Soldier-Prospector Proposal is Ready For an Early Start

Hon. William Sloan Makes Announcement of Negotia tions Completed With Provincial Department of Industries.

An outline of proposals formulated jointly by the Provincial Departments of Mines and of Industries for the general encourage ment of prospecting for minerals in British Columbia and in par-ticular for the extension of aid to returned soldiers wishing to engage in that line of work was made public to-day by the Hon. Wm.

Briefly it is intended that twenty-five parties shall be put in the field, each of which will consist of two men, one a practical prospector of experience and the other a returned soldier. The parties will be grub-staked and the total number for which provision is being made will be divided among the six mineral survey districts of the Province in proportion to the population of each

turned soldiers to became prospectors.

In outline General Leckie's scheme was about as follows:

(a) To establish in cities "Prospecting Schools or Schools for Miners." where returned men could receive instruction in prospecting elementary mineralogy and geology.

(b) After successfully passing the "prospecting course" those men would be formed into groups of, say ten prospectors under charge of as more experienced leader, outfitted with all requisities, and sent to some district

WALTER A. WATSON PLEADS GUILTY

Admits in Los Angeles Court He Killed Nina L.

Los Angeles, May 6.—Walter Andrew Watson pleaded guilty in the Superior Court here to-day to a county grand jury indictment charging him with murder in the first degree for the killing of Nina Lee Deloney. Sentence was set for Monday at 10 o'clock. In the meantime Watson will be examined by two physicians to be named by the court, on his own initiative, to determine the man's mental competènce.

As forecasted, Watson pleaded guilty in the hope of escaping the

It was announced here recently by W. C. Doran, chief deputy prosecutor, that Watson would be given a sentence of life imprisonment if the district attorney's recommendation prevailed with the court, in condideration of his assistance in clearing up the involved facts relating to the disappearance of half a dozen women he had married, including five whom he is alleged to have admitted killing, and other facts relating to twenty or more bigamous marriages he related to the officials in his first confession a week ago.

Postcards. Postcards.

Edmonton, May 6.—With the personal property of James P. Watson left in Edmonton with his wife, Katherine Kruse Watson had several postcards addressed to her, all explaining his various absences. With but few exceptions these missives were couched in endearing terms, telling her that he would explain his absence on his return. He always addressed her as "Darling Sweetheart," and completed his notes with "Love and kisses from James,"

Early Operation.

The details in connection with organization will be placed in the hands of the Resident Mining Engineers of the Provincial Mineral Districts, and Mr. Sloan states that it is expected the scheme will become operative, at least in respect of preliminary preparations for the season's work, in the course of a few days.

Following is the complete memorandum referred to:

The general idea of such assistance is not new, it was proposed by the Canadian Mining Institute over a year ago, and the scheme as then outlined in the May, 1919 Bulletin, was to send out parties under a returned mining engineer, all of whom would be paid "a reasonable sakery or wage," together with expenses.

General Leckie's Plan. Effort to Keep Prices From James McGregor to Be Chief Falling Lower; Cheap In October, 1919, General R. G. E Leckie proposed a scheme which aimed, not so much at providing em-ployment for mining engineers an miners, but rather to educate re-turned soldiers to become prospect

SIBERIA BIG TASK

Washington, May 6.—Dr. Fridtjot
Nansen, the Norwegian explorer, probably will head the organiation to be set up by the League of Nations for the purpose of repatriating 200,000 Germans, Austrian and other war prisoners held in Russia.

Reports to be submitted to the League Council at Rome this month say that unless these men are rescued from their prison camps in Siberia before next Winter, few are likely to survive. They have been in captivity for five years.

Dr. Nansen was mentioned during the discussion in Paris last year of steps toward sending food relief to the captives. Word has reached Washington that he already has been asked if he would be willing to serve as the agent of the League in attempting the repatriation. He had considerable experience with food questions during the war, having headed the Norwegian mission sent to the United States in 1917 to negotiate for needed supplies for his own The question of aiding the war prisoners in Russia was referred to the League by the Supreme Economic. tiate for needed supplies for his own country.

The question of aiding the war prisoners in Russia was referred to the League by the Supreme Economic Council last February, on the theory that under Article 25 of the League covenant members already had pledged themselves to take interest in the "mitigation of suffering throughout the world."

Some Jugo-Slav and Czecho-Slovak troops are among the prisoners.

200 IN WINNIPEG JOIN ONE BIG UNION

Winnipeg. May 6.—Following a fighting speech by Red Joe Knight, in the course of which the Edmonton organizer of the One Big Union hit out right and left at the delegates of the Winnipeg Trades and Labor Council, the Trades Congress executive, the international unions generated. tive, the international unions generally and the American Federation of Labor, about 200 carpenters signed up members of the One Big Union here last night.

BODY WAS FOUND IN OIL TANK CAR

Pierre. S. D., May 6.—When a special train of empty oil tank cars arrived here yesterday on their return to the Wyoming oil fields, one of the cars which came from Haverly, Sask., Canada, was seen to be open. As it was being closed the body of a man was seen in the tank and removed. Papers found on the body, with a small amount of Canadian money and a railway switch key, would indicate his name to be Frank Kushurs, and Conde as the town, with no county or state.

MAYOR OF GUELPH DIED SUDDENLY

Guelph, Ont., May 6.—Mayor Richard E. Nelson, who was in business in this city for thirty-five years, Mayor of Guelph for two years and an alderman for ten years, died suddenly last night as he was about to retire for the night. He was a native of Preston, Lancaster. England, and was sixty-two years old. Canadian delegates will be:
Government — Sir George Perley,
High Commissioner in London; G. F.
Desbarats, Deputy Minister of the
Naval Service.
Employers — Thomas Robb, Montreal, Shipping Federation of Canada.

GERMANS ATTACK

Teuton Workmen Reported Actively Hostile Against

Poles in Oppeln

Berlin, May 5.—Via London, May 6.—German workmen yesterday besieged the homes of the Polish leaders at Oppeln, Silesia, and demanded the surrender of arms and the Polish White Eagle emblems, which they smashed, says a Breslau dispatch to The Vossische Zeitung. The workmen afterwards invaded the offices of The Gazeta Polske and demolished printing machines.

It was not only the Progressives who opposed the amendment, however. Member after member voiced his support of the principle of the recall, until finally, on the suggestion of Hon. Hugh Guthrie, in charge of the bill, Mr. Tweedie expressed himself as willing to withdraw the amendment.

CANDIDATES MAY

A Most Trying Time In A School Girl's Life

"Nothing is more common with physicians" writes Hon. Dr. W. H. Roberts, Minister of Health, New Brunswick, "than to find that during the few weeks preceding the closing of the school term, we are visited by mothers having with them their daughters who have been cramming for final examinations and in the majority of instances the story related is something like this-'Doctor! I have brought Mary to you to see if you cannot do something for her. You know she has been leading her class nearly all of the term; she is competing for the Governor-General's Medal, and we are so anxious that she be successful; but of late it is so hard for her to study, her head aches, she has no appetite, we cannot force her to partake of food, her bowels are constipated, she is so nervous, Doctor; she cannot get to sleep, sometimes for hours after she retires.'

'She is so white and frail looking. We also notice her twitching her face, eyelids and mouth a lot, and of late tossing her head to and fro and we are fearful, if something is not done, she will not hold out and we do, so much, want her to take the honours she has worked so hard for all winter.

"We take a look at the girl and find that in almost every particular the word picture of the mother quite correctly describes the condition found. We find she is truly very anaemic in appearance, tongue quite heavily coated, generally far below the average weight. We notice, too, the nervous symtoms spoken of by the mother, simulating a beginning chorea, or St. Vitus' dance. Upon examination of the heart, which she complains about as beating rapidly at times, there is revealed a functional murmur, and

complications, we have her see an oculist, who reports severe condition of astigmatism. At the same time, bear in mind, nature is doing her best to shapen and perfect her scheme of physical economy

Such remarkable results are being obtained by the use of Dr. Chase's Nerve Food, under conditions so well described by Dr. Roberts, that it becomes a duty as well as a pleasure to tell others about it

This letter from Mrs. Parks of 72 Picton St., Hamilton, Ont., is very very interesting in this connection. She writes:—"Five years ago my little girl was taken ill with St. Vitus' dance, and for four years we doctored her, trying several doctors and different remedies without curing her. She could not walk or get around at all, and we had to feed her, as she was unable to hold a spoon in her hand. Her tongue was affected so that we could scarcely understand her when she talked. One day a friend of mine who knew of the benefits of Dr. Chase's Nerve Food advised me to give my little girl some. I acted upon her advice, and soon could notice a difference. She was quieting down and commenced to eat better. I continued the treatment for some time, and she gradually got stronger and healthier. She recovered from her nervous trouble and was able to get around nicely. We are very grateful to Dr. Chase's Nerve Food for the cure it effected for our daughter."

Amendment to Franchise Bill Moved by Calgary M.P.

Defeated

Ottawa, May 6.—Declaring that an attempt had been made to make unrepresentative the representative parliament of Canada, T. M. Tweedie, Unionist member for Calgary West, moved an amendment to the disqualification clause of, the Franchise Bill which precipitated a lengthy and, at times, bitter debate in the Commons yesterday afternoon.

Mr. Tweedie's amendment was for the purpose of disqualifying any man from silting as a member in the House of Commons who signed any agreement, whether amounjing to resignation or recall, making himself subject to the will of a group of his electors. The amendment met with the most determined opposition from the members of the new Progressive Party, because it followed on a statement made some days ago by O. R. Gould, member for Assimboia, that he had behind him a committee of fifteen men who advised in the House, and could apply the recall if he should refuse to accept their advice.

It was not only the Progressives who opposed the amendment, however. Member after member voiced his support of the principle of the call, bill Mr. Tweedie's and support of the principle of the call juntif finally, on the suggestion of Hon. himself as willing to withdraw the amendment.

W. S. White, of Victoria, Alta., however, objected to the withdrawal of the amendment without the verdict of the House having been expressed through the medium of a vote, and the "Yeas" and "Nays" were called for. The call for the latter resulted in a roar of opposition to the amendment, which was declared defeated by the Deputy Speaker.

Later the House adopted an amendment giving the vote to Indians who served in the fighting forces, even though disfranchised as wards of the Government or by reason of tribal allegiances. Toronto, May 6.—Amendments to the Ontario Temperance Act, introduced by Hon. N. C. Nixon in the Legislature yesterday, reduce the minimum penalty to be imposed on persons having liquor illegally in their possession from \$200 to \$100. The maximum penalty which may be imposed under the act is increased, however, from \$1,000 to \$2,000. Either a fine or imprisonment may be imposed at the magistrate's discretion.

AGRICULTURAL EXPANSION.

years ago British Columbia ported foodstuffs equal in value to what it cent. and the value of imports had increased only stance, standing as the record with an import total of \$25,199,125. In 1915 the total production was valued at \$31,127,801 as against mports valued at \$16,434,970. The total production for the year ending December 31 last was nearly \$64,000,000, with final returns still to be accounted for, while the value of imported foodstuffs was \$22,734,150.

The figures made public by the Minister of Agriculture yesterday speak highly for the agriculture development of the Province. Obviously, British Columbia's importation of foodstuffs erated into a riot. Carbineers did their best to should be reduced and it is gratifying to note the progress which has been made in this respect without success. The crowd attacked them and during the last decade. From a condition in relieved them of their arms. A pitched battle enwhich we imported at the rate of dollar for dollar for what was produced the scale began to turn to the scene of action for the purpose of clearing in favor of the home effort until it reached a twoto-one standard in 1915. Now we produce three times as much as we import. Nor is the comparison weakened by the increased value of the various field products. This applies more to the imported article than to the home product, since freight charges, the tariff, and an adverse exchange situation assist in inflating the value of imported goods.

Moreover, additional statistics disclosed by the annual report of the Department of Agriculture indicate that the industry as a whole is making substantial progress. For instance, the area sown to grain in 1919 was 26,021 acres in excess of that of the previous year, while the fodder area last year exceeded that of 1918 by no less than 48,654 acres. In other branches of agriculture, also, there is cause for satisfaction. particular it should be noted that there are already in use in this Province as many as 372 farm tractors, an innovation still in its infancy as far as British Columbia is concerned. Sile construction similarly has gone ahead at a rapid rate. Less than six years ago there were fifteen in existence; to-day there are nearly one thousand silos in operation-a gratifying outlook for the gradually developing stock industry.

With these encouraging signs, however, British Columbia is still an infant from an agricultural point of view. Statistics on file at the Department indicate that there are no less than 22,618,000 acres of land in this Province suitable for agriculture, of which 2,800,000 acres only are occupied, while little more than 500,000 acres are under cultivation. It will be seen, therefore, that British Columbia has sufficient of her rural heritage ready for development which eventually must place her in an enviable position in wealth

DOMINIONS' REPRESENTATIVES.

A cable dispatch to The Montreal Star quotes officials of the British Foreign Office as being favorable to the appointment by Canada, Australia, New Zealand and South Africa of diplomatic representatives at Washington "with the fullest freedom in conducting their international tariff, customs, boundaries and immigration affairs." The Dominions already possess entire control over these matters and, as a matter of fact, they do their own negotiating with foreign fact, they do their own negotiating with foreign control over these matters and, as a matter of fact, they do their own negotiating with foreign control over these matters and, as a matter of fact, they do their own negotiating with foreign fact, they do their own negotiating with foreign control over these matters and, as a matter of fact, they do their own negotiating with foreign control over these matters and, as a matter of fact, they do their own negotiating with foreign fact, they do their own negotiating with foreign control over these matters and, as a matter of fact, they do their own negotiating with origing them, although where treaties are involved they must operate, of course, through the British Embassy. In some quarters considerable scepticism has been expressed over the prospects of the British Government agreeing to representation at Washington by the Dominion which would amount to anything more than a minor appendage of the British Embassy; but in view of the prominence the Dominions have attained in the eyes of the world in recent years their representatives at Washington, no matter how they might be designated, would have a special standing and prestige of their own and nowhere is this more fully realized than at the Exercise Office in London.

The strictly legitimate expenses in a campaign over which case the Government might offer to pay a portion only of such transportation to the nexterineed prospector the sam that the experienced prospector the sam that trate even the cost of overalls would be prohibitive. In the face of these prices it is hardly necessary to contend that the average German is not very greatly interested in international politics just now.

THAT MESSAGE.

If eighty members of the British House of commons desired to emulate the bad manners — to put it mildly—of the corresponding number of Congressmen who sent a message to Mr. Lloyd George protesting against the treatment of person constituency was financed without any they could retort in kind with messages to Washington on certain aspects of American domestic affairs which might well serve .s a basis for it. But they will not do this, firstly, because they know such a course would be unworthy of them and the positions they occupy; secondly, because they they are aware that the Congressmen's action is largely a political manoeuvre in anticipation of the approaching election, and that it is the misfortance of politicians of that type in the republic that they are not conscious that everybody else's business is not their own while they are in the circumstance of a construction of our neighbor's public to put the party thus favored under an obligation of offences in Ireland, they could be turned to good account. Under this system the average constituency was financed without any treat demand being made upon the individual electors. If the candidate weathy he would be expected to pay most of the shot himself; but, failing this, the central office assumed the responsibility of supplying the neather that might be tasked:

"The following is a tentative proposed as sto disposal of any claims taked by such prosposal as to disposal of any claims." The collivoing shall the amount of the two partners, and be so recorded in the two partners, and be so recor Commons desired to emulate the bad manners

THEIR NEW VENTURE.

The abolition of the pilotage system which has prevailed on the Canadian Pacific coast for a considerable number of years has been followed by the formation of the British Columbia Pilotage Association, comprising the pilots who operated in the former service and who in consequence of the Government's action were left without positions. There are some seventeen of them in the new organization; they are all well known as able, experienced navigators, and all of them have resided on this coast for a long time. It may be assumed that they will receive a generous measure of patronage from the shipping companies and that their association will flourish. Most of them will be stationed here, as Victoria is the key to produced. Five years later home production had the pilotage situation on the British Columbia a little more than one hundred per coast for quite obvious reasons. The success of the new venture of the pilots seems a little more than six and one-half per cent., al- to be assured—an assurance which means, too, though in the two previous years importation the adequate protection of life and property on reached a higher level, the year 1914, for inthe seas covered by their activities.

NOTE AND COMMENT

Fortunately for Canada it does not require two thousand members of the militia force to 'ring down the curtain' upon the average football game. In Italy soccer exponents take a more serious view of this essentially British pastime. A friendly game between the rival teams of the production must be stimulated in order that cities of Lucca and Viareggio Tuesday degenasasist the referee in his efforts to establish order sued and two thousand soldiers were dispatched the atmosphere. There is no danger, of course, to the Victoria baseball season in this Italian precedent. Neither the National Guard nor the Canadian militia will be required to assist the umpire

The strictly legitimate expenses in a campaign over so large an area as an average rural Dominion constituency, run into a substantial sum of money. The money has to come from somewhere; and if the origin and intention of the money is corrupt the election is corrupt even though not a dollar is spent in the constituency for other than legitimate purposes. In the past the regular parties have financed their campaigns by means of huge central funds, made up in the main of large individual contributions, derived in many cases from corporations or individuals who thought it a good investigation of the party that forced under an obligation.

medus Operandi.

The Government was expected to supply the men during schooling etc., with a "good living." The proceeds of any sales would be divided first fifty recent, to the Government then, after deducting all expenses the remaining fifty per cent. would be divided among the men. Whill both these schemes mentioned me with the general sympathy of the Minister of Mines, neither of them seemed to be sufficiently practicably or directly to the point to meet with his unqualified endorsement. The present need, he considers, is to more prospectors in the hills, and the kind of training prospectors need, required to more nearly approach practical working conditions. "Prospectors in real life," he says, "do not gout in parties of ten under the control of any person, they are a verindependent lot of men; the independence of the life is its very chart to them; are used to act on the own judgment, and ready to stan the consequence for better or fowers. They go out separately or i pairs, seldom more than partners."

THE BAKERS' STRIKE.

The Bakers' Strike.

To the Editor:—In regard to the bakers' strike, I think wrong statements are being made on both sides. I know this that I never have drawn the money which was stated in the paper—all I had was \$4.80 a day. The union is all right if it is run on proper lines, but when you see the bakers' pamphlet issued monthly, you will find nothing but German names in all the high positions? Why do the men not have one of their own in Victoria and not be ruled by the States all the time?—Another thing: monthly dues are all the time being raised just to keep a few men in the States in good positions. I think one of the highest dues paid is in Victoria.

Victoria, B. C., May 5, 1920.

S. O. S.

S. O. S.

To the Editor:—Every man for himself and God for us all. Twenty iongshoremen caused 12,000 tons of raw sugar to be diverted to other ports. Had an "S.O.S." been sent out 200 helpers would have saved a serious shortage and prevented sickness in helpless children, and hundreds of tons of fruit being wasted. Thirty-six journeymen bakers will cause a rise in the price of bread, make helpless children's "breadbaskets" lighter, when an "S.O.S." will procure willing helpers to save a serious situation. I visited one of Victoria's large bakeries and remarked that the work was more suitable for young girls than strong, brawny men, whose energies would be better placed in lumber camps, or producing the wheat for the bakeries. I saw men rolling pleces of dough in flour and placing it on bake tins, a job any girl could do for 2 or 3 dollars a day. The delivery of this could also be done by women or by contract to stores only and save thousands of dollars. Coal is going up, but there we are stuck, for no one wants to go into a mine even at \$20 a day and if the price is \$20 a ton we shall have to grin and bear it. W. J. DANDRIDGE

THE CHIEF LIBRARIAN'S CASE.

To the Editor:—The principal plaint of the civic employees in their demands for more salary or other concessions appears to be that neighboring cities pay more for similar help. According to The Times of recent date the Chief Librarian of the public library is the latest addition to the ranks of the dissatisfied. This civic employee does not ask for more money, but its equivalent; time for other duties.

civic employee does not ask for more money, but its equivalent; time for other duties.

It would be poor policy, indeed, to permit any mixing of civic interests with outside enterprises. We had better, if needs be, pay more money but have the whole mind and attention of our employees on the city's work. Especially so in the case of such an important branch as the public library. Moreover, the leeway this would allow an employee to neglect the city's affairs if the other interest had greater attraction is apparent. And the suggestion that the Chief Librarian will resign if this concession is not granted indicates a preference on her part that rather gives the city second place.

The salary of \$175 per month is a fairly decent remuneration. It is more than is paid to a first-class school teacher, and equal to if not more than, the City Treasurer's. The duties of Chief Librarian may be more stronuous than some of us think, still the amount of monthly stipend appears justly sufficient to warrant full time on the joo.

GIRLS' CLUB LOSES EFFICIENT MATRON

Mrs. Cockram Resigns After 71/2 Months' Efficient Service

The Girls' Club, Fort Street, has est its efficient matron, Mrs. Cock ram, who has resigned that post but will retain a position on the committee of management. During her even and a half months in the club Mrs. Cockram has proved most capable and efficient in her duties, bringing to her work a motherly sympath; and understanding which has en deared her to the hearts of the gir and understanding which has endeared her to the hearts of the girl inmates, and many a girl has gone out into the world strengthened and inspired to start life anew as the results of her wise counsel and broad sympathy. Mrs. Cockram has been succeeded in the post by Mrs. Curry. On the eve of her departure from the club, Mrs. Cockram received from Miss Crease, president of the Local Council of Women, and the members of the committee of management, the following letter of appreciation:
"Dear Mrs. Cockram,

The Girls' Club, which was founded by the Local Council of Women with a view to helping and housing those girls who, often through no fault of their own, were homeless or unable to support themselves, has been having a hard struggle owing to the ever-rising cost of living. The club is dependent upon contributions from the various local organizations and voluntary domations for its sup-

than a mere pittance, in which case she is unable to contribute anything towards the cost of her support. The value of the club as a means of saving many a girl from potential harm is immeasurable, for the inmates, while enjoying the shelter and comfort of a real home are taught the lesson of self-relance and self-respect. The Girls' Club is carrying on a work worthy of support by the general public and the philanthropically inclined.

"Never mind, try again!" invited Sammie, going faster and faster, Uncle Wiggly struck out again and this time his right paw slipped and he fell into the basket of clean clothes. So he wasn't much hurt.

"I don't believe I'm as good a roller skater as I used to be, Sammie," said Uncle Wiggly.

"Oh, try once more," begged the boy rabbit. And Uncle Wiggly did. But this time both his paws slipped and down he went ker-smasho-bango in the middle of the floor, rattling every dish in the pantry.

And just then the door opened and in came Mrs. Littletail, the rabbit lady.

"Oh dear me, Uncle Wiggly!" she cried, as she saw him sitting in the middle of her floor looking queer, "Are you til?"

"No," answered Mr. Longears as he got up and took off the spool roller skates. "My rheumatism was bothering me but it's all better now. I guess I won't have to go to Dr. Possum's."

"Well, I'm glad of that," spoke Sammie's mother. Then she made Uncle Wiggly a cup of tea and after that he bought Nurse Jane the red ribben for the dish pan. A big crowd of dancers, including veterans of both services, thoroughly enjoyed the dance held at the Criterion last evening under the auspices of the Women's Auxiliary to the Army and Navy Veterans' Association, Victoria branch. The affair had the patronage of Brigadier-General R. P. Clark, D. S. O. Attractive features of the affair included a graceful exhibition of the latest dances by Professor and Mrs. Leon B. Helman, and vocal numbers by Miss Watson, Much of the Success attending the event was due to the efforts of the following committee, headed by the president, Mrs. Richdale; Mrs. Chapman, vice-president; Mrs. Lowery and Mrs. Johnson, assisted at every turn by Messrs. Glazen and Watson, to whose generosity the auxiliary was indebted for the use of the cabaret.

Mrs. James Rae, of Rithet Street, left Victoria on Friday afternoon en route to Boston and other Eastern cities, where she intends to stay for the next three months. She was accompanied as far as Vancouver by her daughter, Mrs. G. W. McMullen, of Sidney. After more than three years service as Clerk and Stenographer in the Legislative Counsel's Branch of the Attorney-General's Office, Miss Nora Grist terminated her duties at the Parliament Bulldings on April 30, with a view to her approaching marriage. An informal tea was participated in by the department staff in honor of the bride elect who herself acted as hostess, and received the hearty well wishes of her fellow workers for her future happiness. A handsome dining-room clock, donated by members of the Attorney-General's staff has been presented to Miss Grist in recognition of her services, and as a token of the esteem in which she was held during her term of service. Mr. and Mrs. J. Macdonald Fehey and Mrs. A. J. Gibson left on this afternoon's boat for Vancouver, where Mrs. Fahey will give a recital at Wesley Church to-morrow evening. Mrs. Gibson will officiate as accompanist:

Conspicuous success attended the military five hundred drive held at the Jubilee Nurses' Home last evening under the auspices of the Dr. O. M. Jones Chapter, I. O. D. E. Thirty-eight tables were engaged in play and the event realized the splendid sum of \$68.50 for the Chapter's funds. The visitors were Welcomed on arrival by Mrs. W. M. Under the auspices of the San Souci Club a delightful dance was held at the Empress Hotel on Tuesday evening. A large crowd representative of the younger social set danced till 2 a. m. to the strains of excellent music furnished by Professor Lou Turner's orchestra, the presence of a saxaphone adding the touch of "jazz" to the programme. A delicious buffet supper was served at 11 o'clock. Much credit for the success of the affair is due to the following committee: The Misses Lesley Galliher, Jean Tolmie, Kitty Fraser, M. and L. McEachern and Messrs. R. Harvey, J. Gray, D. Taylor and "Buster" Armbrister. Mrs. J. S. Harvey, Mrs. Gray and Mrs. J. J. Galliher officiated as chaperones.

A very successful dance was given in the High School gymnasium, under the auspices of the "Portia," the Girls' Debating Society of the Victoria High School, on Friday afternoon last. It was well attended by the students, numbering somewhat over two hundred, while the teachers also showed a keen interest. The High School orchestra, under the direction of Mr. Whittemore, was in attendance, and dance music was also rendered by Mrs. Richards and the Misses Hall, Watson, Curtis and Bell. Over \$33 was realized, and the purchase of a picture to be presented to the High School by the "Portia" Society.

Complimentary to Mr. and Mrs. Henry Abbott, a delightful surprise party was held last night at the home of Mr. and Mrs. J. B. Reuter, 26 Howe Street. Twenty guests were assembled shortly after eight o'clock to welcome the "surprised" couple, and the evening passed all too quickly with music, songs and dancing. The reception rooms were charmingly arranged with Spring flowers. At eleven o'clock a delicious supper was served and the

Before breaking up, the meeting recorded its warm thanks to the addies of the church for the delicious luncheon which they had provided, and to the Rotarian rector, Rev. F. A. P. Chadwick.

Assistant Sanitary Inspector Busy.

Assistant Sanitary Inspector Mackenzie inspected the Rennie & Taylor factory last night where all the bread put out by the "big three" is made. He reported to the civic authorities to-day that everything in connection with the bakery is just as clean as when union men were employed. The output from this one bakery working twenty-four hours yesterday was 19,000 loaves, Mr. Mackenzie reported to the authorities. To make sure that the public health is being protected, in the struggle of the master bakers to meet the bread demand, he followed the making of the bread right through from the start until it was put in the wagons for the wholesalers. One shift, while Mr. Mackenzie was inspecting the factory produced 6,700 loaves.

Laughs aplenty are promised in "What's Your Husband Doing?" the new picture in which Doris May and Douglas MacLean will entertain the patrons of the Dominion Theatre all week. It was adapted from George V. Hobart's well known stage farce of the same name.

"The next time I take Harry Pollard out in society I hope, somebody shoots me before breakfast," declared the inimitable Pathe comedian, Harold Lloyd, whose latest rib-tickler is entitled "Capt. Kidd's Kids."

Pollard, otherwise known as "Snub," and Lloyd's trusty side-partner in mirth in "Capt. Kidd's Kids," accompanied Lloyd to a select musicale given at the home of one of the "first families" in Los Angeles.

A long-haired artist sat at the piano and hammered his way through a long programme of classical music. Loud applause followed his efforts.

How Stomachs Can Be Restored

How Stomachs Can Be Restored to a Vigorous, Healthy Condition

Not to be limited in diet, but to eat whatever he pleases is the dream of every dyspeptic. No one can honestly promise to restore any stomach to this happy condition, because all people cannot eat the same things with equally satisfactory results. It is literally true that "what is one man's food is another man's poison." But it is possible to so tone up the digestive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there

But it is possible to so tone up the diseavive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion without rich, red blood is unpossible, and Dr. Williams' Pink Pills of fer the very best way to build up and enrich the blood. Foor this reason these pills are especially good in stomach trouble attended by thin blood, and in attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in even the most obstinate cases of stomach trouble is given by Mrs. S. Morrison, Varney Ont., who says: "I shall always feel indebted to a friend who advised me to use Dr. Williams' Pink Pills. I had been a sufferer for upwards of twelve years with stomach trouble which resulted in a general weakness of the whole system. My meals always caused me great discomfort, and at times I would go hungry rather than undergo the suffering which followed meals. I was constantly taking something or other recommended for the trouble, but without finding a cure, and often the trouble kept me in bed when I should have been about doing my housework. My friend, who had had a similar attack came to see me and began taking them, and soon found relief. By the time I had used eight boxes I was again enjoying the best of health, and with a good appetite and a stomach restored to normal. Had I known of this medicine earlier it would have saved me years of suffering, and I urge any who may be in a similar condition to try these pills at onee."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.56 from The Dr. Williams' Medicine Co., Brockville, Ont.

TO HOLD INQUEST ON FERGUSON CASE

An inquest over the body of R. C. Ferguson, who committed suicide in a room in the Windsor Hotel Tuesday night, will be held to-morrow. Immediately following the investigation the body will be shipped to Ferguson's home in Edmonton.

Investigations conducted into the case yesterday afternoon failed to reveal any motive for the suicide. However, a post office guide, on which Ferguson wrote a lengthy letter to the police apparently just beforetaking his life, threw some light on the tragedy. The most striking sentence of this document read: "To all whom I kave given trouble, to all whom I have wronged, I say that I am repentent, and I beg forgiveness. My greatest wrong-doing I thought to make right, but I failed."

He asked, moreover, that a telegram be sent to his wife in Edmonton immediately in order that she might not be shocked to read of his death in the evening papers. He requested, too, that the Victoria papers

Decision on the King case has been
delayed for some days, the defence
having asked that accused be allowed out on suspended sentence. In
delivering his verdict this morning
the Magistrate observed, "I have
given a good deal of consideration to
this matter and have looked at it
from all points. Your counsel has
urged that leniency be extended to
you on the ground that this is your
first offense, and that you are a married man."

TO HOLD FINAL DANCE.

The Margaret Rocke Robertson Chapter, I. O. D. E., has completed arrangements for the final dance of the season to be held to-morrow night at Alexandra Club, and the energetic committees, headed by Miss Johnson, have left nothing undone to make the event a most successful. The hall has been tastfully decorated by a committee under Miss Cessford. Miss Hastie has charge of the programme. The supper arrangements are in the hands of a well-known caterer. Ozard's orchestra will supply the music. The young ladies of the chapter have been most busile engaged in their preparations, and look for a larger success than at any of their popular dances. The proceeds are to be devoted to the general patriotic and hospital wark carried on by the chapter.

Crowd at Tacoma Was Too Much For Caps to Beat

Harry Morton Was Neryous at Start and Walked Five Men During Game; Little Hitting and Errorless Ball Featuring Opening Game; Church Saved Victoria From Shut-Out.

Tacoma, 5; Victoria, 1.

When one calmly considers what the Victoria ball team had to face in Tacoma yesterday afternoon there is little wonder that they were suffering from a slight attack of the "nerves," and lost out in the opening affair. The presence of the Governor of the state, four mayors and 9,328 people who paid their way in, besides many others who got a chance to do their shouting for nothing, was enough to make the Capitals unsteady and it is a wonder they did Tacoma y not chuck the ball all over the lot. Despite the great avalanche of discouragement which struck the local players from the grandstand, bleachers and fences, Bill Leard's crew stood their ground and fought hard for the game, but they were just "jazzed" out of it by a mighty happy throng.

Fans Went After Morton.

Harry Morton was assigned the task of hurling Victoria to victory, but the strike-out king found the road very rocky. He was visibly nervous in the first innings and the multitude took every opportunity to remind him of his condition. Harry could not get his shoots to break over the plate and this got him into trouble in the -first innings. He walked a couple of men and a hot drive sent them pattering across the plate. After that Morton steadled down and pitched fine ball, although he was worked for another run in the third and one in the sixth and seventh. Morton only yielded five hits but they came at opportune times. Fans Went After Morton.

Killeen Was Effective-

Victoria was unable to do much with the offering of Killeen. He had a fast breaking ball and the Caps could do no better than bang his shoots back at the infielders for easy outs. Victoria was saved from a shut-out by a rally in the ninth innings. Goldie drew a pass and Jimmie Church cracked out his second hit of the day, which went for a double. Gomes, the Tacoma centrefielder, was slow in fielding the drive and Goldie legged it all the way home from first.

Morton showed that he still knows

Distinguished British Golfers to Try Their Luck

Boston, May 6.—The best news that golfers in this country have heard this Spring has emanated from the Belmont Spring Country Club. Francis Ouimet, amateur extraordinary, youngster almost without equal, who in 1913 at the Country Club of Brookline had the audacity to defeat Harry Vardon and Ted Ray of England in the extra-round play-off for the national open title, is to meet the great British pair again. Yukon Gold

The Yukon Gold Mining Company passed all its dividends during 1919.

The company earned \$508,890, but had a deficit of \$1,108,684. Forty per cent. of the earnings came from the Dawson properties. Altogether this company has disbursed \$9,858,110 in dividends. Last year the company did considerable exploration work for placer tin mining in the Malay States, and enough ground for two dredges already has been proved. Two dredges and steam plant are on the way to the property.

New Pilotage Body Takes Charge To-day

Compulsory Pilotage Abolished But British Columbia Pilotage Association Continues to Maintain Service Without a Break.

To-day marks the passing of the Government control over pilotage in British Columbia waters. The Order-in-Council abolish-ng compulsory pilotage becomes immediately effective but with the independent organization known as the British Columbia Pilotage Association complete and embracing all the pilots formerly serving under the jurisdiction of the Federal authorities the change will not be marked by any break in the pilotage service. The independent pilotage organization has notified all the

The independent pilotage organization has notified all the shipping companies that the services of its members will continue to be available for the navigation of shipping between the William Head quarantine station and the ports of Victoria and Vancouver, as well as to and from Island and northern British Columbia ports.

There is no indication at the present time that the larger shipping companies have any intention of departing from the old order of things.

The first steamship to enter this port since the abolishment of compulsory pilotage will be the Canadian Pacific Ocean Services liner Empress of Asia, which is due to arrive from Vancouver to-morrow morning on her outward voyage to the Par East.

The Empress of Asia will be brought here from the mainland port by either Captain Robarts of Captain Batchelor, it being the custom of the larger ships.

The Osaka Shosen Kaisha agents, it is understood, have also applied for the services of one of the local pilots to bring the Japanese liner Arabia Maru in from the quarantine station.

The Arabia Maru is due to reach here to-morrow from the Orient.

Says Boosters' Club

If it is possible to obtain a steamer to make the trip the excursion from Tacoma to Victoria for May 24 will be arranged according to word brought home by members of the Boosters' Club who returned from the Sound this morning. The people in Tacoma were very enthusiastic over the prospective trip and if the boat is secured it is anticipated that at least 1,200 people will come here. An effort is now being made to induce the Puget Sound Navigation Company to place one of its larger steamers at the disposal of Tacomans for the day.

Fine Brand of Ball.

The members of the Boosters' Club attended the opening game of the Pacific International League at Tacoma yesterday and were greatly impressed by the brand of ball played. Victoria lost, but the game was worth going a long way to see, they said.

Jack O'Brien, president of the Capital City Baseball Company, and a prominent local Rotarian, remained over in Tacoma and at noon to-day addressed the Rotarian Club in that city. He is losing no chance of advertising Victoria and advising the Sound people to come here on Empire Day and witness the Hudson's Bay Company's pageant.

Otherwise Council Will Sign Contract With B. C. Electric Forthwith

Up to the present time the coastwise steamship companies have not been seriously inconvenienced through the seamen's strike, which is now in its incipient stages.

While the operators are not aware that any definite strike order has been issued by the Seamen's Union of the Pacific, the deck crews and firemen of some vessels have served the usual forty-eight hours' notice preparatory to walking ashore.

In the case of the steamship Princess Royal, of the C. P. B. fleet, the deck crew has withdrawn its notice and are standing by for duty.

The deck crew and firemen of the steamship Princess Charlotte have served the customary notice, which expires on the arrival of the vessels here to-morrow. Following the lead of the men on the Princess Beatrice the firemen of the Princess Patricia and Island Princess, through delegates chosen among themselves, have signed an agreement with the company by which-important concessions have been conceded to the men.

The Agreement.

The Agreement.

The Agreement which has been entered into between the British Columbia Coast Steamship Company (C. P. R.), and a large percentage of their employees, is as follows:

Effective May 1, 1920, terminating February 1, 1921, or with sixty days' notice from either party:

Double winchmen, quartermasters, night watchmen, car a barges' and tuge to a carried on boats already carrying deckhands, donkeymen "W. W. Case,"

Watch System.

In discussing the company's position Captain Troup referred to demand that a by-law be signified on the conceded to the men.

SCIENCE PROVES THE

BLEEDING GUMS

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhea germs which breed in pockets about the teeth.

Thudson's Bay Company 250 Anniversary

STATESMANSHIP

BY

SIR WILLIAM SCHOOLING, K.B.E.,

Author of

"The Hudson's Bay Company, 1670-1920."

PRINCE RUPERT, the first Governor of the Hudson's Bay Company, was the dominant figure on the Royalist side in the Civil War and later rendered brilliant service as an Admiral of the Fleet. The second Governor became King of England, and the third was to be famous as the first Duke of Marlborough, the greatest General of his age.

Men of such prominence were not always available, but through a large part of the history of the Company the men in control have been accustomed to dealing with affairs of great moment and there has developed at Hudson's Bay House a tradition of statesmanship and largeness of outlook.

This has been especially conspicuous in recent years. From 1868 to 1880 the three Governors—the Earls of Kimberley and Iddisleigh and Mr. G. J. Goschen—were Cabinet Ministers and statesmen of high standing. For twenty-five years the Governor was Lord Strathcona, who entered the service of the Company as a junior clerk.

Today the Company is proud of a Governor who rendered National Service of the first importance during the Great War and who combines large experience and ripe judgment with a statesman's breadth of vision. The high traditions that have meant so much in the past are fully maintained.

Provincial Bureaus Show Results Accomplished For April

PLACEMENTS INCREASE TWO HUNDRED WEEKLY

Taking the Province of British Columbia as a whole, a more healthy condition of things industrially would appear to be reflected in the returns made by the Employment Bureaus of the Provincial Government for the month of April. In most departments of trade the month was a period of expansion, and the placements in employment made by the Bureaus show an increase of about 200 per week, as compared with the previous month, the figures for which were up to that time the highest on record.

quests for men for work up-country. In the seven Bureaus in the Interior there were on May 1 only ninety-three unplaced applicants, and no less than 611 vacancies to be filled.

Shipyard Prospects.

Shipyard Prospects.

The very large proportion of applicants listed in Victoria is explained by the fact that many men have registered there in the expectation of being employed in the Cholberg shipyard, which will probably require some hundreds of men in the nearfuture. It is very doubtful, the Department of Labor considers, whether this shipyard, even when working at its fullest capacity, will absorb the number of men already registered; and this, it is declared, should be borne in mind by any man who, in the hope of finding shipyard employment, may be inclined to pass over an opportunity of obtaining work elsewhere.

At Nelson an increase is noted in orders for laborers, due to the starting of some of the saw-mills, and for bush men for the camps, there being few men in sight at present; while there is a considerable amount of building in sight if labor conditions prove favorable.

From Grand Forks comes the statement that one hundred men or more can find employment at good wages, in the mines, saw-mills, in the woods, in the orchards and on the farms.

Of the seventy-two vacancies registered at Vernon, sixty are for laborers, and difficulty is reported in filling orders from the farmers.

REAL ESTATE MEN. **AGAINST LAKE SALE**

Protesting Council's Action, They Appoint Investigating Committee

After protesting vigorously against the City Council's plan to sell its Elk Lake watershed area, the Victoria Real Estate Exchange yesterday appointed the following committee to investigate the whole matter and see exactly what the Mayor and aldermen were going to do: E. C. Bridgman, J. O. Dunford, A. H. Harman, together with the president, Alfred Carmichael.

The feature of the Exchange's luncheon yesterday was an address on the subject of the proposed Elk Lake sale by J. Keith Wilson. The meeting appeared to be unanimous in its support of Mr. Wilson's contention that the property should be preserved by the city and maintained as some sort of public asset. "Here should be one of the finest Summer-Winter resorts on the Pacific Coast," Mr. Wilson declared, pointing to a map of Elk Lake, about which, he said, a most beautiful park existed unexcelled anywhere.

"What could the city gain by selling this piece of most valuable land at this time" he asked. "What they should do would be to protect that land and water value so that it shall be worth something to the whole of Sanich peninsula. If the athletic organizations of the city had the enterprise, I am sure they would jump in and secure the advantages of the city's development on the lower end of Beaver Lake. We have got to look ahead a few years. It will be worth a lot of money to the people of this vicinity to have such a park area. No fancy artist is needed to lay it out, either, nature has provided everything and the city has already done the rest."

During the subsequent discussion Beaumont Boggs informed the meeting that the Elk Lake area had been pronounced by experts as ideal for the site of an aerodrome. It would not be many years, he announced, before Vancouver Island would be the jumping-off place for many Pacific air lines, and the possibilities of the area in this connection were extremely wide.

LEADING IRONMASTER WILL ARRIVE SOON

Sir John Randles, M. P., Is Due Here Next Week on Tour

Prominent in business and political circles in the Old Country, Sir John Randles is due to arrive here with Lady Randles on Wednesday, when the Katori Maru will berth from the

the Katori Maru will berth from the Orient.

Sir John Randles has been chiefly known in the iron and steel trades in the British Isles, and is Chairman of the Workington Iron and Steel Company, Ltd., which is an amalgamation of the various iron trades in the county of Cumberland. He is Chairman of the Workington Dock and Harbor Board, and director of two railways in Cumberland and Westmoreland.

Sir John is a Lincolnshire man who went into the iron trade early in life, and has now taken a leading place. He entered Parliament for the Cockermouth division in 1900, and sat until he was defeated in 1906. A bye-election took place that year when he was again returned, and sat until the dissolution of 1910. Of late he has been Unionist member for North West Manchester.

The visitor will make a brief stay in Victoria.

DEBATE COMPULSORY PRACTICAL STUDIES

Whether or not the teaching of domestic science, manual training, and agriculture should be compulsory in Canadian schools, was the subject of a most interesting debate between representatives of the Portia, or Girls Debating Society of the School, and the Science and Agriculture Club, held in the High School Auditorium yesterday afternoon.

Miss Ethelwyn Dee and Miss Alice Aldridge, of the Portia Society, defended the affirmative, and Miss Blanche May and Miss Irul Deakin, of the Science Club, upheld the negative. These young ladies displayed a thorough grasp of their subject and very considerable ability as public speakers. The judges, P. C. Coates and Miss E. Davis, rendered their decision in favor of the affirmative. Miss Hastings, President of the Portia Society, occupied the chair and, with the secretary, Miss Watson, supervised the arrangements for the most successful meeting.

About 1,000 people have visited the Provincial Arts Institute loan exhi-bition, now on view at the Provincial

The exhibition, which is held in one of the new rooms of the Provincial Library.

The exhibition, which is held in one of the new rooms of the Provincial Library, will be open until the 25th inst. from 9 a. m. to 5 p. m. on week days, and from 2.30 to 5 p. m. on Sundays, and on Mondays, Wednesdays and Saturdays from 8 to 10, p. m. Arrangements are being made for lectures illustrated with lantern sildes on pictures, china and lace.

The general appearance of the room is greatly enhanced by the beautiful cabinets in which most of the china is displayed. These cabinets, which have been lent by Mrs. Murdock, include specimens of Chippendale, Sheraton and other old English makers, and there is one of old Dutch Marqueterie, which, with its contents of splendid Crown Derby china, is a magnificent sight.
