SUBJECT: **Result of Kobayashi Case.**

PROBLEM AND/OR REPORT:

Kobayashi was purged again by Central Committee, date December 17, 1948, being applied by Paragraph 3, Attached Sheet No. 1, Kyodo Sho Rei No. 1 (Joint Ministries Ordinance) (the below mentioned).

The letter of announcement says that it is recognized that he can not dege his responsibility for using such words which is obstructable to Occupation Policy of the Allied Forces as he used in the instruction speech made to the teachers and the students of his school as an principal of a middle school at the beginning of January 1946.

The announcement reached the prefectural committee April 22, 1948. The appeal for the final trial of Monbusho shall be made within 3 weeks after the reception. Mr. Kobayashi is good to appeal for it by May 7, 1948. So he is very eager in asking you to take a proper action for him.

The paragraph says as follows:

3. The person who makes public his opinion which opposes the objectives and the policies of the occupant of the Allied Forces or lead people to oppose the objectives and policies.

Screening (L)

Wakayama Shimbun.

Oct. 25.

Persons who haven't pass offtthe Teachers Screening Committee yet, shouldn't be allowed to engage in school business.

They also should be avoided to become the staff members of P.T.A.

There remains many who haven't pass off the Teachers Screening Committee and working at school as teachers, clerks of assistants in schools or occuping position as directors in foundations. Therefore, the prefectural authorities sent a notification to every city, town, or village advising that they should be qualified by the Screening Committee.

The Educational Ministry Ordinance under date of June 30 (prescribing that those unqualified as school workers are prohibited to become the Head of Parents' Association of Supporting Orgnaization of any school) is also applicable to P.T.A., and accordingly, unqualified persons at the Screening Committee should be avoided from becoming the staff members of P.T.A.

TO : Major Dawson FROM : M. Taniguchi UNIT : School System Adm. FOLDER: Teacher Screening	SOURCE: "Notes of reasons for the re-examined" by the committee EVAL : A B C D X DATE : 20 August 1948 TRANS :	INITIALS: MT Hfg.

SUBJECT:

Reasons for changing from non-acceptance to acceptance at the second examination by this local screening committee are as follows, according to each individual case:

A. Magohachiro Satake

B. Hideo Matsumoto

1. Appointment of "prefectural promotion manager" was the order by the higher officials (the then chiefs of Promotion Section and of Internal Affairs Section), and judging from the bureacratic states of things of those days it was nearly impossible for them to repudiate the order from above.

2. Their business with community associations was only to assist the chief of district office and headmen of villages and towns. Therefore, it cannot be said that they took positive initiative in leading war policies.

Therefore both of them do not fall under Enforcement Regulations on Teachers' Screening (Annex I)

C. Yoshitaka Kubo

1. His educational ideas were Buddhistic religious ideas and were far from super-nationalistic war policies. So he refused to send his pupils to Manchurian and Mongorian Pioneering Patriotic Corps and expressed resisting opinions against the students mobilization.

2. Contents of his frequent public lectures were mainly of Buddhistic peace and brotherhood of men. So he doesn't fall under the regulations.

D. Masao Matsumoto

1. His public activities connected with the Imperial Rule Assistance Adult Association were limited to lectures only. Concerning contents of the lectures, audiences of those days unanimously say that there was nothing left in his lecture except the teachings of certain Buddhist holy scriptures.

2. Books written by him -

a. "Praying for educational promotion"
b. Collection of poems, "Kotodama"
c. "Collection of Maxims"

Contents are all of religious ones, not of super-nationalism

Articles for magazines: - Contents are pedagogical ones.

E. Seizo Torigoe

1. His policies as the then principal were common and broad ones, not militaristic and super-nationalistic particularly.

2. His activities connected with the Imperial Rule Assistance Association were of very negative nature.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(of which he was denunciated)

3. His blame against occupation policies have been proved not to be an actual fact, but a mere contribution from a certain teacher under him. It was because of short of time that the first screening committee could only use the one-sided material, i.e., the contribution.

F. Eiji Ota

1. His educational idea when he engaged in educational administration at Peking, Manchuria and Mongolia was rather broad and international ones which was rather contrary to the narrow minded opinions of the then Japanese military personnels. This resulted in his unfavorite transference from Peking to Manchuria.

2. His educational administrative activities in Peking, Machoukuo and Mongolia are not of such high and important position as fall under the Enforcement Regulations.

G. Hisao Takinami

1. His position as social education official: -

His position being low one, he was forced from higher officials to explain war policies to people, but did not positively drive them.
(he himself)

2. His thought is neither super-nationalistic nor militaristic; his faithful and rather vehement character made him be misunderstood to be militaristic, but really it is not so, i.e. it was twice that he (erroneously) expressed controversial opinions against military personnels (one of them was a Colonel) concerning proceedings of school inspection by military authorities .

H. Katsuji Inuma

1. Compilation of the outline of course for raising Asis: - He was not in responsible position for the compilation. The responsible person was the chief school inspector who has been purged.
(then)

2. Study of imperial rule assistance education: - He was ordered to do so from upper office (prefectural education section and prefectural branch of Imperial Rule Assistance Association).

3. Position as Standing Committee of Kainan City Branch of Imperial Rule Assistance Association: - His activities were restricted to school children's educational field.

4. Business on Machourian and Mongolian Pioneering Boys' Patriotic Corps: - He was ordered the job from upper office and accompanied prefectrual officials for the encouragement.

5. Prefectural local committee for thought counter-measures: - He engaged in no practical activities, nor in businesses.

I. Ichitaro Aisu

As chief of Education Section of Higashimuro District Office he operated radial administration regarding personnel affairs. This originated his bad reputations among those who were transferred to unfavorite positions and criticize him as being militaristic. But in reality he has only enforced the personnel administration to repudiate the so-called "Graduates Clique."

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

J. Ushitaro Ojiro

1. His position as a director of Wakayama Branch of Japan Butoku Association Kai (Warrior's Trait): - The then chief of prefectural social education section appointed him without his consent beforehand; so he did not participate in any job of the branch.

2. His policies as prefectural director of physical education were not militaristic.

3. Criticism that his attitude at the explanation course for new course of study of physical education was undemocratic has sprung from a mere fact that he called roll twice a day at the course for the purpose of preventing the "escape" in the afternoon, which had oppressive impression on the participants. But this proves nothing of his being militaristic.

K. Tsutomu Tamaki

1. His policies as chief of education section of Kaiso District Office: - all of the directives he issued those days were mere conveyance of the directives he received from Kencho; and he was not the responsible person for the directives, but the chief of the District Office. He has not taken any initiative in planning policies.

2. Militaristic proceedings of education: - His proceedings were not militaristic; rather he insisted upon the line of demarcation between two ideas of school education and military education.

SUBJECT: Investigation into the screening attitude of Screening Committee on the returned.

PROBLEM AND/OR REPORT: Cases.

1. All members of the committee has have never been given such an impression as the returned cases are passable.

2. They have been investigating into the returned cases from the blank view-point.

3. After their complete collection of evidence they reached the conclusion that this new-found evidence could upset the declaration of the former committee.

4. All 5 members go to the actual place to investigate, being completely separately from each other.

5. The major reasons which made the result changed are as follows:

a. In the cases of retrial, they had enough time to investigate compared with the rushed works of the former committee.

b. They got the established level of the passable and un-passable from the results of the control inquiry.

c. They found out the limitation of the obligation of civil services in the regulations of War-time Civil Service Control Regulations.

SUBJECT: As to a principal of primary school

DATE : Jan. 7, 1948

Masagoro Higashi, a printipal of Tagawa Primary School, Ogawa, Higashimuro-gun had been an assistant village master during the war and was purged by the purge directive. While, now he has been appoi ted the principal as above. He was surely one of the war instigators in our village and such a person should not be an educator in these days of democracy.

I hope you will investigate about him and let him retire from the position.

Kuryu Isao was appointed the principal of new system Koto-Gakko (Hashimoto).

He is a former captain in the army, and was convoked during the war.

Isn't it inadequate to appoint such a person? I dare notify the fact.

Kancho said that he was screened already & it was found that he was acceptable for a teacher.

(4) On rumour that Principal Murakami was once a member of Communist Party.

Though he was once interested in social problems, he was never a member of the party. He is believed by instructors and fathers & brothers of the school boys to be a possessor of a progressive thought.

(5) On Instructor, Kitayama.

a. He is not a graduate of Kyoto University but that of Tokyo University.

b. He was never a member of Communist Party, nor had relations with the party, it is believed by his colleagues and pupils.

c. He is not a man of special type of ideology, but has a progressive and humanistic trend of thought. In this respect, he is not reconciled with conservative elements of his society. He is educating his pupils in parallel with the democratic principles of America.

5. On Instructor Kitayama's reigning Power over his Colleagues.

a. The organization of the school is such that everything is carried out through consultation with the committee consisting of 6 instructors (not including Kitayama) and not by a despotic individual.

b. In instructors' Conference everyone has equal right of speaking. However, there are some who speak much and some who speak little. Instructors - Kitayama, Okumura, Noi, Nakashima, Koitabayashi, and Ueyama belong to the former group. Instructor Kitayama is talkative, it is true. But what he speaks is not irrational but just and valuable, some times instructive to others. However, his opinion is not always adopted. Their discussion sometimes last until seven in the evening. There are only a few who still have adherence to the past ideal of education. They are liable to be in contact with feudalistic elements in Tanabe City. On the whole, however, their existence is trivial, not deserving our attention.

In the above investigation it was clarified that

1. There was no questionable policies prevailing in the school, but everything was carried out smoothly in the right course.
2. There was no complaints made concerning the management of the school or the ways of education.
3. The allegations in the letter are groundless, the real existence of the author (having the said name and living at the said address) is questionable.)

DIGEST OF LETTER

TO: Allied Headquarters.

FROM: YAMAMOTO, Masao (山本政雄).
WAKAYAMA Shi, MASAGO Cho.
(No date).

The writer requests that Wakayama Technical School (WAKAYAMA KOGYO GAKKO) be purged of those instructors strongly imbued with militarism, including its principal.

He states that the principal, at the end of the war, ordered that warplanes be buried in the schoolyard, in order to preserve militarism in the school. The writer also states that the principal has retained a number of instructors subject to the provisions of article G of the purge directive, by placing them on a temporary suspension list.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SUBJECT: Re the principal of the Shingu Technical School

TO : Wakayama Mil Govt Team, CI & E

FROM : Isaburo Taguchi, teacher in the Wakayama Prefectural Shingu Technical School

Dear sirs,

In this autumnal lively season, your officers and soldiers being in good health are now doing your best to lieration of Japanese, i hereby tender my deep gratitude for you.

Now I am one of teachers in Shingu Technical School as mentioned above.

After Mr. Masazo Torigoe, principal of our school was recognized as an unacceptable person by the Wakayama Local Teachers Secreening Committee, he asked the Central Screening Committee for his rescreening examination that he askedawas accepted by the central committee meeting nullifying the decision so it is now under an examination at Wakaya a. I have been and am working under his leadership from May 1944 to today fro about three years and five months. Judging from nis conduct during war and his thought after the war, I believe that he is an unacceptable persoh, so I offered data for scredning to Wakayama Local Screening Committee. So far as these data are concerned, I stated the fact honestly. Mr. Torigoe denied all matters in which no evidence could not seen. I consideration from all fields, I think that such a person as he having an idea of extreme Imperial Natiion-lism should not keep his position as an educator. He has an idea of in-spiring nationalism he believe to the students even now through school eudcation. I will state reasons for his unacceptablity as the following. Will you please g ve your appropriate advice to the Wakayama Screening Committee from your esteemed judgement?

The reasons for his unacceptability: -

Principal, Torigoe was an militaristic educator consistently. That which he has to assume responsibility are found in the next oath and teacher's creed.

The Oath

We, students born in a national constitution unparalleled in the world, and studying in a sacred ground, inherit the virtue of governing this country,.so herewith take an oath for letting as bases of raise asia.

Teacher's Creed

1. In thorough understanding of founding of the nation, we should be the best doers of nationalism.

2. We should be conscious of holy orders and realize the faith of a patriotic education.

48

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The mentioned oath has been recited by students in the school every morning. Teacher's creed has been also recited by all teachers under the leaderships of the principal.

Such was the symbol of education given by Mr. Torigoe, I will state more the phase after the war.

In about August 20th 1945 he made his speech to all students as the following.

"At last, American Forces wi land this country. From now on, we will usffer American interfarences. So in our school, teachers will be unable to express their own opinon to the students what they want to say openly. It may happed every often that that we will be obliged to speak with eyes. For instnace, when tea hers speak, they do not express their true fact, consequently they have to make signs with eyes. When we obeyed American directivex, Japanese will become enervated." He repeated the same thing to his fellow teachers repentingly long after the end of war.

Long after the first general election after the war finished, he made his speech to all students as follows:

(The preceding passage omitted) "Who will be the ones that would lead us people after many leaders will disappear?" "Even the problem about Tenno system are discussed by people inspite of there"s no directive of MacArthur. If we have no Tenno we have no distinction among other people. All true Japanese should want Tenno even if MacArthur will abolish him."

"Blood relatives are quarrelling each other and are trying to aboish the leaders. What can we do if we have no leaders? There is no use of discussing Tenno system." etc.

He often made such speeches of imperialistic nature and I kept the records of some part of the same for future reference and here I am telling you the fact with responsibility.

When the depositary shrine of Tenno's portrait was removed principal Torigoe told his plan to make a hillock which is to be covered with lawn nicely and kept very clean at the vestige but he was purged before it came ture. After that Mr. Futagawa, acting principal, though I could not tell whether he succeded the idea or not, built a hillock and planted shrub as close as his planning.

Putting this and tha together, Mr. Torigoe is an extreme imperialist and was apparently trying to inspire the students with his belief through school education.

During the war he made the students recite the oath that I mentioned already every motning, in his speech he said "If we Japanese should listen to U S we would be enervated, if we loose our Emperor we would loose our distinction there is no use of discussion about Tenno system," and the fact

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

that he planned building of hillock a t the vestige of shrine nicely lawned. All there make me think that he was trying to ins ire the student with the old idea of sanctifying Tenno by tacit understanding and protect with such idea is not suitable for thd democratic state and should be driven out of educational circle immediately.

One may think I am slandering his swayed by sentiment but I am not like that.

Being a christian I strictly denouce the feudalistic Tenno system we spople of the world are created by God and are livng by Him. I dnnn't do anything wrong against mu concience, I am baptized in 1929.

Mr. Futagawa who is the acting principal now, is a close friend of Mr. Torigoe, He is an expert of fencing and he formed a sword squad and was the head of it during the ware time.

He is trying hard to save Mr. Torigoe from the purge, he moved the students to submit a peititton for Torigoe, and made an effort to save him calling on fellow students and P T As, knowing nothing about what was Mr. Torigoe's principales and supposing Mr. Torigoe was a just a viclim of purge directive they would sign for the petition blindly without thinking of real fate of future Japanese.

We Japanese people are to repay allied force by building upa respectable state of democracy for our relief from oppressions by narrow minded imperialism owes their precious blood.

I wish to pray for all of your health withour Lord Savier.

TO : The Education Section of W. M. G.

FROM : Tadashi Higashi of Nishimura, Arida-gun, a teacher of the Taikyu Middle School

SUBJECT: A few desires and questions about teacher's lecture course.

1. The reason of the holding of the lecture course for the teachers is chiefly aimed at for the thorough diffusion of the new education, I think. The lecture course held in summer was deemed tosuit this object, whereas I feel very sorry there was a certain lecture which was very doubtful whether it suited the purpose or not.

I am very thankful that the W. M. G. personnel visited school often giving instructions and advices and now I want to know what policy the M. G. is taking regarding the choice of lecturers and their contents.

I take the liberty of mentioning the lecture of Mr. Kagawa, the professor of the Wakayama Economical College, in the course held at the lecture hall of the Arida Higher Girls School on sept. 30, as one of the most undesirable content as his lecture condm't say but he aimed at the propagandization of the reactionary thought.

2. This doubtful manner.

I should say his lecture was the most plotted one as he had no original manyscript or memorandum at the lecture. This fact made me fancy that he did that because he didn't wan't to remain any matters of proof about the contents of his lecture. I think there is no Japanese who can lecture on the ideal and spirit of the New Education now, without any manusceipt or memorandum.

3. Doubtful contents of his lecture.

So-called Nipponisnist said the oriental civilization was inferior to that of in Western in matters of material civilization but in moral and spiritual civilization. The orient was superoir to Western, and the fendalistic morals based on loyality to King and filial piety in the Orient was superior to that of Western moral which put importance on the value of indivudual, and the respect of individual was thought yo endanger, the home and state. Mr. Kagawa's lecture was intended to maintain the near thought like the above.

He spoke that the difference of thoughts in Western and Eastern was due to the difference of histories of them and the respect of indivuduality is dangerous.

Such will never be and to cooperate the movement of thorough diffusion of the principles of new constitution and new education and rather hinder that.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. My desires regarding the lectures.

a. Strict observance on the choice of lectures and the contents of the lectues.

The lectures should be those who thoroughly understood the new ideal and thought as there remains many who still hold old ideal and thought among those holding official posts. hecause they got rid of purge by not expressi g their ideal or thought in the public, and I hopeyour full instruction and observace for the lecture meeting.

b. To add some lecture which willbbe educative in researching the truth, giving criticism on the value of both Western and Eastern religions and morals.

c. Critical teaching at school regarding religions and morals. On attendi g the lecture courses since this summer, I felt keenly the necessity of old faiths to be criticized as that the second generation of Japanese people may not indulge in the superstitions faiths same as our present people are. But so far as most of our people have superstitious faiths, those who criticize upon them might be denounced, and I wish to know your opinion about teaching the criticism in religions and morals.

Yours truly,

Petition regarding the former principal of the Taikyu Middle School, who was a principal of the Kaseda Girl's High School

Date: 5 May 1947

To : C I & EOfficer, W. M. G. T.

From; Kaseda Girls High School Alumni Association

The former principal of the Taikyu Middle School, Masao Matsushita, was found unacceptable after beening screened by the Wakayama Screening Committee. He beening the former principal of our school we have been taught under him. At that time, it was during the war. Nevertheless he was a thoughtful to us studentw and is a very highly educated religious minded man. When he was transferred it was like departing with our affectionate father which left us with tears in our eyes.

The administration was based mostly on demestic science which was of great help. The point in making our advance was placed on educating of housewives which we were taught. We swear that he was not a militristic or a ultra-nationalistic man.

In rescreening him we would like to have him reinvestigated and have him fairly qualified. We would be glad to foward this petition with our joint signature.

(there are joint signature of fifty girls)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Dear General MacArthur

March 6

The primary school attached Wakayama Women Normal School was one of thegreatest cradles "Kokoku (translater: Emperor's Country) Education". It is the world acknowledge all over Japan that the magazine "Kokoku" , which were published from the same school, inspired militarism. Inspectors visiting the school were no few.

Those who had attended the school in the war-time as teachers were scattered about many schools all over the prefecture and inspired militarism all over Wakayama.

The others, anti-militarism teachers, were dissmissed or degarded being bitterly oppressed. In spite of cases above mentioned, seeing results of Eligibility Screenings for Teachers, (Feb. 24) some of these militarism propagandists --- school inspectors, teachers, social educator who played foundmental parts in Ken, Gun Imperial Rule Assistance Youth Association which inspired militarism, passed Eligibility Screening for teahhers.

Still more, we can not condone the fact that these militarists stood as candidates in this election being ambitious to be dominating class. It seems that they are going to try a terrible stratgen.

And there is scandlous rumour concerning Eligibility Screening for Teachers Committee.

I petition that a fair re-examination (screenings) will be given with help of AF.

(P. S.) The data of the fact in this letter are organ magazines of the school, "Kokoku", No. 1 - end, I hope that you will refer them.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

April 24 1947.

To the Educational Section of W. M. G.

From one of the parents of new middle school in Funao, Kainan.

Dear Sirs:

By your kind guidance of your country, the school system was revised and now the new junior middle schools are now being opened. I am sure that the coeducation and equal opportunity to both sexes in education by this sustem will promate the level of the culture of all Japanese, and am very glad of it as a school student's father.

Now, in our school limits, a new school was opened and it has a good principal and good teachers, but at present it hasn't enough number of teachers and equipments such as class-rooms etc. Therefore, the cooperation of the primary school is absolute y necessary as two schools are new in the smae compound. Whereas, Takesaburo Nakayama, the principal of the Kuroe Primary school does not help the middle school at all and rather consides it as a nuisance, thus, he wouldn't even lend the desks to new school which are decided to do so, showing no sign of good will to the new school, and I can hardly understand why he act so coldly for the graduate of his own school.

He had been a school inspector and the chief of the educational section of Arida-gun district office and during the wartime he was one of the agitators of militarism, so most guardians thought he would he purged. It is rumored that he bribed to some one so as net to be purged. Since he became the principal of the Kuroe Primary school he has acted bureaucratically as if he were an official. He made the teachers cultivate the rice farm without deli

delivering the crop complying with the allotment of delivery quota made by the farmers association. He often gathered contributions from the guardians.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Most of the rice and money he obtained were used for eating and drinking at parties with smal numbers of the influential townsmen. I should say such kind of teacher is hindering the reconstruction of Japan and brings your kind guidance to naught.

Hoping you would take some decisive measures against such a person.

Yours very truly,

One of the guardians of new middle school.

Information concerning teachers' screening committee

1. (At the present of January 7, 1947).

a. Screening for new teachers.

Number of inquired.	1085
Number of unaccepted	8
Number of accepted	1044

b. Successive activities from the former committee.

There was 11 cases which was returned to prefectural committee from the central committee, the result of the prefectural retrial is as follows:

Number of purge reversed	2
Number of action postponed	9

2. There is some doubts in investigation and judgement of the prefectural committee on the case of Mr. Sadao Kobayashi, the principal of Shingu Middle School, who was purged by the prefectural committee in February 1946. The doubt is whether the prefectural committee was obliged to purge him by authorized request of CIC Wakayama. He appealed for the central inquiry and was inquired by central committee at early December 1947. Action of the central committee have been postponed.

General MacArthur

Many thanks for your trouble governing Japan.

1. Screening eligibility for public office and teachers does not only achieve its purpose, but also gives chances of recovery to many people who deserved to be found unacceptable for it on account of screeners' intentions.

2. Accordingly the democratization of Japan is impossible.

3. The screening was conducted by Japanese government and its branches by the order of Allied Forces to Japanese government, so it is going to be a perfunctory function on account of individual intention and bribing. I hope seriousness in the branch of Allied Forces Headquarters, too.

Definite facts:

1. All people found acceptable for teachers at the last screening announced on Feb 24 are not only acceptable, but also there are pretty many people who deserved to be found unacceptable clearly among the people announced to be acceptable before.

2. Primary school attached to Wakayama Girls' Normal School is a hotbed of militarism, extreme nationalism and inspired education from its beginning to the end of war and the fact is shown clearly in the organ "Empire Education." All teachers of the school are opportunists leading educational circle of Wakayama as their likes and poison the circle by being inspectors or officials of local offices, excluding others by this "ism."

3. There was a group of teachers "Teachership Practice Interested Persons' Association," which giving extreme nationalism, wanted to take the head of educational circles of prefecture and counties, and all the people who are not member of this association were brushed aside. After the war, too, they organized a special group in secret and many of them occupied the important posts of the educational circle of Nishimuro-gun. Among the people found acceptable for teachers on 24th, there are many members of this group.

4. There are four or five persons who ought to be purged from teachers among the people were screened eligibility for the member of Wakayama Prefectural Assembly. I am much appreciated if you order to screen them specially.

5. Mr. Seiroku Sugahara, who was screened eligibility for governor is a extreme militarist and nationalist. The lecture and speech made by him when he was a chief and director of social education section of Wakayama Prefectural Office make him lose the eligibility for governor.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Welcoming in the new dawn of democracy Japan is trying to put her best effort to have 180 degree change in everything. However there are some more teachers left in the schools in which they had done big hinderance in education which should be the basic for constructing a country of peace.

During the war time, Mr. Kisaburo Nakayama, the principal of kuroe Primary Scho l in Kainan, as the former chief of district office, was holding militaristic prejudice and doing oppressive administration in education. As it was so str ngly done, people became to criticize and dislike him. He is still holding an important position in school conducting old way of administration. It is said that he suddenly transferred one of the teachers to some other school without gi ving any notice beforehand, and the townspeople are passing round a rumor that he often gives parties with the money collected for the purpose of using it for the education. I am passing these imformations to you so that you would think about it and do something a out for use for I believe that the new education will be brought forth after the complete clearance of those kind of teachers from every school in Japan.

Yours sincerely,

Former teachers in Arida-gun
who now lives in Wakayama-shi

In accordance with paragraph 2, basic communication, the following report is submitted as a result of an investigation of the principal of the school conducted on 21 October 1946.

1. The principal states that he knew he could not hire the demobilized soldier MURAOKA, Jiro, as a teacher since this would be a violation of SCAP directive; moreover he states that he did not hire him as a teacher but as a clerk.

2. MURAOKA, Jiro, was a teacher in this school prior to his induction into the Japanese armed forces. He is a capable teacher, and the principal states that he hired him as a clerk in the hope that sometime in the future he will be allowed to resume his duties as a teacher.

3. After intensive questioning, it is believed by the C,I & E Officer of this headquarters that the principal, T. NAKAO, is used merely as a figurehead, since this school is a private institution and financed wholly by the principal himself.

4. No evidence was found that the school is willfully violating any SCAP directives, and it is not believed that the principal intended to deceive by hiring said MURAOKA. In view of the circumstances it is recommended that no further action be taken against the principal T. NAKAO.

SUBJECT: Investigation of Japanese Schools.

TO : Military Government Section, Eighth Army, APO 343.

1. Information has reached General Headquarters, Supreme Commander for the Allied Powers, that the principal of TAKAMATSU GIRLS' COMMERCIAL SCHOOL, Wakayama-shi, Wakayama-ken, has violated SCAP directive AG 350 (30 Oct 45) CIE, Subject: "Investigation, Screening, and Certification of Teachers and Educational Officials", by hiring on 7 May 1946 MURAOKA, Jiro, a soldier demobilized this year, and by later transferring him to a clerical position to avoid screening. Action is being taken regarding MURAOKA, but further action is contemplated regarding T. NAKAO, the principal.

2. To ascertain the accuracy of the above report, it is requested that an investigation be made of the principal of TAKAMATSU GIRLS' COMMERCIAL SCHOOL. It is especially requested that information be furnished relative to his wilful intent to deceive by hiring and transferring said MURAOKA.
