your Majesty. In order to set forth of you the present situation of affairs, to result a the present situation of affairs, to result the present situation of affairs, to result you the peak, and to set the with you the course which ought to be followed for the inture. The circumstances are grave; it is requisite to lay said eillisions and sterile regrets, and to examine carefully the real state of affairs. Thus the question it not now whether I have done well or ill in making peace at Villafrance, but rather to obtain from the treaty results the most faverable for the paosition of Italy and for the repose of Europe.

Before entering on the discussion of this question, I am anxious to receil once more to your Majesty the obstacles which rendered every deficitly as obtained which rendered every deficitly as the contract of the contract of the point is to reconcile a multitude of interests, often of an opposite other acts of the contract, the point is to reconcile a multitude of interests, often of an opposite other contracts, the point is to reconcile at the moment of the peace. It was necessary to conclude a treaty that should secure in the best manner possible the independence of lately which should satisfy Piedmont and the wishes of the population, and yet which should so the population, and yet which should so the population, and yet which should so one to a frair understanding with me, with the view of bringing about this important result, the causes of autaria wished to come to a frair understanding with the population farther by common accord, and without farther law and the wishes of the population and discussed these two empires would disappear, and that the requestration of its way to the population of an appearance of its progression of the population farther by an active what are, in my opinion, the essential conditions of that regeneration:

I aw a sate what are, in my opinion, the essential conditions of that regeneration.

are consessration to their ratify the prisciple of italian nationality; to have but see flar, but one system of customs, and one surresoy.

The directing center to be at Bome, which seems be composed of representatives are also prepared by the Chandrak from a liest prepared by the Chandrak from the liest resulting from election.

By granting to the tion Father the honselves from the content of the Confederation, the religious sestings to Catholic Europe would be astinged, the moral influence of the Pope would be increased throughout Italy, and would enable him to make consecutions in conformity with the spirimate wishes of the populations. How, the plan which I had formed at the amount of making peace may still be carried, out if your latjesty will temploy of the flathese in promoting it. Besiden, made in that direction.

The cession of Lombardy with a limited for the strong places of Piacenna, Furrara and Commanshio.

The rights of the Bovareigns have, it is true, been rearred, but the independence of Contral Italy has also been guaranteed, inamend has all idea of foreign interventice has been formally est ander; and, lamby, Venetia is to become a province purely lialian. It is the real interest of your Rajesty, as of the Pecinsule, to second me in the 6e-valopment of the plan, in order to obtain from it the best pressuls, for your Rajesty, and I cannot, in the Congress which is about to open, withfarw myself from my sugargument. The part of Praces is trood beforehand.

XXXViva CONGRESS.
