S/ THAD EURE

Secretary of State

One hundred eighteen members having answered the roll call, the Secretary of State declares a quorum is present.

The Secretary of State announces that the first order of business is the election of a Speaker, and declares the nominations are in order:

ELECTION OF OFFICERS

Representative Johnson of Wake places in nomination the name of Representative Earl W. Vaughn for Speaker of the 1969 House of Representatives.

"Mr. Chairman, honored guests, fellow members of the House of Representatives:

Today, January 15, 1969, is the beginning of a chapter in the history of North Carolina.

Today, by virtue of the power granted by the Constitution of North Carolina, the members of the House of Representatives are assembled in chambers and have taken their oath of office to begin the labor and to assume the responsibility imposed in this body by the people of our State.

A few minutes ago each of you said: 'I do solemnly and sincerely swear that I will faithfully, truly, and honestly perform my duties as a member of the House of Representatives of the North Carolina General Assembly to the best of my knowledge and ability...'

The first order of business is the election of a Speaker and it is my particular pleasure and privilege to place in nomination in behalf of the Democratic caucus our good friend and colleague from Rockingham County.

It is fitting and appropriate that the record show his outstanding qualifications for this high office. After all, the General Assembly of North Carolina is a most powerful body, and it alone makes the laws for our State.

And it is fitting and proper that we assume this responsibility with a solemn oath to bear true allegiance to the citizens of this State without regard to wealth, population, geography, national origin, color or creed but that we act with good judgment, goodwill and understanding in behalf of all our citizens.

The least of us and the greatest of us have an equal obligation; the Democrats and the Republicans must work side by side; the freshman member and the veteran legislator must share an equal concern for the welfare of our State.

Earl W. Vaughn of Rockingham County can and will lead us to great heights of legislative achievement in 1969.

His heritage is deep in the history of North Carolina.

Earl Vaughn was born and reared on a family farm in Rockingham County, the son of the late John H. and Lelia F. Vaughn.

The sun was shining bright on June 17, 1928, just over 40 years ago, as our next Speaker began the long road which brings him to the pinnacle of his many achievements.

After completing high school, he enrolled at Pfeiffer Junior College, and then fulfilled his military service for two years in the Pacific area.

In 1947 he enrolled at the University of North Carolina, receiving his A. B. degree in 1950 and his law degree in 1952.

Several of us today remember the happy days at Chapel Hill.

Life began to blossom during those years at the University, where he met a young lady who was attending the University, and who lived a short distance from Chapel Hill.

I had the happy privilege of seeing the romance blossom, and to share with Earl and Eloise the youthful adventure and excitement of the college scene.

I remember the wedding day on December 20, 1952, when Earl and Eloise were married in the little church north of Chapel Hill.

Before very long this young attorney and his bride moved to Draper, now known as Eden, in Rockingham County, where Earl began a successful career in law, and fulfilled abundantly the needs of community service.

Listen to some of his achievements:

He is a member of the Rockingham County Bar Association, the Phi Delta Phi Legal Fraternity, the North Carolina State Bar and the North Carolina Bar Association.

He is a member and past President of the Draper Rotary Club.

He is a member and past President of the Tri-City Rescue Squad.

He is a former solicitor of the Leaksville Recorder's Court.

He has been Town Attorney for Draper from 1955 until 1968, and was a moving force in the consolidation of Leaksville, Spray and Draper into the new City of Eden.

He is a member and past President of the Rockingham County Young Democratic Club.

He is a former member of the Rockingham County Democratic Executive Committee.

He is a Methodist, has been a member of the Board of Trustees of his Church since 1955, and has served as Chairman of the Official Board of the Methodist Church in Draper.

May I pause a moment, to depart from civic, professional or political achievements to recognize his most outstanding achievement—his family.

They have contributed so much, and have given him the inspiration and fortitude that is needed as he faces the problems of State.

In 1960 there was a lively campaign in Rockingham County in the Democratic Primary for a seat in the House of Representatives, and Earl Vaughn was the victor. Since that time he has served continuously, in the special sessions, and in the regular sessions of 1961, 1963, 1965 and 1967.

I know that he received overwhelming support in his campaign for re-election to this session, and that he scored more votes than has been recorded for a candidate in the history of Rockingham County.

I shall now dwell briefly upon his legislative service, because this is the basis upon which we primarily judge our choice for Speaker.

In 1965 he was Chairman of the Utilities Committee, and that was a landmark year toward resolving the big question of public and private power in North Carolina. As Committee Chairman Earl Vaughn helped hammer out and present this successful program.

In 1967 he was Chairman of the Committee on Courts and Judicial Districts, which was responsible for implementing Constitutional reforms in the establishment of the Court of Appeals, and in the further implementation of changes in the trial division.

There are literally dozens of legislative matters that he has handled during his tenure.

Anyone of you who has served with him could testify to his accomplishments in the legislative chambers.

What you do not know, perhaps, is the fact that he has labored diligently since the last session in thinking about changes that are needed, and in attending to legislative business as a member of the Legislative Research Commission, or serving as our representative on national boards.

Since 1963 he has been a member of the Board of Managers of the Council of State Government, working with other legislative leaders across the country to strengthen state government, and to bring about greater co-operation between the states.

He has been particularly effective in the Southern Region of this Council, consisting of 16 states, and has been honored as the first chairman from North Carolina of the Southern Region, in the history of that organization.

In 1968 he was elected to the Executive Committee of the Conference of National Legislative Leaders.

He has been nominated recently for one of the three seats that are open to House Speakers on the President's Commission on Governmental Co-operation.

In the closing hours of the 1967 Session, Earl Vaughn received the distinction of being named successor to the Honorable David M. Britt, and since that day he has served as your Speaker, in handling the numerous duties of this office.

At a personal sacrifice to his business, he has made numerous trips to Raleigh, and worked long hours in attending to these duties.

I have seen this firsthand, and have seen him work late into the night.

We have the assurance that comes only from a record of service that Earl Vaughn will lead us in the days ahead with the confidence and the ability that comes from a man who believes in the future of our State, and has a deep trust in Divine Providence and who will be your most diligent leader.

From the banks of the Dan River in Rockingham County to the splendor and grace of this legislative hall comes our next Speaker.

Mr. Chairman, honored guests, fellow members of the House of Representatives, I humbly nominate the best qualified man available for Speaker of the 1969 House of Representatives, the Honorable Earl W. Vaughn, of Rockingham County."

S/ SAMUEL H. JOHNSON
*Representative from
Wake County*

The nomination is seconded by Representatives Godwin of Gates, Barbee and Taylor of Transylvania:

"Mr. Secretary of State and members of the 1969 House of Representatives:

It is a distinct honor for me to come before you to second the nomination of the Honorable Earl Vaughn of Rockingham County for the 1969 Speaker of the House of Representatives. Earl and I served as freshmen in the 1961 Session and have served together in each session and special session since that date; therefore, I have had the opportunity to observe him working in the legislature, not only for the county and district which he represented, but for the progress and growth of our great State. I have had the pleasure of serving on committees of which he was the chairman and have seen firsthand his ability to express fairness in his decisions and character in his conduct. Many of you will recall the difficult task which he faced when he was Chairman of the Committee on Utilities in 1965 and the forthright manner in which he conducted the business before that committee. You will also recall that in 1967, as Chairman of the Committee on Courts and Judicial Districts, he brought before this House a most difficult and complex package of legislation dealing with our court structure and handled this matter on the floor of the House in a manner

in which he gained the confidence of those lay members who did not understand the technical ramifications of the bill. It is through his ability to gain the confidence of his fellow members through his honesty and fairness of mind that has brought him before us today and has placed him in nomination for the high honor that is bestowed upon the Speaker of the House of Representatives. He possesses all of the qualifications needed to fulfill the honor that this House is about to bestow upon him. From the time of his graduation from the University of North Carolina Law School in 1952, he has been a leader in his native county of Rockingham. He has taken a great interest in the development and growth of his county. He has devoted his time to his profession and to the civic organizations of which he is a member. He is admired with great esteem by fellow members of his profession. He has developed over the years a keen sense of responsibility to his political party, keeping in mind its responsibility to good and responsible government in the State of North Carolina.

Earl Vaughn has taken advantage of all of the opportunities to equip himself with the knowledge and background that we should demand of our leader and Speaker. I can assure you that he will always be willing to listen and that he will never use the authority bestowed upon him to the detriment of any member of this House.

It is my personal opinion that one of Earl's greatest and finest assets is his gracious wife, Eloise Maddrey Vaughn, and their four fine children. I know that their hearts must be touched with pride for this day in the life of their husband and father."

S/ PHILIP P. GODWIN

"Mr. Chairman, Justices, honored guests, Mrs. Vaughn and members of the House:

There were over 40 new members of the 1961 Representatives including Earl Vaughn, Phil Godwin, Thorne Gregory, and myself, and when the session got started the old-timers, such as Jim Vogler, Ernest Hicks, and Dwight Quinn, began to refer to us as the Class of 1961.

It was easy to see at that time that Earl Vaughn would emerge as one of that group who would make a name for himself if he continued to represent his county and his district in the House of Representatives.

Today—five sessions later—I can count less than a half dozen of the old-timers who greeted us in 1961 who are still around. Of the ones who they refer to as the Class of 1961, there are less than a dozen still here. I am glad that Earl Vaughn is still around and glad to be here myself to second his nomination for Speaker of the House.

His accomplishments during past sessions have already been enumerated and there is no need to go into further detail. Suffice it to say that Earl Vaughn has been instrumental in getting some of the most important legislation passed that has been introduced during those years I am talking about.

I think it is evident to those who have had a chance to look around as we prepare for the 1969 Session to see that preparations have been made for a busy and fruitful session which show that our next Speaker has been busy.

It has been predicted that this will be the toughest and hardest session since

depression days, and I think I can safely say that the House work in this session will be well taken care of under the guidance of Earl Vaughn.

I am glad that we have a man like Earl Vaughn to lead us, and am proud and happy to second his nomination of Speaker for the 1969 House."

S/ ALLEN C. BARBEE

"I rise as leader of the Republican House delegation and on behalf of the Republican House delegation to second the nomination of Representative Earl Vaughn as Speaker of the House of Representatives. The problems coming before the General Assembly in the coming months will demand a maximum effort of work and cooperation.

The Republican delegation intends to put before this body, as we have in the past, progressive programs to cope with the State's problems and needs—we expect and believe we will receive the support of this body in the passage of much of that legislation.

Ladies and gentlemen of the House, it is because of our trust in the qualifications of Representative Earl Vaughn; because of our trust in the justice and fair attitude of Representative Earl Vaughn; and because of our desire to work in a climate of cooperation that I, as leader of the Republican House delegation, second the nomination of Representative Earl Vaughn as Speaker of the 1969 House of Representatives."

Oath administered January 15, 1969.

Sworn to and subscribed before me this 15th day of January, 1969.

S/ SUSIE SHARP

Associate Justice of the Supreme Court of North Carolina

Mr. Speaker Vaughn approaches the dais and makes the following remarks:

"Thank you so very much, my good friends and colleagues.

The warmth of your welcome increases my determination to, at all times, conduct myself in this high office in a manner that will bring credit to the office and to the House of Representatives.

You, along with me, assume office in a critical time.

The Federal-State System is on trial. State Government is on trial, and the Legislative Branch of State Government is on trial.

In fact, just a few years ago there were many who seriously contended that State Government was no longer capable of meeting the complex problems of the day; that it was outmoded and had no place in the future.

Fortunately, concerted effort has recently been made to reverse this trend and give new life to State Government.

The upgrading of the Legislative Branch of State Government is absolutely imperative if State Government is to survive and remain a viable force of government, capable of dealing with the complexities of the modern society.

If we do not modernize our procedure so that we can solve North Carolina's problems in North Carolina, then the erosion by the federal process will become an avalanche.

The challenge to us is clear. It is to develop a Legislature capable of *acting* on problems rather than belatedly *reacting* under pressure of other units of government.

I believe, along with Jefferson, 'that laws and institutions must go hand in hand with the progress of the human mind.' I believe that we can maintain our proper respect for tradition and custom, and, at the same time, advance our institutions to keep pace with the times.

To this end I hope that this Legislature will develop tools and procedures that are as modern as this relatively new Legislative building.

We've tried to make a start on this development for you. For instance:

(1) The Legislative Branch of government in this great State of over five million people with a projected budget of over three billion dollars now has its first fulltime employee. His primary responsibility will be to help the General Assembly develop its own research capability.

(2) In addition, for the first time, professional bill drafting assistance is available to you in this building.

(3) We have also arranged for professional staff assistance for the local government committee. This staff assistance will be available to any of you when you need help with your local bills or bills involving local government, generally.

(4) The Legislative Intern Program which was started a few years ago with foundation funds will, this session, be funded by and responsible to the General Assembly.

(5) A Computer Operation has been instigated. Hopefully, its application to the Legislative process will continue to develop over the years.

(6) In an effort to give you more time for your very important responsibilities as a lawmaker, we have tried to improve the services available to you in a number of other areas which I will not detail at this time.

With your permission we will reduce the size and number of committees. With your permission we will make fundamental changes in the operation of the Appropriations Committee. More of you will be involved in the budget-making process. You will be able to give the budget much more careful scrutiny than has been possible in the past. I hope you will be able to question and to probe, and, thereby, effect savings and efficiencies. The plan we have recommended might not be the very best one that could be devised. I'm sure it isn't. If, however, I have understood you correctly, most of you are no longer willing to tolerate the old system. I'm sure that there will be problems with our new plans for the Appropriations Committee. Any time you involve more people and allow them to openly express their views, you invite dissent and make a common judgment more difficult to attain. I submit, however, that here lies the bedrock of democracy. This is what a government of free people is all about.

At this point let me say this to you. If, at any time, any of you have suggestions about the matters I have related, they will be welcomed. If, at any time, it is your collective judgment that they should be changed, they will be changed.

Now there are two components which will be absolutely necessary for a successful session. We are unable to provide these for you. I hope you brought them from home. They are: (1) courage and (2) a willingness to work.

This is going to be a difficult session. The better job we do, the more difficult the session. If we simply ratify or reject the requests of the multitude of agencies and special interests, we can have an easy time of it. Things will run smoothly.

We can have a cross of gold speech every Monday night and, after several months of mutual admiration, top it all off with the traditional love feast and then go home.

On the other hand: if we innovate, if we probe, if we seek out and consider alternatives, and, if we make the legislative Branch of government a positive and creative force in State Government our task will be much harder.

I suggest that the latter course is the one that people of North Carolina have the right to expect us to follow. We are going to have to make decisions that for the present day appear to be very unpopular, but which, in the long run, will prove to have been absolutely necessary to the continuing progress of our beloved State.

If we are to do what must be done, we cannot subscribe to the credo of Boston's notorious Mayor Curley, who used to love to say, 'There go my people, I must follow them because I am their leader.'

Again, let me thank you for your confidence. I pledge you my very best."

Mr. Speaker Vaughn assumes the duties of the Chair and announces that nominations are in order for Principal Clerk of the House of Representatives.

Mrs. Smith having received all the votes cast is declared duly elected Principal Clerk of the House of Representatives.

On the motion of Representative Twiggs, in the absence of Mrs. Smith, the following oath of office administered by the Honorable Thad Eure, Secretary of State, is presented and included in today's journal.

Rule 1. *Convening Hour.* The House shall convene each legislative day at the hour fixed by the House on the preceding legislative day; in the event the House adjourns on the preceding legislative day without having fixed an hour for reconvening, the House shall reconvene on the next legislative day at twelve o'clock noon.

Rule 2. *Opening the Session.* At the convening hour on each legislative day the Speaker shall call the members to order, and shall have the session opened with prayer.

Rule 3. *Quorum.* (a) A quorum consists of a majority of the qualified members of the House.

(b) On the point of no quorum's being raised, the doors shall be closed and the Clerk shall call the roll of the House, after which the names of the absentees shall again be called over. Fifteen members, including the Speaker, are authorized to compel the attendance of absent members, and may order that absentees for whom no sufficient excuses are made shall be taken into custody as they appear, or wherever they may be found by special messenger appointed for that purpose.

Rule 4. *Approval of Journal.* The Rules Committee shall examine daily the Journal of the House before the hour of convening to determine if the proceedings of the previous day have been correctly recorded.

Immediately following the opening prayer and upon appearance of a quorum, the Speaker shall call for the Journal report of the Rules Committee as to whether or not the proceedings of the previous day have been correctly recorded; the Speaker shall then cause the Journal to be approved. Rule 7. *Obtaining Floor.* (a) When any member desires recognition for any purpose, he shall rise from his seat and respectfully address the Speaker. No member shall proceed until recognized by the Speaker.

(b) When a member desires to interrupt a member having the floor, he shall first obtain recognition by the Speaker and permission of the member occupying the floor, and when so recognized and such permission is obtained, he may propound a question to the member occupying the floor; but he shall not propound a series of interrogatories or otherwise interrupt the member having the floor; and the Speaker shall, without the point of order being raised, enforce this rule.

Any member may appeal from the ruling of the Chair on questions of order; on such appeal no member may speak more than once, unless by leave of the House. A two-thirds (2/3) vote of the members present shall be necessary to sustain any appeal from the ruling of the Chair.

(b) When the Speaker calls a member to order, the member shall take his seat. A member called to order may clear a matter of fact, or explain, but shall not proceed in debate so long as the decision stands. If the member appeals from the ruling of the Chair and the decision be in favor of the member called to order, he may proceed; if otherwise, he shall not; and if the case requires it, in the judgment of the House, he shall be liable to censure by the House.

Rule 10. *Limitations on Debate.* No member shall speak more than twice on the main question, nor longer than thirty minutes for the first speech and fifteen minutes for the second speech, unless allowed to do so by the affirmative vote of a majority of the members present; nor shall he speak more than once upon an amendment or motion to commit or postpone, and then not longer than ten minutes. But the House may, by consent of a majority of the members

present, suspend the operation of this rule during any debate on any particular question before the House, or the Rules Committee may bring in a special rule that shall be applicable to the debate on any bill.

(c) A motion to table a bill shall constitute a motion to table the bill and all amendments thereto.

(e) When a question has been tabled, the same shall not be acted upon again during the session except by two-thirds (2/3) vote.

Rule 17. *Motion to Postpone Indefinitely.* A motion to postpone indefinitely is always in order except when a motion to adjourn or to lay on the table is before the House; however, after one motion to postpone indefinitely has been decided, another motion to postpone indefinitely shall not be allowed at the same stage of the bill or proposition. When a question has been postponed indefinitely, the same shall not be acted on again during the session, except upon a two-thirds (2/3) vote.

Rule 20. *Form and Effect of Previous Question.* (a) The previous question shall be as follows: 'Shall the main question now be put?' If amendments are pending, the question shall be taken upon such amendments in inverse order.

(b) The call for the previous question shall preclude all motions, amendments and debate, except the motion to adjourn or motion to table or motion to postpone indefinitely made prior to the determination of the previous question.

(b) Every member who is in the hall of the House when the question is put shall give his vote upon a call of the ayes and noes, unless the House for special reasons shall excuse him and no application to be excused from voting or to explain a vote shall be entertained unless made before the call of the roll.

Rule 25. *Voting by Absentees.* (a) No member shall vote on any question when he was not present when the question was put by the Speaker, except by the consent of the House.

(b) If any member is necessarily absent on temporary business of the House

when a vote is taken upon any question, upon entering the House he shall be permitted, on request, to vote, *provided* that the result shall not be affected thereby.

LEGISLATIVE MESSAGE

OF

GOVERNOR ROBERT W. SCOTT

January 22, 1969

The State Legislative Building

Raleigh, North Carolina

12:30 p. m., Wednesday, January 22, 1969

“Mr. President, Mr. Speaker, Mr. Chief Justice and members of the General Assembly of North Carolina:

The people of North Carolina have elected us to formulate the programs that will give impetus to this State in the decade of the Seventies and into the future—programs to lead to the good life.

At the outset, we might as well face the fact that this will be, at the least, a challenging session.

We are reaching a point where the level of expectations is rising at a rate that outstrips our capacity to provide them without imposing on ourselves a greater burden of stewardship to the State.

We want better schools. We all want our children to be well taught. We want them to start their education at an earlier age and continue it beyond the high school.

We want our schools to tailor programs to fit the need of every child—the mentally fast and the mentally slow; the student going on to college and the student who wants to prepare now for an occupation.

We are living in an affluent age, but many are left out of the abundance—the mentally and physically handicapped, the children of deprived backgrounds, the aged. Many families live on inadequate incomes.

Sections of our State are awaiting to move out economically and industrially. They want and need roads and community facilities to hasten the day.

Thousands living in North Carolina today will celebrate the year 2000—the advent of a new century. We need to make the wisest use of our resources. We need a unified effort. We need to modernize and streamline government.

North Carolina has always met the challenge. We have felt no resistance to progressive change. In fact, we have sought it and we have benefitted by it.

The people of North Carolina have elected you and me to see that the State does what clearly must be done if we are to meet the challenge of the year 2000. We must act now to put the essentials of a good life within reach of every citizen.

INTERGOVERNMENTAL RELATIONS

At this moment, there seems to be little doubt that the biggest challenge of the next decade will be a struggle to improve our environment.

It will be an effort to conserve and better utilize our natural resources. There will be a great concern to halt air and water pollution; an attempt to banish hunger and an effort to remove blight.

Communities will seek more public facilities to stimulate economic and industrial development. Roads and streets, thoroughfares and rapid transit systems will be built to move people and commerce and hopefully make transportation and travel more safe.

At a time when all levels of government are experiencing unprecedented demands for services, we must recognize that all governmental goals are interrelated.

Only by close, coordinated interaction with the Federal Government and with local governments can the State achieve its goals of better government for all its people. Only through partnership with the State can local governments provide the services its citizens demand.

One of the highest priorities during this session and the next four years should be efforts to build an effective working partnership between all levels of government.

I believe we will see efforts during the next four years to place greater responsibility on the State, particularly in the State's relationships with local governments.

There are many areas where a better partnership is needed if the State, the cities, the towns and the counties are going to meet the needs of North Carolinians where they live, work and play.

In our urban areas, there are problems of income and housing that only the State and municipalities can solve together. There are problems as well in rural areas, and, in many respects, the needs of North Carolina are greater in the rural areas.

I will ask for your support in developing programs that will build a partnership between the State and the communities.

Among these programs will be a request later in this session for a new department of State government. It will be established for the primary purpose of aiding and assisting local governments to meet local needs.

It will not be the most expensive program—in terms of appropriations—that you and I will be asked to undertake during this session and the next four years.

The nucleus for such a department already exists within the State. What is needed now is to bring together in one place—hopefully under one roof—and under one administration already existing services which are relevant to modern problems of community life.

Not only will my proposed department actively aid communities, it will in the long-run increase efficiency in State government. It will be a service or-

ganization whereby the full resources of the State can be called upon by communities for assistance within the entire spectrum of community problems.

Let me stress: it will be a service organization and not a regulatory agency. The department will be staffed by individuals—many of whom are already employed by the State although others will be needed—who have ideas and know how in housing, community redevelopment, economic development, local taxation and capital planning, land use and development, local and regional planning and recreation planning.

In addition to technical assistance, this department will reap some tangible benefits to the State. It will become an important link in Federal-State and local programs. It will strengthen the hand of every local government in making full and intelligent use of all available assistance programs.

State Government must be strengthened, particularly in its relation to the Federal Government. I intend to work with the Governors of other states to enable the states to have a stronger voice and a greater influence in the Federal system.

We will go to Washington to solicit our fair share and we will not overlook any program. Many assistance programs go untapped, even though they are available to us, simply because we have not made a maximum effort.

To enable the State to take advantage of worthwhile programs that may come along during the biennium, I will request a reserve fund for matching grants. This will be a sum of money set aside to be used, upon the approval of the Advisory Budget Commission, for matching Federal grants in which the State feels it should participate.

PUBLIC EDUCATION

Today, more than at any time in our history, North Carolina has the opportunity, challenge and responsibility of providing a full educational opportunity for every child in the public schools—as well as every child who should be in our classrooms.

The opportunity and the task that confronts all of North Carolina is finding the means of implementing and financing a new adventure in public education.

During the past 12 months, more than 500 North Carolinians representing all areas of the State and the major groups involved in public education have studied and proposed for our State the goal of a child well taught.

In the broadest sense, this goal means that every boy and girl will learn how to live and how to make a living. That is what education is all about.

State and local governments must be committed to providing the resources that are needed to close the gaps in our public school system. Local governments must take the initiative to see that a comprehensive education is available to every child.

In many areas this means the merger of school districts and the consolidation of schools. It means in some cases that local governments must do a better job of financing school programs. At the State level our administrative structure must assure a bold, unified endeavor in public education.

The task ahead of us is a big one, but we must begin. I am recommending to you:

First, that you firmly establish the State Board of Education as the policy formation agency for public education and that the Board be given the power to appoint the Superintendent of Public Instruction. In addition,— the Board should be given the authority to adopt criteria for merging school districts and to consolidate schools to achieve sound educational programs in all areas of the State.

Second, that financial support of public education be recognized as a cooperative State, local and federal effort, and that local units be encouraged to provide basic minimum participation. I endorse the principal of State incentive funds to match local funds which are committed beyond the basic program.

Third, North Carolina must make some major alterations in its instructional program if it is to offer a truly meaningful education to every child.

As a top priority we must see that every child has a good beginning in his educational career. A poor beginning often shows up later in low marks, drop-outs and juvenile delinquency. I recommend that you extend public education to five-year olds. We should begin with an initial effort extended over a period of several years to serve all kindergarten age children in the State.

I will recommend increased appropriations to offer occupational guidance and training to more students than are currently being reached in our vocational programs.

Vocational training needs to be stressed and strengthened in the middle grades, for it may offer many young people their best means of preparing for effective competition in the job market. It may also provide invaluable incentive for potential dropouts to stay in school.

Means should be sought to attract more students who need special inducement into a diversified vocational program. Too few of our schools now have student bodies large enough to justify a strong program. Still, effective programs can become a reality by school consolidation or other means of offsetting the handicap of small school units.

Fourth, nothing is more important to our goal of a child well taught than the quality of teacher provided. Our schools must be staffed with competent, dedicated people. We must take meaningful strides toward paying teachers the national salary average.

In return for higher salaries, we will expect a renewed dedication from all teachers. At the same time, we must seek solutions to reducing heavy classroom loads.

Fifth, transportation for school children with special needs and a more flexible transportation service to accommodate special programs is needed.

Further, public school bus transportation should be extended to include urban and suburban children. As long as the State assumes responsibility for school transportation, with all tax payers supporting it, this service should not be limited to rural children who live more than one and one-half miles from school.

HIGHER EDUCATION

Higher education is another area which must have sustained support. The needs in higher education are many.

Attention must be given to strengthening faculty salaries in all State-supported institutions. There is the pressing need to train more people in the medical and medically related areas and to upgrade library facilities at all institutions of higher learning.

The role of the traditionally Negro institutions must be expanded in the years ahead and special attention given to salaries and remedial assistance in these institutions.

Although I have said many times that not all young people can or should attend a college or university, there are many who should but are not doing so. A relatively low percentage of our students now continue their education beyond the high school.

To effectively reach them will require an expansion of the campuses of our existing institutions of higher learning.

Our university must grow physically as the demand increases. But I feel there is a limit in the student population of a given campus which should not be surpassed for effective administration and instruction. Nevertheless, if we follow the philosophy of making a university education available to academically qualified students, it is inevitable that the campus expand. I believe the wise course is for this expansion to occur in other areas of the State. For this reason, I favor the extension of the university system to include Wilmington and Asheville-Biltmore Colleges.

Privately supported colleges and universities play an important role in the total higher education program in North Carolina. These institutions educate many students, the cost of which would otherwise have to be borne by the State. Yet, many of the church-related, non-tax supported institutions face financial hardships.

I recommend, as does the recent study on higher education, a special study to consider a State-wide student assistance program.

COMMUNITY COLLEGES, TECHNICAL INSTITUTES

I cannot over-emphasize the importance of the community colleges and technical institutes to our overall program of post-high school training. The 50 institutions in this system have grown rapidly, this year enrolling more than 189,000 students. They have done a remarkable job in both technical and vocational instruction and college parallel programs.

It is through these institutions that we can make a greater effort to reach more people—both adults and high school graduates.

In the technical institutes and community colleges, greater emphasis should be placed on vocational opportunities. Programs should be broadened in this area. They should be developed in coordination with occupational education in the public schools. And this training should be made more relevant to the

economy of the State. The emphasis should be on the skills demanded by industry, especially the better-paying industrial and service jobs.

LAW AND JUSTICE

Preserving civil peace has always been recognized as the first responsibility of government. A government that is unable to afford to all of its citizens the security of person and property is not likely to be able to do much else for them.

Today, we are faced with an increase in the old and familiar varieties of crime as well as the growth of organized crime and large scale civil disorders.

The task of the State is this: to maintain public order while upholding the rule of law and pursuing the goal of justice for all citizens. In addition to maintaining order, the State must insure that justice embraces the fair treatment of individuals; and fair treatment must extend to all aspects of life insofar as it is within the government's authority to assure it.

We must deal effectively with all aspects of law and justice. My immediate proposals include:

First, the prompt establishment of a police information network which is designed to link the State, national, and all local law enforcement agencies willing to participate, in a high-speed, computerized network for the collection, organization and retrieval of information on crime and criminals.

Second, bills to strengthen the authority of local government in dealing promptly and effectively with civil disorders.

Third, legislation to state clearly the authority and responsibilities of the administrators of our public educational institutions to deal promptly and effectively with those who attempt to disrupt the normal operation of those institutions and disrupt the educational process.

Fourth, insistence on the equality of treatment of all citizens in their dealings with the agencies of the law, and on the equality of protection of all persons and their property.

Fifth, explore the Courts Commission recommendation for the initiation of a public defender system in some areas of the state.

Sixth, strengthen substantially the State Bureau of Investigation by providing more funds for manpower and modern equipment.

On a longer range basis, we must develop a coordinated plan for training of all law enforcement officers in the State and urge local governments to take advantage of these programs.

More effective training of enforcement personnel can be accomplished by utilizing fully existing training programs and facilities. At the same time, we should consider the development of a police academy, especially to assure the best training facilities and program possible for our State law enforcement agencies.

I believe there are benefits to be derived from combining the prison, probation and paroles departments into a comprehensive correction and rehabili-

tation system. Such a department could give the leadership to increase our efforts to rehabilitate prisoners, especially juvenile offenders. I recommend this proposal be studied carefully by a commission appointed by this General Assembly.

GOOD NEIGHBOR COUNCIL

Understanding and cooperation among the races are essential. While these must be the concern of government generally, we will continue to need for sometime a State agency whose main purpose is the improvement of racial relations in the State.

Therefore, I recommend that the Good Neighbor Council be continued and that the functions now performed by the Chairman be divided between a part-time Chairman of the Council and a full-time Director employed by the Council. The late David Coltrane gave the Council real meaning—a significance of purpose. He served as both Chairman and Director, performing both of these tasks well. I am asking that these roles now be divided and strengthened.

I am asking for a full-time Director and staff because I feel that the role of the Good Neighbor Council should become more than one of mediating disputes. The Council should examine State and local governmental practices in employment and in the provision of services. It should encourage the removal of any inequities found, reporting to the Governor periodically on problems encountered.

The Council should continue to encourage and aid the formation of local good neighbor councils and should help mediate racial crises on the invitation of troubled communities.

Finally, recognizing that actions speak louder than words, I believe that nothing will strengthen the confidence of minorities more surely than a voice in government. We will set an example by appointing more members of minorities to State boards and positions, and urge authorities at both State and local levels to follow a similar policy.

TRANSPORTATION

Transportation and roads continue to be a pressing need in the State. It has been estimated that we would need to spend \$4.7 billion dollars in the next twenty years to develop the transportation system that is needed to stay abreast of economic growth as well as to curb the rising death and injury rate on our highways.

In the area of highways and transportation, we must be ambitious in our thinking and in our actions—as costly as such a program will be and as pressing as are other programs that demand the State's attention and resources.

I will propose changes in the structure and composition of the State Highway Commission. I favor increasing the Commission's membership. A larger commission can better communicate with the people and will be more responsive to the needs of the people. Highway divisions now serve up to fourteen counties. It's difficult for a commission to effectively serve so large an area.

I am concerned that in the areas of highways and transportation that we use wisely the large capital outlays that will be needed and that whatever we do now and in the next decades will meet the needs of a growing and changing State.

We should think boldly in terms of constructing an arterial system that will move people and commerce through our centers of economic growth and that will link these urban centers with less populated areas of the State that would benefit economically by improved transportation.

Let us remember, too, that people on our coast use the channels and inlets as roadways. We should give more attention to water transportation. A clear and open channel means as much as a highway to people who depend on the sea for their income.

We must look toward the development of our airports, particularly local airports which are so essential to full industrial development in our State. This is one area in which we can work closely with the federal government to get some of our federal tax dollars back into North Carolina. It again underscores the need to strengthen the role of the State in federal matters.

STATE EMPLOYEES

All of us who are or have been employers know that demanding dedication of our employees is only part of the story. A devoted, hard-working employee is an employee who is adequately paid and who has the benefits that have become a part of the modern, industrial society.

The State can be no different from the business employer. Its employees must have adequate salaries which reflect the rising costs of living. Neither should State employees be expected to conduct State business on a per diem which is inadequate to meet expenses incurred.

I favor salary increases and, in addition, an increase in the per diem allowance for both in-state and out-of-state travel.

I will ask you to appropriate funds to provide for time and one-half pay for those employees who perform emergency services to protect life, health and safety of the public.

The General Assembly should study the feasibility of establishing a longevity and cost-of-living index in the salary schedule of State employees. Under the present system, State employees can receive general pay increases only once each two years. The cost of living has increased eight per cent since the last general pay increase in 1967.

I favor changes in the State employees retirement program, and will recommend new benefits, which will not require additional appropriations.

Finally, I believe a commission should be established to study various hospitalization plans and medical benefits for State employees—benefits that would be in keeping with the current cost of hospital service. This study should be directed toward specific recommendations for a hospital insurance proposal.

NATURAL RESOURCES

I have stated time and again that I want this administration to be known for its concern with planning for the future of North Carolina. Thousands of North Carolinians now living will see the advent of the year 2000 celebrated as the turn of the century.

In these future years, all of North Carolina's resources must be conserved and utilized so that the fullest benefit will accrue to all of our citizens. We must see to it, as we plan for the future, that the great bounties with which God has blessed this land are not wasted, misused or destroyed.

One of these great gifts of nature is the majestic and mysterious Atlantic Ocean washing our shores. The Atlantic Ocean and our inland waters are frontiers where lie natural resources as yet untapped. With the new emphasis being placed throughout the world on the scientific study of seas, oceans and water resources, I believe that the State must join in the intensive search for answers to the problems and potentials of the ocean and rivers.

This administration will move to a position of leadership in the field of marine science. We will look for ways to determine how the sea can yield more food; how our coastline can be protected from winds and tides; what mineral resources can be tapped from these depths and how the beaches and shorelines can be conserved.

We will continue to support programs designed to insure that all of our natural resources are conserved and that waste and pollution are stopped.

HEALTH AND WELFARE

Our State institutions and agencies in the public health and welfare fields should be commended for their past work. They must have sustained, and in many cases, increased support to stay abreast of increasing patient and case loads.

There are new programs which the State must implement if we are to stay abreast of the needs and the services which are becoming available through the assistance of the State and Federal governments. Foremost among these, in terms of the costs involved, will be the implementation of Title 19 of the Social Security Act, commonly known as Medic-aid.

The mandatory date for states to implement this program and benefit from Federal funds which provide hospital and doctor care, home health and nursing services and medicines for several categories of the indigent, is January 1, 1970.

It is essential that North Carolina implement this program, which has been recommended in the budget now before you.

MENTAL HEALTH

We need to strengthen our program of mental health care, remembering we should never lag in our support for those who are not so fortunate so as to be able to help themselves.

I support programs that will aid mentally retarded children. We should establish a diagnostic center to pinpoint in infancy the mentally retarded child.

I believe one of the most critical problems in the next decade and longer will be the shortage of trained manpower in the mental health professions.

Of course, the shortage of trained manpower is not limited to the mental health profession. We must work on programs to increase adequate personnel in all the health related fields.

CULTURAL AFFAIRS

North Carolina has long been recognized for its cultural achievements and its concern for the fine arts. We were the first state to finance art purchases, to support outdoor drama and to appropriate funds for a theater building. We have a school for the Performing Arts and a fine Symphony Orchestra which brings good music to thousands of children and adults throughout the State each year.

To enhance our cultural development I feel the State should lend encouragement and, where possible, assistance to cultural programs on the local level. More historic sites need to be restored and preserved. Heritage and tradition are important to a people and it will mean even more to us in the future.

PARKS AND RECREATION

In the last third of this century, we will find more people earning more money. They will have greater mobility and more leisure time. Experts have predicted that the wise utilization of leisure time will be one of the great challenges of the future.

This we must continue to provide for adequate recreational programs and areas, and to gradually expand our park system after thorough feasibility studies.

In this regard, I feel the citizens of North Carolina are justified in their interest in a major zoological park as a recreation, education, research and conservation facility.

I would like to see North Carolina develop a state zoo, and I recommend that you give careful consideration to the necessary enabling legislation to get it started.

LIABILITY INSURANCE RATES

For some time, I have been concerned about the cost of automobile insurance rates, delays in settling claims and the litigation time and costs involved. Many other of our citizens share this concern. I think something can be done about liability insurance and its cost, and I believe it is possible for North Carolina to lead the way in seeking ways to halt spiraling rates.

This complex problem involves not only rising prices of automobiles and automobile parts, but our accident rate, the cost of settling claims and the amount of litigation required.

I urge the General Assembly to appoint a blue ribbon commission to study this entire area and the problems that contribute to it, and to make recom-

mendations as to what action is needed to make our highways safer and insurance costs lower.

SENIOR CITIZENS

Our senior citizens are valuable assets. They have given of their talents to help North Carolina grow and prosper. Many have much yet to offer in terms of experience and knowledge.

Our citizens over 65 years should be granted some tax relief so they can live more comfortably in retirement. Too many are hard pressed financially to make ends meet on a fixed income with ever increasing living costs.

In my budget message, I will present a tax rebate plan for your consideration. It will be a significant gesture of the State's compassion for its senior citizens.

Because of the limitations of your time, I have not touched on all the matters that will be the concern of my administration. Indeed, I have not gone into great detail about the programs I have proposed.

Whenever it seems appropriate, therefore, I will relay to you additional proposals for your consideration during this Session. I will express my views from time to time on matters that come before this distinguished body that affect our State and our people.

Mr. President, Mr. Speaker, my program is geared to developing the good life for all North Carolinians. It is designed to carry out the four broad goals stated in my inaugural address on January 3.

I believe it is a sound, sensible program. Moreover, it will bring greater dividends in the future to all of us.

During this Session of the General Assembly, we must plan to provide the essentials of a good life. Indeed, a realistic plan for the future can be the start of a better life—a powerful thrust forward on the endless road of progress.

The progress we make depends on our working together—carefully and creatively—to build a sturdy and constructive program to strengthen North Carolina and her people.

Let the result of our labors give true meaning and purpose to our noble motto: 'Esse Quam Videri'."

WHEREAS, in the south central part of North Carolina
There live some folk who are humane.
They love an animal that deserves something finer
Than to allow his importance to wane; and

WHEREAS, this little animal is the furry ground hog
Who once a year comes from under a log,
With accuracy unerring, the weather he predicts
Putting the Weather Bureau in a heckuva fix; and

WHEREAS, if this furry animal should receive his just reward
The workers at the Bureau would be hit mighty hard.
They would be looking for work in another field
And our furry friend all the answers would yield; and

WHEREAS, instead of guesses and probabilities,
We'd receive truths and actualities.
And we'd be helping our democracy
In slapping this bureaucracy; and

WHEREAS, and the people of Siler City
Whose hearts are so pure
Should receive all the publicity
For providing the cure; and

WHEREAS, they are fearlessly led in their humane endeavor,
By two gallant citizens who are mighty clever.
Ike and Mott proceeding undaunted
Our compassion aroused and our conscience haunted; and

WHEREAS, we therefore feel that the least we can do
Is give just credit where credit is due
So Guardians appoint and a home create
To insure proper respect within our State:

NOW, THEREFORE, be it resolved by the House of Representatives:

Section 1. That this problem we will solve

The Ground Hog Capital of our great State
 Shall be Siler City from and after this date.
 And the duty of guardian of our friend accrues

 And one to Mr. Ground Hog, if we can find where he went.

Sec. 2. This Resolution shall become effective upon its adoption."

Governor Scott makes the following address to the Joint Session:

THE BUDGET MESSAGE OF
THE HONORABLE ROBERT W. SCOTT
GOVERNOR OF NORTH CAROLINA

"Mr. President, Mr. Speaker, Members of the General Assembly of North Carolina.

The Executive Budget Act requires the Governor of North Carolina to come before the General Assembly to present a recommended budget for the coming biennium.

The proposed budget must, by law, be balanced with respect to income and expenditures. This requirement is wise and it has saved us many headaches and helped us to avoid many pitfalls. It has been a big factor in maintaining fiscal responsibility. It has enabled us to enjoy the highest credit rating available to state governments, something that few other states can claim. The 'balanced budget' requirement of our law must not be altered.

I appear before you today to report that the government of North Carolina is financially sound in every respect. Revenues have exceeded expenditures during the past eighteen months. Careful budgeting by the 1967 General Assembly and prudent spending during the current biennium will enable us to anticipate a credit general fund balance on June 30, 1969 of approximately \$127,431,000.

It should be stated clearly that this is not a surplus. The sum represents receipts over expenditures and reversion of unexpended appropriated funds. It will be carried forward into the coming biennium and has already been included in the construction of the recommended budget.

On your desks when this General Assembly convened you found four budget documents: the 'A' Budget, representing the money needed to maintain current programs at their present level of operation; the 'B' Budget, representing the requests and recommendations to improve and expand current programs and to establish new programs; the 'C' Budget, representing requests and recommendations for specific capital improvements; and the Budget Summary which also contains the budget statements.

The budget recommendations presented to you on January 15 are those of the administration of my predecessor, Governor Moore. It was compiled by the Advisory Budget Commission after many hours of hearing testimony by state agencies and visits to state institutions and facilities throughout North Carolina. A tremendous amount of time and effort by the Advisory Budget Commission, the Budget Division staff, the previous Director of Administration and administrators of state agencies have gone into the making of that budget and I commend them for it.

The budget process in North Carolina is cumbersome and slow, but I doubt that there is a state budget any where that is more carefully scrutinized and analyzed than ours. The taxpayer of North Carolina can rightfully feel that their tax dollar is very carefully weighed before being appropriated.

I commend the 'A' Budget to you and recommend its adoption.

The general fund 'B' Budget requests totaled more than \$523,910,452 as state agencies sought money to expand presents programs or to initiate new ones.

The recommendations found in the 'B' Budget, however, totaled only \$173,444,097. This was a great disappointment to many. But the recommendations represented the best judgment of the previous administrations in appropriating the estimated available funds, including the anticipated general fund credit balance of \$127,431,000.

I have examined carefully this proposed 'B' Budget. Department heads have talked with me and my staff of their needs.

I have received much correspondence from citizens who have expressed concern for certain items which were not included.

After careful review, I conclude that the recommendations found in the 'B' Budget can be justified and are very much needed. Therefore, I commend those recommendations to you and urge their adoption.

But I find that additional appropriations are essential to the progress of our State.

We cannot turn our backs on the times, nor can we simply mark time and allow the measure of our advance to slip away from us. Most important of all, however, we cannot forfeit our future.

We must indeed, make a greater investment in that future; first, by assuring good health, both physical and mental, for all our people and especially for our children.

Second, we must provide a greater economy potential for our people, especially the young who are potential dropouts rather than self-supporting citizens. And third, we need to give great help to our communities so they may go forward in peace and harmony.

To this end I am asking that expanded programs in mental health be initiated, that a rejuvenated vocational education program be provided in the middle grades in our schools; that a Department of Community affairs be created to give assistance to community development; and that our Good Neighbor Council be enlarged and given sufficient funds in prospective programs in human relations.

I will have more to say about these and other programs later in this message, because these are steps that must be taken to protect our investment in the future of North Carolina.

CAPITAL IMPROVEMENTS

The general fund 'C' Budget, often called the 'bricks and mortar' Budget, recommends that a total \$55,957,082 be allocated for capital expenditures. This does not, of course, meet nearly all the needs of our State which is growing rapidly. Again, however, it represents the best judgment for the wise use of available funds by the previous administration. I recommend the adoption of the 'C' Budget recommendations.

The total requests from all sources by all agencies for capital improvements is \$400,005,999. The 'C' Budget recommends an appropriation from all funds of \$89,636,082, leaving a balance of unmet needs of \$310,369,917.

We cannot realistically meet all of those needs, even with a capital improvements bond issue.

As much as I would like to get on with the building of many new facilities for our educational institutions, mental hospitals and other needed service agencies, I do not recommend a capital improvements bond issue at this time.

The current bond market and interest rates present a very difficult situation for a new bond issue. Interest rates have reached all-time peaks for the past fifty years and are currently holding at that level. The cost to the state for a bond issue would likely be the highest in our history. Hopefully, interest rates will not exceed their present level and, before the next General Assembly meets, will recede somewhat. Perhaps a bond issue can be considered at that time.

You will recall that the General Assembly of 1967 appropriated in excess of \$110,000,000 from the general fund for capital improvements which did not include over \$75,000,000 from self-liquidating, federal and other funds. Much of this construction is still going on and the buildings are yet to be used. Further, I am convinced that many of our institutions of higher education can make more efficient use of their classroom space.

I do ask, however, that you add to the 'C' Budget from the general fund the sum of \$2,500,000 for capital improvements. This money would be used to provide buildings and equipment to treat mentally retarded infants, house the School of Allied Health Professions at East Carolina University and a livestock and poultry disease diagnostic laboratory.

There are many more capital improvements which are very much needed and which can be justified, but I do not feel that these can be funded from general fund revenues. The pressing needs of our colleges and universities, the medical school at Chapel Hill, our mental institutions, prison system, parks and all the others can only be met by a capital improvements bond issue which, in all honesty and with great reluctance, I cannot recommend at this time.

I return now to a consideration of the 'B' Budget — the budget that provides for new programs and the improvement of current programs.

The trust of my administration will be to look to the future and prepare for it. This will require sharp emphasis upon comprehensive long-range planning. It will require efforts now to assist local governments in finding ways to meet their increasing complex problems.

The core of this program will be a new department of state government to provide expanded service to local governments. It is not intended to be a regulatory agency but one that will assist our counties and towns, particularly the smaller ones without the needed staff or budget, to plan for the future and to get the maximum benefit from the multitude of federal funds available.

The nucleus of this department already exists in our state government. By the pulling together into one department those programs already existing, there will be a net reduction in the number of separate agencies, something that is to be highly desired.

I consider the establishment of this Department of Local Affairs to be a high priority item.

I recommend that state employees under the State Personnel Act be given an average 10 per cent salary increase on a graduated scale, with those in the lower salary range receiving a greater percentage than those in the higher range. To me, the 'across the board' principle is not always equitable.

Comparable salary increases should also go to those not under the State Personnel Act, such as school bus mechanics, extension service secretaries, etc.

Much has been said about bringing teacher salaries up to the national average. That is my goal. But it cannot be accomplished entirely during this biennium. Instead, the goal of a national average for our teachers must come in two steps, one in this biennium and one in the next.

The current 'B' Budget recommends a salary increase of 5% in 1969 and another 5% in 1970. I am recommending that this figure be doubled to ten and ten. This will require \$50,633,565 over and above that presently recommended. I believe that is all the state can afford at the moment.

We must remember that it is exceedingly difficult for us to pay the national average for our professional educational people when our citizens, who must foot the bill, do not have anywhere near the national average personal income from which to pay taxes.

Further, when we speak of increasing educational salaries, we are talking about almost 45 per cent of the General Fund Budget for teachers alone.

Nevertheless, we must reach the goal during this administration. This recommended increase will bring it within our grasp two years hence.

While we are on this subject of teacher salaries, I suggest that when we reach the national average figure, that there be a method devised to pay an educator according to his worth. Many are better than average. Others are below. It doesn't seem equitable that they all be paid the same. The better teachers are penalized and the poor ones are subsidized and the child in the classroom is the victim of the system.

I am recommending a salary increase of eight per cent the first year and an additional eight per cent the second year of the Biennium for faculty salary increases at our institutions of higher learning. This will cost about \$7,500,000 in addition to the present recommendations for this group of employees.

For faculty salary increases in our Community College system, I am recommending eight per cent the first year and eight per cent the second year of the biennium, which will cost over \$3,000,000 beyond the 'B' Budget recommendations.

I feel it is only fair to provide school bus transportation for children who live in urban areas just as we have had for rural students for many years. All parents, regardless of where they live, pay the cost of our school transportation system.

Further, I believe it is imperative that we provide school bus transportation for special education systems — those who must travel to another school to attend classes for the emotionally disturbed, the educable mentally retarded and the physically handicapped.

Therefore, I am recommending that \$3,298,552 be appropriated for urban student school transportation and an additional \$735,847 be appropriated to provide school bus transportation for handicapped children.

School dropouts continue to be a serious problem in our educational program. It is a definite factor in our low per capita income. Somehow we must find the means to interest our children in continuing their education.

A comprehensive program of occupational education for children in the middle grades will be a giant step toward reducing the school dropout problem. Adding more teachers to already existing vocational programs will not solve this problem. We cannot implement this program all at once, but we can begin. A workable course of study and plans to implement it are presently underway in the Department of Public Instruction.

Therefore, I recommend that the sum of \$4,000,000 be set aside in a reserve fund to be held in the Budget Division to be released to the Department of Public Instruction when the plan is ready to implement.

I further urge that the State Board of Education re-examine the entire vocational education program to this end that our students may be offered a wider variety of opportunities in this area. I am concerned that the student

receives vocational training, industrial training and occupation guidance in keeping with a modern North Carolina and that we prepare him for life in his future rather than in our present.

Expanded programs for retarded children and mental health generally will require about \$2,310,000 additional appropriations.

A major need in North Carolina today is to strengthen the hand of our law enforcement agencies. This can be done to some extent by tightening up and clarifying the criminal laws in our State.

With a growing population, however, and the increased incidence of crime, especially the use of drugs among our young people, it is urgent that we provide better equipment and more manpower for our law enforcement agencies.

To improve our efforts in law and justice in North Carolina, I am recommending that \$3,025,000 be appropriated in this general area. These funds will be used primarily to implement the Police Information Network (PIN) linking all of our law enforcement agencies together, and more manpower and better equipment for the State Bureau of Investigation.

The Governor's Coordinating Council on the Aging has completed a comprehensive study on the problems and needs of our elder citizens in North Carolina. I commend this report to you.

Inasmuch as the State provides no benefits to senior citizens in the low income brackets, those who need assistance the most, I am recommending that a tax refund of \$25.00 be given to all persons 65 years or older who have income of less than \$3,000 annually. This program will result in a loss to the General Fund of \$16,000,000 for the biennium.

There are many single people today who cannot qualify for a head of household exemption, but who are maintaining a house or apartment for themselves. This is an inequitable tax. I recommend, therefore, that single people be granted state income tax exemptions equal to those presently receiving the \$2,000 exemptions. This will result in a net loss from the General Fund for the biennium of \$5,000,000.

Other additions to the 'B' Budget recommendations that I propose include funds to upgrade and strengthen the Good Neighbor Council, provide a beginning for a State Zoo, funds to match anticipated federal grants in the new area of marine sciences and for soil and water conservation programs. This will call for \$3,515,000 additional money.

The additions to the 'B' Budget that I have recommended add up to slightly over \$92,000,000.

Add to this the \$21,000,000 loss in General Fund revenue from tax relief recommendations and the \$2,500,000 for capital improvements, and we have the grand total of \$115,865,665 in additional revenues needed for our General Fund.

An additional \$5,000,000 will be required from the highway fund to meet the salary increases proposed for state employees generally, but whose salary comes from highway revenues.

TAX RECOMMENDATIONS

I recommend to this General Assembly that the money to implement my recommendations to you be provided from the following sources. (All figures are for the biennium).

An additional 10 per cent tax on liquor which will yield \$26,000,000.

An increase in the tax rate on beer by 1.5 cents per bottle over six ounces but less than 12 ounces and equivalent rates on other quantities with the state to retain all additional revenue. This will yield \$15,000,000.

A tax on cigarettes at the rate of five cents per package of twenty will yield \$50,000,000.

A tax on cigars of two cents each will yield \$7,000,000.

An increase of one-half of one per cent in all rates on Insurance Premiums will yield \$10,000,000.

An increase in the sales tax on motor vehicles, boats, and locomotives from the present 1.5 per cent to 2 per cent with the maximum remaining at \$120 will yield \$8,500,000.

An increase in bank excise tax rates from the present 4.5 per cent to 6 per cent will yield \$1,000,000.

An increase by one-fourth in the rates at which Building and Loan Associations are taxed will yield \$1,000,000.

These recommended sources and rates will provide \$118,500,000 for the General Fund.

The enactment of these recommendations will meet my recommended additional General Fund expenditures and provide a cushion of over \$2,500,000.

HIGHWAY FUNDS

We must have more money for road construction and maintenance. Costs for both maintenance and new construction have risen sharply, at a far greater rate than our highway revenues. In addition, the increasing operating costs of the Department of Motor Vehicles, including the adding of highway patrolmen, continues to drain away funds that most people believe are available for roads.

Most of the requests, verbally and by mail, coming to my office are pleas from our citizens to improve our roads, both primary and secondary.

A thorough study by a commission named by Governor Moore reveals that under our present system of financing highway costs, there will be no money left from state funds for new construction by 1974.

I repeat, we must have money for roads.

Therefore, I strongly recommend that motor fuel taxes be increased by two cents per gallon and that license taxes on automobiles, trucks and other vehicles be increased by one-fourth.

The motor fuel tax will provide \$88,000,000 and the increase in license fees will yield \$21,000,000 for a total income to the Highway Fund of \$109,000,000 for the biennium.

I point out that this figure would yield more funds for the highway department during my administration than the \$200 million secondary road bond issue passed during my father's administration. Of course, it will not go nearly as far because of inflation, higher engineering requirements and also, these funds will not be earmarked for secondary roads alone.

Now, let me comment with respect to my recommendations for a tax on cigarettes.

First of all, I would not have recommended a cigarette tax if I had any reason to believe that such action would hurt the tobacco warehouseman or the tobacco manufacturer, and especially the tobacco grower.

It will not, and anyone who thinks it through knows it will not.

First of all, we are talking about only 2 per cent of the flue-cured tobacco grown in North Carolina.

This amount is sold in the State, whereas 98 per cent of the crop is sold elsewhere and is already taxed.

A five cent tax on 2 per cent of the crop is not going to affect sales.

Tobacco prices are supported by the federal government. There is a floor underneath tobacco prices, so they will not be reduced and the farmer will not be hurt.

I honestly feel that our failure to levy a cigarette tax has hurt our relations with other states and particularly with Congressmen and Senators from other states.

We must remember it is these people who have the power to destroy the tobacco price support program and impose restrictions on the advertising of cigarettes.

Such action at the federal level would seriously harm the tobacco industry and directly reduce income to tobacco growers, warehousemen and manufacturers.

My friends in the tobacco industry, and there are many, would be best advised, in my honest opinion to concentrate their energies in Congress to save the price support program and prevent the ban on cigarette advertising, which is clearly a very real danger in this session of Congress.

My only regret in recommending a cigarette tax to this distinguished body is that when I campaigned for this office, I said I was opposed to such a tax.

But I also stated that if it became necessary to meet the essential needs of our State, then I would seek the necessary revenue.

It has been said that when confronted with the facts, 'a wise man will change his mind, but a fool never changes his.'

Since assuming my responsibilities as Governor, I have been confronted with facts — facts supporting the overwhelming needs of our State, not nearly all of which can be met even if we levied a tax of ten cents per pack.

So I make this recommendation with no apology, but only with explanation.

I am man enough to stand before you to say I have found it necessary to change my earlier opinion.

My responsibility to the entire state transcends the desire to assist an industry.

Finally, I believe it is time to destroy the myth that tobacco is king in North Carolina.

Income from livestock and poultry already exceeds that of tobacco.

True, it is very important to our economy and will be for as long as man wants to enjoy a smoke. But tobacco must not dominate our thinking to the detriment of our progress.

Now I would like to comment on the sharing of state collected revenue with local governments, specifically the sales tax.

I am opposed to the state collecting an additional sales tax, which now includes food, and giving it back to local governments to spend.

Many local governments do need financial assistance. Some do not.

I feel strongly that every local government should first utilize their existing revenue sources before turning to the state for more unrestricted funds. I am not convinced that the majority of our local governments have made full use of their available resources.

Further, in many cases, more efficient use of the local government tax dollar can be achieved by consolidating county and city governments, consolidating school administrative units and the sharing of services among counties.

Many counties have glaring exemptions or inequities in their ad valorem tax structure.

I caution you, the members of this General Assembly, to protect from further erosion the revenue sources available to the state.

You must provide future administrations with the means of financing the expanding needs of a growing state.

It is poor business to erode the tax sources of the state, knowing full well that the demand for state services will increase in the immediate future.

There is every reason to believe that the pressure for revenue will be just as great or greater on future General Assemblies as it is upon us here today.

Let me remind you, too, that the State of North Carolina already provides many services and much money for local government.

The state constructs and maintains all roads and streets except those streets not on the state highway system.

Many of the major city thoroughfares are on this system. In addition, in-

corporated municipalities receive Powell Bill Funds to aid in street improvements and construction.

Most people believe the state receives the intangible tax, and we are constantly urged to eliminate this tax, but this 17 million goes back to local governments with only a small service charge for the actual cost of collection.

On July 1, 1969, the municipal share of the utilities franchise tax will increase from the present three-fourths of one per cent to two per cent.

This will be one-third of the total 6 per cent that the state levies. This means that \$4,950,000 will go back to municipalities in the first year of the upcoming biennium.

On July 1, 1970, the municipal share of this tax will go to 3 per cent or one-half of the state's levy of 6 per cent.

Thus, in the second year of the biennium \$9,650,000 will be returned to local governments — money that once would have been available to the state.

The state pays educational personnel admittedly not enough, but we provide the base. We provide the school buses and pay the drivers.

Many small towns receive technical services such as planning assistance.

The Local Government Commission and the Institute of Government render great service to local governments.

All these services and more are being provided already by the state and my proposed Department of Local Affairs will give even greater assistance.

So, do not labor under the illusion that the state does not assist local governments, because it does in many ways.

I have stated many times that local governments must be strengthened. I still hold that view.

But they can be strengthened best by changes in the law to allow more home rule, consolidation of services, merging of governmental units, broader local taxing powers, and more technical and long-range planning assistance by the state.

Government cannot sit off in a special place — untouched, unscarred by the rising cost before us in our daily lives. It cannot command such an isolated position. We must meet its demands, just as we rise to meet the demands in our personal lives. We must respond realistically to government's potential. When we do, we are responding to the people.

For us not to take our place in what our State must do, we would be negligent in meeting the responsibilities that the people have placed in us. In turn, I want to do what I can to make our State more responsive to the evident needs of our people — needs which can be met in the framework of reasonable thought and action.

I believe you feel the same way. I have strong confidence that the people will recognize our good intent, our mission, and our goals in the cooperative and constructive spirit that has marked our State in the past.

As Governor, I welcome reaction of our people to what I have proposed; for what we are doing must always be viewed to be in the public's interest.

And as I seek this public expression, I only ask that the people look constructively and devotedly to our State. I ask them and you to consider what our State is now, what it should be and what it can be if we face our problems and show courage and corrective efforts in doing our best for those who look to us to do our best — meaning all the people of our State.

This budget, then, is open for appraisal by you and by the people. In turn, I can see that if all of us face it and deal with it and make our decisions through it, North Carolina certainly will be served well.

I am sure you know that I would not assume to tell you what to do or where to levy taxes that will produce the additional money needed to render these vital services to the people.

I have mentioned several sources and types of tax levies. These I recommend as a result of careful and thoughtful study; these are suggested by me for your consideration along with other sources and types which you may wish to consider.

The decision as to where the money comes from is your decision. Your best judgment will be acceptable to me. I urge you to levy such taxes as in your judgment will be fair, reasonable, and sufficient to provide for the urgent needs of the people of our State. I earnestly make these recommendations and suggestions to you, and they are made without reservation.

I close with a quote from the famed jurist and poet, Oliver Wendell Holmes. 'I find the great thing in the world is not so much where we stand as in what direction we are moving. To reach the port — we must sail sometimes with the wind and sometimes against it; but we must sail and not drift nor lie at anchor.'"

On motion of Senator McGeachy, the Joint Assembly dissolves. The Senate repairs to its Chambers and the House resumes consideration of its business.

On motion of Representative McMillan of Robeson, a statement made by individual members of the Faculty of the Institute of Government is read and ordered spread on the Journal.

"This University has a long and honorable history of resisting efforts to curtail freedom of expression. We associate ourselves unreservedly with that tradition.

Adherence to that tradition does not require defense — or even condonation — of methods of expression which trespass upon the rights of others and disrupt the life of the University. Indeed, nothing so effectually sabotages any meaningful search for truth as the tactical resort to violence of threats of violence by a militant minority which insists that it alone can identify truth and that whatever is identified by it as truth, must be universally accepted. This is the totalitarian — not the democratic — approach to freedom of expression.

The mission of the University would be equally subverted if its teachers, who have voluntarily entered into lawful contracts, deliberately pervert or refuse to carry out their assignments, justifying such conduct by citing their disagreement with their characterization of University policies. Such conduct is not a legitimate assertion of the right to criticize. It is a breach of faith and a clear neglect of duty. Such conduct, legally and morally unjustifiable, is peculiarly reprehensible when engaged in by those who profess high moral motives.

In the present University crisis, to the extent that a labor dispute is involved, we believe that the University is moving, with good will and in good faith, to reach just solutions. We strongly endorse that effort and urge that it continue with maximum possible speed. We believe that the labor dispute can be settled more quickly and more justly if those groups whose conduct led to the presence of highway patrolmen publicly renounce any intention to renew such conduct. We have a poor case for withdrawal of the patrol until we can point to such solid evidence that peace will prevail in its absence.

Unfortunately, there is evidence that small minorities of students and teachers, urged on and supported by individuals from outside the University community, are determined, by violence, threats of violence, disruption and neglect of duty, to force adoption of their views as to matters irrelevant to the present labor dispute. We condemn any such effort, while there is small chance that, by such tactics, they can win control of University policies, there is real danger that they will goad the people of the State into destroying freedom of expression for all of us.

We support the Chancellor and the President in their efforts to maintain order, to do justice, and to preserve for us and for posterity a University in which truth wins its way by its intellectual merits."

JOINT SESSION

Pursuant to S. J. R. 295, entitled "a joint resolution inviting His Excellency, the Governor, to address a Joint Session of the Senate and House of Representatives at 12:30 P. M., March 27, 1969", the Sergeant-at-Arms announces the approach of the Senate and that Body with its officers comes into the Hall of the House and is assigned seats. President Taylor is seated at the right of Mr. Speaker Vaughn.

The Joint Assembly is called to order by President Taylor.

The Joint Committee of the House and Senate comes into the Hall of the House acting as escort to Governor Scott.

Senator Ellis presents His Excellency, Governor Robert Walter Scott to President Taylor, Mr. Speaker Vaughn, and the General Assembly.

Governor Scott makes the following address:

"Mr. President, Mr. Speaker, members of the General Assembly of North Carolina.

I appreciate the privilege you have given me to come before you again during this Session. I am aware of the demands made upon your time, especially now that you are deeply involved in discussing the issues that are before you.

But I ask for some of your time today in order that I might present for your consideration a new program for North Carolina.

In my legislative message to you on January 22, I stated that I would ask your support in developing programs that will build a partnership between our State government and our local communities.

There has been much concern expressed in recent months over the need to strengthen local governments. These expressions have come from local government officials, community leaders and the general public. Part of this concern stems from the growing awareness that unless action is taken, local governments — those closest to the people — will become largely ineffective. Indeed, many are finding it increasingly difficult to cope with the pressing problems of a modern society.

Since our counties, cities and towns are created by the State, I feel the State has an obligation to provide them with technical know-how, planning assistance, and other services to enable them to cope with twentieth century problems and to plan for the twenty-first century.

To aid in this essential effort, I ask this General Assembly to establish a new department of State government to be known as the Department of Local Affairs.

This department will be used primarily for the purpose of aiding and assisting local governments to meet local needs, both immediate and long range. It will be a service agency, staffed with competent individuals who have the expertise in such areas as community planning, economic development, recreational planning, housing, land use and development and other vital areas.

I intend for this new department to work in close cooperation with all local governments. Equal attention will be given to counties and municipalities. It will make no difference whether the local government is large or small in terms of population, economic wealth or geography. The services of this department will be available to all.

To assure this close cooperation I ask that an Advisory Council on Local Affairs be established to work with the Director and the Department. At least six members of this eighteen member council will, at the time of their appointment or within the preceding two years, have served as a mayor, a member of a municipal governing board or as a county commissioner.

There will be advisory committees on recreation, law and justice, and other areas of work by this department. In short, the department will be so organized as to assure local governments a strong voice in its policies and programs.

Mr. President, Mr. Speaker, I consider the establishing of this department to be a key element in the determined efforts of this administration to form a true partnership with local governments. In addition to our 100 county governments, there are over 425 incorporated municipalities. There are also many unincorporated communities ranging all the way from a few families around a rural crossroads to the community of Kannapolis. Many have formed themselves into sanitary districts or water districts.

Most of these counties, municipalities and unincorporated population centers do not have the manpower, the finances or the technical knowledge to adequately deal with the modern-day problems suddenly thrust upon them. Many are not able to take advantage of — indeed some do not have knowledge of — federal and State assistance programs available to them. Yet their problems increase and their needs mount.

Much has been said about the needs of our local governments and what can be done to assist them. My administration is committed to providing this type of assistance. I am convinced our people want it. I ask you to join with me in making it possible by establishing the Department of Local Affairs, a major new department of our State government.

Another essential step in our effort to strengthen local governments in this State is the matter of constitutional reform.

I am pleased that the Local Government Study Commission has placed such reform at the top of its list of many worthy recommendations. I concur in that priority, for the bedrock of democratic government is its constitution.

The language of 1868 has served well. Its basic conservative philosophy should be retained. State supervision of local fiscal affairs is sound and should be continued.

But we must not forever cling blindly to the past when facing the problems, challenges and opportunities of the future. The language of 1868, written in the context of the past century, must be updated and modernized.

Those constitutional provisions which limit the power of the General Assembly to legislate for the 1970's and beyond must be revised. Barriers to effective change in form and structure of local government must be removed.

My program for local government is in reality a program of better services for all the people of our State. Its aim is to provide a sound and wholesome balance of urban and rural life.

With these principles in mind, I urge your careful and studied consideration of constitutional reform for local government.

OTHER INTERNAL REORGANIZATION

In order for our State government to operate more efficiently in the coming years and fulfill its obligation to be more responsive to the needs of our people, I am recommending that there be a reorganization of certain policy making boards and agencies of our State administration.

Already you have before you a bill that would re-organize the Board of Conservation and Development along the lines recommended by the Study Commission established by the 1967 General Assembly. I urge the enactment of this bill for I believe it will give a better balance to the mission of the Department in broad areas of development, conservation and tourism.

Soon to be introduced for your consideration will be a bill to provide for additional highway commissioners. The enactment of that legislation will enable the highway commission to be in closer touch with the people. It will enable the commission to give closer and more immediate attention to the road needs of our counties. I ask you to adopt this proposal.

Article 36 of Chapter 143 of our General Statutes, enacted by the 1957 General Assembly, provided for a Department of Administration. This department has served well and it is essential to the effective operation of our State government.

This department really serves as an extension of the Governor's office. Within it are located six divisions: Budget, Property Control, Purchase and Contract, General Services, State Planning Task Force and Data Processing. Two of these, Budget and Purchase and Contract, are required by Statute to be in this department. Others are authorized but not required. With the exception of the Budget and Purchase and Contract Divisions, the Director, with the approval of the Governor, may add divisions, abolish divisions and otherwise reorganize the department 'necessary or convenient for the efficient performance of the duties and functions of the department.'

I am convinced that the department needs to be re-organized for more efficiency. Present authority exists to do this, but some additional funds will be needed to make such re-organization effective.

As you know, in recent years there has been a tremendous increase in the number of new federal programs. Many of these directly concern North Carolina. I feel that our State is not fully utilizing some of the programs that can be helpful to us and that we are not aggressive enough in getting some of our federal tax dollars back into North Carolina. Further, these federal programs have grown both in number and in scope to the extent it deserves our full-time attention.

Therefore, I am asking that \$36,500 be provided to establish within the Department of Administration an Office of State-Federal Relations. This office will be responsible for state-federal liaison on behalf of the Executive Branch of State government. This office will serve as a key point of contact with federal offices, agencies, and programs, and conduct the staff work for the Governor and the Department of Administration.

The Division of Property Control and Construction needs to be reorganized to more effectively handle the increased work load resulting from increased numbers of State buildings and property, both existing and planned, under its supervision. It is proposed that this division be renamed the Property Management and Construction Division and that it be split up into three sections: Architecture and Engineering, Real Property Management and Control, and Legal. Salaries and support needed will be in the amount of \$108,00.

The State Planning Task Force was created during the Sanford administration and strengthened during the Moore administration. The time has now arrived where this division should be further strengthened by additional inputs of personnel and expertise to adequately serve the State's comprehensive long-range planning and development needs. This change is needed to cope with the complex long-range planning problems of the new century already rushing upon us.

The State Planning Task Force, therefore, will be re-organized into a Division of State Planning and Development. It will have the responsibility to coordinate existing State programs, and organization of agency plans for future programs and needs of the State.

The basic functions at this level are coordination and integration of line agency planning, and providing the Executive and Legislative branches of government information on state-wide goals, policies and means of implementation.

The State Planning Task Force would be incorporated into this new division and additional funds for support would amount to \$112,000.

It is an objective of this administration to provide for our citizens as efficient government as possible. To do this requires a constant review of organization methods and procedures of all State agencies and to formulate plans for needed improvements in organization.

Authority to accomplish this goal is already provided in General Statutes 143-341(5), but this program has never been implemented. It is needed. Therefore, it is proposed that there be established a new division within the Department of Administration to be known as the Administrative Management Analysis Division. This division will provide staff assistance to the Governor and the Advisory Budget Commission, two-thirds of whose membership are members of the General Assembly. It will make studies and in-depth analysis of budgets and organization, and will establish cost-benefit ratios where applicable to State programs. Such findings will be presented to the Advisory Budget Commission and to the Governor and would be available to the General Assembly.

Funds to support this new division will amount to \$108,000.

Other divisions of the Department of Administration, Budget, Purchase and Contract, General Services, and Data Processing, would function as they are now constituted.

The work of the Department has expanded considerably from its original two divisions. Responsibilities of the Department have increased in number and complexity. The workload on the Director has increased greatly in the last twelve years. Therefore, I am recommending that a position of Deputy Director be established to assist the Director in the implementation of these expanded programs and responsibility. The Deputy Director would act in the absence of the Director. Salary and supporting expenditures for this position, together with secretarial assistance would amount to \$36,000 for the biennium.

Mr. President, Mr. Speaker, this message today, together with my two previous appearances before you, embodies the essential elements of my program for progress for the people of our State.

There are three alternatives before us:

One is to do nothing about increasing revenues. In this time of mounting costs, enlarging needs of a growing State, and greater federal challenges in terms of matching money, to accept this alternative would cause us to go backward.

The second alternative is to provide those revenues which would enable us to merely remain where we are with no forward motion. This is not in keeping with our philosophy or tradition as a State.

The third opportunity is the course of courage. To me it is the only acceptable alternative.

I have been in office less than three months. But I am made more aware each passing day that with the proper direction and leadership, North Carolina can become outstanding in its capacity to make maximum use of its potential.

During the past few weeks, I have had the opportunity to chat with you at the breakfast table, in my office or at dinner at the Executive Mansion. You have strengthened the conviction I already hold that you want to serve your constituents conscientiously and that you are dedicated to your responsibilities as elected members of a truly great deliberative body — the General Assembly of North Carolina.

As you go about your tasks during the remaining weeks of this session, I ask you to keep in mind one thought:

The programs I have presented to you are no monument to me as an individual. There are no frills in what I am proposing—no luxuries.

What I have recommended, either in programs or revenue sources, is not frivolous. It is not a question of what one man wants. It is a larger question of what North Carolina needs.

No citizen of North Carolina will suffer unduly by supporting my program. But thousands will benefit because you were willing to enact it.

The people of North Carolina elected me Governor to provide the needed leadership during these four years. The program I present to you will enable me to better fulfill that obligation.

It is my responsibility as Governor to present a program and the ways in which it might be financed. This I have done.

You have the responsibility to evaluate both my proposals and the means of financing. I am confident you will do so with the best interests of *all* of North Carolina at heart.

Leadership—that is what I impress upon you today. That is what the people want.

Let each of us in our respective positions of leadership be honest enough and courageous enough to admit one thing:

To be influenced in our decisions by the cries of the faint hearted or the vocal disgruntlement of leaders of special interest groups who resist the necessary means of financing essential programs—this is indefensible leadership and it betrays those we represent.

I implore every member of this General Assembly to rise to the challenge we clearly face. Listen to the voice of reason and logic—not to emotion nor special interests.

And let us ask Divine guidance that our conscience can distinguish between the two.

Who will provide the leadership? As your Governor, I will.

Who can get the job done? Only you, the members of this General Assembly.

Let us all have the courage to “Go Forward’ again.”

“A JOINT RESOLUTION COMMEMORATING THE HALIFAX RESOLVES OF APRIL 12, 1776, WHICH AUTHORIZED NORTH CAROLINA DELEGATES IN THE CONTINENTAL CONGRESS TO VOTE FOR INDEPENDENCE.

WHEREAS, the British Government had looked upon the American colonies as a colonization venture to counteract the Spanish in the New World; and

WHEREAS, the thirteen colonies had been settled by the English and were governed by the Mother Country; and

WHEREAS, the British Government had looked upon the American Colonies as a means to increase revenue; and

WHEREAS, the British Government felt that the colonies should pay some form of taxes to England in order to defray some of the expense of that government; and

WHEREAS, the British Crown ignored the cries from its American Colonists, and therefore, the American citizens were overburdened with unnecessary taxation and restriction of freedoms; and

WHEREAS, the Stamp Act was passed by Parliament in 1765, which was a tax on all transactions of legal papers in the colonies, which the colonies successfully resisted; and

WHEREAS, other taxing measures were adopted by the British Government, such as the Townsend Act and the Tea Tax, which likewise were successfully resisted; and

WHEREAS, the people were against taxation without representation and began to look more to their own resources, both political and legal; and

WHEREAS, the Fourth Provincial Congress meeting in Halifax in order to formulate plans to strengthen the position of the people, on April 12, 1776, voted to instruct the delegates in the Continental Congress to vote for independence from the Mother Country; and

WHEREAS, the date April 12, 1969, will mark the one hundred ninety-third anniversary of the adoption of the significant and far-reaching Halifax Resolves;

NOW, THEREFORE, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That North Carolina, in the Town of Halifax, April 12, 1776, ‘empowered’ the colony’s delegates to the Continental Congress, at its meeting in the City of Philadelphia, ‘to concur with the delegates of the other colonies in declaring independency. . . .’

Sec. 2. That North Carolina thereby was the first of all the 13 original colonies to take official action for independence.

Sec. 3. That North Carolina by this action preceded by more than one month similar action by Virginia, which was the second state thus to act.

"A JOINT RESOLUTION HONORING THE MEMORY OF A DEDICATED PUBLIC SERVANT AND DEVOTED NORTH CAROLINIAN, BOWMAN GRAY, JR.

Whereas, Bowman Gray, Jr., of Forsyth County, was born on January 15, 1907, and after a fruitful and dedicated life of service to his community, State and industry, departed this life on April 11, 1969; and

WHEREAS, his eminence in the field of business, as chief executive officer of Reynolds Tobacco Company and later as Chairman of the Board of that Company; as representative of the tobacco industry in hearings before Congressional Committees in 1964 and 1965 when, in the midst of threatened panic, his calm conviction that the attacks on tobacco were unjustified, stabilized the entire industry; and his position as a leader in the diversification of his industry have tended to eclipse his equally great contribution to his State and nation as a public servant and benefactor; and

WHEREAS, Bowman Gray, Jr., from his early manhood to his last crippling illness never permitted his concern with his business enterprises to overshadow his sense of responsibility to his fellow citizens; but rather, Mr. Gray led in such efforts as the planning and construction of a stadium for his community which was completed in 1938, took a major part in the establishment of the Bowman Gray School of Medicine of Wake Forest College at Winston-Salem in 1941 as a memorial to his father, served as a member of the University of North Carolina Board of Trustees, was a director of the Business Foundation of North Carolina and the Research Triangle Foundation, and in many other ways quietly contributed to the social and economic welfare of his community and State; and

WHEREAS, his contributions as a citizen did not stop with the borders of his State but extended to the nation where, as an intelligence officer in the United States Navy during World War II, he originated and organized the concept of Operational Intelligence which afforded commanding officers in combat current information on enemy dispositions, and originated and organized the Harbor Entrance Control and System used throughout the Eastern Sea Frontier as a means of controlling access to out ports and harbors, thus substantially contributing to the overall success of the nation's war effort; and

WHEREAS, Bowman Gray, in his love of hard work, his incisive intellect, his self-effacing modesty, his dislike of publicity, his love of husbandry and of the land, his loyalty to his friends and his neighbors, his deep attachment to his family and to those tasks committed to him, his sensitivity to the feelings of

others, his willingness to share what fortune and industry had given him, and his pervading sense of what was right and proper exemplify the meaning of the phrase 'esse quam videri'; NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES, THE SENATE CONCURRING:

Section 1. That in the death of Bowman Gray, Jr., the State of North Carolina has lost one of her most distinguished sons.

Sec. 2. That this General Assembly express its sympathy to the family of Mr. Gray and its gratitude for his life and his contributions.

Sec. 3. That a copy of this Resolution be spread upon the minutes of both the Senate and the House of Representatives and that copies of this Resolution be duly certified by the Secretary of State and by him transmitted to Mrs. Gray and to his sons, Bowman Gray, III, Frank Christian Gray, Robert Daniel Gray, Lyons Gray and Peyton Randolph Gray.

Sec. 4. That this Resolution become effective upon its adoption."

NINETY-FIRST DAY

HOUSE OF REPRESENTATIVES
Wednesday, April 30, 1969

The House meets pursuant to adjournment and is called to order by Mr. Speaker Vaughn.

Prayer is offered by the Reverend Collins Kilburn, House Chaplain.

Representative Johnson of Duplin, for the Committee on the Rules and Operation of the House, reports the Journal of yesterday has been examined, found correct, and without objection the same stands approved as written.

On motion of Representative Johnson of Wake, S. B. 66, "a bill to be entitled an act to correct several separate State board, commission and com-

mittee authorization acts to conform to General Statutes 138.5 with regard to the amount of per diem payments authorized for members." is withdrawn from the Committee on Appropriations and placed on the Calendar.

Representative Jones of Mecklenburg requests, and is granted permission, to send forward the following statement:

"April 30, 1969

Lady and Gentlemen of the House:

As you know, Harvard University, Cornell University, and some of the thirteen universities or universities-to-be in North Carolina recently have been occupied by anarchists whose purposes include destruction of the institutions if they are denied their demands, regardless of the survival of free education.

On the other hand, during this session of the General Assembly, resolutions have been passed lauding certain student groups in several of our State institutions of higher and lower learning.

The kudos were for certain skills in putting a leather-covered, air-filled ball through a hoop suspended in mid-air better than anyone else in competing institutions.

Teachers who teach the students to flip not only get two or three times greater salaries than other teachers; they are fought over and stolen by other more affluent institutions with affluent alumni.

Whatever this body may think of these respective activities on the campuses of these schools, and whatever action this House may take with respect to them, permit me to call your attention to the accomplishments of a group of students from one of the remaining colleges in North Carolina that has not changed its title to 'university.'

This group, strangely enough, is interested in an education, in meaningful learning in the humanities, in science, in the arts — in all the purposes for which an institution of higher learning is established, including a search for truth. In five consecutive weeks this group took on and vanquished Skidmore College, Wesleyan University, the University of Arizona, Colgate University and last Sunday Dillard University of New Orleans to achieve the championship in the TV College Bowl classic.

They excelled in history, music, literature, art, poetry, science and other fields of knowledge, wisdom and judgment, the real aims of education.

They brought national recognition, publicity and prestige to North Carolina, plus \$20,000 in scholarships. The Mecklenburg Delegation commends to this body the team of Davidson College for 'demonstrating' — demonstrating to the nation what academic excellence in the Tarheel State can mean.

Mr. Speaker, I hope that this House will join proudly in this statement of deserved recognition of the brainy 'Cats' of Davidson College for their academic achievements.

Without objection, a copy of these remarks will be sent to President Samuel Spencer, president of that institution, these having been spread upon the House Journal, Wednesday, April 30, 1969.

S/ Representative Art Jones"

The House meets pursuant to adjournment in the House Chamber of the Capitol Building and is called to order by Mr. Speaker Vaughn.

Prayer is offered by the Reverend Collins Kilburn, House Chaplain.

Representative Johnson of Duplin, for the Committee on the Rules and Operation of the House, reports the Journal of Saturday has been examined, found correct, and without objection the same stands approved as written.

A leave of absence is granted Representatives Beam, Elliott, Mauney and Twiggs for tonight.

A leave of absence is granted Representative Ragsdale for Tuesday, May 13, 1969.

Mr. Speaker Vaughn introduces a distinguished visitor, Judge David M. Britt, who makes the following remarks:

“We are meeting tonight in a building which has meant so much in the History of North Carolina — it has served the State long and well.

We are very proud of the Executive Branch of our Government and equally proud of the Judicial Department of our State, and Lady and Gentlemen, there are those of us who have served in the Legislative Branch who take equal pride in the program instituted by this branch of government both now and in the past times. Early in its history, it had the veto power over the Governor— it set his salary. Because of that action the Executive and Legislative Branch could usually agree to meet together and work out their differences.

In 1788 it was decided there was a need to establish a permanent seat in State Government. It had been moving around—sometimes it met in New Bern, Hillsborough or Salisbury. It was said that the important records were hauled around on a cart from place to place. It was agreed to locate the capital in Raleigh and a Commission was appointed to locate the exact spot. They finally decided to come to this spot on the plantation of Joel Lane. Most thought because it was located close to the Tavern that served the best apple toddy.

The Legislature had great power in those days. We are probably the most powerful body in the world. In 1835-36, the General Assembly ran the State. It met annually—it elected the Governor annually—it appointed the Council of State.

In 1831 there was a turning point—the building burned down. This almost changed the history of our State. The people from the Cape Fear area and the people from the West wanted the Capital moved. It was finally decided the seat of government would remain here in Raleigh. Out of this movement there came the votes and power to strengthen our North Carolina State Government. The Governor was elected by the people of the State—served for a two year term—The Council of State also was elected.

In 1840, the new Capitol Building was completed at a cost of \$530,000 and has served as the heart of government since that time. (At that time they were considering such things as Education and Transportation. Have you heard anything about these lately?)

In 1959, when the issue of building the State House came up for debate, the House was divided until Representative Byrd Satterfield arose and made an impassionate plea to support the bill. He praised the virtues of the bill and then pointed out there was one more reason to pass it. ‘Gentlemen, when we have a Joint Session in this Chamber and the Senate members are seated in

the aisles around us—remember—if there should be a fire, the first to get out would be the Senators since there is only one door through which to leave the House.’ The bill passed.

Gentlemen and Lady, it is a pleasure to be here and thank you for the invitation.”

On motion of Representative Vogler, the courtesies of the floor are extended the Honorable Thad Eure, Secretary of State, who recited many historical and amusing incidents in connection with former sessions of the General Assembly.

On motion of Representative Vogler remarks made by visiting dignitaries are included in the Journal today:

REMARKS BY GOVERNOR BOB SCOTT

“The State Legislative Building commemorates the progress of North Carolina and its people throughout the State’s history.

It is a success story expressed in a building.

It reflects appropriately and accurately the type of good government North Carolina has had for these many years.

The building is classical. It startles some, upsets a few and is a unique and magnificent building to others. There is no national or historical counterpart in the nation. Designed by Edward Stone, it has attracted the interest of architects around the world. Several have visited us. One from Japan stood on the steps outside and said, 'this is one of the most talked about edifices of our time.'

However fine and picturesque, the State House is still primarily a functional building. From 1840 until 1963, the Capitol had been the seat of government.

At best in recent years, the General Assembly had only two chambers for seating the legislative bodies.

Clerical work was scattered around Capitol Square. If the General Assembly still met there, we would have some 80 committees meeting in various buildings around town this session. They would be in the Education Building, the Highway Building or the Revenue Building—wherever there was an empty room big enough to hold the group.

In the old days people would get lost on the way to committee hearings—sometimes even the legislators lost the way. For the big issues, the House and Senate would trek down Fayetteville Street to Memorial Auditorium.

Running the business of North Carolina demanded more and better facilities as the State made its giant progressive strides.

Today we look around this Chamber and realize there are parking facilities in the basement, individual offices, dining facilities, adequate committee space. Legislators can attend the business of the State without ever having to leave the building during the day. The three sessions here have proven its value to us all.

North Carolina is a State to be proud of. The men whose names are engraved on these plaques made great contributions to our State.

The State Legislative Building is a monument to the State and the people of which I am justly proud."

REMARKS BY FORMER GOVERNOR DAN K. MOORE

"Mr. President, Mr. Speaker, and members of the 1969 General Assembly:

It is a great personal honor for me to be invited to come before this distinguished group. I recall my earlier visits here and the programs I presented for the consideration of previous Assemblies. For those of you who were here to help provide sound leadership and direction during my years as Governor, I again express my appreciation, and urge you to give Governor Scott that same type support.

The people of Jackson County elected me their representative to the General Assembly many years ago. I have fond memories of those months which I served in the beautiful old Capitol Building up Halifax Street. But even then it was crowded and working conditions were somewhat less than ideal. Tradition was there, instilled with each passing generation of Legislators. But as

North Carolina grew and with it, the business of government, it became increasingly evident that tradition and sound legislative government would have to come to a parting of the ways.

Luther Hodges accomplished many great things while he was Governor of this State. History will recall his diligence in seeking to strengthen the economic foundation of North Carolina, while striving to develop new and more meaningful programs for its citizens. This Legislative Building stands as a monument, not only to his effort to streamline the governmental process, but also to his willingness to move the State forward. He is to be commended for the part he played.

Too much praise cannot be given the State Legislative Building Committee and its Chairman, Thomas White of Kinston, who was then a member of the House of Representatives. That committee of Legislators and private citizens did an outstanding job for North Carolina. This magnificent building, which has been praised by thousands, is evidence of the committee's work. All members are to be commended for their efforts to insure adequate work space for the Legislators as well as an object of beauty for all to appreciate.

Most of all, however, this Legislative Building is a tribute to the men and women who have served and who are today serving in the General Assembly. Buildings may contribute, but they do not make a State go forward. It takes dedicated men and women with ability to spur a State upward and to turn limited resources into meaningful programs for people. The names of those who were here when this building was first utilized are on the plaques. But more important their deeds, even as yours, will mark the progress of North Carolina in years to come.

As a citizen of this State, I am thankful that such men and women have come forward to serve North Carolina. Ours is a better State because of those Senators and Representatives whose names are inscribed on the plaques we unveil today. North Carolina will continue to grow and develop because of the contributions made by the Legislators in the 1963 General Assembly and because of the contributions made here by each successive General Assembly. We owe all of them a debt of gratitude."

REMARKS BY SENATOR RALPH SCOTT PRESIDENT PRO TEMPORE OF THE 1963 SESSION

"It's a genuine pleasure and privilege for me to take part in this historic occasion, as we pause to unveil a permanent list of the first legislators to occupy this handsome building.

A lot of us wonder how we did without such a fine facility for so long.

I was privileged to serve in the 1961 Senate—the last to sit in the old Chamber at the Capitol.

During the six years which have passed, many a good man has come and gone through these corridors. Our Senate President for that 1963 session, the Honorable Clarence Stone of Rockingham, recently left us.

We can all be grateful for the service of the 1963 legislators—those who have been here since then—and for the Legislative Building itself.”

REMARKS OF THE HONORABLE CLIFTON BLUE, FORMER
SPEAKER OF THE HOUSE OF THE 1963 SESSION

“Friends:

It's nice to come back to the Legislative Building of North Carolina which first stood as a silent sentinel while laws were enacted here in 1963.

It's good to see many who served in that General Assembly here today for the unveiling of the plaque listing those who first saw legislative service in this building in 1963.

Some members of that body have answered the final call that must come to all one day, they being:

Hardy A. Carroll of Guilford
W. V. Cooper of Graham
Dan L. Drummond of Forsyth
S. Glenn Hawfield of Union
Austin Jones of Ashe
John H. Kerr, Jr. of Warren
Grace T. Rodenbough of Stokes
John W. Umstead, Jr. of Orange
George R. Uzzell of Rowan
Thomas H. Woodard of Wilson

I hope that I have not overlooked the passing of any member in the 1963 House.

I would like to add that across the hall in the Senate two of the stalwarts of that session have also passed on—T. Clarence Stone who presided over the Senate and Garland S. Garriss of Montgomery County, able legislators and dedicated citizens.

I understand that someone has made the remark that in this Legislative Building we have the most modern and up-to-date in the nation, but that inside our system is old and out-moded.

I challenge this statement.

We have a powerful General Assembly—the most powerful of any state in the nation.

No doubt but that improvements could be made, but we must remember that Democracy is not the most economical form of government; oftentimes its processes are slow, cumbersome and costly, but it is well worth the price we have to pay.

When you have a Legislature that goes zip! zip! zip! somebody's rights are going to be trampled on and the end result will hardly be good for the people and for democracy.

Under Hilter and Mussolini we witnessed this type legislation and our system is far superior.

Our legislative system has been a powerful factor in making 'good government a habit in North Carolina.'

A system with legislative proposals freely debated and aired out, with the people given an opportunity to be heard is worth far more than a few weeks saved in legislative expense.

I hope that the North Carolina General Assembly will long safeguard its authority and prerogatives and in so doing it will serve the people well.

As I look back over the laws enacted by the 1963 General Assembly I feel that the legislation providing for a comprehensive system of community colleges and technical institutes was the capstone of that session and will have a greater effect in bringing into fruition Aycock's dream of 'the equal right of every child born on earth to have the opportunity 'to burgeon out all that there is within him', than any other legislation enacted by that session or any succeeding session until this time.

To Senator Claude Currie and Representative James B. Vogler, the committee on arrangements for this occasion, and to the members of the 1969 General Assembly, we are most grateful."

"We are debating H. B. 551, 'a bill to be entitled an act to provide for disciplinary action by trustees and administrative officers of public educational institutions against students and employees thereof who obstruct or disrupt the operation of such institutions.'

The subject of disorder on campus or school property is of grave concern to our area and to the nation.

The punitive nature of this act is being debated in a mood of repressive response, and does not approach the quiet due process that is needed in solving the great problems of the day.

The bill ignores the numerous laws now in effect. It ignores our Constitution, in my opinion, and will cause us much grief in the future.

The bill has been debated without giving all who sought the floor the right to speak. It will do no good for the group it seeks to control, and will do harm to all."

"A large majority of the people of Nash County, with whom we have talked about this, have told us they would accept a 2¢ cigarette tax and a 1¢ bottle drink tax if that was the best we could do. It is our honest and sincere opinion that this is the most favorable tax we can get for the tobacco farmer as we honestly believe that it would be impossible to get a tax bill out of this session without some cigarette tax in it."

STATEMENT BY MEMBER

June 21, 1969

"Mr. Speaker, Ladies and Gentlemen of the House:

I hold in my hand an amendment form. Yesterday, I held this same form and attempted to introduce an amendment to the Revenue Bill. Because of the refusal of the gentlemen from Halifax to yield the floor for any amendments or debate, there was no opportunity to do so.

This General Assembly has done a number of things to open many of the closed doors of past years. Yet on this particular bill which imposes over \$95 million in taxes on the people of North Carolina, there has not been the first minute of open debate on the floor of the House of Representatives. I am aware of the complexity of this week's action outside the building; yet this offers no real reason to deny to the people of this State the opportunity to hear it debated in public. And thus far, the committee debate is the only thing to which the public has been invited.

I hope that the closed door will open on the House floor this morning, in order that the people can hear the debate — loud and clear. We will have to vote in public. The constitution requires that. But this is a package, with many parts. And the people have a right to know how we feel about these parts.

This amendment would relate to the question of imposing a crown tax on soft drinks. It is a question which has never been discussed on the floor of this House.

A majority of the membership of the House can support any action to cut off debate and take us again behind the closed door. But I hope you will choose to let the bill be debated in the full sunlight for all to see and hear.

Should the previous question be called without that privilege, however, I believe the people of North Carolina also have a right to know who was in favor of keeping the door closed to them. And in that event, Ladies and Gentlemen, I will call for the ayes and noes on the previous question."

S/ J. E. HOLSHOUSER, JR.

STATEMENT BY MEMBERS

"I realize that the need for long-term or mortgage money in North Carolina is acute due to money market conditions. I object to this being used as a vehicle for raising consumer loan ceilings and rates and I, therefore, vote 'noe'.

S/ HUNTER WARLICK"

"There are many salutary features in this bill. The facts of life in the financial world demand that we liberalize the present six per cent ceiling. However, this bill provides no ceiling on loans in excess of \$300,000.00. In effect, we are saying that no amount of interest charged on loans above \$300,000.00 is usurious and unconscionable. I cannot subscribe to this view and, therefore, I must vote against this bill.

S/ DAVID E. REID"

STATEMENT BY MEMBERS

“July 2, 1969

Comments by J. Howard Coble Relating to Amendment to House Bill 487.

When this bill was passed by this House it was passed with Statewide application. Now, upon its return from the Senate, I am astonished to learn that my county of Guilford has been removed and excluded from the provisions of this bill. I have been accurately advised that one of my Senators saw fit to effect this amendment. He did not, however, see fit to contact me nor to discuss the matter with me. I regard this action as highly improper and discourteous and I resent same. I will not, though, stand in the way of a good bill which will benefit this entire State, save the handful of counties which have been exempted, whether properly or otherwise.

S/ HOWARD COBLE”

"July 2, 1969

MY COMMENTS BEFORE THE HOUSE RELATIVE
TO AMENDMENT TO HOUSE BILL NO. 487

I first heard a little while ago about the amendment to take Randolph County out of House Bill No. 487. At this late hour, for the sake of a good Statewide bill, I don't aim to move that Randolph County be taken out.

I understand that Senator Elton Edwards had this done. By not consulting with me prior to taking this action, I do think Senator Edwards, who is a resident of Guilford County and represents Randolph County, as well, showed the height of disrespect to me as Representative from Randolph County and the people of Randolph County.

S/ C. ROBY GARNER, SR."

STATEMENT BY SPEAKER

"In view of the fact that I have agreed to assume certain responsibilities in the very near future, the assuming of which would have the effect of vacating the office of Speaker of the House of Representatives, and inasmuch as the Statutes impose certain duties on the Speaker while the General Assembly is not in Session, and in order that the House may elect a Speaker to fill my unexpired term, I hereby resign the office of Speaker and request that the House elect a successor immediately.

Signed this the 2nd day of July, 1969, at 2:01 P. M.

ELECTION OF SPEAKER

Representative Vogler announces that nominations are in order for Speaker.

Representative McMillan of Robeson places in nomination the name of Representative Philip P. Godwin, Representative from Gates County, to serve as Speaker for the remainder of the term.

"Mr. Chairman, honored guests, fellow members of the House of Representatives, it is my particular pleasure and privilege to nominate for your consideration as interim Speaker of the 1969 House of Representatives, replacing our beloved Speaker Vaughn, My good friend and colleague, the Honorable Philip Pittman Godwin of Gates County.

Because of the absence of the veto power on the part of the Governor of North Carolina, and for other reasons, the General Assembly of this State has often been referred to as the most powerful in the nation.

The exercise of this tremendous power in the best interest of all of the people of North Carolina is a responsibility of awesome proportions, and requires leadership of the finest caliber.

The Speaker of this House of Representatives, then, must be a man of the highest integrity and ability, thoroughly versed in the history of our great State, with a profound knowledge of the needs of our people and of their willingness to provide for those needs. He must have the complete confidence of every member of the House, a thorough knowledge of the character and ability of each of us, and a fine sense of humor, in order that he might keep us from each others' throats in the heat of legislative battle. He must have at his fingertips, for in-

stant use, all of the rules of this House, all of the rules of parliamentary procedure, and all of the rules of human nature, together with the judgement, the ability and the courage to use them to enact good legislation and to thwart that which is not in the best interest of our people.

Mr. Chairman, the lady from Wayne, gentlemen of the House, I submit to you that the Honorable Philip Pittman Godwin of Gates County has all of these qualifications and many more.

Mr. Godwin was born in Gatesville, the county seat of Gates County, the youngest of the five sons of Adolphus Pilston and Mabel Claire Hayes Godwin, whose forebears go far back in the history of that section of the State and whose family members even now serve the State in responsible positions.

Practicing law with his father and brother in the county seat of a rural county and being exposed to the Statewide responsibilities and the tradition of service of his family, was good training for this energetic youngster, who in the not too distant future, was destined to play a large part, in his own right, as a leader in the General Assembly in shaping the policies of our great State.

Upon his graduation from Gatesville High School and Fishburne Military School, he attended Wake Forest College and Wake Forest Law School, receiving his LLB Degree in 1956.

He is still a serious student of the law — from the legislative process, to the courts of justice, having served as a practicing attorney, as a member of the Judicial Council, twice as a member of the Legislative Research Commission, the Tax Study Commission, as chairman of one of the important committees of this House in each session of the General Assembly since 1963, including both of the Judiciary Committees, with much of the responsibility for shaping important legislation.

The people of his home town of Gatesville, his home county of Gates and throughout the State of North Carolina have called on the many talents of Phil Godwin, and he has responded most generously and ably, serving his local church, the Baptist, and his community, as chairman at one time or another, of almost every worthwhile activity.

His successful direction of local and county affairs attracted the attention of leaders throughout the area, who entrusted him with ever broader and heavier responsibilities, including that of President of his district Bar Association. His fellow Democrats in this session of the Assembly made him the Chairman of their caucus in the House and have unanimously chosen him as their candidate for Interim Speaker.

Mr. Godwin served his country well during World War II as a staff sergeant with the U. S. Fifth Air Force from 1943 to 1945 in the Pacific Theatre.

The finest thing he ever did was to marry the former Anita Thomas Freeman of Gates County in 1950. They have one son, Philip Pittman Godwin, Jr., who is 16.

There are always many aspirants for this high office, and usually there are several active candidates.

Why then did Phil Godwin receive the nomination of the Democratic caucus unanimously this morning.

There are many members of this House who have outstanding records of public service and are highly capable leaders in their own right.

Why then have these same men, without exception, agreed that Phil Godwin would be their choice for interim Speaker?

I think the answer lies in a compelling desire on the part of this man to render outstanding service in whatever he may undertake — a desire that drives him to work hard to gain a thorough knowledge of the subject at hand, and then to make his decisions and carry out his plans with the confidence and the ability that can come only to one who has such a thorough knowledge.

Mr. Chairman, fellow members of the House, it is my considered opinion that the Honorable Philip Pittman Godwin of Gates County is the best qualified man available for interim Speaker of the 1969 House of Representatives, and if elected he will make an outstanding record and an able successor to our most able Earl Vaughn.

I, therefore, am proud to place his name in nomination for your consideration for this high office.

S/ R. D. McMILLAN"

The nomination is seconded by Representatives Ramsey of Madison, Hicks and Johnson of Cabarrus.

The Chair, having declared the nominations closed, the roll of the House is called and the following members vote for Representative Godwin: Representatives Andrews, Auman, Barbee, Barker, Barr, Baugh, Beam, Beatty, Billings, Boshamer, Bradley, Britt, Bryan, Bumgardner, Burrus, Campbell of Mecklenburg, Campbell of Robeson, Campbell of Wilson, Carson, Carter, Chase, Church, Coble, Collins, Covington, Culpepper, DeBruhl, Elliott, Euliss, Everett, Falls, Fenner, Frye, Garner, Gentry, Godwin of Craven, Green, Gregory, Harkins, Harris, Haynes, Hicks, Hofler, Horton, Jernigan, Johnson of Cabarrus, Johnson of Duplin, Johnson of Wake, Jones of Mecklenburg, Jones of Rutherford, Leatherman, Lilley, Love, Martin, Mayfield, McDaniel, McFadyen, McMichael, McMillan of Robeson, McMillan of Wake, Messer, Mills, Mohn, Moore, Paschall, Payne, Penny of Durham, Penny of Harnett, Penton, Phillips, Quinn, Ragsdale, Ramsey of Madison, Ramsey of Person, Raynor, Rhyne, Ridenour, Roberson, Rose, Rountree, Royall, Short, Snead, Snyder, Soles, Speed, Speros, Stanford, Strickland, Taylor of Wake, Troxell, Twiggs, Vogler, Watkins and Williamson — 95.

Those voting "present" are: Representatives Beard, Blake, Boger, Fulton, Hege, Holshouser, Jemison, Kincaid, McKnight, Mitchell, Taylor of Transylvania, Tolbert and Warlick — 13.

The Chair announces the vote and declares Representative Godwin duly elected Speaker of the House of Representatives.

The Speaker, escorted to the Chair by Representatives Quinn, Culpepper, Royall, Jernigan, and Johnson of Duplin, takes and subscribes to the following oath of office administered by the Honorable A. Pillston Godwin, Judge of the Superior Court.

"I, Philip Pittman Godwin, do solemnly swear that I will support the Constitution of the United States, and I do solemnly and sincerely swear that I will be faithful and bear true allegiance to the State of North Carolina and to the constitutional powers and authorities which are or may be established for the government thereof; and that I will endeavor to support, maintain and defend the Constitution of said State not inconsistent with the Constitution of the United States, to the best of my knowledge and ability; and I do solemnly and sincerely swear that I will well and truly and faithfully execute and discharge the duties of the Office of Speaker of the House of Representatives of the North Carolina General Assembly according to the best of my skill and ability, according to law; so help me, God.

S/ PHILIP P. GODWIN"

"Sworn to and subscribed before
me, this the second day of
July, 1969.

S/ A. P. GODWIN, JR.
Judge of Superior Court"

Mr. Speaker Godwin makes the following remarks and assumes the duties of the Chair.

"Mr. Chairman, Mrs. Chase, fellow members of the House, friends from the First District and other distinguished guests.

The honor that has just been bestowed upon me is the greatest in my life. Accepting it I feel humble and grateful to you. I have been fortunate to have had the experience and pleasure of serving in this honorable body under the able leadership of such Speakers as: Honorable Joe Hunt, Clifton Blue, Pat Taylor, David Britt, and our present Speaker, Earl W. Vaughn.

I know I speak for the membership of this body when I say that we would like to pay tribute to him for the excellent leadership he has exhibited in the past days of deliberation in this House. The way has not always been easy, we have been faced with difficult and complexing problems. Problems which definitely divided the membership. However, under the skillful guidance of our Speaker the Ship of State was steered through stormy seas and reached the port of responsibility, bringing with it a cargo of prosperity and good government for our great State. I sincerely hope that I may be equipped with the same leadership and ability to carry forth this House of Representatives in meeting its responsibilities to the people of North Carolina.

Therefore, Mr. Speaker, I would like to express to you my personal gratitude and that of the membership when I say thank you for a job well done, and we extend to you our best wishes for the future.

Let me hasten to say that I am fully aware of the great responsibility which I have accepted here, today. I am conscious of the fact that we are living in the fast moving 20th Century. This nation will attempt to place man on the moon

this month. Things have changed at a rapid pace and we must gear ourselves to these changes. I accept this challenge with a pledge to perform the duties of this office keeping foremost in my mind the importance of being fair, impartial, patient, and understanding, always realizing that we represent all the people of our State.

By electing me as your Speaker, you have not only honored me but the District which I represent. I have the distinguished privilege, along with Representative Culpepper, of representing the First District. It is the first time in over a century that this section of our State has been so honored. I am from a rural area of our State; however, my experience in the General Assembly has made me ever aware of the needs of the urban areas and an understanding of the differences that exist. I have always held to the theory that North Carolina can always continue to progress and take its place among its sister states by the blending of ideas of all sections of our State, keeping in mind what is best for the State as a whole and not as a section.

If I have obtained any success on this day, I would like to give full credit where it is due. First of all, to my parents, who provided me with a Christian home and only the best influence that can be expected; to my wife, who has always assisted me and given me strength when the occasion demanded it and to my friends who have expressed trust in me.

It has been a long Session and I do not plan to make it longer by any further remarks. Than you and I look forward to working with you and the staff, keeping in mind my duties and responsibilities.

APPENDIX
INAUGURAL ADDRESS
OF
GOVERNOR ROBERT W. SCOTT
RALEIGH MEMORIAL AUDITORIUM
Friday, January 3, 1969

My fellow North Carolinians.

We come here today not merely to commemorate an event that occurs every four years.

In the larger sense, we are here to begin anew the quest of hope and progress that began with a brave colony implanted nearly four centuries ago on a small island at our coast. What we seek on this day is to reaffirm our faith in our future as a people. We resolve to achieve, as best we can, the full measure of the promise that our future holds.

North Carolina will move ahead. We feel no resistance to progressive change—our history bespeaks the fact that we have sought it, and benefitted by it. Change is the essence of the problems and the opportunities that will confront us these next four years.

A year from now brings us to the dawn of a new decade—beyond that the dawn of a new century. The current of our times runs swift; its ripples often turn to waves. What we must learn is to master the waves and to direct the current—not that we seek always to sail smoothly—rather that we seek a true course and a just destiny.

We have seen much change.

In a generation, many of us have seen the stable replaced by the machine shed, the wagon by the truck, the kerosene lamp by the electric light, the writing tablet by the computer. We have seen the one-room school, the general store, all but vanish. We have seen man break the barriers of our planet and take the first step in opening up the new frontiers of the Universe.

We have seen the dust of disuse collect in many rural communities—to a point where they can neither attract nor hold young people—to a point where it is harder for these communities to build and maintain good schools and churches and hospitals and playgrounds.

We have seen too, our cities undergo a great period of growth—from town to metropolis in hardly more than two decades. Yet their growth has not been all for the good. Many now have more congestion, more crime, more social problems and oftentimes too much unreasoned change.

We should not cry out against what has altered, for there is no retreat from it. I view it instead as the strong challenge of a new day. My administration will neither shrink from the obligation it offers nor from the opportunity it presents.

There is an old Proverb which says, “to *think well* is wise; to *plan well*, wiser; to *do well* is wisest and best of all.” During the coming four years, we will think; we will plan; we will do.

Simply stated, the broad goals of this administration are:

Government that merits the confidence of all our people.

Balanced growth for every section of our State.

Realistic and adequate planning for the future.

A united community.

Let us here and now, at the very outset of this Administration, pledge ourselves to strengthen the confidence and support of our citizens in their government; to seek new ideas, but to temper boldness of action with common sense; to plan now for the new century rushing upon us; to seek the end of divisiveness among our people.

I believe the first of the goals is foremost.

Our system of government cannot succeed without the confidence of the people. More than that, our system of government cannot function ably unless it gains the widespread participation of the citizens.

Our state government is a trust—bonded always by the people. It will be a primary goal of this administration to strengthen that bond—to make state government, and the service it renders, more responsive to the needs and aspirations of our citizens.

I, and those who serve with me, cannot accomplish this alone. State government cannot pursue this goal alone; we must somehow mesh its gears with those of municipal and county governments if the goal is to be met—if government in this state, taken as a whole, is to be the true servant.

I do not propose that our government be all things to all men. It cannot be so. Yet, no matter how large, no matter how complex our society becomes, I believe we can—we must—avoid the disenchantment and disaffection of people who do not care because they do not believe they are heard. Should that day come, the public confidence will be reoded beyond cure, and government will become an empty shell, subject to collapse. This must be avoided at all costs.

For that reason—and because it is right and just—I will insist that all those who serve with me in our state government be responsive to our citizens—to answer their inquiries, to meet their needs where possible and feasible, and to make every effort to make ours truly a government of, by, and for the people.

All of us, from the lowest paid worker to the highest salaried official must at all times remember we hold our position, not as a right or privilege, but as a public trust and responsibility, and we should discharge our duties accordingly.

This will be an open-door administration. There will be a free and honest flow of information from the government to the people through direct inquiry,

news media and other means of communication. Another, yet too often overlooked, aspect of freedom of information is that there must also be a free and full flow of inquiry and information from people to government. And this, too, will receive attention these next four years.

At this moment, there seems little doubt that in North Carolina the great challenge of the next decade will be a struggle to improve our environment. Recognizing this, my administration will seek balanced growth by attacking problems that confront us now.

Already we are hard-pressed by a per-capita income that is far too low. We will seek to raise it.

There is too much inadequate housing. We must find a way to remove this blight.

There are gaps in our programs for public education. They must be closed.

There are old roads to be improved and new roads to be built. We must find the means to finance this program.

We are blessed with natural resources—land, air, water, forests, wildlife. Let us conserve them.

Our local governments are in need of help. Let us strengthen their hand.

Businessmen and industrial leaders must be assured of stability in government, conditions suitable for expansion of investment, and a firm belief in the free enterprise system. They shall have it.

Labor must be provided job opportunities with good wages and working conditions. We must keep our economic growth rate at a high level to provide these opportunities.

The early settlers described our state as “the goodliest land under the cope of heaven.” To the great majority it is. But we still have too many poor, too many hungry, too many unskilled, too many hopeless. We have not done enough for our physically and mentally handicapped citizens. We must redouble our attacks on these conditions.

All these problems—and more—we must come to grips with during the early days of this administration. I will present by recommendations on these matters to the General Assembly later this month. It will take our total efforts to meet these problems successfully.

At the same time, as we react to present problems, we must anticipate future problems. We must try to build the frame work for long-range growth.

Already we see seven of ten Americans bunched together on less than two percent of the land. In North Carolina, only four of ten persons live in an urban area. We have yet to feel the full impact of urbanization.

Thus, we still have time to frame our future—to plan with such thoroughness that we can master the currents of fast-changing times—to prepare for the new century. We must act now. We can prevent many problems from occurring and it will certainly be less expensive now to correct the ills we do have.

I want the next generation to say of us: "They planned well; they acted wisely." There is no better legacy for us to leave them.

I am convinced, as have been other Governors before me, that state government must be strengthened, particularly in its relation to the federal government. To this end, I will work with the Governors of other states to enable the states to have a stronger voice, a greater influence and a more effective role in the federal system. This needs to be done—and it can be done by strong leadership in the Governor's office.

President-elect Richard Nixon will assume his duties as President of the United States on January 20th. He will be our President and as such, I wish him well as he takes on the awesome responsibilities and burdens of the Presidency.

As Governor of North Carolina, I will seek his support, and the support of members of his administration, of any matter that will benefit our state and our people. Furthermore, I will work closely with our Congressional delegation to obtain those programs and projects needed in our state which will be useful to us.

In short, my administration will be very active in state-federal relations, seeking the maximum return of our federal tax dollar and striving always to strengthen the role of our state with the federal government.

In the next four years, I will seek to unite our people. I will not advance special goals nor specific programs for any single group. The emphasis will not be on black *or* white, rural *or* urban, worker *or* industrialist. Instead, the emphasis will be on programs for all North Carolinians.

I hold fast to the belief that all men are created equal in the sight of God. I will strive to build a united community in which there is peace and harmony . . . where men are free from fear . . . where intimidation, force and violence become by-gones of another day.

There will be no toleration of extremists who seek only to divide our people—whether they take to the streets, whether they act unseen, whether they throw rocks and firebombs, or whether they burn crosses in the dark of night. We will work for the day—yes, we will live for the day—when every man walks in dignity and is mindful that he is regarded for his individual worth and that alone.

In this hour, let us recall the words of another Governor, spoken nearly two decades ago, in an address to a joint session of the North Carolina General Assembly. These were the words of that Governor—my father, Kerr Scott: "The courageous development of North Carolina through use of power of the state government did not begin with my administration. It will not end with it. We have been fortunate in having Governors and Legislators who had faith in the people of this state and in the state's resources. What I want to advocate strongly to you now is that there be no halting of the advance—that we move steadily forward, building by plan and with confidence in the future."

I, too—with your help—will seek that path.

Working together, I am confident we can build a better North Carolina. There is nothing weak or faint about the pulse of this great state. Instead, I have found it to be strong . . . full of vitality . . . ready for the great tasks that lie ahead.

We will not defer those tasks. We will accept the challenge. I am confident of the future because I have confidence in our people.

Let the timid, the faint-hearted, the foot-draggers, the "do-nothings" be forewarned. *We are going to make progress during this administration.* There is work to be done, and we're going to get on with the job.

In the tradition of others who have borne this great responsibility—Luther Hodges—Terry Sanford—Dan Moore—we, too, will point to the far plateau. We owe my predecessors much gratitude, for these capbale leaders—each in his own time and in his own way—advanced our State along the road of progress.

It has been said that many of the political and social troubles of the world have arisen because privilege has failed to remember its obligation. Power is not granted to us to make us collectors of privilege, but rather to endow us as distributors of goodwill.

The office of Governor has both privilege and power. I will not abuse it.

I pledge to you honesty, integrity, and a conduct that will reflect credit upon this high office, upon our proud State, and upon our good people.

I will be true to the heritage given me by my Mother, who is here today, and my Father and their forebears. I will uphold the confidence my wife and children have in me. I will keep the faith of my neighbors and friends from Hawfields and Alamance County and throughout the State.

I must thank you, the people of North Carolina, for the opportunity you have given me. I express my thanks with sincerity and humility.

You have placed in my hands a sacred trust. I will exercise it in a manner that will merit your continued support.

You have given me a great challenge. I accept it here today with confidence.

I embark upon my task with an unshakable faith in God as the Ruler of Mankind.

I strongly believe that North Carolina's strength is in its people. To their advancement I am dedicated.
