COMMITTEE ON FAIR EMPLOYMENT PRACTICE
TRANSFER FROM WAR PRODUCTION BOARD TO
WAR MANPOWER COMMISSION

THE WHITE HOUSE,
Washington, July 30, 1942.

MY DEAR MR. McNUTT:

After careful consideration of the problems now confronting the Nation with regard to the complete utilization of our human resources in the war effort, I feel it is essential that the activities of the Committee on Fair Employment Practice be coordinated with the activities of the various units of the War Manpower Commission. Accordingly, I hereby transfer the Committee on Fair Employment Practice, established by Executive Order 8802,¹ from the War Production Board to the War Manpower Commission, together with its functions, and all records, property, and personnel used in the administration of such functions. In the performance of its duties and functions the Committee shall be subject to the direction and supervision of the Chairman of the War Manpower Commission. The Committee, however, shall be preserved as an organizational entity within the War Manpower Commission.

On July 8, 1942, I allocated to the Office for Emergency Management the sum of \$48,552 from the Emergency Fund to provide for the salaries and expenses of the Committee on Fair Employment Practice for the first quarter of the fiscal year 1943, the unexpended balance of which amount shall be available for the operation of the Committee in performing its functions within the War Manpower Commission. Requests for the financing of the Committee for the last three quarters of the fiscal year 1943 should be submitted to the Bureau of the Budget through the War Manpower Commission.

I am notifying Mr. Malcolm S. MacLean, Chairman of the Committee on Fair Employment Practice, and Mr. Don-

ald M. Nelson, Chairman of the War Production Board, accordingly.

Sincerely yours,

FRANKLIN D ROOSEVELT

HONORABLE PAUL V. McNUTT,
Chairman, War Manpower Commission.

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 13 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13.

An original petition, pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R-1, § 333.7 (a) (*Special prices—Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R-II, § 333.7 (*Special prices—(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R-II, § 333.24 (*General prices*) is amended by adding thereto Supplement R-IV, § 333.25 (*Special prices—(b) Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses*) is amended by adding thereto Supplement R-V, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement

T-I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplements T-II and T-III, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein as to the coals of the Wilburn Smith Nos. 1, 2 and 3 Mines of Wilburn Smith, or as to the Twin Arrow Mine of Fondren & Guthrie, for the reason that the Division has received no code acceptances from these producers.

No relief is granted herein as to the coals of the Loyd Mine (Mine Index No. 1471) of Luther P. Dodd for truck shipments for the reasons that such relief has already been granted this mine in Docket No. A-1330, when it was operated by Elbert Loyd.

Price classifications and minimum prices for Mine Index Nos. 713, 1348, 1430, 1504, 844 and 178 in Marion County, Tennessee, and for Mine Index Nos. 1542, 1222, 181, 738, 1406, 830, 1493, 116, 26 and 831 in Dade County, Georgia, for all shipments except truck into Market Area No. 112 have been established 2 cents higher than the price classifications and minimum prices proposed for these mines for such shipment in the original petition for the reason that records of the Division indicate that the freight rate for shipments from Mine Index No. 95, which mine's prices are used as base prices, have been increased 5 cents per net ton into Market Area No. 112, while the freight rates for such shipments from the mines listed above have been increased only 3 cents per net ton.

Dated: July 30, 1942.

PART 335—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 15

ORDER ON PETITION FOR PRICE REVISION

Findings of fact, conclusions of law, memorandum opinion and order of the Acting Director in the matter of the petition of District Board No. 15 for revision of the effective minimum prices for certain coals produced in District No. 15.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on June 9, 1942, by District Board No. 15, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests increases in the prices published in the Schedule of Effective Minimum Prices for District No. 15 for All Shipments Except Truck applicable to code member's mines in Production Groups Nos. 1, 2, 4, 5, 10, and 11, District 15, for shipment to Market Area No. 75 (Kansas City), and in Production Group No. 4, District 15, for shipment into Market Area No. 78 (St. Joseph, Missouri, etc.).

Pursuant to Order of June 18, 1942, and after due notice to all interested persons, a hearing was held on July 8, 1942, before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All

interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The original petitioner and Bituminous Coal Consumers' Counsel appeared at the hearing. The preparation and filing of a Report by the Examiner were waived, and the record was thereupon submitted to the Acting Director.

This proceeding involves the adjustment of certain effective minimum prices in District 15 to conform to freight rate changes. On March 18, 1942, freight rate advances became effective (I.C.C. Ex Parte No. 148) on lump coal and fine coal produced in Production Groups Nos. 1, 2, 4, and 5 when for shipment to Market Area 75 (Greater Kansas City), and in Production Groups Nos. 3 and 4 when for shipment to Market Area 78 (St. Joseph, Missouri, etc.). Where the freight rate was one dollar or less the increase is 3 cents, and where the freight rate was more than one dollar the increase is 5 cents per net ton.

A. Market Area 75. A tabulation showing the freight rates formerly existing and those in effect following the increase and showing the amount of the increase applicable to the sizes of coal from the production groups involved when for shipment to Market Area 75, is as follows:

	From production groups Nos.—								
	1		2		4		5		
	Lump	Fine	Lump	Fine	Lump	Fine	Lump	Fine	
Formerly.....	175	135	132	115	95 (a)	85	73	85	73
As increased.....	180	140	137	120	98 (a)	88	76	88	76
Amount of increase.....	5	5	5	5	3	3	3	3	3

(a) 1 1/4" round hole screenings from which no coal has been removed (Size Groups 13 and 14).

Established minimum prices for coals produced in District 15 are predicated upon delivered differentials arrived at by relating the coals to one or more particu-

lar production group as a base group. For shipment to Market Area 75, Production Group No. 1 is the base. When freight rate changes are uniform, the de-

livered differentials are not disturbed. On the other hand, if there is a lack of uniformity in freight rate changes there results a disruption of the delivered differentials and consequently the coordination, measured by the differences in freight rate changes as between the base production group and the production groups related to the base.

In the case of Market Area 75, the base production group was increased 5 cents when Production Groups 4 and 5 and Size Groups 13 and 14 in Production Group 2 were increased 3 cents per net ton, a difference of 2 cents per net ton. Translated to the prices, this 2 cents difference in freight rate disrupts the coordination in Market Area 75 by from 1 to 3 cents per net ton. The variation which results in the translation of the freight rate change to the prices arises out of the method of determining prices in District 15. Thus the evidence shows that coals in Size Groups 11, 12, and 13 for domestic and commercial use, and Size Groups 12 and 13 for industrial use, produced in Production Group 1, for shipment to Market Area 75 should be increased 1 cent per net ton. This is due to delivered relationships and the application of the percentage which determines differentials. In this instance the price schedule provides that the delivered price for Size Group 13 shall be 10 per cent over the delivered price of Size Group 14. Since the delivered price includes the freight rate, the 10 per cent operates upon the freight rate also, and increasing the latter increases the delivered price and 10 per cent of that price. The application of this formula here results in a difference of 5 mills by which the prices would be increased.

The petitioner requested that the 5 mills be converted to 1 cent and that the prices be so increased. Bituminous Coal Consumers' Counsel filed a brief in opposition to the requested 1 cent increase, contending that if the one-half cent is dropped, the delivered differential will be as close to 10 percent as it will be if 1 cent is added, which, as simple mathematics, is true. Consumers' Counsel further objected to the principle whereby in all cases the one-half cent is rounded out to 1 cent, contending that to do so does not comport with the statistical rule.

§318.12 (a) (1) in the Marketing Rules and Regulations, provides:

(1) If, in converting a net or gross ton price, freight rate or freight rate differential, the calculation extends to more than two (2) decimals, and the third decimal is .005 or more, it shall be added as .01, and if under .005, it shall be eliminated.

Under the foregoing rule the prices should be increased by 1 cent.

In the case of Size Groups 11, 12, 13, and 14 for domestic and commercial use, and Size Groups 12, 13, and 14 for industrial use in Production Group 2, and Size Groups 1-8, 10, and 14 for domestic and commercial use and Size Group 14 for industrial use in Production Groups 4 and 5, the evidence shows that the effective minimum prices should be increased 2

temporary relief is granted as follows: Commencing forthwith, § 343.4 (Code member price index) is amended by adding thereto Supplement R-I, § 343.5 (General prices; minimum prices for shipment via rail transportation) is amended by adding thereto Supplement R-II, § 343.21 (General prices) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

[Docket No. A-1539]
PART 343—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 23

ORDER GRANTING RELIEF FOR ATLAS MINE
Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 23 for the establishment of price classifications and minimum prices for the coals of the Atlas Mine.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Atlas Mine (Mine Index No. 170) in District No. 23; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and
No petitions of intervention having been filed with the Division in the above-entitled matter; and
The following action being deemed necessary in order to effectuate the purposes of the Act:
It is ordered, That, pending final disposition of the above-entitled matter,

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 343, Minimum Price Schedule for District No. 23, and supplements thereto.

The following price classification and minimum prices shall be inserted in Minimum Price Schedule for District No. 23:

§ 343.4 Code member price index—Supplement R-I. Insert the following listing in proper alphabetical order:

Producer	Mine index No.	County	Shipping point	Sub-district price group	Railroad	Prices	
						F. O. G. No.	Truck
Atlas Coal Mines, Inc., c/o Robert Knight.	Atlas.....	Lewis...	Morton...	"G"...	CMS&P&P....	48	\$343.5 \$343.21

should be increased 2 cents per net ton for shipment to Market Area No. 78. The evidence shows that such increases are necessary to restore the proper coordination of the prices of the coals in question.

There was no opposition to the relief requested. I find and conclude, therefore, that the increases in prices set out above should be made and that the Schedule of Effective Minimum Prices for District No. 15 for All Shipments Except Truck should be amended accordingly.

I further find and conclude that such revision effectuates the purposes of sections 4 II (a) and (b) of the Act and complies with the standards thereof.

Now, therefore, it is ordered, That § 335.7 (General prices; domestic, commercial and industrial coal schedule) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: July 29, 1942.
[SEAL] DAN H. WHEELER,
Acting Director.

PART 804—INDIVIDUAL LICENSES

APPLICATIONS TO EXPORT CERTAIN COMMODITIES

Paragraph (1) of § 804.7² *Special provisions concerning applications to export certain commodities* is amended to read as follows:

(1) *Vehicles.* Applications for licenses to export vehicles or equipment of a type requiring rubber tires, casings, or tubes for operation must include either (1) a statement that no rubber tires, casings,

or tubes are to be mounted on, or otherwise included as part of the shipment of, such vehicles or equipment when exported, or (2) a statement of the number, size, ply, and tread design of the rubber tires, casings, or tubes which are to be mounted on, or otherwise included as part of the shipment of, such vehicles or equipment when exported; and a statement as to whether the tires, casings or tubes are new or used. In the latter case, applications need not include a statement of the crude rubber content of such tires, casings, or tubes. If any spare tire, casing, or tube is to be mounted on, or otherwise included as part of the shipment of, a vehicle when exported, the application must include a statement showing the urgent necessity for such spare tire, casing or tube.

This amendment shall become effective August 20, 1942.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Amendment 4 to Priorities Regulation 1]

Part 944, Priorities Regulation No. 1, is hereby amended in the following respects:

1. Section 944.5¹ is amended to read as follows:

§ 944.5 *Sequence of preference ratings.* (a) Preference ratings in order of precedence are: AAA, AA-1, AA-2, AA-2X, AA-3, AA-4, etc.; A-1-a, A-1-b, etc.; A-2, A-3, etc.; B-1, B-2, etc. All preference ratings of AA heretofore assigned and in effect are hereby amended to AA-2, unless and until the deliveries bearing such ratings are otherwise specifically rerated.

(b) Effective immediately, ratings of AA-1 and AA-2 are to be deemed ratings of the same grade, both ratings being equivalent to the present rating of AA-1, and this rule shall apply to deliveries heretofore or hereafter rated with either of such ratings. No person shall be required by reason of this paragraph (b) to terminate or interrupt a production schedule immediately in any case where such termination or interruption would result in a substantial loss of production: *Provided, however,* That in any such case termination or interruption of the schedule required by reason of this paragraph (b) may not be postponed more than forty days from the effective date of this paragraph (b)—August 10, 1942.

2. Section 944.7(d)¹ is hereby amended to read as follows:

(d) Notwithstanding the foregoing provisions of this § 944.7, no person who receives any rated order shall be required by reason of such order to terminate or interrupt a production schedule immediately in any case where such termination or interruption would result in a substantial loss of production: *Provided, however,* That in any such case termination or interruption of the schedule required by the receipt of such rated order shall not be postponed more than forty days after such receipt.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 12 as amended
August 10, 1942]

ESTABLISHING RERATING PROCEDURES

Priorities Regulation 12 (§944.33) is hereby amended to read as follows:

§ 944.33 *Priorities Regulation No. 12—*(a) *General.* Deliveries bearing preference ratings may be rerated and, subject to the limitations hereinafter provided, such reratings may be applied or extended in the manner provided in this Regulation. Such reratings shall change only the grade of the preference rating, and shall not increase the amount of material to which the rating may be applied or extended.

(b) *Methods of initiating rerating.* (1) Reratings may be effected in the first instance through the issuance, by the Director General for Operations or by such government officials as may be authorized by him, of either (i) a new preference rating order or certificate, (ii) an amendment of an existing order or certificate, or (iii) a rerating direction on Form PD-4X, attached hereto² (or such other form as may be prescribed), specifying the change of rating and the items to which it applies. A single Rerating Direction may be used to rerate deliveries to be made under different contracts with the same contractor, and may specify different new ratings for separate deliveries to be made under a single contract.

(2) A Rerating Direction in the PD-4X series shall be used only:

(i) To rerate deliveries under prime contracts directly to, or construction of facilities under direct contract with, the United States Army or Navy or other United States Government agencies specified in the definition of "defense

order" appearing in § 944.1 (b) of Priorities Regulation No. 1 as amended, and in addition, notwithstanding the limitations indicated on Form PD-4X:

(ii) To rerate any other delivery to be made directly to a prime contractor or subcontractor with the United States Army or Navy or other United States Government agency so specified; provided such delivery has previously been duly rated either (a) by a preference rating certificate on Form PD-3, PD-3A, PD-4 or PD-5, or (b) by a preference rating order in the P-19, P-19-a or P-19-h series countersigned by an officer of the United States Army or Navy: *And provided further*, That the original rating was assigned by such preference rating certificate or order issued directly to and in the name of the person who is to receive the delivery to be rerated, and not merely applied or extended to such person by another contractor or subcontractor.

Rerating directions on forms in the PD-4X series may be prepared and issued only by authorized government officials, and are not to be prepared or filed with any government agency by any person as application forms to secure reratings.

(c) *Extent to which rerating may be extended.* (1) In any case where a delivery to be made by a person has been rerated, such person may rerate deliveries to be made to him of the following material only:

(i) Material which will itself be delivered by such person on a rerated delivery, or which will be physically incorporated into material to be so delivered, or

(ii) Material which is required to replace in inventory material so delivered or incorporated. Material shall not be deemed to be required if the delivery can be made and a practicable working minimum inventory of such material still retained; and if, in making delivery, the inventory is reduced below such minimum, the new rating may be applied or extended to replace such material only to the extent necessary to restore the inventory to such minimum: *Provided, however*, That the material ordered for replacement must be substantially the same as the material delivered or incorporated in the material delivered, subject only to minor variations in size, shape or design, or substitution of less scarce materials, which, in any case, do not substantially alter the purpose for which the same is to be used.

(2) In addition, any person may extend the new rating to deliveries of operating supplies (including lubricants, catalysts, abrasives and small perishable tools) which are actually required and will be consumed by him in physically processing other material to the delivery of which he has extended the same new rating, except that

(i) The cost of the operating supplies to which he extends the rating shall not exceed ten percent of the cost of the particular materials to be processed therewith, and to which he extends the new rating; and

(ii) Not more than 25 percent by value of the operating supplies so rated

in any calendar month shall be metals in any of the forms listed on the Metals List attached to Priorities Regulation No. 11 § 944.32²

(3) When a delivery to be made by a person has been rerated, such person may not extend the new rating to materials for plant improvement, expansion or construction, to machine tools or other capital equipment, to maintenance and repair items, to business machines whether purchased or leased, or to operating supplies other than those specified above in subparagraph (2) of this paragraph (c). If rerating of such material is necessary, the new rating must be assigned by the appropriate government official, except as provided with respect to PRP Units in paragraph (d) of this regulation.

(4) In each case, the new rating applied or extended by any person pursuant to this paragraph (c) shall be the same as the new rating which he has received for the rerated delivery to be made by him, even though this may require him to apply or extend separate new ratings to items previously covered by a single rating; except that, to the extent necessary to avoid production or delivery in quantities smaller than the minimum commercially practicable, items which might be rerated with new ratings of different grades may be combined, and the total delivery rerated with the new rating of the lowest grade.

(d) *Special provisions applicable to PRP Units.* (1) Notwithstanding the provisions of Priorities Regulation No. 11 (§ 944.32) and of Preference Rating Order P-90, a PRP Unit may extend a new rating in accordance with paragraph (c) of this regulation when a delivery to be made by it has been rerated, but (i) this provision shall not be deemed to authorize a PRP Unit to extend a rating in connection with the receipt of a new rated order (as distinct from the rerating of an order previously received) except as authorized in subparagraph (2) of this paragraph (d), and (ii) the total amount of any material of which a PRP Unit is permitted to accept delivery in any quarter shall continue to be limited to the amount authorized on its PRP Certificates, as further provided in subparagraph (4) of this paragraph (d).

(2) In addition, notwithstanding the provisions of Priorities Regulation No. 11 or of Preference Rating Order P-90, a PRP Unit may, not more than twice in any calendar month, revise the rating pattern which it may apply to deliveries to be made to it and may apply preference ratings in accordance with such revised pattern as follows:

(i) The PRP Unit shall first determine, as of the latest practicable date, (a) the total dollar amount of all unfilled orders placed with it which are scheduled for production (though subject to postponement or cancellation in case of receipt of higher rated orders), and (b) the percentage of such dollar amount covered by such grade of preference rating, taking into account all changes of ratings

as of said date. The PRP Unit shall then be entitled to rate or rerate its own purchase orders in accordance with the pattern of ratings so determined in such manner that its purchase orders outstanding covered by each grade of rating shall be the same percentage (by dollar amount) of its total outstanding purchase orders as the percentage of scheduled unfilled orders placed with it covered by the same rating. It may not either rate or rerate any purchase order if the result of such rating or rerating will be to increase the dollar value of its orders bearing the same rating to a percentage of the value of its total purchase orders greater than the percentage of deliveries to be made by it bearing the same rating (unless such rating or rerating is authorized by a PRP Certificate) except as otherwise provided in subdivision (iii) of this subparagraph (2) below, and except that, if any rating is not applied to the full extent permissible, the balance not used may be added to the permissible amount of any lower rating or ratings. The term "purchase order" as used in this subdivision (i) shall not include any order for materials for plant improvement, expansion or construction, for business machines whether purchased or leased, or for machine tools or other large capital equipment. Such items may not be rated or rerated on the basis of the rating pattern. They may be rated or rerated only by the issuance to the PRP Unit of a new or amended preference rating certificate or order or of a rerating direction as specified in paragraph (b) of this regulation.

(ii) Except as otherwise provided in subdivision (iii) below, ratings and reratings pursuant to this subparagraph (2) shall be applied only in such manner that incoming deliveries of each material will bear the same rating as outgoing deliveries in which that material is incorporated, and material obtained under a rating or rerating applied pursuant to this subparagraph (2) shall be used only for the production of material to be delivered under the same or a higher rating. A PRP Unit must comply with the limitations of this subdivision (ii) on the basis of the most accurate determinations which it can make in the light of available records. However, in cases where detailed examination of outstanding purchase orders would be impracticable, reasonable estimates may be made, and physical segregation of material obtained under different ratings it is not required: *Provided*, That the amounts of each kind of material used to fill orders bearing different ratings do not exceed the amounts permitted by compliance with said limitations.

(iii) Notwithstanding the foregoing provisions, any PRP Unit which rates or rerates its own purchase orders in accordance with a pattern determined by it pursuant to this subparagraph (2) shall, after determining such pattern, group the percentages represented by ratings from A-1-b to A-1-k inclusive and apply to the percentage representing the entire group the highest rating assigned between A-1-b and A-1-k inclusive on its most re-

² 7 F.R. 4423, 4615, 4698, 4848, 5359, 6147.

cent PRP Certificate, and shall likewise apply to the entire percentage represented by ratings from A-2 to A-10 inclusive the highest rating assigned between A-2 and A-10 inclusive on such certificate.

(3) Unless otherwise expressly provided in its PRP Certificate or any supplement thereto, any PRP Unit may apply either the rating pattern authorized in its current PRP Certificate (including any supplemental certificate on Form PD-25F or otherwise) or a pattern determined by the PRP Unit as provided in subparagraph (2) of this paragraph (d). It may also rerate deliveries as provided in subparagraph (1) of this paragraph (d): *Provided*, That, in any event, no single purchase order may be rerated more than once in any consecutive period of thirty-one days unless the supplier consents to such rerating.

(4) Nothing in this regulation, or in any rerating direction or certificate issued hereunder, shall authorize a PRP Unit, or any person required by Priorities Regulation No. 11 to become a PRP Unit, to receive any delivery or apply or extend a rating to any delivery, of any material in an amount greater than permitted by said regulation, and in no event shall the amount of any material rated by a PRP Unit for delivery in any calendar quarter exceed the amount authorized for rating on its PRP Certificates: *Provided, however*, That purchase orders may be rated according to the authorized pattern even if scheduled for delivery in a quarter for which no PRP Certificate has yet been received, but upon receipt of such certificate, purchase orders must be adjusted to authorized amounts as required by paragraph (d) (1) (iii) of Priorities Regulation No. 11.

(e) *Method of application or extension.*

(1) In any case where a person has applied or extended a preference rating to a delivery to be made to him and is subsequently authorized to rerate such delivery pursuant to this regulation, he may at his option either:

(i) Furnish to his supplier a rerating certificate in the form of Form PD-4Y attached hereto,² containing the information therein specified (other than Government contract numbers or other government identification, where none are available);

(ii) Notify his supplier in writing that the previous rating has been cancelled and furnish him with duplicate purchase orders carrying the appropriate endorsement for the new rating as provided by Priorities Regulation No. 3 (§ 944.23);³ or

(iii) Advise his supplier of the change in rating by letter or telegram listing the purchase orders on which the ratings are changed, giving the numbers of the original purchase orders, the original rating and the new ratings, and instructing the supplier to file such letter or telegram with the original purchase orders.

In any event, the information given to the supplier must be sufficiently specific with respect to the particular deliveries

rerated so that he will be able to adjust his production schedules accordingly. The supplier must be specifically informed, by reference to purchase order numbers, delivery schedules, description of items or otherwise, as to which deliveries are subject to which new ratings. It is not sufficient to state merely that all outstanding purchase orders placed with the supplier are rerated according to specified percentages, unless the material involved is of such type and in such quantities that the supplier can readily determine, from percentage figures alone, the exact effect of the rerating on his production and delivery schedule, and except that, if the supplier consents, orders not yet in production may be rerated on a percentage basis, provided actual amounts and deliveries are identified by supplementary information furnished to the supplier before production is to be scheduled. The supplier shall be entitled to rely on the information given unless he knows or has reason to believe it to be false.

(2) Each person rerating any delivery to be made to him shall maintain at his regular place of business for not less than two years copies of all rerating certificates issued by him, records of the basis of each determination of a new rating pattern made by him pursuant to paragraph (d) (2) of this regulation, and all rerating directions or certificates received by him, upon which he relies as entitling him to rerate such deliveries. In the case of a PRP Unit applying ratings pursuant to paragraph (d) (2) of this regulation, such records must clearly indicate which rating pattern has been used with respect to each order rated or rerated by the Unit. All such records shall be kept segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection. Notices to supplier shall be signed manually or as provided in Priorities Regulation No. 7 (§ 944.27)⁴ by an official duly authorized for such purpose.

(f) *Use of new rating where rating has not yet been used.* If a person who is entitled to rerate a delivery to be made to him has not yet applied or extended a rating to such delivery, he may apply or extend the new rating in the same manner in which he could have applied or extended the earlier rating, subject to the provisions of Priorities Regulation No. 3, as amended (§ 944.23), and to the provisions of paragraphs (c) and (d) of this regulation.

(g) *Effective date of rerating.* The sequence of rated and rerated deliveries shall be determined as if the rerated item had carried the new rating at the time the first rating covering the delivery was received, and the person whose delivery is rerated shall make any necessary change in his production or delivery schedule promptly on receipt of the rerating: *Provided, however*, That

(1) Any person who, prior to July 15, 1942, receives a rerating for a delivery to be made by him, shall make the neces-

sary changes in his production and delivery schedules on July 15, 1942, and shall put such changes into effect immediately thereafter except as otherwise provided in subparagraphs (2), (3) and (4) of this paragraph (g);

(2) If such person has received reratings for all deliveries which are to be completed in 1942 on any one production schedule, he may proceed to make the necessary changes in such schedule before July 15, 1942, subject to the provisions of subparagraphs (3) and (4) of this paragraph (g);

(3) No person shall, by reason of a rerating, divert material specifically produced for an order bearing a rating higher than A-2 and deliver the same under the higher rerated order if such material is completed at the time the rerating is received or is scheduled for completion within fifteen days thereafter, unless such diversion is specifically directed by the Director General for Operations, or unless the new rating is AAA;

(4) No person shall be required by reason of a rerating to terminate or interrupt a production schedule in any case where such termination or interruption would result in a substantial loss of production: *Provided, however*, That in any such case the termination or interruption of the schedule required by the rerating shall not be postponed more than forty days after such rerating is received. PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Maximum Price Regulation 200]

RUBBER HEELS, RUBBER HEELS ATTACHED, AND ATTACHING OF RUBBER HEELS

In the judgment of the Price Administrator the prices of rubber heels, rubber heels attached and attaching rubber heels have risen to an extent and in a manner inconsistent with the purpose of the Emergency Price Control Act of 1942. But if during the mark-up period provided in § 1418.52 of this Maximum Price Regulation No. 194, a seller (i) had an established practice of making allowances, discounts or price differentials to different classes of purchasers, and (ii) raised his general level of prices for a commodity but thereafter, during such mark-up period, made no delivery to any purchaser of a particular class, he shall, for that particular class of purchasers, calculate the highest selling price by taking the highest selling price during such mark-up period to a purchaser of another class

and then adjusting such price to reflect his established allowances, discounts and price differentials. No seller shall evade any of the provisions of this Regulation by changing his customary allowances, discounts or other price differentials.

§ 1418.113 *Definitions.* (a) When used in this Maximum Price Regulation No. 201, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(2) "Sale at wholesale" means a sale by a person who receives delivery of a commodity and resells it, without substantially changing its form, to any purchaser for resale or to a commercial or industrial user.

(3) "Sale at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user, except that (i) a "sale at retail" shall not include any sale by a producer, manufacturer, or fabricator of any commodity produced, manufactured, or fabricated by him, and (ii) a "sale at retail" shall not include any sale to the United States, any other government or any of its political subdivisions, any religious, educational or charitable institution, any institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library or any agency of any of the foregoing.

(4) "Direct cost to the seller" means the price which the seller paid for the commodity, less discounts allowed to the seller plus all costs of shipment actually incurred by the seller.

(5) "Sales and deliveries to a buyer in the Virgin Islands of the United States" does not include sales from a seller outside the Virgin Islands of the United States to a purchaser in the Virgin Islands of the United States. Export sales, from a seller in the Continental United States to a purchaser in the Virgin Islands of the United States shall be governed by the maximum prices established for export sales by the Revised Maximum Export Price Regulation.⁴

(6) "Amount of mark-up" means the amount in dollars and cents which added to the amount of direct cost constituted the seller's price. It does not mean the percentage of mark-up.

(7) "Selling price" means the price for which a commodity is sold, offered for sale, or listed for sale.

(8) "To deliver" means to transfer actual possession of the commodity to the purchaser or to any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

(9) "Records" include books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(10) "Maximum Price Regulation", as used in this Regulation, means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any amendment or supplement thereto or order issued thereunder.

(11) "Purchaser of the same class", as used in this Regulation, refers to the different classes of purchasers created by any practice adopted by the seller in setting different prices for commodities in connection with sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or to purchasers located in different areas or of different quantities or under different conditions of sale. But if during the mark-up period provided in § 1418.102 of this Maximum Price Regulation No. 201, a seller (i) had an established practice of making allowances, discounts or price differentials to different classes of purchasers, and (ii) raised his general level of prices for a commodity but thereafter, during such mark-up period, made no delivery to any purchaser of a particular class, he shall, for that particular class of purchasers, calculate the highest selling price by taking the highest selling price during such mark-up period to a purchaser of another class and then adjusting such price to reflect his established allowances, discounts and price differentials. No seller shall evade any of the provisions of this Regulation by

⁴ 7 F.R. 5059.

changing his customary allowances, discounts or other price differentials.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to the terms used herein.

§ 1418.114 *Applicability.* The provisions of this Maximum Price Regulation No. 201 shall be applicable to the Virgin Islands of the United States.

1. Delete in § 912.3 (b) (4) the phrase "of milk from producers" and substitute therefor the phrase "of butterfat."

Proposed by Dairy and Poultry Branch, Agricultural Marketing Administration, United States Department of Agriculture:

1. Revise in § 912.1 (a) the term "handler."

2. Revise § 912.3 (a) so as to specify with greater particularity the basis of classification of milk, particularly with respect to interplant movements of milk.

4. Include in § 912.3 language which will set forth the manner in which the market administrator shall compute the amount of milk in each class.

6. Substitute in § 912.5 (a) the phrase "or milk products" for the phrase "or cream" together with the revisions necessitated elsewhere by this amendment.

9. Add a paragraph to § 912.6 which provides the method and manner of payment for milk received by handlers from sources determined as other than producers or other handlers.

10. Add a paragraph to § 912.6 which provides for payment to producers for milk or butterfat in excess of receipts apparent on the basis of handlers' reports.

11. Delete § 912.7 (a) and substitute therefor a new § 912.7 (a) which will set forth the manner in which the market administrator shall compute the net pool obligation of handlers.

12. Revise § 912.8 (a), so as to provide the time and method of payment to producers for milk, deleting § 912.8 (e).

13. Reconsider the amount and method of arriving at the butterfat differential provided pursuant to § 912.8 (b).

14. Revise § 912.9 dealing with expense of administration so as to subject handlers to administrative assessment on all milk handled.

15. Provide in § 912.10 for the making of marketing service deductions on receipts from sources other than other handlers, including receipts from handler's own production.

16. Provide such amendments as may be necessitated by the above proposed revisions.

person who may be authorized to exercise the powers and perform the duties of the Secretary.

18. Add a new section, as follows:
