

Our Tea Trade

Gets bigger and bigger.
Why does it grow?
Because the Teas that we handle are quite a bit better for the money than most stores handle.
Why are they better?
Because we devote more than ordinary care to choosing them.
Because we insist upon each lot we buy being the very best obtainable.
Because we are able to sell at 25c a Tea that equals the 40c grades of many stores.
Because all the way up and down our Tea line we offer superior qualities.
If these reasons look good to you PROFIT BY THEM.

DEATH OF AGED CITIZEN

Postmaster D. H. Coates Suddenly Taken Away While at His Post of Duty

Campbell has lost one of its best and most highly respected citizens, Daniel H. Coates, who dropped dead while at his post of duty last Monday morning a few minutes past 8 o'clock. He had been in charge of the local postoffice for the last five years, and was spoken of as the Dean of the Postmasters of the Coast, being probably the oldest. The end came silently and swiftly while he was reading a newspaper aloud to the office force and after he had put in a busy half hour sorting the morning paper mail. Mr. Coates had leaned up against the wall to read and suddenly the employees of the office heard his voice die away to a murmur. The life left the body and it noiselessly slipped to the floor. Dr. C. N. Cooper was summoned and pronounced the aged man dead from heart failure.

Postmaster Coates, known to everyone in the vicinity and in the county G. A. R. circles as "Uncle Dan" Coates, arrived at the office that morning before 7:30 o'clock hale and happy, remarking that he never had felt better. He had arisen at 5 o'clock as usual and had put in a strenuous morning at work about his home before going to the office. There he sorted the paper mail, for the first time in years, without his spectacles, joked with the rural carriers and read aloud to them, while they worked, a newspaper article on the Parcels Post and Postal Savings Bank measures. Without a voluntary motion or a sound, he sank to the floor and sat leaning against the wall, dead. The office employees rushed to his assistance and summoned the local physician, but his ministrations were not needed. The Coroner was notified and decided that no inquest would be necessary.

Daniel H. Coates came to this city 24 years ago. He was a native of Livingston County, New York, and had attained the ripe old age of 82. He was, in fact, looking forward to a celebration of his 83d birthday in June. After a residence elsewhere of three years he was appointed Postmaster by President Roosevelt and took office on August 22, 1905. He was a veteran of the Civil War and a prominent member of O. E. C. Ord Post G. A. R., of Los Gatos. For two terms he served as Commander of the North Central California Veterans' Reunion Association, and only Friday returned with his wife from the big G. A. R. Department Encampment and the State Sunday School Convention in Oakland where they reported having a most delightful time.

The deceased is survived by a widow, Mrs. Mary A. Coates, three sons, William Coates of Sunnyvale, and Fred and Frank Coates of Wyoming, and four daughters, Mrs. Judge R. H. Scott of Wyoming, Mrs. Eva DuBry of Colorado, Mrs. Emma Bills of Berkeley, Minnesota, and Miss Ida Coates of Campbell.

FUNERAL SERVICES

The funeral of the late Mr. Coates was held at the family residence on First street at 2 o'clock Wednesday afternoon. The business houses of the town closed during that hour and the business men gathered with the large number of friends and relatives to witness the last sad rites of the much loved and respected man. The members of the O. E. C. Ord Post, of Los Gatos were present in a body.

The music was in charge of Mrs. Luther, and a quartet of Dr. and Mrs. P. C. Hartman, Mrs. Luther and Warren Shelly sang beautifully "Sailing Home."

SAILING HOME

O'er life's wild sea all trustfully
With dauntless hearts we roam,
Our Lord shall save from wind and wave;
We're sailing, sailing home—

Chorus—

Sailing home, sailing home,
O'er the ocean, deep and wide—
And o'er the stormy tide
We're sailing home—sailing home—
And Jesus shall our Pilot be
We're sailing home—

The harbor light is gleaming bright
Across the rolling foam
No storm we fear the haven's near
We're sailing, sailing home—
Tho' tempests sweep across the deep
And fiercest gales should come
God's loving care is everywhere
We're sailing, sailing home.

This sweet song was heard by Mr. Coates at the Sunday School Convention at Oakland the week before and so impressed him with its beautiful sentiment that he remarked on Sunday that he was "sailing home."

Rev. J. F. Wilson, of the Methodist Episcopal Church, offered prayer.

Rev. C. W. Merrill, of the Congregational Church of Saratoga, read the scripture lesson.

Rev. George E. Atkinson, pastor of the Congregational church of Campbell, made very fitting remarks, in which he told of the deceased's great love for the flag and how that last year he had made the flag pole which now stand in the yard and invited the neighbors to come and help dedicate it. And as Mr. Coates unfurled and raised the stars and stripes up the pole, he wished that it would never

be at half-mast for any of them. "Uncle Dan" seemed to have a more than usual love for the flag, which may have come to him through the fact that his grandfather fought at Ticonderoga under Ethan Allen, and his father, Joseph Coates, fought on the American side at Lundy's Lane.

Daniel H. Coates was born at Avon, Livingston County, N. Y., on June 26, 1827, and when quite young came with his parents to Indiana.

As he was the only son of a large family and his parents were poor he was obliged to assist in the family support, which meant that his educational advantages were limited. During these years he developed an unselfish and rugged character which characterized his entire after life.

In the early fifties he was married and removed with his wife to Minnesota and settled in Scott County.

He resided in Minnesota until 1886 when he removed to California and settled in Santa Clara County, where he lived until his death.

His life was that of a frontiersman and his character was strengthened by the hardships and associations of such a life. He was always patriotic, and during the war of the rebellion he volunteered to do his part though he had a family to support.

Mr. Atkinson based his remarks on the text "And Jesus stood on the shore and they knew not that it was Jesus."

The G. A. R. took part in the services under the direction of Post Commander C. W. Merrill.

The quartet sang "Asleep in Jesus." The pallbearers were Comrades R. G. Reiniger, J. G. Fritch and C. W. Mallory of Los Gatos, and James Tom, D. W. Waite and _____ of Campbell.

The body was laid to rest in Oak Hill Cemetery along side of other comrades in the G. A. R. plot of ground. Rev. Atkinson alone had charge of the services at the grave. Here the Sheridan Dix Post and Woman's Relief Corps of San Jose, were waiting to witness the final ceremonies and thus express their sympathies.

UNION DISTRICT

Mrs. Lowell Grant and son have returned from the mountains where they spent several days visiting among relatives.

W. A. Riggs left on Thursday for Chico where he will spend several days looking after his property.

Will Rigney of Oakland visited from Tuesday until Saturday at the H. R. Murphy household.

Mrs. and Mrs. W. H. Lawrence, Mrs. E. J. Howes and Mrs. E. O. LaMontagne were among those who attended the G. A. R. and E. O. C. encampment at Oakland last week.

Mrs. Charles Thomson of Santa Cruz who has spent the last three months visiting in Oakland before returning to her home visited with Mrs. W. A. Riggs from Sunday until Tuesday. She was accompanied home by her son Francis who has been staying at the Riggs home for the few months past.

H. A. Wrightson, of Fresno County, who is State President of the F. E. C. U. visited on Friday with Mr. H. A. Craig.

Card of Thanks

To the kind friends and neighbors, the members of the G. A. R., the Woman's Relief Corps, the ladies of the San Jose Circle, and all who expressed so much kindness and sympathy in our recent bereavement, we wish to extend our thanks and appreciation.

Mrs. Mary A. Coates, and the members of his and her families.

A Trip Down the Bay

The Corinthian Yacht Club of San Francisco held their opening reception last Saturday and invited the South Bay Yacht Club to participate in the celebration. S. R. Wade, R. R. Rucker and Dr. P. C. Hartman were among the guests who left Alviso on Friday night at 12 o'clock on Captain Spencer's yacht Muriel. This with four other yachts was taken in tow by the tug Sea Queen No. 2 and arrived at Tiburon at 6 a. m. The reception and entertainment there was something grand. A thousand people had plates at the big banquet, and the fine vaudeville show in the evening, lasting 3½ hours, was of unusually high class. The party sailed back to Alviso, leaving at 11 a. m., Sunday. Friends Rucker and Wade pronounce the occasion as one of the few of a lifetime.

Socialist Picnic to Be Held at Congress Springs Next Sunday

Each May-day the Socialists the world over celebrate the cause of Labor by processions, music, picnics and speeches.

This year May-day happens on Sunday and as usual the Socialists of this county will celebrate at Congress Springs in an all-day picnic, dance, speech-fest and musical program. The leading speaker will be Rev. Robert Whitaker, the Socialist divine, of Los Gatos, and an uncompromising revolutionist. His address will take place at 2 o'clock in the afternoon. The Chairman of the day, N. L. Grist, will precede him in a short address.

The admittance to the grounds will be free and round-trip tickets from Campbell or San Jose will be sold at 25 cents.

All Stars Win

The Campbell All Star Basket Ball team journeyed to Sunol yesterday and defeated that team by the score of 22 to 11. The line-up of the winners. It is as follows: Eddlemon, center; Tompson, forward; Gerow, forward; Oneal, guard; Hyatt, guard.

Library Benefit

An excellent entertainment has been scheduled for Friday night, May 6th, at the Congregational church. All the various societies of the town will contribute toward the program and a crowded house is assured. The proceeds will go to the library.

Mr. John W. Tawney, who came here a year or two ago from Odell, Iowa, has decided that this is a good place to live and has just purchased through the Campbell Realty Co., the 5¼ acre orchard of G. W. Snyder on the Los Gatos-San Jose Road. This is one of the very best little orchards in this valley, one acre of apricots having averaged \$300 for five consecutive years. The trees were raised by Mr. Snyder, who is a thoroughly practical orchardist.

Baseball Game Tomorrow

The Campbell Grammar School crosses bats with the Grammar school from Sunnyvale tomorrow, Saturday afternoon. Last year Campbell was defeated in a hard fought contest at Sunnyvale. This year Campbell expects to carry off the honors. Benner will pitch the game. He has won five of the six games he pitched this season. Goddard, who pitched last year, will catch. He is a fine catcher and is said to outclass Ross of the High School. Gerow will play the short garden. He is a fast man and handles his position well.

Captain Luther presents the following line-up: Gerow, S. S.; Luther (Capt.), C. F.; Goddard, C.; Eddlemon, 1 B.; Lancaster, L. F.; Oneal (Mgr.) 2 B.; Kennedy, 3 B.; Vollman, R. F.; and Benner, P. Substitutes, Forbes, Matley, Betts, Kennedy.

COAST EVENTS OF PAST WEEK TERSELY TOLD

Interesting News Items From States Bordering On the Broad Pacific.

Assemblage of Paragraphs That Present Important Occurrences in Condensed Form.

Vallejo.—Within a few weeks the new \$75,000 annex to the naval hospital at Mare Island will be ready for occupancy.

Oroville.—Oroville's first paid fire department consists of Chinese. There are eight members and they are paid by the merchants of Chinatown.

Victoria, B. C.—The fur sealing season in the Indian ocean, where six schooners, mostly owned here, were sent this year, was a failure. The six schooners took but 3411 skins.

Santa Ana.—Gregorio Espanosa who is alleged to have been smuggling Chinese across the Mexican border for years, was shot and fatally wounded at El Toro during a running fight with Ralph Conklin and E. W. H. Chadney of the San Diego customs office.

Victoria, B. C.—Commander William Balfour McDonald, son of Senator McDonald of this city, has been appointed to the command of H. M. S. Niobe, bought by Canada and due at Halifax on July 10, to form the nucleus of Canada's navy. Commander McDonald was born in Victoria.

San Francisco.—William Kunze, the young artist who stole from the Golden Gate park art gallery the \$10,000 Millet painting, "Shepherd and Flock," was admitted to probate by Judge Cabaniss. The reason was that a strong appeal was made in the youth's behalf by a large number of persons.

San Diego.—Corporal J. D. Lohman, 115th company Coast Artillery, U. S. A., on duty at Fort Rosecrans, has won the broadsword championship of the United States army and the world by defeating Major Duncan C. Ross in a 25-minute contest at a local skating rink. Lohman twice disarmed Ross during the fight.

Berkeley.—The Berkeley Federation of Mothers' Clubs has petitioned the city council to place a censorship on the Berkeley moving picture establishments, and the ordinance has a provision to include the censorship on the vaudeville acts that are being introduced in this city. The club wants a woman appointed on the commission named by the mayor.

Los Angeles.—Captain Job B. Stockton, an officer of the White House Guard in Lincoln's second term, who commanded a company of the First Kansas Volunteer Infantry in the Civil war, is dead at the Soldier's Home. He was 70 years old. During the past year he had read many hours daily to the patients in the blind ward. He is said to have been a favorite of the martyred President.

Ukiah.—The hop growers of this county are finding a profitable market in Sacramento county for their hop roots. Already more than 500,000 of these hop roots have been shipped, and these have netted the Mendocino county growers \$1250. U. N. Dutton has shipped 225,000 of the roots alone, and these bring him a splendid profit. The roots sell at \$3 per thousand. In past years these hop roots have been destroyed at the pruning season.

Sacramento.—Before completing the final session of its convention, the State Medical Society spent part of its time investigating the case of David Meltzen of San Bernardino, the only man known to have recovered from a broken spine. Meltzen explained that he had been hurt in a runaway last year, and after a series of operations on his spinal cord he completely recovered. The physicians expressed the belief that his case illustrates one of the most successful operations ever performed.

Pasadena.—Wearying of wrestling with problems of municipal improvement and finance the city council turned to the question of regulating the sale of berries. An ordinance passed its first reading decreeing that boxes of blackberries or strawberries placed on sale must contain not less than one pint or twelve ounces of fruit. Boxes of raspberries or loganberries must hold eight ounces. Disregard of the ordinance will merit a penalty of a \$100 fine or thirty days in the county jail, or both.

ANTI-FOREIGN FEELING IN CHINA RAPIDLY GROWING

Several Villages Burned and Women and Children Flee for Their Lives.

Hankow.—The situation in Hunan province is reported as critical. Women and children are fleeing for their lives from Changsha, the capital. A number of villages near that city have been burned by native mobs. The country is placarded with threats to kill all foreigners.

This news was brought by missionary refugees who arrived here from Changsha and nearby stations. Many of them had traveled 30 miles on foot and reached the Yangtze Kiang river in rags. Their houses had been burned and they lost all their personal effects.

The missionaries stated that gunboats in the river have their guns trained upon Changsha and nearby points and have afforded a refuge for many of the foreigners. Three thousand Chinese Imperial soldiers are occupying the strategic points of the capital and detachments are being hurried to the outlying districts, where rioting is reported.

Many Chinese have been killed. In one instance a technical school was set on fire and 30 students were burned to death.

TIED HIMSELF TO RAILROAD TRACK TO ESCAPE WHIPPING

Boy Adopts Almost Fatal Method of Forestalling Paternal Wrath.

Pendleton, Ore.—Pendleton was thrown into a state of excitement the other day when it became known that 12-year-old Dale Maggert had been found tied to the railroad track by an engineer just as he was about to back the switch engine on to him. The boy, when released, declared that he had been seized by a stranger about 10 o'clock the previous night and bound, gagged and tied to the rails on a switching track. Subsequent developments showed, however, that he had tied himself to the track and could easily have rolled out of the way of the engine.

According to Chief of Police Gurdane, who secured a confession only after a prolonged sweating, the boy had been out all night, and, fearing to return home without a plausible excuse, had resorted to the above expedient. The boldness with which he played his part and the vividness with which he described his assailant and each particular of his imagined adventure, deceived a number of people.

Editor Will Turn Hobo.

Denver, Colo.—Convinced that the only way to regain his failing health is to "get back to nature," H. J. Holmes, editor of the Glenwood Springs, Colo., Avalanche, one of the Democratic dailies of the State, a few days ago voluntarily assumed the life of a hobo. Holmes will beat his way from Denver to Boston, riding the bumpers, sleeping in box cars and knocking at back doors for a handout in the most approved hobo style. Holmes has been prominent in Democratic politics in Colorado for twenty years and is a man of means.

Chinese Prince Lavish With Tips.

San Francisco.—One hundred dollars a day for tips? It sounds large, but this is the sum paid out by Prince Tsai Tao of China when he left the Palace Hotel last Saturday after a stay of one day. Pursuant to a custom of the Orientals, the Prince offered no tips to the boy or the maid who waited on him at the time of the service. He waited until the hour of his departure and then left the money with the hotel manager to be distributed among the help.

Farmer Electrocutd While Working.

Stockton.—While boring a well on his farm near Waterloo, C. M. Hannah, a well-to-do farmer, was electrocuted; his hired man, Joseph England, was badly burned, and Thomas Curry, a neighbor, who was standing near, received a bad shock when the pipe they were using came in contact with a line of electric wires some twenty feet above their heads.

Pioneer Passes Away.

San Francisco.—Edward B. Pond, former mayor of San Francisco, once a candidate for governor of the State, and one of the old guard that crossed the plains in response to the call from the western Eldorado, died suddenly from heart failure in his apartments in the Hotel Granada, at the age of 76.

Asparagus Burned to Keep Up Prices.

Sacramento.—For the first time in history there is an over-production of asparagus in California. The market is glutted with the grass at present, and several hundred cases were shipped to San Francisco recently to be incinerated.

Fruit of Middle West Ruined; Must Buy From Coast

Chicago.—Six of the great central lake district States must buy all their fruit from other States this season, and twelve or more States will have but a partial crop. This was made certain after a careful examination of the frozen buds and twigs. All gardens vegetables also have suffered severely, and Chicago must draw its supply from distant points as the result of the recent blizzard and freezing weather. The same conditions are reported from Minnesota, Wisconsin, portions of Michigan, Indiana, Iowa, Nebraska and the Dakotas.

The latest estimate of the loss of fruit, vegetable and grain crops put the total above \$35,000,000, distributed as follows: Michigan, \$6,000,000; Indiana, \$5,000,000; Wisconsin, \$3,000,000; Nebraska, \$3,500,000; Illinois, \$3,000,000; Iowa, \$9,000,000; Missouri, \$2,500,000; Kansas, \$3,000,000; Ohio, \$1,500,000; Kentucky, \$1,500,000.

Losses in Tennessee, the Dakotas and other States will not be so heavy, as the storms devastated only portions of their crops. In the estimates no account is taken of the permanent crippling of young trees and the destruction, partial or complete, of vines and plants.

Novel methods were taken in many districts to save the strawberry and vegetable crops. The people stripped their beds of blankets, employed table linen and everything else they could find to cover gardens and vines. Damp straw, tar smudges and anything else that would create heavy smoke were burned in orchards and gardens to minimize the frost.

Owing to an unusually warm March

and first of April, all the fruit and vegetable crops were at least one month in advance of the usual and there is no chance for a second crop. Grapevines in many localities will blossom again and there will be a second crop of strawberries, but the condition of apples, pears, peaches, cherries and similar fruits is hopeless.

Grave fears are also entertained for oats and other grain crops. Oats, especially, had jointed above the ground and this means destruction in the event of frost. The grain crops will survive frost if there are no joints exposed, but the crop was advanced to the jointing stage.

The storm has moved slowly to the southeast and New Orleans estimates the loss to cotton and other crops in Louisiana at \$1,000,000. Alabama, Kentucky, Tennessee and northern Mississippi will also suffer heavy losses.

A blizzard with more or less severe features, spread from the Rocky mountains to the southeast Atlantic Coast and Gulf Coast country, covering all districts from Saskatchewan to the Texas panhandle. It is said that the Colorado fruit districts are comparatively safe.

All the middle West will be compelled to draw upon California, Oregon, Washington and other fruit States for its apples and similar fruits. The problem of where to find vegetables is still unsolved, as the southern supply for the season is about exhausted and the local fields had been counted upon to meet the demands until the Michigan and Wisconsin crops were ready for market.

Female Sleuth's Beauty Failed to Move Married Jurors

San Francisco.—Female detectives have no right to be pretty or attractive. If they are and they make an arrest, ten chances to one they have tempted their poor prisoner to commit some crime just for the pleasure of arresting him afterward. This at least is Police Judge Deasy's idea of the matter, and it was brought out when the case of Turbis Lazarech, proprietor of a fruit store at 1442 Forty-eighth avenue, charged with selling liquor without a license, was called.

Lazarech was arrested by the undeniably charming detective, Madeline De Arcy, and was accused of selling her a small drink of whisky.

Instead of denying the charge, Lazarech made a clean breast of it and said: "I am an unmarried man, and I

admire a handsome woman. This lady came into my store and I completely lost my heart to her. She asked for some whisky and I gave it her—what else could I do?"

Twelve married men sitting on the jury listened with rapt attention and nodded their heads as if in entire corroboration. They acquitted the defendant with joyful unanimity. Then Judge Deasy took occasion to remark in an audible tone:

"It does not strike me as quite right to engage a charming and beautiful young woman to gather evidence in this manner. It seems to me that a woman's charms are more apt to provoke a man to break the law than to prevent it. I wonder how many men would have the courage to refuse a little whisky to a pretty girl?"

Carnival Spirit Will Reign At Fresno on Raisin Day

Fresno.—The night of April 30th, "Raisin Day," is to be turned into day for the final laughing chorus of the raisin festivities. The carnival parade is to begin at 10 o'clock, at which hour all the stores will be closed and everyone in town who wants to take part will have a chance to let himself loose for a good time. And as for morning—morning will have to be pretty warm to send the revelers home.

Major Edward Jones of the State militia is to be parade marshal, and many years of experience in organizing such affairs have made him a masterhand. As the Major is also a member of Sheriff Chittenden's official family of deputies, he will have it as a duty to observe and enforce a strict line of demarkation between proper

and improper fun. In this he is to be both generous and just.

The carnival queen will be provided with a magnificent court entourage for the parade, and the royal party is to be gotten up in truly regal style, in keeping with the rest of the pageant. In the parade will be uniformed rank Knights of Pythias, Red Men in costume, and many other similar groups in brilliant array.

As it is Saturday night, when for once in the week the children can be permitted to stay out late at night, all the schools will participate.

Music Supervisor A. G. Wahlberg will train a monster chorus which will ride in floats and sing songs from the wide courthouse steps, the costumes forming a succession of symbolical pictures.

Young Chickens Form Part of Bovine Epicure's Menu

Los Animas, Col.—A carnivorous calf believed to be something entirely new in bovine life, has been discovered here. Recently Mrs. W. E. Snyder has been losing daily one or more of her choicest spring chickens and has kept watch on the family cat and other preying animals in the neighborhood, but could not locate the source of the

depredations. All the while the pet calf belonging to the Snyders was allowed to roam at will among the flocks. A few days ago Mrs. Snyder was attracted to the animal, which was munching at something it apparently relished greatly. Investigation developed the startling fact that the morsel consisted of one of Mrs. Snyder's young chickens.

Boy Born to Blazek Sisters.

New York.—A dispatch from Prague says that the twin sisters Blazek, who are known as the successors of the famous Siamese twins, recently entered a hospital there, where Woss, one of the sisters, became the mother of a fine boy.

Hog Prices Decline.

Chicago.—Recent heavy arrivals in hogs are reflected in a marked decline in prices. A few weeks ago hogs sold at the highest price since the Civil war, thus attracting heavy shipments, in view of which the present reaction is not considered remarkable.

OUTLOOK IS BRIGHT FOR TAFT'S FAVORITE MEASURES

Congressmen Show Determination to Put Through Important Bills.

Washington.—Senator Aldrich had a conference with President Taft a few days ago regarding the legislative situation in the Senate, and, it is reported, pledged himself anew to devote the remaining days of his term to a furtherance of administration measures. He is anxious, it is said, that his last service in the Senate shall be written down as a loyal supporter of all measures calculated to reflect credit upon the Republican administration.

Evidences increase that President Taft's recent activity with Congress leaders is bearing fruit, and it is now said that the House organization is not only willing, but anxious to get behind the President and adopt his measure.

Whether recent political events have had an effect upon the organization and shown the necessity of getting together and doing something before the fall elections is a matter of conjecture.

It was stated that as soon as the railroad bill was out of the way in the House caucuses would be called by the Republican organization on the postal savings bank and anti-injunction bills. The insurgents will be invited to these caucuses in accordance with the agreement brought about by President Taft some time ago.

SIBERIANS STOP ALL WORK AND AWAIT END OF WORLD

Approach of Halley's Comet Spreads Panic Among All Classes.

Tacoma, Wash.—The fear of Halley's comet, which the Russians believe signifies the end of the world, has stopped all business in Siberia, according to a letter received by G. Korpit, a painting contractor, from his brother, whose home is at Irkutsk. The letter says that Irkutsk, a city of 300,000 inhabitants, was thrown into a panic by the appearance of comet A-1910, which during January, they could see with the naked eye. They believe Halley's comet is the comet A-1910 returning to destroy the world.

The superstitions of the people are so strong, says the letter, that business and work have stopped and starvation seems imminent. Farmers are burning their barns and shacks for firewood and killing their cattle for food, holding it not worth while to work when the end of the world is imminent. They have refused food to soldiers stationed here, having only enough for themselves, and troops have to obtain provisions by foraging.

Had to Pay for Their Deer Meat.

Weaverville.—W. S. Demude, a blacksmith and newly appointed constable at Hay Fork, was arrested there for having deer meat in his possession out of season and pleaded guilty. James E. Dockery, newly appointed Justice of the Peace, fined him \$25. Constable Demude had given away most of the deer meat. He went around among the beneficiaries and levied an assessment to help pay his fine. All of them responded cheerfully. Even Judge Dockery paid his blacksmith bill to Demude to help keep him from going to jail.

Oroville Wants N. S. G. W. for 1912.

Oroville.—Argonaut Parlor No. 8, Native Sons of the Golden West, has resolved to begin making a fight now to secure the Grand Parlor session in 1912, and the entire city will give hearty support to the movement. No attempt will be made at the Grand Parlor session at Lake Tahoe in June to secure the 1911 meeting for Oroville, as it is generally conceded that some southern city will secure that honor, Northern California having had the last two successive sessions.

Americans to Show Russians.

St. Petersburg.—One of the imminent results of Judge Parker's visit to St. Petersburg is the promised participation of American manufacturers of agricultural machines on a large scale at the Odessa exhibition. It is expected that the exceptional concessions secured by Judge Parker will give American manufacturers control of the Russian market.

Fortune For Small Loan.

Eureka.—George E. Davis, a barber employed in this city has been offered \$48,000 for 160 acres of land he owns near Bakersfield. Davis secured the property six years ago on a mortgage for \$380. He has decided to retain his holdings for the present. Oil wells have been located near Davis' land.

Miners Scarce in Fairbanks.

Seattle.—The city employment office will have charge of the engagement and shipment of 1500 men for the placer gold mines of Fairbanks and vicinity, to take the places of the old miners who stampeded to the Iditarod diggings. Wages are \$5 and \$6 a day.

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give Busy Readers Review of Week's Happenings.

Summary of News Gathered by Correspondents Located in Every Quarter of the Globe.

Albany.—The concurrent resolution committing the State in favor of the proposed income tax amendment to the Federal Constitution was defeated in the Assembly, 74 to 66.

London.—A special dispatch received from Budapest says the committee of the aviation meeting, which is to be opened at the Hungarian capital June 5, has engaged Orville Wright at a fee of \$50,000 to participate.

Charleville, France.—The French aviator, Roger Sommer, accomplished a remarkable feat recently which established a new world's record for aeroplanes. He made a flight of five minutes across country with four passengers.

New York.—Yerkes' mansion and art gallery, at Fifth avenue and Sixty-eighth street, brought at auction today \$1,239,000. The purchaser is Robert E. Dowling, who has made a fortune in New York real estate. The price is considered low.

Grafton, Ill.—Because J. J. Keon, a Socialist leader, refuses to pay a poll tax of \$1.50, he is serving six months in jail. Keon declares he will serve his full term rather than pay the tax or work it out at 75 cents a day. He holds that such a tax is unconstitutional.

Atlantic City.—The most valuable oyster ever opened in Atlantic City was found a few days ago by a local restaurant owner. It contained 54 pearls, all of small size, but of good quality. Experts say that eight is the highest number ever before found in one oyster.

Pittsburg, Pa.—The strike of the foreigners employed in the erecting department of the Pressed Steel Car Company is disintegrating, and according to company officials, the plant is operating with 2500 men. Storekeepers who refused credit to the striking men are said to be responsible for the breaking up of the labor war.

Camden, N. J.—Bishop Wesley J. Gains, a negro of Atlanta, Ga., who presided over the annual New Jersey conference of the African Methodist Episcopal Church in this city, was arrested on a charge of embezzlement. It is alleged he diverted to his own use \$150 that should have been applied to the superannuated ministers' fund.

Houston, Tex.—San Jacinto battlefield, where General Sam Houston defeated the Mexican General Santa Ana, and achieved the independence of Texas 74 years ago, has been formally accepted as a public park by the State. Alonzo Steele, the only participant in the battle now living, raised the flags of the United States and Texas above the historic spot.

Copenhagen.—Commander Sverdrup, the famous Arctic explorer, left Norway last week with 14 men on the whaler Hvalrossen for an expedition to Greenland's northwest coast and Baffin land in the hope of finding a new whaling territory. Commander Sverdrup will also visit Annatok and Etah, in order to examine the places in which Dr. Cook declares he left his observation materials.

New York.—Suffering from what is believed to be leprosy in an advanced stage, a woman with an eight-months-old baby at her breast was found by Dr. Trask of Bellevue hospital. The woman was living in a squalid East Side tenement house, which swarmed with lodgers. In the three-room tenement were five children besides the victim's baby, a young woman, two men and their wives.

Washington.—A large increase in the number of casualties on American railroads is shown by the Inter state Commerce Commission report for the quarter ending December 31, 1909, as compared with the corresponding quarter of 1908. The number of persons killed increased 301 and the number of injured increased 5645. The total number of persons killed was 1099 and the total number injured 22,491.

Boulder.—An ordinance to prohibit the wearing of long dresses in the streets of Boulder is being considered by the city council. It provides that "it shall be unlawful for any person whose wearing apparel or skirt shall be of such length as to trail upon the ground and become a dust sweeper or otherwise obnoxious to the public health and refined taste to appear upon any sidewalk in this city."

Spring-Cleaning

The Human System Needs It.

Mrs. M. Morgan, 411 4th Ave., E. Brainerd, Minn., writes: "I take from one to two bottles of Hood's Sarsaparilla in the spring to purify the blood just as regularly as I do my house-cleaning, and go around light-footed and light-hearted. I believe it is the best blood purifier known."

Hood's Sarsaparilla so combines the curative principles of roots, barks and herbs as to raise them to their highest efficiency; hence its unequalled cures.

Get it today in usual liquid form or tablets called Sarsatabs.

A Cordial Invitation.

Men who are "good mixers" may be
as valuable as they are rare. There
can be no question that a certain
preacher in one of the large cities of
Indiana fulfilled all the requirements,
as the following story shows. He was
the pastor of one of the leading
churches of his city, says a writer in
the Louisville Times. His motto was
that of the late Henry George: "I
am for men."

One day he stopped in a blacksmith
shop to chat with the workmen. Dur-
ing the visit a florid-faced man of
prosperous appearance came into the
shop. He and the minister began
chatting, but neither knew the other's
occupation. They became good friends
in a few minutes.

Finally the florid-faced man pro-
duced his card, which announced that
he was in the saloon business on West
street.

"Come down to my place any time,"
he said, "and I'll give you a good
time."

"All right," replied the minister,
"and by the way, I'm running a pretty
good place myself. Come and see me
and I'll give you a good time."

"I'll sure do that," said the other,
"but by the way, where is your
joint?"

"My joint," was the reply, "is the
First Presbyterian Church. Just in-
quire for the pastor, and I'll be at your
service."

An Ungrateful Sufferer.
Steady nerves, strength and gen-
tleness had all been included in nature's
gift to Miss Harmon, and she made
an excellent nurse. But when she saw
a patient in what she called "the
glums," she never failed to speak a
few admonitory words.

"See here," she said, in her clear,
pleasant voice one morning to Squire
Lathrop, slowly recovering from an at-
tack of gout which had been severe
enough to send him to bed, "see here!
I know you've had quite a siege, but
you must look at some of your mer-
cies, square."

"What, for instance?" demanded the
squire, who knew her ways.

Miss Harmon bent an accusing gaze
on him.

"Take this bed, for instance," she
said. "Have you thought how few
there are that have the privilege of
being sick in a handsome black wal-
nut bedstead like yours, and have their
clean sheets taken out of such mahog-
any linen-press as you've got? That
ought to cheer you up some, anyway
to think of such privileges."

An Acute Sense of Taste.

William and Lawrence were in the
habit of saving a part of their dessert
from the evening dinner for consump-
tion the next morning, and in accor-
dance with this custom two small cakes
had been placed in the cracker jar for
them. William, being the first up
on the following morning and being
hungry, went to the jar. He found only
one cake, and a large piece had been
bitten out of that. Full of wrath, he
went upstairs and roused his brother.

"Say!" he demanded. "I want to
know who took that big bite out of my
cake!"

"I did," sleepily answered Lawrence.

"What'd you do that for?"

"Well, when I tasted it I found it
was your cake, and so I ate the other
one."

His Little Scheme.

"Great Caesar, old man!" exclaimed
the gunner as he opened the door and
found his friend's house brilliantly illu-
minated at noonday. "What does this
mean? Why are all these blankets
burning in the daytime?"

"Sh!" whispered Guyer, cautiously.

"It's a scheme of mine."

"What kind of a scheme?"

"Why, my wife is on a visit to her
mother, and I tell her I remain home
every night and read. I've got to get
rid of some gas somehow so it will
go on the bill at the end of the month."

—Atlanta Constitution.

Disappointed with Results.

"Brother Hardesty, how much are
you going to give to the missionary
cause next year?" asked the pastor of
the congregation.

"I don't know, elder," answered Deacon
Hardesty. "I'm getting kind of dis-
couraged. I've been giving money for
the benefit of the heathen for the last
forty-five years, regular, and there
seem to be more of 'em now than ever."

Lesson from the Past.

"Socrates," asked Plato, "to spring
an old one on you, how do you recon-
cile the doctrine of foreordination with
the doctrine that man is a free moral
agent?"

"You needn't bother our heads about
that," answered Socrates. "One of these
days some 7-year-old prodigy will come
along and tell us all about it."

For even the old Greek philosopher had
a premonition that we were going to
have some fearfully smart boys in
America in the twentieth century.

An Admission from Japan.

"You shouldn't call us Japs in your
newspapers," said a Japanese journal-
ist. "We don't think it's polite. You
wouldn't want us to call you Yanks in
our papers, would you? A western
Congressman said to me the other
day: 'What these are you—Japanese or
Chinese?' I'd have liked to jiu-jitsu
him, but I only smiled and returned:
'What key are you—monkey or Yan-
kee?'"

A Wonder.

"What a quaint old teapot! And you
say it has been in the family since the
year 1810? Then it is a century old!
It has outlasted an entire 100 years!"

"Yes, and probably 300 cooks."

Doctors prescribe very little, if
any, alcohol these days. They
prefer strong tonics and altera-
tives. This is all in keeping
with modern medical science.
It explains why Ayer's Sar-

free from alcohol. Ask your
doctor. Follow his advice.

A recent news item from Trenton,
N. J., says: "When an ill-clad, half-
starved looking man besought food of
Mrs. James Kinney of No. 844 Lamber-
ton street yesterday the good woman
invited the fellow into her warm
kitchen, where she set before him a
plentiful repast. The man devoured
the food with an avidity that sup-
ported his statement that he had had
nothing to eat for several days. While
he was eating Mrs. Kinney busied her-
self with other household duties. What
was her surprise, however, to be sud-
denly confronted in her dining-room
by the stranger in belligerent attitude,
demanding money.

"Why, you ungrateful loafer," said
Mrs. Kinney. "You get out of here
just as fast as you can travel." And
her tone apparently carried conviction,
for the man began backing toward the
door. In their passage through the
kitchen Mrs. Kinney picked up a roll-
ing pin and, as the fellow made a dart
for the door, she let it fly at him.

The missile struck the man in the
small of the back and sent him
sprawling down the steps into a snow-
bank. It just happened that at that
moment Mrs. Kinney's next door neigh-
bor, Mrs. Charles Breining, was about
to enter the Kinney back door to re-
turn to Mrs. Kinney a frying pan
which she had borrowed from her. She
surmised that something was wrong,
and as the man picked himself up out
of the snow Mrs. Breining let fly the
Kinney frying pan. This missile was
quite as effective as the rolling pin,
for it hit the ungrateful beggar on the
side of the head and sent him sprawl-
ing in the snow. This time he picked
himself up and made off with all pos-
sible speed. None of the other house-
wives in that neighborhood have since
been bothered by hungry beggars."

A Storekeeper Says:

"A lady came into my store lately and said:
"I have been using a New Perfection Oil Cook-Stove all winter
in my apartment. I want one now for my summer home. I think
these oil stoves are wonderful. If only women knew what a
comfort they are, they would all have
one. I spoke about my stove to a lot of
my friends, and they were aston-
ished. They thought that there was
smell and smoke from an oil stove, and
that it heated a room just like any other
stove. I told them of my experience,
and one after another they got one, and
now, not one of them would give hers
up for five times its cost."

The lady who said this had thought
an oil stove was all right for quickly
heating milk for a baby, or boiling a
kettle of water, or to make coffee
quickly in the morning, but she never
dreamed of using it for difficult or
heavy cooking. Now—she knows.

Do you really appreciate what a New
Perfection Oil Cook-Stove means to you? No
more coal to carry, no more coming to the
dinner table so tired out that you can't eat.
Just light a Perfection Stove and immediately
the heat from an intense blue flame shoots
up to the bottom of pot, kettle or oven. But
the room isn't heated. There is no smoke, no
smell, no outside heat, no drudgery in the
kitchen where one of these stoves is used.

Congressman Hayes Recommends Mrs. Waite for the Campbell Postoffice

A dispatch from Washington to the Mercury on April 26 announced that Congressman Hayes had recommended the appointment of Mrs. Waite to the vacancy in the Campbell postoffice caused by the death of the late Postmaster Coates. Mrs. Waite has been the faithful assistant of Mr. Coates during his term of office and is a most respectable woman. The appointment meets with the approval of the general public.

OVERWORKED CHILDREN

That medical school inspection will bring about relief measures for overworked children is the prediction of a State Board of Health member in discussing the child-health agitation in California.

"If a stockman" he says, "should find as much emaciation and general physical debility among his colts as school health directors find among children he would think that the bottom was going out of his business. Undoubtedly the poor health of school children is caused largely by one-sided dieting, ily ventilated school rooms and bed chambers, indulgence in tea and coffee, late hours, the munching of candy between meals, and the like; but it is obvious also that plain brain-fag ranks high as a pre-determining factor. The fact that peasants in some parts of Europe develop a high grade of physical fitness in spite of one-sided dieting and in spite of other conditions that would be considered deadly in this country may be taken to indicate that some powerful negative force is undermining the vitality of our children.

"If Psychologists are correct in asserting that six hours of mental application is as exhausting as nine or ten hours of manual labor the man who carries a hod for eight hours gets off easier, proportionately, than does the growing daughter who has a school day of five hours and a quarter, studies at home an hour or more, and besides helps the mother with the house-work. In not a few families the school-hours of the child are as long as the office hours of the parent. But in the afternoon when the paternal ancestor is throwing off his care at the golf links the child works a dolorous hour at the piano. In the evening when poor brain-weary papa is dozing over his paper or loafing at the club the young scholar passes the time with fractions, algebra, Latin conjugations, or other equally restful branches of school study. Father foots the dentist's and doctor's bills with equanimity on the assumption that his child is "delicate," and that being sick or ailing half the time is a part of the growing age.

"The fact that California educators are keenly alive to the school health situation promises relief to the children of this state. It is an encouraging sign of the times when an enlightened Superintendent of Public Instruction publicly comments on the absurdity of spindle-legged boys being loaded down with books for evening study.

"One of our State Normal School presidents recently made the statement that the color line was debaring his children from the kind of education he wanted them to have. If his children were black, he said, they could attend Tuskegee where they would work half a day in the school-room with their brains, and a half day in the open with their brains and their hands. There is no doubt that a combination of book and manual education such as he suggests would reduce the strain on a set of faculties that at present is being sadly overworked. The result would be that much better health conditions would prevail among our children. Sunny California is immeasurably kind to our children, and it is doubly incumbent on the people of this state to attain a degree of physical fitness which will at least equal that attained by the ignorant peasantry of inhospitable foreign countries."

THE AMERICAN WOMAN'S LEAGUE

The American Woman's League, instituted by the Lewis Publishing Co., St. Louis, offers to meet a much-felt want among the women and in the homes throughout the country as is evidenced by the marvelous growth and popularity of the movement. Although but a little over one year old, the League now has tens of thousands of members and over eight hundred local chapters, many of them occupying beautiful club-houses.

No grander, higher mission could be conceived than that of the American Woman's League, and no greater service could be rendered than that which its members enjoy. It places in the reach of every woman and her family the best in education, culture, self advancement and a wider opportunity in her home, giving her the independence, protection, assistance and advantage of a rich and powerful national organization, great educational institutions and beautiful local club houses, backed by the power of a great press. Yet it is all her own, created by her own effort and controlled by her own vote. Each member is equal in opportunities and enjoys the benefits of membership. Each Chapter is also supplied with the best music, literature, systematic study and lecture courses, throwing open to its members the best advantages of the highest Art and University education, as well as the more practical everyday courses in Household Economics, Dressmaking, Bookkeeping, Stenography, etc.

The League's University, Art Schools and business courses, together with the Honor courses, are open to every member and her minor children, free. The local Chapter house becomes a branch of the Central University and Academy of Fine Arts, where its members may study in classes those courses in Art and other higher education which would otherwise only be available at great expense by personal attendance in some great metropolis.

Many women in and about Campbell have become interested in the movement and expect before long to apply for a charter and later to work for a local chapter house. At the request of members and through arrangements with headquarters the Press office with act as information bureau and otherwise seek to promote the interests of the work in this community.

The American Woman's League

Notes on What this Great Organization Is Doing—Local Members' Plans for Chapter and Clubhouse

The American Woman's League is a sound business organization, which is doing more to improve the social and educational life of the women of America than any movement ever attempted in the country.

The requirement for membership in the League is the simple securing of \$52.00 worth of subscriptions to the "Interurban Press" or any of the magazines that are co-operating with the League, a full list of which (over 100) can be had at this office.

If 15 persons in Campbell will each secure \$52.00 in subscriptions, the League will build a beautiful chapter or club house right here for the use of its members. The building will be fully and completely furnished, equipped with a library, meeting room, salesroom, kitchen, etc. A building of this description is needed by Campbell. It would be a center of entertainment and community improvement.

Buildings have already been erected in many towns. Over 800 chapters have been organized all over the United States from Maine to California. St. George, Ga., has one. This is what they say about it.

Dear Mr. Lewis—We, the undersigned members of the St. George Chapter of The American Woman's League, do extend to you our heartiest thanks for the beautiful Chapter House you have so promptly built and furnished for our Local Chapter, and we earnestly ask that you be present at such time as you see fit and may be able to come to dedicate this building to the noble cause of The American Woman's League. Our Chapter was organized on Jan. 1st, 1909, by Mr. and Mrs. E. H. Wilkerson, your State Organizers, and the members saw at once that it was the thing to do to get the building for our Chapter that your company offered on such easy terms, and we proceeded to get it. And despite the "Kickers and Knockers," we succeeded in meeting with the requirements for the Chapter House within six months after we had organized our Chapter.

"One of our members, Captain D. C. Welch, mayor of the town, now deceased, gave the two lots for the Chapter House, and we now have one of the best and daintiest buildings in this county, and every member is very proud of it and its furnishings, and all wonder why the people of more towns do not take advantage of the offer and get such a building or a larger one for their various ladies' organizations. We are also much surprised and very proud to know that St. George Chapter was the first in all the southeastern states to get the Chapter House, and we earnestly invite all members of the League to visit our Chapter and see for themselves what is being offered them.

"Our building is located almost in the center of the town, where any child might be entrusted to go, or where any member might 'drop in' to read and rest at any time she might wish to do so. The Grand Phonograph, the furniture, rugs and the many other conveniences, such as the large fireplace, the shelves, lights, etc., all make the building a very attractive place, and we shall have no trouble in 'having a quorum' at our meetings.

"The Chapter would be pleased to learn when you can be here to dedicate our building, and all will enjoy taking part in dedicating the building. Again we thank you and bid you welcome to our town and Chapter." (Signed by its 24 members.)

Other towns have buildings completed and occupied. Not only have they the buildings completely furnished, but they receive a regular monthly remittance from the headquarters of the League for the maintenance of the Chapter House to pay for light, heat, etc.

Every Chapter House is equipped with a beautiful Grand Concert Phonograph costing \$225.00. Thirty records are supplied and changed every week, or as often as the members desire, for thirty new records. What others can do, we can do. The only question is—do we want it?

Peck, Idaho, has a Chapter House, and it's only a little town with less than 200 inhabitants. Here's what they said: "We have received many letters asking whether the promises regarding our Chapter House have been carried out, and I wish to say most emphatically 'Yes, and more.' Our Chapter House is considered the prettiest little house in Nez Perce County. Our furniture has come, also our elegant library table phonograph. We are getting new members every week."—(Signed) Katherine L. Smith, Sec., Big Canon Chapter, Peck, Idaho.

Why not send and get literature telling all about the League, and get a Chapter House here in Campbell? All new subscriptions that are taken for the "Interurban Press" count on your membership at the full price. Hasn't Campbell 15 people that will be pioneers?

Write direct to Miss Luella G. Caldwell, the League's local representative in Campbell for full information, and literature will be gladly forwarded to you, or stop in our office and we will give you an application blank, and you can start your membership by taking out a subscription to the "Interurban Press" which will count \$1.00 toward your \$52.00 worth of subscriptions.

When you have secured \$52.00 worth of subscriptions to the magazines in the League, your membership is complete for life, and you have no dues or fees of any kind to pay, and you can take any of the correspondence course of the University free of charge.

This is certainly an opportunity you cannot afford to let go by. Don't put it off till tomorrow—act today.

Wm. H. Milburn, of the Western States Life Insurance Company, San Francisco, was in town Monday. Having been a newspaperman of large experience, he came in for a chat with the Press editor.

If you were Buying Eyes?

Would you buy the best or the cheapest?

You should follow the same rule in buying glasses.

The "Ladies' Home Journal" calls cheap glasses, "Ten Cents Worth of Trouble."

A few dollars spent for glasses when they are first needed often prevents results too terrible to even think about.

Good Man, Smith
Editor Smith of the Mountain View Leader everlastingly roasted the silurians who defeated the issuance of \$9000 in bonds for school improvements in that district last week. Every sentence burned. Each word of every sentence was merited. The bonds were needed. They should have been voted for. Brother Smith may lose a little patronage on account of his manly stand upon the subject, but that's no difference. In fact, a spiritless mass of inert matter who would vote against needed funds for schools rarely patronizes a newspaper, any way, if he can use a postoffice or a street corner for an advertisement. More power to you, Bro. Smith. Mountain View without its two excellent papers would be like a sawmill without logs. A little appreciation with more patronage should be given each of them during the present year of grace.—Gilroy Gazette.

IMPLEMENTS
FOR FARM AND GARDEN

Not only a complete line of everything needed about the farm and garden—but a complete line of the BEST KIND. A farmer doesn't like to work with poor implements any more than a carpenter likes to work with poor tools. We've selected the various makes of implements with special regard to their serviceability, and we stand behind every piece that we sell.

They're all made of the very best materials, built by the best known factories in the world, and will be in good working condition when many inferior implements are consigned to the scrap-heap.

If you can't come to the store in person, send your order by mail. We'll give it careful attention.

SEEDS
Flower and vegetable seeds of all varieties. Fresh, true to name, full of vitality and life, and sure to grow. Don't waste your time with stale or inferior seed—plant the right kind—Farmer's Union kind.

NOTICE TO TAXPAYERS

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where the property is located. You should give a statement of all property owned by you on the FIRST MONDAY IN MARCH AT 12 O'CLOCK M.

If you hold mortgages or trust deeds against others, send in mortgage statement early in March, so proper deductions can be made showing amount due on each mortgage or trust deed on the first Monday of March at 12 o'clock m.

Remember, if you fail to give in your assessment yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

Roll Tax is now due and payable at the Assessor's office or to a deputy. After the FIRST MONDAY IN JULY it will be added.

It is much more satisfactory to the Assessor, ask well as to yourself, to have your assessment correct when you go to pay your taxes.

L. A. SEITZER, Assessor.
