family residence, and the child will be buried beside the remains of his small sister who was interred last week at Ross Bay.

The funeral of Miss Phyllis Dawson took place this afternoon at 2:30 from the residence, 512 Cook street, Rev. Wm. Stevenson officiating.

STEAMER TOTAL WRECK

Montreal, Aug. 21.—"Eric a total wreck, all crew saved," was the message received by the Marconi company yesterday.

The company's operator at Sable Island reported that the Eric began to break up during Monday night after being pounded by the heavy seas. The crew was on board when she began to go, and after a time their position looked perilous. They were all taken off safely, however, yesterday morning when the storm subsided.

The Eric was a British steamer of 3,900 tons, owned by Turnbull Bros. of Cardiff. Her master was Capt. Cummer. She was bound from Rosario, in the Argentine, to Quebec with a cargo of maize. She went ashore in a dense fog on August 13. Part of the cargo was saved.

MAY HAVE PERISHED

Aberdeen, Wash., Aug. 21.—Reports were brought here today that two men and a woman, supposed to be employees of the Centralia glove factory, were swept to sea by the tide at Port Granville. The three were on their way to the Indian village and have not been heard from. They are believed to have been caught in the breakers.

Fresh Fall Fashions

Handsome Showing in Evening Dresses and House Gowns

DELIGHTFUL EVENING DRESSES

You couldn't wish for a daintier gown. In soft shades of ninon, trimmed with vegetable silk lace, and Persian silk motif, and lined with soft satin slip. Corn, pale blue and pink.

\$40.00

Another style in ninon trimmed with ruchings of soft goods, finished with crystal trimmings, in corn, cream and pale blue.

\$35.00

A Pretty Model Broadcloth Gowns

A semi-evening Voile gown, Dutch neck, shot sleeves, prettily trimmed with lace insertion and finished with satin piping and buttons. Just the thing you have had in mind.

\$20.00 **\$25.00**

HANDSOME HOUSE GOWNS

A new Fall line of house gowns, well worth inspecting, whether you are thinking of buying such a garment or not. They will give you a good idea of the great values a little money really can buy. In fine serges, panamas and broadcloths, nicely finished with pure lace collar and cuffs.

\$9.00 to \$15.00

Specials in Wash Dresses

Children's Bloomer Dresses in plaid, gingham, percale and polka dot prints. Sizes 2 to 5 years. Values \$2.50.

SPECIAL PRICE \$1.50

Girls' Middy Dresses, in navy and tan, trimmed with white bands. Sizes 8 to 14 years. Values \$3.50.

SPECIAL PRICE \$1.50

Girls' Mercerized Linen Dresses in rose, tan and Alice blue. Sizes 8 to 10 years. Values \$4.00.

SPECIAL PRICE \$2.50

Girls' Print Wash Dresses, in stripes, plaids and self colors. Splendid bargains. Sizes 4 to 6. Values \$2.50.

SPECIAL PRICE \$1.50

Girls' White Middy Dresses, trimmed with navy and white bands. Sizes 8, 10, 12 years. Values \$3.50.

SPECIAL PRICE \$2.50

Girls' Plaid Gingham Dresses, exceptionally good values. In 10 to 16 year sizes. Values \$3.75.

SPECIAL PRICE \$2.50

739 Yates Street **Gordons** Phone 1391

"Take care of Your Opportunities and They'll Take Care of You"

The Premier said: "I very heartily endorse everything that has been said by His Honor the Lieutenant-Governor with regard to the prospect which lies fair before the University of British Columbia. It seems to me that with co-operation and mutual help, there ought to be, there can be no possible doubt of the success which lies ahead.

"No opportunity has been lost in trying to support the movement in every feasible way. We, in B. C., perhaps, have lagged some far as other provinces in this respect, nevertheless the question of higher education in B. C. has not been overlooked. We can profit by the experiences of our sister provinces."

Continuing, Sir Richard showed how tangible endorsement had been given to the university project years ago by the governing body in providing generous land endowment. With the land endowment regulation he had to compile the University Bill, which was largely due to the untiring efforts of his esteemed colleague, Dr. Young. He paid warm tributes both to the minister for education and to Dr. Alex. Robertson, who was always ready and willing to see the public interest well served.

The premier then expressed his deep appreciation of the privilege granted him by the chairman in this connection to be allowed to speak at the first convocation whose reputation would, he hoped, in time be not only empire-known, but world wide.

He hoped the university would come to be looked upon as a purely Canadian institution with an imperial scope, which would stand out well in the world of education, as one of the first of its kind in the world.

Concluding, the premier thanked the convocation for their splendid attitude towards the university question, and stated that already everything spoke well for the enterprise which was today being launched. It showed that there was in the people of this province the spirit of optimism, and a great-looking forward to a notable future. He also thanked the press for their endeavors and their influence which had done much to bring the movement to its present state.

Minister of Education.

At this point His Honor the Lieut-

HON. H. E. YOUNG, Temporary Chairman.

the suggestion and university committee had been appointed. They had reported, and had settled on Point Grey as the most suitable place of all, so that their recommendation had been accepted.

He had asked for 500 acres, and though all this had not been granted him he was pleased to be able to state that 40 acres of foreshore had been added, so that now they had 217 acres of land.

Bill Next Session.

Dr. Young, continuing, said that he thought he had persuaded the Premier to allow him to introduce another bill in parliament next session, setting aside another hundred acres. He was of the opinion that he was not asking too much. A board of governors would be appointed in a week or ten days.

It had been decided also to call for competitive plans for the building, the competition to be open only to British architects.

The plans had to be returned and opened by November 1.

The New Chancellor.

The new chancellor was accorded a

PROPELLING MOTOR CAR WITH WINGS

Paris Mechanic Combines the Features of Aeroplane With Automobile

Only one of the principal morning newspapers in Paris describes what may prove to be a new starting point in locomotion as demonstrated by M. Bertrand de Lesseps' drive from Paris in a motor car propelled by a wing. M. de Lesseps' experiments with sledges drawn by screws attracted much attention a year or two ago, and in the course of them he conceived the idea of the use of aerial traction for ordinary road cars.

Chance threw him across another searching in the same field in the person of M. Filippi. The latter based his trials on the principle of the bird's wing, and aimed at producing a propeller which should realize the same effect as the beat of a bird's wing in the air. The propeller now arrived at is not a screw, but a blade of wood, at the extremities, one of which tapers off nearly to a point, whilst the other is comparatively wide, looking like a wing, concave on one side and convex on the other. Furthermore, both ends are curved backwards, forming an obtuse angle.

The whole is enclosed in a cage, and measures only about 55 inches in diameter, not projecting beyond the gauge of the car in any direction. The maximum speed is 2,300 revolutions per minute. This air-propelling system enables the constructor to dispense with the most delicate and complicated parts of the machinery at present employed—no more gear-boxes are required, as a change in the number of rotations is substituted for a change of gear, whilst progress backwards is obtained by reversing the movement of the wing. This backward rotation also serves as a powerful brake when going down hill, and does away with "differentials" and back bridges.

In travelling the friction is reduced to a minimum, and the car seems hardly to touch the ground, raising no appreciable dust, and consequently inflicting but slight wear and tear on the tyres, whilst the comfort of the passengers is indescribable. In general appearance the car used resembled an ordinary torpedo type, but the hinder part forms a sort of prow, from which projects the axle carrying the wing-transmission chains. There is no other mechanism, and the wheels all run free like the front wheels of an ordinary automobile. One lever only is used to start, and move forwards, or backwards, and there is one pedal by which extra brake power is put on.

The whole car weighs about 1320 pounds, or with its three passengers and the necessary impedimenta, about 2,000 pounds. A start was made yesterday about 4 o'clock in the morning in the presence of several interested and highly competent spectators, and after showing off its capabilities in various preliminary manoeuvres the car went off on its journey of three hundred odd miles amidst cheers. The travellers sent telegrams reporting progress from different points on the way, and last night news was received that they had arrived safely at Lyons.

The future trade interests involved in this experience may prove of immense importance, and the new type of wing may turn out superior to the screws so commonly used in the aeroplane. In the trials made by M. Filippi with a view to finding the best shape for the wing the present model gave 70 per cent. of power, which is at least 10 per cent. more than has yet been produced by the best known screw propeller of the usual type.

INCITING SOLDIERS TO MUTINY.

A railway fireman named Frederick Crossley, who was arrested in February last at Aldershot for inciting soldiers to mutiny, was sentenced at Winchester Assizes to four months' imprisonment. Crossley had some thousands of copies of the notorious "Open Letter to British Soldiers," urging soldiers to disobey their officers' orders to shoot, reprinted from the "Syndicalist" at his own expense, and took them to Aldershot for which Tom Mann was sentenced to six months' imprisonment, the sentence being afterwards reduced to two months. In court Crossley said he had acted as his conscience dictated, and he would go to prison with a clear conscience. Counsel for the crown suggested that the punishment might be slight if Crossley would give an undertaking not to repeat the offence. "I do not feel bound to bind my conscience over to any one," said Crossley. "My conscience is the voice of God, and I must obey the voice of God before that of man."

In 1850 the total tonnage of the merchant navies of the British Empire was 4,222,002; in 1910 it was 12,361,588.

FRECKLE-FACE

New Remedy That Removes Freckles Or Costs Nothing.

Here's a chance Miss Freckle-Face, to try a new remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion, the expense is trifling.

Simply get an ounce of othine—double strength, from D. E. Campbell, and one night's treatment will show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask for the double strength othine, as this is the only prescription sold under guarantee of money back if it fails to remove freckles.

MILK COMMISSION BEGINS INQUIRY ANALYST SAYS CITY SECURES GOOD QUALITY

Lack of Transportation Facilities Delays Arrival of Supply at People's Homes

The milk commission held its session in this city last evening, in fulfillment of the powers delegated to the commissioners to examine into "the question of the sale of milk, and the management of various cowsheds and milk shops."

In addition to the public sessions, the commissioners, Dr. Proctor, chairman; Dr. A. T. Knight, and F. J. Coulthard, are making examinations of farms, stores, and places where milk is vended, and are hearing evidence in the evening. There was only a small attendance when Dr. Proctor opened the proceedings in the council chamber last evening, and this led Dr. G. A. B. Hall to ask for another session in Victoria.

The chairman said he would consider the matter, but he thought the system the commissioners were adopting would secure the most effective knowledge of conditions.

Important Matter.
In an explanatory statement Dr. Proctor observed that the question of the milk supply of the province was of tremendous importance, particularly to the health of the infantile population. It was a difficult matter to secure a pure milk supply, and to regulate the functions of administration and inspection of the various governments and municipal authorities. Their duties were threefold—to inquire into the standpoint from the aspect of the farmer, the retailer, and the consumer. The commission expected that its recommendations to the government would be embodied in legislation to regulate the trade throughout the province.

Dr. Donald.
Dr. Donald gave an exhaustive statement on the history of milk in its aspect of a disease conveyor, from statistics culled in many lands, the tests to determine purity, and preservatives. Taking the connection between milk and disease the doctor pointed out how infantile diarrhoea was directly traceable to bad milk. The greater majority of the cases of human tuberculosis were due to the conveyance of the tubercular bacillus through the alimentary tract. The witness quoted a number of scientists to show how the tubercular bacilli were transferred to the human subject; and pointed out that it was not always the lean kine who conveyed infection, but often fat, well-conditioned animals. Queen Alexandra had caused a decree to be made of a dairy herd in one of the home farms, and some of the best looking animals had been discovered to be infected.

Whatever action was taken it should be thorough, extending from the cow byre to the consumer, and particularly to the conveyance of milk in transit. Registration of vendors was essential, and a certificate of inspection should precede registration. So far as preservatives were concerned, if used in proper quantities, he did not think they caused any danger to the consumer, but the regulation of the quantities was essential and preservatives were often added by inexperienced men.

He also referred to the use of formalin, and the cases reported in this city where formalin had been discovered in samples taken by the inspector, and hoped the medical department of the city would reorganize its system in the interests of the vendors, although since the analyst had been appointed conditions had been better.

In answer to Mr. Coulthard he said he believed that milk being cooled down to 50 degrees Fahrenheit would serve to check the creation of disease germs. Pasteurization killed all germs except the spores of anthrax, while sterilization destroyed the ferment.

Dr. Hall.
Dr. Hall, medical health officer, said he had no statistics prepared, as he had not been informed of the session, but would endeavor to send some written information about local conditions to the commissioners later on.

Much of the milk in the city came from Seattle, and country districts, and contained a certain amount of formalin. The municipality could not hope to regulate this condition, and must look to the government for assistance. In their administration of the law they were acting under the Dominion Pure Food law, but were handicapped in that there was only one prosecutor authorized under the Act, through whom they had to operate in taking cases to court, and he hoped the commission would make a recommendation on the point. In Dr. Fagan's absence it created considerable difficulty for the department to proceed. The milk supply on the whole had been very satisfactory in the city. He was against the use of preservatives, the Dominion Act prohibiting their use. He hoped in the interests of the consumers to see an improvement in the transportation of milk into this city.

Good Milk Here.
City Analyst C. W. Birch was next called. He showed that during the hot weather, formalin had been used to a considerable extent, but the result of his analysis during the summer months had proved that Victoria was securing an unusually good supply of milk. The Canadian standard was 3.25 per cent of fat, and 8.5 of solids not fat, and the average of the analysis for May, June, and July had been respectively: May, 2.5 and 8.7; June, 4.14 and 8.6; and July, 4.4 and 8.9. Most of the milk must accordingly come from Jerseys, and not Holsteins. There was no attempt to deal with bacteriological examinations of stock.

Assistant Inspector Howes gave evidence of taking samples and the lack of provision to protect milk in transit throughout the city, although he found

attempts were being made to keep it covered better than formerly.

Compensation to Cowmen.
Two practical dairymen, E. and T. Raper, then gave evidence. From their testimony it appeared that on the Saanich line milk was lying for hours on the V. & S. stations waiting to be brought into the city, without proper covering. They also considered the compensation given by the government for tubercular cattle condemned for destruction inadquate, and instead of about \$40, a calf cow was worth \$100 to \$150.

Dr. Donald observed that tubercular cows need not be completely destroyed if they were slaughtered at an abattoir where full opportunity of examination was possible. At Aldershot, where he formerly examined for the British war office, they had a regular scale by which the carcass was condemned in proportion to the amount affected by disease.

The commission then adjourned, and will meet at Duncan on Friday, Nanaimo on Tuesday, and Comox to-morrow week. Freeman Bunting, of New Westminster, is secretary of the commission.

FIRE DESTROYS HOTEL

Clinton, Aug. 21.—Clinton lost one of her old landmarks when the Dominion Hotel was burned to the ground. The fire started in some unaccountable way in the lean-to at the back leading from the bar, and must have originated from the outside. Sam Marwick, the proprietor, was awakened at about 1:50 a. m. by the cry of fire from one of the boarders and he found the fire had just commenced and was confined to the lean-to. He ran to the Clinton Hotel to wake the inmates. In a few minutes the whole structure was in flames. There was very little time for the inmates to save their belongings. Most of the efforts of the firemen were directed towards saving the adjacent buildings.

The designs of the new Russian postage stamps to be issued next year in commemoration of the tricentenary anniversary of the Romanoff dynasty have been completed, and placed in the hands of the crown printers. The stamps will bear the portraits of by-gone Czars. Russian postage stamps have never hitherto borne portraits of the Czars or Czarinas. The process of postal obliteration was deemed derogatory to the dignity of the Imperial sigil.

HOW WATER PIPE DELAY HAS ARISEN

Commissioner Changed Route, and Circumstances Prevent Delivery

The water commissioner is sad because he yielded to the solicitations of others, and decided to give the contract for bringing water pipe from the Old Country to the Harrison line, the politician being delayed and not expected till the first week of September.

In former years the city water pipe came by way of the Tehuantepec route, crossing from Goazacoalcos to Salina Cruz on the isthmus railway, and was delivered in less time than the present consignment, although in fairness to the Harrison line it should be said that a concatenation of circumstances have arisen to cause the delay such as could never have been anticipated when the proposal was launched, and the agents of the company here secured the city order.

The commissioner promised faithfully that pipe would be available this month for Oaklands and the Gorge road, and the promise cannot be kept, because it cannot be secured in time.

When the Canadian-Mexican line brought the city supply there were troubles in the consignment, it is understood, and with those difficulties in view the commissioner placed the order with the other steamship company, and then came the delays owing to strikes and industrial troubles in the Old Country. Hence it has been impossible to get the water pipe here in time, and as the material was ordered at the first meeting of the new council after the election dilatoriness cannot be laid at the door of the city council.

The largest insect known in the elephant beetle of Venezuela. It sometimes attains a weight of half a pound.

In St. Petersburg it begins to freeze at the end of October and a general thaw rarely takes place before the beginning of April.

Are Tea and Coffee Against You?

They contain *caffeine*—a subtle, habit-forming drug which sooner or later shows in weak heart, short breath, stomach trouble, headache, sleeplessness, rheumatic pains, etc.

Why trifle with such beverages when there's health and comfort in well-made

POSTUM

—a palatable, nourishing food-drink, made of wheat, which rebuilds in Nature's own way.

The morning cup will be hot, snappy and just as satisfying with no hurt following if you have Postum in place of tea or coffee.

"There's a Reason" for POSTUM

Made by Canadian Postum Cereal Co., Ltd., Pure Food Factories, Windsor, Ont.

KNIFED. Old Soldier's Story of Coffee

An old soldier, released from coffee at 72, recovered his health and tells about it as follows:
"I stuck to coffee for years although it knifed me again and again." (Tea is just as harmful as coffee because it contains caffeine—the same drug found in coffee.)

"About eight years ago I was taken with a very severe attack of malarial fever. I would apparently recover and start about my usual work only to suffer a relapse. After this had been repeated several times during the year I was again violently ill.

"The doctor said he had carefully studied my case and it was either 'quit coffee or die,' advising me to take Postum in its place.

"I had always thought coffee one of my dearest friends, and especially when sick, and I was very much taken back by the doctor's decision for I hadn't suspected the coffee I drank could possibly cause my troubles.

"I thought it over a few minutes and finally told the doctor I would make the change. Postum was procured for me the same day, and made, according to directions. Well, I liked it and stuck to it and since then I have been a new man.

"The change in health began in a few days and surprised me, and now, although I am seventy-two years of age, I do lots of hard work and for the past month have been teaming, driving sixteen miles a day besides loading and unloading the wagon. That's what Postum in place of coffee has done for me. I now like the Postum as well as I did coffee."

The Establishment of a Great New Seaport

An Event of International Importance!

THE BATTLE OF THE RAILROAD GIANTS!

MILLIONS OF DOLLARS TO BE MADE IN BRITISH COLUMBIA BY INVESTORS IN FOLLOWING RAILROAD AND HARBOR DEVELOPMENTS

Why Not HARDY BAY?

Millions of dollars have been made in British Columbia by men of capital and nerve.

British Columbia is still, by comparison, merely an undeveloped store house of almost incredible wealth.

Vancouver, Victoria and Prince Rupert are only fair examples of the developments which confront the future of Hardy Bay, the great new seaport that is destined to spring up at the north end of Vancouver Island.

The imperative demands of Canada's shipping, and the crying needs of those enormously wealthy transcontinental railroads which have to compete with the new line of the Grand Trunk Pacific and its strategic terminal at Prince Rupert, assure the future of Hardy Bay.

Hardy Bay has been announced in the press as the Vancouver Island terminal of the Canadian Pacific Railway, the Canadian Northern Railway, and the North Island Railway. It has safe anchorage for innumerable ships.

It shortens the route to the Orient. It makes an ideal shipping point for the big fishing industries and the coast trade with Alaska.

It is blessed with every requirement for a successful city site—a gentle slope, no rocks, waterfrontage, and out-of-door climate the year round. It is backed by an agricultural and timber district of splendid character. It is the choice for investment of the foremost men of British Columbia, as well as capitalists from all over. Send for a list of men who have bought at Hardy Bay.

Hardy Bay to-day is where Seattle was 64 years ago, where Vancouver was 50 years ago, and where Prince Rupert was 5 years ago. Remember this, and remember that the cream of such opportunities is soon skimmed off. Call now, or write our local office for details.

Hardy Bay Development Co.

THE GREAT TRADE ROUTES OF CANADA ARE BEING REVOLUTIONIZED. HARDY BAY IS THE PIVOT

STUDY THE MAP

STUDY THE MAP

STUDY THE MAP

STUDY THE MAP

Every newspaper and magazine admits that the revolution in the trade routes, brought about by the Panama Canal, is going to benefit the Canadian Pacific coast more than any one else.

Hardy Bay is the only strategic point which has not already been grabbed up by investors. The reason is that no one knew until a short time ago just how the situation would develop.

For this reason, and this alone the man of moderate means can profit to-day by the imperative demands of Canada's Pacific Coast shipping on an equal footing with the capitalist.

MUCH INTEREST IN TENNIS AT NEWPORT

All Attention Focussed To-day on Doubles Between East and West

Newport, R. I., Aug. 21.—Interest in the national lawn tennis championship at the Casino courts centred to-day in the struggle in doubles between the east and west, represented by the title holders, R. D. Little and G. F. Touchard, of New York, and M. E. McLoughlin and T. C. Bundy, of Los Angeles, the challengers.

An hour before the match was called it was stated that Bundy had apparently fully recovered from the slight illness of Monday night, which caused the postponement of the contest yesterday. In the singles the contestants start the fourth round. Of the thirty-three survivors in the singles New York was represented by twelve, Boston eight, Philadelphia six, California three, Province two and Short Hills and Trenton, N. J., one each.

CROQUET TOURNEY CLOSES.

The Victoria croquet tournament closed yesterday, the results being as follows:

10 o'clock—Court 1: Mrs. Martin and Mrs. D'Arcy Martin beat Mrs. Gore and Mr. J. D. Virtue. Court 2: Miss Annie Robertson beat Mrs. Willoughby Brown and Mrs. John Wade.

12 o'clock—Court 1: Mrs. Galletly beat Mrs. Lindsay. Court 2: Mrs. Bowker and Mr. W. F. Burton beat Mrs. Martin and Mrs. D'Arcy Martin.

2 o'clock—Court 1: Mrs. Willoughby Brown beat Mrs. Galletly.

4 o'clock—Court 1: Finals of open singles. Miss Robertson beat Mr. D'Arcy Martin, thus winning the open singles championship of Vancouver Island.

JOHNSON POSTS FORFEIT.

Promoters Are Waiting Anxiously for Jeannette to Come Through.

Chicago, Aug. 21.—Jack Johnson last night placed \$5,000 with Al Tierney as a forfeit for the champion's match with Joe Jeannette. The champion waited anxiously for word of Jeannette's forfeit having been posted, but no news came. Both forfeits were to have been put up yesterday.

The Golden Glow Color of the Special Selected Whisky

of the Corby Distillery is the result of years ageing and mellowing in charred oak barrels at an evenly warm temperature. This "SPECIAL SELECTED" Whisky contains no artificial color or flavor, and is pure—straight whisky, sold in bottles under Government Seal. The sweet, mild, mellow taste is the natural flavor of the ripe old grain from which it is distilled. It goes furthest and mixes best with mineral waters, lemonades, punches and other liquor. You can buy large bottle under Government Seal at every first class hotel or liquor store. "Corby's of Corbyville for Over Half a Century."

LEAGUE STANDING

Table with columns: National League, American League, Northwestern League. Rows list teams and their records (Won, Lost, Pct.).

BASEBALL RESULTS

Table with columns: Games not received yesterday, National League, American League, Northwestern League. Rows list games and scores.

Billy Papke and George Carpenter have been matched to fight 20 rounds in Paris on October 22. Carpenter also fights Klaus, October 5, 20 rounds. Ping Bodie and Jimmy Callahan are at logger-heads as a result of Callahan accusing Bodie of making several bone-headed plays. Callahan and Comiskey have decided to try to trade Ping for a brainier man. Heine Zimmerman, centre fielder for the Spokane Indians, has been traded to San Francisco for "Chick" Hartley, the Seals' centre fielder. Zimmerman will report to Frisco Tuesday. Dixie Kid, the American negro welterweight, has been matched to fight Charley Knock 20 rounds at Sheffield, England. Honey Melody, the Boston welterweight, was saved from a knockout at the hands of Johnny Walsh, when a thunderstorm came on and the arena was flooded with water. Walsh punished Melody badly and had him on the verge of unconsciousness. Bill Barrenkamp, the former Seattle pitcher, is keeping up his winning streak in the Twilight League. Joe Seaton, who was farmed out by Bob Brown to his brother who is managing the Winnipeg club, is now playing second base. Joe is a pitcher, but Brown uses him in the outfield and second base. At second Seaton is playing great ball. The Washington club has sold Pitcher Peity and Infielder Roach to Jack Dunn, manager of the Baltimore International League team. Roger Bresnahan, manager of the St. Louis Cardinals, is buying all the stars from the Cotton States League town, having purchased Perritt, a pitcher, Rollins and Galloway, second basemen, and Murphy, a shortstop. Murphy is a speed merchant, and in a recent field day contest he circled the bases in 14

seconds. He also won the fungo hitting, long distance throwing and other throwing contests.

Billy Papke is in this country talking of fighting Eddie McGearty. It seems that none of the aspirants for the middleweight crown wants to fight Mike Gibbons. Willie Lewis, whom Gibbons knocked out in two rounds, has been warning the others.

What has happened to Bill Lang, the Australian heavyweight? Poor Bill got it from all sides: Al Kaufman beat him in six rounds in San Francisco; Langford knocked him out in England, and Sam McVey beat him in Australia. So Bill retired.

Billy Allen, former light-weight champion of Canada, has issued a challenge to meet the winner of the Freddie Welsh-Phil Knight fight at Winnipeg.

GEYER AND ELDER ARE BILLED FOR TO-MORROW.

San Francisco, Aug. 21.—Jack Geyer, of Denver, and Soldier Elder, of San Francisco, both heavyweights, will fight ten rounds to-night at the West Oakland Club. Geyer recently defeated Frank Moran, of Pittsburg.

PRESIDENT WASHINGTON CLUB DIES SUDDENLY.

Washington, Aug. 21.—Thomas C. Noyes, president of the Washington American League Baseball Club and news manager of the Washington Star, died suddenly to-day of pneumonia at a hospital here. He was taken ill last Friday.

NOTICE TO CORRESPONDENTS.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

A BRITISH PREFERENCE.

To the Editor: Angus Smith, late city engineer, shortly before he resigned, sent a circular to the various city foremen requesting them when hiring men to give the preference to British subjects. It was not a command, only a request, which many foremen ignored for reasons they could explain were they willing to do so. Now that so many of our people are out of work will Mr. Rust, who has a mind and will of his own, issue a command to all city superintendents and foremen under penalty of instant dismissal to hire none but British subjects, and it will have a most salutary and beneficial effect on the city, and will instantly settle the alien labor question on city work. Will the Vancouver Island Development Association also talk in a fatherly manner to the various contractors and employers of labor along the same lines, and if they listen to them it will greatly help to develop and prosper the island. Of course the B. C. Electric is exempt, for they are incorrigible.

A BRITISHER.

STREET SPEAKING.

To the Editor:—In to-night's paper I notice a letter from Mr. E. A. King, in which he expresses surprise at the different treatment by the police of the Socialist and other public street meetings. If he had had the same experience with the police as I had he would think the Socialists were lucky to be allowed to hold street meetings. About a month ago I went to the chief of police to ask for a permit for the I. W. W. to hold street meetings, a right which we had until the time of the Canadian Mineral Rubber Co.'s strike, when we voluntarily stayed off the streets in case anyone might make trouble. The chief said, "I won't give you a permit." When asked his reason he answered, "I ain't here to give reasons; you don't get the permit, that's all."

The I. W. W. hold public meetings every Sunday in the Bijou theatre, Johnson street. Their speakers advocate nothing illegal, and it does not seem to me to be consistent with this so much talked about "British fair play" that they should not have the same privileges as other organizations. J. KNOX. 562 Johnson street, Victoria, Aug. 20, 1912.

THE ALLEN PLAYERS.

Before a large house last night the Allen players gave their second performance of "The Squaw Man" at the Victoria where the play will be repeated every night this week and a special matinee given on Saturday afternoon for children. The Allen players were very successful last night in pleasing the audience with a presentation of the sacrifice of James Wynnegan, the Englishman who goes to America and takes on his shoulders the blame for Henry Kerhill's crime, and the events which surround it. Dressed in the quaint Indian costume Miss Felton appeared to advantage, this role being different from any she has played this season. G. D. Zucco's rendering of James Wynnegan was one of the best of the male characters, and there are others, those of the cowboys and Mr. Eagan's Englishman, which were very amusing. Little Baby Adelaide, who is seen as the Indian child, made quite a big hit.

Los Angeles, Cal., Aug. 21.—A cable dispatch from Cordova, Alaska, gives the news that 30 fishermen employed by the Northwestern Fisheries Company for its cannery at Orca, had refused Saturday to do regular fishing on the banks for salmon unless Supt. G. W. Bowman stopped employing local fishermen. This, the strikers said, interfered with their chance of obtaining a fair catch. Bowman insisted he was not violating his contract with the fishermen, and refused to pay them off. Some of the men had enough money to pay their fares back and left for the Sound on the Alameda Sunday. The Orca cannery will be short-handed unless a crew can be sent north from Seattle.

Extracts From Yesterday's Ad.

Some of the Things We Have Left:

Tea and Coffee Set. Tea pot, coffee pot, sugar and cream, 4 pieces of high grade English silver plate. The style of these is plain, but not severe. Regular price, per set, \$37.50. Sale price, per set, \$28.15

SAILER MAY HAVE HIT BERG.

Owners Fear That Queen Victoria, Which is Reported Missing, Struck Off Cape Horn.

The firm of Messrs. John Black & Co., Glasgow, the owners of the ship Queen Victoria, which has not been heard of since her departure from Tocopilla over six months ago, have received a letter from Captain John Thompson of the Marion, in relation to the feared casualty. Captain Thompson states that he left the Queen Victoria at Tocopilla on October 24. On her homeward voyage to Pal-mouth the Marion passed a large iceberg to the northwest of Cape Horn, in the track of vessels from the west coast, and the Russian ship Margareta, also from Tocopilla, encountered the same iceberg, fortunately, as did the Marion, in daylight. In his letter, Captain Thompson mentions that he never heard of ice having been seen in this quarter before. Since receiving this information, the owners have come to the conclusion that the Queen Victoria, which was heavily loaded with cargo, struck the iceberg during the night and foundered.

FRASER CANNERY IN WATER.

New Westminster, Aug. 21.—A serious accident befell the Scottish-Canadian cannery at Garry Point a few days ago. The structure which is built on the edge of the water, became undermined by the current, with the result that the piling gave way, precipitating part of the building into the river together with a large number of cases of fish. Those which were partly filled were lost altogether while some fifty full cases disappeared also. A grave problem is confronting the owners at the present time, as the rest of the buildings show signs of falling into the stream if precautionary measures are not taken at once. The loss amounts to about \$4,000.

EDITH RAMS HILONIAN.

Tacoma, Aug. 21.—The steam freighter Edith, engaged in the Seattle-Victoria-Tacoma trade, lost her forward mast and sustained considerable damage to her forward railing this morning, when she rammed the Maton liner Hilonian, near the entrance to the city waterway. The Edith was proceeding cabotage out of the waterway in a dense fog at the time. The Hilonian, which escaped damage, was tied up to the Balfour, Guthrie dock. The Edith continued on her trip down the Sound.

PANAMA MARU HERE.

Completing a fine voyage the Panama Maru arrived at Victoria at 1.30 p. m. to-day from Yokohama. For Victoria there were 12 Japanese and 112 Chinese and for Tacoma 45 Japanese and 13 Russians. Two American passengers aboard for Tacoma are R. W. Healey, from Manila, and George Murray from Kobe. The Panama Maru brought 250 tons of freight for Victoria, and had in her holds 1,000 bales of silk for transshipment from Tacoma East, and 14,000 chests of tea.

TIDE TABLE.

Table with columns: Date, Time, High, Low, etc. for Victoria, August, 1912.

DEATHS FOLLOW CELEBRATION

SEVEN MEN DIE AFTER DRINKING WHISKY

Three Others, Who Are In Hospital, Not Expected to Recover

Montreal, Aug. 21.—Seven men have now died, three others are hovering between life and death in the general hospital while others are walking the fields around St. Lambert in a state of temporary insanity as a result of the little celebration which took place among foreigners across the river from Montreal on Sunday night. Two additional deaths to-day brought the list up to seven. Deadly poison in the species of whisky is alleged to be the cause. When the beer ran low in a birthday party held among the laborers, some one suggested sending to Montreal for other liquor. Six bottles were brought across and from these flowed the deadly beverage. Two men have been arrested on the charge of being responsible for the seven deaths. A peculiar feature is that the seven men all became stone blind before they died and when the police brought the two prisoners to the hospital and asked them to identify them, the dying men declared that they could not see a thing. The man who was sent to the city to purchase the liquor is now among the dead. He paid three dollars for the deadly stuff.

TO-DAY'S CRICKET.

At the hospital grounds this morning Victoria won the test and went in to bat. Through the excellent bowling of Beecham and Twynam the home side was dismissed for 132. Burrard at 2.30 this afternoon had lost 5 wickets for 57. J. W. D. York, having bowled four of them, the fifth batsman caught off his bowling. The scores are: Victoria.

Cricket score table for Victoria vs Burrard. Columns: Name, Runs, Wickets.

ENGLAND START BADLY IN SECOND INNINGS

The Australians Collapsed This Morning—Great Bowling by Woolley and Barnes

Garrison v. Portland.

At Work Point grounds Portland batted first, scoring a total of 34. The Garrison commenced batting before lunch and at 2.30 this afternoon had scored 97 for 8 wickets.

THE AUSTRALIANS COLLAPSED THIS MORNING—GREAT BOWLING BY WOOLLEY AND BARNES

The start of the second day's play in the triangular tournament was again delayed owing to rain. Smith (E. J.), who was not out overnight went to the wicket when play was resumed yesterday, with Barnes, but with only 12 runs added in 20 minutes, England's last two wickets fell, Smith contributing 4, Barnes 7, making England's total 245.

With rain in the early hours of Monday only five hours play has been possible. The Australian fielding was magnificent. Hobbs (Surrey), 66; Rhodes (Yorkshire), 42; B. H. Spooner (Lancashire), 1; C. B. Fry, captain, (Hampshire), 5; Woolley (Kent), 62; Hearne, J. W. (Middlesex), 1; J. W. H. T. Douglas (Essex), 18; F. R. Foster (Warwickshire), 19; Smith, J. (Warwickshire), 4; Barnes (Staffordshire), 72; Dean (Lancashire), not out, 0. Extras 13. Total 245.

The Australians on going in to bat opening with S. E. Gregory, captain, and C. Kelleway, started off badly, leaving Gregory who only scored one. McCartney then joined Kelleway, and with ten runs registered, rain again stopped play. Kelleway having 7 to his credit, and McCartney having failed so far to score.

With a very wet wicket and the sky overcast, making the light poor and play difficult, the Australians resumed their innings this morning. The Antipodeans were only able to add 60 runs to their overnight score, before all being dismissed by Barnes, of Staffordshire, and Woolley, of Kent, the former securing five wickets for 20 runs, and the latter five for 22. England on the first innings has a lead of 134. Scores: S. E. Gregory 1, C. Kelleway 43, C. G. McCartney 4, W. Bardaley 20, Smith 6, T. J. Mathews 2, G. R. Hazlett 2, W. Carkeek 5, W. J. Whitty 0, R. B. Minnett 0, C. B. Jennings 0. Extras 18. Total 111.

Kelleway and Bardaley were the only members of the Australian team who could do anything with the bowling of Barnes and Woolley, who were dandy with the ball from the start of play this morning. The Australians overnight score of 51 for two appeared to be fair considering the wicket, but with further rainfall during the night the wicket played most treacherous this morning.

On England going in for the second time, they fared badly at the start, opening with R. H. Spooner and Rhodes. They soon lost Spooner, who failed to score. Hobbs then joined Rhodes, but with only four runs to his credit Rhodes was dismissed. C. B. Fry was the next man in, and by careful batting with Hobbs, the score stood at such an angle that drivers of vehicles coming towards the built-up

Top Quality and Bottom Prices In BOYS' SCHOOL CLOTHES

SCHOOL BELLS AGAIN!

With them comes the question of Clothes for that boy of yours. You have a better opportunity this season than ever before to give him Clothes that will look well on him, Clothes that will make him look well and yet Clothes that will cost you less than what you have paid in the past.

The tables are spread with the greatest array of Boys' Suit values ever shown in Victoria. Be among the first to make a selection. Read the descriptions and the wonderful prices below. They will prove that what we claim is true.

Genuine 'Lion' and 'Sovereign' Brand Suits for Boys

These two brands are recognized as the standard in Boys' Clothing throughout Canada. No better clothes could be made and therefore no better clothes can be bought. The display in this includes some really mifty patterns in the new Fall cuts for boys. They are suits that will stand all the hard usage that boys give clothes at school and yet keep their good appearance. In tweeds of all shades and nice fancy worsteds. \$3.50 \$4.00 Up to \$8.50

BOYS' FINE CAPS FREE!

For the first few days of the School Suits we shall give every boy who secures a suit here one of the best caps in the store absolutely free. This does not mean that we shall tack the price of the cap on the suit. Every suit is reduced in price to rock-bottom. The Caps are from our best stock and are absolute presents to the boys who deal with us.

The display of Boys' Suits and Furnishings here represents two complete and exclusive stocks of Boys' goods in one. It includes the large stock of excellent Boys' Clothing constituting our own stock and the big stock ordered by Alex. Peden prior to his retirement from the Boys' Clothing business. Don't miss this price-saving opportunity.

SCHOOL HOSIERY, LIGHT AND HEAVY WEIGHTS, THE KIND THAT WILL STAND ALL SORT OF SCUFFLING WITHOUT WEARING OUT. PER PAIR, 25c AND 35c

Shirt Waists That Lend a Nice Appearance

These Shirt Waists are made with soft collars and also with white collars. Worn with a "manly" suit they give the boy a well-groomed appearance and yet leave him free and easy. The best-dressed school boys in the country wear these shirt waists. Made by the well known "Tookes," also in the famous "Crescent" brand. Large range of sizes and patterns, to clear 75c Each

School Caps With Special Emblems

Select the Boy's School Cap here and we will put whatever emblem he desires on it, the letters of his school, his class number or whatever is required, without extra cost. This is a special feature in connection with our great display of the newest ideas in Boys' School Caps. Wide variety and many styles. 25c and 35c Each

He Can Wear 'Em But He Can't Tear 'Em. Odd Pants of the very best materials, from the most reliable and largest manufacturers in Canada. A special line for school wear, re-inforced in the spots where the hardest wear comes. No matter how full of spirits a boy may be, he won't wear these trousers out in a hurry, and they cost only \$1 and \$1.25 Per Pair

MACKINNON'S, LIMITED 557 JOHNSON STREET PHONE 563

MIRRORS AT STREET CORNERS. Mirrors at street corners to provide for the drivers of vehicles a view of the cross street have been installed in at least two towns in England, according to a recent issue of the Surveyor and Municipal and County Engineer. In Colchester there is an acute angle street crossing, where one corner is built up close to the curb. On this corner is placed a 24 by 24-inch mirror, supported on gas pipe standards at such an angle that drivers of vehicles coming towards the built-up

corner from either of the two opposite streets can see up the street at right angles to their path. The engineer in charge states that owing to the impossibility of motorists seeing any oncoming traffic several accidents and narrow escapes have occurred at that point. Since the mirror has been fixed he has not heard of anything approaching an accident. The damp, mist, rain or frost have no ill-effects on the mirror, which is occasionally cleaned by a passing lamplighter when cleaning his lamps. At Malmesbury, in Wiltshire, a mirror five by eight feet in

size, supported on standards so that its top is 15 feet above the street, occupies an angular position at the apex of a closed right angle curve. A horse can pull three tons on level steel rails for every ton he can pull on an ordinary road.

The Laplanders are the shortest people in Europe, the men averaging 4 feet 11 inches, the women 4 feet 9 inches. For the use of ships on foreign voyages nearly three million tons of bunker coal were shipped from Scotland last year.

CAUGHT NAPPING

How many people are caught napping every year when a sudden cold snap comes?

They are out of Coal, and find that there are so many rush orders ahead of theirs that they must wait perhaps several days.

The man who fills his coal bin in the summer, is wisely prepared for the cold weather. He doesn't mind when it comes, because it will make no difference to him.

There's nothing gained by delaying, excepting annoyance—so why not order NOW.

A reception will be tendered to the members of the Convocation of the University of British Columbia by the Provincial Government on

Wednesday Evening, August 21st
In the Legislative Assembly Hall, Parliament Buildings, from 8:30 o'clock to 11 o'clock.

His Honor the Lieutenant-Governor and Mrs. Paterson have signified their pleasure to be present.
The public is invited to attend.
Provincial Secretary's Office,
August 19th, 1912.

NOTICE

DECORATIONS FOR VISIT OF H. R. H. THE GOVERNOR-GENERAL

Parties requiring lamps in large quantities for outlining buildings, etc., are respectfully requested to notify us of their requirements as early as possible.

B. C. Electric Ry. Co.

LATE GENERAL

WILLIAM BOOTH

(Continued from page 3.)

no money may perform some unskilled labor by which they may earn the required sum in a short time. "Social Elevators" are the name given to the Army's workshops, where a man in direct need may find employment to tide him over his worst straits, until some permanent situation can be secured for him. The many unskilled laborers who drift yearly from the country and villages into the metropolises, where only too many find it impossible to get a foothold, are looked after, sheltered, and sent to the farm colonies, where hundreds of men are given work at agricultural labor, market gardening, brick-making, etc., and from there others are sent to the colonies, where they often become desirable and industrious settlers.

Discharged prisoners are met by Army officers and asked to place themselves in the Army Prison Gate Home. There work is given according to the skill and intelligence of each man, a wholesome discipline tempered with sincere care, and the personal interest taken by the officers in each man works wonders. Many young criminals are saved from a life of disgrace and imprisonment, and quite a number of hardened cases have been permanently reformed by the Army's method. Again, the many institutions for neglected and destitute children, and for fallen women are found in almost every large city of the world. The Army may conscientiously claim great success in this particular work. Eighty-five per cent. of the girls who pass through the Army Rescue Homes have turned out satisfactory. These girls are not only induced to seek refuge in the home, but are taught some useful work or domestic employment by which they can in future earn honest wages. An attempt is always made to acquaint friends with the facts, or where there has been a breach, to reconcile them.

Then the unique organization of the Army makes very successful in its investigation and enquiry department, finding lost friends, bringing together parents and children, husbands and wives. Many of the stories of a successful search read stranger than romances.

The Army labor bureaus have been of great assistance to thousands who find themselves in strange places without work. In fact, it is difficult to mention all the various institutions which the Army has founded to bring social salvation to the needy everywhere.

What Has Been Done.
It is almost amazing to think of what has been accomplished by the vast organization which General Booth called into being over forty years ago, and which it was his purpose, even though almost an octogenarian, to review in all parts of the world for the last time. The blood red flag of the Army now waves in fifty different countries and 3,000,000 soldiers acknowledge allegiance to it. Statistics prepared when the General visited Canada in 1907 show there are nearly 3,000 corps in the eight sections into which the army is divided, and in directing the operations 15,957 officers are engaged in headquarters and staff duties, while there are 60,000 local officers in the field. There are 17,000 bandmen in the service, and the songs of the Salvationists are sung in 32 different languages. The Army publishes 61 papers and magazines in 24 different languages, and the War Cry is issued from 27 different stations. They have 27 newspapers with an average issue of 1,000,000 copies per week. The social institutions of the Army number 621, in which 32,000 persons are accommodated. The rescue department has effected the saving of 50,000 girls, 80 per cent. of whom have been turned out again with the full assurance of the officers that they are morally good and true. Besides this wonderful achievement towards the reclaiming of the fallen and unfortunate, thousands of criminals have been reformed, and started on careers of honesty, through the Prison Gate work. In one year alone 5,000 drunkards in Great Britain were induced to lead lives of sobriety. However, the field which promises to be the most fruitful of success in the work of the Army is that of emigration of the poor of congested districts in the older countries to the vacant lands of America and Australia.

He has been described in the Toronto News as "a tall, spare figure—alert and active—is crowned by the patriarchal head, the long, flowing snow white hair and beard. Under the wrinkled forehead keen, kindly blue eyes sparkle and entwine and plead—eyes that speak the soul within, eyes that tell the story of the man's magnetism. The voice, upon which the years have left their effect, at first low and thin, rounds to greater fullness and vigor as he proceeds and loses himself in his message. The whole physique is permeated with activity. He walks to and fro, his gestures grow in number and character. Out yonder in front, on that surging sea of faces, every word, every movement, every gesture, is reflected and interpreted. The intense interest, the rapt attention, the spontaneous enthusiasm of the whole multitude reveal

the power of a born leader, a real commander."

Wonderful Inspiration.
General Booth did not plan the conquest of the world. Each of his successive advances was forced upon him. He could not help himself. Why did the Salvation Army go to Australia? Because a quondam drunken milkman who had been saved at St. George's emigrated to Adelaide, and sent over an urgent summons for help to start the holy war in Australia. In like manner it was a convert from Coventry, who having settled in Philadelphia, brought over the Salvation Army to the United States. But when a door is opened General Booth did not dare refuse to go through it to proclaim the glad tidings of a gospel of happiness and love.

He has hitherto had the advantage of having had no reputation to lose. While others can do nothing without considering and hearing and discussing and wondering what this, that or the other person would do or say or think, he has gone ahead and done the work that was given him to do. And who is there even among the most skeptical of his opponents can deny that it has been a great work? Apart altogether from its direct effects, Gen. Booth's life work has been a trumpet call to the churches of Christendom. The forward movement among the Wesleyans and the church army in the establishment are but two illustrations of the effect which he has produced outside the immediate range of his own operations. Nor is it only the churches that have felt the quickening and refining influence of his loving heart and courageous faith. The whole trend of social legislation for many a year to come will bear unmistakable signs of the influence of his great passion for the welfare of men; and when the law of civilized countries enfranchises woman, it will be but attesting the change in the popular estimate of the capacities of women which has been most largely brought about by the work of the Salvation Army.

University of Humanity.
General Booth longed to establish a great university of humanity. When by America last he said at Chicago: "I want to train men and women to deal with misfortune. I want them instructed and trained to combat with the drunkard, the criminal, the pauper, and the would-be suicide." And he speaks at least with the fervor of conviction when he adds his belief that more can be done for the uplifting of humanity in that way than in any other.

"As a practical man who does things General Booth has earned the confidence and admiration of those who have known him or followed his work, and there is no reason to doubt that eventually he will be put in possession of the funds sufficient to enable him to carry to successful conclusion his cherished project. It is a plain business proposition that all enterprises—notably those which are concerned with the exercise of charity work, should be put in charge of experienced and intelligent persons with the training necessary to equip them for the duties. The labor of reform or regeneration is not merely a sentiment to be played with—it is a business to be worked systematically and purposefully. The organization of the Salvation Army has demonstrated its ability to work out great results from little things; it can be safely trusted to reach out and continue its career of usefulness along broader lines."

TO KEEP SKIN IN FINE CONDITION IN SUMMER.

(From the Family Physician.)
It would be much better for the skin if little cream, powder or rouge were used during the heated term. Mixed with perspiration, dust and grime, these things are anything but beautifying. Ordinary mercolized wax will do more for the complexion, and without giving an oily, shiny, streaked, spotted or pasty appearance. It is the ideal application for the season, as it not only keeps the pores clean, but daily removes particles of scarf skin which have been soiled by dirt or weather. By constantly keeping the complexion clear, white and satiny, it does more toward perpetuating a youthful countenance than any of the arts or artifices commonly employed. One ounce of mercolized wax, obtainable at any drug store, will completely renovate the worst complexion. It is applied at night like cold cream and washed off in the morning.
"To keep the skin from sagging or wrinkling, or to overcome such condition, there's nothing better than a face bath made by dissolving 1 ounce powdered saxolite in 1/2 pint witch hazel."

BORDEN IN ENGLAND.

(Arcadian Recorder.)
We have carefully perused the reports coming here of Premier Borden's speeches in England, and we find that they may be boiled down to a crescendo series of declarations regarding Canadian loyalty and our determination to share in the naval defence of the Empire. Here is the gist of his speeches on loyalty:
"Canada is loyal to the Empire."
"I assert that Canada is loyal to the Empire."
"I bear witness that Canada is loyal."
"Canada's loyalty is strengthening every day."
"The loyalty of Canada is unshrinkable and imperishable."
"Dare any man doubt Canadian loyalty?"
"We are bone of your bone, flesh of your flesh, and blood of your blood."
"If any man impugn our everlasting and ineradicable loyalty, let him be anathema!"
"Language fails me to adequately express the unsoundable depth, the immeasurable height and the incandescent intensity of Canadian loyalty."
As a result of these eloquent and repeated assurances, Mrs. E. Maatin, of No. 2 Chestnut Walk, Stratford-on-Avon, has announced her determination to present to the Canadian government a small museum of relics of loyalty, among which are a few odd pieces of genuine, old and venerable

SHOAL BAY

WATERFRONT LOTS AT SNAP PRICES AND ONLY QUARTER CASH

WATERFRONT PROPERTY CLOSE TO TOWN, IS THE BEST BUY IN VICTORIA TO DAY. HERE IS AN OPPORTUNITY TO INVEST AT LOW PRICES AND UNUSUALLY EASY TERMS

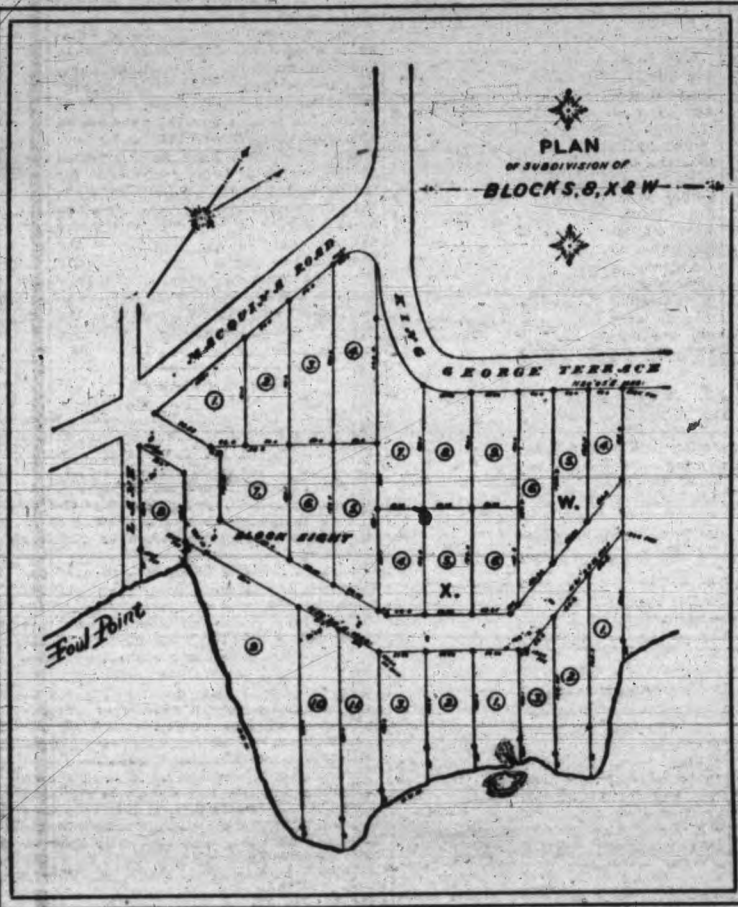

Do Not Fail to Look Into This

Twenty-two of the finest homesite lots in Victoria, overlooking the Straits and beyond to the mountains, with Trial Island in the foreground. Situation could not be improved.

Areas average 53 x 107 to 150x255. Natural character of land ensures high class district; and situation of property makes it impossible for inferior class of houses to overlook these lots.

Waterfront property is rapidly passing off the market in Victoria except at almost prohibitive prices. Demand will be very keen this fall.

Buy this property now—one or more lots—and either assure yourself a delightful homesite at reasonable price or a neat profit this winter.

Note that while in most instances property of this character calls for at least one-third cash, we ask only one-quarter cash and extend the balance over two years.

This enhances the speculative value a great deal. In six months or less this property will be worth much more than we are asking now.

When we mentioned this property to a prominent local real estate man a few days ago he immediately had three lots reserved for himself.

The best sites are left yet, but after this advertisement appears they will not last long. To-day is the time to buy.

IF YOU PUT OFF ACTION YOU WILL BE TOO LATE Buy Now—You Can't Go Wrong

\$2,000 to \$3,600 a Lot

One-quarter cash, balance 6, 12, 18 and 24 months.

643 FORT STREET

crockerware; these articles being a direct reward for "defeating that horrid Reciprocity. So there now!"

The Premier's speeches on the navy may be similarly boiled down. (We mean those delivered in England, for we would not be cruel enough to quote those delivered in Canada in 1909):
"The naval defence of the Empire must be attended to."
"There is a menace confronting Britain across the German ocean." (It was a "crisis" three years ago.)
"The Empire must be defended by the Empire as a whole."
"Britons overseas must share in the Empire's defence."
"Canada is determined and ready to do her duty in this regard."
"Canada's help will be no mean offer."
"One flag, one fleet, one King, our motto."
"Canada will strengthen Britain's right arm."
"Our navy must be powerful enough to vindicate the flag and maintain the integrity of the Empire."
"Canada shall take a part in the defence of the Empire consistent with her dignity, her population, her wealth and resources."
"Canada's aid shall be effective and generous."
"When the thunders of the dreadful day of Armageddon shall rend the skies and shake the pillars of the uni-

verse, Canada shall act a glorious part in the tremendous tragedy."
"But Canada is determined to share in your danger, conditional to sharing in your foreign policies."
"Canada does not propose to become an adjunct even to the British Empire."
"Myself and my colleagues will now go home and discuss at length with the other members of my administration just what we will do, and how we will do it."
"Let the Empire rely on me in the day of danger."
"Such is the substance, condensed, of the Premier's speeches in England, each one being the accompaniment of a full fed hour at the well-laden tables of the great, with divers vintage sparkling."
The question now remains, what will he do—and when will he let the country know about it.

FAVORS DIVORCE LAWS.

Louisville, Ky., Aug. 21.—Divorce laws are favored in a resolution introduced at yesterday's session of the convention of American Federation of Catholic Societies. The provision reads:
"We believe each state should have a separate divorce law which, while granting the aggrieved party the right to live apart from the other, does not allow re-marriage of either, yet disposes of property rights."

ALLADIN AND HIS LAMP

MOVES HEADQUARTERS TO FORT GEORGE

Natural Resources Security Company Moves Head Office to Growing Inland City

LOGICAL DEVELOPMENT OF PROVINCE GROWTH

Fort George Now a Commercial Centre of Activity

Few announcements of British Columbia investment corporations have been more really significant than that contained in the advertising columns of the Times to-day, which states that the Natural Resources Security Company, Limited, purpose, at the end of the present month, transferring their head office from Vancouver to Fort George.

This transfer is an indication of the rapid development proceeding in the newer portions of the province. Two or three years ago Fort George was merely a name to most British Columbians, and absolutely unknown to people outside of the province, with the exception of the curious readers of Indian department reports or the admirers of Ballantyne's stories of adventures. To-day it possesses almost all the municipal and business facilities of a modern city. It has its own water system, the streets are graded and well walks laid, it has telephones and telegraph service, it boasts a municipal hospital, and churches, schools, banks and stores adequate to meet the various needs of its residents. This is certainly no mean record of accomplishment in the short space of two years.

All the signs, too, point to a continuance—indeed a rapid increase—both of its population and its importance as a trading centre. Fort George absolutely commands, commercially speaking, a territory as large as the combined areas of Indiana, Michigan, Iowa and Illinois. Its supremacy as a distributing point throughout this territory is absolutely assured, by reason of the fact that all transportation within this large district, whether by water or by rail, will focus at Fort George. As a result, it will be without doubt, one of the most important distributing points of the whole province. In view of its varied advantages, and the inevitable development of the large and naturally rich district of which it is the centre, its residents profoundly believe, and confidently predict that in a few years it will be the second city on the mainland, in population and importance.

It is in order that advantage might be taken of these conditions as they develop, that the Natural Resources Security Company, Limited, which more than any other concern has been identified with Fort George and the surrounding district, has decided to remove its head office to that point. Seen by a Times representative Mr. Geo. J. Hammond, president of the company, gave some interesting information as to the present and prospective business and investment advantages in Fort George and vicinity.

"Next year Fort George will be the greatest centre of railroad building activity on the whole continent of America," said Mr. Hammond. "It will be the headquarters for the completing link of construction on the Grand Trunk Pacific, which will then join up the eastern and western sections of Canada's new transcontinental road. Already construction gangs are at work east and west of the town. At the Chilaco river, the Willow river, at the Grand Canyon and the Goat river, on the Fraser, large supply depots have been established, and construction is proceeding in every direction. At Fort George itself, the right-of-way is being cut, and grading operations are to be started immediately.

"Another important railroad, the Pacific and Great Eastern, will, early next spring, start construction south from Fort George, which is its northern terminus. As you know, work from the southern or Vancouver end is to be begun at once, and next year this important transportation system will be attacked from both its northern and southern terminals.

"Almost equal in importance to the two preceding routes is the building of the Edmonton, Dunvegan and British Columbia railway, which runs from Edmonton, through the Peace river country, into the Fort George district, and at that point will connect with both the Grand Trunk Pacific and the Pacific and Great Eastern. Work north-west from Edmonton has been proceeding for some months, and my information is that next spring work is to be commenced from Fort George, working northeast toward the Pine River Pass. This road will tap the rich Peace river country, and will be the first of the three roads proposed to

 Real Estate, Loans, Insurance

be built into that section, which contains an area of over forty million acres of excellent agricultural lands. Of this rich region Fort George is the natural gateway, and the development of the Peace river district will mean more than anybody can realize for the upbuilding of Fort George.

"In consequence of this tremendous programme of railroad construction centering at Fort George, settlement has during the present season been pouring in in great numbers. On the historic Cariboo road, running from Ashcroft to the southern limit of navigation at Soda Creek, there are over twenty passenger automobiles in constant commission, and they are taxed to the limit of their capacity to bring up to Fort George permanent residents coming to the city to live, and prospectors who desire to investigate the conditions and investment opportunities of the country for themselves.

"On the Fraser new river steamers have been placed in commission during the present season, and with their utmost efforts they are unable to cope with the volume of freight coming into the Fort George district. On the Cariboo road motor trucks and traction engines are supplementing the work of the old eight-horse teams in handling this volume of freight.

"This season has witnessed the beginnings of a new stream of settlement into the Fort George country, coming, not from the south, but from the East, by way of the Grand Trunk Pacific to the end of its steel, and thence from Tete Jaune Cache down the Fraser river to Fort George. This stream of immigration will increase steadily as the Grand Trunk Pacific volume approaches completion. Hundreds of pre-emptors have taken up land in the Fort George country, and the government agent at that point is one of the busiest officials in the provincial service. In short, all the signs point to the early realization of the belief of those who, like myself, have carefully studied the conditions of Central British Columbia. Almost every day the city and district furnish additional facts to confirm my deep seated conviction, reached some years ago, that Fort George is within a few years destined to become one of the most important commercial, distributing, financial and transportation centres in the whole province of British Columbia."

ASQUITH'S TRIBUTE TO JAPAN.

Prime Minister of Britain Moves Resolution of Condolence.

In the House of Commons Herbert Asquith, prime minister, moved the following resolution on August 2: "That a humble address be presented to His Majesty to convey to His Majesty the expression of the deep regret with which this House has learned the news of the death of His Majesty's ally and friend, the Emperor of Japan, and to pray His Majesty that he will be graciously pleased to express to His Majesty the present Emperor the profound sympathy of this House with the Imperial Family, and with the government and people of Japan." The right hon. gentleman said:

"The death of the Emperor of Japan marks the close of the most memorable reign in modern history. The representative of the most ancient dynasty in the world, whose annals go back two thousand years, he experienced during the years which had passed since he succeeded his father a series of changes for which it would be difficult to find a parallel, both in the status of sovereign and the development of a people. The Emperor was to his subjects when he ascended the throne the sacred embodiment of a secular tradition which dominated, or it continues to do to-day, the imagination and commanded the reverence of Japan, but which had for centuries ceased to have any effective relation to the actual government of the country. He witnessed in less than fifty years his own transformation from a semi-divine and carefully sequestered figure in the background of the national life into a constitutional monarch who, without losing any of the attributes of his ancestral position, became the main-spring, the central force, the pioneer and the leader of a transformation at least as vital and as complete in every department of activity, political, social, industrial, intellectual, and moral, of his inherited dominions. Under his rule—how far from his own direct and personal initiative and how far from his sagacious and intuitive selection of wise and prudent councillors history may some day pronounce—Japan has emerged from a seclusion which seemed inaccessible and beyond the reach of chance or change, into the forefront of the family of nations, and has become a great naval and military power, with a splendid record of stubborn and disciplined heroism (cheers), and is today in all its other aspects and relations in close and vital touch with the current and movement of our modern life. I cannot recall the name of a ruler in history within the limits of whose single reign progress so vast and of so much meaning, both to his own subjects and to mankind, has been attained.

But while we join in the general tribute of the whole civilized world to this supreme, and perhaps unexampled, achievement, we may be permitted to add a special acknowledgement of our

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

You are threatened with some trouble, and it is well to look carefully on all sides. Avoid quarrels and be careful how you travel or start new enterprises. Those born to-day will be careless and unsettled and will not stick long at anything. They will have imitative ability, but are inclined to lack individuality. If this is acquired they can go ahead with success.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

It is a genius that feeds the world. Pastor Wagner makes this comparison; that, just as we all live upon the earth, but it is necessary that plants

and animals transform the minerals of the soil so that they assume forms suitable for our nourishment, so men of genius take the great facts of Nature and reduce them to such substance as shall supply our souls.

Shakespeare says: "The poet gives to airy nothing a local habitation and a name." Mr. Bailey stated in the national legislature that without the farmers we should all perish from the face of the earth. Doubtless; but the genius is no less necessary. Without him civilization would soon sink into "a war of knives and crow's."

It is not labor nor the laboring man that is essential to society; it is brains. Remove every hand-worker from the earth, and humanity could still live, for the non-workers could soon learn to work. But remove all superior minds, the inventive, resourceful, forecasting, organizing minds, from the world, and we should slip back into barbarism at once.

False aristocracies, of inheritance and privilege, we might well dispense with; but the real aristocracy of superior men and women is an eternal necessity.

"The sentiments which decry the incontestable values of men," says Wagner, "are symptoms of moral rickets. We live by our capacity to recognize and honor what is great, and we die by suspicion, skepticism and the spirit of disparagement."

ELEVATOR RATES.

Application for Reduction Will be Made to Grain Commission.

Fort William, Ont., Aug. 21.—An application has been made to the board of grain commissioners at Fort William by the Dominion Millers' association of Toronto to have the rates for elevation and storage of grain at terminal elevators reduced.

The board of grain commissioners have fixed September 10 as the date upon which they will deal with this application. The sitting will be held in the offices of the grain commission at Fort William beginning at ten o'clock. All parties interested will be heard directly or through their counsel.

KILLED BY TRAIN.

Quebec, Aug. 21.—Within the space of three years three brothers from Levis have met with tragic fates. The latest victim was Pierre Fortin, who perished yesterday on the railway line near the Begin Hill while on his way to work at the Davies Yards. Fortin was about 70 years of age and as he was walking along the track he was struck by a special train. The deceased was deaf and did not hear the approaching train. He had stopped to light his pipe when the train struck him and when picked up his skull was fractured and both legs broken.

Three years ago Damase, brother of the deceased, met death by falling head first into the drydock. Another brother met a similar fate a year later.

Notice to Contractors

Tenders will be received at the office of the Board of School Trustees, on or before Tuesday, August 27th, at 4 o'clock p.m., for the erection and completion of a six room Public School Building to be erected on the corner of Oliver avenue and Cecelia Road.

Each tender is to be accompanied by a marked cheque payable to the Board of School Trustees for an amount equal to 5 per cent of the total amount of the tender.

The cheque will be returned to the Contractor and also to the unsuccessful tenderers when a contract has been entered into and a satisfactory bond provided.

In the event of the successful tenderer refusing to enter into a contract when called upon so to do the deposit cheque will be forfeited to the Board of School Trustees.

Drawing and specifications may be seen at the office of the undersigned. The lowest or any tender will not necessarily be accepted.

A separate tender will be required for the heating and ventilating plant.
C. ELWOOD WATKINS, Architect.

"LAND REGISTRY ACT"

In the Matter of an Application for a Fresh Certificate of Indefeasible Title to Lot 1239, Victoria City.

Notice is hereby given of my intention, at the expiration of one calendar month from the first publication hereof, to issue a fresh Certificate of Indefeasible Title in lieu of the Certificate of Indefeasible Title issued to Peter Corr on the 7th day of May, 1904, and numbered 138A, which has been lost.

Dated at Land Registry Office, Victoria, B. C., this 19th day of July, 1912.
S. Y. WOOTTON,
Registrar General of Titles.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Goods of Samuel Douglas, Deceased.

TAKE NOTICE that Probate of the Will of Samuel Douglas, late of the City of Victoria, B. C., has been issued to James H. McConnell and William Banks Monteith, the executors of the said Will. FURTHER TAKE NOTICE that all persons having any claims against the estate of the said Samuel Douglas are required to send full particulars of the same, duly verified by declaration, to the undersigned on or before the 30th day of August, 1912, and all persons owing any money to the said deceased are requested to pay the same forthwith to the said executors. After the said 30th day of August, 1912, the executors will proceed to distribute the estate of the deceased according to the terms of the said Will, having regard only to the claims of which they shall have then received notice.

Dated this 20th day of July, 1912.

"COMPETITION"

"Open to the People of Vancouver Island"

The Executive Committee of the
VICTORIA PROGRESSIVE CLUB
invites the people of Vancouver Island to compete in the creation of a

"SLOGAN"

suitable for the City of Victoria. Slogans used by other cities
WILL NOT DO

"The Germ of originality breeds success!"

The person sending in the slogan which the club decides to adopt will be presented with a

LADY'S OR GENTLEMAN'S SOLID GOLD WATCH

The following conditions must be observed:—
1. Not more than five words to be used, other things being equal preference to be given to the shorter slogan.

2. No one candidate to send more than two slogans.
3. The slogan must bear the name and full address of the sender "legibly written."

4. The competition will close on August 31st, but letters bearing that post mark will be opened.

5. Letters will be opened in the order in which they arrive, and if two persons submit the winning slogan the prize will be given to the person whose letter was first opened.

6. The envelopes must be addressed to the secretary and be endorsed.

"Slogan Guessing Competition."

7. The competition is open to all residents on Vancouver Island.
8. The Executive Committee will be the final judge.

"LITERARY COMPETITION"

The Executive Committee will also give a prize of a beautiful Solid Silver Toilet Set to the lady or gentleman who sends to the secretary before August 31st the best essay on the future of Victoria. The rules for the slogan guessing competition hold good for this one, except rules 1, 2 and 6.

The essay is to consist of not more than three hundred words.
ONE ESSAY ONLY to be sent by each competitor. Endorse your essay wrapper

"LITERARY COMPETITION."

For further particulars apply to the Secretary,
Suite 12, McGregor Block, View Street, City.

You Can Trust Studebaker

The Studebaker-Flanders "20" is built of the best materials money can buy, and at every vital point duplicates the design of the highest priced cars. It is low in price because we build so many, but in every essential it is as good an automobile as can be built.

The name "Studebaker" tells the reason for such high value. For 60 years Studebakers have sold to farmer and townsman the best vehicles in the world, and the same honest Studebaker skill and workmanship go into every Studebaker automobile. Others may be slightly cheaper—but you can always trust your Studebaker car.

Canadian Car for Canadians

Tenders for Two Buildings

Tenders will be received by the undersigned up to 3 p.m. Monday, August 26th, for the erection of two wooden buildings with concrete approaches and other work, one on Woodland avenue, east of Moss street, and one on Queen's avenue, between Chambers street and Spring Road, as per plans and specifications which can be seen at this office. The lowest or any tender not necessarily accepted.
WM. W. NORTHCOTT,
Supt. Public Bldgs.
City Hall, August 17, 1912.

PLANS FOR THE GARBAGE STATIONS

THE TENDERS WILL BE CALLED AT EARLY DATE

For Fairfield and Spring Ridge Depots—Turner Street Wharf

Slow has been the progress on the inauguration of the garbage sub-station, which is the principal piece de resistance of the health department for 1912, but after prolonged and troublesome negotiations involving the best class of motor wagons, sites for stations, and wharves, the department sees an outlet from the depth of uncertainty at last.

The secondary station at Turner street has been held back because it was not decided whether a wharf with crescentic piers should be constructed or a reinforced concrete wall erected and filled in from behind. It has been determined to take the former course, as more economical and provision will be made for the incinerator to be put in next year when the wharf, upon which draughtsmen are at work now, is constructed. This incinerator is planned not only to serve the north-western section and Victoria West, consuming rubbish direct, but to serve as a subsidiary station to the main one at Herald street, in case of accident at that wharf.

The plans for the two stations at Spring Ridge and Fairfield (Woodlands road) are ready, and tenders will be invited at an early date. It has been impossible, so far, to reach an agreement on the site for the James Bay station, as the committee stands out for the portion near the causeway, in order to serve West Fairfield, and so relieve the sub-station to be built at Woodlands road.

Meanwhile an attempt will be made to reach an arrangement on this moot point, and the committee will go ahead with the other two sub-stations. The carts will collect garbage direct there, and the hoppers will be emptied by the motor wagon running to and from Herald street.

A tribute to Victoria's proposal is to be found in the decision of Vancouver to adopt the same scheme after the experience of the capital city.

MANY PEOPLE INQUIRE.

English Mail to Development League Brings Numerous and Varied Requests

Among the many letters received by the Vancouver Island Development League in the English mail to-day is one from a young man at Hull, who wants to come to Victoria and obtain a position as advertising manager for some large concern at good money and desires to know if his fiance could obtain a position as school teacher immediately on arrival. From Frank, Alta, Harry C. Moore, a solicitor, writes asking for information on the wood distillation industry, the proximity of fat pitchy wood, and inquires in regard to boiler works where large plates electrically welded could be made. He inquires as to harbor facilities also. Charles Ind writes from New Zealand that he wants to take up land and other requests for information about pre-empting land are to hand. George Orrock, of New Barking, Essex, wants 6 per cent to 7 per cent on first mortgage money and writes for particulars. A. R. Richards, of Bristol, announces his determination to come to Canada and requires to know what advantages there are for a business man in Victoria. R. A. Coombs, a tailor, of Essex, inquires regarding his trade here, and J. Darcy, of Acton, Wat. London, asks for boarding house opportunities. There are many other letters seeking information and asking for illustrated booklets on poultry farming, dairying and fruit growing from Eastern Canada and the United States.

AN UNPRECEDENTED RATE.

At a meeting of the Carrickmacross Urban council the clerk presented the estimates of the rates for the coming year. It provided for a rate of 14s. in the £, which, the clerk said, was a rate unprecedented in that or any other town in Ireland. A letter was also read from the local government board cautioning the councillors that they might render themselves personally liable for any loss sustained owing to their failure to discharge the duties which they had undertaken to perform. It appeared that at a previous meeting, which had been called to consider the estimate of rates, only two of the nine members of the council attended. The council, after some discussion, approved of the rate of 14s. in the £. Some of the ratepayers now suggest that the local government board should hold an inquiry as to the causes that have led to the making of such a rate.

CHANGES IN VOGUE WHEN SCHOOLS OPEN

Additions Available in Three Centres—Many Applications for Permits

When the schools resume on Monday after the long vacation there will be three additions to the accommodation available last term in the public schools of Victoria.

These additions will be the Fernwood school, two rooms, being the adaptation of a hall at Spring Ridge for primary purposes, the annexes at Rock Bay and the Boys' Central school. These schools will provide for about 170 additional pupils, the present schools having an accommodation for about four thousand. The Burnside and Oaklands schools will also be constructed this term, although apparently the board is to adopt different designs, instead of a common plan for both. Each will have six rooms.

The only important change in the staff will be the new principal at the Boys' Central school, Jeffrey A. Cunningham. The board now employs about 125 teachers, apart from the manual training, domestic science, and special instructors. About seven new teachers are engaged in addition to the staff carried last term. There are a large number of applications for permits, and parents who wish their children to attend on Monday are advised to make early application to the school board office. Over two hundred permits have already been taken out for the coming term. Owing to the pressure on the accommodation this summer it was found necessary to stop the issue of permits for entrance classes, as the act permits. Hence many beginners will make their first acquaintance with the dreaded institutions of learning next Monday.

GIRL MURDERED

WHILE ASLEEP

Father Finds Body of Daughter—No Clue to the Murderer

Eugene, Ore., Aug. 21.—Mildred Green, the 12-year-old daughter of Rev. H. A. Green, minister of the Baptist Church here, was found dead in bed yesterday morning with her throat cut from ear to ear. The child occupied a room directly above that of her father who heard no disturbance during the night. At 8 o'clock yesterday morning Mrs. Green called to her to get up and failed to receive an answer. On going to her room the father discovered the murder.

After working all the morning on the case, the police and sheriff admitted that they had found no motive for the murder and absolutely no clue to the murderer. An examination of the premises disclosed no bloodstains, and there were no footprints in the yard that shed any light on the case. The house apparently was entered through the back door, the murderer ascending to the second floor by the kitchen stairway. Nothing in the house appeared to have been molested and this leads the authorities to believe that robbery was not the motive, although they stated that the slayer may have entered the child's room for purposes of robbery and having aroused her, killed her to prevent an outcry, after which he became frightened and fled. There were no indications of a struggle.

FIGHTS FOR YEARS

TO ESCAPE GALLOWS

Convict Carries His Case Into Many Courts, But Must Pay the Death Penalty

San Francisco, Cal., Aug. 21.—After staying his execution for more than six years by availing himself of every legal technicality and every court, James W. Finlay, a convict at Folsom prison, must pay the death penalty by hanging unless the governor intervenes and commutes the sentence.

Finlay, with six other life-term convicts, made a break for liberty in December, 1905. They seized Prison Captain R. G. Murphy, and held him in front of them as a shield, succeeding in going some distance from the prison as the guards feared to shoot because of danger of killing Murphy. Finlay and another convict had hold of the captain, and when they thought he was not moving fast enough they prodded him in the shoulder with knives. Even after a bullet had struck Murphy they continued to force him along in front. Murphy succeeded in grappling Finlay and holding the hand in which the convict gripped the knife.

All the convicts were recaptured. Finlay was convicted of assault and sentenced to be hanged.

The Northeast Sewer—As was to be anticipated the tie-up of the sewerage work through the absence of funds has caused a warm protest from Oaklands, where the long promised northeast sewer shares the general delay, and at a meeting of the ratepayers yesterday evening it was decided to make one more appeal to the council before securing an injunction to restrain the city from draining water and sewerage into the natural creek.

REMOVAL NOTICE

The Head Office of the Natural Resources Security Company, Ltd., will on September 1st, 1912, be moved from Vancouver to Fort George. The Vancouver office of the Company will on and after the same date be located in 620-621-622-623-624 Vancouver (Burns) Block, Granville Street.

The removal of the Head Office of the Company to Fort George is rendered advisable and necessary because of the rapid development taking place in Central British Columbia through the approaching completion of the Grand Trunk Pacific, and the immediate beginning of construction of the Pacific and Great Eastern.

Work on the transcontinental is in actual progress right at Fort George, and we are advised that construction of the Pacific and Great Eastern will proceed south from Fort George terminal early next spring.

Our information is that work on the Edmonton, Dunvegan and British Columbia Railway north from Fort George and into the Peace River country is to commence at the same time, and construction on the B. C. and Alaska and some of the eight other roads chartered into Fort George will probably commence during the summer of 1913.

Fort George will then have begun to realize the prophecy which the Natural Resources Security Company has for three years made concerning it—that it will be the RAILWAY HUB OF CENTRAL BRITISH COLUMBIA.

As this Company deals almost exclusively with Central British Columbia investment opportunities, and will continue to specialize therein, its management believes that the company's continued financial success, and the interests of its clients, will be best served by transferring its Head Office to Fort George, the TRANSPORTATION CENTRE AND COMMERCIAL DISTRIBUTING POINT of one of the largest and one of the most naturally rich districts in the Dominion.

In addition to the very large commercial territory in British Columbia, Fort George is the GATEWAY TO THE RICH PEACE RIVER COUNTRY—a district as large as the combined states of New York and Pennsylvania, and of which two-thirds is excellent agricultural land. At the present time such business needs as present development in the Peace demands are supplied from Edmonton. This, however, will cease to be the case when the railways connect Fort George with this rich new territory. Then its imports and its products will go in and out by way of Fort George, Prince Rupert and Vancouver, and such of it as is needed in Europe will go thither via the Panama Canal.

When this transportation is given Fort George's commercial territory will be as large as the four states of Ohio, Indiana, Illinois and Michigan, and will embrace an area of 185,000 square miles.

In this great territory there will be, for some years yet, some of the finest investment opportunities that men of either large or small capital can desire. Knowledge of these investment opportunities is one side of the Natural Resources Security Company Ltd's business equipment, and its specialized organization is another. Both are equally at the command of old and new clients, and the removal of the Head Office of the Company to Fort George will, by putting us in closest touch with developments before or as they occur, enable us to serve them with even greater satisfaction than in the past. If you are interested in business or investment opportunities in Fort George or Central British Columbia, see or write the

CHAMPIONS RAINY HOLIDAY.

Six Reasons Why Downpour is Favorable to Happiness and Health.

England has "discovered" a champion of the rain. Most men get a grouse on, when the rains forces them to carry an umbrella. But the same men grumble at the slush and snow of winter or the torridness of a July day. The man who kicks at the weather man you have always with you.

In face of it all a man who says a rainy day, in the midst of your only two weeks in the year holiday is a fine thing is brave, courageous indeed. Such a "hero" is Dr. Mills, of the British Rainfall Association of Camden Square, London.

Dr. Mill, in an interview with an Express representative, demonstrates for the first time that what has hitherto been considered the greatest draw-

back to holidays in the United Kingdom actually constitutes one of the strongest advantages of holidays so spent.

"This is rain," and according to Dr. Mill, there is no more egregious fallacy than that which supposes that a state of complete rainlessness from the first day to the last, is one of the essentials of the perfect holiday.

"A greater mistake was never made," said Dr. Mill. "On the contrary, I would go so far as to say that in any except the shortest holidays rain is imperative if the holiday is to yield its fullest and best results."

The six reasons given by the champion of rain for his startling statement may be summarized as follows:

Rain is the sworn foe of dust, which is responsible for so much inconvenience and discomfort, as well as for so many throat, eye, and other ailments during the holidays.

The exquisite—tranquility and air, and streets alike,

purity of the air, and the wonderful atmospheric effects and views which so delight holiday visitors in the Lake District, the west of Ireland, and elsewhere, are largely due to rain and its effects.

Rain brings out the colors and perfumes of the flowers, and adds a richer emerald to the grass and foliage in all holiday resorts.

Rain breaks the monotony of uniformly dry or cloudless weather, which otherwise, to many temperaments, would become almost intolerably long before the holidays were over.

From the physiological aspect alone, a long spell of unbroken weather with strong sunshine is the reverse of healthy, so far at least, as the vast majority of English men, women and children are concerned. Rain cleanses and purifies earth, and

RENEWED STRENGTH IN COPPER ISSUES

Cheerful Feeling Relative to the Industry — Steel Also Stronger

(By Courtesy F. W. Stevenson & Co.)
New York, Aug. 21.—The market today was pretty much of a specialty affair with coppers commanding greatest attention: The buying of same appeared to be mainly by those interests which were conspicuous on the previous advances. There was reported quite large sales abroad of red metal, which was given as the basis of the cheerful feeling relative to the copper industry. Steel also responded to the strength in the copper issues, and on the whole the stock market here a rather good appearance, though the activity in the higher priced stocks was not pronounced.

Many are disposed to await the adjournment of congress before becoming aggressive on the buying side, and judging by Washington advices it looks very much as though legislative matters will be dismissed as immediate market factors within the course of the next week or ten days.

RALLY IN WHEAT NEAR THE CLOSE

Shorts Attempt to Cover Which Causes Strength in Final Hour

(Courtesy F. W. Stevenson & Co.)
Chicago, Aug. 21.—There was some net gain recorded in wheat prices today, about 1/4 better than yesterday's close for the active months. When there was no display of strength in the Northwest the trade switched to the selling side and forced prices down. The buying was better than the selling around bottom figures. Shorts discovered this and attempted covering in the last hour, giving the market a fairly strong rally. Before the close shipping houses confirmed fair business. St. Louis quoted cash steady, Omaha the same. There is disappointment over the slow movement from the new spring wheat crop. The trade is impressed with the fact that there has been no accumulation of wheat in Chicago. In fact, there has been nearly 2,000,000 bushels decrease in stock in the past week. These hard facts upset the theory of bearishness on the expected spring wheat movement. The market appears to have no decided trend, but it is not depressed to the 90 cents for early months, as the bears have expected.

Short sellers of corn for the new crop months, even with the promise of fine weather over the big states tributary to Chicago, where the crop needs bright weather, did not feel comfortable after forcing a dip in prices this morning. Brokers detected some country buying in small lots. Oats were steady at close.

CHARMING WEDDING TOOK PLACE TO-DAY

Miss Olive Day Becomes the Bride of Mr. R. G. Dundas

The Church of Our Lord was the scene of a pretty wedding to-day shortly after noon, when Olive May, second daughter of Mr. and Mrs. R. G. Day, of "Derreen," Rockland avenue, and Ronald George Dundas, second son of Mr. and Mrs. T. G. Dundas, of Carron Hall, Strlingshire, Scotland, and of Shawinigan lake, were united in wedlock, Rev. W. Leslie Clay performing the ceremony in the presence of a number of relatives and more intimate friends of the young couple.
 The church decorations were simple, though pretty, and formed a fitting setting for the ceremony, the bride, looking radiant in a high-waisted gown of shimmering white liberty satin, hand-embroidered with pearls and silver in wild-rose design, passing down the aisle by the side of her father, who gave her away, while the choir sang "The Voice That Breathed O'er Eden." The bride's dress was very handsome, the bodice being made in cross-over style, with short sleeves, both these and the bodice being fastened with a tiny cluster of orange blossoms, the skirt being arranged with square-cut train, the turned back points of which were heavily embroidered with pearls. The veil was of old Limerick lace with a border in rose and palm-leaf design with French needlepoint, and was arranged in cap fashion over a wreath of orange blossoms, with short tulle veil over the face. Her bouquet was of bridal roses and lilies-of-the-valley, and her only ornament the pearl and diamond necklace given her by the groom.
 Accompanying the bride was her maid-of-honor, Miss Grace Cotsworth, and her bridesmaid, Miss Ruby Fell, both of whom wore dresses of mauve and merv with ruchings of the same, and lace tunics, the hats worn with this being of cream lace with trimmings of mauve tinted roses and twisted straw. The pretty color scheme used throughout the arrangements was emphasized in the huge bouquets of mauve sweet peas and ferns which the

bridesmaids carried, while the same fragrant blossom filled the basket carried by the two small children in attendance. These were little Christabel Dundas, a daughter of Mr. and Mrs. A. T. Dundas, of Shawinigan, and a niece of the groom, who made a very winsome flower-girl dressed in a quaint frock of cream messaline made in early Victorian style, and with which a Dutch bonnet with lace and pearl trimmings was worn. Accompanying this pretty picture, and assisting in carrying the basket of flowers, was the bride's little brother, Bob, who made a handsome page in a suit of cream messaline with deep collar and cuffs of Irish crocheted. The bride's mother looked dignified and handsome in a becoming dress of silver-grey satin with overdress of silver grey tissue and pearls, with which was worn a white tulle hat trimmed with plumes and black velvet. The groom was supported by A. F. Whiteside, while Major W. Lindsay acted as usher, the groom's gifts to whom were a diamond pin and a solid gold pencil case respectively, while to the maid-of-honor he gave a pearl brooch in lily-of-the-valley design; to the bridesmaid a gold bar brooch with pearl shamrock; to the little flower girl a gold bracelet; and to the page a gold and pearl watch.
 Mr. A. H. Giles, choir-master of the Church of Our Lord, presided at the

organ, Barnaby's setting of "O Perfect Love," being sung during the ceremony, and the Wedding March from Lohengrin being played while the bridal party were in the vestry signing the register, and Mendelssohn's Wedding March while the happy pair passed down the aisle of the church preceded by the two pretty children attendants with their swaying basket of flowers.

Among the guests were Mr. and Mrs. T. G. Dundas, of Shawinigan; Mr. and Mrs. R. C. Daniel, and Mr. R. W. Day, of Vancouver, in addition to a number of others of the more immediate relatives of the young couple, the guests adjourning to the home of the bride's parents immediately after the ceremony to partake of the delicious wedding-breakfast, which was served prior to their departure by the afternoon train on a tour of the island.

The bride's going-away dress was of navy blue serge with pale blue trimmings, with which was worn a very beautiful hat of blue French chip with shot effects of cerise and mauve, several of the friends of the nappy pair accompanying them to the station to once more bid them god-speed. Mr. and Mrs. Dundas, who were the recipients of a great many handsome and costly presents, will be absent for the next two weeks visiting various parts of the island, the most northerly point which they will reach being Cameron lake.

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 21.—5 a. m.—Fair and warm weather has prevailed during the last 24 hours on the Pacific slope and in the prairie provinces, and a fresh north-easterly gale has occurred at the entrance to the Straits of Fuca. East of the Rockies the pressure is lowest in Manitoba. Conditions are favorable for a continuance of the present fine weather in these districts.

For 24 hours ending 5 p. m. Thursday, Victoria and vicinity—Light to moderate northerly and easterly winds, fair and warm to-day and Thursday. Lower Mainland—Light to moderate winds, fair and warm to-day and Thursday.

Reports at 8 a. m.
 Victoria—Barometer, 30.94; temperature, 54; minimum, 54; wind, 4 miles N. W.; weather, clear.

INDUSTRIAL DISPUTES.

Ottawa, Aug. 21.—Industrial conditions were seriously disturbed by labor disputes during July, the number in existence in that month being considerably greater than the number existing during June. The numbers actually commencing, however, during the month compares favorably with that of the previous month. There was an increase of nine disputes as compared with June and an increase of twenty-

eight as compared with July in 1911. About 17,000 employees were affected by these disputes as compared with 15,000 during June and 19,000 during July, 1911. A termination of the Garment Workers' strike occurred during July which caused a resumption of operations by more than four thousand employees after nearly two months of idleness. Few of the disputes commenced during July were individually of serious consequence as factors in disturbing industrial conditions.

BUY A HOMESITE WITH A VIEW

Same Views as Uplands AT A FRACTION OF THE PRICE

A few more splendid homesites left in this great subdivision facing the famous "Uplands" on Cadboro Bay. These are absolutely the last rockless waterfront lots on this beautiful bay, and they command exactly the same remarkably fine views as "Uplands." In fact, "Olympic-View Park" is just

UPLANDS WITH THE PRICE LEFT OUT

Work is already under way for the first fine home in "Olympic-View Park," and the owner is sparing no expense to make it worthy of its charming surroundings. Other houses are being planned by those who have already bought. Every lot in the subdivision will have been sold shortly. All lots are level and clear, save for fine bearing orchard and some magnificent shade trees. Inside lots have two wide roads leading direct to private beach. Property faces new home of Royal Victoria Yacht club, and is only 15 minutes' walk from "Uplands" car line.
