PECIAL FLORAL COLLECTION FOR 1900

FOR SPRING PLANTING

ALL OF EASY CULTURE AND GREAT BEAUTY. Illustrated in colors on front cover of this book.

By way of suggestion of some beautiful flowers to grow the coming summer we have made up the collection described below. A A A A A

SWEET PEAS. Who would be without Sweet Peas? They are easily grown, bloom ear'y, last the greater part of summer, and the more flowers that are cut, the more may be picked. Sweet Peas should be sown early, given bush or strings to run upon, and no seed should be permitted to form. The colored group contains Brilliant, scarlet, Prima Donna, pink, Shahzada, dark maroon and Daybreak, striped. Any variety, per pkt., 5c.

2 Attention is called to the Sweet Peas, pages 12, 13. 78 and 79. Our Royal flixture contains the newest Sweet Peas.

- PANSIES. The class of Pansies, of which the illustration portrays a flower in size, form and coloring, is highly prized, not only for the large flowers, but because they have stout, stiff stems, which makes the cut flowers more lasting. Pkt., 7c.
- CALLA, Spotted Leived. The leaves of this Calla are dark green with white spots. Flowers are pure white with blue black center and they are handsome in appearance. The bulbs grow and bloom freely in any soil as pot plants; in the garden they flower splendidly. Plant them in May and dig up in fall. Each 10c, 3 for 25c.
- TUBEROSE. Beautiful wax-like flowers borne on tall stems. They do not all expand at once but continue in bloom a long time. The flowers are so fragrant the surrounding atmosphere is permeated. Pot bulbs when received, transplant in May. Will bloom in!July, 3 for 15c; doz. 50c postpaid.
- BEGONIA, [Tuberous. As pot plants for the sitting room or greenhouse, but more especially for bedding out in partially shaded places insummer, these are now in demand. The size of the flowers and the richness and beauty of them must be seen to be appreciated. They are a mass of bloom throughout the summer. Treatment same as for Tuberoses. Single, mixed, each 8c; 6 for 40c.
- **DAHLIA.** In the summer months the Yellow Dahlia is a highly prized flower. For decorations it has few superiors. Plant out of doors about the 10th of May. Earlier flowers may be obtained by treatment recommended for Tuberoses. 15c.

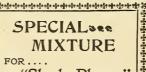

SPECIAL FLORAL COLLECTION for 1900: 4 pkts. Sweet Peas, 1 pkt. Pansy, 1 bulb each of Spotted Calla, Begonia, Tuberose and Dahlia, value 65 cents, all for 35c postpaid.....

BARNARD'S "PERPETUAL GREEN" & LAWN MIXTURE.

It is unequaled for tennis and croquet grounds. The grasses of which it is composed will in the shortest time possible produce a beautiful dwarf, compact turf, which will endure the summer heat, and insure a nich deep green sward throughout the season. We take every precaution by the m st painstaking clealing to eliminate as far as possible all weed seeds. Lb., 35c, postpaid. Not prepaid, lb., 25c; 5 lbs. or more at 20c per lb., bags included.

BLUE GRASS. Its uniform growth, creeping habit and beautiful color make it desirable for lawns. This grass lives longer than all others. Fancy cleaned, lb., 30c, postpaid. Not prepaid, lb., 20c; 5 lbs. or more at 25c per lb.

"Shady Places." WITH this mixture there need be no difficulty

need be no difficulty in getting grass to grow in the shade under the trees, etc., as it is a combination of grasses whose natural home is in the woods and sheltcred places. Lb., 40c, postpaid. *Not prepaid*, lb., 30c; 5 or m re lbs. at 25c per lb., bags included.

Honorowing to the the second of the second second second second for large quantities

The Quantity to Sow. It is unwise to be, economical in the quantity of seed used i' the best results are desired. One pound will sow a plot of six hundred square feet; 4 bushels (56 lbs.) to the acre.

"GOLF LINK" MIXTURE.

For links or grounds on which this most popular game is played we supply a mixture of grasses that will endure wear and tear and at the same time always present a fine sward. Lb., 40c, postpaid. Not prepaid, lb., 30c; 5 or more lbs. at 25c i er lb.

WHITE CLOVER. Thrives in damp situations. We have some A1 seed carefully cleaned. Lb., 30c, postpaid. Not prepaid, lb., 20c; 5 lbs. or more at 15c per lb.

RED TOP. Desirable where an immediate effect i sought. Fancy cleaned seed, fee from chaff, lb. 30c, postpaid. Not prepaid, 25c; 5 lbs or more, 20c per lb.

Order Sheet to W.W. BARNARD & CO.

POSTPAID. At prices quoted we pay the postage on all VEGETABLE SEEDS by the packet, ounce, quarter pound, pound, pint and quart and all FLOWER SEEDS. If Vegetable Seeds by the pound, pint or quart are ordered sent by express or freight, 10 cents per pound, 15 cents per quart on Peas and Beans and 10 cents per quart on Corn may be deducted. We also pay the postage on Bulbs and Plants except where noted. PACKET AND OZ. SEED DISCOUNTS. 1 ON SEEDS IN BULK.

VEGETABLE SEED COLLECTIONS-Net, no discount.

For the convenience of many we have prepared the following collections of choice tested Vegetable Seeds. These assortments are carefully made up and contain desirable varieties of seeds of the same good quality as will be found in packages selected from the list in the regular way. These collections are put up ready for shipment before the busy season opens; this, and a desire to induce a trial of our seeds, enables us to place on them a very low price. Considering the reduced rates at which they are offered, we cannot make changes in them nor allow the premiums offered with orders elsewhere. See cover page for Flower Seed Collections.

Agriculture is the Basis of National Prosperity. & Good Seed is the First Essential to Successful Agriculture.

W. W. BARNARD & CO.'S DESCRIPTIVE SEED CATALOGUE AND PRICE LIST.

EEDTIME APPROACHES—has already come to some portions of our extensive country. We ask a careful perusal of this Catalogue by every one who purchases seeds or other supplies for the Farm and Garden, either in large or small quantities.

GARDENING FOR PROFIT As well as for pleasure is conducted on more extended lines each succeeding year. The happiness which is the reward of the successful amateur cultivator, and the higher prices which perfected vegetables bring to the market man, may be traced directly to the use of Seeds of the Highest Quality. Such we have always sold and we

intend to keep up the precedent. It is unnecessary to write "Send by return mail." Our ambition is promptness in execution of all orders sent in. Stocks are ample; facilities for filling as complete as experience can suggest. The orders' are not filed, but turned out for immediate dispatch. Usually this is accomplished within a brief period. If delay is necessary, an explanatory letter will be sent. We appreciate the valued orders from our patrons in previous seasons. W. W. BARNARD & CO.

Shopping by Mail ...

Greeting

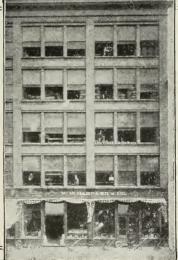

1900

IS BOTH PLEASANT AND PROFITABLE.

You can select your requirements in your own home, mail the order to us with the price given in this catalogue, and in a few days the seeds, etc., will be delivered, postpaid, to your Post Office—often to your door.

The Postal Laws permit the mailing of any quantity, provided no package exceeds four pounds in weight. Thus 40 lbs. can be sent in ten packages.

NO ORDER IS TOO SMALL TO RECEIVE & CAREFUL ATTENTION.

SEEDS DELIVERED POSTPAID WITHOUT EXTRA CHARGE.

We deliver all Vegetable and Flower Seeds, Bulbs and Plants (except such as from their size or otherwise are unmailable and so stated) postage paid.

We guarantee that all goods shall reach the purchaser in good order.

Our flail Department, taken in connection with our guarantee, enables customers thousands of miles away to purchase their supplies by mail with assurance of as good service as if waited on in our store.

A FEW SUGGESTIONS TO PURCHASERS.

How to Order.—Always use the Order Sheet and printed Envelope sent with the Catalogue when possible. Write plainly; keep a copy of your order and be sure to sign your name, post office, county and state every time you write to us. *Please* write ach item of your order on a separate line, placing the quantity before each article and carry out the prices.

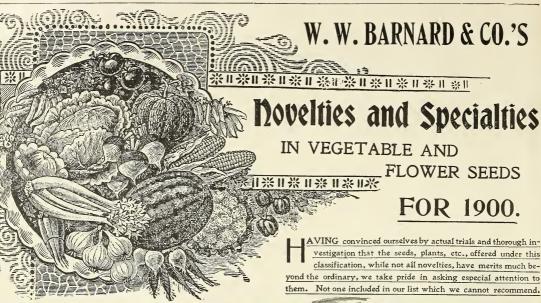

How to Remit.—Send cash with order, by New York or Chicago Draft, Post Office Order, Express Order or Registered Letter. It is not safe to enclose currency in a letter without having it registered. Postage stamps will be taken as cash.

Cost of Remitting.—Customers may select seeds to the amount of the cost of registered letter or other remittance on all orders amounting to \$1.00 or more.

Order Early.—Please order as soon after you get this Catalogue as possible, then you will have your seeds at hand for planting when you want them; besides if you want heavy seeds in large quantities, they can be sent by freight very cheaply before time presses to sow them.

Shipping Instructions.-When goods are to be shipped by Freight or Express, give plain shipping directious; otherwise we use our best judgment in regard to the matter.

Errors in Filling.—Occasionally in the Spring rush some seeds may be overlooked in filling or not as ordered. In such case we are willing to make corrections. Do not return any stock until you have written to us first regarding the same.

SIEBERT'S . . . EARLY LIMA BEAN & & &

H TRUE LIMA developed by the skilled labors of a market gardener, who selected the largest green beans from the thinnest and most easily-opened pods.

EARLINESS, EASE OF SHELLING, SIZE, BEAUTY and QUALITY

f f of the Green Beans this sort 22 IS FAR IN ADVANCE

of all others, and it is recognized as the best of all Limas for either the garden or for market.

The pods rarely contain more than four beans, but the yield is enormous and continuous from first to last of the season. Pht., 10c; pt., 30c; qt., 45c; pk., \$2.00.

SIEBERT'S EARLY LIMA BEAN.

GARDEN-MAKING ...

A book of reference and instruction for the amateur as well as the skilled gardener.

It is full of valuable suggestions for the utilizing of the home garden, whether that garden be a city backyard (r an enclosure of acres. *Gives in simple language such information as every man or woman who buys a single packet of seed is in need of.* No modern American work exists which covers this important fie'd. Garden-Making is profusely illustrated. **Price, \$1.00, postpaid.**

The Most Desirable Extra Early Beet for Planting Out of Doors.

FIRST CLASS variety for everyone and especially for market gardeners. It is of such compact growth that more marketable beets may be grown on a given area than any other.

IT IS NOT ONLY BEAUTIFUL AND GOOD, BUT EXCEED-INGLY EARLY.

The Beets are perfect turnip-shape with small tap roots. Quality the very best, tender and sweet.

COLOR OF SKIN . . . Dark Blood-red; Flesh Brightred, Zoned with a Lighter Shade.

Earlier than Egyptian.

COMBINED with its *extreme earliness* it has beautiful shape and *rich crimson color* to commend it. It has a small top, and coming in so early makes it a particularly desirable Beet to grow to sell in bunches.

IT IS ALSO A VERY GOOD VARIETY TO CULTIVATE FOR THE FAMILY

as it is sweet and tender. We want everyone who appreciates a Beet of superior quality to try this one. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 75c.

STRINGLESS ... Green Pod Bush Bean.

on Back Cover.

The On'y Green Pod Bean that is Always Stringless.

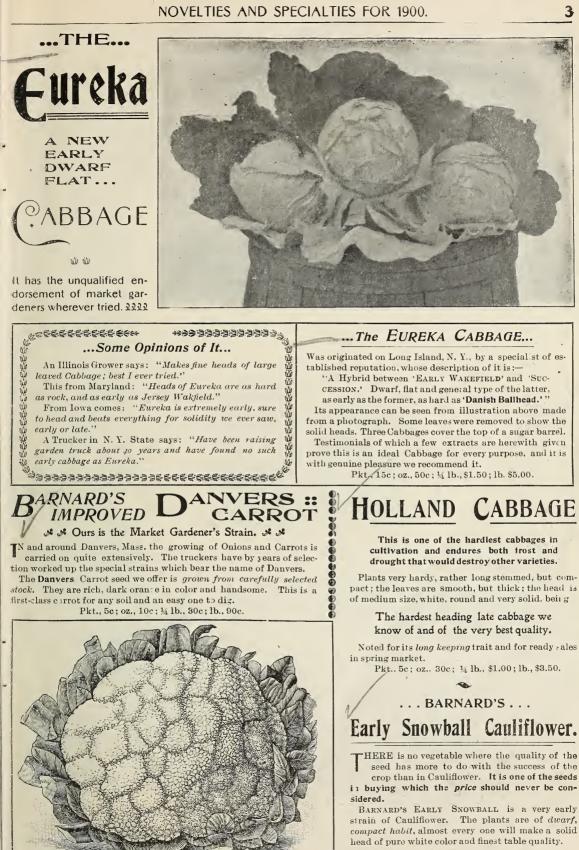

THIS BEAN is undeniably one of the best ever sent out, and all the claims made for it when first introduced have proven to be correct. Ready for Market . . .

TWO WEEKS EARLIER

Than Early Six Weeks.

It is of immense value to the market gardener as well as the amateur who seeks a superior quality for the home table.

The pods are long, straight, round and full, of a beautiful fleshy appear. a.ace. Plant is hardy and prolific. Try this grand Bean this year. Pkt., 1 Dc; pt., 30c; qt.,55c; pk.,\$2.50.

BARNARD'S EARLY SNOWBALL CAULIFLOWER

It has stood the test of years and stands unrivalled by any.

Pkt., 10c; ½ oz, \$1.35; oz., \$2.50: ¼ ib., \$8.50.

...PERFECTED JERSEY PICKLE CUCUMBER ...

1^N NEW JERSEY, contiguous to the city of Philadelphia, thousands of bushels of Cucumbers are grown, the JERSEY PICKLE taking the front rank with the gardeners of that state.

Its desirable form and uniform size are well shown in the photograph. The skin is thin; flesh white and tender, with few seeds. It is ten days earlier than the old Jersey Pickle, is more productive. Pkt., 5c; oz, 10c; ${}^{4}_{4}b$, 25c; b, 75c.

NOVELTIES AND SPECIALTIES FOR 1900.

ROCKY FORD MUSK MELON.

The flesh is a light green color, very deep, exceedingly sweet, fine grained, combining every quality which goes into the makeup of a good Melon. Its size, shape and fine quality, and being a good shipper, will commend it alike to the family table and the market gardener.

STRAWBERRY ...MUSK MELON...

NAMED on account of its flavor. In appearance it resembles the old green nutmeg. Mature specimens weigh 6 to 8 pounds each. Flesh smooth and deep, soft and meltung, exceptionally sweet; color orange red. Introduced by us 3 years ago, this melon is now offered by almost all seedsmen. Mr. Beck, the veteran melon grower, who has given to the world several good Musk Melons, says: "This grand melon was originated by planting the most luscious variety of stravberries be-

tween every other row of a New Hybrid Musk Melon that I had previously perfected." Pkt., 5c; oz., 10c; ½ lb., 30c; lb., \$1.00.

PAUL ROSE MUSK MELON.

When First Marketed was called "Petoskey."

THIS MELON is a successful cross of the Osage with the Netted Gem. Owing to the great thickness of the beautiful salmon colored flesh, the PAUL ROSE will weigh considerable more than a Netted Gem of the same size.

THE UNIFORM SHAPE AND AVERAGE DIAMETER (ABOUT 5 INCHES) OF THIS MELON PERMIT PLACING OF TWO LAYERS OF EIGHT EACH IN A HALF-BUSHEL BASKET, MAKING A HANDY PACKAGE OF SIXTEEN MELONS. THE COMPACT AND NEAT APPEARANCE WHEN PACKED, AS WELL AS THE EXCELLENCE OF THIS MELON, MAKE IT A MOST DESIRABLE SHIPPING SORT.

It is about two weeks earlier than the Osage. The Melons are nearly round. Seed cavity remarkably small. As a Melon for the table this is unsurpassed. Market gardeners who grow red-fleshed melons will find the Paul Rose their most profitable sort, while for the home table nothing better could be desired or obtained. Pkt., 5c; oz., 20c; $\frac{1}{2}$ lb., 60c; lb., $\frac{2}{2}.00$. Exceedingly Prolific... Unsurpassed in Luscious Flavor.

ROCKY FORD

Always brings the Highest Price on the Market....

NIMPROVED STRAIN of the Netted Gem type, which is grown on a large scale and to a won-

derful degree of perfection at Rocky Ford, Colorado. From that locality it has been shipped to every section of the country and has attained national fame for dainty appearance, excellent quality aud delicacy of flavor.

Our illustration (from a photograph) shows the true type of this Melon, which is oval in shape, averaging four inches in length,

We are fortunate in being able to offer genuine seed which has been grown for us by one of the most expert and careful cultivators at Rocky Ford. Pkt., 5c; oz., 10c; ½ lb., 25c; lb., 90c.

WATER MELON.

WE CONSIDER this superior Melon to be one of the finest sorts of recent introduction.

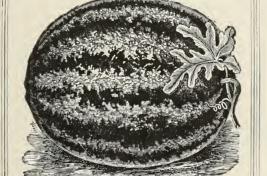

Its extreme earliness will enable northern planters to cultivate it with a fair assurance of the crop maturing.

It is an enormous cropper. Specimen melons have been gathered which weighed 78 and 84 pounds. It averages 800 Melons of 40 pounds each to the acre. It is of fine shape, an exceedingly thin, tough rind, great productiveness, attractive color and excellent quality. Every northern

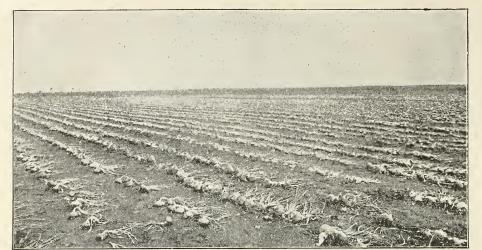

farmer should plant this melon. It is almost the only one which is certain to ripen. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., \$1.00.

PAUL ROSE MUSK MELON.

P 1 G R E E

A Field of Yellow Globe Danvers Onions, Yielding at the Rate of 583 Bush. per Acre.

SELECTED .OUALITY. FIRST EVERY TIME IN ONION SEED ... It is of vital importance 000 and the only way ili to insure a crop.

ARNARD'S

The Finest Strain in Cultivation. A Most Popular and Valuable Sort. Produces the Kind of Onions which Command the Highest Price in Market.

EDAN

HIS superior strain of YELLOW **GLOBE DANVERS ONION repre**sents all that can be obtained by painstaking selection and intelligent cultivation.

While it is suitable for and yields profitable crops on all classes of soil, it is especially good for muck land on account of its quick maturing qualities.

The firm, solid bulbs are all that can be desired in size and quality and excellent winter keepers. They are much sought after in all onion markets.

The onions from this strain of seed ripen early and all at once. They are

DISTINCT and ATTRACTIVE IN SHAPE, HANDSOME, BRIGHT EVEN COLOR; NFCKS VERY SMALL. 2 2 2 2 2 2 2 2

A conservative estimate of the yield per acre on well cultivated soil may be stated at 500 to 600 bushels from seed sown in the spring.

Having sold this strain of seeds for several years (chiefly to market gardeners), we can recommend it with the utmost confidence.

-Pkt., 5c; oz., 15c; ¼ lb., 70c; lb., \$1.50. Special Prices on Large Quantities.-

EARLY ... RED GLOBE ONION...

NEW and distinct variety, maturing as early as the Extra Early Flat Red, but of a beautiful globe shape, much rounder and handsomer than the ordinary

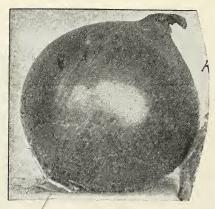

Early Red Globe, as shown in our illustration; skin deep red, flesh mild and tender, an excellent keeper. In bottoming and cropping qualities it is

very superior, and very desirable for table or market use. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., \$2.25, postpaid.

SOUTHPORT ...LARGE RED GLOBE ...

The onions from Southport, Conn., generally command an extra price in the markets, because of their beauti. ful shape and color. Spherical, with small neck, very deep rich red color. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., \$2.25.

EARLY RED GLOBE.

N exceptionally early Red Onion that is worthy of more extensive cultivation.

10 10 10

When ordering this seed please state the name in full, thus: "EARLY RED GLOBE," to avoid errors.

Extra Early Long-Keeping USTRALIAN BROWN ONION.

A Most Profitable Variety for the Market Gardener....

HILE this Onion has been introduced the short time of three years it has already proven one of the most valuable ever sent out.

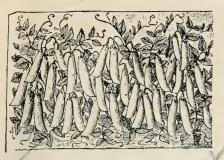

'THE AUSTRALIAN BROWN ONION is of medium size. wonderfully hard and solid, and

Most Attractive for Market. . . .

both as to form and appearauce. They are extremely early and never make any stiff necks or scallions,"

The color of the skin is a clear amber brown, in marked contrast to that of all other onions.

Market gardeners who have tried this new onion speak of it in highest praises. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

NOTT'S EXCELSIOR.

BARNARD'S LEADER. 30 in. It is absolutely the

earliest of the earlies and is a prodigious yielder ripening with great uniformity. Pods of medium size, well filled with round, smooth peas of splendid flavor. Include this variety in your order, Pkt., 5c; pt., 20c; qt., 35c; pk., 90c; bu., \$3.50.

NOTT'S EXCELSIOR.

best dwarf wrinkled Pea. It is new and has come to stay. Outyields American Wonder to a large extent. The pods are longer, each one containing 6 to 8 large Peas. Pkt., 10c; pt., 25c; qt., 40c; pk., \$1.25; bu., \$4.50.

4 SPLENDID PEAS SELECTED FOR SUCCESSION. Continuous period it is necessary to make frequent sowings, or to plant on the same day a number of varieties which will succeed each other in being ready for table use. Dwarf Peas require no brush or sup-

Dwarf Peas require no brush or support of any kind. Of the four named below the first picking of Peas may be expected in 5 to 6 weeks.

DWARF TELEPHONE. 18

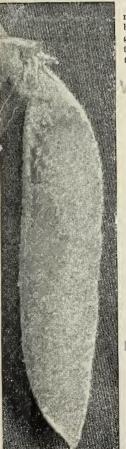

Second early. Of dwarf, stocky growth, resembling the well known Tall Telephone in every way except that the vines are quite dwarf—18 to 24 inches. Pods about five inches long. Peas of largest size, light green and of delicious flavor. Pkt., 10c; pt., 25c; qt., 45c; pk., \$2.25.

The **HEROINE.** 30 in. For quality and this Pea has no rival. It produces most abundantly long, pointed pods, containing 8 to 9 large Peas, "fairly melting in your ; qt., mouth for sweetness." Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.10; bu., \$4.00.

BARNARD'S LEADER.

5 GROWING PEAS WHICH RIPEN IN CONTINUED ORDER.

EARLY GRADUS.

To cultivate tall growing Peas successfully the young vines must be furnished with sticks or trellises to run upon. This involves some additional labor to the gardener, which, however, is amply compensated by the much greater productiveness of tall growing peas. The varieties named planted the same day will require under favorable conditions from 8 to 9 weeks until the fifst picking can be made for the table.

CHAMPION

OF ENGLAND.

RADUS

15 in.

A new early and hardy wrinkled variety of the highest type of perfection; grows 2½ feet in height, is a vigorous grower; of light green color, pods and grain of very large size, closely resembling **Telephone**.

Our photograph alongside shows Gradus pod in natural size. The pods produce from 6 to 8 peas of enormous size, which when cooked retain their beautiful soft green color, and are sweet, rich and mellow. Pkt., 10c; pt., 50c; qt., 50c; pk., \$250.

SHROPSHIRE

HERO: 30 in. A much improved Yorkshire Hero, having longer and better filled pods. Peas green, wrinkled, of first qua ity. We recommend it. Pkt., 5c; pt.. 20c; qt., 40c; pk., \$1.00; bu., \$8.75.

50 in. Enormously productive and of the highest quality. A strong grower, averaging 18 pods to the stalk. The pods are quite long and are filled with large wrinkled peas. A desirable sort for family garden. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.25.

LONG ISLAND MAMMOTH. 42 in. Earlier

than Champion of England An excellent cropper. Pods large size and well filled with peas of excellent quality. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.15; bu., \$4.25.

CHAMPION OF ENGLAND. 55 in. Univer-

sally admitted to be one of the very best late peas. Pods medium in size abundantly produced. Peas wrinkled and very sugary. Pkt., 5c; pt., 20; qt., 35c; pk., 90c; bu., §3.25.

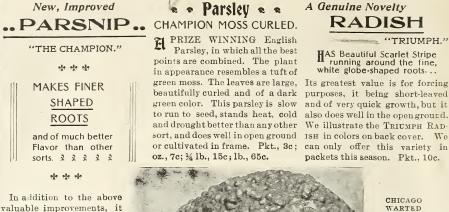

Golden .

Hubbard

lb., 50c; lb., \$1.50.

MAGNUS TOMATO.

NOVELTIES AND SPECIALTIES FOR 1900.

DAYBREAK ASTER

California Giant "Silver Tipped" ASTERS ...

NEW section of great beauty. The plants, about 18 inches high, grow rugged and branching, and bear in abundance very large elegantly formed double flowers about 31/2 inches across, composed of regular, slightly recurved broad petals. The tip of each petal being silvery white, brings out in exquisite relief the warm rose-pink or brilliant blue in the depths of the flower.

Silver Tipped Rose Pink. Pkt., 15c. Silver Tipped Blue. Pkt., 15c.

ORANGE YELLOW COSMOS.

THIS is entirely new both in color and habit. The plants grow 3 to 4 feet high with a mass of brilliant orange-yellow flowers. They begin blooming very early, when only about 18 inches high. and continue until severe freezing weather. Pkt., 10c.

ALLEN'S DEFIANCE MIGNONETTE.

/HEN grown under favorable conditions and with proper care, the spikes will grow from 12 to 15 inches long. The flowers are of most delicious fragrance. The individual florets are of large size and stand out boldly, forming a graceful as well as compact spike. It also possesses extraordinary keeping qualities, the spikes having kept three weeks after cutting, retaining their grace and fragrance to the last. Pkt., 10c.

Yellow Flowering Japanese Morning Glory.

LARGE yellow-flowering Morning Glory is a rarity, and has never been grown to our knowledge outside of the Japanese Imperial Gardens, until we secured a few of the seeds three years ago. The canary yellow flowers, 2 inches across, are produced in wonderful freedom. The foliage is also unique and attractive; the deeply lobed leaves are mottled green, silver and yellow. It grows about 10 feet high and is very attractive trained on a trellis. Pkt., 10c. Japanese Morning Glory, mixed see page 7?.

NEW MAMMOTH FLOWERING ...

Allegheny Hollyhocks. HE flowers of this new variety

are so different from the old conventional ones that but for similar habit of the plant it would not be taken for a Hollyhock.

They are from 4 to 6 inches in diameter, ranging from semi-double to double, and so finely fringed and curled that, compared with the o'd ones, they have the look of a flower from Fairyland.

The colors are shell pink, rose and ruby red, a shade or two deeper at the center, and exquisitely tinted toward the edge.

The flowers do not, as on the other double Hollyhocks, rot on the stems, but drop as soon as they fade. Pkt., 10c.

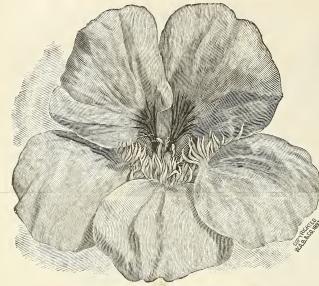

Specialties in Flower Seeds.

All have superior merit, though some are not strictly new.

Navbreak Aster . . .

A most beautiful bushy, branching Aster, growing about 2 feet high, with large double flowers composed of incurved petals, almost as regularly placed as in a Dahlia. The flowers are borne upright on stiff long stems, and the plants in bloom are charming. Pkt., 10c.

COLOR. SOFT SHELL PINK ROUND AS A BALL . . . LARGE SIZE . THE LADIES' FAVORITE . . ALLEGHENY HOLLYHOCK.

GIANT AND FANCY

hasturtiums...

"SUNLIGHT" This beautiful new Nasturtium has handsome light-green foliage, lit up by myriads of clear, rich, golden-yellow flowers, borne so profusely as to almost conceal the foliage. The petals are large and round, measuring more than 1¼ inches across, and are daintily crinkled, which gives a very pretty effect. The two upper petals have a few delicate brown lines at their base, and the three lower ones are more distinctly bearded or fringed at the throat than is usual. The flowers measure nearly three inches across. Its glowing color is wonderfully effective. Per pkt, 5c; per oz., 15c; ¼ lb., 40c; per lb., \$1.50.

For Complete List of Named Nasturtiums of all kinds and Collections of same, see page 73.

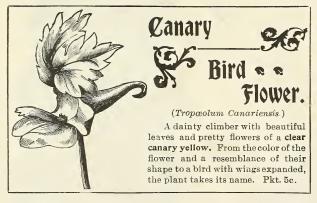

"SUNLIGHT" NASTURTIUM-Natural size flower.

NEW NASTURTIUM, "CHAMELEON."

NEW departure in Nasturtiums. In richness and variety of colors it surpasses any other strain, and is also unique in bearing flowers of *quite distinct colorings on* one and the same plant—some clear, deep crimson, others beautifully mottled.

TALL CHATIELEON.-This variety, with its very large, rich flowers in the greatest variety, is unsurpassed for training over fences and trellises, and blooms with the greatest freedom. Pkt., 10c; oz. 25c.

DWARF CHAMELEON.—The contrast between the different flowers is wonderfully rich and striking. A splendid variety for massing or for borders, and in pots it presents an exceedingly bright and ornamental appearance. Pkt., 10c; oz., 25c.

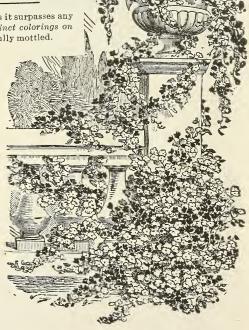

MIXTURE OF TALL NASTURTIUMS.

The most showy and varied in color of all Running Nasturtiums.

The mixture includes twenty of the choicest named varieties of tall Nasturtiums, and is distinguished by the richness of color and size of the flowers, which exhibit every shade of rose, salmon, bright red, bronze, maroon, pale-yellow, etc., self-colored, spotted and striped; exceedingly fragrant and flower freely for a long time; cannot be surpassed for covering trellises, fences, railings, balconies, etc. Large pkt., 10c; oz., 15c; ½ lb., 45c.

ROYAL MIXTURE OF DWARF NASTURTIUMS.

CHIS seed is a splendid mixture of the most brilliant and striking colors. Dwarf Nasturtiums are among the finest flowers for beds and borders. They make low, bushy plants which bloom quickly, lasting until killed by frost. Large pkt., 10c; oz., 15c; ½ lb. 45c.

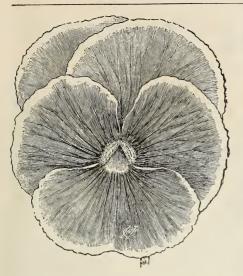

NEW CLIMBING NASTURTIUM.

Mme. Gunther's Hybrids.

These new Hybrids of Madame Gunther flower earlier and more abundantly than Tropzeolum Lobianum. They make a stronger growth, climbing from five to six feet high, and are covered from spring to fall with large, substantial flowers of the most brilliant shades. They are remarkable for their wide range of colors, embracing rose, pink, salmon, purple, velvety dark maroon, light yellow and deep orange in self colors, as well as striped and blotched in the most fanciful manner. So ornamental is this new strain that it deserves a place in every garden, either for climbing or trailing from vases, over rock-work, etc. Price, per pkt., 10c; 2 pts., 15c; oz., 20c.

NOVELTIES AND SPECIALTIES FOR 1900.

3249. We named this mixture for the reason that it is de-signed chiefly for florists, a class who demand the very best in Pansy seed, no matter at what cost. It is composed of the largest, network and most control beautiful Pansies GRAND PANSIES it includes seeds which are so excan be found, and of some varieties pensive that they which are so ex-can only be had in this Mixture. These Pansies are enormous in size with thick petaled flowers Dark ones, smooth and of a vel-vety substance; light and steel blues; slate and mouse-colored; reds, the nearest approach to scarlet; satiny white, coal black, striped and spotted—almost every imaginable color, making

BARNARD'S FLORISTS' MIXTURE.

A MIXTURE OF MAGNIFICENT PANSIES-the very best that money can buy. Pkt., 20c; 3 for 50c; 1/8 oz., \$1.50.

PANSIES .*

To get early flowering plants seed should be sown in boxes in March or earlier

LARGE PANSY "FAIRY OUEEN."

A NOTED German Pansy grower has produced this fine new large flowering Pansy, which is remarkable by its great beauty and its usefulness. As a bedder it has a marvelous effect and as a solitary plant it is charming. "FATRY QUEEN" is a valuable addition to the fine as-cortmart of large flowaring Pan-

valuable addition to the fine assortment of large flowering Pan-sies. The pure Sky-blue of its flowers, which is not met with in all the other Pansies, is splen-didly bordered with white, thus producing a very distinct, yet del-icate contrast. Pkt., 20c.

GIANT PARISIAN PANSIES & & &

See colored illustration on front cover of this Catalogue.

*A CELEBRATED French strain. Flowers extra large with stout, stiff stems. The ground color of the flower is usually light, with delicate pencilings and large blotches on the petals. Pkt., 7c.

NEW GIANT	CURLED PANSY
n	asterpiece

A remarkably new type amongst all the existing Pansies, which without doubt will be highly welcomed by all lovers of this class of plants.

The chief difference from the other Pansies in existence consists in a very original form of the flowers, the border of every petal being conspicuously undulated and curled. This peculiarity is to be found in nearly every flower, the size of which is extremely large.

The form of the flowers in all the other classes of Pansies hitherto known represents a more or less flat disc, while the flowers of the MASTERPIECE Pansy, on account of the crisp and curled petals, have a more globular appearance.

The extraordinarily free flowering plants are for this reason admirably adapted not only for bedding purposes, but also in isolated positions, where they look unusually full. But there is still another peculiarity just as much worthy of mention, that there are some tints of color which are not met with in any other Pansies. Pkt., 25c.

a

PETUNIA ADONIS.

SANEW PETUNIAS.

Both are admirably adapted for bedding purposes. & & & & & &

SNOWBALL. This charming variety belongs to the dwarf compact class, forming round, bushylittle plants, about 8 inches high. The flowers, while not large, are of splendid substance, remaining boldly expanded, and are produced in such profusion as to fairly cover the plant with its pure satiny white blossoms, forming a veritable "Snowball." It blooms uninterruptedly for months and makes a beautiful edging for bedding plants, and is also a beautiful object to grow in pots. Pkt., 15c.

ADONIS. A new and valuable addition to the dwarf class. The flowers are adapted to all pur-poses: bordering, groups or sin-gle pots, also for different flowering ar-rangements. The color is a fiery carmine p blue, which is most poticable when

reflecting blue, which is most noticeable when opening. The throat is pure white, which gives a very attractive appearance. This plant grows higher than the well known Petunia Snowball, which to border the "Adonis" is highly recommended. Pkt., 15c.

"SADIE BURPEE" was one of the highest priced Sweet Pea novelties in 1889. It was sold only in packets containing 12 seeds for 25 cents.

"SADIE BURPEE" is sure to become immensely popular, as Sweet Pea amateurs and florists have for years waited expectantly for a really first-class, giant-flowered *black-seeled* White Sweet Pea, and the peculiarity of *Sadie Burpee* appearing in both black and white seed renders it additionally interesting.

PHOTOGRAPH

ECKFORD'S NEW WHITE

"Plant thinly in good ground, cut freely, fee I liberally with liquid manure right through the growing season, and I have no hesitation in predicting a for months' continuous bloom from the one sowing."-HENRY ECKFORD.

Awarded a first-class Certificate at Springfield, Mass., in 1898. :: ::

FLOWERS of larger size and much richer in coloring than the well-known *Meteor*, while they have not the same tendency to burn under the hot summer sun. Erect, broadly expanded standard, of rich orangesalmon, deepening in the veins. Wings quite large, of suffused orange salmon, deeper in shade than the standard.

From thousands of sample packets distributed last season for advance trials, the general verdict is "the most gorgeous in coloring yet produced."

ATED 1897 BY ATLES BURPER & CO.

Lastly, it is a vigorous grower, bearing the large, gorgeous flowers, generally in threes, at the end of long, stout stems.

Pkt. 5c; oz. 15c; 1/4 lb. 40c; \$1.50 per lb., postpaid.

Selected NEWEST SWEET PEAS For 1900.

THE RECOGNIZED position our collection of Sweet Peas is holding among others now offered is due to our constant effort to constantly add all really *distinct, beautiful* and *desirable* varieties as rapidly as introduced. Below we offer an extremely choice selection. Complete list may be found on page 79. Plant the seed not less than two in. deep.

If you invest in even one ounce of our

"Royal Mixture of Sweet Peas"

you will not only be rewarded with a wealth of glorious flowers, but derive greater satisfaction in growing Sweet Peas than ever before. It contains seeds of all the Sweet Peas in our list. Oz., 7c; ½ lb., 25c.

Bouquet & &

Containing one packet each of sixteen superb varieties (see page 79), 50 cents. The same sixteen kinds each put up in a separate oz, bag, making a pound of Sweet Peas for 75 cents. (See page 79.) One of the best and most desirable of late introductions.

PRICE-Any one variety, Pkt., 5c (about 75 seeds); oz., 10c; ¼ lb, 25c; lb., 75c, postpaid.

3704. **Columbia.** Standard light carmine and white; wings blue and white striped.

3705. Countess of Powis, Orange suffused with light purple. Much esteemed.

3224. Golden Gate. The numerous stems bear three or four flowers each, frequently two stems grow together, bearing six or eight flowers on one trues. The standard is soft pinkish-mauve, wings a lighter mauve and lavender.

3726. Golden Gleam. Finely shaped flowers; the best of the yellows.

12 Pkts., one each of above selected Sweet Peas for 40c. Regular price 60c.

3744. Lovely. Fine, large pink flower with rose colored wings.

3745. Lady Nina Balfour. Delicate mauve. A highly prized color. The largest of the mauve varieties and one of the best new Sweet Peas.

3768. Maid of Honor. Light blue on a white ground, shaded and edged. The flowers are borne three on a stem, of the finest hooded form, large size.

3831. Navy Blue. Large finely formed flower of purple indigo with deep blue wings. The best dark blue out. 3800. Salopian. Cardinal red of deeper shade than Firefly or Mars.

3801. Shahzada. Deep maroon standard with blue wings. One of the finest new varieties. Illustrated in colors on cover of this catalogue.

3807. Stella Morse. Flowers large, hooded; stems long and contain three or four flowers each, of a beautiful cream at first, changing to a faint tinge of blush.

3810. Triumph. Large flower with spreading wings. Orange pink.

12 ounces, one each of above selected Sweet Peas for 90c. Regular price \$1.20.

new Spotted Leaved Scarlet Salvia

(Salvia Splendens, "Silverspot.")

A SPLENDID NOVELTY which we now offer for the first time. Its most distinctive feature is its strikingly handsome, spotted foliage. The leaves are rich soft *dark green*, with *light sulphur or cream colored spots* of various size liberally'sprinkled over them. It is impossible to describe in words the charming effect produced by these spots. Our illustration conveys but a faint idea of the beautiful plant. The unique and ele-

gant foliage is very abundant and has an extremely fresh and healthy appearance. The intense bright scarlet flowers are very large and the plants of neat compact habit of growth.

3538. Salvia Splendens, "Silverspot." As described above. Pkt., 25c.

"Fairy" or "Baby" Roses.

(Rosa Multiflora.)

3500. Seeds of these Roses sown in the house in February and transplanted to garden in May should be in flower in June, where they continue to bloom throughout the season, giving about an equal proportion of single, semidouble and double flowers borne in clusters and contain all the tints and colors of cultivated roses. One of the most unique and novel pot flowers now grown. Attracts attention everywhere. Think of it! You can plant any time during spring

FAIRY LOSE.

BUDBECKIA BICOLOR SUPERBA.

e e Rudbeckia e e bicolor superba.

ANNUAL and a most welcome addition to the plants now grown extensively for cut flowers. Growing about 2 feet in height, it forms a manybranched dense bush and produces its long-stemmed flowers in the greatest abundance. The disk is brown, the ray florets are yellow, with large velvetybrown spots at the base. Pkt., 10c.

SALPIGLOSSIS.

CALPIGLOSSIS ...

LARGE FLOWERING

O^{NE} of the most beautiful of flowering annuals, forming strong bushy plants about 18 inches high and bearing throughout the season large flowers from three to four inches across. They are beautifully veined and marked and are seen in various different colors, such as blue, rose, light yellow and others. Above is a fair representation of an individual flower. Mixed colors, pkt., 5c.

000 000 000 000 000 000 000 000 000

... new Emperor Salpiglossis ... "BRIGHT CRIMSON."

Salpiglossis variabilis superbissima.

TWI ITHOUT doubt this new addition to the family will be greatly appreciated. It forms only one single, leading stem, which bears on its end a bouquet of beautiful crimson flowers. The throat is wide open and short. Cut and placed in a tall vase it is a beautiful ornament to the table. Pkt., 15c.

. . . BABY PRIMROSES. . . .

Primula Forbesi.

SPLENDID plants for the window or greenhouse which are as yet comparatively uaknown. :: :: :: :: :: :: ::

The illustration shows the great freedom with which it bears its flowers. They are of a delicate rose color and they keep fresh for a long time after cutting.

The seed comes up very readily, and the little plants throw up tiny flower stalks when only a few weeks old. These, however, should be pinched off, and the plants kept growing until October, when the flowers may be allowed to develop, and from then on until late in the spring they produce their sprays of beautiful flowers in seemingly never ending profusion. Pkt., 15c.

FRINGED "Everblooming" PRIMROSES.
 Primula Obconica Grandiflora Fimbriata.
 HE old OBCONICA is now a well known plant. The flowers

are of a soft lilac shade and very charming. It is one of the most useful Primulas for pot culture, and also succeeds well in the open border during the summer months. A greatly improved strain whose flowers are much larger and with fringed edges is now offered. They contain several colors including lavender, blush pink, white, etc. Most useful for cutting. Mixed. Pkt., 10c. :: :: :: :: :: :: :: :: :: ::

...NEW SCARLET SAGE... "Drooping Spikes."

THIS magnificent scarlet sage or salvia has three times the flowering capacity of ordinary scarlet sages. The flowers are produced so abundantly as to bend the branches and suggest the name Drooping Spikes for this superb type. It is altogether attractive and showy, and one of the best for decorative purposes, whether

used singly or in mixed groups. The plant blazes out in dazzling scarlet, and the color lasts all summer and fall. For early bloom start the seeds in the house, and set plants out when danger of frost is over. Packet, 10c; 3 packets, 25c.

See also Page 13 ... Salvia "Silverspot."

Mammoth Flowered VERBENA...

An improved strain whose very large flowers both in form and richness of color far surpass those of any other. :: :: :: :: :: ::

In this Mammoth strain will be found a percentage of striped and mottled flowers as well as a proportion of solid colors. There are also shadings and markings on the flowers of this strain seen in no other. The individual flowers are far beyond ordin-EMPEROR SALPIGLOSSIS. ary size, Pkt., 10c.

NOVELTIES . IN . PLANTS

The prices quoted include postage. You have no additional charges to pay. The PLANT DEPARTMENT (pages 81-97) includes Roses, Hardy Shrubs, Small Fruit Plants, etc., nearlyall of which we can forward by mail.

FERN BALL. The Latest Novelty from Japan.

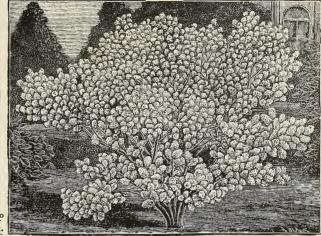

Thrives in the window, hung up by a cord. Requires no soil. When growing should be watered 2 or 3 times a week.

The center is moss, covered with fern roots twisted together. After watering they start into life and in a short time are covered with a mass of beautiful green foliage. If desired they may be allowed to dry up,

which is very convenient when a person goes on a summer vacation. If desired they may be cut in halves and placed in a fern dish. Each, 75c; two \$1.25.

HARDY EMATIS

Paniculata. — White, extremely rapid growth, with large dark, shining, green foliage and a profusion of small, fragrant flowers borne in large panicles. After flowering, the seed pods assume a bronze tint, contrasting finely with the dark foliage. This is without doubt the most popular of all hardy climbing vines. Each 15c, 3 for 40c.

NEW HARDY SHRUB "YELLOW HORN"

NEW HARDY SHRUB "Yellow Horn"

Blooms almost as soon as the frost is out of the ground. The handsomest early flowering shrub known. The bushes completely covered with beautiful flowers. Plants six inches high will bloom profusely. Will add beauty to the most magnificent of homes.

It is a shrub or small tree, reaching a height of 8 to 10 feet, having handsome light green foliage, resembling that of the Mountain Ash. Each, 15c; 3 for 40c.

new Dablia...

COLUMBIA is a large-flowered double Dahlia. It is a seedling from Alexander Cramond, an old English sort. We have secured the entire stock.

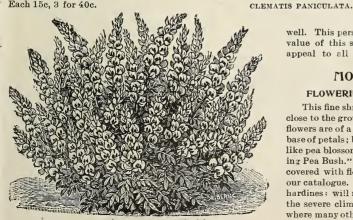

The flowers are rich, velvety crimson and they hold their petals remarkably

well. This persistence of the petals will add materially to the value of this sort for cut flowers, and the color is one that will appeal to all flower buyers. Price, each 25c.

MONGOLIAN HONEYSUCKLE.

FLOWERING PEA BUSH. (Hedysarum Multijugum.)

This fine shrub attains a height of 5 to 6 feet, branching from close to the ground and spreading out widely in all directions. The flowers are of a deep violet red, with a white and yellow spot at the base of petals; borne in racemes 12 to 16 inches long and shaped like pea blossoms, from which it has been given the name "Flowering Pea Bush." It is exceedingly floriferous, being completely covered with flowers, and is really one of the very finest plants in our catalogue. It is of very easy cultivation, and its exceeding hardines: will make it a most welcome acquisition to gardens in the severe climate of the Northern United States and Canada, where many other fine garden plants do not withs and the winters. Price, 15c each; 3 for 40c.

FLOWERING PEA BUSH.

THE NEWEST WHITE FIELD CORN man ma

all with

REDUCED ONE-THIRD

IN SIZE.

"White Elephant"

THE WORLD'S EARLIEST LARGE CORN.

THE WHITE ELEPHANT CORN & & Is a pure white variety, has very deep grains, small cob considering the size of the ear, is the earliest large corn known, has matured thoroughly for several years, without fire drying, in Northern Illinois. A strong, vigorous growing

IN GOLD FOR THE HEAVIEST EAR grown from seed of White Elephant Corn purchased

plant, luxuriant fodder, has fully matured in 110 days of good corn weather. We do not recommend this variety for planting in the extreme north, but for general use in the corn belt proper it cannot be surpassed for large yield, size of ears and purity.

WZU. If the second seco

This variety was originated by Mr. E. S. Fursman, the noted corn expert and lecturer, and with it he

WHITE ELEPHANT

rom us,

WONDERFULLY PRODUCTIVE &

won premium for largest yield per acre competition at Illinois State Fair, having produced the phenomenal yield of 166 BUSHELS ON ONE ACRE.

At the Peoria corn exposition an ear of White Elephant was exhibited that weighed 33 OUNCES, 10 ears that weighed 19 and one-half pounds and 37 ears that weighed 70 pounds.

Our stock of this corn is limited and orders should reach us early. The great and favorable reputation enjoyed by the originator of this splendid variety will create a large demand and soon make it the LEAD-ING VARIETY OF WHITE CORN.

Che Greatest Offer of the Season...

COLUMBIAN MAMMOTH WHITE.

CONOVER'S COLOSSAL. A well known green variety of excellent quality and quick growth. Pkt.. 3c; oz., 7c; 1/4 lb., 15c; lb., 40c.

PALMETTO. Early, large, excellent quality. Pkt., 3c; oz., 7c; 1/ lb., 15c; lb., 50c.

BUSH BEANS

BONNEN, Ger. HARICOT, Fr. One quart to 100 feet of drill or to 200 hills.

"HE best soil for Beans is a light, rich, welldrained loam which was manured for the previous crop. As soon as all danger from frost is passed, plant in drills, two to three feet apart, two inches deep, three to six inches apart in the row. In hills plant two feet apart one way and three feet the other. From one pint to

two quarts of seed are required for a family. **GREEN-PODDED VARIETIES.**

Stringless Green Pod. The Earliest and Best of fhe Green-Pod Sorts.

The claim is made for this variety that it is the only absolutely stringless Bush Bean, consequently surpassing all others in crisp, tender flavor. The illustration shows the width and thickness of the long, beautiful, straight pods. This variety is ready to market even earlier than the Long Yellow Six Weeks. It fully bears out every claim made for it. Pkt., 10c; pint, 30c; quart, 55c; pk., \$2.50.

IMPROVED RED VALENTINE. Fully ten days earlier

Valentine and therefore prized by market gardeners as well as for its great productiveness. Beans medium size, marbled in pink and red; pods loug, curved, fleshy and tender. Pkt., 10c; pt., 25c; qt., 45°; pk., \$2.00.

Asparagus Roots.

ARTICHAUT, Fr.

NE to two years' time may be gained by setting out roots. This can be done in spring or fall. The ground should be well manured and trenched deeply. The

roots should be planted two feet apart, one foot apart in the row, and at least 6inches deep.

If to go by mail add 25c per 100 to price of one year old roots and 50c per 100 for two-year old plants. We supply 25 of a kind at the 100 rate, 250 at the 1000 rate.

COLUMBIAN MAMMOTH WHITE. Twoyear old roots. 100. \$1.00; 1000, \$6.50.

CONOVER'S COLOSSAL. One-year old roots, 100, 50c; 1000, \$4.50. Two-yea old roots, 100, 75c; 1000, \$5.00.

PALMETTO. Two-year old roots, 100, 75c; 1000, \$5.00.

GREEN GLOBE. Sown and grown in good garden soil this variety will last for years. Its flower heads cooked like Asparagus are relished by many. Pkt., 5c; oz., 30c.

JERUSALEM ARTICHOKE. Produced from Tubers. Cultivated like Potatoes. They are sometimes used as a table vegetable, but their chief value is as stock food. Swineare particularly fond of them and all animals eat them with relish. One barrel will plant an acre. Lb., 25c., prepaid. Pk., 35c; ½ bu., 65c; bu., \$1.25, not prepaid.

ARTICHOKE.

Asparagus.

ARTISCHOKE, Ger.

SPARGEL, Ger. ASPERGE, Fr. One ounce will sow sixty feet of row.

'N early spring sow the seed, after soaking it 24 hours in warm water, in drills one foot apart, and one inch deep. During summer keep the soil mellow and free from weeds, thinning the plants to four inches apart. The following spring transplant into permanent beds, that have been deeply dug and highly manured.

COLUMBIAN MAMMOTH WHITE. It produces very strong shoots which are pure white, and so remain. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

GREEN PODDED VARIETIES. WAX POL

LONG YELLOW SIX WEEKS. Hardy, early and productive. A standard sort for general crop. Pkt., 10c; pt., 25c; qt., 40c; /pk., \$1.75.

EARLY MOHAWK. Long, flat straight pods. Much grown in the South to ship to Northern markets. Pkt., 10c; pt., 25c; qt., 40c; pk., \$1.75.

Improved Extra Early Refugee.

It has all the excellent qualities of the ordinary Refugee with the additional advantage of being fully two weeks earlier in podding. Pkt., 10c; pt., 25c.; qt., 45c; pk., \$2.00.

REFUGEE or 1,000-to-1. Pods round, thick and tender. Beans, brown speckled. Season, medium to late. Extensively grown for pickling. Pkt., 10c; pt., 25c; qt., 45c; pk., \$2.00.

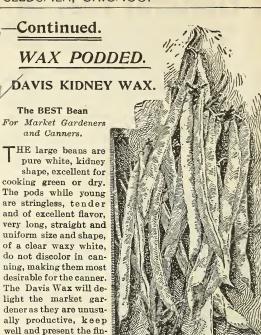

EARLY CHINA RED EYE. An old standby. Very early and of excellent quality. Pkt.. 5c.; pt., 20c.; qt., 35c.; pk., 90c.; bu., \$3.50.

VARIETIES FOR SHELLING.

- **BOSTON SMALL PEA.** Early, hardy, and prolific, yields from forty to sixty fold with ordinary field culture. Pkt., 5c.; pt., 20c.; qt., 30c.; pk.; 90c.; bu., \$3.25.
- WHITE NAVY. Valuable chiefly as a field bean and considered by many the best baking variety. Pkt., 5c.; pt., 20c.; qt., 30c.; pk., 90c.; bu., \$3.25.
- **ROYAL DWARF, OR WHITE KIDNEY.** Excellent cooked with sweet corn, making "succotash." Among the best as a winter bean. Pkt., 5c.; pt., 20c.; qt., 35c.; pk., \$1.00; bu., \$3.75.

DWARF HORTICULTURAL. Late; productive and much esteemed for good quality of the beans. Pkt., 10c.; pt., 25c.; qt., 50c; pk., \$2.25.

LARGE WHITE MARROW. Pkt., 5c.; pt., 20c.; qt.. 35c. pk., 90c.; bu., \$3.25.

DAVIS WAX BEAN.

-...ROGERS' LIMA WAX...

est appearance in the

market. Pkt.10c; pt.25c; qt., 50c.; pk., \$2.25.

A first-class Wax Bean and a decided novelty.

Named Lima on account of its glossy foliage and bloom, which resembles the Dwarf Lima. Pods lemon yellow, broad and flat, borne in great profusion. Quality, tender and juicy. Seed oval, small, pure white. Sure to become a favorite main cróp variety. Pkt., 10c; pt., 25c; qt., 45c; pk., \$1.25.

IMPROVED GOLDEN WAX. In repeated comparative trials this improved strain has greatly outyielded other varieties. Pods are thicker than those of Golden Wax, stringless and of much better quality. *Absolutely rust proof.* Pkt., 10c.; pt., 25c; qt., 45c; pk., \$1.75.

Wardwell's Kidney Wax.

Pods long, nearly straight, white, wax-like and handsome, of good quality. Beans, large, kidney-shaped, white with dark markings about the eye. A most profitable variety for the market gardener. Packet, 10c. pt., 25c.; qt., 45c.; pk., \$2.25.

Challenge Dwarf Black Wax.

The Earliest Wax Bean in Cultivation:

Fully one week earlier than any other. Continued trials strengthen all the claims made for this grand bean. Its vigor and productiveness leave nothing to be desired. Pods clear waxy white, round, fleshy, crisp

and tender. The dry been is jet black, long, curved and rather flat. Packet. 10c; pt., 25c.; qt., 45c; pk., \$1.75.

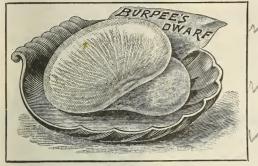

CHALLENGE DWARF BLACK WAX BEAN.

REFUGEE WAX. It produces immense pods of a golden yellow color and always remains tender. Suitable for early or late sowing, and for a wet or a dry season. Pkt., 10c; pt., 25c; qt., 45c; pkt., \$1.75.

BUSH BEANS, WAX PODDED VARIETIES-Continued.

BLACK WAX. Early. Pods short, round, nearly white, beans black when ripe. Valuable as snap bean. Amply rewards the gardener for good care and cultivation-whether for the market or the home table. Pkt., 10c.; pt., 25c; qt., 45c.; pk., \$1.75.

DETROIT WAX. So hardy as to be called rust-proof, and its MIMPROVED PROLIFIC BLACK WAX. Much earlier and more straight, handsome pods will keep a long time without spoil. ing, making it a fine sort for shipping long distances. Pkt., 5c.; pt., 20c.; qt., 40c.; pk., \$1.10; bu., \$4.00.

RUST PROOF BLACK WAX.

This is an early, productive, good bean, having long, flat, yellow pods of fine quality. The dry beans are blue black. Foliage vigorous, healthy and rust proof. Pkt. 10c; pt. 25c; qt., 45c; pk., \$2.00.

prolific than the old strain. Pods golden, even, stringless and of fine quality. Pkt., 10c; pt., 25c; qt., 45c; pk., \$1.7

Bush Lima Beans.

BURPEE'S DWARF. Plants make perfect bushes from eighteen inches to two feet high. They are sure croppers and immense yielders. Pods as large as those of the Pole Lima, and contain three to five beans of the best quality. Pkt. 10c; pt. 30c; qt. 50c; pk. \$2.25

HENDERSON'S BUSH LIMA. Valuable on account of extreme earliness. Extremely productive, tender and delicious. The dry beans are small and white. Pkt. 10c; pt. 25c; qt. 45c; pk. \$2.00.

DREER'S DWARF LIMA. Thick pods and large thick beans, three or four in a pod. Ripens fully ten days earlier than the Pole Lima of same name. Pkt. 10c; pt. 30c; qt. 55c; pk. \$2.35.

-Running or Pole Beans.-----

Pole beans are more tender and require more care in cultivation than the dwarf or bush varieties, and should be sown two weeks later; they succeed best in sandy loam, which should be liberally enriched with manure. Form hills from three to four feet apart; plant five or six beans in a hill, about two inches deep, leaving space in the center for the pole. When the beans are well started, they should be thinned to two or three plants in a hill. One quart makes 100 to 200 hills, according to size of beans. Eight to twelve quarts plant an acre.

Lima beans will not grow until the weather and ground are warm; if planted before they are apt to rot in the ground.

SIEBERT'S EARLY LIMA.

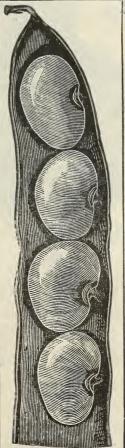

The Earliest of the Large Limas.

When in condition to use green, the beans are larger than those of any other variety. The vines are exceptionally hardy, and not only produce pods earlier, but they continue in bearing longer than any other sort. In earliness, ease of shelling, and quality of the beans, this variety is far in advance of all other sorts. Pkt., 10c; pt., 25c; qt., 50c; pk., \$2.25.

KING OF THE GARDEN LIMA. In general habit of growth this is similar to the large white Lima but matures the fruit much earlier. It possesses the characteristic of setting beans early at the bottom of pole and producing continuously to the end of the season. In productiveness they excel the common Lima. Pods are 6 to 8 inches in length and contain five to seven beans of unusual size, which lack nothing in quality. Pkt., 10c; pt., 25c; qt., 50c; pk., \$2.25.

FORD'S MAMMOTH. The largest of all Limas. The vines are vigorous, setting the pods low down. These pods enclose from five to seven beans, without exception the finest flavored of all Limas. Bears continuously throughout the season until frost. Pkt., 10c; pt., 25c; qt., 50c; pk., \$2.25.

CUT SHORT, or CORN HILL. An old variety that is in favor for planting among corn. It will yield a good crop without the use of poles. Beans nearly oblong, cut off at the ends, white and partially dotted with white spots. Pkt., 10c; pt., 25c; qt., 50c; pk., \$1.50.

FORD'S MAMMOTH

EXTRA EARLY LIMA. The pods are large and numerous, invariably having from four to five beans in each pod. These beans appear in eastern markets nearly two weeks ahead of ordinary limas, selling at from \$3.00 to \$4.00 per bushel of pods, and previous to the introduction of Siebert's Early were considered the earliest. Pkt., 10c.; pt., 25c.; qt., 50c.. postpaid; pk., \$2.00.

LARGE WHITE LIMA. A late standard variety which has long been considered the most tender and delicious bean grown, either green or ripe. Ours is an extra selected stock. Pkt., 10c; pt., 25c; qt., 50c; pk., \$2.00.

DUTCH CASE KNIFE. This is also used as a cornhill bean. Pods very long and flat; beans flat, kidney-shaped, white, of excellent quality green or dry. Pkt., 10c; pt., 25c; qt., 45c; pk., \$1.40; bu., \$5.25.

- LAZY WIFE'S. A late bean that is unsurpassed for use in any season. Pods long, broad and thick, easy to gather. Stringless, rich and buttery when cooked. Pkt., 10c; pt., 30c; qt., 60c; pk. \$3.00.
- KENTUCKY WONDER. Best green podded Pole Bean. Pods green, nine inches or more long, nearly round, fleshy, stringless and of excellent flavor. Dry beans, long, oval, dun-colored. It is an early and most prolific variety. Pkt., 10c; pt. 30c; qt. 50c; pk. \$2.50.
- SCARLET RUNNER. This variety is cultivated chiefly for its bright scarlet flowers. Its vines and leaves are very strong, making an excellent climber. Beans of fair quality, either cooked or dry, They are of a purplish color variegated with black; large thick and kidney. shaped. Pkt., 10c; pt., 25c; qt., 45c.

The prices quoted by the packet, pint and quart are for the best Seed Beans, Postage Paid, by Mail. Remember that, by express or freight, you can DEDUCT 8c. per pint or 18c. per quart.

FOR THE BEE TABLE.

RUNKELRUEBEN, Ger. BETTERAVE, Fr. oz. to 100 feet of drill, 5 to 6 lbs. to acre in drills.

CULTURE .- Sow as early in the spring as ground can be worked and for succession every two weeks after up to the first of July, in drills twelve to fourteen inches apart, and when well up thin to from four to six inches. The young plants removed in thinning, are excellent cooked in same manner as Spinach. Take up the roots in October and store in cellar like Potatoes.

DIRIGO. A new, extra early turnip beet which we consider the best yet introduced on account of its handsome shape and attractive color. It is one of the best for either summer or winter use. It is a beautiful dark red color, of fine grain and flavor. Tops and tap roots quite small. A most desirable variety for market gardeners by whom it is used largely for bunching. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Bused largery for bunching. Frk., 5c; 62, 10c; 14, 10, 25c; 10. 75c.
 Barnard's Camand's Blood Beet.
 SPLENDID American variety which by constant, careful selection has become fixed and uniform in shape. It is round and smooth, does not grow very large, therefore requires but little thinning. It has a small top and a single tap root. An excellent sort for bunching. The flesh is deep red in color, exceedingly sweet and tender. It matures early. It is a standard winter variety. Packet, 5c; oz., 10c; 14 lb, 25c; lb, 75c.

EGYPTIAN BLOOD TURNIP. A standard early variety. Globe shaped, somewhat flattened on top. Skin deep red, also the flesh, which is of fair quality. Tops very compact. Many beets can be grown in a limited space. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 45c.

« & Crosby's Egyptian Beet. « «

This strain is much in demand by market gardeners for forcing and early out-door sowing as it reaches a saleable size in a short time.

It is turnip-shaped, of good form, small necked, with short tops and a deep blood color. Pkt., 5c; oz., 10c; 1 lb., 20c; lb., 60c.

IMPROVED EARLY BLOOD TURNIP. An old standby. This beet does not mature so early as those named above. It is an excellent one for the home garden and summer use. Pkt., 5c; oz., 7c; ¼ lb., 15c; lb., 45c.

CROSBY'S IMPROVED EGYPTIAN.

EARLY FLAT BASSANO. Tops large, leaves light green, the leading sort to sow for greens. Roots quite flat, grows to a large size; flesh pink with white zones, sweet and tender when young. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c

EDMUND'S IMPROVED.

DEWINGS EARLY BLOOD TURNIP. A superior beet for the table. Skin smooth, flesh dark red with white bands. Good for summer or fall use. The best main crop variety. A great

favorite with market men-Our stock is unexcelled by any in the country. Pkt., 5c; oz., 7c; ¼ lb., 15c; lb., 45c. Special prices will be made to buyers of Beet seed in quantity.

ECLIPSE BEET.

Eclipse Beet.

HIS is not only an extra early beet but if sown late it is

valuable for winter use. Its extreme earliness, neat globe shape with small top and crimson color make this a most popular sort with market gardeners for bunching. Packet, 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.

COLUMBIA. It was introduced within a few years and is one of the very best for table qualities. It is turnip-shaped, has smooth skin and deep blood-red flesh. Fully as early as Eclipse but superior in many ways, never becoming coarse or pithy. Pkt, 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

HALF LONG BLOOD.

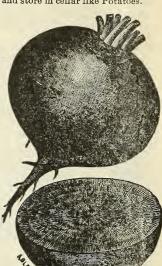

This is an entirely distinct variety and by far the best for winter The roots are about one-half as long as the Long

use. Dark Blood, but on account of their thickness weigh quite as much. They are always smooth and handsome, and the rich, dark red flesh is very sweet, crisp and tender, never becoming woody, even in portions above the ground. We consider this the most valuable sort of recent introduction. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb,, 60c.

IMPROVED LONG DARK BLOOD BEET. Tops large, necks small, leaf stems and vines red, leaf green, roots large. tapering, growing even with the surface, dark red, flesh dark red, zoned with lighter shade, very tender and sweet and remaining so when kept till spring. Packet, 3c; oz., 7c; ¼ lb., 20c; lb., 50c.

Please remember that our prices are for seeds post-paid by mail. If ordered by freight or express, at purchaser's expense, eight cents per pound should be deducted.

SWISS CHARD, or Sea Kale Beet. We recommend all our customers to try this distinct vegetable, which is superior to the common beet for greens; if sown at the same time it will be fit for use before it. Later, the plants form broad, flat, beautiful wax-like stems to the leaves, which are very delicious cooked as beets or pickled. Packet, 3c; oz., 7c; ½ lb., 15c; lb., 45c.

Mangel Wurtzel and Sugar Beets.

THE value of Mangels for stock feeding cannot be over-estimated. The results from their use are clearly seen in the improved health and condition of animals, the increased flow and quality of milk from cows, and the saving in fodder. Mangels yield enormously if the soil is rich, and can be grown at trifling cost. Everyone who keeps even one cow should grow a patch of Mangels for winter feed.

Sugar Beets are not as heavy yielders as Mangels, but they are of better quality, abounding in saccharine matter. For sugar producing purposes these beets are grown in Europe by thousands of acres, and in some localities in our own country immense establishments are in successful operation, extracting sugar from beet roots.

CULTURE: Both Mangels and Sugar Beets require deep, well enriched soil. Sow in May or June in rows eighteen inches to two feet apart, and three to eight inches in the rows. Young plants may be transplanted to fill up vacancies. As soon as frost occurs, dig the crop, 4 to 5 lbs. are required for an acre.

mammoth Long Red Mangel.

HIS Mangel grows to an immense size (often eighteen inches long) much out of the ground and is enormously productive on rich soil. It is an excellent keeper, very nutritious and milk producing. 9z., 5c.; ¼ lb., 10c ; lb., 30c.; 5 lbs., not prepaid, \$1.00. MONARCH. A new variety of mammoth proportions and rich, blood-red color. The roots are remarkably smooth and handsome, and of superior nutritive qualities. Moreover, it is enormously productive. This will prove itself a secure investment for our farming and gardening friends. Oz., 5c. ; 1/ lb., 15c. ; lb., 35c., postpaid; 5 lbs., \$1.25, not prepaid.

NORBITANT GIANT. Not surpassed for cattle feeding. Flesh red, very solid. Roots very large, always keeping well. A variety that pleases all. Oz., 5c.; 1/ lb., 10c.; lb., 30c.

GOLDEN TANKARD. Contains less water and more sugar than any other. A special feature is the rich, deep yellow color of the flesh, nutritious and milkproducing qualities. It is very hardy and productive. Grows two-thirds above ground and can be dug very easily. Oz., 5c. ; ¼ lb., 10c.; lb., 30c.

PRIZE CHAMPION GLOBE.

A large, globular, orange-colored variety of the Mangel that is even a better keeper than the Long Red. It produces fine crops upon shallow soil. Oz., 5c.; ¼ lb., 10c.; lb., 30c.

SUGAR BEETS.

KLEIN WANZLEBEN. In sugar beet growing sections this variety

is esteemed for its certainty to mature a crop which is rich in sugar. It has a conical-shaped root, large

and tapering; yields from twelve to eighteen tons of beets to the acre. Oz., 5c.; 1/4 lb., 15c.; lb., 40c.

SUGAR BEETS.

LANE'S IMPROVED SUGAR BEET. The best one to grow for stock feeding. The flesh is sweet and tender, and it is by some people liked for table use. Oz., 5c.; ¼ lb., 10c.; lb., 30c.

BORECOLE or KALE. Seeds may be moderately rich soil, in an exposed situation, in April or May. In transplanting treat the plants like young cabbages. The central leaves are used as spinach, and are much improved by frost.

- DWARF GERMAN, Greens or Sprouts. More hardy than cabbage. The leaves are curly, bright green and very tender. Excellent for garnishing and makes splendid greens for winter use. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 75c.
- GREEN CURLED SCOTCH. About two feet high, and bears green curled leaves. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 75c.

GOLDEN TANKARD.

BROCCOLI.

SPARGELKOHL, Gr. BROCULI, Sp. CHOU BROCOLI, Fr. 1 oz. to 2,000 plants.

Taller and more hardy than Cauliflower, but otherwise very similar to that delicious vegetable. Culture and use are identical with that of Cauliflower.

EARLY PURPLE CAPE, The best variety for our climate. Heads close and compact. of a violet or purple color, and of excellent quality. Pkt., 5c.; oz., 35c.; 1/4 lb., \$1.00.

WHITE CAPE. Similar to above except in color which is a creamy tint. Pkt., 5c.; oz., 35c., 1/4 lb., \$1.00.

Brussels Sprouts. The plants grow two to three feet

The plants grow high, and pro"

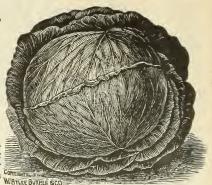

duce miniature heads from the sides of the stalk. These heads, after they have been touched by frost, become very tender, boiled in the same way as Cauliflower. This vegetable is easily cultivated, comes into use after frost, and is not appreciated generally at its true worth. Pkt., 5c.; oz., 10c.; 1/4 lb., 35c.; lb., \$1.35.

KOPFKOHL, Ger. ('HOU POMME, Fr. 1 oz. will produce 1.500 plants; ½ lb. to transplant for an acre.

WR CABBAGE SEED, grown under the care of practical, painstaking and reliable men; in localities where experience and thorough tests have proved the climate and soil to be the best adapted to their production in highest perfection; from fully developed, perfect heads, carefully cured and stored until time of planting; thoroughly tested as to vitality. Our seed can but give satisfaction, and we unhesitatingly recommend it for use of market or private gardener.

CULTURE: For early summer use sow in hot-bed in February or March; before transplanting to the open ground they should be hardened off by exposing them gradually to the night air, For winter use sow in open ground in May or June-taking care in either case not to let the plants stand too closely, as this makes them "spindling." When five or six inches high, transplant in rows two feet apart one way, and 12 to 18 inches the other, according to variety, burying

ALL HEAD EARLY.

to the first leaf whatever the stem length. Hoe every week, drawing the earth up about the plants until they begin to head, then give thorough and final cultivation and leave to mature.

CABBAGE PLANTS. Ready about April 1st. For prices on these and other Vegetable Plants see end of Vegetable Seed List.

---- Extra Early Express.

H EADS the list as the earliest Cabbage in cullivation, maturing in from 80 to 85 days from sowing the seed. It has but few outer leaves, almost every plant forms a small, conical head of a yellowish green color. In quality it is the best. Desirable for early market or home use. Pkt., 5c; oz., 15c; ½ lb., 35c; lb., \$1.40.

EARLY JERSEY WAKEFIELD. STOCK.

Long recognized as the best earliest marketable Cabbage. Medium in size, in shape pyramidal with a pointed peak. Hardy plants can be wintered in cold frames. Is a reliable, certain header and one of the most profitable cabbages for the market gardener. Our strain of seed is of superior quality. Pkt., 5c; oz., 80c; ½ lb. 85c; lb. \$3.00.

- EARLY DWARF FLAT DUTCH. Second early. Rounded, solid heads of medium size, tender and fine grained. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., \$1.50.
- For the Cabbage worm, try "Slug Shot." See "Insecticides" in back part of this catalogue.

V All Head Early.

The most profitable Barly Cabbage for market gardeners. The best all-the-year round Cabbage for the home garden.

Heads flat, deep, and solid; firm and tender; valuable also for late; seeds sown in July and set out in August will make fine heads. Largely planted by market gardeners. Nearly 10,000 can be grown on an acre, and nearly every one will produce a head. Pkt., 5c; oz., 15c; ½ lb., 75c; lb. \$2.50.

- EARLY YORK. An old favorite in the family garden. Heads small, heart shaped and firm. Almost certain to head and is a good shipping sort. We carry it to meet occasional calls. Pkt., 5c; oz., 15c; ½ lb. 40c; lb. \$1.25.
- ARLY WINNINGSTADT. Well known and much esteemed. Heads large, conical; leaves bright, glossy green. Valuable not only for early use but for winter cabbage. Because of vigorous growth thrives even under unfavorable conditions. Pkt., 5c; oz., 15c; ¼ lb,,40c; lb. \$1.50.

All Seasons.

Much grown by market gardeners and is also an excellent variety for home use. Remarkable for its ability to stand hot

- sun and dry weather. Makes solid, hard heads of large size. It is both an early and late variety, and is most appropriately named. Pkt., 5c.; oz., 20c; ½ lb., 60c; lb. \$2.00.
 - FOTTLER'S BRUNSWICK, Short Stem. We have a superior strain of this seed which brings large flat, solid heads of excellent quality. Stem very short. A sure header and good shipper. Pkt., 5c.; oz., 15c.; ½ lb., 40c.; lb., \$1.50.
 - CARLY SUMMER. Comes in about ten days later than Wakefield, having much larger heads. They are of uniform size, somewhat flattened. Unexcelled for market garden and good for home use. Packet, 5c.; oz., 25c; ½ lb. 75c; lb. \$2.50.

Chicago Market Garden.

THIS valuable cabbage continues to give the utmost satisfaction not only to Chicago gardeners but in every locality in which it has heen introduced. We have yet to find a variety more thoroughly adapted to general culture and which combines so many good qualities as our "Chicago Market" Cabbage. It will surely please you.

Planted early it develops fine, large solid heads one week later than the Wakefield, while if set out later it makes excellent heads for winter use. It stands the hot sun well, is almost certain to head, does not crack and is an excellent keeper. Pkt., 5c.; oz., 30c; ½ lb. \$1.00; lb. \$3.50.

No wear and the state of the

CHICAGO MARKET CABBAGE.

CABBAGE.

CABBAGE. MAIN CROP AND LATE SORTS.

Danish Ballhead.

The best Cabbage for Early Spring Sales.

T HIS entirely distinct variety comes from Denmark. It has been cultivated in America for five or six years and has proved a very desirable winter cabbage both on account of its uniformity in heading and from its *extremely hard*, solid head, which gives it superior keeping qualities. The heads are nearly round, almost as deep as they are wide. Color, blue green. The hard heads keep excellently when buried and present an attractive appearance when offered in the spring market. It has been thoroughly tested and may be relied upon to meet every claim made for it. Packet, 5c.; oz., 25c.; ½ lb., 80c.; lb., 83.00.

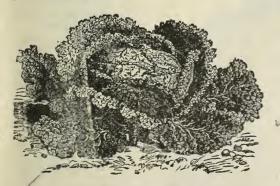

VANDERGAW. Sent out by an expert eastern cabbage seed grower a few years ago. ; It heads about the same time as Early Summer but is much larger and very solid. It is undoubtedly one of the best for general cultivation. A remarkably good keeper. Packet, 5c.; oz., 20c; 34 lb. 60c; lb. \$2.00.

UXEABURG. This makes a very hard head of good size, extraordinary weight, and is remarkable for its keeping qualities. It is a grand sort for late spring sales, for after many kinds are gone it retains its bright green color. One of the most profitable to grow, gardeners invariably realize high prices for this variety. Pkt., 5c.; oz., 20c.; ½ 1b., 70c.; 1b., \$2.50.

Selected Late Flat Dutch.

WE know this to be as fine a strain as ever offered. It grows very large, is remarkably hardy, a sure header, uniform in shape, size and color. Few varieties can approach this for superior quality. Market gardeners grow this very extensively for a late crop. Pkt., 5c; oz., 20c; ½ 1b. 60c; 1b. \$2.00.

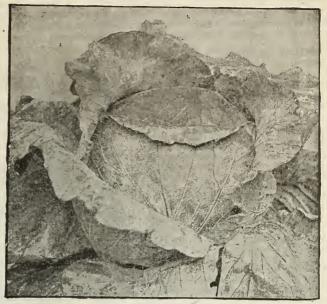

BRIDGEPORT DRUTHEAD. A leading Chicago variety for shipping and one of the most popular varieties in our markets. The large, solid heads and its non-liability to burst make it much in demand by market gardeners, some of whom will take no other seed. Packet, 5c.; oz., 30c; $\frac{3}{4}$ 1b. \$1.00; lb. \$3.50.

SAVOY CABBAGES.

AMERICAN DRUTHEAD SAVOY. The best of its class for home use or market. Heads large, solid and compact. Has rich, sweet flavor of the cauliflower when cooked. Pkt., 5c; oz., 20c; ½ lb. 60c; lb. \$2.

EARLY DWARF ULM SAVOY. Heads medium size, round and solid; leaves deep green and finely wrinkled. Pkt., 5c; oz., 20c; ½ lb. 60c; lb. \$2.00.

DANISH BALLHEAD CABBAGE.

. Surehead. . .

THIS famous Cabbage is most appropriately named, for it can be relied upon with certainty to head even under un-

favorable circumstances. The heads are large, very hard, firm, fine in texture, and sweet flavored. It is a late variety, keeps well, is good for shipping and is a favorite sort with market gardeners and for home use. Packet, 5c.; oz. 20c; 34 b. 75c; lb. \$2.50.

PREMIUM LARGE LATE DRUMHEAD. Head enormous. Very hardy and desirable fall and winter variety; also a good shipper. Pkt., 5c; oz., 15c.; ½ lb., 40c.; lb., \$1.50.

LUPTON. This is a new Cabbage which is so highly spoken of we now add it to our list. It is a dark green in color, has a short stem and is one of the best keepers, coming out in the spring bright and fresh, a little earlier than Flat Dutch and Drumhead. We have some very choice seed. Pkt., 5c; oz. 25c; ½ lb. 65c; lb. \$2.25

• Autumn King. e e

THE large, broad heads are uniform in shape, hard and solid as a rock, fine grained and tender -more so than any other very large cabbage. Forming so few outer leaves it goes almost all to head. It is a rapid grower and does not require special culture to bring out its excellencies. Pkt., 5c.; 30c; 34 lb.\$1.00; lb.\$3.50.

HOLLAND. The superior merit of this variety is the hard heading and long keeping quality. Heads medium size; white. If properly stored they will be found when taken up in spring to be in perfect condition. Pkt., 5c.; oz., 30c; ½ 1b. \$1.00; 1b. \$3.50.

RED LEAVED CABBAGES.

MAMNOTH RED ROCK. By far the best, largest and surest heading red cabbage. Color, deep, rich red. Many successful market gardeners choose this for their entire crop of red cabbage, pronouncing it the best of all. Pkt., 5c.; oz., 25c; 14 lb. 75c; lb. \$2.75.

RED DUTCH. Heads large, round and solid; excellent for salad or pickling. A sure header and a good shipper. Pkt., 5c.; oz., 15c.; ½ lb., 50c; lb.\$1.75.

ARR

MOEHREN, Ger. CAROTTE, Fr.

and one foot apart (3 feet apart for field culture) from middle of May until first of July, thinning four to eight inches, according to varieties. Keep your plants well cultivated. Under favorable conditions 600 bushels per acre is a fair crop.

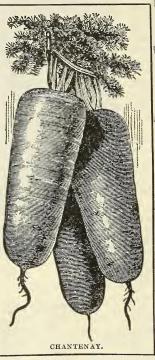

CULTURE:-For early crops sow as soon as ground can be worked in drills one inch deep

The Carrot being enormously productive and of superior nutritive quality, is a desir-1 oz. to 100 ft. of drill, 3 lbs. per acre. able and profitable crop to grow for stock feed. We recommend to our farmer friends, Danvers Half Long, Long Orange and the White Belgian varieties as especially adapted for this purpose.

- CHANTENAY. For market gardeners and table use it is probably the best in shape and finest in quality of all. Flesh tender, deep orange color. This carrot yields enormously, is smooth, has a large shoulder and is easily harvested. Pkt., 5c.; oz., 10c; ¼ lb. 25c; lb. 75c.
- EARLY SCARLET SHORT HORN. Quite short, nearly round. Adapted for forcing for market and culture for early home use. Deep orange in color, flavor excellent. Pkt., 5c.; oz., 10c.; ¼ lb., 25c; lb. 75c.
- OXHEART OR GUERANDE. In shape nearly oval, stump rooted. Color, rich orange. Quality for table use unexcelled. An enormous yielder. Many farmers use this sort for feeding stock. Packet, 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 60c.
- DANVERS HALF LONG. A smooth, wellformed carrot, which grows to a popular size and is suitable for all soils. Flesh, orange color. Very prolific, often yielding 20 to 30 tons per acre. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 60c.
- SAINT VALLERY. A new, large variety of an orange-red color. Smooth, broad at the shoulder, 10 to 12 inches long, tapering to a point. Excellent for table use and profitable for field culture. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 55c.

CAULI

BLUMEN KOHL, Ger. CHOUFLEUR, Fr. 1 oz. will produce about 2,000 plants.

- HALF LONG SCARLET NANTES. An early stump-rooted variety that is valuable for table use. Flesh red, with very little core. Pkt., 5c,; oz., 10c.; 1/4 lb., 25c; lb 75c.
- BARNARD'S IMPROVED DANVERS. Market Gardener's Special Strain. Very attractive in appearance, deep orange color, flesh sweet and tender with almost no core. A rapid grower and heavy cropper. Pkt., -5c.; oz., 10c.; ¼ lb., 35c; lb. 90c.
- IMPROVED LONG ORANGE. Standard late sort; of good flavor and an excellent keeper. Roots 12 to 15 inches long ; requires deep, rich soil on which it yields heavy crops. A good variety for the table and market purposes as well as to grow for stock. Pkt., 5c; oz. 10c; ¼ lb. 20c; lb. 65c.
- WHITE BELGIAN. Grows largely above ground, making it easy to harvest. The lower part of the root is white, the upper part is green. This carrot is enormously productive, the roots attaining a surprising size. No up-to-date farmer should neglect putting in a plot of Stock Carrots. Pkt., 3c.; oz., 7c,; lb., 40c.

We recommend a treatise

CARROTS; How to Grow Them.

It is not only instructive but interesting reading. Sent postpaid for 30 cents.

CULTURE:-Cauliflower ought to receive a similar treatment to Cabbage, except that it requires an extra rich soil, an occasional application of liquid manure and frequent watering, especially when heading. Early sorts in this latitude are mostly sown in January or February in hot-beds, transplanted once before

setting in open ground, and finally transplanted before the middle of April in rich, deeply-worked soil, 2 feet by 15 inches apart. Late sorts are sown and cultivated like late cabbage. When heading, tie the top leaves together to protect from exposure to the sun.

Selected Earliest Dwarf Erfurt.

The earliest of the earlies. Very dwarf, small leaved; can be planted twenty inches apart and forced. Makes a fine, firm head, of snowy whiteness, tender and of delightful flavor. This is the highest quality and very best Erfurt seed, much superior to extra early. Pkt., 25c.; ¼ oz., \$1.50; ½ oz., \$2.50; oz., \$5.00.

- EXTRA EARLY ERFURT. Where extreme earliness is not essential this will be found one of the best. Pkt., 10c.; ½oz., \$1.15; oz., \$2.00; ¼ lb., \$6.50.
- AUTUMN GIANT. A late variety, vigorous habit. Large, handsome, white heads, well protected by Packet, 5c.; foliage. 1/2 oz., 30c.; oz., 50c.; 1/ lb., \$1.75.

Barnard's Early Snowball.

"HIS very superior strain is noted for producing early plants of dwarf habit, short, compact growth, and uniform shape. It is extremely hardy and one of the surest to make a solid head. For forcing under glass during winter and early spring and for planting later in open ground no strain of Snowball can surpass it. Pkt., 10c.; 1/2 oz., \$1.35; oz., \$2.50; 1/4 lb., \$8.50.

Denmark.

Best for early and general crops.

We again have the pleasure to offer genuine seed direct from headquarters of this superior Cauliflower. It has been tested over a wide stretch of the country and the most flattering reports continue to reach us regarding its worth. It forms large, firm, fine grained heads as white as snow. It may be used either for an early or late crop. Is sure to head and is certain to Packet, 10c.; please. oz., \$2.50; 1/4 lb., \$8.00.

- EXTRA EARLY PARIS. Head of good size, white and compact. Early and desirable. Packet, 5c.; oz., 60c.; 1/ lb., \$2.00.
- LARGE ERFURT. A selec. ted strain with large, solid white heads. For late planting. Pkt., 5c; oz., 75c.; 1/4 lb., \$2.50.

CATALOGUE OF VEGETABLE SEEDS.

SELLERIE, GER. CELERI, FR. 1 ounce of seed for 2000 plants. CULTURE-Celery can be successfully grown with but little labor, in any good garden soil, by using plenty of well rotted manure with a liberal sprinkling of coarse salt worked into it, and this mixture should be put into the trenches, working it well into the soil, at least two weeks before the plants are transplanted into them. It delights, however, in low, moist, rich bottom land, or well-drained muck-soil. It is usually grown as a second crop.

CELERY PLANTS. Ready about June 1st. For prices on these and other Vegetable Plants see end of Vegetable Seed List.

BY T. GREINER. It tells how to dispense with nine-tenths of the labor generally thought CELERY FOR PROFIT. necessary in celery growing, and how to make the business pay really big profits. This book is thoroughly complete in every detail, and is embellished with many helpful and original illustrations. 30 cts., Postpaid.

Wilhite Plume, selected.

HIS is a very popular early variety that for fall and early winter use is not surpassed. A desirable feature of this Celery is that naturally, its stalks and heart are white so that by closing the stalks by tying or by drawing the soil close about

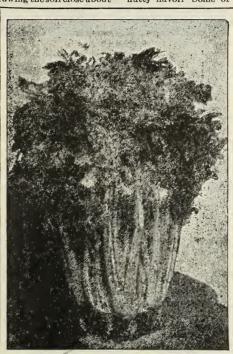

the plant and pressing it together with the hands, the blanching is completed. It is the earliest Celery in cultivation, but will not keep longer than the holiday season. Pkt., 5c.; oz., 15c.; lb., \$2.00.

- CRAWFORD'S HALF DWARF. A white variety, intermediate in size, crisp and nutty. A favorite with market gardeners. Pkt., 5c; oz., 15c.; lb., \$2.00.
- GIANT WHITE SOLID. The best large variety. Fine for market as well as family garden. Pkt., 5c; oz., 15c; lb., \$1.50.
- BOSTON MARKET. A medium sized, hard, crisp and delightfully flavored white variety. Pkt., 5c; oz., 15c; lb., \$1.50.
- DWARF GOLDEN HEART. In the leading Celery-growing districts this is extensively grown. It is a distinct and handsome sort. When bleached the heart is golden yellow, solid, showy and attractive. Of excellent flavor and one of the best keepers during the winter. Pkt., 5c; oz., 15c; lb., \$1.50.

Evan's Triumph. The best late Celery.

HIS new Celery is of superb quality and one of the best keepers, remaining in condition for use much longer than most sorts. The very large solid stalks are of the finest quality and texture, crisp, brittle, tender and really nutty in flavor. It stands at the head of all late keeping Celeries. Pkt., 5c; oz., 30c; lb., \$3.00.

CELERIAC.

Golden Self-Blanching.

-HE best celery in cultivation and the most profitable for market and family use. The handsome

appearance and straight, strong stalks of this celery are well brought out in the illustration. The heart is large, solid, golden yellow in color and of delicious flavor. It will turn at maturity to a yellowish white without banking, but like all other celeries is improved by having some dirt brought up to the stalks. Pkt., 5c.; oz., 25c.; lb., \$2.50.

ERIA

Perfection heartwell. 200

STANDARD sort and one of the best of the white varieties. The stalks are of good size, vigorous growth, very solid and never hollow; crisp, tender and of exceedingly fine, nutty flavor. Some of our largest growers, who have tried

other sorts extensively choose the "Perfection," for the main crop, as there is no other strain which equals it for storing, and few which approach it in quality and beauty. Pkt., 5c.; oz., 15c.; lb., \$1.75.

- GIANT GOLDEN HEART. A selection from Dwarf Golden Heart. The quality is grand, by some considered better than in the original variety; large size, beautiful color, crisp and deliciously flavored. One of the best celeries for market, and also desirable for home use. Pkt., 10c; oz., 30c; lb.\$3.00.
- GIANT PASCAL. A selection from the famous Golden Self-blanching. It produces broad and thick, solid stalks of handsome appearance, which are entirely stringless, crisp and tender, and of a delicious, nutty flavor, and is absolutely free from any bitter taste. It requires but little earthing up, bleaches rapidly. It is a good keeper and for January and February use is undoubtedly unexcelled. It is a good shipping variety, free from rust or rot. Pkt., 5c; oz., 20c; lb., \$1.75.
- NEW ROSE. The red Celeries far surpass the white and yellow in flavor and keeping qualities and the color feature renders them attractive for table decoration. We offer this as the choicest red variety. It is hardy, crisp, nutty, and one calculated to win the favor of all. Pkt., 5c; oz., 20c; lb., \$1.75.
- OLD CELERY SEED. Used in flavoring soups, pickles, etc. 1/4 lb., 10c; lb., 35c.

or TURNIP ROOTED CELERY .-- A variety of celery having turnip or apple-shaped roots which may be cooked, sliced, and used with vinegar, making an excellent salad. It is cultivated like celery, little or no earth-

ing being required. Ready for use in October. One ounce for 50 feet of row. BARNARD'S GIANT. Very large roots. Flesh white, with a stronger and

- sweeter flavor than other varieties. Pkt., 10c.; oz., 35c.; lb., \$5.00.
- LARGE, SMOOTH PRAGUE. One of the best. Roots smooth, almost round. An excellent keeper. Pkt., 5c.; oz., 15c.; lb., \$1.25.
- EXTRA LARGE ERFURT. Much prized by German gardeners. Pkt., 5c.; oz., 15c; lb. \$1.25.

APPLE SHAPED. A new and improved sort, that keeps admirably. Pkt., 3c.; oz., 15c.; lb., \$1.25.

WASHTENAW CO., MICH. I think the seeds we get of you are the best I have purchased from any firm. You send the best and most seed for the money. Mrs. GEO. BAHNMILLEE.

Sow in light, rich soil in early spring in drills half an inch deep in rows one foot apart. Cultivate like Carrots. The roots are fleshy, and when dried and ground are mixed with or used as a substitute for coffee. The young leaves are used as salad and are preferred by some even to the Dandelion.

LARGE RED MAGDEBURG. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

> Chives belong to the On ion

tribe. They are cultivated for their tops which are used for flavoring. The clumps we offer, planted in ordinary garden soil, soon increase so that the tops can be cut during the season as required. 1 or 2 clumps are sufficient for a family garden. Clumps, 10c; by mail or express prepaid, 25c.

CHUFAS or Earth Almonds.

See page of Miscellaneous Seeds.

CORN, SWEET or SUGAR.

WELSCHKORN, Ger. MAIS, Fr.

1 qt. for 200 hills. 1 peck for an acre in hills.

All varieties may either be sown in rows 3½ feet apart, placing the kernels one foot apart in the row, or planted in hills at a distance of 3 to 4 feet each way. The richer the soil and the taller the variety, the greater should be the distance between the hills. The first planting may be made about May 15th. For succession, plant every two weeks until August.

MAMMOTH WHITE CORY.

The Largest and Best EXTRA EARLY Sweet Corn.

A DECIDED and marked improvement on the White Cob Cory.

The ears are twelve instead of eight-rowed, very much larger and free from the open space which is such an objectionable feature of the original sort. The grain is white, the quality is good, and the beauty and size of the ears gives this variety ready sale in all markets. Packet, 5c; pint, 20c; quart, 40c; pk., \$1.00; bu., \$3.75.

EARLY CORY (RED COB). Recognized throughout the UnitedStates as the standard early Sweet Corn. Ears eight-rowed, with red cob and broad light pink grains. A profitable sort to grow for early market. Pkt.. 5c; pt., 20c; qt., 35c; pk., 85c; bu., 3.00.

EXTRA EARLY ADAMS. This is really a field corn, but a very tender variety for table use. It can be planted earlier than any Sweet Corn. Ripens "thin sixty days. Pkt., 5c.; w., 15c.; qt., 30c.; pk., 75c.; bu., \$2,75.

UPLAND CRESS.

CORN SALAD OR FETTICUS.

1 oz. to 35 feet of row.

It is used during the winter and early spring months as a substitute for Lettuce. Cooked and served same as Spinach.

Seed may be sown in August or September, in shallow drills, and protected in cold sections by leaves or straw during the winter. Cultivate the same as Lettuce, thinning 3 or 4 inches apart.

LARGE LEAVED. Pkt., 3c; oz., 7c; ¼lb., 20c; lb., 60c

CRESS or GRASS.

KRESSE, Ger. CRESSON, Fr. A well-known pungent salad. It can be eaten alone or with lettuce. Requires to be sown thickly in shallow drills at frequent intervals, say two weeks apart, to keep up succession as it soon goes to seed. Should be cut when quite young.

VOOUBLE CURLED. For salad or garnishing. May be cut two or three times. Pkt., 3c; oz., 7c; 34 lb., 15c; lb., 40c.

UPLAND CRESS. This is a hardy perennial which remains green almost the entire year. It is ready for use *before any other Salad* in the spring. It has the flavor of Water Cress. Pkt., 10c.

WATER CRESS.

Can be grown in moist places fairly well, and easily where there is a supply of fresh water—on the margin of ponds, creeks, etc. It has perennial roots and increases rapidly by self-sown seeds and extension of the roots. It has a pungent flavor. Pkt., 10c; oz., 30c; ½ lb., \$1.00.

Please note that prices quoted for pints and quarts are postage paid by us. If ordered by express deduct at rate of 10 cents per quart. Onehalf pints furnished at pint rates.

EARLY MINNESOTA. An old but most excellent variety both for market and home use. Ears fair size and uniform, eight rowed, kernels tender and sweet; color white. Nearly as early as Cory. Pkt., 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$2.75.

CROSBY'S EARLY SUGAR. This is extensively grown for canning. Ears short, twelve or more rowed, grain thick and sweet. Comes in three or four days later than Minnesota. Packet, 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$2.75.

Country Gentleman.

The Finest Sweet Corn for Private Use.

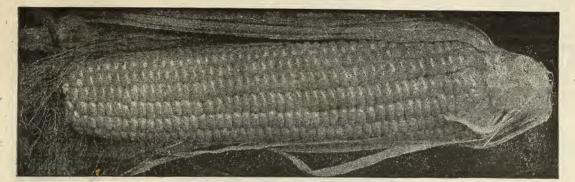

HE great merit of this Corn is its fine quality, being of fine, rich flavor, remarkably sweet and tender. Where quality is prefered to size, it has no equal. Ears of fair size, three to five to a stalk, cob small. Kernels pure white and long. We cannot speak of it too highly as the Sweet Corn to plant for home use. Ripens about same time as Stowell's Evergreen. Packet, 5c; pt., 15c; qt., 30c; pk., 80c; bu., \$3.00.

STOWELL'S EVERGREEN.

More extensively planted than any other sort, being the general favorite with market gardeners and canners for late use. If planted at the same time with earlier kinds *it will keep the table supplied until October*. Ears are of good size, grain deep, tender and sugary, remaining a long time in condition for cooking. Pkt., 5c; pt., 15c; qt., 25c; pk., 75c; bu., \$2.50.

SWEET CORN.—Continued.

AN EAR OF EARLY CHAMPION, PHOTOGRAPHED GREEN WHEN READY FOR BOILING.

EARLY CHAMPION.

The Earliest LARGE Sweet Corn.

PRODUCES ears ten inches long in 60 days. Comes in immediately after the small eared early sorts. It has a medium size, white cob, kernels pure white, very sweet, tender and full of milk; yields three to four ears to the stalk. Pkt., 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$3.00.

- **OLD COLONY.** An old variety that is hard to beat. Ripens a little ahead of Stowell's Evergreen. Stalks grow tall and carry usually two large 'ears, sixteen rowed. The grain is deep, rich and sweet; cob white. A valuable market sort and **one of the best for canners.** Pkt., 5c; pt., 15c; qt., 30c; pk., 70c; bu., \$2.50.
- **PERRY'S HYBRID.** Nearly as early as Minnesota with larger ears, twelve to fourteen rowed, averaging two ears to a stalk. Kernels large, cooking white and tender. Pkt., 5c; pt., 15c; a qt., 30c; pk., 75c; bu., \$2.75.

100RE'S EARLY CONCORD. Medium early; 12 to 16 rowed. Ears large and well filled. Good to follow Crosby. Pkt., 5c; pt., 15c; qt., 25c; pk., 75c; bu., \$2.75.

Chicago Market.

A Money Maker for the Market Gardener.

O^{UR} local market gardeners consider this one of the most profitable varieties to plant, some of them use no other.

It has many good points to commend it, chief among which are earliness, large size, fine appearance (being well formed), great productiveness, two to three ears on a stalk, and superior table quality. It is twelve rowed, cob white, a stout, stocky grower, and is equally valuable for the home gardener as the trucker. Pkt., 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$2.75.

- HICKOX. A week to ten days earlier than Evergreen. Makes a large ear of white and handsome grain on a white cob. Remains in condition a long time. The best sort for drying and canning. Pkt., 5c; pt., 15c; qt., 25c; pk., 75c; bu., \$2.75.
- BLACK MEXICAN. Although the ripe grain is black or blueblack in color, the corn when in condition for table cooks *almost white*. It is very *sweet and tender*. Once tried in the family garden it is sure to be continued. Pkt., 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$2.75.

VZIG ZAG EVERGREEN.

THIS illustration (taken from a photograph of a dried ear) gives a better idea of its characteristics than can be described. Hitherto Stowell's Evergreen has been the standard and favorite late corn, but it must now take its second place. Zig Zag 1s sweeter, has larger ears, is much more productive (yielding 2 to 4 ears to the stalk) and remains fit for use longer than Stowell's or any other variety. For canning factories it is unequalled. Private planters and market gardeners who once try this will use no other late variety, for, beyond all doubt, it is the best large eared late Sweet Corn produced up to the present time. Pkt., 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$2.75.

POP CORN. The boys will thank you to order some for them to plant. We have seed that is very choice. It pops large and white. Pkt., 5c; ½ lb., 20c; lb. 30c.

- MAMMOTH SUGAR. Ripens a little later than Evergreen. Large ears. Kernels flat. Largely used by canners and market gardeners. Pkt., 5c; pt., 15c; qt., 30c; pk., 75c; bu., \$2.75.
 - EGYPTIAN, or Washington Market. This matures very late. Invaluable for canning, ears large, twelve to fifteen rowed, grain is sweet and tender. Pkt., 5c; pt., 15c; qt., 25c; pk., 75c; bu., \$2.75.

Please remember our prices on Sweet Corn by the pint and quart include prepayment of postage by us. Customers ordering Sweet Corn to be sent by freight or express can deduct at rate of 10 cents per quart from prices named.

FIELD CORN and SWEET CORN for Fodder. pages 49 and 50.

PEPINO, Sp. GUERKEN, Ger. CONCONBRE, Fr. 1 oz. for 50 hills; 3 lbs. in hills per acre.

CUCUMBE

SLUG SHOT KILLS THE BUGS.

* HE Cucumber is a tender annual and should never be planted in open ground until settled weather arrives, for general crop about the middle of May. For pickles, plant in June or to about the middle of July. By far the best results are obtained from plantings in warm, rich sandy loam. Prepare hills 4 feet apart each way, and mix with the soil of each a shovel full of well rotted compost. Sow thickly, and when all danger of insects is past, ("Slug Shot" is sure death to the striped cucumber beetle), thin out all but three or four of the stockiest vines in each hill. As the cucumbers attain sufficient size, both the perfect, and the imperfect specimens should be picked at once, as fruit left upon the vines to ripen soon destroys their vitality, and consequently their productiveness.

SIBERIAN.

Very early, at least a week ahead of Early Russian. Of quick, short growth, fruit small, green, just the size so much esteemed for table pickles. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

- COOL AND CRISP. As a Cucumberforslicing we know of none better. Long and slim, pointed at the ends, very dark green, almost black. One of the earliest. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.
- EXTRA EARLY GREEN PRO-LIFIC. Matures fully ten days earlier than the well-known Green Prolific. Market gardeners will find it very advantageous to plant this strain. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c.
- EARLY FRAME. An old and popular variety, bearing fruit of good size, straight and well formed. Desirable for pickles. Pkt., 3c; oz., 7c; 1/4 lb. 15c; lb., 50c.
- EARLY GREEN CLUSTER.

Hardy and vigorous bearing fruit in clusters near the root. Desirable for table use. Pkt., 3c; oz., 7c; 1/4 lb., 20c; lb., 60c.

EARLY RUSSIAN. For small pickles this is a good sort to cultivate. Grows about 4 inches long and is very hardy. Pkt. 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.

Arlington White Spine.

HIS is a favorite market variety, largely used for forcing as well as for out-door cultivation. It is early, of good size, always straight and smooth, and very prolific. Color dark green, never turns yellow, and excels in crispness and fine flavor. Pkt. 5c; oz., 10c; ¼ lb., 20c; lb., 70c.

- NICHOL'S MEDIUM GREEN. Is good for early forcing, and for slicing and pickles. Color, dark green, flesh crisp and tender. Some pickle growers think this is the best variety for the purpose. Pkt., 3c; oz., 7c; 1/4 lb., 20c. lb., 60c.
- GREEN PROLIFIC. Great bearer of medium sized fruit that is excellent for slicing as well as for pickling. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c.
- GHERKIN or BURR. From the West Indies. A very small oval sort, grown exclusively for pickles. Prolific to an extraordinary degree. Seeds are slow to germinate. Pkt., 5c; oz., 10c; 1/2 lb., 25e; lb., 90c.

WESTERFIELD'S CHICAGO PICKLE.

HIS is now recognized all over the country as the BEST Cucumber for pickles. It is valuable for slicing also, being of fine flavor. The fruit is of medium length, pointed at both ends, coarsely prickled; color dark green. Our Chicago pickle factories use this variety to a large extent. Pkt., 3c.; oz., 7c.; ¼ lb., 15c.; lb., 50c.

> deep green color in all stages of growth. Fruit is quite long, smooth and handsome. Pkt., 3c; oz., 7c; 1/4 lb.. 20c; lb., 60c.

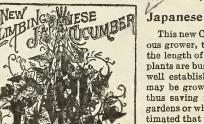

IMPROVED LONG GREEN. Long and smooth. One of the very best for sweet pickles. Firm and crisp with very few seeds. Pkt., 3c; oz., 7c; 1/4 lb., 20c; lb., 60c.

Japanese Climbing Cucumber.

This new Cucumber is a strong and vigorous grower, the vines attaining nearly twice the length of common varieties. The young plants are bushy, but as soon as they become well established they begin to climb, and may be grown on fences, poles or trellises, thus saving much valuable space in small gardens or where land is expensive. It is estimated that with this Cucumber the product of a given area can be increased three-fold. The fruits are ten to twelve inches in length. of a fine green color; the flesh is thick and firm, never bitter, and fine for pickling, as well as slicing. It is very prolific, the vines are proof against mildew, and continue bear-ing until late in the fall. Pkt., 5c; oz., 15c; 1/4 lb., 30c; lb., 90c.

For Frames and Forcing.

Sow the seeds in small pots early in the year. TELEGRAPH. Fruit grows about 18 inches in length. Light green, smooth skin. An abundant cropper. Pkt., (25 seeds,) 25c.

BISMARCK.

One of the best to grow under glass. Fruit long, slender, dark green; flesh crisp and tender. excellent either for pickles or slicing. We have genuine seed of this desirable cucumber. Pkt., 5c; oz., 10c; 1/4 lb., 20c;

1b., 70c.

- EVERBEARING. Small size: very early and continues to produce fruit until killed by frost. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 65c.
- WHITE WONDER. Color, ivory white, skin thin but tough, flesh solid and of fine flavor. Grows about 8 inches long. Unexcelled for use of the family table. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.
- MPROVED WHITE SPINE. The well-known standard variety for table use, either sliced or in pickles. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c.

EVERGREEN WHITE SPINE. An excellent early shipping

sort. It always remains a

EGG PLANT.

AUBERGINE, Fr. EIERPFLANZE, Ger. 1 oz. for 1,000 plants. For price on plants see vegetable plant list.

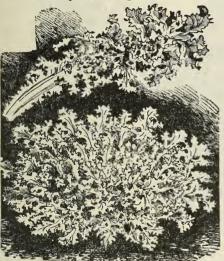

Any good garden soil will answer, provided it be in a sheltered position and be well cultivated, Sow in hot-bed in March; when two inches high, transplant into a second bed or thin to 4 inches apart. Plant in open ground at commencement of summer weather, setting out in rows 21/2 feet apart each way. Carefully protect from intense sun, drought, weeds and potato bugs. Throughout its growth take every precaution to avoid chilling. Use Slug Shot if you notice potato bugs on your egg plants.

- NEW YORK IMPROVED PURPLE. This is known by market men everywhere. Fruit spineless; large, oval; skin purple, flesh white, quality excellent. Pkt., 5c; oz., 30c; ¼ lb., 75c; /b., \$2.75.
- BLACK PEKIN. Very early; fruit nearly round, skin smooth, dark and glossy; flesh white and fine-grained. Pkt., 5c; oz., 30c; ¼ lb., 75c; lb., \$2.75.
- EARLY LONG PURPLE. Hardier than other sorts; does well almost anywhere; fruit long and dark purple in color. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., \$2.50.

ENDIVE. ENDIVIEN, Ger. CHICOREE, Fr. 1 oz. will sow 150 feet of drill.

Its leaves, when properly blanched, make a tender and delicious salad for fall and winter use. Should be sown in July. When the leaves are

eight to ten inches long, tie the tops together to blanch the heart and remove the bitter taste. Lift late in fall with a ball of earth attached and place close together in a frame or cellar.

GREEN MOSS CURLED ENDIVE.

GREEN MOSS CURLED. A unique variety, somewhat re-sembling a tuft of moss. Very crisp, tender and of good flavor. Being less hardy than other sorts, it requires protection from cold. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

BROAD-LEAVED BATAVIAN. Has slightly wrinkled, thick leaves. These, when blanched, make a delicious summer salad. It is usually grown for use in soups and stews. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

GARLIC. KNOBLAUCH, Ger. AIL, Fr.

A bulbous-rooted perennial, much valued for flavoring soups, stews, etc. It thrives best in a light, well-enriched soil. The

1 lb. to 10 ft. drill. root or bulb is composed of many small bulbs called "cloves." which are planted in the spring, six or eight inches apart. In August the tops die down, when the bulbs are ready to gather. Cultivate and store, same as onions. Fine bulbs, 1/4 lb., 15c; lb., 30c., postpaid.

Herbs in general delight in a rich, mellow soil: Sow the seeds early in spring in shallow drills, one foot apart; when up a few inches thin out to proper distance or transplant. Care should be taken to harvest them properly. Do this on a dry day, just before they come into full blossom; dry quickly in the shade, pack close in bottles or dry boxes to exclude air entirely.

HORSE RADISH.

This is not reproduced from seed, but planting pieces of roots called "sets." These, planted small end down about two inches below the surface, will produce radish in one season, As it increases very rapidly, any out of the way location in the garden should be chosen. Small roots, doz., 25c; 100, 75c, by mail, postpaid. Write for special price in large quantities.

TURNIP ROOTED KOHL RABI. CABBAGE.

KOHLRABI, Ger.

CHOU-RAVE, Fr.

1 oz. to 2.000 plants.

WHITE SHORT LEAVED. Much superior to Vienna. It is very early and the best for forcing as well as for outdoor culture. Bulb is greenish-white, smooth, of finest texture and quality. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; lb., \$3.50.

EARLY WHITE VIENNA. Early; small, white bulb. Best for table use. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.60.

EARLY PURPLE VIENNA. A little later than the white; color purple. Pkt., 5c; oz., 20c; 1/4 1b. 60c; lb. \$2.25.

LARGE AMERICAN FLAG. This is the sort chiefly grown by market gardeners. It is of excellent quality, mild flavor and uniform. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.25.

- MUSSELBURG. (Scotch Champion.) Large and broad leaves. Flavor mild and pleasant. A good Leek. Pkt., 5c; oz., 15c; 1/4 lb. 50c; lb.\$1.50.
- VIIONSTROUS CARENTAN. The largest variety, often three inches in diameter, and becoming very white and tender. A very hardy and desirable sort, which is worthy of more extended cultivation. Pkt. 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

ETTUCE LATTICH, Ger. LAITUE, Fr.

The Lettuce is universally grown by all those who have gardens. It is of easy growth and will thrive in any ordinary garden soil. Sow thinly in rows one foot apart, and when large enough thin out the plants so as to leave room for growth. To obtain good Lettuce all through the season it is necessary to make sowings at short intervals, for Lettuce during the 1 ounce will sow 150 feet of drill. hot months is apt to become bitter and run to seed. For home use we recommend the Head Lettuce in preference to the loose-leaved varieties; they are finer flavored, more solid, tender and crisp, and usually without a trace of the bitter flavor occasionally noticeable in the loose-leaved sorts.

... CURLED OR COOSE=LEAVED CETTUCE...

Grand Rapids.

OR greenhouse forcing this fine Lettuce deservedly stands at

the head of the list. It matures quickly, is little liable to rot, and keeps without wilting when exposed for sale longer than any other forcing sort. Forms a loose head of yellowish green leaves. It is also a desirable variety to sow in the open ground in early spring. Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb. 90c.

EARLY CURLED SIMPSON. Excellent for forcing. It forms a compact mass of leaves, more curled than those of Black seeded Simp-son. Pkt., 5c.; oz., 10c.; ½ lb. 25c; lb. 90c.

Cos, or Celery Lettuce.

The Cos Lettuces are distinct from the other sorts, in having long, narrow, spoon-shaped leaves, which usually fold into loose sugar loaf shaped heads, which blanch better by having the outer leaves drawn about them and tied. They are justly celebrated throughout Europe on account of their exceeding crispness, tenderness and delicate flavor, and are becoming more and more popular in this country as they become better known.

GRAND RAPIDS FORCING.

Black Seeded Simpson.

N Chicago and throughout the West in gen-

eral this is the favorite with market gardeners and is unexcelled for the private garden. Its leaves are lighter in color than Curled Simpson; they are nearly white, thin, crisp and tender. Packet, 5c.; oz., 10c.; ¼ lb., 25c. lb., 90c.

PRIZE HEAD. One of the best, large, thin loose-leaved sorts for the home garden. The leaves are exceedingly tender, bright green, tinged with red, slightly crimpled, crisp and tender. Pkt., 5c.; oz., 10c.; ¼ lb., 25c; lb. 90c.

COS, OR CELERY LETTUCE.

TRIANON. A self-blanching sort. The leaves when blanched, are crisp and tender and stiff, like celery stalks. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c.; lb., 90c.

PARIS WHITE. Light colored, very brittle, tender leaves. Head elongated and conical. Pkt., 5c; oz., 10c; ¼ lb. 25c; lb., 90c.

... HEAD OR CABBAGE LETTUCE ...

Lettuce fresh and crisp from the garden is most enjoyable. We earnestly advise all who have a little plot of ground to grow their own Lettuce using some of the following:

. K Denver Market. . .

N early variety either for forcing or the open ground. It A^N early variety either to rotting the reen color and is slow to run to seed. The leaves are beautifully marked and blistered (like the Savoy cabbages), are very crisp, tender and of excellent flavor. Pkt., 5c.; oz., 10c.; 1/2 lb., 25c.; lb., 90c.

- WHITE SEEDED TENNIS BALL or Boston Market. A fine, early, sort; small, white, crisp leaves. Being hardy is grown in cold frames in winter. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c; 1b., 90c.
 - BLACK SEEDED TENNIS BALL. For forcing under glass or early planting out-doors, this is one of the best. Leaves thick, dark green, forming very solid heads. Packet, 5c.; oz., 10c.; 1/4 lb. 25c; lb. 90c.

For out-door culture there hanson. are none more reliable than this. In rich ground, well cultivated, the heads grow to resemble small cabbages. Outer leaves green, white within, having no better taste. Packet, 5c.; oz., 10c.; ¼ lb., 25c; lb. 90c.

- CALIFORNIA CREAM BUTTER. summer lettuce whose rich cream-yellow leaves are most refreshing in appearance and rich and buttery to the
- taste. The heads are of good size, round and solid, and slow to go to seed. Pkt., 5c.; oz., 10c.; 1/4 lb,, 25c.; lb., 90c.
- BIG BOSTON. Sure to be wanted by all. It makes large, solid heads at all seasons and is crisp and tender in quality. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

6 Cilton's White Star. ...

A Great Favorite with Market Gardeners.

CUPERIOR for forcing as well as out-door planting; splendid Shipper. Forms enormously large heads; leaves bright

green, thick and crisp. This variety retains its fresh appearance longer than many other varieties. Pkt., 5c.; oz., 10c.; 1/1b., 25c; 1b. 90c.

SALAMANDER. Heads large, compact, light green, with white center. Invaluable to market gardeners, because of its remaining a long time in head, and also on account of its resistance to both drought and heat. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb. 90c.

YELLOW SEEDED BUTTER. A valuable variety for late

- spring or summer planting, as it will stand the heat better than most sorts, and is slow to go to seed. Its large, solid, yellow heads are very crisp and tender, and of excellent flavor. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 90c.
- ST. LOUIS HEAD. Considered the best head lettuce to force under glass and for early planting out of doors. A favorite with the St. Louis market gardeners as well as those of other cities. Forms medium sized heads, compact and solid. Leaves thick, rich and nut y in flavor. Pkt, 5c; oz., 10c; ¼ lb., 25c; 1b., 90c.
- ALL THE YEAR ROUND. A hard usa. lettnce. Leaves crisp and tender. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb. 90c

MUSK MELON.

Musk melons thrive best in a warm, rich, sandy loam. After thorough spading or plowing, make hills 6 feet apart each way and mix with the soil of each two shovelfuls of well-rotted compost. The hills should be 18 inches in diameter, 15 inches in depth, and raised about 3 inches above the surface of the land. As soon as warm weather becomes established, plant 12 to 15 seeds in a hill. When plants are

V

1 ounce to 60 hills; 2 to 3 lbs. per acre in hills.

MELON. Fr.

well up and all danger from bugs has passed, thin gradually, leaving finally 2 or 3 of the stockiest vines to hill. Should the growth prove too luxuriant, pinch off the end of the vines when about 3 feet in length. Should the fruit set too thickly, thin when young, in order to increase the size and the quality of the remaining melons. This also hastens ripening. Askes or lime is excellent to sift over the young plants to prevent the attack of insects. Use Slug Shot to kill them.

EXTRA EARLY HACKENSACK. Ripens fully ten days ahead of the old Hackensack, which it much resembles. Being a good shipper it is largely grown at the South and sent to Northern markets. Fruit large, round and deeply netted. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

MELONE, Ger.

NETTED GEM. One of the earliest and the best sMALL green-fleshed melon in cultivation. It is grown for shipping in baskets to almost every market in the country. The fruit, while not large, is remarkably uniform in size, globular in shape, skin light green and deeply netted. In flavor it is most delicious. Truly a gem. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 60c.

LONG ISLAND BEAUTY.

A new variety of the Hackensack type, originated on Long Island. It possesses so many advantages over that well-known sort that it is destined to supersede it. The skin is densely netted. In form it resembles the Hackensack but is more ribbed and of handsome appearance. Besides its superior quality it has also earliness to commend it for approval. Pkt.. 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

NONTREAL MARKET. To all who wish to raise the most beautiful melons for exhibition, or extra large fruit for the market we recommend this variety. Very authentic reports are recorded of these melons having been grown to the weight of *nearly forty pounds each*. In Canada,

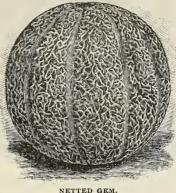

where they are chiefly grown under glass, twenty-pound melons are common. Fruit is almost round, flattened at both ends, deeply ribbed and netted; skin green. Flesh very thick, light green, and of delicious flavor. It is a sure and heavy yielder. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 60c.

IMPROVED GREEN NUT/IEG. A large melon, nearly round. Flesh greenish yellow and of delicate flavor. The seed we offer is most carefully selected and we know it will give satisfaction. Pkt., 5c; oz., 10c; ½ lb., 20c; /b., 60c.

Pht. 50; oz., 10c; ¼ lb. 25c; lb. 85c.

NETTED GEM.

TIP TOP

CHICAGO MARKET.

This exceedingly valuable nutmeg variety, originated as a result of careful selection, with one of Chicago's mostsuccessful market gardeners and melon growers. It continues to hold the highestplace in the estimation of market men, holding its own year after year againstall comers. It matures early, ripens evenly, and is of uniform size. The fruit is large, nearly reund in form, and flattened at the ends. Flesh thick and of most delightful flavor. It is a green fleshed variety, and in good demand among the Chicago hotels. Packet, 5c; oz., 10c; ¼ lb., 20¢; lb., 60c.

V Champion Market.

The flesh is thick, light green in color, and of rich, sweet flavor, well maintaining the promise of quality that is indicated by the deep ribs, heavy netting and handsome appearance. The melons are of the same form and outer appearance as Netted Gem. but are three times the size. It is early and very productive, frequently bearing seven perfect melons on a single vine. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb.,60c.

> ROCKY FORD. A new and valuable melon which, within a very short time, has attained national fame for dainty appearance, excellent quality, and delicacy of flavor. It is of the Netted Gem Type, oval in shape, averaging four in. in length. Flesh has a delightful aroma, is juicy and lightful aroma, is juicy and rich, color greenish white. Nearly all prominent hotels.

east and west, now include the ROCKY FORD melon in their bill of fare. Pkt.. 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

TIP TOP. There is a distinctness about this melon which readily enables any one to select it in a group. The universal testimony of every one cultivating the TIP TOP is, that every fruit produced, whether big or little, early or late in the season, is a good one—sweet, juicy, fine flavor, firm, but not hard fleshed. eatable to the very outside coating. As a yielder it is not surpassed. Pkt, 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

CHRISTIANA. Recommended because of its extreme earliness, being of the

quickest growth of any on record. Flesh yellow, sweet, juicy, and of good quality. It is best just as it falls from the vines, hence adapted *particularly to the family garden*. Pkt., 5c; cz., 10c; ½ lb., 20c; lb., 60c.

MUSK MELON.-Continued.

VOSAGE OR MILLER'S CREAM. This is more largely grown for the Chicago market trade than any other Musk Melon. It is exceedingly popular throughout the West, and in its season is served on all hotel tables and leading restaurants.

The shape is pointed-oval, somewhat resembling a cocoanut. Medium size, color dark green, slightly netted and of a rich orange color where the melon lies on the ground. The flesh is thick, salmon-colored, and in quality is hard to beat. Thin rind and very small cavity. We have some extra choice seed of this fine melon. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb. 75c.

EMERALD GEM. A small, very early sort, that is without doubt the most delicious table melon extant. Form, flat-round. Flesh, deep or-

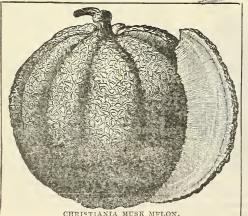

ange, very thick, with small seed cavity. Skin smooth, dark green. The quality is all that can be desired. This melon is not a good shipper. We commend it to all for home use. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

WASSERMELONE, Ger. MELON D'EAU, Fr. 1 oz. to 30 hills, 4 to 5 lbs. in hills to an acre.

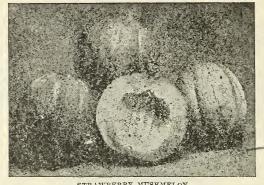

COLE'S EARLY

A delicious and productive variety for the family garden, succeeding in Northern States. It is so early that it matures in every State; very hardy; the flesh is deep red in color, clear to the rind, and is most sweet and delicate in flavor. It is exceedingly brittle, and hence cannot be shipped to distant markets, but is most desirable for the home garden. Pkt., 5c; oz., 7c; ¼ lb., 20c; lb., 60c.

MAMMOTH IRON CLAD. A monstrous, striped, oblong melon, having a rind of such remarkable strength and impenetrability as to render it perfectly "iron-clad;" hence the best shipper produced to date. Flesh red, sweet: tender, crisp and juicy. Heart very large. The keeping qualities of this melon are remarkable. Whether plucked or left upon the vines, they remain perfectly fresh fully one month after ripening. In addition to the foregoing facts it is the most remarkable yielder on record. Pkt., 3c; oz., 7c; 1/4 lb., 20c; lb., 70c.

STRAWBERRY MUSK MELON. This, the latest production of an expert melon originator, was first introduced by us. Its outward appearance compares favorably with the old Green Nutmeg, turning to a yellowish hue overnight, when

STRAWBERRY MUSKMELON.

ripe. Flesh red, soft to the rind, exceptionally sweet. Grows to a desirable market size, about 6 to 8 pounds each. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

- SURPRISE. An early and very prolific variety, bearing good-sized melons of first quality. It has a thin, cream-colored skin, and thick, salmon-colored flesh. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.
- BANANA. An entirely distinct variety. It grows from eighteen inches to two feet in length. Fruit long, slender and banana-like. When

ripe it smells like one having a delightful fragrance. Skin creamy white, not netted; flesh salmon color when the melon is ripe. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.

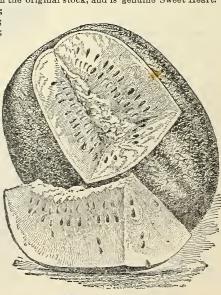

The culture of the Water Melon is very similar in all respects to that of the Musk varieties. Being hardier, and of much more vigorous habit, however, it may be planted in May, before settled warm weather appears, in hills not less than 8 feet apart, and thinned to two vines per hill. If melons of largest size are the object, remove all but a few when quite small.

SWEETHEART.

This variety has no equal as a melon to ship to distant markets, and it is so attractive in appearance that it is readily sold when all others are a drug. Of the largest size, a little longer than thick, but nearly globular in shape. Skin very bright, beautiful mottled green. Flesh bright red, firm and heavy, but crisp, melting and exceedingly sweet. This melon is not only a good keeper, but it improves in quality for a long time after ripening. Seeds dark gray. That which we offer is grown from the original stock, and is genuine Sweet Heart.

Pkt., 5 c; oz., 10 c; 1/4 lb, 20c; lb., 60c.

MANGO MELON. The vine on which they are borne is similar to the musk-melon, and requires the same cultivation. The fruit is about the size of a large peach. ond of a bright orange vellow color, somewhat russeted. They are easily cultivated, wonderfully prolific, and can be used in every way like a peach.

SWEET-HEART WATER MELON.

11/11

VINE PEACH or

Pkt,5c; oz,20c.

CUBAN QUEEN. An excellent melon which stands shipment well. Fruit medium to large, oval, skin striped, light and dark green; flesh bright red, sugary and crisp. It has been grown to weigh one hundred pounds. A good keeper. Pkt., 3c; oz., 7c; /4 lb., 15c; lb., 50c.

KOLB'S GEM.

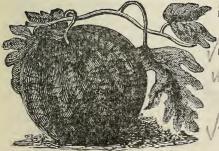

In the melon-growing states this variety is more largely grown than any other. The dark green rind, although thin, is exceedingly tough, so that the melons stand handling and long distance shipments without breakage. Flesh bright red, flavor excellent. Form nearly round, weight varies from 30 to 50 pounds. Retains its sweetness and freshness a long time. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.

PRIDE OF GEORGIA. For table use this watermelon stands unsurpassed. Owing to its thin rind it is not a good shipping sort. Form, oblong-oval, with indentations somewhat like those of the musk melon. Skin, deep green; flesh, red sweet and tender. Those who raise their own melons for home consumption will find this one first-class, and, too, it thrives in any section of the country. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 55c.

GEORGIA RATTLESNAKE. Fruit large, shape oblong, rind dark green striped and mottled, flesh red, of fine quality. It stands shipment long distances. Pkt., 3c; oz., 7c; ¼ lb., 15c; 1b., 50c.

MOUNTAIN SWEET. An old standard sort and one of the best for the home garden. Fruit large oval, rind dark green and thin, flesh scarlet, solid to the core and sweet. Pkt. 3c; oz., 7c; ¼ lb., 15c; lb., 50c.

PEERLESS or ICE CREAM. An excellent one for home use. It will also stand shipping short distances. It is early, vigorous, hardy; fruit medium size, oval, finely mottled; flesh. bright scarlet. solid to the center, crisp, sweet and tender. Pkt., 3c; oz., 7c: ¼ lb., 15c; lb., 50c.

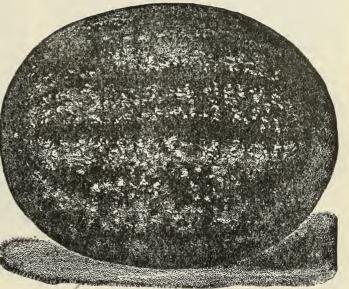

CITRON MELON.

HOOSIER KING. A melon with exceptional qualities. The melons grow oblong and are of an even diameter through their entire length. The flesh is brilliant red, very solid, sweet and luscious. The skin is striped light and dark green; the rind is very thin, but exceedingly hard, which renders it a valuable shipping sort, as well as a desirable variety for family and market purposes. Pkt., 5c; oz., 10c; ¼ lb., 20c; lh., 60c.

A water melon whose name and fame are THE DIXIE. known the country over. It is conceded to be the best shipper and keeper grown. It is larger, ten days earlier, more beautifully striped and of finer appearance than Kolb's Gem. Skin dark green, striped, flesh bright deep scarlet. sweet, tender and juicy. A most valuable cropper. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.

HUNGARIAN HONEY. Surprisingly sweet and luscious. Fruit globe-shaped; skin, dark green; flesh very rich, bright red A superb melon for family use. Weighs about ten pounds. The melons ripen early and the vines are healthy and vigorous. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 75c.

KOLB'S GEM WATER MELON.

TRIUMPH WATER MELON. The leading characteristics of this fine

new melon are earliness, fine shape, thin, tough rind, great productiveness. attractive color and excellent quality. It is a cross between Duke Jones and Kolb's Gem. It has the handsome appearance of the former and the shipping qualities of the Gem, very early, very prolific, deliciously sweet and of enormous size. It possesses all of the qualities that go to make up a desirable Melon. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

DARK ICING. Fruit round and of medium size; rind dark green, thin, but very strong; flesh deep scarlet; rich, juicy and delicious. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 60c.

LIGHT ICING. Similar to the preceding, but a light variety. Our stocks are carefully selected. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.

PHINNEY'S EARLY. The melons are of medium size, oblong in shape and uniform. Flesh red, tender and brittle. Rind mottled. A sure cropper. This Melon is hardy and a valuable sort for cultivating in the Northern States. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.

CITRON. Grows uniformly round and smooth, striped and marbled with light green. Flesh white and solid. It should be borne in mind this variety is not eaten in the raw state. It makes preserves of the finest flavor. Pkt., 5c; oz., 106; ¼ lb., 20c; lb., 70c.

MUSHROOM SPAWN.

CHAMPIGNON BRUT, Ger. CHAMPIGNON, Fr. Ten pounds will spawn about ten feet square.

MUSHROOMS are much enjoyed as a table luxury and with proper conveniences may be had almost the year around. The Spawn can be planted in anything capable of keeping the necessary materials together in a greenhouse, cellar or shed, where the right temperature can be secured.

CULTURE: Mix thoroughly three parts of horse manure, free from straw, with one part old pasture soil. Make a bed in the cellar, or anywhere that a temperature of 50 to 70 degrees can be maintained; make the bed of any size or shape to suit, but have the compost from 8 to 10 inches deep. When the heat has subsided to about 90 degrees, plant pieces the size of a walnut. 3 inches deep and 6 or 8 inches apart, pressing the compost compactly. After 8 or 10 days cover the bed with 2 inches of loam and top of this 3 or 4 inches of hay or straw and work it down evenly. After the bed has been spawned do not water unless quite dry and when necessary use luke warm water only. The mushrooms will appear in 6 or 8 weeks if the temperature is right.

ENGLISH MUSHROOM SPAWN. In bricks weighing about one and one-fourth pounds each, per brick, postpaid, 25c. By express, not prepaid, lb., 15c.; 10 lbs., \$1.25.

MARTYNIA.

HIS is quite ornamental in growth, quickly forming large busides and bearing handsome Gloxinia-like flowers. When young and tender (test by pinching with the nail) the seed-pods make excellent pickles, and as they are produced in great abundance, a few plants will suffice for an ordinary garden. Sow in May or June.

MARTYNIA PROBOSCIDEA. The best variety for pickles. It is well worth growing, as the large plants with their handsome pods attract great attention, and the young seed-pods make delicious pickles. Per pkt., 10c.; oz., 30c.; ¼ lb., \$1.00; per lb., \$3.00.

SENF, Ger. MONTARDO, Fr. MUSTARD. 1 oz. sows 75 feet of drill.

The young leaves are used in early spring with cress. lettuce, etc. Sow thickly in shallow drills a foot apart and cut when a few inches high. May also be boiled and eaten like spinach.

WHITE, Excellent for salads or garnishing. Oz., 5c; 1/4 lb., 15c; lb., 35c. BLACK or BROWN. Leaves oblong, broad and cut. Seeds reddish brown. Oz., 5c; ¼ lb., 15c; lb., 35c.

NASTURTIUM, Indian Cress.

If growing for seed, plant in poor soil; when cultivated for flowers or leaves the ground cannot be too rich.

TALL VARIETIES. The seeds, while young, are used for pickles, the highly ornamental flowers and leaves for garnishing. Pkt., 5c; oz., 10c; ¼ lb., 30c.

DWARF VARIETIES. Beautiful colored flowers. 'Pkt.. 5c.; oz., 12c; 1/4 lb., 35c.

WHITE VELVET OKRA.

or GUMBO.

1 oz. sows 50 feet of drill.

tious soup, and when pickled are a

Extensively grown in the Southern States, and should be better known, as it is a delicious vegetable. The young ESSBARER SAFRAN, Ger. GUMBO, Fr. green pods make a healthful and nutri-

fine salad. Sow after weather becomes warm in rows three feet apart, two feet apart in the rows. Will succeed in any good garden soil.

IMPROVED DWARF. A distinct early variety. Pods comparatively short but very numerous. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 65c.

WHITE VELVET. A valuable new variety characterized by its round, smooth pods, free from ridges and seams. It is the most prolific Okra now offered, bearing 16 to 20 remarkably white pods per stalk; all well filled with tender, well-flavored fruit, rich in mucilaginous properties. Most desirable for all purposes for which Okra is used. Dried in the shade the pods can be used for soups at any time. Pkt., 5c; oz., 10c; 1/2 lb., 20c; lb., 65c.

... PEANUTS ...

When sending your seed order don't forget to order a few Peanuts for the boys and girls. It's lots of fun to cultivate Peanuts and ensures the young people a supply for the winter. Peanuts are a paying crop to grow

EARLY VIRGINIAN. Remarkably early, of large size and very productive. Of spreading habits cultivate in ridges. 1/2 lb., 15c ; lb., 25c., postpaid.

SPANISH. The stems grow upright instead of spreading. Planted in May they yield a bountiful crop of nuts in September. This is a good variety on which to fatten hogs. 1/2 lb., 15c.; lb., 25c., postpaid.

The accompanying illustration was made from a pho-tograph and portrays a single stool of Mushrooms grown by a Chicago gardener from our special brand English Jushroom Spawn. Our Spawn can be thoroughly de-pended more the souther and as mo in most framantly

pended upon. It is *reliable* and as we import frequently is *always* fresh.

directions how to raise Mushrooms. Postpaid, 50c.

34

ONION

ZWIEBEL, Ger. OGNON, Fr. 1 oz. to 100 ft. of drill; 6 lbs. to an acre.

CULTURE: As early as the ground can be worked in the spring, sow the seed in drills fourteen inches apart, covering one half inch. They should be planted in rich, sandy soil, which is as free from weeds as possible. Commence hoeing as soon as the rows can be seen; skim the ground over the

surface, avoid stirring deeply, and work the soil away from the bulbs. At second hoeing weed carefully and thoroughly by hand. When the tops die, pull and spread evenly over the ground, stir or turn until fully dried, then cut the tops one-half inch from the bulb. For pickles or sets, good ground should be prepared as above, and the seed should be sown very thickly in broad drills, about 40 pounds to the acre for sets, and 15 to 20 lbs. for pickling. For sowing onion seed and cultivating the crop, it will pay you to purchase a good drill and hand cultivator. See description elsewhere,

EXTRA EARLY RED FLAT. Matures very early, yields abundantly, and is of mild flavor; medium size, deep red, close grained, solid and heavy. An excellent market variety. Particularly recommended for the North and Northwest as even there it will produce full sized onions from the black seed. Pkt., 5c; oz., 15c; 1/4 lb., 40c; lb., \$1.50.

EARLY RED GLOBE. Its extreme earliness has been a surprise to those who have grown it. Ready for market several weeks ahead of Large Red Globe. Of good size, fine grained and mild flavored. Pkt., 5c. oz., 20c; ¼ lb., 60c; lb., \$2.25.

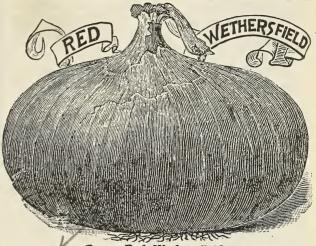

WHITE GLOBE. This is one of the handsomest onions grown; of handsome shape, beautiful appearance and clear, white skin, commanding the highest market

price. Flesh, pure snow white, and flavor extremely mild. Grows very rapidly, ripening very early and evenly. A splendid keeper. We have a superior strain of very choice seed. Packet, 5c; oz., 25c; 1/4 lb., 70c; lb., \$2.50.

We will sell lots of 5 lbs. or more of any Onion Seed at 10c. per lb. less than prices herein named. .

LARGE RED GLOBE. A handsome red globe onion which is much prized for its color and form. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., \$2.25

YELLOW DUTCH, OR STRASBURG. Bulb large, oval and variable in form. Outside skin brown and of firm texture. This is the kind to sow for sets. Pkt., 5c; oz., 15c; 1/4 lb., 40c; lb., \$1.50.

as Large Red Wethersfield. ...

By paying our growers an increased price for extra care we can con-fidently claim that for size, productiveness and keeping qualities our strain far surpasses the ordinary Red Wethersfield. Bulbs are perfect in form, purplish red in color, and bring the highest prices in market. Ripens in September; a sure and abundant cropper. Pkt., 5c; oz., 15c; 4 b., 40c; b. 31, 35 1/4 lb., 40c; lb., \$1.35.

Very

ONION SEED, Continued. ... PRIZE TAKER ONION ...

HIS grand variety has been several years before the gardening public and is now fully recognized as one of the best standard sorts. For handsome appearance and size it is not excelled by the monster onions from Spain, and in mildness of flavor and tenderness it is fully equal to the Bermuda Onion.

Whether cultivated for the home table or as a crop for the market this magnificent onion is really a valuable one to plant. In the market it attracts instant attention and brings the best price. It is today one of the largest, handsomest and most profitable varieties grown. By sowing early and transplanting it can be grown to an extraordinary size.

The Prizetaker Onion is globe shaped; of a clean, bright yellow or straw color. Has a small neck and ripens up hard. Keeps well until about midwinter. Flesh thick, white, mild and agreeable in flavor. It is easily grown, medium early in maturing. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

ONION CULTURE, The New.

By T. GREINEE : : : This new work is written by one of our most successful agriculturists, and is full of new, orig-inal, and highly valuable matter of material interest to every one who raises onions in the family garden, or by the acre for market. By the process here described a crop of 2,000 bushels per acre can be as easily raised as 500 or 600 bushels in the old way. The plan is feasible, and is being pursued by many market gardeners throughout the country. It will pay you to read this book. We send it postpaid for 50c or present it to every purchaser of 5 lbs, or more of Onion Seed.

PRIZE TAKER ONION.

NEW QUEEN. Bulbs very small and flat; flesh white and of a delicate flavor. Sown in February, they will make onions one or two inches in diameter early in the summer. Very early and of rapid growth, and keeps the year round. Fine pickling variety. Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., \$2.25.

EARLY WHITE BARLETTA. The great merit of this variety is its extreme earliness. It is fully two weeks earlier than the White Queen. Color, pure waxy white; very mild and delicate flavor; from 1 inch to 11/2 in. in diameter, and 3/2 inch thick. Good for pickling. Pkt., 5c; oz., 20c; 1/2 lb., 60c; lb., \$2.25.

1 quart to 100 feet of drill.

To the growing, curing, storing, cleaning and shipping onion sets we devote ...ONION SETS... a large share of our time and space. The sets are grown from seed supplied by us, cured and sorted under our own supervision. We shall be glad to quote special prices by the peck, bushel or barrel, subject to market fluctuations.

Onion sets may be planted as early in the spring as the conditions of the ground will permit and these will produce onions in the green state by June, Set about 4 inches apart in drills 1 foot apart.

BOTTOM SETS are produced by sowing the seed very thickly (40 to 60 lbs. to the acre) as early as the ground can be worked in the spring, in beds or broad drills, and not thinning out. About the middle of July, or whenever the tops die down. usually when about an half an inch in diameter, they are pulled

and allowed to lay on the ground a day or two, when the tops should be wrung off by hand, put into shallow trays or spread thinly in a dry loft; sets should be planted out as early in the spring as the ground is dry enough to work, in rows one foot apart, with sets two inches apart; the onions can be used in green state in June and will ripen in July.

The prices named below are for sets by mail postpaid. If you wish to purchase in larger quantities write for prices.

TOP SETS. On the top of the stem where seeds are produced on most onions, these tops or sets form. In early

WHITE MULTIPLIER ONION SETS.

This variety frequently produces as many as twenty bulbs in a cluster from a single bulb planted. The color is white and the size just right for bunching green; while if ripened for use as pickling onions it can be grown economically. When ripen-

ed, their keeping qualities are remarkable, having been known to keep sound for one year. Perhaps their most profitable quality is extreme earliness, being ready for market three or four weeks ahead of any other Onion Sets. It is aptly said of them that "the grass and weeds cannot grow fast enough to cover them." The largest of the sets, if allowed to grow through the summer, makes an onion of fair size, which divides when ripening.

WINTER or EGYPTIAN TREE. When once set out it grows for years without any protection or care, except in keeping down the weeds. It starts so early in the spring that is ready for use a long time before any other onions can be had. It is mild-flavored, sweet and tender. They form no large bulbs, but divide and grow as many as fifteen or twenty small onions in one bunch.

spring the clusters, after separating, are planted and the result is large onions which, with one years' growth, yield clusters on the top. They are used to make marketable onions, are sweet and mild flavored

POTATO ONIONS. Valuable for an early crop. The same bulbs increase in size and the parent bulb produces a quantity of small bulbs in a cluster, growing mostly on the top of the ground. They are great producers, mild and sweet in flavor and are esteemed by many to all other forms of Onion Sets.

PETERSILIE, Ger. PERSIL, Fr. 1 ounce will sow 150 feet of drill.

Soak the seeds a few hours in luke-warm water and sow early in spring in drills one foot apart. Thin out the plants to four inches. To preserve in winter transplant to a light cellar or glass frame. Used for garnishing and seasoning soups, meats, etc.

CHAMPION MOSS CURLED. The plant in appearance resembles a tuft of green moss. The leaves are extra large, extra dark green, tender, crimpled and curled. Just the thing for market men

to sell in hunches of not berbs. We rec. ommend 1 this sort. Pkt. 3c: oz., 7c; ¼lb.,15c; lb., 65c.

CHAMPION MOSS CURLED PARSLEY.

FINE DOUBLE CURLED. A curled variety having crimped leaves. It is used mostly for garnishing. Pkt., 5c; oz., 10c; 1 lb., 20c; lb., 65c.

- PLAIN OR SINGLE. Plain leaves of excellent flavor. They VEARLY ROUND. The earliest. are longer than those of the curled Parslies. Packet, 3c.; oz., 7c.; 1/4 lb., 15c.; lb., 60c.
- HAMBURG. The edible portion is the fleshy root. It is highly esteemed for flavoring soups, stews, etc. Packet, 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

Peas are extremely hardy, and will endure a great deal of cold either in or above the ground. By sowing as early as the ground can be worked and making repeated plantings at intervals of two weeks. peas of excellent quality may

ERBSEN, Ger. POIS, Fr. 1 quart will sow about 125 ft. of drill. 1% bu. an acre.

be had far into the summer. Sow in drills two or three inches deep and from three to four feet apart, narrow for the dwarf and wide for the tall growing sorts. Dwarf growing peas require very rich soil and no support; tall growing varieties should be trained to wire trellises or supported by brush. If the soil is rich they will run too much to stalks. Wrinkled peas (marked *) contain a greater amount of saccharine matter than the smooth sorts.

Figures preceding description of varieties indicate height in inches.

Price for packet, pint or quart, includes postage. When sold over our counter or if forwarded by mail or express at buyer's expense. 8 cents per pint, 15 cents per quart may be deducted from our prices.

The Earliest of the Earlies.

The records of another season have again shown that all the claims we made in former years for this very superior pea have been conclusively demonstrated.

It is the best variety for market gardeners to plant, and for home use we have yet to find a better. Grows about 30 inches high. Vines vigorous, extremely prolific, the pods being numerous and well filled with peas of good size and delicious flavor. A further good quality is that of ripening with great uniformity so that the vines can be stripped at one picking.

We have sold this pea in past seasons very extensively, and all who have grown it give it the highest praise. Try it this year. Pkt., 5c; pt., 20c; qt., 35c; pk., \$1.00; bu., \$3.50.

PASTINAKE, Ger. PANAIS, Fr. 1 ounce will sow about 150 feet of drill.

Cultivate as for Carrots. It is customary to leave Parsnips in the ground over winter as frost improves the quality of the roots. The Parsnip is valuable not only as a table vegetable but for stock feeding purposes also

MAGNUM BONUM. It gives the utmost satisfaction and yields the most money to the market gardener because of its decidedly handsome appearance, smooth, heavy roots, which are broad at the shoulder, fine grained and of superior quality. Packet, 5c.; oz., 10c.; ¼ lb., 20c.; lb., 55c.

- HOLLOW CROWN. An old standard sort, long, sweet, and very productive. One of the best for general cultivation. Packet, 3c.; oz., 5c.; ¼ lb., 15c.; lb., 40c.
- IMPROVED GUERNSEY. This is a good, half-long variety, having smooth roots. It is of good quality and recommended for the family garden. Pkt., 3c.; oz., 7c, ¼ lb., 15c; lb., 45c.
- Roots are of small size. Sometimes used for bunching with pot herbs. For shallow soils use this sort. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb. 50c.

MAGNUM BONUM PARSNIP.

ALASKA. 24 in. A desirable, very early pea for market gardeners. Pods dark green, peas blue. Can be shipped long distances without losing its color. Packet, 5c; pt., 20c; qt., 35c; pk., \$1.00; bu., \$3.75.

THREE BEST PEAS FOR TABLE USE:

They may all be planted at the same time and will be ready for use in succession and furnish an *abundance of delicious Peas all summer*.

The

*NOTT'S EXCELSIOR. 15 in.

earliest and best dwarf wrinkled pea. Fast taking the place of American Wonder. It is fully as early, while the pods are larger, more of them and better filled. The Peas are tender and of most delicious flavor when cooked. Pkt., 10c; pt., 25c; qt., 40c; peck \$1.25.

*HEROINE. 30 in. The quality of this pea is simply perfection. That

rich, buttery, marrow-like flavor for which the peas grown in the gardens of old England are

celebrated. Pods are large, pointed and heavy, deep green in color, and contain from seven to eight Peas. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.10; bu., \$4.00.

DUKE OF ALBANY. 50 in. Along with a number of

other new Peas, this was tested on our home grounds. It is a strong grower, foliage somewhat coarse. Matures late, about the same time as Telephone. Pods are long, large, thick, dark green in color. The peas remained in good eating condition some days after ripening. We consider this an excellent pea. Pkt., 5c.; pt., 20c; qt., 40c; pk., \$1.10; bu., \$4.25.

SPECIAL OFFER: One pint of each of the three Peas described above for 50c postpaid. One quart each of the three Peas described above for 90c postpaid. You should try them. They will not disappoint, you.

*SHROPSHIRE HERO. 36 in. Market gardeners who tried this new pea last season give it unstinted praise. The pods are larger and better filled than Telephone and others of its class; averages seven and often

THE ADMIRAL.

Che Admiral. 36 in. For second early market or family use we highly recoming six or more peas of best quality. Pkt., 5c; pt., 20c; qt., 35c; pk., 70c; bu., \$2.50.

EXTRA EARLY VARIETIES.

- RURAL NEW YORKER. 30 inches. An excellent very early Pea. Pods of fine shape, containing from six to nine peas of fine quality. Pkt., 5c; pt., 20c; qt., 35c; pk., 90c; bu., \$3.50.
- VBLUE PETER. 12 in. Sometimes called Blue Tom Thumb. A great producer; fine quality. Quite early and dwarf. Pkt., 5c; pt., 20c; qt., 35c; pk.. 90c; bu., \$3.50.
- PREMIUM GEM. 15 in. This is an extra early dwarf sort, an improvement on Little Gem. Pods long, dark green. Pkt., 5c; pt., 20c; q., 40c; pk., \$1.10; bu., \$4.25.
- *McLEAN'S LITTLE GEM. 18 in. A few days later than First and Best. Matures in eight weeks. When in a green state the peas are sweet and delicious. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.10; bu., \$4.25.
- *AMERICAN WONDER. 12 in. For many years deemed the earliest wrinkled pea in cultivation. Newer, improved varieties have taken from it this honor. In flavor, quality and productiveness it has not been surpassed. Pkt., 5c; pt., 20c; qt., 35c; pk., \$1.25; bu., \$4.50.
- PHILADELPHIA EXTRA EARLY. An extra early sort that is ready for the table in 45 days. A favorite market pea. Peas smooth and of excellent quality. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.25.

and vigorous grower. Each vine bears from three to five pods which mature well together. Pkt., 5c; pt., 20c; qt., 35c; pk., 80c; bu., \$3,00.

38

PEAS—For General Crop

HORSFORD'S MARKET GARDEN. 24 in. An enormous yielder, the pods literally packed with peas. Requires no bushing. Packet, 5c; pt., 20c; qt., 40c; pk., \$1.00; bu., \$4.00.

- McLEAN'S ADVANCER. 30 in. A favorite with market gardeners and for home use. Long pods, well filled. Packet, 5c; pt., 20c; qt., 40c; pk., 90c; bu., \$3.25.
- *ABUNDANCE. 18 in. Of branching habit. It is appropriately named for its yielding qualities. Comes into bearing after American Wonder. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.00; bu., \$4.00.
- *EVERBEARING, 24 in. Late. Should be sown thin. Makes long pods and large peas. Pkt., 5c; pint, 20c; qt., 40c; pk., \$1,00; bu., \$4.00.
- QUEEN. 30 in. A grand pea introduced a year or two ago from England. It follows Heroine in it's bearing season. Pods quite large; peas oval, dark green and of a delicious flavor when cooked. Packet, 5c; pt., 20c; qt., 40c; pk., \$1.15; bu., \$4.25.
- ROYAL DWARF WHITE MAR-ROWFAT. 24 in. A large, delicious marrow pea; an excellent bearer and a favorite with market gardeners. Packet, 5c; pt., 20c; qt., 35c; pk., 65c; bu.; \$2.50.
- *PRIDE OF THE MARKET. 24 in. Most wonderfully productive and extensively planted by market gardeners. Pods long, generally in pairs, dark green; peas round, blue, and of fine flavor. Pkt., 5c: pint, 25c; qt,, 50c; pk., \$1.35; bu., \$5.00.

IMPROVED STRATAGEM.

FOR a main crop, wrinkled pea it is difficult to find a better one than this. A grand market gardeaer's Pea. This strain is a great improve-ment on the old Stratagem. The pods are of im-mense size and uniformly filled with very large dark green peas of the finest quality. Vines in height about 24 inches, very stocky, with very broad, light green leaves, and bearing an abundance of large, handsome pods. The best pea now on the market for those who want large, showy pods and peas of the best quality. Packet, 5c; pt., 20c; qt., 40c; pk. \$1.00; hu. \$3.75. the best quality. Pa pk., \$1.00; bu., \$3.75.

*CHAMPION OF ENGLAND. 55 in. Generally conceded to be the best late tall pea. It is a profuse bearer and the peas

are of excellent quality. Adapted to the requirements of both amateur and professional gardeners. Pkt., 5c; pt., 20c; qt., 35c; pk., 90c; bu., \$3.25.

Telephone.

48 in. No pea of recent introduction has gained more steadily in popularity than this. Leaves coarse; vines extremely vigorous, carrying ten or a dozen pods each. Pods very large, well filled with peas of delicious flavor. We offer carefully selected stock. Pkt., 5c; pt. 20c; qt., 40c; pk., \$1.25; bu.. \$4.50.

- LONGISLAND MAMMOTH. 42 in. Earlier than Champion of England; an excellent cropper. Pods large size and well filled with green peas of excellent quality. Popular with eastern truckers and market gardeners. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.25; bu., \$4.50.
- LARGE BLACK-EYED MARROW-FAT. 60 in. This, like the preceding, is extensively grown as a field, crop. Pkt., 5c; pt., 20c; qt., 35c; pk., 65c; bu., \$2.50.

TWO NEW PEAS

V GRADUS.

Of a new family of Extra Early Wrinkled Peas.

DWARF TELEPHONE,

Unsurpassed for family gardens. See novelty pages for descriptions.

FIELD PEAS. Used for making soups, recording on stock, etc. We keep on hand Canada stock, etc. We keep on hand Canada

EDIBLE PODDED PEA.

DWARF SUGAR. Pods tender and succulent, in flavor equal to the best string beans. They are gathered while young, not shelled, but boiled whole. Pkt., 5c; pt., 20c; qt., 40c; pk., \$1.40; bu., \$5.00.

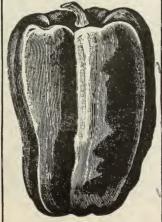

PFEFFER. Ger. PEPPER. PIMENT, Fr.

1 oz. seed to 1500 plants.

Peppers are more tender than most vegetables. The seed should be sown in a hotbed, cold frame or if no other convenience, a box in the window and transplanted about the last of May. They can be sown in the open ground when the weather becomes warm and settled. Warm, mellow soil, well fertilized, should be used.

GOLDEN DAWN. Resembles Bull Nose in shape. Color is a beautiful yellow, making a handsome appearance both in growth and on the table. Mild and sweet. Pkt., 5c; oz, 20c; ¼ lb., 55c; lb., \$2.00.

CHERRY RED. A small, smooth, round variety of dwarf growth. Fruit at maturity glossy scarlet. Packet, 5c; oz., 25c; 1/4 lb., 70c; lb., \$2.50.

RUBY KING.

Field, Golden Vine, Common Blue, and will quote prices for larger quantities than here named, on application. Pkt., 5c; pt., 15c; qt., 25c., postpaid.

- SWEET MOUNTAIN. Fruit very large, long, often eight inches or more in length, skin smooth, green when young and rich at maturity. Flesh thick, sweet and mild. This sort is much in use to stuff for mangoes. Pkt., 5c; oz., 20c; 1/4 lb., 55c; lb., \$2.00.
- LARGE BELL or BULL NOSE. Much esteemed for making chopped pickles. One of the earliest varieties. Flesh thick and hard, and not so pungent as some others. Pkt., 5c; oz., 20c; ¼ lb., 55c; lb., \$2.00.
- RUBY KING. The mildest pepper in our list. Grows from four to six inches in length by three to four inches in diameter. Color, bright and ruby red. Good for stuffed pickles. Pkt., 5c; oz., 20c; 1/4 lb., 55c; lb., \$2.00.
- CAYENNE. Used for pickles and making pepper sauce. Pods cone-shaped, small, red, very pungent. Packet, 5c; oz.; 20c; 1/4 lb., 55c; lb., \$2.00.

OTATOES FOR SEED. A CHANGE OF SEED ALWAYS PAYS.

In drills 3 ft. apart, 10 to 12 bushels to the acre. 1 peck will plant about 125 hills.

UR seed potatoes for this season are some of the finest tubers ever produced. They are "Northern Grown" by expert cultivators, and have been selected for quality with the greatest care. The tubers are large, smooth and free from disease. Our revised list contains the cream only. Inferior sorts are eliminated. At prices quoted potatoes are forwarded by express or freight as directed. We make no charge for sacks or barrels, nor for cartage to depots. The purchaser pays transportation charges and assumes risk of heating or freezing. Freight on one bushel will be no more than on one peck.

Extra Early Acme. It is believed to be a cross between Early Rose and Early Ohio. The strong claim is made for the Acme that it is fully one week in advance of any other potato in existence. Very early potatoes are usually shy yielders, the Acme is most productive. Tubers bandsome in appearance, skin flesh-color, flesh white. "Fit to eat in five weeks and fully matured in nine weeks from planting." ½ pk., 30c.; pk., 50c.; bu., \$1.25; Bbl., \$3.00.

Extra Early Ohio.

CTANDARD extra early Potato,) maturing two weeks ahead of the Early Rose. A special favorite with marketmen and the most profitable sort they can grow. It gives satisfaction in all parts of the country. The tubers are much smoother and of better shape than the Early Ohio. They are smooth, free from scab, and grow compactly in the hill, are easily dug; very few small ones, almost every one being of marketable size.

Pk., 35c; bu., \$1.00; bbl., \$2.75.

Choroughbred.

Earlier than Early Ohio.

WO years ago this splendid potato was sent out at the high price of \$25.00 per barrel. It

proved such a winner that there never has been stock sufficient to supply the demand until this season. The claims made for it are "as great a cropper as Irish Daisy, as fine flavored as the Freeman, and as early or earlier than the Early Ohio."

The tubers are oblong, smooth, in color, light blush or pink. They form compactly in the hills and at digging time nearly all

the potatoes are of marketable size. The eating quality is "something extra." Pk., 50c; bu., \$1.25; bbl., \$3.00.

CARMAN NO. 1. Originated by and named in honor of the celebrated editor of The Rural New Yorker, who says of this potato: "It is the finest potato I ever saw." It is a medium in season, resembles the Rural New Yorker in appearance,fleshwhite. Its chief characteristic is enormous productiveness; of

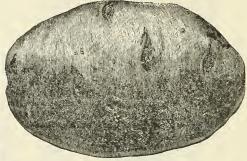

elegant quality, dry, white, mealy. Leading potato specialists are loud in its praises. Pk., 40c; bu., \$1.00; bbl., \$2.50.

In considering our prices please keep in mind that our barrels contain elseven pecks, or 165 lbs. of polatoes. A barrel of potatoes, unless the weight is stated, is an indefinite quan-tity. You may select three or more varieties in our list and we will put them up in one barrel, and mark the barrel plannly "open this end."

1, except that the tubers are not so elongated. Its good appearance, uniformity of shape, size (average one pound each) and productiveness makes this a leading variety to grow for market. It has but few eyes and they are very shallow, The skin and flesh are extremely white, no hollow or dark parts. Cooks up dry and mealy every time. Peck, 50c; bu., \$.100; bbl., \$2.75.

CORDERS. Although we have a good stock of all Potatoes offered, it is not in exhaustible. Late in season some varieties may be sold out. We suggest that a second choice be named on the order or permission given us to substitute. This we never do unless assured such change will be satisfactory to the buyer. LATE ORDERS.

EARLY THOROUGHBRED.

EARLY SIX WEEKS.

Please Notice that our discounts POTATOES, Field Corn, Grass and Clover seeds, Onion Sets, Tools and Fertilizers, 1 ces are NET. For all above our pri-

Early Six Weeks.

Without exception the earliest potato in existence.

EDIUM size, smooth, oblong; M skin pink, flesh white, tubers

grow close together in the hill and grow so rapidly that under favorable circumstances they are fit for family use in six weeks from the time of planting, and mature in ten or eleven weeks. We call this a good potato and can confidently recommend it for the market or home garden. Pk., 40c; bu., \$1.00; bbl., \$2,75.

EARLY ROSE, Genuine Seed. Now is the chance to stock up with this prime favorite. It is well known for earliness and general excellence. Pk., 40c; bu., \$1.00; bbl., \$2.75.

RURAL NEW YORKER NO. 2. Another of Mr. Carman's seed-

lings which has attained world-wide fame. The best intermediate and main crop potato. Color, both skin and flesh, white, quality unexcelled. It has very few and quite shallow eyes, is smooth and handsome in appearance. Peck, 35c.; bu., \$1.00; bbl.. \$2.50.

JUNE EATING. Originated in Wisconsin, skin and flesh

white, tubers close in the hill, few small ones. They have been ready for use as early as June 20th. The yield and quality is all that can be desired. Peck, 35c; bu., \$1.00; bbl., \$2.75.

CARMAN No. 3.

Doubtless the most popular late potato of the newer varieties, and certainly one of the most worthy. It yields great crops of

fine, large, smooth potatoes, even under the most unfavorable circumstances, and can be relied upon to bring in money. Its form is like that of Carman No.

"UNCLE SAM."

This splendid potato was sent out by a leading eastern seedhouse which has introduced many excellent varieties at various times. It has been grown in different latitudes and from all sections most flattering reports come of its great productiveness and general excellence. It is a medium late variety, ripening along with Bural New-Yorker No. 2. An enormous cropper, yielding tubers that are handsome, and of the highest quality, which cannot always be said of some varieties whose sole merit lies in their productiveness.

The tubers are oval with pure white russet skin. Cooked and on the table its pure, white, floury appearance attracts the attention of all. Pk., 50c; bu., \$1.50; bbl., \$3.50.

Seed Sweet Potatoes. Choice stock grown and handled expressly

for seed purposes. Please order early giving date you wish them shipped.

These specially ordered to do so we do not ship until planting time.

We pack Seed Sweet Potatoes for shipment in boxes and barrels with greatest care but as Sweet Potatoes are very susceptible to climatic changes we assume no responsibility for their condition after leaving our hands.

The following are kept in stock: YELLOW NANSERIOND, YELLOW JERSEY, RED BERMUDA.

Any of the above, packed carefully in boxes or barrels, Pk., 50c; bu., \$1.50; bbl., \$3.50.

...PUMPKIN...

KUERBIS, Ger. POTIRON, Fr. 1.02. to 15 hills; 4 to 6 lbs. to an acre.

JAPANESE PIE PUMPKIN. Seeds peculiarly sculptured. Ripens early. Flesh thick; salmon colored; fine grained, dry and sweet. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 65c.

CALHOUN. Color outside is yellowish brown, flesh salmon yellow, flesh thick and of splendid quality. Pies made from it are delicious to eat. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.
 CONNECTICUT FIELD. Oz., 5c; ¼ lb., 10c; lb., 25c.

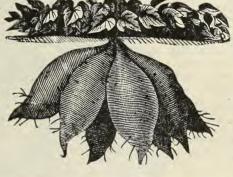

LARGE CHEESE. Its fine flesh and rich color make it valuable for table use. One of the best field pumpkins. Pkt., 5c; oz., 10c; ½ lb., 20c; lb. 65c.

THANKSGIVING. A new Pumpkin

of distinct shape and very thick, orange colored flesh. This pumpkin grows to a large size yet the seed cavity is remarkably small. It makes first-class pies for the Thanksgiving dinner. Packet, 5c;

THANKSGIVING PUMPKIN.

SWEET POTATO PLANTS.

We can supply these in their season in any desired quant ity. For prices on these and any other vegetable plants see end of Vegetable seedlist. For 1 arge quantities special quotations will be given on application.

The seeds are planted with corn or potatoes, but may be profitably raised in fields by themselves. Sow early in May in hills eight feet apart. For monster Pumpkins for exhibition purposes plant Mammoth Tours in very rich ground and feed liberally with liquid manure.

WINTER LUXURY. As a cooking variety and winter

- keeper it stands unequaled. It It is nearly round, 9 to 10 inches in diameter; of a golden yellow color, netted like a muskmelon. Pkt., 5c., oz., 10c; ¼ lb., 25c: lb., 75c.
- TENNESSEE SWEET POTATO. Pear shaped. Color of skin and flesh creamy white; flesh thick, when cooked resembles sweet potatoes. Keeps until late in spring. This is an old favorite pumpkin. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 60c.

SUGAR. An excellent small, round Pumpkin, with deep orange colored skin, flesh sweet and sugary. Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 50c.

CHAMPATH TOURS. Grown chiefly for exhibition purposes and for stock feed. It grows to an enormous size, frequently weighing over one hundred pounds. Skin salmon color, flesh yellow; keeps a long time. Pkt., 5c; oz., 10c; ½ lb. 30c; lb..\$1.00.

.RADISH.. RETTIG, Ger. RADIS, Fr.

1 oz. to 100 ft. of drill; 9 or 10 lbs. per acre in drills.

The growth must be rapid to insure those qualities upon which the Radish depends for excellence, viz.: crispness, succulence and mildness of flavor. A fine, dry, sandy loam, enriched and made light with well-rotted manure and a liberal dressing of salt is best adapted for the purpose, all heavy soils producing directly the opposite results from those desired.

For an early supply sow in a hot bed in February, care being taken to give abundant ventilation to prevent running to leaves. For open/air culture and succession, sow from middle of March until September at intervals of a week or ten days.

EARLY SCARLET TURNIP, White Tipped, Forcing Strain.

THIS Radish, beautiful in form and of handsome appearance, is extremely early, being ready for use in two or three weeks after planting. On account of its small tops this radish can be grown planted very closely together. Desirable for hot bed and greenhouse planting. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 65c.

- EARLY SCARLET TURNIP, White Tipped. Among the Chicago gardeners this is by far the most popular early Radish, or for planting in succession. Tops and roots both small, skin bright scarlet shaded to white at the tip; flesh white, mild and crisp. An ornamental variety of quick growth. desirable for forcing- Pkt.. 3c; oz., 7c; ½ lb., 15c; lb., 50c.
- EARLY SCARLET TURNIP. A round, deep scarlet variety, desirable for general use. Flesh white, mild and crisp when young. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.
- EARLY WHITE TURNIP. Same as above, except in color. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.
- WOOD'S EARLY FRAME. Fully ten days earlier than Long Scarlet, shape not quite so long. An excellent forcing or early market sort. Color, scarlet; fine flavor. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.
- LONG SCARLET, SHORT TOP, Improved. The standard sort for out-door culture in private gardens and for market. Root 6 to 9 inches in length, straight and smooth, growing half out of the ground. Color is brilliant scarlet. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.
- NE PLUS ULTRA. A very superior early, forcing Radish. It will mature in 18 to 20 days. The tops are quite small, the roots are globular with deep red skin; flesh white, crisp and tender. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 65c.
- EARLY YELLOW TURNIP. A most delicious radish. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 60c.

FRENCH BEBAKFAST.

EARLIEST CARTINE OLIVE. A new, distinct and beautiful variety of great forcing value. The roots are crisp and tender, much larger than those of the turnip sorts, while the tops are far smaller. A most valuable variety for the enterprising market gardener. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 65c.

EARLY ROUND DARK RED. This new radish is one of the *quickest growing* and *handsomest extra early* varieties in cultivation. Its richness of the color of skin, crispness, and oval shape makes it one of the most attractive. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c.

FRENCH BREAKFAST. Skin scarlet on the body and white at the extremity; flesh white, tender and mild. Of rapid growth. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c[.]

EARLY SCARLET GLOBE.

EARLY SCARLET GLOBE. Market Gardeners' Improved Strain.

TE illustrate a bunch of Scarlet Globe Radishes (made from a photograph) raised by one of our local gardeners. This Radish forms large, handsome, bright scarlet roots. For forcing under glass in the greenhouse, hot-beds or cold frames there is no better paying variety than this, and it sells better than most others. In flavor it is mild, crisp, juicy and tender. It makes a small top and will stand, a great amount of heat without becoming pithy. Sown in the open ground in early spring it will produce radishes 5 or 6 days ahead of all others. Pkt., 3c; oz., 10c; ¼ lb., 20c; lb., 65c.

QOSY GEM. It is one of the very earliest in cultivation; globular, with rich, deep scarlet top, blending into pure white at the bottom. Exceedingly tender, crisp and delicious, very desirable for forcing, being fit to pull in three weeks from sowing. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.

EARLY ROUND DARK RED.

RADISH—Continued.

PHILADELPHIA WHITE BOX. A white turnip shaped radish of extra fine quality. Its short top and rapid growth make it most suitable for growing under glass, in frames or boxes, as well as for early sowing in

the open ground. Pkt., 5c: oz., 10c; ¼ lb., 20c; lb., 60c.

- BRIGHTEST LONG SCARLET, or Cardinal. This fine French variety is of strikingly beautiful appearance. Color, vivid scarlet tipped with white, and for so long a radish is very early, being fit for use in twenty-five days after sowing the seed. Excellent for the home garden and especially desirable for market. Pkt., 5c.; oz., 10c; % lb., 20c.; lb., 60c.
- MPROVED CHARTIER. A long and unusually large American sort, which is one of the very best for outdoor sowing. Roots bright crimson in upper portion, shading into white at the tip. Comes in quite early, remaining crisp and mild much longer than many others. Pkt., 5c; oz., 10c; 4 lb., 20c; lb., 60c.
- LONG WHITE VIENNA, or Lady Finger. Straight, smooth, white roots; fine grained, white flesh; tender, crisp and juicy. Pkt., 3c; oz., 7c; 34 lb., 15c; lb., 50c.
- GIANT WHITE STUTTGART. Root very large, heart-shaped, and of

vigorous, quick growth, maturing in five weeks; skin and flesh white, the latter constantly brittle and mild flavored at all stages of development. Remarkably slow in running to seed, even in severest heat. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.

WHITE STRASBURG. This variety is now the most popular summer radish grown. Of handsome oblong shape, tapering beautifully to a point. Both skin and flesh are pure white, almost transparent, very tender, and of a delightful, pungent taste. It can be pulled five weeks from time of sowing the seed, yet it will continue to grow without losing its fine quality, and remans in a tender condition longer than any other summer sort. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.

...RHUBARB...

A deep, rich soil is most suitable for Rhubarb. It is usually propagated from divisions of the roots. Seed may be sown in drills an inch deep, the young plants being afterwards thinned out to six inches apart. In fall, reset the young plants into highly manured, deeply dug soil. Do not cut the leaf stalks until the second year, and never allow the plants to run to seed.

- VICTORIA. Leaf stalks very tall and large, frequently weighing 2 pounds each. Skin thick and red-stained. Pulp quite acid. Very productive and profitable for market gardeners. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.
- LINNÆUS. The earliest variety grown, and quite desirable for small market or family garden. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., \$1.50.

RHUBARB ROOTS.

Set out in spring they will furnish leaf stalks the following season. We offer the largest variety only. *Small roots*. each 10c; doz., \$1.00, by mail postpaid. *Extra large clumps* by express or freight, each 15c; doz., \$1.50, not prepaid.

YELLOW SUMMER TURNIP. Very symmetrical and uniform; nearly round, with grayish-white skin, covered with a bright yellow russeting, which makes it very attractive. The flesh is compact, white and rather pungent. Quite popular with some growers. Pkt., 5c; oz., 10c; ½ lb., 20c., lb., 60c.

ROSE, OLIVE SHAPED. Skin rose-colored; flesh rose-tinted.

tender and of excellent flavor. Very early. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

WHITE, OLIVE SHAPED. Similar to above, except in color, as the name indicates. Packet, 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Winter Radishes.

Sow about the same time as winter turnips, on light, rich soil, in drills eighteen inches apart; give frequent cultivation, and thin two to six inches apart, according to size of the variety. For winter use pull before severe frost, and store in damp sand in cellar.

- CHINESE WHITE. A long, white raddish, introduced into this country by the Chinese in California. Flesh tender and crisp. Keeps well throughout the winter. Packet, 5c; qz., 10c; 14, lb., 20c; lb., 60c.
- CHINESE ROSE. Skin very smooth and of a bright rose color. Flesh firm, crisp and pungent. Packet, 5c; oz., 10c; ½ lb., 20c; lb., 60c

LONG BLACK SPANISH. Black skin. Flesh white, firm and of excellent flavor. One of the hardiest and finest either for winter or summer use. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

ROUND BLACK SPANISH. Similar to above except in form. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 60c.

SUNFLOWER, Mammoth Russian. The Giant of all Sunflowers.

Growing to double the size of the common sunflower, and the yield of seed is twice as great. One hundred and twentyfive bushels to the acre have been grown at less expense than

corn. Highly recommended for poultry; the best egg-producing food known. Lb., 20c, postpaid; not prepaid, 5 lbs., 50c; 10 lbs. 80c

....SALSIFY.... or vegetable oyster.

HAFERWURZEL, Ger. SALSIFIS, Fr.

1 oz. for 100 ft. of drill.

Cultivated chiefly for its parsnip-shaped roots, which have an oyster-like flavor and prove relishable prepared in various ways, as for soups, salads, etc., or simply boiled and served plain. The young flower stalks of the second year form an excellent dish prepared as asparagus, which they closely resemble in flavor.

Soil and culture should be the same as for Parsnips, taking pains to make sowings as early as practicable each spring.

TIAMMOTH SANDWICH ISLAND. A new and improved type, producing roots of nearly double the size and weight of the old variety, and of equally good quality. It has been extensively grown for the markets of many of the large cities, entirely superseding the old sort. Packet, 5c; oz., 10; ½ lb., 30c; lb., \$1.10.

This is an important crop for

SPINACH. SPINAT, Ger. EPINARD, Fr. 1 oz. for 100 feet of drill.

10 to 12 lbs. in drills per acre.

the market gardener. It is of easy cultivation. Sow for main crop in September, either broadcast or in drills one foot apart and one inch deep, in rich soil; the stronger the

ground the more delicate and succulent will be the leaves. Protect during the winter with hay or straw. For spring and summer use, sow as soon as the ground can be worked, and every two weeks for succession. Makes delicious greens. Write for special prices on large quantities.

- BLOOMSDALE or Savoy Leaved. Of upright growth; leaves curled and crimpled, thick and fleshy. Keeps well after cutting. Suitable for fall sowing. Oz., 5c; ¼ lb., 10c; lb., 35c.
- LONG STANDING. Leaves dark green and thick. Not inclined to run to seed for a long time. Very popular with market gardeners. Oz., 5c; ¼ lb., 10c; lb., 35c.
- THICK LEAVED ROUND. One of the best market sorts for spring or autumn sowing. Oz., 5c; 1/4 lb., 10c; lb., 35c.

SPEISE KURBIS, Ger. COWEGE, Fr.

10z. for 50 hills, 4 to 6 lbs. per acre.

- GOLDEN CUSTARD. Grows frequently two feet in diameter, larger than any of the scalloped sorts. Rich golden yellow. It grows in bush form. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 75c.
- SILVER CUSTARD. Not quite so large as the foregoing. It is a delicate white color, and the quality of both sorts is of finest grade. Packet, 5c; oz., 10c; ¼ lb., 25c; lb., 75c.
- WHITE BUSH, Scalloped. This and the Yellow Bush, scalloped, are grown for first crop. Its hard rind makes it valuable for shipping. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 50c.
- YELLOW BUSH, Scalloped. Differs from the white only in color. Pkt.. 3c; oz., 7c; 1/2 lb.. 15c; lb., 50c.

Chicago Warty Hubbard Squash. This

fine form of the Hubbard is a favorite one with many market men. It is striking in appearance and the warty knobs draw general attention. Having been selected for years by a Chicago gardener, it now combines all the good points of the original Hubbard, with rougher, harder warted shell, improved quality, thick flesh, finer color, stronger constitution. Pkt. 5c; oz., 10c; ½ 1b., 25c; lb., 85c.

LONG STANDING SPINACH.

- PRICKLY WINTER. Use for fall sowing as it is extremely hardy. Seeds prickly, leaves not so large as those of other varieties. Oz., 5c.; ¼ lb., 10c.; lb., 35c.
- VICTORIA. Matures later than other sorts. Leaves broad and thick, very dark green, almost black. Whether grown for market or in the family garden it is sure to please. Oz., 5c ; ¼ lb. 15c.; lb., 40c.

Plant when all danger from frost is past, and get in the winter varieties as soon as possible in order that they may mature. Plant in hills 4 feet apart for the bush varieties and 6 or 8 feet apart for running sorts. Put 6 or 8 seeds in a hill, thinning when all danger from insects is past to 3 or 4 plants in a hill.

GOLDEN SUMMER CROOKNECK. Orange yellow covered with warty excrescences. Packet, 3c; oz., 7c; ¼ lb., 15c; lb., 50c.

- GIANT SUMMER CROOKNECK. In this we have the buttery flavor of the original sort, but the squashes are twice the size. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.
 - PERFECT GEM, Nearly round; skin, creamy white; flesh, fine grained. Bears great number of small squashes. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c.
- FORD HOOK. Small, pear shaped or oblong; flesh thick, strawcolored. Very early. In cool room will keep until June. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.
- ORANGE MARROW. The earliest by ten days of the winter squashes. It is creamy orange in color; fine form,

WHITE BUSH SQUASH. handsome appearance, and keeps a long time. In great demand by Chicago pie bakers, who prefer it to all others. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50c.

- SIBLEY. One of the earliest and best of fall squashes. Pear shaped with stem on large end; flesh orange color, thick and fine grained. An excellent shipper and a long keeper. Pkt., 3c; oz., 7c; 1/4 lb., 15c; Ib., 50c.
- BOSTON MARROW. Oval form. Flesh, salmon yellow, dry grained and sweet. A splendid pie and table squash. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 50.
- ESSEX HYBRID. *Ripens early*. Cylinder form. Flesh solid, rich, orange colored. Can be planted after early peas or potatoes. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.
 - HUBBARD. Regarded as the standard winter squash. Very hard shell; excellent keeper, the best for table use. Flesh dark yellow, fine grained, dry and sweet. Our seed is most carefully selected and will give satisfaction. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 65c.
 - GOLDEN HUBBARD. Identical in form and quality with the well known Hubbard, except that the skin is a beautiful deep orange-yellow. Flesh fine grained and of excellent flavor. Packet, 10c; oz., 20c; 1/4 lb, 50c; lb., \$1.50.

44

CATALOGUE OF VEGETABLE SEEDS.

TOMATO. LIEBESAPFEL, GOT. TOMATE, Fr.

1 oz. to 1500 plants; 1/4 lb. to transplant per acre.

It thrives best in light, warm soil, not too highly enriched, and depends for highest excellence upon vigorous, unchecked growth in the early stages.

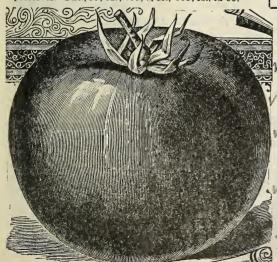

CULTURE. For early crops sow in hotbed, greenhouse, or inside the window or sitting room, where the temperature does not fall below 65 degrees, in February or March; transplanting—to secure stockiness—when three inches high, to pots, cold frames, or other parts of the bed, and about five inches apart. After all danger of frost is over, transplant finally to open ground, 4 to 6 feet apart, according to variety used. Earliness may be promoted by pruning of excessive growth.

Fordhook First.

purple, of handsome appearance. It is extremely early, ready to market nearly as soon as the old-time, unshapely fruited sorts. Medium size, tough skin, almost no core. Pkt., 5c; oz., 20c; ½ lb., 60c; lb., \$2.

A smooth, solid Tomato, red and

- ACME. Improved Strain. Ripens early; of medium, uniferm size; glossy red with purplish tinge; round and smooth, free from cracks. An excellent Tomato for market gardeners' use, as it ships well. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.
- IMPROVED BEAUTY. A favorite both for the home market or shipping purposes. Medium early. Fruit round, smooth, crimson, with purplish tinge. Pkt., 5c; oz., 15c; ½ lb., 50c; lb., \$1.75.
- BUCKEYE STATE. The tomatoes are borne in immense clusters of four to eight fruits, and, occasionally, ten large fruits have been found on a single cluster. In time of ripening, it matures about with the "Stone." In solidity and meatiness, it has no equal, while in luscious quality none surpass it. The color is much the same as "Beauty," but of a somewhat darker and richer shade. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.
- ROYAL RED. Very bright scarlet. Valuable for canners. /Pkt., 5c; oz., 15c; ½ lb., 50c; b., \$1.75.
- WARF CHAMPION. Dwarf and compact in growth, the plants grow stiff and upright, with foliage unlike most others. Fruit in form and color like Acme. Recommended for the home garden. Pkt., 5c; oz., 15c; 14 lb., 50c; lb., \$1.75.
- GOLDEN QUEEN. A real good yellow sort of first rate quality. On the table the golden yellow slices make a beautiful contrast with the red sorts. Makes splendid preserves. Pkt., 5c; oz., 20c; ½ lb., 60c; lb., \$2 00.

BEAUTY TOMATO.

ATLANTIC PRIZE

magnus

ATLANTIC PRIZE.

We do not hesitate to pronounce it the largest, smoothest, best flavored and brightest colored earliest Tomato. Vine medium size, with few leaves, very hardy bearing the fruit low down on the stem and in enormous clusters, which ripen altogether. Those whose trade demands that they have a large, smooth, good flavored, very early fruit, will find this variety to be just what they want. The seed we offer is carefully selected. Pkt., 5c; oz., 15c; ½ lb., 50c; lb., \$1.75.

CRIMSON CUSHION. This splendid new Tomato is more symmetrical in shape than the Ponderosa, and is much thicker through from stem to "blossom end;" in fact, so marked is this characteristic that it is frequently almost round. The color is brilliant scarlet crimson, untinged with purple, and ripens up almost completely to the stem. The "Crimson Cushion," like the Ponderosa, is almost seedless, requiring from 10 to 12 bushels of ripe fruit to produce one pound of seed. It is early for so large a Tomato and a prolific bearer. Flesh firm, meaty and of a superb quality. Pkt., 10c; oz., 40c; ¼ lb., \$1.25; lb.; \$4.50.

RED CURRANT. PARAGON. The first improved Tomato introduced and today there are many gardeners, canners and catsup makers who give this variety preference over all others. Ripens between the early and late sorts; fruit round as an apple, rjćh crimson, solid; an immense cropper. Pkt., 5c; oz., 15c; /4 lb., 40c; lb., \$1.50.

- PERFECTION. An improved Acme, with blood red skin, making it a valuable canning sort. Pkt., 5c; oz., 15c; ¼1b., 40c; 1b., \$1.50.
 PONDEROSA or No. 400. Handsome in appearance, smooth, of a dark, rich crimson color, and a delicious sub-acid flavor. Solid, almost seedless. Fruits somewhat rough; excellent for stewing. Pkt., 5c; oz., 25c; ¼1b., 80c; 1b., \$3.25.
- STONE. One of the extra large fruited sorts, solid and firmfleshed as its name indicates. Smooth, ripening to the stem without a crack; color, bright scarlet, fine for canning; quality, the very best. It is popular everywhere; no one finds any fault with Stone. Pkt., 5c; 0z., 15c; ½ lb., 50c; lb., \$1.75.
- **TREE TOMATO.** So called from growing in tree like form and bearing large, plump red fruit that is extremely solid, hard and of excellent quality. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$3.00.

SMALL-FRUITED TOMATOES.

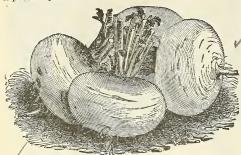

Yellow Plum, Red Currant and Red Cherry. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.25.

1 oz. for 150 ft. of drill; 1 to 2 lbs. in drills der acre.

The best soil is a *new* light, rich loam, entirely free from fresh manure. Sowing for summer use should be made very early in the spring; for fall or main crop from middle of July to middle of August. The small varieties may be sown broadcast if the ground be free from weeds. In the case of the large sorts, however, greater yields and better results in every way will be derived from drill sowing. Make drills 14 inches apart,

¹/₂ inch deep, and when of sufficient size thin the roots to 5 or 6 inches distant. For succession, sow at intervals of a fortnight. Sow if possible just before a rain.

EXTRA EARLY PURPLE TOP MILAN. A splendid new strap-leaved variety that is ready for use fully two weeks earlier than the Purple Top Strapleaved, and one week ahead of the Purple Top Munich. The bulb is of medium size, quite flat, smooth and has a bright, fresh purple top. The flesh is pure white, solid, fine-grained and of the choicest quality. Pkt., 5c; oz., 10c; ½ lb., 20c; / lb., 70c.

WHITE FLAT DUTCH.

PRIZE PURPLE TOP STRAP LEAF. Tops small, bulb mostly above ground, of medium size and flat. Skin white below the surface and clear, bright purple above. Flesh white, sugary and remarkably well flavored. Very early, hardy and prolific. The leading standard, purely American variety. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 40c.

WHITE STRAP LEAF. A subvariety of the Purple Top Strap Leaf, from which it differs mainly in the coloring of the skin. Early, productive, of excellent quality and recommended for either field or garden culture. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 45c.

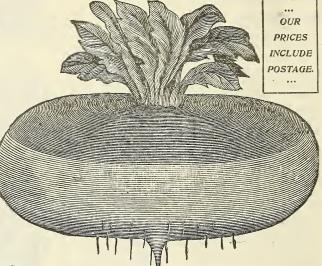

POMERANIAN WHITE GLOBE. A large and most perfect globe in shape; skin white and smooth. Of strong growth and one of the most productive varieties. Valuable for both table and stock. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 50c.

PURPLE TOP WHITE GLOBE. The name of this most excellent variety affords for it a very accurate description. It is an early and a heavy cropper as well as a good keeper. The bulb is a very handsome globe, and is especially in demand among market gardeners. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 40c.

TURNIPS, MANGELS and CARROTS are much relished by all farm stock.

WHITE EGG. Tops small and rough-leaved. Bulb oblong and produced mostly out of ground. Skin pure white and perfectly smooth. Flesh firm, sweet and mild. Pkt, 3c; oz., 7c; ½ lb., 15c; lb., 50c.

PRIZE PURPLE TOP STRAP LEAF.

EARLY WHITE FLAT DUTCH. Bulb of medium size and flat. Skin pure white. One of the surest croppers of the early garden sorts. Pkt., 3c; oz., 7c; ½ lb., 15c; lb., 45c.

WHITE SIX WEEKS OR SNOWBALL. Bulb of medium size and spherical. Skin white and smooth. Immature flesh, finegrained, tender and sweet. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

WHITE FLAT NORFOLK. Bulb round, flat. Flesh white, sweet and excellent for stock feeding. A late variety, often attaining extraordinary size. Pkt., 8c; oz., 7c; ¼ lb., 15c; lb., 40c.

PURPLE TOP YELLOW ABERDEEN. Root round and tapering. Flesh pale yellow, tender, sugary and of superior flavor. A hardy and productive standard variety. Pkt., 3c;: oz., 7c; ¼ lb., 15c; lb., 45c.

RUTA BAGA.

KOHLRABI, Ger.

CHOU NAVET, Fr.

The Swedes are really preferable for stock feeding, on account of their superior nutritive as well as better keeping qualities. Some of the finest are desirable and popular for table use also. The ground should be dry and thoroughly enriched. The sowing at the North may be made from the middle of June to the middle of July: at the South in the fall. Space the drills 20 inches apart, and thin 10 to 12² inches distant. For preservation the roots may be packed in barrels in the cellar and covered with sand or turf, or placed in dry pits, underneath a thick coating of dry straw, the whole earthed over to a depth of some 10 in.

AMERICAN PURPLE TOP. Tops very small. Bulbs large, having few, if any, roots. Skin deep purple above, bright yellow underneath. Flesh golden yellow, of fine texture, sweet and of richest flavor. Very hardy, unusually productive, and a good keeper; the principal variety being desirable for table use and stock feeding. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 40c.

SKIRVING'S PURPLE TOP. Flesh yellow, solid and sweet. A good keeper, Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 40c.

LAING'S IMPROVED PURPLE TOP. Leaves cabbage-like and large. Bulb nearly round. Skin smooth, yellow below and purple above. Flesh yellow, solid and of fine flavor. Pkt., 3c; oz., 7c; 1/4 lb., 15c; lb., 40c.

WHITE SWEET RUSSIAN. Bulb enormous. Flesh white, solid and rich in sugar. The best keeper of all the Swedes, and deservedly popular for both table and stock. Pkt., 3c; oz., 7c; ¼ lb., 15c; lb., 40c.

Rich, sandy loam produces the TOBACCO. Sich, sandy loam produces the best quality of leaf; heavy, new TABACK, Ger. TABACO, Sp. TABAC, Fr. soils and green manures producing

coarse leaf, which burns badly.

Wood ashes and commercial potash fertilizers are the best for tobacco. The seed bed must be very light; it is well to burn a brush heap upon it some months before seeding.

PRIMUS. The very earliest variety grown and one that succeeds well in Canada and the far North, where few kinds will ripen. Entirely new, choice, very productive. Leaves large, fibers fine, and texture silky. Packet, 5c; oz., 20c; 1/4 lb., 60c.

WHITE SWEET RUSSIAN. CONNECTICUT SEED LEAF. Perhaps the variety best adapted to the climate of the Middle and Northern States, being comparatively hardy. Pkt., 5c; oz., 20c; 1/4 lb., 60c,

GRIPORTED HAVANA. Best of all for the manufacture of cigars, but inclined to deteriorate; hence the necessity of renewing the seed each year. Ours is a superior strain of Cuban grown stocks. Pkt., 5c; oz., 20c; ¼ lb., 60c.

...Transplanted Vegetable Plants...

HESE plants are grown from seed supplied by us, thus insuring genuiness of all the plants we offer, They are grown especially for our shipping trade and our method of packing is unexcelled. Our experience and knowledge enables us to ship in the right condition and at the right time, well packed and at short notice. Such knowledge is valuable to every buyer who can ill afford to take any risk of delay or of receiving poor plants in poor condition, when the season demands prompt work. PRICES DO NOT INCLUDE PREPAYMENT BY MAIL. If wanted by mail add 6 cts. per doz.; 12 cts. for 50; 20 cts. for 100.

🧈 🗈 THREE VALUABLE TEXT BOOKS ON GARDENING. 🇈 🍰

GARDEN MAKING. A guide to daily practice in the garden, whether that garden be a city back yard or an enclosure of acres. It imparts in simple language such information as every man or woman who buys a single packet of seed or attempts to grow a single plant is in need of. Profusely illustrated. Bound in flexible cloth so it can be carried in the pocket. Postpaid, \$1.00.

THE YOUNG MARKET GARDENER. Is intended as a guide to beginners. It gives sound advice on construction of houses, pits, soils, profitable crops to grow, suggestions how to market. 119 pages. Paper. Postpaid, 50c.

THE FORCING BOOK: A manual of the cultivation of vegetables under glass. Valuable alike to the amateur or private gardener. 266 pages, 88 illustrations. Postpaid, \$1.00.

TREE, HEDGE AND FRUIT SEEDS.

Few investments made by farmers will return a larger profit in the course of a few years than the planting of forest trees on uncultivated land, or on land cultivated at a loss. The time is rapidly coming when land covered with our best forest trees will be of great value.

We quote the standard sorts only. Should you desire varieties not named in our list, write us and we will furnish at lowest possible prices. Prices given include postage paid by us.

CULTURE: Sow early in spring, in well prepared beds, about two inches deep. When the seeds begin to germinate cover the beds lightly with pine boughs to shade the young plants from the sun. When the plants are all up, the brush should be gradually removed, but replaced before winter sets in. Let plants remain in beds for about 2 years, then transplant into rows 2 ft. apart, learing about 12 inches between each plant. Keep ground clear, and when plants are strong enough remove to their intended place. NOTE.-Owing to the many causes for failure in the germination of Tree Seeds, we wish it distinctly understood that we

cannot be held responsible for any loss or damages arising from any failure thereof. Orders filled on above conditions only.

FRUIT TREE SEEDS.

- **APPLE.** Apple seeds do not produce the same varieties, but generally give a hardy, though inferior sort, and upon these seedlings are grafted or budded the finer varieties. Oz., 5c; lb., 30c.
- CHERRY, MAHALEB. Used as stocks when dwarf trees are wanted. Culture same as the above. Oz., 10c; lb., 75c.
- CHERRY, MAZZARD. This is the stock used for standard trees. Success is much more certain if the seed is planted in the fall, as it is very difficult to keep it in good condition through winter. Oz., 10c; lb., 60c.
- **PHACH.** Plant three inches deep in nursery rows three feet apart, in the fall, or if delayed until spring, crack the pits and plant the kernels only. Bu., \$2.00.
- **PEAR.** Success will depend very largely upon having a *deep*, *rich*, *moist soil*, as this is essential to vigorous growth. Plant and cultivate like the apple, and bud when large enough. Oz., 25c; lb., \$2.00.
- **PLUM.** The directions given for planting apples will also apply to plums, except the pits should be planted furmer apart in the row. The varieties raised from seed will be hardy, vigorous stalks upon which to graft the choicer sorts. Oz., 10c; lb., 60c.
- QUINCE. Quinces generally produce the same variety from seed, but occasionally vary. The general culture and requirements of soil are the same as for the pear, except that they are not budded. About 1,100 seeds per ounce. Oz., 20c; lb., §2.00.

Seeds of Small Fruits.

It is a well-known fact that plants produced from seeds have greater vigor and are more prolific and hardier than plants propagated by cuttings, and this is especially demonstrated in small fruit plants raised from seed.

Seeds of Small Fruits are very slow to germinate and should be sown early.

RASPBERRY. Large fruited sorts mixed. Pkt., 10c; ½ oz., 20c. CURRANT. Mixed. Pkt., 10c; ½ oz., 30c.

BLACK CURRANT. Pkt., 10c.

BLACKBERRY. Mixed sorts. Pkt., 10c; 1/4 oz., 20c.

GOOSEBERRY. English large fruited. Pkt., 10c; ½ oz., 30c. STRAWBERRY. Large-fruited. mixed. Pkt., 10c.

HEDGE SEEDS.

OSAGE ORANGE (*Maclura aurantiaca.*) Sprout the seed before planting, putting into a vessel and covering with warm (*not hot*) water. Keep in a warm place, and change the water once a day. Let the seed soak about five or six days, then pour off the water and cover the vessel with a cloth. Keep in a warm room and stir the seed occasionally. In a few days more the seed will begin to sprout and be ready for planting. Oz., 10c; lb., 50c.

EVERGREEN TREE SEEDS.

- AMERICAN ARBOR VITÆ (Thuja occidentalis). Seldom over thirty feet high. Grows well under cultivation, and makes one of the best hedges for a screen and wind break. It is best grown from seed. Oz., 20c; lb., \$2.00.
- BALSAM FIR (Abies balsamea). Oz., 15c; lb., \$2.00.
- CEDAR, RED (Juniperus Virginiana). Oz., 10c; lb., 50c.
- HEMLOCK (Abies Canadensis.) One of the most beautiful of our native evergreen trees. Of graceful habit, with graceful and delicate foliage. The bark is used very extensively for tanning leather. Needs a light, dry soil. Oz., 15c; lb., \$1.25.
- **SCOTCH PINE** (*Pinus sylvestris*). Very hardy; grows surely and rapidly on nearly every variety of soil, forming a beautiful tree; invaluable for a wind break. Oz., 20c; lb., \$2.00.
 - tree, invaluable for a wind break. 02., 200, 10., 52.00.
 - WHITE, OR WEYTOUTH PINE (*Pinus* strobus). The most majestic and valuable of all our native pines; thrives best in light sand with clay subsoil, and prefers plains and broad river valleys to higher lands. Oz., 25c; lb., \$3.00.
 - NORWAY SPRUCE (*Picea excelsa*). Well known as one of our most beautiful evergreen trees. It is hardy, of rapid growth, and forms a dense, close screen or hedge. Oz., 15c; lb., \$1,50.
 - **COLORADO BLUE SPRUCE** (*Picea pungens*). Makes beautiful specimen trees. Oz., 50c.; lb., \$6.00.

Deciduous Tree Seeds.

- WHITE ASH (Fraxinus Americana). Requires a moist, deep soil, on which it will grow very rapidly. It deserves special attention from those who wish trees for timber. Oz., 10c; 1b., 60c.
- WHITE BIRCH (*Betula alba*). Valuable for ornamental planting. Cover seed very lightly. Oz., 10c; lb., 75c.
- BOX ELDER, OR ASH LEAVED MAPLE (Acer negundo). Very rapid grower, seldom attaining more than 30 feet. Oz., 10c; lb., 60c.

SOFT MAPLE. Ripens in May. Can give prices at that time only.

- YELLOW LOCUST. (Robinia pseudo-acacia.) This tree grows rapidly and its wood makes first class posts and mailroad ties. Oz., 10c.; lb., 50c.
- SUGAR MAPLE (Acer saccharinum). One of our highly prized native trees. Oz., 10c; lb., \$1.00.
- HARDY CATALPA (*Catalpa speciosa*). Scarcely a tree on our list can be so strongly recommended as this for planting on the treeless prairies of the Western states. Oz., 10c; lb., 80c.
- ELTI, ATIERICAN (*Ulmus Americana*). A tall-growing, wellknown native tree. Oz., 20c; lb., \$2.00.
- HONEY LOCUST Gleditschia triacanthos). On account of its rapidity of growth and durability of the timber, we regard this as one of the most valuable of our native trees. It is valuable for hedges also. Scald seeds before sowing. Oz., 10c; 1b., 50c.

Selected Farm Seeds.

We make a specialty of Farm Seeds, and are at all times prepared to furnish the Best Varieties of Corn, Oats, etc., at such prices that it will not pay any one to plant inferior seed. PRICES INCLUDE BAGS.

Barnard's Early Yellow Dent Corn.

We repeat the words "A LARGE-EARED EARLY CORN," and they seem almost a sufficent description in themselves, to gain the attention and favor of hundreds of farmers, situated in latitudes where later, valuable varieties will not ripen; or with those who for any reason may wish to make a late planting and yet feel sure of a crop. These words do not, however, express all the merits of this truly remarkable new variety. It possesses the money making quality PRODUCTIVENESS. Its habit of setting two to three ears to the stalk and of maturing them, result in an agreeable surprise to those who have cultivated the less thoroughly bred earlier corn. The characteristic of GREAT VIELD is made apparent upon shelling; the grains are very deep and set compactly upon the cob, which is extremely small in diameter, but of good length-eight to ten inches. The ears are smooth and handsome, the kernels have none of the rough sharp points, so objectionable in many of the early corns. This is a feature which will be greatly appreciated by the huskers. The plant is vigorous, well supplied with foliage, roots deeply, enabling it to withstand adverse conditions of soil and weather.

This is not a chance variety but the result of scientific selection and hybridizing with a definite object in view, which has been attained in this large-eared early variety. Its record is ninety days of good corn weather from date of planting to maturity and entirely out of the frost danger. If you are seeking an

> > you have it in

Barnard's Early Yellow Dent....

Pkt., 10c.; qt., 35c. postpaid; pk., 50c.; bu., \$1.50; 5 bu.for \$6.75; bags included.

A... Pleased Customer

IS OUR BEST ADVERTISEMENT

FRED PFAFF, Wis., writes: "Planted your corn the 20th of May. Heavy rains early in June gave it a set back. Later it picked up and many stalks set two ears. It was killed by frost middle of September. Its yield was about 80 bu. to the acre. It is a nice corn and I will try it again next year."

R. E. JANES, Ind. "I planted your corn in two fields. Six acres planted May 20th on light soil gave 40 bu. to the acre. Dry weather in August was against it. 2½ acres planted in June on low, black land was cut and shocked 28th Sept. It made 50 bu. per acre. The corn is sound with ears from eight to ten inches in length."

H. ALEXANDER, Oregon, reports: "The worst year in 30 in this state for corn. Planted Barnard's Yellow Dent May 16. Made good stand and growth with 3 or 4 ears on many stalks. Cold rains in August and September prevented corn ripening."

FRED DIEHL, Wis. sends this: "We had a very early frost. I learned your corn is not too late for this part of Wisconsin. Corn was almost a failure in this part. I will plant yours again next season, and I know if season is favorable I will get good crop."

F. A. DEWITZ, JR., Wis., says: "The yield of Yellow Dent Corn was 50 bu. from ½ acre. The stalks are 10 to 12 feet long and are greatly relished by cattle. More than any kind I ever had. I'll try it again next year." 49

EED FIELD CORN-Continued.

Prices include Bags.

The varieties named below are among the very best now in general use. At these very reasonable prices no one can afford to take risks with inferior seed

A few cents per acre, invested in selected seed corn, will often make a difference of hundreds of dollars in the value of the crop.

WHITE ELEPHANT CORN. See page 16.

PRIDE OF COLUMBIA.

In the Pride of Columbia we have a corn that matures extremely early and is exceedingly prolific, with very small red cob. Grain of a bright yellow color; ears averaging 10 inches in length; uniform in shape; small tapering, deep kernel, dented, somewhat rough; 16-rowed, compactly placed on cob. Seventy pounds of ears have on several tests shelled sixty-two and sixty-three pounds of corn. Makes a much more luxuriant growth of fodder than Pride of the North. This makes it more va uable as a drouth resister and more des rable for ensilage. It outyields Pride of the North 10 to 20 bu. per acre. A valuable corn for hog raisers because of its early earing habit. Pkt., 10c.; qt., 25c., postpaid; pk., 35c.; bu. \$1 00, not prepaid.

PRIDE OF THE NORTH. This is undoubtedly the best known of the early Yellow Dents. Ears 8 to 10 inches in length and 1½ inches in diameter. Kernels closely set, above medium size, long, narrow, thin, of deep orange color, shading to pale yellow at the tip. Cob very small and red. In a test, 70 pounds of ears, not selected and but imperfectly dried, produred 60¾ pounds of shelled corn and only 9¼ pounds of cobs, instead of 14 pounds, the usual proportion. Stalks about medium height. 6 to 8 feet. Pkt., 10c.; qt., 25c., postpaid; pk., 35c.; bu., \$1.00, not prepaid.

BARNARD'S EARLY YELLOW DENT CORN. See page 49.

WHITE CAP YELLOW DENT. This now famous corn possesses the earliness of *Pride of the North*, and will produce a gr.ater yield on thin, poor land than any other corn. Grows about 6 to 7 feet in height, with abundant foliage and fine large ear. The tip ends of the grains are white, the inside yellow, making it of a beautiful color both when on cob and when shelled. It ripened and produced an enormous crop in the State of New York. Pkt., 10c.; qt., 25c., postpaid; pk., 35c.; bu., \$1.00, not prepaid.

PIDE OF COLUMBIA

VIOWA GOLD MINE.

It is early, ripping only a few days later than Pride of the North; ears are of good size and symmetrical; color a bright golden yellow; grain is very deep. cob small, and therefore dries out very quickly as soon as ripe. Seventy pounds of ear corn makes sixty to sixty-two pounds of shelled corn. Give this corn a trial and you will 'never regret having done so. Pkt., 10c.; qt., 25c., postpaid; pk., 35c.; bu. \$1.00, not prepaid.

- 100WA SILVER MINE. Matures in about 100 days in the Illinois corn belt, say south of Chicago. The stalks grow to a height of 7 or 8 feet and set the ears about 3½ to 4 feet from the ground. The ears measure from 10 to 12 inches in length, and cften weigh 1½ pounds. They are very uniform in size and shape, with 16 to 20 straight rows of deep, pure white kernels on a very small cob. It is the heaviest yielder we know, having produced over zoo bu. to the acre. Pkt., 10c.; qt. 25c., postpaid; pk., 35c.; bu. \$1.00, not prepaid.
- YELLOW FLINT. An exceedingly heavy and productive variety. It grows to a good height, the stalks making excellent fodder. Ears 8 to 10 inches in length, cob white, 8-rowed, with large and broad kernels. Pkt., 10c.; qt., 25c., postpaid; pk., 50c.; bu. \$1.50, not prepaid.
- MPROVED KING PHILIP. Very early. Ears 10 to 12 inches. Kernels coppercolored, smooth and flinty. Pkt., 10c.; qt. 30c., postpaid; pk., 50c.; bu. \$1.50, not prepaid.

SANFORD'S WHITE FLINT. Handsome, large and well filled kernels. Pkt., 10c.; qt., 25c., prepaid; pk., 50c.; bu., \$1.50, not prepaid.

BROOM CORN.

IMPROVED EVERGREEN. The best variety for general cultivation because of color and quality of brush. It ripens early, grows about 8 to 10 feet high. Brush of good length, fine and straight. Does not get red before it is cut, but is strictly a green variety. Lb., 25c., postpaid; pk., 60c.; bu., \$2.00, not prepaid.

ENSILAGE AND FODDER CORN.

If planted in drills, which should be about three and a half feet apart, 12 to 16 quarts per acre are required. If sown broadcast, 2 to $2\frac{1}{2}$ bushels are required to the acre.

These prices include bags and delivery to depot.

- SWEET CORN FOR FODDER. There is nothing better for green feed, or for curing for winter, than Sweet Corn. Sow in drills or broadcast. Pk., 50c.; bu., \$1.50; 2 bu., \$2.50; 10 bu., \$1.10 per bu., bags included.
- RED COB ENSILAGE. A most desirable variety, adapted to all sections of the country. Pk., 25c; bu., \$1.75.
- LARGE, WHITE SOUTHERN ENSILAGE. A most desirable variety for its purpose. Leaves are produced in abundance. Pk., 35c; bu., \$1.00.

OW PEAS—The Great Soil Improver. Makes poor land rich. Makes good land more productive. Also makes a splendid and nutritious green for-

age or hay crop, enriching the soil even when the crop is cut off.

Green crops plowed under are one of the cheapest methods of enriching the soil. Cow Peas are invaluable for the purpose as well as providing a large amount of fodder. They should be sown in May or June at the rate of 1½ bu. to the acre. The pods may be removed, dried and the grain ground, and the plants plowed under. The stalks and leaves fed green make excellent fodder. Cow peas should be grown to a much greater extent than at present. Pint, 10c.; qt., 35c., prepaid; pk., 50c.; bu., \$1.75, not prepaid.

SUGAR CANE, FORAGE PLANTS, ETC.

Just as the human appetite craves a change in the daily rations, so does the farm stock enjoy with relish a change in their food, the result being an improved appetite and increase in growth. The forage plants offered on this page have all been tried and proven good. They are excellent either as green or dry feed.

CANE or SORGHUM.

- **EARLY AMBER.** Wherever this has been introduced it gives entire satisfaction as a *profitable crop fodder*, as well as for sugar making. When planted between the 1st and 10th of May the seed invariably ripens in almost any section of the country. The seed is very nutritious and valuable for h rse and cattle food, and is greedily eaten by poultry. It is by far the best variety for sugar. The syrup obtained from the cane is a pale amber color, hence the name. Pkt. 5c; lb., 15c; postpaid; 25 lbs. for \$1.00; 100 lbs., \$3.00, not prepaid, bags included.
- KANSAS ORANGE. This is the most popular variety grown in the South. Its habit is similar to Early Amber, and it is constituted to endure Southern summer heat. South of Illinois this is the Sugar Cane to plant. Pkt., 5c; lb., 15c., postpard; 25 lbs. for \$1.00; 100 lbs., \$3.00, not prepaid, bags included.
- WHITE MILLO MAIZE. A variety of sorghum non saccharine. The merit of this variety is that when cut for feeding it starts again from the siumps with renewed vitality. It endures dry weather and will make a crop where corn would be a failure. It bears grain in heads ten to fifteen incheslong. Large pkt., 5c; 1b., 20c., postpaid; 10 lbs. for 50c; 25 lbs. for \$1.00; 100 lbs. for \$3.00, not prepaid, bags included.

KAFFIR CORN Is now successfully cultivat-

ed for both forage and grain in all sections of the United States.

It will make a fine crop of forage if cut in early bloom,

and the shouts that then follow will mature a full crop of seed and forage. Both grain and fodder are excellent, the whole stalk tender to the full maturity of seed. There is no failure about it, as it posesses the quality that all the tribe possess, of waiting for rain without any loss of capacity to yield. The grain makes a flour that is like wheat. Cultivated the same as our common Indian Corn, requiring

KAFFIR CORN.

four to five pounds of seed per acre. By mail, postage paid, pkt., 5c; lb., 15c; by freight or express, 10 lbs for 40c; 25 lbs. for 75c; 100 lbs., \$2.50, bags included.

WILD RICE. (Zizania Aquatica.)

A native plant furnishing food for wild fowl, ducks, geese, etc. This seed can be sown on the borders of lakes, ponds, along small streams, and grows very rapidly in one foot to four feet of water, attracting all of these wild birds from September on. It also purifies the water and affords a refuge for the small fry from the large fish. Lb., 35c., postpaid; 5 lbs., \$1.00; 10 lbs. and over, 18c. per lb.

FLAX. When grown for seed sow one bushel per acre. If fibre is wanted, sow at the rate of two to three bushels. The soil should be well cultivated. Lb., 10c; 100 lbs., \$4.00. Book on Flax Ctiture, 5c.

DWARF ESSEX RAPE.

D WARF ESSEX RAPE is considered indispensable by the sheep and cattle farmers of Great Britain, and is fast

coming into use in this country on account of its rapid growth, being ready to feed in ten weeks from sowing, and producing twenty-five to thirty tons of green forage to the acre. It grows to a height of three feet and covers the surface so densely as to smother out all weeds and to kill quack and other objectionable grasses. It can be sown all through the season, being perfectly hardy, withstands drouth, and will produce a crop in any soil by sowing broadcast at the rate of five pounds to the acre, or in drills or rows two feet apart at the rate of three pounds per acre. While unequaled as a pasture for sheep, as a fattening food for all kinds of live stock it is without a rival in point of cheapness or effectiveness. Oz., 5c; lb., 20c, postpaid. By express or freight, not prepaid, 10 lbs., 75c; 25 lbs., \$1.75; 100 lbs., \$6.00, bags included. Write for prices in larger quantities.

VETCHES or TARES.

- **SPRING TARES.** A species of the pea, grown by nearly all farmers in the British Islands and to a considerable extent in Canada. For spring planting this variety, known as (*Vicia sativa*) is sown broadcast at the rate of 100 lbs. per acre, like wheat or barley. It can be cheaply raised, fed green, or ensilaged. Where land is not adapted to hay or is expensive, or pasturage is poor or costly it would pay to grow Vetches as a forage crop. Pkt., 5c; lb., 20c., postpaid; 10 lbs. for 75c; 25 lbs. for \$1.50; 100 lbs., \$5.50, not prepaid, bags included.
- SAND or WINTER VETCH. (Vicia villosa.) This variety thrives on poor, arid, sandy soils. It is sown either in fall or in spring, and generally mixed with rye, which serves as a support to the plants. It grows to a beight of from 3 to 4 feet, and can be cut twice for fodder, first as soon as the bloom appears, and then it can be again cut for the seed. The plant is perfectly hardy and the produce is recommended as most nutritious. The seed is black and perfectly round, and should be sown at the rate of 100 lbs. to the acre. $P_{KC.}$, 10c; lb., 25c., postpaid; 10 lbs., \$1.25; 25 lbs. for \$2.75; 100 lbs., \$10.00, not prepaid, bags included.
- CHUFAS, or Earth Almond. Very sweet and nutritious. Pkt., c; qt., 35c., postpaid.

GROWN EXPRESSLY FOR SEED SEED GRAIN CAREFULLY RECLEANED and SELECTED.

Prices on Seed Grain subject to market changes. We make no charge for bags, nor delivery to depots. Purchaser pays freight in all cases.

WHITE HULLESS BARLEY.

A grand Barley for stock feeding, for fattening hogs has no al. Plump, heavy kernels, which when threshed are hul-, like grains of wheat. Lb., 25c., postpaid. Peck, 50c; equal. less. bu., \$1.50, not prepaid.

The best 6-rowed Barley grown. Long heads, drooping with heavy grain that is considered superior for malting. It is early and a heavy yielder. A standard all around sort. Lb., 20c. postpaid. Peck, 40c; bu., \$1.00 not prepaid.

MANSHURY BARLEY.

BUCKWHEAT.

JAPANESE. The variety is rapidly displacing all other sorts of Buckwheat. It ripens early and has much larger grains than all others. In shape the kernels are peculiar and distinct. Color a dark brown. It manufactures a superior flour. Pkt., 5c; lb., 20c, postpaid. Peck, 40c; bu., \$1.25, not prepaid, bags included.

SILVER HULL. Grain silver gray in color. Sown at same time as common buckwheat this variety continues in bloom longer and yields nearly double. Pkt., 5c; lb., 20c, postpaid. Peck, 40c; bu., \$1.25, bags included, not prepaid.

COMMON BUCKWHEAT. Selected seed. Pkt., 5c; lb., 20c, postpaid. Peck, 30c; bu., \$1.00, not prepaid.

******* CHOICE SEED OATS.

LINCOLN. One of the best oats. The following are a few of its points of excellence: It is very early, and has thus far proved itself rust proof. It has given wonderful results as a yielder, in one instance 174 bushels were grown from one bushel of seed. Straw is stiff and strong. Grain is handsome and is valuable for feeding as well as grinding for oatmeal on account of its thin hull, heavy meat and soft nib. Lb., 15c; 3 lbs. for 40c, postpaid. Peck, 25c; bu., 75c; 5 bu. for \$3.00; bags included, not prepaid.

NEW ZEALAND. This oat takes its name from the country from which it came. It is a white side oat, of medium size, with heavy heads of about 100 grains each. In Iowa, where other sorts were badly rusted, the New Zealand was almost entirely free. Has tested 40 lbs. to the measured bushel without recleaning. Lb., 20c; 3 lbs. for 50c, postpaid. Pk., 25c; bu., 75c; 5 bu. for \$3 25; bags included, not prepaid.

A Canadian black oat that is adapted to BLACK TARTARIAN. all soils. Where one wishes to change seed this is a good variety to sow. Grain large and plump. Lb., 20c;

3 lbs., 50c, postpaid. Pk., 35c; bu., \$1.00; 5 bu. for \$4.50, bags included, not prepaid.

HIGH GRADE SEED WHEAT.

VELVET CHAFF BLUE STEM (Spring). A distinct variety, having white, velvet-like chaff; heads beardless. The stem, just below the head, when green, is a beautiful blue bloom, which disappears as the wheat ripens, both wheat and straw assuming a bright golden tint. The kernel is of the hard variety, similar to the Scotch Fife, but is far more productive and one of the best spring wheats for milling; entirely free from rust. Pkt., 5c; lb., 20c, postpaid. Pk., 50c; bu., \$1.50.

SASKATCHEWAN FIFE (Spring) has all the general characteristics of Scotch Fife, from which it is descended by careful selections. It excels in earliness, hardiness, productiveness, and freedom from smut and all diseases. It is highly endorsed by leading wheat growers. Pkt., 5c; lb., 20c, postpaid; pk., 50c; bu., \$1.50.

HYBRID MEDITERRANEAN WHEAT (Winter). A well-known Winter Wheat. It produces large, square heads, with four rows of grain, having short beards. The straw is stiff, of medium length, bronze at maturity. This grain is of a handsome amber red color, hard and flinty, making excellent flour. We recommend it as one of the surest and best for ordinary farms and conditions. Pkt., 5c; lb., 20c, postpaid; pk., 50c; bu., \$1.50.

SPRING. This variety has been developed simply by planting Winter Rye in the spring and selecting the seed so procured for several years. The standard variety for spring planting. Pkt., 5c; lb., 20c, postpaid. Pk., 30c; bu., \$1.00, not prepaid, bags included.

RYE.

WHITE WINTER. Much prized for its straw, also for plowing under as a green manure. The ordinary fall sown variety of which we offer selected stock only. Pkt., 5c; 1b, 20c, postpaid. Pk., 30c; bu., \$1.00, not prepaid. bags included.

NEW ZEALAND OATS.

Doubling the yield doubles the dollars. Do this by planting

Our New Alaska Oats

Try an acre of the ALASKA. You could not place a few dollars where they would do you as much good...

The ALASKA possesses great flexibility of constitution, will adapt itself to all soils, conditions and climates. Try where you will it is impossible to find a variety that has such a marvelous record.

Earliest

The Alaska oat can be cut and thrashed before other varieties are roldy for the harvester. Earlier than the earliest.

Hardiest

Any grain that will stand the test of the most rigorous climate where these oats have been grown cannot fail to be the hardiest.

Most Prolific

Wonderfully productive. Yielding two bushels to one of any out it has competed with. This variety will certainly increase the yield of the oat crop 100 per cent.

Strongest Straw

Can be grown on the richest land without danger of lodging. Wonderfully stiff straw, standing up on any soil.

Purest Color

Beautifully white grain, insuring the highest market price in any market in the world.

New Blood

It possesses more new blood, vigor and vitality than any oats ever introduced.

Heaviest Grain

The grain weighs 40 to 44 pounds to the measured bushel of bright plump white oats. A magnificent variety for milling purposes.

Withstands Drought

Willstand more continued dry weather than any other sort. Grows right along in any and all kinds of weather and always yields big crops.

Quality

Most excellent quality, will make better and more oatmeal than any known oat. Best feeding oats in the world.

When you consider the enormous expense necessarily attached to securing this magnificent variety and the great demand for it the prices quoted are low. Stock is limited and orders should be placed early. You should have no difficulty in disposing of your entire crop at \$1.00 per bushel for seed purposes. We want to give these oats a wide introduction and for that reason have put the price down. **Price**, **\$1.00 per bu.; 3 bus. for \$2.50**, bigs included.

Mixture of Grasses for Meadows and Permanent Pastures..

SPECIAL NOTICE.

In the preparation of these mixtures for permanent pasture and mowing, the greatest care is exercised in selecting such varieties as are suited to the soil to be laid down and are likely to realize the object in view. To facilitate this, a description of the soil, whether light, medium or heavy, also climate, and purpose for which sown, and if with or without a crop, should accompany each order. . .

solt of the first of the start of the

Sow three bushels of Grass Seeds and 10

pounds of Clover to the acre.

* 45.7.5276 Asterie Asterie Asterie State and the Asterie Asterie Asterie Asterie Asterie A

For every different kind and condition of soil there is a large number of grasses, indigenous or introduced, which are especially suitable. Some sorts do best on high ground and in dry weather; others prefer plenty of moisture. Some mature so early, and others so late, that from the beginning of spring until winter, there is no time when one species or another is not at its best.

It is a well known fact that grass countries are always prosperous, and there is ample and just reason why this should be so. Grass and clover culture brings in its train so many benefits to the farmer. There is the permanent improvement of the soils had by the splendid nitrogen-gatherin ; qualities of the clovers; the permanent pastures, the green food and the hay corps. A market is always ready for hay, and the grazing possibilities of grasses are too well known to require elaboration here.

The importance to the farmer of a good selection and proper mixture of Grass Seeds for mowing, permanent pasture, or other purposes cannot be over-estimated. Our Grass and Clover Seeds have been sown season after season with great profit and satisfaction to thousands of our customers. Steadily increasing sales testify not only to their trustworthiness, but to the general satisfaction they give everywhere.

The Grass Seed Mixture is supplied as desired, mixed for mowing or permanent pastures. Price, per bushel (14 pounds), \$2.50. Not prepaid.

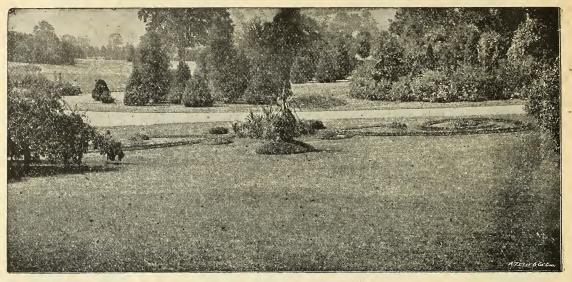

Clover Mixture of the best varieties and highest quality should be sown with above at the rate of 10 pounds to the for special quotations.

We Furnish the Grass and Clover Seeds Separately,

as the Clovers have greater weight. Clover should be sown separately, and it is recommended to sow only in the spring.

IRASS SEEDS FOR LAWNS.

"The most beautiful thing that can be placed about a home is a well-kept lawn. It is the soul of the surroundings of a home. Not only is it one of the most beautiful but also useful features of the landscape. Grass is the carpet of the earth, and like the carpet of the house it should be used."

NLY with the best material

can the highest and most satisfactory results be obtained. It is now a decided fact that seed will make a better lawn than turf or sod. Such being the case great care should be taken to secure the best and cleanest seed.

Careful and thorough experiments have proved a mixture of different dwarf, hardy, quick growing varieties to be the best, rather than any one kind. Such a combination of grasses is

BARNARD'S "Perpetual Green"

.:. LAWN MIXTURE

It is unequalled for tennis and croquet grounds. The grasses of which it is composed will in the shortest time possible produce a beautiful dwarf, compact turf, which will endure the summer heat, and insure a rich, deep green sward throughout the season. We take every precaution by the most painstaking cleaning to eliminate as far as possible all weed seeds. Lb., 35c, postpaid. Not prepaid, lb., 25c; 5 lbs. or more at 20c per lb., bags included.

BLUE GRASS. Its uniform growth, creeping habit and beautiful color make it desirable for lawns. This grass lives longer than all others. Fancy cleaned, lb., 30c, postpaid. Not prepaid, 1b., 20c; 5 lbs. or more at 15c per lb.

Special rates quoted for large quantities.

THE QUANTITY TO SOW. It is unwise to be economical in the quantity of seed used if the best results are desired. One pound will sow a plot of six hundred square feet; 4 bush. (56 lbs.) to the acre.

"GOLF LINK" MIXTURE.

For links or grounds on which this most popular game is played we supply a mixture of grasses that will endure wear and tear and at the same time always present. a fine sward. Lb., 40c, postpaid. Not prepaid, 1b., 30c; 5 or more lbs. at 25c per lb.

- WHITE CLOVER. Thrives in damp situations. We have some A1 seed, carefully cleaned. Lb., 30c, postpaid. Not prepaid, lb., 20c; 5 lbs. or more at 15c per lb.
- RED TOP. Desirable where an immediate effect is sought. Fancy cleaned seed, free from chaff, lb., 30c, postpaid. Not prepaid, 25c; 5 lbs. or more, 20c per lb.

is a preparation in which the enriching qualities of stable manure

are found without any objectionable features. Stable dressing is unpleasant to handle and in other ways but worst of all is, that

Chicago Lawn Fertilizer

it always contains more or less weed seeds. There are no weed seeds in this fertilizer. It will impart to your lawn that much desired dark green and velvety appearance. Should be applied as a top dressing either in spring or in fall.

QUANTITIES TO USE AND PRICES:

10-lbs. bag for 1,000 sq. ft. of lawn, or 500 sq. ft. of garden
25=lbs. bag for 2,500 sq. ft. of lawn, or 1,200 sq. ft. of garden 2 1.00
50=lbs. bag for 5,000 sq. ft. of lawn, or 2,500 sq. ft. of garden 2 1.75
100-lbs. bag for 1/4 acre of lawn, or 1/8 acre of garden
200-lbs. bag for $\frac{1}{2}$ acre of lawn, or $\frac{1}{4}$ acre of garden

PULVERIZED SHEEP MANURE.

3335666 As a top-dressing for lawns it is unequaled, being free from weed seeds, and exceedingly stimulating. For lawns it should be used at the rate of 10.00 F 500 pounds per acre. As a fertilizing agent for plants indoors, and in the open

garden, it is one of the very best. 4 lbs., 25c; 10 lbs. 45c; 100 lbs., \$2.00, not prepaid. (Postage 16c per lb. extra).

FARM AND FIELD SEEDS.

...Grass Seeds

BELOW we give the names and short descriptions of the very best varieties for general use.

PRICES on Grass and Clover Seeds change very frequently, so that we are unable to quote prices that are absolute. Get our prices G before you buy. If you are in a hurry for the seed, remit us the sum you wish to expend and we will give you the full value of the money sent on the day order is received.

All quotations on grass seeds subject to market changes. Special quotations will be given at any time.

If wanted by mail add 8c. per lb. for postage. Two bu, bags to hold seed, 15c. each.

Grass Seed Mixtures for Mowing and Permanent Pasture, see page 53.

(Herd's Grass, Cat's Tail, Phieum Pratense.) TIMOTHY. Starts late and grows rather slowly, flowering about four weeks after Red Clover. It makes good hay, even if cut a few days after flowering, but will never bear close feed-ing to horses or sheep; 45 pounds to the bushel. Sow 12 pounds to the acre. Lb. 10c.; large- quantities, market price.

ORCHARD GRASS. (Rough Cock's Foot, Dachils Glomerata.) This is one of the most valuable and widely known of all the pasture grasses. Its good properties are earliness, rapid growth and power to resist drought. It will endure considerable shade. If cut when in flower, or very soon after, it makes first rate hay; ripe, it makes poor hay. Flowers about the same time as Red Clover. Sow 24 pounds to the acre. Lb., 20c; 100 lbs.,\$10.00.

- **RED TOP.** (Pennsylvania Herd's Grass, Burden Grass, Agrostis Vulgaris.) Thrives best on low lands, where it outs a good crop of rather light hay of fair quality. Suit-able for low pastures. Sow 2 bu, per acre; 14 lbs. to the bushel. Lb., 20c; 100 lbs., \$9.00.
- KENTUCKY BLUE GRASS. (June Grass, Spear Grass, Green Meadow Grass, Poa Pratensis.) Valuable pas-ture grass and for lawns when mixed with other grasses. It grows well in rather a dry soil, but will grow on a vari-ety of soils from the dryest knolls to a wet meadow. It endures the frosts of winter better than many other grasses. Flowers in June. Sow about 28 lbs. to the acre early in the spring or during October or November. Lb. 20c.; 100 lbs., \$10.00.
- PERENNIAL RYE GRASS. (Lolium Perenne.) Nutritious and valuable; in most places not excelled by Blue Grass for pasture. It thrives on almost all cultivated soils: starts early and grows all summer. Height seldom over 18 inches. Flowers in June 24 lbs. to the bushel. Sow 60 lbs. to the acre. Lb., 15c., 100 lbs., \$6.00.
- **ITALIAN RYE GRASS.** (Lollum Italicum.) Yields an early and abundant harvest on any good common soil. Especially recommended for pasture mixtures. Lb., 15c.; 100 lbs., \$6.00.
- MEADOW FESCUE. (English Blue Grass, Festuca Pratensis.) An excellent pasture grass, early, nutritious, and thrives well on all good soils. The long tender leaves are much relished by cattle. In addition to its being a pasture grass it makes a very good quality of hay. Flowers in June and July. Sow 40 lbs. to the acre. Lb., 15.; 100 lbs., \$6.00.
- MEADOW FOXTAIL. (Alopecuris Pratensis.) One of the fluest varieties for permanent pastures, grows rap-idly after the cropping of sheep and cattle. It grows well on all soils except the dryest sands and gravels, but)thrives best on a rich, moist, strong soil. Flowers in May. Sow 25 lbs. to the acre. Lb.. 30c; 100 lbs.. \$20,00.

- TALL FESCUE. (Festuca Elatior.) Produces large crops on strong, heavy land. Grows naturally in shady woods, roots deeply and stands dry weather remarkably well. Sow 40 lbs. to the acre. Lb., 25c.; 100 lbs., \$18.00.
- **HARD FESCUE.** (Festuca Durluscula.) A dwarf grasses would fail. Sow 30 lbs. to the acre. Lb., 25c.; 100 lbs., \$18.00.
- PERENNIAL SWEET VERNAL. (Anthoxanthum Odoratum.) Useful as a mixture with other grasse on account of its early growth. It emits an agreeable odor when cut for hay. Sow 10 lbs, to the acre with other grasses. Lb., 350; 100 lbs., \$25.00.
- **TALL MEADOW OAT GRASS.** (Aveaa Elatter, or Arrhenetherum Avenaceum.) It produces an abundance of foliage and is valuable for pasture, starts early, flowers early and roots deeply. Sow 50 lbs. to the acre. Lb., 25c.; 100 lbs., \$16.00.
- **WOOD MEADOW GRASS.** (Pos Memoralis.) There is no grass better adapted for pleasure grounds, particularly under trees, as it will not only grow in such places, but forms a fine sward where few other grasses can exist. Sow 30 lbs. to the acre. Lb. 30c.; 100 lbs., \$25.00
- ROUGH STALKED MEADOW GRASS. (Poa Trivalis.) One of the few varieties that succeed well in moist and sheltered situations, where it produces a con-stant and abundant supply of nutritive cattle food. Sow 20 lbs. to the acre. Lb., 30c; 100 lbs., \$20.00.
- CRESTED DOGSTAIL. (Cynosurus Christatus.) On dry, hard soils and hills it is valuable for its hardiness. Useful for lawn mixtures. Sow 25 lbs. to the acre. Lb., 25c.; 100 lbs. \$23.00.
- CREEPING BENT GRASS. (Agrostis Stolonifera.) This variety is peculiarly useful for moist places which are occasionally overflowed, but where water does not stagnate. Also valuable for lawns. Sow 20 lbs, to the acre. Lb., 20c; 100 lbs., \$15.00.
- COMMON MILLET. (Panicum Miliaceum.) Height 2 to 3 feet; succulent stems; leaves broad and numerous, grows rapidly, and matures early. Can be planted as late as August and mature a crop of hay the same season. Sow % bushel per acre—50 lbs. to the bushel. Bu., \$1.00.
- HUNGARIAN MILLET. (Panicum germanicum.) A popular forage grass in dry sections and dry seasons; it endures drouth remarkably well. Stalk leafy, 2 to 4 feet high, with slender heads; 48 pounds to the bushel. Sow % bushel per acre. Cut when in blossom, and cure the same as clover. Bu., \$1.00.
- **PEARL MILLET.** (Egyptian, East India Millet, Pencil-laria spicata.) Sow in light, sandy soil, well-manured. If cut when small, for feeding green, it produces a second crop; is one of the best of fodder crops in the south. Lb. 10c.
- GERMAN, or GOLDEN MILLET. A great yielder, and one of the best of hay and fodder crops. Sow % bushel per acre-50 pounds to the bushel Bn st 00

ALFALFA CLOVER. **GRIMSON GLOVER.** (Trifolium Incarnatum.)

This is an annual clover for fall sowing only, and when ripe to cut for hay

orseed it neverstarts again. It can be sown in August, September or early in October. It can be sown in orchards, in fields of growing crops, or in open ground after some other crop has been harvested. It germinates quickly, grows late. in the fall and during warm spells in the winter, when red clover will not think of starting. Makes remarkably rapid growth in Spring and by the first week in May it stands two or three feet high and is in full bloom, ready to turn under as green manure in time for almost any Spring crop. It succeeds on nearly every

kind of soil standing northern winter and southern summer. It can be cut for hay and for this purpose grows as easily as common red clover. It thrives on land so poor that the common clover would do but little. 10 to 15 lbs. are required to the acre. Lb., 15c, not prepaid; bu., \$3.00; 100 lbs., \$5.00.

-CLOVERS.

Prices on Clover subject to Market Changes. Write for special quotations. If wanted by mail or Express, prepaid, add 8c per lb. to prices named.

ALFALFA, or LUGERNE. (Medicago Sativa.)

Alfalfa flourishes in all Western and Southern States and has succeeded admirably in many localities of the North. The great value of alfalfa is in its enormous yield of green fodder, which should be cut when commencing to blossom; it is also highly relished by stock when cured into hay. The roots penetrate the soil to a great depth, they hav-ing been found in sandy soil 13 feet long; it is thus able to resist drought. therefore it will grow and yield abundantly in hot, dry sections and on poor, light sandy land. It, however, attains its highest perfection on mellow, well drained high or rolling land, where water readily pa-ses away Alfalfa is not adapted for heavy, sticky clays, nor for land where water stands a short distance below the surface. The seeds may be away sown in the early fall or in the Spring as soon as the frost is out of the ground, in order to catch the Spring rain, as it needs moisture to germinate. Twenty to twenty-five pounds are required per acre if sown broadcast, eight pounds in drills. Thick sowing produces the finest hay. 60 lbs. to the bushel. Lb., 20c, not prepaid; bu., \$5.00, 100 lbs., \$8.00.

MEDIUM RED, or JUNE. (Trifolium Medium.)

The common Clover in general cultivation; g10ws 2 to 3 feet high, and is the best for hay. Makes excellent pasturage when sown with Grasses, and is one of the best folders for milch cows and sheep. When used alone, sow about eight pounds of seed per acre; 60 pounds to the bushel. Lb., 15c, not prepaid. Write for prices in quantity.

MAMMOTH, or MARGE RED. (Pea Vine, Trifolium Pratense.)

Grows 4 to 6 feet high. The variety best adapted to: plowing under as a green manure, on account of the enormous mass of tops and roots which it produces. It makes an excellent hog pasture. Sow 8 pounds per acre; 60 pounds to the bushel. Market price. Lb., 15c. Write for prices in quantity.

WHITE. (Trifolium Repens.)

Low, with creeping stems. It is the best of the Clovers for permanent pasturage, but prefers moist land. Mixed with Blue Grass or Perennial Rye Grass, or Taller Oat Grass, it makes a permanent pasture of great grazing value. Stems fine and palatable, bearing numerous leaves of bright green color blotched with white. Sow 6 pounds per acre when used alone, or 3 pounds with Grass seeds; 60 pounds to the bushel. Lb., 25c, not prepaid; 25 lbs., 20c per lb.

WHITE CLOVER.

SCARLET CLOVER.

NATURALS

ALSIKE, or SWEDISH. (Trifolium Hybridum.)

Hardy, resists extremes of drought and wet, yields large crops of superior pasturage, and much liked by cattle. It is well suited to sowing on lands liable to wash, as its long fibrous roots spread over a wide area, and so interlace and hold the soil as to resist the heaviest rains. Can be planted on any kind of soil. Blossom heads round, resembling White Clover in shape, flesh colored, sweet and fragrant; much liked by bees. Sow 6 pounds per acre in spring or fall; 60 pounds to the bushel. Lb., 20c, not prepaid; bu., \$5.50; 100 lbs., \$10.00.

FERTILIZERS, INSECT AND FUNGUS REMEDIES.

We keep but one grade-the best. Our large sales enable us to offer at lowest wholesale prices. Prices subject to market changes. Special quotations will be made for large lots.

FERTILIZERS, ETC.

PULVERIZED SHEEP MANURE.

Highly recommended for all purposes for which a fertilizer is required. Its effect is immediate and lasting. It is clean to handle. For lawns, use at the rate of 500 lbs. per acre. For pot plants, mix one part sheep manure to six parts of soil. For use in the vegetable garden. spread over the surface and dig in. Being soluble, it readily makes a safe liquid manure (one pound to five gallons of water per day can safely be used). 2 lbs., 15c; 4 lbs., 25c; 10 lbs., 45c. Not prepaid. 100 Ibs., \$1.25; 1,000 Ibs., \$9.00.

FINE RAW BONE OR FLORISTS' BONE MEAL.

Guaranteed pure bone. It is ground fine and is an excellent top dressing for lawns, grass lands, farm and field crops, also for mixing with potting soil. 5 lbs., 25c: 10 lbs., 40c; 25 lbs., 70c 50 lbs., \$1.25; 100 lbs., \$2.00; bag of 200 lbs., \$3.50.

PURE CRUSHED BONE.

Coarse ground. Used around fruit trees, grape vine borders and in the poultry yard. 50 lbs., \$1.75; 100 lbs., \$3.00.

BONE AND BLOOD.

Just the thing where a high nitrogenous fertilizer is required. Its effects are prolonged and lasting. For seed beds and garden plots of cabbage, lettuce, beets, onion, celery, spinach, apply broadcast at the rate of one or two tons per acre. When used in rows or in hills for cabbage, celery or early corn, one to two hundred pounds per acre will be sufficient. 100 lbs., \$1.50; per ton, \$24.00.

GARDEN VEGETABLE COMPOUND.

Where applied, vegetables ripen ten to fourteen days earlier, and the increased production is usually one-third to one-half larger than when t is not used. It is put up in bags of 100 to 200 pounds, odorless, clean o handie and reasonable in price. 50 lbs., \$1.50; 100 lbs., \$2.75; 200 lbs., \$4 50

GARDEN CITY SUPER-PHOSPHATE.

This is a complete manure. Can we say more than this? The more inquiries you make and the more you investigate this fertilizer, the more readily you will use it.' Use 200 or 300 pounds per acre. 100 lbs., \$2.00; 200 lbs., \$3.50.

CELERY GROWER.

A new, carefully prepared manure, especially adapted for celery growing. It is chemically suited to this crop, which demands high manuring. 50 lbs., \$1.25; 100 lbs., \$2.00; 200 lbs, \$3.50.

CHICAGO LAWN FERTILIZER.

10 abs, ouc; 25 lbs., 75c; 50 lbs., \$1.50; 100 lbs, \$2.75.

1

JAD00-Fibre.

A New Potting Material in which Every Plant Thrives without Earth.

It is cleaner than earth, half as light, is spongy and requires watering only half as often. Worms cannot exist in it-no soil to mix-no manure required. Seeds germinate in it more quickly than in earth. Price, by freight or express, not prepaid, 5 lbs., 30c; 10 lbs., 50c; 25 lbs., \$1.10. Bag (about 120 lbs.), \$3.60.

JAD00-Liquid.

Revives drooping plants, strengthens the weak and nourishes the strong; above all, it gives health, increases the size, causes greater profusion of bloom and heightens the color of both foliage and flowers. Can be used on plants grown in Fibre, and for watering plants grown in earth it is the *cheapest of all fertilizers*. Add forty-eight parts of water to one part of Jadoo liquid. Mix and use. Price, by freight or express, not prepaid: Pint bottle, 25c; case of 24 pints, \$3.50; 2 gals. in jacketed can, \$1.50; 5 gals. in jacketed can, \$3.75.

FERTILIZERS.-Continued.

FLORISTS' PLANT FOOD.

An application of this plant food will be observed in the vigorous growth of the flowers and a deep green foliage. 5 lbs., 50c; 10 lbs., 75c; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$4.00.

BOWKER'S PLANT FOOD.

For all pot plants. Clean, odorless, effective. Directions for use with each box. Two sizes, each, 15c and 25c. By mail, each, 25c and 40c. Small, doz., \$1.15. Large, doz., \$2.15.

Nitrate of Soda. 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50.

Peruvian Guano. Guaranteed pure. 5 lbs., 40c; 10 lbs., 70 lbs., \$2.75; 100 lbs., \$5.00. Prices will be quoted on larger lots. 70c; 50

Land Plaster or Gypsum. Bbl. (about 350 lbs.), \$2.00; 5 bbls. for \$9.00. Write for price in large quantity.

INSECTICIDES, FUNGICIDES, ETC.

SLUG SHOT.

One of the cheapest and most popular insecticides. It kills potato bugs, currant, gooseberry and cabbage worms, melou, squash and cu-cumber bugs-in fact, every pest known to the grardener. Contains nothing in the least injurious. 5 lb. package, 30c; 10 lb. package, 50c; bbl. (225-200 lbs.), 4c per lb. Tin canisters, with finely perforated top for dusting (filled), 25c each; by mail, prepaid, 40c.

PEROXIDES OF SILICATES.

A sure protection against the ravages of all Insect Pests that destroy the growing crops. When mixed with the Fertilizer it will destroy all grubs and worms in the soil. It kills the Colorado beetle or potato bug, the cabbage worm, etc. *Absolutely sofe*. No danger of poisoning your stock. Price: 5 lbs., 30c; 10 lbs., 50c; 100 lbs., \$4.50; bbl. (225-260 lbs.), dc ner th 4c per lu.

- Hellebore Powder. Kills currant worms, rose slugs, etc. 1/2 lb., 30c; lb., 50e postpaid. Not prepaid, lb., 30c; 5 lbs. for \$1.00.
 INSECT POWDER. Dalmatian or Persian. Destroys ants, fleas and all noxions insects. 1/4 lb., 25c; 1/2 lb., 40c; lb., 75c; not prepaid. (Postage, 16c per lb. extra.)
- Paris Green. Pure stock. 1/4 lb., 15c; 1/2 lb., 25c; lb., 40c. (By mail, add 16c per ib. for postage.)
- Tobacco Dust. Cheaper than snuff. A sure remedy for green fly. 11b., 10c (by mail, 25c); 51bs, 25c; 100 lbs., \$2.00, not prepaid.
- Tobacco Stems. For funigating greenhouses, etc. Good to mulch Rose and Lettuce beds. An excellent fertilizer and protector to the lawn in winter. 10 lbs., 50c; bbl., \$1.00; bale of about 250 to 400 lbs., 1c per lb
- Tobacco Extract, Rose Leaf. A positive remedy for insects in greenhouse and conservatories. Used in various ways. Directions on package. Pint, 30c; qt., 50c. Gal., \$1.50; 5 gals., \$5.00.
- Whale Oil Soap. Pure, fresh. Kills insects and their eggs; good wash for fruit trees. Dissolve 11b. in five gallons of water, apply with a syringe or force pump. 2 lbs, 25c; 5 lbs, 50c; not prepaid. Postage required, 16c per lb.
- Tobacco Soap. Most effective in cleansing plants and trees infested with red spider, oleander bugs (scale) and rose slugs. Box, suffi-cient to make 5 gals. of wash, 25c. By mail, 35c.
- Nicoteen. A Liquid Insecticide. One of the most powerful and satis factory in use. It is much more preferable than the crude tobacco extracts usually sold. Fint, \$1.50.

REMEDIES FOR MILDEW, ETC.

Bordeaux Mixture. For black rot, mildew of grapes, potato rot, leadought of cherry, pear and other trees, etc. 1 quart can (will make 35 gallons liquid) 35c. Doz., \$2.25.

perdine. Prevents rust on carnation plants, mildew, black rot, etc. Dilute 1 pint to ten gallons of water. Apply with sprayer. Price, one gallon, \$1.50. Copperdine.

- Flour of Sulphur. For destruction of mildew on roses, etc. Blow it over the plants with a sulphur bellows. Lb. 10c; 10 lbs., 60c; 25 lbs., \$1.25; 50 lbs., \$2.00.
- Grape Dust. Preparation for in greenhouse or open air. Preparation for destroying mildew, mold or rust either 5 lb package, 350

For Bellows and Powder Gun to apply above, see page

HARDWOOD UNLEACHED ASHES.

An excellent fertilizer containing all elements except Nitrogen. Per bbl., \$2.75.

GENERAL CULTURAL DIRECTIONS:

M OST flower seeds germinate well in a rather light sandy loam, exposed to the sun, while a few are benefited by partial shade, and some do best with an element of clay finely mixed with the soil. Nearly all the hardy seeds vegetate better when planted in early spring as soon as the soil can be worked fairly easily.

A general rule for the seed-bed is to have the soil rich, level and worked very finely. Sow the seed evenly in the rows, cover with the finest of soil, about three times the diameter of the seed, and press the soil firmly over the seed. The soil should never become dry after the seeds have swelled, for if it does, they will be pretty sure to fail. For this reason it is best to sow most small seeds in shallow boxes 2 to 3 inches in depth and of any convenient size, that the surface of the soil may be kept properly moistened.

After the seeds are up, care must be taken to give them plenty of air and moisture, and yet not too much water, or they will "damp-off" (rot at the top of the ground). As soon as the second leaves are well out they should be transplanted into pots or new boxes. When finally transplanted to the bed or border they should be watered frequently until well established.

ANUALS grow, bloom and die the first year from seed. They are all of easiest culture.	In this catalogue we abbreviate the classification follows:	s as				
BIENNIALS flower the second year, sometimes the third, then die. Some bloom the first year. DERENNIALS usually bloom the second season and continue in life several years.	A to designate Annuals. B for Biennials. P for Perennials. As to hardiness: H, hardy, H H, half-hardy, T, ter	ints.				
DI BASE ODDED ELOWED SEEDS BY NUMPED as it will save time in writing						

PLEASE ORDER FLOWER SEEDS BY NUMBER as it will save time in writing and also in filling the order. ALL FLOWER SEEDS will be sent prepaid at prices mentioned in this Catalogue

DISCOUNTS. All purchasers of flower seeds in *packets and ounces* are entitled See top of order sheet and page ... of catalogue.

SIZE OF PACKETS. Our packets are *well* filled, so much so that they usually contain sufficient for two or more sowings.

会・・・・SEEDS FOR SPECIAL PURPOSES・・・・ 怜

-The following list will be found useful in making selections of suitable varieties for a given object.-----

LOW GROWING PLANTS

For Beds and Edgings.

Ageratum, Alyssum, Browallia, California Yellow Bells, Calliopsis, Campanula, Candytuft, Chrysanthemum, Daisy, Dianthus or Pinks, Escholtzia, Feverfew, Forget-me-not, Godetia, Heliotrope, Mignonette, Marigold (dwarf), Nasturtium (dwarf), Pansy, Phlox Drummondii, Poppy, Portulacca, Torenia, Verbena, Violets, Zinnia (dwarf).

CLIMBING PLANTS

For Porches, Etc.

Adlumia, Balloon Vine, Canary Bird Flower, Cobœa, Cypress Vine, Dolichos, Moonflower, Nasturtium (tall), Scarlet Runner Beans, Sweet Peas, Thunbergia.

For Fragrant Flowers.

Sweet Alyssum, Candytuft, Carnation, Four O'clock, Heliotrope, Mignonette, Pansy, Nasturtium, Stocks, Sweet Pea, Verbena, Violet, Wallflower.

FOR BOUQUETS. 14 Pkts. "ONLY A QUARTER." Here are fourteen choice annuals, easily grown, the best for cutting for bouquets. Aster, good mixed.

Sweet Alyssum. Agathea. Ageratum, mixed, Balsam, double mixed. Calliopsis. Carnation, Margaret. Candytuft. Convolvulus, Minor. China Pinks. Nasturtium, tall. Pansy, mixed. Sweet Peas, mixed. Zinnia, mixed. Price, the entire 14 pkts., 25c. TALL GROWING PLANTS

For Backgrounds and Centers.

Abutilon, Adonis, Antirrhinum, Aquilegia, Aster, Balsam, Calendula, Canna, Castor Bean, Datura, Delphinium, Hollyhock, Helianthus or Sunflower, Lupins, Marigold, Mirabilis or Four O'clock, Nicotiana, Perilla, Salvia, Stocks, Sweet Williams, Zinnias.

FOR CONSTANT BLOOM.

Sweet Alyssum, Candytuft, Carnation, Celosia, Escholtzia, Nasturtiums, Petunias, Phlox Drummondii, Pinks, Portulacca, Sweet Peas, Verbena, Zinnia.

For Vases and Baskets.

Abronia, Alyssum, Gilia, Kenilworth Ivy, Lobelia, Maraundia, Mimulus, Nasturtium Lobb's, Nierembergia, Schizanthus, Sedum, Vinca, Verbena.

WILD FLOWER GARDEN MIXTURE.

These mixed flower seeds embrace more than a hundred varieties of such easy growing and pretty flowers as are suitable for forming a wild flower garden. They are very useful for woodlawn walks, roadsides, railroad embankments and for sowing alongside of fences, and on any untidy bare spots of ground which are so frequently unsightly and which, if properly cared for and kept free from weeds, produce a continual display of bloom during the summer. Pkt., 5c.; oz., 25c.

For the Latest Novelties and Recent Introductions see front pages.

2002 ADONIS. Hardy bedder Crimson. Blossoms throughout the season. Foliage is graceful and feathery. Height i ft A. Pkt 3c 2007 ADLUMIA. (Allegheny Vine.) Likes shade. Pink and white flowers. Fern-like foliage Cl. Pkt., 5c

ALYSSUM

LOVE LIES BLEEDING.

SWEET ALYSSUM.

An old favorite as 2057 easily grown as a weed. Thrives in flower gardens, window boxes, vases, etc. Flowers white, very fragrant, valuable for cutting, 9 in H A. Oz., 25c. Pkt., 3c.

ALYSSUM, Little Gem.

2058 This variety grows about six inches in height. Flowers pure white, fragrant, borne in profusion. Suitable for edgings and low beds. More than four hundred clusters of flowers in full bloom have been counted on a single plant. 1/2

oz , 20c.; Pkt., 5c. 2068. Saxatile. Golden yellow flowers Blooms in spring. H. P Pkt., 5c.

Agathea -(Blue DAISY.)

2012. In appearance is exactly like the Marguerite or Paris Daisy, except its flowers, which are sky-blue with yellow disc. Easily grown, free blooming and valuable for culture as a winter flower. H A. Pkt., 5c

W. W. BARNARD & CO., SEEDSMEN, CHICAGO.

QUEEN OF THE MARKET.

HEN almost all other fl wers of the summer have passed, Asters come into bloom. For that come into bloom. For that reason, as well as on account of their very beautiful flowers of varied form and color, Asters are popular with flower lovers the world

popular with flower lovers the work over. They may be sown in the open ground after danger from frost is past. Stronger plants and earlier flowers can be obt ined by sowing in a light window, hot be or green-house. They require rich, loamy soil, and in dry weather should be mulched with well rotted manure to produce large flowers, yet they will succeed admirably in the most ordin-ary garden soil. ary garden soil.

The seed offered has been grown by the most expert cultivators, and saved from double flowers only.

OUEEN OF THE MAR-KET. Blooms three weeks earlier than other Asters. Plants are dwarf, about one foot h gh, branching and free flowering. Flowers are borne on long stems, which adds much to their value for cut flowers. Does well under glass.

2196. Whi e. Pkt. 5c 2197. Mixed. Pkt. 5c

Snowball or Princess.

2172. A very beautiful and distinct Aster, having v ry short, thick petals, the flower bearing a resemblance to a dwarf or pompon Dahlia. A single plant will generally yi-ld fifteen or more pure white flowers. Pkt., 10c.

ASTER, DAYBREAK.

... NEW ASTER, DAYBREAK ... COLOR, LIGHT, DELICATE PINK.

2194. The accompanying illustration, from photograph, shows one of the vigorous, free-blooming plants of DAYBREAK ASTER. The delicate pink color, erect and graceful habit, and immense display of flowers when seen in mass, is simply charming beyond description. The plant is of a robust and sturdy habit of growth, producing the large flowers on long and graceful stems, making it a most exce lent Aster for cut flowers. Pkt. 10c.

Vick's Branching.

These are quite distinct from Sem-

20 inches long. The branching habit is so great that one plant has covered a space two and one-half feet square.

fe t.

The flowers of this class are two

pure white, with outer petals of various colors, such as crimson, blue, violet, etc. A large, full, double flower. Height two 2126. M xed colors. Pkt. 10c.

HIS Aster is a strong grower and its tendency numerous to form branches is very marked, therefore it should have more room than the ordinary Aster. The plant continues to grow later in the season than any other variety with which we are acquainted, and blooms correspondingly late, thus giving its crop of flowers in late autumn, a season when th re is always a scarcity of bloom.

The flowers are borne on very long stems and are four inches and more in diameter. The petals are broad, long, and many of them more or less twisted or curled in such a manner as to give the blooms the appearance of large, loose and graceful Chrysanthemums.

The Branching Aster is easily grown from seed and is of great utility and beauty for bedding purposes, coming at a season when there is litt'e else in flower, anticipating as they do the Chrysanthemum season by a month or six weeks.

We offer this strain in five separate colors and mixed.

COMET OR POODLE.

Next to the Victoria Aster, the Comet is the handsomest of tall growing Asters; it possesses many distinct characteristics, making it especially desirable. The flowers are handsome, very attractive, with long, curled and twisted petals formed into a large globe-shape. The giant flowered class have even larger flowers. All are produced on long stiff stems, making these Asters useful for corsage bouquets as well as for cut flowers.

CANDYTUFT EMPRESS.

CARNATIONS

Are prized for their delightfully fragrant and lovely flowers. They are valuable for flower beds in summer and as winter blooming house plants. Eighteen inches. H. H. P.

BLOOMING THE FIRST SEASON MARGARET CARNATION.

2267. These lovely Carnations are of dwarf habit, requiring no support. They bloom in about four months after sowing the seed, yielding a profusion of fragrant fringed flowers, white. red, pink, variegated and others. By lifting the plants in fall or repeated sowings flowers may be had all winter. Mixed. 1/8 oz., 25c.; pkt., 5c.

2266. Pure White. Pkt., 5c.

GIANT MARGARET.

A greatly improved strain, producing double fowers three inches across. There is also a greater variety of colors, while the semi-dwarf habit and fragrance is retained. Mixed. Pkt., Ioc.

2272. Chaubaud's Perpetual. Blooms in seven months. Large, sweet-scented flowers, in same colors as Margaret. Height, sixteen to twenty inches. Pkt., Ioc.

2273. Guillaud. Selected from the Margaret. In this strain are found clear yellow and yellow striped flowers. Pkt. 10c.

CARNATIONS BLOOMING THE SECOND SEASON.

2278. Grenadin. Very early. Dwarf habit. Scarlet flowers; splendid for cutting. Endures the winter with slight protection. Pkt., 5c. 2292. White. Pkt., 10c. 2279. Perpetual or Tree. Fine for winter flowering. Pkt., 15c.

2280. Double Dwarf Vienna. The earliest gr-den rt. White, sweet-scented flowers. Pkt., 10c. sort

2300. A beautiful climber. the charming little canarycolored blossoms bearing a fancied resemblance to a bird with its wings half expanded. Pkt., 5c.

CALENDULA.

Of easiest culture. Excellent for bouquets. H. A. Twelve inches.

vith orange. Pkt., 3c. 2320. Meteor. Double yellow, striped with orange. Pkt., 3c. 2325. Prince of Orange. The best double Marigold. In general it is similar to Meteor, but much darker in color. Pkt., 3c

CELOSIA-TRIUMPH OF THE EXPOSITION.

63

MARGARET CARNATION.

2285. PICOTEE. Fine double mixed. Flowers white or yellow, bordered with purple, red or rose. Pkt., 25c.

2290. CARNATIONS. Double finest mixed. This seed will give very favorable results. Pkt., 10c.

2291. Fine Mixed. A small percentage will come single. Pkt., 5c.

Canterbury Bells.

Campanulas thrive in light, rich soil. Worthy a place in every garden. Rich, showy flowers. Two and one-half feet. B.

2367. Double. Pkt., 3c. 2368. Single. Pkt., 3c. 2369. Cup and Saucer. So called from the very large handsome flowers which resemble these household articles. Rose, striped and others mixed. Pkt., 5c.

Celosia or Cockscomb.

Excellent bedding or pot plants, produc-ing their flowers in combs and feathery spikes. H. H. A.

2373. Crested, crimson. Tall, two feet. Pkt., 5c.

2374. Crested, crimson. Dwarf, one foot. Pkt., 5c.

2375. Crested, mixed sorts. Pkt., 5c. 2376. PRESIDENT THIERS. Very dwarf. Crimson. Much used in bedding.

Fine pot plant. Pkt., roc. 2377. Empress. Crimson comb of co-lossal size. Pkt., roc.

2378. Triumph of the Exposition. Featheryflower heads of brightest scarlet. Blooms early and the entire season. 2 feet. Pkt., 5c.

CALLIOPSIS or Coreopsis.

The Calliopsis or Coreopsis is among the brightest and cheeriest of flowers. Becaus th y grow anywhere and as freely as a weed they are not seen as frequently as should be. The flowers are produced on long stems thrown well above the foliage. The Calliopsis blooms all summer and its flowers are unexcelled for bouquets.

2479, Golden Wave (Drummondi). Plant is bushy and compact; flowers larg^a, rich golden yellow with crimson-brown center. For a mass of golden yellow this is very effective. Pkt., 5c.

2478. Calliopsis. All colors mixed. Pkt. 3c.

NEW HARDY COREOPSIS, "California Sunbeams."

2493. Lanceolata Grandiflora. These lovely improved varieties are much larger and more beautiful than any heretofore offered; the flowers are exquisitely formed, some saucer-shaped, others cupped, delicately incurved, while some are quite flat, others like great Buttercups. The petals are broad, with plain round edges in some flowers; in others they are pinked, toothed or irregularly fringed; some are semi-double; in many the petals are daintily curled. They vary in color from pale light yellow to orange yellow, some of them being darker in shade around the eye. The flowers keep fresh in water for a week or ten days. Pkt., 10c.

DWARF LARGE CANNAS. ... FLOWERED. ... FRENCH

For Canna Roots see Bulb Department.

Cannas within recent years have become most popular. They are stately plants with handsome foliage and showy flowers. The seeds are extremely

hard and it is advisable to soak them 12 to 24 hours before planting. Cannas come readily from seed; that sown in January or February should produce blooming plants in July After frost the roots can be dug up and kept over in a frost-proof room until

planting out time. 2425. Large Flowering French Saved the best and largest flowers on'y. All colors and shades are included. Pkt., 10c. 2426. Cannas. Mixed. Tall

old type. Pkt., 3c.

×

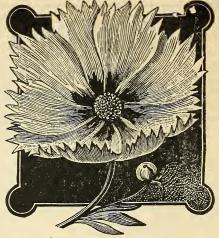

HRYSANTHEMUMS

JAPANESE.

2444. Almost every large city now has its Chrysanthemum show each fall. The magnificent and enormous flowers elicit universal admiration. Seed we offer is from the best Chinese andJapanese. If this seed is sown ina hotbed in February or March, or even in April it will give plants which will bloom next fall. Some very choice varieties may be expected from this seed. Pkt., 25c.

CENTAUREA MARGUERITE.

CALLIOPSIS, GOLDEN WAVE. HRYSANTHEMUMS

ANNUAL VARIETIES.

The annual Chrysanthemums are distinct from the autumn flowering varieties, blooming all summer long. They make a beautiful show grown in pots or in beds, and are extensively grown as cut flowers.

> 2434. Single. Mixed. Pkt., 3c. 2439. Double. Mixed. Pkt. 3c.

HARDY PERENNIAL SORTS.

2445. Frutescens Grandiflora, ('French Marguerites.') Largely grown for cut flowers. They make elegant bushy pot plants for winter flowering, and bloom all summer in the garden. White. Pkt., 5c.

C. Maximum Perfec-2447. tion. Beautiful large white flowers, splendid substance, 4 to 6 inches a-

cross. A compact, bushy plant, 18 inches high; very floriferous. Flowers in a few weeks from seed. Highly prized for cutting, and lasting in water fully a week. Very effec. tive for garden. Pkt., 10c,

CHRYSANTHEMUM MAXIMUM.

White Leaved CENTAUREA, or Dusty Miller.

Valuable bedding plants or for use in vases and hanging baskets; contrast effectively with dark foliaged plants. H. H. P. 2401. Candidissima. Silver white. 1 ft. Pkt., 10c.

2403. Gymnocarpa. Deeply cut foliage. 11/2 ft. Pkt., 5c.

Bachelor's Button or Centaurea Cyanus,

2399. An old favorite hardy annual, known as Blue Bottle, Corn Flower, Ragged Sailor, etc. It blooms readily almost anywhere and is largely used for cut flowers. Mixed colors in many shades. Pkt., 5c. 2404. Emperor William. Dark blue, very fine. Pkt., 3c.

2405. Victoria. A dwarf form of the favorite flower of Emperor William I., which grows only about 9 inches high, forming a bell-shaped plant. Its handsome blue color, so rare among flowers, will secure it a place in every garden. Pkt., 10c.; 3 for 20c.

2398. Cyanus Fl. Pl. (Double Cornflower.) Large, double globe-shaped flowers in new and beautiful colors. Pkt., 5c.

NEW CENTAUREA, Marguerite.

2397. This fine annual from Italy, named in honor of the queen of that country, has, after trial, proved of much merit. It is valuable alike for cut flower and decorative purposes. Grows about eighteen inches high. The large flowers are purest white, deliciously scented and borne on long stems. Pkt., 5c.

2396. Chameleon Odorata. This plant is a fitting companion for the lovely Marguerite above described. It produces large, fragrant, blue flowers, changing into white and again into pink. Pkt., 5c.

CATALOGUE OF FLOWER SEEDS.

COSMOS AN UNRIVALED PLANT FOR FALL BLOOMING.

HEN grown in rows about 20 inches apart, or in masses in a bed, Cosmos produce a beautiful show. The early blooming sorts come into flower in *July and continue until November*. Each plant will reach a height of 3 to 4 feet covered with gr-en feathery like foliage, and hundreds cf daisy-shaped flowers borne upon long stems, making them most valuable for cutting for bouquets. The flowers retain their freshness for nearly a week after cutting. The colors are white, pink, crimsor, and now a yellow has appeared. All are of great size, beautiful, dainty and handsome

EARLY FLOWERING COSMOS, "Tints of Dawn."

Commences to bloom in July and continues until frost. 2508. This new variety comes into full flower in July, and continues a mass of bloom until cut down by severe frost. This feature will make the successful cu tivation of Cosmos possible in the most northerly States and Canada; but added to this it is of dwarf, compact growth, growing only 4½ feet high, while the old variety growing alongside towers up nearly 7 feet, a victim of the first strong wind. The flowers are fully as large as in the best selections of the old type, the color is a beautiful white. relieved by a tint of rose. Pkt., 5c.

GIANT FLOWERED FANCY COSMOS.

These gigantic flowers measure from four and a half to five inches across, and are of wonderful grace and beauty. They are of the greatest variety pos-ble both in form and color, comprising both single and double flowers; petals fringed, pinked, toothed

and plain, and in color from pure white through shades of pink and red to rich da k red-

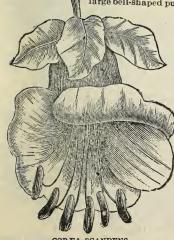

shades hereto fore unknown among Cosmos 2509. Giant Red......10c. 2510. Giant White......10c.

2513. New M rguerite Cosmos. Large flowers of from 2 to 3 inches across, petals deeply fringed, resembling Marguerites. Pkt., 10c.

ORANGE YELLOW COSMOS.

2514. This is entirely new both in color and habit. The plants grow 3 to 4 feet high with a mass of brilliant ora ge yellow flowers. They begin blooming very early, when cally about 18 inches high, and continue until severe freezing weather. Pkt., 10c.

2427. CLEMATIS, Large Flowering. Beautiful climber with lovely flowers in blue, white, purple, etc. Hardy, can remain in a permanent situation. Mixed. Pkt., 10c.

COBÆA SCANDENS.

COBÆA SCANDENS.

2494. Magnificent, rapid growing annual climber with large bell-shaped purple flowers, adapted for out-door growth

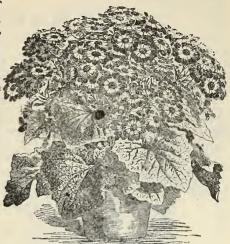

in summer also for the house and greenhouse. A thrifty plant will often grow 20 to 30 feet in one season. The seed should be planted edge down, and no water given unless in a warm place, and the soil becomes very dry. H. H. P. 2499. **Cobæa Scandens**. White. Pkt.,5c.

COLEUS.

Handsome foliage plants most easily grown from seed and very popular for bedding also for pot culture. The new, largeleaved Hybrids with foliage notched and fringed in a most wonderful manner, are an immense improvement on other sorts. Seeds sown early in the spring will produce fine plants for outdoor planting. T. P.

2506. Finest Varieties in Mixtu e. 1 to 2 feet. Pkt., 10c.

2507. New Large-Leaved Hybrids. Very large and sure bly variegated foliage. Mixed, Pkt., 25c.

CINERARIA GRANDIFLORA HYBRIDA.

CINERARIA.

The most popular and the easiest house plant to grow from seed. Sow from May to September. Plants grow from 1 to 3 feet high and are covered with flowers, some of them 2 incless across, Greenhouse perennial.

> 2387. ENGLISH PRIZE STRAIN. Without an equa, for size of flowers or beauty of color. This is the strain we supply to floitsts and it gives such universal satisfaction we have discarded all others. Pkt., 25c.

2390. Cineraria Maritima. (Dusty Miller.) Extensively used for ribbonplanting, vases, hanging baskets, etc.; leaves silver gray; although perennial it is grown as an annual. Pkt., 5c.

CLARKIA. Pretty annual for flower beds, Flowers red, white, pink, purple, etc. Grows about 18 inches high and blooms freely all summer.

2415. Single, 3c. | 2416. Double, 3c.

2505. CLIANTHUS Dampieri. The "Australian Glory Pea." A beautiful shrubby trailer. Flowers pea-shaped, in clusters, bright scarlet with clear, glossy black center. 3 ft. H. H. A. Pkt., 15c.

2504. CUPHEA Platycentra. (Cigar Plant.) Flowers scarlet, tipped with black. A favorite bedding and pot plant. Pkt., 10c.

CYPERUS or Umbrella Plant.

2265. A graceful decorative plant which grows readily in water and most easily from seed. The leaves radiate from the stem and curve downward in a drooping manner. Valuable for the window garden. Pkt., 5c.

CYPRESS VINE.

IPOMEA QUAMOCLIT. 2516. A handsome clumber that will run 15 feet or more during the season. Shoud be planted by the side of a trellis, tree or stakes. Its beaut ful dark green foliage and star-shaped flowers in clusters are a mass of beauty all summer long. Mixed. Pkt., 3c.

CYCLAMEN. Tuberous rooted plants of beautiful foliage and hand-

some, fragrant flowers, scarlet. pink, white and these in different shades. Universal favorites for parlor or greenhouse for winter and spring blooming. They flowering make bulbs in one season if sown early in sandy soil. Comes easily from seed, insuring a supply of bulbsat trifling cost. G. P.

2518. Persicum. Best mixed varieties. Pkt., 20c.

GIANT FLOWERED CYCLAMEN.

A good specimen plant of this will frequently have fifty flowers open at one time. The leaves are proportionately larger, while the flowers are enormous, much brighter colored, and being on long, stout stems they are

valuable cut flowers. Colors separate or mixed. 2522. Light Red. Pkt., 20c. | 2524. White. Pkt., 20c. 2523. Dark Red. Pkt., 20c. | 2517. Mixed. Pkt., 20c.

DAHLIA.

Tuberous rooted, fall blooming, outdoor plants, admired by everyone for their handsome flowers. Can be grown readily from seed which, if sown early in the house, will give blooming plants the same season. Colors, red, pink, white, yellow, purple, striped, variegated, etc. A packet of seed rarely produces two plants alike. Take up tubers soon as frost occurs in fall and preserve in a dry frost proof cellar. Two to four ft. H. H. P. 2525. Double Large Flowered. Sure to give splendid

Pkt., IOC. results.

Single Mixed. They make excellent cut flow-2526. ers and are a mass of bloom all summer and fall. Star shaped flowers with broad petals in almost every color except blue. Pkt., 5c.

DELPHINIUM.—(LARKSPUR.)

Annual Varieties.

More commonly known as Larkspur. An old time annual of branching, erect habit, having showy flowers, red, white, blue, etc. Sow seed very early or even late in fall. Set branching sorts 2 feet apart. Rocket varieties, five or six inches apart.

2550. Hyacinth Flowered. The plants grow 2 to 3 feet high. The flowers very strongly resemble those of a Hyacinth, hence the name. Colors white, flesh tinted, lavender and blue in mixture. Easy to cultivate, but seed should be sown where the plants are to bloom. Mixed. Pkt., 10c.

2555. Double Branching. Valuable for cut flowers. Continues in bloom until cut down. Pkt., 3c. 2569. Tall Rocket. Mixed, fine. 1½ ft. Pkt., 3c. 2561. Emperor. Compact plant with numerous long spikes of brilliant double flowers; mixed. Pkt., 3c.

Perennial Varieties.

These are valuable plants for the permanent bed or border. Furnishing an ample supply of flowers. 2562. Formosum. Dark rich blue with a white center.

2 ft. Pkt., 5c.

2567. Nudicaule. Scarlet, dwarf, abundant bloomer. Fine for flower beds or pot culture. I ft. Pkt., IOC.

2568. Pillar of Beauty. Sky blue; of so bright a shade it must be seen to be appreciated. Pkt., 10c.

DOUBLE DAISY. (BELLIS PERENNIS.)

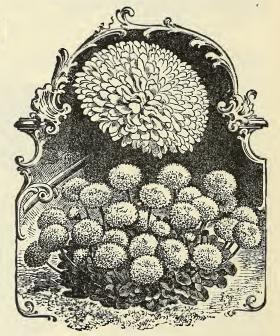

Charming plants indispensable for cool, shady places. Next to the Pansy the most popular garden flower. Seed sown early will give blooming plants in a short time. With protection Daisies will endure our winter and bloom in early spring. H. H. P.

2540. Longfellow, Double, dark pink flowers. Comes true from seed. Pkt., 5c. 2541. Snowball. A sport of Longfellow with pure

white flowers. Free blooming and valuable for cutting. Pkt., 5c.

2542. Double White. Finest imported seed, saved from the most perfect flowers. A small proportion may come semi-double. Pkt., 5c. 2543. Double Mixed. An unsurpassed strain, inclu

ding Longfellow and Snowball. Pkt., 5c.

DOUBLE DAISIES.

GIANT FLOWERED DAISIES.

2544. Remarkable for the enormous size and double-ness of their flowers. They are at least two or three times larger than the ordinary Double Daisies. The plants are stronger, bloom earlier and for a greater period. In color they run from snow white to blood

red through pink, rose, etc. Mixed. Pkt., roc. 2545. Giant White. The best double white Daisy. Enormous pure white flowers on long, stiff stems, making it valuable for cutting. Pkt., roc.

DATURA.-(TRUMPET FLOWER.)

2527. Strong growing, branching plants, suitable for backgrounds and shrubberies. Trumpet-shaped flowers. White, lilac and yellow. Very showy. Mixed. Pkt., 5c. 2538. Conucopia. (HORN OF PLENTY.) Leaves

dark green, and the stem is brownish purple with a shining surface. The flower is trumpet-shaped, of immense size, often ten inches long and five inches wide at the mouth, with three cones or funnels, one within the other; the inside of tube of a delicate French white, marbled with royal purple on outside. Pkt., roc.

DIGITALIS .- (FOX GLOVE.)

Showy plants of easy culture, with umble-shaped flowers borne in spikes. Prefer half shady place. 3 ft. H. P. 2539. Splendid Mixture. Three feet. Pkt., 5c.

Jianthus or Pinks.

Garden Pinks, like their relatives the Carnations, are flowers for everybody. They thrive in any soil, grow ten to fifteen inches high and are covered from early summer until overtaken by frost with beautiful sweet-scented flowers in various colors; variegated, striped, red, and some almost black. Splendid for bouquets. All bloom the first season, and some endure our winters, bloom again another year larger and more beautiful than before. With these good qualities they should have a place in every garden. H. B.

eeeDouble Flowering Pinks.eee

2570. China or India. Large flowers as double and fragrant

as a Carnation. Many colors mixed. Pkt., 3c.
2574. China White. Double white flowers. Pkt., 5c.
2579. Double White Japan. Splendid flowers for bouquets.
Two to three inches in diameter. Pkt., 5c.

2584. Japan Pink. In this will be found many beautiful colors. Very large flowers. Mixed. Pkt., 5c.

2589. Striped and Fringed. Grand fringed flowers of light grounds, all of them striped with some other color. Pkt., 5c. 2594. Imperial. Blood red ground striped with pink and

white. Different from other striped sorts. Pkt., 5c.

2604. Diadem. Rich flowers generally of dark shades marked

with black and white. Pkt., 5c. 2609. Mourning Cloak. One of the most striking flowers. Flowers are very double, of large size and in colors range from maroon and purple to almost velvet black, all sharply edged with clear white, making a beautiful contrast. Pkt., 7c.

MIXTURE OF 2610 DOUBLE PINKS. All the above double flowering pinks mixed. ¼ oz., 15c.; pkt., 5c.

SPECIAL OFFER.

2646. Single and Double Pinks Mixed. All the varieties described on this page will make a bed of beautiful flowers; scarcely two plants will be alike in? bloom. 1/4 oz., 15c.; pkt., 5C.

Single Flowered Pinks.

Formerly only double flowers were favorites; the prevailing taste tends towards single varieties. These single pinks are notable for brilliantly colored flowers of large size

2611. Single Fringed. Mixed. Pkt., 5c. 2612. Japan. Blotched, striped and spotted. Pkt., 5c.

Crimson Belle. Crimson flowers, 2613. beautifully fringed. Pkt., 5c.

2614. Eastern Queen. Beautifully fringed, marbled and suffused with carmine, rose, mauve and lilac. Pkt., 5c.

2615. The Bride. A very dwarf, compact plant, but with flowers of the largest size and of the richest possible combination of colors. The flower is a clear, pure white, with a radiant, glowing, crimson center, shading into a pink band next to the white border. Pkt., 5c

MOURNING CLOAK.

2617. MIXTURE OF SINGLE PINKS. All the above single pinks in mixture. ¹/₄ oz., 15c.; pkt., 5c.

Hardy Perennial Dianthus.

These form nice bushy plants twelve to eighteen inches high. They are unrivaled for permanent beds or edgings around borders. Flowers are fragrant and beautiful. Pheasant's Eye Pink. Large, handsomely fringed, fragrant

flowers of white, crimson or purple shades, spotted and variegated. 2618. Single. Pkt., 5c. | 2623. Double. Pkt., 10c.

Dolichos or Hyacinth Bean.

2628. A rapid growing annual climber, desirable for covering arbors, porches, trellises, etc. Flowers purple and white. Its seed pods are purplish in color, highly ornamental and edible. Ten feet. Pkt. 5c.

DRACÆNA OR CLUB PALM.

Ornamental leaved plants for vases and house decoration. T. P. 2633. Australis, Long, narrow, graceful foliage. Pkt., Ioc, Pkt., Ioc, 2634. Indivisa. Thin leaves. Pkt., 5c. | 2635. Lineata. Pkt., 100

PHEASANT'S EYE PINK.

ESCHSCHOLTZIA. CALIFORNIA POPPY.

Hardy annuals, useful for beds or massing. They begin to bloom in a few weeks from spring sown seeds and continue to flower until late in the fall. The State flower of California. The large, saucer-shaped flowers are of a beautiful yellow, orange or white, the foliage is finely cut, giving the plants an exceedingly showy apparance. One foot. H. A. 2651. Mandarin. A new and very beautiful single pearance.

variety. The outer side of the petals are brilliant scarlet, side rich orange. Pkt., 5c. 2652. Rose Cardinal. The flowers are of rich rose-

colored hue, most effective and beautiful; single. Pkt., 5c. 2653. Single Mixed; all colors. ½ 02., 15c.; pkt., 5c. 2655. Double Mixed; all colors. ½ 02., 25c.; pkt., 5c.

CALIFORNIA YELLOW BELLS.

EMMENANTHE PENDULIFLORA.

2656. Forms a broad bush eighteen inches to two feet high. Each of its branches is fairly loaded with bell-shaped drooping flowers of a delicate cream color. Excellent for bouquets. The flowers are almost everlasting, the corolla drying and retaining its shape until the seed has ripened. A. Pkt. 7c.

FORGET=ME=NOT. (MYOSOTIS.)

An old favorite. It flourishes best in a moist, shady situation and is in constant bloom nearly the whole season. Fall sown seed will flower in early spring. If sown in boxes in the house early will flower the first season. Six to twelve inches. H. P.

2672. Alpine. Blue. For bed-Pkt., 5c. One foot. ding.

Victoria. Forms a neat compact bush about 2673. six inches high that at all times during the season is one mass of sky-blue flowers with yellow centers. A good sort for pot culture. Pkt., 5c. 2674. Dissitiflora. Compact habit, free bloomer. A

bed of this when n bloom in spring is a lovely sight, a sheet of sky-blue flowers. Six inches. Pkt., 10c.

2680. The Jewel. A new and distinct variety of close, compact habit. Throws up forty to fifty flower stems of perfectly formed sky-blue flowers. Pkt., 10c. 2679. Palustris. The true Forget-Me-Not. Flowers

dark blue with white eye. Pkt., 5c. 2681. Mixed. Small flowers, bushy growth. Pkt., 5c.

GERANIUM.

2682. Single Mixed Zonale. Pkt., 5c. 2683. Apple Scented. Leaves delightfully fragrant, prized for bouquets. Pkt., 10c.

GILIA.

Hardy annuals with finely cut foliage and clusters of small, delicate flowers, white, lilac and rose colored, desirable for cutting and especially suitable for bedding,

rock work, etc. H. A. 2701. Gilia, Mixed colors. 12 inches. Pkt., 5c. 2702. Dwarf White, A pretty variety that is most desirable for beds on the lawn, parks or cemeteries. Pkt., 5C.

GREVILLEA. (SILK OAK.)

Most profuse bloomer. A beautiful, graceful plant valued as a table decoration and when of large size for tropical effects on the lawn. 2 to 3 ft. G. P. Pkt., Ioc.

EVERLASTING FLOWERS. We group these under one head for convenience of ordering.

Everlastings or straw flowers as they are called are handsome plants, not only for beds and borders, but also as pot plants. They are of easiest culture and will grow in any soil. When

the flowers are desired for drying for winter bouquets they should be cut before fully expanded and hung up in the shade to dry

Any of the following, per pkt., 5c.; 6 pkts. for 25c. 2657. Acroclinum. Long stemmed, rose and white. 2662. Gomphrena Globe Amaranth. Mixed; all colors. 2663. Helichrysum. Double Mixed. Splendid for bouquets. Can be dyed to any desired color or shade. 2664. Silver Ball, Flowers immense size, double, white. 2665. Helipterum Sanfordi. A very pretty Everlast-g. Flowers globe shaped; bright golden yellow.

ing. 2666. Rhodanthe. Richly colored flowers. Mixed. 2671 Xeranthemum. Very double flowers. Mixed.

GAILLARDIA. Bedding plants remarkable for the size and brilliancy of their flowers; also do well in pots. Thrive in any soil. Unrivaled for cutting; two ft. H.H.A.

2693. Grand-iflora Superba. Splendid new variety dark red with bright yellow border. Pkt. 5C.

2694. Picta Lorenziana. One of the most useful annuals both for bedding and cutting. Saved from the finest double flowers of different shades

GAILLARDIA LORENZIANA. varying from sulphur-yellow to purple. Pkt., 5c.

2695. Mixed. Single. Pkt., 5c. 2696. New Perennial Hybrids. Flowers much larger than the older sorts and colors more brilliant and varied.

GOURDS.

Climbers with curiously shaped fruit in various colors; of rapid growth, suitable for covering walls, trellises, etc. 20 to 30 ft. T. A.

2697. Nest Egg. Fruit resembles in color, shape and size the eggs of hens and is far superior to glass nest eggs. Pkt., 5c.

2698. Dish Cloth. The matured fruit will furnish a natural dish cloth, sponge-like and porous, such as are sold in our prominent drug stores. The fruit grows about two feet in length. Pkt., 5c. 2699. Sugar Trough. Holds a gallon when well grown. Pkt., 5c. The fruit grows

2700. Ornamental Gourds, all kinds mixed. 1/2 oz., 20c. Pkt., 5c.

CATALOGUE OF FLOWER SEEDS.

HELIOTROPE.

GODETIA, WHITE PEARL.

GLOXINIA.

Strikingly beautiful greenhouse plants. The magnificent colored flowers are large and bell-shaped, with blotched and spotted throats; 1 foot. T. P.

2703. Choice Mixture of large flowering sorts. Pkt., 25c.

GODETIA.

The dwarf and compact growing plants are literally covered with hardsome flowers of the most brilliant colors. They are of easiest culture, will bloom well in any situation, and are deserving of more extended cultivation. H. A.

2710. Godetia. All colors Mixed. Pkt., 3c.

GYPSOPHILA, or Angel's Breath.

2111. An annual that thrives everywhere and furnishes the loveliest material for all kinds of bouquets, be they Roses, Carnations, Dahlias or anything else. The tiny little flowers are borne in abundance, on long, graceful, branching stems, which lend a most graceful light appearance. Pkt., 5c.; ½ oz., 10c.; oz., 15c.

GYPSOPHILA PANICULATA-Baby's Breath.

2112. Flowers white; a hardy perennial, which will stay in the ground all winter. Pkt., 5c.

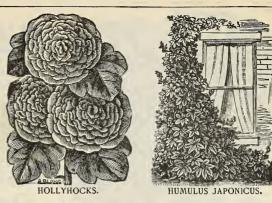

HELIOTROPE.

Heliotropes can be grown as readily from seed as Pansies or Verbenas. Sow in open ground in May, and the plants will bloom in August, and earlier if the seed is started in the house. 2723. Dark Varieties Mixed. Flowers deep blue, dark

purple, some almost black. All very fragrant. Pkt., 5c. 2724. Mammoth Flowered. Flowers are twice the size

of the older species, fragrance remarkably sweet, and the colors run from pure white to deep indigo. Pkt., 10c.

2732. Mixed. Many varieties and colors. Pkt., 5c.

HOLLYHOCK. (ALTHEA.)

Our Hoilyhocks are grand, perfectly double, and of the most brilliant colors. The spikes of this strain are extraordinarily large and the flowers of most perfect form. Seed has been saved with greatest care from the choicest specimens only. Should be sown in June and July to get blooming plants the next, summer. Early sown seed will occasionally bloom the firat season. H. P.

2754. C	Chater's Su	perb Double	Hollyhock	s. Pkt.,	10 c.

EVERBLOOMING ALLEGHENY HOLLYHOCKS: EVERGLOOMING ALLEGENCY HOLLYHOLLYHOLS: 2765. This new variety blooms the first year from seed, and the flowers are most decidedly different than those of the old type. They are much larger, 4 to 5 inches in diameter, double and semi-double. fringed and curled. The colors are shell pink, rose and ruby red, a shade or two deeper at the center, and exquisitely tinted toward the edge. Mixed. Pkt., 10c.

HUMULUS JAPONICUS. (JAPANESE HOP.)

2766. This splendid climber in foliage resemble the oldtime Hop but the foliage is more dense and exceedingly luxuriant, somewhat rough and hairy. Seed sown in the open ground in spring will produce very large plants in wonderful short time. Insect proof, withstands heat and drought and remains fresh until late in the fall. Pkt., 10c. 2767. Variegated Hop. For an unusually attractive

climber we especially recommend this. It is just the thing to cover fences, rustic houses, etc. The leaves are distinctly marked and blotched white with yellow. In some cases the color approaches to almost white and again entirely green. The very dense and beautifully marked foliage remains on the vine until cut down by frost; the weather or insects have no effect upon it. Pkt., 10c.

DOUBLE VARIETIES.

Globular, very large, double orange flow-

ers. The most effective of Sunflowers.

6 ft. Pkt., 3c.; oz., 10c. 2719. Green - Centered (SCULATUS

viridis.) Double yellow flowers with

green center when young. Five to eight

well branched plant. Each branch car-

ries a double globe shaped flower of gold-

en yellow. It is considered valuable for

2713. Multiflorus. Forms a dwarf

ft. in height. Pkt., 5c.

bouquets. Pkt., 5c.

2717. Californicus Fl. Pl. Extra large orange flowers. Pkt., 3c.; oz., 10c.

2718. Globosus Fistuolosus.

HELIANTHUS OR SUNFLOWER. *

Among the showiest and stately old-timers of the garden. In addition to the Mammoth Russian Sunflower so extensively cultivated for its seeds which are fed to poultry, we have included a few that make good plants for lawns, along fences, etc. The foliage of some is very handsome; others attract attention from their size. H. A.

SINGLE VARIETIES.

2714. Macrophyllus Giganteus. Of branching habit, single, yellow flowers, about eighteen inches in diameter.

2715. Miniature. Flowers single bright orange, elegant in form, suitable for bouquets as they measure only about two inches across. Plants dwarf and very

2716. Mammoth Russian. Flowers of immense size, from 16 to 20 inches in diameter. Seeds are used to feed birds and poultry. Pkt., 3c.; lb., 18c. postpaid. Not prepaid, 25 lbs., \$1.50.

2720. Mixed Sunflowers. Many varieties, both single and double. Pkt, 3c.

8 ft. Pkt., 3c.

bushy with fine foliage. Bloom from July until frost. 3 ft. Pkt., 3c.

MINIATURE SUNFLOWER.

70

variously colored flowers, orange, white, rose and others, with spicy fragrance. The flowers change color with age and are succeeded by deep blue berries. Lantanas grow very rapidly, requiring space to spread. Two feet. Pkt., 10C.

LOBELIA.

The cultivated herbaceous Perennial Lobelias have graceful foliage and beautiful flowers. The Erinus or hanging varieties are used for baskets, vases, etc., and the *compact* sorts for pots, borders and carpet bedding. They flower freely the first year from seed. T. P.

* ·· ERINUS VARIETIES ·· * Six to ten inches.

2810. Alba. White. Pkt., 5c.

2809. Speciosa. Bright blue; for hanging baskets or vases. Pkt., 5c.

* COMPACT MARIETIES * Four to six inches.

2812. Barnard's Perpetual. First sent out by a noted English seed grower. The flowers are of the most brilliant ultramarine blue, strikingly marked with a pure white blotch at base of each of the two lower petals. Pkt., 10c.

2808. Crystal Palace Compacta. Deep blue. Splendid bedder. Pkt., 5c. 2807. Emperor William. Light blue; pkt., 5c.

PERENNIAL LOBELIA.

2819. Queen Victoria. Dark scarlet flowers; dark leaves; very showy; three feet. Pkt., roc. 2814. Lobelia. Varieties mixed. Pkt., 5c.

Ice Plant

MESEMBRYANTHEMUM.

Beautiful dwarf growing plant with waxy-like foliage, which sparkles in the sun, and lovely little flowers. Splendid for hanging baskets and rockwork. Stands sun and drought admirably. H. H. A. 2780. Crystallinum.

The whole plant covered with ice-like secretions; flowers purple. Pkt., 5c. 2785. Cordifolium Variegatum.

The light colored leaves are very attractive for ribboning. Pkt., 5c.

Impatiens Sultani.

2774. A Balsam from Zanzibar, Africa, blooming almost continuously winter and summer. Its rosy carmine flowers have a delicate, waxy appearance and are borne in great profusion. Its easy culture and vigorous growth make it a general favorite as a house or

garden plant. Pkt., ioc. 2775. Sultana Hybrida. Remarkably beautiful hybrids of this 2775. Sultana Hybrida. Remarkably beautiful hybrids of this much admired plant in various shades of colors, delicate pink, rose, violet and others. Mixed. Pkt., 20c.

IPOMŒA. See Moonflower.

JERUSALEM CHERRY.

(SOLANUM CAPSICASTRUM.) 2790. A shrub that succeeds well in pots. Dark green leaves, but especially admired for its small, pepper-shaped scarlet fruit. One foot. G. P. Pkt., 10c.

KENILWORTH IVY.

(LINARIA.)

2801. Hardy little climber and a valuable trailing plant. Clings to walls, etc., and is useful in baskets. Neat foliage and small, lavender colored flowers. P. Pkt., 5c.

LAVENDER.

2796. Sweet scented, shrubby perennial, with blue flowers. Its dried heads are used to impart an agreeable fragrance to linen closets. Pkt., 5c.

LINUW.

2802. A flax, with beautiful scarlet flowers and pretty foliage. Pkt., 5c. 2803. Perennial Linum. Mixed varieties. Pkt., 5c.

LATHYRUS, (EVERLASTING OF HARDY SWEET PEAS. 2835. Climbers growing six to eight feet. Flowers red, white and flesh colored. The roots penetrate the ground to a great depth and survive our winters. Mixed. Pkt., 5c. LUPINS OR SUN DIALS. Easily grown showy plants, useful for beds and borders. Thrive in any soil. They have long spikes of pea-shaped Two to three feet. H. A.

2806.

Tall Varieties Mixed. Pkt., 5c. Dwarf Varieties Mixed. Pkt., 5c. True Blue. This will please those who admire blue flowers. They are of large size and deep rich color. Pkt., 5c.

LYCHNIS. RAGGED ROBIN.

2834. An old time border plant; produces large heads of brilliant scarlet flowers. Succeeds in any good garden soil. Easy culture, blooms first year from seed. Two feet. H. P. Pkt., 5c.

LINUM.

2813. LOBELIA, White Gem.

LANTANA.

COMPACT variety which forms a A ball of pure white flowers, best of

its color for beds and edgings. Splendid for pots; blooms in four weeks; pkt., 5c.

flowers. 2804. 2805.

MARIGOLD. (TAGETES.)

Old time favorites of the garden. The flowers are very double and make a splendid effect in mixed beds or borders; useful as pot plants also. The easy culture and extreme showiness should secure them a prominent place in every flower garden. H. H. A.

DOUBLE AFRICAN MARIGOLDS.

2851. El Dorado. Flowers extra large, measuring from 3½ to 4 inches across; varying in shades from a primrose yellow to a deep orange. A robust grower and great bloomer. 3 ft. Pkt., 3c. 2856. Lemon Queen. The best type of the African Marigold. Grows

about 18 inches high and is covered with large, light lemon flowers. Pkt., 3c. 2858. Double African, Mixed. The best varieties. Pkt., 3c.

FRENCH MARIGOLDS.

2859. Legion of Honor. The most showy of the Dwarf Marigolds. Flowers rich golden yellow marked with velvety brown. Plants are insect and drought proof and continuous bloomers. Pkt., 5c.

2860. Dwarf Gold Striped. Yellow and maroon. Pkt., 3c. 2865. Choice Mixture of Dwarf sorts. Pkt., 3c.

(For Cape or Pot Marigold-see Calendula.)

MARVEL OF PERU.

(FOUR O'CLOCK MIRABILIS.)

Flowers open in the afternoon, hence name "Four o'Clock." Old fashioned, but none the less beautiful. The plant is large, and requires four feet of space; makes a pretty hedge. The flowers are funnel-shaped, white, red and striped; very fragrant, and opens about 4 o'clock in the afternoon, remaining open all night, and generally perish before noon the next day. Will grow in any common garden soil from seed sown in open

ground. H. A. 2871. Fine Mixed Colors. 2 ft. Oz., 15c.; pkt., 3c. 2872. Tom Thumb. Dwarf variety

with variegated foliage. 9 inches. Pkt., 3c

1.12

MIGNONETTE, MACHET.

MARIGOLD, EL DORADO.

MATRICARIA. (FEVERFEW.)

Pretty free blooming plants, very popular for bedding and pots. H. H. P. 2874. Capensis, fi. pl. Double,

white, fine. Pkt., 5c. 2875. Exima Crispa, fi. pl. Double white flowers and pretty curled foliage. Height, 8 inches. Pkt., 5c.

MAURANDIA.

2884. Pretty climbers of rapid growth, flowering freely the first year from seed. 10 ft. T. A. A good collection of colors. 5c.

MESEMBRYANTHEMUM.

(See Ice Plant.)

MIMOSA PUDICA. (Sensitive Plant.)

2916. A very interesting plant; the finely cut fern-like leaves closing if touched or shaken. Pkt., 5c.

MIGNONETTE. (RESEDA.)

The hardiest annual in cultivation and a universal favorite for its sweet and delicate fragrance. The newer varieties named below in capitals are valuable improvements 2892. LARGE FLOWERING. The common Sweet Mignonette. Oz., 15c.; pkt., 3c.

2896. AMELIORATA. Red flowered. Pkt., 3c.

2899

MARVEL OF PERU.

Gabriele. Red, very fine, robust; excellent for pots. Pkt., 5c. Golden Queen. Flowers of a golden shade, very fragrant. 5c. 2905. 2906. Victoria. A beauty in every respect. Dark, glossy green foliage, pretty red flowers, large and of fine form. Grows about 6 inches

high. Fine for pots. Pkt., 5c. 2907. PARSON'S WHITE. Very fragrant, nearly white Pkt., 5c. 2908. Miles' Spiral. Plant dwarf, branching habit. Flowers white,

very fragrant. Spikes 8 to 12 inches long. Pkt., 5c. 2914. MACHET. The flower spikes are very

broad and long, and the red flowers exceedingly fragrant. It is one of the best varieties for pot culture and bedding, and extensively grown by florists. Pkt., 5c.

2913. Extra Choice Mixture. Oz., 25c.; pkt., 3c.

MIMULUS. (Monkey Flower.)

Very showy and admirable pot plants, also suitable for bedding. The charming flowers are spotted and blotched in extremely rich colors. The plants succeed best in moist soil and shaded places; although half hardy perennials, they are usually treated out in most owned. 2919. Moschatus. (Musk Plant.) The foliage emits a strong musky perfume. Pkt., 5c. 2920. Tigrinus. Striped and spotted. Extra mixed. 2 ft. Pkt., 5c. 2926. Emperor. The large and beautiful flowers are most showy and attractive. It is

not only a great favorite in pots, but does nicely in shady places. Pkt., 5c.

MUSA ENSETE. (ABYSSINIAN BANANA.)

2935. Large-leaved plants making a tropical effect planted on the lawn. They are of remarkably quick growth, often attaining a hight of 10 to 15 ft. the first season. The seeds should be sown early in the house, the plants frequently repotted and stimulated with liquid fertilizer, and the pots kept plunged. Pkt., 15c.

MIMULUS.

New... Imperial JAPANESE MORNING GLORIES.

GIGANTIC FLOWERS. MAGNIFICENT FOLIAGE. EXQUISITE NEW COLORS.

2945. Were sent out for the first time last season with the assurance that they would prove a surprise to all, our claims for their marvellous beauty as made in our last catalogue have been more than fulfilled. In our trials last summer they were the first to elicit the admiration of visitors.

The leaves are large, heartshaped, many of them a rich dark color, marbled with silvery white or yellow. The flowers are really gigantic, double the size of the ordinary kind. Their varieties of color are infinite, running from snowy white through all possible shades of blue, and of red, from palest pink to darkest reds and pur-ples. They are streaked, mottled, striped, marbled and bordered in wonderful fashion. The Imperial Japanese Morning Glories are of the easiest culture. But as the seed is hard or flinty, before sowing treat as follows: Draw a sharp knife across one edge of the seed, just enough to cut through the shell, then soak in luke-warm water long enough to have seed swell to double the size they were when dry. Sow in May in a warm sunny position in good rich soil, and give plenty of water in dry weather. Price per pkt., 10C.; 3 for 25c; oz., 5oc.

TALL MORNING GLORIES.

The old fashioned Morning Glory is the standard climber of every flower lover. It is as easy to grow as a weed and will reach a height of 20 feet in one season. Should be sown early and where intended to bloom. Flowers of every shade of white, crimson, rose, blue and striped.

2946. Finest Mixed. Many colors. Oz., 10C. Pkt., 3C. 2948. HEAVENLY BLUE. Foliage very large, heartshaped; steel-blue flowers, a color rarely seen. They measure $4\frac{1}{2}$ to 5 inches across and are produced in clusters. A fine variety to grow in the greenhouse but does well out of doors. Pkt., 10C.

MOONFLOWER. (IPOMŒA.)

Evening. Glory.

2955. Moonflowers resemble Morning Glories in habit, rapid growth and large flowers. The vines are literally covered with pure white, sweet-scented flowers 4 to 6 inches in diameter which open in the evening and remain expanded until the following day. They require rich ground, a sunny position and a liberal supply of water to secure the best results. Grown under these conditions will sometimes reach a height of 50 feet during the season. H. H. A. Pkt., roc.

NEW IMPERIAL MORNING GLORIES.

DWARF MORNING GLORIES.

The flowers of these while of the same shape as the tall Morning Glory, contain a greater variety of colors and remain open the entire day. To this class might well be given the appellation **Everblooming Morning Glories** for they bloom from June until fall. Well adapted for hanging baskets and rockeries.

2950. Finest Mixed. Many colors. Oz. 10c. Pkt., 3c. 2952. CONVOLVULUS Mauritanicus. Fine for hanging baskets. Beautiful blue flowers. Pkt., 3c.

*** New Elimbing Nasturtium. ***

HYBRIDS OF MADAME GUNTER.

3077. A new section obtained by artificial hybridizing. The plants make a strong growth, climbing from five to six feet high, and are distinguishable for the richness and variety of colorings in the flowers. There are shades of rose, salmon, pale yellow, dark maroon as well as striped and blotched. So ornamental is this new strain and constant in bloom it is worthy a place in every garden. Large pkt., 10C., 2 for 15c. Oz., 20c.

For other Nasturtiums see next page.

NOVELTIES.

NASTURTIUMS are showy, popular annuals, but many of the newer and most beautiful sorts are known to a comparative few. When planted in poor soil they seem to bloom longer and are much more brilliant in coloring. They succeed under any circumstances, heat nor drought, do not effect them. The bedding varieties make a charming effect. As the cost of the seed is so low we recommend a trial of a number of sorts and especially the new kinds.

Our Imperial mixtures will, we are certain, prove a delight to all who use them. The seeds if picked green make an excellent substitute for capers.

See preceeding page for new Nasturtium.

DWARF OR BEDDING NASTURTIUMS.

DWARF OR BEDDING NASTURTIUMS.

Price, any kind, oz., 20c.; pkt. 5c., except where noted.

- 3094. Scarlet King. Brilliant color.
- 3095. Rose. A delicate shade. Very attractive.
- Yellow. Light yellow; no blotches. 3096.
- Crystal Palace Gem. Sulphur, spotted maroon. 3097.
- King of Tom Thumbs. Deep scarlet flowers. 3098.
- Spotted King. Orange, spotted with maroon. 3099.
- Ruby King. Ruby red; dark foliage. 3100.
- Cœrulea Rosea. Beautiful peach color. 3082
- 3087. Gen'l Jacqueminot. New. Almost identical in color with the well known Rose of the same name.
- Prince Henry. New. Cream color, marbled with scarlet. Dark foliage. Very handsome. 3092.
- 3107. Pearl. Straw color; fine for contrast.
- Beauty. Light scarlet, splashed canary. 3108.
- King Theodore. Dark, scarlet maroon. 3109.
- Empress of India. Brilliant crimson; dark foliage. 3114.
- Cloth of Gold. Foliage golden yellow, flowers scarlet. 3119.
- 3124. Lady Bird. Orange yellow, red spots.
- 3125. Aurora. New. Chrome yellow, the lower petals veined with purplish carmine.
- 3126. Mixed Colors. The above and some others. Pkt., 3c.; oz., 15c.; ¼ lb., 50c.

NICOTIANA.

Large and beautiful flowers of delicious fragrance, very ornamental as pot plants or in groups. Of easy culture. A.

3043. Affinis. (Sweet Scented Tobacco Plant.) Produces freely deliciously scented large white tubulous flowers. If taken up in fall and potted it will bloom in the house during winter. 2 ft. Pkt., 3c.

NIEREMBERGIA.

Very pretty free-flowering plants that need the same treatment as Petunia. H. H. A. 3053. Frutescens. White and lilac; very free bloomer. 5c.

TALL OR CLIMBING NASTURTIUMS. Price, any kind, oz., 15c.; pkt., 5c., except where noted.

- 3160.
- Scarlet Striped. 3166.
 - Straw Spotted.
- 3168. Scarlet and Gold. Bright yellow foliage; flowers crimson scarlet.

3167. Pearl.

3169. Mixed Colors. Contains all above and some other beautiful sorts. Pkt., 3c.; oz., 15c.; 1/4 lb., 50c.

LOBB'S NASTURTIUMS.

Much more brilliant in coloring than the Tall sorts. Splendid for hanging baskets, etc. Price, any kind, oz., 15c.; pkt., 5c.

- 3185. Cardinal. Dark cardinal red; superb. 3190. Giant of Battles. Sulphur, spotted with red.
- Lucifer. Richest, velvety deep crimson. 3191.
- 3192.
- Napoleon III. Golden, striped carmine. King of the Blacks. Very dark deep brown. 3197.
- 3198. Spitfire. Brilliant scarlet; very effective.
- Lobb's Nasturtiums, Mixed. The above six splendid 3199. sorts and others. Pkt., 5c.: oz., 15c.

3170. These superb mixtures, made by ourselves, include all the varieties in our lists and some others. They will make a display of colors far surpassing in effect any thing we can describe. We offer either Dwarf or Tall.

Extra large packet, 10c.; oz., 25c.;

OENOTHERA, (Evening Primrose.)

The curious habit of the flowers, opening just before sundown and closing before noon next day has made this genus known under the name of Evening Primrose. They embrace beautiful colored varieties, mainly of yellow shades, and are well worthy of cultivation.

3071. Hardy Annual Varieties Mixed. Pkt., 3c. 3072. Best Hardy Perennial Varieties Mixed. Pkt, 5c.

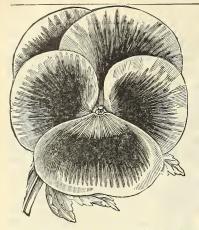

MEXICAN PRIMROSE.

3168. Œnothera Rosea. This greatly advertised plant is very useful for cultivation in pots or outdoors. Flowers, bright pink with white center. Comes readily from seed. Pkt., 5c.

Your particular attention is directed to our novelty pages.

3127. Rose. | 3128. Orange. | 3138. King Theodore. Maroon. 3148. Yellow. 3149. Purple. 3150. 3155. Crimson. Chocolate. 3161. Scarlet.

LOVELY

NSIES EXQUISITE See colored plate front cover of this book.

The seed may be sown in the hot-bed or open ground. If sown in the

spring, get in early so as to secure flowers during the early rains and before the hot weather of July and August. Seed sown in May and June will produce very fine flowers in September and October, or after the first fall rains and cooler weather.

For Some New and Elegant Pansies See Front Pages. VARIOUS MIXTURES.

3249. Florists, it may truthfully be stated, sell more Pansy plants in bloom in early spring than any other flower. We supply them largely with

* BARNARD'S 🤳 FLORISTS' MIXTURE.

the seeds of which this mixture is com-posed. They grow Pansy plants up to the standard of highest excellence in cool, deep, moist beds, shaded from the

afternoon sun, made rich with fertilizers and kept free from weeds. Grand Pansies come from this seed. Dark ones, smooth and of a velvety

GIANT PANSY MIXTURE.

We give this name to a 3250. very careful selection and judicious blending in correct proportions of Giant Flowered Pansy seeds. By their use the purchaser is enabled to obtain in one packet seeds of all the different varieties we name as well as some beautiful sorts not found in any list. In this mixture will be found the highly prized spotted Pansies, marked with three to five blotches on white or richly colored grounds, the charming violet blues and many others of surpassing shadings and markings. Our Giant Pansy Mixture is up to date, all really desirable large circular Pansies being included in its makeup. Pkt. 15c., 2 for 25c; 1/8 oz. \$1.

PRIZE PANSY MIXTURE.

The best Pansies for bed-3251. ding. Almost an encless variety of all shades of color, including such famous sorts as Cardinal Red, Peacock Blue, light and dark marbled, and five-spotted. They are all of sturdy and even growth. Pkt. 3c.; 1/8 oz., 25C.

CATALOGUE OF FLOWER SEEDS.

PETUNIA-SUPERBISSIMA.

PETUNIAS.

Petunias like pansies are flowers for everybody. The tiny garden in the yard, or the beautiful beds seen in the parks of great cities are not complete without Petunias. They are most easily grown, and from early summer to late fall they are loaded with flowers; heat, rain or drought do not effect them. The seeds being very small would better be started in the house, afterwards transplanting the plants one foot apart in the place where they are to bloom. As pot plants Petunias have very few superiors. H. H. A.

SINGLE VARIETIES-Small Flowering.

For very showy beds the small flowered varieties are best. 2960. Fine Mixed. Very choice seed. Excellent for bedding. 1/8 oz., 15c.; pkt., 3c.

2961. Dwarf Inimitable. Bushy plants, 5 to 8 inches high. Cherry red flowers with white star. Pkt., 5c.

2962. Blotched and Striped. All colors. Fine for pots, window boxes and bedding. 1/8 oz., 20c. Pkt., 3c.

2963. Counters of Ellesmere. Of dwarf habit. Suited for pots and low beds. Pink, with white throat. Pkt., 3c.

2964. Pure White. The best to use for cemetery purposes. Pkt., 5c.

2965. Snowball. Compact variety, excellent for pot culture. Height, 8 inches. Covered all season long with satiny white flowers. Pkt., 20c.

LARGE FLOWERING.-Single.

Flowers almost twice the size of ordinary Petunias.

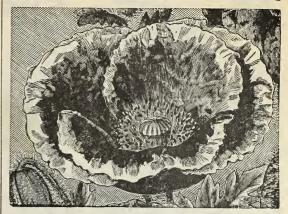

2968. Giants of California. The flowers are exquisitely ruffled or fringed on the edges, and are of enormous dimensions, often five inches across. Their great merits lie in the innumerable variety of colors, with markings, veinings, blotchings, and stripings in the most grotesque and beautiful combinations. Pkt., 15c.

2970. Fringed. (FIMBRIATA.) Flowers 4 to 5 inches across of great variety of colors and markings. Deeply fringed. Pkt., 15c.

2971. Superbissima. Handsome purple, velvety flowers with veined throats. They are among the finest in form, substance and size. Pkt., 20c.

2973. Green Margined. Rose colored flowers with veined throats, margined with light green. Pkt., 20c.

2974. Large Flowering Single Mixed. Will bring large beautiful flowers of superb colors and markings Pkt., IOC.

SHIRLEY POPPY

DOUBLE FLOWERING PETUNIAS.

Saved from double flowers artificially hybridized.

A certain proportion will come single or semi-double.

2980. Lilliput. Bushy plants. Small double flowers spotted and striped. Pretty for pots. Pkt., 25c. 2981. Dwarf Inimitable. Striped and blotched.

25C. 2982. Fringed. Extra large flowers. Pkt., 35c.

2983. Pure White. A splendid strain that will produce very fine double flowers. Pkt., 35c. 2984. Barnard's Double Mixed. Hybridized and im-

ported seed from a famous European Petunia specialist. Sure to produce grand flowers. Pkt., 25c.

POPPIES. SINGLE ANNUAL POPPIES.

2993. TULIP POPPY. So called from the great similarity of its vivid scarlet single flowers to those of the Scarlet Duc Van Thol Tulip. After a time two black spots appear at the base of the petals. Constant and profuse bloomer. Pkt., 5c.

2994. SHIRLEY. Generally single, sometimes semidouble, colors range from white, rose, pink and carmine

to bright, sparkling crimson. Pkt., 3c. 2995. Danish Flag. Brilliant scarlet flowers with white cross in center. Pkt., 3c.

2996. Single Poppies, Mixed. Many colors, 1/2 oz. 15c., Pkt., 3c.

DOUBLE ANNUAL POPPIES.

WHITE SWAN. A new poppy of bushy 2992. habit. Height 18 inches. Flower snow white, extremely double, large, and borne on stiff stems. Continues to bloom longer than any other poppy. Pkt., 5c.

3000. American Flag. Large, snow white flowers, each petal bordered with scarlet. Pkt., 7c.

3001. Pacony-Flowered. Broad petals like those of a Pæony. Mixed. 2 ft. Oz., 25c. Pkt., 3c. 3002. Mikado. Flowers pure white at the back, edge

of petals deep scarlet. Pkt., 3c.

3012. Snowdrift. Very large flowers, perfectly double pure white. Pkt., 3c.

3017. Carnation-Flowered. Globular flowers slashed and fringed. 2 to 2¹/₂ ft. Mixed. Oz., 25c. Pkt., 3c. 3018. Cardinal. Glowing scarlet on white ground.

Compact habit. 18 in. Pkt., 5c.

3019. Double Poppies, Mixed. Oz., 20c. Pkt., 3c. HARDY PERENNIAL POPPIES.

3026. Iceland. (Nudicaule.) Splendid for cut flowers. Purest white to deep orange scarlet. Mixed. Pkt., 10c. 3027. Double Iceland. Pkt., 10c. 3028. Oriental. Very large vivid crimson flowers

with black spots on their petals. Mixed. Pkt., 10c.

W. W. BARNARD & CO., SEEDSMEN, CHICAGO.

IP

PASSION FLOWER.

3222. A good climber, suitable for outdoor cultivation in the South in summer, but chiefly grown in greenhouses. Flower in several colors, composed of rays, afterwards succeeded by fruit. Mixed. Pkt., 5c.

PENSTEMON.

3227. Very ornamental plants that make a splendid effect in borders, etc. They bloom from June until late in the fall. The half-pendant bellshaped flowers show beautiful shades and markings of scarlet, pink, white and blue. Sow in May in a cool, shady place 2 ft. H. P. Large flowering, mixed. Pkt., 5c.

PERILLA.

These are handsome foliage plants with dark, ornamental, broad and notched leaves. They grow about 18 inches high, and are used as background to geraniums and other bedding plants. H. H. A. Start seed under glass.

3238. Nankinensis Atro Laciniatis. Deep mulberry foliage, edges finely cut; 2 ft. Pkt., 5c.

3239. *Macrophylla*. Dark, finely cut foliage, dwarf, fine. Pkt., 5c. PINKS.-See Dianthus.

PORTULACA.

One of the best hardy annuals to grow in beds, baskets or in rockwork. Thrives in the hottest sun and is one mass of bloom all summer long. The flowers are very showy and of different colors.

3220. Single, Mixed. Pkt., 3c. 3221. Double, Mixed. Pkt., 5c. PYRETHRUM.

(Also known as Feverfew.)

The varieties which are grown for their flowers may be found under the heading of MATRICARIA (page 7).

YELLOW LEAVED SORTS.

Bushy, dwarf growing plants, used principally for edgings to fancy beds. H. H. P.

3460. Aureum. (Golden Feather.) Yellow foliage. Pkt., 5c. 3465. Golden Gem. Double white

flowers. Pkt., 5c.

3466. Selaginoides. (Fern leaved.) Very dwar, golden yellow foliage. This makes a handsome edging to a bed of colors. Pkt., 5c.

HIS is a favorite with everyoody. It thrives in almost any soil, blooming in the greatest profusion from June until late fall. Seed may be sown in the open

DRUMMONDI.

ground in May, indoors or in a hotbed earlier. The seedlings should be set out about a foot apart; if too thick mildew attacks them.

Phlox Drummondi makes a very good border plant, but it shows to better advantage by placing each color in a separate bed, or in ribbons or lines of color. Good contrasts can be made by the use of scarlet, white and pink. Even the mixture will produce a bed of flowers of most brilliant coloring. H. A. 3458. Phlox Drummondi. Great variety

of colors. Oz., 50c; ¼ oz., 15c; pkt., 3c.

ARGE FLOWERING PHLOX.

The large flowering Phloxes show decided improvements in size, shape and color over the old Drummondi class. The flowers are round, the petals overlapping. 1 ft. H.A. 3422. Carmine, 3419. Splendens,

scarlet 3420. Pure White 3421. Rosy Carmine 3420. Chamois Rose

white eve 3423. Blood Red 3424. Mixed

Per pkt., 5c; any 4 for 15c.

PHLOX

NEW DWARF PHLOX.

(Nana Compacta) The little bushy plants grow rarely over 8 inches high and throughout the entire season they are full of flowers. They are recommended for culture in pots, beds or edgings of borders. 12450, Rose

3439. Pure White	3450. Rose
3444. Red	3450. Rose 3451. Blood Red 3452. All Colors
3445. Blush Rose	Mixed

Per pkt., 10c; 3 pkts. for 25c.

STAR SHAPED PHLOX

3434. Most attractive sort. The colors are about the same as in other Phloxes. Mixed. Pkt., 10c.

HARDY PHLOX.

3457. They are entirely hardy, grow tall, and their large heads of flowers of various colors make a grand show in summer. Hardy, mixed. Pkt., 10c.

BARNARD'S PHLOX MIXTURE.

3459. In this we include seeds of all the Phloxes above named except the hardy varieties. One pkt. will be ample for a large bed. If we had but one flower to plant in the garden it would be Phlox Drummondi in mixture. Large pkt., 10c.

76

PRIMROSES.

HINESE Primroses are lovely and useful little plants for pot culture, that bloom most freely during winter and spring. The delicate colored flowers measure 11/2 to 2 inches and are borne in large clusters. Sow in February or March in very fine, light soil. Pot into small pots, shift two or three times during the summer, and keep in a cool, moist, shady place, and success is sure. T. P.

Our Primula seed is from the best European growers, and in quality is second to none.

Single, Large-Flowering, Fringed Varieties.

3473. Alba Magnifica. Splendid pure white flowers with yellow eye, measuring two inches. Very beautiful. Pkt., 25c.

- 3476. White. Pkt., 25c. | 3477. Red. Pkt., 25c. 3482. Crimson. Pkt., 25c.
- 3474. Fern Leaved. Very pretty, long fern-like foliage. Mixed Colors. Pkt., 25c.
- 3483. Mixed, Large Flowering Varieties, includes all the above and several others. 100 seeds. 15c

Double Large Flowering, Fringed Varieties.

Saved from the most select, large flowered fringed flowers. The seed we offer will produce a large percentage of superb double flowers of great substance and fine form.

3484. White. Pkt., 50c. | 3489. Red. Pkt., 50c. 3494. Double Mixed. Pkt., 50c.

VARIOUS GREENHOUSE PRIMULAS.

The following varieties are all of the easiest culture in the greenhouse or in light windows of dwelling houses. They flower most abundantly and for as much as eight months of the year.

PRIMULA FORBESI.

PRIMULA SINENSIS FIMBRIATA.

HARDY PRIMROSES.

Under this heading will be found some well known faverites, which are constantly increasing in popularity. They are beautiful, low growing, early spring flowering plants suitable for rockeries, borders and pot culture. They should have a place in every garden. Our seed is from an English grower who has given much attention to this flower. H. P.

3475. English Yellow Primrose. (P. VULGARIS.) So well known to all flower lovers as to need no description. Pkt., 10c.

3498. Polyanthus. (P. ELATIOR.) Any one who has seen or read of the beautiful beds of this lovely flower as grown in the public parks and private gardens of England will be sure to want a packet of seed. Flowers are borne on long stalks, each summounted by a large number of handsome flowers. Mixed colors. Pkt., 10c.

3496. English Cowslip. (P. VERIS.) This is an old favorite flower, blooming very early in spring. Mixed. Pkt., 10c.

3497. Japanese Primrose. (P. JAPONICA.) This is one of the most beautiful; is hardy in most parts of Europe but in this country should be protected or grown during the winter in cold frames. The flowers which measure an inch across are of various colors, crimson, maroon, lilac, pink, white, etc., borne on stems about eighteen inches high. Pkt., 10c.

RICINUS. OR CASTOR OIL BEAN.

Rapid growing, stately plants, with very ornamental foliage and showy fruits. They are splendid for subtropical effects, either planted singly on the lawn or in the centre of a Canna or Caladium bed. 6 to 15 ft. H. H. A.

3502. Large Flowering Obconica. Seed of this much immense size. 12 to 15 ft. Pkt., 3c. aed sort if sown in March will bloom in June. The flowers 3507. Zanzibarensis. An entirely new and distinct class of the flower and the flower a prized sort if sown in March will bloom in June. The flowers are much larger than that of the old type. They are borne on Castor Oil Beans from Africa, having short, stocky stems and stems about nine inches high; color white with a tinge of enormous leaves, often two to two and one half ft. across. Foliage

lilac, with an agreeable fragrance. Pkt., 10c. of different colors, dark predominating. The seeds are very large

3495. Obconica. Ordinary size flowers. Pkt., 10c. and particularly handsome in appearance. All the varieties have a

3505. Obconica Fimbriata. A fringed flowered variety, tropical, luxuriant form and are sure to please all who try this Flowers same color as above. Most useful for cutting as the sort. Mixed. Pkt., 5c. flowers last well. Pkt., 10c. 3506. Sanguineus. Beautiful dark foliage and bright seed

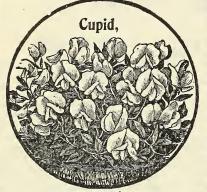

Forbesi. (Baby Primrose.) This is a most precocious pods. Very showy. 6 ft. Pkt., 3c. bloomer, for the little plants throw up flower stalks when but 3508. Gibsoni. Dark purplish red foliage and stems; highly a few weeks old. Flowers are delicate rose on long stems. ornamental; 6 ft. Pkt., 3c. 3509. Castor Beans, Mixed. Above and several others. 5c. Valuable for bouquets. Pkt., 15c.

You can do your friends a favor as well as us, by asking them to join with you in ordering Flower and Vegetable Seeds, or by sending their names and addresses that we may mail them a Catalogue.

EXTRA EARLY Blanche Ferry.

The Earliest of all Sweet Peas. 3686. Blooms with greatest profesion, either under glass or out of doors, from ten days to two weeks earlier than its parent. Its color is the favori e pink and while of the Sweet Pea, which contrast so prettily. It is semi-dwarf in habit and can b³ grown without sup-port. Pkt., 3c; oz. 7c; ½lb., 15c.

DWARF SWEET PEAS. 3702. WHITE CUPID.—This charming variety only grows from 6 to 10 inches hish, making a dwarf, compact plant, often spr ading over an area of from 10 to 15 inches. The flowers are pue white, of good substance, two and three to a stem and ars very sweet. Pkt., 5c; oz., 10c; '4lb., 30c.

41b., 30c. 3703. PINK CUPID.—In habit and manner of growth it is identical with the above. It usually produces at one time from three to four *pink* flowers. Pkt., 5c; oz., 15c; ¼ lb., 40c.

DOUBLE SWEET PEAS. 3710. We offer a number of varieties in mix ture. These double sorts do not all come t ue from seed. A portion of them will produce semi-double flowers. Pkt., 5c; cz., 10c; ½ lb., 25c.

Sweet Peas

HERE is no annual grown that is more popular, or that is more admired by all, than the Sweet Pea, with its dai .ty colors and delicate perfume. For cutting, for bouquets, vases, corsage and buttonhole wear, no flower except the rose can compare wihthem. To succeed best they should be sown as soon as the ground can be worked in the spring, and when well up given bush or strings to support them. They com-

mence to bloom early, and if the flowers are picked as soon they fade, will continue to bloom all summer. If allowed to form seed they will soon stop flowering and die down. H. A.

A Litt of SWEET PEAS.

Every One Who Cultivates Flowers Should Plant Sweet Peas.

Our List Includes All of the Best Varieties, Both Old and New.

.. Collections and Mixtures..

Read this surprisingly liberal offer:

Twenty large packets, your selec-on, from our "Complete List of tion, from our "Complete List of Sweet Peas" on opposite page (Pink Cupid and Red Riding Hood excepted) for only 50c. Real worth is

all the way from 6oc. to \$1.25. We want to scatter Sweet Peas broadcast this season, so make your selections. Twenty packets, prepaid, only 50c.

"BOUOUET" COLLECTION.

We planned and named this collection a few years ago when the first of the large flowered Sweet Peas made their advent. The object sought for in arranging it is to supply seeds of varieties whose cut flowers, taken collectively, will make a bouquet so diversified in coloring, so perfect in form of flower, as to represent the highest type oring, so perfect in form of nower, as to represent the highest type of improvement in Sweet Peas. But, larger and better varieties are brought out each year with richer hues, brighter and even daintier shades than before. In the present collection will be found **The Cream of Sweet Peas.** There is no dead timber in it. Every variety of similar characteristics and all inferior sorts have been ruthlessly discarded. We now offer a "Bouquet" Collection of sixteen of the latest, best and most distinct Sweet Peas as follows:

RouquetCollection

Containing one packet each of the above sixteen superb flowers, 50c. The sixteen kinds named above, each put up in a separate ounce bag, making a pound of Sweet Peas for 75c. Considering the quality this is a good bargain.

t Pea	s as follows:
587.	Brilliant. The best scarlet.
594.	Celestial. Lavender blue.
595.	Countess of Radnor. Mauve.
596.	Crown Jewel. Yellow veined, with rose.
703.	Daybreak. Watered scarlet on white.
7об.	Duke of Clarence. Claret. Showy flower.
708.	Emily Henderson. Pure white, Early.
711.	Gray Friar. Watered purple on white.
723.	Katherine Tracy. A lovely pink.
730.	Little Dorrit. Rosy pink, wings white.
741.	Mars. Fiery crimson.
752.	Orange Prince. Orange salmon, wings pink.
768.	Ramona. White, striped with pink.
773.	Red Riding Hood. An oddly shaped one.
775.	Stanley. Dark maroon.
780.	Venus. Salmon buff, shaded pink.

2835. Climbers growing six to eight feet: Flowers red, white and flesh colored. The roots penetrate the ground to a great depth and survive our winters. Mixed colors. Pkt., 5C.

If you should receive two copies of this Catalogue please hand one to an interested friend.

ROYAL MIXTURE.

It contains seeds of more than thirty varieties of very choice Sweet Peas.

AYBE

.... You think that's exaggeration! However, we will prophesy that if you al-low yourself to invest in even one oz. of our

"Royal Mixture of Sweet Peas"

you will not only be rewarded with a wealth of glorious flowers, but derive greater satisfaction in growing Sweet Peas than ever before.

These are pure whites and white striped with other colors, fiery scarlets, blues, steel and purple, pinks; all shades, orange, yellow; so many we cannot specify. There is noth-ing cheap about this superb

mixture except the price, and that is reasonable. In no other manner can so wide a range of beautiful flowers be found in Sweet Peas as is afforded by purchasing our Royal Mixture. Pkt., 3c.; oz., 7c.; 1/4 1b., 25c.; 1b., 60c., postpaid.

There are an abundance of excellent varieties of Sweet Peas contain seeds of the

very newest sorts, but purchasers can rely upon its producing abundance of lovely flow-ers. Lb., 35c.; ½ 1b., 20c.; ¼ 1b., 10c.; oz., 5c.; pkt., 3c.

SALVIA, CLARA BEDMAN.

SCABIOSA. Mourning Bride.

Summer-blooming border plant, producing very double flowers of various colors. A splendid flower for bouquets.

3520. Tall Double Mixed. A. Pkt., 3c. 3521. Dwarf Double Mixed. A. Pkt., 3c.

3521. Golden Yellow, Dwarf plants. Double yellow flowers. A. Pkt., 5c. 3523. Snowball. White. 1½ ft. A. Pkt., 3c.

Caucasica. (Hardy Scabiosa.) Pale blue, 3524. Caucasica. 2 to 3 ft. Pkt., 5c.

STOCK, TEN WEEKS.

(Gillyflower.)

Seeds of the Stock may be sown in the open ground or in the hot-bed, but if to be transplanted, let it be done when the plants are quite small. A little shade from the hottest sun, and water in the evening, will add much to the size, beauty and durability of the flowers.

All varieties are desirable as pot plants as well as in the open garden. A bed of Dwarf German Ten Week Stock when in bloom is a blaze of showy, most fragrant flowers. 9 to 18 inches.

Imported collection of 6 distinct colors, 30c. 3563. Imported collection of 6 distinct colors, 30c. 3572. PARISIAN, of dwarf habit, splendid for pots. Much larger flowers than the German.

Mixed. Pkt., 10C.

3565. Snowflake. Pure white flowers, almost like wax. Good for forcing. 9 in. Pkt., 10c. 3566. Princess Alice. (Cut and Come Again.)

A perpetual bloomer, of tall branching, habit loaded with white flowers. They seem to like to be cut. Pkt., 10c.

3571. Intermediate. Sow in July. Bloom in fall or early spring. Double mixed. Pkt., 10c. 3570. Brompton. Bushy plants that bloom in

winter or early spring. H. H. B. 2 ft. Double mixed. Pkt., 10c.

SALVIA. (Flowering Sage.)

Salvias make grand beds of long spikes of flowers of brilliant color. Stand heat and drought remarkably well. They are splendid winter blooming plants in sunny windows. Bloom

first year from seed. 1½ to 2 ft: H. H. P. 3510. Argentea. Silvery foliage; white flowers. Pkt., 5c. 3511. Coccinea Hybrida. Dark crimson, dwarf. Pkt., 5c. 3512. Patens. Deep, rich blue. A lovely shade. Pkt., 15c. 3513. Splendens.—(*Scarle Sage*.) Bright scarlet. Pkt., 10c. 3518. Clara Bedman. Differs from all others. Forms a compact bush 2 feet high by 2 feet in diameter. Its bright Its bright

scarlet flowers standing well out from the plant make it very attractive. Without question it is the best bedding Salvia yet introduced. Pkt., 15c.

SALPIGLOSSIS.

3519. Strong bushy plants with curiously and beautifully pencilled and marbled funnel-shaped flowers of richest colors. They are among the best fall flowers. I_{2} ft. H. A. Pkt., 5c.

SCABIOSA

SMILAX.

SCHIZANTHUS (Butterfly Flower.)

3527. Flowers as elegant as Orchids, purple spotted yellow, orange and crimson. Most profuse bloomer. A gem for garden or greenhouse culture. Mixed. Pkt., 5c.

SEDUM. (Stonecrop.) 3525. A useful dwarf plant for rockwork baskets. Flowers star-shaped, mixed Pkt., IOC.

3532. Most graceful greenhouse climber. For bouquets and decorative work indispensable. Leaves small, glossy green. Flowers white, fragrant. T. P. Oz.,75c. Pkt 10c.

SCARLET * RUNNER * BEAN.

3526. A well-known climber with fragrant, scarlet flowers. 12 ft. Pkt., 5c.

SNAP= DRAGON

See Antirrhinum.

SOLANUM.

See Jerusalem Cherry Scarlet, pepper-shaped fruit.

SWEET WILLIAM. Dianthus Barbatus.

3541. Matchless border plants with sweet scented, large bright heads of flowers of great beauty. Very easily grown. One of grandmother's favorites. H. P

Mixed. Colors vivid and varied. Pkt., 3c.

Giant Flowered Sweet William.

3540. Enormous in size, often as large as a 25 cent piece. Colors, dark crimson, white, pink, striped and others making fine contrasts. Pkt., 10c., 3 for 20c.

DO NOT OVERLOOK THE FLOWER NOVELTIES FOR THIS SEASON .- See Front Pages.

3581. Rapid growing climbers, with trumpet-shaped flowers. Thrive best in light, rich soil in a warm place in the garden. Suitable for vases, rustic work, etc. 5 ft., H. H. A. Mixed. Pkt., 5c.

TORENIA FOURNIERI COMPACTA.

3582. A plant suitable for vases, baskets, etc. Blooms all summer in open ground and in greenhouse in winter. This is a great improvement over the old Fournieri, better habit and flowers porcelain blue with yellow throat. Pkt., 10c.

3583. Fournieri. Velvety blue. Lovely. Pkt., roc. 3584. White Wings. White with rosy throat. A very distinct variety. Pkt., roc.

TROPAEOLUM-See Nasturtium (Lobb's).

LEMON VERBENA.

Different from other Verbenas Prized for its sweet-3585. scented foliage. Comes easy and very true from seed sown in open ground in spring; grows as rapidly as "pussly," bloms in a few weeks, and is full of flowers all summer. They are *white*, in spikes, it and should be in every garden. Pkt., 7c., 4 for 25c.

VERBENA.

Most popular flowers are Asters, Pansies, Petunias and Verbenas, and none excel the Verbena for showy flower beds. Sown early they bloom the same year, their large, self-colored, striped and variegated flowers covering the entire plant. Seedling Verbenas are more fragrant and far stronger in constitution than those propagated from slips. I foot, H H. P

Price, any of following, pkt., 5c.; one each color (5) for 20c.

3589. Pure White. 3590. Vivid Scarlet 3591. Striped Varieties. 3592. Purple. 3593. Blue Varieties. 3594 Extra Choice Mixed.

VIOLET .- (Viola Odorata.)

The hardy Sweet Violet that blooms in the spring They thrive best in a shady place, in moist, rich soil. (Double Violets do not seed.)

3614. Single Blue, pkt., 5c. 3625. Single White, pkt., 10c.

MAMMOTH VERBENA.

3586. The mammoth flowers of this class when well grown measure fully nine inches in circumference. Plant more vigorous than the ordinary variety, and far excel them in dazzling richness and variety of colors. The distinct white eye adds greatly to their striking and beautiful appearance. Mixed colors. Pkt., roc.

NEW DWARF VERBENA.

3587. The best for bedding Plants dwarf, 6 inches high. Surrounded with well trimmed grass they make a lovely bed. Mixed colors. Pkt., 10c.

WALLFLOWER.

3626. Much prized for making bouquets. Flowers are deliciously fragrant, perfectly double, orange, purple and chocolate in color. H. H. P. Mixed pkt., 5c.

VINCA.—(Periwinkle.)

Handsome bushy plants. Sown in March, trans-planted in May, will bloom first summer in garden. Taken up in fall and potted will flower during winter, 1 1/2 ft. T. P.

3645.

Rosea, Fine shade of rose. Pkt., 5c. Rosea Alba. White with rose eye. Pkt. Rosea Alba Pura. Pure White. Pkt, 5c. Pkt., 5c. 3646. 3647. 3648. Mixed. The above varieties. Pkt., 5c.

* WILD CUCUMBER VINE. *

3633. The most rapid growing vine we know of. Splendid for covering old trees, fences, etc. Will grow thirty feet in one season. Dense, graceful foliage, thickly dotted Pkt., 5c. with white, fragrant flowers. 1/2 oz., 15c.

ZINNIA.

General favorites. Thrive in any soil. Plants form bushes two to three feet in height and the very double flowers of various

colors form solid heads like Dahlias. H. H. A. 3653. Giant Flowered. The best of all Zinnias. Flowers brilliant, very double, five to six inches across. Mixed. Pkt., 5c. LARGE FLOWERING DWARF DOUBLE ZINNIAS.

3654. White. Pkt., 5c.	3665. Canary. Pkt, 5c.
3659. Scarlet. Pkt., 5c.	3666. Crimson. Pkt., 5c.
	3667. Mixed. Pkt, 5c
3670. Crested and Curled.	Colors orange, purple, pink, rose

Large flowers with twisted and curled petals. Pkt., Ioc. etc. 3669. Zebra. Flowers striped, spotted and blotched. Nearly every flower is different in markings. Pkt., 5c

3672. Double Mexican. A dwarf-growing class much admired

for its extra fine flowers. Mixed. Pkt., 5c. 3673. Tall Double, mixed. Many colors. Pkt., 5c.

3674. Dwarf Double, mixed. Splendid variety. Pkt. 5c.

SUMMER FLOWERING BULBS.

BULBS are of easiest culture, inexpensive, and require scarcely any care. They are sure to grow and they make a grand display in a very short time after planting. All bulbs will bloom season after season and they increase very rapidly. Most of them (Lilies are an exception) should be taken up before severe frost and stored away in a frostproof cellar to be replanted the succeeding spring. Prices given include prepayment by mail unless otherwise noted.

APIOS TUBEROSA.

A climbing vine having deep, rich purple flowers, something like the Chinese Wistearia. They have a delightful violet fragrance and bloom almost constantly Bulbs are perfectly hardy and it is unnecessary to dig them in the fall. Each 5c.; 5 for 20c.; doz., 45c.

AMARYLLIS.

With a little forethought to plant at different times a succession of bloom may be had throughout the year.

Atamasco. Fine for bedding. Upright flowers, white suffused with flesh color. Each, 5c.; 3 for 10c.; uoz., 30c.

Belladonna Major. Blooms in fall. Tall spikes carrying a dozen beautiful, fragrant silvery white flowers tipped with rose. 15c.; 3 for 40c.

Formosissima. Rich, deep velvety crimson. Succeeds in pots or grown outdoors in open ground. Each, 10c.; 3 for 25c.

Johnsonii. Dark red, with white stripes, splendid. E ch, 40c.; 3 for \$1.00.

BESSERA ELEGANS.

Pretty, bell-shaped flowers, coral-scarlet with wh 3 cups. Very graceful, just the thing for bo _uets. Each, 7c.; 3 for 15c.; doz., 60c.

BEGONIAS, Tuberous Rooted.

Of late years these Begonias have been brought to great perfection. They make splendid beds on the lawn when given protection from the hot sun by a muslin or other shade erected about three ft. above them, and as pot plants they are unexcelled.

From the time the first flrst flowers expand until frost puts a stop to further blooming these plants are literally covered with flowers of the richest colors, embracing every shade of pure white, rose, pink, scarlet, yellow and orange. The flowers often measure six inches across and are much more brilliant than the most dazzling Geraniums, and the cost is materially less. We offer first class bulbs from a celebrated English specialist.

Single Mixed. Each, 6c.; 6 for 40c.; doz., 75c.

Double Mixed. Each, 20c.; 3 for 45c.; doz., \$1.50. Colors Separate. Single rose, white, scarlet, yellow or pink. Each, 10c.; 6 for 50c.; doz., 85c.

CALLA LILIES. Spotted Leaf Calla. Dark green leaves, beautifully spotted with white; flowers white with purple throat. Each, 10c.; 3 for 25c.

White Calla. The well known variety with large white flowers. Each, 10c.

Black Calla. Always scarce. Rich, deep purple lowers of large size. Each, 20c.

CYCLAMEN.

A splendid pot plant for window culture. Each, 25c.; 3 for 60c.

HYACINTHUS CANDICANS.

Sugariant, free-growing, summer-flowerrng plant, with flower stems 3 to 4 ft. high, bearing from 20 to 30 pure white flowers. Each, 6c.; 3 for 15c.; doz., 55c.

CALADIUM.

TUBEROUS BEGONIAS-Single and Double.

CALADIUMS.

Stately plants for planting on lawns singly or in beds with Cannas or Castor Oil plants. Their enormous leaves three feet long, make a grand tropical effect. Will grow in any good garden soil and are very easy to cultivate. Lift them in fall and keep in a warm place over winter.

First Size Bulbs,	$1\frac{1}{2}$	to 2	inches	in	diameter,	15c.;	not p'pd	, 10c.
Larger Bulbs,	2	to 3	"		66	30c.;	66	15c.
Mammoth Bulbs.	4	to 6	65		65	50c.;	61	30c

CINNAMON VINE.

A fine hardy climber, and well known in some parts of the country as Chinese Yam. The tubers grow very large and are edible, like a Sweet Potato. The vine is beautiful rapid grower, producing sweet scented flowers. Each, 5c.: 6 for 25c.

GLOXINIA.

One of the most charming green - house plants. The gorgeously colored flowers are spotted, shaded or mottled in the most magnificent way. After their blooming season, pulbs should be carefully dried and put away in a dry place. Good bulbs, finest varieties, each. 15c.; 3 fr - 12c.

The Best CANNAS in Cultivation.

MPROVEMENTS made in the CANNA during the past few years in form of flower and diversity of coloring, place this plant decidedly at the head of all others used for bedding purposes. Those who admire something choice on the lawn and to vary the mo otony of beds of Geraniums, Verbenas, Pansies, etc., as well as for pot plants in the house in winter, will find their tastes gratified by cultivat ng Cannas. Do not set them out until ground is quite warm.

Orders will be filled with dormant roots until April 20th. After that date with started plants. All should bloom the coming summer, and in winter also if lifted and potted before frost has touched the plants in the autumn.

ALSACE. 3½ feet; green foliage. Color, creamy yellow changing to almost pure white. It shows to advantage alongside a red variety.

6 SELECTED NEW CANNAS

GOLDEN MOON. 21/2 feet; green foliage. Truss and individual flowers large, yellow. Contrasts with crimson variety.

MDLLE. BERAT. 4 feet; green foliage. Color, almost pink. This Canna should be planted together with bright reds and yellows. PLUTO. 3 feet; purple-red foliage. Large, well formed red flowers flamed with orange. Striking and handsome.

ROBERT CHRISTIE. 5 feet; green foliage. Large trusses of orange-scarlet flowers. A tremendous bloomer.

SOUV. d'ANTOINE CROZY. 5 feet; green foliage. Flower bright crimson with broad gilt edge and well rounded petals. A gem among Cannas, standing out conspicuously.

PRICE: Each. 15c: 3 for 40c; 1 each of the six for 75c.

MLLE, BERAT

WELL-KNOWN CANNAS.

Plant a bed of Cannas. The cost is slight and the pleasure great.

ALPHONSE BOUVIER. 6 feet. Large trusses of vivid crimson flowers. Usually there are two to three spikes on a stalk.

CHARLES HENDERSON. 4 feet, A splendid bedder. Flowers crimson; petals wide and well rounded.

EGANDALE. 4 feet. Bronze leaves. Flowers currant red. The finest bedding Canna of its color. Very distinct.

EXPLORATEUR CRAMPBEL. 5 feet. Flowers vermillion scarlet with crimson spots.

FLORENCE VAUGHAN. 4 feet. Broad green leaves. Flowers yellow, dotted with bright red. A famous well tried and hard to beat sort. Constant bloomer.

MADAM CROZY. 4 feet. Scarlet flowers CANNA BEDS. bordered with gold. It is valuable for pot culture and for bedding too.

PAUL MARQUANDT. 4 feet. Extra large flowers of a deep salmon color. Splendid well formed truss. Highly prized and admired by all.

QUEEN CHARLOTTE. 31/2 feet. Broad. green leaves. Large, rich scarlet flowers with a wide golden band around each petal.

PRICE: Any of the above, each, 10c; 6 for 50c; dozen, 90c.

The 17 varieties on this page, 1 good tuber of SPECIAL OFFER: each by mail, postpaid, for \$1.25.

MIXED BEDDING CANNAS.

These consist of roots grown from tubers the names of which were lost in handling. While they were in bloom the colors were noted and we offer them in mixed colors. They will make a beautiful show planted at the edges of shrubbery or among other plants. State color desired and whether tall or dwarf growing sorts are preferred. We will endeavor to comply with your wishes.

Each, 8c; 3 for 20c; 6 for 35c, postpaid.

GIANT ORCHID=FLOWERED CANNAS

The sensation in floral novelties. In size and brilliancy of flowers and majestic Musa-like foliage, they are entirely distinct and far in advance of any of the large flowering Cannas to date; of remarkable strong growth they soon make fine specimen plants

AUSTRIA. 6 feet high; very large flowers and foliage. Flowers canary yellow, spotted with brownish red.

BURBANK. 5 feet. Individual flowers 7 inches across. Canary vellow with small crimson spots.

ITALIA. 5 feet Flowers red bordered with golden yellow. Each 15c, 3 for 40c.

HE long neglected Dahlia is again fast coming to the front. Set them out the last of May in deep, rich ground. Cover with about three inches of soil. During August and September the plants will be loaded with flowers.

We know of nothing more than a well-arranged bouquet other Dahlias. Our collecto-date. The tubers or DRY size and will flower the same put into the ground until We will book orders any time, ed hold the tubers until May 1.

PROF. L. H. BAILEY, Cornell University, says: "I believe the Dahlia has come to stay as a popular flower. I have the greatest confidence in it and predict a great future for it. Everybody should grow a few Dahlias for their own benefit. It will do them good."

showy for table decoration of long-stemmed Cactus and tion is very complete and up-ROOTS we offer are of good They should not be season settled weather, say May 20. but unless otherwise instruct-If sent sooner at purchaser's

risk. There is no advantage to be gained by earlier planting.

DRY ROOTS, except noted, each, 20c.; 3 for 50c.; doz., \$2.00, postpaid. Larger roots at same price by express, not prepaid.

Cactus Dahlias.

Of all the Dahlias, those of the so-called Cactus class, with their large, broad petalled flowers, are most highly prized for decorative purposes. Crimson Giant. "Hard to Beat." Rich in color,

constant in bloom; strong, vigorous grower.

Glare of the Garden. Another good one. Scarlet flowers of odd form; early flowering.

John Bragg. Handsome, showy flowers; dark maroon in color.

Marchioness of Bute. Pure white with rosy tips. Nymphaen. (The Pink Water Lily Dahlia.) One of the finest of all; large, graceful, chaste. Petals broad and waxy; full, incurved center. The color is rare and novel, a clear, light, shrimp pink, shaded darker toward the outer petals.

Panthea. Rich salmon; a peculiar shade. Pretty. Picta, Formosissima. Orange, striped with scarlet bands.

Professor Baldwin. Bright orange.

Robert Maher. Golden yellow; prolific bloomer. Zulu. Almost black; well-formed flower.

New Cactus Dablia.

CLIFFORD W. BRUTON. This superb new variety is acknowledged by all who have seen it to bethe finest yellow Decorative Cactus Dahlia ever produced, and is the greatest acquisition since Nymphæa. It is a very strong, sturdy grower and a profuse bloomer. Whole roots, 75c.; started plants, 5oc. bloomer.

Pompone, or Bouquet. \odot 0.

These make elegant pot plants, and for outdoor cul-ture are charming. The flowers, though small, are graceful in form, borne on long, slender stems, and valuable for bouquets.

Alba Floribunda. Pure white, neat and chaste. Eleganta. Pink in two shades, soft and deep. Juliette. Yellow-shaded orange. Kate Haslan. Clear pink, ball-like flower.

King of Dwarfs. Dark maroon, rich texture.

SPECIAL

OFFER

Mary Kirk. Pleasing yellow; fine bushy habit. Mignon. Bright crimson scarlet; showy. Snowclad. Very full; pure white. Winnifred. A gem from England. Pure white flow-ers, occasionally tipped with lavender.

view-Single Flowering.—·>*

Remarkably early and constant in bloom Flowers large on long stems. By many preferred to double varieties as cut flowers. Any color from white to darkest maroon.

* Double Large Flowered. *

Plants grow tall. Flowers globe-shaped, close petalled, rich in texture and color.

Fire King. Blooms very early. Deep scarlet flowers that glow like fire.

General Grant. Orange, striped with chocolate. Guiding Star. Pure white flowers with toothed or fringed petals.

Marguerite. Deep pink, handsome. Miss Thatcher. The queen of yellow Dahlias. Early, constant and prolific bloomer. On our grounds last fall this variety was a blaze of golden glory for two months.

Mrs. Langtry. Very large flower, cream colored, edged with crimson.

Prince Henry. Lilac, striped with purple; distinct. Sunset. Large flower; yellow, flaked with scarlet.

NOTE .- We have many varieties not mentioned herein of all the different classes. If selection is left to us we will send, postpaid, twelve good tubers, part of each class, for \$1.50, or six for 80c. Larger roots at same price by express.

100° We call special attention to Sheep Manure (see last page) as a special fertilizer for Dahlias. It produces vigorous growth and greatly increases size of flower.

The Complete Collection, one each of all the new and superb Dahlias (28) on this page at the very low price of \$4.50, postpaid. Larger tubers at same price, by express, not prepaid.

85

O the culture of Gladioli we devote a large acreage, and each season our fields when in bloom are a great attraction. They are sure to flower in any soil; have

no insect enemies nor diseases; flowers of almost every color. By cutting the spikes when two or three of the lower flowers are open, and placing them in water, the entire spike will open up even to the tip end. They are very effective grown among shrubbery. Set the bulbs six inches apart, grown among shrubbery. Set the bulbs six inches apart, three inches deep. Plant from middle of April to first of June. At single and dozen rate we send postage or express paid. 100 rate not prepaid; 25 bulbs sold at 100 rate.

Hardy Lilies.

Lilies thrive best in a dry, rich soil. They should be planted deep, as they form two sets of roots, one below, the other above the bulb. All Lilies offered on this page are hardy enough to stand the winter out doors. It is well, however, to protect them with a covering of litter or straw.

Prices include postage unless otherwise stated.

AURATUM. (Gold Banded.) Extremely fragrant and very beautiful. Flowers white, dotted with crimson, with a golden band running through center of each Not prepaid, Large bulbs, each, 15c.; 3 for 4oc.; doz., \$1.50.

50c., postpaid.

ZEPHYRANTHES. See Amaryllis Atamasco. Page 82.

WINTER BLOOMING BULBS, ready in September and October. .

CLIO. The finest flesh colored hybrid perpetual.

The flowers are simply perfection in form, with

fine, broad petals, and are beautiful at all

stages of development; color delicate satin

blush, with a shading of rosy pink at center.

Free blooming and strong, healthy grower.

PRICE: Each, 15c; 3 for 40c; 6 for 75c; postpaid.

ONE EACH OF 7 NEW ROSES, 90c, postpaid.

The Martin State

STRIPED LA FRANCE. This lovely caprice will please all with its odd and novel combination of pink and white stripes. Grows and flowers as freely as La France. 15c each.

FOR 35 CTS. we will send, post-paid, one good, strong plant each of the Red, White, Pink and Striped La France Roses offered above.

large quantities of medium sized double

flowers in clusters, admirably adapted to pot culture, beginning to flower when not over four inches high, and continues without intermission the entire season if kept in a healthy growing condition.

- *HERMOSA. Bright rose, medium or small; hardy. It is continually in bloom; not full; very popular.
 KAISERIN AUGUSTA VICTORIA. Pure white with yellow center. Very free. A most promising variety, having the
 - form of C. Mermet. *MME. HOSTE. Yellow white, often canary yellow; base of petals often amber colored. One of the finest forcing varieties.
 - MME. CAROLINE TESTOUT. Flower large, double and globular; clear satiny rose, center brighter; very fragrant.
 - MARION DINGEE. Deep carmine. Very fine bedder.
 - **MARIE GUILLOT.** White, faintly tinged yellow. Large, full and of splendid form. One of the most beautiful.
 - *first. DEGRAW. Resembles Appoline, but more prolific. Glossy pink, fragrant and continuous bloomer. Fine bedder; hardy south of Chicago.
 - **METEOR.** Velvety crimson. The brightest and best of Hybrid Teas, without a purple tinge.
 - **PAPA GONTIER.** Very bright rose or red, large, not double; flower extra good. A first-class forcing variety.
 - **PERLE DES JARDINS.** Canary yellow; large or very large, full well formed, stiff stems; very free. The standard forcing Tea. by which all others are compared.
 - PINK SOUPERT. This is a beautiful bright pink and contrasts finely with the other varieties; blooms freely and produces double blossoms. A great beauty.
 - *PRINCESS BONNIE. Crimson, petals streaked white inside
 - *SAFRANO. Saffron and apricot; yellow, large, semi-double, beautiful in bud; very free.
 - SOUV. DE LA MALMAISON. Flesh shaded fawn; large, very full, flat. A fine rose.

SOUV. DE PRESIDENT CARNOT. Long bud of Niphetos shape; flesh color, shaded with rosy white at the edge of the petals.

YELLOW SOUPERT. Color, a beautiful light yellow, shaded to white at edge of petals; plant, dwarf, bushy and very free flowering in clusters. It is a valuable sort.

... Kybrid Perpetual Roses...

of large size, and of the most beautiful colors from pure white to the darkest shade of crimson. Their blooming season is in June. In the spring cut back all the old stems. New ones will be sent up, and it is on these the flowers are borne.

- ALFRED COLOMB. Crimson, large fragrant flowers.
- AMERICAN BEAUTY. Flowers very large and double; color, rich crimson; very fragrant.
- ANNA DE DIESBACH. Bright carmine; sweet.
- BARON DE BONSTETTIN. Blackish c imson with bright red shading.
- CAPRICE. A striped red rose; ground color, soft pink marked with rose.
- COQUETTE DES ALPS. White, tinged blush; fine.
- son, large and fragrant. GEN. JACQUEMINOT. Bright crimson. A universal favorite,
- GEN. WASHINGTON. Red, shaded with crimson; flower flat.

FISHER HOLMES. Rich velvety crim- |

- JOHN HOPPER. Bright rose; fine form. A highly prized variety.
- LA REINE. Clear light rose.
- MADAM CHAS. WOOD. Bright crimson with deeper shading.

MAGNA CHARTA. Dark pink; double and full; easy to grow.

- MADAM PLANTIER. Pure white; a profuse bloomer. This is a splendid cemetery rose; unlike the othe varieties, it should never be pruned.
- PAUL NEYRON. Deep rose color; largest of all, perfect in form.
- PRINCE CAMILLE DE ROHAN. Velvety crimson, shading to dark maroon; very handsome.
- ULRICH BRUNNER. Cherry red flowers, beautifully shaped buds.
- VICTOR VERDIER. Rose color, crimson center; large and full.

PRICE: - Any of the above Varieties, Each, 12c; 3 for 30c.; 6 for 55c.; 12 for \$1.00, Postpaid.

shaded with pAUL of al e; fine form. PRINC crim

• Hardy Climbing Roses

THE PLANTS of this class of Roses are used for covering trellises, walls, pillars, etc. They grow with great rapidity, are perfectly hardy, have beautiful foliage and produce flowers in large clusters.

4 RAMBLER ROSES

in four different colors, WHITE.

CRIMSON, PINK.

all 4 for 50 cents, postpaid.

YELLOW.

These roses should be in every garden. There is nothing in their class which will in any way compare with them.

The RAMBLER Roses will grow from 8 to 10 feet in one season. The size of their beautiful fragrant flower heads is remarkable. The foliage is thick and heavy. Flowers when cut last two weeks in water. May be grown as a pillar rose, trained on an arch, or over the surface of the ground.

Crimson Rambler. Crimson. White Rambler. Pearl white. Pink Rambler. Pink. Yellow Rambler. Golden yellow.

PRICE: Each. 15c: 3 for 40c: 6 for 75c: - 10 for \$1.00, postpaid.

DOUBLE MEMORIAL ROSES.

The habit of these new roses is the same as the Rose Wichuriana, or Memorial Rose. The growth is creeping, and therefore can be used to cover ground, stems of trees, pillars, posts, trellises, or any other purpose desired, including pot culture.

MANDA'S TRIUMPH.

WICHURIANA HYBRIDS. Manda's Triumph. White, fragrant flowers, double to the center.

- South Orange Perfection. Rosy blush. Distinct from all others.
- Universal Favorite. Pink. A fitting companion to Triumph.
- Pink Roamer. Single; flowers are pink with white center. A strong and vigorous grower.
- PRICE: Each, 15c; or one each of the five varieties for 50c, postpaid.

<u><u>Fybrid</u> Sweet Briars.</u>

UNIQUE class of Roses of great beauty. They are crosses between the well

known Sweet Briar and other roses. All possess the delightful fragrant foliage and strong, vigorous growth of the Briar. They are as hardy as oak trees. Their flowers are single, many shades of color, and are borne in great profusion. We offer in three colors, red, white and pink.

PRICE: Each, 15c; 3 for 40c; 6 for 75c.

MOSS ROSES.

Well known and highly valued for their large, sweet flowers, enveloped in mossy envelopes, of charming beauty; absolutely hardy and of the easiest culture. They bloom very freely and are among the most beautiful of roses, succeeding on any good soil.

Blanche Moreau. Blooms in large clusters; pure white, fragrant, mossed deep green. Crimson Globe. Rich, bright crimson, full and double.

Princess Adelaide. Large, very double and full; lovely, bright, rosy pink; profuse and a strong grower.

PRICE: Each, 15c; 3 for 40c; 6 for 75c.

TENDER CLIMBING ROSE.

Marechal Niel. A famous old rose that is as highly prized now as twenty-five years ago. As a greenhouse climber it has no superior, and in the South it covers the verandas with the greatest luxuriance. Flowers very large, long and pointed, dark golden yellow in color. Its merit as an outdoor rose has made it famous in the South, and we recommend it to our Southern friends.

Each, 15c: 3 for 40c.

Other Climbina Roses

BALTIMORE BELLE. Pale blush. shading to rose.

- EMPRESS OF CHINA. This is a new and a valuable perpetual blooming climber. It commences flowering the first of May and except under some especially trying circumstances, such as long drouth, it will bloom repeatedly until late fall. Flowers are small, delicate, fragrant and waxy. Bud is dark red, changing to a red or pink.
- SEVEN SISTERS. Color varies from white to crimson.

PRAIRIE OUEEN. Bright pink.

RUSSELL'S COTTAGE. Velvety crimson. TENNESSEE BELLE. Rosy blush. MARY WASHINGTON. Pure white.

All the above have double, sweetscented flowers. They are all well tried and climate tested. Will live through the winter outdoors.

PRICE: Each, 15c; 3 for 40c; 6 for 75c; 10 for \$1.00, postpaid.

The

(ROSA WICHURIANA.)

It is difficult to think of any plant more appropriate for use in cemeteries than this.

It creeps on the ground like lvy; dark green leaves.

Has numberless satiny white single flowers with golden yellow disks.

It is hardy as grass and will grow in sun or shade.

It may be trained to a fence or house with equal success, or it may be trained in arch form to make a perfect bower. Each, 15c; 2 for 25c.

....TREE ROSES

These are made by grafting Hybrid Perpetual Roses on hardy rose stalks. The plants are 4 to 5 feet high, having large tree-shaped heads, which, when in bloom, are very showy. We have them in different colors, such as white, pink, red and crimson. Please express your preference. They are so large they cannot be sent by mail.

By express, Each, 50c; 3 for \$1.40.

PORTIA. Intense bright scarlet; flow-

ers medium size and freely produced.

CARNATIONS.

Each, 15c.; 3 for 40c,; doz., \$1.50.

HE CARNATION is the sweetest and most beautiful flower (except perhaps the Rose), in cultivation. Too much praise cannot be given them, nor enough said to induce people to plant them. The flowers are very fragrant and are borne in the greatest profusion.

DAYBREAK. Bright flesh color, with no salmon shadings; last a long time when cut. A free blooming, long stemmed variety.

EDNA CRAIG. A remarkably handsome flower. The color is a lovely shade of clear, soft, light pink. The flowers are of fine form, with heavily fringed petals.

GOLDEN GATE. Golden yellow; has no stripes or foreign color. Full and double. Strong, healthy grower.

LIZZIE McGOWAN. Large pure white flowers, beautifully fringed.

The seven Carpations for 50c.

free-blooming.

fully developed.

CALADIUMS. FANCY LEAVED.

Now much used for summer and fall decoration. They are easily grown in pots or boxes, or in shady situations out of doors. The dry tubers require to be kept warm in winter. We offer started plants only; each, 20c; six dissinct sorts, \$1.00.

CALLA LILIES.

TOM THUMB CALLA-Little Gem. This is a dwarf variety of the old Calla Ethiopica, rarely ever growing over 10 to 12 inches high; a plant that can be used with telling effect in many places where the tall Calla could not on account of its tall growth. It commences to bloom when very small, often two or three flowers from 4-inch pot plant. 20c; 3 for 50c; strong plants, 35c; 2 for 50c.

CALLA ETHIOPICA - the Common Calla. A favorite old plant for house culture, with large leaves and white, trumpet-shaped flowers. Small plants, 10c; strong flowering bulbs, 15c; extra strong, 25c.

BLACK CALLA (Arum Sanctum). Flowers very large, of same shape as the ordinary Calla, but from 12 to 15 inches long and 4 inches broad; of a rich dark purple color on upper side, and green on under side. The leaves color on upper side, and green on under side. are large and very wavy, of a rich deep green color, veined lighter; in shape resembling the common Calla. 20c; itronger bulbs, 30c. SPOTTED CALLA (Richardia Alba Maculata). A

variety with beautifully spotted foliage; flowers pure white, shaded violet inside. Bulbs, each, 15c; 2 for 25c. shaded violet inside. Bulbs, each, 15c; 2 The 4 Calla Lilies for 50c.

COBEA SCANDENS.

One of the best and most rapid growing annual vines for porches, trellises, etc. One plant will soon cover 40 feet of surface. The flowers are large, blue, bell-shape. They come into bloom early and continue until frost. 15c.

COLEUS.

A few dozen of these plants will make a beautiful bed. There is such an endless variety in their colors and markings that with a little taste in planting varieties, the most gratifying results can be obtained at a trifling cost. Doz., 75c; each, 10c.

UYPERUS ALTERNIFOLIUS.

Umbrella Plant.

A splendid aquatic plant, throwing up stems two to three feet high, surmounted at the top with a whorl of leaves, diverging horizontally, giving it a very novel appearance; fine for the center of vases or aquariums. 15c.

CHRYSANTHEMUMS.

From the almost innumerable varieties we select twelve of the very best, unsurpassed for form and diversity of color.

Unless noted, each 10c, 3 for 25c, the 12, \$1.25.

E. MOLYNEUX. Rich deep maroon red; outside of petals when expanded is a rich golden tint, petals immense in both width and 'ength. EUGENE DAILLEDOUZE. Bright clear golden

Large, full, double; glowing in color. stiff stem yellow. and good foliage, and a free, easy grower. There is noth-ing brighter among yellows. 15c. HARRY E. WIDENER. Bright yellow, without

shadings. Flower large, on stiff, stout stems that hold the flowers erect without support; incurving, forming a large, rounded surface; petals crisp and stiff. INTER OCEAN. This is a grand variety.

color is a glistening, pearly white, with light suffusion of pink. Petals of great substance. The stems are very stiff, the foliage handsome and carried close to the flower. 20c.

IVORY. Flowers pure white, of exquisite form and finish; petal stiff and lasting. As a specimen plant for pot culture there is none better.

MAJOR BONNAFFON. Soft, clear, incurved yel-low, full to the center; 6 to 7 inches in diameter and nearly as deep. Habit dwarf; keeping qualities excellent. 15c.

MRS. E. G. HILL. One of the earliest of all the very large flowered sorts. Color delicate pink, shading from color of La France rose to the flesh pink found in Daybreak carnation. Flower very large, 7 to 8 inches in diameter; full to the center. 20c. MRS. JEROME JONES. Large, cream white, in-

curved, Japanese, sometimes showing a tinge of pink; high, round flower; one of the best chrysanthemum flowers to date.

NIVEUS. A grand snow white variety. Center irregularly incurved with outer petals reflexing nearly to the stem.

PITCHER and MANDA. Reflexed Japanese, not deep, but solid and of large diameter; the outer five or six rows are creamy white and of dahlia-like form, the center is bright yellow. 20c.

PRES. WM. R. SMITH. Color a beautiful, clear,

flesh pink; very heavy in substance, on stiff stems; double. THE QUEEN. A grand pure white of extra large size of beautiful, half globular form with broad, incurved shapely petals of good substance. One of the finest, if not the finest Chrysanthemum of its color. 15c.

SPECIAL OFFER: We will send 16 varieties of our own selection, choice kinds, all labeled, for \$1,00.

FUCHSIAS.

Fuchsias are excellent plants for growing in pots. They delight in rich soil and a shady situation. Fuchsias will do well bedded out on the north side of the house.

Unier 3 noted, each 10c.; doz., \$1.00.

LITTLE BEAUTY. This is a charming variety and the freest flowering of all Fuchsias. It begins to bloom when only two or three inches

high, and continues to flower the year round, often one hundred open blossoms at one time on a single plant in a small pot. Flowers of good size. Tube and sepals bright red, corolla deep purple. Every lover of Fuchsias should have this little gem. 20c.

BLACK PRINCE. Single; tube and large sepals waxy carmine; corolla pale pink, large and wide open.

MRS.E.G.HILL. The most perfect double white Fuchsia yet introduced; tube and sepals bright reddish crimson, contrasting with the large pure white corolla to great advantage.

The plant is of splendid habit, a remarkably free grower yet compact and symmetrical inform; free bloomer. 15c

MRS. MARSHALL. White tube and sepals; corolla carmine rose. An old favorite.

PHENOMENAL. Flowers very large; short tube and sepals of a bright rich crimson color; corolla bright violet purple; very full and double.

STORM KING. The flowers are of extraordinary large size and very double; corolla a beautiful blush white, veined with carmine; tube and sepals carmine red. 15c.

SPECIOSA. Unsurpassed for winter blooming. A strong, vigorous grower, and almost at all times in bloom. Pale red tube and sepals; dark red corolla.

The 7 Fuchsias for 60 cents.

HELIOTROPES.

These plants are universal favorites on account of their delightful fragrance. Flowering equally well as bedding plants in summer or as pot plants in the house during winter. 10c.

HYDRANGEA.

Hydrangeas are among the easiest of all plants to grow. They are always attractive and stand any amount of neglect. Just the thing for a tub on the front porch.

OTAKSA. A splendid variety from Japan. Flowers large, bright pink, tinted blue; produced freely. 15c.

THOMAS HOGG. The immense trusses of flowers are first slightly tinged with green, becoming of the purest white, and remaining so a long time. 15c.

PANICULATA See Hardy Shrubs.

1)

IVIES-Hedera.

Valuable for covering brick walls and upon the north or shady side of buildings; also excellent parlor ornaments and most desirable hanging basket plants.

ENGLISH. The well-known European variety. 15c. GERMAN. A beautiful and rapid growing vine, one of the most desirable for hanging-baskets or vases. 10c.

GERANIUMS.

Are you looking for something which will make a brilliant, showy bed on the lawn this summer? If so, you will find it in the Champion Set we offer below.

Unless noted, each 10c.; doz., \$1.00.

CHAMPION SET OF BEDDING GERANIUMS.

ATHLETE. Clear scarlet. Very large. Double. 15c. GEN'L GRANT. Finescarlet. Grand bedder. Single. GLOIRE DE FRANCE. Salmon with white. Double.

Very large truss of flowers. 15c.

HETERANTHE. Soft scarlet. Semi-double.

JULES FERRY. Deep crimson. Single.

LE CID. Brilliant crimson red. Double.

LA FAVORITE. Snow white. Double.

MARY HILL. Deep pink. Single.

QUEEN OF THE WEST. Orange salmon, Fine bedder. Single.

SIR TREVOR LAWRENCE. Rosy peach. Double. SOUVENIR DE MIRANDE. A splendid variety. Cherry red, white markings in center. Single. 15c.

WHITE SWAN. Best pure white. Double.

The Champion Set of 12 Geraniums for \$1.00, postpaid.

IVY LEAVED GERANIUMS.

A splendid class of climbing or trailing geraniums, adapted for baskets, vases, rock work, and trailing on trellisses. They have fine, thick, glossy foliage, which of itself would be of sufficient beauty to warrant their cultivation. They bloom with the greatest freedom during the spring and summer. Several standard varieties, double and single, each 10c.

VARIEGATED LEAVED.

Buy these for something handsome in pot plants.

HAPPY THOUGHT. A tri-color Geranium, with very dark green foliage, having a light, creamy, almost white center, with a dark band about the light zone. It is a beautiful plant, and the flowers bright scarlet. 15c.

MOUNTAIN OF SNOW. Foliage green, handsomely bordered with white; flowers scarlet; a fine bedder, the best variety of its color. 15c.

MAD. SALLEROI. A very compact variety of Silver Geranium; very fine for massing or bordering; a thrifty, healthy grower, rarely reaching a height of more than six inches; leaves very small, of a peculiar clear green, edged with pure white. 10c.

SCENTED LEAVED.

Balm, Dr. Livingston, Lemon, Rose, Shrubland Pet. Each 10c.

> MANETTIA VINE.

A beautiful free-growing vine with small, tubular-shaped flowers of a rich, fiery scarlet color, shading off into a bright yellow at tip offlower. It commences to bloom when very small, and flowers continually. A valuable plant for small trellises, vases or baskets. 10c.

NE of the most interesting features in Lincoln Park (this city) is the long stretch of border devoted exclusively to hardy herbaceous perennials. The gardener in charge of this section states with pride, that throughout the entire season an open flower can be found on some one of the plants in the collection every one of the twenty-four hours of the day.

Hardy Perennials are the plants to set out in the locations where but little care can be given. They start into growth readily, increasing yearly in vigor and perfection. For busy people who have not much time to devote to the cultivation of annuals and bedding plants, we unhesitatingly advise the liberal planting of these perennials. Prices are for large field-grown plants to be shipped by express. We will send smaller ones, postpaid, at same

price, when their size will admit of mailing.

HARDY ASTERS.

Very pretty flowers in all shades of colors; bloom in October. Each, 15c.; doz., \$1.25.

BLEEDING HEART.

(DICENTRA SPECTABILIS.)

Rose colored, heart-shaped, flowers in great abundance in April and May. An excellent plant for the cemetery or open border. Easily cultivated; 2 feet. Each, 15c., postpaid. Larger roots will be sent in express or freight orders.

COREOPSIS LANCEOLATA.

Bright golden-yellow, flowers the entire season. It is a good cut flower for vases, etc. Those who desire a plant which gives abundance of flowers for table decoration will find it in this. Each, 25c.

DELPHINUM FORMOSUM.

(PERENNIAL LARKSPUR.)

Should be planted extensively even in the smallest garden. Its long spikes of bright blue flowers make a

show from June until frost. Each, 20c.; 3 for 50c.

DAY LILY, or Funkia.

A handsome, showy plant, with beautiful large broad

leaves. Flowers large, resembling Lilies, pure waxy white, borne in large trusses. Very fragrant, likes partial shade. Each, 25c.; 3 for 7oc.

Yellow. Large golden-yellow, flowers July and August. Each, 20c.; 3 for 50c.

Variegated Leaved. Green and white leaves and purple flowers. Each, 25c.; 3 for 70c.

IRIS. - (FLEUR-DE-LIS.)

German. Thrive in low ground, marshy places, or on edges of ponds. Broad leaves, large ornamental flowers of rich and elegantly blended colors exquisitely striped with dark violet purple or bronzed lines, upon a lighter ground. We offer 6 distinct varieties. Strong roots, each, 20c.; one each of 6 for \$1.00.

Japan. Different from German Iris. Narrow leaves, handsone, very large flowers in June and July. Each, 20c.; 3 for 50c.

PANSY PLANTS.

Grown from our celebrated "Florists Mixture." Every color and marking. Doz., 50c.; 30 for \$1.00. Not prepaid.

HOLLYHOCKS.

As a background in large borders, or beds of low growing herbaceous plants there is nothing better. Grow 5 to 6 feet. They require a deep, rich soil, and any extra care bestowed on them they will liberally repay in beauty of bloom. We have excellent young plants, raised from our celebrated strain of seed, and offer the following leading colors:

Pure White,	Dark Crimson,
Clear Yellow,	Deep Maroon,
Light Rose,	Flesh Color.
Strong roots, each,	20c.; doz.,\$2.00.

LILY OF THE VALLEY.

Strong clumps for outdoor planting, by mail, postpaid, each, 35c. Not prepaid, each, 20c.

PÆONIES.

We grow these in large quantities. They produce flowers almost rivaling the Rose in brilliancy of color and perfection of bloom. Some of the varieties are very fragrant. They

are perfectly hardy, require little or no care, and will produce larger and finer blooms when well established. We offer *white*, *rose* and *crimson*. Price, 30c each, 4 for \$1.00.

PERENNIAL PHLOX.

A bed or border of Phlox is one of the grandest features of a garden, and even though left with little attention it does not materially interfere with their sturdy growth. Finest improved varieties, assorted, embracing all the leading shades. Single roots, 15c.; per doz., \$1.50.

HARDY MAY PINKS.

Her Majesty. Low-growing flowers, purest white, as large as Carnation, rich, clove fragrance. Large, 30c. each; 4 for \$1,00; young plants, 15c. each; 4 for 50c.

Old Grass Pink. The Flowers are fringed; deep rose color; very fragrant. 15c.; 4 for 50c.

Snow. Large, pure white; fine for cut flowers. Each, 15c.; 4 for 50c.

YUCCA.--(ADAM'S NEEDLE.)

Narrow, evergreen leaves. Bears in summer, creamy-white, bell-shaped flowers on a spike 3 or 4 ft. high. Young plants, each, 20c., postpaid. Stronger roots, 35c., not prepaid.

GERMAN IRIS.

Hardy Ornamental Shrubs.

NCE planted in a suitable situation, Hardy Shrubs increase in size and beauty from year to year with little or no further care. They very materially add to the attractiveness of the grounds.

Strong, well rooted plants are more certain to grow, and, too, they make a show much sooner. It has long been apparent to us that this is the most satisfactory size to offer. We can forward only by express or freight. No charge for packing. When possible to mail small plants will do so at these prices.

Varieties of Special Merit. -> HARDY PLUMED HYDRANGEA.

(Hydrangea Paniculata Grandiflora.)

The finest hardy shrub in cultivation. Adapted to any part of the country, perfectly hardy, stands heat and cold remarkably well. For the cemetery there is no better shrub. Grows 3 to 4 feet high, blooms from July until frost. Its flowers are nearly a foot in length, white when they first open, afterwards changing to rose, remaining in good condition for weeks. Bushy, *field grown plants*, each, 20c.; doz., \$2.00. Tree form plants, 3 to 4 feet high. Will make fine specimens

on the lawn or in the garden. Each, 65c., by express only

RHODODENDRON, or Rosebay.

Universally admitted to be the most magnificent, hardy *ever-*green shrub that grows. The flowers range through rose, pink, crimson, white, etc. The plants we offer are strong and bushy, well set with buds. Will bloom same season set out. Protect first winter with leaves or brush. First size (4 to 7 buds), each, \$1.00. Large size (8 to 12 buds), each, \$1.50.

NEW SPIREA, Anthony Waterer.

One of those exceptional novelties that occur only at rare inter-vals, adding richness and beauty to our garden. It outshines all

SNOWBALL.-VIBURNUM OPULUS.

Spireas in brilliancy of color, being a bright crimson, of dwarfer and denser growth, and in bloom the entire summer. Each, 35c. white flowers in June. Large plants, each, 20c.

A well-known shrub which attains the height

General List of Hardy Shrubs and Hedge Plants.

The month named gives the period of blooming. A judicious selection will give flowers all season. Price, unless otherwise noted, large, well-rooted plants, each, 25c.; doz., \$2.50, not prepaid.

- ALMOND. Double rose-flowered. Blooms very early in spring. Can be forced in pots.
- ALTHEA, or Rose of Sharon. Erect growing, branch-ing plants with double rose, purple or white flowers. August and September. Mixed, large strong plants.
- Violet colored foliage, showy BARBERRY, Purple. red fruit, used in some localities for preserves.
- CALYCANTHUS Floridus. (Sweet-scented Shrub.) Flowers dark chocolate, with pine-apple fragrance.
- Flowers dark chocolate, with pine-apple fragrance. Everybody likes this. June. DEUTZIA Gracilis. A dwarf bush. Pure white flowers. June. A valuable plant for winter win-dow gardening. Each, 15c.; 4 for 5oc. DOGWOOD, Red Twigged. Makes a strong bush. Stem and branches turn blood-red in winter. Flowers white. Very freely produced. ELEAGNUS, Longipes. Silver-leaved. Flowers yel-low. followed by orange-red berries which when
- low, followed by orange-red berries, which, when
- cooked, make a delightful sauce. June. FORSYTHIA Viridissima. Dark-green leaves, yel-low flowers. April.
- HONEYSUCKLE, Upright Tartarian. Spreading habit. Pink flowers, followed by red berries. May. For Climbing Honeysuckle, see Page 94.

LILAC, Common Purple.

They stand more neglect, heat or drought without showing any bad effects, than any other plant and there is hardly any other shrub that can take their place as ornamental plants for borders, etc. May. Common White. Fragrant white flowers. Persian. More slender in growth and finer foliage than the common Lilac. Purple. Persian White. Flowers white. Good for cemetery decoration.

MOCK ORANGE, or Philadelphus.

Coronarius. Flowers early in June, showing large clusters of white fragrant flowers.

- Aureus. Golden yellow foliage, that keeps the color well during the season, giving the plants a very unique and distinct appearance.
- Cordata. Leaves heart-shaped, 100 white. Each, 20c.; per doz., \$2.00 Leaves heart-shaped, flowers large, pure

FOUR GRAND SPIREAS.

Spiræas at any season are beautiful ornaments on the lawn. Van Houttei, when in bloom, is a complete fountain of white flowers, the foliage scarcely showing. Early. Billardi. Rose colored flowers. Blooms late. Prunifolia. (Bridal Wreath.) Double white. Early. Reevesii, fl. pl. Double white in clusters.

One each of the 4 prepaid for \$1.00.

WEIGELIAS, during their flowering season, in June and July, are covered with lovely flowers. Candida. Pure white. Rosea, rose colored.

SPECIAL OFFER: We will send 12 hardy, large shrubs, 12 sorts, our selection, for \$2.00, by express or freight, not prepaid.

HEDGE PLANTS.

We can supply 'these on short notice. Write for
price on large quantities. Not prepaid, per 100.
Osage Orange, 2 years\$1.00
Honey Locust, 2 years 1.50
Privet, 18 to 24 inches 7.50
Berberry, common, 15 to 20 inches 5.00

A Page of HARDY CLIMBERS.

VERYONE who is the fortunate possessor of a few feet of ground will gladly devote some space to the cultiva-tion of the graceful and easy-growing climbers. They thrive and flower everywhere, even in our crowded, smoky cities, where light and sunshine is limited to a few hours daily, and where most of the hardy shrubs refuse to take hold, or in situations more congenial.

0----

The Queen of the

For covering verandas, pillars, trellises, or any unsightly tall object, there is nothing to compare with the Clematis. It is a rapid grower, reaching a height of fifteen feet during the season. Its enormous flowers, four or five inches across, are produced in such profusion as to almost hide the foliage. They are both beautiful and lasting.

Plant at any time, from April to June, and deep enough so that the crown of the roots will be at least four inches below the surface of the soil.

Our Clematis plants are from the best European They are extra size, three-year-old growers. roots. We can ship by express only, and prices do not include prepayment.

** Large Flowering Clematis. **

Price, 3-year-old plants, each, 60c.; 3 for \$1.50; doz., \$6.00.

JACKMANII. The best known of the family. Rich, royal purple flowers from July to October. Mad. Baron Viellard. Flowers very large; light rose

with lilac shadings; very distinct.

Duchess of Edinburgh. The best of the double pure whites, deliciously scented.

Miss Bateman. White, with chocolate-red anthers. Gipsy Queen. One of the very finest of the rich purple varieties, a strong grower and free bloomer.

Henryi. The best of the white sorts. Robust and a strong grower.

Fragrant, Small Flowering Clematis.

These are strong, well-rooted plants. They weigh less and are not as large as the imported stock. We will send small plants of following, by mail, at prices quoted. Larger ones are used for express orders.

Coccinea. Entirely Bears thick, bellhardy. shaped flowers of a bright coral-red color, from June until frost. Each, 25c.; 5 for \$1.00.

Flamula. (Virgin's Bower) Vigorous grower. When trained on trellis work its pure white flowers look like a mass of snow. Each, 25c.; 5 for \$1.00.

PANICULATA. (New Sweet-scented Japan Cle-matis.) In our opinion this fine vine takes equal rank with the Boston Ivy (Ampelopsis Veitchii.) It grows amazingly fast, and bears pure white flowers in great sheets during September. It is as fragrant as a Jasmine, and hardy as an oak. Field grown plants, each, 4oc.; 3 for \$1.00.

SPECIAL OFFER:-One good strong plant of each of the above 9 Clematis for \$3.50, not prepaid.

→ HONEYSUCKLES.) ←

Well-known climbers, blooming at intervals through the summer and autumn, and retaining the foliage late in the winter. Each, 25c., not prepaid. Sweet-scented Monthly. Red and yellow. Scarlet Trumpet. Scarlet flowers.

Japan Golden Leaved. Yellowish flowers; variegated leaves, beautifully netted; very desirable. Hallianna. Introduced from Japan by Dr. Hall, and,

though comparatively unknown, is one of the best Honeysuckles grown. It is a vigorous and rampant grower and an evergreen, producing flowers of pure white, changing to yellow. Very fragrant, and covered with flowers from july till frost; holds its leaves till January. A very good bloomer.

TYPE OF LARGE FLOWERING CLEMATIS.

-AMPELOPSIS.-

VEITCHII. (BOSTON IVY.) This is *the* vine so well adapted to and freely used for training on stone walls, around porches and window frames. It clings to the smoothest surface, its overlapping leaves forming a mass of dark-green foliage. This, in autumn, assumes lovely crimson and yellow tints. Small plants, each, 15c.; 4 for 50c., postpaid. Strong, well-rooted plants, each, 25c., not prepaid.

QUINQUEFOLIA. (VIRGINIA CREEPER.) Native vine; Used to cover dead trees, una very, rapid grower sightly fences, etc. Green leaves, which take on beauti-ful tints in fall. Large plants, not prepaid, each, 25c.

DUTCHMAN'S PIPE.—(ARISTOLOCHIA SIPHO.)

A rapid grower, with large, heart-shaped leaves and brownish, sweet-scented flowers, which resemble in shape a miniature pipe. Large plants, not prepaid, each, 35c.; 3 for \$1.00.

TRUMPET CREEPER.-(BIGNONIA RADICANS.)

Will flourish under most adverse circumstances. Flowers, orange-red, trumpet-shaped. Large plants, each, 40c.; 3 for \$1.00, not prepaid.

——WISTARIA.——

They are well adapted to training on a stout wire or on walls. Very vigorous in growth. Purple flowers in long, pendant clusters. Large plants, each, 50c.

The Hardy Climbing Roses Crimson Rambler, Prairie Queen and Baltimore Belle, might be included in this list. For price and description see Rose pages.

Apple and Other Fruit Trees.

THERE is nothing so healthy as fruit—nothing so easily grown. Set out fruit trees in abundance and you will be well repaid.

Delaware. Red. Bunch and berry medium size. Each, 15c.

Martha. The oldest hardy green, turning to pale yellow when fully ripe.

Niagara. Light greenish white. Sweet to the center. Vine hardy and very productive. September.

Moore's Early. Black, with heavy blue bloom. Two weeks earlier than Concord.

Pocklington. Light golden yellow; bunches very large; sweet and juicy. Quality much superior to Concord.

Price, except noted, each, 20c.; doz., \$2.00. Our choice of sorts 15c. each; \$1.50 per doz.

EVERGREENS.

They are grown either as single specimens, or for making compact hedges around cemetery plots and other locations.

Arbor-vitae, American. 11/2 to 2 ftEach,	40C.
Juniper, Irish. For cemetery use, 2 ft	50C.
"Virginica. (Red Cedar.)	50C.
Pine, Austrian or Scotch. 2 to 3 ft	50C.
"White. Forms a tree. 11/2 to 2 ft "	50C.
Spruce, Norway. For hedges; 2 to 3 ft	50C.
" Colorado Blue. 12 to 15 inches "	75c.

ELEAGNUS LONGIPES.

A shrub from Japan, of the Olive family. It grows to the height of five feet or more; begins to fruit when two or three years old. Fruit ripens, about July 4. It is fleshy, juicy, bright red. Used the same as cranberries. Makes delicious sauce. Young plants by mail, each, 20c., 6 for \$1,00, post-paid. Strong plants, 2 feet, each 25c.; doz., \$2.50, not prepaid.

NUTS.

Set out Nut Trees instead of Nuts.

Almost every farmer now plants a few Nut Trees each season. Probably no branch of tree cultivation yields such profitable results, nuts in many cases paying better than many farm crops.

Prices named are for transplanted trees, mostly 3 to 4 feet, for shipment by express or freight. Small, one-year-old trees by mail, each, 15c., postpaid.

Butternut. Each, 30c.; doz., \$3.00.

Chestnut, American Sweet. A valuable article of Each, 25c.; doz., \$2.50. commerce.

> Filbert, English: Hardy, succeeding on almost all soils. Early and abundant 25c., doz., \$2.50. bearer.

> Hickory, Shellbark. Wood prized for mechanical use as well as fuel. Nut rich and

> meaty. 40c., doz., \$4.00. Walnut, Black. Valuable for its timber. Each, 30c.

Walnut, Japan Sieboldi. Perfectly hardy. Valuable as a nut and ornamental. Meat is sweet, flavor like butternut. Nuts produced in clusters of 15 or 20. A valuable introduction that should be extensively planted. Each, 40c.; doz., \$4.00. Mailing size, each, 20c., postpaid.

SHADE TREES.

For street trees there is nothing better than the Rock or Sugar Maple; Ash is good. For lawns, Cut-leaved Weeping Birch is one of the most beautiful. Linden, Tulip, Maple, Ash, Elm, etc., should have a place in large grounds.

Ash, White. 6 to 8 feet. Each, 50c.; doz., \$5.00.

- Early Harvest. The earliest of all. .75 Kittatinny. Berries large and de-
- RATHBUN. We can offer this fine, new fruit with utmost confidence. Though new, it has been tried in many sections and the verdict is satisfactory from every source. Fruit is enormous-45 berries have filled a quart box-is sweet, firm, with very little core. Plants grow strong and erect, drooping over and propagating themselves like a blackcap Raspberry. Each, 15c; 3 for 40c; 12 for \$1.50, postpaid.
- The Logan Berry. A hybrid of the raspberry and blackbe ry. The fruit is bright re l, in form like large blackberries, combining the flavor of both raspberry and blackberry; pleasant and vinous, not only excellent for dessert, lrt good for canning, jellies, etc. Seeds few and small, strong grower, no thorns, but the canes have soft spines like the aspberry, with similar f liage. Each-10c; doz., \$1.00, by mail, postpaid.

TOOLS AND IMPLEMENTS.

The Genuine Matthews Seed Drills, Single and Combined; Hand Cultivators and Wheel Hoes.

The Best Line of Implements for Planting and Cultivating Vegetable Crops to be found in America.

We deliver to any Depot or Express Office in Chicago at prices given here.

Matthews New Universal Drill.

THE STANDARD DRILL OF AMERICA.

It works on the agitator principle, which is certain in its action, and much preferable to any other method in dropping the seed, and besides there is nothing liable to get out of order or bind in the operation.

It opens the furrow, drops and covers the seed, rolls down the earth over it and marks the next row, all by simply pushing the drill forward. It sows with evenness and rapidity Peas, Beans, Broom Corn, Onion, Beet, Carrot, Parsnip, Sage, &c. Complete Catalogue of Matthews HandGARDEN TOOLS...... Free on Application.

It is provided with an indicator having the names of different seeds thereon. Before planting turn the indicator around until the name of the

seed to be sown comes to the pin at the top. The index is right under your eye while the hopper is easily watched. The flow of seed can be instantly shut off by means of the attachment shown on the handle.

Beware of cheap imitations of this Drill. None genuine but those having the Patent Indicator,

Price, boxed, \$6.50

MATTHEWS GARDEN GEM DRILL.

This machine operates almost identically the same as the regular Matthews Garden Drill, but is smaller pattern. It will sow with equal accuracy most seed as perfectly as the most expensive drill, but is not large enough for the coarser seed like beans, peas and corn. It is just the thing for people with a small garden where fine seeds such as turnips, onions, carrots, etc., only, are planted. It will make the furrow, drop and cover the seed and mark the next row as perfectly as any machine. It is low priced, works like a charm and does its work thoroughly and well. This drill does not have the new seed cut-off.

Price, boxed, \$5.00

MATTHEWS "HILL AND DRILL" SEEDER.

The implement is the same in style and working qualities as the Garden Drill just described, but it is arranged so as to drop the seed either continuously in drill, or at distances of 4, 6, 8, 12, 16, 24 and 48 inches apart. The adjustment from drills to hills is made by one screw. The distance apart is regulated by the number of cogs on the Driving Wheel against which the agitator strikes. The seed cannot drop except when the hole in bottom of Seed Box is opened. This saves seed, as no more can be dropped at a time than is desired, no matter what the distance may be. If this implement is wanted, be sure and order the "Hill and Drill Seeder," as the regular garden drill cannot be fitted with the attachments. **Price, boxed** $\pi7.2.$

WHEEL HOE.

Six Machines in One. PRICE, BOXED, only \$8.50

This illustration shows the Combination Implement as a Double Wheel Seeder—also the attachments. It is not only a desirable combination of the Garden Drill already described, with the New Universal Cultivating Attachments, but it has the advantage of being either a Double Wheel or Sing

advantage of being either a Double Wheel or Single Wheel implement at will, the change from the one to the o, her being readily made. The two wheels are desirable, however, when used as a cultivator or wheel hoe, as in this way the rows of young 'lants may be straddled, and the cultivating done on both sides of the row at one passing An especial feature of this implement is that when used in straddlerow cultivation there is no projection below the frame to interfere with plants. The seeding and covering attachments can be readily re, noved when the implement is used for cultivating. It is not necessary to remove the seed box, but it can be taken off if desired, and the frame let, 'without any unnecessary encumbrance. There are three adjustments for regulating depth when used as a Cultivator and five when used as a SeeA. 'F.

The combination is one which cannot fail of recommending itself to all. The attachments are: 1 pair Hoes, 5 Cultivator teeth, 1 pair Rakes, and 1 pair Plows.

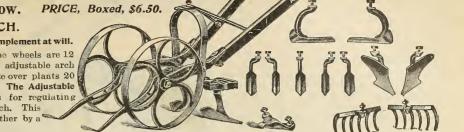

Remember, this is the only Combination Implement made that can be used either as a Seeder or as a Cultivator, with One o. Two Wheels as desired. It is a perfect combination.

TOOLS AND IMPLEMENTS.

New Universal EXPANSION Wheel Hoe, Cultivator, Rake and Plow. PRICE, Boxed, \$6.50. HIGH ARCH.

A Double or Single Wheel Implement at will.

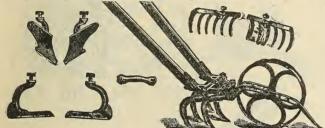

In this new implement the wheels are 12 inches in diameter and the adjustable arch is high enough to cultivate over plants 20 inches or more in height. The Adjustable Arch also affords means for regulating depth and for setting pitch. This implement can be used either by a man or a boy.

The attachments are: 1 pair long bladed hoes, 1 pair short bladed hoes, 1 pair narrow cultivators, 1 pair wide cultivators 1 center cultivator, 1 pair plows, 1 pair rakes, 1 pair vine guards, 1 center tooth holder.

New Universal Single Wheel Hoe, Cultivator, Rake and Plow. Price, boxed, with all attachments, \$4.50.

Price, boxed, with all attachments, \$4.50. This is an improvement over other tools of this type. It can be used either between or astride the rows, although it is really intended for between row cultivation. For straddle cultivation the wheel can be set to one side so as to bring the row of *young* plants und r center of frame. The adjustment for graduating the depth of cultivation is unique and readily accomplished. The attachments are: 1 pair hoes, 5 cultivator teeth, 1 pair plows, 1 pair rakes, and 1 vine or leaf guard.

New Universal No. 2 Single Wheel Hoe, Cultivator and Plow.

This implement is the same as the regular Single Wheel Hoe, except that the attachments are 1 pair hoes, 3 cultivator teeth, 1 large plow. Price, \$4.00. If this machine is wanted, be sure to mention No. 2.

ALAS

New Universal Double Wheel Hoe, Cultivator, Rake and Plow.

99

Price, boxed, \$5.25.

Specially designed for working both sides of the row at one passing. This new hand implement embraces all the good points of older efforts in the same line, and in addition offers new features which cannot fail of appreciation. The special recommendation is the *Adjustable Arch*, by which not only the *depth* of work can be gauged, bu⁺ which, by an ingenious device, enables the teeth to be pitched at any angle desired. The attachments are: 1 pair hoes, 4 cultivator teeth, 1 pair plows, 1 pair rakes, and 1 pairvine guards.

New Universal Double Wheel Hoe.

WITH ONE PAIR OF HOES ONLY. The same machine as the New Universal Double Wheel Hoe, rakes, plows, cult vator teeth and leaf guards omitted. Price, boxed, \$3.50.

MATTHEWS HAND CULTIVATOR AND WHEEL HOE.

PRICE5: Boxed, complete, \$5.00 Cultivator, only, 4.75 Wheel Hoe, only, 4.25 THIS is one of the best implements in use for weeding between row crops, and flat cultivation generally, and is an indispensable companion implement to the Seed Drill. It is thoroughly constructed, very durable, and easy to operate. It spreads from 6 to 14 inches, and will cut all the ground covered, even when spread to its greatest extent. The depth of cultivation may be accurately gauged by raising or lowering the wheel, which is quickly done. We can furnish for the Matthews Hand Cultivator, if desired, a pair of superior style hoes, with

long steel blades, for use in exchange with the cultivator teeth. which are easily and quickly adjusted, or we can furnish implement with hoe blades, and without cultivator teeth, if desired.

New Universal Hand Wheel Plow.

THIS little labor-saving implement is one that commends itself to all gardeners. It can be used to prepare the ground, to furrow out, to cover and to cultivate. The mould-board is of steel, polished and tempered. Price, boxed, \$2.00.

NEW MODEL SEED DRILL.

One of the best seeders on the market. The names of the principal seeds are plain y shown. The main wheel is of large size and unusual width, preventing its sinking into soft earth. Weight, packed, about 40 lbs. Price, boxed, **#S.00**.

New Universal Harrow Cultivator, WITH 14 TEETH.

- Start - The start - and

For close working among small plants where it is not desired to throw the dirt but simply to loosen and pulverize it. The teeth are adjustable, either side up, both straight and slanting, thus combining several implements. Price, \$7.00 f. o. b. cars, Chicago.

New Universal "Excel" Horse Hoe and Cultivator.

This last addition to these famous Tools we can recommend as strictly first-class in every way and the equal of any implement in the market. Price, \$5.50.

Planet Jr. Farm and Garden Tools.

Space will not permit illustrating and describing all of the Planet Jr. Tools, but we will gladly send a fully illustrated catalogue to any who desire it; and we can supply promptly anything ordered. Planet Jr. goods are standard machines-the best. Combine your seed and tool orders and save freight.

Planet Jr. Seed Drill No. 2.

The seed-sowing device of this machine is extremely simple. The discharge openings are diamond shape and may be regulated to suit any kind of seed or thickness of sowing. It is perfectly adjustable, will sow at any depth, in any quantity, will roll light or heavy, and in every respect works to perfection.

Hill and Drill Seeder and Cultivator Combined No. 4.

This machine sows in continuous rows, or drops with the greatest accuracy in hills, 6, 12, 24 or 36 inches apart. For use as a cultivator and drill, parts are entirely removed, leaving it a perfect wheel hoe. Price complete, \$12.00; drill only..... \$8.50

Combined Drill, Seeder, Wheel Hoe, Cultivator, Rake and Plow No. 1.

Does the same work as the No. 2 Drill, with the added advantage of being a first-class wheel hoe, cultivator and garden rake. It is without an equal in variety of tools, strength, lightness and ease of adjustment. Price \$10.50

Planet Jr. Double Wheel Hoe, Cultivator Rake and Plow No. 11.

This tool is adapted to almost every kind of work. It is invaluable for market garden crops and for fine cultivation generally. Price complete, \$9.50; price with fewer attachments..... \$7.50

Planet Jr. Double Wheel Hoe-Plain.

This is the same as the complete machine, except that it is furnished with a pair of hoes only. It is well adapted to the requirements of those who have but little work to do, and is offered at a very reasonable price...... \$4.75

Planet Jr. Single Wheel Hoe, Cultivator Rake and Plow No. 16.

This single-wheel hoe is preferred by some. They are considerably lighter than the double, but do nearly the same variety of work. This machine has hoes, cultivators, rakes and plow, and is capable of a great variety of combinations. Price...... \$6.00

Planet Jr. Single Wheel Hoe No. 17.

This machine is much the same as No. 16, with the exception that the rakes are omitted. Price \$4.75 The set of three cultivator teeth work easily and do invaluable service in deep culture when the crop is well grown.

Planet Jr. Horse Hoe No. 8.

With all attachments, expanding lever; thoroughly first class in every particular. Price \$10.00

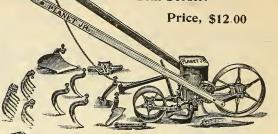

Planet Jr. 12-Toothed Harrow Cultivator and Pulverizer.

Because of adaptability for thorough, fine work in narrow rows without throwing earth on small plants, it is much valued by market gardeners and farmers. Price, plain, \$6.50; complete \$10.00

Combined Hill and Drill Seeder.

Price, \$12.00

PLANET JR. Double Wheel Hoe, Cultivator, Rake and Plow

Price, \$9.50

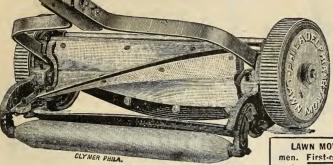

"PLANET JR." No. 17

Single Wheel Hoe, Cultivator and Plow.

Price, \$4.75

The Genuine LAWN MOWERS.

STYLE M.

HAND MOWING MACHINES.

- STYLE A. Width of cut, 15, 17, 19 and 21 inches. Four blades (all steel.) Height of driving wheel, 10 inches. Will cut high grass. The simplest of its kind.
- STYLE E. Width of cut, 15, 17, 19 and 21 inches. Has high ten-inch driving wheel, four blades, cylinder 61/2 inches. Unlike all other Mowers, the driving wheel and cylinder can be removed, leaving a solid frame.
- STYLE K. Width of cut, 14, 16, 18 and 20 inches. This Mower is made on correct principles with a single Pinion and Five blades. It does the finest kind of work and is the lightest running Mower made. For a first-class Mower it has no equal.
- STYLE T. Width of cut, 14, 16, 18 and 20 inches. Four blades, open wiper, with wrought iron riveted cylinder. The blades are BOLTED TO CYLINDER. They can be replaced at small cost; In repairing, saves the expense of a complete cylinder. It combines all the improvements of the Philadelphia, running light and doing fine work.
- STYLE M. Width of cut, 10, 12, 14, 16, 18 and 20 inches. This mower is for general purposes, very popular, and adapted for rough, uneven grounds, as well as the finest smooth lawns. This machine does excellent work, is easy to run and durable.
- STYLE C. Width of cut, 15, 16, 18 and 20 inches. This style has been mapufactured to fill the demand for a medium high lawn mower that has merit. It has all improvements with a fourblade open cylinder and 81/2 inch drive wheel. It runs lightly, does fine work and is a valuable addition to the list.

Challenge Potato Planter.

It is claimed that potatoes planted with this device sprout more quickly and uniformly than when planted in the ordinary way, as the seed is deposited in earth that has not been sun-dried and at a uniform depth. Tests made the past season by practical farmers are reported to have thoroughly proved the Planter's efficiency. All the principal parts of the implement are made of steel, it being constructed with a view to secure not only great strength but little weight. The handle is adjustable and can be raised or lowered to suit the convenience of the person using it. In planting with the implement the jaws enter the soil until the front lever strikes the ground, when the next step of the operator fores the top of the planter forward, causing the lever to open the jaws and drop the seed. BOOKS ON GARDENING AND KINDRED TOPICS.

Sent to any address prepaid on receipt of price.

N addition to the older standard works named below, especial attention is called to the fresh and valuable books included in the GARDEN CRAFT and RURAL SCIENCE series. These practical handbooks are either written or edited by Prof. L. H. Bailey, of Cornell University.

Che Garden Craft Series.

All are fully illustrated, bound in flexible cloth so they can be carried in the pocket for instant reference.

- Garden Making: A guide to daily practice in the garden, whether that garden be a city back yard or an enclosure of acres. It imparts in simple language such information as every man or woman who buys a single packet of seed or attempts to grow a single plant is in need of. Profusely illustrated. **\$1.00.**
- The Horticulturist's Rule Book: A compendium of useful knowledge for all workers in the garden, greenhouse or fruit farm. 4th edition, 312 pages. **75c.**
- The Forcing Book: A manual of the cultivation of vegetables under glass. Valuable alike to the amateur or private gardener. 266 pages, 88 illustrations.

\$1.00.

The Nursery Book: Teaches how to multiply plants by all forms of propagation. 365 pages. \$1.00.

Plant Breeding: A most interesting work for those interested in new varieties of plants. 293 pages. \$1.00.

Rural Science Series.

Books which state the underlying principles of agriculture in plain language.

- The Soil: Its Nature, Relations and Fundamental Principles of Management. By F. H. KING, of the University of Wisconsin. 303 pages, 45 illustrations. **75c.**
- The Fertility of the Land: A Summary Sketch of the Relationship of Farm-Practice to the Maintaining and Increasing of the Productivity of the Soil. By I. P. ROBERTS, Cornell University. Fully illustrated.

\$1.25.

- The Spraying of Plants: A Succinct Account of the History, Principles and the Practice of the Application of Liquids and Powders to Plants for the Purpose of Destroying Insects and Fungi. By E. G. LODEMAN. 399 pages, 92 illustrations. **\$1.00.**
- Milk and Its Products: A Treatise upon the Nature and Qualities of Dairy Milk, and the Manufacture of Butter and Cheese. By HENRY H. WING, Cornell University. 280 pages, 33 illustrations. \$1.00. Principles of Fruit Growing: \$1.25.

THE YOUNG MARKET GARDENER.

Is intended as a guide to beginners. It gives sound advice on construction of houses, pits, soils, profitable rops to grow, suggestions how to market. 119 pages. Paper. 50C.

Collections of Choice Selected Seeds.

HE seeds we send are, for the most part, put up in handsomely colored lithographed packets on which are printed full cultural directions. We put a good supply of fresh seeds into each, and guarantee every collection will give the utmost satisfaction. For people who have not time to select varieties, and for those who are unfamiliar with sorts adapted for certain purposes, these collections prove just what is wanted. These collections cannot be altered in any way.

STAR COLLECTION. 14 PKTS ... "ONLY A OUARTER"

This is the most popular collection we have ever offered in Flower Seeds. It gives the greatest satisfaction to thousands annually. We make it fner than ever this year.

It contains seeds of all flowers shown in our illustration and four additional packets of very choice varieties, Asters, Cosmos, Gypsophila and Salpiglossis. These annuals are easily grown and they blo m freely during the summer months.

Beginners in gardening will find this is a good collection to buy, as it contains the foundation of a

ennials and perennials. It will make a grand show, not only this summer, but for years to come.

Ageratum. Alyssum, sweet. Balsam, double mixed. Candytuft, Empress. Canterbury Bells. Carnation, Margaret. Castor Beans. Centaurea. Clarkia. Columbine, mixed. Cosmos. mixed. Cypress Vine, mixed. California Poppy.

Delphinium, perennial. Everlastings, mixed. Fox Glove. Forget-Me-Not. Gourds, ornamental. Gaillardia. Hollyhocks. Larkspur, mixed. Lupinos, mixed. Marigold. Morning Glory, mixed. Nasturtium, tall mixed. dwarf mixed.

Pansy, b dding sort. Petunia, good mixture. Phlox Drummondi, mixed. Pink Chinese, mixed. Poppy, finest double. Portulacca, mixed. Salpiglossis, mixed. Scabiosa, mixed. Stock, ten weeks. Sweet William. Verbena, mixed. Wallflower, mixed. Zinnia, mixed.

And 1 ounce (300 to 400 seeds) Sweet Peas included.

.....Vegetable Seed Collections.....

These Collections contain large pkts. of full size. ECLIPSE PEA. A wrinkled sort which we can highly recommend for family use. Pods short, thick and well filled

ight excellent peas. Pkt., 5c; pt., 20c; qt., 35c, gostpaid.

DIRIGO BEET. This is a first-class variety for everyone. It has good form and color, matures early and is of splendid qu lity. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 75c.

TRIUMPH RADISH. Its handsome appearance and the marked distinction of being striped red on white makes this a great novelty. Packet, 10c.

ROCKY FORD MUSK MELON. This variety under the culture of Colorado gardeners has become famed throughout the country. Flesh rich and juicy, sweet and melting, with a delicious aroma. We have the true strain of seed. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 90c.

25C. Ten packets, prepaid, for twenty-five cents. 25C.
