ESTABLISHED IN 1870

TO OUR CUSTOMERS AND FRIENDS

OUR purpose in issuing this price list is to offer Seeds of the Highest Quality at reasonable prices. The fact that each succeeding season finds us with many new satisfied customers on our books would indicate that the two essentials necessary to the success of such a business as ours, **QUALITY** and **SERVICE**, have been attained.

The largest and most critical Truck Growers throughout the Central and Southern States are now buying their Seeds from us, knowing that under ordinary favorable conditions they are absolutely sure of producing good crops of the Highest Quality.

We thank you for past patronage and assure you that any orders intrusted to us the coming season, whether large or small, will be appreciated and will have our most careful attention.

In issuing this Price List and Catalog, we have omitted illustrations of the standard varieties of Vegetables because we realize that all the truck growers are more or less familiar with them. We have only illustrated such varieties which we have found by actual test to possess exceptional merit. These we unhesitatingly recommend to our patrons as being the best of their class.

While we exercise the greatest care to have all seeds pure and reliable we do not give any warranty, expressed or implied, as to description, quality, productiveness or any other matter, and will in no way be responsible for the crop.

If the purchaser does not accept the seeds on these terms they are to be returned at once.

Read What Our Customers Say:

- SOUTHERN SEED Co.: Dade Co., Fla., June 8, 1914.
Gentlemen—Yours of the 3rd received. Will state that the seeds I have bought from you have proven satisfactory. I shall expect to use a good many of your seeds the coming fall and winter.
Yours very truly,
W. H. MARSHALL.
- SOUTHERN SEED Co.: Duval Co., Fla., June 1, 1914.
Gentlemen—We have no fault to find with anything you shipped us.
WALTON SEED Co.
- SOUTHERN SEED Co.: Escambia Co., Fla., June 1, 1914.
Gentlemen—The garden seed which I bought from you was of excellent germination and entirely satisfactory.
STEVE KAWATSCH.
- SOUTHERN SEED Co.: Polk Co., Fla., May 18, 1914.
Dear Sirs—Referring to the seeds I bought of your firm, never had better, and the Ruby King peppers deserve special mention as being fine and true. I will make up order in time for fall planting, and try you again.
Yours truly,
W. W. MOORE.
- SOUTHERN SEED Co.: Marion Co., Fla., March 9, 1914.
Gentlemen—Your seeds are A No. 1. The water-melons are the best in this section and your beans are fine. Your lettuce can't be beat. All that I got from you is A No. 1.
Yours truly,
W. A. JONES.
- SOUTHERN SEED Co.: Marion Co., Fla., May 9, 1914.
Gentlemen—I planted four-fifths of an acre in your Stringless Green Beans and have already shipped 60 baskets and am good for at least ten more. I sold a few to other people and they are all pleased, and made more beans according to the acreage than any of my neighbors.
J. S. WILLIAMS.
- SOUTHERN SEED Co.: Volusia Co., Fla., May 25, 1914.
Gentlemen—I take pleasure in saying that your seeds have been exceptionally good as a rule.
Yours truly,
ORMOND GARDENS,
J. G. DAUB.
- SOUTHERN SEED Co.: Lake Co., Fla., May 17, 1914.
Dear Sirs—I can say your seed was just as good as any I ever planted. It came up good and so far as I can see was the same quality that other firms here in the South charge two to three times as much for. When in the market for more seed you will get my order.
Yours truly,
O. S. JAY.
- SOUTHERN SEED Co.: Sumter Co., Fla., May 27, 1914.
Dear Sirs—I find your seeds all O. K.
D. T. VINING.
- SOUTHERN SEED Co.: Manatee Co., Fla., May 19, 1914.
Dear Sirs—Your seeds have given entire satisfaction and I will soon be ordering my fall seed from you.
Yours truly,
H. S. TALLANT.
- SOUTHERN SEED Co.: Palm Beach Co., Fla., March 9, 1914.
Dear Sirs—Your seeds I find to be very good.
Respectfully yours,
P. R. ALEXANDER.
- SOUTHERN SEED Co.: Alachua Co., Fla., May 27, 1914.
Gentlemen—We were very well pleased with your seeds.
Very truly yours,
GILBERT FRUIT FARM.
- SOUTHERN SEED Co.: St. John Co., Fla., May 16, 1914.
Sirs—Your seed is always satisfactory.
Yours truly,
F. P. F. DUNHAM.
- SOUTHERN SEED Co.: Tammany Co., La., June 9, 1914.
Your inquiry of May 9th duly received. Will say that I am highly pleased with the seeds you sent me. I will send you larger orders from time to time.
Yours truly,
CHAS. J. GILL.
- SOUTHERN SEED Co.: Pike Co., Ga., June 4, 1914.
Dear Sirs—I have always found your seeds true to name and fresh. I get good stands when seasons are right.
MRS. SALLIE HAMLIN.
- SOUTHERN SEED Co.: Pike Co., Ga., June 3, 1914.
I have found that your seeds are always true to name and they have given me perfect satisfaction.
Yours truly,
ROBERT HAMLIN.
- SOUTHERN SEED Co.: Spalding Co., Ga., June 2, 1914.
Dear Sirs—The seeds we have sold from you have given satisfaction so far as we know. There are no complaints.
Yours truly,
EVANS PHARMACY Co.
- SOUTHERN SEED Co.: Floyd Co., Ga., May 27, 1914.
Dear Sirs—The seed I ordered from you in February were all that could be desired in quality.
H. V. DEAN.

- SOUTHERN SEED Co.: Donley Co., Tex., May 15, 1914.
Gentlemen—We have been purchasing tomato, cabbage, pepper and other seeds for our vegetable plant house for a number of years from the Southern Seed Company and every year our old customers order more plants of us as well as their neighbors.
What better seeds would one want?
T. JONES & Co.
- SOUTHERN SEED Co.: Brazaria Co., Texas, May 9, 1914.
Gentlemen—Replying to above, would say the seeds supplied we have always sown in the open field, and at times under none too favorable conditions; but am pleased to say they have as a whole, given very good results.
Yours truly,
E. C. EAST.
- SOUTHERN SEED Co.: Runnels Co., Texas, June 5, 1914.
Gentlemen—Seed was all right. I think I will give you a larger order this fall.

- Shipments of over 20 pounds going to—
Illinois, Tennessee.
- Shipments of over 10 pounds going to—
Alabama, Arkansas, Mississippi, Missouri, Florida, Texas, Louisiana, Georgia.

BEANS

Everbearing Stringless Bean

Kentucky Cornfield Bean

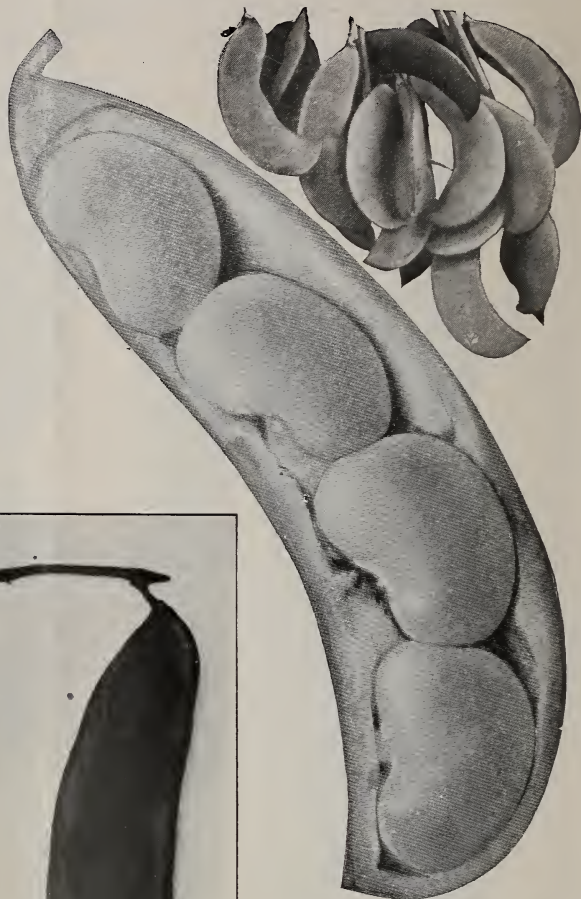

KENTUCKY CORNFIELD BEAN. This new bean is grown especially for us from our own seed stock. Vines moderately vigorous, bearing short, broad pale green pods, becoming streaked with bright red as they near maturity. Beans large oval and splashed with red. Used either in green or dry state.

EVERBEARING STRINGLESS BEAN. This bean was introduced by us in 1907, and certainly is a grand success. Of all the dwarf green-podded varieties, this is the leader. Makes long, round pods that are tender, even when filled with beans, and are absolutely stringless. Will bear earlier and continue to bear longer than any other round-podded variety.

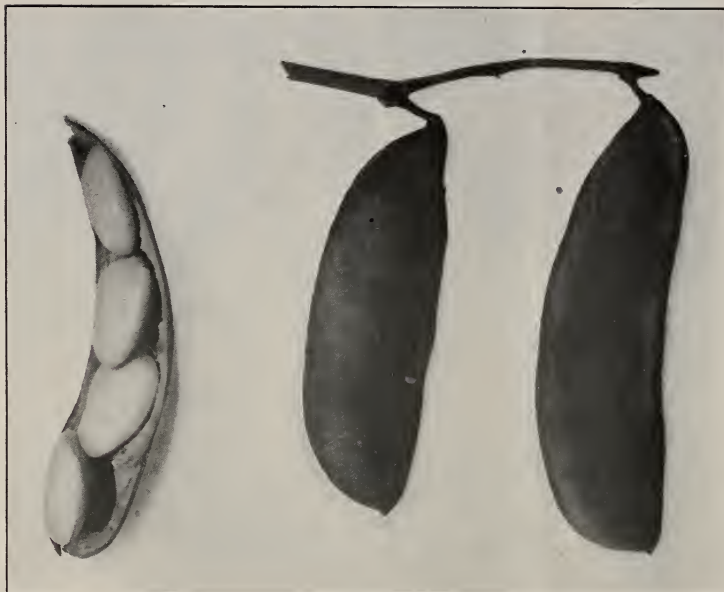

For Prices, see Pages 6, 7, 8.

Pole and Bush Beans

CARPINTERIA POLE LIMA BEAN. Superior to any other pole lima and wonderfully productive, of well filled, medium green pods, five to six inches long, much thicker than the average pole lima. The beans are broad, plump and thick and as perfect as could be desired, and of a rich heavy green, which color they retain until maturity. It is very desirable, both for family and market.

**Carpinteria Pole
Lima Bean**

New Ford Hook Bush Lima Bean

NEW FORD BUSH LIMA BEAN. An improved bush lima of the Dreer type. The plant stands erect and of a true bush lima growth. The pods are well filled with from three to five large fat beans; is more prolific than any of the other large varieties and earlier than Burpee's bush lima. Being easily shelled, market gardeners will profit by planting this bean.

For Prices, see Pages 6, 7, 8.

Truckers' Pride Beet

TRUCKERS' PRIDE BEET. This beet has been thoroughly tried out in this locality for a number of seasons and has met with much favor among our best gardeners, and was found to be a good forcing variety. It is very early and should command a very prominent place with all market growers. The color is a beautiful dark red, small tap root, smooth surface and is very uniform in shape and size. A field of these beets matures so evenly that every beet can be pulled in two weeks.

Louisville Early Market Cabbage

LOUISVILLE EARLY MARKET CABBAGE. This is the largest early, pointed head variety; matures about ten days later than the Jersey Wakefield; twice as large. Heads very solid, with few outer leaves; splendid shipping sort.

For Prices, see Pages
6, 7, 8.

Truckers Favorite Carrot

Louisville Drumhead Cabbage!

LOUISVILLE DRUMHEAD CABBAGE. For years this has been our leader in late cabbage. We had this grown from our own private stock, and are, therefore, sure that we have the genuine and true stock. This cabbage makes a very large, solid, round head, very thin, and few outer leaves, and very short stem. The latest of all cabbage grown, and a good winter keeper.

TRUCKERS' FAVORITE CARROT. This is the most popular carrot sold in this locality; earlier than Danvers, heavier and thicker; half long, and of a rich orange-red color. Excellent for home, market or shipping.

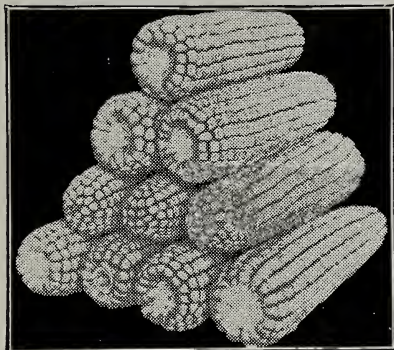

Wonder White Spine Cucumber

WONDER WHITE SPINE CUCUMBER. A distinct type, and without doubt the finest market cucumber ever produced. Very early, enormously prolific and yields uniform, long, symmetrical, dark green fruits. Extra fine for slicing. Flesh fine grained and of a delightful flavor.

For Prices, see Pages 6, 7, 8.

Louisville Market Corn

Kentucky White Dent Corn

KENTUCKY WHITE DENT CORN. This corn is more widely and favorably known than any other white corn, being a leader whenever Dent corn is cultivated.

Description—It is deep grained, pure white, rough topped, with a small white cob. Ears run from 9 to 12 inches long, with 16 to 20 rows of pure white kernels, solidly set on ears, well filled out at butt and tip. This corn is a drouth resister, maturing in hot climates where early drouths are frequent.

Adapted—The pure bred Kentucky White Dent is a safe crop anywhere in the corn belt, and in all the Southern states, including Missouri, Kansas, Oklahoma, Texas, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Tennessee, Kentucky and Virginia. Matures in from 90 to 100 days.

For Prices, see Pages 6, 7, 8.

LOUISVILLE MARKET CORN. A popular variety for early and late planting. Ears are good size, and mature early for feeding. It is not a sugar corn. In favorable weather it matures in sixty days. Ears are long, and we recommend this corn very highly for roasting ears.

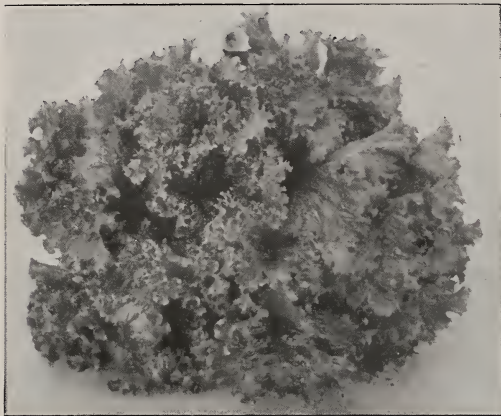

KENTUCKY YELLOW DENT CORN. The best large eared early maturing Yellow Dent corn in the United States.

Description—Kentucky Yellow Dent grows a rugged stalk of medium height, producing ears 9 to 12 inches in length, and often as large as 8½ inches in circumference. Ears are well filled out with solidly set, deep kernels, rich in oil, 16 to 22 rows on the cob. Color beautiful golden yellow. Matures in 100 to 115 days.

Adapted—Kentucky Yellow Dent is not adapted for high altitudes, but should be planted in sections below the central Indiana line only. Makes splendid crops in southern Indiana, Illinois, Nebraska, Oklahoma, Missouri, eastern Kansas, and bumper crops in Texas, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Tennessee, Kentucky and Virginia.

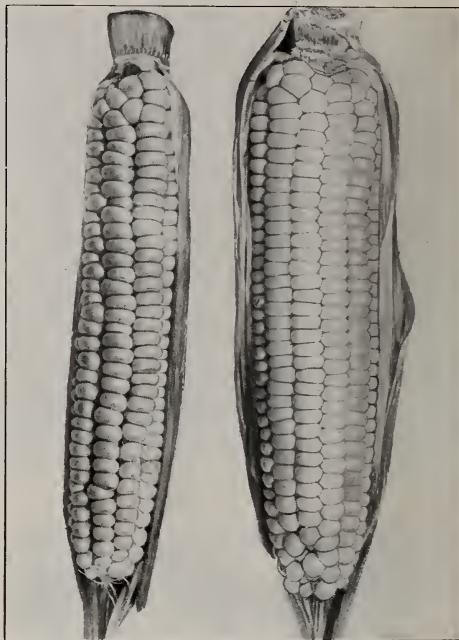

Kentucky Yellow Dent Corn

Louisville Market Lettuce

LOUISVILLE MARKET LETTUCE. This variety has become extremely popular in this section. It is extra fine, both for forcing and field planting. Has large curled leaves, light green outside, blanching to light yellow inside. Very crisp and tender; fine flavor, and does not wilt like other curled varieties.

Golden Bantam Corn

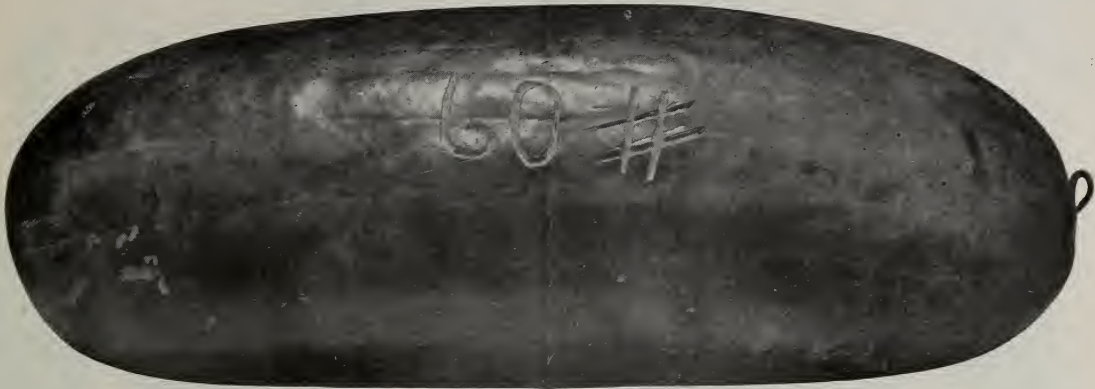

GOLDEN BANTAM CORN. A very early sugar corn, dwarf in growth with stalks averaging about four feet. Ears are small, five to seven inches in length, but are borne very productive, two or three fine ears to the stalk. Color of the grain is creamy yellow, very sweet and tender and fine flavor, and very much liked for private gardens.

Field of Wonder Boston Lettuce

WONDER BOSTON LETTUCE. A type selected from Big Boston that grows to a large size and does not tint in hot weather or run to seed as quickly. It is very desirable for early spring planting, having a nice bright green color.

For Prices, see Pages 6, 7, 8.

Tom Watson Water Melon

TOM WATSON WATER MELON. A large, long green melon; similar in shape to the Kleckley Sweet, but grows longer and more symmetrical, with a little tougher rind. Flesh tender, red and sweet. Owing to its color, size and shape, it is the best selling melon on the market.

Louisville Market Gem Musk Melon

LOUISVILLE MARKET GEM MUSK MELON. This is absolutely the best netted green-fleshed melon brought to the market, and always commands the highest market price. It is of the Rocky Ford type, although much improved, being about one-third larger and ten days earlier. The flavor is delicious, flesh sweet, tender and solid; seed cavity is small; the skin is nicely netted. We believe the seed we offer will meet the demands of the most discriminating.

For Prices, see Pages 6, 7, 8.

GRADUS PEA. The largest and one of the earliest of all dwarf peas. The pods of this pea are well filled, large and of dark green color, very sweet.

Field of Peas at our Growing Station, Cheboygan, Mich.

TELEPHONE PEA. The best main crop tall pea, without exception. The pods are of immense size, a fine dark green color. The vines grow $4\frac{1}{2}$ feet high; do better if brushed, although can be grown without support, and are very vigorous and prolific. The finest and most desirable of all peas for the home garden and market growing.

Twentieth Century Giant Pea

TWENTIETH CENTURY GIANT PEA. This new pea is the result of the most careful expert work of selection for a number of years. We feel proud of our achievement, for we now have what pea-growers everywhere demand—a pea combining earliness, size, color and flavor. This pea is the same color as the Alaska, about four or five days later, nearly twice as large, a heavy bearer, producing large, well-filled pods, bearing six to nine peas to the pod. The vines usually grow 2½ feet high. We recommend the New Twentieth Century Giant Pea as the best, either for canners, market gardeners or home use.

For Prices, see Pages 6, 7, 8.

Field of Beans
At Our Growing Station,
Cheboygan, Mich.

CHINESE GIANT PEPPER. Without doubt one of the very best and largest mango peppers ever introduced. Its mammoth size, splendid shape, beautiful, rich, glossy-red flesh and mild flavor, all lead us to speak of it in words of commendation.

RUBY KING PEPPER. An improved American sort, reaching the largest size, yet retaining the symmetrical shape of the smaller sorts.

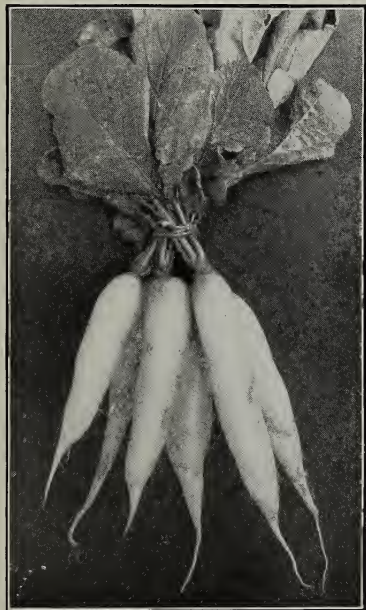

IRISH COBBLER POTATOES. Extensively planted in most all potato growing sections, and especially in this locality. Particularly admired for its thriftiness of vine and heavy production of large, white skin, smooth, round potatoes, of the finest eating qualities. Planted for both early and late crop.

KENTUCKY FIELD PUMPKIN. One of the best for table use, and very productive. Flesh yellow, thick and tender.

Early White Tipped Scarlet Radish

New White Icicle Radish

NEW WHITE ICICLE RADISH. A handsome long, pure white radish; extremely early; ready to pull 25 days after sowing.

CRIMSON GIANT RADISH. A variety extraordinary in that, while growing to an unusually large size, it is always tender, crisp and of mild flavor. It remains in perfect condition a remarkably long time, and, unlike other forcing varieties, does not become pithy, even when twice their size in diameter.

For Prices, see Pages 6, 7, 8.

Crimson Giant Radish

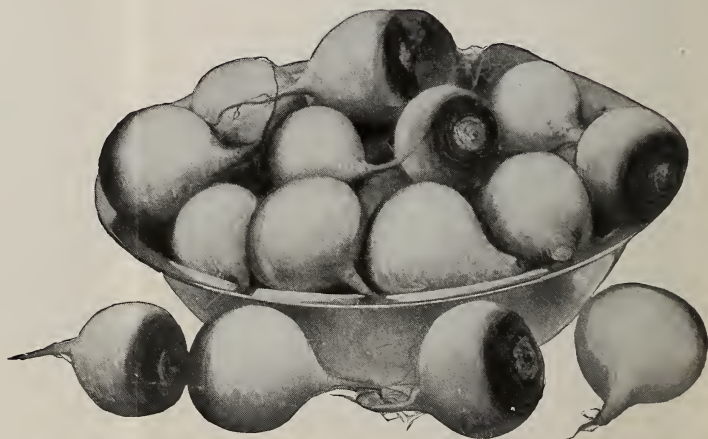

EARLY WHITE TIPPED SCARLET RADISH. A beautiful deep scarlet radish with a white tip. A general favorite with the market gardener and large shipper. The strain we offer is exceptionally fine and true to name.

Twentieth Century Globe Tomato

TWENTIETH CENTURY GLOBE TOMATO. We cannot speak too highly about this tomato. One of our market gardeners grew 600 bushels on about three-quarters of an acre last year. This tomato is perfectly globe-shaped, grows very large (but not too large for market), of beautiful purple color, and is perfectly smooth. One of the earliest purple varieties, and will bear much longer than any other sort. Plant this for a general crop.

PURPLE TOP GLOBE TURNIP. Best market turnip. Enormous producer and extensively grown for fall and winter use.

Purple Top Globe Turnip

For Prices, see Pages 6, 7, 8.
