### **WHY JULIANS A GRASS IN THE EYES OF MODERN DAY TAD,CHEMICAL WARFARE,THE CIA PLOT TO PLANT A THOUSAND AND ONE BAGS OF GRADE THREE CAMEL DUNG AND HOW IT EFFECTS THE UKs DRUGS AND WATER SUPPLY.(What the papers wont dare to say).**

One often ponderz upon the idealism of drugs in London City UK,and why people fill themselves with cement and curry powder,rat poison and horse tranx....Today drugs are taking the place of money whereby the illegal becomes a commodity,nothing to get "Freaked" out about,so whats new??.

A friend wiv weed is a friend indeedy as they say and they aint giving away a dime either !.Smells like a bad hand with a million and one Fedz.Did you not know in the rat hole of Europe more and more persons play swap shop with smak than any other ....really....only fools and horses pay for the bleedin snuff! Cars,land,diamonds,Gold what have ya getz exchanged for white lines.Years ago once upon a time (that is) the awfully nice man from somewhere not too far from Whitehall worked with a munch bunch of sortz and greasers to get the kidz da cat pong,not two day matey,oh no,Capitalism Jim but not as we know it has long gone with the chernoby wind.The Britraz partzy (Vote OZ) dont bring it in any more at least not for the kidz, their naval boats and military planes drop their own stuffy off.Theres no market any bore for Brit Gear on housing estates says Alan from Tooting "we get ours via the Arabs,dont even haftar pay for it first ,brought in on a drone from Calais or under a truck filled with illegal immigrants,nobody has the bleedin money to pay that type of thaxer off these daze except for the Saint Ormingtonzy edz, its eazier to go out on our mopeds grab a few phones and get a free load of Charlie for hem than pay some far right tally hoe job in washers and Russian food tokens.

Its grim up North or so they used to say but not any more in Liverpool,yep you can trade your housey matey Kiloss Flossmen for your scouse!! hoo sned vat??Got a Merc no problamente John ,you know the Score Street but mind how you go incase the Fedz catch ya from over yonder 4 not trading in Rat Keiller Gear.Apparently the CIA use submarines and leave them in boxes with tatooes on their right fourcourtff arms with quirky wee messages if you dont believe "IT" just ask ask "R" round how many bags of gear Julians going down with...each pne of his private diaries went for sale at over 200.000 dollars a piece, Pams cullers in town ..well.....you know.

Here at Spookz we have Arabs as good friendz but thats the word what the kidz are saying on the street level (not US \$) the Arabs get tonnes and tonnes into the UK,why blame the Arabs?? ,dont know, its just what their talking about ,can they get arms through , well thats the point and another story!!!! for A.N .Other.....as for Julian.
