Shredded Wheat Dishes

A dainty, wholesome, appetizing meal can be prepared with Shredded Wheat Biscuit "in a jiffy." It is ready-cooked and ready to serve. You can do things with it that are not possible with any other "breakfast food." It is the only cereal food made in biscuit form. Combined with fresh or preserved fruit, or with creamed meats or creamed vegetables, or simply eaten as breakfast food with milk or cream, it is delicious, nourishing and satisfying.

Shredded Wheat is made of the whole wheat, cleaned, cooked, drawn into fine porous shreds and twice baked. It is the cleanest, purest cereal food made in the world. Recipes for making many wholesome "Shredder Wheat Dishes" will be found in this book.

SHREDDED WHEAT is made in two forms: **BISCUIT**, for breakfast or any meal; **TRISCUIT** the Shredded Wheat wafer, eaten as a toast for luncheon or any other meal with butter cheese or marmalades. Both the Biscuit and Triscuit should be heated in the oven to restore crispness before serving. Our new Cook Book is sent free for the asking.

WILLIAMS, ARIZONA.

Williams is a thriving mountain city with a population of about 2,500, delightfully located in the heart of the great pine belt of Coconino County, in Northern Arizona, at an altitude of 6,570 feet above sea-level. It is the terminal of the Grand Canyon Railway, and a commercial point on the A. T. & S. F. Railway. In addition to the revenue from these sources, there is situated in this city the largest saw-mill and box factory in the Southwest, which gives employment to many men. There are also stock ranges, copper mines and thriving ranches surrounding it.

Williams is about sixty miles distant from, and is aptly named the Gateway to the Grand Canyon of Arizona, being the only point from which to visit this world's greatest natural wonder, by rail. Five miles south of the city is situated Bill Williams Mountain, named for that famous hunter and scout, whose name it bears, and whose remains lie entombed on its summit. The mountain is easily accessible, as the beautiful winding trail begins right at the edge of the city. Nearly one-fourth of Arizona is visible from the highest peak, which has an altitude of ten thousand feet.

Williams' summer climate is acknowledged to be the coolest and most delightful on the continent, the temperature averaging 75 degrees, the days being sunny and pleasant, and the nights always cool and conducive to sleep.

Williams has one of the most modern school buildings in the Territory, and an efficient corps of teachers. Also a Roman Catholic, and a Methodist Church.

Williams enjoys most of the modern conveniences, electric lights, water works, and a sewer system. The telephone service is also of the best.

Williams has the latest of Fred Harvey's hotels, the Fra Marcos, recently constructed at an expenditure of \$125,000.00, and its accommodations cannot be surpassed.

Williams needs a public library.

"We may live without poetry, music and art;
We may live without conscience and live without heart;
We may live without friends; we may live without books;
But civilized man cannot live without cooks.

He may live without books—what is knowledge but grieving?
He may live without hope,—what is hope but deceiving?
He may live without love, what is passion but pining?
But where is the man that can live without dining?"

DIET.

In a book of this character it wouldn't be amiss to say a few words on the effect of cooking on meats and vegetables. Will quote from the work of Friedenwald and Ruhrah on Diet :

“The effect of cooking on meat is to diminish its watery constituents, thus concentrating and rendering it more nutritious; by this process also the extractives, as well as some of the fats, are partly removed.

The chief loss in weight during boiling, sauteing, and pan broiling is due to water removed by the heat of the cooking. In the roasting of meats the chief loss is due to the removal of both water and fat. In pan broiling the losses which take place are very small as compared with the other methods of cooking. The longer time meat is cooked, and the higher temperature at which this is done, the greater the loss in water and fat, the larger pieces losing relatively less than the smaller ones.

The important object in the cooking of vegetables is to rupture the cellulose envelop and so to soften the contained starch-granules. Under the influence of heat and moisture the starch swells and bursts its envelop, forming a paste; this paste, in its turn, expands and ruptures the cellulose envelope; cooking, therefore, renders vegetable foods more easily digestible.

In the cooking of meats a certain portion of the ingredients are lost. Unlike meats, however, vegetables become more watery in cooking. In this condition they are more easily acted upon by the gastric secretion; on the other hand, the addition of water in cooking so increases their bulk that the motor function of the stomach is apt to be overworked.”

DR. C. D. JEFFRIES.

INTRODUCTORY.

Many cooks find from experience that few recipes can be followed exactly and under all conditions and in all climates.

In Northern Arizona the altitude, which 6700 feet, and the extreme dryness of the atmosphere affect certain articles in common use. For instance, salt loses its flavor when left standing, and requires a larger quantity. This is due perhaps to the evaporative atmosphere. Less baking powder and shortening, but more flour is necessary. Cake and bread require longer baking and articles cooked by boiling take a much longer time because the boiling point is lower. Soft boiled eggs need four minutes, while in lower altitudes three minutes will suffice.

This book, however, is not a high altitude cook book. We have endeavored to compile a book that could be utilized either in high or low altitudes, but of course, one must be governed to some extent by the locations from where the different recipes have been submitted.

We have omitted flavoring of brandy or wine in the few instances in which they were given. Otherwise the recipes stand just as they were received and we hope they will prove a pleasure and help to everyone.

The proceeds from the sale of this book will be used in constructing and maintaining a public library for our town.

BREAD

"Now therefore I pray thee, harken thou also unto the voice of thine handmaid, and let me set a morsel of bread before thee; and eat, that thou mayest have strength, when thou goest on thy way."—Bible.

THE BREAD I BAKE.

(By Kennett Harris.)

You tell me that you hold me dear,
You say that for my love you sigh;
You're only happy when I'm near.
Without me you would want to die.
That's very nice, I won't deny,
Your heart I do not want to break,
But will you joke about my pie
And will you scorn the bread I bake?

I've heard of husbands who would sneer
And scold when matters went awry.
Who keep their wives in dread and fear,
Who carp and grumble and decry.
Of course, you know, I don't imply
That such a course you're apt to take,
But how about the chops I fry,
And will you scorn the bread I bake?

Perchance within one fleeting year
You might not rate my charms so high,
You might say that my roast was queer
And call it tasteless, burnt and dry,
For me all dangers you'd defy,
You'd brave the gallows or the stake,
But will you call my coffee lye,
And will you scorn the bread I bake?

L'ENVOI.

There's this about the marriage tie:
You'd suffer all for my sweet sake,
But how about the hats I buy?
And will you scorn the bread I bake?

FRIED APPLES FOR BREAKFAST.

An appetizing dish for breakfast is fried apples and bacon. Cut the apples into eighths and core, but do not pare. Put them into a frying pan with a little water, just enough to cover, and let them boil until nearly tender. In the meantime fry the bacon and remove it from the frying pan and lay around the edge of a platter. Pour out some of the bacon grease, leaving enough in the pan to fry the apples, which are turned into the bacon pan and fried to a delicate brown. When done pile them in the center of the platter, letting the bacon form a border.—Contributed.

TO BAKE CAKE.

How hot should the oven be for cake, and how can one tell when a cake is ready to be taken out? asks Mrs. E. D. There is probably no other place in cooking where so much depends on the baking as in making cake. The fire must be sufficient to last through the entire baking, and yet it should not be as hot as for baking bread. If the oven seems too hot, leave the door open for a few minutes before putting in the cake. Then carefully watch it, and if necessary, put the asbestos baking sheets below and above to protect it from too great heat. Thin cakes require a hotter oven than those baked in loaves, and if the oven be not hot enough at first, or be cooled constantly during the baking, the cake is apt to be heavy.

Thin cakes should bake from fifteen to twenty minutes; thicker ones from thirty to forty, and whichever kind you are baking, divide the required time into quarters. During the first quarter the cake should continue to rise, during the second it should begin to brown a little, during the third it should brown evenly, and in the last, shrink from the pan. If the cake browns before rising the oven is too hot. If the cake rises in the center and cracks open it is too stiff with flour. In telling whether it is done or not, press it with your finger lightly. If it comes back it is apt to be done; if the depression stays in, the cake is not entirely done; or take it from the oven and listen to it: a pronounced ticking or wet sound means that the cake is not yet baked.—Good Housekeeping.

ALTITUDE CAKE.

One cup granulated sugar, one-half cup butter, one cup milk, two cups flour, two teaspoons baking powder, one, two or three eggs, saving whites of one or two for frosting. One whole egg will make a good cake. Two yolks and white of one a better cake. Yolks of three and whites of one or two the best cake. Cream butter and sugar, add egg yolks and cream more, add baking powder to flour and alternately mix milk and flour with

creamed mixture. Beat thoroughly, adding last, the well beaten whites. As a layer cake, any sort of filling may be used. An excellent marble cake may be made by coloring half the batter with melted chocolate and dropping alternate spoonfuls of white and brown batter in loaf pan. Cover top with chocolate icing and nut meats or cocoanut sprinkled on. Spices and raisins may be added and an excellent cake is made by adding one cup English currants.—Mrs. C. F. Philbrook, Bisbee, Ariz.

HIGH ALTITUDE CAKE.

One and one-half cups flour, one cup sugar, two level teaspoons baking powder, one-fourth teaspoonful salt. Put all together in sifter and sift, then add two tablespoonfuls melted butter; break in cup two eggs and fill up with water, add to the rest and beat well. Bake either in layers or loaf.

Note.—When melted butter is used, the butter should be melted before measuring.—Mrs. Finney, Williams, Ariz.

ANGEL CAKE.

Beat stiff the cold whites of twelve eggs with a pinch of salt, fold in—not beat—one and one-half tumblers granulated sugar gradually, one teaspoon vanilla slowly, then one tumbler flour which has been sifted five times with one scant teaspoon cream tartar. Put in a tube pan—not greased, and bake about forty minutes, in a moderate oven without opening the door. When taken from the oven, turn upside down to cool. After it drops from pan, frost with any plain icing. Have house and kitchen very quiet when baking, avoiding any draft, or the cake will fall.—Contributed, Williams, Ariz.

ANGEL CAKE.

Whites of nine eggs, one and one-fourth cupfuls granulated sugar, one cupful flour, one-half teaspoon cream of tartar, add pinch of salt to the eggs before whipping; flavor to taste. Sift, measure and set aside the sugar and flour. Whip the eggs to a foam, add the cream of tartar and whip until very stiff; add the sugar to this and fold in, always using a spoon; then flavor and fold in, then flour and fold it lightly through. Put in a moderate oven at once. It will bake in about twenty-five or thirty minutes; it should not take longer, as baking too long dries it out and makes the cake tough and dry. Always put in a moderate oven—too hot for butter cakes, and not hot enough for biscuits. If the cake is properly mixed it will rise above the pan. When it is baked enough it begins to shrink, and should

shrink back to the level of the pan. Watch carefully at this stage, and when it begins to shrink, take out of the oven and invert the tin immediately, resting on the center tube; let hang until perfectly cold, then cut the cake loose from around the sides and the center tube. Knock back the slide, insert your knife and cut loose from the bottom; turn out. Ice with plain white frosting.—Mrs. M. S. Carpenter, Trout Creek, Mich.

ANGEL CAKE.

Whites of nine large eggs, or ten small ones, one and one-fourth cups granulated sugar, one cup flour, scant one-half teaspoon cream of tartar, a pinch of salt added to the eggs before whipping. Flavor to taste. Sift four times, measure and set aside sugar and flour, whip eggs to foam, add cream tartar, and whip until very stiff, add sugar and beat in (always using a spoon to mix cakes with), then add flour and fold it lightly through. Put in moderate oven, will bake in twenty to forty minutes. I always have best of results with this recipe, but am particular about directions. Frost as any cake. Turn cake upside down when done.—Mrs. J. M. Dennis, San Jose, Calif.

Separate the whites and yolks of four eggs. When the whites are stiff enough to remain in the bowl when it is inverted, beat into them one-half cup sugar which must be granulated. Powdered sugar makes tough cake. Then beat the yolks, add to them another half cup of sugar, beating for five minutes by the clock; this latter is very important as the delicate texture of the cake depends upon it. Add to the yolks the juice and grated rind of one lemon. Now beat well together the yolks and whites. At this stage, beating is in order, but must be absolutely avoided after adding the flour, of which take one cup; this is to be tossed or stirred into it with a light turn of the wooden spoon. The cup of sugar should be generous, the flour scanty. Bake for twenty-five minutes in a moderate oven. Just before putting in the oven sprinkle on top through a sifter about a tablespoonful of granulated sugar.—Miss Katherine Anderson, Williams, Ariz.

DIET

The percentage of individuals who give thought to their physical and mental requirements in diet, is small indeed.

Although the human system can be sustained through long periods of physical, and mental labor, upon a few articles of food; in order to thoroughly satisfy the needs of the body, the diet must be varied.

Occupation should govern to a great extent, the kind and quantity of food taken, as well as the time of consumption.

Diet should vary somewhat with climatic, or season changes.

Individuals of sedentary occupation should confine their diet largely to the vegetable kingdom, namely: Cereals, Legumes, Roots and Tubers, Green Vegetables, Fruits, Nuts, Fungi and Lichens. Under the different heads we have the following:

Cereals:—Barley, buckwheat, corn, rye, oats, rice and wheat.

Legumes:—Peas, beans, peanuts.

Roots and Tubers:—Irish Potatoes, sweet potatoes, yams, artichokes, beets, carrots, parsnips, turnips and radishes.

Green Vegetables:—Cabbage, cauliflower, spinach, lettuce, sorrel, celery, tomatoes, egg plant, cucumbers, asparagus, rhubarb, pumpkins, squash, onions and garlic.

Fruits and Nuts:—A great variety.

Fungi and Lichens:—Mushrooms, truffle, morel, Iceland moss.

Animal food should also be included in the daily diet, sparingly during the warm summer months, and increased slightly during the cold winter months.

Physical laborers require a liberal diet of animal food, and should also partake freely of vegetable products.

All food taken should be thoroughly masticated to insure saturation with saliva, as otherwise, perfect digestion is an impossibility.

Animal food digests more rapidly than vegetable food, and where necessary may be taken at intervals of two or three hours, in small quantity.

Vegetable food requires five or six hours for thorough digestion, and should not be taken at shorter intervals.

The temperature of food is of considerable importance. The ideal temperature is that of the body 98 degrees Fahrenheit, the limits of safety being 45 degrees and 130 degrees Fahrenheit.

A short period of rest after meals is conducive to good digestion.

DOUGHNUTS

DOUGHNUTS OR FRIED CAKES.

As much care must be taken in the mixing as in the cooking. In Northern Arizona do not use too much shortening in the dough, and mix very soft, rolling without kneading. Try the boiling fat, in which they are to be cooked, with a small piece of dough. If a piece of raw potato is put into the boiling fat it will prevent browning too much and will help clarify it. Two tablespoonfuls vinegar added to the lard will prevent the cakes absorbing too much grease. Some cooks add one-half teaspoonful ground ginger in the dough, saying that, too, will prevent the dough absorbing too much fat.

EGGS

"Lays of ancient Rome."
—McCaulay.

It was then that I saw the cook book, and while Mr. Harbison had his back turned I got it down. It was quite clear that the domestic type of woman was his ideal, so I took the book into the pantry and read the recipe over three times. When I came back I knew it by heart though I did not understand it. "I will tell you how," I said, with a great deal of dignity, "and since you want to help you can make it yourself."

He was delighted.

"Fine!" he said. "Suppose you give me the idea first. Then we'll go over it slowly, bit by bit. We'll make a big fluffy omelet and if the others aren't around we'll eat it ourselves."

"Well," I said, trying to remember, "you take two eggs—." "Two!" he repeated. "Two eggs for ten people!" "Don't interrupt me," I said irritably. "If—if two isn't enough we can make several omelets, one after the other."

He looked at me with admiration. "Well, what next?"

"Separate them," I said easily. No, I didn't know what it meant, but I hoped he would. I knew he was staring at me puzzled.

"Separate them!" he said. "Why they aren't fastened together!" Then he laughed. "Oh, yes, of course!" When I looked at him he had put one on each end of the table "Afraid they'll quarrel, I suppose," he said. "Well, now they're separated."

"Then beat."

"First separate, then beat!" he repeated. "The author of that cook book must have had a mean disposition. What next? Hang them?" He looked up at me with his boyish smile.

"Separate and beat," I repeated. If I lost a word of that recipe I was gone. "Well," he reflected, "you can't beat an egg, no matter how cruel you may be, unless you break it first." He picked up an egg and looked at it. "Separate," he reflected. "Ah, the white from the—whatever you cooking experts call it—the yellow part." "Of course. I knew you would find out." Then back to the recipe—"beat until well mixed; then fold in the whites."

"Fold?" he questioned. "It looks pretty thin to fold, doesn't it? Please come and show me how."

"Just fold them in," I said desperately. "It—it isn't difficult." And because I was so transparent a fraud, I said something about butter and went into the pantry. I leaned my elbows despondently on the shelf of the kitchen pantry and waited for Mr. Harbison to come in and demand that I fold a raw egg.

He came. "I have solved it," he said. "The mixture awaits the magic touch of the cook."

I honestly thought I could do the rest. It was only to be put in a pan and browned in the oven three minutes. And I did it properly, but for two things; I should have greased the pan, (but this was the book's fault; it didn't say) and I should have lighted the oven. The latter, however, was Mr. Harbison's fault as much as mine, and I had wit enough to lay it to absent mindedness on the part of us both.

FISH

"The silvery fish,
Grazing at large in meadows submarine,
Fresh from the ware now cheers
Our festive board."—Anon.

FISH.

Fish should be dressed as soon as caught. Salt fish must be soaked eight or ten hours, with the skin side up and the water changed two or three times. Fish must not stand after being cooked, but served at once. The usual modes of cooking fish are broiled, baked, boiled, fried and occasionally stewed, though steaming is much superior to boiling. Very large fish are cut into slices or steaks, for frying or broiling. Bake fish slowly, basting often with butter and water. When boiling fish, by adding a little vinegar and salt to the water it seasons and prevents the goodness from being drawn out. Fish to be boiled should be put in boiling water and cook gently or it will break and look badly. Many put fish into a cloth or bag to boil. In frying fish the fire must be hot enough to sear the outside keeping the juices in. As soon as each side of the fish is browned the frying pan can be moved back on the range. In no way is fish more delicious or digestible than when baked, and in no way can it be more easily prepared. With the addition of a dressing or a vegetable a very substantial dinner may be prepared with a minimum of attention, which solves a difficult problem when the housewife finds her time unusually taken up during the hour before dinner. Any of the larger fish in which the bones are coarse are suitable for baking, such as pickerel, cod, halibut and white fish.

FISH BALLS.

Shred two cups cold boiled fish, add one-half cup sweet milk, one cup seasoned mashed potatoes, one well beaten egg. Season to taste add grated onion or a little Worcestershire sauce. Mix well, make into balls and fry in deep hot fat.—Mrs. W. F. Dermont, Williams, Ariz.

Brown a large tablespoonful of butter, put one-half cup of fat salt pork through the food chopper, and beat two eggs very light. Mix these ingredients together, add salt and pepper and sufficient bread crumbs to thicken. Seasoning may vary to suit the occasion and the taste. Sliced onion is good, or a few oysters chopped coarse, or parsley, summer savory or tomato catsup may be used. Fill the fish with this mixture, before tying, and make the remainder of the dressing into small, flat balls, and bake in the same dish. Serve on a deep platter with the dressing as a garnish. Thicken the gravy that remains in the baking dish with a little browned flour and serve in a separate dish.—Contributed, Williams, Ariz.

Keep them cold and do not bring them into the kitchen until you get ready to fry them and not allowed to get warm and limber. Put in plenty of pepper and salt and roll in flour.

Take your heaviest frying pan, and put in a few slices of pork, never use bacon. When the grease is hot put the fish in and never cover them, do not let them burn on the bottom. and turn without breaking them. Let them cook quite awhile so they will be well done and quite crisp, and remove without grease. Sometimes it is better to lay them on a piece of brown paper for an instant to take away the grease. Serve on hot plates. Be cooking the second frying panful when the first goes on the table. Do not garnish the platter.—William B. Mershon, Saginaw, Mich.

DIET FOR TYPHOID CONVALESCENTS.

The first week after temperature subsides the patient may be given corn meal gruel, arrowroot, with milk, sago and rice.

Second week the patient may have oysters, clams, raw eggs with milk, milk toast and toasted crackers.

The patient should wait until ten days after temperature subsides before taking solid food, beginning with scraped beefsteak, poached eggs on toast and gradually increasing until normal diet is established.

The first week a convalescent patient should have plenty of fresh air and sunshine, soda baths daily and alcohol rubs, and may be permitted to sit up a little the latter part of the first week.

The second week a convalescent patient may be taken out in the open air and permitted to remain two or three hours at a time in a reclining position.

Should abnormal temperature return if the patient has been given solid food such food should be discontinued.—N. H. Morrison, Chief Surgeon, A. T. & S. F. R. R., Los Angeles, Calif.

DISHES INVALIDS WILL ENJOY

APPLES IN GRAPE JUICE.

Apples, grape juice, cream. You cannot have this in perfection unless you start with some sound apples. Pare them carefully. Have a little sweetened, unfermented grape juice boiling, and cook the pared apples in the juice until they have become tender. Then lift them carefully and place them on the serving-dish. Boil down the juice until it has become quite thick, and pour it over the apples. Serve cold with or without cream. If preferred, soft custard may be substituted for cream.

BARLEYADE AND JELLY.

One-half pint of Pearl barley, three pints of water, one tablespoon of orange juice, seasoning. Carefully pick over the barley and then wash it. Cover with three pints of water and cook slowly for two hours; then pour off a teacupful, strain it and sweeten to taste. Add a pinch of salt and the orange juice. It will be palatable and nutritious. Let the remainder of the barley cook until it is soft enough to pass through a sieve, adding more water if necessary; then salt it, sweeten and flavor slightly with nutmeg. Pour into a mould, and when it is cold serve with thin cream, milk, or any ripe fruit juice, sweetened.

SCRAPED BEEFSTEAK.

One-half pound of beefsteak, butter, salt and pepper, parsley. This is quite simple and generally proves most acceptable, but to have it in perfection it is necessary that the pan should be very hot, the cooking done quickly, and the dish served just as soon as it is ready. The steak may be from the round, but must be juicy. Scrape off with a knife or spoon enough to make a cake of small size, about three-quarters of an inch thick. Take some of the meat from which you have scraped the material for this cake and cut it into pieces about an inch or two square. Have at hand a very hot frying-pan and sear your pieces of meat on it. Having done this, put the meat in a lemon-squeezer and squeeze the juice out on the scraped beef. Now mix this beef and the juice together until you can shape it into a cake, taking care that you have a clean frying-pan very hot. Put in the cake and turn it once or twice with a pancake lifter. Have

ready two hot plates. Put the cake on one, add salt, pepper and butter, garnish with parsley and cover with the second hot plate. Serve without delay.

CLAM BROTH.

One quart of clams, one-half cupful of cold water, one-half cupful of milk. It is best to use the long-neck clams, as the round ones have not the same delicate flavor. Wash them thoroughly in cold water; then put them in a stewpan and add the half cupful of cold water. Let them boil up quickly for five minutes; then drain off the juice and strain it through a cheesecloth. Put in a clean saucepan, and, after adding the milk, let it heat just to the boiling point. It should be served immediately, as it will lose a part of its flavor by standing or by being reheated. It is well to serve it in a bouillon-cup with unsweetened wafers.

MAPLE CUP CUSTARD.

One-half pint of milk, one tablespoonful of sweet cream, one egg, one tablespoonful of maple sugar. With the quantities of ingredients mentioned above two cups of delicious custard may be made. The sugar should be scraped from the cake and then measured. After beating the egg and sugar together thoroughly add the milk and cream. Then fill the cups, setting them in a dish of hot water, bake in a slow oven until the custard set—say, about forty minutes. Take a little care and the result will be perfectly satisfactory.

DATES WITH CREAM.

Wash a few dates thoroughly in several waters, and, after removing the stones, cut each date into two or three pieces, using a sharp knife. Place in a small bowl and add enough cold water to soak them well. Set this over a tea-kettle of boiling water for half an hour or more, so that the dates will swell and become soft and tender. When ready to serve, add sufficient cream or milk to take away the over-sweet taste.

GRUEL.

One pint of milk, one teaspoonful of flour, one teaspoonful of yellow cornmeal. You will need to have rather a generous measure of milk. Put half a cupful aside, and heat the rest in a double boiler. When it has become scalding hot stir into it the flour and cornmeal made smooth with the cold milk you reserved. Stir occasionally while it cooks for two hours, and before straining add a pinch of salt. The long cooking is the secret of success in preparing this gruel.

BEEF JUICE.

Cut one pound beef into small cubes, place in an earthen bowl, keeping at medium heat for twelve hours. When the juice has been extracted, clarify with boiling water and salt to taste.—Miss Tomasito J. Jinso, Williams, Ariz.

SCALLOPED OYSTERS.

Six oysters, grated breadcrumbs, butter, seasoning. Of course you must be very particular to see that the oysters are nice and fresh. Beard them and take away the muscle; then, after covering a small saucer with the bread-crumbs, which should be fine, put the oysters on the crumbs and season with a very little cayenne pepper and salt. Add a few drops of good vinegar or lemon juice to the oysters; then cover with the bread-crumbs and dot with tiny pieces of butter. Cook for five minutes in a quick oven, or until the crumbs have turned a light brown. The beard or frill of the oyster when cooked curls up into a hard, rather indigestible piece, and spoils the delicate flavor of the dish. That is why it should be removed at the very start.

CREAM PUNCH.

One-half teacupful of fresh milk, one-half teacupful of cream, one teaspoon of sugar, one egg. Put the milk into a pint preserving-jar and add the egg, cream and sugar. Fasten the top on the jar carefully, and shake well for a couple of minutes; then pour into a glass and serve immediately. In cases of typhoid fever you should take especial care to leave out the yolk of the egg unless the attending physician says it would be perfectly proper to give it to the patient.

TAPIOCA PUDDING.

One-fourth cupful of tapioca, one pint of milk, two table-spoonfuls of sugar, one egg, salt. The tapioca should be measured rather scantily, and should be soaked in cold water over night. In the morning add the milk, and cook for one hour in a double boiler; then add a pinch of salt and the sugar, which should be measured level and beaten with the yolk of the egg. Stir for one minute, then take from the fire. When the pudding is almost cold, beat the white of the egg quite stiff and fold it in. Flavor to taste.

RAW BEEF SANDWICH

A small piece of steak, two slices of bread, butter, seasoning. Sandwiches made in this way taste good and are quite nourishing. Usually the patient has no idea that the meat has not been

cooked. Lay the steak on a board and scrape both sides with a dull knife, leaving the tough sinews. Season with salt and pepper. Toast two slices of bread, and when you have buttered them spread the scraped meat on the toast. Turn the two slices together like a sandwich, cut them in strips, place them in the oven for a minute and then serve.

CREAM OF CELERY SOUP.

One pint of chicken or veal stock, one bunch of celery, one small piece of onion, one tablespoonful of butter, one tablespoonful of flour, one cupful of milk, one cupful of cream, salt and pepper. With these ingredients enough soup may be made to serve one person three or four times. After cleaning the celery cut both it and the onion fine. Put into a saucepan with the stock and let it simmer slowly for half an hour. Beat the butter and flour to a smooth, light cream. Stir into this a few spoonfuls of the stock; then add this mixture to the soup. Boil for ten minutes and rub through a fine sieve. Return it to the saucepan and add the milk. When this boils add the cream and heat the soup just to the boiling point. Season to taste with salt and pepper and serve at once. In case you intend to serve the soup several times return to the saucepan only half a cupful of the strained soup, adding a quarter of a cupful each of milk and cream and heating to the boiling point. The remainder of the soup may be kept in a cold place. Milk and cream being added and the soup heated when required.

TOMATO SOUP.

One cupful of tomatoes, butter, tiny pinch of soda, one cupful of milk, salt and pepper. Strain the cupful of tomatoes through a fine sieve in order to get rid of all the fiber and seeds. Pour the liquid into a granite kettle and add a piece of butter the size of a walnut. Heat to the boiling point. Add the soda, stirring well; and when the tomato stops foaming add a cupful of hot milk and salt and pepper to suit your taste. If you like, a tablespoonful of cracker crumbs may be added also. Serve at once.

BEEF TEA.

One pound of round steak, one and one-fourth pints of cold water, seasoning. It is best to have the meat from the hind quarter. Beat it thin. Let an ungreased skillet or frying-pan get smoking hot, and lay the beef in it for a few minutes, until it turns whitish on the under side; then turn it over and let the other side get in the same condition. When this has been done

remove it from the fire at once. Cut it in small pieces, and, covering it with the cold water, cook it at the back of the stove, where it will be just below the boiling point, for three or four hours. Salt to taste. If you wish the broth very delicate remove the bone before simmering the beef.

ALBUMEN WATER.

Whites of two fresh eggs, juice of half a lemon, cracked ice. During convalescence the doctor often orders eggs, eggs, eggs, and sometimes it is difficult to induce the patient to accept them. As is frequently the case that the white of the egg is the part which is most desirable for the patient, the following recipe may be used when everything else has failed: Put the unshaken whites of two fresh eggs in a lemonade-glass. Add the lemon juice and put in enough cracked ice to make the glass half full. Sweeten with especial care, as patients generally make more objection to too much sugar than too little. Place a shaker over the glass and shake until the whites are thoroughly broken up, but not too foamy. Put in enough cold water to fill the glass and give to the patient at once.

Remove the apples to a glass dish. Boil the syrup until it is a jelly, and flavor with lemon juice. When partly cool, pour the syrup over the apples and stand away in a cool place. Cook well, strain, let stand over night, strain again. To one pint of juice use one pint of sugar.—Miss Rose B. Cantels, Lolomai Lodge, Oak Creek, Canyon, Ariz.

MEATS

Broiled meats should be placed on a hot broiler, over red hot coals free from smoke, giving out a good heat, but not too brisk, or the meat will be hardened and scorched. Again, if the fire and coals are too low, the gravy will escape on the coals, creating a blaze and blackening the meat. When both sides are broiled, lay on hot dish, butter, and serve hot.

When roasting beef, have a good brisk fire, in order to retain the juices. If the beef is tough, it will take longer with a slower fire. Roasts should be put in the baking pan with very little water using suet under the roast and browned flour and suet on top. Baste frequently. Or roast in a patent roasting pan.

Boiling meat should be put in hot water to retain the juices and kept boiling until done. When a scum rises, skim off or it will boil into the meat and discolor it. Salt meat takes longer to boil and should be put in cold water. When boiling mutton or veal for stew, put it in hot water to cook. Soup bone must always be put in cold water, and boil slowly.

Lamb, mutton, veal and pork should be cooked slower than beef. An onion sliced and put on the top of roasts—especially pork, gives it a nice flavor.

Frying meats should be put in the skillet with little hot butter or fat. Many people emerge the meats in hot lard.

"How many ways can you serve meat?"

"Three, mum!"

"What are they?"

"Well done, rare and raw!"

BACON COOKED IN THE OVEN.

Boil well for fifteen minutes. Drain off all water and put in a hot dish. Have a frying pan red hot and throw in two good tablespoonfuls butter, brown nicely, then add one

teaspoonful vinegar. Pour this over the brains. Serve hot. From what is left over, delicious brain fritters can be made.—Contributed, Los Angeles, Calif.

CALEF'S BRAINS.

Place three calf's brains in cold water, and then peel off the skins. Wash again in cold water and dry. Put in sauce pan and cover with cold water. Add salt, one-half cupful vinegar, one sliced carrot, thyme, bay leaf, twelve unground pepper seeds. Boil ten minutes, drain well. Cut each brain in two. Dress platter with parsley. Serve hot. Or put black butter, or tartar sauce over platter.

Butcher, to boy—"I say, Pat, have you delivered Mr. Smith's joint, and Mrs. Jones's ribs?"

"That's right. Don't forget to cut off Mrs. Brown's skirts, and weigh Mrs. O'Malley's pigs' feet."

BEEF A LA MODE.

Three pounds pot roast, two medium sized onions, one-half dozen carrots, one-half dozen potatoes, salt and pepper. An iron kettle is preferable. Put butter in kettle and when hot place the roast in and let it brown on both sides. Then add sufficient water from time to time to keep it simmering. When half done put the carrots in that have been prepared by scraping and cutting lengthwise. Put in the onions (sliced or whole) with the carrots. When these are nearly done, add the prepared potatoes cut lengthwise. After the meat and vegetables have been removed add flour to liquid which makes a delicious gravy.—Mrs. E. H. Duffield, Williams, Ariz.

Bake in oven ten minutes, cover with chopped tomatoes and bake fifteen minutes and cover with grated cheese. Allow cheese to melt and brown. If you have large earthen platter the steak should be baked on this and served in sauce.—Mrs. W. D. Finney, Williams Ariz.

BROWN RIBS OF BEEF.

Boil ribs about four hours, then put in baking pan, slice around them about half inch thick several small onions, potatoes and carrots; baste with the liquor you have boiled the ribs in and season with salt, peper and Hungarian paprika.—Mrs. R. S. Teeple, Holbrook, Ariz.

ROAST BEEF WITH YORKSHIRE PUDDING.

Mix one pint sweet milk, four eggs well beaten, two scant cupfuls flour, one teaspoonful salt. About an hour before the roast is baked, pour off the fat from the baking pan, leaving just enough to keep batter from sticking to the pan. Pour in the batter. Put the oven grate over baking pan, and place roast on it, allowing the drippings to fall on the batter below. Oven should be brisk. Baste roast frequently with fat taken from pan and kept hot on the top of the range.—Contributed, Saginaw, Mich.

DELICIOUS ROAST BEEF.

Heat the baking pan hot, then put in beef and let it brown well, turn over and sear the sides thoroughly. This method retains the juices in the meat, then put in the pan and bake until done, basting as necessary. The inside will be pink and juicy.—Mrs. George Raney, Williams, Ariz.

YORKSHIRE PUDDING.

One cupful of sifted flour, one pint of milk, two well beaten eggs, salt and a pinch of baking powder. A pint of water may be used instead of milk in which case one tablespoonful of dripping may be used. Mix this batter smoothly, adding the eggs last. Instead of pouring the batter into the pan with roast it will be found an easier method at times to bake the pudding separately in a broad shallow pan for twenty minutes, cutting in squares and serving with the meat on top, and the gravy separating.—Mrs. George Raney, Williams, Ariz.

BOILED HAM.

Pour boiling water over the ham and when cool enough wash and scrape or use brush to remove all mold and dust. Then steam for six or seven hours, or until tender when pierced with a fork. When done take out and place into a baking pan to skin. Dip the hands in cold water, take the skin between the fingers and peel like an orange. Set in moderate oven, placing the lean side downward. BAKED HEART.

Now that the price of meat has gone past the contents of most purses, it is well to secure the most one can for the money expended. An ordinary beef heart, if properly prepared, makes a tasty dinner for a number of persons. There is no waste to a heart and the scales are not weighed down by bone. First, soak the heart for about twelve hours in salted water with a tablespoonful of vinegar added. Wash and drain. Put on stove with enough water to cover and let boil for about half an hour. Remove while boiling hard, and without lifting cover put in fireless cooker for from eight to twelve hours according to the age of the beef. If twelve hours is needed, it is better to reheat once during that time. Or, simmer on stove for five hours. Now, make a dressing as for a fowl and stuff the heart and bake one hour in a hot oven. Set the liquor away to cool, skim and use for soup stock.—Mrs. J. V. Roach, Wisconsin.

Put them in a bowl, season with tablespoonful salt, little cayenne, the juice of a lemon, tablespoonful sweet oil, teaspoonful ground mustard. Mix well together, roll lightly in flour, and broil five to eight minutes on each side. Or they can be fried in hot butter. Mix a tablespoonful of dry French mustard and three of very fine bread crumbs to a thin paste, adding alternately vinegar and butter; season this highly with salt, and both black and cayenne pepper. Make sufficiently soft to spread thin, but not to run. Take up the meat, place in a dry pan, cover well with the paste, then return to the oven and roast gently till the paste is a golden brown. Serve with mint sauce.—Contributed, Williams, Ariz.

FLAVORING FOR LAMB.

A most delicate flavor may be given to the lamb which is to be eaten cold if a few whole cloves and sticks of cinnamon are added to the water in which it is boiled. If roasted, boil the cloves and cinnamon in water and use this spiced water

to baste it with. Serve with mint sauce, garnished with sprigs of mint or curly parsley.—Juliet Hite Gallaher, Virginia.

STEWED KIDNEYS.

Soak kidneys in salt water over night, and boil until tender with little onion chopped fine. Place in sauce pan, one tablespoonful each flour and butter, cook to a nice brown, add one-half cup beef stock, one-half cupful cream, season to taste, boil good five minutes then add the cut kidneys. Serve hot with chopped parsley on top.—Miss Charlotte Wickstrom, Hartford, Conn.

THANKSGIVING MINCE MEAT.

One of the best and richest of mince meats is this, that has been in constant use in one family for more than a generation.

Chop fine in a meat chopper three pounds lean, tender cooked beef. The meat may be of roast beef or beef's tongue, which is used for the richest form of mince meat, or it can be from the round of beef, which is quite good enough for this purpose. Add to the meat a pound and a quarter of suet, freed from strings and chopped fine, six pounds tart apples, Spitzenbergs or nice Greenings, chopped in coarse bits; six pounds sugar, one pint molasses, four pounds seeded raisins, three pounds currants, well washed and thoroughly dried, one-half pound citron shredded fine, three pints sweet cider, three pints boiled cider, one quart of the stock in which the meat was cooked, three tablespoon powdered cinnamon, two tablespoonfuls each of salt and powdered cloves, one teaspoonful each white pepper, mace, allspice and nutmeg, three pints tart jelly, and as much more juice of preserves or jelly as the housekeeper may elect. Rose water may be added at the last if desired, and a quarter of a pound each candied orange or lemon peel are an

improvement. Chopped prunes are another excellent addition, as also cold coffee or any fruit juices that have commenced to ferment, but not moldy. This mince meat may be scalded or packed away in glass jars without cooking, its richness insuring its keeping. This should be allowed to ripen at least two weeks before using, and will last the average sized family from Thanksgiving until late spring.—John Langowsky, Fray Marcus Hotel, Williams, Ariz.

MINCE MEAT.

Two quarts chopped meat, four quarts apple, two quarts sweet cider, one quart molasses, four teacups of sugar, two tablespoonfuls salt, two teaspoons pepper, seven teaspoons each of cinnamon and cloves, four nutmegs, two pounds raisins. When making your mince meat put in a few quinces, finely chopped.

MINCE MEAT.

Take five or six pounds of scraggy beef—a neck piece will do—put it to boil in water enough to cover. Take off scum that rises when it reaches boiling point. Add hot water from time to time until it is tender. Then remove lid, salt, let boil until almost dry, turning the meat over in the liquor. Take from fire, let stand over night to get thoroughly cold. Pick gristle or stringy bits from the meat, chop very fine, mincing at the same time three pounds of nice beef suet; wash and dry four pounds of currants, four pounds of raisins; slice thin one-half pound of citron, six quarts of good tart cooking apples. Put in a large pan together with two ounces of cinnamon, one of cloves, one of ginger, four ground nutmegs, the juice and grated rinds of two lemons, one tablespoon of salt, one teaspoon of pepper, two pounds of sugar. Put in a porcelain kettle one quart of good boiled cider, one quart of nice molasses, a good lump of butter. Mix well with other ingredients, let boil ten to fifteen minutes. Pack in jars when cold. Pour molasses an eighth of an inch in thickness, and seal. This will keep for months. If not moist enough add a little hot water.—Mrs. J. H. Copeland, Point Richmond, Calif.

Let this mixture come to a boil.—Mrs. W. Patterson, Williams, Ariz.

ROAST MUTTON.

Take a leg of mutton and prepare for the oven in the usual way with salt, pepper and flour rubbed on it. Now add one small onion chopped fine and small piece of butter to brown. Put in hot oven, turning often until brown on all sides. Then roast in usual way. When done make the gravy, strain out the onion, or leave in as liked. Very nice with sweet potatoes browned in with the meat.—Mrs. N. J. Hudson, Los Angeles, Calif.

ROAST LEG OF MUTTON.

Cut off the shank bone, rub with salt and pepper, dredge with flour, roast till done with frequent basting, take up, pour off surplus fat from pan, add little browned flour to the remaining gravy, moisten with any good stock, add capers. Serve with mint sauce. Garnish roast on platter, with cooked peas in turnip cups.—Contributed.

IMITATION BARBECUE OF MUTTON.

Roast the mutton as usual, but about one hour before it is ready to serve, prepare the following mixture: One-third cup each of Worcestershire sauce, tomato catsup, and vinegar, saltspoon pepper, one rounded teaspoon mustard. Stick the

meat all over with a sharp pointed knife, pulling the gash open and filling with the mixture just prepared. If any is left pour it over the roast when it comes to the table. This is excellent.—Mrs. J. R. Ross, Williams, Ariz.

PEPPER POT.

Recipe of the Union League of Philadelphia.

Boil the tripe until tender which generally takes fifteen hours; when done, save the liquor to make soup. Cut up the tripe into small pieces, when cut up put them back into kettle with liquor, take some raw potatoes and cut them up into small pieces; take some raw onions and also cut into small pieces about the size of a large pea, then put in the following herbs; some sweet basil, some summer savory and a bunch of pot herbs; salt to taste, and also some cayenne pepper, some butter. Then make some dough about one-fourth inch thick and make into small dumplings about the size of a gooseberry, put the dumpling in the pot about five hours after the other ingredients have been boiling, and then let the pot be on the fire four hours longer to cook the dumplings.—Contributed, Saginaw, Mich.

CHICKEN PIE.

Boil one large or two small year old chickens till thoroughly cooked, with broth to cover it when done. Make a rich baking-powder biscuit dough, roll thin, line the sides of a deep three quart basin, lay in the pieces of chicken, sprinkle with salt, pepper and lumps of butter and drop in little pieces of the dough. Thicken the broth with a tablespoon of flour and turn in enough to cover the chicken. Roll a piece of the dough one-half inch thick and cover the pie, being careful to make holes in the cover for the steam to escape.—Mrs. H. F. Adams, Williams, Ariz.

ROAST YOUNG PIG.

Clean nicely. Do not remove head or feet. Make a stuffing of dry bread, moistened with warm water; add grated onion, one beaten egg, season with salt, pepper, sage, and savory. Fill the opening with above stuffing, and sew up. Stand the pig in a pan of water, beef stock, butter and onion, and baste often. Cover nose and ears with a paste jacket, if the oven be too hot. Bake slowly for three hours. Put a corn cob in his mouth. Serve hot with stuffed baked apples, and garnish with water cress. This will be nice cold for luncheon.—Contributed, Williams, Ariz.

“The pen is mightier than the sword.”

PORTERHOUSE STEAK AND MUSHROOMS.

Put in granite pan two tablespoons of butter, a small onion, a pinch of thyme, put over the fire. When melted stir in slowly two tablespoons flour (taking from the hot fire while mixing). When it is slightly browned, add a cup of water and let it simmer. Add three tablespoons of beef stock, a tiny bit of nutmeg. Put in mushrooms and cook fifteen minutes. Pour over steak and serve.—Mrs. R. C. Wente, Williams, Ariz.

ROAST LOIN OF PORK.

Wash and wipe the pork, score the skin with a sharp knife and season with salt and pepper. Place in a dripping pan, pour one teacupful of water in the pan and bake in a hot oven, allowing fifteen minutes to the pound. Baste frequently with the drippings in the pan. When about half done wash and wipe either sweet or Irish potatoes of medium size and put in the pan. When cooked, place the meat on a heated platter. Serve with its own gravy and apple sauce. Garnish with celery tops and pickles.—Jane E. Clemmens, Ohio.

RECIPE FOR SCRAPPLE.

Everyone who eats the scrapple which I make finds it so pleasing to their palates that they request the directions for the making. Instead of using hog's head, as my mother used to make, I use a quarter's worth of good steak, five cents' worth of fresh pork, put them through the meat chopper and put on in water to boil until done and water is left just sufficient to take up corn meal to the consistency of mush. Stir very rapidly while slowly pouring in meal. Salt to taste and mould in a long, narrow, square pan. When quite cold and solid, slice in thin strips, dip in meal and fry in boiling lard. It makes a fine fish course, as few can tell it from fish.—Mrs. H. A. W., Cynthia, Ky.

BAKED PIG'S SHOULDER.

Cook in quite salt boiling water two hours with whole allspice and cloves. Take out and skin, brush the top with beaten egg, sprinkle seasoned bread crumbs on top and sides, with slices of onion. Bake an hour or until done in a slow oven. Serve hot with apple sauce. Garnish the platter with corn balls and parsley. Delicious sliced cold for next day's luncheon.—Miss Charlotte Wickstrom, Hartford, Conn.

RIB ROAST STUFFED.

Remove the bones from the meat, flatten the meat and pepper and salt well. Make a rich dressing moistened with egg. Pour the dressing into a hot frying pan with a little melted lard. Stir until thickened, spread over the meat, roll, tie and bake. Press and slice cold.—Mrs. George Raney, Williams, Ariz.

PORK TENDERLOIN ROAST.

Split pork tenderloin lengthwise on the side, put a layer of dressing between the two pieces and then bind or sew them together. Cut a small carrot and a small onion in pieces and lay in the bottom of a baking pan and put the tenderloin over this. Put some slices of fat pork or bacon on top of the pork. Peel Irish potatoes and lay around the outside of the pan. Bake meat until tender. Select uniform sized and rather small potatoes, or they will not be sufficiently baked by the time the pork is tender.—Mrs. O. Ramey, Williams, Ariz.

INDIAN STEW.

Cut up and stew a fowl half done, then add a cup of raw rice, a slice of ham chopped fine, pepper and salt. Let all cook together until the rice swells and absorbs all the gravy of stewed chicken. Do not allow it to get hard or dry. Serve in a deep dish. This may be made of many kinds of meat. Veal is very nice cooked in this way.—Mrs. George Raney, Williams, Ariz.

IRISH STEW.

Select lean pieces of mutton cut in strips, put in about quart of water and stew until nearly tender; add medium sized potatoes, onions, turnips (and cabbage if desired), season to taste, and cook until the vegetables are tender. If liquid boils away, add any good stock—but mutton preferred. Serve hot, meat and vegetables together.—Contributed, Williams, Ariz.

IRISH STEW.

Chop mutton or beefsteak or both together; add raw potatoes sliced very thin, two onions and two small carrots; season with pepper and salt. Cover with water in a stew pan and stew gently until meat becomes tender and the potatoes are nearly dissolved in the gravy.—Mrs. E. Pallett, Williams, Ariz.

MERSHON WOODS STEW.

In the first place take a pot that is going to be large enough to hold enough of the stew to at least serve each of the participants twice, for I have found that as a rule they come back for the second helping. For instance, if you are going to serve thirty people, I should take one and one-half pounds of fat pig pork, salted; after cleaning and scraping thoroughly, cut it into very thin slices, the thinner the better. Then take a knuckle of veal with a few of the short ribs, fat enough to make an addition to the knuckle of at least a pound of the veal. One and one-half pounds or so of mutton, *not lamb*, but mutton, and I always preferred the brisket or the rib piece. One and one-half pounds lean beef cut into small squares, say not over one inch square. The veal and the mutton also want to be cut up. One fowl, weighing four or five pounds, and cut it up into eight or nine pieces. Disjoint it. Above all things, do not break a bone, that is, take off the drum-sticks at the joint, and the second joint at the hip joint, remove each wing, then break the back bone into two pieces and leave the breast whole. If you have not the fowl, two spring chickens are even better. Never put a rabbit in the stew, but a partridge or a nice young squirrel, or a small piece of venison would be a welcome addition. So much for the meat portion. If you have fresh parsnips, clean and slice about four medium sized ones, that would be sufficient. Potatoes are the main single ingredient, and after they are quartered or sliced, not too fine, you should have at least three quarts of them. Six or eight carrots, sliced onions sufficient to fill a two-quart basin; one-half dozen raw tomatoes if in season, or one quart can of same; one quart can of corn, or half a dozen ears scraped from the cob, if in season; two handfuls of lima beans, one pint shelled peas, or the canned article will do. If you have some of the old fashioned yellow rutabagas, peel and slice about four. Cut up fine one-half head of cabbage, a fair supply of the green gumbo, or failing in that, at least a pint of the canned. Now you are ready to begin work.

First. Sprinkle the bottom of the kettle with the sliced potatoes, then put in a layer of salt pork, then some one of the other vegetables alternating with the meat, duly seasoning each two or three courses as follows: Be sure to get plenty of pepper in, I usually take six or eight little red peppers and one handful of pepper-corn, and in addition to this grind a few of the pepper-corns. If you have one or two old fashioned bell peppers that have gone to seed, put them in whole, but plenty of pepper is essential. Of course, it must be salted, but you

can always add salt but not take it out, so be careful about putting in too much salt.

Have a kettle that is large enough so that when all of these ingredients are put in, that not to exceed two-thirds of its capacity has been filled. Then put in pure, cold water, sufficient to cover all two, two or three inches.

Now put it on the stove and as it comes to a boil, put it on the back of the stove so it will only simmer; *above all things do not let it boil hard*, but it should be kept *bubbling and sputtering* away just to about a boil, practically, for fully two and one-half hours. It would be good for nothing if it is any less than this. It is better if it cooks four or five in this same way. Leave the cover off the pot so it will evaporate some, occasionally skimming it.

Serve it as a soup or soup-course, and you will find that if it comes on the table hot and all right that your guests will want very little else for dinner, and it is perfectly admissible to come back, like Oliver Twist, for more.—Wm. B. Mershon, Saginaw, Mich.

CREAMED SWEETBREADS.

Soak sweetbreads in salt and water over night. If young, boil in hot water fifteen minutes. Drain and remove the sinews. Pick to pieces and stew five minutes in butter gravy, seasoned with pepper and salt. Squeeze in some lemon juice just before serving. Garnish with water cress and serve on toast or in any desired way. If any remains after the meal, make a salad for the next day.—Miss Charlotte Wickstrom, Hartford, Conn.

SWEETBREADS AND MUSHROOMS.

Two small pairs sweetbreads, parboil, remove all strings and fibre and cut each one into two pieces. Heat one tablespoon butter and lay them in. Saute quickly, turning them once. Sprinkle with salt and lay on hot dish one-half can mushrooms cut in halves. Drop these into the pan, add one-fourth cup cream, thicken quickly with one tablespoon flour and when it bubbles stir smooth and remove from the pan. Pour the whole on a hot dish around the sweetbreads.—J. W. Bayles, Williams, Ariz.

SWEETBREADS.

One pound of sweetbreads soaked in salt water for one-half hour, then boil (with an onion) until tender; when nearly cool skin and pick in small pieces. Take one pint of cream, one

heaping tablespoonful of butter into which mix one tablespoonful of flour, one tablespoonful of Worcestershire sauce, one can of French mushrooms; boil these together for a few minutes stirring to keep from burning. Green peas can be used instead of mushrooms. Chicken can be used in place of sweetbreads when thoroughly boiled.—Mrs. E. B. Perrin, Williams, Ariz.

SWEETBREADS AND BACON.

Parboil the sweetbreads, drain them and remove the gristle and fat. Dip into beaten egg, which is seasoned with salt and pepper, roll in cracker crumbs and fry in the pan in which bacon has been fried. Drain and serve with the slices of bacon.—Contributed, Williams, Ariz.

SWEETBREADS.

Scald in salted water, remove stringy parts; put in cold water five or ten minutes; drain in towel; dip in egg and bread or cracker crumbs, fry in butter.—Mrs. E. Pallett, Williams, Ariz.

SAUSAGE ROLLS.

Make a dough as for pie crust, roll it out in a round piece about as big as the ordinary saucer. In the center of this put a flat thin cake of fresh sausage meat and roll it up in the crust, pinching the ends together just as if you were making an apple dumpling. Put it in the oven and bake until done, which will usually be twenty-five or thirty minutes.—Contributed.

TAMALE PIE.

Two quarts boiling water well salted, one tablespoon butter or lard thickened with yellow corn meal to the consistency of mush, three pounds round steak boiled tender, two medium sized onions, three medium sized green chili peppers. Put all through meat chopper and cook in butter; while cooking add seven or eight fresh tomatoes or one quart canned tomatoes and salt to taste. Line bottom of large granite baking pan with mush then with layers of tamale well dotted with olives and so on. Last layer should be of mush. Moisten well with the broth meat is cooked in and bake in slow oven one hour.—Mrs. Robt. W. Bryden, Los Angeles, Calif.

ESCALLOPED TONGUE.

Chop some cold tongue, not too fine, and have for each pint one tablespoon onion juice, one teaspoon chopped parsley, one

heaping teaspoon salt, one teaspoon capers, one cup bread crumbs, half a cup of stock and three tablespoons butter. Butter the dish and cover the bottom with bread crumbs. Put in the tongue which has been mixed with the parsley, salt, pepper and caper, and add the stock in which has been mixed the onion juice. Put part of the butter on the dish with the remainder of the bread crumbs and then bits of butter here and there. Bake twenty minutes and serve hot.—Mrs. J. R. Ross, Williams, Ariz.

SPANISH TONGUE.

Boil tongue until tender, and for sauce use one small can of tomatoes, one can of mushrooms cut into small pieces, one tablespoonful of ground red chili, two tablespoonfuls of Worcestershire sauce, one heaping teaspoonful of flour mixed with a little cream to be added when ready to serve.—Mrs. R. S. Teeple, Holbrook, Ariz.

SPANISH TONGUE.

Cook tongue until tender; peel and simmer slowly in sauce for one hour. Sauce: To one can of tomatoes add onion and green chili to taste, one-half teaspoon allspice and pinch of salt. Cook sauce until it begins to thicken before putting in tongue.—Mrs. A. V. Wagner, Williams, Ariz.

MOCK TURTLE.

Cut a round of beefsteak about one and a half inches thick, cut to form a pocket, season with salt and pepper and fill with turkey dressing. Sew up the end and fasten slices of fat bacon on the roll with toothpicks and bake, basting often. Add a little boiling water the last half hour and before serving thicken gravy with a little browned flour. Remove bacon and toothpicks before serving.—Mrs. George McDougall, Williams, Ariz.

VEAL LOAF.

One and a half pounds raw veal chopped fine, one-third cup cracker crumbs, one well beaten egg, one-half teaspoon salt, one-half teaspoon pepper, one-half teaspoon ginger, one-half teaspoon sage, one small onion cut fine, one-half cup water and two tablespoons butter. Remove skin and membranes from the lean veal and chop or grind it fine. Add the crackers, then the eggs and then the other ingredients. Mix well; put in a buttered pan, pressing it in compactly, and put lumps of butter on the top. Bake two or three hours and serve cold, cutting in thin slices.—Mrs. O. Ramey, Williams, Ariz.

VEAL LOAF.

Three pounds of raw veal chopped very fine, butter the size of an egg, three eggs, three tablespoonfuls of cream or milk; if milk use a small piece of butter. Mix eggs and cream together; mix with veal six crackers, crushed fine, one-half teaspoonful black pepper, one large tablespoonful salt and one large tablespoonful sage. Mix well together and form into a loaf. Bake three hours in moderate oven, basting with butter and water while baking. Serve cut in slices.—Manistee Public School.

VEAL WITH ASPARAGUS.

In a hot pan put the yolks of two hard boiled eggs rubbed to a paste with one tablespoon melted butter. Heat with one-half pint rich milk or thin cream, stirring well. Put in two cups of tender roast or stewed veal cut in cubes and one cup asparagus tips, add salt and pepper to taste and cook five minutes.—J. W. Baylis, Williams, Ariz.

VEAL SAUSAGE.

Two pounds veal steak, one-fourth pound salt pork chopped, season with salt, pepper and a little sage.—Mrs. William Wente, Manistee, Mich.

VEAL STEW.

Cut veal into good sized squares. Put in the pot with boiling water, add one sliced carrot, one sliced parsnip, one small onion, one tablespoon salt. Boil two hours. Remove vegetables fifteen minutes before serving, adding several small peeled potatoes, and egg dumplings, and cover tight. Dumplings can be steamed if preferred. Thicken gravy and serve on a large hot platter garnished with water cress.—Miss Charlotte Wickstrom, Hartford, Conn.

VEAL TERRAPIN.

Cut lean roast veal into dice, brown one tablespoon flour, add one cup milk and cook until smooth, add the veal. Season to taste with salt and cayenne, add three hard boiled eggs coarsely chopped, one-half teaspoon lemon juice and cook five minutes longer and take from tin. Garnish with potatoes and hard boiled eggs. Shrimps can be used instead of veal.—Mrs. Will McIntyre, Phoenix, Ariz.

PRESSED VEAL.

Boil until thoroughly done three and one-half pounds of veal and one and one-half pounds of salt pork (with lean and

rind removed), salt and pepper to taste, then chop very fine. Dressing: Use one cup of the liquid, butter size of an egg. Let this come to a boil and stir in two well beaten eggs. Boil two minutes, stirring constantly to keep it smooth. Add more salt and pepper if necessary. Pour over the chopped meat and mix well. Place in a pan and press.—Mrs. C. H. Hodskin, Manistee, Mich.

VEAL PIE.

Place in a pot three pounds veal cut in pieces about two inches square with hot water enough to cover; a little grated onion, little grated carrot, butter size of an egg, nine small peeled potafoes. Put in a sauce pan, two tablespoonfuls flour, one tablespoon butter, brown nicely, add one-half teacupful sweet cream. Pour the veal mixture in this, letting it boil up good. Season to taste and put all in a bake dish. Make a nice biscuit dough for the upper crust, and place over bake dish, making about five holes in crust for ventilation. Bake twenty minutes or less. Fill holes with blackberry jelly and serve hot.—Miss Esther Hanson, Hartford, Conn.

Foods Without Meat

(Continued from page 42)

Stuffed Vegetable Marrow

Nuts and Carrots

Run through a meat-grinder two carrots and half a cupful of pecan meats. Moisten with cream and set on the stove until heated through. Stir in half a cupful of cream, a teaspoonful of butter, and salt and pepper to taste. Heat again and serve.

Scrape some salsify roots well and lay them for half an hour in cold water. Then boil till tender and drain. Beat them with a wooden spoon to a soft paste. To every cupful of salsify, stir in a teaspoonful of butter and one egg well beaten. Moisten with milk. Season to taste and put in china fish shells. Cover with pieces of butter and breadcrumbs and brown in the oven before serving.

Brown Haricot Soup

The stock from these beans makes a very delicious and rich soup. Take one-half pound of haricot beans. Wash and stew them in one quart of water and two small onions. When the beans crack add a few tomatoes, a sliced leek and a bunch of soup herbs. Boil for an hour. Rub through a sieve and return to the saucepan. Stir in a tablespoonful of butter and the juice of half a lemon.

A Substitute for Meat Stock

This may be obtained by stewing haricots, peas or lentils and using the juices extracted as the meat juices are used.

Chestnut Soup

Boil two pounds of chestnuts for one hour. Strain and rub through a sieve. Pour the chestnuts in a saucepan with a little chopped onion, mace, pepper and salt. Boil again for ten minutes; then stir in one-half pint of milk and a tablespoonful of cream.

To one tablespoonful butter add one teaspoonful anchovy essence. Mix well and keep on ice for general use.

BUTTER SAUCE FOR BOILED FISH.

One tablespoon each butter and flour, melt the butter by placing it in a sauce pan on top of a kettle of boiling water. Do not melt on the stove for that fries and scorches it. When melted stir in the flour until smooth, then add a good half pint of boiling water, one teaspoon finely chopped parsley. Let it all warm to a boil, then take it off the fire and stir in the yellow of an egg, and a little salt to taste.—Contributed, New York, N. Y.

BLACK BUTTER SAUCE.

Warm two tablespoonfuls butter in frying pan until it becomes brown. Add six parsley leaves chopped, heat again for a minute, add five drops of vinegar. Pour into sauce bowl and serve.

MELTED BUTTER SAUCE.

One tablespoonful butter, one teaspoonful flour. When melted and smooth add juice of half a lemon. Serve with Brussel sprouts.

Three cups cranberries, three-fourths cup boiling water, one and one-fourth cups sugar. Pick over and wash cranberries. Put in sauce pan, add sugar and boiling water. Cover and cook slowly until berries are tender. Stir as little as possible. Skim off scum and cool.—Manistee Public Schools.

CURRY SAUCE.

One tablespoonful butter, one tablespoonful flour, one teaspoonful curry powder, one large slice of onion, one large cupful stock, salt and pepper to taste. Cut onion fine and fry brown in butter. CREAM SAUCE FOR FISH.

Place in a bowl one-half cup butter which has been creamed add yolks of four well beaten eggs, juice of half a lemon, half a teaspoon salt and a dash cayenne pepper. Then add slowly one cup hot water. Mix well, set into a sauce pan of hot water on the range, stirring until the sauce becomes a thick cream. Do not let boil. Remove from stove and beat a few moments. If too thick, thin with sweet cream before serving. Serve in boat. Garnish with egg and chopped parsley.—Mrs. Wm. F. Dermont, Williams, Ariz.

Make good butter sauce, and mix some slices of fried cucumbers. Use with boiled salmon or trout. Lemon juice improves this.

HOLLANDAISE SAUCE.

Two tablespoonfuls vinegar, one pint sweet milk, one-half cup oil or melted butter, one-half teaspoonful dry mustard, one-half teaspoonful cayenne, one teaspoonful paprika, six eggs, salt to taste. Boil vinegar with seasonings; meanwhile separate the yolks and whites, beating them separately; bring milk to a boil; pour it over the yolks, then add the boiling vinegar, stir on the range till it just thickens like custard (do not let it boil or it will curdle). Remove from the fire and beat the whipped whites with the melted butter or oil, then put away for future use. Serve warm or cold.—Mrs. Dermont, Williams, Ariz.

MAYONNAISE SAUCE FOR FISH.

Take raw yolks of eggs, beat in a little olive oil slowly; when becomes like butter add salt, then little more oil, then dry mustard and cayenne; then alternately oil, vinegar and lemon juice until thick enough to spread. MENUS, LUNCHEONS, SPECIAL DINNERS AND TABLE ARRANGEMENTS

"O hour of all hours, the most bless'd upon earth,
Blessed hour of our dinners!"

—Lucile.

MENUS.

"Variety is the spice of life."

While these menus are simple and in some ways comparatively complete, it is not to be supposed that they can always be carried out in detail. They will, however furnish suggestions to housekeepers and entertainers who are daily perplexed with the question: "What shall we have to eat today?"

On the table spread the cloth,
Let the knives be sharp and clean;
Pickles get and salad both,
Let them each be fresh and green.

DINNER TABLE ARRANGEMENT.

The first requisites for a well appointed table are immaculate linen, sparkling cut glass and china, and well polished silver. The centerpiece is either of cut flowers, a fern or fruit. At each cover a service plate is laid; upon this plate the one containing an appetizer, or clams or oysters, is placed. Knives, forks and spoons are laid one-half inch from the edge of the table and are arranged in the order in which they will be used, the first required being placed farthest from the plate. The knives are arranged on the right of the plate. To the right of the knives lay the spoon for the soup, just outside of this place the oyster fork, then the spoons as needed. To the left of plate are the forks with their tines turned up: the fish fork, then roast fork, and the salad fork close to the plate. A folded napkin may be laid upon the service plate if the first course is not already upon the table. Place cards are about the size of the conventional visiting card. The water tumbler is placed at the end of the knife nearest the plate. The service plate should not be removed until the meat course is brought in. Whatever is served should be set down at the right, whatever passed offered from the left, that the guest may help himself. No tray is used, but the maid may have a folded napkin in her hand upon which to hold the plates which she puts before the guest.—Mrs. K. W. Williams, Cynthia, Ky.

BOY'S BIRTHDAY PARTY.

(Prize from N. F. Magazine, Mrs. Woody.)

The table was so much admired at my boy's birthday party, I will send a description.

The cover was made of cotton batting and over this was thickly spread diamond dust. Smilax was pinned in festoons to form a border, circling up around each plate. A flat centerpiece of large feathery ferns was held in place by a five-burner silver candelabra with pink candles and shades. At either end tall cut glass vases held many pink carnations. Gliding from one to another and wrapping in and around the center was pink ribbon, and, as though stepping aside to avoid being caught in it, tiny china shepherdesses' in pink held aloft pink candles. Placer plates had decorations of pinks and ferns.

Cakes and ices carried out the color scheme, and when the bright faces of the little folk surrounded the table, it made a glittering and beautiful picture.

RECIPE FOR COOKING HUSBANDS.

One of the lecturers before the Baltimore cooking school gave the following recipe for cooking husbands:

"A good many husbands are utterly spoiled by mismanagement. Some women go about it as if their husbands were bladders, and blow them up. Others keep them constantly in hot water. Others let them freeze by their carelessness and indifference. Some keep them in a stew by irritating ways and words; others roast them. Some keep them in pickle all their lives. It cannot be supposed that any husband will be tender and good, managed in this way, but they will be truly delicious when properly treated. In selecting your husband you should not be guided by the silvery appearance, as in buying mackerel, nor by the golden tint, as if you wanted salmon. Be sure to select him yourself, as tastes differ. Do not go to the market for him as the best are always brought to your door. It is far better to have none unless you will patiently learn how to cook him. A preserving kettle of the finest porcelain is the best, but if you have nothing but an earthenware pipkin it will do with care. See that the line in which you wrap him is nicely washed and mended, with the required number of buttons and strings tightly sewed on. Tie him in the kettle with a strong silk cord called comfort, as the one called duty is apt to be weak. Make a clear, steady fire out of love, neatness and cheerfulness. Set him as near this as seems to agree with him. If he sputters and frizzes do not be anxious; some husbands do this until they are quite done. Add a little sugar in the form of what confectioners call kisses, but no vinegar or pepper on any account. A little spice improves him, but it must be used with judgment. Do not stick any sharp instruments into him to see if he is becoming tender. Stir him gently, watching the while, lest he lie too flat and close to the kettle and so become useless. You cannot fail to know when he is done. If thus treated you will find him very relishable, agreeing nicely with you and the children, and he will keep as long as you want unless you become careless and set him in too cold a place."

MISCELLANEOUS

FOR RATTLESNAKE BITE.

Apply soda slightly moistened to make a paste to the wound. When it becomes discolored, remove and put on a fresh application until the soda ceases to be discolored.—Contributed.

THE BUG REMEDY.

Ammonia, corrosive sublimate, turpentine. The Williams Drug Company knows how to proportion it. It is decidedly the best ever used.

Quick silver and white of an egg destroys bed bugs.—Contributed.

NECESSITIES.

Beef stock will be found useful for gravies, sauces, etc. Beef stock will not keep longer than a week.

Browned flour is always useful and should be kept on hand.

THE DOUGLASS MIXTURE.

This ought to be printed everywhere: One-half pound copers, one ounce sulphuric acid and two gallons soft water. *Be careful with the sulphuric acid.* Let settle twenty-four hours and drain off. Put in bottles or stone jars. Add one teaspoonful of the mixture to each pint of drinking water for fowls.

"Since I've been married I don't get half enough to eat."

"Well, you must remember that we are one now."

When frying eggs after frying bacon or ham, sprinkle flour in the pan to prevent eggs from sticking to pan.—Contributed.

SURE DEATH TO FLIES.

Instead of bothering with sticky fly paper, try this method: Put two teaspoonfuls of formaldehyde in a pint of water, pour into saucers and set on table. Flies are attracted and drink the water; some die in water and others drop near and are easily swept up and burned.

FOR MOTHS.

Saturate an old sheet with formaldehyde and hang up in the closet, first stopping up both cracks and keyhole and leave for twenty-four hours. One or two such applications through the season will prove sufficient.

TO SET COLOR IN SUMMER DRESSES.

Plunge them into boiling water with one tablespoonful of coarse salt which has been previously melted. The color in the daintiest gown will not fade hereafter.—Mrs. Finney, Williams, Ariz.

How to gain flesh—buy a butcher shop.

HAND LOTION.

Two ounces of glycerine, five ounces alcohol, one dram ammonia, ten drops carbolic acid, one dram extract violet.

HAIR TONIC.

One ounce lanoline, one ounce coco butter or lard, one dram coal oil, one-half dram tincture cantharides, one-half dram listerine, one-half dram oil peppermint. Melt lanoline, slowly add lard and then others. Apply two or three times per week to the roots of the hair with tips of fingers. Rub in thoroughly with balls of fingers.

"I saw a big rat in my cook-stove and when I went for my revolver he ran out."

"Did you shoot him?"

"No; he was out of my range."

CARE OF CHILDREN'S TEETH.

The first thing to be said in regard to children's teeth is *never allow a pacifier* under any circumstances, not only because it is not sanitary, but because, it *in each and every case* causes a deformity that can never be perfectly corrected in after life by surgery or otherwise.

Thumb sucking is almost or quite as bad, so mothers, do not allow your little ones to continue this habit, because it looks "cute" while baby is tiny, as the time will come when baby is an over-grown boy or girl and it does not look cute, and in the meantime, the damage has been done. If the teeth protrude, the upper bone in the mouth has become misshapen and the whole facial expression has changed for life and no two teeth in the mouth will ever be in the place intended for them, thus causing mouth breathing, which in turn causes "adenoids" or other trouble with the throat and nose.

After two years a child is supposed to have all the temporary or baby teeth, which should be cleaned (with a nice little brush all his own) every day by mother, and closely watched for small black spots, which as soon as found must receive the family dentists' care. Often these little spots appear as early as three

years, and if taken in time may be treated by him without any drilling or filling, which in most cases is quite distressing to the little one. However, these twenty teeth must be kept in their proper places until *time* for them to be replaced by the permanent ones, which only begin to appear at six years, and if a child has never been taken to the dentist before, it must be taken at the age of six. Mothers, if you wish healthy, beautiful teeth for your little ones, remember this.—Florence R. Atkinson, D. D. S., Chicago, Ill.

CURRY POWDER.

Two ounces mustard, two ounces black pepper, six ounces coriande seed, six ounces tumeric, one-half ounce red pepper, one ounce cardaman, one ounce cummin seed and ground cinnamon. Pound fine, put in a bottle, cork tight and keep for seasoning gravies, etc.—Mrs. Wm. F. Dermont, Williams, Ariz.

TO KEEP NEEDLES.

A soda mint bottle, with a little screw top, makes an excellent holder for needles, to keep in the workbag. It is especially good for damp climates, as the needles will not rust. It can be made a thing of beauty by covering it with a bit of the material of which the bag is made (preferably silk, as this will work up better); and a workbag given for a present is doubly acceptable if some such little thing as this is added to give a distinctive touch.

SMALL POX AND SCARLET FEVER REMEDY.

One grain sulphate zinc, one grain Fox Glove (digitalas), half teaspoon sugar. Mix with two teaspoons of water, when thoroughly mixed, add four ounces of water. Take a tablespoon every hour.—Contributed.

TO TAKE SPOTS OUT OF WOOL IN CLOTH.

Two ounces of ammonia, one ounce castile soap, one-four ounce saltpeter, one quart rain water.—Mrs. Geo. A. Cole, Middletown, Conn.

RECIPE FOR REMOVING GREASE SPOTS.

One pint aqua ammonia, one-half pound best white soap, one ounce saltpetre, one gallon water. Shave the soap fine, add the water, boil until soap is dissolved. Let it get cold, add salt petre, stirring until dissolved. Strain, let suds settle, skim

off dry suds, add ammonia. Bottle and cork at once. Directions for use: For grease spots pour upon the article to be cleaned a quantity, rubbing well with a clean sponge, and applying to both sides of the article you are cleaning. Upon carpets or coarse goods when the grease is hard and dry use a stiff brush, and wash with clear, cold water. One application is all that is necessary for fresh grease spots, but for old and dried a second may be required. For Shampooing: Take a small quantity with an equal quantity of water, apply to hair with stiff brush, and wash out with clear water. For Cleaning Silver Ware, etc.: Buy five cents worth of whiting, mix a small quantity, rub with rag. For Killing Bed Bugs: Apply to places they frequent. It will not injure the finest laces or silk.—John B. Campbell, Williams, Ariz.

TO WASH CENTERPIECE.

Never put the embroidered centerpiece in with the family laundry. Wash them by themselves in suds of warm water and pure soap. The ordinary yellow kitchen soap is altogether too strong for delicate work. Wash by rubbing between the hands, and rinse well in two clear waters. In wringing, put it between two towels and twist. The object is to keep the parts of the embroidery from touching each other and prevent the colors from running. Let the piece get nearly dry, place it on a well-padded ironing board, lay a piece of white cloth over it and press with the iron. Do not have the iron hot enough to steam. Do not press too hard or it will mat the threads in the embroidery. In case a part of the linen should get too dry, lay a damp cloth on it and press over that.—Contributed.

TO TAKE IRON-RUST OUT OF LINEN.

Put two or three pints of water in the tea-kettle and let come to a boil. Rub the spots on linen with fresh cut lemon and hold over spout of the kettle. If spot does not disappear repeat until it does.—Mrs. Tom Smith.

Don't pick a quarrel before it's ripe.

TO WASH POINT LACE, TATTING OR ANY DOILY WITH LACE EDGE.

Cleanse gently with warm water and a pure, white soap, squeezing, not wringing. Have the last rinsing water in a vessel sufficiently large that the doily will float out flat, then slip under it an old napkin or towel, roll up, and let lay a while before ironing. With such a process the edges do not mat, but may be shaken out like new.

TO WASH BEDDING, OR OVERALLS, OR ANY HEAVY GARMENT.

Lay article flat on table or washboard and with ordinary scrub-brush, soap and warm water, scrub thoroughly on one side then on the other until all parts have been covered. In rinsing, souce it up and down in clean water and hang up to dry without wringing. By this method there will be no streaks or wrinkles in the garments.

When cooking anything which is likely to boil over, such as rice, macaroni, breakfast foods, postum cereal, etc., add a small quantity of butter when the food is placed on the stove and all trouble will be avoided.

OYSTERS

OYSTERS A L'AMBROSIA.

Take three dozen oysters and cut them into dice; make some white sauce by taking some of the oyster liquor; put this with a little red pepper and half a cupful of milk into a basin, then put a heaping tablespoonful of butter into a saucepan over the fire; take a tablespoonful of flour and mix it into a paste with a little of the oyster liquor, and then add the strained liquor to it; pour into the saucepan with the melted butter, and cook it over the fire until thick; remove from the fire and add the juice of half a lemon, add to this one cupful of liquid aspic jelly, and then stir in the chopped oysters very lightly and a gill of cream; turn out on a plate and place on ice till cold and firm. When it is so, shape it into round balls of equal size, about the size of tangerine oranges; smoothe them over with a knife dipped into hot water, and place on ice, or mold them into balls. Have ready some stiff aspic jelly flavored with a few drops of chili vinegar, and when it is in a semi-liquified state and beginning to set, dip each oyster ball into it. This is best done by running a thread through each ball and dipping into the jelly, or lining the balls with aspic and filling in with the oyster mixture. They should be colored red, green, yellow and white, and arranged in a pile like cannon shot; shredded celery, sippets of lemon, and chopped aspic may be used as garnish.

OYSTERS IN BLANKETS.

Have thin slices of bacon, roll each oyster in a slice and fasten with a small toothpick. Have the frying pan quite hot; put in the rolls and cook till the bacon is crisp, pouring off the fat as it accumulates in the pan. Serve on fingers of crisp toast.—Mrs. W. F. Dinney, Williams, Ariz.

OYSTER COCKTAIL.

Three teaspoons horseradish, three teaspoons vinegar, five teaspoons lemon juice, one-half teaspoon tobasco sauce, salt to taste, and one pint of oysters. Mix and serve in tall, thin glasses. This recipe will serve six people.—Mrs. Roy Perkins, Williams, Ariz.

OYSTER COCKTAIL.

Mix together the strained parts: One-half lemon, one-half teaspoonful vinegar, eight drops tobasco sauce, one-third tea-

spoonful mixed horseradish, one-half teaspoonful tomato catsup. Let this stand until needed, in a cool place. Have glass in which this is served very cold and pour the above ingredients over four or five small oysters.—Miss Alma Peterson, Trout Creek, Mich.

OYSTER COCKTAIL.

Mix together the strained parts of, one-half lemon, one-half teaspoonful vinegar, eight drops tobasco sauce, one-third teaspoonful prepared horseradish, one-half teaspoonful tomato catsup. Add dozen small Bluepoints, let stand five minutes. Keep on ice until needed. Serve two or three oysters in each glass or dish. Delicious.—Mrs. M. S. Carpenter, Hackensack, N. J.

OYSTER COCKTAIL.

One cup chili sauce, five drops lemon juice, one-half teaspoonful mixed horseradish, three drops Worcestershire sauce, two drops tobasco sauce. Season with pepper and salt to taste. Set on ice until ready to serve. Serve four small oysters in each glass or dish, pouring above ingredients over oysters. This serves six persons.—Mrs. Dermont, Williams, Ariz.

OYSTER COCKTAIL.

One teaspoon of grated horseradish, one tablespoon of tomato catsup, one tablespoon of white wine vinegar, one tablespoon of lemon juice, one-half teaspoon of salt, one-fourth teaspoon of white pepper, a little less of paprika. This makes enough for twelve glasses. Place six oysters in each glass and pour over, and leave twenty minutes or more in a very cold place before serving.—Mrs. Dan Bradley, Manistee, Mich.

OYSTER COCKTAIL.

Open eight small bluepoints over a basin, being sure to save all the liquor; season with two dessertspoonfuls of catsup, six drops of lemon juice, two drops of Worcestershire sauce; a dash of tobasco sauce; season to taste with pepper and salt. Set on ice until ready to serve. Serve five in small, high-stemmed glasses.—Mrs. Dermont, Williams, Ariz.

CREAMED OYSTERS ON TOAST.

Drain off liquor of twenty-five small oysters, one cup white sauce, one-half teaspoon lemon juice.

White Sauce (for Above).

Two teaspoons butter, two and one-half tablespoons flour, one cup hot milk, one-third teaspoon celery salt and pepper

mixed. Melt the butter, add the flour and stir quickly, add the hot milk very slowly. Cook over moderate heat until thick; add seasoning. Put oysters in a granite pan without water; stir slightly. Soon as heated sufficient liquor comes from them to prevent burning. When the edges curl they are cooked. Drain, saving the liquor; add the lemon juice to the oysters and add the oysters to the hot white sauce, mixing well; use the liquor to soften the toast. Serve at once on toast.—Miss Elva Burns, Cliffs, Ariz.

OYSTER DARIOLS.

Take twelve oysters and plump them, strain and cut into dice. Blend together in a saucepan over the fire two heaping tablespoonfuls of butter with two heaping tablespoonfuls of flour. Add the oyster liquor, half a cupful of milk, two tablespoonfuls of cream, a grating of nutmeg, one teaspoonful of lemon juice, and a quarter of a teaspoonful of paprika. Stir till boiling, then pour over the beaten yolks of two eggs; now add the oysters; butter some darior or timbale molds, fill with the mixture, cover with buttered paper, steam for twenty minutes, turn out gently onto a hot dish, sprinkle over with finely chopped parsley and serve at once.—Contributed.

FRIED OYSTERS.

After wiping oysters dry, season well with pepper and salt and dip in egg and cracker crumbs; either fry in butter in frying pan, browning on both sides, or drop in deep fat and fry till brown.—Manistee Public School.

FRIED OYSTERS.

Take good sized oysters, put in colander and drain, then sprinkle with pepper and salt, roll in egg, then in cracker crumbs, and fry in either deep lard or butter.—Mrs. Dan Bradley, Manistee, Mich.

OYSTERS SERVED IN ICE.

Take a thick clear block of ice weighing about seven pounds. With a red hot iron mark out a space, leaving a thick wall of ice. Melt out the center from this, empty out the water and fill the space with oysters. Place on a flat dish, garnish with sliced lemon and bunches of fresh parsley. Serve with chili sauce.

KROMESKIES OF OYSTERS.

Open three dozen oysters, taking care not to spill the liquor. Chop the oysters, and mix with them an equal quantity of

finely chopped cold chicken and six mushrooms, also chopped up. Put these into a saucepan, strain in the oyster liquor, and set the pan on a slow fire. Stir in the yolks of two eggs, two tablespoonfuls of cream and a very little salt and red pepper. Stir gently until the mixture thickens, and when quite thick, turn it out to cool on a plate. When it is cold, form it into little cork-shaped rolls about two inches long. Cut some very thin pieces of rather fat bacon about two and a half inches broad by three inches long. On the smaller side of each of these lay a piece of the mixture, so that it will have the three-inch length to wrap around, fold it into little rolls, and dip these in batter. Fry in smoking hot fat, drain, and serve very hot.—Contributed, Milwaukee, Wis.

MOCK OYSTERS.

To the contents of a can of corn add a half cupful of milk, two eggs, a half teaspoonful of salt and flour enough to make stiff batter. Drop by spoonfuls into hot lard, and fry a nice brown.—Contributed.

OYSTER OMELET.

Twenty oysters, four eggs, eight button mushrooms, and three tablespoonfuls of cream. Separate the yolks from the whites of the eggs, beat the yolks with a fork, and add the cream; beat up the whites of the eggs stiffly, add them to the yolks, cream and salt, pepper and paprika. Melt a heaping tablespoonful of butter in an omelet pan, pour in the mixture, then put the oysters and mushrooms in the center of the pan, and cook for four minutes. Serve immediately.—Contributed.

OYSTERS FOR PATTIES.

Pint of small oysters and liquor put on fire, add butter half the size of an egg, one-half cupful sweet cream; salt and pepper to taste. Let come to a good scald. If not thick enough add teaspoonful flour. Put in crusts just before serving.—Contributed, Flagstaff, Ariz.

OYSTER PATTIE FILLING.

One cup of oyster liquor, one cup cream, heated and thickened with two tablespoons of flour, one-half teaspoon salt, one-half teaspoon white pepper. Scald oyster (allowing as many as you please for each pattie) until the gills open. While these are scalding, beat the yolks of two eggs. Now draw the hot dressing to the back of the stove and add the oysters (drained from the liquid) and the yolks of eggs, stirring until

like a custard and not a bit longer; keep very hot by setting in a dish of hot water. Serve as soon as possible, filling the pattie shells generously.—Mrs. A. O. Wheeler, Manistee, Mich.

OYSTER PATTIES.

Line some deep gem pans with puff paste, put a teaspoonful of cream into each, sprinkle with chopped parsley and a little tarragon and chervil, and season with mace, red pepper, and nutmeg to taste. Put two oysters in each of the patties, sprinkle with a little grated lemon rind and a small quantity of lemon juice, moisten with oyster liquor, cover with bread crumbs, garnish the tops with a ring of puff paste, place on a baking tin, and bake in a hot oven for a quarter of an hour. Serve as soon as they are done on a hot dish garnished with sprigs of water cress.—Contributed.

OYSTER PIE.

Saute a small slice of ham in pieces of its own fat until brown, then cut into strips an inch wide and two inches long. This size makes easy service. Cover with boiling water and simmer until tender; then add to the casserole with a pint of oysters; dot with butter and dust with pepper, adding more salt if the ham should not be extra salt. Cover with little balls made of raised bread dough, placing them about half an inch apart. Cook in a moderate oven until the crust is done and delicately browned. If preferred, the biscuits may be made from baking powder mixture. It is much better to cut the dough into biscuits for the cover as it bakes better and is less liable to become doughy and soggy. The bread dough must have extra shortening added to it so that it will not be as tough as required for bread. The balls are made after the second rising.—Contributed.

SHREDDED WHEAT OYSTER, MEAT OR VEGETABLE PATTIES.

Cut oblong cavity in top of biscuit, remove top carefully and all inside shreds, forming a shell. Sprinkle with salt and pepper, put small pieces of butter in bottom, and fill the shell with drained, picked and washed oysters. Season with additional salt and pepper. Replace top of biscuit over oysters, then bits of butter on top. Place in a covered pan and bake in a moderate oven. Pour oyster liquor or cream sauce over it. Shell fish, vegetables, or meats may also be used.—Contributed.

SCRAMBLED OYSTERS.

One pint fresh oysters, three eggs, three tablespoons milk, three crackers (rolled), salt and pepper. Scramble in hot butter.—Mrs. W. A. Campbell, Flagstaff, Ariz.

SCALLOPED OYSTERS.

Place in bake dish a layer of seasoned bread crumbs, next a layer of seasoned oysters, and so on until your dish is filled. Between each layer, pour over it, the mixed liquor, beaten egg, and little pieces of butter. If more moisture is needed, use sweet milk. On the top put moistened cracker crumbs. Bake twenty-five minutes. Serve hot with lemon in quarters.—Mrs. Wm. F. Dermont, Williams, Ariz.

OYSTERS IN THEIR SHELLS.

Dissolve two ounces of butter in a saucepan, add a teaspoonful of chopped parsley and a dessertspoonful of chopped mushrooms; add twelve oysters with their liquor, season with a little salt, red pepper and a pinch of grated nutmeg. When the oysters are hot add one hard cooked egg, cut into slices. Allow the whole to simmer for five minutes, and fill the oyster shells with this. Cover it with a mixture of bread crumbs and grated cheese, and sprinkle with a few drops of melted butter. Brown the top, and serve hot, garnished with parsley.

PASTRY AND PIES

“What moistens the lip, and what brightens the eye;
What calls back the past like the rich pumpkin pie.”

The butter for pastry should be firm and tough. For pie paste the lard should be fresh and firm, and the pastes mixed with ice water and worked up in a cool place till ready to be baked. To prevent the shrinking of puff paste, it should rest after it is made ready for the oven, and be kept in a cool place from fifteen to thirty minutes.

The baking of pastry requires a brisk heat. Puff paste hotter than pie paste or crust. Puff paste should not be baked with other articles which make steam, because this prevents rising; and when the pies and patties have risen, the heat may be decreased by opening the damper to prevent taking too much color. To bake patties and other puff paste goods, the pans should be wet with water, and not greased. For pie paste the tins and tart forms require greasing. In pie making two kinds of paste are used. The paste for the upper crust is much richer than that used for bottom crust, because if the rich crust were used for the bottom it would become too soggy. The trimmings left over from top crust can be used for the under crust next day.

To obtain a nice deep baked crust, roll out the bottom a little thicker than usual, trim the sides, and prick the paste all over with a fork, to prevent blistering; dust with a little flour, placing an empty pie tin with a clean bottom on the top of the paste (the bottom of the tin may be greased lightly to prevent adhering to the paste). Put the bottom crust in oven and bake. When the paste which shows between the two tins begins to color, the top tin may be removed and the baking finished. Cream and lemon filling for open pies should be filled in the oven while hot.

CHERRY TARTS.

Drain one can preserved cherries. Make a delicate crust and line a pie tin. Bake light brown. Fill with the cherries and cover with juice off the can boiled down thick with more sugar. Turn this hot very slowly over the fruit and set in a warm oven fifteen minutes. Serve cold with or without cream.—J. W. Baylis, Williams, Ariz.

CHEESE TARTS.

One cup of sugar, one cup of currants, one lemon (grated rind and pulp), two beaten eggs. Boil all together, line pie pan or tart form with pie crust, put in filling and bake.—Mrs. Louis Wuichet, Chicago, Ill.

DATE TARTS.

Whites of eight eggs, four cups of granulated sugar sifted five times, two pounds of almonds chopped fine, one and one-fourth pounds of dates chopped fine, one-half teaspoonful of vanilla; beat eggs stiff, gradually add sugar, add one-half of dates and one-half of nuts, mix, add rest of dates, nuts, and vanilla. Grease and flour pans.—Miss Dempsey, Manistee, Michigan.

CINNAMON TARTS.

Ingredients—One cup brown sugar, one-half cup butter, one-fourth teaspoon cinnamon mixed with three tablespoons granulated sugar, one egg, one-half teaspoon baking powder, one and one-half cups flour, blanched almonds or seeded raisins. Method—Sugar to remove lumps, before measuring. Cream the butter, add the sugar, thoroughly beaten eggs and the baking powder sifted with the flour. Roll thin as possible, cut in diamond shape with a thin knife, brush top with beaten white of egg, sprinkle little cinnamon and sugar and place on butter sheet and bake eight minutes in a slow oven. A sheet is better than a pan, the latter retains too much heat.—Mrs. Richardson, Los Angeles, Calif.

“A pint is a pound the world around.”

QUICK PUFF PASTE.

One-half pound (one-half pint) cold butter, one-half pound cold flour. Chop the butter into the flour in small lumps about the size of dice; sprinkle with ice water, just enough to hold together, and mix very light. Put on flour dusted bake board, and press into a square shape; roll out half an inch thick and fold in three; give one more turn and give a rest; give three more turns (five altogether), and it is ready for use. The same mixture may be made with the addition of one teaspoon baking powder. Mix baking powder in the flour.—Contributed, Williams, Ariz.

PIE CRUST.

Two cupfuls cold flour, four tablespoonfuls cold lard, one teaspoonful salt. Rub lard into flour and salt. Moisten with

as little ice water as will mould well. Put little flour on baking board, and roll out for under crust. For upper crust roll out some of the above dough, and spread some soft butter or lard over it; fold over and roll again. Make holes in upper crust for ventilation. Dampen edge of under crust with ice water or beaten egg before putting together.—Mrs. M. S. Carpenter, Hackensack, N. J.

PIE CRUST.

One cupful flour, one tablespoonful butter, one tablespoonful lard, pinch soda, one-half teaspoonful salt. Sift salt, soda and flour in a mixing bowl, put in the cold butter and lard in the bottom of the bowl, cutting it with a knife into pieces about the size of dice. Moisten with as little ice water as will mould well. Roll out for under crust. If wanted richer for upper crust, spread on butter and roll again. Moisten edges with beaten egg.—Miss Charlotte Wickstrom, Hartford, Conn.

NEVER FAIL PIE CRUST.

Three cups of flour, a pinch of salt, one scant half teaspoon baking powder sifted in flour, one-half cup lard, one-half cup butter, one-half cup ice water. Mix dry ingredients well, then add water; mix and roll out, double over and roll out several times as the rolling and doubling over each time make it flaky.—Mrs. Geo. Barney, Williams, Ariz.

PIE CRUST.

Eight heaping tablespoonfuls of sifted flour, four tablespoonfuls of water, two tablespoonfuls of lard, pinch of salt.—Mrs. Don Reed, Harper Ferry, Kans.

OPEN APPLE PIE.

Line a deep pie tin with crust made of one cup flour, one-third cup cottolene, add just enough water to handle dough, enough for two crusts. Pare and quarter three Belleflower apples and lay rounded side down; make a paste of two-thirds cup of sugar, one tablespoon of butter, one of flour, and two of hot water, fill in around the apples and bake to a light brown.—Mrs. H. S. Aphold, Honolulu, H. I.

ENGLISH APPLE PIE.

Use Belleflower apples. Line a pie tin with rich pie crust, place apples in crust quite full, put on top crust and bake. When done remove from oven, with a sharp knife cut all around the edge of crust and remove the top crust, put in

butter and sugar; mix all together well, return the top crust and set away until you wish to serve.—Mrs. Geo. Barney, Williams, Ariz.

SLICED APPLE PIE.

Slice four small Belleflower apples, put just enough water over to stew a little; cover tight and cook a few minutes. Make good rich crust and slip cooked apples into it without breaking up. Then put over one cup sugar, sprinkle lightly with flour, several pieces of butter, and a little nutmeg. Put on top crust and bake.—Miss Retta Beasley, Flagstaff, Ariz.

A woman has thirteen apples and twelve children, and she wants to divide the apples equally. How does she do it?

Answer.—She makes apple sauce.

BANANA PIE.

Bake crust and let cool. Boil one cup of milk, one-half cup of sugar, yolks of two eggs, two tablespoonfuls of flour until it thickens. Let cool; slice two bananas in the crust and pour over the custard; beat whites of eggs stiff, put on top and return to oven to brown.—Mrs. John Clark, Flagstaff, Ariz.

CHESS PIE.

One cup sugar, one tablespoon flour, one teaspoon cinnamon, one-half teaspoon cloves. Mix well together, add lump butter size of walnut, one egg or yolks of two eggs, one cup water. Boil all together, stirring well. Fill baked crust and cover with meringue (whites of two eggs beaten with two tablespoons sugar), and brown in oven.—Mrs. R. Luce, Winslow, Ariz.

CHOCOLATE PIE.

Four tablespoons cocoa, three cups milk, three-fourths cup sugar, butter size of walnut. Cook together; then add two scant tablespoons of corn starch dissolved in a portion of the milk. After the mixture has thickened add three well beaten eggs. Remove from stove and flavor with vanilla.—Mrs. J. E. Jones, Flagstaff; Ariz.

Let milk and sugar come to boiling point, add corn starch wet in a little milk, add chocolate, eggs and teaspoon vanilla. Pour into baked crust and cover with meringue of whites of eggs.—Mrs. W. A. Mayflower, Flagstaff, Ariz.

CHOCOLATE PIE.

Four tablespoons grated chocolate, one pint water, yolks of two eggs, two tablespoons corn starch, one cup of sugar, butter the size of an egg. Boil until thick, pour into a baked crust. Whip whites of eggs and spread on top; brown in oven.—Mrs. C. A. Neal, Seattle, Wash.

CHOCOLATE PIE.

Beat the yolks of two eggs with half a cup of sugar; add two ounces of sweet chocolate and a cup of milk. Line a pie plate with pastry, prick with a fork, brush with the white of an egg and bake. When half done pour in the mixture and finish baking in a moderate oven. Cool slightly and then cover with a meringue made of the whites of two eggs, two tablespoons of sugar and vanilla to flavor.—Mrs. W. Patter-son, Williams, Ariz.

CHOCOLATE PIE.

One pint milk, a square of chocolate heated, add three-fourths cup of sugar, yolk of two eggs, one teaspoonful of vanilla; thicken with one large tablespoon of corn starch or flour. Have the crust baked, and fill with the above filling. Beat whites stiff, add a little sugar and put on top and brown.—Mrs. L. R. Walcott, Winslow, Ariz.

COCOANUT PIE.

CRANBERRY PIE.

Mix one-half cup corn starch with two cups sugar, pour on one cup boiling water, and stir until boiling, then add one-half cup molasses, one-half teaspoonful salt, one tablespoonful sugar, and one quart cranberries, chopped fine. Use this mixture as a filling for two pies made with upper and lower crusts.

HOW TO MAKE CREAM PUFFS.

Put half a pint of water and four level tablespoonfuls of butter into a saucepan, sift and measure half a pint of flour. When the water is boiling and the butter thoroughly melted turn in hastily the flour and stir rapidly over the fire. In a moment you will have a perfectly smooth, soft dough, free from stickiness. Take from the fire and stand it aside until partly cool. Break an egg into a cup, then turn it into the batter, beat for a moment, then add another and another; beat thoroughly and add a fourth, breaking each into the cup first, for one bad egg would spoil the whole mixture. After the last egg beat the batter for five minutes and stand it aside in a cool place for an hour and a half, then drop by tablespoonfuls into greased shallow pans and bake in a moderate oven for thirty-five or forty minutes. When the puffs are done they will be hollow and perfectly light. The batter must be dropped far enough apart to leave room for swelling.

To make the filling put half a pint of milk in a double boiler. Mix a tablespoonful of flour, half a tablespoonful of cornstarch and six tablespoonfuls of sugar. Add hastily the hot milk; stir, pour the mixture back into the double boiler and stir and cook until thick and smooth. Then add one egg beaten until very light, cook just a minute, take from the fire, add a teaspoonful of vanilla and turn the mixture out to cool.—Contributed, Williams, Ariz.

CREAM PIE.

One cup pure, sweet cream, whites of three eggs beaten light. Mix together dry one-half cup sugar and one teaspoon corn starch then stir this mixture into the cream. Fold the beaten eggs into the cream and flavor to taste. Bake as you would custard pie.—Mrs. Robt. Finnie, Soda Springs, Ariz.

CREAM PIE.

One cup sugar, one tablespoonful corn starch, two table-spoons flour, four yolks well beaten, two cupfuls milk, one teaspoonful vanilla. Boil in double boiler until right consistency. Fill shells of baked puff paste with mixture. Put beaten whites on top and set in the oven a moment to brown. Serve almost cold.—Mrs. M. S. Carpenter, Hackensack, N. J.

CREAM PIE.

One tablespoon corn starch, two-thirds pint milk, salt, yolk of one egg. Beat the white with a little sugar for the top. Put in the oven a minute. The crust is baked separately, then filled.—Mrs. Geo. A. Cole, Middletown, Conn.

CREAM PIE.

Yolks of two or three eggs, one-half cup sugar, small lump butter, one and one-half cups milk, one tablespoon corn starch, one teaspoon extract.—Mrs. Daggs, Williams, Ariz.

CREAM PIE.

One cup sugar, one-half cup butter, one-half cup sweet milk, two scant teacups of flour, two teaspoons of baking powder. Makes two pies. Split open pie and put in this filling: One pint sweet milk, three heaping tablespoons of sugar, three tablespoons of corn starch. Frosting over top: Whites of three eggs well beaten, three even tablespoons of sugar.—Mrs. Ree Stockton, Librarian, Somerville, Texas.

GERMAN CREAM PIE.

One-half cupful hard butter, three-fourths cupful flour with one-half saltspoonful baking powder, one-half saltspoonful salt. Moisten with one well beaten egg. Put little flour on moulding board, and roll above dough very lightly. Oil tin, cover the bottom with rolled dough, moisten with egg around the edges. Bake ten minutes in a moderate oven. Filling: Put one cupful milk in double boiler, six tablespoonfuls sugar, two tablespoonfuls flour, two teaspoonfuls vanilla, yolks of three well beaten eggs. Cook until it thickens. Cool and add to above crust. Brown slightly in the oven. If a meringue is desired, do not brown until you have added the beaten whites of three eggs with two tablespoonfuls sugar on top of pie. Then brown slightly.—Mrs. Dermont, Williams, Ariz.

STRAWBERRY CREAM PIE.

Cream two rounding tablespoonfuls butter, and beat in three-fourths cup sugar, add one whole egg and one yolk of egg beaten light. Sift together one and one-fourth cups flour, one-third cup corn starch, two and one-half level teaspoonfuls baking powder, and add alternately with one-half cup milk to butter and sugar. Bake in two round layer cake pans. When ready to serve, put cream filling between layers and meringue over top. For cream filling, mix two and one-half level tablespoonfuls corn starch with three tablespoonfuls cold milk, add one cup scalded milk. Cook thoroughly over hot water for twenty minutes, stirring frequently after first thickened. Add one-fourth cup sugar, few grains salt, one-half teaspoonful butter, one-fourth teaspoonful lemon extract, and one well beaten egg. Remove from fire, beat well, and cool before

spreading on cake. When ready to serve, prepare meringue for top by beating whites of two eggs very stiff. Add gradually and beat in well one-fourth cup powdered sugar, with a few drops lemon juice. Put meringue over top of pie, and drop ripe strawberries into meringue so as to half conceal them in the fluffy mixture. This pie should be served as soon after preparation as possible.—Contributed, Williams, Ariz.

This may be put into the crust and baked about forty minutes, or, the crust may be baked first and the filling made in double boiler, then put into the crust with the meringue on top, and set in the oven long enough to brown lightly. The three whites of eggs beaten thoroughly with one tablespoonful of sugar makes the meringue.—Mrs. A. J. Dovel, Manistee, Mich.

TWO PERFECT PIES

By CAROLINE COE

Add juice of lemon and just a hint of salt. Put in double boiler with $1\frac{1}{2}$ cups of cold water. Cook until thick and clear, cool

and put into rich pie shell. Beat the whites of 2 eggs to stiff, dry froth, add 2 tablespoonfuls of sugar and spread over top of pie. Brown lightly in quick oven.

COCOANUT PIE

One cup of freshly grated cocoanut, 2-3 of a cup of sugar; yolks of 3 eggs beaten together until light; add a little salt and $1\frac{1}{2}$ cupfuls of milk; turn into pie pan lined with rich crust and bake in quick oven 20 minutes. Beat the whites of 2 eggs to stiff, dry froth and add 2 tablespoonfuls sugar; spread over pie and set in quick oven to brown. Serve warm. If dessicated cocoanut is used, soak over night in milk.

Fill with seeded raisins, adding to each cucumber three cloves, half a thin slice of lemon (rind and fruit), two or three thin slices citron, then tie up and squeeze out all remaining water. Make a rich sweet pickle syrup as for any sweet pickle only omitting spices. Lay cucumbers in syrup enough to cover them and cook slowly for half an hour, turning over once. SPICED GOOSEBERRIES.

Twelve pounds fruit, either green or ripe, one pint vinegar, eight pounds sugar, one tablespoon of cloves, one tablespoon cinnamon (ground). Just cover berries with water and let them cook a long while before adding other ingredients, then cook down until like jelly. Seal in jelly glasses. Bring to a boiling heat two quarts of best vinegar, one pint of water. Cook the paste as thick as custard, add to pickle and seal in fruit jars.—Mrs. T. A. Barney, New Haven, Conn.

MIXED FRUIT PICKLES.

Two dozen large cucumber sour pickles, one dozen small cucumber sweet pickles. Soak in clear water for two days, changing water several times. Peel the large cucumbers and cut in long strips, thick rounds and other fancy shapes, place in a jar with the small cucumbers, one can each of canned peaches, sliced pineapple, and white cherries; drain juice from pineapple and cherries, but retain the peach juice, put these in another jar. In another jar put one pound of figs washed well, and two pounds of raisins on the stem washed in hot water. Make a syrup of four pounds of light brown sugar and one-half gallon of cider vinegar, to which add two table-spoonfuls ground mustard, five cents worth each of mace and cloves (whole), stick cinnamon and mustard seed; boil to a thick syrup, divide into three parts and pour over the jar of cucumbers, the jar of canned fruit and the jar of figs and raisins, close tight. Will be ready in a week or ten days. The canned fruit will take the vinegar sooner and may be prepared several days after the cucumbers.—Mrs. K. W. Williams, Cynthiana, Ky.

POULTRY

CREAM CHICKEN.

One chicken of four pounds, four sweetbreads, and one can mushrooms; boil chicken and sweetbreads separately, put chicken and mushrooms and sweetbreads cut up in small pieces in a dish; add four tablespoons of butter, five tablespoons of flour, scald one quart of cream and put in the mixture; season with salt, pepper, cover with bread crumbs and dots of butter on top. Bake fifteen to twenty minutes.—Mrs. Geo. Barney, Williams, Ariz.

CHICKEN CREAMED.

Two chickens (good size), two sweetbreads, two cans mushrooms, one quart cream or half milk, one scant teacup flour, one-half cup butter. Put cream on stove. When hot stir in flour moistened with a little milk and butter. Salt, pepper and parsley to taste. Let cool before using. Cook chickens and sweetbreads and pick up as for salad. Put a few grated bread crumbs in bottom of baking dish then add layer of each ingredient, alternating the chicken, sweetbreads, mushrooms and dressing until all have been used. Finish with dressing and sprinkle crumbs on top. Bake twenty minutes or until a golden brown.—Mrs. R. W. Bryden, Los Angeles, Calif.

CHICKEN CREAMED.

Cut into small dice the white meat of cooked chicken. Melt two tablespoons of butter, stir in two heaping tablespoons of well sifted flour; when creamy and smooth add a little at a time a pint of hot milk, stirring constantly to keep from lumping, let it boil up once, add one teaspoonful of grated onion, little salt, and the yolks of two raw eggs, stir briskly; cut two fresh mushrooms fine, fry lightly in butter, one sweet green pepper shredded, a generous tablespoonful of capers chopped fine and a suggestion of grated nutmeg. Add chicken and serve.—Mrs. Gardner, Manistee, Mich.

CREAMED CHICKEN FILLING FOR PATTIES.

Cut the meat from a cold roast or boiled fowl into bits, but do not chop. The white meat is best for this, but the dark may

be used if desired. There should be a cupful of the chicken dice. Season with salt, white pepper, and a dash of nutmeg. Cook together in a saucepan a tablespoonful, each of butter and flour, and, when these are blended, pour upon them a cupful of rich milk—half cream, if you have it—and stir to a smooth white sauce. Put the saucepan in an outer pan of boiling water and stir into it the chicken. If more seasoning is needed, add it, and a teaspoonful of minced parsley. When heated through, fill pastry shells with the mixture, set in the oven until very hot, and serve.

CREAMED CHICKEN AND MUSHROOMS.

Parboil a good sized chicken. Boil liquor down until it makes three-fourths of a pint. Boil fresh mushrooms in water with salt, about twenty minutes. Then cut up the chicken and mushrooms and mix. Take one-half pint of cream, let come to a boil, add the liquor and a big tablespoon of butter, salt and pepper to taste, and thicken with flour. Then add the chicken and mushrooms and cook about fifteen minutes. Will serve six or eight people.—Mrs. Charles M. Smith, Thomasville, Ga.

FRIED CHICKEN.

Select half-grown chicken, scald, clean, dress and disjoint. Roll pieces in flour seasoned with pepper and salt. Put in covered pan in hot butter, over medium hot fire. Serve hot.

Gravy for Above.

Pour about a quart of milk into the hot frying pan from which the chicken has been taken, allowing it to boil up good. Season to taste, and thicken with a little flour. Pour gravy over the chicken, and serve hot.—Mrs. Elizabeth Hull (age 95 years), Williams, Ariz.

FRIED CHICKEN.

Wash and cut up young chicken, wipe dry, season with salt and pepper, dredge with flour, or dip each piece in egg and cracker crumbs. Have in frying pan one ounce each of butter and sweet lard made boiling hot. Lay in chicken and fry brown on both sides; take up and cover until served. Stir into the gravy left, one tablespoon of flour and a cup of cream or milk; season with salt, pepper and parsley, if desired, and let boil up. Then gravy is ready to serve.—Mrs. James Kennedy, Williams, Ariz.

FRIED CHICKEN.

A pair of spring chickens about two pounds each in weight. Draw, singe and be most careful to get all pin feathers off. Cut off the wings, neck, legs. Take the ends of the wings, the necks and giblets, all but the livers. Cover with cold water and a pinch of salt. Boil until very tender using the liquid for the gravy and the giblets, to chop in it. Serve the back and breast, leaving the breast whole and the back as well, using the upper neck piece for stewing. Take a clean linen cloth and wring it frequently out of cold, clear water carefully wiping each piece before flouring. After each piece is wiped off flour very thickly with pastry flour into which salt and pepper has been freely shaken. Have two iron spiders on the stove with a large piece of butter in each, allowing it to get very hot. When you feel sure that the butter is hot lay the two breasts in right side down, allowing both halves to brown nicely, the backs, second joints, legs and wings after the skin side is well browned. Turn each piece over onto the bone side and cover the spiders tightly, pouring a very little of the gravy from the giblets in the bottom to create a steam. Cook very slowly for fifteen or twenty minutes, lift out on a hot platter, garnish with parsley.

Gravy.

Into the hot butter sift a tablespoon of flour and stir in the liquid from the giblets and allow to thicken smoothly, stirring all the time. Chop the giblets fine, add, and allow all to come to a boil. Serve in gravy boat. Do not pour on the chicken.—Wm. B. Mershon, Saginaw, Mich.

KENTUCKY FRIED CHICKEN.

Genuine Kentucky fried chicken must be sampled to be fully appreciated. Cut up your chicken and soak it for about an hour in salted water. Season some flour with sage or prepared poultry dressing, pepper and salt and roll the pieces of chicken in it. Put into a frying-pan just enough lard to a little more than cover the bottom of the pan. This will insure that delicate brown which always distinguishes genuine Kentucky fried chicken. Put the pan in the oven, instead of on the top of the stove, as the chicken will cook more evenly and thoroughly and will not burn before done, as otherwise it is apt to do. Lard is preferable to either butter or pork because it does not burn so quickly. If the oven is not too hot, and the frying has not been too rapid, by the time the chicken is nicely browned you can depend upon its being thoroughly cooked.—Miss Helen M. Richardson, Massachusetts.

CHICKEN MARYLAND.

If possible, select small fowl. Split down the back, having first been prepared carefully in the usual way. Should the fowl be large, disjoint it. Season well, run with flour and then in a mixture composed of an egg beaten with a spoonful of cream. Then dust with sifted crumbs. Heat clarified butter—plain may be used—and when hot, fry the chicken in this slowly, turning over many times until it is an even dark yellow. It should have a nice, rich color and if fried slowly and frequently turned, this is very easy to obtain. Fry about fifteen minutes, then put in covered dish of porcelain or something that will stand the heat and put into slow oven for ten minutes. With the butter left in the pan, make a cream sauce by mixing two spoonfuls of flour, then adding a pint of cream and milk mixed, salt and pepper. Do not make it too thick. Chicken Maryland is always served with corn fritters and strips of broiled bacon, this placed on the platter with the fowl.

Corn Fritters for Above.

It is preferable to use fresh corn, although the canned may be used. Chop until it looks grated, or grate the ears on a grater. Make a batter, using the proportions of a cup of flour to a cup and a half of milk, one beaten egg and a pinch of salt. This makes a thin fritter. If a thick, puffy one is desired, add more flour and use baking powder, a teaspoonful to two cups of flour.—Mrs. E. B. Perrin, Williams, Ariz.

CHICKEN PATTIES.

Make a nice rich puff paste. Cut a round from it with a medium large cookie cutter, and with a smaller size cutter, cut out the middle of the round, thus leaving a ring. Bake to a light brown in a quick oven. Then brush them over with beaten egg, and put in the oven one minute to glaze. Fill these crusts with minced boiled chicken well seasoned and beaten well into a white sauce made of the water in which the chicken was boiled. Serve hot.—Contributed, Flagstaff, Ariz.

CHICKEN PIE.

Select a plump fowl weighing four or five pounds, dress, singe and put on in boiling water enough to cover, let boil gently until it begins to grow tender. Save the broth with the giblets. Now cut the chicken into small pieces; slice a quarter of a pound of fat pork into thin slices and fry it with the chicken until all is brown. Take up and stir into the pan in which they were cooked a tablespoonful of flour. Stir over the fire till brown and thick. Then add a pint of chicken

broth, a teaspoonful of salt and quarter teaspoonful of pepper; pour gravy over chicken. Line a deep dish with rich puff paste and put in alternate layers of chicken, pork and sliced raw potatoes; pour in as much gravy as the dish will hold. Sprinkle with a little chopped parsley, and cover with a top crust. Bake three-quarters of an hour.—Mrs. F. H. Waite, Winslow, Ariz.

CHICKEN PIE.

Dress, clean and cut up two fowl or chickens. Put a kettle on range with three pints of water; as soon as water reaches the boiling-point, add chicken, a few pieces at a time, otherwise the boiling will be stopped, and the water thus cooled will draw out so much of the flavor that the chicken will become tasteless. When all is added, cover and cook slowly until meat is tender, adding one-half tablespoonful of salt during the last half-hour of the cooking. Remove chicken and discard skin and some of the larger bones. Strain stock, skim off fat and then cook until reduced to four cupfuls. Thicken with one-fourth of a cupful of butter mixed with one-third of a cupful of flour. Season with salt and pepper. Arrange chicken in serving-dish, strain over gravy, let stand over night and reheat for serving. Make a decorated cover of a rich pie crust. It is much better to bake the paste separately and reheat chicken before covering the pie.—Contributed, Flagstaff, Ariz.

CHICKEN PIE.

Cut up and boil till tender one large or two small one year old chickens with plenty of broth to cover it when done. Make a rich baking-powder biscuit dough, roll thin, line the sides of a deep four quart basin with the dough. Lay in the pieces of chicken, sprinkle with salt, pepper, and lumps of butter and drop in little pieces of the dough. Thicken the broth with a spoonful of flour, and turn in enough of this gravy to cover the chicken. Roll a piece of dough one-half inch thick and cover the pie, being careful to cut little holes in the cover for steam to escape. Be careful to wet the edge so the cover will stick, and bake one-half hour.—Mrs. H. F. Adams, Williams, Ariz.

PRESSED CHICKEN.

Take two chickens and boil until tender enough to pick off, boil with one large onion and six little chiltipin peppers and boil also one sweetbread. After picked off put in a deep dish a layer of hard boiled eggs first, then a layer of chicken, then a layer of sweetbreads, then eggs, alternating. Leave the soup

in the kettle and boil with one teaspoonful of gelatin and chicken bones for half an hour, then pour over mould and set aside for the night. The soup that is left mould in a cup and slice over the top of chicken. Serve this with mayonnaise sauce and browned crackers. Remove from the deep dish after it is moulded.

Mayonnaise Sauce for Pressed Chicken.

To make a mayonnaise perfectly and at the same time certain that it does not curdle, add a few drops of lemon juice right at the beginning. To make a small quantity, use the yolk of an egg, half a teaspoonful of salt and some white pepper and the juice of half a large lemon or that of a whole lemon. Strain this juice. Mix the yolk and the seasoning, adding about three drops of lemon or so and a few drops of oil, whisking briskly with a fork. Add more oil slowly, whisking in a cupful of oil and every now and then add a little of the lemon. It should be thick, firm and still creamy. Add a bit of rich cream when the mayonnaise is made. You can add to this which improves it, chopped green peppers, chopped pimentos, chopped pickled English walnuts, and a pinch of English mustard.—Mrs. E. B. Perrin, Williams, Ariz.

PRESSED CHICKEN.

Boil two chickens until dropping to pieces, remove skin and bones, season with salt and pepper, add the liquor boiled down to a teacup or less. Put into a deep tin or mold, pressing well down. Let get perfectly cold and slice. Packing into baking powder cans makes pretty round slices. If a knuckle of veal is boiled with the chicken it will be solid and slice well.—Mrs. J. L. Richmond, Chicago, Ills.

CHICKEN RAMEKINS.

Chop the white meat of a raw fowl fine, add a bit of soda size of a pea to a gill of cream. Put this over the fire and as it heats add the chicken meat; cook for a minute, remove and cool, then add the beaten yolks of two eggs, season to taste with salt and pepper, then fold in the whites of the eggs, turn into buttered ramekin dishes and brown. Serve immediately.—Mrs. William Wentte, Manistee, Mich.

ROAST SPRING CHICKEN.

Take chicken four months old, clean nicely, and dry. Cut in small pieces, roll in flour, lay in dripping pan, sprinkle plenty of salt and pepper, dot with butter, cover with sweet milk and

bake a nice brown, turn and brown the other side. Bake slowly at first till milk is mostly absorbed. For gravy, sprinkle in a little flour and add more milk or water, if preferred.—Mrs. Otto Lebsch, Williams, Ariz.

Pat O'Brien gave a dinner, to which he invited three or four of his neighbors. Pat had allowed his wife to cook only one chicken. When dinner was served, Pat took possession of the carving knife, and, in a hospitable tone, said to Mrs. Dugan: "What part of the fowl will you have?"

"A leg, if you please," was the answer.

"An' what part will yez have? Would yez loike some of the white?" Pat inquired of Mrs. O'Hooligan.

"An' a leg will do me," she answered.

As each one answered the part of the fowl she desired was given her.

"What part will yez have, Moike Walsh?" Pat blindly inquired of his neighbor.

"Oi belave Oi will take a leg, too," said Mike, in his most modest way, wishing to follow in the footsteps of the rest of the company.

"Begorra," said Pat to Mickey, "what does yez think Oi'm carvin—a spider?"

SMOTHERED CHICKEN.

Take a good sized spring chicken, clean thoroughly, take a covered roasting pan, now split chicken down the back, place breast up in pan, skin one medium sized onion, slice and place under chicken, season chicken all over with pepper and salt. Put a pint of water in pan, cover, place in moderately heated oven, bake for an hour or hour and a quarter, renewing water when necessary and baking to a golden brown.—Miss Katherine Anderson, Williams, Ariz.

ROAST DUCK WITH ORANGE JUICE.

The ducks being picked, singed and drawn, mince the livers with a little scraped bacon, some butter, green onions, mushrooms, sweet herbs and parsley and season with salt and pepper. Stuff the ducks with this mixture, cover with slices of bacon, wrap in paper and roast them. Put into a stewpan a little gravy, the juice of an orange and a few shallots, minced. Add a dash of pepper and bring to the boiling point. When the ducks are roasted, place them on a hot platter; remove the bacon, pour over them the sauce and serve hot, garnish with curly parsley.—Juliet Hite Gallaher, Virginia.

ROAST DUCK.

Clean, stuff and truss a pair of ducks, place on a rack in a dripping-pan, sprinkle with salt and pepper, and cover breast of each bird with two thin slices of fat salt pork. If wild ducks are used, bake twenty to thirty minutes in a very hot oven, basting every five minutes with fat in pan. If domestic ducks

are preferred, reduce the heat and bake one and one-fourth hours. Garnish with water cress and serve with orange sauce.

Stuffing for Wild Duck.

This stuffing is not eaten: simply added to impart flavor, and consists of three small onions put into body of each bird. Or apples pared, cored and cut in quarters, and removed before serving.

Stuffing for Domestic Duck.

Cover stale bread broken in pieces with boiling water and let stand until bread has absorbed the water; then squeeze through chees-cloth to press out the water. Season bread with salt, pepper, melted butter and finely chopped onions.

MEXICAN TAMALES.

Cook one or two chickens, until tender. Remove all meat from bones, cut in small pieces, add the liquor in which the chicken has been cooked; this is seasoned well; add red pepper to suit taste, then thicken with corn meal. Roll out into rolls the size of link sausage, wrap in the inner husks of green corn tie the husks with string at each end to secure them. Boil for three hours.—Mrs. Geo. Barney, Williams, Ariz.

SQUABS.

Take two or four or six squabs; halve your birds; place in a deep saucepan, about two slices of bacon cut in small dice browning in butter; brown your birds, turning often. When all is a golden color add one large glass of water, a small onion or two, one clove, garlic, a kitchen bouquet, thyme, parsley, celery. Let all simmer gently for one and one-half hours, then add a cup or two of tender green peas; cook half or three-quarters of an hour more, add a little water if necessary, salt and pepper. Place squabs on toasted bread and garnish with the peas, removing all garden bouquet, thicken with spoonful of flour dissolved in water before using.—Miss Florence Parker, Los Angeles, Calif.

FRICASSE OF TURKEY.

Cut some slices from the remnants of roast turkey and reserve them. Break the bones into small pieces; place these with skin and trimmings in a stew pan with a strip of lemon-peel, an onion, a bunch of herbs, some peppercorns and salt. Cover with water and allow to simmer for two hours. Then strain and remove all fat from surface and allow to cool. Next, place the meat in the above and let it warm through very

slowly. Thicken the gravy with brown stock; add any flavoring that may be desired, and stir all well together. Serve on a hot dish, garnished with toast.—Lawrence Irwell, New York.

MUSHROOM AND OYSTER STUFFING FOR TURKEY.

Grate a small loaf of stale bread into a bowl, season with salt, pepper, celery seed and a little ground mace. Add a pint of small oysters that have been well drained and half a pint of button mushrooms. Heat in a saucepan half a pint of oyster liquor, stirring in as it is about to boil, a teaspoonful of cornstarch, two of butter and two tablespoonfuls of cream, first moistening the cornstarch in cold water. Be sure that it boils; when cold, gradually blend with the other ingredients and use.—Contributed.

ROAST SPRING TURKEY, OYSTER SAUCE.

Casey—"How do you tell the age of a turkey?"

Pat—"By the teeth."

Casey—"A turkey hasn't got teeth."

Pat—"No; but I have."

ROAST TURKEY, STUFFED.

Select a young, good sized bird, singe, draw, wash and dry. Stuff with a mixture of dry bread, soaked in warm water, seasoned with pepper, salt, melted butter, sage-savory, celery, grated onion, mixed herbs, and one beaten egg. Sew up the openings, tie the legs and wings well into the body. Put in baker with plenty water, containing butter (onion juice, if preferred), pepper and salt. Baste well and often, in moderate oven. If tips of wings, legs, neck and tail seem to brown and bake too rapidly, cover with a dough jacket made stiff of flour and water, which must be removed before taking from the oven. Serve hot. Garnish platter with water cress and grapes, or any desired way. Always serve cranberries.

Gravy with Roast Turkey.

Turn off some of the grease from the pan, put on fire, add milk or water, allowing it to cook until the dressing, etc., loosens from bottom of pan, stir in browned flour, add the cooked and chopped giblets. Serve hot.—Mrs. Wm. F. Dermont, Williams, Ariz.

CREAMED CHICKEN IN MACARONI MOULD.

Cook the day before serving one-half package of macaroni in salted water until tender, do not break the pipes, wash off the paste in cold water by holding the dish under the cold water faucet, butter well any mould with a flat surface, arrange the macaroni first on the bottom, and then on the sides. Have ready two large cups of creamed chicken, hot and quite thick, place in center of mould till the dish is full. Bake half an hour in a pan of hot water in a hot oven, turn out on a hot platter, serve with a cream sauce sprinkled with rings of olives or Hornet Mushrooms.

WHOLE FOWL.

Singe the chicken, turkey or duck, wipe inside and out with a damp cloth and dust with flour, pepper and salt; then lay in the casserole and skewer to the breast four thin slices of fat salt pork. If stuffing is desired place it in the chicken just as you would if roasting in a pan. Set the breast-side down in the casserole and add the giblets, which consists of the liver, gizzard, heart and the neck, which should be chopped closely to the breast, leaving the neck skin attached so to bring over and securely covering the breast cavity ensuring the stuffing from oozing out. Truss the chicken neatly as it will be more easily cooked and carved. Cover and cook in a hot oven for fifteen minutes, counting from the time the fowl begins to cook; then reduce the heat and cook until tender. An hour before this point arrives, skim off all surplus fat; then add quartered, pared potatoes, parboiled onions (small ones) to the casserole; cover and return to the oven to finish cooking. This resembles roasted chicken or turkey and the closely covered utensil keeps the flavor confined to the fowl.

A Lucky Turkey.

After having listened, at a Christmas dinner, to Jones' stale jokes, Smith said: "I say, Jones, the Christmas turkey is luckier than we are."

Stir well, so as to scald the meal; then mix three tablespoonfuls wheat flour with a pint of cold milk, stirring it gradually into the flour, so as to have it free from lumps. When the whole is just lukewarm, beat three eggs with three tablespoonfuls sugar and stir into the pudding, with one teaspoonful salt, two of cinnamon, or half a nutmeg, grated, and two tablespoonfuls butter, or suet, chopped fine. Add, if you wish the pudding very rich, a cupful seeded raisins, but they should not be put in until the pudding has baked five or six minutes. If raisins are put in, an additional cupful of milk will be required, as they absorb a great deal of moisture. A very good Indian pudding may be made without eggs, if a cup more meal is used and no flour. It takes three hours to bake an Indian pudding without eggs; with eggs, it takes less time.—John Langowsky, Fray Marcos, Williams, Ariz.

Serve hot with whole or half cherries in the sauce.—Mrs. Dermont, Williams, Ariz.

CHOCOLATE CREAM SAUCE.

Two tablespoonfuls pulverized sugar, one tablespoonful butter, one cupful sweet cream, two tablespoonfuls cocoa or chocolate, one teaspoonful cornstarch, four yolks of eggs, salt, vanilla. Dissolve in double boiler sugar and chocolate, add cream gradually; let come near a boil, add the beaten yolks and starch, stir until it thickens—more cornstarch may be necessary; take off the fire, add the butter, strain and flavor. Very nice with chopped nuts added.—Contributed, Williams, Ariz.

CREAMY SAUCE.

One-fourth cup of butter, one-half cup of powdered sugar, one-half cupful of cream. Add one tablespoonful of vanilla or lemon. Cream butter and sugar well, then add cream. Beat well, and just before serving, place dish in a bowl of hot water and stir sauce until smooth and creamy, but not enough to melt the butter. When the cream is added, the sauce has a curdled appearance. This is removed by beating just enough to blend the materials thoroughly. It is not meant to be a hot sauce, and if it becomes oily in the heating, place on ice and beat until thick. Serve with hot pudding.—Contributed, Saginaw, Mich.

COLD CREAM SAUCE.

Two cupfuls rich milk, two cupfuls heavy sweet whipped cream, four tablespoonfuls powdered sugar, one teaspoonful gelatine. Put in double boiler, milk and sugar; let it become very hot, then add the dissolved gelatine, stir well, and when it comes to a boil, remove from the fire, strain and cool some; before it thickens add the whipped cream. This sauce may be used for many cold puddings; flavored with fruit juices, vanilla,

WHIPPED CREAM SAUCE FOR DECORATING.

To obtain a firm cream which can be used for ornamenting cold puddings with bag and tube, use double cream (or cream that is two days old). Prepare the cream some time before it is wanted; put it in a basin and beat on ice, or in a cold place, with slow and even motion till the beater stands in the cream, or till it can be drawn to a point. Fast beating breaks the cream, makes it curdle and get weak; a pinch of salt added assists in giving better consistency to the cream. After the cream is beaten firm, put it on a sieve to drain for thirty minutes. To use it, beat into one quart of cream from four to six tablespoonful fine powdered sugar, add flour, and use with bag and tube. The puddings may be decorated in reverse colors, using pink and white cream.—Contributed, Williams, Ariz.

FOAMING SAUCE.

Mix one cupful powdered sugar and one-half cupful butter together. Add the yolks of two eggs and the grated rind and juice of one lemon. Beat the whites stiff and mix all together. Just before serving stir in quickly one cup boiling water. Add chopped nuts, or any crushed fruit.—Mrs. Grosse, Albuquerque, New Mexico.

FRUIT SAUCE.

Fruit sauces may be made from any surplus juices left over from canned fruits. The juice should be boiled down to a syrup, adding more sugar, and the juice of lemon; or cornstarch and eggs may be used for thickening. For cold sauce no starch is required, because the syrup thickens sufficiently when cold. Pieces of fruits may be added.

Put in double boiler, the water, sugar and lemon juice. Let come to a good boil, add cornstarch for thickening. When cold add the pineapple. If not thin enough for pudding sauce, add whipped cream.—Mrs. M. S. Carpenter, Fayetteville, N. Y.

SOUR SAUCE.

One cupful sugar, two tablespoonfuls butter, one-half cupful vinegar, one well beaten egg. Cream sugar and butter, add egg, then vinegar, and just before serving add one-half cupful hot water.

STRAWBERRY SAUCE.

One quart ripe berries, crush with one-half pound sugar. Press through a sieve or colander. Stir well together in a cold place till the sugar and juice form a clear sauce, like jelly. The flavor of strawberries is improved by adding some orange juice (a little acid hastens the jelling process). Serve pieces berries in sauce. Other ripe fruits like apricots, peaches, and cherries, may be made into sauces by the same process. These fruit sauces can be served with ice cream and frozen puddings. Delicious.—Mrs. Dermont, Williams, Ariz.

SANDWICHES

The first requisite in the preparation of good sandwiches is to have perfect bread in suitable condition. Either white, brown, rye or entire white bread may be used—but it should be of close, even texture and at least, one day old.

Spread butter smoothly on bread before it is cut, after cutting remove crusts—if any. When ready to serve, cut sandwiches square, triangular, long, narrow, round, crescent, heart, diamond, or club shaped. Or, any preferred shape.

In making rolled bread sandwiches, cut off the crust of a loaf of fresh bread and spread a thin layer of butter on one end of the loaf; cut off this buttered end—in as thin slice as possible, and spread with your sandwich filling; roll up this slice and lay on a napkin; draw the napkin firmly around the rolled bread, and pin it. Put in a cool place until ready to serve, then remove napkin and tie sandwich with your color baby ribbon and any fancy fastening—or fasten with toothpick.

French rolls are often used for picnics or afternoon luncheons. Remove from the top of each cold roll, a piece of the crust the size of a silver dollar and take out the center with a spoon. Fill the space with highly seasoned chopped meat: fish, lobster or crab, replacing lid, wrap in tissue paper, and serve with pickles or olives.

For very small, dainty sandwiches, the bread may be baked at home in one pound baking powder cans. These should be only half filled, and then allowed to rise before baking. You then have a round slice without crust.

A garnish such as the following may be used: For meat and fish sandwiches, use sour pickles, olives, lettuce, water cress, parsley, mint or slices of lemon, and hard boiled eggs. For cheese sandwiches, use pickles, olives stuffed with celery or almonds. For sweet sandwiches, use lettuce, maiden hair fern, smilax, berries, flowers or candied fruits in fancy designs.

To keep sandwiches fresh, if prepared an hour or two before serving, wring out a napkin in cold water, covering the tray and keep in a cool place. When taking sandwiches on a picnic, wrap tight in oil or wax paper.—Eva Greene Fuller.

FILLING FOR SANDWICHES.

Good sandwiches are made by using a filling of chopped onions and cucumbers, mixed with mayonnaise dressing. Walnut meats, chopped and mixed with neufchatel or cream cheese,

also makes an excellent filling. Chopped olives and cream or cottage cheese is a good combination, but should be served as soon as made or the olives will give the cheese a bitter taste. Dates and chopped nuts make a good combination and peanut butter is a stand-by.—Contributed.

SOUPS

"Now good digestion wait on appetite, and health on both."—
Shakespeare.

The juice of meats is the greatest necessity for good stock and form the basis of all meat soups and of all principle sauces and dressings.

Fresh uncooked beef, with the bones cracked, makes the best stock.

Mutton, alone, is too strong in flavor for good stock, consequently vegetables and herbs seem necessary.

Veal, too, needs something to help flavor and season.

Chicken boiled alone makes excellent broth, but fowl and game must have the assistance of some other meat, vegetable or herb.

For beef stock—which is most generally used—select a good fresh shin bone, having the bones thoroughly cracked. Put in a granite lined, tight covered, soup kettle, with more than enough cold water to cover it. Simmer slowly for several hours in order that the essence of the meat may be drawn out thoroughly. Skim off the scum frequently to prevent it from becoming turbid. Should more water be needed at any time take from a boiling tea kettle. When the meat falls from the bones, it is cooked enough for ordinary soups and sauces. Remove from the fire, strain through a colander. If needed for bouillon, strain through a damp flannel cloth. Set away to cool: When cold remove all grease from the top, and set away for future use.

For bouillon, take the very top of the stock jelly, re-heat, season and serve hot in bouillon cups.

For consomme, this same kind of stock can be used, with the addition of vegetables and herbs. When the vegetables are thoroughly cooked, strain through a fine hair sieve. Season to taste and serve hot, with little cooked rice, barley or vermicelli.

A clear soup must be perfectly transparent, a thickened soup about like cream.

BARLEY SOUP.

Cook slowly one cup barley three hours. Have soup stock hot, add barley, salt, pepper and butter just before serving.—
Mrs. Lloyd, Sedro Woolley, Wash.

ASPARAGUS CREAM SOUP.

Cook slowly one bundle asparagus in boiling salted water for thirty minutes. Take from water, cut off tips and put into soup tureen. Press pulp from stalks through a sieve. Scald three cups milk, add one cup white stock, or water in which asparagus was cooked. Mix three tablespoonfuls of corn starch with three tablespoonfuls butter in a saucepan over the fire, adding gradually portion of scalded milk to make very smooth. When thoroughly done, add remainder of milk and asparagus pulp. Season to taste with salt and pepper. Stir till boiling, then strain into the tureen.

VEGETABLES

Captivated by order of the kitchen.

Vegetables are the most useful accessory to our daily food and their cooking should receive attention. It is considered a simple thing to boil a pot of potatoes, yet their palatableness depend largely on the way it is done. Nearly all vegetables are much better put in boiling water, as the fine flavor is thus retained. Care should be taken not to overcook them, and should be served immediately. Potatoes should be pared very thin as the most nutritious part is next to the skin. Some vegetables, as onions, cabbage, carrots and turnips, should be cooked in a great deal of water and when done immediately drained.

A SUGGESTION AS TO VEGETABLES.

Not more than two kinds of vegetables should be served with a course. Lamb finds its appropriate accompaniment in potatoes, peas, spinach or asparagus. Roast mutton calls for salsify, spinach, turnip, cauliflower or potatoes. Roast goose demands onions creamed, prune or chestnut stuffing or souffles, Hubbard squash, and apple sauce, of course. Roast beef affiliates with carrots, cauliflower, onions, squash or string-beans. With fresh pork, apple sauce seems necessary.

STUFFED BELL PEPPERS.

Take six large bell peppers, cut off tops, remove seeds and fill with following: One cup hot boiled rice, three cups hamburger, one small onion, chopped and fried in butter. Mix, season and fill peppers, place in pan on ends, cover with tops, one slice bacon and pour over all one can tomatoes, bake one and one-half hours.—Mrs. Maude Jones, Williams, Ariz.

STUFFED BELL PEPPERS.

One onion chopped fine, two tablespoons butter, one-fourth cup boiled rice, one pound hamburger steak, one can tomatoes, one-fourth pound bacon sliced, one dozen peppers. Fry onion in the butter, add rice and hamburger steak and mix all together. Stuff peppers with this. Place in covered baking dish, pour tomatoes over them and lay slices of bacon on top. Bake in slow oven for three hours.—Mrs. Gadis, Williams, Ariz.

STUFFED PEPPERS.

One dozen peppers, take off the cap and seed. Scald, one-half cup of bread, soak and squeeze dry, one-half onion, one clove, garlic, one cup ham, three of the peppers (minced fine), one tablespoon butter, one teaspoon paprika, one-half teaspoon pepper, mix all together and stuff the peppers, pin on the caps and bake three-fourths of an hour in tomato sauce. Can vary the above by using one cup sliced boiled eggs.—Contributed, Saginaw, Mich.

BAKED STUFFED PEPPERS.

Remove the top and scrape the inside from the pepper. Fill with cold boiled rice and finely chopped boiled ham three-fourths full, moisten with butter just before baking. Add a lump of butter, a few cracker crumbs, pepper and salt. Bake and serve hot.

PARSNIPS.

Clean and peel medium sized parsnips, cook until tender in boiling water. Have skillet with hot butter and fry parsnips brown. Serve hot.—Mrs. Wm. F. Dermont, Williams, Ariz.

BAKED MASHED POTATOES.

Two cups cold mashed potatoes, two tablespoonfuls butter, two eggs, one cup sweet milk. Salt and pepper to taste. Melt the butter, heat the milk and stir both in the mashed potatoes. Add the eggs well beaten, salt and pepper. Put in a buttered baking dish, and bake in a hot oven until browned on top.—Mrs. A. Lebsch, Williams, Ariz.

STUFFED BAKED POTATOES.

Select even, good sized potatoes. Bake in moderately hot oven. Remove potato carefully from the shells, mash, season with butter, pepper and salt, two tablespoonfuls rich sweet cream and beaten egg. Place back in shells, brush beaten egg over top and set in the oven to heat and brown. Serve hot.—Mrs. Wm. F. Dermont, Williams, Ariz.

BAKED STUFFED POTATOES.

Select eight smooth potatoes of uniform size. Wash, pare and soak in cold water to cover one-half hour; drain, put in a dripping-pan and bake in a hot oven, turning frequently. Remove from oven, cut slice from top of each and scoop out the inside; then force through a potato ricer. Add three tablespoonfuls of butter, the yolks of two eggs, six tablespoonfuls of cream, one teaspoonful of salt, one-eighth of a teaspoonful of pepper and a few gratings of nutmeg. Set on range and beat two minutes, then add gradually the whites of two eggs beaten stiff. Refill shells and bake five to eight minutes in a very hot oven.

POTATOES EN CASSEROLE.

Cut French balls from pared, raw potatoes or slice one-fourth inch thick; then cut each slice in half. Put one-fourth cupful of butter in an earthen casserole and add the potatoes, dusting with a rounding teaspoonful of salt. Shake the casserole over the fire until each piece is coated with butter and salt; then add one and a half cupfuls of boiling water or clear soup stock. Cover the dish and set in a moderate oven. Occasionally lift the potatoes with a flat bladed knife or spatula that all may evenly cook. At the end of forty-five minutes they should be tender at which time add a half cupful of hot cream, a dusting of pepper and more of salt if necessary. There must not be too much liquid in the dish, just enough to have the potatoes moist.

SWEET POTATOES.

First boil one-half dozen, then peel, and put in pan to roast. Take two tablespoonfuls of butter, and one tablespoonful of sugar. Season with salt and pepper. Cook until brown in oven.—Mrs. J. W. Smith, Williams, Ariz.

SWEET POTATOES EN CASSEROLE.

Heat the casserole; then add one-fourth cupful grated maple sugar or if this is not convenient use dark brown sugar, and one-third cupful of butter. When the latter is melted, add pared and sliced, crosswise, sweet potatoes to cover the bottom of the dish; then dust with salt and add another layer of potatoes, having them rather loosely placed on the others. Pour over this half a cupful of boiling hot water, cover and set in the hot oven. Cover and fifteen minutes after cooking lift the lower layer to the top so the upper potatoes may cook in the syrup. When tender, serve.

BOSTON BROWN POTATOES.

Wash, dry and rub well with butter as many medium sized potatoes as desired. Bake. When soft, cut piece off flat side, scoop out potato, mash until very light. Place in shells and return to oven to brown. Do not replace piece you cut off side.—Mrs. R. S. Teeple, Holbrook, Ariz.

HASHED BROWN POTATOES.

To one quart of chopped potatoes try out one-half cup of salt pork, cut in dice, after it is brown and crisp add the potatoes. Put in frying pan and let brown on one side as for an omelet. Turn and serve hot.—Mrs. S. Babcock, Manistee, Mich.

POTATO ROLLS.

Mix one cup of flour, one cup cold mashed potatoes, three-fourths cup lard, two eggs well beaten, one-fourth cup sugar, one scant teaspoon salt, add one cup milk and one cake compound yeast in one-half cup warm water. Rise for an hour or two. Add five or six cups flour, make into a dough and rise again. Shape into rolls. Let rise and bake.—Mrs. K. W. Williams, Cynthiana, Ky.

POTATOES AU GRATIN.

Slice cold boiled potatoes, make a cream sauce of butter, flour, salt and pepper. When smooth add potatoes. Let heat through. Put into buttered individual dishes, fold in some chipped cheese. Bake ten minutes in moderate oven.—Mrs. Wm. McIntyre, Phoenix, Ariz.

POTATOES AU GRATIN.

Bake large potatoes; when done, cut in two lengthwise, remove the inside, mash and mix with butter, salt, a little cream and grated cheese. Put in the potato shells, cover with grated cheese and return to oven until brown.—Mrs. Lloyd, Sedro Woolley, Wash.

POTATO SOUFFLE WITH MEAT.

Boil four good sized potatoes, then pass them through a ricer. Add one-half cup sweet milk, tablespoon butter, pepper and salt and beat to a cream. Add the yolks of four eggs beaten thoroughly, then add the whites, which have been previously beaten to a stiff froth. Have ready a well-buttered bake dish, put into it half of the potato mixture, then add a layer of minced ham, then the remainder of the potato mixture.

Spread butter over the top and bake twenty minutes. Serve hot in the bake dish.—Mrs. Guss Dillman, San Francisco Peaks, Ariz.

SCALLOPED POTATOES.

(Irish potatoes.) Peel, slice and put in pan, cover with sweet milk, one tablespoonful of butter, add salt and pepper to taste. Put in oven and cover. Roast until done.—Mrs. J. W. Smith, Williams, Ariz.

SCALLOPED POTATOES.

On the bottom of bake dish put a layer of sliced—cooked or raw—potatoes, then very little seasoned cracker crumbs. Pour over this some milk in which one egg has been beaten and some small pieces of butter alternately, filling up the dish in this way. On the top put thin layer of moistened cracker crumbs. Bake twenty minutes to half an hour. Serve hot. Chopped green pepper adds to the flavor.—Mrs. Wm. F. Dermont, Williams, Ariz.

BOILED RICE.

Cook in double boiler with water enough to cover. When puffed up, add sweet milk and finish cooking. Served hot with cream, sugar and nutmeg sauce. If any should be left, use it next day in a pudding or in soup.—Mrs. Wm. F. Dermont, Williams, Ariz.

SPINACH.

Take three slices of bacon, put in kettle, let fry brown, put spinach into the hot kettle, one cup of water, or just enough to keep it from burning, cover tightly and let simmer until tender.—Mrs. Ed Du Boise, Terlock, Calif.

ITALIAN SPAGHETTI.

One-fourth pound bacon diced, one onion cut fine, one and one-half pounds hamburger steak, one-fourth pound spaghetti, one tablespoon chili, one can tomatoes. Fry bacon, add onion and fry until slightly browned, then add hamburger steak and fry until thoroughly cooked. Boil spaghetti and drain off all water. Mix all together and season to taste. Pour one can tomatoes over this. Bake in covered pan for two hours.—Mrs. Ritter, Williams, Ariz.

BRUSSEL SPROUTS.

As a vegetable, trimmed, thoroughly washed, thrown into boiling water and salt, and a small piece of common washing soda. Drain. Boil in a saucepan with the lid off about fifteen minutes, then turned through a colander and drain. Serve with butter sauce or mayonnaise.—Contributed.

HUBBARD SQUASH EN CASSEROLE.

Pare the vegetable, then cut into small cubes and place in a buttered casserole with quarter of a cupful of sugar, half tablespoonful of salt, cover and bake three hours or less if the vegetable is tender. When done add a tablespoonful of butter and return to the oven until melted; then whip with a fork until fine and light, adding enough hot cream to moisten. Serve in the casserole.

STUFFED SQUASH.

One cup raw chopped beef, one cup boiled rice, one large onion fried in butter until a light yellow, add beef and rice while hot, season to taste. Take yellow squash, peel and cut off top, take out and fill with dressing and cook until tender. Lay strips of bacon and tomatoes in pan with squash.—Mrs. J. S. Irwine, Williams, Ariz.

BAKED SQUASH.

Cut Hubbard squash into pieces large enough for each individual. Bake pieces in pan, season with pieces butter, pepper and salt. If any remains, make it into a pie for the next day.—Mrs. Dermont, Williams, Ariz.

STUFFED BAKED TOMATOES.

Select even, good sized tomatoes. Do not remove the skin. Stuff with seasoned bread crumbs, chopped cabbage, onion and celery, moistened with cream and beaten egg, pepper and salt. Bake about ten minutes or long enough to keep the tomato from falling. Serve hot on a lettuce leaf.—Miss Charlotte Wickstrom, Hartford, Conn.

FRIED TOMATOES.

Peel carefully nice, round tomatoes, cut in half and dip in corn meal. Fry until nicely browned in hot salad oil. Make a thickened milk gravy, and pour over them, arranging in dish from which they are to be served.—Mrs. J. M. Dennis, San Jose, Calif.

GREEN TOMATOES FRIED.

Select six large tomatoes, season with salt, pepper, slice pretty thick, dip in egg and crackers, fry over a quick fire until a light brown.—Mrs. J. F. Irwine, Williams, Ariz.

FRIED TOMATOES.

Slice ripe tomatoes. Roll in flour with one teaspoon sugar. Salt and pepper to taste. Fry in hot butter.—Mrs. M. I. Ern, Williams, Ariz.

TOMATOES FARCIA.

Remove the inside from six large tomatoes. Fill with two slices bread (soaked), some cold meat, a bit of garlic and a little onion, parsley, salt and pepper. Put through meat chopper, add one tablespoon each melted butter and olive oil, one well-beaten egg. Put in tomato shells. Cover with bread crumbs and bake one-half hour.—Miss Parker, Los Angeles, Calif.

TOMATOES AND ONIONS.

Four large onions sliced and boiled tender in as little water as possible. Peel and add to onions one can tomatoes, five green bell peppers sliced, season with salt, pepper, half teaspoon soda, butter size of an egg. Boil until all are tender and serve hot.—Mrs. Ed Du Boise, Turlock, Calif.

STEWED TOMATOES.

One quart can of tomatoes, two teaspoonfuls sugar, one-half pint of rich cream, butter the size of an egg. When cooked, pour over small squares of toasted bread.—Mrs. A. V. Wagner, Williams, Ariz.

JELLIED VEGETABLES.

Soak two level tablespoons gelatine in one-half cup cold water; add one-half cup of vinegar, juice of one lemon, one pint boiling water, one-half cup sugar and one teaspoon salt. Strain and when beginning to set add two cups celery cut in small pieces, one cup chopped cabbage, and one red pepper chopped. Turn into mould and chill. Other combinations are made with French peas, cucumbers, nuts, etc.—Mrs. C. F. Philbrook, Bisbee, Ariz.
