## Mountain View Surprises Smith

P. Milton Smith says about the recent contest held at Mountain View for the selection of Portola Girl: "We got about \$150 for 'Beard of Trade' case, that couldn't have been dug out of this town with steam shovels any other way, except by that Portola contest that some of our inspired wheelers thought of just at the last minute. All this week the town has acted as though it wasn't feeling real well; seemed to have that all-gone sort of feeling. There hasn't been enough people on the street at any one time to make a mess for a hungry billy goat—presupposing that goats ever do eat each other."

## "Blind Pig" Is Ousted

East San Jose convicted C. M. Christensen, of running a "blind pig" at his home in violation of the law a couple of weeks ago. He was fined \$50.00 which would about pay his rent were he in a public place. Doubtless Mr. Christensen considers the fine little more than a license, as did Cassallegno, recently of Mayfield, and will continue to do business at the old stand. The Judge who gave him the fine was very liberal.

## The So Called Spanish Swindle

We are in receipt from the Department of State at Washington of the following communication which will be of interest to our readers who will be on the lookout for such things even if they do not hear from these people:  
To the Editor of the Campbell Interurban Press:  
Dear Sir: The Department of State, at Washington, has received a report from the American Consul-General at Barcelona, Spain, in regard to the band of swindlers operating in various towns and cities in Spain, who make a practice of writing to persons in the United States respecting the imprisonment of a relative, and the guardianship of a child.

## J. D. Irwin Again Writes

"BEHOLD I MAKE ALL THINGS NEW."

By Jared D. Irwin.  
The fearful thought of all history is that all things grow old, the brightest reflections and the most ardent hopes of all ages are after that which is new. "Behold I make all things new!" rings out the voice of God over the fading, decaying wrecks of time. Turn to the pages of history and recall the brightness and glory of ancient Greece, Rome and Egypt. Read again the stories of marvelous powers and transcendent achievements, in the epochs of their superlative renown, and contrast them with the record of the mournful tales of decadence, desolation and death. For a time they flourished in the strength and abounding vigor of life and hope, only to reach the full measure of material manhood and then enter upon the dread period of decline and now all lie buried and mouldering beneath the dust of ages. They grew old and died—ah! the sad, sad wrecks in the wake of time. The dreams of perennial youth aroused the ardor and enthusiasm of millions who have gone before but like the flowers that bloom in the glorious spring-time, they perished with the coming autumn and winter of years. The one all pervading sorrowful thought of the world's history is that things grow old. The bright, young faces we love so well, the dreams and hopes of present and coming pleasures, the ambitions and hopes of life all fade away in the glooming twilight of the approaching night.

## Mountain View's Tax Rate.

The Board of Town Trustees of Mountain View have fixed for the tax rate \$1, including the general fund tax, the sewer bond tax and the water bond tax. This added to the State and county tax of \$1.20 makes the total rate of \$2.20. It looks as if it were a good thing to incorporate as we have to pay a tax now of \$1.83 without our own government, sewers or water system.

## Epworth League Entertainment

Tonight (Friday evening) the Epworth League will give a social and entertainment. They have gotten out some attractive posters announcing the fact which state that you will be strictly out of it if you don't attend. So get out your old witch suits and make yourself look as foolish as possible, some don't need to fix up at all, and get busy for a good time. If you don't have a good time you will be a great stick-in-the-mud.

## Fresno Is Going Dry Soon

Last week the trustees of Fresno passed to print an ordinance abolishing the saloons in Fresno by December 1st. Fresno went dry by a referendum vote last April but the ordinance passed at that time was declared invalid by the courts. The trustees have taken the vote as an expression of public will and took the first steps this week to carry it out.

## Editor Roth Wedded

And still another of our editors has left the band of single men and entered into the bonds of matrimony. Henry R. Roth is proprietor of the Santa Clara News, one of the two progressive papers of that town, and he is the guilty party. He was married last week to Miss Mae Modlum of San Jose, the ceremony taking place in Santa Cruz. Here's to the both of you, may you live and prosper, better even than most married editors do.

## Widow Entertains

Tonight (Friday) the Los Gatos Board of Trade will give a banquet to the San Jose Chamber of Commerce, which will be quite an extensive affair. Eighty boosters from San Jose will be there, ten from Gilroy, Palo Alto, Mountain View, etc. (though we have not heard that any are from Campbell) and sixty from Los Gatos. In all 150 plates will be laid, and the affair is to take place at the Lyndon Hotel.

## Mayfield Sells Sewer Bonds

The Mayfield Board of Town Trustees sold the sewer bonds last week to the James H. Adams & Company of San Francisco. The bonds were sold at par with accrued interest to the date of delivery and a premium of \$150 and the cost of printing the bonds, making in all a premium of approximately \$1800. This is the small incorporated town going ahead in the matter of sewers.

## Mayfield Sells Sewer Bonds

The Mayfield Board of Town Trustees sold the sewer bonds last week to the James H. Adams & Company of San Francisco. The bonds were sold at par with accrued interest to the date of delivery and a premium of \$150 and the cost of printing the bonds, making in all a premium of approximately \$1800. This is the small incorporated town going ahead in the matter of sewers.

## Destructive Insects

The losses resulting from the depredations of insects on all plant products of the soil, both in their growing and in their stored state, together with those on livestock, exceed the entire expenditures of the National Government, including the pension roll and the maintenance of the army and navy. Enormous as is the total value of farm products in this country, it would be very much greater were it not for the work of these destructive insects.

## Prosperity Strikes An Editor

No, not the editor of this paper, yet, thank you. It is entirely another person. The Palo Alto Tribune has gone out of the hand-set class and has purchased a brand new Mergenthaler linotype, and now will set its paper entirely by machinery. It takes a pile of money to get one of those things, but they are worth it and more than worth it to most publications. Keep it up brother, the next thing to get is a rotary press.

## Board of Trade Entertains

Tonight (Friday) the Los Gatos Board of Trade will give a banquet to the San Jose Chamber of Commerce, which will be quite an extensive affair. Eighty boosters from San Jose will be there, ten from Gilroy, Palo Alto, Mountain View, etc. (though we have not heard that any are from Campbell) and sixty from Los Gatos. In all 150 plates will be laid, and the affair is to take place at the Lyndon Hotel.

## New Methodist Minister

Rev. G. A. Reeder, who was so recently appointed to the Methodist Church here in town, and who has just recovered from an operation for appendicitis, has accepted a call from the Army and Navy Y. M. C. A. to be National Secretary with his headquarters in New York City. Mr. Reeder was asked several times to take this position but he always felt that he was meant to be a minister. Still, as the call was repeated so many times he finally accepted. Rev. Mr. Bolster, of Santa Cruz, has been appointed to fill the vacancy, and preached his first sermon last Sunday morning. Mr. Bolster is a strong speaker and is not afraid to say something in the pulpit because it will "hit somebody."

## Notice of Stockholders' Annual Meeting

Notice is hereby given of the Annual Meeting of the stockholders of the Campbell Water Company, a corporation, to be held in this company's office, in Campbell, Santa Clara County, California on Tuesday, November 9th, 1909, at 2 o'clock p. m., for the purpose of hearing the reports of the officers, electing a board of directors to serve for the ensuing year, and to transact any other business that may properly come before that meeting.

--	--	--

Charles Greene and wife of Los Gatos were among the Portola visitors Friday and Saturday.

The above is generally the first letter of the series. It is quickly followed by another in which the prisoner pathetically states that his strength is rapidly falling and the end is near. He beseeches his dear distant relative to assume the trust and be a loving father to the darling daughter. The third letter is from the good priest himself, who in brief, touching terms, and hopelessly bad English, announces the death of the unhappy prisoner; the good priest adds that the darling daughter is under his care. He is ready to put his promise into execution and start for the United States as soon as he shall have received the necessary funds from the distant relative. The good priest frequently incloses with his letter a bogus newspaper clipping announcing the death in prison at Barcelona of the famous Cuban parrot (sometimes called Augustin Lafiente); the newspaper notice also speaks cunningly of the confiscated valise and the darling daughter.

It is a simple scheme, but presented in such a plausible way that almost any unsuspecting "distant relative" of European extraction would be more or less deceived by the glad prospect of falling heir to the agreeable custody of a darling daughter with a big fortune, and a one-fourth interest therein as an additional recompense.

Naturally the first impulse of the distant relative is to ask a lawyer or a judge or some authority what course he ought to pursue in the premises, but as he thinks of doing this his attention is taken by the warning in the prisoner's letter beseeching him not to mention the matter to any living soul lest the secret of the valise and the hidden receptacle be indiscreetly betrayed. The valise, after all, with its concealed certificate of deposit, is the key to the situation and possession must be taken of it before anything can be done or said. This (so cunningly set forth by the prisoner) is very evident to the distant relative, and so he quite frequently preserves the secret intact, and instead of consulting a lawyer or writing to the American Consul-General at Barcelona he quietly sends a draft for the sum demanded to the good priest and awaits results. Of course he waits in vain, and the poor, dead prisoner and the good priest and the darling daughter in the course of time pass out of his life forever, leaving him only an unconscious (Continued on last page)

Written on the escutcheon of every nation, written over the portals of every dwelling, written on the leaves of every tree, written on the flowers of every plant, written on the phantasm of every dream, and written on the silver lining of every earthly affection and hope are the dreadful words of Decline, Decline, Death.  
Then if death is written on everything what means this mighty voice that sings in our ears today? "Behold I make all things new." It must refer to another nation, to another kingdom than those of time; for they all "grow old, perish and are forgotten. It must refer to other philosophies, theories and dreams of antediluvian happiness than these that have part and place in the heart and yearnings of men, for all these disappear in the darkness of advancing years. It must refer not to the flowers that bloom in our gardens or the hopes that blossom in our hearts, or to the ambitions that stir our souls, for these all wither and die. "Behold I make all things new." It is a new kingdom unlike that of Greece, Rome, Egypt, or any of modern times in that it never grows old, is ever new, its glory never departs, its fame never diminishes, its grandeur never dims, its life never ends. The flowers that bloom in its gardens are immortal, the leaves on its trees never fade, the hopes and expectations of its citizens are ever satisfied, and all signs of decadence and death are unknown, the streams that flow through its boundless domain are ever singing a joyous song, and the refrain of their song never grows old. The trees are gracefully bowing and in the gentle rustling of their leaves you hear the murmuring voices saying, "Never, never grow old," and the birds of Paradise catch up the strain and sing, "Never, never grow old," and the angels and redeemed ones join in the chorus and voices fill the universe, "Never, never grow old." "Behold I make all things new, ever and ever new, forever and forever new."

## Coming In and Going Out

The local High School boys beat the Morgan Hill boys Saturday afternoon in a game of ball, the score being 9 to 3. The local boys had but half their team there and made some bad breaks. They were too much for the Morgan Hill lads, however, and had things pretty much their own way. The visitors got enough in seven innings. The town team was beaten last Sunday by the S. J. Williams' team by the score of 4 to 2. It was a good game, but the local boys couldn't land them.  
E. W. Preston has returned to his mail route.  
A new time card on the S. P. went into effect last Sunday.  
Mr. and Mrs. Zander of Modesto, and Mrs. Charles Sperry of San Francisco visited the J. A. Greene family Sunday. Mr. Zander is an ex-Mayor of Modesto and says his city is fast building up, and predicts for her a great future.

THE CAMPBELL ROCHDALE COMPANY

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Compensious Array.

Passing Events Among Your Neighbors Briefly Told in Short, Newsy Paragraphs.

Palo Alto.—The contract for the new armory for the National Guard of this city has been awarded. The total cost is to be \$9,400.

Fresno.—The Industrial Bank of Fresno, another Japanese institution, has been closed by Superintendent of Banks Alden Anderson. Deficiency in the cash reserves and lack of securities for loans made is the cause.

Fair Oaks.—The Fair Oaks colony, in Sacramento county, shipped east last week the first carload of ripe oranges of the present season. The shipment is nearly two months in advance of the average annual first shipment.

Portland, Or.—Oghuro, the Japanese who has for several months remained in a deep sleep in one of the hospitals in this city, the other day showed momentary signs of regaining consciousness. The patient, without warning, rolled his eye and raised himself in bed. In a short time, however, he relapsed into a comatose condition.

Seattle.—Fire that destroyed the Denver Hotel, an old two-story frame building in Ballard, the northern suburb of Seattle, yesterday caused the death of Edward Burch, who had just returned from Alaska. Burch, who was thirty-five years old, escaped from the building, but went back to get a bag containing thirty-two ounces of gold dust which he had just brought from Nome, and perished.

Oakland.—The ability to properly pronounce the word "Portola" secured the dismissal of Henry Burke in the Oakland Police Court yesterday. He was charged with drunkenness, but urged that he had been celebrating the festival. As he pronounced the word "Portola" he came out strong on the last syllable and Judge Smith, saying any one who was well able to solve the vexed question of pronunciation was entitled to his discharge, ordered his release.

Sacramento.—Gov. Gillett stated last week that he will positively not announce his decision on the question of whether or not he will be a candidate to succeed himself next spring. "I have made that my decision and will keep it," said Gillett when pressed for an answer. "Next spring will be time enough, and not until then will I commit myself." So far, Secretary of State Curry is the only one who is mentioned for the Republican gubernatorial nomination.

Oakland.—The city council passed at a special meeting the ordinance calling the bond election for Monday, November 15. The total amount of the issue, as stated in the ordinance, is to be \$3,733,000, of which \$1,150,000 will be used in building a city hall and hall of justice, and acquiring additional land west of the present site; \$2,503,000 in constructing harbor improvements, and \$80,000 in erecting a building for the fire alarm and police telegraph system.

Sacramento.—The circulation of postal cards by enemies of the banks to the depositors brought about the mysterious and sudden crash that closed the doors of the Sacramento Japanese bank and the Nippon bank of Sacramento in the last few days. The postcards coming from an unknown source notified depositors that the banks were in bad shape and that they had better close their accounts at once. The result was that there was a great rush of depositors, and the reserve funds of the institution were depleted.

Marysville.—The only member of the government's geological survey party near Gridley that wears a hat is a white mule. All the human members of the party went bareheaded throughout the summer, and are still bareheaded, regardless of the weather. Their mule wore a straw hat during the summer. The men wear eye shades of the ordinary office sort when working in the sun. Luxuriant crops of hair and freedom from the common cold in the head seem to recompense them for any discomfort.

FOREIGN CATTLE AND HIDES AGAIN ADMITTED TO STATES

Secretary Wilson Finds They Are Free From Dangerous Diseases.

Washington.—Secretary Wilson notified the treasury department that Great Britain, Ireland and the Channel islands and North America, including Mexico, are so far free from contagious or infectious diseases of animals that cattle therefrom may be imported without danger to livestock in the United States, and that hides of meat cattle may be imported from all parts of the world under proper sanitary regulations. The department accordingly suspended the prohibition in the new tariff law against meat cattle and their hides, providing, however, for the necessary sanitary regulations of the secretary of agriculture as to the cattle and the treasury department as to the hides. Certificates of disinfection signed by the American consul for the district from which the hides are shipped will be required upon the entry of all except hard sun dried and arsenic cured hides from Europe, Africa, Asia and South America.

Growth of Christian Church.

Pittsburg.—The international centennial and convention of the Disciples of Christ (Christian Church) was held here last week. Forty times more delegates attended this convention than the one held in this city eighteen years ago. In a century the Christian church has obtained 1,300,000 communicants, 11,714 churches, 8,762 Bible schools and 6,661 ministers. The total church valuation is \$29,742,244.

Complete Big Endowment.

Detroit.—A \$25,000 endowment fund was completed last week by the Woman's national missionary association of the Universalist church. Nearly 10 years has been spent in accumulating this fund. Exclusive of the endowment fund, the income from which is to be used for the general work of the society, the treasurer's report showed \$4,047 cash on hand.

Plan to Fortify Panama Canal.

Washington.—The important work of constructing fortifications for the entrances to the Panama canal will be given careful consideration by a joint army and navy board during the coming winter. This board will visit the isthmus and go over the entire ground, investigating conditions so that congress may be prepared to act intelligently.

Sacramento Has 70,000 Population.

Sacramento.—Agents of the directory company which is to issue a new city directory about December 1st, report that they are finding about a 20 per cent increase in the population of Sacramento and vicinity. Enough names have been secured to warrant the belief that the population of this city and the suburbs is now close to 70,000.

Six Japanese Banks Closed.

San Francisco.—Bank Superintendent Alden Anderson closed the Nippon bank at Sacramento last week. This is the sixth Japanese institution that has had to close its doors because of failure to comply with the new California banking law. According to Anderson, all these banks have been loaning money on unsecured notes.

Fatal Riot at Polish Wedding.

Chicago.—One man was shot and killed, another received a gunshot wound, two policemen, one of whom probably will die, were beaten with bottles, and half a dozen others were less seriously injured in a fight following the close of a Polish wedding celebration of West Hammond.

Wants Longer Baseball Season.

Chicago.—President Murphy of the Cubs has put himself on record as favoring a longer season of baseball. The present season of 154 games begins April 15th and ends the first week in October, while the players are under contract from April 15th to October 15th.

Died of Heart Failure.

Louisville, Ky.—Mrs. Henrietta Morgan Duke, wife of General Basil W. Duke, known in history as "Morgan's Right Hand Man," was found dead in bed at the Duke residence here. Heart failure is thought to have caused death.

Monument to Terry's Rangers.

Houston, Tex.—The feature of the session of the United Daughters of the Confederacy was the unveiling of the monument to Terry's Rangers.

Whole State Reaps Profit From Portola Festival

San Francisco.—The Portola festival of last week gave the whole world a display of the "get-together" spirit that made possible the complete rehabilitation of a city that only three years ago was a mass of smoking ruins. The massiveness of the undertaking and the dash with which everyone joined in making it the spectacular success it turned out to be has focused the eyes of all nations upon San Francisco—the commercial gateway of the Pacific Coast—and California.

San Francisco, it was generally conceded, never stood more united on any public undertaking than they did in hailing the five-day reign of Don Gaspar de Portola and Queen Virgilia. The advent of the doughty captain of Spanish dragoons helped so much in restoring the assertive optimism of San Francisco, in fact, that the suggestion made by Chairman P. T. Clay of the Portola Committee that the festival be an annual celebration met with universal support and encouragement.

San Francisco proved by the Portola festival that it is temperamentally and otherwise better qualified to hold a big festa annually that will attract the attention of the world than any other city on the American continent. Visitors from the East and from abroad were unanimous in conceding this before their departure, pointing out that the carnival outlasted the Mardi Gras at New Orleans and every

other fiesta of similar character that has so far been held in the United States.

Chairman Clay estimated that the festival cost \$120,000. Considering the vast amount of good it brought to San Francisco, the sum seems unnotably small.

Figuring material results alone, the celebration festival put at least \$5,000,000 in circulation during the five days of its progress.

This estimate is probably altogether too conservative, and there is sufficient material, for many, to elevate the figures to at least \$8,000,000.

The \$5,000,000 estimate is made on the basis that there were at least 1,000,000 persons collected in San Francisco before the closing day of the festival, and that they spent per capita at least \$5.

Robert A. Roos, a member of the executive committee, said that the bankers of San Francisco were taking special interest in this phase of the festival and that some of them were making off-hand estimates that the final figures would be much larger than \$5,000,000.

Thousands of people came from eastern points to witness the carnival. Before returning home many of them will visit other sections of the state. When they see the variety and magnitude of California's resources the reports they will carry away certainly will result in an influx of homeseekers and an increased demand for the products of the Golden State.

Law Against Betting is Upheld by Appellate Court

San Francisco.—The Otis-Walker bill prohibiting bookmaking, passed at the last session of the State Legislature, was declared constitutional Monday by the unanimous vote of the Appellate Court for this district, in the matter of Frank O'Shea, the dog fancier, who was arrested for engaging in pool selling and bookmaking on a coursing match held at Ingleside Coursing Park, July 5th of this year. Presiding Justice Cooper wrote the opinion.

Despite the adverse decision in the case, the New California Jockey Club is making preparations for a six-days' racing meet to start at Emeryville November 20th. Percy W. Treat, the secretary of the association, in the absence of President Williams, declared that they intended to conduct their races within the law and that the decision rendered by the Appellate Court did not affect their plans.

Judge Cook states that as soon as his client is taken into custody he will file another writ of habeas corpus

with the clerk of the Supreme Court, with a view of further testing the present law. Cook is of the opinion that the writ decided by the Appellate Court will not affect racing at Emeryville. He declares that so long as betting is done between two persons while a third person holds the stake and the stakeholder does not ask for a consideration or a commission, the law is not violated.

The racing game is not alone interested, as the Walker-Otis law reaches out for no particular branch of sport where there is wagering, but seeks to prevent betting on prize-fights, coursing matches or wherever a bet is recorded on the result of any trial of endurance or skill.

The racing game is not alone interested, as the Walker-Otis law reaches out for no particular branch of sport where there is wagering, but seeks to prevent betting on prize-fights, coursing matches or wherever a bet is recorded on the result of any trial of endurance or skill.

Foes of Dread White Plague See Victory in Sight

Washington.—The great fight against tuberculosis is being won, according to Chief Statistician Cressley L. Wilbur of the division of statistics, United States census bureau. In a bulletin issued a few days ago, based upon the annual returns of deaths from the death registration area of the United States, he says:

"It is probable that the great attention that has been given to this disease through the international congress on tuberculosis held at Washington in 1908 and the organization of many state and local societies has already begun to have its effect upon the mortality from that disease and a continued decline in the death rate from it from year to year may be expected. A disease of increasing importance, according to the returns, is

pellagra, from which 23 deaths were returned in 1908, but as most of the deaths from this occur in the south, from which no records are received, this figure does not represent the mortality from this disease. The total number of deaths from all forms of tuberculosis returned in 1908 was 72,189, exceeding those of any previous year of registration, but the death rate per 100,000 for 1908 is considerably less than that for 1907. In all registration states the deaths from tuberculosis showed a decline except in Colorado, Rhode Island and Vermont."

Montreal.—With imposing military ceremonies the Royal Edward institution, from which the fight against the white plague in Montreal will in future be conducted, was formally opened last week.

Ito's Life Pays for Japan's Subjugation of Korea

Tokio.—Prince Ito, the famous Japanese statesman, has been assassinated by a Korean at Harbin.

The assassination of Prince Ito naturally calls to mind the murder of Durhan White Stevens, the American adviser to the Japanese government, who was shot down by a Korean at the ferry building in San Francisco. The bullet that sent Stevens to his death was prompted by the same inspiration that brought Ito's career to a tragic end. Stevens had approved the absorption of Korea by Japan. Ito had carried it out. The Korean, though docile in appearance under the Japanese authority, has never been reconciled to it.

Acting under orders from the Emperor of Japan, Ito set about "rearranging" the affairs of Korea. His first step was to dethrone the rebellious emperor of Korea, and to substitute a weakling son, who acted as directed, in his stead. Then he drafted a system of laws that took all power of control from Korea itself and passed the authority to Tokyo. Rioting and rebellion broke forth throughout Korea. The backbone of the rebellion was easily broken, but intermittent strife continued. The murder of Stevens came as a shock to the world. Now it has been followed by the assassination of Ito.

ALLEGED LAND GRABBER WILL ESCAPE NEW TRIAL

Attorney-General Believes Partner of Benson Cannot be Convicted.

Washington.—The attorney general, after a careful consideration of all papers submitted in the matter of the prosecution of Dr. E. B. Perrin, who was convicted jointly with John A. Benson of conspiracy to defraud the United States in connection with certain land entries in California, but whose conviction was reversed by the court of appeals in the ninth circuit and a new trial ordered, has instructed the United States attorney at San Francisco to enter a noli pros. against Dr. Perrin. The attorney general is satisfied that no conviction could be had on a new trial, and he strongly inclines to the opinion that Dr. Perrin was innocent of the charges which were the basis of the indictment and that he has suffered largely by reason of his association with John A. Benson. Benson's conviction was affirmed by the court of appeals and he is now serving his sentence of one year in the county jail.

Automobiles Replace Carriages.

Washington.—Automobiles have displaced carriages to such an extent that carriage builders are obliged to retire from business or devote their attention to the construction of automobile bodies. In effect, this was the statement made by Maurice Connolly of Dubuque, Iowa, president of the Carriage Builders' National Association of the United States, which held its thirty-fifth annual meeting here last week.

Taft Entertained by "Business" Men.

Memphis, Tenn.—Not a silk hat or a frock coat was worn by the committee of business men who greeted President Taft on his arrival here on October 27th. The ban was placed on this form of dress on the ground that the President's visit was one purely of commercial significance and he was to be entertained by business men in a businesslike way.

Coal Shortage Expected.

Tacoma, Wash.—The Puget sound coal dealers are making every effort to stock up on coal because a cold or long winter would result in an immense coal shortage. The recent explosion at the Roslyn mines has greatly crippled the largest mine in the State. An important mine at Nantiamo had its output greatly lessened from the same cause.

Two Drowned at Port Townsend.

Port Townsend.—C. L. Cudahy and James Smith, employes of a steel company, were drowned by the capsizing of a sailboat in which they were crossing Port Townsend bay. A launch passed Smith at his request to rescue Cudahy, who sank before he could be reached. When the launch put back for Smith he had disappeared.

Seventy Men Make Revolution.

Guayaquil, Ecuador.—The rebel force under General Terran, which was dispersed by government troops near Ambato a few days ago, was composed of seventy men. The prisoners taken include Terran's staff. The government also captured a quantity of arms and papers, showing the revolutionary plan. All is quiet here.

Leaves Fortune to Hospitals.

New York.—The Presbyterian and the Hahnemann hospitals of this city will each be about \$900,000 richer by the terms of the will of Mitchell Valentine, a money lender of West Chester village, who died at the age of 85 years, leaving an estate conservatively estimated at \$2,000,000.

Woman Drawn on Jury.

Los Angeles.—Mrs. Johanna Engleman of Santa Monica had the unique experience of being drawn on a jury in the Superior Court a few days ago, and doubtless would have served but for the fact that the case in which she was to sit was compromised at the last minute.

Ex-Ambassador Arrested for Speeding.

New York.—Lloyd Griscom, formerly American Ambassador to Italy, was arrested in this city and charged with running his automobile at excessive speed. He was held in \$100 bail, for which he gave a diamond ring, which he was wearing.

Bomb Thrown in Church.

Lisbon, Portugal.—A bomb was exploded in front of the church of St. Louis recently. The windows in residences adjacent were shattered.

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give Busy Readers Review of Week's Happenings.

Summary of News Gathered by Correspondents Located in Every Quarter of the Globe.

Koenigsburg, Germany.—It is officially confirmed that two persons died of cholera last week in the district of Niedoring, East Prussia.

Turin.—Caesar Lombroso, the noted Italian criminologist and alienist, is dead. Professor Lombroso was widely known for his studies in criminology.

Manila.—The handsome new building of the Young Men's Christian Association, erected at an expense of \$125,000, was opened last week. The principal address was made by former Vice-President Fairbanks.

St. Petersburg.—The Svet, a semi-official organ, states that negotiations between Russia and the United States, looking to an arrangement through which American Jews may be permitted an unhampered entrance into Russia, are under way.

Philadelphia.—So great has been the demand for new Lincoln pennies that nothing else has been coined at the mint in this city since the end of June. The coinage of the copper coins in the three and a half months has reached the total of 70,000,000 pennies.

Helsingfors, Finland.—Large numbers of Cossacks are here as the advance guard of the force dispatched by the Russian Government to Finland as a preventive measure against any movement on the part of the Finns to oppose Russia's action in enforcing her demands for a \$4,000,000 contribution for national defense.

Washington.—Using a roll of bills as a weapon, Charles C. Clover, president of the Riggs National Bank, is charged with having attacked a depositor who called at the bank. The depositor, Emilio Jasselli, brought suit for damages against Mr. Glover, asking \$10,000 for bodily and mental pain he suffered. The cause of the trouble has not been made public.

New Orleans.—Victor Lambardi, with 100 Italian grand opera artists recruited at Milan, sailed from here last week for Port Barrios and will make a tour of Guatemala, extending into January. The Guatemalan Government is paying the bill. President Estrada Cabrera has arranged for a subsidy of \$20,000 gold to begin the tour, and wealthy residents of the republic have promised to supplement the fund.

Washington.—The United States Army transport Sheridan made splendid records for wireless communication on her recent trip from San Francisco to the Philippines and return via Nagasaki. This ship, according to a report to the Quartermaster-General's department, received and transmitted wireless messages 3500 miles from North Head, Wash., while she was between Guam and Honolulu on her return.

Honolulu.—Governor Frear has issued a proclamation calling a special session of the Legislature, to convene on November 2d, for the purpose of considering amendments to the organic act of Hawaii. The proposed changes in the constitution include amendments increasing the pay of the legislators and raising the salaries of the officials of the territory. There are also proposed amendments to the land laws, designed to encourage homesteading.

Washington.—Reports of curious phenomena in a crater lake on Bogoslof island, Behring sea, have been confirmed in a report received by the Treasury Department from Captain V. E. Jacobs, commanding the Behring sea revenue cutter fleet. Jacobs reports the existence of boiling steam jets in the lake, while at only one place around the island could soundings be found. The observations tend to show that the lake is the crater of a submerged volcano.

London.—The business exhibition now running at Great Olympia Hall in London is probably the finest testimonial ever put forward to the supremacy of America in the office appliance and business field. Nearly every American firm represented in this show can assert that it is a pioneer in its particular line in the English market, with the exception of some of the typewriter companies. Besides that, nearly every one of these pioneers can point to one or more imitators, British or German.

Volume 15 Number 16

The Portola celebration has passed and must be classed as a thing of the bygone days. The San Francisco people are bound to keep it up, however, and have made the festival a permanent affair.

President Taft turned down his glass at a recent banquet, but whether it was a matter of confidence or policy, we have not been able to find out.

Some people are too slow to catch a cold.

Taft's voice has given out with so much talking. It shows how much the man has to work, when taking a pleasure trip. Problem—If it makes Taft hoarse explaining himself to the American people, what sort of an intricate machine is he.

It is nearly time for Mr. Kennedy to come down from the water wagon for the winter. No, fear, ladies, he is a prohibitionist.

Mrs. Emmeline Pankhurst, the English suffragette, has arrived to tour the country. She has expressed herself as favorable to the hammer and tongs method of getting "her rights" and wants to settle this method in our country. Well, it will do a lot of good, we don't think. If a woman wants to see herself vote she don't want to think she can go around the country insulting lawmakers and refusing to obey the law. If that is the way they intend to exercise their "rights," God save the country when they get the said "rights."

They say that Limburger cheese will cure cancer. Well, it's strong enough to cure most anything. We're glad to know it, 'cause we'll never have cancer.

Then they want a Central Bank. Oh, well, go to it. We'll never have any money to put in it anyhow.

**The So Called Spanish Swindle**

fortable memory of the money he so cheerfully contributed to the confidence game.

For nearly twenty years these same knaves have been practicing their swindle, and it is needless to suggest that they are very carefully organized; they have confederates not only in the United States but in most other countries. The confederates in question select a man and find out all they can about him; they get hold of family names, family origin, and family characteristics. This information is transmitted to the rascals in Spain, and letters are at once written to the prospective victim. The scheme is presented and developed in a very plausible way and many of our fellow-countrymen have "bitten" promptly and cheerfully.

Under the Spanish laws a felony must be consummated before the police may act, and a mere attempt to obtain money by false pretenses does not appear to warrant arrest. The money must be actually paid over and the prosecuting witness must be present in propria persona to testify; otherwise prosecution would be useless.

Recently the letters written to the distant relative have varied somewhat from the original; the political prisoner having become a noted Russian banker who absconded, leaving a deficit of some millions of roubles, killed in a quarrel in England another Russian, and finally took refuge in Spain, where he was apprehended and charged with manslaughter.

This change of character, however, is immaterial, and in the future more new characters will probably be introduced by the gang. The scheme is the same, and the public is warned to place no credence in such or similar letters.

Every effort has been made by the Department of State and its representatives in Spain to unmask these scoundrels and bring them to justice and the Spanish authorities have also been active and several members of the gang have been apprehended and held for trial, but so far no convictions have resulted, owing probably to the peculiarity of the Spanish law referred to in the report of the Consul-General at Barcelona.

**Hold Echo Convention**

The Woman's Christian Temperance Union entertained the teachers entertained the teachers of the Grammar and High Schools Wednesday afternoon at the home of Dr. and Mrs. Cooper. A very enjoyable program was given, consisting of music, reports from State and National Conventions and short speeches by several of the teachers present. At the close of the program light refreshments were served and a social time enjoyed.

**Successful Auto Road Race**

Saturday the Portola auto road race was run on the Oakland side of the bay from Oakland to San Leandro and bay from Oakland to San Leandro and cessful affair, as two people were mortally injured. It was a little too tame for some, however.

**Congregational Church**

Morning theme for Sunday Oct. 31 is "Attaining Our Purpose." In the evening 2:30 fourteen of the Endeavorers will give the "Story of David and Johnathan. Rally Day exercises at S. S. hour. General thought, "Voyage of life." Illustrated talk on "The Chart, the Compass the Dangers, the Pilot, the Anchor and the Lighthouse." All are most cordially invited.

**TAXES 1909**

OFFICE OF THE TAX COLLECTOR, County of Santa Clara, Cal. San Jose, October 5, 1909.

Notice is hereby given that the taxes for the year 1909 will become due and payable OCTOBER 11.

FIRST INSTALLMENT—Taxes on all personal property, a lien on or secured by land, all special taxes and one-half of the taxes on all real property are delinquent on NOVEMBER 29, 1909, at 6 O'CLOCK P. M. when 15 per cent will be added to all said first installment remaining unpaid.

SECOND INSTALLMENT—The remaining one-half of taxes on all real property will be due and payable JANUARY 3, 1910, and delinquent APRIL 25, 1910, when 5 per cent will be added to all taxes remaining unpaid. Taxpayers may, if they desire to do so, pay the whole tax at one payment.

For the purpose of receiving taxes I will be in the several Townships of the County as follows:

**CAMPBELL DISTRICT**

At the Bank of Campbell, in the town of Campbell, on Wednesday, October 20, 1909.

And at my office in the Court House of San Jose daily, Sundays and legal holidays excepted, from nine a. m. to 5 p. m. to and including Monday, NOVEMBER 29, 1909, and MONDAY, APRIL 25, 1910 at 6 O'CLOCK P. M.

The Second Installment of Taxes Is Payable at My Office in the Court House in San Jose.

WM. A. JANUARY  
Tax Collector of Santa Clara County.

**CAMPBELL (THE ORCHARD CITY)**

Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most fruitful, diversified and scenic section of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the valley, Los Gatos, the Gem City of the foothills, Congress Springs, the medicinal virtue of which waters is unexcelled; Saratoga another beautiful foothill city, and as you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills of the evergreen Santa Cruz Mountains, you can but exclaim: "This is a goodly heritage!" SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range to the east, a majestic amphitheater is formed, the beauty of which can not be exceeded anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around. FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and the sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

EDUCATIONAL ADVANTAGES  
Campbell has a population of about 600. It maintains a (third class) postoffice which distributes to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational, a first-class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University, with its marvelous architecture, is only 20 miles away.

NO SALOONS  
Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

BUSINESS INTERESTS  
Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The Bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

FRUIT CENTER  
Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income or annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his products as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

INTERURBAN CONDITIONS  
Campbell is neither urban nor suburban, but in fact, as well as in name, an Orchard City—a city of orchard homes, with all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE  
Acres can be secured at various prices. Bare land, suitable for chicken ranch, hay, grain or vineyard, can be secured for \$100 per acre. Productive orchards sell for from \$200 to \$500 per acre, depending on the record of the orchard for productiveness.

In buying an orchard here you do not buy a "pig in a poke"—facts and figures will be given you, showing what returns can reasonably be expected from your investment.  
For literature and particulars, address  
E. R. KENNEDY  
Sec. Campbell Improvement Club.
