## PREFACE.

---

THIS atlas is intended to serve as a companion to the 'Student's History of England.' My original intention was to select such of the maps in the 'Public Schools Historical Atlas,' edited by Mr. Colbeck, as more strictly concerned English history. It soon, however, appeared that more needed to be done. In the first place many additional maps were required to make the atlas satisfactory, and in the second place many of the maps there published appeared to me to require correction. Most of the maps now given are, however, taken from that source, though they have received more or less alteration. I have especially to thank Mr. James Gairdner for recasting his map of France in 1429 (No. 17). On all matters relating to the Welsh border I have been guided by the advice of Professor Tout.

With regard to the maps borrowed with the permission of the proprietors from other sources, I have to thank the Society for the Promotion of Christian Knowledge, for 'England in 550' (No. 3), taken from Mr. Grant Allen's 'Saxon Britain;' and the Delegates of the Oxford University Press, for 'England in 1065' (No. 9), and 'The Battle of Senlac' (No. 67), taken from Professor Freeman's 'History of the Norman Conquest.' In the former some alterations have been made at the author's suggestion, and in the latter some details have been omitted as unsuitable for a school atlas. It is also by permission of the Delegates I have been able to insert 'The Battle of Poitiers' (No. 70), from Mr. E. M. Thompson's edition of 'Le Baker's Chronicle,' though I have thought it best to omit the preliminary movements of the English army as making the map unnecessarily complicated for my purpose. I have also to thank Messrs. Macmillan and Co. for leave to use 'England after the Treaty of Wedmore' (No. 7), from Green's 'History of the English People,' and 'England and France, July 1185' (No. 11), founded on a map in Miss K. Norgate's 'England under the Angevin Kings.' Two of the maps of Ireland (Nos. 21 and 24) are taken with the permission of the author from Mr. Bagwell's 'Ireland under the Tudors;' 'England and Wales, 1485-1603' (No. 20), with

a few additions, from Mr. Moberly's 'Early Tudors;' 'Central Britain, 1715-1745,' with the addition of Prince Charles Edward's route, from Morris's 'Early Hanoverians.' For the plans of the battles of the Nile (No. 82), of Copenhagen (No. 83) and Trafalgar (No. 84), and for the two maps of the battle of Waterloo (Nos. 86, 87), taken from the atlas to Alison's 'History of Europe,' I have to thank Messrs. Blackwood.

The map of India in 1804 (No. 54) is taken from one published by the British Government. It is not in the library of the British Museum, but a copy is in the possession of Mr. S. J. Owen, who brought it to my notice, and there is another copy in the library of the House of Commons, from which, by permission of Mr. R. F. D. Palgrave, clerk of the House of Commons, a reduced copy is here given. The system of colouring in the original map is, however, too complicated for school purposes, and I have therefore substituted for it the simpler colouring adopted in other maps of India in this volume. I have, however, retained the references as in the original map, for the sake of those who may not have access to the map as originally published. I have given to the British Museum library the tracing taken for me with the original colouring, so that it may be consulted there by those interested in the matter.

For the battles of Bannockburn and Agincourt (Nos. 68 and 71) I have to thank Mr. C. W. C. Oman, in whose 'Art of War in the Middle Ages' they originally appeared. The plan of the battle of Crecy has been entirely recast after consultation with Mr. Oman.

SAMUEL R. GARDINER.

*Errata.*

In the map of the Netherlands in 1702 (No. 39), the Dutch territory to the south of the Scheldt should have been marked as belonging to the *Land of the Generality*, not to the *Province of Zeeland*. The limits of the two are correctly given in the map of the Austrian Netherlands, 1792 (No. 52).
