Such lists shall be deposited with the immigration officials before the departure of the vessel, except that in the case of vessels making regular trips to ports of the United States such lists may be delivered so as to reach the immigration officials at the port of departure within 30 days after departure of the vessel. § 108.3 *Nonimmigrants; Forms 257a, 257b, and 257d; action at time of entry.* (a) At the time an alien presenting Forms 257a, 257b, and 257d applies for admission to the United States for temporary stay, the alien shall surrender such forms to an immigrant inspector and, if the alien is admitted, the admitting inspector shall add on all three such forms in the spaces indicated the data as to the period and other facts of the admission. The inspector shall deliver Form 257a at once to the alien. The Form 257b, without transmittal letter, shall be forwarded at once to the Central Office for statistical and permanent record purposes. The Form 257d shall be retained at the port of entry and in the cases of aliens admitted directly to the continental United States from Canada or Mexico shall be filed as the record of entry in lieu of Form I-448. When an alien admitted on presentation of Forms 257a, 257b, and 257d is in possession of a passport as that term is defined in § 176.101 (e) of this chapter, the admitting immigrant inspector shall place an endorsement in such passport showing the date and place of admission, status and section of law under which admitted, date to which admitted, visa application number, and bond if exacted. In classes of cases where fixing a period of time of admission is prohibited by regulations, the term "duration of existing status" shall be used.

(b) If an alien presenting Forms 257a, 257b, and 257d is excluded from the United States, the Form 257a shall not be given to the alien. Data as to the exclusion shall be placed on the Forms 257b and 257d by the chairman of the board of special inquiry. The Form 257d shall be retained at the port as a record

of the exclusion. The Forms 257a and 257b shall be sent together to the Central Office and shall accompany any record of the hearing before the board of special inquiry submitted to the Central Office in appellate or similar proceedings. Where the Forms 257a and 257b are submitted with such a record, they shall be returned to the port with the notification of the decision. Data as to the facts of the resulting final action at the port shall be placed on the Forms 257a, 257b, and 257d, and the Forms 257b and 257d shall be disposed of as prescribed in paragraph (a) of this section; the Form 257a shall also be disposed of as prescribed in paragraph (a) of this section in those cases where the alien is admitted under the decision but the Form 257a shall be sent with the Form 257b to the Central Office in cases where the alien is not admitted.

(c) The term "continental United States" as used in this section and part means the territory of the forty-eight States, the District of Columbia, and Alaska.

§ 108.4 *Nonimmigrants; Forms 257a, 257b, and 257d; action at time of departure.* (a) At the time of the departure from the United States of an alien who was admitted on presentation of Forms 257a, 257b, and 257d, the alien shall, with the exceptions provided in paragraph (b) of this section, surrender the Form 257a to an immigration officer or other designated person, who shall endorse it to show the facts of departure, after which the Form 257a shall be sent to the port where the entry occurred, if different from the port of departure. Regardless of whether the port of entry and the port of departure are the same or different, the facts of departure shall be posted to the Form 257d from the Form 257a, after which the latter shall be forwarded to the Central Office for statistical and permanent record purposes.

(b) An alien admitted to the United States on presentation of Forms 257a, 257b, and 257d shall not be required to surrender the Form 257a at the time of his departure from the United States in the following classes of cases:

(1) The Form 257a bears a nonimmigrant visa valid for more than one journey to the United States and the alien states his intention to enter the United States again within the period of the validity of such visa. The alien shall nevertheless report his departure to an immigrant inspector in accordance with the instructions on Form 257a. If departure occurs at the same port as that at which the entry occurred, the facts of departure shall be posted to the Form 257d and reported to the Central Office by form letter; if the entry occurred at another port, the departure shall be verified by form letter to such port and the facts of departure posted to the Form 257d there, after which the letter shall be forwarded to the Central Office.

(2) An alien child or alien children, accompanying on entry, are named on the Form 257a and all aliens covered by

the form do not depart simultaneously. In such cases, Form 257a shall be surrendered by the alien last departing and endorsed only as to his departure, unless retention is permitted by this section. The earlier departures of the other aliens named on the form shall be posted to the Form 257d and reported to the Central Office, in the same way as is prescribed in subparagraph (1) of this paragraph.

(3) Any alien (including a resident of Canada or Mexico) who during his temporary stay in the United States proceeds to Canada or Mexico for a visit of not more than 30 days, after which he intends to reenter the United States for the remainder of the period of his original temporary admission.

(4) Other exceptional cases, where the Commissioner of Immigration and Naturalization has instructed immigration officers to waive or defer the surrender of Form 257a at the time of the holder's departure from the United States.

§ 108.5 *Nonimmigrants; Forms I-94 and I-448.* (a) Form I-94 shall be used at all ports in the following cases of temporary admission:

(1) Where the alien is required to present a passport and a nonimmigrant visa and meets such requirement by presenting a passport containing the required nonimmigrant visa but does not present Forms 257a, 257b, and 257d because he surrendered those three forms in connection with a previous temporary stay or because such forms were not in use when his nonimmigrant visa was issued.

(2) Where the alien is required to present a nonimmigrant visa and meets such requirement by presenting Form 257a bearing the nonimmigrant visa but does not present Forms 257b and 257d because he surrendered those two forms on a previous entry.

(3) When the alien is coming from some country other than Canada or Mexico, does not present a nonimmigrant visa and Forms 257a, 257b, and 257d, and is admitted temporarily under a waiver of the nonimmigrant visa requirement.

(b) At ports where aliens coming directly to the continental United States from Canada or Mexico are admitted, Form I-94 shall be used not only in cases listed in paragraph (a) of this section but also in cases of temporary admission where Forms 257a, 257b, and 257d are not presented and where—

(1) The alien is admitted for more than 29 days; or

(2) Head tax is collected; or

(3) Bond is exacted; or

(4) Verification of departure is desired; or

(5) The case comes within some other specific class in which immigrant inspectors are instructed to execute Form I-94; or

(6) The facts of the particular case are such that a record on Form I-94 is deemed desirable.

(c) The original Form I-94 shall be delivered to the alien at the time of admission. If the alien has previously

complied with the Alien Registration Act, that fact should be noted on the Form I-94. In the cases of aliens admitted directly to the continental United States from Canada or Mexico, the duplicate Form I-94 shall be filed as a record of entry in lieu of Form I-448. The original Form I-94 shall be surrendered by the alien at the time of his departure in accordance with the directions on the form except that where the circumstances described in § 108.4 (b) (2) or (3) exist, the alien may retain the form, in which event the procedure prescribed in those two subparagraphs shall be followed. Surrendered Forms I-94 shall be returned to the port of entry, if different from the port of departure. If a departing alien also has a form 257a because he is within paragraph (a) (2) of this section, he shall surrender it simultaneously unless retention is permitted by this part. Where a departing alien surrenders both a Form I-94 and a Form 257a, the latter form shall be attached to the Form I-94. A triplicate copy of Form I-94 shall be made on plain or printed paper and forwarded to the Central Office in the following classes of cases:

(1) Where the form is issued to an alien whose journey to the United States originates in countries other than Canada or Mexico; and

(2) Where the form is issued to an alien admitted to the United States for more than 29 days.

Such furnishing to the Central Office of a triplicate copy of Form I-94 shall be noted by the issuing officer on the duplicate copy, and when satisfactory evidence of departure—normally the original Form I-94—is received at the port of entry, the facts of departure shall be posted to the duplicate copy of Form I-94 and such evidence of departure forwarded to the Central Office.

(d) At ports where aliens coming directly to the continental United States from Canada or Mexico are admitted, Form I-448 shall be prepared in the case of every alien who is an applicant for temporary admission, who does not present Form 257a, and who is held for hearing before a board of special inquiry. Such Form I-448 shall be filed at the port regardless of the disposition of the case.

§ 108.6 *Immigrants; Forms 256a and I-151.* (a) At the time an alien presenting Form 256a applies for admission to the United States for permanent residence, the alien shall surrender such form to an immigrant inspector and, if the alien is admitted, the admitting immigrant inspector shall add on such form in the space indicated the data as to the admission. If the admission occurs at a port where aliens are admitted directly to the continental United States from Canada or Mexico, a record shall be made at once on Form I-448. In all cases the Form 256a, without transmittal letter, shall be forwarded at once to the Central Office, where it shall be kept as a permanent record of the entry. On receipt in the Central Office of the Form 256a, it shall be assigned an alien number and there shall be prepared in the Central Office on Form I-151 an alien registra-

tion receipt card bearing the alien's photograph and a statement of such facts of admission, registration, and personal description as are provided for on the Form I-151. The photograph in the sealed envelope attached to and accompanying the Form 256a shall be used on the Form I-151. Thereafter, the Form I-151 shall be mailed directly from the Central Office to the alien.

(b) If an alien presenting Form 256a is excluded from the United States, data as to the exclusion shall be placed on that form by the chairman of the board of special inquiry and forwarded to the Central Office. The form shall accompany any record of the hearing before a board of special inquiry submitted to the Central Office in appellate or similar proceedings. Where the Form 256a is submitted with such a record, it shall be returned to the port with the notification of the decision, and data as to the facts of the resulting final action at the port shall be placed on the Form 256a, after which it shall be returned to the Central Office.

CROSS REFERENCE: For handling of immigration visas not surrendered at time of entry, see 8 CFR 110.18 and 110.53.

§ 108.7 *Immigrants; land border ports; Form I-448.* At ports where aliens coming directly to the continental United States from Canada or Mexico are admitted, in cases where Form 256a is not presented, a record shall be made on Form I-448 where:

- (a) The alien is held for hearing before a board of special inquiry; or
- (b) Bond is exacted; or
- (c) Head tax is collected; or
- (d) There is no existing record of admission for permanent residence; or
- (e) The alien is admitted on surrender of a permit to reenter the United States; or
- (f) The case comes within some other specific class in which immigrant inspectors are instructed to execute Form I-448; or
- (g) The facts of the particular case are such that a record on Form I-448 is deemed desirable.

§ 108.8 *Immigrants; surrender of cards at time of departure.* When an alien in possession of Form I-151 or any other form of alien registration receipt card, or in possession of an immigrant identification card, certificate of registry, or certificate of lawful entry—issued to him—departs permanently from the United States, he shall surrender such cards and certificates to an immigration officer at the time of departure and the cards and certificates shall be forwarded to the Central Office with Form I-407, processed in accordance with instructions issued by the Commissioner of Immigration and Naturalization. When the holder of a resident alien's border crossing identification card—issued to him—departs permanently from the United States, he shall at the time of departure surrender such card to an immigration officer for cancellation and return to the office of issuance in accordance with the provisions of § 166.6 of this chapter.

PART 110—PRIMARY INSPECTION AND DETENTION

Sections 110.14, 110.15, and 110.16 are revoked.

PART 114—INSPECTION OF CITIZENS AND ALIENS ENTERING FROM OR THROUGH CONTIGUOUS TERRITORY

1. Section 114.2 is amended by adding the following sentence: "Notwithstanding the other provisions of this section, Form I-448 shall not be executed when its use is obviated by the presentation by the alien of Forms 257a, 257b, and 257d or by the preparation of Form I-94."

2. Sections 114.3, 114.4, and 114.5 are amended to read as follows:

§ 114.3 *Preexamination; procedure when admissibility determined.* If and when admissibility is determined, Form I-121, I-448, 257d, or I-94 shall be so endorsed by the appropriate immigration officer, attached to other pertinent immigration documents, and given to the applicant for presentation and surrender at the actual port of entry into the United States. If applicants of any class so preexamined depart for the United States by water from a place other than that at which the preexamination was conducted, the endorsed form shall be countersigned by the appropriate United States immigration officer at the Canadian port of embarkation. Upon the surrender at ports of entry of properly endorsed forms within 30 days from endorsement, the period of the validity of the endorsement, the rightful holders will be promptly admitted if their status has undergone no change since preexamination: *Provided, however,* That holders of visas must apply for admission at ports of entry within the period of validity of their visas, or it is established that such holders began a continuous journey to such ports of entry prior to the expiration of the visas. The actual port of entry into the United States shall be the "record" port of entry for all purposes, including head-tax transactions. Forms I-121 and I-448 shall be completed at such actual port of entry, as will be all other immigration documents. (Sec. 17, 43 Stat. 163; 8 U. S. C. 217)

(Sec. 2 (a), 49 Stat. 1526; 15 U. S. C. sec. 13 (a)). [Modified cease and desist order, Standard Oil Company, Docket 4389, August 9, 1946]

At a regular session of the Federal Trade Commission, held at its office in

the City of Washington, D. C., on the 9th day of August A. D. 1946.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission as amended, answer of the respondent, testimony and other evidence in support of the allegations of said complaint as amended and in opposition thereto taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence and exceptions filed thereto, briefs in support of the complaint and in opposition thereto, and oral argument of counsel; and the Commission having made and entered its findings as to the facts and its conclusion that respondent has violated the provisions of subsection (a) of section 2 of an act of Congress entitled, "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (Clayton Act), as amended by act approved June 19, 1936, (Robinson-Patman Act) issued its order to cease and desist on October 9, 1945. Thereafter, this matter came on for hearing before the Commission upon motion and supplemental motion by counsel for the Commission to modify said order to cease and desist issued on October 9, 1945, answers and briefs of respondent in opposition thereto, motion of respondent for rehearing and reconsideration of said order and motion of National Council of Independent Petroleum Associations for leave to intervene and to set aside said order to cease and desist and reopen the proceedings for further hearings and the taking of further testimony, and the Commission having considered said motions, answers, briefs, and oral argument of counsel and the record herein, and being of the opinion that a modified order to cease and desist should be issued to this cause, and having entered its order modifying said order to cease and desist to the extent set out in said supplemental motion of counsel for the Commission, issued this its modified order to cease and desist:

It is ordered, That the respondent, Standard Oil Company (Indiana), a corporation, and its officers, representatives, agents, and employees, directly or through any corporate or other device in connection with the sale of gasoline in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from discriminating, directly or indirectly, in the price of such gasoline of like grade and quality as among purchasers:

(1) By selling such gasoline to competing purchasers at different prices in the manner and under the circumstances stated in the findings as to the facts herein.

(2) By continuing or resuming the discriminations in price of such gasoline referred to and described in the Commission's findings as to the facts herein.

(3) By otherwise discriminating in price between purchasers of such gasoline in a manner and degree substantially similar to the manner and degree of the discriminations referred to and described in the Commission's findings as to the facts herein.

¹ 10 F. R. 14394.

(4) By selling such gasoline to some retailers thereof at prices lower than the prices charged other retailers who in fact compete with them in the sale and distribution of such gasoline.

(5) By allowing a price to any dealer, jobber, or wholesaler on such gasoline sold by such dealer, jobber or wholesaler at retail lower than the price which respondent charges its retailer-customers who in fact compete in the sale and distribution of such gasoline with such dealers, jobbers or wholesalers in their retailing capacity.

(6) By selling such gasoline to any jobber or wholesaler at a price lower than the price which respondent charges its retailer-customers who in fact compete in the sale and distribution of such gasoline with the retailer-customers of such jobbers or wholesalers, where such jobber or wholesaler resells such gasoline to any of its said retailer-customers at less than respondent's posted tank-wagon price or directly or indirectly grants to any such retailer-customer any discounts, rebates, allowances, services or facilities having the net effect of a reduction in price to the retailer.

For the purpose of comparison the term "price" as used in this order includes discounts, rebates, allowances and other terms and conditions of sale.

The above specified requirements of this order are subject, however, to the following provisos:

(a) That none of the prohibitions of the order shall be taken as inhibiting any price differentials by respondent that were not found under the facts herein to have a tendency to injure, destroy or prevent competition with respondent's customers receiving the benefit of such differentials or with their customers.

(b) That none of the prohibitions of the order shall be taken as preventing any price differentials by respondent which make only due allowance for differences in respondent's cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such gasoline is to such purchasers sold or delivered.

(c) That none of the prohibitions of the order shall be taken as inhibiting a lower price to jobbers than to retailers where respondent thereby makes only due allowance for its differences in cost of manufacture, sale or delivery resulting from the differing methods or quantities in which such gasoline is to such purchasers sold or delivered.

(d) That none of the provisions of the order shall be taken as inhibiting any price differentials by respondent that reflect differences in the grades and qualities of such gasoline.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5535]

PART 171—MISCELLANEOUS REGULATIONS RELATED TO LIQUOR

SUBPART M—REMISSION OR MITIGATION OF FORFEITURES

Section 3726, Internal Revenue Code (U. S. C., title 26, section 3726), authorizes the administrative remission or mitigation of forfeitures incurred under the internal-revenue laws, and adopts, for this purpose, the procedure established by Congress for the customs service by the Tariff Act of 1930. Section 3726 is as follows:

The provisions of law applicable to the remission or mitigation by the Secretary of forfeitures under the customs law shall apply to forfeitures incurred or alleged to have been incurred under the internal revenue laws.

The applicable provisions of the Tariff Act of 1930 are as follows:

Sec. 613 Disposition of proceeds. Any person claiming any vessel, vehicle, merchandise, or baggage, or any interest therein, which has been forfeited and sold under the provisions of this Act, may at any time within three months after the date of sale apply to the Secretary of the Treasury if the forfeiture and sale was under the customs laws, * * * for a remission of the forfeiture and restoration of the proceeds of such sale, or such part thereof as may be claimed by him. Upon the production of satisfactory proof that the applicant did not know of the seizure prior to the declaration or condemnation of forfeiture, and was in such circumstances as prevented him from knowing of the same, and that such forfeiture was incurred without any willful negligence or intention to defraud on the part of the applicant, the Secretary of the Treasury * * * may order the proceeds of the sale, or any part thereof, restored to the applicant, after deducting the cost of seizure and of sale, the duties, if any, accruing on the merchandise or baggage, and any sum due on a lien for freight, charges, or contributions in general average that may have been filed. If no application for such remission or restoration is made within three months after such sale, or if the application be denied by the Secretary of the Treasury * * *, the proceeds of sale shall be disposed of as follows:

(1) For the payment of all proper expenses of the proceedings of forfeiture and sale, including expenses of seizure, maintaining the custody of the property, advertising, and sale, and if condemned by a decree of a district court and a bond for such costs was not given, the costs as taxed by the court;

(2) For the satisfaction of liens for freight, charges, and contributions in general average, notice of which has been filed with the collector according to law;

(3) For the payment of the duties accruing on such merchandise or baggage, if the same is subject to duty; and

(4) The residue shall be deposited with the Treasurer of the United States as a customs * * * fine.

SEC. 618. Remission or mitigation of penalties. Whenever any person interested in any vessel, vehicle, merchandise, or baggage seized under the provisions of this Act, or who has incurred, or is alleged to have incurred, any fine or penalty thereunder, files with the Secretary of the Treasury if under the customs laws, * * * before the sale of such vessel, vehicle, merchandise, or baggage a petition for the remission or mitigation of such fine, penalty, or forfeiture, the Secretary of the Treasury, * * * if he finds that such fine, penalty, or forfeiture was incurred without willful negligence or without any intention on the part of the petitioner to defraud the revenue or to violate the law, or finds the existence of such mitigating circumstances as to justify the remission or mitigation of such fine, penalty, or forfeiture, may remit or mitigate the same upon such terms and conditions as he deems reasonable and just, or order discontinuance of any prosecution relating thereto. In order to enable him to ascertain the facts, the Secretary of the Treasury may issue a commission to any customs agent, collector, judge of the United States Customs Court, or United States commissioner, to take testimony upon such petition: * * *

The purpose to be served by the provisions of section 3726 is, obviously, that

of protecting the interests of innocent persons whose property or any interest therein is jeopardized by a seizure and proposed forfeiture under the internal-revenue laws. It applies to all internal-revenue statutes which provide for such forfeitures, but particularly to section 3321, Internal Revenue Code (U. S. C., title 26, section 3321).

The authority so granted is not, however, in all regards coextensive with the power conferred upon the Secretary of the Treasury by sections 613 and 618 of the tariff act. The requirements of subdivisions (1), (2), (3), and (4) of section 613 relate to the disposition of the proceeds of the sale of forfeited property and not to an application for the remission or mitigation of the forfeiture. Proceeds of the sale of property forfeited under the internal revenue laws should, therefore, be covered into the Treasury as provided by section 3971, Internal Revenue Code. Also by section 618 of the tariff act fines and penalties may be remitted or mitigated, while section 3726, Internal Revenue Code, applies only to forfeitures. Otherwise, the provisions of sections 613 and 618 are invoked for internal revenue violations.

Pursuant to the above sections of law, the following regulations are prescribed for the filing and adjudication of petitions under section 3726, Internal Revenue Code:

- Sec.**
- 171.130 Form of the petition.
 - 171.131 Contents of the petition.
 - 171.132 Time of filing petition.
 - 171.133 Officers with whom filed.
 - 171.134 Discontinuance of administrative proceedings.
 - 171.135 Return of nonacceptable petition to petitioner for correction.
 - 171.136 Investigation of acceptable petition, and report thereon.
 - 171.137 Transmission of petition with reports and recommendation to Deputy Commissioner, Alcohol Tax Unit, Bureau of Internal Revenue.
 - 171.138 Deputy Commissioner, Alcohol Tax Unit, to submit petition and record to Secretary of Treasury, with recommendations.
 - 171.139 Types of final action on the petition by the Secretary of the Treasury.
 - 171.140 Procedure when petition cognizable by Attorney General.
 - 171.141 Procedure when petition cognizable by the Federal Court exclusively.

§ 171.130 Form of the petition. There is no set or standardized form provided or required by the Department for use in filing a petition for remission or mitigation under section 3726, Internal Revenue Code. However, it is preferable that the petition be typewritten on legal size paper; and it is necessary that the petition be executed under oath, prepared in triplicate and addressed to the Secretary of the Treasury, and that all copies of original documents submitted as exhibits in support of allegations of the petition be certified as true and accurate copies of originals. Each copy of the petition must contain a complete set of exhibits. The jurat to a petition must not be executed by an attorney enrolled to practice before the Treasury Department who appears as

the attorney for the petitioner; and a petition signed and sworn to by an attorney enrolled to practice before the Treasury Department who appears as the attorney for the petitioner is not acceptable.

§ 171.131 Contents of the petition—
(a) *Description of property.* The petition should give such a description of the property and such facts of the seizure as will enable the officers of the Alcohol Tax Unit readily to identify the property.

(b) *Statement regarding administrative forfeiture or sale.* If an executive proceeding for summary forfeiture is pending, the petition should state such fact; and if the property has been sold, the petition should also state the date and place of sale.

(c) *Statement regarding knowledge of seizure.* In the event the petition is filed for the restoration of the proceeds derived from sale of the property pursuant to summary forfeiture, it should also contain, or be supported by, satisfactory proof that the petitioner did not know of the seizure prior to the declaration or condemnation of forfeiture, and that he was in such circumstances as prevented him from knowing of the same.

(d) *Statement regarding judicial forfeiture or sale.* If a forfeiture proceeding is pending in court, or has resulted in a sale of the property pursuant to court order, the petition should state the style of the case, the court in which pending or in which the property was sold, the docket number, and the fact that the property has not yet been sold, or, if sold, the date and place of sale.

(e) *Interest of petitioner.* The petition should state in clear and concise terms the nature of the present, recognizable interest of the petitioner in the property to be forfeited, or which has been forfeited and sold, and the facts relied upon to show that the forfeiture was incurred without willful negligence or without any intention upon the part of the petitioner to defraud the revenue or to violate the law, or such other mitigating circumstances as, in the opinion of the petitioner, would justify the remission or mitigation of the forfeiture.

(f) *Petitioner innocent party.* If the petitioner is not the one who in person committed the act which caused the seizure, the petition should state how the property came into the possession of such other person, and the investigation, if any, made of such other person, through principal Federal, State, or local law enforcement officers, prior to parting with the property, to determine whether such other person had either a record or a reputation, or both, as a violator of the laws of the United States or of any State relating to intoxicating liquors, and the information obtained from said investigation.

(g) *Documents supporting claim.* The petition should also be accompanied by copies, certified by the petitioner under oath as correct, of contracts, bills of sale, chattel mortgages, reports of investigators, affidavits, liens for freight, charges, or contribution in general average, and any other papers or documents that

would tend to support the claims made in the petition.

(h) *Costs and expenses.* The petitioner should undertake in the petition to pay all the costs and expenses incurred in seizing and storing the property, as well as the costs borne or to be borne by the United States, the taxes, if any, payable by the petitioner or imposed in respect of the property to which the petition relates, and any sum due on a lien for freight, charges, or contribution in general average that may have been filed, and, if the property has been sold, or is in the course of being sold, the expenses so incurred.

§ 171.132 *Time of filing petition.* A petition may be filed at any time prior to the sale or other disposition of the property involved pursuant to administrative forfeiture, in which event action on the petition will be had in the light of the requirements of section 618 of the Tariff Act of 1930, invoked by section 3726, Internal Revenue Code; but a petition in regard to property which has already been sold or otherwise disposed of pursuant to administrative forfeiture must be filed within three months from the date of sale and the claimant must otherwise meet the requirements of section 613 of the Tariff Act of 1930, invoked by section 3726, Internal Revenue Code. As to "sale," section 306, Title III, Liquor Law Repeal and Enforcement Act (U. S. C., Title 40, section 304 (k)), provides that acquisition for official use is equivalent to sale so far as remission or mitigation is concerned.

§ 171.133 *Officers with whom filed.* The petition should be filed, originally and in triplicate, with the district supervisor of the Alcohol Tax Unit, Bureau of Internal Revenue, for the district wherein the property was seized; or if petitioner prefers he may file the petition with the investigator in charge of the Alcohol Tax Unit for the State wherein seizure of the property involved was made. The officer with whom the petition is filed originally, will immediately stamp the date of receipt on the margin or other appropriate blank space of the petition and of each exhibit thereto. The official date stamp will be used for that purpose. *It is vital that the stamp impressions be legible.*

§ 171.134 *Discontinuance of administrative proceedings.* If the petition covers property pending administrative disposition and is filed prior to the administrative sale of the property under section 3724, Internal Revenue Code, or prior to retention of the property for official use pursuant to Title III of the Liquor Law Repeal and Enforcement Act (U. S. C., title 40, section 304 (f) et seq.), any proceedings for forfeiture, sale, or other administrative disposition will be discontinued.

§ 171.135 *Return of nonacceptable petition to petitioner for correction.* If the petition is defective in some correctible respect, the district supervisor will return all copies of it by letter to the petitioner for proper corrections, amendments, et cetera, or for the submission of a new petition supplying the deficiencies of the

one returned, within a reasonable time in either event.

§ 171.136 *Investigation of acceptable petition, and report thereon.* If the petition as originally filed is acceptable, or has been made so by correction et cetera, an investigation of the merits of the petition will be made and a report prepared thereon.

§ 171.137 *Transmission of petition with reports and recommendation to Deputy Commissioner, Alcohol Tax Unit, Bureau of Internal Revenue.* On conclusion of the investigation of the merits of the petition, the district supervisor will forward to the Deputy Commissioner, Alcohol Tax Unit, Bureau of Internal Revenue, the original copy of the petition, the original copy and one carbon copy of the report of investigation, a legible copy of the case report of the seizure, and a copy of Form 226-A, "Appraisal List." The transmittal letter will give a brief statement as to the seizure of the property, its present forfeiture status, its appraised value, and a summary of the facts and circumstances bearing upon the merits of the petition. The district supervisor will also state his conclusions and recommendations as to the action to be taken on the petition.

§ 171.138 *Deputy Commissioner, Alcohol Tax Unit, to submit petition and record to Secretary of Treasury, with recommendation.* The Deputy Commissioner, Alcohol Tax Unit, shall by transmittal memorandum of the law and facts, approved by the Chief Counsel of the Bureau of Internal Revenue, submit to the Secretary of the Treasury the petition and record, with recommendation.

§ 171.139 *Types of final action on the petition by the Secretary of the Treasury.* Final action on any petition filed pursuant to these regulations shall result either in denial or allowance of the petition by the Secretary of the Treasury. Petitions allowed by the Secretary fall generally into the following five classes on the basis of the terms and conditions of allowance:

(a) The property itself is returnable to the petitioner upon payment by him of all costs and storage; or

(b) The property is returnable to the petitioner provided he pays the difference between the recognized lien and the appraised value, plus all costs, and storage; otherwise the property is sold or acquired for official use by a governmental agency pursuant to forfeiture and the petitioner files claim with the Comptroller General of the United States for payment of his recognized lien in full, or pro tanto, out of the proceeds of sale if the property was sold, or in full out of the proper appropriation of the receiving agency if the property was acquired for official use, less all costs and storage in either event; or

(c) The property, if an automobile or truck, is returnable to the petitioner provided he pays the difference between the amount of his recognized lien and the present appraised value, plus all costs and storage, subject, however, to the right of the Alcohol Tax Unit to pay the petitioner the amount of his recognized

lien, less all costs and storage, and to acquire the vehicle for official use; or

(d) The property itself is returnable to the petitioner upon payment by him of a specified sum in mitigation, proposed by him, accepted by the Department, and made a condition of allowance, or by the Department on its own initiative made a condition of allowance, in either event the petitioner to pay all costs and storage (plus the difference between the recognized lien and the appraised value when that condition is imposed); or

(e) The petitioner's lien is recognized in the amount as established, to be paid, less all cost and storage charges, in full, or pro tanto, out of the proceeds of sale if the property was sold, or in full out of the proper appropriation of the receiving agency if the property was acquired for official use, payment in either event to be through claim filed by the petitioner direct with the Comptroller General of the United States.

§ 171.140 *Procedure when petition cognizable by Attorney General.* If a petition is filed with the Treasury Department in respect of property (a) concerning which proper and timely claim and cost bond under section 3724, Internal Revenue Code, have already been filed and accepted, thus necessitating reference of the seizure to the United States Attorney for institution of judicial forfeiture proceedings or other disposition, or (b) which has been labelled but in respect of which decree of forfeiture has not as yet been entered by the court, or (c) which has otherwise been referred to the Department of Justice or the United States Attorney or is otherwise under their jurisdiction, the petition will be referred to the Attorney General or the proper United States Attorney, depending on whether the petition is received in Washington or in the offices of the district supervisor or investigator in charge of the Alcohol Tax Unit, as being a matter in which the function of decision is to be exercised by the Department of Justice under the provisions of the second paragraph of section 5 of Executive Order No. 6166 (see U. S. C., title 5, notes under section 124). In any one of these situations the Treasury Department (through the district supervisor) will undertake investigation of the merits of the petition when requested to do so by the Department of Justice or the United States Attorney.

§ 171.141 *Procedure when petition cognizable by the Federal Court exclusively.* If a petition is filed with the Treasury Department in respect of property which has already been forfeited judicially, the petition will be returned to the petitioner with explanation that under section 204 (a), Title II, Liquor Law Repeal and Enforcement Act (U. S. C., title 18, section 646) the Federal court has the exclusive jurisdiction to remit or mitigate the forfeiture. If such petition is thereafter filed with the court and the Department of Justice or the United States Attorney so requests, the Treasury Department will undertake (through the district supervisor) to investigate the merits of the petition.

These regulations shall take effect on September 10, 1946.

[SEAL] WM. T. SHERWOOD,
Acting Commissioner of
Internal Revenue.

Approved: September 9, 1946.

PART 3293—CHEMICALS

[Limitation Order L-355, as Amended Sept. 10, 1946]

ETHYL FLUID

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead and tetraethyl lead, both imported and domestic, for defense, for private account and for export; and the following order is deemed necessary and appropriate to the public interest and to promote the national defense:

§ 3293.662 Limitation Order L-355—

(a) *Definitions*. For the purposes of this order:

(1) "Ethyl fluid" is a mixture of tetraethyl lead and other ingredients designed to raise the octane number of gasoline. It includes: (i) "Motor ethyl fluid" which is ethyl fluid containing organic chlorides and bromides designed for use in motor gasoline for land- and sea-going engines; and (ii) "Aviation ethyl fluid" which is ethyl fluid without organic chlorides designed for use in aviation gasoline.

(2) "Use" means to blend ethyl fluid with gasoline or any component of gasoline or to blend ethyl fluid or gasoline containing ethyl fluid with any other material that can be blended with gasoline.

(3) "Base period" means the three months of November, December, 1945 and January, 1946 or such other period heretofore or hereafter established for a particular user by the Civilian Production Administration on appeal.

(b) *Restrictions on delivery*. (1) No producer of ethyl fluid shall deliver to any person in any calendar month more than 24% of the aggregate quantity of motor ethyl fluid delivered to such person in the base period except that when a person certifies to a producer that he used more ethyl fluid than the quantity he received in the base period, the producer may deliver to such person in any month a quantity not in excess of the aggregate of 27% of the quantity certified to have been used in the base period in production of house brand gasoline and 22% of the quantity certified to have been used in the base period in production of premium gasoline.

(2) No producer of ethyl fluid may export outside the United States, its territories or possessions, in any calendar month, more motor ethyl fluid than 24% of the aggregate quantity exported in the base period except on special authorization by the Civilian Production Administration.

(3) No person shall accept delivery of motor ethyl fluid at any one blending point if his inventory of motor ethyl fluid at that point is or will by virtue of such delivery become more than he needs in

the succeeding 30 days on the basis of his current or scheduled rate of operations. Persons normally receiving deliveries of motor ethyl fluid by tank car or tank truck shall not maintain any inventory except in scale tanks for blending motor ethyl fluid with gasoline.

(4) Nothing in this paragraph shall prevent the delivery and receipt of a minimum tank car, tank wagon or drum carload by any person whose inventory of motor ethyl fluid is less than 30-days' supply.

(c) *Restrictions on use*. (1) No person shall in any month beginning with June, 1946 use a greater quantity of motor ethyl fluid than the aggregate of 27% of the quantity used in the base period in production of house brand gasoline and 22% of the quantity used in the base period in production of premium gasoline. A person's consumption quota may be used in either house brand or premium gasoline without regard to percentage of use in the base period so long as gasoline of higher than 78½ octane is not produced.

(2) No person shall use aviation ethyl fluid in the production of motor gasoline or any component thereof, or use any gasoline component containing aviation ethyl fluid in the production of motor gasoline.

(3) No person shall use ethyl fluid or gasoline containing ethyl fluid to produce motor gasoline having higher octane than 78½ octane (not to reach 79 octane ASTM-D-357-45) at blending point for use in motor-propelled vehicles, trucks, tractors or boats except to fill military contracts on special authorization from the Civilian Production Administration or to produce aviation gasoline of 100 octane (A & N grade 100-130) or higher, except on special authorization from the Civilian Production Administration.

(d) *Exceptions*. Nothing in this order shall prevent the delivery, receipt and use for laboratory purposes of ethyl fluid in containers of one litre or less.

(e) *Newcomer's quota*. Any person who was not a user of ethyl fluid in November or December, 1945 or January, 1946 and who wishes to have a quota established for him to receive or use ethyl fluid in any calendar month, may apply by letter to the Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L-355.

(f) *Carry-over*. If a person uses less ethyl fluid than he is permitted to use in any calendar month, he may add this quantity to his consumption quota but not to his delivery quota, in the succeeding month.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations*. This order and all transactions affected hereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(2) *Appeals*. Any appeals from the provisions of this order shall be made by filing with the Civilian Production Administration, Chemical Division, Washington 25, D. C., Ref.: L-355, a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Violations*. A person who wilfully violates any provision of this order or

who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment.

(4) *Communications to Civilian Production Administration.* Communications concerning this order, shall, unless otherwise directed, be addressed to: Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L-355.

(5) [Deleted on Sept. 10, 1946.]

Issued this 10th day of September 1946.

**LIST B—RESTRICTIONS ON SPECIAL SALES FOR
EXPORT**

Explanation and Scope

§ 944.34 *Priorities Regulation 13—(a) What this regulation does.* This regulation covers special sales, which, in general, are sales of materials or products by persons who acquired or made them for use and not for sale or resale. This is more fully explained in paragraph (b) (1). Special sales may be made freely, except for certain sales of surplus under CPA directions, materials or products on List A (Domestic) or List B (Export), and certain sales as scrap. This is the only CPA regulation on special sales, and a seller who wants to make a special sale need not look at any other CPA regulation or order unless this regulation says he must. However, all buyers must comply with applicable CPA orders on use, inventory, resale, etc., as explained in paragraph (j).

(b) *Definitions.* As used in this regulation:

(1) "Special sale" means a sale of a material or product by any person (including a Government agency) who acquired or made it for use and not for sale or resale. All sales by trustees in bankruptcy, receivers and other kinds of liquidators (in the course of liquidation as distinct from continued operation of a business) are special sales even though neither they nor their beneficiaries bought for use. All sales at public auction by general auctioneers are special sales regardless of the purpose for which the material or product was acquired. All sales of surplus materials or products by Government agencies are special sales. Transfers of materials acquired or made for use, from one plant or operating unit to another which is owned by the same person but which normally buys separately, are special sales.

(2) "Material or product" means any commodity, equipment, accessory, part, assembly or product of any kind in finished, semi-finished or raw material form.

(3) A "used" material or product is one which has been put into actual use.

(4) "Persons buying for use" include, among others, a contractor who buys with intent to incorporate the material in a building or product for a third person.

(c) *Sales not covered by this regulation.* The following types of sales are not considered special sales and are not governed by this regulation, even though they may involve materials or products acquired or made for use:

(1) A sale of a material or product by a person regularly engaged in the business of selling it. He is governed, however, by all CPA orders and regulations which apply to his business and to the material or product he is selling.

(2) Sales of plant-generated scrap, meaning scrap which is generated in the course of manufacture or is the waste of industrial fabrication. Sales of other kinds of scrap are covered by paragraph (i).

(3) Sales of rationed products which are controlled by another Government Agency.

(4) Sales of foods for humans or animals, medicines, tobacco, oils and fats, petroleum and petroleum products including natural and liquefied petroleum gases.

(5) [Deleted Oct. 1, 1945.]

(6) A sale of an entire business which is transferred as a going concern to a new owner who continues to operate it in the same or substantially the same form.

(7) [Deleted Oct. 1, 1945.]

General Rules for All Special Sales

(d) *Most special sales may be made freely; general rules.* A seller may make a special sale of most materials or products freely to anyone without CPA authorization and without requiring the buyer to apply or extend a preference rating. The only exceptions are certain sales of surplus under CPA directions, special sales of materials or products on List A (domestic sales) and on List B (export), and certain sales as scrap, as explained in paragraphs (d) (4), (g), (h) and (i). In addition, all sellers are subject to the following general rules and conditions:

(1) If the seller knows that a person who wants to buy the material or product will use it for a prohibited purpose or would have more of it than he is permitted to have, the sale may not be made. The buyers' obligations are stated in paragraph (j).

(2) At special sales, preference ratings have no effect either by way of obliging a holder to sell or by way of determining as among several buyers who shall get the material or product. However, this does not excuse a seller from complying with the restrictions on List A or B applying to the items listed.

(3) Even if the buyer gives the seller a preference rating at a special sale, the seller cannot use this rating to replace the material or product he has sold. The effect of this rating stops when the seller receives it.

(4) If the sale relates to surplus Government-owned or Government-involved materials or products (including contractor inventories and sales by owning or disposal agencies), the seller may be subject to regulations of the War Assets Administration. The seller must also comply with any directions on specific materials or products which may be issued by the CPA as part of this regulation or otherwise.

(e) *Use of material acquired with priorities assistance.* This regulation does not change the general rule of § 944.11 of Priorities Regulation 1 that material acquired with priorities assistance must, if possible, be used for the purpose for which the assistance was given. Where such material cannot be used for this purpose, then this regulation applies if a special sale is made.

(f) *Sales through an agent.* Where a person sells through an agent, except at public auction sales, the sale is a special sale only if it would be a special sale if made directly by the principal. If it is a special sale, the restrictions of this regulation apply to the principal and also to his agent if the latter knows or has reason to know the facts. In cases of special sales made at public auctions, the restrictions of this regulation are applicable both to the auctioneer and to his principal.

Restricted Special Sales

(g) *Materials or products on List A.* A special sale of a material or product on List A attached to this regulation, other than a sale for export, may be made only under the conditions described in the list.

(h) *Materials or products on List B (export).* A special sale of a material or product on List B to a foreign purchaser or to a domestic purchaser who is buying for export or for resale to a foreign purchaser may be made only under the conditions described in the list. Used materials or used products, however, may be sold freely for export unless a notation on List B indicates a restriction on the sale in their used condition. Also, if an exporter, is unable to export material purchased for export, he may make a special sale of it in the domestic market under the rules of this regulation. Nothing in this regulation relieves any exporter from complying with all applicable regulations of the Office of International Trade, Department of Commerce, or other Government

agencies who may have jurisdiction over exports.

(i) *Sales as scrap of materials or products other than plant-generated scrap.*

(1) Any material or product (other than those listed below and plant-generated scrap) may be sold as scrap in a special sale if it is obsolete, unusable or not-readily-salable and will be used or consumed principally as scrap although some part of it may possibly be salvaged by the scrap buyer. A person may make such a special sale as scrap without stripping, disassembling or breaking up the material or product before sale. The sale may be made either to any consumer of scrap to be used only as scrap, or to any person regularly engaged in the collection, disassembling, sorting, and disposal of that kind of scrap material, primarily for remelt or other scrap use. Subsequent sales of any salvaged materials or products by such a scrap dealer are not covered by this regulation, but are subject to any CPA orders or regulations which apply to the distribution of the particular material or product. The above does not apply to the following:

Used tin cans sold as scrap are governed by Order M-325.

(2) If the buyer by contract, warranty or otherwise has stated that the particular material or product being sold as scrap will be used or disposed of as scrap, this regulation does not relieve the buyer from compliance with that condition.

(3) The sale at low prices, even as low as scrap prices, of prime or off-grade materials or products for use or resale "as is" does not constitute a sale as scrap and such sales may not be made under this paragraph. Instead such a sale is subject to all the other rules of this regulation which apply to special sales of the particular materials or products.

(4) This paragraph permits special sales as scrap only for use or resale within the United States, its territories or possessions.

Provisions Relating to Buyers

(j) *Provisions relating to buyers*—(1) *Use and quantity restrictions still apply.* The buyer at a special sale may not violate any CPA order or regulation controlling the amount of any material or product he may make or the use or disposition that he may make of it. He must also comply with any applicable order which limits the amount of any material or product he may buy (in terms of a specified quantity or quota as distinguished from a provision requiring CPA permission for all purchases. The latter type of provision does not apply when a special sale is made unless required by this regulation). All the prohibitions in CPA orders or regulations against the use of materials or products for particular purposes remain in effect, and even though a special sale may not be restricted by this regulation, the buyer may have to get permission to use under the applicable order.

(2) *Inventories.* (i) Persons buying for use may accept delivery of any item of a material or product bought on a special sale under this regulation if his total inventory of that item is or will be in excess of accepting such delivery be not in excess of his succeeding 90 days require-

ments. Directions issued pursuant to this regulation may impose more restrictive limitations on particular products. This permits a person to exceed other applicable inventory limits only if he acquires the excess under this regulation. However, if as a result of deliveries of materials or products accepted under this paragraph, his working inventory exceeds a practicable minimum or other applicable limits, he must promptly adjust his outstanding orders with his suppliers, and, if necessary, postpone or cancel them as described in paragraph (e) of Priorities Regulation 32. Paragraph (h) of Priorities Regulation 32 explains what receipts are permitted from suppliers after adjustment of orders. This paragraph does not permit a person to stockpile in anticipation of starting or resuming civilian production, except as permitted by Priorities Regulation 32. However, if any applicable CPA order or regulation permits a larger inventory than 90 days, this paragraph does not restrict receipts below the larger amount.

(ii) Persons buying for resale are subject to all applicable inventory restrictions. However, any material obtained under this regulation by such persons must be offered for sale promptly in accordance with applicable CPA orders and regulations.

(3) *Persons buying for resale.* If a person at a special sale buys a material or product for resale, he may not resell in violation of any CPA regulation or order which applies to persons engaged in the business of selling the particular material or product. Even if the buyer for resale has not previously sold the material or product as part of his regular business, he is subject to the same restrictions in reselling as a regular wholesaler, retailer or other distributor of it under all applicable CPA regulations and orders, unless the particular regulation or order specifically states otherwise. For example, if an order requires specific CPA permission before a regular distributor of a product can sell it, any person who buys it at a special sale for resale must do what the order says.

(4) *Reports.* If any order or regulation provides that a buyer of a material or product must make any report or furnish any information either to the Civilian Production Administration or to the seller, this regulation does not excuse him from these requirements.

[(5) *Obligations of persons giving certificates.* Any person giving any of the certificates required by this regulation may obtain and use or dispose of the materials or products which he gets with his certificate only in accordance with its terms.

Miscellaneous Provisions

(k) *Records.* Any person making a sale under this regulation must keep sufficient records so that he can show that the sale was permitted under this regulation.

(l) *Revisions of Lists A and B.* Lists A and B attached to this regulation will be revised from time to time. A person wishing to sell a material or product under this regulation should be sure that he has the lists which are in effect at the time of the sale.

(m) *Letters and questions.* Any letters or questions about this regulation should be sent to the Civilian Production Administration in Washington 25, D. C., marked "Ref: P.R. 13".

Issued this 10th day of September 1946.

CIVILIAN PRODUCTION
ADMINISTRATION,

LIST A—RESTRICTIONS ON SPECIAL SALES
(DOMESTIC)

A. *General rules.* Special sales in the domestic market of materials or products in Column 1 of List A below are restricted to certain classes of buyers as indicated below in section B, and in accordance with any special rules for a particular material or product as shown on the list. The listings show in some instances the class or group of materials and do not always list all the trade names and related materials. Exceptions to the restrictions are indicated below in section C. Special sales of materials or products not listed may be made freely, but all special sales are subject to the general rules in paragraphs (d), (e) and (f) of the regulation.

B. *Classes of buyers.* Special sales of materials or products on this List A may be made to the following classes of buyers:

(1) To a producer of the same kind of material or product.

(2) To a reprocessor, unless a note in Column 4 of the list indicates to the contrary with respect to a particular material or product. A reprocessor means any person who remakes, repairs or reworks new, rejected or second-grade materials or products of the kind being sold.

(3) To a regular dealer, unless Column 3 or a note in Column 4 of the list indicates to the contrary with respect to a particular material or product. A dealer means any wholesaler or retailer regularly dealing in the materials or products of the kind being sold, and reselling them from stock or inventory to industrial users or to other persons. It also includes persons who recondition or rebuild equipment and machinery of the kind being sold for resale to industrial users. Such persons are not, however, relieved from compliance with any CPA orders or regulations which control the distribution of the material by them.

If this List A shows no restrictions on the special sale of a material or product to a regular dealer, the seller may sell it to any person for resale who gives him the following certification, provided the seller has no reason to believe that it is false.

The undersigned buyer certifies under Priorities Regulation 13 to the seller and to the CPA that he will in good faith offer for sale the material or product covered by this order in substantially the same time and manner as would a person regularly dealing in it, that he will render substantially the same type of service as would such a person, and that he will comply with all CPA regulations and orders applicable to such a person.

(Signature)

Any person giving such a certification must comply with all applicable CPA regulations and orders as he has certified he will. The standard certification provided in Priorities Regulation 7 may not be used in place of this certification.

(4) To persons buying for use subject to the restrictions indicated in Columns 2 and 4 of the list.

C. *Exceptions from the restrictions on the list.* Even if this List A shows a restriction on the special sale of a particular material or product, the sale may still be made if one or more of the following conditions apply:

(1) *Special permission.* If the list requires special authorization from the CPA in order for a sale of a particular material or product to be made, or if other conditions imposed by the list cannot be met, the seller may apply on Form CPA-1161 for special permission to sell unless the list states that some other form must be used. If Form CPA-1161 is applicable, and permission is given, it may be restricted to a specific buyer or class of buyers, or may permit the sale to any buyer for resale who gives the certification described in section B (3) above relating to dealers.

(2) *Used materials or products.* If the material or product is used, it may be sold freely to anyone unless a notation on List A indicates a restriction on its sale.

(3) *Small quantity exemption.* A special sale may be made freely if all the material or product of the same kind or type that the seller has at any one plant, operating unit or location did not cost him more than \$100. In the case of any materials or products involved in a Government contract termination, this exemption applies if there is no more than \$100 worth of the material or product in the termination inventory at any one location. Similarly, \$100 worth (at cost) of any material or product may be sold at any single public auction, regardless of the amount of the material or product the seller has. Also, for the purpose of determining whether a particular lot of material or product is suitable for

the prospective customer's use, a person may make a special sale of a sample lot, provided the amount involved (at cost to the seller) of any such sample does not exceed \$20.

(4) *Special orders.* If the Civilian Production Administration by an order or in any other way has ruled that all persons engaged in a particular business may sell or exchange the materials or products between themselves, they may do so.

(5) *Disposal of contract termination inventories.* For the purpose of making a settlement of a Government contract, surplus materials or products on List A may be transferred freely from any subcontractor or prime contractor to a procuring agency or disposal agency of the Government, providing the procuring agency has so directed. However, if any material or product is later withdrawn from the contract settlement, its disposition is controlled by this List A.

(6) *Sales to Government stockpiling agencies.* A person may sell surplus materials or products on List A freely to one of the following Government Corporations or to anyone buying as agent for one of them: Commodity Credit Corporation or Reconstruction Finance Corporation (Office of Defense Supplies, Office of Metals Reserve, or Office of Rubber Reserve).

(7) *Transfers of surplus Government-owned materials or products.* Transfers by Government agencies of surplus materials or products, or of idle or excess materials or products not acquired for sale or resale, may

be made freely to a Government Disposal Agency acting as such and may be made freely between and within the War Department, Navy Department, Maritime Commission, War Shipping Administration, Veterans' Administration, and the Reconstruction Finance Corporation, Office of Defense Plant, and from the Government Disposal Agencies to any of the above.

D. Buyers obligations. No matter who the buyer is or how the sale is made or authorized, the buyer is always subject to the conditions and other provisions stated in paragraph (j) of the regulation.

EXPLANATION OF TERMS USED

"CPA-1161" (or other designated Civilian Production Administration form number) means that the seller may not sell to the class of buyer listed at the head of the column without special Civilian Production Administration permission pursuant to application on the form specified. A note in the Remarks Column may show limited exceptions to this requirement. Section C (1) in the introduction to this list tells how to get permission.

"WOP" means that the seller can sell to the class of buyer listed at the head of the column without any preference rating, allocation, or other special permission being necessary.

Provisions in the Remarks Column applicable to the particular material or product must be complied with.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM [Priorities Reg. 34]

SALES OF CERTAIN CRITICAL MATERIAL BY RECONSTRUCTION FINANCE CORPORATION

§ 944.55 *Priorities Regulation 34*—(a) *What this regulation does.* There is a shortage in the supply of certain materials held by the Reconstruction Finance Corporation and various government agencies, for defense, for private account and for export. This regulation states the rules under which the Reconstruction Finance Corporation may sell these critical materials, either from its own stock, or for and on behalf of the owning agencies. Where a special authorization to buy the materials is required from CPA, the regulation explains who may apply and how to do so. The regulation applies only to the materials listed in the attached Table A. This table includes, but is not limited to, certain strategic materials covered by War Assets Administration Regulation 17, as to which CPA has determined that there is a deficiency in the supply for the current requirements of industry.

(b) *Restrictions on sales by RFC*—(1) *Materials requiring special authorization by CPA.* In some cases Table A requires special authorization from the CPA in order for a sale of a particular material to be made by RFC. Column 3 of Table A shows the Civilian Production Adminis-

tration division or branch responsible for the material, and a note in column 4 opposite these items explains how persons wishing to buy them from RFC may apply to the appropriate CPA division or branch, Washington 25, D. C., for authorization to do so. Applicants should indicate the purpose for which the material is required, their present inventory of the material requested, the number of days supply represented by their present inventory plus the amount requested based on their current or scheduled rate of operation, the efforts made to obtain the material from regular sources of supply, the efforts made to obtain and use a suitable substitute, and any other information pertinent to the application. In general authorizations will be granted only if the material is not available from regular sources of supply and no suitable substitute material is available.

(2) *Materials for which no special authorization is required by CPA.* If Table A indicates that no special authorization is required for a sale of a particular material, the RFC may sell it without further instructions from CPA. However, if a note in Column 4 opposite the item requires that the purchaser give a certificate with his purchase order, RFC may sell only to persons who give it in writing the certificate specified. The standard certification in Priorities Regulation 7 may not be used instead of these certificate.

(c) *Restrictions on buyers*—(1) *Use and inventory restrictions.* A person buying critical materials from RFC may not violate any CPA order or regulation controlling the amount of any material he may receive or the use or disposition he may make of it. Persons buying for resale are subject to all applicable inventory restrictions, and any material obtained under this regulation by such persons must be offered for sale promptly in accordance with applicable CPA orders and regulations.

(2) *Obligation of person giving certificates.* Any person giving one of the certificates required in Table A may obtain and use or dispose of the materials he gets with the certificate only in accordance with its terms.

(d) *Special directives.* In cases of extreme urgency CPA may issue directives to RFC directing the delivery of specified quantities of materials to a named buyer or class of buyers.

NOTE: The application and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 10th day of September 1946.

[Control Order 2, Amdt. 5 to Supp. 1¹]

LIVESTOCK SLAUGHTER

Supplement 1 to Control Order 2 is amended in the following respects:

PART 1351—FOOD AND FOOD PRODUCTS
[2d Rev. MPR 270, Amdt. 16]

DRY EDIBLE BEANS AND CERTAIN OTHER DRY FOOD COMMODITIES

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 270 is amended in the following respects:

1. Section 1 is amended to read as follows:

SEC. 1. Commodities and types of sales covered and geographical applicability—(a) Commodities and sales covered.

This regulation covers the kinds and varieties of dry edible beans and dry whole and split peas that are not specifically named herein. They will be referred to as "listed commodities." Those kinds and varieties that are not specifically named are not subject to this or any other Maximum Price Regulation. This regulation establishes maximum prices for all sales of the listed commodities except sales by wholesalers and retailers as those terms are defined in MPR's 421,¹ 422,² and 423,³ respectively, export sales (see 2d Revised Maximum Export Price Regulation⁴), sales of dry peas by growers to processors and dealers, sales of seed peas and certain sales of seed beans.

(b) Geographical applicability. This regulation applies to the 48 States of the

⁵ 8 F. R. 4132.

United States and the District of Columbia.

2. Section 2a is deleted and a new section 2a is added, to read as follows:

SEC. 2a. Sales of unprocessed dry edible beans—(a) Purposes of this section. This section defines "unprocessed dry edible beans" and certain other terms used in connection with the provisions covering their sales. It sets forth the maximum prices for all sales of unprocessed dry edible beans and explains how those prices are to be determined and applied.

(b) Definitions. As used in this regulation, the term:

"Unprocessed dry edible beans" means dry edible beans that either (1) have not been "processed" as that term is defined in section 2, or (2) if processed, grade lower than U. S. No. 2 in the case of baby or standard lima beans or lower than U. S. No. 3 for all other varieties.

"Sound beans" means sound beans as that term is defined in "U. S. Standards for Beans," revised September 1, 1941, published by the U. S. Department of Agriculture.

"Official inspection" means inspection of the particular lot of beans by a person and in the manner authorized by the U. S. Department of Agriculture or by the state in which the beans were produced.

(c) Applicability of maximum prices. The maximum prices established by this section apply to the quantity of sound beans in the lot being priced. Except for beans produced in California and Idaho (See paragraph (e) below) and except for the sales described in the paragraph immediately following this paragraph, the quantity of sound beans in any particular lot of unprocessed dry edible beans must be determined by the buyer and seller in accordance with customary practices in the state where the beans were produced. In any case, the purchase price may not be paid or received until the quantity of sound beans in the lot has been determined in the appropriate manner specified in this section.

In all sales of unprocessed dry edible beans to canners, freezers, or other commercial processors (as distinguished from "processors" as defined in section 2) or to persons other than growers, processors or dealers, the quantity of sound beans in the lot must be determined by official inspection and a certificate thereof must be secured by the seller and furnished to the buyer.

(d) Maximum prices. Except for beans produced in California (See paragraph (e) below) the maximum prices for all sales of unprocessed dry edible beans are as follows:

Maximum prices f. o. b. processing plant or buyer's premises.

Variety	Maximum price per cwt. of sound beans
Pea and medium white beans (Navy)	\$8.60
Marrow beans (not including red marrow)	9.85
Great Northern Beans	8.25
Large and small white beans (including flat small white)	8.60
White Kidney beans	10.95
Red Kidney beans	10.35
Cranberry Beans (other than Western)	8.60

Variety	Maximum price per cwt. of sound beans
Cranberry Beans (Western)	\$8.60
Small Red Beans	8.60
Pink Beans	8.60
Bayo Beans	7.30
Blackeye Beans (Cow Peas of the Blackeye variety)	7.85
Pinto Beans	8.10
Lima Beans (standard)	10.10
Baby Lima Beans	8.35
Yellow eye beans	8.85

If the seller does not deliver the beans being priced to the elevator or buyer's premises, he must deduct, from the maximum price otherwise applicable, an amount equal to the cost of transporting the particular beans from the point of delivery to the nearest elevator or processing plant. If the seller delivers the beans to a point beyond the buyer's premises or processing plant, he may include in his maximum price the cost of transportation as that term is defined in Section 5.

(e) Exceptions for unprocessed dry edible beans produced in Idaho & California. (1) The quantity of sound beans in the lot being sold must be determined by official inspection and a certificate thereof must be secured by the seller and furnished to the buyer. On resale of any lot of dry edible beans, whether processed or unprocessed, that were purchased as unprocessed dry edible beans, an official certificate of inspection and grade must be secured by the seller and furnished to the buyer.

(2) For all sales of unprocessed beans produced in California the maximum price, in each case, is, 10¢ per hundred-weight less than the price established in paragraph (d) of this section.

3. Section 3a is added to read as follows:

SEC. 3a. Special provisions for sales of seed beans—(a) Purposes of this section. This section applies only to "selected seed beans" and "certified seed beans" as those terms are defined in paragraph (b) below. It lists the conditions under which sales of seed beans are exempt from the pricing provisions of this regulation. It is not the purpose of this regulation to control the sale or distribution of seed. However, no sale of seed beans is exempt unless the applicable definition in paragraph (b) and the conditions in paragraph (c) are fully satisfied. In all other cases the maximum price is the seller's maximum price otherwise established by this regulation for sales of the particular kind, variety and grade of beans being sold.

(b) Definitions: "Selected seed beans" means dry edible beans that (1) have been especially selected as suitable for planting purposes, (2) are U. S. No. 1 grade or better, (3) comply fully with the requirements of any applicable state seed law and the Federal Seed Act of 1939, and percentage of germination, and (4) are in original containers of a minimum net weight of 100 pounds (or 90 lbs. in the case of blackeye beans).

"Certified seed beans" means beans that (1) have been certified as seed beans by either (i) the state in which they were produced, (ii) a federal-state agency of

that state, (iii) an agency authorized by that state to certify seed or (iv) an association that is a member of or affiliated with the International Crop Improvement Association and (2) are in original containers of a minimum net weight of 100 pounds (or 90 lbs. in the case of blackeye beans), sealed, stamped or otherwise officially marked by the certifying agency. If the beans were produced in California they must be officially identified as "Calapproved" or certified by the California Crop Improvement Association and officially identified as "California Certified."

(c) Exempt Sales—(1) Certified seed beans. All sales of certified seed beans for planting purposes or for resale for planting are exempt from the pricing provisions of this regulation.

(2) Selected seed beans. Sales of selected seed beans are exempt from the pricing provisions of this regulation if the goods are delivered to a point within the planting area specified below for the particular variety being sold, for planting within that area. In any case where delivery is made to an area other than the planting area specified for the particular variety, the sale is exempt only if made to a grower within the state where the particular beans were produced, for planting within that state.

In all cases, the seller must secure from the buyer and retain with his other records of seed stock sales, a statement signed by the buyer, setting forth the names and addresses of the parties, the kind, variety and quantity of seed stock sold and purchased, the date and place of delivery, and a statement that the goods have been purchased for planting purposes.

If a grower resells selected seed beans that he has purchased, the sale is not exempt and the maximum price is a processor's maximum price for non-seed beans of the particular variety and grade.

The planting areas for the various kinds or varieties of seed beans are as follows:

Variety ¹	Planting Area
Pea beans	Western New York. ²
Great Northern beans	Western Nebraska.
Red kidney beans	Western New York. ³
Cranberry beans	Michigan, western New York. ³
Pinto beans	Colorado, western Nebraska, New Mexico.

¹Sales of selected seed beans of the varieties covered by this regulation but not mentioned in this table are exempt only if sold and delivered to growers within the state where produced, for planting within that state.

²Western New York, means the counties of Jefferson, Oswego, Oneida, Madison, Chenango, Broome and all counties in New York State west thereof.

4. Section 3 is amended in the following respects:

a. In paragraph (a) the title of Table I is amended by adding thereto the words "1945 crop."

b. The undesignated paragraph following Table I is deleted.

c. Table III is deleted and a new table III is added, to read as follows:

§ 8302.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the Act.

(b) *Other terms.* (1) [Deleted Aug. 19, 1946.]

(2) "Standard administrative and maintenance property" means all property from time to time listed in stock catalogues issued by the Procurement Division of the Treasury Department. These catalogues normally include, among other items, office supplies, furniture and equipment, and maintenance operating supplies.

(3) "State and local governments" means any State, territory, or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

(4) "Own" business or professional or agricultural enterprise of a veteran means one of which more than fifty (50) per cent of the invested capital thereof is beneficially, and not merely nominally or formally, owned by a veteran or veterans, or one of which more than fifty (50) per cent of the net income thereof beneficially, and not merely nominally or formally, accrues to a veteran or veterans. A veteran may be deemed to have his "own business or professional or agricultural enterprise" for the purpose of acquiring particular tools or equipment when he is engaged by others as an employee or agent and is required by his employment to have his own tools or equipment.

(5) "Small business" when used herein means a veteran's own small business and may include any commercial or industrial enterprise or group of enterprises under common ownership or control, which does not at the date of purchase of surplus property hereunder have more than five hundred (500) employees, or any such enterprise which by reason of its relative size and position in its industry is certified by War Assets Administration to be a small business.

(6) "Veteran" means any person in the active military or naval service of the United States during the present war, or any person who served in the active military or naval service of the United States on or after September 16, 1940, and prior to the termination of the present war, and who has been discharged or released therefrom under honorable conditions. Veterans "released" from military or naval service shall include persons on terminal leave or final furlough and those whose status has been changed from "active" to "inactive".

§ 8302.2 *Scope.* This part shall apply only to disposals made by disposal agencies within the continental United States, its territories or possessions; *Provided*, That § 8302.10 shall apply only within the continental United States. This part shall not apply to any disposals of real property; nor to personal property appurtenant to, or severed from, or assigned for disposal in connection with, real property, and disposed of pursuant to Parts 8305¹, 8310², 8316³, or 8320⁴.

§ 8302.3 *Applicability of regulations and directives of other agencies, and disposals which may be exempted from*

¹ Reg. 5 (11 F.R. 7611, 7969).

² Reg. 10 (11 F.R. 7583).

³ Reg. 16 (11 F.R. 7427, 8361).

⁴ SPA Reg. 20 (11 F.R. 182, 561, 3302, 7431).

this part. (a) Transfers pursuant to the provisions of section 502 (b) of the Lanham Act, as amended, may be made without regard for any provisions of this part.

(b) Except for disposals under paragraph (a) of this section, disposals made hereunder shall be subject to applicable regulations and directives issued under the authority of the Veterans' Emergency Housing Act of 1946, or under the authority of any law referred to in section 34 (b) of the Surplus Property Act of 1944 including those issued by the War Production Board, the Civilian Production Administration, the Office of Price Administration, and the Secretary of Agriculture, and shall be exempted from the provisions of this part to the extent necessary to comply with the provisions of such regulations and directives.

(c) Subject to the provisions of paragraphs (a) and (b) of this section, disposal agencies may dispose of surplus property without regard for any provisions of this part:

(1) Until peace is concluded to supply the needs of the armed forces;

(2) When, upon a finding by the Secretary of Agriculture that farm production is impaired or threatened to be impaired, the Administrator shall, pursuant to the provisions of Part 8303,⁵ direct the disposal of trucks, machinery, or equipment (including farm supplies) to farmers or farmers' cooperatives;

(3) When the property is of such nature or in such situation that its immediate disposal is necessary to prevent its deterioration, spoilage, or serious loss or damage;

(4) When, upon application to the War Assets Administrator by a disposal agency, the Administrator shall find that it is impracticable or uneconomical for the disposal agency to be required to dispose of designated property according to the provisions of this part;

(5) When the nature or condition of any surplus property sold is such that it is not usable or safe for use by the consumer in its existing form without processing, reprocessing, reconditioning, or repackaging;

(6) When the cost (estimated if not known) of all substantially similar items of such property in the possession of the disposal agency at any one location at any one time does not exceed \$300; or when the cost (estimated if not known) of any group of identical items, normally constituting a single entry on War Assets Administration Form 1001 and in the possession of the disposal agency at any one location at any one time, does not exceed \$100.

§ 8302.4 *Set-asides for veterans.* (a) Except as to the amounts of any prop-

erty necessary for the temporary use of any disposal agency to carry out its responsibilities in disposing of surplus property under the Surplus Property Act of 1944, each disposal agency to which there is assigned for disposal any property of the types set forth in Exhibit A shall set aside all of such property in its possession for exclusive disposal to veterans for their own personal use, or to enable them to establish or maintain their own small business, professional, or agricultural enterprises. Such property shall be held for disposal to veterans holding certificates issued pursuant to § 8302.8 for a period of not less than fifteen (15) days after public notice of its availability for such disposal, or for such longer period as the Administrator may direct, and any balance remaining undisposed of thereafter may be made available for disposal in accordance with the other provisions of this part.

(b) In disposing of property to veterans under this section disposal agencies may establish the maximum and minimum quantities which may be acquired by any one veteran at any one time during a given period of time. When the supply of any type of surplus property offered at any time will be insufficient to fill the orders of the eligible veterans, equitable distribution among such veterans may be accomplished (1) in accordance with the date of a certification or registration, or (2) on such other basis as shall be approved upon special application to the Administrator; *Provided*, That in any method adopted there shall be equitable distribution between veterans desiring to acquire property for their own personal use and veterans desiring to acquire it for business, professional, or agricultural use. In giving public notice of availability of any property disposal agencies shall specify the method by which distribution of such property will be made among veterans.

§ 8302.5 *Order of priorities.* Except as to property disposed of under § 8302.4, disposal agencies shall, subject to the provisions of § 8302.6, observe the following order of priorities:

(a) Transfers to Government agencies for their own use shall be given priority over disposals to all others.

(b) Disposals to veterans holding certificates to acquire property to enable them to establish and maintain their own small business, professional, or agricultural enterprises shall be given priority over disposals to all others except as provided in paragraph (a) of this section.

(c) Purchases by Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, for resale under section 18 (e) of the Surplus Property Act of 1944 shall be given priority over disposals to all others except as provided in paragraphs (a) and (b) of this section.

(d) Disposals to State and local governments for their own use shall be given priority over disposals to all others except as provided in paragraphs (a), (b), and (c) of this section.

§ 8302.6 *Reservations for priority claimants.* (a) In giving effect to the provisions of § 8302.5, disposal agencies shall observe the following requirements

with respect to the periods of time during which property will be offered to priority claimants:

(1) Government agencies shall in no case be given a period in excess of twenty days after the date of public notice of availability of the property.

(2) Property offered to veterans may not be disposed of to others for a minimum period of fifteen (15) days after the date of public notice to veterans.

(b) Each disposal agency, based upon experience and demonstrated demand, may estimate the quantity of each item of surplus property which it is necessary to hold in reserve in order to provide an adequate supply thereof to satisfy the probable needs of priority claimants for such item. Such quantities shall be reviewed and adjusted periodically by the disposal agency in the light of the changing requirements of priority claimants and the areas in which such requirements exist. There need be no earmarking of specific property, but the quantities of surplus property so estimated shall be reserved for exclusive disposal to priority claimants subject to the periods specified in paragraph (a). Any property in excess of such reserved quantities may, notwithstanding the provisions of paragraph (a), be disposed of promptly to others.

(c) In order to assist the disposal agencies to reserve quantities of surplus property, pursuant to the provisions of paragraph (b), adequate to satisfy the needs of priority claimants including Reconstruction Finance Corporation as successor to Smaller War Plants Corporation for resale under Section 18 (e) of the Surplus Property Act of 1944, Reconstruction Finance Corporation may advise the disposal agencies from time to time of the quantities and kinds of surplus property which it needs or may need for such purposes to the end that any reservations established under paragraph (b) of this section may be adequate to supply such anticipated needs.

§ 8302.7 *Information about available property*—(a) *Availability of records of surplus property; Government requirements officers.* Disposal agencies shall establish procedures to insure that designated representatives or procurement officers of Government agencies and State and local governments shall have access to the information on the property records of the disposal agencies, and shall upon request from time to time inform such representatives or procurement officers about surplus property for which declarations have been received or are anticipated. Each disposal agency shall appoint in its central office and in each regional office thereof a Government requirements officer or officers, whose duties shall include (1) transmitting to Government agencies and State and local governments information concerning surplus property which is or may become available for disposal; (2) assisting in programming sales or offerings in such a manner as to afford Government agencies and State and local governments an opportunity to purchase any and all kinds of property they desire; (3) ascertaining the probable needs for all kinds of property of Government agen-

cies and State and local governments within the region served by each regional office to the end that any reservations established under § 8302.6 (b) may be adequate to supply the probable needs of Government agencies and State and local governments within the region served by the office; (4) cooperating with such advisory committees as the Administrator may appoint; and (5) taking all other necessary or desirable steps to see that all requirements of this part are complied with. It shall be the responsibility of Government agencies, in order to avoid making purchases through commercial channels, continuously to consult the records of the disposal agencies and to determine whether their requirements for all items of property can be satisfied out of surplus property in the hands of the disposal agencies.

(b) *Notice of offering.* Disposal agencies shall give public notice of all offerings to priority claimants and to the extent feasible shall adopt other procedures which will allow priority claimants to receive notice of what surplus property is available or offered for sale within the area in which the offering is made. Government agencies and State and local governments shall have the right upon request to be put on mailing lists for notices in all cases where such lists are used to offer property for disposal, including mailing lists otherwise reserved to special classes of buyers, unless the disposal agency shall find that the giving of such notices to Government agencies and State and local governments shall for any particular type of property become impracticable, unduly expensive to the Government, or unreasonably burdensome on the facilities of the disposal agency. When paid advertising is used as the method of offering, no other notice need be given to priority claimants.

§ 8302.8 *Issuance of certificates to veterans.* (a) A veteran desiring to acquire property set aside under § 8302.4 or to exercise his priority under § 8302.5 shall apply to any certifying office of War Assets Administration and shall furnish the Administration with complete information regarding the property desired. War Assets Administration will satisfy itself through reference to the applicant's discharge papers or to other satisfactory evidence that the applicant is a veteran and that the property applied for is for his own personal use or to enable him to establish or maintain his own small business, professional, or agricultural enterprise and shall require of the applicant a supporting statement or affidavit. War Assets Administration will issue an appropriate certificate to such veteran stating that he is a veteran entitled to purchase the types and quantities of the property described therein.

(b) Whenever a disposal agency within the continental United States other than War Assets Administration receives an application from a veteran desiring to acquire property hereunder but not accompanied by a certificate, the application shall be referred to War Assets Administration for certification, together with full information regarding

the availability of the property and the price, terms, and conditions of sale.

(c) In the territories and possessions where no office of War Assets Administration is established for the certification of veterans, they may act hereunder by dealing directly with the appropriate disposal agency, and in such case such disposal agency shall to the extent feasible perform the functions which would be performed by the War Assets Administration in the continental United States under this section.

(d) Each veteran shall present the certificate when acquiring property from a disposal agency, which shall rely upon the certificate that the holder is a veteran entitled to acquire the property described therein in accordance with the terms of the certificate. Veterans shall be entitled to acquire the quantity of property for which they are certified, subject to such equitable distribution among veterans as may be adopted by the disposal agency pursuant to the provisions of § 8302.4(b) or § 8302.9(c), before such property may be made available to lower priority or non-priority claimants. Special effort shall be made to insure that property available to veterans may be inspected by them. Surplus property may be offered for sale to veterans on credit on terms and conditions established by the disposal agencies.

§ 8302.9 *Transfers and disposals to priority claimants.* (a) Subject to the provisions of § 8302.10 in the case of Government agencies, disposal agencies shall transfer or dispose of surplus property to a priority claimant in quantities not smaller than the smallest lot consistent with commercial practice and at the fair value of such property as provided in § 8302.11. Disposal agencies shall make such transfers of surplus property to a Government agency without reimbursement or transfer of funds whenever a transfer on such terms by the owning agency by which such property was declared surplus would be authorized by any law approved subsequent to June 21, 1944 to be made to the agency desiring such property. The agency desiring such property without reimbursement or transfer of funds shall pay all transportation charges but not the cost of packing and shall furnish when necessary a Government bill of lading bearing identification of the appropriation against which such transportation charges are to be charged.

(b) Except in the case of transfers to Reconstruction Finance Corporation as successor to Smaller War Plants Corporation for resale under section 18 (e) of the Surplus Property Act of 1944, and disposals to veterans of property to be resold with or without processing or fabrication in the regular course of business, transfers or disposals to priority claimants shall be for their own use only and not for transfer or disposition by them to others, and disposal agencies may require priority claimants so to certify. Title to property being acquired by priority pursuant to the provisions of this part shall not be transferred or consigned by the disposal agency to any per-

son other than the acquiring priority claimant, except in the case of purchases by Reconstruction Finance Corporation under section 18 (e) of the Surplus Property Act. In acquiring property by priority under the provisions of this part, veterans may take title only in their own names or in the names of their own business or professional or agricultural enterprises as defined in § 8302.1 (b) (4), and payment shall be made by such veterans or such enterprises. The priorities granted pursuant to the provisions of this part may not be assigned or transferred to others. The provisions of this paragraph (b) shall not apply to the exercise of any authority under the Veterans Emergency Housing Act of 1946,⁶ or under the Second War Powers Act of 1942⁷ directing disposals to a specified class of purchasers or to specifically named purchasers.

(c) Disposal agencies shall adopt procedures designed to distribute surplus property equitably among claimants entitled to the same priority and shall fill orders in the sequence in which they were received, or on such other equitable basis as the disposal agency may determine in any case where it has reason to believe that the quantity of any type of property available at any time will be insufficient to supply the needs of all claimants in a given priority class. In such event disposal agencies may establish the maximum quantity which may be acquired by any one priority claimant within the same class at any one time.

(d) Priority claimants may place orders with a disposal agency at any time, and such orders shall be filled from any available surplus property, subject to the provisions of §§ 8302.4, 8302.5, and 8302.6. If no property is available or likely to become available, the disposal agency shall notify the claimant and upon the dispatching of such notification the order shall lapse. Unless the advertising otherwise states, property already advertised for public competitive bids or for sale at auction or for immediate purchase at a fixed time and property specifically selected by a prospective purchaser shall not be considered available. No property shall be offered for disposal to non-priority claimants unless it has first been offered to priority claimants or necessary provision has been made for reservations for priority claimants in accordance with § 8302.6.

§ 8302.10 *Transfers of surplus standard administrative and maintenance property to the Treasury Department and acquisition of such property by Government agencies.* (a) In order to facilitate the transfer of surplus property from one Government agency to other Government agencies for their own use

⁶ 60 Stat. 207.

⁷ 56 Stat. 176; 50 U. S. C. Sup. IV App. § 631-645a.

and not for transfer or disposition to others outside the Government, the Treasury Department as the central procurement agency of the Government may acquire from the disposal agencies such quantities of surplus standard administrative and maintenance property as it needs to satisfy the requirements for such property of all Government agencies within the continental United States, other than the War Department, Navy Department, and Veterans Administration, and other than each disposal agency for the types of property for which it is designated as such under Part 8301.⁸ Government agencies shall cooperate with the Treasury Department in compiling estimates and shall provide the Treasury Department with such information concerning their requirements as it may need in order to promote the full utilization of surplus property.

(b) Disposal agencies shall transfer surplus standard administrative and maintenance property to the Treasury Department in accordance with the provisions of § 8302.9 and at a fair value which reflects the estimated expenses to be incurred by the Treasury Department in making distribution to Government agencies, and the Treasury Department shall promptly upon such transfer take possession and assume responsibility for the care, handling, and disposition of such property.

(c) It shall be the responsibility of all such Government agencies, in order to avoid making purchases of such property through commercial channels when such property is available from surplus, continuously to consult the stock catalogues issued by the Procurement Division of the Treasury Department.

(d) Except in cases where transfers may be made without reimbursement or transfer of funds, no Government agency other than the War Department, Navy Department, and Veterans' Administration, and other than each disposal agency for the types of property for which it is designated as such under Part 8301, shall within the continental United States acquire by direct transfer from a disposal agency any type of surplus standard administrative or maintenance property which is offered for disposal by the Treasury Department and immediately available for acquisition by such Government agency; *Provided*, That if none of a desired type of property is immediately available for acquisition by a Government agency, such agency may purchase such desired property directly from the disposal agency; and *Provided, further*, That Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, shall be entitled to acquire any such property from a disposal agency for resale under section 18 (e) of the Surplus Property Act of 1944.

§ 8302.11 *Fair value.* Disposal agencies shall fix the fair value at which property shall be acquired by priority claimants. Such fair value shall not be greater than the lowest price which is offered to any trade level at the time of acquisition by the priority claimant.

§ 8302.12 *Acquisitions by priority claimants without exercising priority.* In addition to acquiring property under

§§ 8302.5 and 8302.6, Government agencies, except as to standard administrative and maintenance property desired for their own use, and State and local governments shall be entitled to submit offers whenever surplus property is otherwise offered for sale, without regard for the location of the property, but shall not be entitled to priority. Government agencies may under this section acquire any surplus property (including standard administrative and maintenance property) for transfer or disposition to others, including transfers or dispositions to the United Nations Relief and Rehabilitation Administration. Nothing in this part shall prevent veterans from acquiring any property directly from a disposal agency without exercising priority if they are included within the class of buyers to whom the disposal agency is offering such property. Such purchases made by a priority claimant without priority shall be governed by the prices, terms, and conditions of the offering made by the disposal agency and not pursuant to any other provisions of this part.

§ 8302.13 *Records and reports.* Owning and disposal agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the War Assets Administrator in such manner as may be specified by orders issued under this part subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8302.14 *Regulations by disposal agencies to be reported to the War Assets Administrator.* Each disposal agency shall file with the War Assets Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

This revision of this part shall become effective August 19, 1946.

ROBERT M. LITTLEJOHN,
Administrator.

§ 3.15 *Office-request*. Stamped envelopes with the name of the post office and blank lines for the sender's name and local address are kept on sale at all post offices and are manufactured of extra quality paper and in solid face only. (Art. 8, Convention of Postal Union of the Americas and Spain, Panama, December 22, 1936.)

§ 3.21 *Redemption*. The Post Office Department does not sell Americo-Spanish Reply Coupons, but does redeem them from the public at the rate of 3 cents each in postage stamps.

§ 3.23 *Use*. Postmasters and postal employees are not permitted in their official capacity to attempt to advise or instruct taxpayers or purchasers of internal revenue stamps on matters connected with the administration of internal revenue laws. The activities are confined solely to the sale of these stamps at post offices designated by law to conduct such sales. (Sec. 156, par. 3)

§ 3.24 *Redemption*. Internal revenue stamps are not redeemable by postmasters and applications of this character should be submitted to the nearest Collector of Internal Revenue by persons having purchased stamps in excess of their requirements. (Sec. 156, par. 4)

MIGRATORY-BIRD HUNTING STAMPS

§ 3.25 *Availability*. (Sec. 2, 48 Stat. 451, sec. 2, 49 Stat. 379; 16 U. S. C. 718b)

§ 3.26 *Use*. (a) No person over 16 years of age shall take any migratory waterfowl unless at the time of such taking he carries on his person an unexpired Federal migratory-bird hunting stamp validated by his signature written by himself in ink across the face of the stamp prior to this taking such birds; except that no such stamp shall be required for the taking of migratory waterfowl by Federal or State institutions or official agencies, or for propagation, or by the resident owner, tenant, or share cropper of the property or officially designated agencies of the Department of Agriculture for the killing, under such restrictions as the Secretary of Agricul-

ture may by regulation prescribe, of such waterfowl when found injuring crops or other property.

(b) Such stamps are valid only for the fiscal year in which issued and ownership as well as attending privileges are not transferable. The administration of the laws relating to migratory-bird hunting stamps is under the Director of Fish and Wildlife Service, Department of Interior, Chicago, Illinois. (16 U. S. C. 718a, 718e) (Sec. 157, Par. 1, 2, and 3)

In § 5.2 *Domestic rates and conditions* make the following changes: Amend paragraph (b) by deleting "the Philippine Islands." (Sec. 502, Par. 2 as amended by P. M. G. Order 32544, August 26, 1946)

Amend § 5.5 *Modification of postage rates by President*, by deleting "June 30, 1935" and substituting "June 30, 1947;" also by deleting "July 1, 1935" and substituting "July 1, 1947" (Public Law 105, Act of June 30, 1945).

FIRST-CLASS MATTER; DESCRIPTION

In § 5.9 *Provisions relating to private mailing cards (post cards)* make the following changes:

Amend paragraph (a) (1) to read as follows:

(a) (1) A "post card" shall be an unfolded piece of cardboard not exceeding approximately $3\frac{1}{16}$ by $5\frac{1}{16}$ inches nor less than $2\frac{3}{4}$ by 4 inches. (Sec. 503 as amended by P. M. G. Order 14528, Aug. 11, 1940).

Amend paragraph (c) by numbering it (c) (1) and adding the following as paragraph (2):

(2) If the initial half be not detached when the reply half is mailed for return, the card is subject to the letter rates of postage if wholly or partly in writing or bearing the words "Post Card," "Private Mailing Card," or similar words. Double cards must be so prepared that the address on the reply portion is on the inside when the double card is mailed. When both the original address of the double card and the address on the reply half are exposed it causes confusion in the mails and such folded cards are not mailable unless inclosed in envelopes or wrappers. The reply half may be prepared in the form of a business reply card. Double cards used primarily to send statements of account or similar matter are not acceptable at the 1-cent post-card rate, but are subject to postage at the letter rates. (R. S. 161, 396, sec. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22)

RATES OF POSTAGE

In § 5.10 make the following changes: Amend paragraphs (a) and (b) to read as follows:

(a) Until July 1, 1947, the rate of postage on all mail matter of the first

class (except postal cards and private mailing or post cards, and except other first-class matter on which the rate of postage under existing law is 1 cent for each ounce or fraction thereof) shall be 1 cent for each ounce or fraction thereof in addition to the rate provided by existing law.

NOTE: The Act of February 25, 1944, made applicable, for the period between March 26, 1944, and the first day of the first month which begins at least 6 months after the termination of hostilities in the present war, to first-class matter mailed for local delivery or for delivery wholly within a county which is entirely within a corporate city and the population of which exceeds 1 million, the increase of 1 cent for each ounce or fraction thereof.

(b) Upon all matter of the first class postage shall be charged at the rate of (3) cents for each ounce or fraction thereof; and drop letters shall be mailed at the rate of (3) cents per ounce or fraction thereof where free delivery by carrier is not established.

Amend paragraphs (c) and (d) by deleting the figure (2) wherever it appears therein and substituting therefor (3). (Sec. 9, 20 Stat. 358, sec. 1, 23 Stat. 386, sec. 1100, 40 Stat. 327, sec. 1401, 40 Stat. 1150, sec. 1001, 47 Stat. 285, 48 Stat. 254, sec. 515, 48 Stat. 760, 49 Stat. 431, 50 Stat. 358, 53 Stat. 862, 55 Stat. 210, 57 Stat. 157; 39 U. S. C. 280 and Sup.) (Sec. 509, as amended by P. M. G. Orders 3722, June 19, 1933; 10576, July 1, 1937; 25378, July 17, 1944; 28836, Aug. 18, 1945)

In § 5.11 *Business reply cards and letters in business reply envelopes* make the following changes:

Amend paragraph (c) by deleting "Division of Classification" and substituting "Division of Letter and Miscellaneous Mail."

Add new paragraph (g) reading as follows:

(g) (1) Business reply cards and envelopes may be distributed in any quantity and in any manner desired except for the purpose of locating delinquent debtors.

(2) The cards may be prepared either as reply portions of double post cards or folded cards or may be enclosed with other matter, as also may the envelopes.

(3) Business reply cards and envelopes will be accepted for return mailing at all post offices in the United States and its possessions, except the Canal Zone and the Philippine Islands. They should not be sent to any foreign countries, including Canada, Cuba, Mexico, and the Republic of Panama, as they cannot be returned from any foreign country without prepayment of postage.

(4) Business reply cards must conform to the conditions prescribed for post cards or private mailing cards, and, therefore, may not be smaller than 2¾ inches by 4 inches (a size somewhat larger is preferable) nor larger than approximately 3¼ inches by 5¼ inches. They may be printed in two or more colors. The law authorizing the use of business reply cards and envelopes does not contemplate that they shall be attached to parcels of merchandise or other matter either for the purpose of carrying messages or merely as address tags or

labels without prepayment of postage. They may be used to transmit communications only, as that term is commonly understood. Business reply cards or envelopes may not be used to return parcels of merchandise or other articles without prepayment of the required postage on both the cards (or envelopes) and the parcels.

(5) Business reply labels may be printed in newspapers, etc., to be cut out and affixed to plain envelopes, or to cards conforming to the foregoing conditions. The prescribed business reply indicia may also be printed on gummed labels for use in the same manner.

(6) The address side of such cards, envelopes, and labels shall be printed in one of the forms shown on the reverse side of this circular and include the

name and complete address of the person or concern to whom they are to be returned, the permit number, the name of the post office issuing the permit, and the other prescribed indicia. When Form B is used the name of the permit holder may be inserted if desired after the words "Postage will be paid by." A space of at least 1½ inches shall be left for postmarking at the top of the card or envelope. No extraneous matter may appear on the address side. However, when Form A is used, the word "From" together with blank lines for the insertion of the name and address of the sender, may be placed in the upper left corner of the address side, but such lines should not extend into the space within 3½ inches from the right end which must be reserved for the postmark and indicia.

(7) Small boxes or cartons may be distributed by opticians, dental laboratories, and others to their customers for use in returning eyeglasses or spectacles, dentures, etc., for repair or replacement. The boxes and cartons in such cases will bear the inscription, "Business reply box" and "First-class mail," but otherwise will bear the same indicia as those prescribed for business reply cards and envelopes.

(8) Postmasters must see that the proper postage is collected on all business reply cards and envelopes before delivering them to the addressees. Such cards or letters must not be placed in direct packages or sacks made up for individuals or concerns.

(9) Permits to distribute business reply cards and envelopes are issued with the understanding that the permit holder guarantees to pay the postage on all that are returned.

(10) When large concerns having branches or dealers throughout the country desire to distribute business reply cards and envelopes from their main office to be returned to such dealers or branches, the distribution may be made under permits obtained at each of the offices to which the cards or envelopes are to be returned, or under one permit issued at the post office where the main office is located.

When the distribution is made under a permit issued at the post office where the main office of the person or concern is located, it shall be with the understanding that the person or concern distributing the cards or envelopes guarantees that the postage will be paid on all such cards or envelopes returned in the event any of the branches or agents refuse to accept delivery and pay the postage due thereon.

Postmasters shall promptly report to the Third Assistant Postmaster General, Division of Letter and Miscellaneous Mail, any refusal to pay the postage due by any person or concern to whom such business reply cards or envelopes are addressed, giving the permit number.

(11) Business reply cards and envelopes may be prepared for return via air mail, the regular air-mail rate plus 1 cent additional to be collected upon delivery.

Such cards and envelopes must bear, in addition to the prescribed indicia, the words "Via air mail," which should be printed in bold letters on the right portion of the address side above the name of the addressee and adjacent to the heavy short lines along the right edge of the address side. The form of business reply card or envelope (Form A) which includes the amount of postage to be collected, should be used and the proper amount at the air-mail rate plus 1 cent should be shown, as, for example:

9c.—POSTAGE WILL BE PAID BY—

In order that business reply cards and envelopes intended for return by air mail may be readily identified, the red and blue parallelograms forming a part of the distinctive design, which has been approved for air-mail envelopes, should be placed around the edges of cards and envelopes, as illustrated in Form C. Assurance cannot be given that business reply cards and envelopes will receive air-mail treatment unless they are of the distinctive air-mail design, thus enabling them to be readily identified.

Amend § 5.12 *Mail carried by airplane* to read as follows:

§ 5.12 *Mail carried by airplane.* (a)

(1) The domestic rates of postage on matter carried by airplane, including transportation to and from the air-mail routes, are as follows:

	<i>Per ounce (cents) *</i>
United States, from one post office to another on mainland, including Alaska, and also from one post office to another in Hawaiian Islands, from one post office to another in Puerto Rico, from one post office to another in Virgin Islands of the United States, and between the latter islands and Puerto Rico (but not between mainland of United States and any of these islands).....	8

	<i>Per half ounce (cents)</i>
United States (mainland) to or from—	
Canal Zone.....	10
Canton Island.....	25
Guam.....	35
Hawaii.....	15
Puerto Rico, Virgin Islands of the United States, Naval Operating Base, Guantanamo (Cuba).....	8
Puerto Rico, Virgin Islands of the United States and the Naval Operating Base, Guantanamo (Cuba) to or from—	
Canal Zone.....	10
Canton Island.....	33
Guam.....	43
Hawaii.....	23
Naval Operating Base, Guantanamo (Cuba) to or from—	
Puerto Rico, Virgin Islands of the United States.....	8
Hawaii to or from—	
Canal Zone.....	25
Canton Island.....	10
Guam.....	20
Guam to or from—	
Canal Zone.....	45
Canton Island.....	30

(2) The foregoing air-mail rates include all transportation by air mail available in the United States; also in Hawaii. Official matter in penalty or franked envelopes may not be sent free by air mail, but is chargeable with postage at the air-mail rates, except in the case of urgent official communications of the Postal Service only, when their prompt dispatch is desirable.

(3) Air mail sent to, or by members of our armed forces outside the continental United States who receive their mail through an A. P. O. or Fleet Post Office in care of the postmaster of New York, N. Y., or San Francisco, Calif., or through an A. P. O. in care of the postmaster of Miami, Fla., New Orleans, La., or Seattle, Wash., and who are required to show such A. P. O. or Fleet Post Office address in their return card, is subject to postage at the rate of 6 cents a half ounce or fraction thereof. This rate also applies to air mail sent to or by civilian personnel authorized to receive mail through such Army and Navy Post Offices.

(b) (1) The postage on all air mail should be fully prepaid in order to expedite its handling, and postmasters shall make every effort to have patrons do so. Nevertheless, short-paid air mail shall, if it bears at least one full rate, according to destination as shown in the above table, be rated with the deficiency and dispatched as intended by the sender, the amount due to be collected upon delivery of the matter.

(2) Any mailable matter, except that liable to damage from freezing, may be sent by air mail at the above rates of postage, including sealed parcels not exceeding 70 pounds in weight and not exceeding 100 inches in length and girth combined. This includes harmless live animals, queen bees and cut flowers. Day-old chicks, day-old ducks, etc., and honey bees are prohibited. However, only letters in their usual and ordinary form weighing not in excess of 2 ounces (except official air mail) may be accepted for transmission by air mail to overseas A. P. O.'s and Navy post offices, except to an A. P. O. in care of the postmaster of New Orleans, La., or Seattle, Wash.

(3) Special air-mail stamps are issued for the payment of postage on air mail, but ordinary stamps may be used. Embossed stamped envelopes of various sizes for air-mail use are on sale at post offices. When 6-cent air-mail envelopes or stamps are used in cases where the air-mail rate of 8 cents is applicable, 2 cents additional should be affixed by means of postage stamps. The use of air-mail stamps on other than air mail is not permissible.

(4) Air mail should be conspicuously endorsed by the sender in the space immediately below the stamps, above the address "Via Air Mail." When it is desired that matter prepaid at the rate of 8 cents per ounce be carried by air mail only in the continental United States, or from one post office to another in the Hawaiian Islands, but transported across the Pacific Ocean by steamer, it should be endorsed "Via Air Mail except over the Pacific." All air-mail letters sent special delivery should be conspicuously endorsed "Special Delivery—Air Mail," the mere fact that the matter may bear air-mail and special-delivery stamps not being sufficient.

(c) (1) In order to obtain the fullest measure of service for the postage paid at the air-mail rate, air mail should be sent special delivery. Matter sent by airplane reaches the office of address sooner than if sent by train, but when it gets there after the last regular carrier trip of the day of its arrival, delivery is not made until the following business day, unless sent special delivery and the fee therefor paid in addition to the air-mail postage.

(2) The fees chargeable on air mail for special-delivery service are the same as those which apply when such mail is sent by other than air mail, as follows:

	First class (cents)	Second, third, or fourth class (cents)
Up to 2 pounds.....	13	17
Over 2 pounds up to 10 pounds.....	20	25
Over 10 pounds.....	25	35

(d) (1) It is desirable that envelopes (or cards) for air-mail use bear the distinctive designs described in the following paragraphs. Any person may have his envelopes (or cards) so prepared. Such envelopes must be white, except when it is necessary to use envelopes of extra strength, in which case envelopes of light tints of manila or kraft may be used.

(2) The outstanding feature of the preferred design is a border of alternating blue and red parallelograms with intervening white spaces, producing a distinguishing blue, white, and red border not exceeding $\frac{5}{32}$ of an inch in width extending around the edges of both the address side and the back of the envelope. The words "Via Air Mail" should appear boldly between the postage stamp and the address. The border of this envelope facilitates its identification as air mail even when in a package or distributing case with other mail, thus securing the prompt and special attention to which such letters are entitled.

(3) Another approved printed design consists of the blue, red, and white

stripes. The stripes must not exceed approximately $\frac{1}{4}$ inch in width and should extend entirely across the length of the envelope. The blue stripe must be not less than $\frac{1}{8}$ inches below the top of the envelope, in order that clear space may be left for the necessary postage stamps and postmark. The white space between the blue and red stripes should be approximately $\frac{1}{4}$ inch in width, so that the three stripes will not cover more than approximately $\frac{3}{4}$ of an inch in all. In such case the words "Via Air Mail" should be printed in the upper right portion of the envelope, preferably in the white space between the blue and red stripes.

(4) When ordinary envelopes are used to enclose air mail, the mailer may identify the matter for transmission by airplane by placing horizontally across the envelopes two blue lines approximately $\frac{1}{4}$ inch apart, the upper line to be not less than $\frac{1}{8}$ inches below the top of the envelope. In such case the words "Via Air Mail" should be plainly and boldly written, hand-stamped, or printed in the upper right portion of the envelope, preferably between the two lines. Similar lines may also be placed vertically across the envelope not less than $3\frac{1}{2}$ inches from the right end. Such lines may also be placed on the backs of envelopes used for air mail.

(5) The lines above mentioned may be placed on the envelopes with an ordinary blue pencil or, if desired, printed thereon in blue ink. Care must be exercised to see that the lines are uniformly placed and that they do not cover the address or return card.

(6) Such envelopes of special design may be used for air mail only. Their use for mail which is not intended to be carried by airplane is not permissible.

(e) All air mail should bear the sender's return card, which should appear in the upper left corner of the address side.

(f) (1) Mail for dispatch by airplane will be accepted for registration upon payment of the prescribed registry fee in addition to the air-mail postage. Insured and c. o. d. parcels, including sealed parcels, may also be sent via air mail when the prescribed fees for such service are paid in addition to the air-mail postage. In some cases air mail for armed forces overseas will not be registered or insured.

(2) Special air-mail stamps may be used to pay the fees on all matter sent special delivery, insured, or c. o. d. via airplane.

(g) (1) Matter sent by air mail may be forwarded to the addressee by the same means when delivery of the matter will be expedited if carried by airplane, provided the air-mail rate to the new address is no higher than that originally applicable. No additional charge for postage will be made for such forwarding, regardless of the number of the air-mail routes over which the mail may be carried. For instance, an air-mail letter prepaid 8 cents originally sent from New York to Chicago may be forwarded by air mail to San Francisco without additional charge; but it could not be forwarded to Hawaii by trans-Pacific air mail without additional charge.

(2) Undeliverable air mail will not be returned to the sender via airplane, but will be returned in the regular mails. (Act of Feb. 25, 1944, 58 Stat. 69; 39 U. S. C. 463) [sec. 511, as amended by P. M. G. Order 28574, July 17, 1945]

Amend § 5.16 *Soldiers', sailors' and marines' letters* by addition of following paragraphs:

(c) Any first-class letter mail matter admissible to the mails as ordinary mail matter which is sent by a member of the military or naval forces of the United States (including the United States Coast Guard), while on active duty or in the active military or naval service of the United States, to any person in the United States, including the Territories and possessions thereof, shall be transmitted in the mails free of postage, subject to such rules and regulations as the Postmaster General shall prescribe. This provision shall cease to be in effect after December 31, 1947. (Act of March 27, 1942, 56 Stat. 181, 50 A. U. S. C. 1940 ed Supp. III 639, Public Law 190 approved October 6, 1945).

(d) Under the provisions of section 212 of Public Law 410, approved July 1, 1944, commissioned officers of the United States Public Health Service while (1) in active service in time of war, (2) in active service performed while detailed for duty in the Army, Navy, or Coast Guard, (3) in active service outside the continental limits of the United States, or in Alaska, in time of war, or (4) in active service performed while the Service is part of the military forces of the United States pursuant to Executive order of the President, shall be entitled to the free-mailing privilege as provided by law in the case of commissioned officers of the Army. First-class letter mail sent free of postage by commissioned officers of the United States Public Health Service is subject to the conditions applicable to letters sent by members of the military or naval forces of the United States (including the U. S. Coast Guard), set forth in paragraphs (c) and (e) of this section. (Act of July 1, 1944, 58 Stat. 689.)

(e) (1) Letters sent by members of the military or naval forces of the United States, to be mailed free of postage under the conditions set forth in paragraph (c) of this section, shall bear in the upper right corner the word "FREE" and in the upper left corner the name of the sender together with his rank or rating and the designation of the service to which he belongs, as, for example, Private John Doe, U. S. Army, or John Doe, Seaman 2 Cl., U. S. Navy, or Private John Doe, U. S. Marine Corps, or John Doe, Seaman 2 Cl., U. S. Coast Guard. Such letters shall be so accepted when deposited in the mails in the United States or its possessions or at any place outside the continental United States where the United States mail service is in operation addressed to any other place where this service is in operation, including army and navy bases, naval vessels, etc. Messages on post cards may be accepted under this provision but it shall not apply to packages or parcels or any matter other than messages in the form of ordinary letters or cards. This free mailing

privilege does not apply to matter sent by air mail, nor to any matter sent to the members of the military or naval forces by persons who are not members thereof.

(2) Such free-mail privilege is applicable only to personal letter mail in its usual and generally accepted form, including messages on post cards, sent by the members of our armed forces. This provision is primarily for the purpose of making it easier for our men in the service to keep in touch with their families and friends. It does not apply to correspondence from their wives or other relatives, nor to any matter sent to members of the military or naval forces by persons who are not members of such forces.

It is required that the name of the sender, his rank or rating, the designation of the service to which he belongs, and the word "Free" be in the handwriting of the sender on the envelopes or cards in order to be accepted free of postage. This is necessary to prevent misuse and to confine the free mailing privilege to personal letters of members of the military or naval forces. The approved address of the member should, of course, be included in the return card.

(3) Among the items acceptable free of postage are the following:

Personal letters to relatives, friends, etc., including V-Mail.

Letters, including remittances, to associations, firms, or corporations.

Letters sent as special delivery, provided the fee for such service is prepaid.

Letters sent by retired or Reserve naval and Army officers who have been recalled to active duty, including those bearing the designation "U. S. N. Ret." or "U. S. N. R." in connection with the name and rank or rating of such officer on active duty.

Letters sent by members of the armed forces while in hospitals.

Letters from members of the armed forces who may be assigned to some special active duty.

Letters from nurses and chaplains who are members of the armed forces.

(4) The free mail privilege does not apply to the following:

Air mail.

Parcels or packages, whether sealed or unsealed.

Newspapers, magazines, and books.

Circular letters.

Newspaper clippings, and printed or mimeographed matter, unless enclosed with letters and forming only an incidental feature.

Envelopes or cards endorsed by a member of the armed forces for use by others, such as members of his family, etc.

Should question arise as to the application of this free mailing privilege in any instance, the facts should be reported to the Third Assistant Postmaster General, Division of Letter & Miscellaneous Mail for instructions.

(3) All fourth-class mail on which the special-handling charge is prepaid, whether by means of special-handling postage stamps or ordinary postage stamps, shall be endorsed "Special Handling," preferably in the space immediately below the postage stamps and above the address. In § 5.73 Rates of postage on library books make the following changes:

Amend heading to read as follows:

§ 5.73 Rates of postage on books.

Amend paragraph (a) by the addition of the following sentence:

The postage on books as provided in this paragraph shall be increased, effective March 26, 1944, by 3 per centum, fractions of one-half cent or more being computed as 1 cent, but in no case shall the increase per parcel be less than 1 cent. (Act of February 25, 1944, 58 Stat. 69; 39 U. S. C. 293a)

Amend paragraph (c) by deleting "Division of Classification" and substituting therefor "Division of Letter and Miscellaneous Mail."

Add the following as paragraphs (f) (1) to (6):

(f) (1) The postage rate on books consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books, when mailed under such regulations as the Postmaster General may prescribe, shall be 3 cents per pound or fraction thereof, irrespective of the postal zone of destination thereof: *Provided*, That this act shall not affect the rates of postage on books mailed by or to libraries and organizations as prescribed by the act of February 28, 1925, as amended. (Act of June 30, 1942, 56 Stat. 462; 39 U. S. C. 293a)

(2) A book, within the contemplation of the foregoing paragraph, shall be a volume permanently bound in cloth or paper having 24 or more pages, of which at least 22 are printed, and with the exception of text books containing incidental spaces for students' notations, shall not contain ruled or blank pages intended for records or memoranda purposes. [Sec. 572, as amended by P. M. G. Order 18100, June 30, 1942]

(3) The postage on books as provided in paragraph (f) (1) shall be increased, effective March 26, 1944, by 3 per centum, fractions of one-half cent or more being computed as 1 cent, but in no case shall the increase per parcel be less than 1 cent. (Act of February 25, 1944, 58 Stat. 69; 39 U. S. C. 293a)

(4) The provision for the acceptance at the rate of 3 cents a pound of books with incidental blank spaces applies only to textbooks which are intended for students and which do not have more than one-half, preferably less than half, of the total number of pages prepared with blank spaces or ruled lines for the insertion of students' notations. This rate does not apply after such notations are made in the books.

(5) The new rate does not apply to the following:

Annual reports of organizations and institutions; also reports or minutes of their conventions or other meetings published primarily for the benefit of members.

Books containing write-ups, boosts or other advertisements, even though incidental, of other things than books, as, for instance, playing cards, merchandise, services, etc.

Books of the loose-leaf binder type which are not complete or permanent when mailed

but to which other pages are subsequently to be added.

Reports of corporations sent to stockholders.

House organs, including publications designed to promote the commercial interests of a firm or organization.

Trade directories in which the listings are paid for.

Telephone directories.

Publications entered as second-class matter.

Publications consisting of pictures to be cut out.

Publications other than textbooks, having blank spaces for written entries, records or other hand work, such as almanacs, diaries, memorandum books and similar publications.

Periodical publications.

Sheet music.

Bound volumes of publications entered as second-class matter.

Promotional publications of nonprofit organizations or institutions, such as schools, colleges, churches, fraternal societies, etc.

Books in any other than final or permanent form.

Publications furnished as a part of a service.

Publications relating to furniture, household articles, decorations, etc., in which reference is made by name to the concerns manufacturing or handling the article featured, or which otherwise promote the interests of such concerns.

Freight and passenger tariffs.

Directories or lists of members published in the interest of the organizations publishing the same.

(6) Among the publications to which the new book rate does apply are the following:

Textbooks with incidental blank spaces for students' notations.

Books permanently bound by stitching or stapling, or by means of spiral or plastic binding, when covered with paper, cloth, leather, or other substantial material, and having 24 or more pages, of which at least 22 are printed.

Books incidentally containing a few pages of announcements of other books, either in display or textual form.

Books inclosed in the usual paper jackets bearing advertisements of other books.

Music books in regular bound form.

Books consisting largely of pictures, illustrations, maps, such as a view book or atlas.

Bibles with customary incidental space for family record.

All parcels of books mailed at the new rate should be indorsed by the mailers "Book" or "Books."

No special permit is necessary to mail books at the new rate. Books mailed at this rate are subject to the same rate when forwarded to the addressee or returned to the sender.

The 3-cent-a-pound book rate applies to books for delivery in the United States and its possessions but does not apply to books mailed to foreign countries.

The following are permissible inclosures with books mailed at the new rate:

A reply envelope, post card, a single order form, and a single sheet not larger than approximately the size of a page, relating exclusively to the book with which inclosed. An invoice showing the price, etc., of the book may also be inclosed, as provided in § 5.75.

Since the law provides that books mailed at the rate of 3 cents a pound may contain incidental announcements of books, such announcements, whether appearing in the books themselves or in

the form of loose circular inclosures not weighing in excess of one and one-third ounces, will be permissible in addition to the inclosures described in the preceding paragraph, without affecting the postage chargeable at that rate, such postage, of course, to be computed on the full weight of each parcel. However, loose inclosures of this kind weighing in excess of one and one-third ounces and other circulars or printed matter such as folders, pamphlets, calendars, catalogs, etc., which would not otherwise be permissible, may be inclosed in parcels of books, provided a permit is obtained and postage on such inclosures is paid at the third-class rate of 1½ cents for each two ounces or fraction thereof in addition to the postage at 3 cents a pound on the books themselves. In authorizing these inclosures, it is contemplated that they shall be merely incidental, in no case exceeding eight ounces. The wrapper of the parcel in such case should bear a printed or hand stamped indorsement in the following form:

Additional Postage at the Third-Class Rate Paid for Inclosures. New York, N. Y., Permit No. 1.

Each patron desiring to mail such inclosures with books should obtain a permit from his postmaster for this privilege, the permits being numbered consecutively, for which no fee shall be charged, unless it is desired to mail the matter under a nonmetered permit under § 6.4 of this chapter, and the patron has no such permit, in which event the regular \$10 application fee will be necessary.

The foregoing instructions modify those heretofore published with respect to the acceptance of books at the pound rate.

Amend § 6.5 *Precanceled Government stamped envelopes and postal cards* by deleting "Division of Classification" and substituting therefor "Division of Letter and Miscellaneous Mail" wherever those words appear.

In § 6.6 *Packages must admit of examination* make the following changes:

Amend paragraph (g) by changing "Classification" to "Letter and Miscellaneous Mail."

Amend paragraph (i) to read as follows:

(i) (1) So-called "window" envelopes, having an opening or a transparent panel in the front, through which the address upon the inclosure is disclosed, may be accepted for mailing under conditions prescribed by the Third Assistant Postmaster General, Division of Letter and Miscellaneous Mail, if domestic ordinary mail is concerned, or by the Division of Registered Mails, if domestic registered mail is concerned. (See Official Postal Guide.)

(2) "Window" envelopes to be mailable, must be so prepared that the "window" or transparent panel in the front through which the address on the inclosure is disclosed will be parallel with the length of the envelope. The "window" shall not occupy any space within $1\frac{1}{2}$ inches from the top, nor $\frac{3}{8}$ of an inch from the bottom or ends of the envelope, and when covered shall be as transparent and free from glaze as possible.

(3) Such envelopes shall bear the return card of the sender, that is, the name and address of the sender, which shall be placed in the upper left corner of the address side, parallel with the length of the envelope. The return card of the sender, to be complete as to the address, must show not only his name and the name of the post office and State, but when the post office is one having letter-carrier service must also show a street address or number of post-office box rented by him. The mere name of a building will not suffice for a street address. Although it is preferred that the return card include the sender's name, the latter may be omitted from ordinary mail bearing the sender's post-office box number and post-office address, or, in case the sender is the sole occupant of a building, the street and number of such building, with

postoffice and State, will suffice. Also where the sender is the sole occupant of a particular room, the designation of the room, with the street and number of the building, post office and State, may be used.

(4) No printing of advertising or of sentences or words of any kind within $\frac{3}{8}$ of an inch of the "window" of window envelopes used for mailing purposes is permissible, nor on any part of such envelopes where it will interfere with a distinct postmark, rating indorsements, forwarding address, etc., but a plain, narrow border not exceeding approximately $\frac{5}{32}$ of an inch in width around the window is permissible. When desired, such a border may also be placed around the outer edges of envelopes.

(5) The stationery used in "window" envelopes, or at least the portion upon which the exposed address appears, must be white, or, if colored, of a very light tint or shade. The use of dark-colored window envelopes or dark inclosures in such envelopes is not permissible. Nothing but the name and address of the addressee should appear on that part of the inclosure visible through the "window."

(6) The inclosures must be so prepared that they will not shift around in the envelopes, obscuring the address in whole or in part.

(7) The address must be written clearly and boldly, preferably in typewriting, or with ink of a dense black or other strongly contrasting color. Changes in address must not be made on the "window" but on the opaque portion of the envelopes.

(8) "Window" envelopes not conforming to the foregoing are unmailable.

In § 6.7 *Inclosing higher class in lower class matter* make the following change:

Amend paragraph (b) by changing "Classification" to "Letter and Miscellaneous Mail."

In § 6.9 *Overcharges on mail matter* make the following change:

Amend paragraph (b), to read as follows:

(b) All applications for refunds under the provisions of this section should be addressed to the Third Assistant Postmaster General, Division of Letter and Miscellaneous Mail, if they relate to refunds on domestic ordinary mail of the first, third, and fourth classes, and on transient second-class matter mailed by others than the publishers or news agents; or to the Third Assistant Postmaster General, Division of Newspaper and Periodical Mail, if they relate to refunds on second-class matter mailed by publishers or news agents; or to the Third Assistant Postmaster General, Division of Registered Mails, if they relate to refunds on domestic registered, insured, or c. o. d. mail; and to the Second Assistant Postmaster General, Division of International Postal Service, if they relate to refunds on international ordinary, registered, insured, or c. o. d. mail. Applications for refunds shall be accompanied with a full statement of the facts, and, when possible, the envelope or wrapper in which the matter was mailed. Postmasters shall not make refunds until instructed by the Department. [Sec.

584 as amended by P. M. G. Order 27238, February 12, 1945]

CROSS REFERENCE: For description of Form 3533, see § 55.2000 of this chapter.

In § 6.10 *Directions for transmission, etc., part of address* make the following change:

Amend paragraph (c) to read as follows:

(c) (1) Space shall be left on the address side of all mail sufficient for a legible address and for all directions permissible thereon, for postage stamps, for postmarking, rating, and any words necessary for forwarding or return. Watermarks which do not render the reading of the address difficult shall be permitted.

(2) Not less than $3\frac{1}{2}$ inches of clear space should be left for such purposes at the right end of the address side of all envelopes, folders, or wrappers of mail matter, except in the case of large envelopes, etc., which have a clear rectangular space of not less than 5 inches by 3 inches for this purpose. Envelopes, window and ordinary, folders, cards, and wrappers should not be of such dark-colored stationery or bear on the address side so much printed matter in addition to the address as to contravene the foregoing provisions. It is preferable that all envelopes be made of white paper; when paper of any other color is used for envelopes, cards, folders, or wrappers, it should be of very light tints of yellow, pink, manila, or robin's-egg blue.

(3) Whenever practicable the use of envelopes, folders, cards, etc., which do not exceed approximately 4 inches by 9 inches in size or on which ample clear space (not less than $3\frac{1}{2}$ inches) is left on the right portion of the address side for the address, postage stamps, etc., will serve to accomplish the desired object and result to the advantage of both the mailers and the Postal Service. In no case should cards or envelopes be smaller than $2\frac{3}{4}$ by 4 inches. A somewhat larger size is preferable.

Amend § 6.13 *Poisons, explosives, liquids, medicines, motion picture films* to read as follows:

§ 6.13 *Poisons, explosives, liquids, medicines, motion picture films.* (a) All kinds of poison, and all articles and compositions containing poison, and all poisonous animals, insects, and reptiles, and explosives of all kinds, and inflammable materials, and infernal machines, and mechanical, chemical, or other devices or compositions which may ignite or explode, and all disease germs or scabs, and all other natural or artificial articles, compositions, or material, of whatever kind, which may kill or in any wise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails or other property, whether sealed as first-class matter or not, are hereby declared to be nonmailable matter and shall not be conveyed in the mails or delivered from any post office or station thereof, nor by any letter carrier; but the Postmaster General may permit the transmission in the mails, under such rules and regulations as he shall prescribe as

to preparation and packing, of any articles hereinbefore described which are not outwardly or of their own force dangerous or injurious to life, health, or property: *Provided*, That the transmission in the mails of poisonous drugs and medicines may be limited by the Postmaster General to shipments of such articles from the manufacturer thereof or dealer therein to licensed physicians, surgeons, dentists, pharmacists, druggists, cosmetologists, barbers, and veterinarians, under such rules and regulations as he shall prescribe: *Provided further*, That all spiritous, vinous, malted, fermented, or other intoxicating liquors of any kind are hereby declared to be nonmailable and shall not be deposited in or carried through the mails. Whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail, according to the direction thereon, or at any place at which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable, unless in accordance with the rules and regulations hereby authorized to be prescribed by the Postmaster General, shall be fined not more than \$1,000 or imprisoned not more than two years, or both; and whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail, according to the direction thereon or at any place to which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable, whether transmitted in accordance with the rules and regulations authorized to be prescribed by the Postmaster General or not, with the design, intent, or purpose to kill or in any wise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails or other property, shall be fined not more than \$10,000 or imprisoned not more than twenty years, or both.

(b) (1) Spiritous, vinous, malted, fermented, or other intoxicating liquors of any kind, poisons of every kind, and articles, preparations, compounds, and mixtures which are poison (except as prescribed in the fourth paragraph hereof), and poisonous animals, insects, and reptiles, corrosive materials, fireworks, matches, except as prescribed in subparagraph (9) of this paragraph, and explosives of every kind, and inflammable materials liable to cause fire by self-ignition through friction, through absorption of moisture, or through spontaneous chemical changes, and infernal machines, and mechanical, chemical, or other devices or compositions which may ignite or explode, and disease germs or scabs (except as prescribed in § 6.14), and other natural or artificial articles, compositions, or materials of whatever kind which may kill or in any wise hurt, harm, or injure a person or damage, deface, or otherwise injure the mail or other property, live animals, insects, birds or fowls (except as prescribed in § 6.19), fresh hides or pelts, or any articles exhaling bad odor, whether sealed as first-class matter or not, shall not be admitted to the mails.

(2) Beverages containing not more than 3.2 percent of alcohol by weight,

when addressed for delivery within any State, Territory, or District of the United States, the laws of which do not prohibit the manufacture or sale therein of beverages containing an alcoholic content of not more than 3.2 percent by weight, do not come within the term "intoxicating" as used in this section.

(3) Beer, lager beer, ale, porter, wine, or other liquors, regardless of alcoholic content, may not be mailed to Indian wards anywhere or into any present Indian reservation or to those parts of opened Indian reservations which are still reserved for Government or tribal use or which are held in trust for individual Indians prior to their request for fee patents for such lands.

(4) Inflammable liquids and substances having a flash point between 80° and 20° F., such as paints, varnishes, automobile tire-repair outfits containing rubber cement, etc., that are not liable to cause fire by self-ignition through friction, through absorption of moisture, or through spontaneous chemical changes, and are not poisonous or explosive or unmailable for reasons other than their inflammability, shall be accepted for transmission in the domestic mails except the Air Mail Service when in quantities of not more than 4 ounces and when contained in tightly closed metal boxes or cans and packed in strong papier-mâché tubes or in boxes made of good quality double-faced corrugated pasteboard. The word "inflammable" and the proper name of the article shall be plainly marked on the outside of the package. Articles having a flash point below 20° F. are held to be explosive and shall not be accepted for mailing.

(5) Substances mentioned in subparagraph (4) of this paragraph when in larger quantities shall be accepted for transmission in the domestic mails except the Air Mail Service, when in tight and strong metal containers inclosed in tight and strong outside wooden or fiber board boxes or cases: *Provided*, That the maximum quantity of any inflammable liquid packed in one outside container shall not exceed 5 gallons and the containers shall not be entirely filled—not less than 2 per cent of their capacity to be left vacant. The proper name of the inflammable substance contained therein shall be plainly marked on the outside of the package and caution labels (red for liquid and yellow for solids) shall be attached thereto by the shipper. These caution labels shall be diamond shaped, each side 4 inches long, with the wording printed in black letters inside of a black-lined border measuring 3½ inches on each side. The wording on the red labels shall be:

Notice to postal employees. Caution. Do not drop. Keep away from fires, stoves, radiators, lighted matches, lanterns, and direct sunlight. Any leaking package shall be removed to a safe place. This is to certify that the contents of this package are properly described by name and are packed and marked and are in proper condition for transportation according to the regulations prescribed by the Post Office Department.

The wording on the yellow labels shall be:

Notice to postal employees. Caution. Do not drop. Keep fire and lights away. Sweep up and remove carefully contents of broken packages. This is to certify that the contents of this package are properly described by name and are packed and marked and are in proper condition for transportation according to the regulations prescribed by the Post Office Department.

All such parcels shall be handled outside of mail bags:

(6) Inflammable or combustible liquids which give off inflammable vapors at or below a temperature of 150° Fahrenheit; inflammable solids which are liable, under conditions incident to transportation, to cause fires through friction, through absorption of moisture, or through spontaneous chemical changes; oxidizing materials such as chlorates, permanganates, peroxides, or nitrates, that yield oxygen readily to stimulate the combustion of organic matter; poisonous articles or substances; are prohibited in the mails when necessary to transport such materials, articles, or substances by vessels carrying passengers.

(7) Substances mentioned in subparagraphs (4) and (5) of this paragraph shall be accepted for transmission in the domestic mails except the Air Mail Service, when in quantities not exceeding 1 gallon in any one outside container in inside containers of glass or earthenware cushioned with cells of air at least three-fourths of an inch deep formed by extended tips of each compartment or partition, or with excelsior or other effective cushioning material, or in fiberboard cans at least 0.120 of an inch thick with metal top and bottom, the top being of the friction type which must be fastened on with six equally spaced single indentations at least 0.050 of an inch deep, or six double indentations equally spaced, the indentations being 0.034 of an inch deep on each of the opposite sides of the friction ring. The interior of the fiberboard container must be so lined or treated as to prevent penetration by the material with which the can is filled. The fiberboard can requires no cushioning.

The inside containers, whether of glass, earthenware or fiberboard must then be enclosed in a wooden, solid fiberboard or double-faced corrugated fiberboard box testing at least 200 pounds per square inch, all seams to be sealed with kraft 2½-inch gummed paper tape. The aluminum foil or asbestos lined containers must be completely filled with safety matches and the flaps reinforced with strong gummed paper tape.

Pull-and-light types of safety matches tested and approved by proper Government agency, shall be accepted for transmission in the domestic mails when packed in completely filled, tightly closed strong cardboard containers. A small number of cards of these matches may be accepted for mailing in a strong securely fastened mailing envelope.

Amend § 6.14 *Diseased tissues*, to read as follows:

§ 6.14 *Diseased tissues.* (a) (1) Specimens of diseased tissues, blood, serum, and cultures of pathogenic microorganisms may be admitted to the mail for transmission to United States, State, municipal, or other laboratories in possession of permits referred to in paragraph (b) of this section only when enclosed in mailing cases constructed in accordance with this regulation, provided that bacteriologic or unfixed pathologic specimens of plague and cholera shall not be admitted to the mails except when prepared as hereinafter specifically provided.

(2) Pathologic specimens of plague and cholera which have been immersed for at least 72 hours in four times their volume of 4 percent formaldehyde gas in water, or other fluid of equal or superior disinfecting power for a period sufficient to fix or harden the central portions of the specimen, may be admitted to the mails if packed in the same manner as herein prescribed for other unfixed pathologic tissues (paragraph (c) (1), (2) and (3) of this section).

(3) Cultures and infectious material of plague, cholera, anthrax, undulant fever and tularaemia may be admitted to the mails if enclosed in stout glass tubes sealed by fusion of the glass and packed in a larger stout glass container with a layer of absorbent cotton soaked in 4 percent formaldehyde surrounding the inner container. The outer glass container shall be closed with a rubber stopper or cork of good quality or by fu-

sion of the glass. This double glass container shall then be packed in accordance with the provisions of paragraph (c) (2) and (3) of this section.

(b) No package containing diseased tissue, blood, serum, or cultures of pathogenic microorganisms shall be delivered to any representative of any of the said laboratories until a permit shall have first been issued by the Postmaster General, certifying that said institution has been found to be entitled, in accordance with the requirements of this regulation, to receive such specimens.

(c) (1) Specimens of sputum, feces, pus, unfixed diseased tissue, or other infectious material fluid in nature or shipped with nondisinfected fluid shall be placed in stout glass containers of suitable size (but not more than 3 inches in diameter) closed with a metal cover with a rubber, cork, or paraffined paper leakproof washer or with a cork or rubber stopper of good quality or by fusing the glass, provided that large fixed specimens of diseased tissue may be prepared for shipment outside of mail bags when packed in accordance with the provisions of subparagraph (2) of this paragraph.

(2) The aforesaid glass container shall then be placed in (i) a cylindrical sheet-metal box, with soldered joints, closed by a metal screw cover, or (ii) a paraffin impregnated heavy cardboard container with ends made of metal, or a suitable substitute for metal and/or cardboard. A sleeve type of closure may be employed provided that the overlap is at least one-third the length of the cylinder and in any case at least two inches. The closure shall be sealed with tape. Or, (iii) a one-piece bored wooden cylinder at least three-sixteenths of an inch thick in its thinnest part with a threaded screw top.

The screw top covers shall be provided with rubber or felt washers and shall be threaded with sufficient screw threads to require at least one and one-half full turns before they will come off.

The vial or test tube in the above containers shall be completely and evenly surrounded by absorbent cotton or other suitable absorbent in quantity sufficient to absorb the contents of the glass container, should it be broken.

(3) The sheet-metal box with its contents shall then be enclosed in a closely fitting wooden or papier-mâché box or tube, at least three-sixteenths of an inch thick in its thinnest part or in a sheet-metal box or tube of sufficient strength to resist rough handling and support the weight of the mails piled in bags. This tube shall be tightly closed with a screw-top cover with sufficient screw threads to require at least one and one-half full turns before it will come off.

(4) Cultures in solid media, blood, serum, spinal fluid, fixed and completely disinfected diseased tissue and infectious materials on swabs shall be transmitted in a stout glass container of suitable size (but not more than 3 inches in diameter) closed with a metal cover with a rubber, cork, or paraffined paper washer or with a stopper of rubber, paraffined cork, or cotton, the last sealed with paraffin or covered with a tightly fitting rubber cap. The tube shall then be packed in a single

wooden or papier-mâché cylindrical box or tube, at least three-sixteenths of an inch thick in its thinnest part or in a sheet-metal box or tube, of sufficient strength to resist rough handling and support the weight of the mails piled in bags. The glass container in this box or tube shall be completely and evenly surrounded by absorbent cotton or other suitable absorbent packing material. Cultures in media that are fluid at the ordinary temperature (below 45° C. or 113° F.) may be mailed if packed in stout glass vials closed by fusing the glass and enclosed as in subparagraphs (2) and (3) of this paragraph.

(5) Specimens of blood dried on glass microscopic slides for the diagnosis of malaria or typhoid fever by the Widal test or of other conditions shall be sent in any strong mailing case which is not liable to breakage or loss of the specimen in transit.

(6) Large pathological specimens of fixed diseased tissue and shipments of large numbers of small specimens may be prepared for shipment outside of mail bags. Small specimens of sputum, blood, serum, spinal fluid, pus, feces, fixed or unfixed diseased tissue or other material fluid in nature or shipped with fluid, forming part of such a shipment shall be placed in stout glass containers as in subparagraph (1) of this paragraph and individually evenly wrapped in absorbent cotton or other suitable absorbent material in sufficient quantity to absorb all the fluid in case of breakage. Large specimens of fixed diseased tissue shall be placed in securely sealed glass containers or in securely closed (hermetically sealed or screw-top or approved patent-top) metal containers with the necessary preservative fluid. The container shall be surrounded by sawdust or other suitable absorbent material to protect against breakage or leakage. Small and large specimens so prepared shall be shipped in a strong securely closed box marked "Fragile—Liquid. This Side Up," or with similar inscription, and be transported outside of mail bags.

(d) Upon the outside of every package of diseased tissue, blood, serum, or cultures of pathogenic microorganisms admitted to the mails shall be written or printed the words "Specimen for bacteriological examination. This package shall be pouched with letter mail." Except that large specimens or shipments prepared under paragraph (c) (6) of this section shall be marked "Specimen for bacteriologic examination." (R. S. 161.396, Secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369.)

Amend § 6.15 *When articles liable to damage mail or injure employees may be accepted*, to read as follows:

§ 6.15 *When articles liable to damage mail or injure employees may be accepted.* Admissible articles which, from their form or nature, might damage other mail matter or equipment or injure the person of any postal employee shall be accepted when packed in accordance with the following conditions:

(a) In case of articles liable to break, the inner bag, box, envelope, or wrapping shall be surrounded by sawdust, excelsior, cotton, or other similar substance.

(b) Admissible liquids and oils (§ 6.13) in packages not exceeding the limit of weight of fourth-class matter shall be accepted for mailing when intended for delivery at the office of mailing or on a rural route starting therefrom when inclosed in strong and securely closed containers, provided it is not necessary to transport them over steam or electric railways.

(c) Admissible liquids and oils, pastes, salves, or other articles easily liquefiable shall be accepted for mailing, regardless of distance, when they conform to the following conditions:

(1) When in strong glass bottles holding 4 ounces or less, the total quantity sent in one parcel shall not exceed 24 ounces, liquid measure. Each bottle shall be wrapped in absorbent material and then all placed in a box made of cardboard or other suitable material and packed in a container made of double-faced corrugated fiberboard or solid fiberboard or wood. The corners of the container shall fit tightly and be reinforced with tape, so as to prevent the escape of any liquid if the inside container should be broken, and the whole parcel shall be securely wrapped with strong paper and tied with twine. Such parcels shall be indorsed "Fragile—Liquid," and be dispatched inside of mail bags. Single bottles of liquid holding 4 ounces or less may also be packed as prescribed in subparagraphs (2) and (3) of this paragraph.

(2) When in glass bottles holding more than 4 and not more than 16 ounces, the bottle shall be very strong and shall be inclosed in a block or tube of metal, wood, papier-mâché or similar material, and there shall be provided between the bottle and the block or tube a cushion of cotton, felt, or other absorbent. The block or tube, if of wood or papier-mâché, shall be of sufficient strength to afford proper protection to contents, and withstand handling in the mails, and shall be rendered watertight by an application on the inside of paraffin or other suitable substance, and shall be closed by a screw-top cover with sufficient screw threads to require at least one and one-half complete turns before it will come off. The cover of the block or tube shall be provided with a washer so that no liquid could escape if the bottle should be broken. Such bottles may also be packed in strong and tight receptacles of wood, metal, or solid fiberboard or waterproof double-faced corrugated fiberboard if surrounded with bran, sawdust, or other absorbent material in sufficient quantity to absorb all the liquid if the bottle should be broken. Parcels prepared in this manner shall be indorsed "Fragile—Liquid" and be dispatched inside of mail bags.

(3) Mailable liquids, in quantities of more than 16 ounces, when in securely sealed glass bottles, shall be accepted for mailing when packed in strong boxes and surrounded with sawdust or other suitable substance to protect the contents from breakage. All such packages

shall be marked "Fragile—Liquid. This Side Up," or with similar inscription, and be transported outside of mail bags.

(4) Mailable liquids in securely closed (hermetically sealed or screw top or approved patented top) metal containers, when in quantities of less than 1 gallon and inclosed in double-faced corrugated fiberboard or solid fiberboard or wooden boxes for shipment inside of mail bags, shall be accepted for mailing, but when in friction-top cans the tops shall be securely soldered on or so fastened by effective indentations at not less than six places, or the cans be surrounded with sawdust, bran, or other suitable absorbent material in sufficient quantity to absorb all the liquid if the top of the can should come off. Such parcels shall be marked "Fragile—Liquid."

(5) Mailable liquids in tightly closed metal containers in quantities of 1 gallon or more shall be accepted for mailing when suitably boxed or crated to be dispatched outside of mail bags and labeled "Fragile—Liquid. This Side Up," but when in extra strong metal containers, such as heavy milk cans, the boxing or crating may be omitted.

(6) Insecticides, fungicides, and germicides, when accepted for mailing, must be in inside containers of metal, glass or fiber cans or boxes and in outside containers of metal, wood, or fiberboard, tightly closed and securely fastened. When in liquid form, the inside container must not only be surrounded with sufficient absorbent material to absorb all the liquid should the container be broken but packed in cushioning material. (Excelsior is not considered an absorbent.) When in solid or powdered form, the inside container must be surrounded with cushioning material.

(d) Pastes, salves, etc., not easily liquefiable shall be accepted for mailing when inclosed in watertight containers and cushioned in a double-faced corrugated fiberboard or solid fiberboard or wooden box.

(e) Manufacturers or dealers intending to transmit articles in considerable quantities should submit to the postmaster at the mailing office for approval a specimen parcel showing the manner of packing.

(f) Sharp-pointed or sharp-edged instruments or tools shall be capped or incased so that they cannot cut through their covering. Blades shall be bound so that they will remain firmly attached to each other or within their handles or sockets. Plowshares, stove castings, pieces of machinery, etc., shall have all points, edges, and corners thoroughly protected with excelsior or similar material and be wrapped in burlap, cloth, or tough paper, or be properly boxed to prevent damage to mail or equipment, when intended for other than local delivery.

(g) Ink powders, flour, pepper, snuff, or other similar powders not explosive, or any similar pulverized dry substance not poisonous, shall be accepted when inclosed in the manner prescribed herein for liquids, or when inclosed in cases made of metal, wood, papier-mâché, or similar material, in such manner as to render impossible the escape of any of the contents.

(h) Candles, confectionery, yeast cakes, soap in hard cakes, etc., shall be inclosed in boxes and so wrapped as to prevent damage to other mail matter.

(i) Mailable hides and pelts which are thoroughly dried or cured (§§ 6.13, 6.18) shall be so wrapped as to prevent grease soaking through the package and damaging other mail matter.

(j) Unloaded guns may be sent in the mails, but the postmaster at mailing office shall carefully examine such packages and shall receive them only when sure they are harmless. Cartridges or loaded shells shall not be accepted for mailing. (See section 607 as to mailability of pistols, etc.)

(k) Fragile articles, such as millinery, toys, musical instruments, etc., and articles consisting wholly or in part of glass, or contained in glass, shall be securely packed and cushioned in strong double-faced corrugated fiberboard or solid fiberboard or wooden boxes and the parcel stamped or labeled "Fragile." Parcels so labeled shall be handled with the greatest possible care. Parcels which do not contain fragile articles shall not be marked "Fragile." (R. S. 161, 396, Secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

Articles likely to spoil within the time reasonably required for transportation and delivery shall not be accepted for mailing.

(b) Butter, lard, and perishable articles, such as fish, fresh meats, dressed fowls, vegetables, fruits, berries, and articles of a similar nature, which decay quickly, shall be accepted for mailing to any office which in the ordinary course of mail they can reach without spoiling, when inclosed in crates, boxes, baskets, or other suitable containers, so constructed as properly to protect the contents and prevent the escape of anything therefrom. Such parcels shall be labeled "Perishable," and, if necessary for safe shipment, shall be transported outside of mail bags. Berries, fruits, and vegetables shall not be accepted for mailing unless they are in good dry shipping condition.

(c) Eggs shall be accepted for mailing when packed in crates, boxes, baskets, or other suitable containers, so constructed as properly to protect the contents. Such packages shall be transported outside of mail bags. All parcels containing eggs shall be plainly marked "Eggs." When necessary, they should be marked "This side up."

(d) Eggs for hatching shall be accepted for mailing, when each egg is wrapped separately and surrounded with excelsior, woodwool, or other suitable material and packed in a basket, preferably with a handle, or other suitable container, lined with paper, fiber board, or corrugated pasteboard. Such parcels

shall be labeled "Eggs for hatching," "Keep from heat and cold," "Please handle with care," or other suitable words, and shall be handled outside of mail sacks. (R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

§ 6.19 *Mailability of insects and various small animals*—(a) *Insects and dried reptiles.* (1) Queen bees and their attendant bees, when accompanied with a copy of a certificate of the current year from a State or Government apiary inspector to the effect that the apiary from which said queen bees are shipped is free from disease or by a copy of a statement by the beekeeper made before a notary public or other officer having a seal that the honey used in making the candy used in the queen mailing cage has been diluted and boiled in a closed vessel may be sent in the mails when so put up as to render it practically impossible that the package shall be broken in transit, or the persons handling the same be injured, or the mail bags or their contents soiled.

(2) Honey bees in quantities may be sent in the mails under the same conditions as are prescribed for queen bees and their attendant bees when delivery can be made to the addressee within a period of 5 days. If the cages are wooden, the material of which they are constructed shall not be less than three-eighths of an inch thick and the saw cuts therein or space between slats shall not be over one-eighth of an inch wide; if wire screen is used for the sides of the cages the screen may be of one thickness. The food can shall be securely suspended in the cage with the top of the can wedged against the top of the cage. Cleats approximately 1 inch high shall be securely fastened on the bottom of the cages to prevent the escape therefrom of any sirup that the bees may fail to consume. Each cage shall be provided with a suitable handle and be marked on the top with the words "This Side Up." Such parcels shall be transported outside of mail bags.

(3) Other live nonpoisonous or disease conveying insects when addressed to the Bureau of Entomology and Plant Quarantine, U. S. Amend the reference at the end of the section by deleting "[Sec. 1389]" and substituting "[Sec. 1389, as amended by P. M. G. Order 29511, Oct. 29, 1945]."

AUTHORITY: §§ 17.1 to 17.97, inclusive (with exceptions noted in the text), issued under R. S. 4027; 39 U. S. C. 711.

New § 17.1a to follow § 17.1; new § 17.24a to follow § 17.24; and new §§ 17.66a and 17.66b to follow § 17.66, are hereby added.

§ 17.1a *Postal notes.* (a) The Postmaster General may authorize postmasters at such offices as he shall prescribe, to issue and pay money orders not exceeding \$10, to be known as postal notes at 5 cents each: *Provided, however,* That the Postmaster General is hereby authorized, in order to promote the service to the public, to increase or decrease the fees fixed by Congress for postal notes to an amount not less than 3 cents or more than 6 cents, whenever he shall find that such fees are too low to insure the receipts of revenues adequate to pay the cost of the postal-note system or materially higher than necessary to pay the cost thereof: *And provided further,* That he shall be required to report to the Congress revision of any fee at least sixty days prior to its effective date.

(b) Postal notes shall be valid for two calendar months from the date of their issue, but thereafter may be paid by the Postmaster General or refund may be made in case of loss, upon evidence satisfactory to him, under such regulations as he may prescribe. Postal notes shall not be negotiable or transferable through endorsement.

(c) Postal notes shall be furnished for sale at all first-class post offices and at such district post offices as the Third Assistant Postmaster General may designate. Their issue and payment shall

be confined to the continental United States, excluding Alaska, Hawaii, and outlying possessions. They shall not be used in transacting domestic business with the foreign countries with which money-order service is conducted on the domestic basis.

(d) Postal note stamps in denominations not exceeding 90 cents shall be supplied for use in making up odd amounts not covered by the postal note, so that combinations of not more than two postal note stamps and a postal note will provide values from 1 cent to \$10, the maximum for which a postal note may be issued. Postal note stamps shall be affixed to the postal note and canceled by issuing postmasters and shall be valid only when so affixed.

(e) Postal notes and postal note stamps affixed thereto shall be paid at any post office at their combined face value upon proper identification of payees if presented within 2 calendar months from the date of their issue. Thereafter, unpaid postal notes shall be sent by the remitter or payee with a request for refund to the Third Assistant Postmaster General, Division of Money Orders.

(f) No inquiry or claim concerning lost or destroyed postal notes shall be accepted until 2 calendar months after date of issue and then only upon presentation of the remitter's receipt and evidence of nonpayment.

(g) Postal notes and postal note stamps shall be furnished by the Third Assistant Postmaster General to direct and central-accounting postmasters as accountable stock, and shall be furnished by central-accounting postmasters to district postmasters on a fixed credit basis.

(h) *Where available.* Postal notes may be purchased at any first-class post office, station or branch, except Army and Navy post offices, and second-class post offices, within the continental limits of the United States, excluding Alaska, Hawaii and other outlying possessions.

(i) *Amounts for which available.* Postal notes may be purchased for any amount from 1¢ to \$10. While the maximum amount of a postal note is fixed by law at \$10, there is no limitation as to the number that may be purchased by a patron at one time.

(j) *Fee.* The fee for the purchase of a postal note of any denomination shall be 5¢.

(k) *Application.* There is no application required for the purchase of a postal note. The patron applies at a money order window for a note of a specified amount, tendering the value plus the fee of 5¢ for each note desired.

(l) *Completion of particulars on postal note.* The purchaser of a note shall write in the name and address of the payee on the face, as well as his own name and address on the back of the note.

(m) *Spoiled postal notes.* If a postal note is spoiled by the purchaser when writing in the name and address of the payee, it shall be presented at the window for repayment. If another note is desired, the fee therefor shall be paid by the patron.

(n) *Adhesive postal note stamps.* Adhesive postal note stamps are available only for the purpose of representing the cents value on postal notes and may not be obtained unless affixed to the paying office coupon of a postal note and canceled by the stamp of the issuing employee.

(o) *Period of validity.* The period of validity on a postal note is two calendar months from the date of issue. A calendar month is the corresponding date in the next month. If there is no corresponding date, the last day of validity will be the last day of the second month after the month of issue.

(p) *Negotiability.* Postal notes are not negotiable or transferable through endorsement and may be paid only to the purchaser or payee named therein at post offices, branches, stations, and banks.

(q) *Claims for lost or destroyed postal notes.* Claims for lost or destroyed postal notes may be submitted through any post office within the continental limits of the United States on Form 6596, Application for Duplicate Postal Note. No inquiry or claim will be accepted prior to the expiration of the period of validity, i. e. two calendar months from the date of issue, and in all cases such claims must be supported by the presentation of the purchaser's receipt and evidence, if possible, that the note has not been paid.

(r) *Applications for duplicates of invalid postal notes.* When a postal note becomes invalid the holder shall present it at a post office and file application for a duplicate on Form 6596. The original note shall be marked "Void, duplicate applied for — 19—", and returned to the patron.

(s) *Mutilated postal notes.* When a postal note becomes mutilated the patron shall present it at a post office and file application for duplicate on Form 6596. In such cases the original postal note, or the mutilated portions thereof, shall accompany the application for duplicate.

(t) *Where payable.* Postal notes shall be paid at any post office within the continental limits of the United States regardless of whether such post office is authorized to issue postal notes.

(u) *Endorsements.* The purchasers or payees shall sign postal notes in the space provided therefor on the face before they are paid, and payment may be made only upon proper identification of the patron as required for the payment of money orders: (58 Stat. 508; 39 U. S. C., Sup., 738) [Sec. 1402 as amended by P. M. G. orders 26005, Sept. 19, 1944; 27031, Jan. 18, 1945]

In § 17.22 *Payment at any office*, make the following change:

Amend paragraph (b) to read as follows:

(b) An original domestic money order shall be paid at its full face value if presented at the office on which drawn or at the office of issue at any time within the period of its validity, which is 1 year from the last day of the month in which issued. For the first 30 days after issue any domestic money order issued in the continental United States (except Alaska) may be paid for its face value, less the fee prescribed by the law quoted

above, at any office other than that of issue or that on which drawn, provided the office at which presented is located within the continental United States (except Alaska). (38 Stat. 280, 43 Stat. 973; 39 U. S. C. 727) [Sec. 1429, as amended by P. M. G. Order 23250, December 3, 1943]

§ 17.24a *Alleged wrong payment of money order.* (a) When a postmaster is notified of the wrong payment of a money order at his office, he shall promptly report the matter to the Third Assistant Postmaster General, Division of Money Orders and on form 6065 request a photostat of the paid order for examination by the complainant. If the paying office is of the first or second class, the postmaster shall give the date of payment and the "file number" or the sheet, column and running number of the account in which credit therefor was taken, so that the order may be located in the files of the General Accounting Office. If the paying office is of the third or fourth class, the date on which the paid order was forwarded to the central accounting office shall be given. If a photostat of a paid money order is needed for any other purpose the same procedure must be followed. [Section 1433.]

(b) Upon receipt of a photostat from the Department the postmaster shall exhibit it to the complainant, and if he states that the signature thereon is not genuine an affidavit is filed and the case forwarded to the Inspector in Charge of his district for investigation and settlement.

In § 17.28 *Payment of money orders to persons or concerns conducting fraudulent schemes, lotteries, etc., forbidden*, make the following changes:

Insert paragraph (a) before the first paragraph.

Delete citation "(R. S. 4041, sec. 3, 26 Stat. 466; 39 U. S. C. 732) [Sec. 1435]"

Insert paragraph (b) as follows:

(b) If an envelope containing a c. o. d. money order is returned to the office of issue indorsed "Fraudulent", "Refused—Out of business", or "Fictitious", the envelope together with the money order shall be transmitted immediately to the Third Assistant Postmaster General, Division of Money Orders. (R. S. 4041, sec. 3, 26 Stat. 466; 39 U. S. C. 732) [Sec. 1438, as amended by P. M. G. Order 22934, November 11, 1943].

In § 17.39 *Duplicate of lost valid orders* amend paragraph (b) by the addition of the following:

However, when there is conclusive evidence that a money order was lost before deposit in the mails consent of the payee need not be obtained as the order is assumed to be the property of the remitter. Further when the mutilated order accompanies the application consent is not necessary.

In § 17.40 *Application for duplicate order at issuing office* amend paragraph (b) by the addition of the following:

Exceptions:

(1) An application may also be accepted, certified and forwarded at once if the mutilated order accompanies it.

(2) A postmaster shall not certify or forward an application for a duplicate of a lost order which was originally bought by or drawn in favor of a member of the Armed Forces prior to the expiration of the seventy-fifth day following the date on which the original was issued, only providing the applicant or the party in whose favor the application is made shall execute a bond of indemnity on Form 6116 (See Money Order Service for Armed Forces).

Amend § 17.46 *Offices upon which duplicates may be drawn* by substituting the following:

§ 17.46 *Offices upon which duplicates may be drawn.* A duplicate money order shall be repaid only at the office of issue of the original or paid only at the office on which the original was drawn although the duplicate may be mailed to the owner at some other office. When the payee of a duplicate resides at a place distant from the office on which it is drawn, it may be paid by the issue of a new order for the same amount, less fee, on the money-order office nearest such payee's place of residence. He shall receipt the duplicate and send it to the postmaster at the office on which it is drawn, with request for payment thereof by the issue of a new order, naming the office on which the order shall be drawn. [See section 1453 Postal Laws and Regulations, Postmaster General, 1940]

Amend § 17.49 *Invalid money orders* by the addition of paragraph (e) as follows:

(e) Further the Post Office Department before issuing a warrant for the amount of an invalid money order to a legal representative, heir or assign of the remitter, payee or endorsee may require him or them to execute Standard Form 1055 and to furnish legal documentary evidence to establish a valid claim to the amount.

In § 17.55 *Exchange offices* make the following change:

Amend paragraph 1 in section (b) by deleting "Straits Settlements" and substituting "Malaya."

In § 17.59 *Care necessary in writing advices* make the following change: Amend paragraph (b) to read as follows:

(b) If the address furnished by the remitter is not written in English script or Roman letters which can be accurately transcribed, the remitter may write in his own language the payee's address on Form 6083, which shall then be attached to the advice and mailed with it to the exchange office. This Form 6083 is obligatory for all money orders payable in China, Jugoslavia, Lebanon, Palestine and Syria, and for those payable in or through Japan, when the remitter and payee are Asiatics.

§ 1766a *Issue of money orders in payment for C. O. D. parcels from foreign countries.* (a) Before delivering a C. O. D. parcel from one of the countries with which C. O. D. service is in effect, the clerk having charge of the assignment of such parcels for delivery shall complete an application on Form 6701 from which the international money order is later to be issued. The amount of the C. O.

D. charges, plus the money order fee collected from the addressee shall be turned over to the money order section with Form 6701, and a receipt shall be given on Form 3815. An international money order shall be issued, the advice and coupon sent to the proper exchange office and the receipt attached to the record of delivery of the parcel to show that the charges have been remitted.

(b) Form 6701 completed from parcels which for any reason are not delivered shall not be destroyed or turned over to the money order section, but shall be retained by the clerk having charge of the assignment of C. O. D. parcels for delivery, to provide a record of the name and address of the sender and may also be used to show what was done with the undeliverable parcels.

(c) When a C. O. D. parcel from abroad is received at a post office not authorized to transact international money order business, the postmaster shall complete an application on Form 6001 and shall collect from the addressee the C. O. D. charges plus the domestic fee and the fee for an international money order of the amount of the charges. He shall issue a domestic money order in favor of the postmaster at the proper exchange office for the amount of the C. O. D. charges and the international money order fee, and mail it (the domestic money order) to him with an application on Form 6701 for the issue of an international money order. The postmaster at the exchange office shall issue an international money order to remit the charges to the shipper of the parcel in the foreign country. (To determine the proper international fee and exchange office, consult Schedule 2 and Table 3, respectively, in Part 1 of the Official Postal Guide, under the heading "The Postal Money Order System").

§ 17.66b *Payment of international C. O. D. orders.* (a) The rules which govern the payment of international money orders generally, apply to those issued in foreign countries to pay the C. O. D. charges on parcels mailed in the United States. Since such money orders may be drawn on any post office in this country, one may be drawn on an office which is not authorized to transact international money order business. In such event, when the advice reaches him the postmaster shall pay the order and claim credit for it in the same manner as for paid domestic orders.

(b) An international C. O. D. money order shall not be repaid to the remitter, except when the sender of the parcel authorizes such action and waives all claim to the C. O. D. charges or indemnity therefor. When it appears that any person or firm is using the international C. O. D. service to further a scheme to defraud and postmasters are informed of that fact, they shall decline to pay international money orders drawn in favor of that person or firm and shall send the advices to the Third Assistant Postmaster General, Division of Money Orders.

Amend § 17.71 *Missing advices of orders payable in United States* to read as follows:

§ 17.11 *Missing advices of orders payable in United States.* When an order

issued in any of the countries named in Tables 2 and 3, International List, is presented for payment and no advice has been received, the paying postmaster shall immediately apply on Form 6752 to the proper exchange office in this country for an advice. If the order was issued in any of the countries with which money-order business is transacted on the domestic basis, with the exception of Canada, Canal Zone, Cuba, Jamaica, Newfoundland and the Philippine Islands, the postmaster shall forward directly to the issuing office a request for a duplicate advice on Form 6006. (Sec. 1479)

NOTE: Canada, Canal Zone, Cuba, Jamaica, Newfoundland and the Philippine Islands do not forward an advice for each order issued, as coupons attached to the orders serve the purpose of advices formerly used.

In § 17.80 *Repayment of international order drawn on domestic form* make the following change:

Amend paragraph (b) by deleting "Newfoundland or".

- 18.20 Designation of banks as depositories for postal savings funds.

New § 18.20 is hereby added.

NOTE: For the text of sections listed in the above table and not appearing in this publication see 39 CFR, Part 18.

AUTHORITY §§ 18.1 to 18.20, inclusive (with exceptions noted in the text), issued under 36 Stat. 814, sec. 10, 37 Stat. 559, 38 Stat. 716, 29 Stat. 159; 39 U. S. C. 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769.

In § 18.1 *Authority for establishment of Postal-Savings System*, make the following changes:

Amend paragraph (b) to read as follows:

(b) The names of all post offices, branches, and stations where postal-savings accounts may be opened shall be indicated in the State list of the Official Postal Guide, and changes in postal-savings depository offices shall appear in the supplements.

Amend footnote to read as follows:

The source of §§ 18.1 to 18.20, inclusive, (except for amendments noted in the text) is Postal Laws and Regulations, Postmaster

General, 1940, and Regulations Governing the Deposit of Postal-Savings Funds in Banks and the Acceptance of Bonds as Security Therefor, Form PS 2.

In § 18.2 *Accounts*, make the following changes:

Amend paragraph (b) to read as follows:

(b) (1) Deposits shall be accepted only in the name of individuals, and no account shall be opened in the name of any corporation, association, society, firm, or partnership, or in the names of two or more persons jointly. No account shall be opened in the name of one person in trust for or on behalf of another person or persons.

(2) In all bankruptcy proceedings, the officers and agents in charge of the bankrupt funds are authorized to deposit the same without limit as to amount in the postal-savings depositories at the prescribed interest rate in all cases where local banks are unable or unwilling to give the required security. Such deposit or any portion thereof may be withdrawn as required in the bankruptcy proceedings.

When an officer or agent in charge of bankrupt funds applies at a depository post office to open a postal-savings account, the postmaster shall require evidence that (i) the funds involved are entitled to consideration under the above quoted amendment to the Bankruptcy Act, that (ii) the officer or agent has been duly appointed, and that (iii) local banks are unable or unwilling to give the required security. If satisfied, the postmaster shall accept the deposit in any amount of even dollars, issue certificates in the name and title of the officer or agent, together with the name of the bankrupt corporation, association, or individual, and deliver the certificates to such officer or agent, except that if the deposit is by commercial check or draft, delivery of the certificates shall be withheld until collection has been made. If the postmaster is in doubt as to the acceptability of the deposit, he shall refer all papers in the case to the Third Assistant Postmaster General, Division of Postal Savings, and await instructions.

When payment is demanded, the certificate shall be indorsed by the officer or agent (or his successor, whose appointment must be evidenced by a decree of court) and, in addition, may be countersigned by another individual in his representative court capacity if such be the requirement of the referee having jurisdiction over the funds in question. As the amount involved is invariably large, the postmaster shall request the officer or agent to give advance notice of contemplated withdrawals so that he will have time to requisition the necessary amount from the Third Assistant Postmaster General, Division of Postal Savings.

Amend paragraph (c) by adding the following note:

NOTE: The Postal Savings System was instituted for the purpose of encouraging thrift and to provide a safe depository for the accumulation of savings. Accounts persistently showing a rapid turnover of deposits or which are intended to serve as a safe place in which to leave funds for a few hours or which otherwise indicate an unreasonable

use of postal-savings facilities are considered nuisance accounts. Postmasters are not required to open or accept further deposits in nuisance accounts.

Amend paragraph (f) to read as follows:

(f) The provisions of § 17.7 defining what may be accepted for the purchase of money orders shall be applicable to postal-savings deposits, subject to the provisions of §§ 18.9 and 18.10 of this chapter. The postmaster may accept Government paper not more than one full fiscal year old from responsible persons whose indorsement thereon the postmaster is willing to guarantee; and when such paper is accepted, the postmaster shall immediately issue the certificates and deliver them to the purchaser. Acceptance of a personal check, cashier's check, bank draft, or other commercial paper is at the risk of the postmaster; and when such paper is accepted, the purchaser shall be given a receipt on Form 929 or Form 929-S; but the certificates, which shall be issued immediately or at the earliest opportunity, shall be retained by the postmaster with a copy of the receipt until ample time shall have elapsed to insure receipt of notice should the check or draft fail to clear, after which the certificates shall be delivered to the depositor, either in person or by ordinary mail. No funds are available to pay collection charges on checks or drafts accepted as postal-savings deposits, and where charges cannot be avoided, they shall be paid in advance by the depositor. (Secs. 4, 6, 36 Stat. 815, sec. 1, 39 Stat. 159, secs. 12, 13, 40 Stat. 754, sec. 10, 37 Stat. 559, 47 Stat. 1482; 39 U. S. C. 754, 756, 768; 11 U. S. C. 101a) [Sec. 1603, as amended by P. M. G. Order 31435, May 9, 1946, and sec. 1630, 1940 ed.]

In § 18.3 *Depositor's application on card, Form PS 600*, make the following changes:

Amend paragraph (a) to read as follows:

(a) When a person applies to open an account, the postmaster or his representative shall question the applicant to obtain the necessary information and shall carefully fill out an application on depositor's card (Form PS 600).

Amend paragraph (b) by adding the following sentences:

At offices equipped to take finger impressions, such impressions should be taken of every person desiring to open an account unless the depositor persistently declines to comply, in which case that fact should be noted on Form PS 600. If the intending depositor signs by mark or characters not used by the English language, impressions must be insisted upon.

In § 18.5 *Deposits made through a representative or by mail*, make the following changes:

Add paragraph (k) to read as follows:

(k) It shall be lawful for any seaman to stipulate in his shipping agreement for deposits to be made in an account opened by him and maintained in his name at a United States postal-savings

depository, subject to the governing regulations thereof. (Sec. 10, 37 Stat. 559; 39 U. S. C. 768, 46 U. S. C. 599) [Secs. 1606 and 1607]

Amend paragraph (f) to read as follows:

(f) The depositors' cards (Form PS 600) after the entry of transactions, shall not be returned to the files until all accounts for the day are in balance. The entries on the depositors' cards shall be proved daily by adding the deposits made during the day as shown thereon and comparing the total with the total issues shown by the abstract of issues, Form PS 705. Form PS 705 or Abstract A in the daily summary for third- and fourth-class offices (Form PS 708-T/F), as the case may be, shall be used at all depository offices to maintain a daily record of certificates issued.

Amend paragraph (e) to read as follows:

(e) In the event of the change of a depositor's name by the order or decree of a court of competent jurisdiction, the procedure set forth in paragraph (d) of this section shall be followed. (Sec. 10, 37 Stat. 559; 39 U. S. C. 768) [Sec. 1610]

Certificates showing discrepancies shall be returned to the Department.

The postmaster shall record the reissue of the certificates on the depositor's card (Form PS 600) by writing "Reissued" in the "Remarks" column in line with the entry of issue and deliver the new certificates to the depositor.

Amend the citations in paragraph (e) to read as follows: "(Sec. 10, 37 Stat. 559; 39 U. S. C. 768) [Sec. 1611, as amended by P. M. G. Order 23548, Jan. 10, 1944]"

(2) Notwithstanding any other provision of law, (i) each deposit in a postal-savings depository office shall be a savings deposit, and interest thereon shall be allowed and entered to the credit of the depositor once for each quarter beginning with the first day of the month following the date of such deposit, but no interest shall be allowed to any such depositor with respect to the whole or any part of the funds to his or her credit for any period of less than three months; (ii) no interest shall be paid on any such deposit at a rate in excess of that which may lawfully be paid on savings deposits under regulations prescribed by the Board of Governors of the Federal Reserve System pursuant to section 371b of Title 12, for member banks of the Federal Reserve System located in or nearest to the place where such depository office is situated.

Amend paragraph (b) by adding two notes, reading as follows:

NOTE A: The maximum yearly interest rate payable on savings deposits by banks, trust companies, and savings banks in the State of Mississippi was reduced to 1 per cent effective January 1, 1945; and, accordingly, as required by the provisions of paragraph (a) (2) of this section, the yearly rate on postal-savings deposits in that State was reduced as of April 1, 1945, from 2 per cent to 1 per cent.

NOTE B: The maximum yearly interest rate payable on savings deposits by banks and trust companies and savings banks in the State of New Jersey was reduced to 1 per cent effective July 1, 1939; and, accordingly, as required by the provisions of paragraph (a) (2) of this section, the yearly rate on postal-savings deposits in that State was reduced as of the same date from 2 per cent to 1 per cent. However, the maximum yearly interest rate payable on savings deposits by banks, trust companies, and savings banks in this State was increased from 1 to 1½ per cent effective July 1, 1946; and, accordingly, the yearly rate on postal-savings deposits in this State was increased as of the same date from 1 to 1½ per cent.

Amend § 18.10 *Postal-savings cards and stamps* to read as follows:

§ 18.10 *Postal-savings cards and stamps.* (a) The authority of the Postmaster General to prepare and issue postal-savings cards and postal-savings stamps shall terminate on such date as stamps issued by the Secretary of the Treasury pursuant to the authority contained in section 22 (c) of the Second Liberty Bond Act, as amended, are made available for sale to the public; and, as soon as practicable thereafter, the Board of Trustees of the Postal Savings System shall pay to the Secretary of the Treasury a sum equal to the redemption value of all postal-savings stamps outstanding, and after such payment has been made the obligation to redeem such stamps shall cease to be a liability of the Board of Trustees of the Postal Savings System but shall constitute a public debt obligation of the United States.

NOTE: Pursuant to section 5 of the Public Debt Act of 1942 (quoted above), and by agreement between the Postmaster General and the Secretary of the Treasury, the liability for outstanding postal-savings stamps of all series, including the so-called Defense Savings stamps and War Savings stamps, and the accountability for unsold savings-stamp stock charged to postmasters, were transferred to the Treasury Department as of the close of business September 30, 1942.

(b) Postal-savings stamps outstanding, and any series of savings stamps issued by the Treasury Department under the authority contained in section 22 (c) of the Second Liberty Bond Act, as amended, are exchangeable for postal-savings certificates. When a card or album with postal-savings or United States savings stamps affixed is presented at any postal-savings depository, it shall be accepted as a deposit of equivalent value either in opening an account or in adding to an existing account. One certificate may be issued to cover a deposit made partly in cash and partly by means of savings stamps. The postmaster shall transfer savings stamps exchanged for postal-savings certificates to the savings-stamp account in exchange for the equivalent of savings-stamp funds. (Sec. 5, 56 Stat. 189, 39 U. S. C. 756a) [Sec. 1613, as amended by P. M. G. Order 27177, February 3, 1945]

(g) (1) In order to obtain funds to meet withdrawals of principal or interest in excess of his daily receipts, the postmaster shall borrow from the money order or postal account or from the postage stamp fixed credit, or shall check on the money-order credit with the Treasurer of the United States, if a credit has been granted. Memoranda

(Form PS 622-A) to cover such temporary advances to the postal-savings account shall be placed with the money-order funds or postal funds or postage stamp fixed credit, as the case may be, and held until reimbursement shall have been made. The postmaster shall repay such advances from surplus postal-savings funds subsequently received, and, except at Washington, D. C., and central accounting offices, at the end of each month shall draw a postal-savings draft, Form PS 316, for any amount still due and forward it to the central accounting office as surplus money-order or postal funds, or in adjustment of the postage stamp fixed credit. The money order or postal account or postage stamp fixed credit shall always be completely reimbursed at the end of each month. The postmaster shall debit in the daily summary (Form PS 708, or, in lieu of the summary, Form PS 630-A and Form PS 430-C/A at the larger offices) the total amount of funds borrowed each day and shall credit in that record the total amount repaid, but shall not reflect such temporary advances and the repayments thereof on his reports to the department. If no money-order funds, including an authorized credit, postal funds, or postage stamp fixed credit are available, the postmaster shall draw a draft, Form PS 316, on his central accounting postmaster for cash or a check, as desired, or shall cash it at a local bank or business house, if accepted without charge for exchange. When an office is transferred, the outgoing postmaster shall draw a draft, Form PS 316, to complete the reimbursement of the money-order or postal account or postage stamp fixed credit for any amount advanced.

(2) The postmaster at Washington, D. C., or at a central accounting post office, shall use money order or postal funds, as provided in subparagraph (1) of this paragraph, when sufficient postal-savings funds are not on hand to meet withdrawals by depositors. He shall obtain funds needed to reimburse the money order or postal account from the Third Assistant Postmaster General and shall requisition such funds in ample time to insure complete reimbursement of the money order or postal account at the end of each month, and in sufficient amount to meet the estimated needs of his office. Any excess over the amount immediately needed for reimbursing purposes shall be held as cash in the post office or shall be deposited, wholly or in part, in a temporary checking account as provided in section 120, Postal Laws and Regulations, Postmaster General, 1940. The postmaster at Washington, D. C., or at a central accounting office may hold as cash or deposit in such temporary checking account the current postal-savings receipts in reasonable anticipation of early needs. (Sec. 8, 36 Stat. 816, sec. 10, 37 Stat. 559, sec. 11 (c), 48 Stat. 182, sec. 341, 49 Stat. 721; 39 U. S. C. 758 and Sup.) [Sec. 1617, as amended by P. M. G. In § 18.12 *Withdrawals; presentation of certificate, identification, etc.*, make the following changes:

Amend paragraph (k) to read as follows:

(k) Certificates when paid, either in full or in part or when surrendered for payment of only the interest due, shall be stamped on the face with the special "Paid" date stamp furnished for the purpose. The stamp shall be maintained in good working order, and the imprint shall clearly show the month, day, and year of payment. If the date of payment is not legible, the certificate shall be stamped again on the back in such manner that the date can be read. The employee making the payment shall place his initials on the face of each certificate along the right margin. The transaction shall be recorded on the depositor's card (Form PS 600) by entering the date (day, month, and year) thereof, the total amount of the certificates surrendered, and the new balance on the next unused line. On the same form the date of the transaction and the respective amount of interest paid, if any, shall be entered in line with the serial number of each surrendered certificate. Depositors' cards on which withdrawals have been entered shall not be returned to the files until all accounts for the day are in balance. Paid postal-savings certificates shall not remain in the custody of the postal-savings window clerk; they shall be delivered daily to the postmaster or some designated official or clerk, who shall be responsible for the protection of the vouchers and who shall be charged with the duty of preparing the monthly reports.

Amend paragraph (l) to read as follows:

(l) At the close of each day's business or at such time during the day as may be convenient the postmaster shall enter the date of payment and serial numbers of the certificates paid under the proper denominations in Abstract B, which is bound in a book (Form PS 706) separate from other forms for first- and second-class offices, but which at third- and fourth-class offices is in the daily summary (Form PS 708-T/F), and enter the total amount of principal and total amount of interest paid in the daily summary (Form PS 708 at first- and second-class offices; Form PS 708-T/F at third- and fourth-class offices; but, in lieu of the summary, Forms PS 630-A and PS 630-C/A at the larger offices). The entries on depositors' cards shall be proved by adding the withdrawals made during the day and comparing the total with the total withdrawals shown by Abstract B. At the close of the month Form PS 706-A (detailed instructions for the preparation of which appear thereon) and all paid certificates, properly arranged, shall be forwarded with the postmaster's monthly account current. Abstract B shall be retained and become a part of the permanent files of the post office.

Amend paragraph (m) to read as follows:

(m) Whenever all certificates issued to a depositor have been paid, the depositor's card (Form PS 600), bearing the record of the account, shall be marked "Account closed" and placed in a separate file with other closed accounts in numerical order. (See leaflet ES

100.) (Sec. 8, 36 Stat. 816, sec. 10, 37 Stat. 559, sec. 11 (c), 48 Stat. 182, sec. 341, 49 Stat. 721; 39 U. S. C. 758 and Sup.) [Sec. 1618, as amended by P. M. G. Order 26295, October 23, 1944]

In § 18.13 *Withdrawal through a representative or by mail*, make the following changes:

Amend paragraph (b) to read as follows:

(b) For the payment of a certificate to such a depositor, a blank order (Form PS 304) shall be furnished. When the order has been properly filled out and signed by the depositor, it shall be returned to the postmaster, together with the certificate or certificates properly indorsed by the depositor. The depositor shall give a receipt on the certificate in the following form: "Received the amount of this certificate and \$---- (amount to be specified) interest due thereon." The amount of interest payable shall be inserted by the postmaster in the receipt form on each certificate before the representative receipts on Form PS 304 for the total payment. The postmaster shall then make payment to the representative. The payment of the certificates and interest shall be recorded as provided in § 18.12 (k) and (l), and the leaflet Form PS 100. The order on Form PS 304 shall be filed with the depositor's card (Form PS 600).

Amend the first sentence of paragraph (e) to read as follows:

(e) When a depositor desires to make a withdrawal by mail of all or any part of the amount of any of his certificates, the postmaster at any depository office shall furnish him application blanks, Form PS 315, for requesting payment of all or part of the principal and any interest due on such certificates by money order, less the usual fee, or by check.

Amend paragraph (f) to read as follows:

(f) The depositor shall give a receipt on the certificate in the following form: "Received the amount of this certificate and \$---- interest due thereon." If any interest is due, the amount shall be entered in the receipt form on the certificate by the postmaster at the paying office.

Amend paragraph (g) to read as follows:

(g) The postmaster at the office where the certificates were issued, if satisfied as to the applicant's identity, shall follow the directions of the depositor on Form PS 315 as to payment and shall forward the amount withdrawn and any new certificate issued in exchange to him at the stated address, making payment either by a money order, less the usual fee, or by a check on the postmaster's authorized money-order credit with the Treasurer of the United States and using Form PS 320 as the letter of transmittal. If payment by check has been requested and the paying postmaster has not been granted a credit with the Treasurer of the United States, he shall send to his central accounting postmaster, with a completed Form PS 320, any new certifi-

cates issued in exchange, and a postal-savings draft, Form PS 316, for all of the interest and as much of the principal as is to be paid and shall request the central accounting postmaster by means of Form PS 320-A to forward a check for the amount due direct to the depositor. If the depositor has requested that the mailing be registered, the minimum registry fee shall be deducted by the paying postmaster or the central accounting postmaster, whichever mails the withdrawal to the depositor. The payment of the certificates and interest shall be recorded as provided in § 18.12 (k) and (l), and the leaflet, Form PS 100. The application on Form PS 315 shall be filed with the depositor's card, Form PS 600.

Amend paragraph (h) to read as follows:

(h) When such a depositor desires to withdraw only the interest payable on any certificate or certificates, he shall be furnished with a blank application, Form PS 315-A. When the order has been properly filled out and signed, the depositor shall forward it with the certificate or certificates properly indorsed to the postmaster at the office where the account is held, as provided in paragraph 5 of this section. If the depositor's identity is satisfactorily established, the postmaster at the latter office shall proceed as provided in the leaflet, Form PS 100, and shall forward the amount of interest due to the depositor at the stated address by money order, less the usual fee, or by check on the postmaster's authorized credit with the Treasurer of the United States, together with the new certificates issued in lieu of those surrendered, using Form PS 320 as the letter of transmittal. If payment by check has been requested and the paying postmaster has not been granted an authorized credit with the Treasurer of the United States, the paying postmaster shall draw a postal-savings draft, Form PS 316, for the full amount of interest due and forward it to the central accounting postmaster with (1) the new certificates issued in exchange, (2) Form PS 320, and (3) a request on Form PS 320-A that he forward the check for the amount due direct to the depositor. If the depositor has requested that the payment be registered, the minimum registry fee shall be deducted by the paying postmaster or the central accounting postmaster, whichever mails the payment to the depositor. The order on Form PS 315-A shall be filed with the depositor's card, Form PS 600." (Sec. 8, 36 Stat. 816, sec. 10, 37 Stat. 559, sec. 11 (c), 48 Stat. 182, sec. 341, 49 Stat. 721; 39 U. S. C. 758 and Sup.) [Sec. 1619, as amended by P. M. G. Order 32341, Aug. 5, 1946]

In § 18.14, *Death or legal disability of a depositor*, make the following changes:

Amend the last sentence of paragraph (k) to read as follows: "Whenever funds are to be remitted by mail, a check drawn on the Treasurer of the United States for the amount or a money order for the amount less the usual fee will be used at the option of the payee."

In § 18.15, *Postal-savings bonds*, make the following changes:

Amend the citations in paragraph (c) to read as follows: "(sec. 10, 36 Stat. 817; 39 U. S. C. 760) [sec. 1621]"

In § 18.16, *Adjudication of courts conclusive as to rights in postal savings funds*, make the following changes:

Amend by the insertion of a note following paragraph (a) to read as follows:

NOTE: This law is held to provide for recognizing the judicial determination of cases involving the disputed ownership of postal-savings deposits, but since moneys accepted by the Government under the postal-savings act assume the nature of public funds they are not subject to ordinary proceedings of attachment, garnishment, or execution. (Buchanan v. Alexander, 4 Howard U. S. 19; 14 Am. & Eng. Ency. Law 814; Shinn, Attachment and Garnishment, sec. 505). In order to be recognized as affecting the title to postal-savings deposits, the judgment, order, or decree of the court must establish specifically the ownership of the postal-savings deposits in controversy.

§ 18.20 *Designation of banks as depositories for postal-savings funds.* Funds received at postal-savings depository offices in each city, town, village, or other locality, shall be deposited in solvent banks located therein whether organized under national or State laws, being subject to national or State supervision and examination, willing to receive such deposits under the terms of the Postal Savings Act and the regulations made by authority thereof; *Provided*, That as between two or more banks in the same community, preference shall be given member banks of the Federal Deposit Insurance Corporation. The word "bank" as used in the law includes savings banks and trust companies doing a banking business. Any eligible bank desiring to qualify for deposits of postal-savings funds shall transmit to the Third Assistant Postmaster General, Division of Postal Savings, Washington 25, D. C., an application on the prescribed form (PS 226) which shall include a report of the bank's paid-in capital and unimpaired surplus exclusive of undivided profits as of the date of application, and such application and report shall be sworn to by the president or cashier and attested as correct by two members of the board of directors. Blank application forms and a copy of the regulations governing the deposit of postal-savings funds in banks and the acceptance of bonds as security therefor (Form PS 2) may be obtained from the Third Assistant Postmaster General, Division of Postal Savings. A branch bank that has a definite capital and surplus formally set aside from that of the parent bank is deemed to be a local bank within the meaning of the law and is entitled to receive deposits on the basis of the capital and surplus thus separately assigned to it. MISCELLANEOUS AMENDMENTS TO REGULATIONS

By virtue of the authority vested in me by R. S. 4405, 4417, 4417a, 4418, 4426, 4429, 4433, 4438, 4438a, 4439, 4440, 4441, 4442, 4450, 4480, 4481, 4488, as amended, 49 Stat. 1384, 1544, 53 Stat. 1147, 55 Stat. 244 (46 U. S. C. 214, 224, 224a, 226, 228, 229, 239, 247, 367, 369, 375, 391, 391a, 392, 404, 497, 411, 471, 473, 474, 481, 526-526t; 50 U. S. C. 1275), and section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875), the following amendments to the regulations are prescribed, effective upon the date of publication of this order in the FEDERAL REGISTER:

Subchapter C—Motorboats, and Certain Vessels
Propelled by Machinery Other Than by Steam
More Than 65 Feet in Length

PART 25—REQUIREMENTS FOR ALL MOTOR- BOATS EXCEPT THOSE OF OVER 15 GROSS TONS CARRYING PASSENGERS FOR HIRE

LICENSED OPERATORS

1. Section 25.8-3 (a) is amended by adding the following sentences:

§ 25.8-3 *Professional qualifications and examination.* (a) * * * Fingerprint records on Form NCG 2515 shall be submitted to the Commandant on each applicant at the same time appli-

cation is made and shall be stamped "applicant for original license." The application of any person may be rejected by the District Commander or his authorized representative when derogatory information has been brought to his attention which indicates that the applicant's habits of life and character are such as to warrant the belief that he cannot be entrusted with the duties and responsibilities of the station for which he made application. If after such investigation the District Commander desires the Commandant's authorization, he shall submit the completed application (NAVCG-866) and the investigation report to Headquarters. In the event that an applicant is rejected he shall be advised that he may submit a request to the Commandant for a review of his case. No examination shall be given or temporary permit issued in the type case pending the Commandant's authorization. NAVCG 928A shall be used to notify an unsuccessful candidate of his failure to pass an examination or to qualify for a license.

2. Section 25.8-3 is amended by adding a new paragraph (c) reading as follows:

(c) An applicant for a motorboat operator's license shall not be disqualified by inability to read or write if he is qualified in all other respects and if he possesses extensive experience in the operation of small vessels. If the applicant has operated motorboats under the license issued under the Act of June 9, 1910, he shall be held to possess the required experience and must qualify in all other respects. Inability to read or write, however, shall be held to disqualify an applicant who is not experienced in operation of motorboats and who is not experienced in the operating of firefighting and lifesaving equipment, and is not thoroughly familiar with the applicable pilot rules.

3. Section 25.8-4 (a) is amended by adding the following sentences:

§ 25.8-4 *Physical qualifications.* (a) * * * Such an applicant may, however, be referred to a United States Public Health Service surgeon or other reputable physician. If, for any reason, the Officer in Charge, Marine Inspection, is not satisfied with any physical condition in determining the vision qualifications of such an applicant, then the same standards should be applied as those required for a renewal of license or a raise of grade.

4. Section 25.8-4 (b) is amended by designating material within present paragraph as subparagraph (1) and by adding two new subparagraphs reading as follows:

(b) (1) * * *

(2) For an original license the applicant must have, either with or without glasses, at least 20/20 vision in one eye and at least 20/40 in the other. Any applicant who wears glasses, however, must also be able to pass a test without glasses of at least 20/40 in one eye and at least 20/70 in the other. The color sense will be tested by means of the "Stillings" test, but any applicant who

fails this test will be eligible if he passes the "Williams" lantern test, but if found color blind no license will be issued except in a case where the applicant shows he has operated motorboats for many years and has particular qualifications, which in the judgment of the Officer in Charge, Marine Inspection, qualifies him to operate a motorboat in daylight only and so restricts the license. For a renewal of a license the applicant shall pass the same test as for an original license except that nothing herein shall debar an applicant who has lost the sight of one eye if he is qualified in all other respects and the vision in his own eye passes the test required for the better eye of an applicant possessed of both eyes. If an applicant for a renewal of license is pronounced color blind, the Officer in Charge, Marine Inspection, may grant him a license limited to service during daylight only.

(3) The physical examination for an original license shall include the eyesight, hearing, and physical condition of the applicant. Where an applicant is not possessed of the vision, hearing and general physical condition considered necessary, the Officer in Charge, Marine Inspection, after consultation with the Public Health Service physician may make recommendations to the Commandant for an exception to these requirements, if, in their opinion, extenuating circumstances warrant special consideration. Any request for a decision by the Commandant must be accompanied by all pertinent correspondence, records and reports.

Subchapter D—Tank Vessels

PART 32—REQUIREMENTS FOR HULLS, MACHINERY, AND EQUIPMENT

BOILERS AND MACHINERY

1. Section 32.5-11 is amended to read as follows:

§ 32.5-11 *Steering apparatus—T/ALL.*

(a) Extra steering apparatus consisting of relieving tackle, or of auxiliary power or hand steering gear attached to the rudder stock independent of the regular steering gear shall be provided.

(b) Where reasonable and practicable, the emergency steering wheel shall be located on the after weather deck, and an efficient means of communication shall be provided between the pilothouse, the emergency steering station, and the steering engine room.

(c) The following requirements relative to the arrangement of steering stations are applicable to new installations and replacements of existing installations on all classes of vessels:

(1) Steering wheels in or at steering stations shall be installed in a vertical position and arranged for steering by the helmsman when standing abaft the wheel and facing forward. The top of the steering wheel, the rudder blades, and the head of the ship shall move in the same direction.

(2) When a "trick" wheel is installed in the steering gear room and is used for warming up and testing the gear, and also for steering purposes, this wheel shall be arranged as follows:

(i) If the "trick" wheel is installed in a vertical position it shall meet all re-

quirement; outlined in subparagraph (1).

(ii) If the "trick" wheel is installed in a horizontal position it shall turn in a clockwise direction for "right rudder" and in a counterclockwise direction for "left rudder." With this arrangement, the helmsman need not stand abaft the wheel.

(3) Where "trick" wheel or other device is installed in the steering gear room for the sole purpose of warming up and testing the gear, it may be installed to best suit design and operating conditions of the gear. A plate shall be fitted on this wheel or device with indicating arrows showing the direction of movement to produce "right rudder" and "left rudder."

(4) When auxiliary steering gear is installed in lieu of relieving tackles, the steering wheel or device used for operating the gear shall meet all requirements outlined in paragraph (c) (1) of this section.

(5) At all steering stations, there shall be installed a suitable notice on the wheel or device, or in such other position as to be directly in the helmsman's line of vision, to indicate the direction in which the wheel or device must be turned for "right rudder" and for "left rudder."

(d) Where no regular rudder is fitted and steering action is obtained by a change of setting of the propeller unit, the requirements of paragraphs (a), (b) and (c) of this section will not generally be applicable, and special consideration will be given.

EQUIPMENT AND MISCELLANEOUS

1. Section 32.9-7 is amended to read as follows:

§ 32.9-7 *Life lines and rails—TB/OCLEB—(a) Lines.* On all tank vessels where the distance is more than 150 feet between deck houses, a wire cable shall be stretched between the deck houses at all times when the vessel is loaded and being navigated, this cable to be not less than 5 feet from the deck; and there shall be attached at all times to the cable a traveler with a line of sufficient continuous length to insure its operation in order that communication between both ends of the vessel may be facilitated at all times: *Provided*, That in addition to the traveler with the endless whip, as many loose rings with lanyards attached may be placed on the cable as may be deemed necessary by the master in charge of the vessel: *Provided further*, That a fore and aft raised bridge shall be accepted in lieu of the wire cable and traveler.

(b) Effective for new construction rails on decks or bridges shall be in at least two courses including the top and shall be at least 36 inches high.

PART 36—LICENSED OFFICERS AND CERTIFICATED MEN

LICENSED OFFICERS

1. Section 36.1-1 (b) is amended by adding the following sentences:

§ 36.1-1 *Original licenses—T/ALL*

* * * * * (b) * * * * * Fingerprint records on Form NCG 2515 shall be submitted to the Commandant on each applicant at

the same time application is made and shall be stamped "applicant for original license" or "applicant for original certificate of registry as staff officer" as appropriate. The application of any person may be rejected by the District Commander or his authorized representative when derogatory information has been brought to his attention which indicates that the applicant's habits of life and character are such as to warrant the belief that he cannot be entrusted with the duties and responsibilities of the station for which he made application. If after such investigation the District Commander desires the Commandant's authorization, he shall submit the completed application (NAVCG-866) and the investigation report to headquarters. In the event that an applicant is rejected he shall be advised that he may submit a request to the Commandant for a review of his case. No examination shall be given or temporary permit issued in the type case pending the Commandant's authorization. NAVCG 928A shall be used to notify an unsuccessful candidate of his failure to pass an examination or to qualify for a license.

2. Section 36.1-1 (d) is amended by adding the following sentences:

(d) * * * Applicants for original licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued an original license. Until an applicant meets this mandatory requirement, he is not entitled to be licensed to serve as an officer on a vessel of the United States. No person who has been convicted by court-martial of desertion or treason in time of war, or has lost his nationality for any of the other reasons listed in 8 U. S. C. 801, is eligible for a license.

The fact that an applicant for an original license or raise in grade of license is on probation as a result of action under R. S. 4450, as amended, does not itself make such an applicant ineligible, provided he meets all the requirements for such original license or raise in grade. However, an original license or raise in grade of license issued under those circumstances will be subject to the same probationary conditions as were imposed against the seaman's certificates or licenses in proceedings under R. S. 4450, as amended. Any such applicant must file an application for license in the usual manner, and the offense for which he was placed on probation will be considered on the merits of the case in determining his fitness to hold the license applied for. Nothing in these instructions, however, shall be construed to permit an applicant to be examined for an original license or a raise in grade of license during any period when a suspension without probation or a revocation imposed pursuant to R. S. 4450, as amended, is effective against his license or certificate.

3. Section 36.1-2 (d) is amended by designating the material in the present paragraph as subparagraph (1) and by

adding a new subparagraph (2) reading as follows:

§ 36.1-2 *Qualifications for license as engineer of steam vessels—T/ALL.*

(d) (1) * * *

(2) Conversion of gross tonnage to horsepower on engineer license applies only to original and raise of grade of licenses; therefore, candidates for such licenses who have qualified by experience on steam or motor vessels, which normally would have entitled them to licenses for vessels of any gross tons, may be issued the appropriate grade of engineer licenses of any horsepower. Engineer licenses presented for renewal on which gross tonnage is indicated shall continue to be issued on the gross tonnage basis; therefore, the conversion of gross tonnage to horsepower as outlined above shall not apply.

4. Section 36.1-3 (b) is amended by designating material within present paragraph as subparagraph (1) and by adding five new subparagraphs reading as follows:

§ 36.1-3 *Medical examination for original license—T/ALL.*

(b) (1) * * *

(2) Epilepsy, insanity, senility, acute venereal disease or neurosyphilis, badly impaired hearing, or other defect that would render the applicant incompetent to perform the ordinary duties of an officer at sea are causes for certification as incompetent.

(3) For an original license as master, mate or pilot, the applicant must have, either with or without glasses, at least 20/20 vision in one eye and at least 20/40 in the other. The applicant who wears glasses, however, must also be able to pass a test without glasses of at least 20/40 in one eye and at least 20/70 in the other. The color sense will be tested by means of the "Stillings" test, but any applicants who fail this test will be eligible if they can pass the "Williams" lantern test.

(4) For each original license as an engineer officer, the applicant must have, either with or without glasses, at least 20/30 vision in one eye and at least 20/50 in the other. The applicant who wears glasses, however, must also be able to pass a test without glasses of at least 20/50 in one eye and at least 20/70 in the other. Any applicant for license as engineer shall not be subjected to examination as to ability to distinguish colors. Any applicant for original license who is possessed of monocular vision, and who has lost the sight of one eye since first obtaining his qualified member of the engine department certificate may be permitted to sit for a license if eligible in all other respects. Vision of at least 20/30 without glasses in the remaining eye shall be required in all such cases.

(5) Persons serving or intending to serve in the Merchant Service are recommended to take the earliest opportunity of ascertaining, through examination by an ophthalmic surgeon, whether their form vision, and color vision where required, is such as to qualify them for service in that profession throughout their sea career; the Public Health Service will give voluntary examinations to

such persons requesting same, the color vision test will be by means of the "Stillings" test, or failing that, the "Williams" lantern test. A person failing the "Stillings" test and wishing to qualify by the lantern test shall, if the Public Health Station at which he is undergoing test is not equipped with a lantern, pay his own expenses to journey to one of the following stations: Baltimore, Md., Boston, Mass., Buffalo, N. Y., Chicago, Ill., Cleveland, Ohio, Detroit, Mich., Ellis Island, N. Y., Evansville, Ind., Galveston, Tex., Key West, Fla., Los Angeles, Calif., Louisville, Ky., Memphis, Tenn. Miami, Fla., Mobile, Ala., New Orleans, La., New York, N. Y., Norfolk, Va., Pittsburgh, Pa., Portland, Me., Portland, Oreg., Port Huron, Mich., Providence, R. I., Philadelphia, Pa., St. Louis, Mo., San Francisco, Calif., Savannah, Ga., Seattle, Wash., Staten Island, N. Y., Vineyard Haven, Mass., and Washington, D. C.

(6) Where an applicant is not possessed of the vision, hearing, and general physical condition considered necessary, the Officer in Charge, Marine Inspection, after consultation with the Public Health Service physician, may make recommendations to the Commandant for an exception to these requirements if, in their opinion, extenuating circumstances warrant special consideration. Any request for a decision by the Commandant must be accompanied by all pertinent correspondence, records and reports. In this connection recommendations from agencies of the Federal Government operating Government vessels as well as owners and operators of private vessels, made in behalf of their employees, will be given full consideration as a determining factor in arriving at a decision.

5. Section 36.1-4 (b) is amended to read as follows:

§ 36.1-4 *Medical examination for renewal of license and raise of grade—T/ALL. * * **

(b) (1) The test for color vision shall be by means of the "Stillings" test, or failing that, by means of the "Williams" lantern test. A person failing the "Stillings" test and wishing to qualify by the lantern test shall, if the Public Health Station at which he is undergoing test is not equipped with a lantern, pay his own expenses to journey to such station as is equipped with same. (See § 36.1-3 (b) (5) of this chapter for list of stations.)

(2) Nothing herein contained shall debar an applicant who has lost the sight of one eye from securing a raise of grade or a renewal of his license, provided he is qualified in all other respects, and the vision in his one eye passes the test required for the better eye of an applicant possessed of both eyes.

6. Section 36.1-5 (b) is amended to read as follows:

§ 36.1-5 *Professional examination and service—T/ALL. * * **

(b) In qualifying applicants for licenses, the following applies regarding acceptance of experience on various types of vessels:

(1) It is not required that an applicant must have obtained his experience

on United States vessels. Experience on foreign vessels will be given due credit.

(2) No applicant for a license, who is a naturalized citizen, and who has obtained his experience on foreign vessels, shall be given a grade of license higher than that upon which he has actually served while acting under the authority of a foreign license.

(3) Experience in towed barges fitted with sails and rigging cannot be considered as sail vessel time.

(4) An applicant for original license as pilot may be given credit for experience on motor vessels of a class not subject to inspection by the Coast Guard and not required to carry a licensed master or a licensed pilot. In such cases the Officer in Charge, Marine Inspection, may use his discretion in deciding whether the qualifying experience of the applicant is adequate.

7. Section 36.1-5 (c) is amended by designating the present material therein subparagraph (1) and by adding two new subparagraphs reading as follows:

(c) (1) * * *

(2) Each applicant for an ocean or coastwise deck license, whether original or raise of grade, shall be required to pass practical tests in signalling, such tests to comply with the standards set forth herein. The examination in signalling will consist of an examination in the international flag code, Morse flashing, and semaphore. Candidates will be examined in Morse flashing and semaphore in groups where practicable. A candidate for license who fails in signalling, but passes in every other subject, will be considered to have failed the examination and shall be so reported; but he may at any time within the six months following his first attempt be re-examined in signalling only, and if he then passes he will be granted a license.

(3) Candidates shall be able to read a signal at sight, so far as to name the flags composing the hoist; know the use of the code pennant, numeral and substitute pennants, the meaning of all the single letter signals and the flags used to indicate the quarantine signals; be required to signal some word or words not included in the vocabulary of the code; and have a good knowledge of the distress signals. Candidates will be required to attain a speed of six words a minute in Morse flashing and eight words a minute in semaphore. The average length of a word is to be five letters. Candidates who wish to prove their higher proficiency may request to be tested at a minimum speed of ten words a minute in Morse flashing and twelve words a minute in semaphore. Such candidates, if successful, will have the results of their examination reported on their official files.

8. Section 36.1-5 is amended by adding a new paragraph (f), reading as follows:

(f) (1) Merchant Marine details abroad are authorized to conduct examinations for up-grading of seamen, but are not prepared to conduct the physical examination or the character investiga-

tion which is required in the case of original documents. Merchant Marine details will therefore not issue regular licenses, but temporary permits in lieu thereof. Merchant Marine details will instruct the recipient of each temporary permit to present it to the Officer in Charge, Marine Inspection, upon arrival in the first port in which a Marine Inspection office is located in order to exchange it for a permanent license.

(2) The temporary permit shall be accepted in a marine inspection office as proof that the bearer has complied with the rules and regulations governing the issuance of licenses, except as noted in the body of the temporary permit. The requirements noted in the exceptions will be complied with as in the case of other applicants.

(3) The written examinations are forwarded to the Commandant by Merchant Marine Details, and any marine inspection office at which an applicant with a temporary permit appears may request and obtain the examination in the case from the Commandant. Any marine inspection office which doubts the propriety of issuing a permanent license in lieu of a temporary permit which has been issued by a foreign Merchant Marine Detail shall inform the Commandant as to the circumstances.

Part 36 is amended by adding a new § 36.1-9a reading as follows:

9. 36.1-9a *Pilot of tank vessels not over 150 gross tons—T/ALL.* All propelled tank vessels, regardless of length or tonnage, shall be under the command of a person duly licensed, and since propelled vessels of less than 150 gross tons may be in command of a licensed pilot, the license of a candidate who successfully passes an examination for this purpose shall be indorsed as follows: "Pilot for tank vessels not over ----- gross tons on the waters of -----" (The maximum to be inserted is not to exceed 150 gross tons, and the waters covered as may be designated by the Officer in Charge, Marine Inspection).

10. Section 36.1-10 (b) is amended by adding the following sentences:

§ 36.1-10 *Extension of route and raise of grade licenses—T/ALL* * * *

(b) * * * Applicants for extensions of route and raises of grade of licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character, and citizenship before they are entitled to an extension of route or raise of license. Every licensed officer who has not to date established beyond doubt that he is a citizen of the United States should promptly take all necessary steps to secure this evidence before requesting an extension of route or raise of grade of license.

11. Section 36.1-13 (c) is amended to read as follows:

(c) Whenever an officer shall apply for renewal of his license for same grade, after 12 months after the date of its expiration, he shall be required to pass an ex-

amination for the same grade of license, of such length and scope as will, in the judgment of the Officer in Charge, Marine Inspection, be sufficient to adequately demonstrate the continued professional knowledge of the examinee. In the case of applicants for renewal of licenses which have expired beyond the period of one year, no professional examination will be required provided the license expired during the time of the holder's service with the armed forces or the merchant marine, and there was no reasonable opportunity for renewal. The renewed license shall receive the next higher number for number of issue of present grade and for number of issues of all grades.

12. Section 36.1-19a is amended by adding the following sentences:

§ 36.1-19a *Sea service as member of armed forces of United States as qualifying experience* * * *. An applicant may be permitted to omit the examination for intermediate grades of license if his experience is of such character as to qualify him for a higher, or the highest, grade of license. The regulations governing the licensing of merchant marine personnel which are in effect on the date an applicant presents himself for examination shall be applicable in all cases.

13. Section 36.1-13 (a) is amended by adding the following sentences:

§ 36.1-13 *Renewal of license—T/ALL.* (a) * * *. Applicants for renewals of licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be issued a renewal or license. Every licensed officer who has not to date established beyond doubt that he is a citizen of the United States should promptly take all necessary steps to secure this evidence before requesting a renewal of his license.

CERTIFICATED MEN

1. Section 36.2-3 (b) is amended by adding the following sentences:

§ 36.2-3 *Certificated tankerman—TB/ALL.* * * *

(b) * * * The medical examination is the same as for an original license as engineer, except that the applicant will be given a color vision test required for a licensed deck officer, as set forth in § 36.1-3, as amended. If the applicant is in possession of an unexpired deck license, the Officer in Charge, Marine Inspection, may waive the requirement for a physical examination.

1. Part 56 is amended by adding a new § 56.20-2a reading as follows:

§ 56.20-2a *Submerged melt welding process: qualification of.* (a) The submerged melt welding process shall be approved by the Commandant before the process may be used by the manufacturer to fabricate boilers, pressure vessels, etc., subject to Coast Guard inspection.

(b) The manufacturer shall prepare test plates by the use of the submerged melt welding process in the presence of an inspector who shall stamp the plates with the official stamp of the Coast Guard.

(1) The test plates shall be of marine boiler plate complying with any of the grades given in § 51.2 of this chapter. The thickness of the test plate material shall be an average of that to be used in fabrication, but not less than $\frac{3}{4}$ ".

(2) One test specimen of the reduced section tensile, guided side bend, free face bend, free root bend and two macro etch specimens shall be machined from the test plates.

(3) The etching reagent shall be one part ammonium persulphate to nine parts of water by weight. The solution should be used at room temperature and applied by vigorously rubbing the surface to be etched with a piece of cotton saturated with the solution. The etching process should be continued until there is a clear definition of the weld structure. After etching, the specimens shall be rinsed in hot water and dried with alcohol and given a transparent protective coating to prevent oxidation.

(4) Specimens may be tested in the manufacturer's laboratory, a recognized testing laboratory, or at the National Bureau of Standards. If the tests are made at a laboratory other than the National Bureau of Standards, they shall be witnessed by an inspector. Specimens other than the etch specimens shall be tested in accordance with and meet the requirements of § 56.20-4 of this chapter. One re-test will be permitted for each of the original test specimens. Should the re-test fail to meet the requirements, the manufacturer shall secure the services of an engineer from the vendor of the submerged melt equipment to check the equipment and give further instruction to the operator prior to the preparation of an additional set of test plates.

(c) Results of the physical tests, together with etch specimens shall be forwarded to the Commandant for consideration and action prior to the manufacturer's using the subject process for production. A sketch shall be prepared showing the joint preparation; and information relative to the voltage, amperage, size and number of rod, size and

grade of melt, and speed of travel shall be submitted for the submerged melt equipment. If manual welding is used on the opposite side of the plate, information as to the number of passes, size of electrode used for each pass, type of electrode, and the name of the manufacturer shall be submitted. The inspector witnessing the preparation of test specimens should submit a report, together with the physical test report, furnishing any information which he deems pertinent.

The application of any person may be rejected by the District Commander or his authorized representative when derogatory information has been brought to his attention which indicates that the applicant's habits of life and character are such as to warrant the belief that he cannot be entrusted with the duties and responsibilities of the station for which he made application. If after such investigation the Commander, Coast Guard District, desires the Commandant's authorization, he shall submit the completed application (NAVCG-866) and the investigation report to Headquarters. In the event that an applicant is rejected he shall be advised that he may submit a request to the Commandant for a review of his case. Any request for a decision by the Commandant must be accompanied by all pertinent correspondence, records and reports. In this connection recommendations from agencies of the Federal Government operating Government vessels as well as owners and operators of private vessels, made in behalf of their employees, will be given full consideration as a determining factor in arriving at a decision.

(b) No applicant for a license, who is a naturalized citizen, and who has obtained his experience on foreign vessels, shall be given a grade of license higher than that upon which he has actually served while acting under the authority of a foreign license.

(c) Experience in towed barges fitted with sails and rigging cannot be considered as sail vessel time.

(d) An applicant for original license as pilot may be given credit for experience on motor vessels of a class not subject to inspection by the Coast Guard and not required to carry a licensed master or a licensed pilot. In such cases the Officer in Charge, Marine Inspection, may use his discretion in deciding whether the qualifying experience of the applicant is adequate.

Merchant Marine Details abroad are authorized to conduct examinations for up-grading of seamen, but are not prepared to conduct the physical examination or the character investigation which is required in the case of original documents. Merchant Marine Details will therefore not issue regular licenses but temporary permits in lieu thereof. Merchant Marine Details will instruct the recipient of each temporary permit to present it to the Officer in Charge, Marine Inspection, upon arrival in the first port in the United States in which a marine inspection office is located in order to exchange it for a permanent license.

The temporary permit shall be accepted in a marine-inspection office as proof that the bearer has complied with the rules and regulations governing the issuance of licenses, except as noted in the body of the temporary permit. The requirements noted in the exceptions will be complied with as in the case of other applicants.

The written examinations are forwarded to the Commandant by Merchant Marine Details, and any marine inspection office at which an applicant with a temporary permit appears may request and obtain the examination in the case from the Commandant. Any marine inspection office which doubts the propriety of issuing a permanent license in lieu of a temporary permit which has been issued by a foreign Merchant Marine Detail shall inform the Commandant fully as to the circumstances.

6. Section 62.4 is amended by adding the following undesignated paragraphs:

Each applicant for an ocean or coastwise deck license, whether original or raise of grade, shall be required to pass practical tests in signalling, such tests to comply with the standards set forth herein. The examination in signalling will consist of an examination in the International flag code, Morse flashing, and semaphore. Candidates will be examined in Morse flashing and semaphore in groups where practicable. A candidate for license who fails in signalling, but passes in every other subject, will be considered to have failed the examination and shall be so reported; but he may at any time within the six months following his first attempt be reexamined in signalling only, and if he then passes he will be granted a license.

Candidates shall be able to read a signal at sight, so far as to name the flags composing the hoist; know the use of the code pennant, numeral and substitute pennants, the meaning of all the single letter signals and the flags used to indicate the quarantine signals; be required to signal some word or words not included in the vocabulary of the code; have a good knowledge of the distress signals, and candidates will be required to attain a speed of six words a minute in Morse flashing and eight words a minute in semaphore. The average length of a word is to be five letters. Candidates who wish to prove their higher proficiency may request to be tested at a minimum speed of ten words a minute in Morse flashing and twelve words a minute in semaphore. Such candidates, if successful, will have the results of their examination reported on their official files.

7. Section 62.9 is amended by changing the second undesignated paragraph to read as follows:

§ 62.9 *Renewal of licenses.* * * * Whenever an officer shall apply for renewal of his license for same grade, after 12 months after the date of its expiration, he shall be required to pass an examination for the same grade of license, of such length and scope as will, in the judgment of the Officer in Charge, Marine Inspection, be sufficient to adequately demonstrate the continued professional knowledge of the examinee. Except in the case of applicants for renewal of licenses which have expired beyond the period of one (1) year, no professional examination will be required provided the license expired during the time of the holder's service with the armed forces or the merchant marine, and there was no reasonable opportunity for renewal. The renewed license shall receive

the next higher number of issue of present grade and for number of issues of all grades.

Applicants for renewals of licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be issued a renewal of license. Every licensed officer who has not to date established beyond doubt that he is a citizen of the United States should promptly take all necessary steps to secure this evidence before requesting a renewal of his license.

8. Section 62.10 is amended by adding a new sentence at the end of the first undesignated paragraph, reading as follows:

§ 62.10 *Licenses; raises of grade.* * * * The words "after passing examination" are not limited to examination for the grades (principal grades and classes) but apply to any case where the license is of a higher character within a grade, as from chief engineer of non-condensing steamers to chief engineer of condensing steamers, or where the route of a pilot's license is extended.

9. Section 62.10 is amended by adding the following new paragraphs immediately after the second undesignated paragraph:

Applicants for renewals of licenses or raises in grade of licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued renewal of license or raise in grade of license.

All licensed officers who have not to date established beyond doubt that they are citizens of the United States should promptly take all necessary steps to secure this evidence before their licenses come up for renewal, or before they seek a raise in grade of license, in order to obviate any delay in the renewal of their licenses.

10. Section 62.15a is amended by adding the following sentences:

§ 62.15a *Sea service as member of armed forces of United States as qualifying experience.* * * * An applicant may be permitted to omit the examination for intermediate grades of license if his experience is of such character as to qualify him for a higher, or the highest, grade of license. The regulations governing the licensing of merchant marine personnel which are in effect on the date an applicant presents himself for examination shall be applicable in all cases.

11. Part 62 is amended by the addition of a new § 62.27a, reading as follows:

§ 62.27a *Routing instructions; strict compliance with.* Due to existing mine field dangers, all licensed masters, officers and certificated seamen on United States vessels shall comply strictly with the routine instructions issued by competent naval authority. Failure to comply with such routing instructions shall be deemed misconduct within the mean-

ing of R. S. 4450, as amended (46 USC 239). Nothing herein shall be construed as relieving the master of the responsibility for the safety of his vessel.

12. Section 62.49 is amended by adding the following paragraph:

§ 62.49 *Qualifications required for license as engineer of steam vessels, and license forms required.* * * * Conversion of gross tonnage to horsepower on engineer license applies only to original and raise of grade of licenses; therefore, candidates for such licenses who have qualified by experience on steam or motor vessels, which normally would have entitled them to licenses for vessels of any gross tons, may be issued the appropriate grade of engineer license of any horsepower. Engineer licenses presented for renewal on which gross tonnage is indicated shall continue to be issued on the gross tonnage basis; therefore, the conversion of gross tonnage to horsepower as outlined above shall not apply.

13. Section 62.103 (a) is amended by adding the following sentences:

§ 62.103 (a) *Licenses issued.* * * * Conversion of gross tonnage to horsepower on engineer license applies only to original and raise of grade of licenses; therefore, candidates for such licenses who have qualified by experience on steam or motor vessels, which normally would have entitled them to licenses for vessels of any gross tons, may be issued the appropriate grade of engineer licenses of any horsepower. Engineer licenses presented for renewal on which gross tonnage is indicated shall continue to be issued on the gross tonnage basis; therefore, the conversion of gross tonnage to horsepower as outlined above shall not apply.

LICENSED MASTERS, MATES, AND ENGINEERS

Section 62.110 (a) is amended by designating material within present paragraph as subparagraph (1) and by adding the following three new subparagraphs:

§ 62.110 *Original licenses.* (a) (1) * * *. (2) Applicants for original licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued an original license. Until an applicant meets this mandatory requirement, he is not entitled to be licensed to serve as an officer on a vessel of the United States. No person who has been convicted by court-martial of desertion or treason in time of war, or has lost his nationality for any of the other reasons listed in 8 U. S. C. 801, is eligible for a license.

(3) The fact that an applicant for an original license or raise in grade of license is on probation as a result of action under R. S. 4450, as amended, does not itself make such an applicant ineligible, provided he meets all the requirements for such original license or raise in grade. However, an original license or raise in grade of license issued under these circumstances will be subject to the same probationary conditions

as were imposed against the seaman's certificates or licenses in proceedings under R. S. 4450, as amended. Any such applicant must file an application for license in the usual manner, and the offense for which he was placed on probation will be considered on the merits of the case in determining his fitness to hold the license applied for. Nothing in the regulations in this part, however, shall be construed to permit an applicant to be examined for an original license or a raise in grade of license during any period when a suspension without probation or a revocation imposed pursuant to R. S. 4450, as amended, is effective against his license or certificate.

(4) Fingerprint records on Form NCG 2515 shall be submitted to the Commandant on each application at the same time application is made and shall be stamped "applicant for original license" or applicant for original certificate of registry as staff officer as appropriate. The application of any person may be rejected by the District Commander or his authorized representative when derogatory information has been brought to his attention which indicates that the applicant's habits of life and character are such as to warrant the belief that he cannot be entrusted with the duties and responsibilities of the station for which he made application. If after such investigation the District Commander desires the Commandant's authorization, he shall submit the completed application (NAVCG-806) and the investigation report to Headquarters. In the event that an applicant is rejected he shall be advised that he may submit a request to the Commandant for a review of his case. No examination shall be given or temporary permit issued in the type case pending the Commandant's authorization. NAVCG 928A shall be used to notify an unsuccessful candidate of his failure to pass an examination or to qualify for a license.

2. Section 62.110 is amended by adding a new paragraph (c) reading as follows:

(c) Applicants for renewal of licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be issued a renewal of license. Every licensed officer who has not to date established beyond doubt that he is a citizen of the United States should promptly take all necessary steps to secure this evidence before requesting a renewal of his license.

3. Section 62.111 (a) is amended by adding the following sentence and subparagraphs:

§ 62.111 *Professional examination and service required, etc., for original license or raise of grade.* (a) * * *. In qualifying applicants for licenses, the following applies regarding acceptance of experience on various types of vessels:

(1) It is not required that an applicant must have obtained his experience on United States vessels. Experience on foreign vessels will be given due credit.

(2) Experience in towed barges fitted with sails and rigging cannot be considered as sail vessel time.

4. Section 62.111 (c) is amended by designating the present material therein subparagraph (1) and by adding two new subparagraphs reading as follows:

(c) (1) * * *. (2) Each applicant for an ocean or coastwise deck license, whether original or raise of grade, shall be required to pass practical tests in signalling, such tests to comply with the standards set forth herein. The examination in signalling will consist of an examination in the International flag code, Morse flashing, and semaphore. Candidates will be examined in Morse flashing and semaphore in groups where practicable. A candidate for license who fails in signalling, but passes in every other subject, will be considered to have failed in the examination and shall be so reported; but he may at any time within the six months following his first attempt be re-examined in signalling only, and if he then passes he will be granted a license.

(3) Candidates shall be able to read a signal at sight, so far as to name the flags composing the hoist; know the use of the code pennant, numeral and substitute pennants, the meaning of all the single letter signals and the flags used to indicate the quarantine signals; be required to signal some word or words not included in the vocabulary of the code; have a good knowledge of the distress signals, and candidates will be required to attain a speed of six words a minute in Morse flashing and eight words a minute in semaphore. The average length of a word is to be five letters. Candidates who wish to prove their higher proficiency may request to be tested at a minimum speed of ten words a minute in Morse flashing and twelve words a minute in semaphore. Such candidates, if successful, will have the results of their examination reported on their official files.

4. Section 62.111a is amended by adding the following sentences:

§ 62.111a *Sea service as member of armed forces of United States as qualifying experience.* * * *. An applicant may be permitted to omit the examination for intermediate grades of license if his experience is of such character as to qualify him for a higher, or the highest, grade of license. The regulations governing the licensing of merchant marine personnel which are in effect on the date an applicant presents himself for examination shall be applicable in all cases.

5. Section 62.112 *Medical examination for licenses* is amended by deleting the second word "existing" in the first sentence.

6. Section 62.116 (a) is amended by designating material within present paragraph as subparagraph (1) and by adding a new paragraph reading as follows:

§ 62.116 *Renewal of license, and examination for renewal where deemed necessary.*

(a) (1) * * *

(2) The test for color vision shall be by means of the "Stillings" test, or failing that, by means of the "Williams" lantern test. A person failing the "Stillings" test and wishing to qualify by the

lantern test shall, if the Public Health Station at which he is undergoing test is not equipped with a lantern, pay his own expenses to journey to such station as is equipped with same. (See § 62.2 for a list of stations.)

7. Section 62.116 (e) is amended to read as follows:

(e) Whenever an officer shall apply for renewal of his license for same grade, after 12 months after the date of its expiration, he shall be required to pass an examination for the same grade of license, of such length and scope as will, in the judgment of the Officer in Charge, Marine Inspection, be sufficient to adequately demonstrate the continued professional knowledge of the examinee. Except in the case of applicants for renewal of licenses which have expired beyond the period of one (1) year, no professional examination will be required provided the license expired during the time of the holder's service with the armed forces or the merchant marine, and there was no reasonable opportunity for renewal. The renewed license shall receive the next higher number for number of issue of present grade and for number of issues of all grades.

REGISTRATION OF STAFF OFFICERS

1. Section 62.204 (a) is amended by adding the following sentence:

§ 62.204 *General.* (a) * * *. The regulations relating to the issuance of original licenses shall apply equally to original certificates of registry as staff officers.

2. Section 62.204 (b) is amended by designating material within present paragraph as subparagraph (1) and by adding three new subparagraphs reading as follows:

§ 62.204 *General.* (b) (1) * * *.

(2) Applicants for certificates of registry are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued an original license. Until an applicant meets this mandatory requirement, he is not entitled to be licensed to serve as an officer on a vessel of the United States. No person who has been convicted by court-martial of desertion or treason in time of war, or has lost his nationality for any of the other reasons listed in 8 U. S. C. 801, is eligible for a license.

(3) The fact that an applicant is on probation as a result of action under R. S. 4450, as amended, does not itself make such an applicant ineligible, provided he meets all the requirements. A certificate of registry issued under these circumstances will be subject to the same probationary conditions as were imposed against the seaman's certificates or licenses in proceedings under R. S. 4450, as amended. Any such applicant must file an application for certificate in the usual manner, and the offense for which he was placed on probation will be considered on the merits of the case in determining his fitness to hold the certificate applied for. Nothing in the regulations in this part, however, shall be

construed to permit an applicant to be examined during any period when a suspension without probation or a revocation imposed pursuant to R. S. 4450, as amended, is effective against his certificate.

(4) Fingerprint records on Form NGG 2515 shall be submitted to the Commandant on each applicant at the same time application is made and shall be stamped "applicant for original certificate of registry as staff officer". The application of any person may be rejected by the District Commander or his authorized representative when derogatory information has been brought to his attention which indicates that the applicant's habits of life and character are such as to warrant the belief that he cannot be entrusted with the duties and responsibilities of the station for which he made application. If after such investigation the District Commander desires the Commandant's authorization, he shall submit the completed application (NAVCG-866) and the investigation report to Headquarters. In the event that an applicant is rejected he shall be advised that he may submit a request to the Commandant for a review of his case. No examination shall be given or temporary permit issued in the type case pending the Commandant's authorization. NAVCG 928A shall be used to notify an unsuccessful candidate of his failure to pass an examination or to qualify for a license.

3. Section 62.204 (d) is amended by changing the colon to a comma and adding the following sentences at the end of the first undesignated paragraph:

(d) * * *, except, that applicants must produce documentary evidence from the War Shipping Administration or other prospective employer to the effect that the applicant is about to be employed in the capacity of junior assistant purser. No certificate of registry of this grade will be issued unless this condition is met.

4. Section 62.204 (h) is amended by designating the present material therein as subparagraph (1) and by adding three new subparagraphs reading as follows:

(h) (1) * * *.

(2) Merchant Marine details abroad are authorized to conduct examinations for up-grading of seamen, but are not prepared to conduct the physical examination or the character investigation which is required in the case of original documents. Merchant Marine Details will therefore not issue regular certificates, but temporary permits in lieu thereof. Merchant Marine Details will instruct the recipient of each temporary permit to present it to the Officer in Charge, Marine Inspection, upon arrival in the first port in which a Marine Inspection office is located in order to exchange it for a permanent certificate.

(3) The temporary permit shall be accepted in a Marine Inspection office as proof that the bearer has complied with the rules and regulations governing the issuance of certificates, except as noted in the body of the temporary permit. The requirements noted in the excep-

tions will be complied with as in the case of other applicants.

(4) The written examinations are forwarded to the Commandant by Merchant Marine details, and any Marine Inspection office at which an applicant with a temporary permit appears may request and obtain the examination in the case from the Commandant. Any Marine Inspection office which doubts the propriety of issuing a permanent certificate in lieu of a temporary permit which has been issued by a foreign Merchant Marine detail shall inform the Commandant as to the circumstances.

5. Section 62.205 is amended by adding the following sentences:

§ 62.205 *Sea service as member of armed forces of United States as qualifying experience.* * * *. An applicant may be permitted to omit the examination for intermediate grades of certificates of registry if his experience is of such character as to qualify him for a higher, or the highest, grade of certificate of registry. The regulations governing certificates of registry of merchant marine personnel which are in effect on the date an applicant presents himself for examination shall be applicable in all cases.

PART 115—LICENSED OFFICERS

1. Section 115.1 is amended to read as follows:

§ 115.1 *Original licenses.* (See § 62.1 of this chapter, as amended, which is identical with this section.)

2. Section 115.2 is amended to read as follows:

§ 115.2 *Medical examination for original license.* (See § 62.2 of this chapter, as amended, which is identical with this section.)

3. Section 115.3 is amended to read as follows:

4. Section 115.4 is amended by adding the following sentence and subparagraphs to the first undesignated paragraph:

§ 115.4 *Professional examination.* * * * In qualifying applicants for licenses, the following applies regarding acceptance of experience on various types of vessels:

(a) It is not required that an applicant must have obtained his experience on United States vessels. Experience on foreign vessels will be given due credit.

(b) Experience in towed barges fitted with sails and rigging cannot be considered as sail vessel time.

(c) An applicant for original license as pilot may be given credit for experience on motor vessels of a class not subject to inspection by the Coast Guard and not required to carry a licensed master or a licensed pilot. In such cases the Officer in Charge, Marine Inspection, may use his discretion in deciding whether the qualifying experience of the applicant is adequate.

5. Section 115.9 is amended to read as follows:

§ 115.9 *Renewal of licenses.* (See § 62.9 of this chapter, as amended, which is identical with this section.)

§ 115.39 *Classes of engineers; general provisions as to licenses.* * * * Conversion of gross tonnage to horsepower on engineer license applies only to original and raise of grade of licenses; therefore, candidates for such licenses who have qualified by experience on steam or motor vessels, which normally would have entitled them to licenses for vessels of any gross tons, may be issued the appropriate grade of engineer licenses of any horsepower. Engineer licenses presented for renewal on which gross tonnage is indicated shall continue to be issued on the gross tonnage basis; therefore, the conversion of gross tonnage to horsepower as outlined above shall not apply.

PART 120—DUTIES OF INSPECTORS

1. Section 120.14 is amended to read as follows:

§ 120.14 *Guards and rails.* (See § 64.15 of this chapter, as amended, which is identical with this section.)

§ 155.6 *Chief engineer of ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, or river, steam vessels.*³

* * * Conversion of gross tonnage to horsepower on engineer licenses applies only to original and raise of grade of licenses;

therefore, candidates for such licenses who have qualified by experience on steam or motor vessels, which normally would have entitled them to licenses for vessels of any gross tons, may be issued the appropriate grade of engineer licenses of any horsepower. Engineer licenses presented for renewal on which gross tonnage is indicated shall continue to be issued on the gross tonnage basis; therefore, the conversion of gross tonnage to horsepower as outlined above shall not apply.

2. Section 155.12 (a) is amended by adding the following sentences:

§ 155.12 *Original licenses.* * * * (a) * * * Applicants for original licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued an original license. 3. Section 155.35a is amended by adding the following sentences:

§ 155.35a *Sea service as member of armed forces of United States as qualifying experience.* * * * An applicant may be permitted to omit the examination for intermediate grades of license if his experience is of such character as to qualify him for a higher, or the highest, grade of license. The regulations governing the licensing of merchant marine personnel which are in effect on the date an applicant presents himself for examination shall be applicable in all cases.

4. Part 155 is amended by the addition of a new § 155.37, reading as follows:

§ 155.37 *Acceptable service for raise of grade.* (a) In computing the experience of applicants for raise in grade of license, no credit shall be given to the service of a junior officer which is not performed under the authority of an officer's license and when the junior officer is not in charge of a watch. For example, a man may be given credit for service as a junior third mate only if it is the practice on the vessel for him to take charge of a watch, in place of the chief mate or other officer.

(b) The above instructions regarding the acceptability of service as a junior officer in qualifying an applicant for raise in grade of license applies to engineer officers as to deck officers.

(c) Service as members of the crew or as engineers of steam or motor vessels engaged on trial runs may be given full consideration toward qualifying for examination for an original or raise of grade of licenses for steam and motor engineers. The applicant is required to present documentary evidence substantiating his service, and it is recommended that an applicant desiring to include trial run service be furnished with a statement of such service by an official of the shipyard concerned. The statement should include the names of the vessels upon which employed, the horsepower of the vessels, the duty the

applicant performed, and the duration of the trial runs in days.

PART 138—RULES AND REGULATIONS FOR ISSUANCE OF CERTIFICATES AND CONTINUOUS DISCHARGE BOOKS

AMENDMENTS TO REGULATIONS

By virtue of the authority vested in me by R. S. 4405, 4417a, 4483, as amended, 49 Stat. 1930, 1936, 50 Stat. 49, 199, 54 Stat. 1200, 55 Stat. 244, 245 (46 U. S. C. 375, 391a, 481, 643, 672, 689; 50 U. S. C. 1275), and section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875), the following amendments to the regulations are prescribed, effective upon the date of publication of this order in the FEDERAL REGISTER.

1. Section 138.1 (a) is amended to read as follows:

§ 138.1 *General provisions.* (a) (1) An applicant for a certificate of service, certificate of efficiency, certificate of identification, or continuous discharge book, shall make written application, in duplicate, on Form 719-b, furnished by the Coast Guard. The placing of fingerprints on the application shall be op-

tional with the seaman. This application may be for as many certificates or ratings as the seaman believes he is qualified. In the case of a seaman applying for his first certificate, other than certificate of identification, the application shall include a request for either a continuous discharge book or a certificate of identification, at the option of the applicant.

(2) Every certificate of service, certificate of efficiency, or certificate of identification issued or reissued after November 1, 1945, shall be in the form of a merchant mariner's document, Form 2838. Any licensed officer or unlicensed seaman currently holding, in a valid status, any of the documents listed in paragraph (a)(1) of this section may, upon request and without examination, be issued a merchant mariner's document.

(3) A merchant mariner's document shall be a certificate of service authorizing the holder to serve in any rating endorsed thereon or in any lower rating in the same department or in any rating covered by a general endorsement thereon. If the holder of a merchant mariner's document is qualified to serve in more than one department, the capacities for which he is qualified in each department will be endorsed separately.

(4) A merchant mariner's document issued to a licensed officer will be indorsed for "any unlicensed rating in the (insert 'deck' or 'engine') department" and will be a certificate of service authorizing the holder to serve in any unlicensed capacity in such department without being required to present his license. If a licensed officer qualifies as lifeboat man, the further indorsement "Lifeboat man" will be placed on the merchant mariner's document.

(5) A merchant mariner's document issued to a staff officer will be indorsed as follows: "See Certificate of Registry." A certificate of registry as chief purser, purser, or senior assistant purser will authorize the holder to serve in any purser's rating lower than that specified thereon. The holder of a certificate of registry as chief purser, purser, senior assistant purser, or junior assistant purser may serve as a purser's clerk without obtaining an indorsement on his merchant mariner's document.

(6) A merchant mariner's document endorsed as Able Seaman or as Lifeboatman shall be a certificate of efficiency as Lifeboatman.

(7) Every merchant mariner's document shall be a certificate of identification unless the holder also holds a continuous discharge book. The holder of a certificate of identification in the form issued before November 1, 1945, shall surrender that certificate before he is issued a merchant mariner's document.

2. Section 138.1 (c) is amended by designating material within present paragraph as subparagraph (1) and by adding three new subparagraphs as follows:

(2) No documents shall be issued to an enemy alien. The term "enemy alien" shall include the following:

(i) All aliens of the age of 14 years or older who were or are citizens or subjects of Germany or Japan.

(ii) All aliens of the age of 14 years or older who at present are stateless but who at the time at which they became stateless were citizens or subjects of Germany or Japan.

(3) The term "enemy alien" shall not include the following:

(i) Former German or Japanese citizens or subjects who, before December 7, 1941, in the case of former Japanese citizens or subjects, and before December 8, 1941, in the case of former German citizens or subjects, became and are citizens or subjects of any nation other than Germany or Japan.

(ii) Austrians or Austrian-Hungarians (Austro-Hungarians) or Koreans who registered as such under the Alien Registration Act of 1940, *Provided*, That such persons have not at any time voluntarily become German or Japanese citizens or subjects.

(iii) All citizens or subjects of Italy, and all aliens who at present are stateless but who at the time at which they became stateless were citizens or subjects of Italy.

(iv) Aliens of enemy nationalities during their term of military service in the armed forces of the United States.

(4) Should any difficulties arise as to whether or not any person is an enemy alien, such case will be referred to the Commandant together with the date and place of birth and statements regarding the citizenship of the person whose status is in doubt.

3. Section 138.3 (d) (1) is amended by adding the following sentences:

*§ 138.3 Able seamen. * * **

(d) *General—(1) Physical conditions. * * ** The medical examination is the same as for an original license as a deck officer for vessels navigating the same waters as set forth in §§ 62.2, 78.2 and 96.2 of this chapter, as amended. If the applicant is in possession of an unexpired deck license, the Officer in Charge, Marine Inspection, may waive the requirement for a physical examination.

A merchant mariner's document indorsed as able seaman will also be considered a certificate of efficiency as lifeboatman without further indorsement. This type of document will describe clearly the type of able seaman certificate which it represents, e. g.: able seaman—any waters; able seaman—any waters, 12 months; able seaman—Great Lakes, 18 months; able seaman—on freight vessels 500 gross tons or less on bays or sounds, and on tugs, towboats, and barges on any waters. The holder of a document indorsed for the rating of able seaman may serve in any unqualified rating in the deck department without obtaining an additional indorsement.

5. Section 138.3a is amended by adding the following sentences:

*§ 138.3a Wartime Regulations; able seamen. * * ** A seaman who can produce documentary evidence of enough further service since obtaining a certificate or document as able seaman under wartime regulations to comply with the peacetime sea service requirements may be issued a merchant mariner's document on which the restrictive marking is omitted: *Provided*, That he shall surrender for cancellation the original certificate or document bearing the marking.

6. Section 138.5 (b) is amended by adding the following sentences:

*§ 138.5 Qualified member of engine department. * * **

(b) * * * The medical examination for qualified member of the engine department is the same as for an original license as engineer, as set forth in §§ 62.2, 78.2 or 96.2 of this chapter, as amended, except that the exemption regarding monocular vision granted to engineers does not apply. If the applicant is in possession of an unexpired license, the Officer in Charge, Marine Inspection, may waive the requirement for a physical examination.

7. Section 138.5 (e) is amended by numbering the present material in paragraph (e) as subparagraph (1) and by adding two new subparagraphs reading as follows:

(2) The holder of a merchant mariner's document indorsed with one or more qualified member of the engine department ratings may serve in any unqualified rating in the engine department without obtaining an additional indorsement. This does not mean than an indorsement of one qualified member of the engine department rating authorizes the holder to serve in all qualified member of the engine department ratings. Each qualified member of the engine department rating for which a holder of a merchant mariner's document is qualified must be indorsed separately. When, however, the applicant qualifies for all ratings covered by a certificate as a qualified member of the engine department, the certification may read "QMED—any rating." The ratings are as follows:

Refrigerating engineer.
Oiler.
Watertender.
Fireman.
Deck engineer.
Junior engineer.
Electrician.
Boilermaker.
Machinist.
Pumpman.

(3) Documents as "assistant electrician" in the engine department may be issued to applicants without examination and without requiring evidence of previous sea service. The rating of "assistant electrician" is a rating not above that of coal passer or wiper, but equal thereto.

8. Section 138.5a is amended by adding the following sentences:

§ 138.5a *Wartime regulations; qualified members of the engine department.*

* * * A seaman who can produce documentary evidence of enough further service since obtaining a certificate or document as Qualified Member of Engine Department to comply with the peacetime sea service requirements may be issued a merchant mariner's document on which the restrictive marking is omitted: *Provided*, That he shall surrender for cancellation the original certificate or document bearing the marking.

9. Section 138.6 (c) is amended by numbering the present material in paragraph (c) as subparagraph (1) and by adding a new subparagraph (2) reading as follows:

§ 138.6 *Certificates of service for ratings other than able seaman or qualified member of the engine department.* * * *

(c) (1) * * *

(2) A merchant mariner's document indorsed for steward, cook or baker will authorize the holder to serve in any unskilled capacity in the steward's department. When the holder of a merchant mariner's document has qualified as a food handler, the indorsement of his rating will be followed by the further indorsement "(F. H.)."

10. Section 138.6 (e) is amended by numbering the present material in paragraph (e) as subparagraph (1) and by adding two new subparagraphs reading as follows:

(e) (1) * * *

(2) Students in technical schools who are enrolled in courses in marine management and ship operations who present a letter or other documentary evidence that they are so enrolled shall be issued a merchant mariner's document as "student observers—any department" and may be signed on ships as such. Students holding these documents or certificates will not take the place of any of the crew, or fill any of the regular ratings.

(3) No ratings other than cadet-midshipman and life-boatman shall be shown on a merchant mariner's document issued to a member of the U. S. Merchant Marine Cadet Corps. The merchant mariner's document shall also be stamped "Valid only while cadet-midshipman in the WSA training program." A merchant mariner's document thus prepared shall be surrendered upon the holder being certificated in any other rating or being issued a license and the rating of cadet-midshipman shall be omitted from any new merchant mariner's document issued.

11. Section 138.8 is amended by adding a new paragraph (i) reading as follows:

§ 138.8 *Rules for preparation and issuance of certificates of service and efficiency.* * * *

(i) (1) Merchant Marine Details abroad are authorized to conduct examinations for up-grading of seamen, but are not prepared to conduct the physical examination or the character investigation which is required in the case of orig-

inal documents. Merchant Marine Details will therefore not issue regular certificates, but temporary permits in lieu thereof. Merchant Marine Details will instruct the recipient of each temporary permit to present it to the Officer in Charge, Marine Inspection, upon arrival in the first port in the United States in which a Marine Inspection Office is located in order to exchange it for a permanent certificate.

(2) The temporary permit shall be accepted in a Marine Inspection Office as proof that the bearer has complied with the rules and regulations governing the issuance of certificates, except as noted in the body of the temporary permit. The requirements noted in the exceptions will be complied with as in the case of other applicants.

(3) The written examinations are forwarded to the Commandant by Merchant Marine Details, and any Marine Inspection Office at which an applicant with a temporary permit appears may request and obtain the examination in the case from the Commandant. Any Marine Inspection Office which doubts the propriety of issuing a permanent certificate in lieu of a temporary permit which has been issued by a foreign Merchant Marine Detail shall inform the Commandant fully as to the circumstances.

CIVILIAN PRODUCTION ADMINISTRATION.

[C-437]

WEISBERG-BAER Co.

CONSENT ORDER

The Weisberg-Baer Company, a New York corporation, with offices at 4-05 26th Avenue, Long Island City 2, New York, is a manufacturer of wood products. The Weisberg-Baer Company is charged by the Civilian Production Administration with violating paragraph (e) (2) of Direction 1 to Priorities Regulation 33, in that during the months of March, April, and May, 1946, it placed certified orders as millwork manufacturer for delivery of housing construction lumber and received on such certified orders during such months a quantity of such lumber, and did not use during such months a quantity of lumber equal to the same for the manufacture of millwork; and with violating paragraphs (c) (1) and (2) and (d) (1) and Table 1 of Priorities Regulation 32 in that during the months of March, April, and May,

1946, it placed orders for delivery of housing construction lumber on earlier dates and in larger amounts than it would have been permitted to receive under that regulation, and during such months it accepted delivery of housing construction lumber although its inventory of that material was and would be more than a practicable minimum working inventory reasonably necessary to meet its own deliveries and to supply its services and also more than it needed during the immediate period of 60 days, on the basis of its current and scheduled method and rate of operation.

The Weisberg-Baer Company admits the violations as charged of Direction 1 to Priorities Regulation 33 but not of Priorities Regulation 32, does not desire to contest the charges, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of The Weisberg-Baer Company, the Regional Compliance Manager, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered, That:*

(a) The Weisberg-Baer Company, its successors and assigns, shall use during the next seventy-five (75) days for the manufacture of millwork the quantity of housing construction lumber received during the months of February, March, April, May, and June, 1946, on certified orders as millwork manufacturer, minus the quantity of such lumber used for the manufacture of millwork during the period from February 1, 1946 until August 19, 1946. This requirement shall be in addition to the requirements of Direction 1 to Priorities Regulation 33 as currently in force.

(b) The Weisberg-Baer Company, its successors and assigns, shall reserve the millwork so manufactured in accordance with subdivision (a) hereof, for delivery only on certified or rated orders.

(c) The Weisberg-Baer Company, its successors and assigns, shall not place any certified orders as millwork manufacturer for housing construction lumber or accept delivery of the same until such time as its inventory of such lumber will be no more than it shall need during the immediate period of 30 days on the basis of its current and scheduled method and rate of operation; and thereafter it will comply with the provisions of Priorities Regulation 32.

(d) Nothing contained in this order shall be deemed to relieve The Weisberg-Baer Company, its successors or assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Civilian Production Administration except insofar as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on the date of its issuance.

Issued this 9th day of September 1946.

UNITED STATES COAST GUARD.

UNITED STATES COAST GUARD (CAPTAIN OF THE PORT) IDENTIFICATION CARDS

CANCELLATION

Coast Guard (Captain of the Port) Identification Cards were issued, pursuant to the authority of section 1, Title II of the Espionage Act (40 Stat. 220; 50 U. S. C. 191), as amended by the Act of November 15, 1941 (55 Stat. 763; 50 U. S. C. 191C), Executive Order No. 9074 (3 CFR Cum. Supp.), and the regulations in 33 CFR 6.14, to supplement the security requirements necessitated by the exigencies of the War.

Under this authority, United Coast Guard (Captain of the Port) Identification Cards were issued to the following classes of persons:

(a) Men employed on United States ships such as seamen, bargemen, and fishermen;

(b) Employees working on ships or at waterfront facilities in connection therewith, such as longshoremen, checkers, watchmen, and public servants;

(c) Men having incidental business on ship such as reporters, craftsmen, laborers, tradesmen, and supervisors;

(d) Employees of waterfront industries such as shipyards, power plants, and railways;

(e) Men making occasional or incidental use of vessels or waterfront facilities such as recreationists, sport fishermen, and visitors;

(f) Persons desiring entry to vessels or waterfront areas whose identity is not established to the satisfaction of the issuing officer, or whose photographs or fingerprints are not available;

(g) Seamen on foreign ships, citizens of enemy countries, or countries cooperating with enemy countries.

During the war the Coast Guard stressed the fact that the cards were for "Identification only" and that they were not a pass or permit, however, the public in general accepted the cards as passes notwithstanding the Coast Guard's insistence to the contrary.

With the cessation of hostilities, the identification card requirements were gradually relaxed, and now the identification cards are no longer required by the Coast Guard for any purpose, accordingly, all Coast Guard (Captain of the Port) Identification Cards are hereby declared invalid, and all persons are cautioned not to accept them for identification, or for any other purpose.

Dated: September 9, 1946.
