To search for names of people or business, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the font-reading software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides and government agencies. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

### Table of Contents:

## PREFACE.

---

THE publishers, in presenting this edition of the BROOKLYN CITY DIRECTORY to the citizens of Brooklyn and others, are desirous of making the following remarks and explanations :

The Directory of this year contains several thousand more names than any heretofore issued, which is mainly attributable to a more strict and rigid canvassing of the outskirts of the city, and the good fortune of the publishers in commanding the services of an excellent class of canvassers.

The publishers are aware of the importance of good canvassing ; and if there are any omissions or errors in this edition, they are chargeable upon householders or their domestics, in either refusing to give the necessary information, or such as is unreliable.

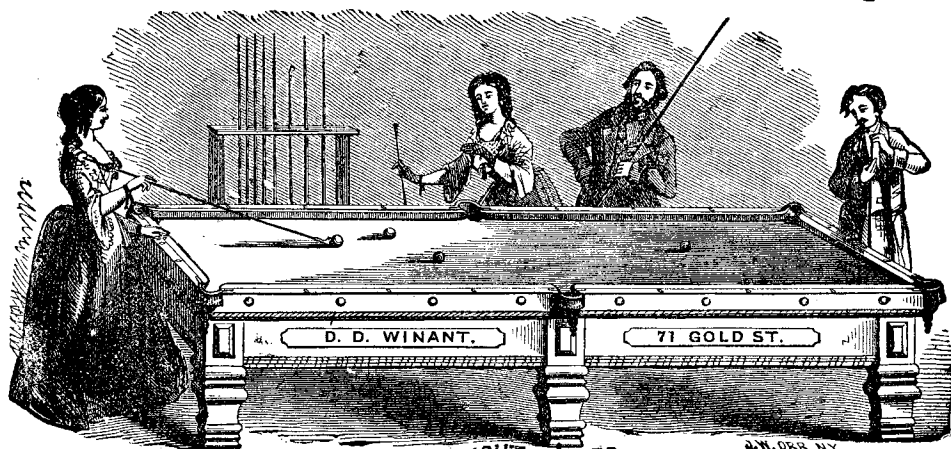

The matters of streets and avenues having the same names, and many streets being irregularly and confusedly numbered, after the Legislature has conferred the power on the Common Council of Brooklyn to remove these errors and difficulties, are discreditable to a city that stands in the first rank for population, intelligence, and wealth.

Matters of such importance to the public, and neglected so shameful to the authorities intrusted with the remedial power, demand immediate action ; and the public cannot expect a perfect Directory so long as the absurdities and impediments referred to are allowed to exist.

In all other respects, no efforts have been withheld, or means spared, to render this edition the most reliable of any heretofore issued ; and the publishers present it to the public with more than usual confidence, in its being as accurate and complete as it has been in their power, and the power of active and intelligent canvassers to make it.

With these prefatory remarks and explanations, it is believed that the Directory of this year will meet with a larger sale than any previous one, and that the energy given, and care bestowed, will receive that encouragement to which it is entitled, and without which the enterprise of the publishers in this behalf cannot be properly and satisfactorily maintained.

NOTICE.

Our Advertising Patrons may be found by referring to the Index at the end of the names.

We feel justified, after nine years' acquaintance, in saying we believe them to be among the very best in their vocations in the cities of Brooklyn and New York.

# STREET AND AVENUE DIRECTORY

OF THE

(CONSOLIDATED)

## CITY OF BROOKLYN,

Corrected and revised in accordance with the latest Corporation numbers up to May, 1862.

SHOWING the position, commencement, and termination of each Street, Avenue, Place, Lane, Court, Alley, etc., in the Consolidated City, with the junctions and crossings of the intersecting streets; also, the number of the building at the corner of each street, avenue, etc., when there is any.

When there is no house on the corner, or where the corner house fronts on the crossing street, the number nearest the corner is given, and a \* placed before it to denote that that number is not to be looked for on the corner of the street or avenue named.

A — denotes that there is no number on the corner or near the corner.

A † placed in the right or left column denotes that the street does not extend to that side of the one under whose heading it is found.

As a rule, the numbers will be found to commence westward and northward from the opening of the street or avenue, the even numbers occurring generally on the *right hand* side.

### EXPLANATIONS.

If you wish to find the location of any number—for instance, 115 Bridge Street—on consulting the Directory you will observe that 105 Bridge is on the left hand of that street and on the corner of Prospect, and 129 Bridge is on the left hand corner of Sands; hence, the desired location of 115 Bridge is between Prospect and Sands, on the left hand side.

The capitals E. D., when placed after a street, avenue, etc., denote that it is in the Eastern District. As there are several streets in Greenpoint, Bushwick, and Williamsburgh of the same name, and all being reckoned as the Eastern District, the exact location of such streets is given in connection with the capitals E. D.

*Note*.—As there are two Hudson Avenues in the Western District—one running from East River, between Gold Street and the Navy Yard, south to 208 Fulton Avenue, the other from Fulton Avenue, between Brooklyn Avenue and Albany Avenue, south to City Line (Flatbush)—the latter will be designated through the body of this work by *Italics*.
